

WILLIAMSON COUNTY, TEXAS

CHANGE ORDER NUMBER: 1

1. CONTRACTOR: Cash Construction
2. Change Order Work Limits: Sta. 255+21.02 to Sta. 391+30.84
3. Type of Change(on federal-aid non-exempt projects): Minor (Major/Minor)
4. Reasons: 1B (3 Max. - In order of importance - Primary first)

Project:	<u>Corridor H - Sam Bass Rd.</u>
Roadway:	<u>Sam Bass Rd.</u>
CSJ Number:	<u>23IFB8</u>

5. Describe the work being revised:

1B: Design Error or Omission. Other. This Change Order revises the earthwork quantities, BCMUD water line items and driveway quantities, per plan revisions issued after the Bid was awarded. The quantity for Item 110-6001 excavation was reduced by over 25% and the unit price is revised because it is considered a major bid item per the Contract.

6. Work to be performed in accordance with Items: See Attached
7. New or revised plan sheet(s) are attached and numbered: N/A
8. New Special Provisions/Specifications to the contract are attached: ☐ Yes ☒ No
9. New Special Provisions to Item N/A No. N/A, Special Specification Item N/A are attached.
- Each signatory hereby warrants that each has the authority to execute this Change Order (CO).

<p>The contractor must sign the Change Order and, by doing so, agrees to waive any and all claims for additional compensation due to any and all other expenses; additional changes for time, overhead and profit; or loss of compensation as a result of this change.</p> <p>THE CONTRACTOR Date <u>6/13/23</u></p> <p>By <u>[Signature]</u></p> <p>Typed/Printed Name <u>NATHAN GARTER</u></p> <p>Typed/Printed Title <u>E. L.</u></p>	<p>The following information must be provided</p> <p>Time Ext. #: <u>N/A</u> Days added on this CO: <u>0</u></p> <p>Amount added by this change order: <u>(\$2,394,078.12)</u></p>

CHANGE ORDER REASON(S) CODE CHART

1. Design Error or Omission	1A. Incorrect PS&E 1B. Other
2. Differing Site Conditions (unforeseeable)	2A. Dispute resolution (expense caused by conditions and/or resulting delay) 2B. Unavailable material 2C. New development (conditions changing after PS&E completed) 2D. Environmental remediation 2E. Miscellaneous difference in site conditions (unforeseeable)(Item 9) 2F. Site conditions altered by an act of nature 2G. Unadjusted utility (unforeseeable) 2H. Unacquired Right-of-Way (unforeseeable) 2I. Additional safety needs (unforeseeable) 2J. Other
3. County Convenience	3A. Dispute resolution (not resulting from error in plans or differing site conditions) 3B. Public relations improvement 3C. Implementation of a Value Engineering finding 3D. Achievement of an early project completion 3E. Reduction of future maintenance 3F. Additional work desired by the County 3G. Compliance requirements of new laws and/or policies 3H. Cost savings opportunity discovered during construction 3I. Implementation of improved technology or better process 3J. Price adjustment on finished work (price reduced in exchange for acceptance) 3K. Addition of stock account or material supplied by state provision 3L. Revising safety work/measures desired by the County 3M. Other
4. Third Party Accommodation	4A. Failure of a third party to meet commitment 4B. Third party requested work 4C. Compliance requirements of new laws and/or policies (impacting third party) 4D. Other
5. Contractor Convenience	5A. Contractor exercises option to change the traffic control plan 5B. Contractor requested change in the sequence and/or method of work 5C. Payment for Partnering workshop 5D. Additional safety work/measures desired by the contractor 5E. Other
6. Untimely ROW/Utilities	6A. Right-of-Way not clear (third party responsibility for ROW) 6B. Right-of-Way not clear (County responsibility for ROW) 6C. Utilities not clear 6D. Other

Williamson County Road Bond Program

Corridor H – Sam Bass Road Williamson County Project No. 23IFB8

Change Order No. 1

Reason for Change

This Change Order revises the earthwork quantities, BCMUD water line items and driveway quantities, per plan revisions issued after the Bid was awarded. The quantity for Item 110-6001 excavation was reduced by over 25% and the unit price is revised because it is considered a major bid item per the Contract. The same item number 110-6001 is used to adjust the price for this reduction in quantity.

The following new items will be added by this Change Order.

ITEM	DESCRIPTION	QUANTITY	UNIT
110-6001	EXCAVATION (ROADWAY)	106,693	CY
511	2" Combination Air Valve	2	EA

This Change Order results in a net decrease of \$2,394,078.12 to the Contract amount, for an adjusted Contract total of \$33,751,880.88. The original Contract amount was \$36,145,959.00. As a result of this and all Change Orders to-date, \$2,394,078.12 has been deducted from the Contract, resulting in a 6.62% net decrease in the overall Contract cost. No time will be added to the Contract for this Change Order.

HNTB Corporation

Oscar Salazar-Bueno, P.E.

To: Oscar Salazar-Bueno <osalazarbueno@HNTB.com>

Subject: RE: 23IFB8-Corridor H - Sam Bass Road- Excavation and Embankment Quantities

Oscar – we would need to increase the unit price for each item by \$2.00 to make it work for us. The revised unit prices would need to be as follows:

Item 10 \$24.90

Item 11 \$23.00

Item 12 \$34.00

Hope this work for all so you don't have to rebid.

Thanks,

Trey Dickehut

Vice President of Estimating

Subject: [External] 23IFB8-Corridor H - Sam Bass Road- Excavation and Embankment Quantities

This Message Is From an External Sender

This message came from outside your organization.

Hi Trey,

Thanks for taking my call, as discussed the EOR discovered errors on the excavation and embankment items. The revised quantities are shown below, can you please check if Cash Construction can keep the bid prices in spite of the quantity revisions?

BID ITEM	TECH SPEC	DESCRIPTION	BID QUANTITY	UNIT MEASURE	REVISED QUANTITY	Delta
10	110 6001	EXCAVATION (ROADWAY)	208.008	CY	106.893	-102.316
11	132 6003	EMBANKMENT (FINAL)(ORD COMP)(TY B)	16.683	CY	9.098	-7.486
12	132 6025	EMBANKMENT (FINAL)(DENS CONT)(TY C1)	6.118	CY	3.271	-2.847

The contract went to the Board today for approval and we would like to iron out this wrinkle in advance of the final contract execution.

Thanks!

REQUEST FOR INFORMATION FORM

RFI NO.: 4 DATE: 4/25/23
PROJECT: Sam Bass (Corridor H) RESPONSE REQUESTED BY
DATE: 4/28/23
TO: HNTB: Tracy Cooper; Steven Shull; Eddie Church, P.E.

REFERENCE: BCMUD Revised Plans

PROBLEM:

It appears majority of the bends were taken out of the BCMUD water lines. The bends were replaced with PI Def. The plans are telling us to deflect anything from 7 degrees up to 90 degrees, which will be almost impossible. I am not sure why the bends were taken out and deducted from the from the contract amount and taken out of the plans. Please let us know if this is a typo and if we will recieved revised plan sheets and deductive change order.

RECOMMENDED SOLUTION:

We would recommend to go back to the original set of plans and put the bends back in the plan set.

Hunter Driskell
Originator

N/A
Supervisor

MRB Response: The PI Def. angle callouts in the Drawings show the deflection angle required to maintain the alignment as shown. At these locations, use a combination of ductile iron fittings (bends) and pipe joint deflection within the limits as allowed by the pipe manufacturer's recommendations to achieve the deflection angle and to maintain the alignment as shown in the Drawings. The bends were not deducted from the contract amount and are accounted for by the bid item for Ductile Iron Fittings as TONS.

Subject: RE: Sam Bass Road (Corridor H) - RFI #4 BCMUD Plan Revision
Attachments: Sam Bass Utility Relocation - Fittings 5.1.23.pdf

Hello Eddie,

The original 4.83 tons was a conservative estimate of fittings. These estimates and the updated tonnage estimates are based on the AWWA C110 D.I. bends, similar to the bends shown here <https://american-usa.com/products/ductile-iron-pipe-and-fittings/fittings/mechanical-joint-fittings/bends>. These are much heavier than the compact fittings that Cash has submitted so that may also explain some of the discrepancies between their estimates and ours.

Please see attached: For the 100% plans this tonnage was reduced to 2.985 tons, however after closer inspection, there were some bends not accounted for in the 2.985 total, so I have marked up the Quantity table in the plans to reflect the new totals. The new total, 4.495 tons is based on standard, not compact fittings.

I also added a table (pg 2 of attached) that has some comments.

I have marked up the plans with circles showing where we assumed the bends would be needed. I have marked with bold circles where the discrepancies are.

Additional Comments:

- A majority of the additional tonnage above comes from the fittings for the 24" bypass shown on Sheet 16 of the plans. There currently is not a bid item for this bypass, however the contractor has sent a submittal for this material so it seems to be accounted for somewhere.
- On Sheet 16, Sta. 32+89, there is a tie-in to the existing 8" WL and calls for a 8" Gate valve. This gate valve appears to be missed in our summary table and does not have a pay item.

For these items, let us know if you would like an updated quantity table in the plans or how you would like to proceed.

Thank you,

KELBY COMBEST / MRB Group / 512.636.9853

Subject: FW: Sam Bass Road (Corridor H) - RFI #4 BCMUD Plan Revision

Kelby,

Could you please provide backup for the ductile iron fittings quantity changes, between Bid Plans and 100% plans issued via Change order?

REQUEST FOR INFORMATION FORM

RFI NO.: 6 DATE: 5/3/23
PROJECT: Corridor H - Sam Bass - Signals RESPONSE REQUESTED BY
DATE: 5/10/23
TO: Tyson Hasz - KFA

REFERENCE: Parcels 58, 60, 61

PROBLEM:

Discrepancy between actual ROW and plan ROW at detention pond area.

RECOMMENDED ACTION:

Update plans and driveway tie-ins.

Oscar Salazar-Bueno, PE
Originator

Christen Eschberger, PE
Supervisor

RESPONSE:

Driveway 42 is being revised to keep the proposed driveway within the ROW. Driveways 43, 44, 45, and 47 need to remain as originally designed so they can tie-in at the existing throat of each respective driveway. As a result, those proposed driveway tie-ins will extend outside of the existing ROW and will require TCEs. The relevant plan sheets and quantities have been updated accordingly.

Tyson Hasz, PE
Responder
