Williamson County – Justice Center CSCD Build-Out

ASI #01– 5/26/17

Layout changes requested by Owner.

See attached revised sheets:

A2.01, E1.01, E2.01 and Technology SKT-1

[illegible]

1. The primary responsibility of the manager is to ensure that the organization achieves its purpose and objectives. This involves setting a vision, developing strategies, and allocating resources effectively. The manager must also monitor performance and make adjustments as needed to ensure the organization remains on track.

2. The manager is responsible for creating a positive work environment that fosters employee engagement and productivity. This includes establishing clear communication channels, providing feedback, and recognizing achievements. The manager should also ensure that the organization complies with relevant laws and regulations.

3. The manager is responsible for managing the organization's finances. This involves budgeting, monitoring expenses, and ensuring that the organization has sufficient resources to meet its needs. The manager should also be involved in making decisions about capital expenditures and investments.

4. The manager is responsible for managing the organization's human resources. This includes recruiting, hiring, training, and developing employees. The manager should also be involved in making decisions about compensation and benefits. The manager should ensure that the organization has a diverse and inclusive workforce.

5. The manager is responsible for managing the organization's risk. This involves identifying potential risks, assessing their impact, and developing strategies to mitigate them. The manager should also be involved in making decisions about insurance and other risk management measures.

6. The manager is responsible for managing the organization's reputation. This involves monitoring public opinion, responding to criticism, and promoting positive news about the organization. The manager should also be involved in making decisions about corporate social responsibility and other reputation management measures.

7. The manager is responsible for managing the organization's technology. This involves identifying the organization's technology needs, selecting appropriate technology, and ensuring that the technology is used effectively. The manager should also be involved in making decisions about IT security and other technology management measures.

8. The manager is responsible for managing the organization's legal affairs. This involves ensuring that the organization complies with all applicable laws and regulations. The manager should also be involved in making decisions about legal disputes and other legal matters.

9. The manager is responsible for managing the organization's environmental impact. This involves identifying the organization's environmental risks, assessing their impact, and developing strategies to mitigate them. The manager should also be involved in making decisions about environmental management measures.

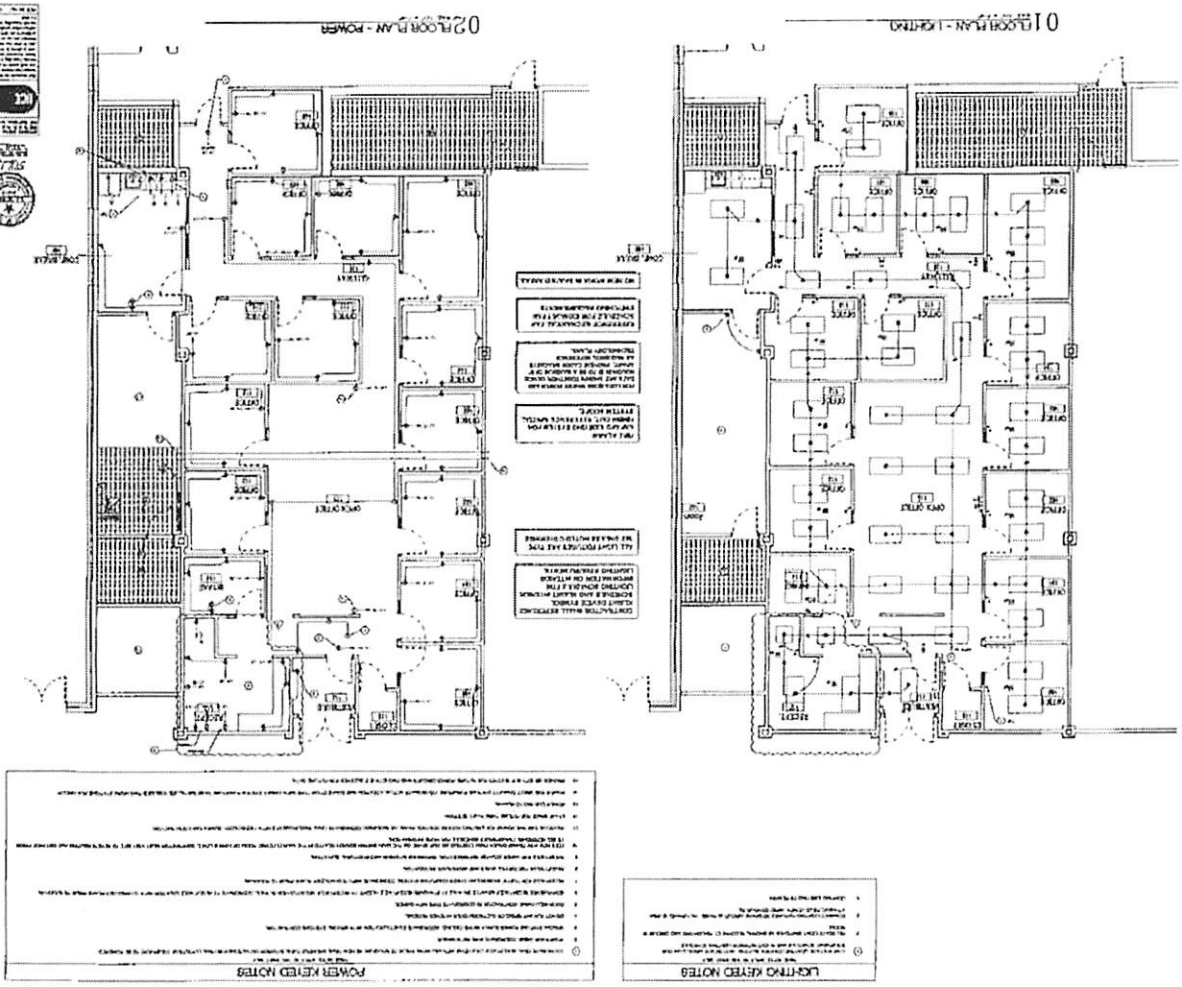

10. The manager is responsible for managing the organization's overall performance. This involves setting performance goals, monitoring progress, and making adjustments as needed. The manager should also be involved in making decisions about organizational structure and other performance management measures.
