If the assumptions and parameters used to develop the SOW are found to be incorrect or have changed, the Customer will notify DT Services in writing within five (5) business days. The parties agree to pursue resolution through the Change Management Process. If the parties fail to reach an agreement with respect to such incorrect assumptions or parameters, DT Services may terminate this SOW with notice to Customer.

- **Change Implementation** – If the change request is approved, the change will be noted as “Approved” and will be incorporated into the SOW and managed for progress. If the change is not approved, the change will be noted as “Rejected” and DT Services will continue to perform without regard to the proposed change to the extent practically possible.

The receiving party will review the proposed Change Request Form and will: (i) approve it, (ii) agree to further investigation, or (iii) reject it. Neither Customer nor DT Services will unreasonably withhold or delay its agreement to any proposed change. DT Services will define the change in scope, effort, timeline, and additional cost impact within ten (10) business days and provide this to Customer Contact for review and sign off. If more than 10 business days are needed, the estimated time to provide the change request will be communicated by the SPOC to the Customer Contact. Changes agreed upon pursuant to the Change Management Process will not be effective until mutually executed by a duly authorized representative of both parties. In addition, DT Services shall be relieved of any performance, schedule, milestone, or financial commitments associated with Services affected by Customer's non-compliance with Customer responsibilities or other obligations under this SOW or in the event of any deviation from any assumption, constraint, dependency or engagement scope specification contained in this SOW until an appropriate written change order or other amendment to this SOW addressing the foregoing is approved and signed by the Customer and DT Services.
