WHEREAS, the County and the City are authorized to enter into this Agreement pursuant to the provisions of the Interlocal Cooperation Act, Texas Government Code Section 791.00 et seq;

WHEREAS, the County entered into that certain agreement with Pictometry International, Corp. ("Pictometry") known as the Pictometry International Corp. General License Terms and Conditions wherein the County received a license to use Pictometry's aerial image software and data (the "Pictometry Agreement"). A copy of the form of the Pictometry Agreement is attached hereto and incorporated herein as Exhibit "A";

WHEREAS, the City currently has a need for such services and goods and would like to enter into this Agreement whereby the City would be able to use Pictometry's aerial image software and data strictly in accordance with the terms and conditions of the Pictometry Agreement;

WHEREAS, the County is willing to agree, only to the extent authorized by Pictometry and the Pictometry Agreement, to allow the City to use Pictometry's aerial image software and data in exchange for a payment of contribution to the County;

NOW, THEREFORE, the County and the City agree as follows:

I. OBLIGATIONS AND AGREEMENTS OF THE COUNTY

- A. Only to the extent authorized by Pictometry and only in strict accordance with the terms and conditions set forth in the Pictometry Agreement, the County will allow the City to use the Licensed Products described in the Pictometry Agreement.
- B. The County will be considered as the Licensed Agency for Pictometry's aerial image software and data, and will therefore handle all dealings with Pictometry. Updates, bug-fixes and general support issues shall be forwarded to the County so that the County can communicate such issues to Pictometry. Training sessions will be conducted for a maximum of 2 parties from the City.
- C. The County will not be obligated to provide any support or services to the City's end-users or any other services that are not specifically set forth herein.

II. OBLIGATIONS AND AGREEMENTS OF THE CITY

- A. The City accepts and approves, as to both form and substance, each term and condition of the Pictometry Agreement, except as provided in Paragraph II.B. below, and hereby acknowledges that it understands that the County may allow the City to use the Licensed Products described in the Pictometry Agreement only to the extent authorized by Pictometry and only in strict accordance with the terms and conditions set forth in the Pictometry Agreement.
- B. The City does hereby agree to be bound by, and to assume and comply with each and all of the terms, covenants and conditions of the Pictometry Agreement (as defined in the Pictometry Agreement) in the same manner and to the same extent as if it were a party thereto, except that the City shall not be bound by, assume, or be required to comply with the County's financial obligations to Pictometry under the Pictometry Agreement. The City's obligation to comply with the confidentiality provisions of the Pictometry Agreement shall be subject to the Texas Public Information Act, Chapter 551, Texas Local Government Code.
- C. The City acknowledges and agrees that Pictometry and the County may amend all or any portion of the Pictometry Agreement, as set forth therein, and the City hereby agrees to be bound by any such amendment, subject to the City being given prior notice of the amendment and the City's right to terminate this Agreement as provided herein. The County shall give the City reasonable notice prior to the effective date of any such amendment and, if such amendment is adverse to the City, the City may, within thirty (30) days of receiving such notice from the County, terminate its further participation in this Agreement by giving prior written notice to the County. In the event of such termination, the terms set forth under Section III below and the terms of the Pictometry Agreement shall control.
- D. The City shall pay the County \$11,685.00 per year for two years (\$23,370.00 in total) (the "Annual Payment") in exchange for the right to use Pictometry's aerial image software and data and to participate in the Project. The first payment shall be due immediately upon execution of this Agreement and the second payment shall thereafter be due upon the first anniversary of this Agreement. In the event of termination of this Agreement, the City shall be reimbursed a pro-rata share of the Annual Payment within thirty days of the date of termination. The pro-rata share of the Annual Payment shall be calculated by multiplying \$32.01 by the number of days between the termination date and the subsequent anniversary of the Agreement.

- F. THE CITY AGREES AND ACKNOWLEDGES THAT THE COUNTY IS ALLOWING THE CITY TO USE PICTOMETRY'S AERIAL IMAGE SOFTWARE AND DATA, AS WELL AS ANY OTHER GOODS OR SERVICES THAT ARE OFFERED PURSUANT TO THIS AGREEMENT OR THE PICTOMETRY AGREEMENT, ON AN 'AS IS' BASIS WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE COUNTY DOES NOT ASSUME ANY RESPONSIBILITY FOR DEFECTS IN PICTOMETRY'S AERIAL IMAGE SOFTWARE AND DATA OR IN ANY OTHER GOODS OR SERVICES THAT ARE OFFERED PURSUANT TO THIS AGREEMENT OR THE PICTOMETRY AGREEMENT, OR IN THE ACCURACY OR APPLICATION OF OR ERRORS OR OMISSIONS IN SAID GOODS AND SERVICES AND DOES NOT WARRANT THAT THE FUNCTIONS CONTAINED THEREIN WILL MEET THE CITY'S REQUIREMENTS, OR THAT THE OPERATION OF SAID GOODS AND SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE, OR THAT ANY DEFECTS IN SAME WILL BE CORRECTED.

III. TERM AND TERMINATION

- A. Term. This Agreement shall be effective from and after the date of execution by all parties and shall terminate on the second anniversary following such date, unless sooner terminated pursuant to the terms hereof.
- B. Termination of Pictometry Agreement. - C. Termination for Convenience. Either party may terminate this Agreement for convenience and without cause or further liability upon thirty (30) days written notice to the other party. In the event of termination for convenience, it is understood and agreed that only the amounts due to the County for goods and/or services provided and expenses incurred to and including the date of termination, will be due and payable.
- D. Termination for Cause. If either party defaults in the performance of any of the terms or conditions of this Agreement, the non-defaulting party shall deliver written notice of such default to the defaulting party. Such notice must specify the nature of the default and inform the defaulting party that unless the default is cured within thirty (30) days of receipt of the notice, additional steps may be taken to terminate this Agreement. If the defaulting party begins a good faith attempt to cure the default within thirty (30) days, then and in that instance, the thirty (30) day period may be extended by the non-defaulting party, so long as the defaulting party continues to prosecute a cure diligently to completion and continues to

make a good faith attempt to cure the default. If, in the opinion of the non-defaulting party, the defaulting party does not cure the breach within thirty (30) days or otherwise fails to make any diligent attempt to correct the default, the defaulting party shall be deemed to be in default and the non-defaulting party may, in addition to seeking any other remedies available at law or in equity, terminate this Agreement.

- E. Effect of Termination or Expiration. As with other matters pertaining to this Agreement, the City acknowledges that the terms and conditions of the Pictometry Agreement shall control in relation to the actions and conditions that are required following the termination or expiration of this Agreement and/or the Pictometry Agreement.
- F. Current Revenues. The City's financial obligations under this Agreement shall be paid from current revenues available to the City. Licensee agrees that it will deliver to all recipients of any Hard Copies, and to any other persons who may have access to any of the Images, all such disclaimers and other information that Pictometry may request so as to assist those persons in understanding the limitations on the accuracy of the information developed through the Licensed Products.
- 4.3 **Pictometry's Reserved Rights.** Pictometry reserves the right, at its sole discretion and without liability to Licensee, to create new versions of or modules with additional functionality for any part of the Licensed Products, which may be acquired on a nonexclusive basis by Licensee under a separate agreement. Payment to be made as provided in Schedule A. Any tax, including sales tax, is in addition to the License Fees and is the responsibility of the Licensee unless documentation of tax exemption is provided to Pictometry. At no time shall Pictometry claim ownership of this data.
- 6.2 **Technical Support Contacts.** Licensee agrees to name Licensee personnel to act as Licensee's technical support contacts for Licensee and these contacts will receive technical training as provided in Schedule A. These contacts will coordinate all requests and inquiries from all Licensee Authorized Users and only these named technical support contacts will have access to telephone support from Pictometry.

- 6.4 **Notification.** Licensee will: (a) notify Pictometry in writing of any claim or proceeding involving any of the Licensed Products within ten (10) days after Licensee learns of the claim or proceeding; and (b) report promptly to Pictometry all claimed or suspected defects in any Licensed Product.

7. ASSIGNMENT

- 7.1 **General.** The provisions of this Agreement shall be binding upon and inure to the benefit of the parties, their successors and permitted assigns, but shall not be assignable by either party except as provided in Sections 7.2 and 7.3 below.
- 7.2 **Assignment By Licensee.** This Agreement will not be assignable by Licensee, and Licensee may not delegate its duties hereunder without the prior written consent of Pictometry.
- 7.3 **Assignment By Pictometry.** Pictometry shall have the right to assign its rights to receive License Fees under this Agreement, but no such assignment shall affect Pictometry's obligations hereunder. In addition, Pictometry shall have the right to assign all its rights to any person or entity, provided the assignee has assumed all of Pictometry's obligations under this Agreement. Except as provided above in this Section 7.3, this Agreement will not be assignable by Pictometry.

8. DURATION AND TERMINATION OF LICENSE

- 8.1 **Initial Term.** The initial term of this Agreement shall commence upon the installation of substantially all of the Image Warehouse and shall expire, unless sooner terminated in accordance with Article 8.3, or as indicated on Schedule A, no earlier than the second anniversary thereof.
- 8.2 **Renewal.** Effective as of that second anniversary (detailed in Article 8.1) or later anniversary as more fully described in Schedule A, Pictometry will grant an extension of the licensing of Products covered in this Agreement, only in accordance with the following:

- (1) If no later than the 90th day before that second anniversary or later anniversary as more fully described in Schedule A, the Licensee enters into a License Renewal Agreement with Pictometry (for an additional two or more years) for new Licensed Images (with an annual value equal to or greater than that of the existing Licensed Images), then Pictometry will grant Licensee a perpetual License for the existing Products licensed under this Agreement; or
- (2) If no later than the 90th day before that second anniversary or later anniversary as more fully described in Schedule A, the Licensee enters into a License Renewal Agreement with Pictometry (for an additional two or more years) for new Licensed Images (with an annual value of at least 50% of that of the existing Licensed Images), then Pictometry will grant Licensee a perpetual License for the existing Licensed Products upon the payment of a Perpetual License Conversion Fee. Fee is calculated on the difference between the annual fee payable under this Agreement and the new annual fee;
- (3) If no later than the 10th day after that second anniversary or later anniversary as more fully described in Schedule A, the Licensee pays Pictometry an additional payment of a Perpetual License Conversion Fee, then Pictometry will grant a Perpetual License to Licensee for the Products licensed under this agreement.

Any extensions (or Perpetual Licenses) will be subject to the same terms and conditions as are provided in this Agreement except that the annual fee (under Article 5.1 and Schedule A) will be eliminated and the Licensee will no longer be able to add images to the existing Image Library. Nevertheless, Licensee's obligations as provided in Schedule B, shall continue during any such extension under this Article 8.2.

- 8.3 **Termination for Cause.** This Agreement may be terminated by either party in the event that the other party has failed to perform a material obligation or has otherwise breached a material term of this Agreement, if that other party has failed to cure that failure or breach within thirty (30) days after receipt of written notice thereof from the other party.
- 8.4 **Effect of Termination or Expiration.** Upon termination or expiration of this Agreement, Licensee shall immediately cease any and all further use of the Licensed Products and shall promptly purge all copies of the Licensed Products from all computers and workstations on which any of them may be stored or available at the time. In addition, the Licensee shall destroy all remaining inventory of Hard Copies of Images in its possession or under its control (excluding those images produced in the activities described in Article 4.1(b)(2) above). Within thirty (30) days of the date of termination or expiration of this Agreement, Licensee shall also pay Pictometry all amounts due hereunder. The provisions of Articles 2, 7, 8, 9, and 10 of this Agreement shall survive any termination or expiration of this Agreement.
- 8.5 **Access to Records.** During the term of this Agreement and for a period of one (1) year after the date of its termination or expiration, Licensee shall make available to Pictometry for inspection and copying, on reasonable notice and at reasonable hours, all books and records (including electronically retained information) pertaining to Licensee's compliance with the provisions of this Agreement.

9. LIMITED WARRANTY; DISCLAIMER OF WARRANTIES; LIMITED REMEDIES

- 9.1 **Limited Warranties.** Pictometry warrants:

 - b) that the information concerning the accuracy of the Licensed Products set forth on the attached Schedule C is substantially true.

Upon notice to Pictometry of any breach of the warranty in clause (a) and/or (b) above, Pictometry will use its reasonable efforts to correct the problem so as to allow the Licensed Products to produce Images and related data that are usable for the general purposes intended. The foregoing warranty is the sole and exclusive warranty that Pictometry makes with respect to the Licensed Products, and the remedies set forth above are the sole and exclusive remedies for breach of those warranties.

- 9.2 **Disclaimer of Other Warranties.** Except as provided in Section 9.1 above, EACH OF THE LICENSED PRODUCTS IS PROVIDED TO LICENSEE "AS IS" AND "WITH ALL FAULTS" PICTOMETRY MAKES NO WARRANTIES OR REPRESENTATIONS OF ANY KIND, EXPRESS, IMPLIED, OR STATUTORY. With respect to any other claims that Licensee may have at any time against Pictometry on any matter relating to this Agreement, or the installation, operation, design, distribution, or use of the Licensed Products, the total liability of Pictometry shall in the aggregate be limited to the aggregate amounts of money that Licensee has paid to Pictometry under this Agreement. In addition, because of scheduling and other considerations in preparing current Licensed Images, Pictometry cannot assure delivery of the Licensed Products on a specified delivery date, and Pictometry shall not be liable for any such late delivery except in a case of its gross negligence or willful misconduct. IN NO EVENT SHALL

EITHER PARTY BE LIABLE, UNDER ANY CAUSE OF ACTION OF ANY KIND ARISING OUT OF OR RELATED TO THIS AGREEMENT, THE LICENSED PRODUCTS, OR IMAGES (INCLUDING UNDER THEORIES INVOLVING TORT, CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR BREACH OF WARRANTY), FOR ANY LOST PROFITS OR FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, OR OTHER SPECIAL DAMAGES SUFFERED BY THE OTHER PARTY OR BY ITS CUSTOMERS OR OTHERS, EVEN IF A PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Custom Ortho-Mosaics:

Pictometry can create custom ortho-mosaics based on the resolution of the imagery captured. If a custom ortho-mosaic is desired, the full specifications will be spelled out in a separate addendum. It is important to note that while the ortho-mosaic can be created at any pixel resolution, up or down, creating an ortho-mosaic with a pixel size smaller than the ground sample distance of the input imagery will not contain any more information than the resolution of the input imagery. In other words, if you create a six-inch ortho-mosaic from one-foot imagery, even though the pixels will be six-inch, the overall image data resolution will still only be one-foot. For this reason, it is important to ensure the base imagery purchased meets or exceeds the resolution requirements of any ortho-mosaics you need. Under-sampling, for instance creating a one-foot ortho-mosaic from six-inch resolution imagery, is not a problem and generally produces very good results.

Pictometry also has licensed partners who can create an ortho-mosaic product that can be certified to a particular accuracy. In general, ortho-mosaics from Pictometry's neighborhood orthogonal imagery can meet NMAS 1:1200 (1.0-meter RMS error at 95% confidence interval) in relatively flat terrains or areas with good elevation data. For areas with highly variable terrain or areas with poor elevation data, this number generally drops to NMAS 1:2400

[Handwritten signature]

(2.0-meter RMS error at 95% confidence interval). Certified ortho-mosaics can be created from Pictometry's community orthogonal imagery, but only under certain capture parameters. As such, it is important to include any custom ortho-mosaic requirement with the image capture requirements such that the community orthogonal imagery can be captured in a way consistent with certification requirements.

General Specifications:

Orthogonal Images

Sensor Size	Pixels: 4008 x 2672 (or 3208 x 2672 for some Community level imagery) in a Landscape orientation.
Image Format	Industry-standard image format with proprietary image trailer, including JFIF (JPEG), TIFF, and BMP.
Image Quality	Images will have an unobstructed view of the ground. In controlled airspace around airports, etc., and in areas of rapid elevation changes, the image footprint sizes and resolutions may vary. There may be varying degrees of ground illumination and color variations due to lighting and cloud shadows.
Measurement Accuracy	<0.5% measurement error, excluding user pixel selection error
Pixel Placement Accuracy	Pictometry provides a visualization system and therefore does not certify image accuracy. However, some Pictometry customers have done their own certification on the Pictometry data after delivery and have shared their results. On average, customers have been seeing better than 1.0-meter RMS error at a 95% confidence level (NMAS 1:1200) for orthogonal imagery over relatively flat terrain or in areas with accurate elevation data, and 2.0-meter RMS error at a 95% confidence level (NMAS 1:2400) for more varied terrain or in areas with poor elevation data. However, Pictometry does not guarantee these accuracies and your results may vary.
Sensor Orientation	Pictometry utilizes an IMU (Inertial Measurement Unit), ground station post-corrected differential GPS, and Kalman filtering to achieve a high degree of positional and directional accuracy.
Sensor Positional Accuracy	mean 15cm absolute
Sensor Directional Accuracy	0.015 degrees absolute (roll/pitch) 0.035 degrees absolute (heading)
Ortho-Rectification	The images are ortho-rectified to back out the optical deviations of the capture system and the variations due to elevation changes (utilizing the best DEM data available, including customer provided DEM data), resulting in geographically square pixels aligned to a rectilinear grid. This grid can be one of any number of coordinate systems, including Latitude/Longitude, State Plane, UTM, and more. The desired coordinate system should be specified in the contract, or a default coordinate system will be used.
Image Export	JFIF (JPEG), TIFF, BMP EFS software can be utilized to export the images into any of the above industry-standard formats. The orthogonal images can optionally be re-projected during this export process, and an associated geography file can be created as well for use in importing the images into GIS mapping software.
Image Tiling	Individual orthogonal images are edge-feathered and mosaiced to produce orthogonal image tiles with tile sizes selected to balance single image coverage as well as manageability of open images. These orthogonal tiles provide continuous coverage across the area of interest. While some color balancing is done, these orthogonal tiles are not fully radiometrically balanced or edge-matched.

Oblique Images

Sensor Size	Pixels: 4008 x 2672 (or 3208 x 2672 for some Community level imagery) in a Landscape orientation.
Image Format	Industry-standard image format with proprietary image trailer, including JFIF (JPEG), TIFF, and BMP.
Image Quality	Images will have an unobstructed view of the ground. In controlled airspace around airports, etc., and in areas of rapid elevation changes, the image footprint sizes and resolutions may vary. There may be varying degrees of ground illumination and color variations due to lighting and cloud shadows. Due to the nature of oblique aerial photography, there may also be artifacts such as haze and glint and glare caused by reflected sunlight.
Measurement Accuracy	<0.75% measurement error, excluding user pixel selection error
Pixel Placement Accuracy	Pictometry provides a visualization system and therefore does not certify image accuracy. However, some Pictometry customers have done their own certification on the Pictometry data after delivery and have shared their results. On average, customers have been seeing better than 2.0-meter RMS error at a 95% confidence level (NMAS 1:2400) for oblique imagery over relatively flat terrain or in areas with accurate elevation data, and 4.0-meter RMS error at a 95% confidence level (NMAS 1:4800) for more varied terrain or in areas with poor elevation data. However, Pictometry does not guarantee these accuracies and your results may vary.
Sensor Orientation	Pictometry utilizes an IMU (Inertial Measurement Unit), ground station post-corrected differential GPS, and Kalman filtering to achieve a high degree of positional and directional accuracy.
Sensor Positional Accuracy	mean 15cm absolute
Sensor Directional Accuracy	0.015 degrees absolute (roll/pitch) 0.035 degrees absolute (heading)
Image Export	JFIF (JPEG), TIFF, BMP EFS software can be utilized to export the images into any of the above industry-standard formats.

Notes

1. The existing National Map Accuracy Standards focus on conventional analog aerial photography products. When used for digital mapping products, it is necessary to specify the approximate image scale (e.g. 1:1200) when stating NMAS requirements.
2. Pictometry's orthogonal images provide the coordinate accuracy fulfilling most planimetric requirements, however, Pictometry data is not intended for authoritative definitive mapping or surveying replacement. If there is a need for authoritative mapping products, additional work is required by licensed individuals in order to certify Pictometry's orthogonal imagery. Alternatively, a separate, authoritative orthogonal image capture can be done and those orthogonal images used inside of Pictometry. Our oblique images are unique to Pictometry and are intended to provide data not available elsewhere and lateral views with more visual information, such as building stock analysis. In Pictometry the orthogonal and oblique images are linked for your convenience and additional study. With a few clicks you can find the revealing lateral views, height measurements, and other information afforded by the oblique images while using the coordinate accuracy afforded by the orthogonal images.
