**Floor Preparation:** Additional floor preparation may be required as a result of an unforeseen condition of the floor. Costs associated with this floor preparation will be negotiated on a job-to-job basis. Our products perform properly when installed on floors that are free of dirt, oil, paint and excessive moisture. Floors that have moisture readings greater than the manufacturer specified tolerance will not meet specification and will require further curing time or treatment prior to carpet installation. This quote does not include moisture remediation.

We recommend only wet scraping or mechanical removal of all non-water based adhesives.

**Asbestos Abatement:** This quote DOES NOT include asbestos abatement. Neither we nor our installers are responsible for the handling, removal or abatement of asbestos contained floor material or adhesive. Further, our policy is that all abatement of asbestos contained floor material must be removed and that an AHERA report or Clearance Letter from the asbestos surveyor or from the asbestos abatement contractor must be provided before we will proceed with any work in those areas of asbestos concern. We and our installers consider it the owner's responsibility to ensure proper abatement is performed prior to executing this contract.

If any chemical stripping agents such as those commonly used in asbestos abatement have been used, we and our installers may require additional measures be taken prior to installation of any product. These measures may affect the price of this quote.

Sincerely,

*Cheryl Gibson*
