

Permanent Supportive Housing Support		Yolo County Care Continuum (YCCC)	Amber Salazar
Program Purpose	To improve the general health through increased skill development, decrease hospitalizations and increase housing stability of mentally ill residents at both Homestead and Pacifico housing complexes through consistent daily supports that help identify and solve problems for residents before they escalate.		
Program Information	Homestead is a 21-unit housing cooperative for people living with serious mental illness (SMI), who live independently in the community. Pacifico is a co-op style, low-income apartment complex within which YCCC rents nine beds for adults living with SMI. A Social Services Coordinator will ensure these clients at both complexes are actively supported to meet their daily needs and maintain their supportive housing.		
<b>PM1: How much did we do?</b>			
1.1	<b>Participants Served:</b> # of participants served and demographics of those served (age, gender, race/ethnicity, disability) <b>Goal:</b> 30 participants
