Spectrum™ Business Voice Service E911 Acknowledgment

Customer Name: Williamson County EMS - Master

Billing Address: 301 SE Inner Loop STE 105 Georgetown TX 78626

Please confirm that you understand this important information regarding E911 access and Spectrum Business Voice service.¹

Spectrum Business Voice service customer premise equipment ("CPE") is electrically powered and, in the event of a power outage or Spectrum network failure, E911 services may be unavailable.

When you dial 911, your service address is automatically provided to an emergency services provider. Spectrum Business Voice service CPE must not be moved to a new service address without first contacting Spectrum to identify your new service location. If you move the Spectrum Business Voice service CPE to a new service address without authorization and dial 911, you will need to provide your address to the 911 operator or your call may be misdirected to the wrong location or wrong emergency provider.

During the first 72 hours after initiating service or advising us of an address change, if you dial 911, you must provide your new service address to the emergency operator. This is necessary to ensure emergency services are dispatched to your new service address because the emergency operator may not have the new service address in their records. In some locations, depending on the equipment used by local governments to provide 911 service, you will always need to convey the 911 service location information to the emergency operator.

You must ensure that all alarm, security, medical and/or other monitoring systems and services are tested to validate proper operation after Spectrum Business Voice service is installed.

By signing my name below, I acknowledge that I have received and understand this Acknowledgement and agree to the obligations described above.
