LISTING LEASE RATE: OWNER lists the Property for a base rate of $1,328.47 per month with Tenant responsible for Taxes, Insurance and Maintenance.

GENERAL CONDITIONS of PROPOSED LEASES: TAXES and INSURANCE. Tenant shall be responsible for the payment of real property taxes and building insurance (fire and extended coverage); Tenant shall be responsible for insurance coverage on its personal property situated on or about the Property. Tenant shall provide a comprehensive public liability insurance policy protecting OWNER against all claims or demands that may arise or be claimed on account of Tenant's use of the Property, in an amount of at least Five Hundred Thousand Dollars ($500,000.00), per occurrence of accident and/or injury, for injuries to persons and damages to real and/or personal property. Said insurance shall be written by a company or companies acceptable to OWNER, authorized to engage in the business of general liability insurance in the state of Texas, and name OWNER as an additional insured. Otherwise, Tenant shall be responsible for any and all maintenance of the Property, in all respects.

OWNER agrees to pay BROKER a Brokerage Fee equal to six percent (6%) the total rent to be paid during the term of the lease. Such Brokerage Fee shall be paid to BROKER upon the date Tenant begins to pay the monthly rent to OWNER, as applicable:

If OWNER subsequently extends or renews a lease or rental agreement with a tenant procured by BROKER under the terms of this Listing Agreement, OWNER shall pay BROKER an additional Brokers Fee equal to six percent (6%) of the total rent to be paid during such extension or renewal at the time such extension or renewal commences, provided BROKER has performed brokerage services typical to the renewal of a commercial lease agreement.

If within one hundred twenty (120) days after the termination of this Listing Agreement (the Protection Period) OWNER leases or rents or agrees to lease or rent the Property to any person whose attention has been called to the Property by BROKER, any other broker, or OWNER during the term of this Listing Agreement, or to any person with whom BROKER, any other broker, or OWNER negotiated the lease of the Property during the term of this Listing Agreement, OWNER shall pay BROKER the Broker's Fee and any additional fees as provided herein, provided BROKER, prior to or within five (5) days after the termination of this Listing Agreement, has delivered or sent by regular or certified mail to OWNER written notice naming the persons whose attention has been called to the Property during the term of this Listing Agreement.         iii. Confirm any holidays or “non-working” hours for the installation.
        iv. Confirm any Client-required change control processes and any potential impacts that these processes may have on the installation schedule.
        v. Schedule technical discovery meeting(s).
        vi. Review and discuss invoicing preferences and applicable billing milestones.

## Planning

1. Netsync will work with Client to verify access for appropriate systems.
2. Netsync will work with Client to develop a test plan and obtain Client approval and signature.

### Equipment Receipt, Staging, and Delivery

No equipment will be received as part of this project. This is a services-only project.

## Implementation

Implementation will begin only after Discovery and Planning are 100% complete. Client representative must be onsite to receive hardware and sign packing slip prior to installation.

1. Netsync will configure Webex Control Hub for hybrid calling.
    a. Enable users in Webex Control Hub, up to 50, for Webex app calling by enabling the proper licensing.
    b. Enable hybrid calling in Webex Control Hub.
2. Client may need to verify and claim their domain in Control Hub for proper functionality.
    a. Netsync can work with Client to set up proper DNS records.
3. SSO will need to be configured for the proper domain when users log in to the Webex App.
4. Netsync will verify Cisco Expressway configuration.
    a. For users that want to use the Webex App when not connected to the local Williamson County network, they will connect through the Cisco Expressway cluster using Mobile and Remote Access.
        i. Netsync will verify the configuration of the Expressway cluster and remedy any issues that may be present.

Document Ref: AWTQV-DX5WL-K2QQ5-IEBSG

ii. If any SSL certificates are required, Client will be responsible for the purchase of these certificates.
iii. Netsync will upgrade the Expressway cluster, if required.

5. Netsync will verify that SSO is configured and functional for Webex Control Hub and Communications Manager.
    a. If SSO is not functional or configured, then Client will need to assist with the proper configuration and will need to provide a supported Identity Provider (IdP).
6. Netsync will configure Cisco Unified Communications Manager as appropriate for the Cisco Webex App.
    a. Client is already using the Client Services Framework (CSF) device type, TCT (iOS) device type and BOT (Android) device type for the current Cisco Jabber deployment. The Cisco Webex App uses the same device types.
    b. Up to 50 Webex App devices will be configured at a maximum for this project. Client must provide a list of appropriate users.
    c. Client has requested that Netsync set up two groups as part of this project:
        i. 15 users of various device types will be set up as a test pilot.
        ii. An additional 35 users will be set up after completion of the test pilot.

## Testing and Validation

Netsync will test functions as described in the pre-approved test plan.

## Knowledge Transfer

1. Netsync will provide four hours of knowledge transfer for up to five Client attendees. Before the project start, Netsync will work with Client to define the specific location, the schedule, and any additional topics for the knowledge transfer session(s). The following topics will be covered:
    a. Features of products and technologies as deployed in the solution.
    b. Review of the as-built documentation to familiarize Client with the overall solution and key configuration details.
    c. Basic administration and common operational tasks.
    d. Reinstallation and/or reconfiguration in case of failure.
    e. Monitoring, testing, and maintaining the products deployed in the solution.
    f. Warranty and support procedures for all products deployed in the solution.
    g. Additional Client questions or topic requests.
2. If it is determined that the duration of knowledge transfer requested by Client will exceed the hours stated above, then Netsync can provide supplementary session(s) at an additional hourly rate.

**Note**: Knowledge transfer is intended to provide familiarity and conceptual understanding of the specific technologies deployed within this SOW. It is not intended to be comprehensive technical training. The included session(s) may not provide Client all of the necessary knowledge and skills to fully manage, monitor, and maintain the solution. Netsync recommends formal training from the solution vendor(s) to address those needs.

2. Client will provide Netsync local and remote administrative credentials (root access) to all equipment to be accessed during the process of this SOW.
3. Client will make available authorized personnel during the project with a working knowledge of existing network infrastructure for facility access, questions, and clarification of issues.
4. Client will provide Netsync access to all work locations, along with safety, access, security, and emergency protocols.
5. Client will obtain all necessary work permits.
6. Client will provide a work area for Netsync to use, as needed, during on-site activities to include internet and public phone access.

8. Client must provide a supported IdP as listed at https://help.webex.com/en-us/article/lfu88u/Single-Sign-On-Integration-in-Control-Hub.
    a. Other SSO providers may work, but may not be fully supported.
9. Any publicly-signed SSL certificates that are required to be purchased will be Client's responsibility.
10. Client is responsible for deployment of the Webex App on end-user devices.
11. Client will comply with all physical and environmental requirements per vendor specifications.

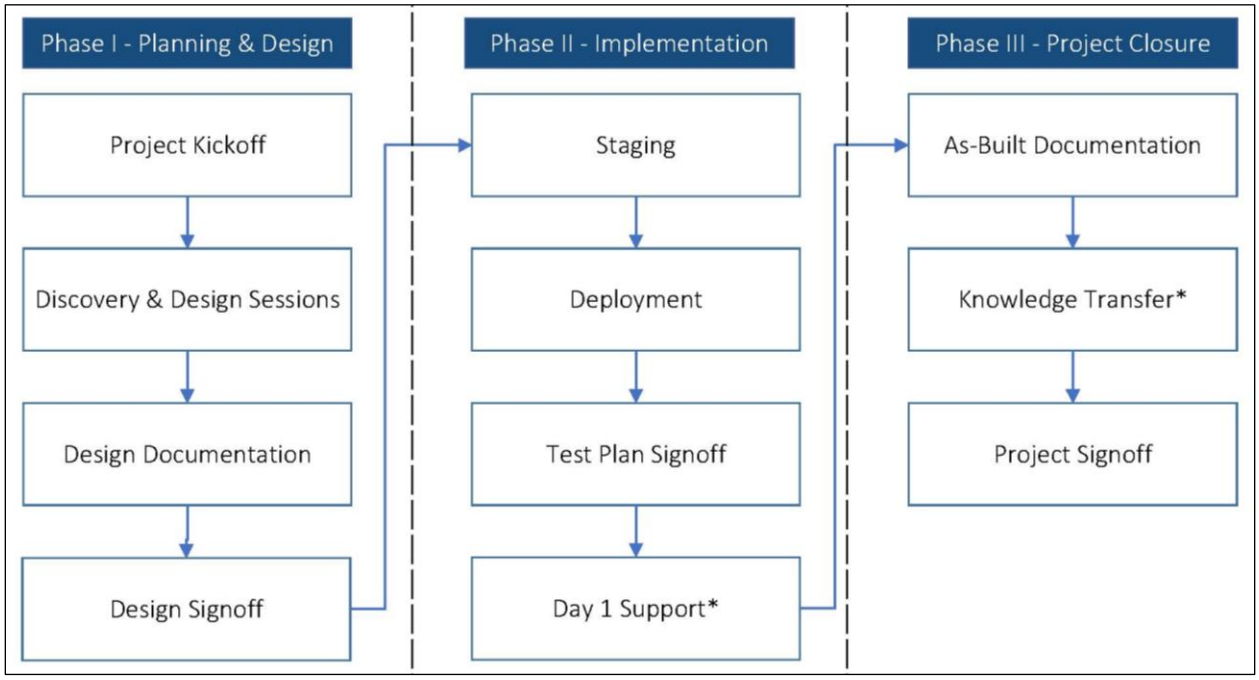
# Project Management

Netsync approaches all projects using standard Project Management Institute (PMI) methodologies and processes. Once a Project Manager (PM) is assigned, a project kickoff meeting will be held with Client, the PM, the Account Manager (AM), and assigned technical resource(s) to ensure each party is in alignment with all aspects of this SOW. The PM will also perform the following project management activities throughout the engagement to ensure Client expectations are consistently met and the project is delivered on time and within the established budget:

- Create the Project Plan.
- Ensure that accurate and timely status updates, action items, and scheduled tasks are received by the assigned resource(s) and uploaded as entries to Client's applicable project portal. The PM will ensure status information clearly reaches Client to also include milestone updates.
- Lead project meetings with Client and the Netsync project team.
- Oversee a quality assurance review of documentation-based deliverables before providing to Client.

Document Ref: AWTQV-DX5WL-K2QQ5-IEBSG

## Project Management Office (PMO) Project Lifecycle



* Denotes that the step in the process may or may not be applicable based on SOW.

## Project Updates

- Client will receive email alerts indicating an update has been made to the Notes-Status-Issues Log portal web part for the following communication entry types:
  - Meeting Notes.
  - Project Plan.
  - Status Update(s).
  - Issue Tracking.
- If Client wishes not to use the Netsync project portal, then Client has the option to request direct email correspondence from the Netsync PM for all communication and updates.

## Project Scope Change Requests

Netsync is fully committed to completing this project on time and within the established budget. All scope changes and out-of-scope (OOS) requests must be clearly communicated to the AM or PM before those changes or requests are acted on or performed by the assigned resource(s). The following outlines the scope change or OOS request procedure:

1. The PM and Client project team will identify required changes.
2. The PM will submit a Project Change Request Form (CR).
3. The PM will submit the CR to Client for subsequent approval and sign-off.
4. Client will return a signed copy of the CR.

All other terms within the original SOW, in addition to the signed CR, will remain intact.

# Project Documentation

Netsync will provide Client the following documentation:

| Included (Yes/No) | Document Type | Owner | Description | Frequency |
|---|---|---|---|---|
| **Documentation** | | | | |
| Yes | Statement of Work (SOW)/High-Level Design (HLD) | Solutions Architect and Account Manager | Description of scope based on presales discussions, preliminary walkthroughs, and data gathering sessions. This SOW is the HLD, and presents and illustrates the overall solution. | Once |
| Yes | Low-Level Design (LLD) | Engineer | The LLD will replace all existing HLDs upon receipt of a purchase order and subsequent full walkthroughs and formal post-sales planning and design sessions. The LLD will be a fully executed document agreed to by both parties before implementation begins. | Once |
| Yes | Project Plan | PM and Senior Lead Engineer | Task list, schedule, contact list, meeting notes, status, risk, and issue tracking. | Ongoing |
| No | Method of Procedure (MOP) | PM and Senior Lead Engineer | Detailed implementation plan. | Once |
| Yes | As-Built | Senior Lead Engineer | Post-implementation technical documentation of new configuration(s) and applicable support information. | Once |
| Yes | Project Sign-off | PM and Client | Deliverables acceptance. | Once |

## Deliverables Acceptance

Client will acknowledge receipt and acceptance, or rejection of all deliverables associated with this SOW within 10 business days of delivery (not including federal holidays). If such acknowledgement is not received within this period, then all deliverables will be deemed acknowledged and accepted.

Document Ref: AWTQV-DX5WL-K2QQ5-IEBSG

# Project Risks and Assumptions

1. Client will participate in all design and planning sessions and be prepared to sign off on all milestones.
2. Client will provide Netsync with full access to the relevant functional, technical, and business resources with adequate skills and knowledge to support the performance of services. If Client's only method of providing Netsync remote access is through screen share, then additional fees may apply due to project duration extensions.
3. Unless otherwise noted, all estimates are based on a single implementation trip, per site. Client may be charged additional fees for additional onsite meetings.
4. Multiple outages may occur due to the nature of this project; however, they will all occur at scheduled and approved times.
5. Client delays to provide Netsync the necessary data to accomplish each task may result in timeline changes.
6. Netsync is not responsible for project delays caused by other vendors and/or manufacturing issues that may impede progress and/or closure of Netsync SOW deliverables.
7. This SOW assumes that the engagement will be a combination of on-site and remote work to drive efficiency. If Client requires a 100% on-site engagement, then Client must notify Netsync before agreeing to this SOW.
8. If Client requires a copy of Netsync's standard Certificate of Insurance (COI) with Client-added endorsements, then it should allow up to 10 business days for delivery.
9. Netsync is not responsible for the functionality of Client-provided existing equipment or licenses, and assumes that existing equipment and software is under a valid support contract.
10. Anything not specifically stated in this document is outside the scope of this SOW.

# Service Level Agreement

## Hours of Operation

Standard hours of operation are **8:00 AM to 5:00 PM local time Monday through Friday**. Netsync understands that due to the nature of the industry and work performed, after-hours and weekend availability are often required. In the event Netsync resources are required to perform work outside of the standard hours of operation, agreed-upon work windows will be discussed and subsequently documented via email.

- Client will provide Netsync a minimum of three business days' notification for any non-emergency maintenance windows or periods of time.
- Netsync will provide Client the best level of support for emergency maintenance windows based on qualified staff resource availability.
- A Client project stakeholder or technical contact must be either on location or on-call during the agreed upon after-hours and/or weekend work window(s).

# Pricing and Fees

## Fee Type

**Fixed Price**: The proposed hours are fixed. Additional hours required for in-scope work will not be invoiced unless OOS work is required.

## Invoicing Type

Invoice terms are based on credit approval.

Unless specifically noted in the master services agreement (MSA) between Client and Netsync, if applicable, Netsync will use the following invoicing type:

- **Milestone Invoicing**: A portion of the project will be invoiced based on achieving the following milestones in the project plan (see milestone table below); the PM will work with Client, the AM, and Accounting for appropriate invoicing.

Netsync will send Client invoice(s) on Net 30 terms for all applicable hardware, supplemental material, and licenses immediately after delivery and receipt of signed packing/delivery slips.

## Project Milestones

This price is based on work taking place during standard hours of operations, **8:00 AM to 5:00 PM local time Monday through Friday**. Additional charges may be incurred for efforts that must be performed outside of this time frame.

Re: Williamson County Road Bond Program
Wilco Way (Tracy Chambers Lane Extension)
Williamson County Project No. 25IFB46
Recommendation of Contractor Award

Dear Ms. Hancock,

Please find attached the bid tabulation for the subject-referenced project. The bids have been reviewed and the apparent low bid (MA Smith Contracting Co., Inc.) was found to be responsive and materially balanced. Following is a summary of the bid totals:

| | | |
|---|---|---|
| 1. | MA Smith Contracting Co., Inc. | $2,706,129.45 |
| 2. | Chasco Constructors, LTD., LLP | $2,894,879.00 |
| 3. | Liberty Civil Construction LLC | $3,026,638.40 |
| 4. | Joe Bland Construction, LLC | $3,280,000.00 |
| 5. | Jerdon Enterprise, L.P. | $3,362,027.97 |
| 6. | Aaron Concrete Contractors, LLC | $3,690,339.90 |

The lowest bidder was $706,618.11 lower than the Engineers Estimate of $3,412,747.56, a cost savings of 20.71%. The bidding was competitive with the lowest two bidders being within 7% of each other.

In addition to meeting the bid qualifications subject to being the low bidder, MA Smith Contracting Co., Inc. has completed previous projects for Williamson County including CR 138 Right Turn Lane at SH 130, Wyoming Springs Intersection Improvements at Smyers Lane, CR 200 Reconstruction, Neenah Avenue Widening project and the Lakeline Blvd. Right Turn Lane. Based on the quality of work performed by the Contractor and favorable working relationship with the County and its Representatives, we therefore concur with the recommendation of the Design Engineer, American Structurepoint, Inc., for award of the Wilco Way (Tracy Chambers

Lane Extension) construction contract to MA Smith Contracting Co., Inc. in the amount of $2,706,129.45.

Please feel free to contact our office with any questions.

Respectfully Submitted,

## PROJECT DESCRIPTION

Project Limits

**Project Limits are from IH 35 to CR 307 including the intersection, an approximate length of 1.5 miles.**

Existing Facility

**The existing facility is a 2-lane uncurbed asphalt facility with two cross culverts within the project limits. The existing intersection with CR 307 is uncontrolled and the intersection with the IH 35 frontage roads is 4-way stop controlled. The existing ROW is generally 50'.**

Proposed Facility

**Proposed facility consists of construction of an interim uncurbed 3-lane section, which is one half of an ultimate 6-lane divided facility. There are bridges proposed at two stream crossings with 50' spans.**

Design Criteria

**The proposed design criteria for the project will be developed from the Williamson County and TxDOT, and City of Jarrell design criteria. TxDOT Criteria only applies to portions the project within TxDOT ROW (I-35). City of Jarrell criteria only applies to portions of the project within City ROW. It is anticipated that in most cases the most stringent of the design criteria will be used. If there is a conflict, the Engineer will notify the County to provide clarification.**

- The following hydrologic and hydraulic items are excluded from this supplemental, and should be completed during PS&E:
    - Updates to HEC-RAS and HY-8 models for the following: Crossing A, B, and C.
    - Updated to impervious cover delineation due to roadway re-alignment
    - Updated proposed hydrologic calculations due to roadway re-alignment.

b. IMPACT AND MITIGATION ANALYSIS:

- Re-evaluate an impact analysis at CR 305/CR 307 intersection improvements to determine increases in peak flow rates for the 100-year storm including: existing and proposed peak flow rates, mitigation analysis, conceptual detention basin layouts, design of control structures, routing of storm hydrographs through basins, calculate the volume of fill to be placed in the 100-year floodplain, and recommend locations for compensatory storage. Provide preliminary analysis for interim and ultimate roadway design to determine ROW footprint.
- An updated impact assessment is excluded from the scope at locations impacted by the roadway realignment.

Please note that the changes reflect an approximate 10 or 30 feet of adjustment, applicable only to a specific roadway segment -- not the entire project length. The roadway alignment tapers back to the final schematic alignment by STA 1149+00.In other words, some of the calculations, reports, and related documentation pertain only to specific areas, rather than the full project corridor.

# SERVICES TO BE PROVIDED BY THE ENGINEER
# FOR CR 258 – SWA1 to WA1

## PROJECT DESCRIPTION

This SWA1 to WA1 is to reduce the scope from the original 4-lane facility to now adding turn lanes and an overlay to existing CR 258. This scope document represents the new work that will be completed for this supplemental, removing items that have already been completed under the original WA or are not applicable to the reduced scope.

Project Limits
The project limits are from Seward Junction Loop (which is the intersection of CR 258 and CR 260) to the CR 258 Extension (the western extension of CR 258 that intersects with US 183), an approximate length of 0.6 miles.

Existing Facility
The existing CR 258 facility is a 2-lane uncurbed asphalt road with shoulders and roadside ditches. The existing ROW is generally 65-75 ft wide. There are two drainage culverts crossing the existing CR 258.

Proposed Facility
The existing road will be overlayed and turn lanes added. The proposed improvements will consist of three turn lanes, located at 1) NB CR 258 and CR 258 extension; 2) NB CR 258 at LHISD high school middle driveway entrance; and 3) SB CR 258 at LHISD high school middle driveway entrance. The proposed facility will include 2 new signals;, one at the LHISD high school middle driveway entrance and one at CR 258 and CR 258 extension. The existing two culverts will be modified or replaced to accommodate the reconstruction. The proposed ROW is 120 ft based on the ultimate configuration.

Design Criteria
The project will be designed in accordance with the Williamson County Design manual.

## ENGAGEMENT AGREEMENT

This agreement sets forth the standard terms of our engagement as your attorneys. Unless modified in writing by mutual agreement, these terms will be an integral part of our agreement with you. Therefore, we ask that you review this agreement carefully and contact us promptly if you have any questions. Please retain this agreement in your file.

Identity of Client. We will be representing the interests of Williamson County.

Attorneys. Bickerstaff Heath Delgado Acosta LLP is engaged by you as your attorneys, and I, Gunnar P. Seaquist, will be the partner who will coordinate and supervise the services we perform on your behalf. We routinely delegate selected responsibilities to other persons in our Firm when, because of special expertise, time availability or other reasons, they are in a better position to carry them out. In addition, we will try, where feasible and appropriate, to delegate tasks to persons who can properly perform them at the least cost to you.

The Scope of Our Work. You should have a clear understanding of the legal services we will provide. We will provide services related only to matters as to which we have been specifically engaged. Although in the future we may from time to time be employed on other matters, our present relationship is limited to representing the above-named client in the matters described in Exhibit A. We will at all times act on your behalf to the best of our ability. Any expressions on our part concerning the outcome of your legal matters are expressions of our best professional judgment, but are not guarantees. Such opinions are necessarily limited by our knowledge of the facts and are based on the state of the law at the time they are expressed. We cannot guarantee the success of any given matter, but we will strive to represent your interests professionally and efficiently.

Fees for Legal Services. Our charges for professional services are customarily based on the time devoted to the matter, the novelty and difficulty of the questions presented, the requisite experience, reputation and skill required to deal with those questions, time limitations imposed by the circumstances, and the amount involved and the results obtained. Unless otherwise indicated in writing, our fees for legal services are determined on the basis of the hourly rates of the respective lawyers and other timekeepers who perform the services. These rates vary depending on the expertise and experience of the individual. We adjust these rates annually, increasing them to reflect experience, expertise, and current economic conditions. We will notify you in writing if this fee structure is modified. The initial agreed billing rates for attorneys and other timekeepers engaged on your work are attached as Exhibit B.

Other Charges. All out-of-pocket expenses (such as copying charges, travel expenses, messenger expenses, filing and other court costs, and the like) incurred by us in connection with our representation of you will be billed to you as a separate item on your statement. A description of the most common expenses is included as Exhibit C and agreed to as part of this agreement.

Billing Procedures and Terms of Payment. Our billing period begins on the 16th of the month and ends on the 15th of the following month. We will render periodic invoices to you for legal services and expenses. We usually mail these periodic invoices on or before the last day of the month following the latest date covered in the statement. Each invoice is due upon receipt, must be paid in U.S. Dollars, and is considered delinquent if not paid in full within 30 days of its stated date. Payment must be made to the Firm at Two Barton Skyway 1601 S. MoPac Expy., Suite C400, Austin, TX 78746. If any invoice is not paid within 30 days after its stated date, interest at the rate of 1 ½ percent per month (18 percent per annum) will accrue on the balance due. However, if at any time 18 percent per annum exceeds the highest interest rate permitted by applicable law, then the interest rate that will be applied to any overdue amounts will be reduced to the maximum rate permitted under applicable law. We will include all information reasonably requested by you on all invoices and will reference any purchase order number provided by you. Payment and interest, if any, will comply with the Prompt Payment Act (Texas Government Code Chapter 2251), if applicable, for any final invoices. If you have any question or disagreement about any invoice that we submit to you for payment, please contact me at your earliest convenience so that we can resolve any problems without delay. Typically, such questions or disagreements can be resolved to the satisfaction of both sides with little inconvenience or formality.

Termination of Services. You have the right at any time to terminate our employment upon written notice to us, and if you do we will immediately cease to render additional services. We reserve the right to discontinue work on pending matters or terminate our attorney-client relationship with you at any time that payment of your account becomes delinquent, subject to Court approval if necessary. In the event that you fail to follow our advice and counsel, or otherwise fail to cooperate reasonably with us, we reserve the right to withdraw from representing you upon short notice, regardless of the status of your matter. No termination, whether by you or by us, will relieve you of the obligation to pay fees and expenses incurred prior to such termination.

Retention of Documents. Although we generally attempt to retain for a reasonable time copies of most documents in the possession of this Firm related to the matter(s) described in Exhibit A, we are not obligated to do so indefinitely, and we hereby expressly disclaim any responsibility or liability for failure to do so. We generally attempt to furnish copies of all documents and significant correspondence to you at the time they are created or received, and you agree to retain all originals and copies of documents you desire among your own files for future reference. This document serves as notice to you that we will destroy such materials in accordance with the Firm's record retention policy, which may be amended from time to time and a copy of which will be provided at your request. It is our Firm's policy to destroy all copies, whether in paper or electronic form, of materials in connection with the representation seven (7) years after the completion of our work relating to this engagement or the completion of a particular project under this engagement, unless and to the extent an exception recognized in our document retention policy or other legal requirement applies to some or all of the subject materials and requires retention for a longer period of time. The Firm also reserves the discretion to retain its records of pertinent documents relating to its ongoing representation of a client, e.g. in a general counsel capacity. If you would like to obtain copies of materials in the Firm's possession related to this matter prior to the scheduled destruction of the materials, please notify the Firm. Because you will have been furnished with copies of all relevant materials contained in our files during the course of the active phase of our representation, if you later ask us to retrieve and deliver materials contained in a file that has been closed, you agree that we will be entitled to be paid a reasonable charge for the cost of retrieving the file, and identifying, reproducing, and delivering the requested materials to you.

Fee Estimates. We are often requested to estimate the amount of fees and costs likely to be incurred in connection with a particular matter. Our attorneys do their best to estimate fees and expenses for particular matters when asked to do so. However, an estimate is just that, and the fees and expenses required are ultimately a function of many conditions over which we have little or no control, especially in litigation or negotiation situations where the extent of necessary legal services may depend to a significant degree upon the tactics of the opposition. Unless otherwise agreed in writing with respect to a specific matter, all estimates made by us will be subject to your agreement and understanding that such estimates do not constitute maximum or fixed-fee quotations and that the ultimate cost is frequently more or less than the amount estimated.

Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Texas, United States of America, without giving effect to its choice of laws provisions. Venue of any case or controversy arising under or pursuant to this Agreement will be exclusively in Travis County, Texas, United States of America.

Standards of Professionalism and Attorney Complaint Information. Pursuant to rules promulgated by the Texas Supreme Court and the State Bar of Texas, we hereby advise you that the State Bar of Texas investigates and prosecutes complaints of professional misconduct against attorneys licensed in Texas. Information on the grievance procedures is available from the State Bar of Texas, and any questions you have about the disciplinary process should be addressed to the Office of the General Counsel of the State Bar of Texas, which you may call toll free at 1-800-932-1900.

Questions. If you have any questions from time to time about any aspect of our arrangements, please feel free to raise those questions. We want to proceed in our work for you with your clear and satisfactory understanding about every aspect of our billing and payment policies; and we encourage an open and frank discussion of any or all of the matters addressed in this agreement.

Acceptance of Terms. If this arrangement is acceptable to Williamson County, please sign the enclosed duplicate original of this agreement and return it and the required retainer to us at your earliest convenience. We truly appreciate the opportunity to be of service to you and look forward to working with you in a mutually beneficial relationship.

# Exhibit C—Client Costs Advanced

Bickerstaff Heath Delgado Acosta LLP

The firm incurs expenses on behalf of clients only when required by the legal needs of the clients. Some cases or matters require extensive use of outside copy facilities, and other cases may not be so paper-intensive. Standard services handled within the firm are not charged, and client specific expenses are billed to the client needing those services. An explanation of the billing structure is as follows:

Not Charged

Secretarial and word processing time, routine postage, file setup, file storage, local or ordinary long distance charges, fax charges, and computerized legal research data charges.

Delivery Services

Outside delivery services are used for pickup and delivery of documents to the client as well as to courts, agencies, and opposing parties. Outside delivery fees are charged to the client at the rate charged to the firm. Overnight delivery services are also charged at the rate charged to the firm. Firm Office Services Department personnel may provide delivery service in urgent situations and charges for such in-house service will not exceed the charge that would be made by an outside service in a similar situation.

Postage

Our postal equipment calculates exact U.S. postage for all sizes and weights of posted material. The rate charged for postage is the same as the amount affixed to the material that is mailed. We will not charge clients for postage on routine correspondence; however, the cost of large-volume mail, certified mail, or other additional mail services will be charged to the client.

Copies and Prints

Our standard rate for black and white copies and prints made by firm personnel is $0.15 per page. Color copies and prints are charged at a standard rate of $0.55 per page. These charges cover paper, equipment costs, and other supplies. If savings can be realized within the required time frame by sending copy jobs to subcontractors, the firm uses only qualified legal services copiers and the cost charged to the client is the same as the amount billed to the firm.

Phone Charges

Only charges for conference calls or international calls are charged, and charges are billed at the same amount billed to the firm by the outside provider.

Travel

Attorney and other timekeeper time spent traveling on behalf of a client is billed to the client. Hotel, meals, local transportation, and similar expenses are charged based on receipts and travel expense forms submitted by the attorney. Documentation is available to the client if requested.

Maps

Maps produced in conjunction with a project will be billed at $50 for each 34 x 44 inch map and $20 for each smaller map, plus cost (time fees) for preparation.

Other Expenses

Expenses incurred with outside providers in connection with the client's legal services will be paid by the client directly to the outside provider unless specifically arranged in advance. If the firm agrees to pay outside providers, the cost charged to the client is the same as the amount billed to the firm. Examples of such charges include: court reporter fees, filing fees, newspaper charges for publication notices, expert witness fees, consultants and other similar expenses.

## Information

### Agenda Item

The Interlocal Agreements (ILAs) will allow the Williamson County Expo Center in Taylor to be considered, based on availability, as a location for establishing a Family Assistance Center following a Public Safety Incident (PSI) at schools in Granger or Thrall.

### Background

Following a Public Safety Incident, such as an emergency evacuation, active shooter, or bus accident, it is important to quickly establish a Family Assistance Center (FAC) to provide a safe, secure, centrally located place for family reunification, and/or to obtain information and support services. The school facilities of both Granger and Thrall ISDs are in proximity to the Expo Center. The Interlocal Agreements (ILAs) will allow the ISDs to include the Expo Center in Taylor as a potential location to establish a FAC. The ISDs will provide the resources needed to establish the FAC with coordination assistance being provided by the Office of Emergency Management.

**THIS INTERLOCAL AGREEMENT TO ESTABLISH FAMILY ASSISTANCE CENTER LOCATION FOLLOWING PUBLIC SAFETY INCIDENT** ("Agreement") is entered into between the Independent School District named herein-below (the "District"), and Williamson County, Texas, a political subdivision of the State of Texas ("County"). In this Agreement, the District and the County are sometimes individually referred to as a "Party" and collectively referred to as the "Parties."

**WHEREAS,** a Public Safety Incident (PSI) is defined as an incident, disaster, or public health emergency that poses a risk to student safety and/or where more human deaths have occurred than can be managed with local or regional resources;

**WHEREAS,** after a PSI, a Family Assistance Center (FAC) can be established as a means to provide a safe, secure, centrally located place for family members and students of the PSI to obtain information and a range of support services,

**WHEREAS,** the District desires to establish a FAC prior to a PSI affecting the District;

**WHEREAS,** both the County and the District have a mutual need to respond to relief efforts during PSIs affecting the public health and safety of local residents;

**WHEREAS**, such cooperation is considered to be in the public interest; and

**WHEREAS,** this Agreement sets forth the terms and conditions pursuant to which the County may assist the District and obtain reimbursement for such assistance; and

**NOW, THEREFORE,** in consideration of the foregoing premises and the mutual promises and agreements of the Parties contained in this Agreement, the Parties agree as follows:

## I.
## PURPOSE

The purpose of this Agreement is for the District to secure, if available, the Williamson County Exposition Center ("Expo Center") as a temporary FAC for purposes of providing a safe, secure, centrally located place for family members of potential victims to search for their loved one or to seek information about their loved one's location and condition, as well as to obtain a range of support services in the immediate aftermath of a PSI affecting the District. The Parties acknowledge the intent of this Agreement is not to authorize the use of the Expo Center as a primary or secondary shelter in response to a PSI.

## II.
## EFFECTIVE DATE, TERM AND TERMINATION

**A. Effective Date and Term.** The term of this Agreement shall commence upon the last Party's execution hereof and shall continue until September 30, 2025 and thereafter will automatically be renewed on an annual basis for subsequent fiscal year starting October 1, 2025 and each subsequent October 1st until terminated as set out herein-below.

**B. Termination.** Either Party may terminate this Agreement for convenience and without cause or further liability upon thirty (30) business day's written notice to the other Party.

## III.
## STATEMENT OF RESPONSIBILITIES

**A. General.** The Parties mutually acknowledge and agree the District will generally manage operations and provide necessary staff to include but not be limited to operations staff, shelter management, law enforcement, and support staff as necessary to safely use the Expo Center for purposes of a FAC. As such, the District agrees that any advance payment for services detailed in this Agreement directly related to use of the Expo Center shall be made from the District's current revenues available, and the County may seek reimbursement of advanced costs pursuant to Paragraph B. below.

**B. Reimbursement of Costs.** The County and the District agree to mutually cooperate with the process of seeking direct reimbursement from the Federal Emergency Management Agency ("FEMA") of the United States and the State of Texas ("State") should such reimbursement be available. In the event the County provides services, security, other personnel and supplies or otherwise incurs costs to assist the District during its use of the Expo Center, the District shall reimburse County for any of its costs that are not directly reimbursed to the County from FEMA or the State. The County and the District shall maintain records to show actual time involved in the provision of services, and costs incurred for the period of time specified. To the extent applicable to the service, each Party shall cooperate in good faith to provide records satisfactory to the Federal and State government(s) and the County for any costs that may be reimbursed by FEMA or the State.

**C. County's Responsibilities**. The County agrees to the following:

1. Expo Center Manager or his/her designee will serve as the primary point of contact between the District and County for FAC planning and operations activities;
2. Determine and designate appropriate facilities at the Expo Center for use by the District as a FAC in response to a PSI affecting the District to the extent such facilities are available and not in use by County or other authorized third parties;
3. Upon District's notification of a PSI or request to use facilities at the Expo Center and provided such facilities are available and not in use by County or other authorized third parties, make available facilities at the Expo Center designated for District's use as a FAC for a temporary and reasonable amount of time under the circumstances; and

4. Provide staff, when available, to support facility oversight, security, maintenance, and janitorial operations.

**D. District's Responsibilities**. The District agrees to the following:

3. Provide all necessary personnel, supplies, equipment, assets, or other items to support the District's use of facilities at the Expo Center as a FAC;
4. Manage and provide all FAC operations and provide staff to safely operate within facilities at the Expo Center to include but not be limited to operation staff, shelter management, law enforcement, and support staff as necessary; and
5. Act as lead in submitting request(s) for reimbursement to Federal and State government(s) in relation to any costs that may be reimbursed by FEMA or the State;
6. Cooperate with the Williamson County Auditor in relation to reimbursements of costs to the County by the District.

## IV.

*The Parties acknowledge that as of the Effective Date of this Agreement, the YMCA has completed all design work necessary for the RCI Project and has executed a construction contract so that construction may commence.

**C. RCI Project Budget and Funding Obligations.**

1. RCI Project Budget. The budget for the RCI Project is **$12,594,493.40**.

2. Funding Obligations of the Parties.

   a. County's Funding. The County hereby agrees to provide the YMCA with funding in the amount of **$2,227,203.35** for the RCI Project ("County's Funding"), which is 17.6% of the RCI Project Budget.

   b. YMCA's Funding. The YMCA hereby agrees to provide funding for the RCI Project in the amount of **$10,367,290.05**, of which the YMCA has already incurred and paid **$97,360.00** for design services in relation to the RCI Project ("YMCA's Funding"). The YMCA's Funding amounts to 82.4% of the RCI Project Budget. The YMCA agrees to use County's Funding solely for expenses and costs directly related to the RCI Project.

   c. Contingency Funding. The County and the YMCA anticipate the need for future construction change orders to be issued after the construction work commences to address minor scope changes and additions that may be needed to meet specifications for the RCI Project. To provide funding for such change orders, the Parties agree to the following terms of Contingency Funding:

      1. County's Contingency Funding. The County agrees to provide a not to exceed Contingency Funding amount of **$32,033.00** to serve as the County's Contingency Funding from which changes in the construction work are to be paid in accordance with this Agreement. The County's Contingency Funding shall be controlled solely by the County. Expenditures from the County's Contingency Funding must be made by written change order issued jointly by the County and the YMCA. The County's Contingency Funding share of each change order shall be 17.6% of the total change order amount; provided, however, the total amount of County's Contingency Funding shall not to exceed the above stated Contingency Funding amount of **$32,033.00**. Any amount remaining in the County's Contingency Funding following completion of the RCI Project shall be released to the County so that it may be applied toward the future planned Little Elm Parking Project and, to the extent available, towards the Ropes Course Project at the Park.

2. YMCA's Contingency Funding. For each change order that is also funded by County's Contingency Funding, the YMCA's Contingency Funding share shall be 82.4% of the total change order amount. In the event County's Contingency Funding is not applied to a particular change order or if the County's Contingency Funding amount is exhausted, the YMCA agrees to provide all additional and necessary amounts of Contingency Funding for changes in the construction. The YMCA's Contingency Funding shall be controlled solely by the YMCA.

**d.** Parties' Total Funding.

**1.** Unless otherwise agreed to by written amendment executed in advance by the Parties, the County's Total Funding for the project shall be the County's Funding in the amount of **$2,227,203.35** plus the not to exceed County's Contingency Funding of **$32,033**, for a total County Funding Amount of **$2,259,236.61**.

**2.** Unless otherwise agreed to by written amendment executed in advance by the Parties, the YMCA's Total Funding Amount for the project shall be the YMCA's Funding in the amount of **$10,367,290.05** plus the total amount of the YMCA's Contingency Funding obligations set out in this Agreement.

**D. Project Schedule.** YMCA hereby agrees to commence construction of the RCI Project on or before May 13, 2025 and fully and finally complete the RCI Project on or before June 5, 2026.

**E. Payment Terms.**

The YMCA will submit reimbursement requests to County for the County's Funding amount using the following payment schedule: 75% upon issuance of a certificate of substantial completion of the RCI Project by the project architect/engineer; and the remaining 25% upon issuance of a certificate of final completion of the RCI Project by the project architect/engineer. Each reimbursement request must be submitted in a timely manner with proper documentation to support the expenditures. The YMCA shall also submit change order requests to County for the County's Contingency Funding as need during the construction of the RCI Project. Each change order request must be signed by the construction contractor and the YMCA and be submitted in a timely manner with proper documentation to support the expenditures. Payment of funding shall be pursuant to the Texas Prompt Payment Act and shall be paid by County within thirty (30) days from the date of the Williamson County Auditor's receipt of a reimbursement request. In the event that a discrepancy arises in relation to a reimbursement request, such as an incorrect amount or a lack of documentation that is required to be attached to a reimbursement request to evidence the amount claimed to be due, County shall notify the YMCA of the discrepancy. Following County's notification of any discrepancy, the YMCA must resolve the discrepancy and resubmit a corrected or revised reimbursement request, which includes all required support documentation, to the Williamson County Auditor. County shall pay the reimbursement request within thirty (30) days from the date of the Williamson County Auditor's receipt of the corrected or revised reimbursement request. County's payment of a reimbursement request that contains a discrepancy shall not be considered late, nor shall any

interest begin to accrue until the thirty-first (31st) day following the Williamson County Auditor's receipt of the corrected or revised reimbursement request.

**F. Term and Termination.**

1. Term. This Agreement shall be effective from and after the date of the last party to sign hereinbelow ("Effective Date"), shall automatically renew for successive one year periods until the RCI Project is completed, unless previously terminated pursuant to the provisions stated herein.

2. Termination for Default. If either party defaults in the performance of any of the terms or conditions of this Agreement, the non-defaulting party shall deliver written notice of such default to the defaulting party. Such notice must specify the nature of the default and inform the defaulting party that unless the default is cured within thirty (30) days of receipt of the notice, additional steps may be taken to terminate this Agreement. If the defaulting party begins a good faith attempt to cure the default within thirty (30) days, then and in that instance, the thirty (30) day period may be extended by the non-defaulting party, so long as the defaulting party continues to prosecute a cure diligently to completion and continues to make a good faith attempt to cure the default. If, in the opinion of the non-defaulting party, the defaulting party does not cure the breach within thirty (30) days or otherwise fails to make any diligent attempt to correct the default, the defaulting party shall be deemed to be in default and the non-defaulting party may, in addition to seeking any other remedies available at law or in equity, terminate this Agreement.

3. Termination Due to Infeasibility. In the event the YMCA determines, in its sole discretion, that fees and costs are of such an amount that completion of the RCI Project is no longer monetarily feasible, the YMCA shall have the right to terminate this Agreement and decline funding from the County; provided, however, if the County has already extended funding to the YMCA as of the date on which the YMCA terminates this Agreement, then and in that event the YMCA shall, within thirty (30) calendar days, reimburse and return all such funding to the County. In the event that any of County's Funding is not exhausted upon final completion of the RCI Project, the YMCA shall return the unused funds to the County.

**G. General Provisions.** The following general provisions shall apply to this Agreement:

1. **Appropriation of Funds by County.** County believes it has sufficient funds currently available and authorized for expenditure to finance the costs of this Agreement. YMCA understands and agrees that the County's payment of amounts under this Agreement is contingent on the County receiving appropriations or other expenditure authority sufficient to allow the County, in the exercise of reasonable administrative discretion, to continue to make payments under this Agreement.

2. **County's Right to Audit.** YMCA agrees that County or its duly authorized representatives shall, until the expiration of three (3) years after final payment under this Agreement, have access to and the right to examine and photocopy any and all books,

documents, papers and records of the YMCA which are directly pertinent to the services to be performed and amounts expended under this Agreement for the purposes of making audits, examinations, excerpts, and transcriptions. The YMCA agrees that County shall have access during normal working hours to all necessary YMCA facilities and shall be provided adequate and appropriate workspace in order to conduct audits in compliance with the provisions of this section. County shall give the YMCA reasonable advance notice of intended audits.

3. **Amendments.** Any amendment hereof must be in writing and signed by the authorized representative(s) for each party.

4. **Prior Agreements.** Except as set forth herein, this Agreement shall not be construed so as to modify, supplement or otherwise alter the provisions of any other agreement between the County and the YMCA.

5. **Applicable Law.** This Agreement shall be construed under and in accordance with the laws of the State of Texas.

6. **Assignment.** Neither party may assign its rights and obligation under this Agreement.

7. **Other Necessary Actions and Instruments.** The parties agree that each will take such other and further actions and execute such other and further consents, authorizations, instruments or documents as are necessary or incidental to effectuate the purposes of this Agreement.

8. **No Third-Party Beneficiaries.** Except as set forth herein, nothing herein shall be construed to confer upon any person or entity other than the parties hereto any rights, benefits or remedies under or by reason of this Agreement.

9. **Relationship of the Parties.** Each party to this Agreement, in the performance of this Agreement, shall act in an individual capacity and not as agents, employees, partners, joint ventures or associates of one another. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purposes whatsoever.

10. **Venue.** Venue for any suit arising hereunder shall be in Williamson County, Texas.

11. **Duplicate Originals.** This Agreement may be executed in duplicate originals, each of equal dignity.

12. **Effective Date.** This Agreement shall be effective from and after the date of due approval hereof by the respective governing bodies of the County and the YMCA, and upon the last party's execution hereinbelow.

13. **Entire Agreement.** This Agreement contains the entire agreement of the parties and supersedes all prior and contemporaneous understandings or representations, whether oral or written, respecting the subject matter hereof.

**IN WITNESS WHEREOF,** the authorized representative(s) of the County and the YMCA have executed this Agreement on the dates set forth below.

   (f) notify the YMCA and the County in writing by certified mail or personal delivery, within 10 days after the person knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the RCI Project; and
   (g) contractually require each person with whom it contracts, to perform as required by paragraphs (a)-(g), with the certificates of coverage to be provided to the person for whom they are providing services.

10. Contract must represent and agree in the construction contract that all employees of the Contractor who will provide services on the RCI Project will be covered by workers' compensation coverage for the duration of the RCI Project, that the coverage will be based on proper reporting of classification codes and payroll amounts, that all coverage agreements will be filed with the appropriate insurance carrier or, in the case of a self-

insured, with the Commission's Division of Self-Insurance Regulation, providing false or misleading information may subject the Contractor to administrative penalties, criminal penalties, civil penalties, or other civil actions, and that the Contractor's failure to comply with any of these provisions is a breach of contract by the Contractor which entitles the YMCA to declare the construction contract void if the Contractor does not remedy the breach within ten days after receipt of notice of breach from the YMCA.

**I.** The YMCA and/or the County shall be entitled, upon request, and without expense, to receive complete copies of the policies with all endorsements and may make any reasonable requests for deletion, or revision or modification of particular policy terms, conditions, limitations, or exclusions, except where policy provisions are established by law or regulation binding upon the Parties or the underwriter of any of such polices. Damages caused by the Contractor and not covered by insurance shall be paid by the Contractor.

**J.** Contractor shall be responsible for payment of premiums for all of the insurance coverages required hereunder. Contractor further agrees that for each claim, suit or action made against insurance provided hereunder, with respect to all matters for which the Contractor is responsible hereunder, Contractor shall be solely responsible for all deductibles and self-insured retentions. Any deductibles or self-insured retentions over $75,000 in the Contractor's insurance must be declared and approved in writing by YMCA and the County in advance.

2E-Differing Site Conditions (unforeseeable) & 2I-Additional Safety Needs : This Change Order adds various items to the Contract to address differing site conditions for the City of Round Rock (CORR) water line work. The proposed CORR water line tie-in to the existing line at RM 1431 varied from what was shown in the plans, which required the removal of a concrete thrust block and installation of a different connection type. In addition, the removal of an existing water line near Wyoming Springs was necessary to install the proposed CORR water line. The CORR also requested blue tape to identify their water line and revised a gate valve, which required revised fabrication drawings. This Change Order also adds items to enhance the safety on the roadway.

Unadjusted utility (unforeseeable): This Change Order adds items to compensate the contractor for field adjustments on the BCMUD water line alignment to solve conflicts with existing utilities within the BCMUD water plant and the realignment of the proposed water line at the SW corner of Sam Bass Rd and Tonkawa Trail to remain inside the Right-Of-Way limits. This Change Order also compensates the Contractor for installing additional water services requested by BCMUD and for repairing several leaks on the existing water line to maintain service to BCMUD customers.

This Change Order adds new items requested by City of Round Rock (CORR) for adding a trust block on the backside of the tie-in to an existing line and adding a 36in Gate Valve near FM 1431. Third party requested work: 6. Untimely ROW/Utilities. 6C. Utilities not clear: This Change Order adds various items to compensate the Contractor for additional work needed due to various existing AT&T, PEC, and Charter Utility conflicts with the proposed CORR water line work. These changes are necessary to keep the project moving forward in a timely manner and the CORR has agreed to compensate the Contactor for this additional work.

6C. Untimely ROW/Utilities. Utilities not clear. This Change Order adds an item to compensate the Contractor for rock excavation / hammering required to construct the BCMUD 6-inch water line “A”. This was necessary, due to the AT&T lines not being relocated. Had AT&T been relocated the contractor would have been able to use a trencher instead of the larger track excavator to trench for the water line. This Change Order also adds an item to the contract to relocate conduits for the Walsh Ranch electrical service that powers the existing pond at Walsh Ranch Boulevard.

3. County Convenience. 3L Revising safety work/measures desired by the County: This Change Order provides funds to compensate the contractor for installing safety improvements on US 79 until the permanent overpasses are built. By installing these traffic control measures the drivers traveling north bound on FM 3349 can no longer proceed straight or make a left turn at the US 79 intersection. The same will apply for traffic traveling south on CR 101. Drivers will need to make a right turn on US 79

3. County Convenience. 3L Revising safety work/measures desired by the County: The original bid item 36-inch Ductile Iron Pipe has long lead time of material procurement and is not readily available. Contractor proposed two options with shorter lead time to the City of Hutto as alternatives. City of Hutto has approved option 2, which is 36-inch PVC DR 18 pipe as an alternative with $82,000 increase in cost to the current item and allows contractor to procure material quicker. The cost of this material change is 100% reimbursable by the City of Hutto.

5. Contractor Convenience. 5E Other: This Change Order is to revise the Stone Riprap material cost due to a material substitution request from the contractor. James Construction proposed material that has a specific gravity below the Contract requirements but has been accepted by TxDOT in other projects. The EOR approved the use of this material and recommended a reduction in price. This Change Order will result in a cost savings for the proposed material. This Change Order also adds new items to the Contract to pay the Contractor for additional work that was originally paid under the Force Account Line item.

2. Differing Site Conditions (unforeseeable) 2I. Additional safety needs: This Change Order provides compensation to the Contractor for performing pavement repairs, within the project limits, on the existing US 79 eastern turnaround roadway. The repairs include removal of existing failed asphalt surface and flex base areas and replacing it with full depth hot mixed asphalt.

1. Design Error or Omission 1A. Incorrect PS&E: This Change Order provides compensation to the Contractor for abandoning the water well and removing the pump house, ancillary pipes and fittings, electrical power supply, concrete slab, and performing dirt work within the project right-of-way (ROW) and the Jonah SUD water line easement. The roadway plans do not show the well, and the Jonah water line plans include a note stating, "County to coordinate abandonment of structure with property owner." However, a pay item was not included in the original Contract.

2. Differing Site Conditions. 2G Unadjusted Utility (unforeseeable): This Change Order compensates the Contractor for modifying the jacked & bored and open trench sections of the Jonah 36-in steel encased water line on Line A. During construction, a newly installed gas line along the northside of US 79 was found to be in conflict with the proposed water line. To clear the conflict, the jacked & bored section of the water line was lowered by 5 ft. This change created the need for additional shoring and material handling, and fittings to return the water line to its original elevation before continuing with the open cut section. To mitigate the cost, Jonah SUD provided revised plan sheets reducing the length of the jacked & bore section and increasing the length of the open cut section. The unused steel casing and spacers were delivered to Jonah SUD for future use.

1. Design Error or Omission. 1A Incorrect PS&E : This Change Order compensates the Contractor for replacing the bridge blister anchor bolts for the illumination poles on the northbound and southbound bridges. The as-bid plan set specified the incorrect type of base plate and anchor bolts for the bridge mounted poles. The Contractor submitted an RFI proposing to use the specified base plates with the correct type of anchor bolts. The Engineer of Record (EOR) reviewed the request and agreed with the Contractor's proposal. As a result of this change, 27 previously approved and fabricated anchor bolt sets, will be replaced with the correct type for the specified illumination poles. The supplier did not give the Contractor the option to pay a re-stocking fee for the original anchor bolts. Therefore, 27 anchor bolts will be delivered to Wilco maintenance yard to be used in future projects.

1B. Design Error or Omission. This Change Order compensates the Contractor for installing long-span metal beam guard fence in the project. At several locations on south bound frontage road (SBFR), the backless concrete inlets conflict with the location of the wooden posts supporting the metal beam guard fence (MBGF) runs. These conflicts were reviewed by the Engineer of Record, and it was recommended to utilize the TxDOT standard long-span MBGF to clear the conflicts. This solution has been agreed to by TxDOT Georgetown Area Office.

2I. Differing Site Conditions, Additional safety needs (unforeseeable). This Change Order compensates the Contractor for replacing a section of the existing metal beam guard fence (MBGF) on SB FM3349 to meet current TxDOT standards. This section of MBGF connects to the concrete barrier protecting the columns of the new bridge and its height needed to be adjusted to be MASH compliant. The original MBGF was installed according to an older TxDOT standard. The proposed adjustment ensures compliance with current TxDOT standards and improves safety of the traffic traveling south from existing FM 3349 to the new South Bound Frontage Road.

Langford Stuber,

The review for your project located at 351 CR 260, LIBERTY HILL, TX 78642 is complete. Additional information is needed for the items listed below. Comments from this review follow.

The following comments have been provided by Kelly Morrelli. Should you have any questions or require additional information regarding any of these comments, please contact Kelly Morrelli by telephone at (512) 943-3330 or by email at kmorrelli@wilco.org.

**1) Driveway Design Standard Responses Approved**

Refer to the attached "Authorization to Construct" form covering the driveway style for the driveway proposed.

Per Engineer's design, a dip-style driveway is necessary at this location. This driveway shall follow the natural ground and shall not block or divert flow in the ditch. It is important to excavate below the existing channel initially to provide room for your permanent rock, asphalt, or concrete material. The final grade of the driveway will match the existing terrain and ensure that the flow coming to the dip area will continue across the driveway at the same general slope of the channel and not back up / silt up near the driveway.

Any ditch flow that gets to the driveway, shall flow over the driveway and continue on the downstream side.

If the dip in the driveway is installed flat and does not allow water to flow, the sediment will slow down and deposit, possibly filling up your driveway and blocking water flow ultimately causing drainage issues.

In this case, the developer/builder is required to utilize concrete or asphalt for the driveway surface material.

At the following stages of construction, the applicant is required to contact the County for inspection. Inspections can be requested via this project on www.mygovernmentonline.org.

Driveway types without culvert installation:

1. After grading and earthwork has been completed, but prior to driveway surface application or concrete placement.

2. When applicant has completed all construction activities.

Please provide 48 hours advance notice for all inspections (with the exception of Final) and inspections can be requested via this project on www.mygovernmentonline.org.

**2) Driveway Design Standard Responses Approved**

The driveway will be considered an authorized, permitted driveway after construction is complete and inspection determines the driveway meets the requirements of this policy.

Email sent to: Sandy Brantley , kmorrelli@wilco.org, russell.williams@wilco.org, planning@libertyhilltx.gov Subject: Project 2023-586-DP - Driveway Design Approval Form

Williamson County has emailed a copy of Driveway Design Approval Form for the **Foust Infrastructure and Multifamily - Driveway access to CR 260.**

A drainage study determined no culvert is necessary at the location of the proposed driveway. A straight tie-in driveway may be constructed at this location at natural grade, as to not obstruct natural drainage flow.

Inspections for straight tie-in and curb and gutter driveway types are not required but may be performed, at the applicant's request, if County resources allow.

The driveway will be considered an authorized, permitted driveway after construction is complete and inspection determines the driveway meets the requirements of this policy.

If the driveway is not constructed in accordance with the approved driveway application, the County reserves the right to remove the driveway.

Please note the county will assume no responsibility for driveway maintenance and, the property owner is responsible for maintaining and repair of their driveway.

NOTE - Because this property is inside the city extraterritorial jurisdiction (ETJ) it is recommended to check with the City of Liberty Hill If applicable, the property owner should also check with the Home Owner's Association (HOA) or Municipal Utility District (MUD) for any additional restrictions/permits on development. The property owner is responsible to assure compliance with the provisions of all applicable state, federal and local laws and regulations relating to the development of this property, and the driveway should be constructed subject to any deed restrictions/easements applicable to the property.

In this case, the developer/builder is required to utilize concrete or asphalt for the driveway surface material.

Don,

I don't think we have heard anything from them in quite some time. Attached are the approvals and authorizations to construct (ATCs). The ATCs allow the applicant 1 year to construct the driveways. I am hereby with this email making the ATCs valid until 6/3/2026. Final permits are issued once they are constructed in compliance with the ATCs and inspected.

Please let me know if you need anything else.

# ADVANCE FUNDING AGREEMENT
# For
# Federally Funded Roadway Improvement Project
# Off-System

**THIS AGREEMENT** (Agreement) is made by and between the State of Texas, acting by and through the **Texas Department of Transportation** called the "State", and the **County of Williamson**, acting by and through its duly authorized officials, called the "Local Government". The State and Local Government shall be collectively referred to as "the parties" hereinafter.

**WITNESSETH**

**WHEREAS**, federal law establishes federally funded programs for transportation improvements to implement its public purposes, and

**WHEREAS**, the Texas Transportation Code, Section 201.103 establishes that the State shall design, construct and operate a system of highways in cooperation with local governments, and Section 222.052 authorizes the Texas Transportation Commission to accept contributions from political subdivisions for development and construction of public roads and the state highway system within the political subdivision, and

**WHEREAS**, federal and state laws require local governments to meet certain contract standards relating to the management and administration of State and federal funds, and

**WHEREAS**, the Texas Transportation Commission has codified 43 TAC, Rules 15.50-15.56 that describe federal, state, and local responsibilities for cost participation in highway improvement and other transportation projects, and

**WHEREAS**, the Texas Transportation Commission passed Minute Order Number **116522** authorizing the State to undertake and complete a highway improvement or other transportation project generally described as **Landscape Development.** The portion of the project work covered by this Agreement is identified in the Agreement, Article 3, Scope of Work (Project), and

**WHEREAS**, the Governing Body of the Local Government has approved entering into this Agreement by resolution, ordinance, or commissioners court order dated **{Enter Date of Resolution}**, which is attached to and made a part of this Agreement as Attachment C, Resolution, Ordinance, or Commissioners Court Order (Attachment C). A map showing the Project location appears in Attachment A, Location Map Showing Project (Attachment A), which is attached to and made a part of this Agreement.

**NOW, THEREFORE**, in consideration of the premises and of the mutual covenants and agreements of the parties, to be by them respectively kept and performed as set forth in this Agreement, it is agreed as follows:

## AGREEMENT

**1. Responsible Parties:**

For the Project covered by this Agreement, the parties shall be responsible for the following work as stated in the article of the Agreement referenced in the table below:

| | | | |
|---|---|---|---|
| 1 | **State*** | Utilities | Article 8 |
| 2. | **State*** | Environmental Assessment and Mitigation | Article 9 |
| 3. | **State*** | Architectural and Engineering Services | Article 11 |
| 4. | **State** | Construction Responsibilities | Article 12 |
| 5. | **State*** | Right of Way and Real Property | Article 14 |

An asterisk next to the party responsible for specific work in the above table indicates that the associated specific work is not anticipated as part of the Project and is therefore not included in the budget; however, the party indicated will be responsible for that specific work if that work is not the subject of another agreement and the State determines that the specific work has become necessary to successful completion of the Project.

**2. Period of the Agreement**

This Agreement becomes effective when signed by the last party whose signing makes the Agreement fully executed. This Agreement shall remain in effect until the Project is completed or unless terminated as provided below.

**3. Scope of Work**

The scope of work for the Project consists of the **Construction of a Walking Path and Installing Landscape and Scenic Enhancements on the Campus of Tippit Middle School in Williamson County, Texas as part of the Green Ribbon Mitigation Project**

**4. Project Sources and Uses of Funds**

The total estimated cost of the Project is shown in Attachment B, Project Budget (Attachment B) which is attached to and made a part of this Agreement.

A. If the Local Government will perform any work under this Agreement for which reimbursement will be provided by or through the State, the Local Government must complete training. If federal funds are being used, the training must be completed before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled “Local Government Project Procedures and Qualification for the Texas Department of

Transportation" and retains qualification in accordance with applicable TxDOT procedures. Upon request, the Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not continuously designated in writing a qualified individual to work actively on or to directly oversee the Project.

B. The expected cash contributions from the federal government, the State, the Local Government, or other parties are shown in Attachment B. The State will pay for only those Project costs that have been approved by the Texas Transportation Commission. For projects with federal funds, the State and the federal government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration (FHWA). After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.

C. Attachment B shows, by major cost categories, the cost estimates and the party responsible for performing the work for each category. These categories may include but are not limited to: (1) costs of real property; (2) costs of utility work; (3) costs of environmental assessment and remediation; (4) cost of preliminary engineering and design; (5) cost of construction and construction management; and (6) any other local project costs.

D. The State will be responsible for securing the federal and State share of the funding required for the development and construction of the local Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.

E. The Local Government will be responsible for all non-federal or non-State participation costs associated with the Project, unless otherwise provided for in this Agreement or approved otherwise in an amendment to this Agreement. For items of work subject to specified percentage funding, the Local Government shall only in those instances be responsible for all Project costs that are greater than the maximum State and federal participation specified in Attachment B and for overruns in excess of the amount specified in Attachment B to be paid by the Local Government.

F. The budget in Attachment B will clearly state all items subject to fixed price funding, specified percentage funding, and the periodic payment schedule, when periodic payments have been approved by the State.

G. When the Local Government bears the responsibility for paying cost overruns, the Local Government shall make payment to the State within thirty (30) days from the receipt of the State's written notification of additional funds being due.

H. When fixed price funding is used, the Local Government is responsible for the fixed price amount specified in Attachment B. Fixed prices are not subject to adjustment unless (1) differing site conditions are encountered; (2) further

definition of the Local Government's requested scope of work identifies greatly differing costs from those estimated; (3) work requested by the Local Government is determined to be ineligible for federal participation; or (4) the adjustment is mutually agreed to by the State and the Local Government.

I. Prior to the performance of any engineering review work by the State, the Local Government will pay to the State the amount specified in Attachment B. At a minimum, this amount shall equal the Local Government's funding share for the estimated cost of preliminary engineering performed or reviewed by the State for the Project. At least sixty (60) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction cost.

J. The State will not execute the contract for the construction of the Project until the required funding has been made available by the Local Government in accordance with this Agreement.

K. Whenever funds are paid by the Local Government to the State under this Agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation" or may use the State's Automated Clearing House (ACH) system for electronic transfer of funds in accordance with instructions provided by TxDOT's Finance Division. The funds shall be deposited and managed by the State and may only be applied by the State to the Project.

L. The State will not pay interest on any funds provided by the Local Government.

M. If a waiver for the collection of indirect costs for a service project has been granted under 43 TAC §15.56, the State will not charge the Local Government for the indirect costs the State incurs on the Project, unless this Agreement is terminated at the request of the Local Government prior to completion of the Project.

N. If the Local Government is an Economically Disadvantaged County (EDC) and if the State has approved adjustments to the standard financing arrangement, this Agreement reflects those adjustments.

O. Where the Local Government is authorized to perform services under this Agreement and be reimbursed by the State, the Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice, in a form and containing all items required by the State, no more frequently than monthly and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

P. Upon completion of the Project, the State will perform a final accounting of the Project costs for all items of work with specified percentage funding. Any funds due by the Local Government, the State, or the federal government for these work items will be promptly paid by the owing party.

Q. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this Agreement or indirectly through a subcontract under this Agreement. Acceptance of funds directly under this Agreement or indirectly through a subcontract under this Agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with

those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

R. Payment under this Agreement beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this Agreement shall be terminated immediately with no liability to either party.

**5. Termination of This Agreement**

This Agreement shall remain in effect until the Project is completed and accepted by all parties, unless:

A. The Agreement is terminated in writing with the mutual consent of the parties;

B. The Agreement is terminated by one party because of a breach, in which case any costs incurred because of the breach shall be paid by the breaching party;

C. The Local Government elects not to provide funding after the completion of preliminary engineering, specifications, and estimates (PS&E) and the Project does not proceed because of insufficient funds, in which case the Local Government agrees to reimburse the State for its reasonable actual costs incurred during the Project; or

D.
