Limitations: To receive these benefits Customer must maintain, and remain current on payment for, a Dell EMC ProSupport with the Mission Critical Option or a ProSupport PLUS support agreement for the Product with no gaps in coverage. A claim must be reported in writing prior to the expiration of the Guarantee Period. At the time of a claim filing, the Products must be running a then-currently supported version of the applicable operating system and firmware. Program benefits are not transferrable to another end-user customer. Customer may only make one claim per Product during the Guarantee Period. The Guarantee applies to purchases of new Products after the date of Customer's signature below and is not eligible for previously purchased products.

Filing a Claim: To file a claim, Customer must contact a Dell EMC Sales Representative. Customer must provide evidence of compliance with this Program and provide screen shots of the Product dashboard documenting seven (7) consecutive days of data reduction results.

Remedies: Customer will grant Dell EMC access to the applicable systems to validate how much data was reducible. If Dell EMC determines that a claim under this Program is valid, Dell EMC will be given an opportunity to correct the non-compliance at its own cost by either: (i) tuning the system, (ii) providing additional equipment, (iii) re-configuring the microcode, or (iv) adding or changing other hardware components (additional hardware not to exceed 30 terabytes of physical capacity). Dell EMC will have sole discretion to determine which of the foregoing activities will be performed. The options above are the only remedies the Customer is entitled to receive for non-compliance with the Guarantee, and only a single claim to rectify any non-compliance with the Guarantee may be made. Any liability for damages due to non-performance of the remedies under the Guarantee shall be limited to typical and foreseeable damages, which shall not exceed the purchase price for the Product in relation to which Customer is raising a claim under the Guarantee, and neither party will be liable for any indirect or consequential damages of any kind; the foregoing limitations on liability shall not apply in case of death or personal injury, in case of Dell EMC's gross negligence or willful misconduct, nor in case of claims under statutory product liability.

Other Terms: If the place of installation indicated upon purchase is in the United States, this Guarantee is governed by the laws of Texas, excluding its conflict of law rules, and the courts of Texas shall have exclusive

jurisdiction to settle any disputes out or in connection therewith; otherwise, this Guarantee is governed by the laws of Ireland, excluding its conflict of law rules, and the Irish courts shall have exclusive jurisdiction to settle any disputes out or in connection therewith. Dell EMC does not warrant that a specific data reduction ratio will be achieved. Rather, this Guarantee is independent from, and in addition to any warranty offered by Dell EMC or the applicable Channel Partner, and none of the limitations stated herein shall limit Customer's rights under such warranties. For the avoidance of doubt, the Program does not provide a guarantee in the sense of an unlimited and/or strict liability in relation to certain Product features or the quality of the Product, but rather a legally binding statement of Customer's remedies in case the guaranteed logical usable capacity is not met pursuant to the above terms and conditions. Program is void where prohibited, whether by way of U.S. or other applicable export control laws or regulations or otherwise. Details and other limitations not specified will be determined by Dell EMC in its sole discretion. Failure to enforce a term shall not constitute a waiver by Dell EMC. Program is subject to change or cancellation by Dell EMC without notice, but any such change will only apply to new purchases and not retroactively.
