Subject: RSM

Hello Jonathan & Pat, after doing reference checks on RSM and having them provide an additional firm that they had done similar work with I have seen no reason not to allow their bid for the Lighting retrofit. All references spoke well as to working with the firm and all work was completed on time and within the set budget.

We have asked the vendor on numerous occasions if he can stand behind the amount bid and after his e-mail and verbally checking his supplier the answer was "YES" **RSM feels good about the number quoted**

This e-mail will stand as our recommendation for Commissioners that the Lighting Retrofit Bid be awarded to RSM.

Thanks, Joe
