 - ongoing support resources
 - end of life requirements
- Employee to device ratio's
- Device per square foot recommendations
- Approved device catalogue based on functionality and volumes
- Total cost of ownership

Sharp will work with the Copier Program administrators, IT, or Procurement to create a list of known assets per building. The list will include the following fields:

b. Make, model	e. IP address	h. Average monthly volume
c. Device type	f. Networked or local	i. User contact information

During Implementation, the new equipment will be set up in a designated staging area and configured ahead of time for each specific location. This process allows Sharp to minimize the downtime during the swapping of devices. Typically, our total downtime for set up is 15 minutes or less per device.

1. Sharp already has all site locations and relative equipment information and will work with Wilco to gather all other needed data such as IP addresses, MAC addresses etc. Sharp will coordinate any IP changes or additions as per Wilco's processes during installation.
2. The equipment will be pre-set with the appropriate network information at our facility. This way, Sharp can ensure when a device is delivered, it is ready to print, scan and fax on day one.
3. Sharp will have a network technician at the Sharp onsite command center validating network connectivity as the delivery team delivers, installs, and connects devices.

By pre-configuring the equipment ahead of time, we can minimize the installation time and minimize any disruption to end-users. Sharp's goal is to maximize the time between awarding an order and rolling out the new equipment.

During Rollout and beyond, Sharp provides unlimited training for the life of the agreement. Wilco may elect for onsite training, remote training, and pre-recording training as determined by each department's specific needs.

Along with unlimited onsite and remote training for the duration of the contract, Sharp is also able to provide 24/7/365 training via:

Good Morning, Joy,

Per your request, we are sending you the Texas DIR Contract with Terms and Conditions for your review. This is the same contract vehicle that Sharp and Wilco have used for the Sharp devices currently in the Wilco fleet. It allows Wilco to add machines with a Purchase Order, rather than having to sign a separate lease and maintenance agreement when ordering equipment. The main contract plus the terms and conditions are attached. Additional information on the Texas DIR contract is available on our website, and here is a link for your convenience:
<https://dir.texas.gov/contracts/dir-cpo-4433>.

Also, please see the 3rd attachment above which includes the new Desktop Model, (highlighted in green).

Please know that there will be NO CHARGE for the assessment.

Thank you for your help,

Greetings,

Thank you for the excellent presentation and valuable service package that you have proposed for Williamson County. We seek a contract draft to reflect the project that we have discussed. We are seeking to fast track the assessment to make our budget deadline, so we have to push a bit on timeline. The contract will need to be reviewed by our legal department, purchasing team and then reviewed and approved by the Commissioners Court in order to move forward.

Is it possible to see the contract by tomorrow end of day?

Also, can someone from Sharp please call my cell phone as I have a few final questions to ask. I can be reached at 772-214-8142. Many thanks!

- A. The terms and conditions of the Contract shall govern all transactions by Customers under the Contract. The Contract may only be modified or amended upon mutual written agreement of DIR and Successful Respondent.
- B. DIR may amend the Contract upon thirty (30) calendar days written notice to Successful Respondent without the need for Successful Respondent's written consent: i) as necessary to satisfy a regulatory requirement imposed upon DIR by a governing body with the appropriate authority, or ii) as necessary to satisfy a procedural change due to DIR system upgrades or additions.
- C. Customers shall not have the authority to modify the terms of the Contract; however, additional Customer terms and conditions that do not conflict with the Contract and are acceptable to Successful Respondent may be added in a Purchase Order and given effect. No additional term or condition added in a Purchase Order issued by a Customer can conflict with or diminish a term or condition of the Contract. Pre-printed terms and conditions on any Purchase Order issued by Customer hereunder will have no force and effect. In the event of a conflict between a Customer's Purchase Order and the Contract, the Contract term shall control.
- D. 4.3 Invalid Term or Condition

- A. To the extent any term or condition in the Contract conflicts with the applicable Texas and/or United States law or regulation, such Contract term or condition is void and unenforceable. However, regardless of the term of the Purchase Order, no Purchase Order shall survive the expiration or termination of the Contract for more than three (3) years. In all instances of termination or expiration and no later than five (5) days after termination or expiration or upon DIR request, Successful Respondent shall provide a list, in accordance with the format requested by DIR (i.e., Excel, Word, etc.), of all surviving Statements of Work and Purchase Orders to the DIR Contract Manager and shall continue to report sales and pay the DIR Administrative Fees for the duration of all such surviving Statements of Work and Purchase Orders. If litigation does not involve any state agency, then venue is fixed in the state courts of the Texas county where the Customer is primarily situated, unless the specific venue is otherwise identified in a statute which directly names or otherwise identifies its applicability to the contracting Agency. Regardless of any provision anywhere in the Contract, no state agency or other Customer in any manner waives any defense or immunity whatsoever.

4.7 Limitation of Authority

Successful Respondent shall have no authority to act for or on behalf of the Texas Department of Information Resources or the State except as expressly provided for in the Contract; no other authority,

power or use is granted or implied. Successful Respondent may not incur any debts, obligations, expenses, or liabilities of any kind on behalf of the State or DIR.

4.8 Proof of Financial Stability

Regardless of any other provision of the Contract or its incorporated or referenced documents, all of the data for State of Texas Customers shall remain, and be stored, processed, accessed, viewed, transmitted, and received, always and exclusively within the contiguous United States. A State of Texas Customer can specifically request otherwise; however, Successful Respondent shall notify DIR promptly after such request is made. For all Customers outside the State of Texas' jurisdiction, the question of data location shall be at the discretion of such Customers. **NOTE: CUSTOMERS SHOULD CONSIDER WHETHER THEY REQUIRE CONTIGUOUS US-ONLY DATA LOCATION AND HANDLING AND MAKE SUCCESSFUL RESPONDENT AWARE OF THEIR REQUIREMENTS.**

4.10 Independent Contractor

SUCCESSFUL RESPONDENT AGREES AND ACKNOWLEDGES THAT DURING THE EXISTENCE OF THE CONTRACT, IT IS FURNISHING SERVICES IN THE CAPACITY OF AN INDEPENDENT CONTRACTOR AND THAT SUCCESSFUL RESPONDENT IS NOT AN EMPLOYEE OF THE CUSTOMER, DIR, OR THE STATE OF TEXAS.

5 INTELLECTUAL PROPERTY MATTERS

5.1 Intellectual Property Matters Definitions

5.1.1 "Work Product"

Means any and all deliverables produced by Successful Respondent for Customer under a Statement of Work issued pursuant to the Contract, including any and all tangible or intangible items or things that have been or will be prepared, created, developed, invented or conceived at any time following the Effective Date, including but not limited to any:

- (i) works of authorship (such as manuals, instructions, printed material, graphics, artwork, images, illustrations, photographs, computer programs, computer software, scripts, configurations, object code, source code or other programming code, HTML code, flow charts, notes, outlines, lists, compilations, manuscripts, writings, pictorial materials, schematics, formulae, processes, algorithms, data, information, multimedia files, text web pages or web sites, other written or machine readable expression of such works fixed in any tangible media, and all other copyrightable works),
- (ii) trademarks, service marks, trade dress, trade names, logos, or other indicia of source or origin,
- (iii) ideas, designs, concepts, personality rights, methods, processes, techniques, apparatuses, inventions, formulas, discoveries, or improvements, including any patents, trade secrets and know-how,
- (iv) domain names,
- (v) any copies, and similar or derivative works to any of the foregoing,

- (vi) all documentation and materials related to any of the foregoing,
- (vii) all other goods, services or deliverables to be provided to Customer under the Contract or a Statement of Work, and
- (viii) all Intellectual Property Rights in any of the foregoing, and which are or were created, prepared, developed, invented or conceived for the use or benefit of Customer in connection with the Contract or a Statement of Work, or with funds appropriated by or for Customer or Customer's benefit:
 - a. by any Successful Respondent personnel or Customer personnel, or
 - b. any Customer personnel who then became personnel to Successful Respondent or any of its affiliates or subcontractors, where, although creation or reduction-to-practice is completed while the person is affiliated with Successful Respondent or its personnel, any portion of same was created, invented or conceived by such person while affiliated with Customer.

5.1.2 "Intellectual Property Rights"

Means the worldwide legal rights or interests, including but not limited to all United States and foreign patents, copyrights, trademarks, service marks, trade secrets, moral rights, author's rights, reversionary rights, and any and all other intellectual property or similar rights, evidenced by or embodied in:

- i) any idea, design, concept, personality right, method, process, technique, apparatus, invention, discovery, or improvement, including any patents, trade secrets, and know-how;
- ii) any work of authorship, including any copyrights, moral rights or neighboring rights;
- iii) any trademark, service mark, trade dress, trade name, or other indicia of source or origin;
- iv) domain name registrations; and
- v) any other proprietary or similar rights. The Intellectual Property Rights of a party include all worldwide legal rights or interests that the party may have acquired by assignment or license with the right to grant sublicenses.

5.1.3 "Third Party IP"

Means the Intellectual Property Rights of any third party that is not a party to the Contract or a Purchase Order or Statement of Work issued under the Contract, and that is not directly or indirectly providing any goods or services to Customer under the Contract or a Purchase Order or Statement of Work issued under the Contract.

5.1.4 "Successful Respondent IP"

Shall mean all tangible or intangible items or things, including the Intellectual Property Rights therein, created or developed by Successful Respondent:

- i) prior to providing any services or Work Product to Customer and prior to receiving any documents, materials, information or funding from or on behalf of Customer relating to the services or Work Product, or

- ii) after the Effective Date if such tangible or intangible items or things were independently developed by Successful Respondent outside Successful Respondent's provision of services or Work Product for Customer hereunder and were not created, prepared, developed, invented or conceived by any Customer personnel who then became personnel to Successful Respondent or any of its affiliates or subcontractors, where, although creation or reduction-to-practice is completed while the person is affiliated with Successful Respondent or its personnel, any portion of same was created, invented or conceived by such person while affiliated with Customer.

5.2 Ownership

As between Successful Respondent and Customer, the Work Product and Intellectual Property Rights therein are and shall be owned exclusively by Customer, and not Successful Respondent. Successful Respondent specifically agrees that the Work Product shall be considered "works made for hire" and that the Work Product shall, upon creation, be owned exclusively by Customer. To the extent that the Work Product, under applicable law, may not be considered works made for hire, Successful Respondent hereby agrees that the Contract effectively transfers, grants, conveys, assigns, and relinquishes exclusively to Customer all right, title, and interest in and to all ownership rights in the Work Product, and all Intellectual Property Rights in the Work Product, without the necessity of any further consideration, and Customer shall be entitled to obtain and hold in its own name all Intellectual Property Rights in and to the Work Product. Successful Respondent acknowledges that Successful Respondent and Customer do not intend Successful Respondent to be a joint author of the Work Product within the meaning of the Copyright Act of 1976. Customer shall have access, during normal business hours (Monday through Friday, 8AM to 5PM) and upon reasonable prior notice to Successful Respondent, to all Successful Respondent materials, premises, and computer files containing the Work Product. Successful Respondent and Customer, as appropriate, will cooperate with one another and execute such other documents as may be reasonably appropriate to achieve the objectives herein. No license or other right is granted hereunder to any Third Party IP, except as may be incorporated in the Work Product by Successful Respondent.

5.3 Further Actions

Successful Respondent, upon request and without further consideration, shall perform any acts that may be deemed reasonably necessary or desirable by Customer to evidence more fully the transfer of ownership and/or registration of all Intellectual Property Rights in all Work Product to Customer to the fullest extent possible, including but not limited to the execution, acknowledgement and delivery of such further documents in a form determined by Customer. In the event Customer shall be unable to obtain Successful Respondent's signature due to the dissolution of Successful Respondent or Successful Respondent's unreasonable failure to respond to Customer's repeated requests for such signature on any document reasonably necessary for any purpose set forth in the foregoing sentence, Successful Respondent hereby irrevocably designates and appoints Customer and its duly authorized officers and agents as Successful Respondent's agent and Successful Respondent's attorney-in-fact to act for and in Successful Respondent's behalf and stead to execute and file any such document and to do all other lawfully permitted acts to further any such purpose with the same force and effect as if executed and delivered by Successful Respondent, provided however that no such grant of right to Customer is applicable if Successful Respondent fails to execute any document due to a good faith dispute by Successful Respondent with respect to such document. It is understood that such power is coupled with an interest and is therefore irrevocable. Customer shall have the full and sole power to prosecute such applications and to take all other action concerning the Work Product, and Successful Respondent shall

cooperate, at Customer's sole expense, in the preparation and prosecution of all such applications and in any legal actions and proceedings concerning the Work Product.

5.4 Waiver of Moral Rights

Successful Respondent hereby irrevocably and forever waives, and agrees never to assert, any Moral Rights in or to the Work Product which Successful Respondent may now have or which may accrue to Successful Respondent's benefit under U.S. or foreign copyright or other laws and any and all other residual rights and benefits which arise under any other applicable law now in force or hereafter enacted. Successful Respondent acknowledges the receipt of equitable compensation for its assignment and waiver of such Moral Rights. The term "Moral Rights" shall mean any and all rights of paternity or integrity of the Work Product and the right to object to any modification, translation or use of the Work Product, and any similar rights existing under the judicial or statutory law of any country in the world or under any treaty, regardless of whether or not such right is denominated or referred to as a moral right.

5.5 Confidentiality

All documents, information and materials forwarded to Successful Respondent by Customer for use in and preparation of the Work Product shall be deemed the confidential information of Customer, and subject to the license granted by Customer to Successful Respondent under Section [5.8 Successful Respondent License to Use](#). Hereunder, Successful Respondent shall not use, disclose, or permit any person to use or obtain the Work Product, or any portion thereof, in any manner without the prior written approval of Customer.

5.6 Injunctive Relief

The Contract is intended to protect Customer's proprietary rights pertaining to the Work Product, and the Intellectual Property Rights therein, and any misuse of such rights would cause substantial and irreparable harm to Customer's business. Therefore, Successful Respondent acknowledges and stipulates that a court of competent jurisdiction may immediately enjoin any material breach of the intellectual property, use, and confidentiality provisions of the Contract, upon a request by Customer, without requiring proof of irreparable injury as same should be presumed.

5.7 Return of Materials Pertaining to Work Product

Upon the request of Customer, but in any event upon termination or expiration of the Contract, or a Statement of Work, Successful Respondent shall surrender to Customer all documents and things pertaining to the Work Product, including but not limited to drafts, memoranda, notes, records, drawings, manuals, computer software, reports, data, and all other documents or materials (and copies of same) generated or developed by Successful Respondent or furnished by Customer to Successful Respondent, including all materials embodying the Work Product, any Customer confidential information, or Intellectual Property Rights in such Work Product, regardless of whether complete or incomplete. This Section is intended to apply to all Work Product as well as to all documents and things furnished to Successful Respondent by Customer or by anyone else that pertain to the Work Product.

5.8 Successful Respondent License to Use

Customer hereby grants to Successful Respondent a non-transferable, non-exclusive, royalty-free, fully paid-up license to use any Work Product solely as necessary to provide the services to Customer. Except as provided in this Section, neither Successful Respondent nor any Subcontractor shall have the right to use the Work Product in connection with the provision of services to its other customers without the prior written consent of Customer, which consent may be withheld in Customer's sole discretion.

5.9 Third-Party Underlying and Derivative Works

- A. To the extent that any Successful Respondent IP or Third Party IP are embodied or reflected in the Work Product, or are necessary to provide the services, Successful Respondent hereby grants to the Customer, or shall obtain from the applicable third party for Customer's benefit, the irrevocable, perpetual, non-exclusive, worldwide, royalty-free right and license, for Customer's internal business purposes only, to
 - i) use, execute, reproduce, display, perform, distribute copies of, and prepare derivative works based upon such Successful Respondent IP or Third Party IP and any derivative works thereof embodied in or delivered to Customer in conjunction with the Work Product, and
 - ii) authorize others to do any or all of the foregoing. Successful Respondent agrees to notify Customer on delivery of the Work Product or services if such materials include any Third Party IP.
- B. On request, Successful Respondent shall provide Customer with documentation indicating a third party's written approval for Successful Respondent to use any Third Party IP that may be embodied or reflected in the Work Product.

5.10 Agreement with Third Party Providers

Successful Respondent agrees that it shall have written agreement(s) that are consistent with the provisions hereof related to Work Product and Intellectual Property Rights with any Third Party Providers, prior to their providing such services or Work Product pursuant to the Contract, and that Successful Respondent shall maintain such written agreements at all times during performance of the Contract, which are sufficient to support all performance and grants of rights by Successful Respondent. Copies of such agreements shall be provided to the Customer promptly upon request.

5.11 License to Customer

Successful Respondent grants to Customer, at no additional charge, a world-wide, non-exclusive, perpetual, irrevocable, royalty free right and license, solely for the Customer's internal business purposes, to use, copy, modify, display, perform (by any means), transmit and prepare derivative works of any Successful Respondent IP embodied in or delivered to Customer in conjunction with the Work Product. The foregoing license includes the right to sublicense third parties, solely for the purpose of engaging such third parties to assist or carryout Customer's internal business use of the Work Product. Except for the preceding license, all rights in Successful Respondent IP remain in Successful Respondent.

5.12 Successful Respondent Development Rights

To the extent not inconsistent with Customer's rights in the Work Product or as set forth herein, nothing in the Contract shall preclude Successful Respondent from developing for itself, or for others, materials which are competitive with those produced as a result of the services provided hereunder, provided that no Work Product is utilized, and no Intellectual Property Rights of Customer therein are infringed by such competitive materials. To the extent that Successful Respondent wishes to use the Work Product, or acquire licensed rights in certain Intellectual Property Rights of Customer therein in order to offer competitive goods or services to third parties, Successful Respondent and Customer agree to negotiate in good faith regarding an appropriate license and royalty agreement to allow for such.

6 TERMS AND CONDITIONS APPLICABLE TO STATE AGENCY PURCHASES ONLY

- A. Under Texas Government Code, Chapter 2054, Subchapter M, and DIR implementing rules, DIR state agency and Institution of Higher Education Customers must procure EIR that complies with the Accessibility Standards defined in the Texas Administrative Codes 1 TAC 206, 1 TAC 213, and in the Worldwide Web Consortium WCAG 2.0 AA technical standard as applicable, and when such products or services are available in the commercial marketplace or when such products are developed in response to procurement solicitations. ACRs based on earlier versions of the VPAT® template will be accepted if such completed ACRs already exist, and there have been no changes to the product/service since the time of the original document completion.
 - ii) If Successful Respondent claims that a proposed product or family of products is exempt from accessibility requirements, it must specify the product(s) as such in "Notes" located in the product information section of the VPAT v.2.3 or higher, or as an additional note in the product information section of older VPAT versions of the form, specifying each exempt product or product family with a supporting statement(s) for this position.
 - iii) Upon request, and prior to a DIR customer purchase for IT development services, Successful Respondent must provide a completed, current, accurate, Vendor Accessibility Development Services Information Request (VADSIR) form for non-COTS offerings (such as IT related development services, services that include user accessed, online components, etc.) which documents Successful Respondent's capability or ability to produce accessible electronic and information resources.
 - iv) Additionally, Successful Respondent must ensure that EIR Accessibility criteria are integrated into key phases of the project development lifecycle including but not limited to

- vi) Also upon request, Successful Respondent must provide additional documentation that supports the information contained in the aforementioned completed forms. Examples may include but are not limited to: executed accessibility test plans and results, corrective actions plans, description of accessibility test tools, platforms, and methods, and prior work.

B. Purchase of Commodity Items (Applicable to State Agency Purchases Only)

- i) Texas Government Code, §2157.068 requires State agencies to buy commodity items, as defined below, in accordance with contracts developed by DIR, unless the agency obtains an exemption from DIR or a written certification that a commodity is not on DIR contract (for the limited purpose of purchasing from a local government purchasing cooperative).
- ii) Commodity items are commercially available software, hardware and technology services that are generally available to businesses or the public and for which DIR determines that a reasonable demand exists in two or more state agencies. Hardware is the physical technology used to process, manage, store, transmit, receive or deliver information. Software is the commercially available programs that operate hardware and includes all supporting documentation, media on which the software may be contained or stored, related materials, modifications, versions, upgrades, enhancements, updates or replacements. Technology services are the services, functions and activities that facilitate the design, implementation, creation, or use of software or hardware.
