PROJECT: Multiple water lines and all necessary or desirable facilities, equipment and appurtenances thereto including, without limitation, valves, meters and communication lines and related facilities. In the event Grantor constructs an additional water line or lines in the future after construction of an initial water line, any such line or lines shall be constructed adjacent to and generally parallel with the first water line laid by Grantee within the Water Line Easement.

Other Rights Granted to Grantee: Grantee shall have such other right and benefits necessary and/or convenient for the full enjoyment and use of the rights herein granted, including without limitation, (1) the reasonable right of ingress and egress over and across the area encompassed by the Water Line Easement and over the adjacent lands owned by Grantor, but only to the extent that ingress or egress is not available or adequate from a public right-of-way, and then only in a manner or by such route that occasions the least practicable damage and inconvenience to Grantor or its remaining property; (2) the reasonable right from time to time to remove any and all improvements, undergrowth and other obstructions that may injure Grantee's facilities and appurtenances in the Water Line Easement Tract or materially interfere with the exercise of Grantee's authorized rights; and (3) the right to abandon-in-place any and all water supply lines, service lines and associated appurtenances, such that Grantee shall have no obligation or liability to Grantor or their successors or assigns to move or remove any such abandoned lines or appurtenances.

Obligation of Grantee: By acceptance of this grant and utilization of any rights granted hereby, Grantee agrees that it will at all times, after doing any work pursuant to the rights hereby granted, restore the surface of the Waterline Easement Tract to substantially the same condition as existed prior to such work taking into consideration the nature of the work being performed; and that Grantee will not do any act, or fail to do any act, that will be detrimental or create a hazard to the surface of the lands covered thereby or to the use thereof. The consideration recited herein shall constitute payment in full for all damages sustained by Grantor by reason of the utilization by the Grantee of any rights granted herein.

Rights of Grantor: Grantor shall have the right to abate any unauthorized use of the Water Line Easement by Grantee by any lawful method. Grantor, its successors and assigns shall retain the right to use the surface of the lands within the boundary lines of the Waterline Easement Tract, including, but not limited to, for the construction of roads, driveways, curbs, sidewalks, fences, and light poles; provided, however, that (1) no buildings, water quality or detention or similar drainage features, or permanent structures of any kind shall be placed, erected or maintained thereon; (2) such improvements shall not damage facilities located within, or materially interfere with Grantee's use and enjoyment of, the Waterline Easement Tract; and (3) except as otherwise provided in this document, only subsurface utilities which cross perpendicular to, rather than run parallel with, the Project facilities, and which do not otherwise directly or indirectly interfere with, interrupt or impair Grantee's use of the Water Line Easement and rights hereunder, and that do not directly or indirectly interfere with or damage the Project facilities, may be located within the Waterline Easement Tract. Grantee agrees to repair damages that it causes to any of Grantor's authorized improvements within the Waterline

Easement Tract. Grantee shall not be responsible for damage it causes to unauthorized improvements within the Waterline Easement Tract.

Representations of Grantor: Grantor represents, covenants and warrants that it has full power and authority to enter into this instrument and to convey the Water Line Easement to Grantee.

Exclusivity: Grantee's easement rights within the Waterline Easement Tract shall be exclusive, with the exception of permitted use by Pedernales Electric Cooperative for electric lines and related facilities that is authorized in writing by grantee, or as otherwise permitted or authorized by Grantee in writing.

Habendum: To HAVE AND HOLD the Water Line Easement and all and singular the rights and appurtenances thereunto belonging unto Grantee, its successors and assigns.

Warranty: Grantor does hereby bind itself, its successors and assigns, to WARRANT AND FOREVER DEFEND, all and singular, the Water Line Easement unto Grantee, its successors and assigns, against every person whomsoever claiming, or to claim, the same or any part thereof, by through or under Grantor, but not otherwise.

Successors and Assigns: The rights granted hereby and the rights, agreements and burdens pertaining thereto shall constitute a covenant running with the land and inure to the benefit of and shall be binding upon the Grantor, any other owner in the future on any part of the Waterline Easement Tract, and the Grantee, and all of their respective successors, heirs, legal representatives, executors, administrators and assigns. Grantee's rights hereunder may be assigned in whole or in part to one or more assignees.

Covenant of Grantor: Grantor covenants that Grantor is the owner of the Waterline Easement Tract and that the person signing this instrument is authorized to execute the same on behalf of the owner or all the owners of all such real property.

IN WITNESS WHEREOF, the GRANTOR has executed this instrument this _____ day of _____, 2010.
