Re: Recommendation of vendor for power stretcher – Fiscal year 2011

Williamson County EMS is recommending Stryker Medical as the vendor of choice for the purchase of power stretchers specified by Williamson County EMS. This recommendation is based on several factors.

- Evaluations conducted the previous year by paramedics of Williamson County EMS.
- Superior ergonomic features.
- Superior comfort for patients.
- Maintenance of stretchers will continue with our current maintenance company.
- No modifications needed on the ambulances.
- All required specifications met by Stryker

Please inform the selected vendor and thank the competing vendors for their effort.

Sincerely,

Edward Gomez
Logistics Commander
Williamson County EMS
