Re: Williamson County--Seward Junction Loop SW Project  
Road/Driveway Realignment Agreement

Dear Mr. Hill:

Please allow this letter to set out the County's understanding regarding an agreement for the procedures, timing, and cost for relocation of the driveway entrance to the property owned by 183 Liberty Hill Partners, LLC ("Owner") due to Williamson County's ("County") planned construction of the Seward Junction Loop Southwest roadway facilities ("Project") which will necessitate the removal of the existing CR 263 access to your property located at 105 Hwy 183 in Leander.

1. As replacement for the removal of Owner's current access to CR 263 which is planned to be eliminated as part of the Project, Owner agrees to construct a new driveway connection between the existing 183A frontage road and the property of Owner, in the location and generally according to the plans and specifications as shown in Exhibit "A" attached hereto and incorporated herein.

As part of the Project County shall remove the existing CR 263 pavement in the locations shown on Exhibit "A", and reseed the existing roadway area to the existing property line of Owner. County will not remove or construct any improvements on the property of Owner without prior agreement. The timing for removal of existing CR 263 pavement shall be done in accordance with the limitation as set out in Paragraph #4 below.

2. Within fourteen (14) days after full execution of this letter agreement, County agrees to pay Owner the amount of One Hundred Fifteen Thousand and 00/100 Dollars (\$115,000) as full and final compensation for the construction the replacement driveway as described in Exhibit "A", and any potential taking or damage to the remaining property of Owner caused by the Project or the removal of the existing driveway connection to CR 263. The supporting construction bid

estimate for this amount is attached hereto as Exhibit "B" and incorporated herein.

3. As a prerequisite to beginning of the driveway construction work by Owner as set out herein, County shall obtain a permit from TxDOT approving the location, design and authorization of construction of the proposed drive. Owner agrees to provide any assistance or information requested by County which is reasonably necessary to submit or process the permit for approval by TxDOT.
4. County agrees that the existing driveway access of Owner to CR 263 shall not be prohibited, closed or otherwise removed prior to the expiration of one hundred twenty (120) days after both (1) payment is tendered to Owner as set out herein; and (2) the approved driveway permit is issued by TxDOT as set out herein.
5. This letter constitutes the full agreement of the parties regarding the issues as set out herein, and may only be modified by further agreement in writing.

If this meets with your understanding please execute this letter where indicated below, and when returned we will then get this approved by the Williamson County Commissioners Court and processed for payment as quickly as possible.

Please feel free to contact Christen Eschberger (512-527-6719) at HNTB at any time if you have any questions or concerns about these issues, or need additional information as the Project progresses.

Very truly yours,
