To Whom It May Concern:

Please allow me to introduce myself. My name is Tina Collier Geiselbrecht. I moved to Florence almost two years ago. It is with a sincere desire that ask you to please consider me for an appointment to the Williamson County Emergency Services District # 7.

I am, by profession, a transportation researcher/planner. I am employed by the Texas Transportation Institute, an agency of the Texas A&M University System. In this capacity, I aid local agencies in the development of transportation plans to meet the needs for future growth. I believe this experience can be invaluable. This portion of the county is growing at a very rapid pace. It will take the forward thinking of many individuals to plan for and be ready to meet the needs of the community as it grows.

I believe that I can be a valuable asset to the district. Before moving to Florence, I lived in Cedar Park. While in Cedar Park, I became very involved in the community, first through my neighborhood association and then my son's elementary school PTA. Eventually, I enrolled in Leadership Cedar Park where I met many people and became more educated in the government of the city. In 2002, I ran for and was elected to the Cedar Park City Council. In 2004 I was re-elected. I also served as mayor pro tem from 2005-2006. In this capacity I had extensive experience in guiding the development of the city. I believe these same skills will aid the district. Additionally, I have extensive experience in dealing with several state agencies. I have also attached my resume for your consideration

My education includes a Bachelor's degree from the University of Texas in Economic Geography and a Master's degree from Southwest Texas State University in Geography and Planning. I hope that you will favorably consider my application. If you require any additional information please feel free to contact me via the information provided below.

Respectfully,

Tina Geiselbrecht
