Public Sector Expertise

Travelers is the leading provider of property and casualty insurance for public entities. It's a position we've worked hard to earn by building lasting relationships and strong foundations in communities across the country. With our expertise, years of hands-on experience and outstanding financial strength and stability, clients count on us to deliver thoughtfully designed, tailored insurance coverages and risk management solutions for the exposures they face.

Our underwriting, risk control and claim teams work exclusively with public entities. Travelers has impressive capabilities to serve the needs of the market. We're proud to offer:

- Package products for municipalities, counties, water and sewer districts and other selected special districts. For these segments, we deliver a menu of customized offerings and solutions – including property, liability, auto and professional coverages – designed specifically for local governments;
- Large public entity property business – including schedules in excess of \$250 million total insured values – for the segments listed above as well as for schools, excess property and assumed reinsurance.

The team at Travelers takes the time to understand issues affecting local government. They analyze current risks, anticipate those customers may face in the future and create flexible solutions to manage both.

UNDERWRITING

Our underwriters stay abreast of public affairs, as well as evolving legal and social issues. We develop balanced solutions to meet each customer's unique situation and work with agents and brokers to customize the most effective plan for our clients.

CLAIM SERVICES

When it comes to claim handling, one size doesn't fit all. Travelers has claim professionals dedicated to handling claims for public entities. They understand state-specific issues and have extensive knowledge of the immunities and special defenses afforded to public entities. In addition, Travelers retains defense counsel who specializes in representing public entities and understand the complexity of public entity legislation.

RISK CONTROL SERVICES

Travelers risk control consultants work exclusively with public entity clients. These risk control professionals are dedicated to understanding a customer's unique operations, risks and issues. The value-added risk management programs, seminars and personalized service plans offered by Travelers help prevent losses and reduce overall costs for public entities.

Risk Control Services

Travelers offers risk control resources that have a proven impact on preventing losses and reducing overall costs for public entities. These resources have been developed for public entity clients to address issues related to general liability, vehicle safety, property protection, law enforcement liability and employment practices liability.

Our goal is to provide public entities with resources to reduce loss-related expenses and enhance delivery of public services. These risk control resources respond to historical losses experienced by public entities and align with "best practices" for government entities, as advocated by the Public Risk Management Association (PRIMA) and the International City/County Management Association (ICMA).

When you select Travelers as your insurance carrier, you will have access to a wealth of risk control resources, including, but not limited to:

- The Public Sector Risk Control Seminars: The value-added risk management programs, seminars and training sessions offered by Travelers help prevent losses and reduce overall costs for public entities.

In addition, the site provides a pathway to register for our Safety Academy courses ... <http://www.travelers.com/riskcontrol>
- Public Sector Risk Control Answer Line: Have a technical question about a risk control issue? Use the Travelers Public Sector Answer Line. Clients can direct their specific risk control questions to the Answer Line for advice and information. [Ask Risk-Control@Travelers.com](mailto:AskRisk-Control@Travelers.com).
- Employment Practices Liability Risk Management Resources: Our EPL resources include:
 - 1) Free access to an Internet-based resource site with a wealth of employment practices information including emerging issues in employment law, sample handbook, best practices for policies and procedures, articles, searchable library and much more:

Automobile Composite Rating

Automobile Composite Rating

In order to provide our insureds better service and administrative efficiency, Travelers Public Sector Services is pleased to provide the following process for handling mid-term automobile change requests. All requests will be managed in accordance with the Composite Rate Application outlined below. The insured should continue to submit all change requests to their agent for accurate record keeping and claims verification purposes. Particular attention should be paid to Item 5, which specifies the types of automobiles that will continue to require reporting to the Company.

Composite Rate Application

1. If your policy includes the coverage for which a composite rate is designated in the table below then the premium for that coverage is composite rated. Automobile Liability is rated on a "per unit" basis and Automobile Physical Damage is rated on the basis of the original cost new of the autos. **The composite rates reflect premium charges for any applicable miscellaneous auto coverages, with the exception of Garagekeepers Legal Liability.**
2. The composite rates for Automobile Liability and Physical Damage are the rates applicable at the inception of the policy. Based on the information provided for this proposal and as of the date of this proposal, these rates are as follows:

Liability	Comprehensive	Collision
\$419	0.171	0.210

3. The premium charged at inception is the estimated annual premium based on the number of units and total original cost new for all covered autos on file with the company at inception. The insured is to submit a current schedule of owned automobiles as of the expiration of the policy and the total earned premium will be computed on the basis of the average net change in units and their corresponding original cost new for the policy term.
4. All autos added will carry the same Liability limits and Physical Damage deductibles issued at policy inception for autos of the same type.
5. Any new auto requiring valuation other than actual cash value must be reported within 30 days of acquisition. These autos will be added to the policy automobile schedule mid-term and a final premium will be determined at policy expiration.

Terrorism Risk Insurance Act Disclosure

The federal Terrorism Risk Insurance Act of 2002 as amended ("TRIA") establishes a program under which the Federal Government may partially reimburse "Insured Losses" (as defined in TRIA) caused by "Acts Of Terrorism" (as defined in TRIA). "Act Of Terrorism" is defined in Section 102(1) of TRIA to mean any act that is certified by the Secretary of the Treasury – in consultation with the Secretary of Homeland Security and the Attorney General of the United States – to be an act of terrorism; to be a violent act or an act that is dangerous to human life, property, or infrastructure; to have resulted in damage within the United States, or outside the United States in the case of certain air carriers or vessels or the premises of a United States Mission; and to have been committed by an individual or individuals as part of an effort to coerce the civilian population of the United States or to influence the policy or affect the conduct of the United States Government by coercion.

The Federal Government's share of compensation for such Insured Losses is established by TRIA and is a percentage of the amount of such Insured Losses in excess of each Insurer's "Insurer Deductible" (as defined in TRIA), subject to the "Program Trigger" (as defined in TRIA). Through 2020, that percentage is established by TRIA as follows:

85% with respect to such Insured Losses occurring in calendar year 2015.

84% with respect to such Insured Losses occurring in calendar year 2016.

83% with respect to such Insured Losses occurring in calendar year 2017.

82% with respect to such Insured Losses occurring in calendar year 2018.

81% with respect to such Insured Losses occurring in calendar year 2019.

80% with respect to such Insured Losses occurring in calendar year 2020.

In no event, however, will the Federal Government be required to pay any portion of the amount of such Insured Losses occurring in a calendar year that in the aggregate exceeds \$100 billion, nor will any Insurer be required to pay any portion of such amount provided that such Insurer has met its Insurer Deductible. Therefore, if such Insured Losses occurring in a calendar year exceed \$100 billion in the aggregate, the amount of any payments by the Federal Government and any coverage provided by this policy for losses caused by Acts Of Terrorism may be reduced.

For Workers Compensation and Employers Liability coverage, the charge for such Insured Losses is an additional premium, which is reflected in the enclosed Workers Compensation and Employers Liability premium schedule. Note: terrorism premium charges listed in that schedule are subject to change at any time based on state regulatory action. For coverages other than Workers Compensation and Employers Liability that apply to such Insured Losses, the charge for such Insured Losses is included in the premium for such coverage and is listed below. Any charges for Insured Losses, regardless of coverage type, do not include any charge for the portion of such Insured Losses covered by the Federal Government under TRIA.

Coverage	Included Charge For <i>Insured Losses</i>
Property	3% of the total Property Coverage premium.
Inland Marine	1% of the applicable premium.
Workers Compensation	See workers compensation premium schedule. Note – terrorism premium charges are subject to change at any time based on state regulatory action.
All other coverages subject to TRIA	1% of the applicable premium.
