PROFESSIONAL SERVICES AGREEMENT

STATE OF TEXAS §
 §
COUNTY OF WILLIAMSON §

This Professional Services Agreement (the "Agreement") is made and entered into this day by and between Williamson County, Texas, a political subdivision of the State of Texas, (the "County") and HDR Engineering, Inc. (the "Engineer").

WHEREAS, *County* proposes to construct various transportation projects;

WHEREAS, *County* desires to obtain Professional Engineering Services for Construction Inspection and/or Observation (the "Project");

WHEREAS, *Engineer* has the professional ability and expertise to fulfill the requirements of the *Project*, and to provide advice to the *County* in the selection and analysis of cost-effective alternatives;

WHEREAS, *Engineer* agrees to provide the Professional Engineering Services as more fully set forth in Exhibit IX ("Scope of Services");

WHEREAS, all of the Professional Engineering Services to be provided by *Engineer* pursuant to this Agreement are professional services, the essence of which entails the provision of advice, judgment, or opinion;

WHEREAS, the *County* has separately contracted with a separate engineering firm or individual (the "Designer") for the preparation of the Plans, Specifications, and Estimates (the "PS&E") for the *Project*.

NOW, THEREFORE, *County* and *Engineer* agree to the performance of the Professional Engineering Services by *Engineer* and the payment for these services by *County* as set forth herein.

Section I
Employment of the Engineer

County agrees to employ *Engineer* and *Engineer* agrees to perform the Professional Engineering Services for the *Project* as stated in the Sections to follow. As a condition to employment, it is specifically agreed that any disputes arising hereunder shall be submitted to the County Judge or his designee and/or agent, as designated in writing by the County Judge (individually or collectively the "County Judge"). The *County Judge* shall have complete authority for the purpose of resolving disputes arising under this Agreement. The *County Judge's* decision shall be final and binding, subject to any civil remedies otherwise deemed appropriate by the parties hereto.

However, nothing in this Section I or in any other provision of this Agreement regarding submission of disputes to the *County Judge* and the *County Judge's* ability to resolve disputed matters shall be construed to establish anything other than a *de novo* standard of review by a court of competent jurisdiction in the event that the parties hereto avail themselves of their right to seek civil remedies for any dispute. In the event of a dispute between the terms and conditions of this provision and any other provision of this Agreement, the terms and condition of this provision shall govern.

It is the intention of the *County* and the *County Judge*, and agreed to and hereby acknowledged by the *Engineer*, that no provision of this Agreement shall be construed to require the *County* or the *County Judge* to submit to mandatory arbitration or mediation in the settlement of any claim, cause of action or dispute.

Section II Professional Services of the Engineer

- A. In consideration of the compensation herein provided, *Engineer* shall perform Professional Engineering Services for the *Project*, which are acceptable to the *County Judge*, based on standard engineering practices and the scope of work described on the Exhibits attached to this Agreement. *Engineer* shall also serve as *County's* professional engineer in those phases of the *Project* to which this Agreement applies and will consult with and give advice to *County* during the performance of *Engineer's* services.
- B. *Engineer* shall not commence work until *Engineer* has been thoroughly briefed on the scope of the *Project* and has been notified in writing by the *County Judge* to proceed, as evidenced by a work authorization substantially in the form of Exhibit II ("Work Authorization"), attached to this Agreement.
- C. *County* shall provide *Engineer* with all Plans, Specifications, and Estimates (PS&E) to this particular *Project* at no cost to *Engineer*; however, any and all such information shall remain the property of *County* and shall be returned, if the *County Judge* so instructs *Engineer*.
- D. *Engineer* shall perform the following Professional Engineering Services:
 - 1. The basic Scope of Services shall generally consist of all elements of Professional Engineering Services required for the *Project* (as more fully set out in Exhibit IX to this Agreement, "Scope of 'Service'"), satisfactory to the *County Judge* and the County's Commissioners Court, in accordance with the requirements, policies, and general practices of Williamson County.

Section III Fee schedule

- A. For and in consideration of the performance by *Engineer* of the Professional Engineering Services described in the Scope of Services, *County* shall pay and *Engineer* shall receive the fee set forth in Exhibit I. The fee is based upon the hourly rates set forth in Exhibit III. Exhibits I and III are attached hereto and made a part hereof. Invoices shall be

submitted by *Engineer* on a monthly basis and are due upon presentation of all items required hereunder, and shall be considered past due if not paid within thirty (30) calendar days of the due date.

- B. For the performance of services not specifically described in the Scope of Services *Engineer* shall receive the additional services compensation described in Exhibit IV, which is attached hereto and made a part hereof. In the event of any dispute over the classification of *Engineer's* services as basic or additional services under this agreement, the decision of the *County Judge* shall be final and binding on *Engineer*.

Section IV Period of Service

- A. *Engineer* shall perform the Professional Engineering Services described in Exhibit IX, the Scope of Services.
- B. This Agreement shall become effective upon the date approved by *County* and will remain in full force and effect for the period required for the construction contract award and construction of the *Project*, including warranty periods provided by the contractor pursuant to the construction contract and any extensions of time, unless terminated earlier as provided for herein. *Engineer* shall complete all work as described in the Scope of Services upon receipt by *Engineer* of *County's* written Work Authorization.
- C. Neither *Engineer* nor *County* shall be responsible for delays caused by "Acts of God", non-county governmental processes, national emergency, or any other causes beyond *Engineer's* or *County's* reasonable control. Upon the discovery of such an event, *Engineer* shall notify *County*, and attend a special meeting with the *County Judge* to propose a program for a solution to the problem, and, if necessary, to establish an estimated period of time of suspension or extension of the work. A written request for an extension of time, when properly documented and justified by the circumstances, will be granted by the *County Judge*.
- D. *County* may suspend the work at any time for any reason without terminating this Agreement by giving written Notice of Suspension and the work may be reinstated and this Agreement resumed in full force and effect within sixty (60) days of receipt by *Engineer* of written Notice of Reinstatement from *County*. *Engineer*, upon receipt of a Notice of Suspension shall follow the procedures described in the attached Exhibit VI, which is attached hereto and made a part hereof. In the event such suspension of the *Project* or the *Engineer's* services hereunder extends for a period of ninety (90) days or more, consecutive or in the aggregate, *Engineer* may terminate this Agreement in writing and such termination shall be treated as a Notice of Termination as provided herein.
- E. Either party may terminate this Agreement for the material failure of the other party to perform in accordance with the terms of this Agreement (the materiality of such failure to be based on standard engineering practices and the scope of work described on the Exhibits attached to this Agreement), through no material fault of the terminating party. *County* may unilaterally terminate this Agreement for reasons other than material failure

by **Engineer** to perform by delivering a written Notice of Termination which shall take effect on the tenth day following **Engineer's** receipt of same. If mutually agreed upon, the obligation to provide services under this Agreement may be terminated without cause upon thirty (30) days written notice. **Engineer** shall follow the procedures specified in Exhibit VI upon issuance or receipt of such notice. In the event of termination of this Agreement because of the material failure of **Engineer** to perform, **County** may prosecute the work to completion by contract or otherwise and, in such a case, **Engineer** shall be liable for any additional costs incurred by **County**.

- F. All references to time in this Agreement shall be measured in calendar days unless otherwise specified.

Section V Coordination with the County

- A. The **County Judge** will act on behalf of **County** with respect to the work to be performed under this Agreement. The **County Judge** shall have complete authority to interpret and define **County's** policies and decisions with respect to **Engineer's** services. The **County Judge** may, in writing, designate representatives to transmit instructions and receive information.
- B. **Engineer** shall not commence work on any phase of the **Project** until a thorough briefing on the scope of the **Project** is received and a written Work Authorization is issued by the **County Judge** in substantially the form of that in Exhibit II.
- C. **Engineer** shall have the responsibility at all times under the terms of this Agreement to advise **County** whether in **Engineer's** judgment it is feasible to proceed with the recommendations given any known constraints affecting the **Project**.
- D. **Engineer** shall cooperate and coordinate with **County's** staff, and other engineers and contractors as reasonable and necessary and as required by the **County Judge**.

Section VI Review of Engineer's Instruments of Service

- A. **Engineer's** engineering Instruments of Service will be reviewed by **County** under its applicable technical requirements and procedures.
- B. Reports and supporting documents, (the "**Instruments of Service**"), shall be submitted by **Engineer** on or before the date specified in Exhibit IX. Upon receipt of the Instruments of Service, the submission shall be checked for acceptance. "Acceptance" shall mean that in the **County Judge's** opinion substantial conformance with the requirements of the Scope of Service of this Agreement has been achieved. The acceptability of any Instruments of Service submitted to **County** shall be determined by **County** within fourteen (14) days of such submittal and **County** shall notify **Engineer** in writing within such 14-day period if such work product has been found to be acceptable.

- C. If the submission is acceptable, *County* shall notify *Engineer*, in writing within fourteen (14) days of the submission, that the submission is acceptable.
- D. If the submission is deemed not acceptable, *County* shall notify *Engineer*, who shall perform such Professional Engineering Services as are required to make the Instruments of Service in conformance with the Scope of Services and resubmit it to *County*. This process shall be repeated until a submission is deemed acceptable.
- E. *County* shall review the Instruments of Service for conformance with the Scope of Services. If necessary, the Instruments of Service shall be returned to *Engineer*, who shall perform any required Professional Engineering Services and resubmit it to *County*. This process shall be repeated until the Instruments of Service is accepted.
- F. After acceptance, *Engineer* shall perform any required modifications, changes, alterations, corrections, and additional work necessary to receive final approval by the *County Judge*. "Approval" in this sense shall mean formal recognition that the Scope of Services have been fully performed and submitted in conformance with Exhibit IX.
- G. After approval of final Instruments of Service, *Engineer* shall without additional compensation perform any Professional Engineering Service required as a result of *Engineer's* development of the Instruments of Service which is found to be in error or omission due to *Engineer's* negligence. However, any Professional Engineering Services required or occasioned for the convenience of *County* after approval of a final Instruments of Service shall be paid for as Additional Services.
- H. In the event of any dispute over the classification of *Engineer's* Instruments of Service as conforming, accepted, or approved under this Agreement, the decision of the *County Judge* shall be final and binding on *Engineer*, subject to any civil remedy or determination otherwise available to the parties and deemed appropriate by the parties.

Section VII Revision to Instruments of Service

Engineer shall make, without expense to *County*, such revisions to the Instruments of Service as may be required to correct negligent acts, errors or omissions that result from *Engineer's* Scope of Service herein so the Instruments of Service meets the Quality Assurance Plan, but after the approval of the Instruments of Service any revisions, additions, or other modifications made at *County's* request which involve extra services and expenses to *Engineer* shall entitle *Engineer* to additional compensation for such extra services and expenses, provided however, that *Engineer* agrees to perform any necessary corrections to the Instruments of Service, which are found to be negligent acts, error or omission as a result of the *Engineer's* development of the Instruments of Service, at any time, without additional compensation. Nothing in this Section or any other provision of this Agreement shall require *Engineer* to make any revisions or changes to the PS&E developed and provided by *Designer* except as necessary to comply with the desired *Scope of Services* as detailed in Exhibit IX related to performance of duties necessary to comply with Part III Section E of the Texas Pollution Discharge

Elimination System (TPDES) permit TXR150000. The *Engineer* shall be considered "engaged", as described in Section 137.33 of the Texas Engineering Practice Act and Rules Concerning The Practice of Engineering and Professional Engineering Licensure, upon execution of this Agreement by all parties. In the event of any dispute over the classification of *Engineer's* services as Basic or Additional Services under this Agreement, the decision of the *County Judge* shall be final and binding on *Engineer*, subject to any civil remedy or determination otherwise available to the parties and deemed appropriate by the parties.

Section VIII Engineer's Responsibility and Liability

- A. *Engineer* covenants to undertake no task in which a professional license or certificate is required unless it or someone under its direction is appropriately licensed. In the event such licensed individual's license expires, is revoked, or is canceled, *Engineer* shall inform *County* of such event within five working days.
- B. *Engineer* shall be responsible for conformance with applicable federal and state laws, county permitting requirements, and city ordinances currently in effect, except as otherwise directed by the *County Judge* regarding county permitting or similar requirements, applicable to the Scope of Services described Exhibit IX to this Agreement, properly waivable by the *County Judge*.
- C. **ENGINEER SHALL INDEMNIFY, AND HOLD HARMLESS COUNTY, ITS OFFICIALS AND EMPLOYEES FROM AND AGAINST ALL SUITS, ACTIONS, LIABILITY, LOSS, DAMAGE, REASONABLE ATTORNEY'S FEES, COSTS, AND EXPENSES (INCLUDING, BUT NOT LIMITED TO EXPENSES RELATED TO EXPERT WITNESSES) OF ANY KIND WHATSOEVER, TO THE EXTENT ARISING FROM ANY NEGLIGENT ACT, ERROR OR OMISSION OF ENGINEER OR ANY OF ITS SUBCONSULTANTS IN CONNECTION WITH THE PERFORMANCE OF SERVICES UNDER THIS AGREEMENT; PROVIDED, HOWEVER, ENGINEER SHALL NOT BE RESPONSIBLE FOR THE NEGLIGENT ACTS, ERRORS, OR OMISSIONS OF ANY OTHER PARTY, OTHER THAN ITSELF OR THAT OF ITS SUBCONSULTANTS AND FOR A SUBCONSULTANT ONLY AS A DIRECT RESULT OF NEGLIGENT ACTS, ERRORS, OR OMISSIONS WHILE PERFORMING PROFESSIONAL SERVICES PURSUANT TO THE SCOPE OF THIS AGREEMENT.**
- D. *Engineer's* opinions of probable *Project* cost or construction cost represent *Engineer's* professional judgment as a professional familiar with the construction industry, but *Engineer* does not guarantee that proposals, bids, or the construction cost, itself, will not vary from *Engineer's* opinions of probable cost and shall not be responsible for proposals, bids, or the construction costs, should they vary from *Engineer's* opinions of probable costs.
- E. *Engineer* shall perform all services and responsibilities required of *Engineer* under this Agreement using at least that standard of care which a reasonably prudent engineer in

Texas, who is licensed by the State Board of Engineers or the State Board of Registered Professional Surveyors, as applicable, would use in similar circumstances.

- F. **Engineer** represents that it presently has, or is able to obtain, adequate qualified personnel in its employment for performance of the services required under this Agreement and that **Engineer** shall furnish and maintain, at its own expense, adequate and sufficient personnel and equipment, in the reasonable opinion of **County**, to perform the services when and as required and without delays. It is understood that **County** will approve assignment and release of all key **Engineer** and professional personnel.
- G. All employees of **Engineer** shall have such knowledge and experience as will enable them to perform the duties assigned to them. Any employee of **Engineer**, who in the opinion of **County** is incompetent or whose conduct becomes detrimental to the work or coordination with **County**, shall upon **County's** and/or **County Judge's** request be immediately removed from association with the **Project**.
- H. **Engineer** shall furnish all equipment, transportation, supplies, and materials required for its performance of the Professional Engineering Services as set forth in the Scope of Services attached as Exhibit IX to this Agreement.
- I. **Engineer** shall place its Texas Professional Engineer's seal of endorsement on all documents of Instruments of Service furnished to **County**, as required by law.
- J. **Engineer** is an independent contractor under this Agreement. Neither it nor any officer, agent or employee of **Engineer** shall be classified as an employee of **County**.
- K. **Safety.** The **Engineer** shall not have control or charge of and shall not be responsible for construction means, methods, techniques, sequences or procedures or for the safety precautions and programs in connection with the Project construction, for the acts or omissions of the contractor, subcontractors, any of their agents or the subcontractors' employees, or any other person performing any of the work or for the failure of such persons to carry out the work in accordance with the contract documents; provided however, the **Engineer** shall not be relieved from its obligation to notify the County or any other applicable authority of any unsafe condition resulting from an act, omission or failure on the part of the construction if **Engineer** becomes aware of such an unsafe condition in the normal course of providing its Scope of Services or as otherwise required by the **Engineer's** professional duties as prescribed by the Rules of Professional Practice promulgated by the Texas Board of Professional Engineers.

Engineer's obligation to report any observed unsafe job conditions to the County shall not make **Engineer** responsible for construction job site safety, the responsibility of which shall remain solely with the construction contractor. **Engineer's** obligation to report unsafe job conditions to the County runs solely to the County. There are no third party beneficiaries intended by this obligation, in particular, construction contractor's employees do not have the right to rely on **Engineer's** obligation to report unsafe job conditions to the County so as to provide for a safe work environment for construction contractor's employees.

No provision of this Agreement requires *Engineer* to make exhaustive inspections of the contractor's work under the construction contract for the *Project*. *Engineer's* inspections, observations, and documentation of construction activities and work is to confirm the construction's conformance with the PS&E and acceptable engineering standards and practices.

The County shall enter into a third party contract for the construction of the project. The contract between the County and the contractor shall require the contractor to indemnify the *Engineer* and name the *Engineer* as additional insured under contractor's commercial general liability, builder's risk, and umbrella liability coverage for the insured liabilities assumed by the contractor. The contractor's insurance coverage shall be primary insurance for the insured liabilities under the Agreement with respect to the contractor, its officers, directors, agents and consultants including the *Engineer*.

The construction contractor retained by the County has sole responsibility for providing materials, means, and methods of construction, for controlling the individual work area and safety of said areas for all parties.

The *Engineer* shall be responsible for taking all appropriate steps to ensure the safety of its employees in connection with its performance of the services provided under this agreement.

Section IX Ownership of Documents

- A. Any and all Instruments of Service, including the original drawings, estimates, computer tapes, graphic files, tracings, calculations, analyses, reports, specifications, field notes, and data prepared by *Engineer* are the property of *County* and upon completion of the work or termination of this Agreement or as otherwise instructed by *County* and/or *County Judge*, shall be delivered to *County* in an organized fashion with *Engineer* retaining a copy. OK
- B. Any reuse by *Engineer* of any such documents described in subsection A above, without the specific written consent of *County* shall be at *Engineer's* sole risk and without liability or legal exposure to *County*. Should *Engineer* be terminated, *Engineer* shall not be liable for *County's* use of partially completed Instruments of Service on this *Project* or any other project, except to the extent such Instruments of Service were deemed complete or otherwise "Accepted" or "Approved" as provided herein by *Engineer*, or Surveyor, as applicable, as specified by professional standards.
- C. *Engineer* will not be responsible for any use or any modifications to the Instruments of Service described in subsection A performed by any entity without the specific written consent of *Engineer*. Any modification by an entity or individual other than the *Engineer* as described in this paragraph shall be made in accordance with all applicable professional standards and shall necessitate the removal of the *Engineer's* Texas Professional Engineer's seal of endorsement from all such modified documents.

Section X
Maintenance of and Right of Access to Records

- A. **Engineer** agrees to maintain appropriate accounting records of costs, expenses, and payrolls of employees working on the **Project** for a period of three (3) years after final payment for completed services and all other pending matters concerning this Agreement have been closed.
- B. **Engineer** further agrees that **County** or its duly authorized representatives shall, until the expiration of three (3) years after final payment under this Agreement, have access to and the right to examine and photocopy any and all books, documents, papers and records of **Engineer**, which are directly pertinent to the services to be performed under this Agreement for the purposes of making audits, examinations, excerpts, and transcriptions. **Engineer** agrees that **County** shall have access during normal working hours to all necessary **Engineer** facilities and shall be provided adequate and appropriate work space in order to conduct audits in compliance with the provisions of this section. **County** shall give **Engineer** reasonable advance notice of intended audits.
- C. **Engineer** further agrees to include in all its sub-consultant agreements hereunder a provision to the effect that the sub-consultant agrees that **County** shall, until the expiration of three (3) years after final payment under the subcontract, have access to and the right to examine and photocopy any directly pertinent books, documents, papers and records of such sub-consultant, involving transactions to the subcontract, and further, that **County** shall have access during normal working hours to all sub-consultant facilities, and shall be provided adequate and appropriate work space, in order to conduct audits in compliance with the provisions of this section together with subsection (D) hereof. **County** shall give sub-consultant reasonable advance notice of intended audits.
- D. **Engineer** and sub-consultant agree to photocopy such documents as may be requested by **County**. **County** agrees to reimburse **Engineer** for the cost of copies at the rate published in the Texas Administrative Code in effect as of the time copying is performed. **County** also agrees to compensate **Engineer** for services performed pursuant to this Section as requested by **County**, or by a third-party pursuant to a validly determined Texas Public Information Act request. For any such services, **Engineer** shall receive the additional services compensation described in Exhibit IV, which is attached hereto and made a part hereof.

The parties acknowledge that if any provision of this Agreement is

[Note: A separate Compensation Agreement will be attached for Compensation on a Work-Order Basis]

SECTION 1 - BASIS FOR COMPENSATION

- 1.1 The not-to-be-exceeded fee for the performance of the Scope of Services described in the Agreement shall be the sum of \$400,000.00.
- 1.2 The basis of compensation for the services of principals and employees engaged in the performance of the work shall be the hourly rates set forth in attached Exhibit III.
- 1.3 *Engineer* shall be reimbursed for actual non-labor and subcontract expenses incurred in the performance of the services under this Agreement at the *Engineer's* invoice cost.

SECTION 2 - NOT-TO-BE-EXCEEDED FEE

- 2.1 *Engineer* and *County* acknowledge the fact that the not-to-be-exceeded fee is the total estimated costs of services to be rendered under this Agreement. This not-to-be-exceeded fee is based upon the labor and non-labor costs set forth in Exhibit III to this Agreement and described above, estimated to be required in the performance of the various phases of work provided for under this Agreement. Should the actual costs of the services rendered under this Agreement be less than such estimated cost, then *Engineer* shall receive compensation for only those services actually rendered.

SECTION 3 – WORK AUTHORIZATIONS

- 3.1 *County* will prepare and issue Work Authorizations, in the form identified and attached hereto as Exhibit II to authorize the *Engineer* to perform one or more tasks. Each Work Authorization will include a description of the work to be performed, a description of the tasks and milestones, a work schedule for the tasks, and a fee amount agreed upon by the *County* and *Engineer*. The amount payable for a Work Authorization shall be supported by the estimated cost of each work task as described in the Work Authorization. The Work Authorization will not waive the *Engineer's* responsibilities and obligations established in this Agreement. The executed Work Authorizations shall become part of this Agreement.
- 3.2 Work included in a Work Authorization shall not begin until *County* and *Engineer* have signed the Work Authorization. All work must be completed on or before the completion date specified in the Work Authorization. The *Engineer* shall promptly notify the *County* of any event which will affect completion of the Work Authorization, although such notification shall not relieve the *Engineer* from costs or liabilities resulting from

delays in completion of the Work Authorization. Any changes in the Work Authorization shall be enacted by a written Supplemental Work Authorization before additional work may be performed or additional costs incurred. Any Supplemental Work Authorization must be executed by both parties within the period specified in the Work Authorization. The *Engineer* shall not perform any proposed work or incur any additional costs prior to the execution, by both parties, of a Supplemental Work Authorization.

SECTION 4 - ADDITIONAL SERVICES

- 4.1 For additional services, compensation shall be negotiated in accordance with Exhibit IV.
- 4.2 *Engineer* shall be compensated for extra services not included in the Scope of Services described in the Agreement on the basis specified in Exhibit IV; however, *Engineer* shall not be compensated for work made necessary by *Engineer's* negligent acts, errors or omissions.
- 4.3 The maximum amount payable under this Agreement without modification (the "*Compensation Cap*") is \$400,000.00, provided that any amounts paid or payable shall be solely pursuant to a validly issued Work Authorization or any Supplemental Work Authorization related thereto. In no event may the aggregate amount of compensation authorized under Work Authorizations and Supplemental Work Authorizations exceed the *Compensation Cap*.

SECTION 5 - REQUIRED SUPPORTING DOCUMENTATION

- 5.1 Upon submittal of the initial invoice for service, *Engineer* shall provide *County Judge* with an Internal Revenue Form W-9, Request for Taxpayer Identification Number and Certification that is complete in compliance with the Internal Revenue Code, its rules and regulations.

- 5.3 For additional services performed pursuant to Section III B of this Agreement, a separate invoice or itemization of this work will be presented with the same requirements for supporting documentation as in Section 5.2 of this Exhibit.
- 5.4 Invoices requesting reimbursement for expenditures related to the project (reimbursables) must be accompanied by copies of the provider's invoice which was previously paid by *Engineer*.
- 5.5 Payments for Direct and Reimbursable Expenses will be made in compliance with the approved 2009-2010 Budget Order, as amended. The Budget Order can be viewed on the Williamson County web site at www.wilco.org.
