FOR COMPLETING DESIGN SERVICES AND CONSTRUCTION  
RELATED TO RELOCATION OF GEORGETOWN WATER LINE IMPROVEMENTS  
ALONG COUNTY ROAD 200**

THE STATE OF TEXAS                   §  
  §                   KNOW ALL BY THESE PRESENTS:  
COUNTY OF WILLIAMSON           §

**THIS INTERLOCAL AGREEMENT REGARDING RELOCATION OF WATER SYSTEM IMPROVEMENTS (“Agreement”)** is entered into between the City of Georgetown, Texas, a Texas municipal corporation (the “**City**”) and Williamson County, a political subdivision of the State of Texas (the “**County**”). In this Agreement, the City and the County are sometimes individually referred to as “**a Party**” and collectively referred to as “**the Parties**”.

**WHEREAS**, the County is and has been in the process of making road improvements to County Road 200 between its intersection with Texas Highway 29 to approximately County Road 201 (the “**County Project**”); and

**WHEREAS**, the proposed CR 200 roadway improvements include the widening of the right-of-way into an easement(s) in which the City’s water system improvements (the “**Waterline**”) are located; and

**WHEREAS**, in connection with the construction of the roadway improvements, the County desires to relocate a portion of the Waterline (the “**City Project**”); and

**WHEREAS**, the City desires to cooperate with the County to facilitate the construction of the roadway improvements and the relocation of the Waterline; and

**WHEREAS**, the City desires to cooperate with the County to facilitate the construction of the roadway improvements and the relocation of the Waterline; and

**NOW, THEREFORE**, in consideration of the foregoing premises and the mutual promises and agreements of the Parties contained in this Agreement, the Parties agree as follows:

**I.  
PURPOSE**

**1.01 General.** The purpose of this Agreement is to provide for the County’s relocation and construction of the Waterline required by the County Project.

**1.02 Relocation of Waterline.** The County will relocate the Waterline based on the terms and conditions stated herein.

**1.03 Continuation of Service.** The County agrees that the County Project shall be undertaken so as to minimize any disruption of water service to existing City customers and will not result in the permanent loss of water service to any such customers.

## **II. CONSTRUCTION OF CITY PROJECT**

**2.01 General.** The Parties mutually acknowledge and agree that the County shall, at its own expense, construct all physical improvements that constitute the City Project.

**2.02 County Obligations.** The County shall be responsible for all costs associated with the preliminary and final design, construction bidding and management and all other costs related to the Water Line Relocation. The County shall be responsible for all design, construction and project administration services for the Water Line Relocation.

**2.03 Construction Plans.** The County has submitted the plans and specifications related to the City Project to the City. A copy of the plans are attached hereto as **Exhibit "A"**. Any changes or modifications to the plans will be submitted to the City for review and approval prior to commencing construction.

**2.04 Inspection.** County shall notify the City in writing five days prior to commencement of construction of the Waterline. The City may inspect the relocation of the Waterline during construction. Upon receipt of notification from the City that the City's inspectors determine the construction by the County is not in accordance with the approved project plans, the County shall cease construction until the deficiency can be identified and a corrective plan of construction implemented with the agreement of the City.

**2.05 Permits.** The County shall be responsible for obtaining permits, if any, required for the construction of the Project.

**2.06 Insurance, Bonds and Warranties.** The County shall require the contractor for the Project to name the City as an additional insured on any policies related to the City Project. The County shall require the contractor to provide performance bonds, payment bonds and maintenance bonds in favor of the City for the City Project in amounts satisfactory to the City. The County shall transfer any warranties for the City Project to the City upon final completion and prior to acceptance of the project.

**2.07 Prior Rights.** The City's Waterline will be relocated from its current alignment within the City's easement to a new location within the right of way of County Road 200. Concurrent with this Agreement, the both parties shall execute an amendment to the easement(s) as identified in **Exhibit "B"** (Effected Easement(s)), in a form substantially similar to **Exhibit "C"**, which shall amend the easement area(s) of the Effected Easement(s) to correspond with location of the line location as approved per section 2.03. The City shall retain all of the same rights in the area within the right of way limits as the City had in the easement prior to the relocation of the Waterline.

**IV.  
DISPUTES**

**4.01 Material Breach; Notice and Opportunity to Cure.**

(a) In the event that one Party believes that another Party has materially breached one of the provisions of this Agreement, the non-defaulting Party will make written demand to cure and give the defaulting Party up to 30 days to cure such material breach or, if the curative action cannot reasonably be completed within 30 days, the defaulting Party will commence the curative action within 30 days and thereafter diligently pursue the curative action to completion. Notwithstanding the foregoing, any matters specified in the default notice which may be cured solely by the payment of money must be cured within 10 days after receipt of the notice. This applicable time period must pass before the non-defaulting Party may initiate any remedies available to the non-defaulting party due to such breach.

(b) Any non-defaulting Party will mitigate direct or consequential damage arising from any breach or default to the extent reasonably possible under the circumstances.

(c) The Parties agree that they will negotiate in good faith to resolve any disputes and may engage in non-binding mediation, arbitration or other alternative dispute resolution methods as recommended by the laws of the State of Texas.

**4.02 Equitable Relief.** In recognition that failure in the performance of the Parties' respective obligations could not be adequately compensated in money damages alone, the Parties agrees that after providing notice and an opportunity to cure in accordance with Section 4.01 above, the Parties shall have the right to request any court, agency or other governmental authority of appropriate jurisdiction to grant any and all remedies which are appropriate to assure conformance to the provisions of this Agreement. The defaulting Party shall be liable to the other for all costs actually incurred in pursuing such remedies, including reasonable attorney's fees, and for any penalties or fines as a result of the failure to comply with the terms including, without limitation, the right to obtain a writ of mandamus or an injunction requiring the governing body of the defaulting party to levy and collect rates and charges or other revenues sufficient to pay the amounts owed under this Agreement.

**4.03 Agreement's Remedies Not Exclusive.** The provisions of this Agreement providing remedies in the event of a Party's breach are not intended to be exclusive remedies. The Parties retain, except to the extent released or waived by the express terms of this Agreement, all rights at law and in equity to enforce the terms of this Agreement.

**V.  
GENERAL PROVISIONS**

**5.01 Authority.** This Agreement is made in part under the authority conferred in Chapter 791, *Texas Government Code*.

**5.04 Severability.** The provisions of this Agreement are severable and, if any provision of this Agreement is held to be invalid for any reason by a court or agency of competent jurisdiction, the remainder of this Agreement will not be affected and this Agreement will be construed as if the invalid portion had never been contained herein.
