**TOTAL 231**

5	Have metes and bounds for perimeter of landfill. All information concurs regarding placement of site.
4	Have general boundaries and a good idea of shape and location of landfill. Most information agrees, although may be slight discrepancies
3	No metes and bounds, but might be drawings or general descriptions.
2	Have verbal descriptions, but no metes and bounds
1	Little or no supporting documentation, no identification on imagery.
