2006 ROAD BOND PROGRAM PROJECTS PRECINCT 1 - COMMISSIONER COOK

1.31 Forest North Drainage Improvements - Phase 3 (design)

2013 ROAD BOND PROGRAM PROJECTS PRECINCT 1 - COMMISSIONER COOK

Completed/Open to Traffic

- 221 Pearson Ranch Road
- 221 Pearson Ranch Road at Avery Ranch Boulevard Traffic Signal
- 221 Pearson Ranch Road and Iveans Way Pedestrian Crossing
- 221 Neenah Avenue and Pearson Ranch Road Traffic Signal
- 225 Forest North Drainage Improvements Phase 2
- 235 RM 620 Phase 2 (Wyoming Springs to Deep Wood Drive)
- 278 Neenah Avenue Widening (Olive Hill Drive to 0.5 miles east of Olive Hill Drive)
- 281 O'Connor Drive North of RM 620

Under Construction/Bidding

224 North Mays Street Extension Phase 1 Arterial M (Paloma Drive to Oakmont Drive)

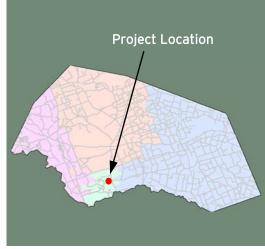

Under Construction/Bidding (con't)

- 225 Forest North Drainage Improvements Anderson Mill Zone
- 264 RM 620 at Railroad / Chisholm Trail (IH 35 Frontage Road to Deep Wood Drive)
- 329 O'Connor Drive Traffic Signals (Morgan Hill, Great Oaks and Liberty Walk Intersections)

In Design

- 225 Forest North Drainage Improvements Phase 3
- 227 University Boulevard Widening (IH 35 to Sunrise Road)
- 258 IH 35 Corridor Operational Analysis (SH 45 to RM 1431)
- 270 Great Oaks Drive Bridge at Brushy Creek
- 284 Hairy Man Road/Brushy Creek Road Safety Improvements (Brushy Bend to Sam Bass Road)
- 309 Pond Springs Road Area Drainage Improvements (Pond Springs Road to US 183)

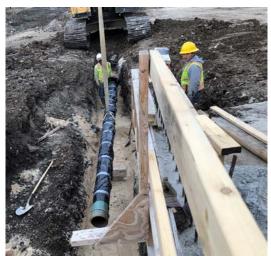

North Mays Street Extension Phase 1 (Paloma Drive to Oakmont Drive)

Project Length: 1 mile Roadway Classification: Arterial Collector

Project Schedule: January 2019 - July 2020 Estimated Construction Cost: \$10.8 Million

DECEMBER 2019 IN REVIEW

12/06/2019: Capital Excavation formed and poured the 5' and 10' sidewalks for Span 4 of the Chandler Branch Bridge. The Type C411 rail for Span 1 on the northbound side of the Chandler Branch Bridge was formed and poured. The overhang brackets were placed, and the steel was tied on Spans 6, 7, and 8 (Unit 3) of the Chandler Branch Bridge. Spectrum subcontractor GTI continued to move the overhead lines from the old poles to the new poles from Jeffery Way to Paloma Drive on the south end of the project.

12/13/2019: The Type C411 rail for Span 2 on the northbound side of the Chandler Branch Bridge was formed and poured. The steel was graded, and the deck was placed for Spans 6, 7, and 8 (Unit 3) of the Chandler Branch Bridge. Spans 3, 4, and 5 were poured. The 8'x8' junction box for Line 3-08 was placed on the south end of the project.

12/20/2019: The Type C411 rail for Spans 3 and 4 on the northbound and southbound sides of the Chandler Branch Bridge was formed and poured. The Span 5 section was formed and poured on the southbound side.

12/27/2019: Spectrum contractor GTI ran overhead lines on the south end of the project.

2013 ROAD BOND PROGRAM PROJECTS PRECINCT 2 - COMMISSIONER LONG

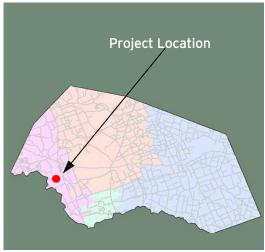

In Design

277 CR 258 Extension (US 183 to Sunset Ridge Drive)

285c CR 200 (CMTA Railroad to CR 201)

Bagdad Road (CR 279) at CR 278 (River Ranch County Park Road)

(Reconstruction of .5 miles of CR 279 and construction of River Ranch County Park Road)

Project Length: .99 Miles

Roadway Classification: Rural Arterial

Project Schedule: October 2018-February 2020 Estimated Construction Cost: \$3.0 Million

DECEMBER 2019 IN REVIEW

12/06/2019: Champion Site Prep continued placing the 1st lift of flexible base for northbound CR 279. Subgrade preparations were completed and the 1st lift of flexible base began for the north half CR 278. Placement of topsoil along northbound and southbound ditches continued. Placement of flexible base at both ends of the bike trail continued. Subcontractor KimTil began adjusting gate valve boxes and fire hydrants along the bike trail to match finish grade.

12/13/2019: The 2nd lift of flexible base continued to be placed for northbound CR 279 and at the intersection of CR 278. Subcontractor KimTil poured concrete collars for gate valves along the bike trail.

12/20/2019: The 3rd lift of flexible base continued to be placed for northbound CR 279 and at the intersection of CR 278. Placement of topsoil along the northbound ditch continued. Structural excavation for the gate wall footing began. Subcontractor BMP began placing compost and seeding.

12/27/2019: Roll-proofing the 3rd lift of flexible base continued for northbound CR 279 and at the intersection of CR 278. Ditch shaping began between the bike trail and the park road.

Design Engineer: Lockwood, Andrews, & Newnam

Contractor: Champion Site Prep Construction Observation: Steven Shull / Feng Chen, HNTB

1A: Design Error or Omission. Incorrect PS&E. This change order adds new bid items for the design revision to add a service meter to the 12" waterline. This change order also replaces the DR-18 waterline pipe called for in the plans with a DR-14 pipe inside the park. 3F: County Convenience. Additional work desired by the County. This change order adds new bid items for the connection of 12" waterline to the waterline installed by others at the west end of the park road, for additional tapping saddle for landscape irrigation, and 4" PVC sleeves under roadway for future irrigation and electrical needs in the park. This change order also replaces the Type 1 ground box with a Type D ground box for the communication line along the park road.

Adjusted Price = \$3,012,416.00

San Gabriel Ranch Road Bridge at Lackey Creek (Remuda Drive and San Gabriel Ranch Road)

Project Length: .09 Miles Roadway Classification: Bridge

Project Schedule: October 2018-February 2020 Estimated Construction Cost: \$1.4 Million

DECEMBER 2019 IN REVIEW

HNTB

12/06/2019: Greater Austin Development removed the overhang forms on the east side of the bridge. Subcontractor Smith Construction installed one 8" gate valve, 152' of 8" ductile iron pipe and 20' of 8" steel pipe on the north end of the bridge from the proposed connection of the existing water line to Abutment 1.

12/13/2019: Smith Contracting continued installing 8" steel pipe for the water line on the upstream side of the bridge and 4" metal conduits for fiber optic line on downstream side of the bridge.

12/20/2019: Smith Contracting continued installing 8" steel pipe for the water line on the upstream side of the bridge and 4" metal conduits for fiber optic line on downstream side of the bridge. All 8" water line is in place and underground water line has been backfilled. Suspended steel water line needs to be coated at weld locations and insulated. All welding of hanger supports to weld plates on girder is complete. All underground PVC conduit for AT&T has been installed and backfilled.

12/27/2019: Greater Austin set up forms and tied steel for both bridge approach slabs.

²E: Differing Site Conditions. Miscellaneous difference in site conditions (unforeseeable). This change order compensates the Contractor for the exploratory work to unclog an existing culvert pipe to expedite dewatering of the pond prior to the start of construction. 6C: Untimely ROW/Utilities. Utilities not clear. This change order compensates the Contractor for the additional cost of double handling rock riprap material caused by the delay in relocation of the AT&T line.

Adjusted Price = \$1,441,467.99

Seward Junction Improvements (SH 29 to CR 266 & CR 266 South of 259 to SH 29)

Project Length: 2.9 Miles Roadway Classification: Minor Urban Collector

Project Schedule: May 2019 - December 2020 Estimated Construction Cost: \$13.3 Million

DECEMBER 2019 IN REVIEW

12/06/2019: Southwest: Jordan Foster continued fine grading the final course of flexible base from US 183 to the Texas Materials driveway. Driveway Culvert A.08.01 was installed northwest of Culvert A.08. The Type B hot mix asphalt caps were installed over Culvert A.08 and Culvert B. **Southeast:** The installation of the flying slab forms for Bridge E were completed. The deck forms and the edge forms were installed for the slab placement. The 6'x6' Junction Box was excavated and installed near the intersection of CR 266 and SH 29. **US 183 Crossover:** Flexible base was cut to finish grade and fine graded. Culvert C.02 was installed along with 16' of 18" RCP for line C.02.

12/20/2019: Southwest: The Contractor finished fine grading the final course of flexible base from US 183 to the Texas Materials existing driveway and subcontractor Texas Materials placed the prime coat. Southeast: Concrete placement was completed for the bridge deck of Bridge E. The 1st course of flexible base was placed from existing CR 259 to south of SH 29 on CR 266. The remaining 4'x3' boxes were excavated and installed at Structure G. US 183 Crossover: The inlet top and invert/pipe collar were installed for inlet C.02. Subcontractor Greater Austin finished placing curb in US 183 crossover. PEC Pond: Concrete was placed for the weir wall footing and steel was tied, and forms set, for the weir wall in PEC pond.

Design Engineer: K Friese and Aguirre & Field

Contractor: Jordan Foster Construction Construction Observation:

Steven Shull / Feng Chen, HNTB

3F: County Convenience. Additional work desired by the County. This Change Order pays for various additional items of work on the Central Maintenance portion of the project that include: excavation of unsuitable material encountered at subgrade and embanking quality material in its place, level up asphalt on the existing pavement, reconstruction of the remaining portion of the County Annex parking lot, relocation of the existing force main outside the limits of new parking lots, installation of conduit sleeves under the new parking lot for future irrigation and a revised seed mixture to match the existing campus lawn. 2C: Differing Site Conditions. New development (conditions changing after PS&E completed). Changes at the Wilco Way portion of the project include overrun in excavation cost due to change in the Construction Sequence requested by TCEQ and changes to the seed mixture. 2E: Differing Site Conditions (unforeseeable). Miscellaneous difference in site conditions (unforeseeable)(item 9). Pay item for 18" deep pavement repair (351-6011) will be deleted. The item will not be used because the repair of failures in the existing pavement does not require it.

Southwest Bypass Segment 2 (Southbound IH 35 to RM 2243)

Project Length: 1.6 Miles Roadway Classification: Major Urban Collector

Project Schedule: September 2018 - February 2020 Estimated Construction Cost: \$8.1 Million

DECEMBER 2019 IN REVIEW

12/06/2019: James Construction formed and placed rock riprap along the ROW at the south pond area to the west end cut. Excavation continued at the west end tie-in to RM 2243. Subcontractor G Carter placed wiring at the RM 2243 intersection and on the bridge. Subcontractor Roadway Specialties formed and placed wire mesh in the metal beam guard fence (MBGF) mow strips at the bridge and placed sign mount foundations and small signs.

12/13/2019: Excavating at Driveways 1, 2, and 3 continued. Subcontractor Roadway Specialties poured the MBGF mow strips at the bridge. Subcontractor Elite Curb slipformed the curb from the west cut to RM 2243. Subcontractor Metalink installed posts and wire from the north pond to various locations.

12/20/2019: Driveways 1 and 3 were poured. Subcontractor Texas Materials placed Type B hot mix asphalt from the west cut to RM 2243, including the turn lane and Driveway 2 on the south side of roadway. Elite Curb slipformed the curb from the west cut to RM 2243 and began the medians at the intersection. Subcontractor Metalink continued to install posts and wire.

12/27/2019: James Construction continued to make and place rock riprap.

Cost This CO Change Order Number Approved Total COs (61,412.38) 1/7/2020 -\$61,412.38

1A: Design Error or Omission. Incorrect PS&E. This Change Order corrects the quantity for the channel excavation item and corrects quantities for paving in the original contract. 3F: County Convenience. Additional work desired by the County. This Change Order adds driveways to the project to maintain access to properties along the project and revises vegetation establishment items. 3L: County Convenience. Revising safety work/measures desired by the County. This Change Order adds milling, paving and restriping for a left turn lane on Chandler Road. 2E: Differing Site Conditions. Miscellaneous difference in site conditions (unforeseeable) (Item 9). This Change Order provides the final balancing for the overrun/underrun of contract quantities on the project as a result of addressing field conditions not accounted for in the original plans.

CR 110 Middle (Limmer Loop to CR 107)

Project Length: 2.2 Miles

Roadway Classification: Urban Arterial

Project Schedule: May 2019 - June 2020 Estimated Construction Cost: \$9 Million

DECEMBER 2019 IN REVIEW

12/06/2019: James Construction processed flexible base between CR 112 and University Boulevard. Installation of wastewater PVC pipe began at the southwest corner of CR 110 and University Boulevard. Subcontractor Austin Traffic Signal installed illumination and street sign arms at all four traffic signal poles at the intersection of CR 110 and Limmer Loop.

12/13/2019: The second lift of flexible base was placed between CR 112 and University Boulevard. Subcontractor Bryant and Frey continued the water line bore operation at the north end of the project. Contractor for Oncor, PSC, continued electric line relocation and subcontractor Groundhog Construction continued relocating street lights at the Paloma Lake development.

12/20/2019: Installation of wastewater pipe was completed at the southwest corner of CR 110 and University Boulevard. Trenching to install water line steel encasement continued. Subcontractor Bryant and Frey continued work on the water line bore operation at the north end of the project.

12/27/2019: Placement of the second lift of flexible base continued between CR 112 and University Boulevard. Trenching to install water line steel encasement continued at the northwest corner of CR 110 and University Boulevard.

¹A: Design Error or Omission. Incorrect PS&E. This Change Order revises items and quantities for the traffic signals. 3F: County Convenience. Additional work desired by the County. This Change Order adds items for temporary sediment control fencing (install and remove) and documents the credit to the contract for materials (6'x4' box culvert) furnished by the County.

02	12/17/2019	\$31,881.14	\$ 98,172.97

²G: Differing Site Conditions. Unadjusted utility (unforeseeable). This Change Order provides grading of the Limmer Loop ditch at CR 110, due to communication utility conflicts not being adjusted for the previous CR 110 South project. The ditch work must be completed, prior to construction of the requested driveway for the new corner store. The driveway permit has already been submitted to the County by the Developer.
