### **Bid/Proposal Attachment regarding the Darfur Contracting Act of 2008**

Effective January 1, 2009, all Invitations for Bids (IFB) or Requests for Proposals (RFP) for goods or services must address the requirements of the Darfur Contracting Act of 2008 (Act). (Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with "scrutinized" companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a "scrutinized" company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

A scrutinized company may still, however, submit a bid or proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in Public Contract Code section 10477(b). (See # 2 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act's certification requirements of bidders and proposers.

**Therefore, to be eligible to submit a bid or proposal, please complete only one of the following three paragraphs (via initials for Paragraph # 1 or Paragraph # 2, or via initials and certification for Paragraph # 3): YOUR BID OR PROPOSAL WILL BE DISQUALIFIED UNLESS YOUR BID OR PROPOSAL INCLUDES THIS FORM WITH EITHER PARAGRAPH #1 OR #2 INITIALED OR PARAGRAPH #3 INITIALED AND CERTIFIED.**

**7. Top three BOATING safety issues**

This is a Federal Pass-Through 'Recreational Boating Safety Grant'. The purpose of the grant is to promote boating safety and to decrease the number of accidents, injuries, and fatalities on U.S. waters. Clearly identify the top three BOATING safety issues that affect recreational boaters in your jurisdiction and describe how the requested grant will address these issues. Your answer to this question will be referenced throughout this grant application.

On our portion of the Sacramento River the top three boating safety issues that affect our recreational boating public are Boating Under the Influence, Speeding, and Reckless Operation.

Mirroring the National statistics, Boating Under the Influence is the number one cause of fatal boating collisions and plays a majority role in the majority of non-fatal boating collisions on our waterways as well. In the southern half of our Sacramento River jurisdiction there are a number of launch ramps, shoreline eateries, shoreline events and entertainment, and a number of large sandy beaches. Most of the shoreline eateries and event locations offer full-service bars.

Speeding is the number two cause of boating collisions on our waterways. Our northern Sacramento River jurisdictions aquatic terrain is significantly different than our southern Sacramento River jurisdiction. A narrow (in places less than 200') and zigzagging channel creates blind corners and sandbars. This aquatic terrain creates a racetrack like atmosphere that is especially attractive to personal watercraft. When combining speed with the aquatic terrain (zigzagging turns, sandbars, narrow channel) it is a recipe for disaster and results in numerous collisions and injuries each year.

Reckless operation is the third cause of boating collisions and the number one cause of injuries on our waterways. The southern half of our Sacramento River jurisdiction has a wider channel with sweeping curves. This area is dotted with launch ramps, shoreline eateries, shoreline events and entertainment, and a number of large sandy beaches. The easy boat and bather access along with the amenities of this area results in congested waters from shoreline to shoreline. This area sees every recreational water activity from swimming and paddle craft to highspeed multi-engine offshore racing type vessels. When you mix reckless operations, usually personal watercraft and wakeboard vessels, in with the multiple types of recreational water activities and congested water ways it creates a perfect storm and is ripe for collisions and injuries.

9. Project Type

Are you requesting a new Patrol Boat/PWC or Misc. Equipment.?

New Patrol Boat/PWC - see definition below

Equipment / Repairs

**NOTE: A "Patrol Boat" is defined as "A Department approved, registered vessel (with or without trailer and/or outboard motor) purchased for use in boating safety and law enforcement activities." VERIFY THAT YOUR REQUEST IS CORRECTLY CLASSIFIED. Failure to correctly classify may result in disqualification of your grant application.**

*\* All items purchased with funding provided by the Division of Boating and Waterways are for the exclusive use of the Boating Safety and Enforcement Unit.*

**Patrol Boat Instructions**

**PLEASE READ THE FOLLOWING CAREFULLY**

**ENTER INFORMATION IN THIS SECTION ONLY IF YOU SELECTED 'PATROL' AS A PROPOSAL TYPE**

**IF YOU DID NOT SELECT 'PATROL BOAT' AS A PROPOSAL TYPE, CLICK ON THE NEXT TAB TO NAVIGATE TO THE NEXT SECTION**

10. Describe what you are requesting. You may request only FIVE ITEMS TOTAL (patrol boat and equipment). You may group "like items". "Like items" are related items that work together. You need one to work with the other. Examples of "like items" include a 'patrol boat and a trailer' or 'dive masks and dive suits'."

Item	Cost	Quantity	Total	Priority	List specific items that are in the grouped 'like' items
PWC	57,090.00	1.00	57,090	First	(2) PWC, trailer, and emergency/operational equipment
<b>TOTAL</b>			57,090		

- 10 a. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7.

We are requesting funds to replace personal watercraft. PWC are an important assets to our boating safety team. Their maneuverability and speed allow them to navigate the aquatic terrain in the north and the congested waters in the south. Much like a motor cop on land, PWC allow our Deputies to move through congested waters and navigate aquatic terrain with ease, giving our Deputies that ability to interact with greater numbers of the boating public.

Our current PWC are over 13-years old. They have a narrow hull design, which was the standard 13-years ago. This design allows for high-speed maneuverability but at slow speeds these units are unstable. Modern hull designs have increase stability and an added ability to carry cargo. While hauling cargo is not our intent, the flat swim desk area would be extremely useful for rescues. The increased stability, would improve operational capabilities, and provided a stable platform for contacts. These new models offer Intelligent Brake & Reverse and Intelligent Debris Free. IBR provides more intuitive and controlled operation. IBR would improve maneuverability when conducting rescues and enforcement. IDF allows the ability to unclog your watercraft intake without leaving the water. IDF would increase on the water patrol time. The environment we patrol result in debris routinely getting lodged in the intake. In most cases the debris immobilizes the PWC and it has to be towed. To remove the debris, the PWC must be removed from the water. Debris not able to be removed by Deputies results in repair shop costs (\$2500 per visit.)

New PWC would allow us to impact and mitigate all three boating safety issues we identified. Increased stability and IBR would improve maneuverability. IDF would increase on the water patrol time. The overall result would be increased enforcement (Speeding and reckless operation.) Increased enforcement = more contacts, more contacts = more BUIs, more BUIs = less collisions, injuries, and death.

- 10 b. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

Due to the age of our personal watercraft, they will continue to deteriorate, have increased mechanical issues, and repair costs. The loss of our PWC will create an inability to patrol portions of our waterways. Due to the aquatic terrain and congestion of the Sacramento River within our area of responsibility, our larger patrol vessels cannot always access or safely navigate into some areas. Often times these inaccessible areas are those that need special attention as reckless operation and speeding cause numerous injuries and deaths each year. When our PWC are out of service, it impacts our ability to properly patrol and support boating safety missions. Our boating safety and enforcement team utilizes PWC for enforcement and safety inspections, search and rescue operations, and planned water events.

Currently we are operating PWCs that are over 13-years old. Our current units have a narrow slim lined hull design,

**Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION**

which was the standard 13-years ago. This design allows for high-speed maneuverability but at slow speeds these units are extremely unstable. Additionally, the River environment we patrol result in debris routinely getting lodged within our PWC intakes. In most cases the debris immobilizes the PWC and it has to be towed back to the launch ramp. In order to remove the debris, the PWC must be removed from the water to be worked on. A couple times a year the debris is not able to be removed by the Deputies and the unit has to be taken to a repair shop. The average cost for repairs is \$2500 per visit. Our PWC are normally out of service for this purpose two to four times a season. Resulting in an annual debris removal repair cost of up to \$10,000.

**10 c. Classify this request by choosing one of the following options and present a strong justification for the request.**

**Classify this request by choosing one of the following options.**

- "Critical" (operations would cease without it)
- "Increased efficiency" (if it would save staff time, identify how much time)
- "Convenience" (it would make life a little easier)
- "Protection" of existing equipment (ex: shade structure, hoists to get the vessels out of the water, etc. to extend longevity)

**Justify your classification of this request. (max. 300 characters)**

Yolo County has many smaller waterways that are accessible only by personal watercrafts. Our 13-year-old PWCs will be out of service at any minute and we will not be able to support recreational boating safety efforts in congested areas. There are many congested areas of the waterways during peak weekend and holiday periods. During that time, it is crucial for the marine patrol unit to be out in the congested areas of the waterways to conduct search and rescue operations, recover drowned bodies, enforce state and local measures for regulation of boating activities, inspect vessels, and supervise organized water events.

The new technology on the PWC, such as Intelligent Brake & Reverse Intelligent Debris Free, would allow the marine patrol unit to conduct their duties more effectively and would save money on repairs from debris.

The operations to support recreational boating safety efforts in congested areas would not be possible if our 13-year-old PWCs were out of service.

**Percentage of time on the water this vessel will be used for:**

<b>Activity</b>	<b>Percentage</b>
Boating Safety Activities	75.00
Search and Rescue Activities	25.00
Other Activities	
<b>TOTAL</b>	<b>100.00</b>

**List any other activities this vessel will be used for:**

None

**10 d. If you are not awarded your full request, would your agency be able to supplement  Yes  No the difference?**

**If yes, what percentage can you supplement?**

**10 e. How and why did you select this particular vessel? Explain if this is a standard patrol boat or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.**

The personal watercraft market has a number of makes and models available. In analyzing the past use of our current PWC, listening to our Deputies needs and wants, we looked for PWC that would improve the deficiencies

**Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION**

identified by staff and allow us to improve our overall operational capabilities.

The touring and offshore PWC seem to meet the overall operational capabilities we have identified. Sea Doo in particular offers a wide stable hull, the largest swim deck in the industry, are equipped with Intelligent Brake & Reverse (IBR) and Intelligent Debris Free (IDF). The new personal watercrafts would also be outfitted with law enforcement and rescue equipment.

**10 f. Patrol Boat - Informational**

10 i. Upload boat/trailer specifications for review. The Specification Guidelines are in the 'Show Documents' area. You cannot proceed without attaching specs. [34233\\_0\\_387\\_SeaDoo Specifications.pdf](#)

10 j. Estimate the cost of the patrol boat and trailer 57,090

10 k. Attach two quotes. If you cannot provide a quote now, you must provide if you are awarded a grant.

Name	Attachment

10 l. Will this replace an existing boat?  Yes  No

Year, make and CF # of boat being replaced.

CF 5577 XC

CF 5613 XC

10 m. Has the vessel being replaced ever had it's engine or electronics replaced?  Yes  No

If yes, how many times? Explain. (max. 1024 characters)

10 n. Explain why you are not requesting a repower of this vessel. (max. 1024 characters)

The request would be to replace our two outdated personal watercrafts with two PWCs that has a more stable and wider hull and is equipped with Intelligent Brake & Reverse (IBR) and Intelligent Debris Free (IDF). The new features of the new personal watercraft will allow the marine patrol deputy to effectively make contacts with other vessels and complete the duties of the boating and safety enforcement program. The Yolo County Sheriff's Office strongly supports recreational boating safety efforts.
