

**AMENDMENT TO
SUBRECIPIENT AGREEMENT BETWEEN
WILLIAMSON COUNTY
AND CITY OF GRANGER
FUNDING FROM:
THE AMERICAN RESCUE PLAN ACT (ARPA)
(A.L.N. 21.027)**

THIS AMENDMENT to Subrecipient Agreement is made and entered into by and between Williamson County, Texas ("County") and City of Granger, Texas ("Subrecipient"), both being political subdivision of the State of Texas (collectively referred to as "Parties").

RECITALS

WHEREAS, the Parties executed that certain agreement entitled Subrecipient Agreement Between Williamson County and City of Granger for Water and Wastewater Improvement Project [FUNDING FROM: The American Rescue Plan Act (ARPA) (A.L.N. 21.027)], which became effective as of October 31, 2023 ("Agreement");

WHEREAS, it has become necessary to amend the Agreement;

NOW, THEREFORE, premises considered, the Parties agree that the Agreement is amended as follows:

AGREEMENTS

- 1. Article 2 – Payment** of the Agreement shall be amended and supplanted, in its entirety, by the following:

The COUNTY shall make available an amount of up to **\$1,422,357.00 (ONE MILLION FOUR HUNDRED THOUSAND TWENTY-TWO AND THREE HUNDRED FIFTY-SEVEN DOLLARS)** to SUBRECIPIENT from the COUNTY's SLFRF FUNDS to reimburse SUBRECIPIENT for expenses related to eligible uses of SLFRF FUNDS as outlined in the Treasury's Final Rule, reflected in Appendix B, and in accordance with the terms and conditions outlined below:

Williamson County approves and pays reimbursement requests within thirty (30) days of receipt of a complete request. Errors in the reimbursement request, including insufficient documentation, may result in payment delays. SUBRECIPIENT is responsible for submitting a complete and accurate reimbursement request. Payment is considered made on the date postmarked. Each reimbursement request must contain the following supporting documentation:

- i. Signed Request for Reimbursement (RFR) form;
- ii. General Ledger (monthly, generated from SUBRECIPIENT's accounting system) coinciding with RFR

- iii. Timesheets and Payroll Reports (monthly, generated from SUBRECIPIENT's payroll system) if budget included personnel
 - iv. Invoices of all other expenditures
 - v. Proof of payment of all expenditures
2. **Appendix A – Scope of Services** of the Agreement shall be amended and supplanted, in their entirety, by the Appendix A attached hereto, which are being incorporated herein by reference.
3. **Appendix B – Project Budget** of the Agreement shall be amended and supplanted, in their entirety, by the Appendix B attached hereto, which are being incorporated herein by reference.
4. Each party represents and warrants that it has due power and lawful authority to execute and deliver this Amendment and to perform its obligations under the Agreement; and, furthermore, the Agreement and this Amendment are the valid, binding, and enforceable obligations of such party.
5. All other terms of the Agreement and any prior amendments thereto which have not been specifically amended herein shall remain the same and shall continue in full force and effect.

IN WITNESS WHEREOF, the Parties have caused this Amendment to be signed by their duly authorized representatives on behalf of such party, to be effective as of the date of the last party's execution hereof.

Title: MAYOR

Date: December 12, 2024

APPENDIX A

Scope of Services

Water Line Improvements: A new 12-inch water line will be installed along Walnut Street, Granger, Texas from the elevated storage tank to the east side of SH95 and will connect to an existing 6-inch water line. The 12-inch water line will continue east along Walnut Road to Granger Street, then north on Granger Street to Oak Street, then east on Oak Street and tie into an existing 12-inch water line from the new Granger ISD High School campus. The water line installation will include all fittings, valves, steel encasement pipe, fire hydrants, service connections, and connections to existing water lines.

Wastewater: A new influent lift station will be installed at the Granger wastewater treatment plant site and a new influent wastewater lines will be installed to direct wastewater flows to the new lift station. The new influent lift station will allow future influent lines to be installed at a greater depth, which will eliminate aerial creek crossings. The existing influent line into the wastewater treatment plant is approximately 6-inches deep and requires additional soil to be added to keep the pipe covered. The new influent lift station will be designed to facilitate a proposed new wastewater treatment facility that will be constructed at the existing plant site and will be funded through the United States Department of Agriculture (USDA) Rural Development (RuD) fund and is expected to begin design in fall of 2025. The new lift station and collection lines will eliminate the existing shallow influent line and eliminate the aerial creek crossings.
