COUNTY ROAD 175 ROADWAY PARTICIPATION AGREEMENT

This Roadway Participation Agreement ("Agreement") is entered into between Williamson County, Texas (the "County") and Parkside at Mayfield Ranch, Ltd., a Texas limited partnership (the "Developer"). The County and the Developer are sometimes individually referred to as a "Party" and collectively referred to as the "Parties." Each of the Parties confirms that it has the authority to enter into this Agreement and the ability to perform its obligations under this Agreement, without the further approval or consent of any other person or entity.

Recitals

WHEREAS, the County intends to widen and improve the portion of County Road 175 (the "<u>Roadway</u>") between the Williamson County Regional Park and RM 2243 (the "<u>Roadway Improvements</u>"), as depicted on the attached <u>Exhibit A</u>; and

WHEREAS, the Developer is in the process of developing a residential development to be known as Parkside at Mayfield Ranch (the "<u>Subdivision</u>"), a portion of which abuts the Roadway; and

WHEREAS, in connection with its development of the Subdivision and in recognition of the impact the Subdivision will have on traffic demands on the Roadway, the Developer has agreed to pay 50% of the cost of construction of the 1,030 linear feet of the Roadway Improvements which are immediately adjacent to the Subdivision (the "<u>Developer Project</u>"), as depicted on the attached <u>Exhibit A-1</u>; and

WHEREAS, the Parties desire to put their agreements regarding these matters in writing;

NOW, THEREFORE, in consideration of the mutual covenants, obligations and benefits set forth in this Agreement, the Parties agree as follows:

Section 1. The Developer Project; Phasing.

- (a) The Developer Project will consist of the widening and improvement of 1,030 feet of the Roadway, immediately adjacent to and in front of the Subdivision, to a divided four-lane road with a curbed median and open drainage ditches, located within approximately 140-feet of right-of-way, as depicted on Exhibit A-1.
- (b) The Roadway Improvements will be constructed in phases. Segment 2A of the Roadway Improvements, which includes the Developer Project, will commence approximately 350 feet north of the intersection of the Roadway and Perry Mayfield Boulevard and end approximately 740 feet north of the intersection of the Roadway and Parkside Parkway ("Segment 2A").
- Section 2. Engineering. The County has retained Haynie Consulting (the "Project Engineer") to prepare the design for the Roadway Improvements, including the Developer Project. The County will pay all fees and charges of the Project Engineer, and the Developer will have no responsibility for any of such costs. The design of the Developer Project will be subject to approval by the Developer, which approval will not be unreasonably withheld or delayed.
- Section 3. Budget. The preliminary budget for Segment 2A is attached as Exhibit "B" (the and the preliminary budget for the Developer Project is attached as Exhibit "B-1" (the "Preliminary

<u>Budgets</u>"). Upon the County's award of a construction contract for Segment 2A (the "<u>Construction Contract</u>"), the Project Engineer will prepare updates of the Preliminary Budgets (the "<u>Updated Budgets</u>") based on the accepted bid prices. The Project Engineer will provide a copy of the Updated Budgets to the County and the Developer and a copy of the Updated Budgets will be dated, attached to this Agreement and supersede the Preliminary Budgets.

Section 4. Construction. The County will construct and ensure timely and satisfactory completion of Segment 2A, including the Developer Project.

Section 5. Costs of Construction.

- (a) Except as provided in Subsection (b), the County will promptly pay all costs of Segment 2A as they become due, including, without limitation, all costs of engineering and design, all costs of materials, labor, construction, project management fees and inspection fees; and all payments under each Construction Contract. The Developer's only obligation with respect to Segment 2A will be to pay the amount specified in Subsection (b), below.
- (b) The Developer will pay 50% of the actual costs of construction of the Developer Project under the Construction Contract (the "<u>Developer's Cost Share</u>"), not to exceed a maximum of \$250,000 (the "<u>Maximum Developer Cost</u>") unless an increase in the Maximum Developer Cost is approved by the Developer in a written amendment to this Agreement.
- (c) Within 15 days of the Project Engineer's delivery of the Updated Budgets, the Developer agrees to post a letter of credit with the credit, drawn on a state or national banking institution, in an amount equal to the Developer's Cost Share or the Maximum Developer Cost, whichever is less (the "Fiscal Posting"). The Developer will be entitled to reduce the amount of the Fiscal Posting as the Developer funds payments under subsection (d), so that the amount of the Fiscal Posting then held by the County at all times corresponds to the total remaining, unpaid amount of the Developer's Cost Share, as limited by the Maximum Developer Cost, and the County agrees to cooperate with the Developer to allow such reductions. If the Developer fails to fund any sums required to be paid under this Section in a timely manner, the County may draw on the Fiscal Posting, and use the proceeds for the purpose of paying sums otherwise due from the Developer hereunder. In such event, any excess proceeds held by the County upon completion of the Developer Project will be refunded to the Developer. Upon completion of the Developer Project or at such time as the Developer has funded the Developer's Cost Share, as limited by the Maximum Developer Cost, whichever occurs first, the Developer's funding obligation under this Agreement will be satisfied and the County will return the Fiscal Posting to the Developer.
- (d) The County will require that each pay estimate submitted under the Construction Contract(s) separately itemize all costs for the Developer Project and all costs for the remainder of Segment 2A. The County will transmit a copy of each approved pay estimate relating to the Developer Project to the Developer and, within 30 days of receipt of each approved pay estimate, the Developer will fund 50% of the approved costs of the Developer Project, as reflected on the approved pay estimate, to the County.

Section 6. Designated Representatives. The County and the Developer each designate the individual specified below ("Designated Representative") to represent them and to act on their behalf with respect to the subject matter of this Agreement. Each Designated Representative will have authority to determine and interpret the policies and exercise the discretion of the Party it represents, and a Party may rely on the decisions and representations made by the other Party's Designated Representative with respect to the subject matter of this Agreement. Each Designated Representative may designate other representatives to transmit instructions and receive information on the Designated Representative's behalf.

The County will also provide the Developer with copies of any subsequent documents amending or replacing the Construction Contract or any related documents; however, no change orders to the Construction Contract may be made without the Developer's approval, which will not be unreasonably withheld or delayed.

- Chapter 2258, Subchapter B, of the Texas Government Code, pertaining to prevailing wage rates. The Contractor will be required to pay not less than the prevailing wage rates established by the County to workers employed by it in the execution of the Construction Contract, and to comply with all applicable provisions of Chapter 2258, Subchapter B, Texas Government Code, including the recordkeeping required therein. Further, the Contractor will be required to certify in writing that it provides worker's compensation insurance coverage for each employee of the Contractor employed on Segment 2A, and to obtain a certificate from each subcontractor, relating to the coverage of the subcontractor's employees, in accordance with Section 406.096, Texas Labor Code. The Contractor will be required to implement and maintain all customary or necessary safety precautions and programs in connection with the construction of Segment 2A.

- Section 8. Inspection. Inspections and certifications will be conducted in accordance with standard County policies, procedures, and requirements. The County will notify the Developer in writing if any inspection reveals that any part of Segment 2A is not constructed or completed in accordance with the plans and specifications or this Agreement or is otherwise materially defective, and this notice will specifically detail any deficiencies. If an inspection indicates that work or material may not comply with the plans and specifications or the requirements of this Agreement, the County may require the Contractor to suspend work until the County is satisfied any defect is or will be remedied.

Section 9. Completion of Project.

- (a) The County will cause Segment 2A to be substantially complete within 12 months from the issuance of notice to proceed to the Contractor, and Segment 2A must be finally accepted by the County within 18 months from the issuance of notice to proceed.
- (b) The Project Engineer will prepare a written notice of substantial completion and forward the notice to the County and the Developer. The County will conduct a final inspection of Segment 2A within five business days after receiving written notice of substantial completion. If completed in accordance with the terms of the plans and specifications and this Agreement in all material respects, the County will certify Segment 2A as being in compliance and issue a notice of final acceptance.
- (c) The Contractor will be responsible for any defects in workmanship or materials (ordinary wear and tear excepted) in Segment 2A for one year following acceptance by the County.

Section 10. Developer's Completion of Project.

- (a) If the County begins but does not diligently pursue timely completion of construction of Segment 2A substantially in accordance with the plans and specifications and this Agreement for any reason, the Developer has the right, but not the obligation, to complete the construction of Segment 2A pursuant to the Construction Contract or otherwise. Before exercising this right, the Developer will send the County written notice specifying the deficiency in the County's performance and the actions required to cure the deficiency. If the County does not cure the deficiency within ten days, the Developer may assume the Construction Contract and proceed with construction of Segment 2A.
- (b) If the Developer elects to complete Segment 2A, all plans, designs, easements, real and personal property produced or installed within the public right-of-way for Segment 2A may be utilized by the Developer to the reasonable extent necessary to allow the Developer to complete and maintain the Project.
