For the consideration above recited and the mutual covenants and conditions herein contained the parties further agree to the additional special provisions as follows: As part of the construction Project, GRANTEE shall cause any fencing located within the adjacent property donated to the County and required to be removed for construction as part of this Project to be relocated or reconstructed as closely as possible to the existing condition along the new property line of Grantor adjacent to the Property.

Following completion of work within the temporary construction workspace easement area described in Exhibit "A", if GRANTEE has removed or damaged improvements, or landscaping within said easement area or otherwise on Grantor's property, GRANTEE shall at its expense restore properties injured by GRANTEE's activities as closely as commercially possible to substantially the same condition as existed previous to GRANTEE's entry upon the particular property, taking into account the proposed modifications as described herein.

To the extent allowed by law, GRANTEE shall indemnify Grantor against any loss and damage which shall be caused by the exercise of the rights of ingress and egress or by any wrongful or negligent act or omission of GRANTEE's agents or employees in the course of their employment.

This Easement and License shall be in full force and effect at all times during the accomplishment and completion of the construction Project activities described above. Said Easement shall terminate and all use rights within land area shall revert to the Grantor, their heirs, and assigns, and all interest conveyed herein shall cease on the expiration of twelve (12) months from the issuance of Notice to Proceed for construction of the Project to contractors working within the temporary workspace area Property, or on the date of completion of construction of the Project activities described above, whichever occurs first.
