Approval of Multi-function Device (Copy/print/fax machine) Lease Consolidation Strategy for FY 23 for Purchasing Department

Submitted For: Joy Simonton **Submitted By:** Joy Simonton, Purchasing

Department: Purchasing

Agenda Category: Consent

Information

Agenda Item

Discuss, consider and take appropriate action for approval of Multi-function device contracting strategy for FY 23 devices. The Purchasing Department, IT Department and Budget Office seek to contract for County Multi-function Devices (MFD,) meaning copy/print/fax machines, in a more strategic and cost-effective way. This includes a standardization of devices, all inclusive pricing for black and white and color outputs, all service and coterminous lease dates.

Background

The MFD assessment, awarded through RFP#22RFP85 on 6/21/22 is nearing completion by Sharp. This initial phase has been conducted to inventory all of the County MFD and create a cost comparison of existing expenditures to proposed savings. As this analysis nears completion, staff seeks to assist departments in budgeting the correct figure for any devices that will be leased in FY 23, which is approximately 25 devices.

Departments have been cooperative this past year by extending their existing device leases that are scheduled to expire rather than create a new lease to assist with this project. That support combined with the assessment shows that the County can co-term the majority of its multifunction devices by 2027.

The Purchasing Department seeks the Court’s approval of this new contracting structure for FY 23. The structure represents a savings overall from our initial review.

Attachments herein include the Device Assessment for devices scheduled for replacement in FY 23 and the Transition Schedule Options. These options will be reviewed by the Commissioner's Court at a later date for consideration and approval.

Please see attached MFD listings that would utilize the new Sharp lease and program in FY 23. Staff seeks approval to request that departments budget for the new figures represented. Costs are for a 60 month term and include all black and white and color outputs and service.

Models	60 Payment
BP70C31	$ 135.33
MX 6071	$ 182.94
MX-C507F	$ 105.92

Specific device model assignments per department will be discussed and confirmed in the coming days with Department Heads, our IT Department and Sharp. A final lease document and recommendation for FY 23 devices will be brought back to Commissioner’s Court for approval. Expensed by department per approved budget only. Department point of contact is Joy Simonton.

Williamson County Coterminous Lease Options

Sharp recommends using all 60 month leases with 1 year extensions for lowest payment and coterminous end date of 2029

OPTION A

		2023	2024	2025	2026	2027	2028	2029
First PO	Jan-23	yr 1	yr 2	yr 3	yr 4	yr 5	1 yr ext	1 yr ext
Second PO	Jan-24		yr 1	yr 2	yr 3	yr 4	yr 5	1 yr ext
Third PO	Jan-25			yr 1	yr 2	yr 3	yr 4	yr 5

Fair Market Value Lease Options

MX-C507F	$ 57.92	$ 68.01	$ 84.98

Another alternative is to use shorter lease terms on the second and third PO's. This gets Wilco to coterminous in 2027 but increases overall lease costs.

Third PO	Jan-25			yr 1	yr 2	yr 3	36 month	36 month lease will increase payment by roughly 32% for these leases

Or you could meet in the middle and be coterminous in 2028 with combined approach

Approval and Ratification of Agreement for OpenRoads Designer Training with Mesa Integrated Solutions, Inc. for Road and Bridge Department

Submitted For: Joy Simonton **Submitted By:** Stephanie Robles, Purchasing

Department: Purchasing

Agenda Category: Consent

Information

Agenda Item

Discuss, consider, and take appropriate action on approval and ratification of purchase order in the amount of $8,550.00 for Open Roads Designer (ORD) Training Agreement with Mesa Integrated Solutions, Inc. for Road and Bridge Department and exempting the purchase from competitive bidding through Texas Local Government Code 262.024. DISCRETIONARY EXEMPTIONS (a)(4) a personal or professional service.

Background

The Open Roads Designer platform introduces a new 3D parametric modeling design environment providing capabilities for surveying, drainage, subsurface utilities, roadway design and site design. The Road and Bridge Department submitted requisition #129397 on July 22, 2022 for approval of OpenRoads Designer Training (ORD) for four (4) employees which consisted of training classes being held virtually via Teams in two segments by two Mesa Instructors. TxDOT has created the design templates and standards to be used for ORD software program, which Road and Bridge has adopted. It was beneficial to the department to enroll the Road and Bridge engineering staff in this training. Legal and Contract Audit have reviewed and approved the agreement with Mesa. The total cost of training, training manuals and shipping costs of the manuals is $8,550.00. Funding source: 01.0200.0210.004232. The point of contact is Kon Kwan.

DYER, RONALD TRAVIS & CANDACE SPRING DOC. #2005028042 DATED 03/21/2005

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY WATER DISTRIBUTION SYSTEM GENERAL CONSTRUCTION NOTES

1. This water distribution system must be constructed in accordance with the current Texas Commission on Environmental Quality (TCEQ) Rules and Regulations for Public Water Systems 30 Texas Administrative Code (TAC) Chapter 290 Subchapter D. When conflicts are noted with local standards, the more stringent requirement shall be applied. At a minimum, construction for public water systems must always meet TCEQ's "Rules and Regulations for Public Water Systems."
2. All newly installed pipes and related products must conform to American National Standards Institute (ANSI)/NSF International Standard 61 and must be certified by an organization accredited by ANSI [§290.44(a)(1)].
3. Plastic pipe for use in public water systems must bear the NSF International Seal of Approval (NSF-pw) and have an ASTM design pressure rating of at least 150 psi or a standard dimension ratio of 26 or less [§290.44(a)(2)].
4. No pipe which has been used for any purpose other than the conveyance of drinking water shall be accepted or relocated for use in any public drinking water supply [§290.44(a)(3)].
5. All water line crossings of wastewater mains shall be perpendicular [§290.44(e)(4)(B)].
6. Water transmission and distribution lines shall be installed in accordance with the manufacturer's instructions. However, the top of the water line must be located below the frost line and in no case shall the top of the water line be less than 24 inches below ground surface [§290.44(a)(4)].
7. The maximum allowable lead content of pipes, pipe fittings, plumbing fittings, and fixtures is 0.25 percent [§290.44(b)].
8. The contractor shall install appropriate air release devices with vent openings to the atmosphere covered with 16-mesh or finer, corrosion resistant screening material or an acceptable equivalent [§290.44(d)(1)].
9. The contractor shall not place the pipe in water or where it can be flooded with water or sewage during its storage or installation [§290.44(f)(1)].
10. When waterlines are laid under any flowing or intermittent stream or semi-permanent body of water the waterline shall be installed in a separate watertight pipe encasement. Valves must be provided on each side of the crossing with facilities to allow the underwater portion of the system to be isolated and tested [§290.44(f)(2)].
11. Pursuant to 30 TAC §290.44(a)(5), the hydrostatic leakage rate shall not exceed the amount allowed or recommended by the most current AWWA formulas for PVC pipe, cast iron and ductile iron pipe. Include the formulas in the notes on the plans.

- The hydrostatic leakage rate for polyvinyl chloride (PVC) pipe and appurtenances shall not exceed the amount allowed or recommended by formulas in America Water Works Association (AWWA) C-605 as required in 30 TAC §290.44(a)(5). Please ensure that the formula for this calculation is correct and most current formula is in use;

  Q = (LD√P)/148,000

  Where:
  - Q = the quantity of makeup water in gallons per hour,
  - L = the length of the pipe section being tested, in feet,
  - D = the nominal diameter of the pipe in inches, and
  - P = the average test pressure during the hydrostatic test in pounds per square inch (psi).

- The hydrostatic leakage rate for ductile iron (DI) pipe and appurtenances shall not exceed the amount allowed or recommended by formulas in America Water Works Association (AWWA) C-600 as required in 30 TAC §290.44(a)(5). Please ensure that the formula for this calculation is correct and most current formula is in use;

  L = (SD√P)/148,000

  Where:
  - L = the quantity of makeup water in gallons per hour,
  - S = the length of the pipe section being tested, in feet,
  - D = the nominal diameter of the pipe in inches, and
  - P = the average test pressure during the hydrostatic test in pounds per square inch (psi).

12. The contractor shall maintain a minimum separation distance in all directions of nine feet between the proposed waterline and wastewater collection facilities including manholes. If this distance cannot be maintained, the contractor must immediately notify the project engineer for further direction. Separation distances, installation methods, and materials utilized must meet §290.44(e)(1)-(4).
13. The separation distance from a potable waterline to a wastewater main or lateral manhole or cleanout shall be a minimum of nine feet. Where the nine-foot separation distance cannot be achieved, the potable waterline shall be encased in a joint of at least 150 psi pressure class pipe at least 18 feet long and two nominal sizes larger than the new conveyance. The space around the carrier pipe shall be supported at five-foot intervals with spacers or be filled to the springline with washed sand. The encasement pipe shall be centered on the crossing and both ends sealed with cement grout or manufactured sealant [§290.44(e)(5)].
14. Fire hydrants shall not be installed within nine feet vertically or horizontally of any wastewater line, wastewater lateral, or wastewater service line regardless of construction [§290.44(e)(6)].
15. Suction mains to pumping equipment shall not cross wastewater mains, wastewater laterals, or wastewater service lines. Raw water supply lines shall not be installed within five feet of any tile or concrete wastewater main, wastewater lateral, or wastewater service line [§290.44(e)(7)].
16. Waterlines shall not be installed closer than ten feet to septic tank drainfields [§290.44(e)(8)].
17. The contractor shall disinfect the new waterlines in accordance with AWWA Standard C651-14 or most recent, then flush and sample the lines before being placed into service. Samples shall be collected for microbiological analysis to check the effectiveness of the disinfection procedure which shall be repeated if contamination persists. A minimum of one sample for each 1,000 feet of completed waterline will be required or at the next available sampling point beyond 1,000 feet as designated by the design engineer [§290.44(f)(3)].
18. Dechlorination of disinfecting water shall be in strict accordance with current AWWA Standard C655-09 or most recent.

GENERAL NOTES:

1. ALL WORK DETAILED ON THESE PLANS SHALL BE CONSTRUCTED TO THE SATISFACTION OF THE DIRECTOR OF PUBLIC WORKS IN ACCORDANCE WITH THE STANDARD CONSTRUCTION SPECIFICATIONS AND REGULATIONS OF THE CITY OF TEMPLE, UNLESS OTHERWISE NOTED.
2. CONTRACTOR SHALL COMPLY WITH ALL CURRENT O.S.H.A. REQUIREMENTS REGARDING TRENCH SAFETY AND SHORING. IT IS THE CONTRACTOR'S RESPONSIBILITY TO DRAFT AND ADHERE TO A TRENCH SAFETY PLAN.
3. CONSTRUCTION SHALL BE IN ACCORDANCE WITH ALL T.C.E.Q. RULES AND REGULATIONS IN CHAPTER 290 OF PUBLIC DRINKING WATER IN THE TEXAS ADMINISTRATION CODE, MANUFACTURERS RECOMMENDATIONS AND GENERAL INDUSTRY PRACTICES.
4. THE PROPOSED WATERLINES SHALL BE PVC WATER PIPE AND SHALL MEET THE REQUIREMENTS OF AWWA STANDARD FOR POLYVINYL CHLORIDE (PVC) PRESSURE PIPE FOR WATER, AWWA STANDARD C900, WITH CAST-IRON OUTSIDE DIMENSIONS. THE PIPE WILL BE CLASS 150 (DR-18).
5. ALL WATER MAINS MUST BE 42" BELOW FINISHED GRADE.
6. ALL WATER LINES SHOWN ARE PROPOSED UNLESS OTHERWISE NOTED.

Discuss, consider and take appropriate action on a succession planning position for the Sheriff's Office.

Background

A request is being made to create a succession planning position for the Sheriff's Office. The current Financial Manager is leaving with a last day of 8/5/22. Because the Sheriff's Office salary line has vacancy dollars available, no leave funding is needed. To allow for shadowing for three days, 8/3/22 through 8/5/22, we are requesting a total of $1,205.30 (salary and fringe). The Financial Manager position reports directly to the Sheriff. This request is within policy as approved by the Commissioners Court.

RESOLUTION

WHEREAS, the Highland Lakes are the primary water supply for Central Texas; and

WHEREAS, Cedar Park and Leander, having grown 59% and 123% respectively in the latest census from 2010 to 2020, derive 100% of their water from Lake Travis, as does the Austin part of Williamson County, and Round Rock receives 2.85% of their water so far in 2022 from Lake Travis; and

WHEREAS, it is projected that Central Texas could add up to one million new residents by 2030; and

WHEREAS, more arid weather conditions shifting eastward to include Texas have led the state climatologist to observe that sustained drought conditions could become permanent; and

WHEREAS, current water inflows, the estimated amount of water flowing into Lakes Buchanan and Travis from rivers and streams, continue to decline sharply with most monthly totals lower than the average for the historic drought of record; and

WHEREAS, the June average inflows from 1942 to 2007 was 160,646 acre feet, and the June average from 2008-2015 was 24,718 acre feet, and the June 2022 average was 4,364 acre feet; and

WHEREAS, the dividing line of increasing risk of periods of drought has moved from 100 degrees west to 98 degrees west longitude, which goes right through the middle of our neighbor to the west, Burnet County; and

WHEREAS, the Highland Lakes were created to manage floods, provide hydroelectric generation, and to ensure the region has a reliable water supply and not for the rice industry, which uses huge amounts of water while paying for it with deeply discounted rates; and

WHEREAS, the current LCRA Water Management Plan needs modernization to reflect the region's paradigm shift of increasing water needs and drier weather patterns;

NOW, THEREFORE, BE IT RESOLVED, that we, the Williamson County Commissioners Court, do hereby request:

1. That the LCRA work with local leaders and stakeholders to accelerate the update of its Water Management Plan to implement a more protective

approach to managing the Highland Lakes in 2022 and into the future;

2. That updates to the Water Management Plan reflect-

- Current scientific research and data
- Acknowledgement of the significant decline in water flowing into the Highland Lakes
- Provisions that encourage conservation by all water users
- Preparation for greatly increased water demands in Central Texas; and

3. That the LCRA obtain information on the causes for, and consequences of, the dramatic declines in inflows to the Highland Lakes, to assure that this phenomenon is accounted for in the updated Water Management Plan;

5. That the LCRA facilitate smart water distribution and usage, including the implementation of modern and efficient water use practices in large irrigation settings suitable to an arid climate; and

6. That the LCRA expand its public outreach and input opportunities and establish advisory committees of local officials, business leaders, stakeholder organizations, and area residents to foster an increased opportunity for transparent open discussion and collaboration on issues that affect the water supply and economy for almost two million Central Texans.

Economic Impacts of Severe Droughts

June 14, 2022

Between population growth and increasingly extreme weather, Texas faces the potential for worsening droughts and a flood of negative economic impacts. In the third report in the *Investing in Texas* series, the Center for Public Finance at Rice University's Baker Institute for Public Policy, supported by Texas 2036, examines the costs to Texas of a future with rising water demand and a dwindling supply of water.

Texas State Water Plan

Every five years, Texas produces the State Water Plan to provide an overview of water use trends and to identify critical water supplies to address projected water needs. The 2022 plan focuses on 2020–2070. Based on 16 regional plans, the statewide plan projects that Texas will face increased demands and decreased supplies and includes recommended water supply projects and strategies to meet growing needs.

PROJECTED WATER DEMAND	PROJECTED SUPPLY DECREASE	RECOMMENDATIONS	
9% Increase 17.7M acre-feet to 19.2M acre-feet*	**18% Decrease** 16.8M acre-feet to 13.8M acre-feet	**5,800 Water Management Strategies** Per year water supply ↑ 2020: 1.7M acre-feet 2070: 7.7M acre-feet**	**2,400 Water Management Strategy Projects** Water supply ↑ through new infrastructure = est. cost: $80 billion

**One acre-foot equals about 326,000 gallons, or enough water to cover an acre of land, about the size of a football field, one foot deep.*
***For the lists of recommended water management strategies and projects, visit www.twdb.texas.gov/waterplanning/swp/2022.*

A Brief Timeline of Statewide Water Planning

1950s	1957	1961	1997	2010-2014
A 7-year dry spell left all but one Texas county classified as a disaster area. This **Drought of Record** is the current benchmark for future disaster planning.	The state legislature created the **Texas Water Development Board** to ensure water-related financial and logistical assistance.	The board began publishing the **State Water Plan**, Texas' most comprehensive water supply planning tool.	After another severe drought, a regional water planning process began, shifting from a centralized model to the local level.	2011: The worst one-year drought in Texas' history hits, costing the state's agriculture sector $7.6 billion, according to the State Comptroller.

To download a copy of the report, visit www.texas2036.org/investing-in-texas.

Economic Impacts: Statewide

According to a recent Texas State Climatologist report, extreme weather patterns may reduce water availability and increase the intensity of future droughts.

Statewide water needs will jump by more than 80% between 2020 and 2050, from 3.1 million acre-feet to 5.7 million acre-feet. This shift in water availability will negatively impact existing businesses and future economic development.

The following charts forecast the impacts of severe drought on the state's economy if the State Water Plan recommendations are not implemented and if Texas were to experience a dry spell that matches or surpasses the Drought of Record. The potential losses reflect any one given year within that decade.

NEGATIVE IMPACTS	2020-29	2030-39	2040-49	2050-59
Gross domestic product loss	$98.2B	$111.1B	$111.1B	$117.6B
Tax revenue loss on production & imports	$9.9B	$10.5B	$9.7B	$9.5B
Job loss	598,210	756,637	850,470	988,056

Due to data and methodological limitations, the actual economic impacts are likely significantly larger.

Economic Impacts: Industry

Throughout Texas Water Development Board's 16 regions, the economic impacts vary depending on the area's primary industry sector. Collectively, current projections show that manufacturing, energy and agriculture are especially at risk for the potential of financial downturns due to severe droughts. This data reflects the regions where each industry is most influential to its economy.

A Closer Look: Semiconductor Manufacturing

According to the State Comptroller, global semiconductors trade equaled nearly $2 trillion in 2020, making these "chips"—the brains behind devices—the fourth-most highly traded product in the world. With more than 200 semiconductor facilities in Texas, the state is well positioned to be an industry leader.

In 2020, Texas led the nation in chip exports and was the No. 2 employer in the U.S. It also contributed $15.3 billion to the state's GDP. To attract more semiconductor investment, including two key future federal institutes, the state launched the National Semiconductor Centers Texas Task Force in Oct. 2021.

If a Drought of Record occurs this decade, the semiconductor industry is expected to lose $2.7 billion in any given year, with losses expected to exceed $6.1 billion by the middle of the century. To continue Texas' ascent in the industry, planning and mitigating the potential for future severe drought must be prioritized.

CENTRAL TEXAS WATER COALITION

Protecting our Highland Lakes Water Supply

CHALLENGES:

- It is projected that the region **could add up to one million residents by 2030** requiring more than 40 billion gallons of additional water each year.
- Most LCRA **new water projects are focused on the lower basin**.
- **More arid weather patterms are shifting eastward** stretching into Central Texas and bringing with it more extended droughts.
- **Inflows into the lakes are far lower** than what they have been historically.
- LCRA's water management policies must be changed to reflect this paradigm shift with a **more protective approach to managing the water supply** for two million Central Texans.

SOLUTIONS:

- **Greater LCRA transparency** and increased opportunity for public discussion & engagement.
- **Downstream irrigators should pay the full cost** of the water, just like everyone else, and NOT be subsidized by LCRA.
- **Update LCRA's current Water Management Plan with more protective approach** to managing water supply.
    - Adopt policies that reflect **smart use and conservation by all, including downstream irrigators**.
        - Invest in new water resources for upper basin
        - Encourage use of more modern and efficient irrigation methods for all
- **Modernize Water Management Plan that:**
    - Incorporates declining inflow data and climatology
    - Addresses factors that are reducing inflows
        - Water wells, stock ponds, brush vegetation
    - Includes usage by downstream irrigators
    - Includes environmental releases
    - Provides a Safe Yield

Terms and Conditions:

1. All use of the Products and Services specified above will be governed by the terms of these Customer Licensing Terms, and the version of the Adobe Enterprise Licensing Terms in effect as of the date Customer issues a purchase order to Reseller and available at www.adobe.com/legal/terms/enterprise-licensing.html, including the General Terms and the applicable Product Specific Licensing Terms ("PSLT(s)") (collectively, the "Agreement"). If there is any inconsistency between the parts of this Agreement, then the part listed earlier will prevail to the extent of the inconsistency: (i) these Customer Licensing Terms; (ii) the applicable PSLT(s); and (iii) the General Terms. Capitalized terms used in these Customer Licensing Terms have the meanings set out in applicable modules of the Adobe Enterprise Licensing Terms, unless otherwise specified.

2. Adobe is not entering into a direct purchasing relationship with Customer for the Products and Services. Reseller is solely responsible for setting the terms of payment with Customer (including but not limited to when payments by Customer are due to Reseller).

3. Customer may deploy the specified quantity of Products and Services identified in the Products and Services Pricing Detail within the entirety of Customer's organization. If an individual ceases to be an employee or contractor of Customer during the term of a license or no longer needs to use a Product or Service, and Customer de-installs the Product or Service from the Computer of that employee or contractor, a different employee or contractor may then use a new ID and password without being deemed an additional User.

4. For those Products and Services that are licensed for a specific quantity, Customer must submit monthly reports of any deployment of the Products and Services in excess of the quantities previously purchased using the form found at http://www.adobe.com/go/trueup. Such reports, along with a corresponding order, must be provided by Customer to Reseller on a monthly basis and must reflect deployments made on specified dates during the preceding monthly period.

5. Adobe will provide support services for the Products and Services as described at https://helpx.adobe.com/support/programs/support-policies-terms-conditions.html.

6. The License Term for the Products and Services extends for twelve months ("Base Year") and may be renewed for up to two successive one year terms (each, an "Option Year") for the fees set forth in the Products and Services Pricing Detail by providing Reseller 30 days prior written notice, provided that 1) the quantity of any identified licenses does not decrease and 2) if the license is for an Adobe Sign Subscription, that Customer does not process Transactions beyond the Subscription Limit during the preceding Base Year or Option Year. Any renewal of the License Term or exercise of an Option Year must reflect the quantities set forth herein. Unless the license is for an Adobe Sign Subscription, the Option Year must also include any excess quantities that were added on and/or trued up during the entire License Term and any exercised Option Years. If Customer desires to renew the License Term or exercise an Option Year with a reduction of the quantities described above, then Customer and Reseller must enter into an addendum to their agreement, which may reflect revised unit pricing.

7. Customer acknowledges and agrees that it may not assign or otherwise transfer licenses to the Products and Services to any other government or other entity without Adobe's prior written approval.

8. By placing an order with Reseller for the Products and Services, Customer will be deemed to have accepted these Customer Licensing Terms and the applicable Adobe Enterprise Licensing Terms. Customer must also attach a copy of these Customer Licensing Terms to its corresponding purchase order to Reseller.

Award of IFB #22IFB125 Expo Center Fence Installation to Texas Fence LLC for Parks Department Department

Submitted For: Joy Simonton **Submitted By:** Gretchen Glenn, Purchasing

Department: Purchasing

Agenda Category: Regular Agenda Items

Information

Agenda Item

Discuss, consider, and take appropriate action on awarding IFB #22IFB125 Expo Center Fence Installation to the lowest and best bidder, Texas Fence LLC, in the amount of $56,314.00. Funding Source is P591.

Background

Williamson County sent out over two thousand (2000) notifications with twenty-six (26) document takers with four (4) submitting bids. The bids have been reviewed and the apparent low bidder, Texas Fence LLC, was found to be responsive and materially balanced. Their lowest bid of $56,314.00 was 1.2% lower than the engineers estimate. The bidding was competitive with the lowest two bidders being within 9.28% of each other. In addition to meeting the bid qualifications subject to being low bidder, Texas Fence LLC has successfully completed previous projects for Williamson County. Based on quality of work performed by Contractor and favorable working relationship with the County and its representatives it is recommended to award the Expo Center Fence Installation IFB #22IFB125 contract to Texas Fence LLC. Funding Source is P591. Contact is Jason Brown.

3866 Forest North Drainage Improvements Phase 3 - Change Order #12 (WilCo Final Balancing)

Submitted By: Julissa Vasquez, Road Bond

Department: Road Bond

Agenda Category: Regular Agenda Items

Information

Agenda Item

Discuss, consider, and take appropriate action regarding Change Order No. 12 in the amount of ($17,206.66) for Project 3866-Forest North Phase 3 Drainage Improvements (DeNucci Constructors) P: 225 Funding Source: Road Bond.

Background

This Change Order provides the balancing for the overruns/underruns of Contract quantities on the project paid for by Williamson County. The overruns were a result of addressing field conditions not accounted for in the original plans. This Change Order corrects the number of mailboxes billed to the City of Austin (COA). The City of Austin was only responsible for relocating 9 mailboxes and the County was responsible for relocating 30 mailboxes.

This Change Order results in a net decrease of $17,206.66 to the Contract amount, for an adjusted Contract total of $5,017,393.15. The original Contract amount was $4,793,058.15. Due to all Change Orders to-date, $224,335.00 has been added to the Contract amount. IV. CATASTROPHIC EVENT PAY

PURPOSE

Establish a policy for Williamson County setting forth the compensation of exempt and non-exempt employees for an activation of the Williamson County Emergency Operation Plan during a declared disaster, catastrophic event, or qualifying event. Nothing in this policy shall be construed as changing the "at will" status of any person employed by Williamson County.

BACKGROUND

Williamson County will compensate those essential employees who are required to work outside of their normal work schedule when assisting in the management of a local qualifying event, or when necessary to assist other agencies in managing events outside of the local jurisdiction. Examples of qualifying events include, but are not limited to, the following:

A. Certain catastrophic local events including, but not limited to: floods, hurricanes, tornados, and other Acts of God, nuclear, chemical, and biological emergencies, terrorist attack(s), or any other emergency declared by a federal, state or local authority.

B. When assigned to support an event, internal or external, to the County's jurisdiction; For personnel assigned and deployed to select teams, including, but not limited to: Williamson County Emergency Operations Center and Local, Regional, State and Federal Deployments.

POLICY

1. **Non-exempt Compensation**

Any non-exempt employee who is recalled to duty during a catastrophic event, who works in- excess of forty (40) hours in a work week, or 86-hours in the pay period for those on the law enforcement pay plan, will be paid overtime for additional hours worked. Note that the general rules of compensable time apply to work performed under the circumstances covered by this policy. Refer to the Williamson County Handbook or contact Human Resources if you have questions about what is considered compensable time.

2. **Exempt Compensation**

At the Commissioners Court discretion, any salaried exempt employee who is required to work hours in-excess of their normal work schedule (eighty hours in a

pay period) during a declared disaster, Catastrophic Event, or qualifying event as outlined in this procedure may be compensated during the declaration period at a determined hourly rate. Only pay periods with hours worked that equal or exceed 88 hours and at least 8 hours for the event, should be submitted for possible compensation.

V. FINANCIAL POLICIES

1. **Fund Balance Policy:** Williamson County recognizes the financial importance of maintaining an appropriate level of Unassigned Fund Balance. A formalized Fund Balance Policy demonstrates to the taxpayer fiscal prudence and the ability to meet its obligations in a timely manner. Independent financial analysts rate the county's financial stability. The county's credit strength and strong management control reported by these analysts is, in part, a result of this Fund Balance Policy.

> Williamson County will maintain reservations of Fund Balance, in accordance with Governmental Accounting and Financial Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Policy shall only apply to the County's governmental funds. Fund Balance shall be composed of non-spendable, restricted, committed, assigned and unassigned amounts.

2. **General Fund:** Unassigned Fund Balance represents the difference between assets and liabilities that is available for appropriation.

Williamson County will maintain an appropriate level of Unassigned Fund Balance in the General Fund to protect against a reduction of services due to temporary revenue shortfalls or unexpected one-time expenditures. It also helps to ensure stable tax rates. The level of Unassigned Fund Balance for the General Fund shall not be less than 35% of total General Fund budgeted expenditures.

The goal of each year's budget process will be to adopt a budget that maintains compliance with the General Fund Unassigned Fund Balance Policy. If it is determined there is a surplus (an amount exceeding the target limit), the funds may be designated or appropriated for the following, including, but not limited to:

- Tax rate stabilization.
- Only one-time, non-recurring expenditures, such as capital improvement needs.
- Address any shortfall in related funds, i.e. Road and Bridge Fund.
- Reduction of debt; to include capital leases.

If it is determined there is a deficit (an amount below the lower limit), the County must develop a plan to rebuild the Unassigned Fund Balance to 35%.

3. **Tobacco Fund:** The initial distribution of Williamson County's share of the settlement established the fund in 1999. Revenues to the fund consist of interest income and the annual distribution by the state of the state trust earnings. To ensure continuation of the fund, the Williamson County Commissioners Court has designated the portion of fund balance representing the amount of the original settlement ($2.5M). Designation means that this amount, or "principal" balance, cannot be expended. In addition to the original settlement amount, each year, 20% of the revenues from both interest income and the annual distribution from the state

will be added to the designated fund balance in order to allow the fund to grow over time. Only 80% of revenues earned from interest and the earnings distributed annually by the state will be budgeted and expended. When determining the next year's budget, the amount available to expend will be calculated using actual revenue and interest revenue amounts from May 1st of the previous year to April 30th of the current year. Any unspent funds at the end of the fiscal year will be available to budget in the next year. If Tobacco Fund expenditures are budgeted to offset expenditures in other funds, the actual program cost to the other Funds will be determined prior to transferring in any dollars from the Tobacco Fund. This available balance will be tracked annually by the County Auditor's office.

4. **Self-Insured Health Plan Fund Policy**: Unassigned Fund Balance represents the difference between assets and liabilities that is available for appropriation. Williamson County will maintain an appropriate level of Unassigned Fund Balance in the Benefits Fund to protect against an inability to pay for claims and administration associated with the self- insured health plan due to temporary revenue shortfalls. It also helps to ensure stable employer and employee contribution rates.

The Self-Funded Health Plan Fund currently has a "goal of reaching and maintaining 25% of expected claims". The goal of each year's budget process will be to endeavor to adopt a budget that maintains compliance with the Benefits Fund Unassigned Fund Balance Policy.

If it is determined there is a surplus (an amount exceeding the target limit), the funds may be designated or appropriated for contribution rate stabilization.

If it is determined there is a deficit (an amount below the lower limit), the County may develop a plan to rebuild the Unassigned Fund Balance to 25% of expected claims.

5. **Radio Communication Systems (RCS) Fund Policy:** Unassigned Fund Balance represents the difference between assets and liabilities that is available for appropriation. Williamson County will maintain an appropriate level of Unassigned Fund Balance in the Radio Communications Systems Fund to protect against unforeseen operating issues. These unforeseen issues can result from environmental or project related items. It also helps to ensure stable radio user fees for the user community.

The Radio Communication Systems Fund has a "goal of reaching and maintaining 30% of total Radio Communication Systems expenditure budget.

If it is determined there is a surplus (an amount exceeding the target limit), the funds may be designated or appropriated for:

- Only one-time, non-recurring expenditures, such as tower improvements
- Fee stabilization

If it is determined there is a deficit, the Radio Communication Systems Board will develop and recommend a plan to the County to rebuild the Unassigned Fund Balance to 30%.

Use and Distribution of Specific Special Revenue Funds and Accounts

6. **Child Safety Fund:** – This fund is used to deposit a $1.50 fee collected on each vehicle registration and court costs collected by justice, county, or district courts for violations that occur within a school-crossing zone of $25 per violation. This fund is used to provide a school crossing guard program and/or programs designed to enhance child safety, health, or nutrition. The Commissioners Court, by an order adopted in October 2010, has directed these funds to be distributed in the following manner: 10% of Total Collections less an administrative fee shall be distributed to the Williamson County's Children's Advocacy Center. The remainder shall be distributed to the school districts on a pro rata basis based on attendance. These funds will be distributed annually after the close of the prior fiscal year.

7. **School Fund:** Williamson County maintains a working interest ownership in two natural gas producing properties located on what was formerly county-owned property. The mineral rights that have been retained are designated to be distributed to school districts within the county based on the number of students who reside in the county. This distribution will occur annually at the close of each fiscal year and will coincide with the distribution of the Child Safety Fund proceeds.

8. **Employee Fund**: The Employee fund is used to deposit ~~pro~~ceeds collected from Williamson County's vending machine contract. Use of these funds must be **pre-approved** by the County Judge.

These funds may be used for the following purposes:

a) To offset the cost of county employee events

    iii. Employee with 20 years of service or more

No reimbursement of sales tax will be allowed.
The amount allowed for use may never exceed the actual balance in the fund.

9. **WM-City of Hutto and Hutto ISD Fund**: The WM-City of Hutto and Hutto ISD Fund consists of proceeds paid by Waste Management annually. Per the agreement, these funds represent 2% of the Tip Fee and are to be expended for the benefit of the City of Hutto and Hutto ISD. The expenditures are at the County's sole option. The annual distribution will be allocated 50% to the City of Hutto and 50% to Hutto ISD. Each entity is required to request any disbursements from the fund.

10. **Williamson County Community Facility Fund:** This fund consists of fees collected through the Williamson County Landfill. Community organizations, groups, and individuals may submit a funding request to the Williamson County Commissioners Court for the construction, improvement, or remodel of community facilities located in Williamson County that serve a public purpose.

12. **Financial – General Procedures**

a) Any mailings sent by a county department or official using county funds must be in furtherance of legitimate county business and must comply with all state ethics rules and other laws and regulations.

b) All county meetings should be held in county facilities whenever feasible and such facilities are available. If the county meeting space is not available, other publicly owned facilities, such as those owned by cities, utility districts, or school districts, should be utilized as the rental of these facilities is often at little or no cost.

i) +

c) All recruitment items purchased must comply with Article III, section 52 of the Texas Constitution. Thus, the predominant purpose of any expenditures on recruitment materials must be to accomplish a "direct" public purpose and be in compliance with the provisions of this policy in order to ensure that Williamson County receives a return of public benefit from said expenditures. Williamson County recognizes the need to identify, recruit and hire qualified employees.

i) Funds for recruitment items must be approved during the annual budget process.
ii) Items must not state the name of any individual, but instead the name of the county and/or department or office.
iii) "Give way" items such as pens, pencils, etc. should not exceed $2.00 per item.

The departments should have this money approved and budgeted in line item 004209. For the majority of County employees, a Stipend Policy has been implemented and is laid out below. These dollars are approved and budgeted in line item 001109.

Procedures for the Stipend Policy

5. Expenditures over the allowed stipend will not be reimbursed.

6. An approved cell phone stipend will not follow an employee if the employee changes positions.

7. Each department head or elected official is responsible for verifying and monitoring that their employees receiving a cell phone stipend have obtained the required service. Disciplinary action up to and including termination may result in an employee who receives a stipend and

does not provide their department head or elected official with the proper documentation of cell phone service, if requested. Each department will maintain a list of cell phone numbers for those individuals with stipends for audit purposes.

8. To minimize the risk of incurring unpaid time worked, Offices and Departments should carefully monitor phone and e-mail access outside of scheduled time worked for non-exempt employees. Failure to comply with this policy may result in termination.

IV. CATASTROPHIC EVENT PAY

PURPOSE

Establish a policy for Williamson County setting forth the compensation of exempt and non-exempt employees for an activation of the Williamson County Emergency Operation Plan during a declared disaster, catastrophic event, or qualifying event. Nothing in this policy shall be construed as changing the "at will" status of any person employed by Williamson County.

BACKGROUND

Williamson County will compensate those essential employees who are required to work outside of their normal work schedule when assisting in the management of a local qualifying event, or when necessary to assist other agencies in managing events outside of the local jurisdiction. Examples of qualifying events include, but are not limited to, the following:

A. Certain catastrophic local events including, but not limited to: floods, hurricanes, tornados, and other Acts of God, nuclear, chemical, and biological emergencies, terrorist attack(s), or any other emergency declared by a federal, state or local authority.

B. When assigned to support an event, internal or external, to the County's jurisdiction; For personnel assigned and deployed to select teams, including, but not limited to: Williamson County Emergency Operations Center and Local, Regional, State and Federal Deployments.

POLICY

1. **Non-exempt Compensation**

Any non-exempt employee who is recalled to duty during a catastrophic event, who works in- excess of forty (40) hours in a work week, or 86-hours in the pay period for

those on the law enforcement pay plan, will be paid overtime for additional hours worked. Note that the general rules of compensable time apply to work performed under the circumstances covered by this policy. Refer to the Williamson County Handbook or contact Human Resources if you have questions about what is considered compensable time.

2. **Exempt Compensation**

At the Commissioners Court discretion, any salaried exempt employee who is required to work hours in-excess of their normal work schedule (eighty hours in a pay period) during a declared disaster, Catastrophic Event, or qualifying event as outlined in this procedure may be compensated during the declaration period at a determined hourly rate. Only pay periods with hours worked that equal or exceed 88 hours and at least 8 hours for the event, should be submitted for possible compensation.

V. FINANCIAL POLICIES

1. **Fund Balance Policy:** Williamson County recognizes the financial importance of maintaining an appropriate level of Unassigned Fund Balance. A formalized Fund Balance Policy demonstrates to the taxpayer fiscal prudence and the ability to meet its obligations in a timely manner. Independent financial analysts rate the county's financial stability. The county's credit strength and strong management control reported by these analysts is, in part, a result of this Fund Balance Policy.

Williamson County will maintain reservations of Fund Balance, in accordance with Governmental Accounting and Financial Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This Policy shall only apply to the County's governmental funds. Fund Balance shall be composed of non-spendable, restricted, committed, assigned and unassigned amounts.

2. **General Fund:** Unassigned Fund Balance represents the difference between assets and liabilities that is available for appropriation.

Williamson County will maintain an appropriate level of Unassigned Fund Balance in the General Fund to protect against a reduction of services due to temporary revenue shortfalls or unexpected one-time expenditures. It also helps to ensure stable tax rates. The level of Unassigned Fund Balance for the General Fund shall not be less than 35% of total General Fund budgeted expenditures.

The goal of each year's budget process will be to adopt a budget that maintains compliance with the General Fund Unassigned Fund Balance Policy. If it is determined there is a surplus (an amount exceeding the target limit), the funds may be designated or appropriated for the following, including, but not limited to:

- Tax rate stabilization.
- Only one-time, non-recurring expenditures, such as capital improvement needs.
- Address any shortfall in related funds, i.e. Road and Bridge Fund.
- Reduction of debt; to include capital leases.

If it is determined there is a deficit (an amount below the lower limit), the County must develop a plan to rebuild the Unassigned Fund Balance to 35%.

3. **Tobacco Fund:** The initial distribution of Williamson County's share of the settlement established the fund in 1999. Revenues to the fund consist of interest income and the annual distribution by the state of the state trust earnings. To ensure continuation of the fund, the Williamson County Commissioners Court has designated the portion of fund balance representing the amount of the original settlement ($2.5M). Designation means that this amount, or "principal" balance, cannot be expended. In addition to the original settlement amount, each year, 20% of the revenues from both interest income and the annual distribution from the state will be added to the designated fund balance in order to allow the fund to grow over time. Only 80% of revenues earned from interest and the earnings distributed annually by the state will be budgeted and expended. When determining the next year's budget, the amount available to expend will be calculated using actual revenue and interest revenue amounts from May 1st of the previous year to April 30th of the current year. Any unspent funds at the end of the fiscal year will be available to budget in the next year. If Tobacco Fund expenditures are budgeted to offset expenditures in other funds, the actual program cost to the other Funds will be determined prior to transferring in any dollars from the Tobacco Fund. This available balance will be tracked annually by the County Auditor's office.

4. **Self-Insured Health Plan Fund Policy**: Unassigned Fund Balance represents the difference between assets and liabilities that is available for appropriation. Williamson County will maintain an appropriate level of Unassigned Fund Balance in the Benefits Fund to protect against an inability to pay for claims and administration associated with the self- insured health plan due to temporary revenue shortfalls. It also helps to ensure stable employer and employee contribution rates.

The Self-Funded Health Plan Fund currently has a "goal of reaching and maintaining 25% of expected claims". The goal of each year's budget process will be to endeavor to adopt a budget that maintains compliance with the Benefits Fund Unassigned Fund Balance Policy.

If it is determined there is a surplus (an amount exceeding the target limit), the funds may be designated or appropriated for contribution rate stabilization.

If it is determined there is a deficit (an amount below the lower limit), the County may develop a plan to rebuild the Unassigned Fund Balance to 25% of expected claims.

5. **Radio Communication Systems (RCS) Fund Policy:** Unassigned Fund Balance represents the difference between assets and liabilities that is available for appropriation. Williamson County will maintain an appropriate level of Unassigned Fund Balance in the Radio Communications Systems Fund to protect against unforeseen operating issues. These unforeseen issues can result from environmental or project related items. It also helps to ensure stable radio user fees for the user community.

The Radio Communication Systems Fund has a "goal of reaching and maintaining 30% of total Radio Communication Systems expenditure budget.

If it is determined there is a surplus (an amount exceeding the target limit), the funds may be designated or appropriated for:

- Only one-time, non-recurring expenditures, such as tower improvements
- Fee stabilization

If it is determined there is a deficit, the Radio Communication Systems Board will develop and recommend a plan to the County to rebuild the Unassigned Fund Balance to 30%.

Use and Distribution of Specific Special Revenue Funds and Accounts

6. **Child Safety Fund:** – This fund is used to deposit a $1.50 fee collected on each vehicle registration and court costs collected by justice, county, or district courts for violations that occur within a school-crossing zone of $25 per violation. This fund is used to provide a school crossing guard program and/or programs designed to enhance child safety, health, or nutrition. The Commissioners Court, by an order adopted in October 2010, has directed these funds to be distributed in the following manner: 10% of Total Collections less an administrative fee shall be distributed to the Williamson County's Children's Advocacy Center. The remainder shall be distributed to the school districts on a pro rata basis based on attendance. These funds will be distributed annually after the close of the prior fiscal year.

7. **School Fund:** Williamson County maintains a working interest ownership in two natural gas producing properties located on what was formerly county-owned property. The mineral rights that have been retained are designated to be distributed to school districts within the county based on the number of students who reside in the county. This distribution will occur annually at the close of each fiscal year and will coincide with the distribution of the Child Safety Fund proceeds.

8. **Employee Fund**: The Employee fund is used to deposit ~~created with~~ proceeds collected from Williamson County's vending machine contract. Use of these funds must be **pre-approved** by the County Judge.

    ii. $60.00 allowed for employees with up to 15 years of service
    iii. $120.00 allowed for employees with over 15 years of service

    ii. Department Head who must be vested (8 years of service)
    iii. Employee with 20 years of service or more

No reimbursement of sales tax will be allowed.
The amount allowed for use may never exceed the actual balance in the fund.

9. **WM-City of Hutto and Hutto ISD Fund**: The WM-City of Hutto and Hutto ISD Fund consists of proceeds paid by Waste Management annually. Per the agreement, these funds represent 2% of the Tip Fee and are to be expended for the benefit of the City of Hutto and Hutto ISD. The expenditures are at the County's sole option. The annual distribution will be allocated 50% to the City of Hutto and 50% to Hutto ISD. Each entity is required to request any disbursements from the fund.

10. **Williamson County Community Facility Fund:** This fund consists of fees collected through the Williamson County Landfill. Community organizations, groups, and individuals may submit a funding request to the Williamson County Commissioners Court for the construction, improvement, or remodel of community facilities located in Williamson County that serve a public purpose.

~~11. **Use of Flex Funding Account for Mental Health Mobile Outreach Team:** In order to mitigate the incidence of public mental health crisis and save the taxpayers from spending additional funds on costs that could otherwise be limited for *public* health-related services, the Williamson County Commissioners Court finds there is compelling need to establish and authorize the use of a mental health Flex Funding Account by the Mobile Outreach Team.~~

~~Therefore, pursuant to the Texas Local Government Code, § 111.068(b) (citing the "interest of the tax payers" in budget matters), the Texas Health and Safety Code, § 121.003(a) (authorizing commissioners court to "enforce any law that is reasonably necessary to protect the public health."), and the common law granting the County authority to regulate the public health and safety, the Williamson County Commissioners Court approves the Mental Health Mobile Outreach Team Flex Funding Account. Typical Flex Funding expenditures may include, but are not limited to transportation vouchers, payment for medical appointments, medication/pharmacy vouchers/payments, payment for therapy sessions (short to mid-term), food and motel vouchers, payment toward utility or other essential household bills. The Mobile Outreach Team has Policies and Procedures to ensure compliance with this policy. The fund is subject to further oversight, including, but not limited to, auditing by the Williamson County Auditor's Office.~~

Commented [AS17]: The last remaining MOT employee may have need for Flex Funding and, therefore, this section requires further discussion by the Court.

12. **Financial – General Procedures**

a) Any mailings sent by a county department or official using county funds must be in furtherance of legitimate county business and must comply with all state ethics rules and other laws and regulations.

b) All county meetings should be held in county facilities whenever feasible and such facilities are available. If the county meeting space is not available, other publicly owned facilities, such as those owned by cities, utility districts, or school districts, should be utilized as the rental of these facilities is often at little or no cost.

~~c) Transfer of funds **out** of the following line items will not be allowed:~~

~~i) Training~~
~~ii) Gasoline~~
~~iii) Cell Phones~~

~~iv) RCS Radio Fees~~

~~d) Transfer of funds **into** any of the above line items may be allowed.~~
~~e) Transfer of funds out of, within, or to the following line items will not be allowed, with the exception of line item 1107/Temp Seasonal:~~

~~i) Salaries. This pertains to salary line items that are budgeted based on position control. This includes object codes 1100, 1101, and 1105. Line item transfers between 8000 accounts and salary lines for the purpose of merit money +allocation/re-allocation are permissible and will be placed on the agenda for Commissioners Court approval/review.~~
~~ii)~~i) ~~Fringe Benefits.~~

Commented [AS18]: Moved to Budget Policy per Ashlie Holladay

~~f)~~c) All recruitment items purchased must comply with Article III, section 52 of the Texas Constitution. Thus, the predominant purpose of any expenditures on recruitment materials must be to accomplish a "direct" public purpose and be in compliance with the provisions of this policy in order to ensure that Williamson County receives a return of public benefit from said expenditures. Williamson County recognizes the need to identify, recruit and hire qualified employees.

i) Funds for recruitment items must be approved during the annual budget process.
ii) Items must not state the name of any individual, but instead the name of the county and/or department or office.
iii) "Give way" items such as pens, pencils, etc. should not exceed $2.00 per item.

All purchases must follow procurement guidelines.

VII. COUNTY VEHICLES

1. It is prohibited by law to utilize county owned vehicles for personal use. Any county employee that resides outside the county and utilizes a county owned vehicle during their workday, is required to return that vehicle to their primary work location following their assigned work shift. Elected Officials or Senior Directors may grant an employee the ability to take a County vehicle home for a specific occasion or an event, if it is in the business interest of the County to do so.

The following is an all-inclusive list of positions that may be required to respond to emergencies outside of their normal work assignments, and may, with the concurrence of their department head or elected official, take a county vehicle to their residence, within Williamson County, at the end of their shift to allow them to respond as required.

Commented [AS22]: Per Julie Kiley, deleted individuals no longer work with the County; T. Allen has a name change to Huntley. This employee is the last remaining MOT employee. She is being supervised by the Sheriff's Office but paid out of the Tobacco Fund. Need Commissioners Court guidance on where to put this position.

The following list has been exempted from the out of county policy for take home vehicles by the court.

Sheriff's Office
W. Steffen
J. Sapien
J. Helm
J. Guinn
J. Foster

County vehicles assigned to departments or individuals that are not take-home vehicles, shall be returned and parked at the end of each workday at the facility where the primary office is located. The Auditor's Office is a non-voting member. The Purchasing Department shall coordinate the annual vehicle solicitation each summer with the goal of issuing all vehicle purchase orders for the upcoming fiscal year in the first week of October to expedite delivery. Only those vehicles approved during the budget process shall be purchased.

Commented [AS23]: Additional language recommended by Joy Simonton

All accidents involving County vehicles and equipment must be reported to the Risk and Safety Coordinator in Human Resources to ensure appropriate claims processing, including any corrective action taken. Vehicles removed from service are reported on the Court agenda and accident reports are sent to the court when applicable. Also, new vehicles, equipment, and buildings must be reported to the Risk and Safety Coordinator immediately in order to ensure that proper insurance coverage is in place.

VIII. CELL PHONE POLICY

Williamson County may purchase/lease cell phones for departments in the county that deal with sensitive data or for security reasons, example law enforcement, and provide cell phone service for individual use. The departments should have this money approved and budgeted in line item 004209. For the majority of County employees, a Stipend Policy has been implemented and is laid out below. These dollars are approved and budgeted in line item 001109.

Procedures for the Stipend Policy

1. Each department head or elected official will identify who they require to maintain a cell phone account in order to conduct official county business. Only regular full-time employees and department heads will be allowed a stipend. The funds for cell phone stipends must be submitted and approved as part of each department's annual budget process.

2. Seven levels of cell phone stipends will be established:

$10.00 Per Month – ($5.00 per pmt)
$15.00 Per Month - ($7.50 per pmt)

$25.00 Per Month – ($12.50 per pmt)
$30.00 Per Month – ($15.00 per pmt)
$35.00 Per Month – ($17.50 per pmt)
$40.00 Per Month – ($20.00 per pmt)

3. Stipends will be paid semi-monthly for each approved employee or department head (will not be included on the third paycheck that is received twice each year). The cell phone stipend shall be removed by the department whenever an employee is on Administrative Leave with pay.

4. The cell phone stipend is considered supplemental income subject to IRS taxes and reporting requirements and will be processed through Payroll and will be included in the employee's gross income. Retirement contributions will also be deducted and matched in accordance with TCDRS.

5. Expenditures over the allowed stipend will not be reimbursed.

6. An approved cell phone stipend will not follow an employee if the employee changes positions.

7. Each department head or elected official is responsible for verifying and monitoring that their employees receiving a cell phone stipend have obtained the required service. Disciplinary action up to and including termination may result in an employee who receives a stipend and

does not provide their department head or elected official with the proper documentation of cell phone service, if requested. Each department will maintain a list of cell phone numbers for those individuals with stipends for audit purposes.

8. To minimize the risk of incurring unpaid time worked, Offices and Departments should carefully monitor phone and e-mail access outside of scheduled time worked for non-exempt employees. Failure to comply with this policy may result in termination.
