

EXHIBIT C

WORK AUTHORIZATION NO. 5

PROJECT: Williamson County Infrastructure – On Call Environmental Services

This Work Authorization is made pursuant to the terms and conditions of the Williamson County Contract for Engineering Services, being dated September 23, 2011 and entered into by and between Williamson County, Texas, a political subdivision of the State of Texas, (the "County") and Cox McLain Environmental Consulting, Inc. (the "Engineer").

Part 1. The Engineer will provide the following Engineering Services set forth in Attachment "B" of this Work Authorization.

Part 2. The maximum amount payable for services under this Work Authorization without modification is \$6,220.00.

Part 3. Payment to the Engineer for the services established under this Work Authorization shall be made in accordance with the Contract.

Part 4. This Work Authorization shall become effective on the date of final acceptance and full execution of the parties hereto and shall terminate on September 30, 2015. The Engineering Services set forth in Attachment "B" of this Work Authorization shall be fully completed on or before said date unless extended by a Supplemental Work Authorization.

Part 5. This Work Authorization does not waive the parties' responsibilities and obligations provided under the Contract.

Part 6. This Work Authorization is hereby accepted and acknowledged below.

EXECUTED this 18th day of November, 2014.

Attachment C - Work Schedule

Attachment D - Fee Schedule

Attachment A - Services to be Provided by County

County to provide electronic copy of the proposed tract of land.

Attachment B – Page 1 of 2

Services to be Provided by Engineer

Cox|McLain Environmental Consulting, Inc. (CMEC) is pleased to submit this proposal to provide environmental services for the above referenced project. The task to be completed will include completion of a Geologic Assessment and accompanying technical memo, to be used by Williamson County in the preparation of a Water Pollution Abatement Plan (WPAP) for proposed improvements to a ~90 acre parcel at 1200 NE Inner Loop in Georgetown. The scope does not include any formal coordination with regulatory agencies, or permit preparation/submittal.

Additional tasks such as a habitat assessment, karst feature surveys, or WCCF participation application could be completed for an additional scope and fee.

The total cost of these services will be **\$6,220**, to be billed on a percent complete basis. We appreciate the opportunity to work with you on this project.

October 11, 2014

Mr. Larry W. Cox
Cox/McLain Environmental Consulting, Inc.
6010 Balcones Dr.
Suite 210
Austin, Texas 78731

Dear Mr. Cox,

I will provide you the Geologic Assessment portion of a Texas Commission of Environmental Quality (TCEQ) Water Pollution Abatement Plan (WPAP) for the approximate 90 acre tract of land located at 1200 N. E. Inner Loop Northeast of Georgetown, Texas, as you requested.

A reconnaissance will be made of the site and the geologic assessment will be prepared utilizing the format required by TCEQ. An original and three copies of the geologic assessment will be provided to you to be submitted with the WPAP to the TCEQ. An additional copy of the geologic assessment will be given to you. My estimated budget for this project is \$5300.00. If the project requirements should change from what is known at the time, my budget is subject to change after negotiations with you.

Please provide me two copies of the engineering drawings for the proposed tract of land. Also, please include documents that provide access approval for any portion of the site if needed. This should include the names and phone numbers of the landowners for contact prior to entry into the proposed tract of land to conduct the geological assessment reconnaissance.

If you are in agreement please sign below and return a copy to me. Thank you.

Sincerely,

James W. Sansom, Jr., P.G.

Larry W. Cox

Attachment C - Work Schedule

The field work will take **7-10 days** after NTP (we'll need to prepare field maps at the appropriate scale), and the report **two weeks** after that.
