WASTEWATER LINE EASEMENT

THE STATE OF TEXAS	§	
	§	KNOW ALL BY THESE PRESENTS:
COUNTY OF WILLIAMSON	§	

That FAITH MISSIONARY BAPTIST CHURCH, whose address is 1561 Sam Bass Road, Round Rock, Texas 78681, and its successors and assigns (hereinafter collectively referred to as "Grantor"), for and in consideration of the sum of TEN and NO/100 DOLLARS (\$10.00) and other good and valuable consideration paid by the WILLIAMSON COUNTY, TEXAS, its successors and/or assigns (hereinafter referred to as "Grantee"), whose mailing address is 710 Main Street, Suite 101, Texas 78664, Attn: County Auditor, the receipt and sufficiency of which is hereby acknowledged, does hereby GRANT, SELL and CONVEY unto Grantee a perpetual Wastewater Line Easement ("Wastewater Line Easement") and right-of-way to construct, install, operate, maintain, inspect, reconstruct, enlarge, relocate, rebuild, repair, and remove a wastewater service system and lines, together with all necessary lines, pipes, conduits, valves, vaults, lift stations, manholes, ventilators, and other equipment, improvements, accessories and appurtenances or operations thereto, in, upon, over, under, above and across the following described property of Grantor (collectively the "Easement Area"), to-wit:

Being a 1.942 acre (84,625 square foot) tract of land situated in the Jacob M. Harrell Survey, Abstract No. 284 in Williamson County, Texas; said tract being more particularly described by field notes and sketch in the attached Exhibit "A," incorporated herein by reference for all purposes.

This conveyance is made and accepted subject to all conditions and restrictions, if any, relating to the hereinabove described property, and only to the extent, that the same may still be in force and effect and shown of record in the office of the County Clerk of Williamson County, Texas.

Except as otherwise noted, the Wastewater Line Easement, rights and privileges herein granted shall be perpetual; provided, however, that said Wastewater Line Easement, rights and privileges shall cease and revert to Grantor in the event the said lines are abandoned, or shall cease to be used, for a period of five (5) consecutive years.

Upon completion of the construction and installation of the line and facilities in the tract identified in the attached Exhibit "A," Grantee shall, as reasonably possible, restore the surface of the Wastewater Line Easement, including fencing boundary fencing or gates, as closely as possible to the condition in which it was found before any such work was undertaken, considering the uses to which the Easement Area is used as authorized herein.

Grantor covenants that it will not convey any other future easement or conflicting rights within the Easement Area covered by this grant without the express written consent of Grantee, which consent shall not be unreasonably withheld, conditioned or delayed. Grantee shall have the right to review any proposed easement or conflicting use of the easement to determine the effect, if any, on the Wastewater Lines contemplated herein. Prior to granting its consent for other easements, Grantee may require reasonable safeguards to protect the integrity of the Wastewater lines. As required by this paragraph, express written consent of Grantee shall be obtained by Grantor in the following manner: advance written notice must be given by certified mail to the Williamson County Engineer, Williamson County Road & Bridge Department, 3151 SE Inner Loop, Georgetown, Texas 78626.

Grantor further grants to Grantee:

- (a) the right of ingress to and egress from the Easement Area over and across Grantor's property by means of roads and lanes thereon, if such exist, otherwise by such route(s) as shall occasion the least practicable damage and inconvenience to Grantor; provided that such ingress and egress right shall not extend to any portion of Grantor's property isolated from the Easement Area by any public highway or road now or hereafter crossing the property; the foregoing right of ingress and egress includes the right of Grantee to disassemble, remove, take down, and clear away any barricade or other structure which obstructs, prevents, or hinders Grantee's ingress to and egress from Grantor's property, and should Grantee deem it necessary to so disassemble, remove, take down, or clear away any such barricade or other structure, Grantee shall, as soon as is reasonably feasible and at its sole cost and expense, replace or restore Grantor's property to as similar a condition as is reasonably practicable as existed immediately prior to Grantee's actions pursuant to this provision, unless said barricade or other structure is inconsistent with rights conveyed to Grantee herein;
- (b) the right of construction, maintaining and using such roads on and across the property as Grantee may deem necessary in the exercise of the right of ingress and egress;
- (c) the right to mark the location of the Easement Area by suitable markers; provided that such markers shall be placed in locations which will not interfere with any reasonable use Grantor shall make of the Easement Area;
- (d) the right to grade the Easement Area for the full width thereof and to extend the cuts and fills for such grading into and on the land in the Easement Area to such extent as Grantee may find reasonably necessary;
- (e) the right from time to time to trim and to cut down and clear away any and all trees and brush now or hereafter on the Easement Area and to trim and to cut down and clear away any trees on either side of the easement which now or hereafter in the reasonable opinion of Grantee may be a hazard to the lines, valves, appliances, fittings, or other improvements by reason of the danger of falling thereon or root infiltration therein, or which may otherwise interfere with the exercise of Grantee's rights hereunder; provided, however, Grantee shall not trim and/or cut down and clear away any trees and/or brush outside of the Easement Area without the prior written consent of Grantor, and shall be removed by Grantee;

- (f) the right to install, maintain and use gates in all fences which now cross or shall hereafter cross the Easement Area; and
- (g) the right to support the lines across ravines and watercourses with such structures as Grantee shall deem necessary.

Grantee hereby covenants and agrees:

- (a) Grantee shall not fence the Easement Area; and
- (b) Grantee shall promptly backfill any trench made by it on the easement and repair any damage it shall do to Grantor's private roads or lanes on the lands.
- (c) Upon application, engineering plan submission, approval and permitting by Grantee and/or any other required entity with regulatory jurisdiction of the Grantor's remaining property, if sufficient service capacity is otherwise available at the time of request, Grantor shall be allowed at its own expense to connect to any facilities of Grantee within the Wastewater Line Easement in order to provide wastewater service of Grantor's remaining property, at a location determined by Grantee, and any permit request shall not be unreasonably withheld, conditioned or delayed. Any facilities placed within the Easement Area by Grantor shall remain the property of Grantor and shall be the sole responsibility of Grantor to operate, maintain, improve, repair, or remove.

Notwithstanding anything in this instrument to the contrary, Grantor also retains, reserves, and shall continue to enjoy the surface of such Easement Area for any and all purposes which do not interfere with and prevent the use by Grantee of the Easement Area, including the right to build and use the surface of the Easement Area for private streets, roads, driveways, alleys, walks, gardens, lawns, parking areas and other like uses; provided Grantor shall not erect or construct on the Easement Area any building or other structure such as a patio, swimming pool, sport court, storage shed, accessory building, barbeque pit or similar structure, or drill or operate any well, or construct any reservoir or other obstruction on the easement, or diminish or substantially add to the ground cover over the pipelines. Grantee shall not be responsible or liable for the removal, repair or damage to any property, structure, building, or other use inconsistent with the rights conveyed to Grantee by the easement. Provided however, before constructing any non-interfering improvements listed in this paragraph, at least ten (10) days' written notice shall be provided to Grantee of the general plans of the improvement to be constructed on the Easement Area, and Grantor must first obtain the consent and approval from Grantee of the construction and location of any improvements within the Easement Area, which consent and approval shall not be unreasonably withheld, conditioned or delayed.

It is understood and agreed that any and all equipment and facilities placed upon said property by Grantee shall remain the property of Grantee.

TO HAVE AND TO HOLD the rights and interests described unto Grantee and its successors and assigns forever, and Grantor does hereby bind itself, and its successors and assigns and legal representatives, to warrant and forever defend, all and singular, the above-described Wastewater Line Easement and rights and interests unto Grantee, its successors and assigns, against every person whomsoever lawfully claiming, or to claim same, or any part thereof.
