

Covered Activity Area- West Wall

Shayne Oseguera

20,000

The mural design portrays the Pronghorn antelope, Chinook salmon, and the California condor within the Yolo County landscape. These animals were selected to celebrate the majesty of native California species and symbolize the multi-generational abundance of the land. The exaggerated scale amplifies the beauty of these ancient species that are still inhabiting the region today. The digital rendering will be further developed to refine the transitions between each design elements. Collaboration will be facilitated by Yolo County Library and YoloArts to integrate community participation into the mural making process. The final design will be painted on the West wall of the covered activity area using acrylic and spray paint. Coats of varnish will shield the mural from all outdoor elements and an anti-graffiti coat will protect it from any vandalism.

Shayne Oseguera, Digital Rendering, 8'x20' Acrylic paint

Yolo Branch Library, Covered Activity Area-West Wall

Objective

Independent contractor for city public art projects, business owner commissions in murals and other 2D or 3D works.

Education

2017 B.F.A. Painting and Printmaking – San Diego State University
San Diego, CA – 2015.2017

Collection Room, North Gable

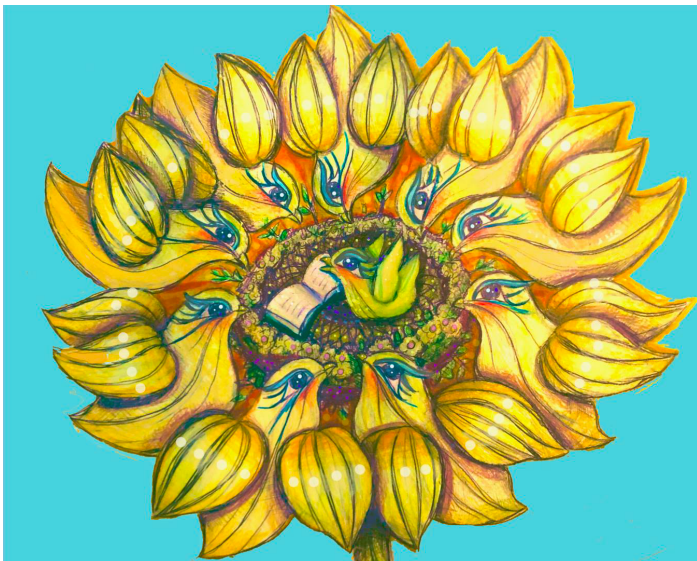

Ana Valentine

\$5,600

The purpose of this mural is to encourage library visitors to expand their perceptions of what's possible through the ingenuity of design. This is meant to look like a solitary flower from afar, but upon closer inspection people realize the petals are birds. In this sketch, is a clever baby bird reading to all from the center of a nest, which is an altered sunflower center. Then, the adult birds fly in gracefully, unburdened from the weight of responsibility and fear. The birds form petals around a nest to represent a community gathering place. From this central hub, rays of light will emerge, giving hope to others. Additional elements maybe added, including small meadow of wildflowers in the far corner or birds carrying branches to build the nest, following feedback from stakeholders. The final mural will be painted with acrylic paint on the wall of the North gable in the collection room.

Ana Valentine, *Song of the Dawn*, Design sketch, 4'x24'10", Acrylic paint

Ana Valentine

My purpose in life is to learn a variety of skills and trust they'll all connect.

WORK EXPERIENCE

Wide Open Walls – Sacramento, CA

September 2020-Present

Emerging Muralist

Transformed blank walls into places where people now take self-guided walking tours.

- Responsible for mural design and technically skilled paint application.
- Researched stakeholders' interests and incorporated their needs into design.
- Operated projection tools to trace mural design without distortion.
- Secured proper insurance and followed safety measures to prevent property damage.
- Taught volunteers how to paint murals as part of community engagement initiatives.

Highlights:

1. I was one of two people selected from over 400 applicants to paint a mural at UC Davis Medical Center, in a spot which 10,000 people see daily. I worked with a committee who voted upon the mural designs. At the time of selection, my links to the university weren't known.
2. Created two-story mural for agents of NewMark Merrill INC. in one of their Sacramento shopping centers.
3. Hired by Nugget Market INC. to paint Roseville, CA's largest mural (11.5x93 feet) inside their 10th location. The mural depicts Sacramento's agricultural industry and farmers with dignity.
4. Negotiations in progress with Green Acres Nursery for largest mural in city of Auburn, CA
5. Created mural drafts for the UC Davis Coffee Center. The mural will be installed once \$1 million is raised. The names of 100 donors will be inscribed on the leaves of the artwork.
6. Created drafts of surreal bird garden for the Darling Aviary, an upscale bar overlooking downtown Sacramento's

Golden 1 Center. This project is four blocks from the state capital building and painting begins June 2021.

7. Created custom painting for the private collection of UC Davis Medical Center. The artwork will be placed in radiology department to brighten the lives of patients.
8. Created 40x60 foot ceiling mural inspired by faded flowers inside private residence.

Ana Valentine Art— *Sacramento, CA*

January 2015- Present

Botanical Painter

- Developed an original and clearly recognizable artistic style.
- Found inspiration in other artists through books and community.

UC Davis MIND Institute — *Sacramento, CA*

January 2019-June 2020

Autism Phenome Project Research Study Coordinator

Assisted with data collection for the world's largest and most comprehensive assessment of children with autism.

- Responsible for recruitment, scheduling, and guiding participants through their study visits.
- Created budget reports for project manager, so children in the study can be observed through adulthood.
- Created behavioral plans for successful non-sedation MRI scans of kids with autism.

Central Coast Agriculture— *Nipomo, CA*

April 2008- September 2013

Farmer

- Harvested avocados in orchard.
- Weeded crops of zucchini, snow peas, tomato, and green beans.
- Planted and cared for hundreds of flowers such as roses, dahlias, sunflowers, and daffodils.

EDUCATION

Bachelor of Science– Human Biology – *University of California, Santa Cruz*

Graduation – December 2017

VOLUNTEER EXPERIENCE

UC Davis- Emergency Medicine Research Associate Program

June 2017 - September 2018

- Assisted Clinical Research Coordinators with screening, consenting, and enrolling patients in research studies within the Level 1 Trauma Center of UC Davis Medical Center.
- Adhered to the inclusion and exclusion criteria for over 10 research studies.
- Followed regulations for patient privacy laws.

Suicide Prevention of the Central Coast Crisis Hotline Operator

September 2016-September 2018

- Provided support to individuals experiencing suicidal thoughts.
- Identified dangerous situations and relayed information to emergency services.
