# 2020 Crop Report & Agricultural Update

## Pest Exclusion

- ▶ 877 plant shipments were inspected
- ▶ 67 were rejected for Federal or State Quarantine violations for live pest finds. For the eighth year in a row.
- ▶ Yolo County led the State in pest interceptions at the United States Postal Service in California for 2020.
- ▶ Over **31 serious pests** were stopped from entering the 20 County delivery area covered by the Postal Sectional Center in West Sacramento.

# 2020 Crop Report & Agricultural Update

## Pest Detection

- ▶ Yolo County also keeps a comprehensive Detection Program as a second line of defense and early warning system against inadvertent pest introductions.
- ▶ This system of insect trapping identifies foreign pests before they can become established, avoiding major financial and environmental impacts.
- ▶ Over 1,000 Yolo County residents cooperated with us by hosting traps on their properties
- ▶ In total, traps were checked over 5,900 times by Yolo County Pest Detection Trappers.

# 2020 Crop Report & Agricultural Update
