Scope Of Work
<p>ADT is proposing to re-wire the existing burglar alarm system in the warehouse due to renovations to the building. One new motion detector will be installed at the rear warehouse door, and devices in that area will be connected to the panel through a zone expander in the warehouse. The system will transmit signals through an existing cell communicator, which also allows for the customer to have remote administrative capabilities.</p> <p>Protection One/ADT assumes all existing equipment (including wire) to be in proper working order. Any devices either existing or installed by others, that are found to be faulty or unusable may be eliminated from the system or, with Customer approval, be replaced by Protection One/ADT on a quoted basis.</p> <p>The monthly service fee includes our ADT Protection Plan, a service that provides a full warranty on all equipment installed and will cover service/maintenance visits free of charge in most cases.</p> <p>Also included in the monthly fee is annual inspections of the system.</p>
