ATTACHMENT 5 – STATEMENT OF WORK

1. Subrecipient shall perform the deliverables, services, and tasks as specified in the statement of work Below; or Attached - _____ pages. Subrecipient shall obtain written approval from the County prior to any changes to this statement of work.

Description of the Project's Purpose:

The purpose of this project is to assist Yolo Food Bank in the operations of our Eat Home Yolo (EHY) program during a time we have seen the need across our general distributions increase by 15% in the wake of the pandemic. Eat Home Yolo is an essential program that was born out of the pandemic. Additional funding is crucial to keep this essential program running, especially since this was only intended to be a temporary program upon initial conception. We plan to invest these ARP funds into not only sustaining Eat Home Yolo, but revising it to have an even greater impact on our senior population and other homebound residents. This project will sustain and increase current food security in Yolo County by the continued development of an equitable, sustainable local food system to address these issues.

First, we have an extreme need to support staffing costs associated with running this program. Having funding to partially cover personnel and salary costs would aid a great deal in keeping Eat Home Yolo staffed and running, especially during a time when costs have been rising due to inflation.

Although we are fairly well covered on food from donations and recovery operations, there is a great need to purchase specific foods that are more ideal and suitable specifically for our senior population. Currently, our seniors get whatever food we have that our normal constituents also receive. But we have heard feedback that often times much of the food we are able to give out is not ideal for what seniors need not only accessibility wise, but nutritionally as well. \$50,000 for food procurement would allow us to have a level of choice and customization that we would be able to provide to the seniors and homebound populations that we serve.

We also wish to continue to invest in and expand upon our efforts to survey all households across Yolo County. We are currently working with the Institute of Social Research (ISR) at California State University, Sacramento who are experts in surveying and data analysis. They are in the process of helping us with a survey that was born out of our successful Flipping the Food System Initiative from Big Day of Giving, which is focused on general food insecurity data collection from all households across the county. \$60,000 would allow us to expand on these efforts and include an emphasis on understanding the needs of our senior, low income, mobility-restricted, and homebound neighbors throughout Yolo County.

Population being served

- Seniors, mobility-restricted, and homebound neighbors throughout Yolo County
- Households that experience housing or food insecurity
- Households that experienced unemployment
- Low/Moderate income households/communities

Desired Outcomes from the project:

- To sustain and revision how to best serve our Seniors, low-income, mobility-restricted, and homebound neighbors throughout Yolo County

How this outcome is measured:

- Surveys
- Evaluations
- Specific food distribution metrics such as pounds distributed, and number of people served.

Pandemic Impact

Meeting the new and existing, exacerbated food security needs in the wake of the COVID-19 pandemic has dramatically impacted the amount of food required to be recovered, stored, and distributed to the community each month, now totaling as many as one million pounds each month (up from 325,000 pounds per month prior to the pandemic).

Objective of the Program/Company

For over 50 years, Yolo Food Bank has elevated the common good for the people and communities of Yolo County by reducing poverty and elevating food security. Founded as a volunteer-run backyard gleaning program, Yolo Food Bank now is a Feeding America partner serving the nutrition needs of tens of thousands Yolo County residents each month.

Yolo Food Bank coordinates the recovery, collection, and storage of more than ten million pounds of food annually from a network of grocers and retailers, farmers, processors, and distributors. Through collaborations with the private sector, governmental agencies, and nonprofit organizations throughout Yolo County, this food is provided to those who struggle in the community via 130 distributions each month and more than 64 local food pantries, senior meal delivery programs, homeless and domestic violence shelters, migrant centers, college campuses, mental health and recovery facilities and more.
