**ROAD & BRIDGE**  
**OFF RIGHT-OF-WAY WORK**

**Precinct 3**

Clearing of trees and brush along CR 239 right of way (ROW). CR 239 is not one of the County's roadways in which there is an abundance of ROW width. On these roadways with limited ROW width, the trees and brush reside closer to the roadway. By removing them, we can: 1) provide better visibility and sight distance, 2) reduce the probability of large limbs falling on the road and creating a hazard, and 3) remove the future expenditure of labor and materials to maintain them with clipping and trimming. Owner has given permission to push all trees and brush onto owner's property. Owner will then dispose of the trees and brush.

CR 239 – Cobb Springs Ranch Property ID # R009921

**Precinct 4**

*CR 239*  
Temporary Construction easement to replace cross drainage culvert. Culvert is past its service life. As part of the culvert replacement, the roadway will be widened, at that location, to establish side slopes and remove an unsafe drop-off condition as well.
