Differing Site Conditions     (unforeseeable)	2A. Dispute resolution (expense caused by conditions and/or resulting delay) 2B. Unavailable material 2C. New development (conditions changing after PS&E completed) 2D. Environmental remediation 2E. Miscellaneous difference in site conditions (unforeseeable)(Item 9) 2F. Site conditions altered by an act of nature 2G. Unadjusted utility (unforeseeable) 2H. Unacquired Right-of-Way (unforeseeable) 2I. Additional safety needs (unforeseeable) 2J. Other
3. County Convenience	3A. Dispute resolution (not resulting from error in plans or differing site conditions) 3B. Public relations improvement 3C. Implementation of a Value Engineering finding 3D. Achievement of an early project completion 3E. Reduction of future maintenance 3F. Additional work desired by the County 3G. Compliance requirements of new laws and/or policies 3H. Cost savings opportunity discovered during construction 3I. Implementation of improved technology or better process 3J. Price adjustment on finished work (price reduced in exchange for acceptance) 3K. Addition of stock account or material supplied by state provision 3L. Revising safety work/measures desired by the County 3M. Other
4. Third Party Accommodation	<ul> <li>4A. Failure of a third party to meet commitment</li> <li>4B. Third party requested work</li> <li>4C. Compliance requirements of new laws and/or policies (impacting third party)</li> <li>4D. Other</li> </ul>
5. Contractor Convenience	<ul> <li>5A. Contractor exercises option to change the traffic control plan</li> <li>5B. Contractor requested change in the sequence and/or method of work</li> <li>5C. Payment for Partnering workshop</li> <li>5D. Additional safety work/measures desired by the contractor</li> <li>5E. Other</li> </ul>
6. Untimely ROW/Utilities	<ul> <li>6A. Right-of-Way not clear (third party responsibility for ROW)</li> <li>6B. Right-of-Way not clear (County responsibility for ROW)</li> <li>6C. Utilities not clear</li> <li>6D. Other</li> </ul>

#### Williamson County Road Bond Program

### North Mays Extension Williamson County Project No. 1810-265

Change Order No. 5

#### **Reason for Change**

This Change Order adds various changes to the project, including the additional cost of hauling embankment material due to delays in the relocation of existing utilities; electronic changeable message boards used during road closures at south end of the project; adjustment of existing water valve risers and a manhole in the North Mays Street and Paloma Drive intersection, additional driveway on northbound North Mays and north of the City of Round Rock Public Safety Training Center, a wall along the sidewalk in front of the Public Safety Training Center; and addition of permanent traffic control devices at the lane drop transition at the north end of the project.

Item 132-WC01 Embankment (Utility Delay). Utility Companies did not relocate their utilities according to the projected clear dates in the plans. This delay prevented the Contractor from excavating material in the vicinity of these utilities and reusing this material as embankment in other areas of the project. To continue with construction of the roadway, the Contractor hauled material to the project to complete embankment areas. Once utilities were relocated, the excavated material in the vicinity of the conflict had to be hauled away from the project. This Change Order compensates the Contractor for the cost of the additional hauling caused by the delay of utility relocations.

Item 502-WC01 Portable Electronic Changeable Message Boards (PECMB). The PECMB's were added to provide advanced notification to the public of the road closure at the intersection of North Mays and Paloma Drive and left in place during the closure.

Items 529-WC01, 529-WC02, 529-WC03 Stone Curb Wall (related descriptions). A curb wall was added along the sidewalk in front of City of Round Rock Public Safety Training Center due to elevation difference between sidewalk and existing ground (landscaped beds) and limited right of way. By adding the curb wall, the landscaped beds were maintained. The City of Round Rock requested a stone façade to complement the view of the Safety Training Center.

Item 530-6004 Driveways (Conc). An adjacent property owner, along northbound North Mays Street, was granted a driveway north of the Safety Training Center. The driveway was constructed to the right-of-way line and was paid under the existing bid item.

Items 666-6072 Reflective Pavement Mark Type 1, White, Lane Drop Arrow, 100 Mil thickness. A diagonal arrow pavement marking was placed in the northbound lane drop transition to increase awareness of the right lane closure.

Item 999-WC04 Additional Survey for Traffic Control. Contractor's surveyors performed additional surveying for the layout of added traffic control elements.

Item 6049-6001 Long Channel Mount Curb System. Curb delineators were added along the edge line of the land drop transition to increase awareness of the right lane closure.

Item 6120-6001 Dead End Roadway Barricade. A Dead-End Roadway Barricade is being added in front of the drop inlet and behind the lane drop transition devices to increase awareness of the drop inlet.

Item RR 506-WW06 Minor Manhole Height Adjustment, 48" Diameter, Item RR511-W12 Water Valve Riser Adjustment. These items compensate the contractor for making necessary grade adjustments to three (3) existing utility risers and an existing manhole to match the new roadway elevations in the intersection of North Mays and Paloma.

Following is a summary of the items required for this Change Order.

ITEM	DESCRIPTION	QTY	UNIT
132-WC01	EMBANKMENT (UTILITY DELAY)	1	LS
502-WC01	PORTABLE ELECTRONIC CHEANGEABLE MESSAGE BOARD	8.75	MO
529-WC01	STONE CURB WALL BACKFILL	90	TON
529-WC02	STONE CURB WALL REINFORCED FOOTING	18.0	CY
529-WC03	STONE CURB WALL (TRAINING CENTER)	360	LF
666-6072	REFL PAV MRK TY I (W)(LNDP ARROW)(100MIL)	1	EA
999-WC04	ADDITIONAL SURVEY FOR TRAFFIC CONTROL	1	LS
6049-6001	LONG CHANNEL MOUNT CURB SYSTEM	35	EA
6120-6001	DEAD END ROADWAY BARRICADE	1	EA
RR 511-W12	WATER VALVE RISER ADJUSTMENT	3	EA

This Change Order results in an increase of \$194,528.81 to the Contract amount, for an adjusted Contract total of \$11,084,137.52. The original Contract amount was \$10,775,835.75. Because of this Change Order, \$308,301.77 has been added to the Contract, resulting in a 2.86% net increase in the Contract cost. No additional days will be added to or deducted from the Contract as a result of this Change Order.

NARRATIVE			

This change order consists of importing low PI material to replace the additional material removed from the special excavation zone in Phase 1 of the project. This created a surplus of material from the pond that would otherwise have been used in the roadway. This change order breaks out this additional trucking costs in two catagories; haul in trucking & haul off trucking.
