RE: Relocation Expenses Reimbursement - Public Right of Way Prior Rights
Williamson County—Corridor H/Sam Bass Project

Dear PEC:

This letter sets forth the agreement between Williamson County, Texas (the "County") and Pedernales Electric Cooperative, Inc. ("PEC") regarding PEC's use of portions of the proposed Corridor H/Sam Bass public right of way improvement project in Williamson County, Texas with overall project limits defined as FM 1431 to 925' West of Wyoming Springs Road (the "Public Right of Way"), shown in further detail in **Exhibit A** attached hereto and incorporated herein for all purposes.

1. Scope

We understand that there are instances where PEC is required to relocate and reconstruct electric service to areas within its certificated service territory in accordance with the terms and conditions of its Tariff and Business Rules and/or certain Standard Utility Agreements. These terms may include, among other things, cost reimbursement for relocation and reconstruction of any facilities located within easements owned by PEC which are requested and required to be moved due to a conflict with a proposed roadway transportation project, including tree trimming costs and mitigation, and obtaining of any easements necessary for reestablishment of service.

In this instance, PEC owned and maintained operational facilities which were in conflict with certain locations for construction of the County's proposed Public Right of Way roadway expansion project, and in areas which PEC validly owned and possessed easement rights upon private property for the location and operation of its facilities. PEC generally attempts to construct its facilities on private property given the possibility of roadway widenings which may cause a requested relocation in order to accommodate expanded transportation project construction.

In consideration of PEC expediting the relocation of its facilities to within the Public Right of Way rather than obtaining replacement easement rights on private property adjacent to the Public Right of Way, which the parties acknowledge by execution herein has been or will be completed as requested by the County, by this Letter Agreement the County further acknowledges and agrees as of the date hereof that if in the future the County, City of Round Rock, or any other governmental authority, including the Texas Department of Transportation, directs removal or relocation of PEC's facilities currently located within the Public Right of Way along the specific limits as shown or otherwise described in additional detail in **Exhibit B** attached hereto, that the cost of such removal or relocation of PEC's facilities shall be at the County's expense if not otherwise paid by the successor entity requesting the relocation. PEC may request payment in advance from the County prior to any such relocation requested. All other terms of any required relocation shall be pursuant to the provisions of the Standard Utility Agreement of the applicable jurisdiction making the relocation request.

Further, the County acknowledges that pursuant to the ordinances of any applicable regulatory jurisdiction governing the Public Right of Way and adjacent private property that it may be required to conduct tree surveys and mitigation for any future relocation required as a direct result of a request to accommodate a future transportation project.

2. General Provisions.

- (a) **Entire Agreement.** This Letter Agreement embodies the entire agreement and understanding of the parties hereto, and supersedes all prior or contemporaneous written or oral communications or agreements between PEC and County, regarding the subject matter hereof.
- (b) **Amendment.** This Letter Agreement may only be amended by written agreement between PEC and County.
