Date: February 2, 2022

To: All Yolo County Boards and Commissions

From: Dr. Aimee Sisson, Health Officer

Subject: Remote Public Meetings

On September 22, October 20, and November 20, 2021 and January 4, 2022, I issued memoranda recommending remote meetings. The case rate in Yolo County has remained high since the January 4 memorandum and, while it peaked at 241 cases per 100,000 residents per day on January 8, it continues to represent high community transmission. In the context of high community transmission, I recommend meetings be held remotely whenever possible. I am re-issuing the earlier memorandum with updated COVID-19 case rate data.

In light of the ongoing public health emergency related to COVID-19 and the high level of community transmission of the virus that causes COVID-19, the Yolo County Public Health Officer recommends that public bodies continue to meet remotely to the extent possible. Board and Commissions can utilize the provisions of newly enacted AB 361 to maintain remote meetings under the Ralph M. Brown Act and similar laws.

Among other reasons, the grounds for the remote meeting recommendation include:

- The continued threat of COVID-19 to the community. As of February 2, 2022, the case rate is 129 cases per 10,000 residents per day. This case rate is considered “High” under the Centers for Disease Control and Prevention’s (CDC) framework for assessing community COVID-19 transmission; and
- The unique characteristics of public governmental meetings, including the increased mixing associated with bringing together people from across the community, the need to enable those who are immunocompromised or unvaccinated to be able to safely continue to fully participate in public governmental meetings, and the challenges of ensuring compliance with safety requirements and recommendations at such meetings.

Meetings that cannot feasibly be held virtually should be held outdoors when possible, or indoors only in small groups with face coverings, maximal physical distance between participants, use of a portable HEPA filter (unless comparable filtration is provided through facility HVAC systems), and shortened meeting times.
