

# TO WORK AUTHORIZATION NO. 2

# WILLIAMSON COUNTY LONG RANGE TRANSPORTATION CORRIDOR PROJECT: CORRIDOR H – SAM BASS ROAD

This Supplemental Work Authorization No. 1 to Work Authorization No. 2 is made pursuant to the terms and conditions of the Williamson County Contract for Engineering Services, being dated March 13, 2017 ("Contract") and entered into by and between Williamson County, Texas, a political subdivision of the State of Texas, (the "County") and K FRIESE + ASSOCIATES, INC. (the "Engineer").

WHEREAS, the County and the Engineer executed Work Authorization No. 2 dated effective February 19, 2019 (the "Work Authorization");

WHEREAS, pursuant to Article 14 of the Contract, amendments, changes and modifications to a fully executed Work Authorization shall be made in the form of a Supplemental Work Authorization; and

WHEREAS, it has become necessary to amend, change and modify the Work Authorization.

#### **AGREEMENT**

NOW, THEREFORE, premises considered, the County and the Engineer agree that the Work Authorization shall be amended, changed and modified as follows:

- I. The Services to be Provided by the Engineer that were set out in the original Attachment "B" of the Work Authorization are hereby amended, changed and modified as shown in the attached revised Attachment "B" (must be attached).
- II. The maximum amount payable for services under the Work Authorization is hereby increased from \$578,180.59 to \$707,469.62. The revised Work Schedule is attached hereto as Attachment "D" (must be attached).

Except as otherwise amended by prior or future Supplemental Work Authorizations, all other terms of the Work Authorization are unchanged and will remain in full force and effect.

This Supplemental Work Authorization does not waive the parties' responsibilities and obligations provided under the Contract.

IN WITNESS WHEREOF, the County and the Engineer have executed this Supplemental Work Authorization, in duplicate, to be effective as of the date of the last party's execution below.

**COUNTY: ENGINEER:** Signature THOMAS M. Bill Gravell, Jr. Printed Name County Judge Title LIST OF ATTACHMENTS Attachment B - Services to be Provided by Engineer Attachment C - Work Schedule Attachment D - Fee Schedule

# ATTACHMENT B SERVICES TO BE PROVIDED BY THE ENGINEER DESIGN SERVICES FOR TRANSPORTATION CORRIDOR H -SAM BASS ROAD

# PROJECT DESCRIPTION

This Supplemental Work Authorization adds the following items to the previously contracted scope of work.

# Design Criteria

This project will utilize Williamson County Design Criteria and will incorporate Texas Department of Transportation Standard Details and Specifications except where superceded by County details or specifications.

#### 1. PS&E PLAN PREPARATION

a. Plans shall be prepared per Williamson County criteria including applicable submittal requirements including: cost estimate, checklists, hardcopies, CAD files, comment responses, design waivers/exceptions, general notes, quantities, updated design schedule, and construction time determination.

# b. ROADWAY:

Revise roadway plans to reflect updated alignment and baseline stationing including Typical Sections, Project Layout, Roadway Plan and Profiles, Intersection Details, Driveways, and Cross Sections.

# c. BRIDGE:

- Geotechnical investigation and testing Drill two 40 foot deep bridge borings in the vicinity of Culvert C (~Station 298+50) along Sam Bass Road, approximately 0.1 miles east of Mayfield Drive. Samples will be collected and Texas Cone Penetrometer (TCP) tests will be conducted on 5 foot intervals in accordance with the TxDOT Geotechnical Manual. A testing program will be designed to define the strength and classification characteristics of soils and will include a scour analysis on upstream and downstream side of the bridge structure. The results will be incorporated in the final geotechnical report deliverable for the project. TxDOT bridge boring logs, scour analysis results, and pier capacity curves (axial and uplift) for design of drilled shaft piers to support the bridge structure.
- The bridge is assumed as a simple span bridge with 52' overall width with raised sidewalk. TxDOT standard beam type and TxDOT standard bridge abutments with sloped embankment and wingwalls will be used. a TxDOT standard bridge rail will be used. The design of a customized bridge rail is excluded from the scope.
- Bridge Layout Develop and submit the Preliminary Bridge Layout sheet and Typical Section sheet with the 60% resubmittal for the County's approval.

Attachment B **Transportation Corridor H** K Friese & Associates, Inc. Once the Preliminary Bridge Layout sheet and Typical Section sheet are approved, finalize the Bridge Layout sheet and Typical Section sheet for the 90%, 100% and Final PS&E submittals.

- <u>Bridge Detail Summary</u> Prepare total bridge quantities, estimates and summary sheets.
- <u>Bridge Structural Details</u> Prepare the structural design and develop detailed structural drawings of all required details in compliance with TxDOT manuals and guidelines. Assemble and complete all applicable TxDOT Standard Details sheets.

#### d. DRAINAGE:

 Revise drainage plans to reflect updated alignment and baseline stationing including Drainage Area Maps, Drainage Plan and Profiles, and Hydraulic Calculations.

# e. SIGNING, MARKINGS, & SIGNALIZATION

 Revise signing and pavement marking plans to reflect updated alignment and baseline stationing including pavement marking plans and summary of signs.

#### f. TRAFFIC CONTROL

 Revise traffic control plans to reflect updated alignment and baseline stationing.

# 2. DRAINAGE STUDY

- a. HYDROLOGIC/HYDRAULIC MODELING Perform hydrologic and hydraulic modeling for a bridge crossing the outfall at Upper Brushy Creek WCID Dam #13A:
  - Update hydrologic and hydraulic models or modify existing models (FEMA, drainage districts, river authorities, cities, etc.) to include the construction of a dam across the UBCWCID Dam #13A outfall.

#### 3. BIDDING PHASE SERVICES

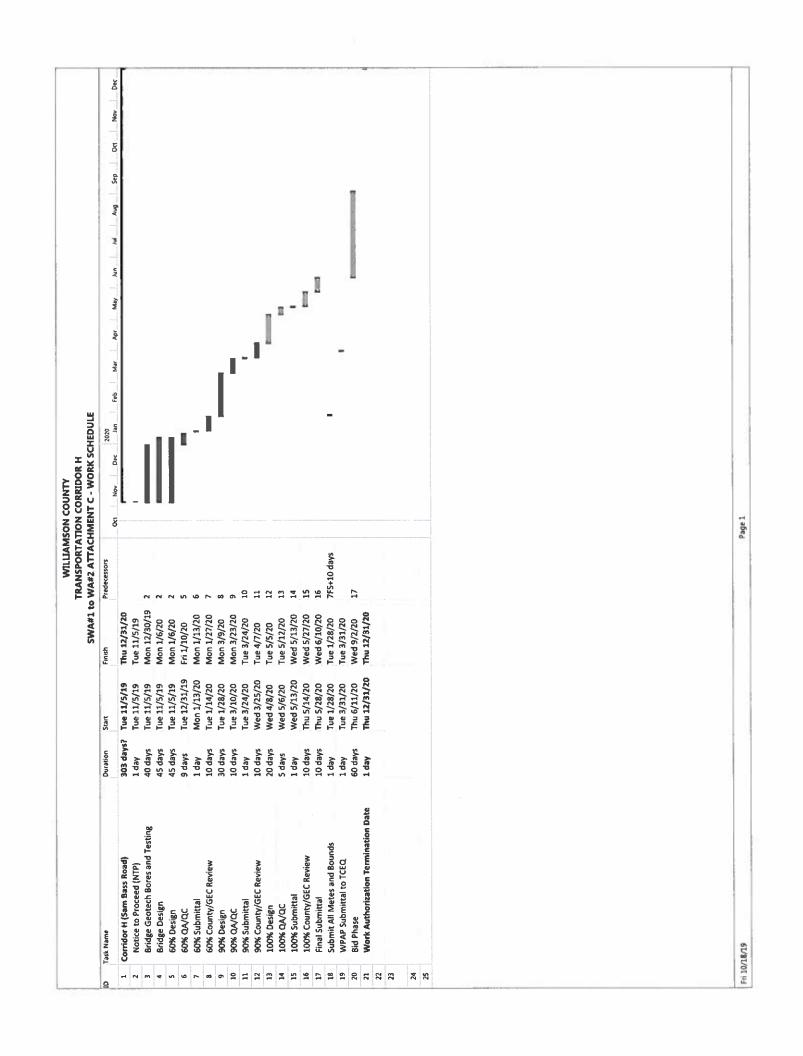

# a. BIDDING PHASE SERVICES:

 Respond to bidder's questions related to the bridge structure during the bid period.

#### **DELIVERABLES**

- 60% PS&E Resubmittal including 60% bridge plans
- 90% PS&E Submittal

- 100% PS&E Submittal
- Final PS&E Submittal
- Geotechnical Report
- Drainage Study
