The County of Sacramento is re-circulating the attached contract for signatures because the contract previously signed on February 9, 2021 and May 24, 2021 by Yolo County and Sacramento County, respectively, erroneously indicated a contract effective date of May 24, 2021 (date of last signature).

The effective date on the attached contract, July 1, 2022, reflects the correct date of when services will begin and is consistent with the County of Sacramento Board approved Resolution No. 2021-0218.

Green Waste includes stumps within the above size requirements, and clean, untreated, wood pallets that do not contain Contamination attached or embedded.
- D. "Hazardous Waste" means any material that is (i) defined, regulated or listed as "hazardous," "toxic," a "pollutant," or words of similar import under any Applicable Laws, (ii) "designated waste" as defined in California Water Code Section 13173, (iii) "medical waste" as defined under the California Medical Waste Management Act, or (iv) prohibited from being received or composted at YOLO's facility under its permits or other Applicable Law.

1. CPI. When used herein, "CPI" shall be 100% of the Consumer Price Index – All Urban Consumers, Not Seasonally Adjusted, compiled and published by the United States Department of Labor, Bureau of Labor Statistics.
  2. Base CPI. The Base CPI shall refer to the CPI value for April 2022.
  3. Initial CPI Adjustment. Effective July 1, 2023, each fee shall be adjusted

by an amount equal to 100% of the percentage increase in the CPI value from the Base CPI to the CPI value for April 2023. If the CPI is zero or less than zero, then there would be no adjustment.

4. Subsequent Annual CPI Adjustments. Effective July 1, 2024 and each July 1 thereafter, the previous year's fees shall be adjusted by an amount equal to 100% of the percentage increase in the CPI value from April of the prior year to April of the current year period. If the CPI is zero or less than zero, then there would be no adjustment.

B. The Base Fuel Surcharge shall be adjusted monthly in accordance with the following EIA adjustment.

1. The Base Fuel Surcharge shall be adjusted when the monthly average of the weekly diesel fuel prices exceeds the Base Diesel Price of \$3.15 per gallon. The Base Fuel Surcharge will not be adjusted when the monthly average of weekly diesel fuel prices fall below the Base Diesel Price of \$3.15 per gallon.
2. Beginning on August 1, 2022, and each month thereafter, the Base Fuel Surcharge shall be adjusted, if necessary, in the following month, according to the change in the U.S. Energy Information Administration Index (hereinafter EIA Index) for "Weekly Retail Gasoline and Diesel Prices – California", "Diesel (On-Highway) – All Types". The surcharge adjustment shall be the ratio of the monthly average weekly diesel price to the Base Diesel Price.

Fuel Surcharge Calculation Example:

Base Fuel Surcharge (NARS) = \$2.00/ton

Base Diesel Price = \$3.15/gallon

EIA Index (Monthly Average) August 2022 = \$3.25/gallon

Fuel Surcharge Adjustment =  $3.25/3.15 = 1.032$

Fuel Surcharge September 2022 =  $(\$2.00) \times (1.032) = \$2.06/\text{ton}$
