The County recognizes the vulnerability of its citizens to damage, injury and loss of life and property resulting from disasters. Such disasters require 24/7 responses from the County's emergency responders, County employees, various elected officials and appointed officials. Removing debris in a timely and efficient manner is crucial to the disaster recovery effort for not only the citizens, but the County employees and Emergency Responders.

The Debris Monitoring contract will encompass the entire area of Williamson County. The County's disaster recovery planning includes considerations for removing and processing the volumes and types of debris and wastes expected to be generated by a major disaster such as a hurricane, tornado, flooding event, or other natural, technological, or human-caused disaster that encompasses the procedures for disposing of that material.

Scope

Debris monitoring documentation is critical to verify that debris operations meet all FEMA Public Assistance policies and guidelines, costs are reasonable, quantification of the debris is accurate, and the tracking of the debris to its final location is recorded and in compliance with all regulatory requirements. Proposer may be utilized to monitor and document non-declared events as well.

The County requires all proposers to understand FEMA Public Assistance policies and guidelines, including eligibility issues and specifically those relating to debris. The County will select a firm to monitor its debris removal operations and document eligible debris quantities and reasonable expenses.

Proposers must be able to handle the monitoring of debris removal for all types and sizes of disasters. This can include a localized event where there is one type of debris, a significant event that includes a larger square footage of the County and mixed debris, or could be a Catastrophic Event where the entire County is affected and there is multiple types of debris that will need to be removed.

Monitoring debris removal work involves constant observation of crews to ensure that workers are performing eligible work in accordance with FEMA Public Assistance guidelines and all applicable Federal, State and local regulations. Failure to properly monitor and document debris removal operations may jeopardize FEMA Public Assistance. The County reserves the right to withhold payment for improperly performed services pending a review of pertinent documentation and actions.

Proposers will need to be capable of providing a wide range of services including, but not limited to the following:

- Damage assessment
- Training
- Emergency planning
- Infrastructure restoration
- Communication with FEMA, FHWA (Federal Highway Administration), State of Texas and other State and Federal Agencies
- Coordinate with State Insurance representatives
- Reimbursement services

Proposers must be prepared to deploy debris monitoring within twenty-four (24) hours from the notice to proceed. When additional debris monitoring is needed to meet the requirements of the monitoring contract, proposer shall be prepared to increase the number of debris monitors for the County.

Services

The awarded firm shall be responsible for monitoring debris and waste removal and disposal operations performed by the Debris Management provider relative to:

- County streets, roads and right-of-way
- Streets, roads and rights-of-way of all municipalities and communities, incorporated and unincorporated, and rural areas within the County, unless otherwise directed by Williamson County
- Canals, waterways, and rights-of-way of all municipalities and communities, incorporated and unincorporated, and rural areas within the County, unless otherwise directed by Williamson County
- Public property and facilities
- Any other public site as may be directed by Williamson County
- Private property when necessary to protect the public (life safety) or to facilitate completion of required work, provided that entry onto private property is specifically authorized by the Williamson County Office of Emergency Management

Debris monitoring considerations and responsibilities may vary depending on the type of debris being removed and may include:

- Vegetative debris
- Hazardous waste
- Household hazardous waste
- Electronic waste
- White goods
- Soil, mud and sand
- Vehicles and vessels
- Animal carcasses or other fleshy organic matter
- Infectious waste
- Chemical, biological, radiological and nuclear-contaminated debris
- Construction and demolition (C&D) debris

Awarded firm shall be responsible for maintaining records, developing worksheets and other required documentation which will be required by FEMA, FHWA, and any other applicable agency for disaster recovery efforts. This shall include, but is not limited to, receiving a copy of all invoices from the disposal facility, supported by scale and/or load tickets issued by the disposal facility, and proof of payment by the Debris Management firm to the disposal facility.

Awarded firm shall be responsible for verifying that only eligible debris is removed from initial sites then transported to Temporary Debris Staging and Reduction (TDSRS) sites where all debris is to be appropriately segregated and processed, reduced and then loaded appropriately (and not artificially – e.g. debris is wetted, fluffed or not compacted), and finally transported to the disposal facility for weighting and receiving. Verification that hazardous wastes have not been mixed into loads will be required. Awarded firm shall be responsible for ensuring each load can be claimed based on established criteria, and mark load tickets ineligible if they do not meet FEMA Public Assistance policies and guidelines. Awarded firm shall also possess the ability to estimate in cubic yards (CY) debris to be removed for the disposal facility and assist in measuring the debris in all debris hauling trucks and trailers, if needed.

Awarded firm shall be responsible for overseeing all operations at the TDSRS sites, making sure that all local, state, and federal regulations are followed. All safety precautions are to be taken into account and followed as well.
