Bid Specifications

Medical Grade Oxygen

Williamson County EMS uses medical grade oxygen in the delivery of patient care. In that accord, the vendor shall supply medical grade oxygen according to the terms listed below.

During the initial and any extended term of this agreement the Vendor shall maintain its license with the Texas Department of Health and, as manufacturer of pharmacopoeic oxygen, its registration with the FDA/CDER. The Vendor shall comply with all laws, codes, statutes and ordinances pertaining to the provision of pharmacopoeic oxygen, including, but not limited to: U.S. DOT, CFR-49 Part 100-185, revised October 1, 1996, Sections 178.35 – 178.68; the Federal Food, Drug and Cosmetic Act, as applicable, and the standards set forth in Volume 22, U.S. Pharmacopoeic Manual. Furthermore, all licenses and registrations required by this agreement and by any regulatory body having authority over the provision of the services addressed herein, must be kept current by the Vendor.

Williamson County does not own and will require the lease of all oxygen cylinders.

Vendor may bid any or all items.
