

LIBERTY HILL WASTEWATER LINE EASEMENT AGREEMENT

Community Interceptor

STATE OF TEXAS §
 § **KNOW ALL BY THESE PRESENTS:**
COUNTY OF WILLIAMSON §

This Agreement (the “Agreement”) is made between **WILLIAMSON COUNTY, TEXAS** (hereinafter referred to as “Grantor”) and the **CITY OF LIBERTY HILL**, a Texas general law city, whose address is P.O. Box 1920, Liberty Hill, Texas, 78642, ATTN: Liberty Hill City Secretary, (herein referred to as “Grantee”), as follows:

1. For the good and valuable consideration described in Paragraph 2 below, Grantor hereby GRANTS, SELLS, and CONVEYS to Grantee, its successors and assigns, an easement and right-of-way (the “Easement”) for the placement, construction, operation, repair, maintenance, replacement, upgrade, rebuilding, relocation and/or removal of wastewater lines and related facilities and appurtenances (collectively, the “Facilities”) on, over, under, and across the following described property of the Grantor, to wit:

Being all that certain tract, piece or parcel of land lying and being situated in the County of Williamson, State of Texas, being more particularly described in **Exhibit A**, attached hereto and made a part hereof for all purposes (herein sometimes referred to as the “Easement Area” or the “Property”):

2. The easement and the rights and privileges herein conveyed, are granted for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration to Grantor in hand paid by Grantee, the receipt and sufficiency of which is hereby acknowledged and confessed.
3. The Easement, with its rights and privileges, shall be used only for the purpose of placing, constructing, operating, repairing, maintaining, rebuilding, replacing, upgrading, relocating, and/or removing the Facilities. Any wastewater lines installed within the Easement shall be installed at a depth that does not interfere with the uses of the surface set forth in Section 4 below.
4. Grantor reserves, and Grantor its successors and assigns shall have the right at their sole expense, commencing after the construction and installation of the Facilities by Grantee, to install, maintain and use the surface of the Property for signs, driveways, roads, sidewalks, and/or landscaping which contains no invasive root structure

(collectively the “Surface Improvements”). However, Grantee shall not have any obligation to reconstruct, restore or repair any Surface Improvements installed after construction of the Facilities without Grantee’s prior consent.

5. The Duration of the Easement is perpetual.
6. Grantor and Grantor’s heirs, personal representatives, successors, and assigns are and shall be bound to WARRANT and FOREVER DEFEND the Easement and the rights conveyed in this Agreement to Grantee and Grantee’s successor and assigns, against every person lawfully claiming or to claim all or any part thereof by, through, or under Grantor, but not otherwise.
7. The easement, rights and privileges herein established are non-exclusive, and Grantor hereby reserves and retains the right to convey similar rights and easements as Grantor deems proper, providing such conveyances do not prohibit or interfere with the use of the easement established herein.
8. In addition to the Easement, rights, and privileges herein granted, Grantee shall have the temporary right to use the surface of Grantor’s adjacent property at locations limited to twenty-five (25) feet parallel and immediately adjacent to either side of the Easement Area shown on the sketch which accompanies the description in Exhibit “A” attached hereto (the “Temporary Construction Easement”), to the extent necessary to construct and install the Facilities within the Easement Area. The duration of the Temporary Construction Easement rights shall be for a period which expires twelve (12) months from the date of first entry by Grantee upon the Temporary Construction Easement area for Facility installation.

Grantee shall only remove any hardwood tree larger than ten inches (10”) in diameter from the Temporary Construction Easement area if approved and determined by the City Engineer in advance to be necessary and required for the reasonable access to the adjoining permanent Easement Area to carry out the installation of the Facilities. Upon the completion of such construction and installation, Grantee shall, as reasonably possible, restore the surface of the Temporary Construction Easement to the condition in which it was found before any such work was undertaken, and Grantee’s right to use the Temporary Construction Easement shall thereupon terminate for all purposes.

9. On completion of the original laying of said Facilities, Grantee will forthwith restore the Property, including specifically any boundary fencing, gates, or driveways, to the condition in which it was found before such work was undertaken, as is reasonably possible, and shall level the ground and restore same to the original surface contour and drainage conditions as existed before operations were begun, as is reasonably

possible, and such leveling and restoration shall be forthwith carried out after each and every maintenance, replacement, modifications, repair or removal operation conducted subsequently to the original construction of said line or lines.

10. Unless otherwise agreed with Grantor in advance, Grantee shall at all times while working within the Easement maintain reasonable access across the Easement Area between the remaining property of Grantor.
11. Grantor agrees to process, and not unreasonably withhold, any additional permit, utility agreement, and or license necessary for the placement, construction, operation and repair of any public Facilities as defined by Texas law and according to any applicable Federal, State and local statutes or Williamson County Right of Way utility permitting requirements in place at the time of application.
12. This Agreement contains the entire agreement between the parties relating to its subject matter. Any oral representations or modifications concerning this Agreement shall be of no force and effect. Any subsequent amendment or modification must be in writing and agreed to by all parties.
13. The terms of this Agreement shall be binding upon Grantor, and Grantor's heirs, personal representatives, successors, and assigns; shall bind and inure to the benefit of the Grantee and any successors or assigns of Grantee; and shall be deemed to be a covenant running with the land.

IN WITNESS WHEREOF, this instrument is intended to be effective as of the date of execution of the final party hereto.

A professional land surveyor seal for the State of Texas. The seal is circular with a decorative, multi-pointed border. Inside the border, the words "STATE OF TEXAS" are at the top, "REGISTERED" is below it, and a five-pointed star is in the center. Below the star, the name "SHANE SHAFER" is written, followed by the number "5281". At the bottom, the words "PROFESSIONAL LAND SURVEYOR" are written in a semi-circle.
