    a. Standard weight, zinc coated on outside by hot dipping or sheradized process, with either zinc coating or other approved corrosion resistant coating on the inside.
    b. Fittings shall be threaded and finished similar to conduit. Threadless fittings shall not be used.
2. Electrical Metallic Tubing (EMT):
    a. Rolled steel, zinc coated outside with either zinc-coating or other approved corrosion resistant coating on the inside.
    b. Couplings shall be steel, rain compression type Appleton TWC-CS Series or equal.
    c. Connectors shall be steel raintight compression type with insulated throat Appleton TW-CSI Series, Series or equal. Steel setscrew connectors may be used instead where such use is approved by code.
    d. Zinc die-cast fittings are not permitted to be used anywhere on this project.
    e. May be used:
        1) Concealed in drywall partitions
        2) Concealed above furred ceilings.
        3) Exposed in Mechanical rooms.
    f. May not be used:
        1) Any location subject to physical damage.
        2) Any other areas not listed under (d) above unless specifically otherwise noted on the plans.
3. Flexible Metal Conduit may be used only for indoor final connections to mechanical equipment (not to exceed 36") and final connections to fluorescent lighting fixtures (not to exceed 72").
    a. Minimum trade size - one-half inch (1/2").
    b. Connectors - T & B "Tite Bite" insulated.

c. Suitable for connection of recessed fixtures, control and mechanical equipment. Not permitted where exposed to weather or other wet or corrosive conditions.

d. Length shall be a practical minimum, but to allow for movement of equipment connected without restricting flexibility of conduit.

4. Liquid Tight Flexible Metal Conduit - Sealtight: May be used only for outdoor final connections to mechanical equipment.

a. Minimum trade size - one-half inch (1/2").

b. Connectors - Appleton STB Series through two inch trade size and ST Series with insulated bushings over two inch trade size. Appleton, Crouse-Hinds or equal may be used.

c. Length shall be practical minimum, but to allow for movement of equipment connected without restricting flexibility of Sealtight.

5. Poly-Vinyl-Chloride Schedule 40

a. Not permitted on this project.

6. Surface Wiremold

a. Shall be used for branch circuits in areas where existing wall or ceiling finishes are not being removed. Surface metal conduits are not acceptable in such cases.

b. Shall be metallic, finished, with matches boxes and accessories as Wiremold #V500 or V700, sized per Code for wire fill.

7. MC Cable

a. Not permitted on this project.

8. AC Cable

a. Not permitted on this project.

9. Type NM, NMC

a. Not permitted on this project.

2.2 BOXES: Boxes shall be of the shape and size best suited for the particular application and shall be supported directly to structural members, framing or blocking by means of screws, anchors, bolts or embedded in masonry.

A. Switch and receptacle box shall be one piece drawn steel boxes or stamped steel boxes. Minimum size shall be four inches (4") square. Boxes shall be fitted with flush device covers, plaster rings, or tile switch rings in masonry. In areas where exposed wiring is permissible, boxes shall befitted with surface type covers.

B. Lighting outlets shall be four inch (4") octagon.

C. Weatherproof boxes shall be Appleton FD Series and fitted with gasketed cast covers.

D. Telephone and television outlet boxes shall be 4-11/16" x 2-1/2" deep minimum, fitted with plaster rings.

E. Boxes for special equipment shall be suitable for the particular equipment.

F. Boxes shall be located and placed according to architectural and structural requirements.

2.3 FLOOR BOXES

A. Boxes shall be single service or multi-service as noted on plans.

B. Boxes shall be provided with all required accessories for a complete and working installation, including trim ring/coverplate.

C. Provide minimum (2) duplex outlets in the box.

D. Provide mounting brackets for communications outlets in multiservice boxes.

E. Boxes shall be suitable for floors in which they are to be installed. Shall be such that covers can be completely closed after both power and data cords have been plugged in.

F. As manufactured by Wiremold, Hubbell, Steel City or approved equal.

2.4 PULL OR JUNCTION BOXES

A. Install where indicated, or as required by Code, pull boxes and junction boxes of sufficient size and capacity to facilitate all wiring. Boxes shall be fabricated of code gauge steel and sized to properly accommodate all conductors entering same.

2.4 SUPPORTS:

A. Furnish all necessary foundations, supports, backing, etc., for all electrical enclosures, conduits and equipment. Attach all boxes, cabinets, etc. to wood with wood or lag screws, to metal with machine screws or bolts and to concrete with expansion anchors and machine screws or bolts.

B. Electrical lighting fixtures weighing 50 lbs. or more shall not be installed using wood screws for supports to the ceiling. Each such fixture shall have pre-stretched galvanized wires or rods anchored to the roof or structural member of the building.

C. All hangers and supports shall be designed and constructed for the intended purpose.

D. Materials shall be as manufactured by Unistrut, Powerstrut, or approved equal.

E. The use of makeshift materials such as wire or plumber's tape will not be permitted.

F. Exposed horizontal runs of feeder raceways shall be mounted on trapeze type hangers, secured to the concrete slab with approved type drilled-in-place inserts.

G. Vertical runs of feeder raceways shall be supported and fastened per Code.

2.5 TERMINAL CABINETS:

A. Terminal cabinets shall be of panelboard type construction and finish.

B. Trim shall be fitted with hinged door and flush latch.

C. Doors shall provide maximum size openings to box interior.

D. Boxes shall be provided with half inch (1/2") backboard having a two coat insulating varnish finish.

E. Top of cabinet shall be 6'-6" above finished floor.

F. Flush terminal cabinet installed adjacent to flush panelboards shall be of the same physical size and trim as the panelboard.

G. Terminal cabinets shall be as manufactured by B-Line, Hoffman or approved equal.

PART 3 - EXECUTION

3.1 INSTALLATION OF RACEWAYS AND FITTINGS

A. Conceal raceways within ceilings, walls, and floors except where exposed raceways are specifically permitted.

B. Where conduit is allowed to be exposed, install the conduit parallel with or at right angles to structural members, walls, and lines of the building.

C. Install where indicated, or as required by Code, pullboxes and junction boxes of sufficient size to facilitate wiring. Boxes shall be sized to properly accommodate all conductors entering same.

D. Do not install conduit or tubing, which has been crushed or deformed.

E. Run conductors of same circuit in same conduit. Run conductors of different voltage systems in separate conduits.

F. Install no conductors until work, which might cause damage to such conductor or the conduit has been completed.

G. Keep all conduits at least six inches away from the covering on hot water or steam pipes.

H. Cap raceway ends during construction. Clean or replace conduits in which water or foreign matter have accumulated, to satisfaction of the Architect.

I. Conduits shall be supported with straps, with galvanized malleable split ring and rod for individual runs or with Kindorf or Unistrut channel supports for multiple runs. Distance between supports shall not exceed 10 feet for rigid threaded galvanized conduits and concealed EMT Conduit and 5 feet for exposed surface mount EMT conduit. Conduits shall be supported independently of one another.

J. Conduits run on roof shall be fastened to an ERICO pipe support set on roof, using galvanized double hole straps and screws. Multiple conduit runs shall be gathered neatly in straight liens and fastened individually to the pipe support. Conduits shall not be run on the roof except where specifically noted on the plans or approved by the Engineer and Architect.

K. Conduits connected to boxes and cabinets shall be fitted with two locknuts and insulated bushing, OA "A" Series.

L. Conduits not connected with locknuts and bushings shall be fitted with grounding bushing, OZ "BL" Series, U. L. approved and bonded.

M. Conduit stubs underground shall be capped with coupling, nipple, coupling and plug.

N. Conduits connected to boxes, cabinets, etc., exposed to weather or in areas subject to excessive moisture shall be fitted with watertight sealing hubs of steel or malleable iron with sealing ring and insulated throat, T & B 370 Series, Efcor 40-50B Series or equal.

O. Install insulate bushings on each end of steel conduit 1-1/4" and larger.

P. Conduit straps for individual runs shall be secured by toggle bolts on hollow masonry, expansion shields and machine bolts on solid concrete or masonry, machine screws or bolts on metal surfaces and wood screws on wood construction. The use of nails to anchor straps on wood construction is prohibited. Straps shall be two hole malleable iron or snap-type steel with ribbed back, galvanized or cadmium plated. The use of perforated strap iron or nail type straps is prohibited.

Q. Placement of all boxes shall be governed by applicable architectural and structural requirements.

R. Conduit fittings: Except where otherwise noted, conduit fittings shall be Appleton. Unilets shall be malleable iron and fitted with covers and gaskets. Zinc diecast conduit fittings are not approved for use on this project.

S. Telephone and signal conduit bends where required shall have a radius of ten times the conduit trade size.

T. Conduit, subject to limitations noted elsewhere in the specifications, may be installed in concrete slab provided prior approval of the Architect is obtained. In such a case, locate

conduit in center of slab, unless otherwise instructed. Such conduit shall have an outside diameter less than one-third the thickness of the slab.

U. Underground conduit bends shall have a minimum radius of twelve times the conduit trade size.

V. Conduits shall be capped during construction.

W. Provide pull wires in empty conduits. Size shall be #12 TW in conduits 1" and smaller and 3/16 polypropolene rope in conduits 1-1/4" and larger.

X. Minimum size underground conduit shall be 3/4".

3.2 INSTALLATION OF SUPPORT SYSTEMS:

A. All conduits and fixtures shall be supported in a firm and secure manner as required by code. Materials shall be secured to the structure by means of suitable clamps and hangers specifically designed for the purpose and using machine screws or bolts on metal or wood screws on wood construction.

B. Rigid steel conduit shall be supported at intervals not greater than 10 ft, electrical metallic tubing at intervals not greater than 5 ft.

C. A support shall be provided not more than 3 ft. from any change in direction. Additional supports to those specified above shall be installed where required to suit job conditions and to provide a secure installation. All hangers and supports shall be the products of one manufacturer, as specified in Part 2 of this Section.

3.3 OUTLET, JUNCTION, AND PULL BOXES:

A. All boxes shall be of sufficient size to contain, without crowding, all wires, connections, and devices which may be required in any particular location. Extra deep boxes shall be provided wherever necessary to meet these requirements.

B. Use outlet boxes as pull boxes wherever possible.

C. Provide raised covers as required to suit the type and thickness of wall finish in each location.

D. When other than outlet boxes are employed, pull boxes and covers shall be galvanized steel, code gauge, sized to accommodate wiring and connections. Locate such junction boxes only in equipment rooms, wire closets, and above accessible ceilings.

E. All junction boxes shall be fully accessible according to code.

END OF SECTION

SECTION 26 24 16 - PANELBOARDS

PART 1 GENERAL

1.1 THIS SECTION INCLUDES

A. Panelboards.

1.2 RELATED SECTIONS

A. Section 26 05 26: Grounding and Bonding System.

B. Section 26 28 00: Low Voltage Circuit Protective Devices.

C. Section 26 24 13: Switchboards

1.3 REFERENCES

A. California Electrical Code 2016 Edition.

B. UL 67. Testing of Short Circuit Duty.

PART 2- PRODUCTS

2.1 PANELBOARDS

A. Panelboards shall be as manufactured by Square D, Eaton, General Electric or Siemens.

B. Bussing Assembly and Temperature Rise: Panelboard bus structure and main lugs or main circuit breaker (as shown on drawing) shall have current ratings as shown on the panelboards schedule. Bus structure shall be insulated. Bus bar connections to the branch circuit breakers shall be the phase sequence type and shall accept bolt on circuit breakers. All current carrying parts of the bus structure shall be plated, copper only. Neutral bus and ground bus shall be plated, copper. Provide isolated ground copper bus where so called out on the plans.

C. Circuit breakers: See Section 26 28 00.

D. Cabinets and Fronts: The panelboard bus assembly shall be enclosed in a steel cabinet as specified in UL Standard 50 for cabinets. Wiring gutter space shall be in accordance with UL Standard 67 for panelboards. The box shall be fabricated from galvanized steel or equivalent rust resistant steel. Each front shall include a door and have a flush, cylinder tumbler-type lock with catch and spring-loaded stainless steel door pull. All panelboards locks shall have be keyed alike. Fronts shall have adjustable indicating trim clamps, which shall be completely concealed when the doors are closed. Doors shall be mounted with completely concealed steel hinges. Fronts shall not be removable with door in the locked position. Column width fronts shall have exposed hinges and be screw cover type. A circuit directory frame and card with a clear plastic covering shall be provided on the inside of the door. Panelboards shall have door-in-door construction.

E. Panelboards shall be provided with proper gutter space, approved barriers and adjustable supports.

F. Multiple pole circuit breakers shall have internal common trip connection. Single pole breakers shall not be tied at handles to form multiple pole breakers. All circuit breakers shall be of the bolt-on type unless otherwise noted.

G. Circuit breakers to be installed within panels to be installed on the roof shall be of the ambient compensated type.

H. Circuit breakers for switching fluorescent lighting and H.I.D. lighting shall be so labeled and rated respectively.

I. Handle "Lock-On" devices shall be furnished for ten percent (10%) of the circuit breakers.

J. Cabinets and switchboard shall be fitted with copper grounding bus, similar to neutral bus, not insulated from enclosure. Bus shall be complete with lugs.

K. Cabinets, doors and trim shall be finished in ASA 61 or standard factory gray enamel.

L. Busses shall extend full length of useable space of distribution sections.

M. Where indicated on the drawings, panelboards shall contain factory-installed bus connected and integrated TVSS with internally self-contained primary 200k AIC fuses. The manufacturer of the panelboard shall be the manufacturer of the TVSS.

PART 3 - EXECUTION

3.1 INSTALLATION OF PANELBOARDS

A. The Contractor shall comply with the following requirements relative to the installation of the panelboards and cabinets under this Section.

B. Cabinets shall be surface or flush mounted, as specified and provided with door and trim, complete with concealed hinges.

C. Cabinet fronts shall be fastened to the cabinets with adjustable trim clamps.

D. Surface mounted cabinets shall be finished to match trim.

E. Semi-recessed panels shall be fitted with a wood or metal escutcheon providing neat return to wall finish, flush with edge of trim.

F. Wall mounted cabinets shall be mounted with top of cabinet 6'-6" above finished floor.

G. Conduits shall enter cabinet through neat hole and perpendicular to entrance face.

H. Panelboard directories shall be typewritten and conform to room description (not plan numbers).

I. Conductors shall be neatly laced with T & B Ty-raps.

J. Nameplates shall be as hereinbefore specified.

K. Recessed cabinets shall be provided with a minimum of (3) 3/4" empty conduits stubbed into accessible space. Drawings may require additional conduits.

END OF SECTION

SECTION 26 27 26 – WIRING DEVICES

PART 1 - GENERAL

1.1 SECTION INCLUDES

A. Wiring Devices

1.2 RELATED SECTIONS

A. Section 26 05 19: Low Voltage Cables

1.3 REFERENCES

A. California Electrical Code 2016 Edition

PART 2 - PRODUCTS

2.1 WIRING DEVICES: Units shall be equal to the devices set forth herein, in standard colors (brown, white, grey, beige, red, or ivory) as selected by the Architect:

A. WIRING DEVICES	LEVITON#	HUBBELL#	P&S#
Single pole switch 15A	1201-2	HBL1201	PS15AC1
Single Pole Switch, 20A	1221-2	HBL1221	PS20AC1
Double Pole Switch 15A	1202-2	HBL1202	PS15AC2
Double Pole Switch 20A	1222-2	HBL1222	PS20AC2
Threeway Switch 15A	1203-2	HBL1203	PS15AC3
Threeway Switch 15A	1223-2	HBL1223	PS20AC3
Duplex conv out 15	5262	HBL5262	5262
Duplex conv out 20A	5362	HBL5362	5362
Isol ground outlet 15A	5262IG	IG5262	IG5262
Isol gorund outlet 20A	5362IG	IG5362	IG5362
Duplex Conv GFI Outlet 15A	6599	GF15	1595L
Duplex Conv GFI Outlet 20A	6899	GF15	2095L

B. All switches on this project shall be rated 15A, U.O.N. on plans.

C. All receptacle outlets on this project shall be 15A, U.O.N. on plans.

D. Single receptacle on an individual 120V, 20A branch circuit shall be rated 20A per CEC 210.21(B)(1).

2.2 DEVICE PLATES

A. All device plates for indoor use shall be smooth nylon or approved equal unless otherwise noted. Color shall match the color selected by Architect in paragraph 2.1 above.

B. All device boxes which are installed in fire rated wall assembly and are provided with a fire-stopping putty pad shall have a brushed stainless steel coverplate in accordance with the requirements of the putty pad.

C. Install multiple gang plates where devices are grouped.

D. Device covers for surface mounted boxes shall be ½" raised steel plates.

E. Device covers for devices located in damp locations shall comply with CEC 406.8(A).

F. Device covers for devices located in wet locations shall comply with CEC 406.8(B).

G. Cover for weather proof outlets and switches shall be as follows:

1. While-in-use coverplates for duplex outlets	-	Legrand #WICUCAST1
2. WP coverplate for duplex outlet, heavy cast aluminum	-	Legrand #4510, 4511, 4512
3. WP, Toggle Switch Cover with actuating lever	-	Legrand #CA1GL
4. WP, Self-Closing Lid over toggle switch	-	Legrand #CA1GL
5. Dust proof stainless steel cover, not weatherproof	-	Legrand #WP1, WP2, WP3, #WP2GL(K.KEY)

PART 3 - EXECUTION

3.1 GENERAL

A. See Section 26 05 00 for Basic Execution methods.

3.2 INSTALLATION OF WIRING DEVICES

A. Boxes for light switches shall be installed at +48" to top of box. In case device falls inside the line of any change in wall finish, lower the device to be wholly within the lower wall finish.

B. Boxes for power and communications devices shall be installed at +16" to top of box unless otherwise noted.

C. Devices on walls above countertops shall be installed 4" above countertop surface or backsplash. Such outlets shall be installed horizontally.

D. Verify exact location of all outlets with architectural plans, cabinetry, equipment connections, etc, prior to rough-in.

E. Grounding type receptacles shall be installed with the grounding pin up above the hot and neutral pins.

F. Outlets installed outdoors shall be provided with coverplates noted in Paragraph 2.2 above.

G. Outlets installed outdoors, in bathrooms, rooftops and in Kitchen shall be GFI type, except outlets in Kitchen which are dedicated to specific appliances.

END OF SECTION

SECTION 26 28 00 – LOW VOLTAGE CIRCUIT PROTECTIVE DEVICES

PART 1 GENERAL

1.1 THIS SECTION INCLUDES

A. Enclosed Switches/Disconnects.

B. Circuit Breakers.

1.2 RELATED SECTIONS

A. Section 26 05 00: Common Work Results for Electrical

B. Section 26 05 26: Grounding and Bonding System

C. Section 26 24 16: Panel Boards

D. Section 26 24 13: Switchboards

1.3 REFERENCES

A. California Electrical Code 2016 Edition

PART 2 PRODUCTS

2.1 DISCONNECT SWITCHES:

A. Heavy duty, Eaton, Square D, Siemens or General Electric to match manufacturer of the new Panelboards.

B. Disconnect switches for motor loads shall be horsepower rated.

C. Disconnect switches installed outdoors or in wet or damp locations shall be weatherproof type and shall comply with NEMA standards for the service conditions.

D. Disconnect switches shall be fused, rating as required for the service conditions and as required by Code. Fuse rating shall match the highest nameplate rating of the equipment served.

E. Disconnect switches shall be located within sight of the load served as required by Code.

2.2 FUSES:

A. Fuses shall be current limiting Buss fuses as manufactured by Bussman Manufacturing Division, McGraw-Edison Co., Class L or T or equal.

B. Furnish fuses for all fused switches as required.

2.3 CIRCUIT BREAKERS:

A. Circuit breakers shall be molded case, equipped with arc quenchers, and shall be of the indicating type, providing "On," "Off," and middle "Tripped" positions of the operating handle. Circuit breakers shall be front-connected and shall be removable without disturbing adjacent units or without removing the main bus of the circuit branch connectors. Circuit breakers shall be of the quick-make, quick-break type on manual operation, trip-free with inverse time characteristics secured by the use of bimetallic tripping elements supplemented by a magnetic trip. All circuit breakers serving multi-wire circuits where two or more poles are required shall have all poles automatically and simultaneously

disconnected. Single-pole breakers with handle ties will not be acceptable.

B. Circuit breakers shall be of the same manufacture as the panelboards and switchboards.

C. Feeder circuit breakers interrupting capacity shall be coordinated with main circuit breaker rating for the available short circuit current at each switchboard.

D. Circuit breakers in panelboards shall be bolt-on type as noted, full size, with a minimum interrupting rating of 10,000 amps symmetrical.

E. The use of tandem or half-size breaker is not permitted.

F. Circuit breaker feeding power to Fire Alarm Control Panel and Booster Power Supplies shall be red handles, with lock-on device.

PART 3 EXECUTION

3.1 INSTALLATION DISCONNECT SWITCHES:

A. Provide disconnect switches where shown on the Drawings or where required by code even if not shown on the Drawings. Locate all disconnects as required by code, ensuring full access and working clearances.

B. Outlets shall not be mounted on disconnects.

C. Disconnects shall not be used as through raceways.

D. Provide enclosure, NEMA 1 or NEMA 3R depending on location, for standalone circuit breaker.

END OF SECTION

SECTION 26 50 00 – EXTERIOR LIGHTING

PART 1 GENERAL

1.1 SECTION INCLUDES

A. Lighting outdoors.

1.2 RELATED SECTION

A. Section 26 27 26: Wiring Devices

1.3 REFERENCES

A. California Electrical Code 2016 Edition.

B. California Energy Code 2016

C. California Building Code 2016

D. I. E. S. Lighting Standards, 10th Edition.

PART 2 PRODUCTS

2.1 LIGHTING FIXTURES

A. Units shall be as designated in the Lighting fixture schedule on the drawings. All fixtures shall bear the Underwriters' Laboratories label. All fluorescent fixtures shall be equipped with CBM-ETL certified ballasts provided with internally mounted automatic reset thermal protector and silver plated sockets. All LED fixtures shall be equipped with LED lamp modules, LED drivers.

B. All pole-mount fixtures shall be LED type with integral motion sensors and dimming type LED drivers, all in compliance with California Energy Code.

C. Fixtures mounted against combustible material shall be approved for such installation.

D. All equipment or materials for any one system shall be furnished by the same manufacturer. Items such as lamps, conduits fittings, and wiring devices shall be the same throughout the job.

E. Fixtures shall be complete with lamps, all fitting, accessories, and supports necessary for a complete and operable installation.

F. Verify finish color of all fixtures with Architect prior to ordering.

2.2 LIGHTING CONTROLS

A. Photo cell and motion sensor shall comply with California Energy Code Section 130.2 (c).

B. Time Clock shall be Intermatic, 7 day programmable, Astronomic 2 channel, with field replaceable industrial grade batteries as ET 8000 series or equal.

C. Lighting contactors shall be as manufactured by Square D Co. Type “SMG”, electrically held, with number of poles per plans. Provide housing as noted on plans.

PART 3 EXECUTION

3.1 GENERAL

A. See Section 26 05 00 for Basic Execution methods.

3.2 INSTALLATION OF LIGHTING FIXTURES

A. For building mount fixtures, verify with Architect mounting heights of all light fixtures.

B. For polemount fixtures, provide concrete base with steel reinforcement as shown on the plans. Determine exact location of pole in coordination with Landscape and Civil plans.

C. Install lighting fixtures in accordance with code requirements.

D. Provide all supports for lighting fixtures in accordance with code requirements for installation in seismic zone in which the Facility is located.

E. Lamp all new fixtures with lamps of the designed rating and pattern as noted on the plans. Lamps utilized in excess of 12 hours shall be replaced with new lamps immediately before project acceptance by the owner.

F. Set all controls as noted on plans and directed by owner in field.

3.3 CLEANING:

A. On completion of the work, al fixtures and lenses shall be left clean. Any minor damage or scratches shall be touched up to the satisfaction of the Architect.

END OF SECTION

SECTION 26 51 00 - INTERIOR LIGHTING

PART 1 GENERAL

1.1 SECTION INCLUDES

A. Lighting indoor.

1.2 RELATED SECTIONS

A. Section 26 27 26: Wiring Devices

1.3 REFERENCES

A. California Electrical Code 2016 Edition.

B. California Energy Code 2016 Edition.

C. I. E. S. Lighting Standards, 10th Edition.

PART 2 - PRODUCTS

2.1 LIGHTING FIXTURES

A. Units shall be as designated in the Lighting fixture schedule on the drawings. All fixtures shall bear the Underwriters' Laboratories label. All fixtures shall be equipped with LED drivers. Such drivers shall have 0-10V dimming capability where so called out. Additionally:

B. Fixtures mounted against combustible material shall be approved for such installation.

C. Recessed fixtures installed in fire rated ceilings shall have housing approved by the State Fire Marshal. Provide separate fire rated enclosure in accordance with local jurisdiction requirements when such housing is not available. Recessed fixtures shall be supported to satisfy earthquake requirements.

D. All fixtures shall be wired with Type AF or equal fixture wire. Joints shall be made up as specified under "Conductors".

E. All equipment or materials for any one system shall be furnished by the same manufacturer. Items such as lamps, conduits fittings, and writing devices shall be the same throughout the job.

F. Fixtures shall be complete with all fitting, accessories, and supports necessary for a complete and operable installation.

G. Fixtures shall be equal in design, quality, utility, material and workmanship to those specified and shall have been tested and approved by all necessary authorities and agencies before being submitted for approval.

2.2 LED DRIVERS:

A. LED drivers shall be 0-10V dimming type.

B. Lamp modules shall have a CRI of minimum 82.

2.3 LAMPS:

A. Lamps shall be long life LEDs with lumen maintenance of 90% at 60,000 hours (L90/60,000) for 4ft fixtures and 70% at 50,000 hours for recessed down lights.

B. Lamp color shall be as noted on the plans.

2.4 FOUR FOOT FIXTURE LENSES:

A. Manufacturers: Carolite, KSH, or Plaskolite.

B. Domestic origin, 100% virgin acrylic, high molecular weight

C. Pattern as specified under fixture description

D. Crowned to prevent sag

E. 1/8’ normal thickness

2.5 OCCUPANCY MOTION SENSOR LIGHTING CONTROL SYSTEM:

A. General requirements:

1. Provide a complete and fully operational occupancy motion sensor lighting control system for interior lighting as specified herein and shown on the drawings.

2. The complete system, including all devices shall be in compliance with the 2013 California Energy Code.

3. The complete system shall be comprised of single or dual technology low voltage sensors, power packs and slave packs as required. Provide line voltage sensors where so indicated. Sensor technology shall be suitable for application as recommended by the manufacturer of the sensor.

4. All equipment and items of control shall be installed and wired in accordance with manufacturer’s requirements. Particular attention shall be given to placement of sensors to provide maximum coverage and minimize false “ON’s” and “OFFs”. To this respect, coordinate ceiling sensor placement with HVAC duct registers to keep sensors a minimum of six feet from the registers. Provide additional sensors to those shown in rooms on drawings where deemed necessary to obtain adequate coverage according to the manufacturer.

5. Provide insulated ground wire to each line voltage sensor.

6. Provide ceiling mount occupancy sensors where so shown on plans. Such sensors shall be line voltage or low voltage. Provide power pack for each low voltage sensor or group of sensors. Sensor coverage shall be suitable for area to be covered. Locate power packs in accessible space or as noted on plans. Provide multiple sensors where coverage pattern so requires.

7. Provide wall occupancy sensor light switches where so shown on plans. Such occupancy sensors switches shall be single level automatic “ON”/automatic “OFF” or multi-level. As shown on plans. Sensors shall comply with Sections 119(d) and (e) of the Energy Code. Multi-level sensor shall be automatic on, activating 30-70 percent of lighting power in the room and capable of manually activating the remaining 100 percent of the lighting power and deactivating all lights.

8. The system shall automatically switch off all lights when controlled space becomes unoccupied and switch on lights when the space is re-occupied. All sensors shall be provided with user adjustable time delay (15 sec. to 20 minutes) for “switch-off” function and adjustable sensitivity. Sensors shall be U.L. listed and approved by the California Energy Commission.

9. The system shall be as manufactured by Sensor switch, nlight or approved equal.

B. Scope of function:

1. Automatically switch off lighting when controlled space becomes unoccupied. Switch on lights when the space is re-occupied. All sensors shall be provide with user adjustable

time delay for “switch-off” function and adjustable sensitivity. Sensors shall be UL listed and approved by the California Energy Commission.

2. Provide additional wall light switches to switch off the lights when the space is occupied and it is required to switch off the lights in the controlled spaces.

C. Equipment: The following equipment as manufactured by nlight and Sensor switch is specified to determine quality and standard of product to be installed on this project. All substitute products shall have equal performance capability and quality.

1. Automatic Dimming Control Photocell – nlight # NCMADCXRJB
2. Ceiling mount Occupancy Sensor – nlight # NCMPDT9RJB
3. On/Off/Raise/Lower 2 channel Wall Control – nlight #NPODM2PDXWH
4. On/Off/Raise/Lower Single channel Wall Control – nlight #NPODMDXWH
5. Low Voltage Wall Switch Occupancy Sensor – nlight nWSXPDTLVWH
6. Line Voltage Wall Senor Switch, Dual Tech – Sensor switch # WSXPDTWH
7. Line Voltage Wall Senor Switch, infrared – Sensor switch #WSXWH
8. Low Voltage Ceiling Mount Occupancy Sensor – Sensor switch # CM9
9. Plug load Control Power Pack – nlight #nPP20PL

D. Shop Drawings: Provide shop submittals in accordance with Section 26 05 00, Paragraph 2.5. Provide layout of all sensor placements in all rooms of all the buildings where such systems are shown. Plans shall be of the same scale as the project electrical plans and shall be design by CAD program. Hand drawn locations are not acceptable. Provide these plans for review by Engineer at the same time as the equipment submittal.

E. Low Voltage Wiring: Low voltage wiring is required to be in conduit.

F. Spares: Provide three each spare of each type of device to the owner.

2.6 LINE VOLTAGE RELAY BASED AUTOMATIC LIGHTING SHUT-OFF CONTROL SYSTEM

A. GENERAL REQUIREMENTS:

1. An automatic line voltage shut off control system shall be provided for the interior lighting of the areas shown on the plans in compliance with the 2010 California Energy Code.

   An automatic time switch control device shall be installed to comply with Section 131(d)1. This device shall be part of a comprehensive intelligent lighting controller, complete with timers, keypad, relays, power supply, etc.

   An override line voltage switching device shall be provided to comply with Section 131(d)2.

   An automatic line voltage shutoff switch shall be provided to comply with Section 131(d)1.

   The light switches for individual rooms and spaces shall serve as:

   a) On/Off switches for the lights.

   b) Override switch to comply with Section 131(d)2 of the energy code.

   c) Automatic shutoff switch to comply with Section 131(d)1 of the energy code.

2. All lights shall be switched on and off using line voltage automatic shut-off on/off switches unless otherwise shown. They shall additionally be switched off automatically through the automatic shut-off control panel.

3. The system shall be as manufactured by LC&D or approved equal. Control panel shall be type LC&D type Blue Box.

4. The line voltage switches shall be automatic shut-off type Legrand #AS-100. Any substitute requires prior approval of the Engineer. Low voltage switches are not approved.

5. The entire lighting control system shall be wired and programmed to meet the above mentioned requirements.

6. The control panel shall be surface or recessed mounted as shown on the plans.

7. All exit signs shall be unswitched and not pass through the automatic shut off control panel.

8. All emergency light fixtures with integral battery shall be switched as shown and shall come on in emergency power-off mode upon power failure. To this effect provide an unswitched power wire to each such fixture from the same circuit as that feeding the light fixture.

9. Controller shall be set to provide a sweep off for all interior lights controlled, except night lights. Such a sweep shall be repeated at an interval not exceeding two hours for the entire period the building is not normally occupied. Verify with the Owners as to the times the space is normally occupied.

10. Provide a “blink” warning to an impending light shutoff sweep.

11. Provide submittals for review and approval by the Engineer. Submittals shall be comprehensive, specific to this project with detailed Bill of Material, equipment brochures, relay schedules, riser diagram, etc. See Section 26 05 00.

12. Provide three sets of complete installation and operational instructions to the Owner or his representative. Provide on-site factory startup, checkout and training by factory representative. On site training shall be a minimum of four hours of training on how to operate and program the system and on how to modify timing schedules.

13. Warranty: Provide the standard one-year parts and labor warranty required for this entire project.

PART 3 - EXECUTION

3.1 GENERAL

A. See Section 26 05 00 for Basic Execution methods.

3.2 INSTALLATION OF LIGHTING FIXTURES

A. Fixtures shall be free from any undesirable hum, vibration and/or other noises. Fixtures that are installed and are found unsatisfactory in the opinion of the Architect shall be removed and replaced at the Contractor's expense.

B. Fixtures shall be installed in true lines and all continuous row fixtures shall be installed as recommended by the fixture manufacturer.

C. Install lighting fixtures in accordance with code requirements.

D. Refer to reflected ceiling plan on Architectural Drawings for the exact location of ceiling grid and lighting fixtures. Do not scale electrical drawings.

E. All suspended fixtures shall be braced seismically to prevent swinging of fixture where such fixture will hit any obstruction if permitted to swing up 45 degrees from the vertical in any direction. Bracing shall be of a type and nature as approved by the AHJ.

F. Provide all hanger and supports for lighting fixtures in accordance with code requirements for installation in earthquake Zone 4.

G. Program all interior lighting automatic shut-off controls in compliance with Code and as instructed by Owner.

H. Lamp all new fixtures with lamps of the designed rating and pattern as noted on the plans. Lamps utilized in excess of 170 hours shall be replaced with new lamps immediately before project acceptance by the owner.

3.3 CLEANING:

A. On completion of the work, al fixtures and lenses shall be left clean. Any minor damage or scratches shall be touched up to the satisfaction of the Architect.

END OF SECTION

SECTION 26 52 00 – EMERGENCY LIGHTING

PART 1 GENERAL

1.1 SECTION INCLUDES

A. Emergency Lighting indoors and outdoors.

1.2 RELATED SECTIONS

A. Section 26 27 26: Wiring Devices

B. Section 26 51 00: Interior Light Fixtures.

C. Section 26 50 00: Exterior Light Fixtures.

1.3 REFERENCES

A. California Electrical Code 2016 Edition

B. I. E. S. Lighting Standards, 10th Edition.

PART 2 PRODUCTS

2.1 LIGHTING FIXTURES WITH INTEGRAL EMERGENCY BATTERIES:

A. See Section 26 51 00 for description of light fixtures.

B. Integral emergency battery shall have sufficient rating and capacity to provide emergency illumination for a period as defined in CEC Article 700.

C. Emergency battery backup shall be as manufactured by Bodine, Iota or approved equal.

2.2 UNIT EQUIPMENT:

A. Unit Equipment shall comply with CEC Section 700.12 (F).

2.3 REMOTE LIGHT FIXTURES:

A. Remote light fixtures shall be powered from an emergency battery located in a “parent” light fixture or in a Central Inverter.

B. It shall be as specified on the plans and have a voltage rating equal to that produced by the “parent” emergency battery or the Central Inverter.

2.4 EMERGENCY LIGHTING CENTRAL INVERTER/POWER SUPPLY (IPS):

A. Provide a central, battery packed emergency Inverter/Power supply labeled “INV” on plans, for emergency egress lighting as specified here in and where shown on plans.

B. Unit shall be as manufactured by Myers Power Products, Type “illuminator CM” or approved equal, with a capa

C. Battery shall be sealed lead calcium with a battery protection circuit breaker.

D. Provide both input and output circuit breakers.

E. Provide enclosures for both the electronics and the battery.

PART 3 EXECUTION

3.1 GENERAL

A. See Section 26 05 00 for Basic Execution Methods

B. See Section 26 51 00

3.2 INSTALLATION

A. Install emergency light fixtures per CBC Section 1006.

B. Wire and install Unit Equipment per CEC Section 700-12(F).

C. For switched light fixtures with integral battery, which also serve as emergency egress lighting, an unswitched hot wire shall be provided to each such fixtures in addition to the switched wire. This hot wire shall be from the same circuit that is feeding to the switched wire.

D. Unit shall be so connected that the lights powered by the unit shall come on automatically upon power failure to these lights, irrespective of whether the lights are “on” or “off”. These lights are also required to be used as general lights switched “on” and “off” from a wall switch.

E. Unit shall be so connected that the lights powered by the unit shall come on automatically upon power failure to these lights, irrespective of weather the lights are “on” or “off. These lights are also required to be used as general lights switched “on” and “off” from all wall switch.

END OF SECTION

SECTION 26 53 00 – EXIT SIGNS

PART 1 GENERAL

1.1 SECTION INCLUDES

A. Exit Signs.

1.2 RELATED SECTIONS

A. Section 26 51 00: Interior Lighting

1.3 REFERENCES

A. California Electrical Code 2016 Edition

PART 2 PRODUCTS

2.1 EXIT SIGNS

A. Units shall be as designated in the Lighting fixture schedule on the drawings. All fixtures shall bear the Underwriters' Laboratories label.

B. Units shall have internal emergency backup battery with integral charger where so called out on the plans. Battery shall be sized minimum per Code.

C. Exit sign units which are required to power remote light units shall have their batteries sized for the additional remote light fixture wattages.

D. Fixtures shall be complete with all fitting, accessories, and supports necessary for a complete and operable installation.

E. EXIT fixtures shall be unswitched.

F. Exit signs shall comply with and be installed per CBC Section 1011.

2.3 LAMPS:

A. Shall be L.E.D.

PART 3 EXECUTION

3.1 INSTALLATION OF EXIT SIGNS

A. Install signs in accordance with code requirements. Electrical Contractor shall re-verify placement of all exit signs as to ensure that they are clearly visible from any direction of approach within the path of exit travel to and within exits inside the Building. This verification shall be carried out at rough in stage. They shall be located as necessary to clearly indicate the direction of egress travel. No point in the exit path shall be more than 100 ft. from the nearest visible sign. All in accordance with CBC Section 1011.1. Relocate and/or add exit signs as necessary to achieve this. Provide pendants to mount signs as necessary to achieve this.

B. Refer to reflected ceiling plan on Architectural Drawings for the exact location of ceiling grid and exit signs. Do not scale electrical drawings.

C. All suspended units shall be braced seismically to prevent swinging of sign where such sign will hit any obstruction if permitted to swing up 45 degrees from the vertical in any direction. Bracing shall be of a type and nature as approved by the AHJ.

D. Provides all hanger and supports for exit signs in accordance with code requirements for installation in earthquake Zone 4.

E. Exit signs shall be equal in design, quality, utility, material and workmanship to those specified and shall have been tested and approved by all necessary authorities and agencies before being submitted for approval.

3.2 CLEANING:

A. On completion of the work, all signs shall be left clean. Any minor damage or scratches shall be touched up to the satisfaction of the Architect.

END OF SECTION

SECTION 27 10 00

STRUCTURED CABLING SYSTEM

PART 1 – GENERAL

1.01 DESCRIPTION OF WORK

A. The extent of telephone/data system, Structured Cabling System (SCS) work is indicated and is hereby defined to include, but not be limited to cable, cable supports, raceway, connectors, racks, cabinets, panels, wire management, device plates, patch cords, backboard, grounding, firestop and miscellaneous items required for a complete, tested and operational system.

B. Provide, install and test the complete cable and outlet system as indicated and described herein. Work includes procurement, project management, installation, labeling, termination, testing and cleanup of all cables installed under this project.

C. Provide system testing, as-builts (redlines) of installed cables and numbering plan, Operations & Maintenance Manuals (O&M's), and processing of warranty registration with Manufacturer.

D. Project coordination with General Contractor, Owner, Owners Representative, and other trades before, during and upon completion of project as necessary for a well-executed project.

E. Horizontal cable and its connecting hardware provide the means of transporting signals between the telecommunications outlet/connector and the horizontal cross-connect located in the communications equipment room. This cabling and its connecting hardware are called "permanent link," a term that is used in the testing protocols.

F. Horizontal copper cabling system consists of four twisted pairs of solid annealed copper. Each four-pair cable is terminated onto 8 position 8 conductor ("RJ45", or 8P8C) outlet connectors ("Jacks") using Insulation Displacement Conductors (IDCs). Color-coded connectors are placed into NEMA rated faceplates at the work area and placed into corresponding rack-mounted patch panels in the equipment / networking rooms. The jacks use state-of-the-art techniques to effectively eliminate Alien Crosstalk.

G. Bridged taps and/or splices will not be installed in the horizontal cabling.

H. Communications cables shall be rated CMR (riser) or CMP (plenum). CMP cable ratings are required for cables passing through or contained within plenum air handling spaces, such as above drop ceilings and return or supply air shafts. The contractor is responsible for installing the correct cable type in the appropriate environment, and any failures to do so according to the Owner or the Authority Having Jurisdiction (AHJ) will result in the contractor removing the unsuitable cable and installing the correct cable, at their own expense.

I. The maximum allowable horizontal cable length installed in the permanent link (jack to jack) is 295 feet (90 m). This maximum allowable length does not include an allowance for patch cords, maximum length of 16 feet (5 m) to the workstation equipment and of 16 feet (5 m) in the horizontal cross-connect.

1.02 DIVISION OF RESPONSIBILITY

A. Owner:
   1. All Local Area Network (LAN) hub equipment
   2. All active electronics required at the telecom room.
   3. Server Room Cabinets

B. Contractor:
   1. As indicated on plans and specifications.
   2. Testing

1.03 SUBMITTALS AND SUBSTITUTIONS

A. ACCEPTABLE MANUFACTURER SOLUTIONS:
   1. Panduit

2. General Cable
3. Owner Pre-approved equal

B. Owner has standardized on a unified, end-to-end copper and optical fiber cabling system design based on Panduit jacks, patch panels, patch cords, (Panduit / General) fiber cords, (Panduit / General) fiber connectors, trunk cables, (Panduit / General) fiber enclosures and modules, as well as General Cable field-terminable copper and (Panduit / General) fiber cables. The Owner is satisfied that the products specified herein are qualified for the purpose intended, and has performed due diligence in establishing a consistent set of standards based on performance and feature set.

C. Prior to ordering any material, provide a complete submittal, in electronic format to include copies of brochure information on all products for installation on this project. All product data and specification sheets shall be organized in the same manner as the products portion of the specifications. If more than one product is listed on the same page of the brochure or specification sheet submitted, the intended product or part number shall be clearly indicated or highlighted by the Contractor

D. Contractor shall submit along with the materials submittal all Proposed Test Procedures and a sample of the printout or test result form as well as a list of all Test Equipment to be used for cable testing. Within two (2) weeks of completion of testing all cabling systems, Contractor shall submit an electronic copy of the test results as directed in the Testing portion of the Specifications.

E. Products which are proposed in the bid response which are of an alternative solution are to be prequalified as “equal or better” by the Designer and Owner, in writing, prior to bid acceptance. If substitutions are allowed, they are at the discretion of the Owner and based on performance, suitability, quality, administrational requirements, warranty and other factors deemed important to the Owner. Written acceptance of substitutions from Owner must be included in bid package to avoid disqualification of bid.

F. Submit manufacturer’s data and installation details for all devices, plates, cable, terminal blocks, patch cords, racks, wire management, labels and similar equipment which are not in accordance with Owner standards.

G. Submit a copy of 3rd party testing and certification documents which prove they meet or exceed the requirements as set forth in this document, for any product or system not specified herein or proposed as an “equal” substitute for Owner-approved products. All products must have independent test data published prior to bid.

H. Any substitutions must be approved by Designer, Owner and/or Owner’s Representative in writing prior to acceptance of bid.

I. Company Certification: The Proposer must be certified by the manufacturer of the submitted system. If different manufacturers will be used there must be a company certification for each, and its use to be approved and authorized by County Telecommunications Staff. The Proposer must provide evidence of this certification as part of the submittal process.

1.04 REFERENCE STANDARDS

A. Strictly adhere to all Building Industry Consulting Service International (BICSI), and Telecommunications Industry Association (TIA) recommended installation, best practices, codes, and standards when installing The Structured Cabling System.

B. Material and work specified herein shall comply with the applicable requirements from the following Codes and Standards.
1. AAAC-B – Detail Specification for 850-nm Laser-Optimized, 50-um Core Diameter/125-um Cladding Diameter Class 1a Graded-Index Multimode Optical Fibers
2. ANSI/TIA-492.AAAD – Detail Specification for 850-nm Laser- Optimized, 50-μm Core Diameter/125-μm Cladding Diameter Class la Graded-Index Multimode Optical Fibers Suitable for Manufacturing OM4 Cabled Optical Fiber
3. ANSI/TIA-492.CAAB – Detail Specification for Class IVa Dispersion-Unshifted Single-Mode Optical Fibers with Low Water Peak. Current Edition

4. ANSI/TIA-568.0-D – Generic Communications Cabling for Customer Premises
5. ANSI/TIA-568.1-D – Commercial Building Communications Cabling Standard
6. ANSI/TIA-568-C.2-1 – Balanced Twisted-Pair Telecommunications Cabling and Components Standards
7. ANSI/TIA-568.3-D – Optical Fiber Cabling and Components Standard
8. ANSI/TIA-569-D – Telecommunications Pathways and Spaces
9. ANSI/TIA-606-B.1 – Administration Standard for the Commercial Telecommunications Infrastructure.
10. ANSI/TIA-607-C – Generic Telecommunications Bonding and Grounding (Earthing) for Customer Premises
11. ANSI/TIA-862-B – Structured Cabling Infrastructure Standard for Intelligent Building Systems
12. ANSI/TIA-942-A – Telecommunications Infrastructure Standard for Data Centers
13. NFPA 70 – National Electrical Code (NEC).
14. BICSI – TDMM, Building Industries Consulting Services International, Telecommunications Distribution Methods Manual (TDMM)

C Fire stopping shall be in accordance with ASTM E 814, ASTM E 136, and UL 1479 as well as Section 300-21 of the National Electric Code.

D Other applicable standards. ANSI C2-2010 National Electric Safety Code. UL 497 Electrical Grounding and Bonding Equipment.
1. IEEE 802.3 Carrier Sense Multiple Access with Collision Detection.
2. FCC Rules and Regulations, Part 68.
3. Basic, Uniform, and Standard Building Codes (BOCA, ICBO, SSBC).
4. REA Cable Designations - PE Series Specifications
5. NFPA 101 - Life Safety Code

E Conditions: Materials and equipment provided must be new products of manufacturers regularly engaged in the production of such products.

F UL Listing: Products must be UL listed where a UL test procedure is applicable.

G Communications system materials and equipment shall be FCC Type-accepted and certified as such by supplier.

1.05 ADMINISTRATION REQUIRMENTS

A. The Electrical Code referred to in these specifications is the National Electrical Code as currently adopted by the State of California. All work will be provided in strict compliance with the Electrical Code and all regulations that may apply.

B. Where standards exist, for a category, products used on this project will be listed by an OSHA approved Nationally Recognized Testing Laboratory (NRTL), and be approved or listed for the intended service and application.

C. These specifications do not undertake to repeat the requirements of codes, regulations or NRTL listing or labeling instructions. The Specifications or Drawings may require items or work beyond the requirements of applicable codes or regulations. The stricter, higher quality, greater quantity or higher cost will be allowed, and accommodations must be approved by Owner/Designer prior to procurement or installation. It is incumbent on the Installer, material and equipment suppliers to meet these specifications, applicable codes, regulations, and NRTL listing agency restrictions.

D. The word "Manufacturer" will include the Manufacturer, the Manufacturer’s Representative, the Distributor, the Fabricator, and the Supplier of the particular classification of equipment, system, product, and material.

E. All work, equipment, and systems will be manufactured, provided, repaired, installed, and tested in accordance with the latest edition and all current amendments of the applicable publications and standards of the organizations listed below as of the date of the Contract Documents.

When the Specification requirements exceed the requirements of these publications and standards the Specifications will govern:

1. State Building Code (SBC)
2. Building Department Inspectional Services
3. American Society for Testing and Materials (ASTM)
4. Underwriter's Laboratories, Inc. (UL)
5. Insulated Cable Engineers Association (ICEA)
6. National Electrical Manufacturers Association (NEMA)
7. Institute of Electrical and Electronics Engineers, Inc. (IEEE)
8. American National Standards Institute, Inc. (ANSI)
9. National Fire Protection Association (NFPA)
10. Local Electric Code
11. Department of Public Safety (DPS)
12. Building Officials and Code Administrators International, Inc. (BOCA)
13. Department of Labor USA. Safety and Health Regulations for Construction (OSHA)
14. Energy Codes
15. National Electrical Contractors Association (NECA)
16. National Bureau of Standards (NBS)
17. Federal Communications Commission (FCC)
18. Utilities Serving Project.
19. Fire Department.
20. Americans with Disabilities Act Applications Guidelines (ADAAG).
21. Accessibility Guidelines for Buildings and Facilities.
22. Any and all Federal, State and Local Standards, Codes and Authorities having Jurisdiction (AHJ).
23. Buy America Act (BAA), 41 U.S.C. § 8301-8305

F. In addition, all phases of the Structured Cabling System installation will adhere to applicable Local Area Network (LAN) Specifications of the IEEE, Electronics Industry Association/Telecommunications Industry Association (TIA/EIA), and Building Industry Consulting Service International (BICSI). The entire system and all components will be Nationally Recognized Testing Laboratory (NRTL) certified to appropriate TIA/EIA performance rating Category, Latest ANSI/TIA/EIA Standards 455-A, 492, 568, 569-A, 570, 606, 607 and 758 (latest revisions), and ANSI/TIA TSB 67, TSB 72, TSB 75, TSB 95 plus other standards as applicable.

G. The above requirements will not in any way limit responsibility or requirements to comply with all other codes, standards and laws.

H. Material, equipment, enclosures, and systems will be designed for use as required to suit the conditions, exterior or interior operation, dust tight, water tight, explosion-proof, or other special types.

I. All materials shall be purchased from Distributors authorized by system Manufacturers to sell new and unused components.

1.06 QUALIFICATIONS

A. The Structured Cabling System (SCS) required for this project shall be the following: The Contractor must have current Panduit Partner ONE Certified Installer Certificate and be qualified to offer a Panduit Certification PLUS 25-year A PanGen system performance warranty.

B. A PanGen™ System Warranty shall provide a complete system warranty to guarantee end-to-end high-performance cabling systems that meet application requirements. The guarantee shall include cable and connectivity components and have one point of contact for all cabling system issues. The system shall be warranted for a period of at least 25 years.

C. In order for the structured cabling system or additional links to be eligible for warranty coverage, an installation company trained and certified by PANDUIT ® and General Cable must install

them. The contractor shall have completed standards based product and installation training. A copy of the PCI Certificate or PanGen Installer Certificate shall be submitted in the proposal.

D. All PANDUIT ® Pan-Net ® non-consumable products have a 20-year guarantee. When installed per TIA or ISO/IEC standards, the Cabling System will operate the application(s) for which the system was designed to support.

E. In order to qualify for the guarantee, the structured cabling system must be installed per the following:
   1. Meet all TIA/EIA commercial building wiring standards.
   2. PANDUIT ® categorized product must be used in conjunction with an equivalent or higher Category UL or ETL verified cable.
   3. PANDUIT ® Products must be installed per PANDUIT ® instruction sheets.
   4. Categorized copper product shall be used in conjunction with General Cable of equivalent or higher Category cable as verified by ETL, UL or PANDUIT ® engineering

F. The company must have a minimum of three (3) years' experience in low voltage installations for voice, data, and fiber optic cabling systems.

G. The Panduit Partner ONE Certified Installer Certificate must be in place 45 days prior to bid. All personnel performing work on this project must have gone through the Panduit Partner ONE Certified Installer Certificate training program as required by Panduit prior to performance of work.

H. Warranty: All repair, including labor and material, shall be made at no cost to the owner during the warranty period. All warranties shall be provided in writing to Owner prior to acceptance of the cabling system.
   1. The contractor shall be fully conversant and capable in the cabling of low voltage applications such as, but not limited to data and voice systems. The Contractor shall at a minimum possess the following qualifications:
      Provide references of the type of installation provide in this specification.
   2. Personnel trained in the installation of pathways and support for housing horizontal and backbone cabling.
   3. Personnel knowledgeable in local, state, province and national codes, and regulations. All work shall comply with the latest revision of the codes or regulations. When conflict exists between local or national codes or regulations, the most stringent codes or regulations shall be followed.
   4. Be in the Low Voltage or Telecommunications Installation business for a minimum of three (3) years. If project is in California, contractor must possess a current California C7 or C10 license. Projects in other states must be supported by the appropriate minimum level contractor's license required for the work involved.
   5. Maintain a certified RCDD on staff and utilize manufacturer trained, or BICSI certified Installers for this project.
   6. Contractor must be less than 100 miles from project location.

I. Be an approved Member in good standing of the Certified Installer network associated with the products listed in this Specification and authorized for use in this Project. Contractor must be a member of this installer program before, during, and through completion of the system installation. Supporting documentation will be required as part of the submittal.

J. Product manufacturer and cabling solution hardware are specified for performance, applications requirements, and warranty purposes. Contractor may provide an, "or equal cabling solution" if the contractor is an authorized installer certified to provide full manufacturer warranties.

K. All structured cabling products shall be installed according to any applicable instructions.

L. All networks and other applications shall be installed per applicable standards and manufacturers' guidelines and transmitted over the appropriate minimum Category copper cable or fiber cable for which it was intended to operate on

M. All applicable local, state, national, and federal electrical and fire safety standards shall be adhered to during and after installation.

1.07 WARRANTY

A. Panduit Certification PLUS 25-year system performance warranty covering all components (cable, jacks, panels, patch cords, equipment, workmanship, etc.) shall be provided to the Owner, submitted in writing with system documentation. The warranty period shall begin on the system's first use by the owner.
   1. Horizontal channels shall be completed with Panduit/General factory-terminated copper and/or fiber optic patch cords in order to be eligible for the applicable Warranty with channel performance guarantees.
   2. Approved product shall be listed on the most recent version of the applicable Manufacturer's data sheets for each listed solution.
   3. The Contractor must pre-register the project with the Manufacturer before installation has begun. Following project completion, contractor is responsible for completing all warranty registration procedures on behalf of the Owner.
   4. Should the cabling system fail to perform its expected operation within this warranty period due to inferior or faulty material and/or workmanship, the contractor shall promptly make all required corrections without cost to the owner.

B. Certified Installer shall provide labor, materials, and documentation in accordance with Manufacturer requirements necessary to ensure that the Owner will be furnished with the maximum available Manufacturer's Warranty in force at the time of this project.

C. The installed structured cabling system shall provide a warranty guaranteeing the specified performance in the installed channel performance above the ANSI/TIA-568 requirements for Augmented Category 6 (CAT 6A) cabling systems or ISO 11801 requirements for Class E and Class EA, respectively.
   1. Standards-compliant channel or permanent link performance tests shall be performed in the field with a Manufacturer-approved certification tester in the appropriate channel or permanent link test configuration.

D. Necessary documentation for warranty registration shall be provided to the manufacturer by the installer (within 10 days) following 100 percent testing of cables.
   1. Installation Contractor shall submit test results to Manufacturer in the certification tester's original software files.
   2. Installation Contractor shall ensure that the warranty registration is properly submitted, with all required documentation within 10 days of project completion.
   3. Certified Contractor/Integrator must adhere to the terms and conditions of the respective manufacturer's warranty programs.

E. Manufacturer shall ensure that the Owner receives the project warranty certificate within 60 calendar days of warranty registration.

1.08 DELIVERY, STORAGE, AND HANDLING

A. Deliver all materials in manufacturer's standard protective packaging.

B. Do not remove protective packaging until ready for installation.

C. Follow manufacturer's instructions for storage & handling.

D. Protection: Contractor shall take all necessary precautions to protect materials from the following:
   1. Theft
   2. Vandalism/Tampering
   3. Dents
   4. Scratches
   5. Dust
   6. Temperature
   7. Weather
   8. Cutting
   9. Paint
   10. Other Hazardous Conditions

E. Replacement: Contractor shall replace any damaged or lost material as required by Owner or Consultant.

F. Installed Materials: Installed materials remain the responsibility of the Contractor until Acceptance. Contractor shall take necessary precautions to ensure the safety and security of installed materials.

1.09 CONTRACT DRAWINGS AND SPECIFICATIONS

A. The intent of the drawings and specifications is to establish the type of system and functions, but not to set forth each item essential to the functioning of the system. The drawings are generally diagrammatic and show approximate location and extent of work. In case of doubt of work intended, it is the responsibility of the Contractor to request instructions from the Engineer or Owner prior to bid. The Contractor shall be responsible for installing a complete functioning system.

B. Contractor shall review all drawings and specifications before starting the work. Where discrepancies occur, Contractor shall immediately notify Engineer for clarification.

PART 2 – PRODUCTS

2.01 GENERAL

A. Quality of Products: Material and equipment specified herein have been selected as the basis of acceptable quality and performance and have been coordinated to function as components of the specified system. Where a material, device, piece of equipment or system is specified directly, the current manufacturer's specification for the same shall be a part of these specifications, as if completely contained herein in every detail. Each material, device or piece of equipment provided hereunder shall comply with all the manufacturer's published specifications for that item.

B. Quantity: Provide quantity as shown on Contract Drawings, or as otherwise defined herein.

C. Preference: Where more than one manufacturer is listed herein as acceptable or equivalent, preference is intended and implied by the order of listing.

D. Substitutions: Comply with provisions of Division 01. Burden of proof of equivalence is on the Contractor.

E. Provide Complete: Provide all auxiliary and incidental materials and equipment necessary for the operation and protection of the Work of this Section as if specified in full herein.

F. Provide New: All materials provided under the Work of this Section shall be new, shall be the manufacturer's latest design/model, and shall be permanently labeled with the manufacturer's name, model number and serial number.

G. Similar: Similar devices shall be of the same manufacturer, unless specifically noted otherwise in these specifications.

H. Safety Agency Listing: All devices provided under the Work of this Section which are connected to the Project electrical system shall be listed by Underwriters Laboratories (UL), and shall be so labeled.

2.02 TELECOMMUNICATIONS HORIZONTAL CABLING SYSTEM

A. Category cable (data cable)
   1. Category 6a (cat6a) unshielded twisted-pair (UTP) cable
      a. 100-Ohm, 23 AWG, Category 6A 4-pair balanced unshielded twisted pair solid annealed copper
      b. Cable shall be characterized to 750 MHz and UL/ETL Listed by the Manufacturer printed on the cable jacket and package, as well as Intertek (ETL) Verified to TIA-568 Category 6A and ISO/IEC 11801 Class EA requirements for channel, link and component performance to support IEEE 10GBASE-T (802.3an) networks
      c. Maximum Cable Outer Diameter: 0.250”.

d. Documentation available from an independent third-party testing agency that verifies through random sampling that cable components perform at or above the levels contained on their product specifications, not simply at or above the standard.
e. Guaranteed cable balance improves overall performance and reduces emissions which results in error-free performance up to 10 Gigabit Ethernet with full duplex transmission
f. The unshielded twisted pair conductors are surrounded by a non-conductive aluminum/polyester tape and jacketed with flame-retardant polymer alloy to reduce alien crosstalk, reduce cable diameter and improve performance.
g. Provided on spools or reels-in-box to reduce risk of kinking cable upon deployment
h. Cable shall be Plenum-rated (CMP) for any location where plenum cable is required.
i. Category 6A cables shall have the following cable jacket (Yellow) for all outlets.
j. Be made by an ISO 9001 and 14001 Certified Manufacturer.
k. Guaranteed to meet or exceed Channel margin guarantees as stated above under System Performance

Approved Products:
1) Panduit: Yellow, PUP6AS04YL-G (Cat.6A/ Plenum/ Yellow/ solid model/ .250 O.D.)
2) Panduit: Yellow, PUR6AM04YL-CG Cat.6A/ Riser rated/ Yellow/ Matrix Model/ .285 O.D.)

B. Category-Rated Data Connectors (Rj45 Insert Jacks)
1. CATEGORY 6A Mini-Com® TX6A™ 10Gig™ UTP Jack Modules shall be Category 6A performance featuring Split Foil MaTriX Technology. These Category 6A (CAT6A) connectors shall be individual snap-in style, and exceed compliance with TIA/EIA-568-C.2 specifications. The connectors shall comply with the following:
a. The eight position modules shall terminate unshielded twisted 4 pair, 22 - 26 AWG, 100-ohm cable.
b. Comply with FCC Part 68; UL listed and CSA Certified. Verified to exceed all channel performance requirements in TIA-568-B.2-10 from 1 MHz to 500MHz to support the IEEE 802.an standard for 10 Gigabit Ethernet over UTP Cable.
c. Jack module shall use Enhanced Giga-TX™ Technology with forward motion termination to optimize performance by maintaining cable pair geometry and eliminating conductor untwist.
d. The Mini-Com® TX6A™ Jack Modules include Split Foil MaTriX Technology on the external portion of the jack module, which assists in suppressing alien crosstalk. Connector shall have Pair Separation Towers on IDC to facilitate quick, easy terminations without a complete untwist of each pair of conductors.
e. The jack modules shall be universal in design, including complying with the intermateability standard IEC 60603-7 for backward compatibility.
f. The connector shall provide a ledge directly adjacent to the 110-style termination against which the wires can be directly terminated and cut in one action by the installation craftsperson.
g. Connector wiring label shall provide installation color codes for T568B wiring schemes on separate labels.
h. The Mini-Com® TX6A™ 10Gig™ Jack Module must be installed as part of a complete Copper Cabling System in order to achieve 10GBASE-T certified performance.
i. All Category 6A jack modules shall be UL and CSA approved and RoHS compliant.
1) CJ6X88TG**.
2) Where ** = one of 12 colors. See drawings or check with Owner for application.(OR)=Orange,

j. The RJ11 type modules shall be available in six position/three pair USOC coded version and in 11 standard colors. They shall snap into all Mini-Com ® outlets and patch panels. The module shall include a white base to signify Category 3.
   1) CJ66U**
   2) Where ** = one of 12 colors. See drawings or check with Owner for application.

2. Additional Copper Cabling Connectors

a. Additional Mini-Com® Modules for copper shall include the following:
   1) 50 and 75 Ohm BNC coax coupler modules, male-male
   2) F-Type coax coupler module, male-male threaded
   3) The connectors shall snap into all Mini-Com® outlets and patch panels.

a)	Part Number	Style	Medium	Termination Style	
b)	CMFBA**	F-Type	Copper	Coupler	5
c)	CMFSR**	F-Type	Copper	Coupler	5
d)	CMB**	Blank	-	-	5

C. Faceplates, Frames and Inserts

1. Faceplates (wall plates) secure information outlets to the work area. Contractor shall provide and install single gang faceplate kits to house all jacks as required for all work area outlets, workstation base feeds, and furniture openings. Unused telecom backboxes shall receive a solid blank faceplate.
2. CLASSIC SERIES WITH LABEL AND LABEL COVER Frames shall be vertical, single and double gang frames with combination head screws, screw covers, labels, and a curved designer appearance.
3. The faceplates shall mount onto standard U.S. NEMA boxes and adapters with screw-to-screw dimensions of 3.28" (83.3mm).
4. Each faceplate frame shall accept flat, sloped, sloped shuttered, sloped recessed and blank 1/2 and 1/3 size module inserts that can be individually inserted and removed as required from the front of the frame without removing the frame.
5. Telecommunications faceplates shall:
   b. Utilize a (“QuickPort”) footprint to match the approved connectivity manufacturer, and be made by the same manufacturer as the connectors.
   c. Precisely match colors and materials of the power wiring device plates.
   d. Support any connectivity media type, including fiber, AV and copper applications.
   e. Have write-on or printable designation labels for circuit identification together with a clear plastic cover.
   f. Be available in single-gang and double-gang configurations.
   g. Have surface-mount boxes and standoff rings available for both single and double gang faceplates.
   h. Have single-port blank inserts to match faceplate color, available in packs of 10.
   i. Color shall match nearby electrical devices exactly. Off-color ivories or whites will not be accepted.
   j. Furniture faceplates shall fit existing knockouts for telecom receptacles, and snap in without screw mounts.
   k. Decora® inserts shall hold from 1 to 6 jacks per device plate.
      1) Classic Series: CFP1**
      2) Classic Series: CFP2**
      3) Classic Series: CFP4**
      4) Where ** = one of 12 colors. See drawings or check with Owner for application.

         (IW)=Off White, (AW)=Artic White, (EI)=Electric Ivory, (YL)=Yellow, (OR)=Orange, (BU)=Blue, (VL)=Violet, (WH)=White, (RD)=Dark Red, (GR)=Green, (IG)=International Grey, (BL)=Black

D. Surface-Mount Blocks (SMB)

1. Surface-Mount Blocks (SMBs) are used to protect terminated CAT6A cables at the endpoints where they are not contained within walls or furniture. Example locations may be

Wireless Access Points (WAPs), Group Work Areas fed by conduits run down columns, security cameras, or other network-enabled device locations.

2. Ceiling, WAP, Camera and other non-wallmount locations will use a 2-port plastic SMB.
3. Small Surface-Mount Boxes shall exhibit the following characteristics:
   a. Outlet housings for WAPs and other devices shall be a high-density, low profile design with (1) to (12) field-configurable ports, snap-lock cover, and cable knockouts on back.
   b. Housing cover shall have raceway knockouts for top and bottom entry. Base shall include Tie-wrap anchor points at all cable entrances.
   c. The housing shall be mountable with screws, tape or a single magnet.
   d. The cover shall provide the option of securing it to the base with a screw that is hidden under the outlet identification window.
   e. Shall be constructed of high-impact self-extinguishing plastic rated UL 94V-0, and be UL Listed and compliant with FCC Part 68 and TIA-568 specifications.
   f. 1- and 2-port housings are suitable for installation in air-handling spaces (plenum)

      Approved Products:
      1) CBX1**-A (1 port)
      2) CBX2**-AY (2 port)
      3) CBXJ2**-A (2 port, low profile)
      4) Where ** = one of 12 colors. See drawings or check with Owner for application.

      (IW)=Off White, (AW)=Artic White, (EI)=Electric Ivory, (YL)=Yellow, (OR)=Orange, (BU)=Blue, (VL)=Violet, (WH)=White, (RD)=Dark Red, (GR)=Green, (IG)=International Grey, (BL)=Black

E. Modular Furniture Faceplates
   1. Modular Furniture Faceplates shall be four-port flat or angled and two port angled faceplates that snap directly into TIA/EIA standard furniture openings.
   2. The two port, angled faceplate shall provide a 45° slope to the side, in-line with the cable running through the furniture channel. If required, an extender shall be used with the four-port flat faceplate to provide 12.7mm (0.5”) additional depth.
   3. Each faceplate shall accept Mini-Com modules that can be individually inserted and removed as required.
      a. UICFFP4** (snaps into standard knockouts)
      b. CFFP4** (flat with (4) modules)
      c. CFFPA2** (slopped with (2) modules)
      d. CFFPL4** (flat with label (4) modules)
      e. CFFPLA4** (slopped with label (4) modules)
      f. Where ** = one of 12 colors. See drawings or check with Owner for application.

         (IW)=Off White, (AW)=Artic White, (EI)=Electric Ivory, (YL)=Yellow, (OR)=Orange, (BU)=Blue, (VL)=Violet, (WH)=White, (RD)=Dark Red, (GR)=Green, (IG)=International Grey, (BL)=Black

F. Modular Patch Panels
   1. Telecommunications Room Patch Panels shall be manufactured with empty ports, which allow for the insertion of appropriately-graded and colored jacks.
      a. Available in either 24- or 48-port 2RU versions.
      b. Independently tested and verified by Intertek (ETL) to meet or exceed all TIA component, permanent link, and channel requirements of TIA-568 for Cat 6A, FCC part 68, and IEC 60603-7.
      c. An appropriate cable management bar shall be included with standard density flat panels.
      d. Shall be sized to fit a TIA standard, 19-inch relay rack and hole pattern.
      e. There shall be pre-printed numbers above each port for easy identification and white write on areas for port and/or panel identification on the 24 and 48 port version.

f. The panel shall have vertical and horizontal cord organizers available as to improve patch cord management.
g. Verify angled or flat panel use per design documentation or verification with Owner's Representative.
1) Approved Products:
2) Mini-Com Flush Mount Modular Angled Patch Panel, 24 Port, CPPA24FMWBLY
3) Mini-Com Flush Mount Modular Angled Patch Panel, 48 Port, CPPA48FMWBLY

G. Copper Patch Cords
1. Category 6a patch cords
a. TX6A™ 10Gig™ Patch Cords shall be constructed with Category 6A 23 / 26-AWG stranded cable featuring MaTriX Technology. Patch Cords shall be factory terminated with modular plugs featuring a one-piece, tangle-free latch design and black strain-relief boots to support easy moves, adds and changes. TX6A™ 10Gig™ Patch Cords have incorporated MaTriX Technology and a barrier tape into the patch cable design to help suppress alien crosstalk and improve internal electrical performance. Patch cords shall be wired to be compatible with both T568A wiring schemes.
b. The patch cords shall be ETL verified ANSI/TIA-568-C.2Category 6A and IEC/ISO 11801Class EA channel performance. Each patch cord shall be 100% performance tested at the factory in a channel test to the ANSI/TIA-568-C.2 and IEC/ISO standards. The TX6A™ 10Gig™ Patch Cords must be installed as part of a complete TX6A™ 10Gig™ UTP Copper Cabling System in order to achieve 10GBASE-T certified performance.
c. Patch Cords shall be Contractor furnished/Owner Installed (CFOI)
1) Part numbers:
2) UTP6ASD5**
3) UTP6ASD10**
4) Where ** = one of 10 colors. See drawings or check with Owner for application. (YL)=Yellow,
d. Provide Category 6A data patch cords, Panduit or approved equal for 50% of all data connections.
e. Provide 10', Panduit UTP6ASD*** yellow for workstation use and 5' lengths, Panduit UTP6ASD***yellow for closet use.

2.03 GROUNDING AND BONDING

A. Wall-Mount Busbars
B. Telecommunications Main Grounding Busbar (TMGB)
1. Telecommunications Main Grounding Busbar (TMGB) shall be constructed of .25" (6.4 mm) thick solid copper bar.
2. Telecommunications Main Grounding Busbar (TMGB) shall be constructed of .25" (6.4 mm) thick solid copper bar.
3. The busbar shall be 4" (100 mm) high and 20" (510 mm) long and shall have 30 attachment points (two rows of 15 each) for two-hole grounding lugs.
4. The hole pattern for attaching grounding lugs shall meet the requirements of ANSI-J-STD – 607-A and shall accept 27 lugs with 5/8" (15.8 mm) hole centers and 3 lugs with 1" (25.4) mm) hole centers.
5. The busbar shall include wall-mount stand-off brackets, assembly screws and insulators creating a 4" (100 mm) standoff from the wall.
6. The busbar shall be UL Listed as grounding and bonding equipment.
7. Design Make shall be:
8. Chatsworth Products, Inc. (CPI),
9. Telecommunications Main Grounding Busbar:
10. Part Number 40153-020, 20" x 4" (510 mm x 100 mm) Telecommunications Main Grounding Busbar, UL Listed.

C. Telecommunications Grounding Busbar (TGB)

1. Telecommunications Grounding Busbar (TGB) shall be constructed of .25" (6.4 mm) thick solid copper bar.
2. The busbar shall be 2" (50 mm) high and 12" (300 mm) long and shall have 9 attachment points (one row) for two-hole grounding lugs.
3. The hole pattern for attaching grounding lugs shall meet the requirements of ANSI-J-STD – 607-A and shall accept 6 lugs with 5/8" (15.8 mm) hole centers and 3 lugs with 1" (25.4 mm) hole centers.
4. The busbar shall include wall-mount stand-off brackets, assembly screws and insulators creating a 4" (100 mm) standoff from the wall.
5. The busbar shall be UL Listed as grounding and bonding equipment.
6. Design Make shall be:
7. Chatsworth Products, Inc. (CPI),
8. Telecommunications Grounding Busbar:
9. Part Number 13622-012, 12" x 2" (300 mm x 50 mm) Telecommunications Grounding Busbar, UL Listed.

D. Grounding Conductors
   a. Bare stranded copper ground conductors shall be provided and installed by the Contractor as shown on the project drawings to provide a grounding system consistent with the 2016 National Electric Code as well as TIA 607B.
   b. Ground conductors shall be minimum 6 AWG between MDF/IDF Closets, and the Building Service Ground point and minimum 6 AWG green jacketed cable between hardware components located within the MDF/IDF closets.

2.04 BACKBONE CABLING SYSTEMS

A. Interbuilding Backbone Copper Cable
   1. Conductors-Solid, annealed copper, 24 AWG.
   2. Insulation-Solid, high density polyethylene, color coded in accordance with telephone industry standards.
   3. Twisted Pairs-Insulated conductors are twisted into pairs with varying lay lengths to minimize crosstalk.
   4. Core Assembly-25 pairs & less: pairs are assembling together in a single group. More than 25 pairs are arranged in groups or binders, each binder having a color-coded unit binder.
   5. Filling Compound-The entire core assembly is filled with ETPR compound, filling the interstices between the pairs and under the core tape.
   6. Core Wrap Non-hygroscopic dielectric tape applied longitudinally with an overlap.
   7. Aluminum Sheath-Corrugated, copolymer coated, 0.0008" aluminum tape applied longitudinally with an overlap. The sheath interfaces are flooded with an adhesive water blocking compound.
   8. Jacket-Black, low density polyethylene.
      1) Other multiples of 25 acceptable (50, 100, 200, 300pr as required or applicable)
   9. Acceptable Manufacturer: General Cable

B. Intrabuilding Riser Cable
   1. Multi pair riser twisted pair Cable Conductors category 5e.
      a. Conductors-Solid, annealed copper, 24 AWG.
      b. Twisted Pairs-Insulated conductors are twisted into pairs with varying lay lengths to minimize crosstalk.
      c. Core Assembly-25 pairs & less: pairs are assembled together in a single group. More than 25 pairs are arranged in groups or binders, each binder having a color-coded unit binder.
      d. Core Wrap-Non-hygroscopic dielectric tape applied longitudinally with an overlap.
      e. Category 25-pair 5e cable shall have a GRAY cable jacket.

         Acceptable Manufacturers:
         1) General Cable: Blue Jacket CMR (non-plenum), 2133694E

2) General Cable: Gray Jacket CMR (non-plenum), 2133269E
3) General Cable: White Jacket CMP (plenum), 2131550E
4) Riser rated, CMR rated jacket.
5) Plenum rated, CMP rated jacket.

C. Horizontal 25 Pair Telephone Interconnect Cables
1. Category 3 25 Pair Voice Cable
a. Conductors-24 AWG solid bare annealed copper.
b. Sequential footage markers located on the jacket.
2. Compliances:
a. ISO/IEC 11801
b. ANSI/TIA 568-B.2
c. UL Listed Type MPP/CMP, MPR/CMR
3. Category 3 25-pair cable shall have a WHITE cable jacket
Acceptable Manufacturers:
1) General Cable: White Jacket CMP (plenum), 2131505
2) Plenum rated, CMP rated jacket.
b. Other multiples of 25 acceptable (50, 100, 200, 300pr as required or applicable)

D. Wall-Mount Termination Fields:
1. Wall-mounted 110-style termination frames with legs
a. 110 Style termination/wiring blocks for cross connecting between voice station and riser cables shall be provided and installed as shown on the project plans.
b. 110 blocks shall be wall-mountable and manufactured with standoff legs to allow cables to pass behind. All required connecting blocks (4-pair and 5-pair), and labeling strips shall be included.
c. Connecting Blocks shall be Category 6 for all voice station cable installed.
d. Connecting Blocks shall be C-4 for all station cable installed.
e. Connecting Blocks shall be C-5 for all riser cable installed.
f. Acceptable Manufacturers: Cross-connects and wall terminations blocks will be: Panduit

1)	GPB24-X	Standard Density Base	24 port	Rack/Frame
2)	GPB72-X	Standard Density Base	72 port	Rack/Frame
3)	GPBW72-X	Standard Density Base	72 port	With Legs
4)	GPB144-X	High Density Base	144 pair	Rack/Frame
5)	GPB432-X	High Density Base	432 pair	Rack/Frame
6)	GPBW144-X	High Density Base	144 pair	With Legs
7)	GPBW432-X	High Density Base	432 pair	With Legs
8)	GPCB4-X	High Density Connector	4	

E. Communication Entrance Protection:
1. Wall-mount 5-pin circuit protector blocks:
a. Provide multi-pair tails or 110-style input/output terminations per application.
b. Provide 5-pin, solid state surge arresters for each position on circuit protection panel C4B1S Series, or approved equivalent.
c. Circa use: 1880ENA1-25G, 1880ENA1-50G and 1880ENA1-100G, or approved equivalent.
d. Porta Systems, or approved equivalent
e. Systimax 710-SLC-25 filled modules, or approved equivalent.
2. Fiber Optic:
a. Provide as close as practicable (within 50-feet) of where OSP cable enters building in a duct or conduit system. Size splice cases(s) to accommodate strand count of the cable(s) entering building. Splice case must be capable of bonding to the Telecommunications Main Grounding Bus Bar (TMGB). Complete with end caps to

properly seal cable from expanding water blocking gel. Approved manufacturers: Preformed, Corning, and 3M.

3. Miscellaneous Hardware:
   a. Provide supporting hardware, cable ties, labels, underground vault racking, bullet bonds, gel blocking kits, mule tape, and other miscellaneous hardware for a complete and operable system.

F. Fiber Optic Cable
   1. SINGLEMODE Optical Fiber Cable
      a. Optical fiber cables run shall be low-water-peak Singlemode (OS2), and meet all the requirements delineated within the specifications of ANSI/TIA-568 and ANSI/TIA-492.AAAC-B.
      b. Armored fiber optic cables will utilize an interlocking armor outer cover around an integrated tight-buffer (indoor only) or Loose-Tube (indoor/outdoor) cable construction. Plenum armored fiber may be run in open ceilings without conduit or innerduct.
      c. Indoor fiber optic cable shall be minimum 12 strands, typically 24 strands, tight buffered, and individual fiber strands shall be 900 micron jacketed.
      d. Outdoor or indoor/outdoor fiber optic cable used for building-to-building interconnections shall be minimum 24 strands, loose tube construction with 250-micron unjacketed fiber strands in a 12-strand buffer tube.
      e. Cables are typically OFNR rated for in-conduit applications, but must always be constructed of materials and rated appropriate for the environment in which it is installed (Indoor, Indoor/Outdoor, Outside Plant (OSP), OFNP or OFNR, OFCP or OFCR). In-slab conduits are considered a “wet environment” and require OSP or Indoor/Outdoor rating. Cables running at least a portion of the length through an open-air plenum or air handling space must be OFNP or OFCP (plenum) rated. Contractor is solely responsible for installation of the correctly-rated cable in the appropriate environment, as required by the AHJ or local ordinance
      f. Loose tube fibers shall utilize a fan-out kit to fit 250-micron fibers into a 900-micron protective sheath when terminating. Loose Tube cables are generally expected for outdoor environments.
      g. See plans and scope of work for total strand count between locations.

         Approved Products:
         1) Fiber Optic Pigtail: F9TSR17NNSNM001
         2) 12-Strand – APO121PNR
         3) 12-Strand – APO121PNU
         4) Grounding Kit
         5) Or other strand counts as specified

G. MUTLIMODE Optical Fiber Cable
   1. Multimode fiber optical fiber cables shall meet all of the requirements delineated within the specifications of ANSI/TIA-568 and ANSI/TIA-492.CAAB (OM4). Must be a minimum of 12 strands, of Laser-Optimized 50 micron Armored optical fiber. Cable jacketing must be appropriate for the environment in which it is installed (Indoor, Indoor/Outdoor, Outside Plant, OFNP or OFNR).
   2. Fiber optic cables will utilize an interlocking armor outer cover around an integrated Tight-Buffered (indoor only) cable construction and fiber strands with a 900-micron protective sheath.
   3. See plans and scope of work for total strand count between locations.

      Approved Products:
      1) Fiber Optic Pigtail: FZTSR17NNSNM001
      2) Furnish 12-fiber, 24” fan-out Kit: FO6CB and/or FO12CB
      3) 12-Strand – BLO121PNU

4) 12-Strand – BLO121PNR
5) Grounding Kit
6) Or other strand counts as specified

H. Outside Plant Fiber Optic Cable
1. Multimode Fiber cable will be 50/125 micron (Suggest 12 strand)
2. Singlemode Fiber cable will be 8.3/125 micron (Suggest 12 strand)
3. OSP fiber shall be loose tube, all dielectric, armored outdoor cable.
4. Riser cable shall be tight buffered all dielectric, Indoor/Outdoor cable.
5. The multimode fiber cable must comply with the following minimum transmission parameters of 40Gbe and 100Gbe.
6. Outdoor design shall offers water blocking for aerial and duct applications for standards compliance and flexibility for outdoor use.
7. Bend radius: Dynamic: 20 x Cable O.D.; Static: 10 x Cable O.D
   a. Acceptable Manufacturers of fiber cable are Panduit:
      1) General Cable, OSP Loose Tube Single Jacket 12 Strand Multimode OM4 Fiber cable, Part number: BL0124M1A-DWB
      2) General Cable, OSP Loose Tube Armored 12 Strand Multimode OM4 Fiber cable, Part number: BL0124M1F-DWB
      3) General Cable, OSP Loose Tube Single Jacket 12 Strand Multimode OM4 Fiber cable, Part number: BL0124M1A-DWB
      4) General Cable, OSP Loose Tube Single Jacket 12 Strand Multimode OS2 Fiber cable, Part number: AQ0124M1A-DWB
      5) Furnish 12-fiber, 24” fan-out Kit: FO6CB and/or FO12CB
      6) Grounding Kit
      7) ** = total number of strand count

I. Rack-Mount Fiber Optic Enclosures, Panels and Trays
1. All Fiber enclosures shall provide cross connect, inter connect, and splicing capabilities and contain cable management for supporting and routing the fiber cables/jumpers.
2. Fiber Adapter panel openings shall accept Fiber Adapter Plates (bulkheads).
3. 2RU and 4RU enclosures shall hold up to 3, 6 or 12 adapter plates
4. All Fiber enclosures, panels and trays (units) shall provide cross-connect, inter-connect, and splicing capabilities and contain cable management for supporting and routing the fiber cables/jumpers.
5. Fiber enclosures shall exhibit the following characteristics:
   a. Fiber enclosure shall be available in 2RU or 4RU versions to accommodate fiber adapter plates, MTP Modules, and/or termination and splicing of fiber as needed
   b. Enclosures shall have a sliding tray which can be removed completely from enclosure (from front or rear) to facilitate field terminations and splicing. Sliding tray glides forward and backward providing accessibility to front and rear bulkhead after installation.
   c. 17" depth for high density fiber termination and/or splicing.
   d. Removable transparent hinged doors and slide away covers allow easy access during install and visibility of interior after installation.
   e. Patch cord bend radius guides minimize macro bending.
   f. Stackable and adjustable fiber rings simplify cable routing and organization
   g. Fiber Jumper saddles pivot for improved patch cord routing and organization
   h. Removable rubber grommets protect cable and minimize dust build-up
   i. Multiple mounting bracket positions for 19" rack and cabinet installation.
   j. Constructed of durable polycarbonate plastic and 16-gauge steel, powder-coated black
   k. Door lock option available on front, rear, or both doors
   l. Fiber cable management shall allow for routing, storage, and protection of patch cords, tight-buffer fiber, and backbone cables.
   m. Enclosure shall be available either empty or in custom pre-loaded configurations.
      Approved Products:
      1) Rack-Mount Enclosure, FRME2 (2RU)

2) Rack-Mount Enclosure, FRME4 (4RU)

J. Fiber Connectors
1. Pre-polished fiber optic connectors shall be the primary means of field-terminating individual fiber strands at the enclosure or faceplate location.
2. Shall meet or exceed the requirements described in TIA-568 and ANSI/TIA-604-10 (LC) Connector Impermeability Standards
3. Shall be pre-polished and field installable to eliminate the need for hand polishing, bonding, or epoxy in the field.
4. Shall utilize a precision zirconia ceramic ferrule, and be re-terminable up to 3 times during testing without loss of performance.
5. Shall require the use of a cleaver with a guaranteed maximum cleaving angle of 2 degrees for multimode and 1 degree for singlemode fibers.
6. Shall be provided in LC, single-mode or multimode (laser optimized) configurations, terminated on 250 or 900 μm buffered fiber and/or 2mm or 3 mm jacketed fiber.
7. Maximum connector insertion loss shall be no greater than 0.5 dB, with an average of 0.1 dB (MM) or 0.2dB (SM). Typical connector return loss shall be 35 dB (multimode) and 56 dB (single mode). All versions shall allow continuity to be verified by use of a visual fault locator (VFL).
   a. Panduit LC OptiCam® Pre-Polished Fiber Optic Connectors OM4 Multimode / 10Gig™ 50/125µm (laser optimized) simplexP/N: FLCSMCXAQY
   b. Panduit LC OptiCam® Pre-Polished Fiber Optic Connectors OS2 Singlemode / 10Gig™ 9 /125µm (laser optimized) simplex P/N: FLCSSCBUY

K. Fiber Adapter Plates
1. The fiber adapter plate shall be modular and functional for use in either a wall-mount or rack-mount enclosure. The adapter plate shall be provided in LC styles, in 12- or 24-fiber configurations. 12-fiber adapter plates are used to terminate 12-fiber cables, and 24-fiber adapter plates are used to terminate 24-fiber (or greater) cables. Do not utilize adapter plates with unused ports at the rear.
2. The adapter plate shall be compliant to TIA-568 (for performance) and respective TIA-604-X (for intermateability) standards. Adapter plates shall use zirconia ceramic sleeves and be offered in standard fiber type colors pursuant to TIA-568 standards.
3. LC adapter plates shall be precision-molded in the USA and integrated to eliminate “rattle” and loose fit. All ferrules shall be zirconia-ceramic. Adapter plates shall be offered in standard fiber type colors. Singlemode color shall be BLUE.

   Approved Products:
   a. Panduit, FAP12WBUDLCZ, FAP w/12 LC Dupl Adapters (BU) Zirconia
   b. Panduit, FAP12WAQDLCZ, FAP w/12 LC 10 GbE Dupl mm Adapters (AQ) Zirconia

L. Fiber Jumpers and Array Cords
1. Fiber optic LC-LC patch cords, or jumpers, will make LC connections from the rack termination points to the equipment. The jumpers will meet the following requirements:
   a. Factory-manufactured using Singlemode OS2 optical fiber. Field terminations on fiber jumpers are not acceptable.
   b. Shall utilize A-B polarity.
   c. Shall exhibit <0.3 dB insertion loss and -25 dB return loss.
   d. Shall be available in standard lengths of 2 meters and custom-orderable up to any length of feet or meters
   e. Provide factory assembled patch cords meeting or exceeding all criteria specified in the horizontal cabling standard
   f. Provide Duplex Fiber Optic Patch Cords, Panduit or approved equal
      1) Provide (1) ea., 2 meters in length, LC-LC Duplex fiber jumpers
         Approved Products:
      1) Panduit LC-LC SM duplex jumper, F92ERQNQNSNM002

2) Panduit LC-LC MM OM4 duplex jumper, FZ2ERQNQNSNM002

2.05 CABLE SUPPORT HARDWARE AND MISCELLANEOUS MOUNTING EQUIPMENT

A. Miscellaneous Equipment: shall be provided and installed by the Contractor as described below and on the drawings. Mounting hardware and accessories typically required to provide a complete and working installation but not listed in these specifications shall be provided and installed by the Contractor.

B. Backboard Cable Management: shall be provided and placed by Contractor on all telecommunications backboards to provide effective routing of all telecommunications cabling. Contractor shall utilize D-rings, wire distribution spools, and cable clamps as required for a neat and organized installation.

C. Wall Termination Devices: 110 blocks and primary protection blocks will be provided at all wall termination fields. Primary protector blocks will be provided on both ends of all copper outside plant cables. 110 blocks will be installed with appropriate standoffs and brackets for a complete installation.

D. J-Hook assemblies:
   1. All cable shall be supported above ceiling on dedicated cable support hardware.
   2. Contractor is responsible for maintaining the maximum fill guidelines and spacing requirements as shown on the accompanying project plans. Contractor shall provide and install additional J-hook assemblies as required to meet these requirements.
   3. J-hook horizontal cable supporting hardware shall be UL listed. The J-hook(s) shall provide a broad base for proper cable support, thereby reducing stress and bending of cabling.
      a. Contractor shall attach appropriate J-hook fasteners for wall, stud, beam, or flange mounting to the supporting structure. Fasteners shall be spaced a maximum of 5’ apart, and no more than 4’ from the final outlet destination or turn point as shown on the accompanying project drawings.
      b. Cable saddles and J-hooks shall be used where cable tray or wire basket is not available. These must be supported on their own ceiling wires, threaded rod, or affixed to building structure by use of beam clamps (on metal beams) or wood screws (on wood beams). Affixing communication cable supports to existing ceiling support wires is not allowed.

         Acceptable Product:
         1) Caddy CableCat Clips
         2) Erico
         3) B-Line
         4) Panduit
         5) Required supporting hardware, or approved equivalent.

E. 110 Style Termination / Writing and Connecting Blocks
   1. 110 Style termination/wiring blocks for cross connecting between voice station and riser cables shall be provided and installed as shown on the project plans. 110 blocks shall be wall-mountable and manufactured with standoff legs to allow cables to pass behind. All required connecting blocks (4-pair and 5-pair), and labeling strips shall be included.
   2. Connecting Blocks shall be Category 6 for all voice station cable installed.
   3. Connecting Blocks shall be C-5 for all riser cable installed.

      Acceptable Manufacturers:
      a. Panduit GP6™ PLUS Punchdown System:96 pair (24-port) base with legs:GPBW24-X
      b. C-4 Connecting block: Panduit 4 pair P/N: GPCB4-XY)
      c. 110 blocks, Panduit P/N: 288 pair (72-port) base with legs: GPBW72-X

d. Connecting blocks, Panduit 5 pair P/N: GPCB5-XY

2.06 FIRESTOPPING

A. Fire rated pathway devices shall be the preferred product and shall be installed in all locations where frequent cable moves, add-ons and changes will occur. Such devices shall:
   1. Meet the hourly rating of the floor or wall penetrated.
   2. Permit the allowable cable load to range from 0% to 100% visual fill thereby eliminating the need to calculate allowable fill ratios.
   3. Permit multiple devices to be ganged together to increase overall cable capacity.
   4. Allow for retrofit to install around existing cables.
   5. Include an optional means to lengthen the device to facilitate installation in thicker barriers without degrading fire or smoke sealing properties or inhibiting ability of device to permit cable moves, add-ons, or changes
   6. Not require any additional action on the part of the installer to open or close the pathway device or activate the internal smoke and fire seal, such as, but not limited to:
      a. Opening or closing of doors.
      b. Twisting an inner liner.
      c. Removal or replacement of any material such as sealant, caulk, putty, pillows, bags, foam plugs, foam blocks, or any other material.
   7. Where single cables (up to 0.27 in. (7 mm) diameter) penetrate gypsum board/stud wall assemblies, a fire-rated cable grommet may be substituted. Acceptable products shall be molded from plenum-grade polymer and conform to the outer diameter of the cable forming a tight seal for fire and smoke. Additionally, acceptable products shall lock into the barrier to secure cable penetration.
   8. Where non-mechanical products are utilized, provide products that upon curing do no re-emulsify, dissolve, leach, breakdown or otherwise deteriorate over time from exposure to atmospheric moisture, sweating pipes, ponding water or other forms of moisture characteristic during or after construction.
      a. Where it is not practical to use a mechanical device, openings within floors and walls designed to accommodate telecommunications and data cabling shall be provided with re-enterable products that do not cure or dry.
      b. Utilize an EMT sleeve as a stub through a rated wall
      c. Surround annular space between EMT sleeve and wall material with a hardening intumescent caulk.
      d. Utilize re-enterable, non-hardening putty around cables inside a metal sleeve. Do not exceed 40% fill capacity of sleeve and follow all rated assembly requirements per Manufacturer, local codes, and AHJ.
   9. Cable trays shall terminate at each barrier and resume on the opposite side such that cables pass independently through fire-rated pathway devices. Cable tray shall be rigidly supported independent from fire-rated pathway devices on each side of barrier.
   10. Clean surfaces to be in contact with fire stopping materials of dirt, grease, oil, loose materials, rust, or other substances that may affect proper fitting or the required fire resistance.
   11. Install fire stopping materials as indicated, in accordance with manufacturer's instructions.
   12. Seal all holes or voids made by penetrations to ensure an effective smoke barrier.
   13. Unless protected from possible loading or traffic, install fire stopping materials in floors having void openings of 4 square inches or more to support the same floor load requirements.
   14. A small amount of hydrogen gas is released as foam cures. Use forced air ventilation when installing if areas of installation have less than 2 cubic feet of free air for each pound of liquid mixture being foamed.
   15. Examine fire stopped areas to ensure proper installation prior to concealing or enclosing fire stopped areas.

Approved Products:

a. Specified Technologies, Inc. EZ-PATH series 22, 33 and 44+ fire-rated pathway devices
b. Specified Technologies, Inc. EZ-PATH GROMMET
c. Specified Technologies, Inc. SSS Intumescent Caulk
d. Specified Technologies, Inc. SSP Intumescent Putty

2.07 LABELING

A. All labeling shall be in accordance with and strictly adhered to TIA-568, TIA-606 (Class 2 Administration) and BICSI Standards.

B. Provide machine-generated labels appropriate for all components supplied and installed. Under no circumstances shall hand written labels be used.

C. The labeling scheme shall not include duplicates of any new or existing cable identification across the entire cable plant.

D. The labeling scheme will be provided at all locations within the cable infrastructure.

E. All cables shall be labeled, using the owners cable identification standard.

F. Intrabuilding Cable: All Intrabuilding cables will be labeled. Provide legible and indelible marking on all cables as indicated in the Drawings. Contractor shall ensure labeling of the cables during installation.

G. Interbuilding Cable: All Interbuilding cables will be labeled. Provide legible and indelible marking on all cables as indicated in the Drawings. Contractor shall ensure labeling of the cables during installation.

H. Each faceplate, cable, or data outlet (drop) will be numbered with a unique identifier clearly indicating the voice and data jacks by floor number, station, and outlet identification. This labeling scheme will be independent of any assigned telephone numbers.

I. Cables
1. Horizontal and backbone cables shall be labeled at each end according to Owner labeling standards (see below). The cable or its label shall be marked with its identifier.
2. Cable labels shall be machine-generated wrap-around labels with multiple cable ID’s printed such that it can be viewable in place without turning the cable.
3. Label cables within 6” of termination point at both ends.

J. Faceplates
1. A unique location identifier shall be marked on each faceplate to identify its location in the cable plant.
2. Each port in the faceplate shall be labeled with its own unique identifier.

K. Racks, Panels, Blocks
1. A unique identifier shall be marked on each piece of connecting hardware to identify it as connecting hardware.
2. Each port on the connecting hardware shall be labeled with its own identifier to match the other end of the cable.

2.08 FLOOR MOUNT EQUIPMENT RACKS

A. Two-Post Equipment Standard Relay Rack, Chatsworth Products, Inc. (CPI)
1. Racks shall be rectangular in shape, manufactured from steel, welded construction with two pairs of removable (bolt-on) equipment mounting rails.
2. The top of the rack shall be pre-punched with attachment holes for cable runway and a top-mount cable management jumper tray. The sides of the rack shall be pre-punched with attachment points for power strips, Snap-On cable guides and vertical cable managers. The bottom of the rack shall be pre-punched with attachment points for a junction box and attachment to the floor.
3. Equipment mounting rails shall be L-shaped, set 6” (150 mm) or 3” (80 mm) apart and punched on the front flange with the EIA-310-D Universal hole pattern to provide 44 rack-mount spaces for equipment. Each mounting space shall be marked and numbered on the

mounting rails. Mounting rails shall be removable and reversible so that RMU numbering can start at the bottom or top of the rack.

4. Equipment-mounting rails shall be horizontally spaced to allow attachment of 19” EIA or 23” rack-mount equipment. Attachment points shall be threaded with 12-24 threads.
5. The rack shall have two masked ground connection points located near the top and bottom of the frame and will include a ground terminal lug to attach ground conductors from the Telecommunications Grounding Busbar. Equipment mounting rails will bond to the rack through assembly hardware.
6. The rack shall measure 7’ (2.1 m) high, 24” (610 mm) wide and 15” (380 mm) deep at the base. The sides of the rack frame shall be 9.6” (294 mm) deep.
7. The rack shall be rated for 1,000 lb. (453.6 kg) of equipment in seismic areas and meet Telcordia Technologies GR-63-CORE Network Equipment Building Systems (NEBS) Zone 4 requirements.
8. Finish shall be epoxy-polyester hybrid powder coat in the color as specified below. Mounting rails will be painted to match or zinc-plated.
9. Part Number 55053-703, Standard Rack, 7’H (2.1 m) x 20.3” W (515.9 mm) x 15” D (381.0 mm), 45U x 19” EIA, Black, UL Listed.
10. Each rack must have one (1) 6' long 125V 15A multiple-outlet power strips each with twenty three-prong outlets and no switch, Chatsworth 12848-701. These power strips, with standoff mounting legs, must be installed vertically at the rear of the rack, with the bottoms of the power strips about 6" off the floor. The power strips must be UL-listed. All power strips must be furnished with a 15' three prong plug/cord, NEMA 5-15P.

2.09 EQUIPMENT ROOM CABLE MANAGEMENT

A. Horizontal Cable Management System
   1. Product Description: Panduit, NetManager P/N: NM2, or approved equal, 3"x3" front, 2"x 5" back, mountable in an EIA standard 19" rack.
   2. Provide 3 per new installed rack
   3. Provide to ITD / Telecommunications for installation.
   4. Note: Do Not utilize Horizontal wire management between angle patch panels.

B. Vertical Cable Management System
   1. Product Description: Panduit, PR2VD06, or approved equal, 7’ Vertical Wire Manager, side mount with covers.
   2. Location: Both sides of Floor Mount Equipment Racks and in-between racks.

C. Distribution Rings/Jumper Troughs
   1. Product Description: Panduit P110JTW-X or approved equal.
   2. Location: On all backboards as required for routing of voice cables in a neat fashion.

2.10 LADDER RACKING

A. Cable Ladder Sections and Components
   1. General: Except as otherwise indicated, provide metal cable ladders, of types, classes and sizes indicated; with splice plates, bolts, nuts and washers for connecting units. Construct units with rounded edges and smooth surfaces; in compliance with applicable standards; and with the following additional construction features.
      a. Materials and Finish: Material and finish specifications for each cable ladder type are as follows:
      b. 1.5” Tubular Steel: Straight section and fitting side rails and rungs shall be extruded from ASTM A513 steel tube. All fabricated parts shall be finished with a black powder coat.

B. Type of Cable Ladder System
   1. Ladder type cable ladders shall consist of two longitudinal members (stringers) with transverse members (rungs) welded to the stringers. Rungs shall be spaced 9" inches on center. Rung spacing in radius fittings shall be 9 inches and measured at the center of the cable ladder's width. Rungs shall have a minimum cable bearing surface of 1” with

radius edges. No portion of the rungs shall protrude below the bottom plane of the side rails.

2. Straight cable ladder sections shall have side rails fabricated as tubular steel channels. All straight sections shall be supplied in standard 10'-foot lengths, except where shorter lengths are permitted to facilitate cable ladder assembly lengths as shown on drawings.
3. Cable ladder widths shall be 12" inches as indicated on drawings.
4. Splice plates shall be the bolted type made as indicated below for each cable ladder type. The resistance of fixed splice connections between an adjacent section of cable ladder shall not exceed .00033 ohm. Splice plate construction shall be such that a splice may be located anywhere within the support span without diminishing the cable ladder rated loading capacity.
5. All splice materials shall be made of ASTM A570 structural steel using carriage bolts and serrated flange locknuts. Hardware shall be Yellow Zinc Dichromate. Chatsworth # 16299-001 or approved equal.
6. Cable ladder Supports: Shall be placed so that the support spans do not exceed a maximum span of 5' feet. Supports shall be constructed from formed shape channel members 1 5/8" x 1 5/8" with necessary hardware such as trapeze support kits, ceiling support kits, triangular support brackets, or wall angle support kits as manufactured by Chatsworth Products or engineer approved equal.
7. Trapeze hangers shall be supported by 3/8" (minimum) diameter all thread rods.
8. Accessories - special accessories shall be furnished as required to protect, support, and install a cable ladder system. Accessories shall consist of but are not limited to; section splice plates, expansion plates, blind-end plates, specially-designed ladder drop-outs, barriers, etc.

C. Acceptable Manufacturers
   1. Manufacturer: Subject to compliance with these specifications, cable ladder and cable channel systems to be installed shall be as manufactured by Chatsworth, Inc. or engineer approved equal.

PART 3 – EXECUTION

3.01 INSTALLATION REQUIREMENTS

A. Furnish and install materials necessary for a complete and working system.

B. Contractor must be a Certified Installer for selected manufacturer prior to, during, and through completion of the system installation, and must be able to provide the manufacturer's extended warranty.

C. Perform work in a neat and workmanlike manner.

D. Determine requirements for plenum rated cable and devices. When doubt exists, seek prior determination in writing by AHJ.

E. Install cable after interior of building has been physically protected from the weather and mechanical work likely to damage cabling has been completed.

F. Contractor shall give notice to all agencies requiring advance notification and comply with all regulations specified by all governing agencies having jurisdiction (AHJ) over the performance of the work.

G. Before installing cabling, ensure cable pathways are completely and thoroughly cleaned:
   1. Inspect conduit, wireway, cable trays, and innerduct systems prior to installation.
   2. Swab any additional enclosed raceway and innerduct systems.

H. Contractor shall coordinate with and abide by the construction schedule and sequencing as dictated by the General Contractor on the project. Storage and staging areas within the construction site shall be as dictated by the General Contractor.

I. Provide protection for exposed cables where subject to damage. Provide abrasion protection for any cable or wire bundles, which pass through holes or across edges of sheet metal.

J. The contractor shall provide and pay all permits.

K. The contractor shall provide all labor, materials, equipment, tools, utilities and services necessary for the proper execution and completion of the telecommunications cabling system.

L. Proper cable handling is critical to maintaining the design integrity of high-performance cabling. Cable handling recommendations include:
   1. Cable must be conditioned above 32 degrees F for 48 hours prior to installation.
   2. Do not use excessive force when pulling cable. The maximum pull-force guideline for a 4-pair horizontal UTP should not exceed 110N (25lbf). Meeting this guideline avoids stretching conductors during installation and the associated transmission degradation.
   3. The minimum bend radius for UTP should not exceed 4 times the cable outside diameter (O.D.) The O.D. of Cat 6A 100 ohm, balanced UTP cable is .30 in. (4 x .3 = 1.2 in. bend radius).
   4. The minimum bend radius for fiber should not exceed 10x the cable outside diameter.
   5. Traditional combing and dressing (bundling) of Category 6A cabling for a combed appearance is required in all exposed locations.
   6. In TR, use appropriate horizontal cable management for patch cords on front of patch panels. Also, use appropriate cable management bar(s) for support of terminated horizontal cable.
   7. Do not use vinyl or plastic cable ties due to the potential for over-cinching of cable bundles which can alter the cable geometry and degrade the system cabling performance. Use only hook and loop (“Velcro”) fasteners for bundling of horizontal cables.
   8. Install cable ties and other cable management clamps via hand so that it fits snugly. Do not over tighten or use mechanical tools which could compress, crimp, or otherwise change the physical characteristics of the cable jacket or distort the placement of twisted-pair components. Replace any cable exhibiting stresses due to over tightening of cable management devices.
   9. Store cable slack in an extended loop configuration to alleviate cable stress. Excessive cable slack in bundled loops or traditional ‘service loops’ to provide additional cable length in TR has been shown to degrade cabling performance and are not recommended.

3.02 INSTALLATION METHODS

A. Contractor is required to adhere to the following parameters whether or not Contractor and/or others have placed existing equipment. Contractor will notify the owner of any of the following requirements that cannot be met prior to bid or ordering of materials.

B. General: Install an infrastructure cabling system as detailed by the contract drawings, details, and specifications.

C. The maximum length of horizontal cabling from nearest closet to an outlet shall not exceed 295 feet as per TIA 568 standards. Contractor will notify the owner prior to commencement of any installation not meeting the 295-foot maximum distance limitation.

D. Contractor will place all station cables in the ceiling area on Contractor supplied and installed wire hangers or in floor spaces and raceways. Contractor also will assess whether or not the ceiling space is a plenum air return, which shall dictate the use of the listed plenum type, or PVC type cable required in the materials specification section. The cables will be routed to the MDF/IDF locations, utilizing cable tray. Station cables must be strapped every 5 feet with tie straps in J-Hooks provided by the Contractor; strapping to any other wires (e.g., lighting, ceiling grid, etc.) is not permitted. Cable splicing at any point of a station cable is unacceptable. When cables are routed in non-ceiling spaces, such as below raised flooring, the Contractor will still assess whether or not the space is a plenum air return and pull the appropriate cable type.

E. In hard wall (wallboard) or V wall type construction where accessible, Contractor will install a wall board adapter or equivalent, which will support mounting of the faceplate necessary for the jacks. This will eliminate the need for an electrical box (in-wall junction box) to accommodate the communications outlet.

F. Cables will be run vertically in dedicated EMT conduit inside the wall and into the ceiling space. Once in the ceiling space, the cable will be routed to the closest cable tray. Cables shall be routed to their closest MDF/IDF utilizing the shortest path possible, while still following TIA standard guidelines. Station cables outside of cable tray must be strapped to tie wires with J-Hooks every 5 feet provided by Contractor; strapping to any other wires (e.g., lighting, ceiling grid, etc.) is not permitted.

G. In areas where modular furniture is installed or in areas where office furniture is in an open office space, telecommunications cabling access will either be through the floor or from the ceiling.

H. Where the cable access is from a duct under the floor, the Contractor will provide and install mounting hardware inside the floor box that will support the outlets.

I. The Contractor will provide and install a plastic spiral wrap device or metal flexible conduit to the cable channel in the furniture or to a surface mount box located at each work station. The Contractor shall coordinate with the owner, the exact location of each cable termination and jack location.

J. UTP cabling must conform to a 6-foot separation requirement from main power panels, switch gear and/or starter motors.

K. All power feeds crossing the path of the UTP cables at right angles must be a minimum of 6 inches in distance from the UTP cables.

L. Cables shall be run cable tray in corridors wherever possible in order to avoid furniture and work areas so that access to the cables is unencumbered.

M. The cables shall be placed at a minimum of 6 inches above the ceiling.

N. The cables are to be run so as to maximize accessibility. Contractor will notify the owner in the event this requirement cannot be met.

O. Debris, boxes, leftover cables, and trash must be removed from construction sites upon completion of work. No debris or work material may be left in areas that have student access unless the affected area is marked with cones, tape, or temporary fencing.

P. Contractor shall pull conductors together where more than one is being installed in a raceway. Cable bundles in raceways, in suspension systems, or on wallboards must be tie wrapped every 5 feet. There must be an independent system supporting the cable system. Cable bundles tied to the lighting-ceiling grid will not be permitted. Station wire cannot be attached to electrical conduit, gas or sprinkler piping, or other code-restricted items.

Q. No cabling is allowed to rest on any ceiling tile or suspension system. Cable shall be kept 30 inches away from any heat source; i.e., steam valves, etc.

R. Cables shall be pulled free of sharp bends or kinks, twists, or impact damage to the sheath.

S. Cables shall not be pulled across sharp edges. Cables shall not be forced or jammed between metal parts, assemblies, etc.

T. Cables shall not be pulled across access doors and pull box covers. Access to all equipment and systems must be maintained.

U. Cables shall be protected from paint and any other chemicals during installation. Any paint or chemicals that adhere to the installed cable shall be cleaned from the cable per manufacturers requirements. The cable manufacturer and the design consultant shall be notified.

V. Insulation shall be removed to expose shielding and conductors to the exact length required by manufacturer for proper termination of plugs and pins. Plugs and pins, upon termination, shall not be damaged in any way.

W. All communications racks must be properly anchored to walls and floors and grounded to building ground grid (not to water pipes, etc.).

X. Cable splicing will not be permitted in any horizontal cable run.

Y. Contractor shall install system using tools and equipment specifically designed for the installation tasks. Use installation practices that ensure the highest quality installation. Perform all cutting, splicing, pulling and termination of cables using equipment specifically designed for each purpose.

Z. Install tie wraps using a tension controlling cutting device. Tension shall not exceed that which is specified by the manufacturer of the cable. Tie wraps and other securing hardware shall be rated as required for the installation environment.

AA. Where multiple conduits are being used, fill one conduit to its maximum fill ratio before going onto the next conduit. Wherever possible, leave as many spare conduits available as possible.

BB. All cables requiring lubrication for installation in conduits shall be continuously lubricated during the pulling-in process. Maximum pulling tensions specified by the cable manufacturer shall not be exceeded. Monitor cable-pulling tension with a mechanical tension-indicator.

CC. All new conduit will not exceed a 40% fill rate. All spare conduits or conduits filled with less than the maximum allowed fill ratio shall have a pull string installed and left for future installation of cable. Clearly label as "pulling line" indicating To/From.

DD. Support cables running overhead that are not installed in raceways by bridle rings or J-Hooks spaced every 5 feet.

EE. Install the telecommunication cabling system as detailed in the contract drawings in the exact location and layout shown in the details.

FF. Openings around electrical raceway penetrations shall maintain the fire resistance rating required. See NEC 300-21.

GG. Label all cables at both ends. The label shall be permanent. Labels shall be typed (not handwritten) and individual number strips are unacceptable. An acceptable labeling product is a self-laminating cable marker, such as Brady #DAT-9-292-series. All cable labeling shall include numeric designation, source, destination, and cable type.

HH. All outlet plates shall be installed neatly and square with floor and walls.

II. Category 6A installations shall conform strictly with EIA/TIA 568B and TSB-40B to insure a quality system that meets the transmission rate criteria.

JJ. Install cable above fire-sprinkler systems and ensure that the cable does not attach to the system or any ancillary equipment or hardware. Install cable system and support hardware such that it does not obscure any valves, fire alarm conduit, boxes, or other control devices.

KK. Do not attach cables to ceiling grid or lighting fixture wires. Where support for cable is required, install appropriate carriers to support the cabling.

LL. Any cable damaged or exceeding recommended installation parameters during installation will be replaced by the contractor prior to final acceptance at no cost to the Owner.

3.03 SEPERATION OF DATA AND POWER CABLING

A. Design cable pathways to avoid potential sources of EMI. Avoid installing cable near sources of EMI (X-ray equipment, large motors/generators, electrical power cabling and transformers, Radio frequency (RF) sources and transmitters, lighting, copiers, etc.).

B. Provide the following minimum separation distances between pathways for copper communications cables and power wiring of 480 volts or less.
   1. Open or Nonmetal Communications Pathways:
      a. 12-inches from electric motors, fluorescent light fixtures, and unshielded power lines carrying up to 3 kVA.
      b. 36-inches from electrical equipment and unshielded power lines carrying more than 5 kVA.
      c. 48-inches from large electrical motors or transformers.
   2. Grounded Metal Conduit Communications Pathways:
      a. 2 1/2-inches from electrical equipment and unshielded power lines carrying up to 2 kVA.

b. 6-inches from electrical equipment and unshielded power lines carrying from 2 kVA to 5 kVA.
c. 12-inches from electrical equipment and unshielded power lines carrying more than 5 kVA.
d. 3-inches from power lines enclosed in a grounded metal conduit (or equivalent shielding) carrying from 2 kVA to 5 kVA.
e. 6-inches from power lines enclosed in a grounded metal conduit (or equivalent shielding) carrying more than 5 kVA.

C. Physically separate power & data cabling according to relevant code and standard requirements when run in a common pathway.
1. Never run data and Class 1 power cabling in parallel closer than 2".
2. Avoid crossing cables if possible. If necessary, always cross cables at 90 degrees.
3. Maintain a minimum of 5 in. separation between data cable and all ballast controlled lighting.

D. Minimum separation distances of telecommunications cabling from potential sources of EMI exceeding 5kVA:
1. 24" away from Unshielded power lines or electrical equipment in proximity to open or nonmetal pathways
2. 12" away from Unshielded power lines or electrical equipment in proximity to a grounded metal conduit pathway
3. 6" away from Power lines enclosed in a grounded metal conduit (or equivalent shielding) in proximity to a grounded metal conduit pathway
4. 48" away from Electrical motors and transformers

3.04 FURNITURE CABLING

A. The contractor will pull all data cables in advance of the installation of the modular furniture workstations, and coil at basefeed or above ceiling for power pole feeds. Upon furniture arrival, the contractor will feed the cables through power poles or base feed/wall connected data/telecom conduit, and terminate as specified on the floor plans.

B. Contractor to coordinate with Owner's furniture vendor for timing of the installation of systems furniture, and installation of electrical and voice/data cabling.

3.05 TERMINAL BLOCKS AND PATCH PANELS

A. Arrange all terminal blocks in a manner that allows natural wiring progression and minimizes crossing of wires.

B. Dress and comb all incoming cable bundles in groups of 24 cables each. Eliminate crossed cables and "divers".

3.06 TELECOMMUNICATION ROOMS

A. The Data and Telco Rooms are a transition point between the backbone and horizontal distribution pathways. The rooms shall be able to contain data or telecommunications' equipment, cable terminations and associated cross-connection wiring. Closet spaces are not to be shared with electrical installations, other than those directly for telecommunications, video, security and information systems equipment. The rooms are not to be shared with other unrelated building service, for example plumbing. Any conflicts with these specifications require the approval of the Owner's project manager.

B. Contractor shall submit a drawing of the Telco room showing layout of all components including necessary and required electrical outlets, conduits, environmental requirements and wire termination fields prior to start of the job. Any jack densities noted in these specifications are estimates only. The drawing will designate the most effective, scalable, jack termination cabling design to facilitate data/telecom outlets shown on the lease exhibits. Owner's Project Managers must approve drawings prior to installation.

C. All racks, panels, and equipment finished shall be anchored to meet local seismic zone requirements and industry standards. The equipment racks are to be anchored to the concrete

floors via “Unistrut or equal metal framing strut systems”, drop in anchors only for all floor mount racks, concrete anchors, bolts and washers.

D. The overhead cable ladder system will provide a route for the Category 6A, and other communication cables while providing stability to the equipment racks.

E. The vendor is responsible to provide and install the specified count of 19” EIA rack-mount 7’ (45U) 2- post racks, Black, as required in the new Telco Room. The vendor is responsible for submitting Telco room layout drawings to Owner for approval prior to installation.

F. The contractor shall provide high capacity horizontal and vertical cable manager channels are required in all data and equipment racks, and the racks will contain sufficient vertical and horizontal cable managers to facilitate the patch panel density and placement installed by the contractor.

G. Contractor will install raceways, boxes, managers, and enclosures as indicated according to manufacturer’s written instructions. Securely fasten each component to the surface to which it is mounted and remove burs and sharp edges from all cable tray.

H. A 12” ladder rack system is required and will be provided by the contractor and installed in the IDF to provide cable support to the rack system. This includes all of the required ladder rack support items such as rack to runway kits, wall angle brackets, ceiling supports, splices (junction and butt), radius drops and j-bolts. The final ladder rack layout will be included in the IDF layout drawing described above.

I. Provide and install as needed in the Telco room 4’ x 8” x 3/4” fire-rated plywood board and labeled with fire rating stamp facing into the room to accommodate rack ladder support, cabling support, grounding platform, data and voice equipment. Paint backboard white (leave stamp visible) to match existing backboard in room, if appropriate. Location of installation is to be determined with approval by Owner.

J. No more than four (4) data patch panels will be mounted to a 7’ equipment rack.

K. If you need more than four (4) data patch panels to complete the job contractor will need to install an additional 7’ rack.

L. Patch panels for special circuits (fax, T1,) can be mounted to a rack that already has four (4) data patch panels mounted in it.

3.07 UNSHIELDED TWISTED PAIR TERMINATION

A. Check plans and symbology for final determination of faceplate constitution or consult with Owner prior to bid.

B. Install additional cables at drop locations and in quantities indicated on the drawings.

C. Do not exceed manufacturers’ recommendations for maximum allowable pulling tension, side wall pressure or minimum bending radius. Use pulling compound as recommended by cabling manufacturer.

D. All horizontal cables, regardless of media type, shall not exceed 90 m (295 ft) from the telecommunications outlets in the work area to the horizontal cross connect.

E. The combined length of jumpers, or patch cords and equipment cables in the telecommunications room/closet and the work area shall not exceed 10m (33 ft.).

F. No run of UTP cable between horizontal portions of the cross-connect in the telecommunication closet and the information outlet shall contain splices.

G. In a false ceiling environment, a minimum of 3 inches (75 mm) shall be observed between the cable supports and the false ceiling. Minimum 6” is preferred.

H. J-hooks shall be provided for all suspended cable, at a semi-irregular spacing not to exceed 5 feet between supports. Cables shall be supported by dedicated low-voltage cable support hardware. Support of cables or hanging hardware by means of supports or surfaces related to other trades or applications is not allowed.

I. Provide a full-size service loop (at least once around the inside edge of the box) in each J-box in the communications system.

J. Install all cable in plenum spaces with J-hooks of at least 1” in width to disperse the weight on the bottom cables. Homerun all cable to nearest TR Cabinet.

K. Comply with ANSI/TIA-569 for conduit and splice box sizing.

L. Install modular jacks at all outlets shown; one data jack for each data cable at each faceplate or termination point. Install additional cables and modular jacks as indicated on the drawings. Do not “split pairs” between different jacks.

M. Terminate cables at each jack location and at termination board or patch panel. Follow industry guidelines and manufacturers’ recommendations and procedures as required. All termination hardware shall be rated to exceed their associated Category rating as specified above.

N. Field-installable RJ45 plugs are not to be used.

O. For enclosed ceiling WAP locations, install and terminate CAT6A cables to approximate location as shown on plans. For open-ceiling environments, secure cables and surface-mount boxes to nearest appropriate support structure.

P. For in-ceiling WAP locations, secure jacks inside a surface-mount block mounted to in-ceiling metal assembly, and provide a 5’ patch cord or longer, as needed, to connect device to its final determined location in ceiling.

Q. For wall-mounted device locations, utilize an in-wall bracket in lieu of faceplate as described above. Secure mounting bracket and device hardware directly over backbox. Connect device with 1’ CAT6A cord (Security, AV, or WAP), or 1’ high-flex CAT6 patch cord for other CAT6-based devices. Coil patch cord inside backbox.

R. Label and identify each outlet and cable for data circuits. Label at outlet end and at termination board or patch panel with matching designations.

S. Provide data outlets in surface raceway at 26” on center unless otherwise indicated.

T. Extreme care must be taken not to nick any of the copper conductors when removing jacket. Use rip cord to expose pairs for termination onto Insulation Displacement Contacts. You can also use a precision stripper that allows the technician to set the depth of the blade.

U. Maintain twists as close as possible to the point of termination. Untwisting of copper pairs should not exceed ¼” to the termination point.

V. Manage the cable bundles in a symmetrical orientation. For example, in a 48-port patch panel, distribute 24 cables through the vertical cable management on the left rear side of the rack and 24 cables through the vertical cable management on the right rear side of the rack.

W. Do not dress cables in bundles larger than 24 cables. Multiple 24-cable bundles may be run in parallel with evenly-spaced Velcro cable ties in an orderly sequence.

X. For cable management on rear of patch panel, cable shall sweep into termination points and be supported by appropriate rear cable management.

Y. Horizontal patch cord management is required on all installations which do not use angled patch panels.

Z. Maintain cable bend radius 4X outer diameter (UTP only) when mounting faceplate onto EMT backbox, box-eliminators or furniture knock-outs.

AA. Faceplates and SMBs shall be fully installed and labeled prior to testing.

BB. Loosely coil and store excess slack in the ceiling above each termination location when there is not enough space present to store slack cable.

CC. Install cable in accordance with manufacturer's recommendations and best industry practices.

DD. Dress and terminate cables in accordance with the recommendations made in the ANSI/TIA/EIA-568-C.1 document, manufacturer's recommendations and best industry practices.

EE. Terminate 4 pair cables on the jack and patch panels using T568B wiring scheme.

FF. Maintain the cable jacket within 1-inch of the termination point.

GG. Do not exceed 0.5-inch of pair untwist at the termination point.

HH. Do not exceed 4 times the outside diameter of the cable in the termination area for bend radiance compliance.

II. Neatly bundle and dress cables to their respective panels or blocks. Feed each panel or block by an individual bundle separated and dressed back to the point of cable entrance into the rack or frame.

JJ. Horizontal station cabling must have no less than 10’ service loop at station end and 5’ at patch panel ends. These loops should be dressed in an orderly fashion above T-bar.

3.08 FIBER OPTIC CABLE SYSTEM

A. The fiber optic raceway system must be continuous between pull boxes and junction boxes. The raceway system must enter and be secured to enclosures.

B. All fiber supplied to the campus, must be tested with an OTDR, Microtest Certifiber, or equal prior to installation, while still on the shipping reel, using an optical time domain reflectometer (OTDR) or a 850/1300/1510 nm power meter and stabilized light source. The test results must be compared to the manufacturer's test results. A discrepancy of more than 1 dB on any fiber in either window indicates possible shipping damage and the fiber must be returned to the supplier.

C. All fiber must be tested after installation according to the procedures and acceptability criteria described in EIA/TIA 455A (Aug 1991) and all applicable addenda after installation and termination using an OTDR in one direction and an 850/1300 nm power meter and stabilized light source in both directions and in both optical windows. The results of these tests (printed OTDR results and tabular loss results) must be provided by the installer as documentation of the quality of installation and as a baseline for future troubleshooting. The results must be compared to the pre-installation test results for significant changes.

D. All optical test equipment must have current, traceable calibration certification.

E. All spare optical ports and connectors should have a dust cap in place to protect the cable from the environment.

F. Manufacturer's specification for pulling stress and minimum bend radius must not be exceeded on any fiber cable.

G. Installation contractor must develop and review conduit installation plan with the owner before beginning installation.

H. Installation contractor must verify all device locations with the owner before installation.

I. Installation contractor must review cable numbering and labeling scheme with the owner prior to installation.

J. Installation contractor must review drawing notes and drawing back-annotations (red line) on site plans with the owner prior to installation.

K. Fiber Optics Cable Labeling: Fiber termination locations must be labeled to corresponding fiber strand pairs at the Main Distribution Frame (MDF), and Intermediate Distribution Frame (IDF) Using embossed labels. The Contractor is expected to provide tags, straps, and adhesive labels. These tags, straps, and adhesive labels must be of high quality that will endure over time. Hand written labels are not acceptable.

L. All outside fiber cable will be installed through 1.25” innerduct from point of origin and destination.

M. Securely fasten the fiber optics raceway to the cable tray, or walls when routed inside buildings, using clamps and clips designed for this purpose.

N. Provide a nylon or polyethylene pulling line in all fiber optics raceways. Clearly label as "pulling line", indicating source and destination.

O. Openings around fiber optics raceway penetrations shall maintain the fire resistance rating required. See NEC 300-21.

P. All fiber optics cables are to be run as efficiently as possible, minimizing the amount of cable required.

Q. All fiber optics cables shall be continuously lubricated during the pulling-in process. The maximum pulling tensions specified by the cable manufacturers shall not be exceeded. Monitor cable pulling tension with a mechanical tension meter.

R. The fiber optics cables passing through pullboxes and manholes shall be neatly arranged and secured to cable jacks on the interior walls. Cables will not be accepted when diving through the manhole or pullbox.

S. As fiber optics cables emerge from intermediate-point pull boxes, coil the cable in a figure eight pattern with loops not less than two feet in diameter.

T. Label all fiber optic cables at both ends. The label shall be permanent. Labels shall be typed (not handwritten) and individual number strips are unacceptable. All cable labeling shall include numeric designation, source, destination, and cable type.

U. Fiber optics raceways shall be clearly marked at each pull box indicating type and number of cables within.

V. If connectors have been factory installed on fiber optic cables, protect the connector during the pulling-in by wrapping with a thin layer of foam and insert in a stiff plastic sleeve for protection.

3.09 GROUNDING

A. All grounding (earthing) and bonding shall be done to applicable codes, standards and regulations.

B. Grounding shall be accomplished by common single-point termination of all ground conductors.

C. All metallic components of the infrastructure system shall be solidly grounded by the shortest possible route.

D. Manhole Splices and Splice Cases - the Contractor will connect the splice case to the manhole ground as per GTE practice 605-100-201 using a #6 AWG solid copper wire.

E. NEMA Enclosure splices and Splice Cases - the splice case must be grounded to the provided ground lug in the existing NEMA box with a minimum #6 AWG wire.

F. MDF/IDF Splices and Splice Cases - the splice case must be grounded to the provided ground bar in the Voice/Data Equipment Room with a minimum #6 AWG wire.

G. MDF/IDF Electrical Protection Splices - the Contractor must bond the cable's metallic sheath/shield to the metallic splice case with the bonding bar assembly provided with the splice case.

H. Labeling: The splice case and all cables must be labeled using a stamped metal plate or indelible plastic plate, that the owner has approved, which details exact pair counts and destinations. Each 25-pair binder group, of each cable entering the splice case, must be labeled with a Panduit PAN-TY PLF1M-0 Flag with appropriate cable pair counts.

I. Conduit Sealing: The Contractor will supply and install all necessary components to effectively seal all conduits. The Contractor will use Semco part #PR-851 conduit sealing kit. The PR-851 compound is a two-part polyurethane foam, which, when mixed for fifteen seconds, expands approximately fifteen times in volume. It forms a dense, tough foam with a density of three to four pounds per cubic foot. The expanding nature of the compound allows it to fill cracks and voids in conduit walls, and imperfections in the cable sheath. This effectively seals the conduit against the passages of gases and water. For additional information, refer to GTE Practice 628-020-203.

J. Shielded cabling channels shall include appropriate method of bonding shield to approved ground for proper EMI/RFI mitigation.

K. Shield Continuity Testing shall be Enabled when shielded cabling channels are installed.

L. All shielded and armored cables shall be bonded to a telecom grounding system via shielded patch panels at the rack locations. Shielded Category-rated connectors must be properly installed to maintain electrical ground conductivity along entire length of cable and at both ends of the cable. UTP connectors shall not be used on shielded cables at either end.

M. Shielded Patch cords shall be provided for use and employed at each workstation location utilizing shielded cable. Shielded patch cords can be identified by their gray color and metallic RJ45 plug.

N. Telecom Contractor shall bond and ground all telecom room metals. Telecom Contractor shall provide and install TIA-rated Telecommunications Grounding Busbar (TGB) at all Telcom Room locations, and an in-cabinet grounding busbar at each remote wall-mounted cabinet or telecom enclosure. All ground lugs shall be 2-hole make-up and be compression style. Screw lug type will not be accepted.

O. Electrician will provide connection between TGB and building ground; Telecom contractor (if separate, otherwise electrician) will provide a busbar and ground all equipment and telecom metals to the busbar.

P. Telecom installer will ground and bond all armored and/or shielded cables, racks, cabinets, cable tray, ladder racking, and shielded panels to telecom grounding busbar.

3.10 WIRELESS ACCESS DEVICE INSTALLATIONS

A. Above-ceiling and wall-mounted wireless access points and devices.
   1. All WAP locations shall receive (2) Category 6A cables from the nearest TE or TR (IDF). Multimedia, security and other video devices shall receive CAT6A cables as shown on drawings, documents and details.
   2. Clock/Speakers and other low-bandwidth mounted devices shall receive (1) CAT6A cable.
   3. WAP, IP Camera and other communications cables shall terminate on patch panels in the TE/TR (IDF).
   4. WAP cables shall terminate on Category 6A information outlets and shall be supported by an in-ceiling termination bracket. Affixing of a 2-port SMB to the bracket is recommended.
   5. SMB, jacks, and patch cords used in plenum spaces shall be plenum-rated.
   6. SMB shall be mounted in the ceiling on a specially-designed clip attached to a cable support ceiling wire or threaded rod support per cable management section in Part 2. SMB shall not be tie wrapped to supports, or left on ceiling tiles or other equipment located above the ceiling.
   7. Wall-mounted devices not requiring faceplates will be mounted directly to the backbox. Jacks will be secured inside backbox on a specially-designed in-wall bracket clip per cable management section in Part 2.
   8. Contractor shall mount Access Point (AP) electronics to the drop-ceiling suspended T-grid system. (AP and mounting hardware provided by Owner). Contractor to provide and install (2) white Cat 6A patch cords from the overhead WAP outlets to the AP. Contractor shall neatly cut holes into the ceiling tile and finish the holes with grommets or other industry-standard finishing piece for a professional look.

3.11 PATHWAYS AND TOPOLOGY

A. Utilize “thin film” lubricants only! It has been shown that cable-pilling lubricants will affect your testing as the cable needs several weeks to dry before attenuation levels recover. Use of incorrect cable lubricants will erode cable jacket and void cable warranty.

B. All cable and wire shall be concealed in conduits, floor ducts, paneling, ceiling or similar areas except at mutually agreed upon areas.

C. Fill capacity in conduit, modular furniture and other horizontal pathways should not exceed 40%. A maximum of 60 % pathway fill is allowed to accommodate unplanned additions after initial installation. The Cat 6A cable is a larger O.D. 0.250. The increased diameter of Cat 6A cable will require appropriate design considerations when sizing conduit and other pathways. In most installations, conduit sizes will have to be increased in order to accommodate all of the cables being installed. This will impact the design and material selection of the project. To

calculate the fill ratio, divide the sum of the cross-sectional area of all cables, by the most restricted cross-sectional area of the pathway.

D. Fill ratios for Augmented CAT6 cable (CAT6A) requires 1" EMT for 4 cables and sized larger for additional cables as required to maintain a 60% fill ratio.

E. Flat-rung and/or solid bottom cable tray shall be utilized for large, high-density installations. J-hooks and other specific cable support hardware shall be used at all locations outside of cable tray.

F. Pathway design should not exceed (2) 90-degree bends between pull points or pull boxes (PB). If more than (2) 90-degree bends are required, install a pull box between bends.

G. Provide NEC-sized pull boxes for any run greater than 100 feet, or with more than two ninety-degree bends.

H. J-hooks should be randomly spaced 60" or less. Do not exceed J-hook capacity for size and weight limitations.

I. Land wireless access cabling above ceiling, secured onto in-ceiling bracket. Utilize varying-length patch cords when installing wireless access point devices for flexibility in length.

J. Crimp-on plugs at wireless access points are not allowed. Terminate all WAP cabling onto jacks and ceiling-mount brackets and test all cables as appropriate.

K. Mixing of various Category cables in the same pathway is allowed as long as the applications are appropriate for each category of cable used.

L. Prior to placing any cable pathways or cable, the contractor shall survey the site to determine job conditions will not impose any obstructions that would interfere with the safe and satisfactory placement of the cables. The arrangements to remove any obstructions with the Project Manager need to be determined at that time.

M. Maintain a distance of at least 12 inches from all power conduits and cables, and 6 inches from all fluorescent lighting fixtures. Do not install power feeders 100 amps or greater above or within 5 feet of telecommunications backboard. Do not install telecommunications conduits above power panels or switchboards.

N. Cable shall be installed above fire-sprinkler systems and shall not be attached to the system or any ancillary equipment or hardware. The cable system and support hardware shall be installed so that it does not obscure any valves, fire alarm conduit, boxes, or other control devices.

O. The backbone subsystem shall include cable installed in a vertical manner between floor telecommunications room/closets (TCs or IDFs) and the main or intermediate cross-connect in a multi-story building and cable installed horizontally between telecommunications room/closets and the main or intermediate cross-connect in a long single story building.

P. Unless otherwise recommended by the Owner, all fiber cables will be encased in interlocking armor. All fibers will be terminated in the Telecom Rooms or Cabinets in rack-mounted enclosures equipped with sufficient ports to allow for growth, slack storage space and splice trays if required to terminate and secure all fibers.

Q. Adequate riser sleeve/slot space shall be available with the ability to ingress the area at a later date in all Telecommunications rooms/closets, such that no drilling of additional sleeves/slots is necessary. Sleeves may need to be provided and installed under the scope of this Project.

R. The backbone cables shall be installed in a star topology, emanating from the main cross-connect to each telecommunications room/closet. An intermediate cross-connect may be present between the main cross-connect and the horizontal cross-connect.

S. For voice or data applications, 4 pair UTP or fiber optic cables shall be run using a star topology from the telecommunications room/closet serving that floor to every individual information outlet.

T. Backbone and Horizontal pathways shall be installed or selected such that the minimum bend radius is maintained both during and after installation.

U. All horizontal pathways shall be designed, installed and grounded to meet applicable local and national building and electrical codes.

V. Install ¾" x 4' x 8' fire-rated plywood across all walls in telecom rooms, from 6" AFF to 8'-6" AFF. Coat with 2 coats of white paint. Do not paint over fire rating stamp.

W. Contractor shall firestop all used pathways which enter or leave the telecom rooms via conduit, cable tray or slot. Contractor is responsible for installing sleeves at each wall or partition penetration, and firestopping all fire-rated penetrations. Intumescent caulk shall be applied around the outside of each sleeve, and intumescent putty inside the sleeve or conduits around the cables. Appropriate fill ratios must be followed when penetrating fire-rated walls.

X. Do not run fiber cables in conduits which are less than 2" in diameter.

Y. Abandoned cable shall be removed from pathways (i.e., from tunnels, manholes, plenum spaces, and conduit) under scope of this project. Previously unknown or unidentified cable which is apparently abandoned prior to work shall be brought to the attention of the Owner for authorization prior to removal.

3.12 SYSTEM TESTING

A. The Contractor shall be responsible for separately testing and documenting the cables and termination throughout the entire cabling system. Ensure that the cable and equipment being installed in the system is without flaw and that no potential damage to the cable or equipment occurred in shipment, handling, or installation. The owner representative shall observe the testing of the installed cabling and terminations at any time during the testing process.

B. Test cables and termination hardware for defects in installation and to verify cabling system performance under installed conditions according to the requirements of ANSI/TIA/EIA-568-C. Verify pairs of each installed cable prior to system acceptance. Repair or replace any defect in the cabling system installation including but not limited to cable, connectors, feed through couplers, patch panels, and connector blocks in order to ensure 100 percent useable conductors in cables installed.

C. Testing of all installed unshielded twisted pair telecommunications cabling shall be performed by the Contractor. Interim testing of the cabling system during and after installation is encouraged to ensure that the testing and acceptance criteria are met.

D. Acceptance of the Telecommunications Cabling System shall be based on the quality of Contractor performance by analysis/inspection of the testing program documentation and the conformance of the system operation with the criteria described herein. Contractor shall make available all drawings and documentation prior to acceptance testing.

E. Contractor shall provide all necessary testing equipment for performing the required acceptance test. Contractor shall verify the authenticity and display appropriate calibration data to include the expiration date of the correct calibration.

F. Testing methods are provided herein as reference for the Contractor. Test equipment, methods, and criteria shall comply with the guidelines set forth in TIA TSB - 67 - Transmission Performance Specifications for Field Testing of Unshielded Twisted Pair Cabling Systems where applicable.

G. Copper Cable Testing:
   1. TEST TWISTED-PAIR copper cable links for continuity, pair reversals, shorts, opens and performance as indicated below. Additional testing is required to verify Category performance. Test cabling using a Level IV test unit for Category 6 performance compliance as specified in ANSI/TIA/EIA-568-C.
   2. CONTINUITY - Test each pair of each installed cable using a test unit that shows opens, shorts, polarity and pair-reversals, crossed pairs and split pairs. Test shielded/screened cables with a device that verifies shield continuity in addition to the above stated tests. Record the test as pass/fail as indicated by the test unit in accordance with the manufacturers' recommended procedures, and referenced to the appropriate cable identification number and circuit or pair number. Correct or repair any faults in the wiring and re-test the cable prior to final acceptance.

3. LENGTH - Test each installed cable link for installed length using a TDR type device. Test the cables from patch panel to patch panel, block to block, patch panel to outlet or block to outlet as appropriate. The cable length will conform to the maximum distances set forth in the ANSI/TIA/EIA-568-C standard. Record cable lengths, referencing the cable identification number and circuit or pair number. For multi-pair cables, record the shortest pair length as the length for the cable.
4. Test all equipment and each outlet, horizontal cable, termination block, patch cords, etc. to verify compliance with requirements. Testing shall consist of attenuation and NEXT across all splices and devices installed in the field and shall meet latest requirements of EIA/TIA. Re-terminate any cable or connection found to be defective.

H. Provide test results in electronic format, with the following minimum information per cable Tester is to be a Level IV device or better, and configured with the specific cable installed, and the Permanent Link test will be performed according to the Category's standard methodology.
1. All parameters must exhibit a PASS test result prior to project completion. PASS*, FAIL* or FAIL test results will not be accepted. Test Results for PASS test shall include the following:
a. Project Name
b. Date and Time of test (daily recording)
c. Circuit I.D. number with corresponding jack identifier
d. Applicable room number of jack location (per contract documents)
e. Applicable telecommunications room number
f. Test result, "Pass" or "Fail"
g. Wire Map – shall include the following:
1) Continuity to the remote end
2) Shorts between any two or more conductors
3) Crossed pairs
4) Reversed pairs
5) Split pairs
6) Any other mis-wiring
h. Length
i. Insertion Loss
j. Near-end Crosstalk (NEXT) Loss
k. PS-NEXT (Power Sum Near End Cross Talk)
l. FEXT (Far End Crosstalk)
m. ELFEXT (Equal Level Far End Cross Talk)
n. PS-ELFEXT (Power Sum Equal Level Far End Cross Talk)
o. Propagation Delay
p. Delay Skew
q. Return loss
r. PSFEXT (Power Sum Far End Crosstalk)

I. Category 6A
1. Only a permanent link test for Category 6A will be required.
2. All systems must pass Category 6A specifications and be accepted by the owner before the work will be considered complete.
3. Inter- and Intra-building tie cables: all tie cables will be tested for pass-fail connectivity ground continuity.
a. Testing of Category 6A cable shall meet TIA 568A Requirements.
b. The vendor must utilize a check-off list for reference by the owner during tests.
c. The result of the measurements outlined shall be recorded and submitted to the owner as final proof of system performance. Electronic results will be supplied in Fluke or equivalent format. If the owner requires specific software to view the results, the contractor will supply a copy of software to the owner.
4. Test Results for CAT6A shall include all of the above (3.12, H), plus the following:
a. AACRF (Alien Attenuation to Crosstalk Ratio, Far End)
b. AFEXT (Alien Far End Crosstalk)

c. ANEXT (Alien Near End Crosstalk)
d. PSANEXT (Power Sum Alien Near End Crosstalk)
e. PSAACRF (Power Sum Alien Attenuation to Crosstalk Ratio, Far End)

5. Approved Tester Products:
   a. Softing WireXpert series tester
   b. Fluke DTX or later platform Cable Certification testers
   c. Linkware Record Management Software

J. Fiber Test Documentation:
1. Provide electronic CD disk and hard copy test reports from ANSI/TIA/EIA-526-14A Method B Standards. Calculate a “Loss Budget” for each cable length based on cable length and connectors. Provide as a minimum, OTDR test results in the form of a printed waveform and text table for both 850 nm and 1300 nm for multimode fiber and 1350 nm and 1510 nm for singlemode fiber. Test fibers and connector systems for end-to-end attenuation. Provide a power meter test on fiber optic strands at both wavelengths A to B, B to A and OSPL (OSPL is as defined as La + Lb). Include the results of unsatisfactory tests, with an explanation of how the problem was corrected. Clearly label connector and fiber loss on test waveforms.
2. Each pre-terminated fiber strand shall be tested for continuity and attenuation with an Optical Power Meter and light source for actual length and splice/connector loss. Each field-terminated fiber strand (if any) shall be tested for attenuation with an Optical Power Meter and light source and with an Optical Time Domain Reflectometer (OTDR) for actual length and splice/connector loss.
3. Cable length shall be verified using sheath markings. The guidelines and procedures established for Tier 1 testing in TIA/TSB-140 shall apply.
4. All fiber optic cables shall be tested from the site’s MDF to each fiber terminals located in the IDF.
5. The Contractor shall conduct a bi-directional power meter (loss) test of each fiber optic station and riser cable at both wavelengths, 850/1300nm for MM and 1310/1550nm for SM.
6. No individual station or riser fiber link segment (including connectors) shall measure more than 2.0 dB loss for LC, and 1.5dB loss for MTP. LC links shall be tested with LC jumpers to the tester. MTP links shall be tested either with an MTP tester and array cord, or with an MTP-LC breakout harness and LC duplex fiber tester.
7. Tests shall be conducted using ANSI/TIA-526-14A, Method B. Test results evaluation for the panel to panel (backbone) shall be based on the values set forth in ANSI/TIA-568.
8. The Contractor shall provide an electronic printout for each strand tested with the Power Meter and the OTDR.
9. Where concatenated links are installed to complete a circuit between devices, the Contractor shall test each link from end to end to ensure the performance of the system. After the link performance test has been successfully completed, each link shall be concatenated and tested. The test method shall be the same used for the test described above. The evaluation criteria shall be established between the Owner and the Contractor prior to the start of the test.
10. The contractor shall perform all tests and adjustments, and shall furnish all test equipment necessary and perform all work required to determine or modify performance of the system in accordance with these specifications. The contractor will submit to the owner a complete test plan for Station Wiring/Information outlet (Voice, Data and Network), and Riser Cable to be used for this contract. At a minimum, the plan should show test configurations, calibration procedures, impedances, and measurement equipment. This plan must be approved by the owner prior to the start of testing. The test plan is a one-time requirement and will remain in effect for the duration of this contract unless specifications change requiring a re-submittal. The scope of this work includes, but is not limited to, the following:
    a. Test all fiber with an OTDR, Microtest Certifiber or equal, prior to installation while fiber

is still on the shipping reel, using an optical time domain reflectometer (OTDR) or a 850/1300/1510 nm power meter and stabilized light source. Compare test results to the manufacturer's tests. A discrepancy of more than 1 dB on any fiber in either window indicates possible shipping damage and the fiber must be returned to the supplier. Contractor shall keep test results on file for future reference.

b. Test all fiber after installation according to procedures and criteria described in TIA 455A and all applicable addenda after installation and termination using an OTDR in one direction and an 850/1300/1510nm power meter and stabilized light source in both directions and in both optical windows.
c. All optical test equipment must have current, traceable calibration certification.

3.13 DELIVERABLES

A. Operating and maintenance manuals shall be submitted prior to testing of the system. A total of (4) manuals shall be delivered to the Owner. Manuals shall include all service, installation, and programming information.

B. Four (4) copies of the general Copper, Category 6A, and Fiber ODTR results shall be submitted in a tabular, typewritten format at the completion of system testing. The test results must also be provided in an electronic file for future reference.

C. Cable test results shall be submitted in hard copy and magnetic format along with viewing software from the tester manufacturer. Hard copy to be bound within loose leaf binder and organized by serving MDF or IDF, room number of outlet location, and station identifier.

D. Contractor to provide all warranty information to APPROVED MANUFACTUER for processing. MANUFACTURE will send warranty document direct to Owner.

3.14 RECORD DRAWINGS

A. All drawings shall be submitted in hard copy with all field changes and contractor labeling indicated in red line updates. Upon completion of the project, Contractor shall deliver to Owner documentation of the project to include.

B. As-built telecommunications floor plans of the facility with cable, outlet placement and full labels clearly depicted.

C. As-built elevations of all termination fields describing cable and outlet location labeling scheme, and any changes to the wall elevations and conduit placements in the IT rooms will be recorded on as-built drawings

D. As-built logical riser diagram describing connectivity and cable sizes, for copper, fiber and grounding cabling systems. Diagram shall include as-built labeling of all OSP and rise cables.

E. Provide a full set of "as-built" (redline) drawings in AutoCAD DWG and PDF format. Drawings to depict final location and drop/cable identification numbers and labels which match the test reports. Include (1) hard copy paper format of all as-builts in a laminated 30"x42" size or equivalent, posted in each telecom room involved in the project.

END OF SECTION

GENERAL

1.1 SUMMARY:

A. Provide and install sand-set brick pavers for pedestrian traffic as described on the Drawings and specified herein. Scope includes delivery of brick pavers to, and pick-up from, Owner's vendor for engraving.

1.2 GENERAL REQUIREMENTS:

A. This Section shall be performed in accordance with the General Conditions, Supplementary Conditions and all Sections in Division 1 of these Specifications. These documents must be read with the other Contract Documents and Sections as a whole to complete the intent of the contract.

1.3 SUBMITTALS:

A. Make submittals to the Architect in accordance with the provisions of Section 01 33 23 of these specifications.

1. Submit for architect's approval a test report and certificate of conformance for each type and color of brick specified on the Contract Documents.
2. Test reports shall include:
    a. Compressive strength
    b. Modulus of Rupture
    c. 24 hour cold water absorption
    d. 5 hour boil
    e. Saturation coefficient
    f. Initial rate of absorption
    g. Efflorescence
    h. Weather classification
    i. Paver type
3. Certificate of conformance shall state that brick meet or exceed applicable ASTM specifications indicated therein.

B. Samples and Sample Panel

1. Submit no fewer than five (5) full brick samples as specified. Architect will use samples to confirm color/texture selection, and samples will be tested for engraving by Owner's vendor.
2. A 4'x 4' sample panel shall be set up at the job site showing the proposed color range, texture, bond, and workmanship.
3. Brick for final installation shall not be shipped from the manufacturer to the site until architect's acceptance of the sample panel.

1.4 DELIVERY

A. Contractor shall be responsible for delivering 66% of the bricks to be installed to the Owner's vendor for engraving prior to installation.

1. Owner's vendor: Cache Creek Monuments, 339 County Road 98, Woodland, CA 95695. (530) 662-4450.

B. Bricks shall be delivered to the Owner's vendor no later than three weeks prior to scheduled installation of brick pavers at the jobsite.

C. Contractor shall be responsible for picking up engraved bricks from the Owner's vendor and returning them to the jobsite for installation.

PRODUCTS

2.1 MANUFACTURER

A. All brick pavers shown on the Contract Documents shall be Wire-cut True Paver, Dusty Rose, as manufactured by H.C. Muddox, 4875 Bradshaw Road, Sacramento, CA 95827-9727, or equal.

1. Maximum permissible variation on length: 1/8"
2. Maximum permissible variation on width and height: 1/16"

B. Light Traffic brick shall conform to ASTM C902 Class SX, Type 1.

1. Minimum compressive strength: 8000 psi
2. Maximum cold water absorption: 8%
3. Maximum saturation coefficient: 0.78
4. Maximum abrasion index: 0.11

2.2 BEDDING AND JOINTING SAND

A. Bedding sand should be washed free from deleterious or foreign materials, well graded, angular, concrete sand conforming to ASTM C33 with a 3/16 inch maximum aggregate size.

B. Joint Sand Stabilizer: use SUREBOND Joint Stabilizer, or equal.

2.3 GRAVEL

A. Gravel base materials for pedestrian and light vehicular traffic should be well graded conforming to ASTM D2940

2.4 GEOTEXTILE FILTER

A. Mirafi 700X geotextile fabric below sand bed to control fine sands from migrating into subgrade.

2.5 EDGE RESTRAINT

A. Cast-in-place concrete mow band per plans.

EXECUTION

3.1 INSTALLATION – FLEXIBLE PAVEMENTS

A. Install all utilities, pipes, and subsurface drainage prior to installing the base or subbase. Unsuitable, unstable materials should be removed and replaced with suitable materials.

B. Spread and compact base materials in uniform layers not exceeding 4 inches. Compact to 95% maximum density.

C. Place geotextile fabric in accordance with manufacturer's instructions.

D. Place and screed the bedding sand to the specified contours. Bedding sand should not be used to fill large voids in the base course.

E. Install brick pavers in the pattern indicated on the Drawings.

F. Compact the surface of the brick using a mechanical plate vibrator. After the initial compaction, sweep fine jointing sand over the surface of the brick and recompact.

G. Remove surplus jointing sand.

3.2 CLEANING

A. Clean brick pavement using mild detergents and the 'bucket and brush' method recommended by BIA Technical Note #20R.

END OF SECTION 32 14 16

SECTION 32 15 40

DECOMPOSED GRANITE PAVING

PART 1 – GENERAL

1.01 SCOPE OF WORK

A. Section includes: Decomposed granite paving.

1.02 SUBMITTALS

A. Submit the following in accordance with SECTION 01 33 00 – SUBMITTAL PROCEDURES

1. Product data for decomposed granite and herbicide.

2. Samples: Half (1/2) a pound for each size and color range of decomposed granite.

3. Mock-up: Three foot by three-foot sample, full depth to match finish condition.

1.03 QUALITY ASSURANCE

A. Qualifications: Submit certified documentation of successful experience of no less than three (3) years in the installation of similar crushed stone paving.

B. Performance standards: Compaction in accordance with ASTM D 1557.

PART 2 – PRODUCTS

2.01 DECOMPOSED GRANITE:

A. ¼" minus aggregate surface:

	Screen size	Passing
	3/8"	100
(a)	No. 4	95-100
(b)	No. 8	75-80
(c)	No. 16	55-65
(d)	No. 30	40-50
(e)	No. 50	25-35
(f)	No. 100	20-25
(g)	No. 200	5-15

B. Color: "Granite Gold" as distributed by:

1. C L Smith Trucking
37763 State Highway 16
Woodland, CA 95695-2845
(530) 662-2633

or approved equal.

2.02 STABILIZER:

A. Non-toxic organic binder that is a colorless, odorless concentrated powder that naturally binds Crushed Aggregate Screenings (CAS) to produce a firm surface,

B. Manufactured by:

1. Stabilizer Solutions
33 S 28th Street
Phoenix, AZ 85034
602.225.5900
info@stabilizersolutions.com

or approved equal

2.03 WATER:

A. Clean, fresh, potable water.

PART 3 - EXECUTION

3.01 GENERAL

A. After completion of soil sterilization, compact sub-grade to minimum 90% compaction or as otherwise noted in soils report.

3.02 STABILIZED DECOMPOSED GRANITE PAVING:

A. Sub-grades shall be rough graded to within 0.1 ft. of finish grade less depth of decomposed granite paving.

B. Lines and levels:

1. Install in maximum 2” lifts.

2. Provide a finished surface uniform in texture and appearance. Do not permit finished work to vary more than 1/8” in 10 ft. from true profile and cross section.

C. Mixing:

1. Paving shall consist of a mixture of decomposed granite, stabilizer and water, using batch-type equipment with revolving blades or drum. Mix at a rate of 8 lbs. of stabilizer per ton of crushed aggregate screenings.

2. Adjust quantity of water added to the mixture to permit maximum compaction o0f the materials when placed on the sub-grade. Moisture shall permeate full depth. After water application test with a minimum of one core sample per 1,000 sq. ft.; repair sample area to match adjacent section.

3. The stabilizer shall be mixed for a minimum of 15 minutes at the rate noted, using a truck mounted mixer or portable mixer. Mixing stabilizer by rototilling is not acceptable.

D. Compacting: Thoroughly compact each lift to a minimum 90 percent with a 5 ton roller. Compact each area with at least 4 passes of the compacting equipment. After compacting, screed smooth. Do not use a wacker or vibratory roller to compact the D.G.

E. Grading: When surface areas have been rolled and it becomes necessary to add a thin layer of material to bring the surface to grade, the previously rolled or compacted area shall be raked to provide a bond with the added material.

F. Finish paving surface: Provide a uniform texture and color and without a cement mortar film on the exposed surface. Finish surface shall not vary more than 0.02 foot from the lower edges when measured with a 19-foot straight edge.

G. Curing: After installation, keep moist for a period of seven days. Apply water in a fine mist or spray and in such a manner that it will not damage the finished surface.

H. Damaged or defective installation: Repair and replace in accordance with these Specifications at no additional cost to the Owner.

I. If compression tests of samples fail to meet specified compressive strength, immediately remove and replace decomposed granite paving with material conforming to this Specification at not cost to Owner.

J. For each lift, have the testing laboratory verify the degree of compaction at no cost to Owner. Recompact field areas until specified compaction is achieved.

END OF SECTION 32 15 40

PART 1 - GENERAL

1.01 CONDITIONS

A. The general provisions of the Contract, including General and Supplementary Conditions and General Requirements apply to the work specified in this Section.

1.02 SCOPE OF WORK

A. Furnish all labor, materials, and equipment necessary to complete the irrigation system work as indicated on the Contract Documents and specified herein.

B. Test the entire irrigation system to assure proper operation.

1.03 QUALITY ASSURANCE & REQUIREMENTS

A. The Contractor shall obtain and pay for any and all permits, fees and all observations as required.

B. The manufacturers' directions and the Contract Documents shall be followed. In any and all cases where the manufacturer of an article used in this Contract furnishes directions covering points not shown in the Contract Documents or Specifications, the manufacturer's directions shall be followed.

C. Ordinances and Regulations

1. All local, municipal and state laws, and rules and regulations governing or relating to any portion of this work are hereby incorporated into and made a part of these Specifications and their provisions shall be carried out by the Contractor. Anything contained in these Specifications shall not be construed to conflict with any of the above rules and regulations or requirements of the same. However, when these Specifications and Contract Documents call for or describe materials, workmanship, or construction of a better quality, higher standard, or larger size than is required by the above rules and regulations, the provisions of the Specifications and Contract Documents shall take precedence.

2. The materials and work of this section shall conform to all applicable provisions of the latest editions of the California Plumbing Code, the National Electrical Code, and all codes properly governing the materials and work at the project site.

3. All electrical materials and work shall conform to California Code of Regulations, Title 24.

4. Work referenced in this section shall comply with the Owner or Local Agency Standards for water meters and backflow preventers.

5. A Certificate of Completion is required per the California Model Water Efficient Landscape Ordinance (MWELO), §492.9, upon the completion of the installation of all landscape improvements.
   a. An inspection (inspections) by the signer of the landscape design plan, signer of the irrigation plans, or the licensed landscape contractor to verify the installation has been completed per the plans (MWELO §492.9.a.1.E.2). Items noted for correction shall be completed by the Contractor, at no additional cost.
   b. An irrigation inspection, audit, and audit report is required upon the completion of the installation of all landscape improvements, and must be submitted with the Certificate of Completion (MWELO §492.12). Fee for the first audit is a part of this Contract. If

additional audits are required due to improper installation, the Contactor will be responsible for any additional audit fees.

c. All landscape irrigation audits shall be conducted by a local agency landscape irrigation auditor or third-party certified landscape irrigation auditor. Landscape audits shall not be conducted by the person who designed the landscape or installed the landscape. (MWELO §492.12.a.)

D. Explanation of Contract Documents

1. All offsets, fittings, sleeves, etc., which may be required are not indicated. Carefully investigate the structural and finish conditions affecting all of the work and plan the work accordingly furnishing such fittings; etc., as may be required to meet such conditions. Contract Documents are generally diagrammatic and indicative of the work to be installed. Due to the scale of the Contract Documents, it is not possible to indicate all offsets, fittings, sleeves, etc., which may be required to complete the irrigation system.

2. Before proceeding with any work, the Contractor shall check and verify all dimensions and quantities and shall immediately inform the Owner's Representative of any discrepancy between the drawing and/or the Specifications and actual conditions. No work shall be done in any area where there is such a discrepancy until written approval for the same has been given by the Owner's Representative. The Contractor shall assume full responsibility for work installed without approval.

3. The materials and work shall be installed in such a manner as to avoid conflicts between irrigation system and planting, existing or proposed utilities, and all other construction features.

4. Contractor shall verify prior to and during construction, that his contract documents reflect the latest revisions, change orders, and plan checks. Contractor shall be able to produce such documents at the request of the Owner's Representative at any time during construction.

5. Pipe sizes indicated on the Contract Documents are minimum allowable.

1.04 EXISTING CONDITIONS

A. Contractor shall verify locations of all existing utilities, whether shown on plans or not. The Contractor shall notify members of C.G.A two (2) working days in advance of performing any excavation work by calling the toll-free number 811.

B. Information on the Contract Documents relative to existing conditions is approximate only. Deviations found necessary during construction to conform to actual conditions, as approved by the Owner's Representative, shall be made without additional cost.

C. Exercise extreme care in excavating and working near existing utilities. Contractor shall be responsible for damages to existing utilities, which are caused by his operation or neglect and shall pay all costs to repair or replace utilities damaged by his work.

D. Where it is necessary to excavate adjacent to an existing tree, the Contractor shall use all possible care to avoid injury to trees and tree roots. Excavation in areas where two (2) inch and larger roots occur shall be done by hand. All roots two (2) inches in diameter, except directly in the path of a pipe conduit, shall be tunneled under and shall be heavily wrapped with burlap to prevent scarring or excessive drying. Where a ditching machine is run close to trees having roots smaller than two (2) inches in diameter, the wall of the trench adjacent to the tree shall be hand-trimmed, making clean cuts through. Trenches adjacent to trees should be closed within 24 hours, and where this is not possible, the side of the trench

adjacent to the tree shall be kept shaded with burlap or canvas. In case of damage to existing trees, the Contractor shall forfeit an amount in proportion to extent of damage determined by the Owner, which amount shall not exceed $10,000 per tree total loss.

1.05 SUBMITTALS

A. Material List

1. Contractor shall furnish the articles, equipment, materials, or processes specified by name in the Contract Documents and Specifications, prior to ordering or performing any work.

2. Refer to specifications section 01 33 00 Submittal Procedures for the format and quantity of the submittal, and the submittal procedure.

3. Equipment or materials installed or furnished without prior approval of the Owner's Representative shall be rejected and the Contractor required to remove such materials from the site at his own expense.

4. Approval of any item, alternate or substitute indicates only that the product or products apparently meet the requirements of the Contract Documents and Specifications on the basis of the information or samples submitted. The Contractor shall assume full responsibility (in written form) for the performance of any substitutions. The Owner's Representative's decision for approval or rejection of any substitution is final.

A. As-Built/Record Contract Documents

1. The Contractor shall be responsible for preparing As-Built Contract Documents.

2. The Contractor shall dimension from two (2) permanent points of reference, building corners, sidewalk, or road intersections, etc., the location of the following irrigation items:
   a. Controller(s) location(s).
   b. Controller(s) connection(s) to existing electrical power.
   c. Connection(s) to existing water lines /(Point of Connection, POC).
   d. Routing of irrigation pressure lines and irrigation control wiring (dimensions each 100' or less along routing).
   e. Water line sleeves and wire conduit.
   f. Water meter and backflow preventer.
   g. Master valve(s) and flow sensor(s).
   h. Gate valves.
   i. Quick-coupling valves.
   j. Irrigation control valves.
   k. Other related equipment as directed by the Owner's Representative.

3. On or before the date of the final observation, the Contractor shall deliver the corrected and completed As-Built Contract Documents to the Owner's Representative. Delivery of the As-Built Contract Documents shall not relieve the Contractor of the responsibility of furnishing required information that may be omitted from the As-Built Contract Documents.

B. Controller Charts

1. As-Built Contract Documents shall be approved by the Owner's Representative before controller charts are prepared.

2. Provide one (1) controller chart for each controller supplied.

3. The chart shall show by using a different color, the area controlled by each remote control valve. Chart shall be the maximum size, which the controller door will allow.

4. The chart shall be a reduced drawing of the actual record drawing system. In the event the controller sequence is not legible when the drawing is reduced, it shall be enlarged to a size that is readable.

5. When completed and approved, the chart shall be hermetically sealed between two (2) pieces of plastic, each piece being a minimum ten (10) mils thick.

6. These charts shall be completed and approved prior to final observation of the irrigation system.

C. Operation and Maintenance Manuals

1. Prepare and deliver two (2) operation manuals as specified and as follows:
   a. Catalog and parts sheets on every material and equipment installed under this contract.
   b. Guarantee statement.
   c. Complete operating and maintenance instructions on all major equipment.

2. In addition to the above-mentioned maintenance manuals, provide evidence in writing to the Owner's Representative at the conclusion of the project that the above services have been rendered.

D. Equipment to be Furnished

1. Supply as a part of this Contract the following tools:
   a. Two (2) sets of special tools required for removing, disassembling and adjusting each type of sprinkler and valve supplied on this project.
   b. Two (2) five (5) foot valve keys for operation of gate valves.
   c. Two (2) keys for each automatic controller.
   d. Two (2) quick coupler keys and matching hose swivels for each type of quick coupling valve installed.
   e. Two (2) Sprinklers (with complete set of nozzles) of each type specified.
   f. Two (2) valve box keys.

2. The above-mentioned equipment shall be turned over to the Owner at the conclusion of the project. Before final observation can occur, written evidence that the owner has received material must be provided to the Owner's Representative.

1.06 PRODUCT DELIVERY, STORAGE AND HANDLING

A. Handling of PVC Pipe and Fittings: The Contractor is cautioned to exercise care in handling, loading, unloading, and storing of PVC pipe and fittings. All PVC pipe shall be transported in a vehicle which allows the length of pipe to lie flat so as not to subject it to undue bending or concentrated external load at any point. Any section of pipe that has been dented or damaged will be discarded and if installed replaced with new.

1.07 GUARANTEE

A. The guarantee for the irrigation system shall be made in accordance with the form shown in this document. A copy of the guarantee form shall be included in the operations and maintenance manual. The guarantee form shall be re-typed onto the Contractor's letterhead and contain the following information:

GUARANTEE FOR IRRIGATION SYSTEM

We hereby guarantee that the irrigation system we have furnished and installed is free from defects in materials and workmanship, and the work has been completed in accordance with the Contract Documents and Specifications, ordinary wear and tear and unusual abuse or neglect excepted. We agree to repair or replace any defects in material or workmanship which may develop during the period of one (1) year from date of final acceptance and also to repair or replace with originally specified materials. Any damage resulting from the repairing or replacing of such defects will be repaired at no additional cost to the Owner. We shall make such repairs or replacements within a 48 hour period, after receipt of written notice. In the event of our failure to make such repairs or replacements within said period of time after receipt of written notice from the Owner, we authorize the Owner to proceed to have said repairs or replacements made at our expense and we will pay the costs and charges therefore upon demand.

PART 2 - PRODUCTS

2.01 MATERIALS

A. General: Use only new materials of brands and types noted on the Contract Documents specified herein or approved equals.

B. Backfill Material

1. Existing site material, if approved by the Owner's Representative, shall be used for backfill material. Backfill material shall be free from organic materials, large clods of earth or rocks larger than one (1) inch diameter, trash, debris, rubbish, broken cement, asphalt material, and other objectionable substances.

2. Imported backfill material, if required, shall be clean soil consisting of earth, sand, sandy clay, loam, or other approved materials, with no large clods of earth or rocks larger than one (1) inch diameter.

3. Sand bedding shall be a fine, granular sand material backfill containing no foreign matter larger than one-half (1/2) inch in size.

C. Drainage Fill Material

1. Drainage fill material shall be maximum three-quarter (3/4) inch washed and screened aggregate, consisting of hard and durable fragments of screened or broken stone or gravel.

D. Irrigation Pipe Sleeving

1. PVC Schedule 40 pipe 2 times the diameter of pipe being sleeved.

E. PVC Pressure Main Line Pipe and Fittings.

1. Pressure main line piping for sizes one-and one-half (1-1/2) inch and smaller shall be PVC Schedule 40 with solvent-welded joints.
   a. Pipe shall be made from NSF approved Type I, Grade I, PVC compound conforming to ASTM resin specification D1785. All pipe shall meet requirements set forth in Federal Specification PS-21-70. (Solvent-weld Pipe).

2. Pressure main line piping for sizes two (2) inches through four (4) inches shall be PVC Class 315 with solvent weld joints.
   a. Pipe shall be made from an NSF (National Sanitation Foundation) approved Type I, Grade I, PVC compound conforming to ASTM resin specification D1784. All pipe shall meet requirements as set forth in Federal Specification PS-22-70, with an appropriate standard dimension ratio (S.D.R./ (Solvent-weld Pipe).

3. PVC solvent-weld fittings shall be Schedule 40, NSF approved conforming to ASTM D2466.

4. Solvent cement and primer for PVC solvent-weld pipe and fittings shall be of the type and installation methods specified by the manufacturers for each type of pipe.

5. All PVC pipe shall be marked continuously and permanently with the following information: Manufacturer's name, nominal pipe size, schedule or class of pipe, pressure rating in P.S.I. extrusion, NSF approval and date of extrusion.

6. All fittings shall bear the manufacturer's name or trademark, material designation, size, applicable I.P.S. schedule and NSF seal of approval.

F. PVC Non-Pressure Lateral Line Piping

1. Non-pressure buried lateral line piping shall be PVC Class 200 with solvent-weld joints.
   a. Pipe shall be made from NSF approved, Type I, Grade II, PVC compound conforming to ASTM resin specification D1784. All pipe shall meet requirements set forth in Federal Specification PS-22-70, with an appropriate standard dimension ratio.

2. Except as noted in paragraph 1 of Section 2.01F, all requirements for non-pressure lateral line pipe and fittings shall be the same as for solvent-weld pressure main line pipe and fittings as set forth in Section 2.01E of these Specifications.

3. All offsets shall be a minimum three-quarter (3/4) inch unless contractor receives written approval from the Owner’s Representative.

G. PVC Threaded Nipples: PVC Schedule 80.

H. Automatic Controllers

1. Automatic controllers shall be of size and type shown on the Contract Documents.

I. Control Wiring

1. Connections between the automatic controllers and the electric control valves shall be made with direct burial copper wire AWG-U.F. 600-volt. Pilot wires shall be a different color wire for each automatic controller. Common wires shall be white with a different color stripe for each automatic controller. Size wire in accordance with valve manufacturer's specifications and wire chart. In no case shall wire size be less than #14.

2. All wire connections shall be made with direct-bury wire connector 3M DBR/Y-6, RainBird WC100, or approved equal.

J. Tracer Wire
1. Open-Trench Installation: direct burial #12 AWG Solid (0.0808” diameter), copper-clad steel core soft drawn tracer wire, 250# average tensile break load, 30 mil high molecular-high density polyethylene jacket complying with ASTM-D-1248, 30 Conductive Trace Wire for Nonmetallic Pipe Installation. Color shall be “blue” for domestic water (potable) pipelines and “purple” for raw water (non-potable) pipelines. Manufactured by Copperhead Industries part number 1230-SF, or approved equal.

K. Control Wire Conduit

1. Gray PVC Schedule 40 electrical conduit ASTM F-512 size as required.

L. Electric Remote Control Valves

1. All electric remote control valves shall be of the same type, manufacturer and sizes as indicated on the Contract Documents and/or as specified herein or approved by the Owner’s Representative.

2. All remote control valves shall have a manual flow adjustment.

M. Electric Remote Control Valve Boxes

1. Valve Box shall be Old Castle Infrastructure Carson Spec Grade Model #1220, 12” x 20” rectangular plastic valve box with bolt down green cover.

N. Sprinklers

1. All sprinklers shall be of the same size, type and deliver the same rate of precipitation with the diameter (or radius) of throw, pressure, and discharge as shown on the plans and/or specified herein, or approved by the Owner’s Representative.

2. Sprinklers shall have a screw radius adjustment.

O. Backflow Prevention Units

1. Backflow prevention units shall be of size and type indicated on the irrigation Contract Documents.

2. Backflow prevention device shall meet the performance Specifications of AWWA, ASSE, IAMPO, the USC Foundation for Cross Connection Control, Public Health Officials and Sanitary Engineers.

3. Contractor shall provide, as part of the contract, a weatherproof commercial insulation bag, green color, of an appropriate size for the specified unit.

P. Brass Pipe and Fittings

1. Where indicated on the Contract Documents, use red brass threaded pipe conforming to Federal Specification WW-P-351.

2. Fittings shall be red brass conforming to Federal Specification WW-P-460.

Q. Gate Valves

1. Gate valves 2-1/2-inch and smaller shall be bronze with threaded ends and be 200 WOG and equipped with a bronze hand wheel, screw-in bonnet non-rising stem and solid wedge disc.

2. Gate valves 3-inch and greater in size shall be Class 125 iron body with bronze trim and flanged ends. Non-rising stem shall have a square operating unit.

R. Gate Valve Box

1. Gate Valve Box shall be Old Castle Infrastructure Carson Spec Grade Model #1220, 12” x 20” rectangular plastic valve box with bolt down green cover.

S. Quick Coupling Valves

1. Quick coupling valves shall have a brass two-piece body designed for working pressure of 125 P.S.I. operable with quick coupler. Key size and type shall be as shown on the Contract Documents.

T. Quick Coupling Valve Box

1. Quick coupling valve box shall be Old Castle Infrastructure Carson Spec Grade Model #910, 10” round plastic valve box with bolt down green cover or approved equal. Install extension if required.

U. ADV (Anti-drain valves) / Check Valves

1. Anti-drain valves shall be of heavy-duty virgin PVC construction with F.I.P. thread inlet and outlet. Internal parts shall be stainless steel and neoprene. Anti-drain valves shall be field adjustable against drainout from 5' to 40' of head. The anti-drain valve shall be similar to the Valcon ADV or approved equal.

2. Sprinkler heads with internal check valves shall be installed to eliminate low head drainage.

V. Drip Equipment, In-line

1. The emitter line shall be polyethylene and have an in-line, pre-installed drip emitter every eighteen (18") inches. Each emitter shall be individually pressure compensating, self flushing and have a discharge rate of 0.92 gallons per hour.

2. Filter shall be a disc type with a minimum 140 mesh filtration.

3. Manual flush valve shall be a hydraulic type, normally open valve allowing for manual flushing as required to clear the lines as needed.

W. Master Valve

1. Master valves shall be normally closed with a 24 V solenoid with size and type as shown on the Contract Documents.

X. Master Valve Box

1. Master Valve Box shall be Old Castle Infrastructure Carson Spec Grade Model #1220, 12” x 20” rectangular plastic valve box with bolt down green cover or approved equal. Install extension if required.

B. Flow sensor shall be an insertion type with a nonmagnetic spinning impeller (paddle wheel) as the only moving part. The sensor shall operate in flow of one (1) foot per second up to thirty (30’) feet per send. The sensor shall be as specified on the Plan.

1. Flow sensor cable shall be constructed of 20 AWG or larger copper conductors twisted into pairs of verifying lengths to prevent crosstalk. Conductors shall be insulated with Polyethylene or Propylene with a suggested working voltage of 350 volts. The cable shall feature an aluminum-polyester shield and be finished with high density Polyethylene Jacket. The cable should be equivalent to Manhattan type M390109.

2. Flow sensor cable connections shall be made with direct-bury wire connector 3M DBR/Y-6, Rainbird DBRY, or approved equal.

C. Flow Sensor Box

1. Flow Sensor Box shall be Old Castle Infrastructure Carson Spec Grade Model #1220, 12” x 20” rectangular plastic valve box with bolt down green cover or approved equal. Install extension if required.

PART 3 - EXECUTION

3.01 OBSERVATION OF SITE

A. Site Conditions

1. All scaled dimensions are approximate. The Contractor shall check and verify all site dimensions and notify the Owner's Representative if site conditions have changed.

2. The Contractor shall carefully check all grades to satisfy him that he may safely proceed before starting work on the irrigation system.

3.02 PREPARATION

A. Physical Layout

1. Prior to installation, the Contractor shall stake out all pressure supply lines, routing and location of sprinkler heads.

2. All layouts shall be approved by the Owner's Representative prior to installation. If equipment is incorrectly located without said approval, it is the Contractor's responsibility to relocate it as per the Owner's Representative's directions without additional cost.

3.03 WATER AND ELECTRICAL SERVICES

A. Water Supply

1. Irrigation system shall be connected to water supply points of connection as indicated on the Civil Contract Documents. Field verify connection point. Contractor is responsible for any changes caused by actual site conditions. Notify Owner's Representative in writing of any discrepancies prior to beginning construction.

B. Electrical Supply

1. Contractor shall provide all materials and connections to supply electrical power for irrigation controllers and pump stations.

2. Connection shall be made at approximate location(s) as indicated on the Electrical Contract Documents. The Contractor is responsible for minor changes caused by actual site conditions and for the coordination of all electrical service connections to the controller(s).

3. All electrical work and materials shall conform to local codes, ordinances and governing authorities having jurisdiction.

4. 120-volt power connection to the automatic controller shall be provided by the Contractor. The Contractor shall provide all materials and connections to supply power to the controllers.

3.04 INSTALLATION

A. Trenching: Dig trenches straight and support pipe continuously on bottom of trench. Lay pipe to an even grade. Trenching excavation shall follow layout indicated on the Contract Documents and as noted. Provide the following minimum depths:

1. Non-constant pressure lateral lines: twelve (12) inches cover

2. Constant pressure main lines: eighteen (18) inches cover

3. In-line drip emitter and polyetheline drip distribution tubing: four (4) inches cover

4. Control wiring: eighteen (18) inches cover

5. All lines and wires under auto circulation: twenty-four (24) inches of cover

B. Backfilling

1. The trenches shall not be backfilled until all required tests are performed. Trenches shall be carefully backfilled with the excavated materials approved for backfilling. Backfill shall be mechanically compacted in landscaped areas to a dry density equal to adjacent undisturbed soil in planting areas. Backfill shall conform to adjacent grades without dips, sunken areas, humps or other surface irregularities.

2. Where excavated native soil contains greater then 50% rock or other material one (1) inch diameter or larger, imported backfill or sand bedding shall be placed three (3) inches in depth around all pipes.

3. Flooding of trenches shall be permitted only with approval of the Owner’s Representative.

4. If settlement occurs and subsequent adjustments in pipe, valves, sprinklers heads, lawn or planting, or other construction are necessary, the Contractor shall make all the required adjustments, at the Contractor's expense.

C. Trenching and Backfilling Under Paving

1. Trenches located under areas where paving, asphaltic concrete or concrete shall be installed, shall be backfilled with sand (a layer six (6) inches below the pipe and three (3) inches above the pipe and compacted in layers to 90% compaction, using manual or mechanical tamping devices). All trenches shall be left flush with the adjoining grade. The Contractor shall set in place, cap and pressure test all piping under paving prior to the paving work.

2. Generally piping under existing walks is done by jacking, boring or hydraulic driving, but where any cutting or breaking of sidewalks and/or concrete is necessary, it shall be done and replaced by the Contractor as part of the Contract cost. Permission to cut or break sidewalks and/or concrete shall be obtained from the Owner. No hydraulic driving shall be permitted under concrete paving.

D. Sleeving

1. Install all irrigation and/or electrical sleeving as indicated on the Contract Documents. Contractor shall coordinate the installation of sleeving with the work of other trades.

E. PVC Pipe

1. Routing of irrigation pipe as indicated on the Contract Documents is diagrammatic. Install lines and various assemblies to conform with the details shown on the Contract Documents.

2. Install no multiple assemblies on plastic lines. Provide each assembly with its own outlet.

3. Install all assemblies specified herein in accordance with respective detail. In absence of detail Contract Documents or Specifications pertaining to specific items required to complete work, perform such work in accordance with best standard practice with prior approval of the Owner’s Representative.

4. PVC pipe and fittings shall be thoroughly cleaned of dirt, dust and moisture before installation. Installation and solvent welding methods shall be as recommended by the pipe and fitting manufacturer.

5. PVC pipe shall be installed so that there will be a small amount of excess length in the pipe to compensate for contraction and expansion of the pipe. This shall be accomplished by "snaking" the pipe in the trench during installation.

6. On PVC to metal connections, the Contractor shall work the metal connections first. Teflon tape or approved equal shall be used on all threaded PVC to PVC, and on all threaded PVC to metal joints. Light wrench pressure is all that is required. Where threaded PVC connections are required, use threaded PVC adapters into which the pipe may be welded.

7. In changing pipe depth, 45° elbows shall be used.

8. Install tracer wire on top of mainline. Solder all splices.

F. Line Clearance

1. All lines shall have a minimum clearance of three (3) inches from each other and from lines of other trades. Parallel lines shall not be installed directly over one another.

G. Automatic Controller

1. Install as per the irrigation details and manufacturer's specifications.

2. Controller shall be securely mounted in the location as indicated on the Contract Documents or approved by the Owner’s Representative in such a manner that all normal operations can be conveniently made by the operator.

3. The Contractor shall properly ground the controllers in accordance with local codes.

4. The Contractor shall take all control wires to the controller and make all required connections for their installation.

5. All electrical and control wires installed above ground shall be placed in metal conduit or other approved materials and securely mounted. Paint conduit as per the Owner’s Representative's directions and/or as indicated on the Contract Documents.

H. Control Wiring

1. Wiring shall occupy the same trench and shall be installed along the same route as pressure supply or lateral lines wherever possible.

2. Where more than one (1) wire is placed in a trench, the wiring shall be taped together at intervals of ten (10) feet.

3. An expansion curl shall be provided within three (3) feet of each wire connection. Expansion curl shall be of 18 inches in length at each splice connection and at each electric control, so that in case of repair, the valve bonnet may be brought to the surface without disconnection of the control wires. Control wires shall be laid loosely in trench without stress or stretching of control wire conductors.

4. All control wire spliced shall be completely waterproof.

5. Use one splice per connector sealing pack.

I. Electric Remote Control Valves

1. Install as per the irrigation details and manufacturer's specifications.

2. Install where shown on Contract Documents. Locate valve boxes 12 inches from walk, curb, headerboard, etc., for easy access. Boxes shall be uniformly aligned and oriented relative to hardscape.

3. Install one (1) remote control valves per valve box. Provide extension units as required. Install valve boxes in shrub planting areas whenever possible.

4. Provide eighteen (18) inch expansion loop at all electrical connections within control valve boxes.

J. Flushing of System

1. After new irrigation pipe lines and risers are in place and connected, all necessary diversion work is complete, and prior to installation of irrigation heads, the control valves shall be opened and a full head of water shall be used to flush out the system.

K. Sprinklers

1. Install the sprinklers as detailed on the Contract Documents. Irrigation sprinklers to be installed in this work shall be as per approved submittals.

2. Spacing of sprinklers shall not exceed the maximum indicated on the Contract Documents. In no case shall the spacing exceed the maximum recommended by the manufacturer.

3. Contractor shall install turf sprinklers where adjacent to fixed objects such as headerboards, curbs, or mowing strips, so that power edging tools can pass between the turf sprinkler and the fixed object without difficulty.

4. Riser units shall be fabricated in accordance with the irrigation details.

5. Riser nipples for all sprinklers shall be the same size as the riser opening in the sprinkler body.

6. Install sprinklers with internal check valves as required to eliminate low head drainage.

L. Backflow Preventer

1. Install backflow prevention assemblies as detailed on the Contract Documents and as per all applicable local governing codes and ordinances.

2. Do not locate assemblies in turf areas. Assemblies shall be screened with plant materials, as indicated on the Contract Documents and as directed by the Owner’s Representative.

3. Do not use PVC piping in backflow prevention assemblies.

4. Exact location of unit shall be approved by the Owner’s Representative prior to installation.

5. Install on a concrete pad inside of a vandal proof enclosure.

M. Gate Valves

1. Install as per the irrigation details and manufacturer's specifications.

2. Install where shown on Contract Documents. Locate, in valve boxes, 12 inches from walk, curb, headerboard, etc., for easy access.

3. Install one gate valve per valve box. Provide extension units as required. Install valve boxes in shrub planting areas whenever possible.

N. Quick Coupling Valves

1. Install as per the irrigation details and manufacturer's specification.

2. Install where shown on Contract Documents. Locate, in valve boxes, 12 inches from walk, curb, headerboard in shrub planting areas whenever possible.

3. Install one quick coupling valve per valve box. Provide box extension units as required. Install valve boxes in shrub planting areas whenever possible.

O. ADV (Anti-Drain Valves) / Check Valves

1. Prior to installation, the Contractor shall verify the on-site grades.

2. If there is an elevation difference of 24" or more between the highest head and lowest head on a system, the ADV's shall be installed on the riser.

P. Drip Equipment, In-line

1. When backfilling dripperline, only use clean backfill free of rocks, the soil is not to be wet or muddy. Dripperline to be pressurized and inspected for leaks before backfilling.

2. The filter shall be installed per the Irrigation Details and manufacturer's recommendations.

3. The flush valve shall be installed per the Irrigation Details and manufacturer's recommendations.

4. The PVC sub-mains and dripperline shall be flushed clean of dirt, rocks, etc. prior to the installation of automatic flush valves and automatic air release valves.

Q. Satellite controller equipment or approved equal.

1. Install as per the irrigation details and manufacturer’s specifications.

2. Properly ground control system in accordance with local codes and manufacturer’s specifications.

R. Water Meter

1. Install as per the Owner or Local Agency Specifications.

S. Master Valve

1. Install as per the irrigation details and manufacturer's specifications.

T. Flow Sensor and Output Transmitter

1. Install the sensor as per the irrigation details and manufacturer's specifications.

2. Pulse output transmitter shall be installed per the manufacturer's specifications.

3.05 TEMPORARY REPAIRS

A. The Owner reserves the right to make temporary repairs as necessary to keep the irrigation system in operating condition. The exercise of this right shall not relieve the Contractor of his responsibilities under the terms of the guarantee as herein specified.

3.06 FIELD QUALITY CONTROL

A. Adjustment of the System

1. The Contractor shall adjust all pressure regulating devices on the remote control valves.

2. The Contractor shall flush and adjust all sprinklers for optimum performance and to prevent overspray onto walks, windows, roadways, and buildings as much as possible.

3. If it is determined that adjustments in the irrigation equipment shall provide proper and more adequate coverage, the Contractor shall make such adjustments after written approval by the Owner's Representative. Adjustments shall include changes and additions of sprinklers, nozzle size and degrees of arc as required without additional contract costs.

4. If it is determined that any irrigation equipment is improperly installed, then adjustments shall be made to conform to construction documents without additional contract costs.

5. All sprinklers shall be set perpendicular to finished grades unless otherwise designated on the Contract Documents.

B. Testing of Irrigation System

1. The Contractor shall request the presence of the Owner's Representative at least 48 hours in advance of testing.

2. Test all pressure lines under hydrostatic pressure of 125 pounds per square inch prior to installation of remote control valves. A minimum of three pressure gauges equally spaced along the main line is required.

3. Sustain pressure in lines for not less than two (2) hours. If leaks develop, replace joints and repeat test until entire system is proven watertight. At the end of the test the system shall be drained in the presence of the Owner's Representative.

4. All hydrostatic tests shall be made only in the presence of the Owner's Representative. Center load pipe in trench exposing all joints for pressure test. No pipe shall be backfilled until it has been observed, tested and approved in writing by the Owner's Representative. Should any work be covered up before such observation and tests are completed, the Contractor shall, at his own expense, uncover the work; and after it has been observed, tested and approved, he then shall make all repairs with such materials as required to restore all work disturbed to original and proper condition.

5. Furnish necessary force pump and all other test equipment. All equipment shall be present during the test.

6. The emission system shall be tested and approved by the Owner's Representative prior to backfilling any trenches. Should any work be covered up before such observation and tests are completed, the contractor shall, at his own expense, uncover the work; and after it has been observed, tested and approved, he then shall make all repairs with such materials as required to restore all work disturbed to original and proper condition.

7. When the irrigation system is completed, perform a coverage test in the presence of the Owner's Representative to determine if the water coverage for landscape areas is complete and adequate. Furnish all materials and perform all work required to correct any inadequacies of coverage due to deviations from the Contract Documents, or where the system has been willfully installed as indicated on the Contract Documents, when it is obviously inadequate. This test shall be accomplished before any landscape is planted.

3.07 MAINTENANCE

A. Provide maintenance as per SECTION 32 98 00 - LANDSCAPE MAINTENANCE.

3.08 CLEAN-UP

A. Clean up shall be made as each portion of work progresses. Refuse and excess dirt shall be removed from site. All walks and paving shall be broomed or washed down, and any damage sustained to the work of others shall be repaired to original conditions acceptable to the Owner and the Owner's Representative.

3.09 OBSERVATION PRIOR TO FINAL ACCEPTANCE

A. The Contractor shall operate each system in its entirety for the Owner's Representative at time of final observation. Any items deemed not acceptable shall be reworked at no additional contract cost, to the complete satisfaction of the Owner's Representative.

B. The Contractor shall show evidence to the Owner's Representative that the Owner has received all accessories, charts, Record Contract Documents and equipment as required before final observation can occur.

3.10 OBSERVATION SCHEDULE

A. Normal progress observations shall be requested by the Contractor from the Owner's Representative as per observations listed in specifications SECTION 32 93 00 – LANDSCAPE INSTALLATION.

B. No final observation shall commence without Record Contract Documents. In the event the Contractor calls for an observation without Record Contract Documents, without completing previously noted corrections or without preparing the system for observations, he shall be responsible for reimbursing the Owner's Representative at the hourly rate in effect at the time of the observation (plus transportation costs) for the inconvenience. No further observations will be scheduled until this charge has been paid.

END OF SECTION 32 84 00

SECTION 32 92 10

LANDSCAPE TURF GRASS

PART 1 – GENERAL

1.01 CONDITIONS

A. The general provisions of the contract, including General and Supplementary Conditions and General Requirements apply to the work specified in this section

1.02 SCOPE OF WORK

A. Furnish all labor, material, equipment and services necessary to provide all work, complete and in place, as indicated on Contract Documents and specified herein.

B. Work specified in this Section includes, but is not limited to the following:

1. Preparation

2. Weed Control

3. Sodding

4. Clean-up

1.03 QUALITY ASSURANCE

A. All materials shall be of standard, approved and first-grade quality and shall be in prime condition when installed and accepted. Any commercially processed or packaged material shall be delivered to the site in the original unopened container bearing the manufacturer's guaranteed analysis. Contractor shall supply Owner’s Representative with a sample of all supplied materials accompanied by analytical data from an approved laboratory source illustrating compliance of bearing the manufacturer's guaranteed analysis.

B. Established turfgrass areas shall exhibit a uniform stand in good health and vigor, free of noxious or invasive weeds, and demonstrating 95% coverage, effective competitiveness against non-planted species, and be of sod-like appearance at the time of final acceptance.

1.04 SUBMITTALS

A. Refer to Section 01 33 00 – SUBMITTAL PROCEDURES for instructions.

B. Material List

1. Contractor shall furnish the articles, equipment, materials, or processes specified by name in the Contract Documents and Specifications.

2. Complete material list (one digital copy) shall be submitted prior to performing any work. Material list shall include the manufacturer, model number and description of all materials, products, and equipment to be used.

3. Equipment or materials installed or furnished without prior approval of the Owner's Representative shall be rejected and the Contractor required to remove such materials from the site at this own expense.

4. Approval of any item, alternate or substitute indicates only that the product or products apparently meet the requirements of the Contract Documents and Specifications on the basis of the information or samples submitted. The Contractor shall assume full responsibility (in written form) for the performance of any substitutions. The Owner's Representative and/or Owner's authorized representative's decision for approval or rejection of any substitution is final.

C. Soils fertility analysis shall be submitted within 60 days of award of contract.

1.05 PRODUCT DELIVERY, STORAGE AND HANDLING

A. The Contractor, upon request by Owner's Representative, shall provide receipts, delivery tickets, load tickets, etc. of all items delivered to the job site to verify products and total quantities.

B. Deliver fertilizer and other packaged products to site in original unopened containers bearing manufacturer's guaranteed chemical analysis, name trademark, and conformance to State Law.

1.06 JOB CONDITIONS

A. Install grasses after irrigation system is operable and has been accepted.

B. Protect work and materials from damage due to construction operations by other contractors and trades and by vandalism. Maintain protection during installation and maintenance period.

1.07 SAMPLES AND TESTS

A. Owner's Representative reserves the right to take and analyze samples of materials for conformity to specifications. The Contractor shall furnish samples upon request by the Owner's Representative. Rejected materials shall be removed from the site at Contractor's expense. Cost of testing of materials not meeting specifications shall be paid by Contractor.

B. Agronomic Soils Testing – As per paragraph 1.07, SECTION 32 93 00 – LANDSCAPE INSTALLATION

1.08 GUARANTEE AND REPLACEMENT

A. All plant material and other materials installed under the Contract shall be guaranteed against any and all poor, inadequate or inferior materials and/or

workmanship for the duration of the maintenance period. Any plant found to be dead or not in a satisfactory or healthy condition due to faulty materials, workmanship, acts of God, or improper maintenance as determined by the Owner's Representative prior to or during the maintenance period, shall be replaced immediately by the contractor at his expense.

B. The Owner's Representative shall be the sole judge as to the condition of material. Material to be replaced within the guarantee period shall be replaced by the Contractor within fifteen (15) days of written notification by the Owner. All replacement materials and installation shall comply with the Plans and Specification.

PART 2- PRODUCTS

2.01 MATERIALS

A. Sod

1. Sod variety shall be as specified on Contract Documents. Sod shall be healthy, weed free and obtained from a certified sod growing nursery or farm.

2. All sod shall be cut within twenty-four (24) hours prior to installation.

B. Weed Control

1. Enide (Upjohn), Dymid (Elanco Products Co.), Treflan, Eptan, Surflan or approved equal.

PART 3 - EXECUTION

3.01 OBSERVATION

A. Prior to the work in this Section, examine previously installed work from other trades and verify that such work is complete and as required, to the point where this installation may commence properly.

B. Contractor to review the conditions of site. Verify that final grades have been established prior to beginning planting operations. Contractor is responsible to inform Owners Authorized Representative of conditions of the site that are not suitable for work.

3.02 PREPARATION

A. General

1. As per paragraph 3.03, SECTION 32 93 00 – LANDSCAPE INSTALLATION

2. Final Grades

a. Provide finish grading for proper drainage of the site. Conform to SECTION 31 22 19 - FINISH GRADING (or)
31 22 00 – EARTHWORK & ROUGH GRADING

b. Establish finish grades in a continuous uniform line resulting in a uniform surface with no ridges or water pockets. Areas shall be smooth and continuous with firm planes that insure proper surface drainage.

c. All rocks, soil lumps and deleterious materials larger than one (1) inch shall be removed and the areas raked and compacted with a two hundred (200) pound roller.

d. The Contractor shall avoid any additional soil compaction, and shall not permit vehicular or equipment traffic over such areas. In the event of such compaction, the Contractor shall be required to recultivate any areas thus compacted.

3. Pre-plant weed control

a. Prepared areas shall be irrigated for a period of one week, allowing existing weed seeds to germinate. All weeds shall be eradicated by application of non-selective foliar herbicide, “Roundup” or equal.

3.03 SODDING

A. Spread turf starter fertilizer onto the soil evenly at the rate of four (4) pounds per 1,000 square feet of lawn area.

B. Lay first strip of sod along a straight line (use a string in irregular areas). Butt joints tightly, but do not overlap edges. On second strip, stagger joints. Use a sharp knife to cut sod to fit curves, edges and irrigation heads.

C. For sod areas over 2,000 square feet, lay a header strip of sod parallel to all edges, and butt subsequent strips into header strip.

D. Do not lay whole lawn before watering. When a conveniently large area has been sodded, water lightly to prevent drying. Continue to lay sod and to water until installation is complete.

E. After laying all sod, roll lightly to eliminate irregularities and to form good contact between sod and soil. Avoid a very heavy roller or excessive initial watering which may cause roller marks.

F. Water the completed lawn surface thoroughly. Soil should be moistened at least eight (8) inches deep. Repeat irrigation at regular intervals to keep sod moist at all times until rooted. After sod is established, decrease frequency and increase amount of water per application as necessary.

G. Replace all dead or dying sod with equal material as directed by the Owner's Representative.

3.04 CLEAN UP

A. Per Section 32 93 00 – LANDSCAPE INSTALLATION

3.05 OBSERVATION SCHEDULE

A. Per Section 32 93 00 – LANDSCAPE INSTALLATION

3.06 MAINTENANCE

A. Per Section 33 98 00 – LANDSCAPE MAINTENANCE

END OF SECTION

PART 1 - GENERAL

1.01 CONDITIONS

A. The general provisions of the Contract, including General and Supplementary Conditions and General Requirements apply to the work specified in this Section.

1.02 SCOPE OF WORK

A. Furnish all labor, material, equipment and services necessary to provide all landscape work, complete and in place, as indicated on Contract Documents and specified herein.

Work specified in this Section, but is not limited to the following:

1. Soil preparation
2. Planting
3. Sod
4. Staking
5. Clean-up

1.03 QUALITY ASSURANCE

A. Source Quality Control

1. Submit documentation to the Owner's Representative at least sixty (60) days prior to start of planting that all plant material has been ordered. Arrange procedure for observation of plant material with the Owner's Representative at time of submission.
2. Plants shall be subject to observation and approval by the Owner's Representative upon delivery for conformity to specifications. Such approval shall not impair the right of observation and rejection during progress of work.

1.04 SUBMITTALS

A. Material List

1. Contractor shall furnish the articles, equipment, materials or processes specified by name in the Contract Documents and specifications.
2. Complete material list (1 digital copy) shall be submitted prior to performing any work. Material list shall include the manufacturer, model number and description of all materials and equipment to be used.
3. Equipment or materials installed or furnished without prior approval of the Owner's Representative shall be rejected and the Contractor required to remove such materials from the site at his own expense.
4. Approval of any item, alternate or substitute indicates only that the product or products apparently meet the requirements of the Contract Documents and Specifications on the basis of the information or samples submitted. The Contractor shall assume full

responsibility (in written form) for the performance of any substitutions. The Owner's Representative's decision for approval or rejection of any substitution is final.

1.05 PRODUCT DELIVERY, STORAGE AND HANDLING

A. Delivery

1. The Contractor, upon request by the Owner's Representative, shall provide receipts, delivery tickets, load tickets, etc. of all items delivered to the job site to verify products and total quantities.

2. Deliver fertilizer to site in original unopened containers bearing manufacturer's guaranteed chemical analysis, name trademark, and conformance to State Law.

3. Deliver plants with legible identification labels.

a. Label trees, evergreens, bundles of containers of like shrubs, or ground cover plants.
b. State correct plant name and size indicated on plant list.
c. Use durable waterproof labels with water-resistant ink which will remain legible for at least sixty (60) days.

1. Protect plant material during delivery to prevent damage to rootball or desiccation of leaves.

2. The Contractor shall notify the Owner's Representative forty-eight (48) hours in advance of delivery of all plant materials for observation.

A. Storage

1. Store plant material in shade and protect from weather.

2. Maintain and protect plant material as required.

B. Handling

1. Do not drop plant materials.

2. Do not pick up container plant material by stems or trunks.

1.06 JOB CONDITIONS

A. Perform actual planting only when weather and soil conditions are suitable in accordance with locally accepted practice.

B. Install trees, shrubs, and ground cover plant material before lawn areas are installed and after irrigation system is operable.

C. Protect work and materials from damage due to construction operations by other contractors and trades and by vandalism. Maintain protection during installation and maintenance period.

1.07 SAMPLES AND TESTS

A. The Owner's Representative reserves the right to take and analyze samples of materials for conformity to specifications. The Contractor shall furnish samples upon request by the Owner's Representative. Rejected materials shall be removed from the site at Contractor's

expense. Cost of testing of materials not meeting specifications shall be paid by the Contractor.

B. Agronomic Soils Testing
   1. To ensure a suitable growing medium for plants, employ services of a certified agronomic soils testing laboratory to perform soil testing at selective locations only on-grade. For bidding purposes there shall be a minimum of four (4) test locations. Contractor is to provide documented locations for review by Owner's Authorized Representative for approval before testing can proceed. Contractor is responsible for agronomic soil testing costs.

   2. Perform soil sampling and testing once fine grading and soil amendments have been completed, and prior to turf installation.

   3. Amendment recommendations based on soils testing will take precedence over soil amendments and application rates specified in this section.

   4. Provide the following at each test location:

      a. Chemical analysis report of each soil sample location to include the following:

         i. Percentage of organic matter.

         ii. Salinity.

         iii. PH.

         iv. Mineral nutrients, including concentrations of nitrogen, phosphorus, potassium, calcium, and magnesium.

         v. Potential hazards of impediments to plant growth from salinity; sodium, boron, impaired soil structure or drainage.

         vi. Cation-exchange

      b. Request testing for fertility and suitability analysis with written recommendations for soil amendment application rates.

      c. Soil percolation rates.

      d. Percentages of sand, silt, and clay particles.

1.08 GUARANTEE AND REPLACEMENT

A. All plant material and other materials installed under the Contract shall be guaranteed against any and all poor, inadequate or inferior materials and/or workmanship for the duration of the maintenance period. Any plant found to be dead or not in a satisfactory or healthy condition due to faulty materials, workmanship, act of God, or improper maintenance as determined by the Owner’s Representative shall be replaced immediately by the Contractor at his expense.

B. The Owner’s Representative shall be the sole judge as to the condition of material. Material to be replaced within the guarantee period shall be replaced by the Contractor within fifteen (15) days of written notification by the Owner. All replacement materials and installation shall comply to the Contract Documents and Specifications.

PART 2 - PRODUCTS

2.01 GENERAL

All materials shall be of standard, approved and first-grade quality and shall be in prime condition when installed and accepted. Any commercially processed or packaged material shall be delivered to the site in the original unopened container bearing the manufacturer's guaranteed analysis. The Contractor shall supply the Owner's Representative with a sample of all supplied materials accompanied by analytical data from an approved laboratory source illustrating compliance of bearing the manufacturer's guaranteed analysis.

2.02 PRODUCTS

A. Soil Conditioner

1. Gro-Power Plus: Humus (bacteria included based fertilizer and soil conditioner with soil penetrant shall consist of the following percents by weight:
   a. 5 % nitrogen
   b. 3 % phosphoric acid
   c. 1 % potash
   d. 50 % humus
   e. 15 % humic acids

B. Soil Amendment

1. Nitrogen Stabilized Shavings: 0.56 to 0.84% N based on dry weight for fir bark mulch, treated with relative form of nitrogen (NH3), 1/2" or less in size.
   a. Particle Size: 95% - 100% passing 6.35 mm standard sieve.
      80% - 100% passing 2.33 mm standard sieve.
      10% - 20% passing 0.50 mm standard sieve.
   b. Salinity: The saturation extract conductivity shall not exceed 3.5 millimhos/centimeter at 25 degrees (25°) centigrade as determined by saturation extract method.
   c. Iron Content: Minimum 0.08% dilute acid soluble Fe on dry weight basis.
   d. Ash: 0 - 25% (dry weight)
   e. pH range: 5.5 - 7.5
   f. Actual organic matter content: minimum 280 pounds per cubic yard

C. Soil Amendment Fertilizer

1. General NPK fertilizer which contains the following percents by weight:
   a. 6% nitrogen
   b. 20% phosphoric acid
   c. 20% potash

D. Planting Pit Fertilizer

1. Gro-Power Plus (bacteria included) with soil penetrant and shall consist of the following percents by weight:
   a. 5% nitrogen
   b. 3% phosphoric acid
   c. 1% potash
   d. 50% humus
   e. 15% humic acid

2. Turf Starter Fertilizer: Shall consist of the following percents by weight:
   a. 16% nitrogen
   b. 20% phosphoric acid
   c. 0% potash

4. Planting Tablets: Slow-release 21 gram tablets as manufactured by Agriform or approved equal, containing the following percentages of nutrients by weight:
   a. 20 % nitrogen
   b. 10 % phosphoric acid
   c. 5 % potash

E. Plant Material

1. The plant material indicated on the Contract Documents by the listed names shall conform to "Standard Plant Names," second edition, except for names not covered therein, the established customs of the nursery trade is followed. All plants shall be true to name, and above one of each bundle or lot shall be tagged with the name and size of the plant, in accordance with the standards of practice recommended by the American Association of Nurserymen. All plant materials shall meet the specifications of Federal, State and County laws, requiring inspection for plant diseases and insect infestations. Plants shall be symmetrical, typical for variety and species, sound, healthy, vigorous, free from plant diseases, insect pests or other eggs, and shall have healthy, normal root systems, while filling their containers, but not to the point of being root bound. Plants with roots which encircle root balls or trunks, or which are girdling trunks, will not be accepted. Use only plant materials that are first class representative of the species and cultivars specifies and that conform to all State and local laws governing the sale, transportation and inspection of plant materials. Plants shall have straight, single trunks, unless otherwise specified on the Contract Documents. Those specified to be multi-trunk shall have at least three leaders from the base. Any plants that have encircling roots (not root bound) shall have root balls lightly slashed on a minimum of three (3) sides to stop encircling root growth. The height and spread of all plant materials shall be measured with branches in their normal position. Sizes of plants shall be as stated on the plant list, 5 and 15 gallon can containers stock shall have been grown in that container not less than six (6) months, but shall not have been overgrown in the containers so as to have become root bound.

2. The size of the plants will correspond with that normally expected for species and variety of commercially available nursery stock or as specified in the Special Conditions or Contract Documents. The minimum acceptable size of all plants, measured before pruning with the branches in normal position, shall conform with the measurements, if any, specified on the Contract Documents in the list of plants to be furnished. Plants larger in size than specified may be used with the approval of the Owner's Representative, but if the use of larger plants is approved, the ball of earth or spread of roots for each plant will be increased proportionally. Plant material shall conform to the following Specifications for container stock:

SHRUBS

SIZE	TYPE	EXAMPLE	HEIGHT	SPREAD	CALIPER
1 Gal.	Low growing	Pitt. tobira	8-10"	6-8"	
1 Gal.	Tall growing	Pitt. eugen.	10-12"	6-8"

36” Box	Fast growing	Euc. – Prunus	14-16’	8-10’	2 ½ - 3”

3. Plants not conforming to the requirements shall be considered defective and such plants, whether in place or not, shall be marked as rejected and immediately removed from the site of the work and replaced with new plants at the Contractor's expense. Plants shall be of the species, variety, size and condition specified herein or as shown on the Contract Documents. Under no conditions will there be any substitution of plants or sizes listed on the plans, except with the expressed written approval of the Owner’s Representative.

4. The central leaders of all specified trees shall remain intact. Any tree which has had its central leader cut or removed is subject to rejection.

5. At no time shall trees or plant materials be pruned, trimmed or topped prior to delivery and any alteration of their shape shall be conducted only with the approval and when in the presence of the Owner’s Representative and/or as noted on the Planting Specifications.

6. Nursery Grown and Collected Stock
   a. Plant materials shall conform to the best edition of ANSI Z60.1 American Standard for Nursery Stock.
   b. Grown under climatic conditions similar to those in locality of project.
   c. Container-grown stock in vigorous, healthy condition, not root bound or with root system hardened off.
   d. Use only linear stock plant material which is well established in removable containers or formed homogeneous soil sections.

7. Ground cover plants shall be grown in 1 gallon containers, flats or liners, as indicated on the plans. Flat grown plants (rooted cuttings) shall remain in those flats until transplanting. The flat's soil shall contain sufficient moisture so that it will not fall apart when lifting the plants.

F. Tree Staking Material

1. Stakes for Tree Support

   a. Wood Tree Stakes: Lodgepole pine stakes. Minimum nominal size: two inches in diameter x length as required and pointed at one (1) end (adjust length to fit tree). Stakes shall be free from knots, checks, splits, or disfigurements.

2. Ties

   a. 24" length cinch tie as manufactured by V.I.T. Company (714) 871-2309 or approved equal.

G. Mulch

1. Mulch shall be walk-on fir bark mulch as manufactured by Redi-Gro Corporation, Sacramento, California (916) 381-6063 or approved equal.

2. The mulch shall consist of fibrous, woody bark mixture of varied particle size such that maximum particle length be 3".

a. Physical properties:

Percent Passing	Sieve Size
90-100	1" (25.4 mm) Dia.
80-100	1/2" (12.7 mm) Dia.
20-60	1/4" (6.35 mm) Dia.

b. Chemistry:

1) Acid in reaction, max pH 5.0
2) Maximum ash 7% based on dry weight.
3) Minimum moisture 35% at time of delivery based on fresh weight.

H. Steel Header

1. 3/16" x 4" galvanized steel.

2. Stakes shall be 3/16" x 15" steel.

As distributed by:

a. Border Concepts
Green Land Supply
826 S La Brea Ave.
Inglewood CA, 90301
(310) 695-9990 **(or)** approved equal

I. Boulders

1. Moss Rocks / Field Stones, Sizes to vary, refer to construction Documents. Minimum size shall be 2 ½" dia. up to 48"

2. Boulders shall be grouped with varying sizes. Groupings shall be approved by Owner's Representative prior to installation.

3. available from:

b. C L Smith Trucking
37763 State Highway 16
Woodland, CA 95695-2845

(or) approved equal

J. Weed Control

1. Enide (Upjohn), Dymid (Elanco Products Co.), Treflan, Eptan, Surflan or approved equal.

K. Root Barriers

1. The root control barrier shall be an injection molded or extruded modular component made of high density polypropylene or polyethylene plastic.

2. Panels shall measure 24" in width with a depth of 24” unless otherwise specified, with a mean thickness of 0.08". Plastic shall be recyclable and contain ultra-violet inhibitors.

3. Basic properties shall equal or exceed the following:

a.	Tensile Stress Yield:	ASTM D638	3800
b.	Elongation at break (%):	ASTM D638	10%
c.	Tensile Modulus:	ASTM D638	150,000 psi
d.	Notched Izod Impact:	ASTM D256A	0.4-4.0
e.	Flexual Modulus 73 psi:	ASTM 0790	145,000
f.	Hardness Shore:	ASTM D2240	P66

4. The contractor shall furnish and install tree root barriers as specified. The tree root barriers shall be the EP Series manufactured by NDS, or approved equal.

PART 3 - EXECUTION

3.01 OBSERVATION

A. Verify that final grades have been established prior to beginning planting operations. Observe trees, shrubs and liner stock plant material for injury, insect infestation and trees and shrubs for improper pruning. Do not begin planting of trees until deficiencies are corrected or plants replaced.

3.02 LAYOUT OF PLANTING AREAS

A. Stake or mark with lime, locations for plants and outline of planting beds on ground. Do not begin excavation until plant locations and plant beds are acceptable to the Owner’s Representative. The irrigation system shall be operational and approved prior to planting.

B. Locations for plants and outlines of areas to be planted shall be marked on the ground by the Contractor before any plant pits are dug. All such locations shall be approved by the Owner’s Representative. If an underground construction or utility line is discovered prior to work, other locations for planting may be selected by the Owner’s Representative.

3.03 PREPARATION

A. Preparation of Planting Area

1. Eradicate and remove weeds by means of post emergent herbicide. Apply herbicide as per manufacturer's recommendations.

2. After approximate finished grades have been established, soil shall be conditioned and fertilized in the following manner. Soil conditioner shall, at the following rate, be uniformly spread and cultivated thoroughly by means of mechanical tiller into the top six (6) inches of soil. Existing planting areas shall be cultivated by hand tools.

   Application Rates:

   a. One hundred fifty (150) pounds of soil conditioner per 1,000 square feet.
   b. Three (3) cubic yards of soil amendment per 1,000 square feet.
   c. Eighteen (18) pounds of soil amendment fertilizer per 1,000 square feet.
   d. For annual color planting beds, in addition to items 'a' and 'b', incorporate:

1) Fifteen (15) cubic feet of Perlite per 1,000 square feet.
2) Three (3) cubic yards nitrogen stabilized shavings per 1,000 square feet.

3. All soil areas shall be compacted and settled by application of heavy irrigation to a minimum depth of twelve (12) inches.

4. At time of planting, the top six (6) inches of all areas to be planted shall be free of stones, stumps, or other deleterious matter one-half (1/2) inch in diameter or larger, and shall be free from all wire plaster, or similar objects that would be a hindrance to planting and maintenance.

B. Final Grades

1. Provide finished grading to ensure proper drainage of the site. Conform to specification Section 31 22 19 – FINISH GRADING or SECTION 31 22 00 – ROUGH GRADING.

2. The following areas shall be grades so that the final grades shall be established below adjacent paved areas, sidewalks, valve boxes, headers, clean outs, drains, manholes, etc. as follows:

a. Shrub/groundcover areas: 3-1/2 inches
b. Sod areas: 1 inch

3. Surface drainage shall be away from all building foundations.

4. Remove excess or unacceptable soil from the site.

C. Steel Header

1. Steel headers shall be furnished as shown on the Contract Documents and herein specified. They shall be laid true to line and grade. Care shall be exercised in laying headers to protect adjacent improvements, shrubbery, and other properties from damage. All stakes shall be placed on ground cover side of header board.

2. Stake and install per manufacturers recommendations and installation instructions.

3.04 PLANT INSTALLATION

A. General

a. Actual planting shall be performed during those periods when weather and soil conditions are suitable and in accordance with locally accepted practice, as approved by the Owner's Representative.

b. Only as many plants as can be planted and watered that same day shall be planted.

B. Container shall be opened and plants shall be removed in such a manner that the ball of earth surrounding the roots is not broken and they shall be planted and watered as herein specified immediately after removal from the containers. Containers shall not be opened prior to placing the plants in the planting area.

C. Root Barrier Installation

1. Linear Application: The contractor shall install the tree root barriers with the number of panels and in the manner shown on the Contract Documents. Vertical root deflecting ribs must face towards the root ball. The top of the panel shall be 1/2" above the finish grade, but in all cases be covered by mulch. Panels shall be connected by sliding the male end

on each panel into the female connector on the next panel to form either a circle around the root ball or a linear barrier along adjacent hardscape, whichever is specified.

2. Surround Application: Closely follow the outer perimeter of the planting area. Do not encircle the root ball or limit plant growth.

D. Planting of Trees and Shrubs

1. Excavation for planting shall include the stripping and stocking of all acceptable topsoil encountered within the areas to be excavated for trenches, tree holes, plant pits and planting beds.

2. Excess soil generated from the planting holes and not used as backfill or in establishing the final grades shall be removed from the site.

3. Excavating for Planting

a. Shape
   1) Vertical sides with bottom raised in center, tapering to edges of pit.
   2) Plant pits to be square for box material, circular for canned material.
   3) Scarify sides and bottom of each pit.
b. All trees and shrubs shall have planting pits dug twice the diameter of the rootball. Backfill around the rootball with prepared backfill mix.
c. Protect all areas from excessive compaction when trucking plants or other materials to planting site.
d. Can Removal
   1) Cut cans on two (2) sides with an acceptable can cutter.
   2) Do not injure the rootball.
   3) Do not cut cans with spade or ax.
   4) Carefully remove plants without injury or damage to rootball.
   5) After removing plant, superficially cut edgeroots with knife on three (3) sides.
e. Box Removal
   1) Remove bottom of plant boxes before planting.
   2) Remove sides of box without damage to rootball after positioning plant and partially backfilling.
f. Center plant in pit.
g. Face plants with fullest growth into prevailing wind.
h. Set plant plumb and hold rigidly in position until soil has been tamped firmly around ball roots.
i. Crowns of rootballs shall be installed above finish grade.
j. Remainder of planting pit shall be backfilled with:
   1) Three (3) parts rock-free native soil
   2) One (1) part nitrogen stabilized shavings
   3) Fifteen to eighteen (15-18) pounds Gro-Power Plus planting pit fertilizer per cubic yard of mix.
   4) Specified type and quantity of planting tablets.
k. All plants which settle shall be raised to the correct level. After the plant has been placed, additional backfill shall be added to the hole to cover approximately one-half (1/2) of the height of the rootball. Water shall be added to the top of the partly filled hole to thoroughly saturate the rootball and adjacent soil.
l. After the water has completely drained, planting tablets shall be placed adjacent to but not in contact with rootball.
   One (1) tablet per 1-gallon container
   Two (2) tablets per 5-gallon container
   Three (3) tablets per 15-gallon container

Four (4) tablets per 24" box
Five (5) tablets per 30" box
Six (6) tablets per 36" box
Seven (7) tablets per 42" box
Eight (8) tablets per 48" box and larger box sizes

m. The remainder of the hole shall be backfilled.

n. After backfilling an earthen basin shall be constructed around each plant. Each basin shall be of a depth sufficient to hold at least two (2) inches of water. Basin shall be of a size suitable for the individual plant. In no case shall the basin for fifteen (15) gallon plant be less than four (4) feet in diameter; a five (5) gallon plant less than three (3) feet in diameter. The basins shall be constructed of amended backfill materials, and shall not be constructed for trees in turf areas.

o. Pruning shall be limited to the minimum necessary to removed injured twigs and branches and to compensate for loss of roots during transplanting, but never to exceed one-third (1/3) of the branching structure. Upon approval of the Owner's Representative, pruning may be done before delivery of plant, but not before plants have been observed and approved. Prune as per specifications SECTION 32 98 00 - LANDSCAPE MAINTENANCE.

p. Staking of all trees shall conform to tree staking details. One (1) tree of each size shall be staked and approved by the Owner's Representative prior to the continuation of staking.

E. Planting of Ground Cover

1. Ground cover shall be planted in straight rows and evenly spaced, unless otherwise noted, and at intervals called out in the Contract Documents. Triangular spacing shall be used unless otherwise noted on the Drawing.

2. Each rooted plant shall be planted with its proportionate amount of flat soil or in a peat pot in a manner that will insure minimum disturbance of the root system, but in no case shall this depth be less than two (2) nodes. To avoid drying out, planting shall be immediately irrigated after planting until the entire area is soaked to the full depth of each hole, unless otherwise noted on the Drawing.

3. Care shall be exercised at all times to protect the plants after planting. Any damage to plants by trampling or other operations of this Contract shall be repaired immediately.

F. Mulch Cover

1. All planting areas, with the exception of lawn areas, shall be top-dressed with a three (3) inch layer of mulch.

G. Weed Control

1. Apply weed control to all non-turf areas after completion of all planting and one (1) complete watering (to "set" plants). Apply as per manufacturer's recommendations.

H. Hardpan Conditions

1. Where hardpan exists, whether it is in the form of caliche or other impervious clay, and it is within the top two-and-one-half feet (2-1/2') of soil, use powered equipment to break through completely at each tree location to allow drainage and root growth. Remove hardpan at least one-and-one-half feet (1-1/2') greater than the rootball diameter of tree. Backfill with soil mix as specified.

2. Where hardpan is within the first twelve (12) inches of soil, it shall be completely penetrated for all trees and shrubs.

3.05 OBSERVATION SCHEDULE

A. The Contractor shall be responsible for notifying the Owner's Representative in advance for the following observations according to the time indicated:

1. Pre-construction conference - 7 days.

2. Irrigation pressure line and lateral line installation and testing - 48 hours.

3. Irrigation sprinkler coverage test - 48 hours.

4. Finish grade review - 48 hours.

5. Plant material review - 48 hours.

6. Soil preparation, plant layout and planting operations. One (1) tree with each type of specified shall be approved prior to planting of trees - 48 hours.

7. End of landscape installation - 48 hours.

8. End of landscape maintenance/Final Acceptance - 48 hours.

B. No site visits shall commence without all items noted in previous Observation Reports either completed or remedied, unless such compliance has been waived. Failure to accomplish punch list tasks or prepare adequately for desired observations shall make the Contractor responsible for reimbursing the Owner's Representative at their current billing rate per hour, plus transportation costs.

3.06 CLEAN UP

A. After all planting operations have been completed; remove all trash, excess soil, empty plant containers or rubbish from the property. All scars, ruts or other marks in the ground caused by this work shall be repaired and the ground left in a neat and orderly condition throughout the site. The Contractor shall pick-up all trash resulting from this work no less frequently than each Friday before leaving the site, once a week, and/or the last working day of each week. All trash shall be removed completely from the site. The Contractor shall leave the site area broom-clean and shall wash down all paved areas within the Contract area, leaving the premises in a clean condition acceptable to the Owner and the Owner's Representative.

3.07 LANDSCAPE MAINTENANCE

A. Provide Landscape Maintenance as per SECTION 32 98 00 - LANDSCAPE MAINTENANCE.

END OF SECTION 32 93 00

PART 1 - GENERAL

1.01 CONDITIONS

A. The general provisions of the Contract, including General and Supplementary Conditions and General Requirements apply to the work specified in this Section.

1.02 SCOPE OF WORK

A. Furnish all labor, material, equipment and services required to maintain landscape in a healthy growing condition and in a neat and attractive appearance throughout the maintenance period.

1.03 QUALITY ASSURANCE

A. The Contractor shall be experienced in horticulture and landscape maintenance, practices and techniques, and shall provide sufficient number of workers with adequate equipment to perform the work during the maintenance period.

1.04 MAINTENANCE PERIOD

A. Maintain the entire project area during progress of work and during the sixty-(60) calendar-day maintenance period or until final acceptance of the project. Maintenance shall continue beyond the maintenance period, as required, until final acceptance is given by the Owner's Representative and Owner.

B. Maintenance period shall not start until all elements of construction, planting and irrigation for the entire project are in accordance with Plans and Specifications. A requirement is that all lawn and landscape areas be planted and that all lawn areas show an even, healthy stand of grass seedlings or sod, either of which shall have been mown twice. If such criteria are met to the satisfaction of the Owner's Representative, written notification shall be issued to establish the effective beginning date of maintenance period.

C. Any day of improper maintenance, as determined by the Owner's Representative, shall not be credited as an acceptable maintenance period day. The maintenance period shall be extended on a daily basis if the work is not in accordance to the Plans and Specifications. Project shall not be segmented into maintenance areas or phases, unless authorization of the Owner's Representative is obtained.

D. Contractor shall provide protection to the project site during the maintenance period. Any damage caused by the lack of adequate site protection shall be repaired or replaced at no additional cost to the Owner.

1.05 GUARANTEE AND REPLACEMENT

A. All plant material and other materials installed under the Contract shall be guaranteed for the duration of the landscape maintenance period against any and all poor, inadequate or inferior materials and/or workmanship, acts of God, animal or insect damage or improper maintenance, as determined by the Owner's Representative. Material shall be replaced by the Contractor at his expense.

B. Any materials found to be dead, missing, or not in a satisfactory or healthy condition during the maintenance period shall be replaced immediately. The Owner's Representative shall be the sole judge as to the condition of material. Material to be replaced within the guarantee period shall be replaced by the Contractor within five (5) days of written notification by the Owner. All replacement materials and installations shall comply with the Plans and

Specifications. Any plant missing due to suspected theft shall be replaced by the Contractor. If the Contractor suspects theft may be a problem, the Contractor shall provide written documentation to the Owner that security on this site needs to be intensified. The Contractor may relieve himself of theft responsibility if, after the security notice, with no result, a written notice to the Owner shall be given that plant material will not be replaced for theft or vandalism due to lack of site security being maintained. This procedure may take place only during the Landscape Maintenance Period.

1.06 OBSERVATION SCHEDULE

A. Observations shall be requested by the Contractor from the Owner's Representative as per observations listed in specifications SECTION 32 93 00 - LANDSCAPE INSTALLATION.

1.07 FINAL ACCEPTANCE OF THE PROJECT

A. Upon completion of all project work, including maintenance period, the Owner's Representative will, upon proper request, make an observation to determine final project acceptability.

B. Where observed work does not comply with the Plans and Specifications, replace rejected work and continue specified maintenance period until re-inspected by the Owner's Representative and determined to be acceptable. All replacement materials and installations shall be in accordance with the Plans and Specifications. Remove rejected work and materials immediately from project. Prior to date of final observation, Contractor shall provide the Owner's Representative with all Record Contract Documents, turnover items and written Guarantee Statement in accordance with the Drawings and Specifications.

PART 2 - PRODUCTS

2.01 MATERIALS

A. All materials used shall conform to Specifications or shall otherwise be acceptable to the Owner. The Owner shall be given a monthly record of all herbicides, insecticides and disease control chemicals used.

B. General fertility maintenance fertilizer: shall consist of the following percents by weight:
   a. 16% nitrogen
   b. 6% phosphoric acid
   c. 8% potash

C. Slow release fertilizer: shall consist of the following percents by weight:
   a. 21% nitrogen
   b. 3% phosphoric acid
   c. 5% potash

PART 3 - EXECUTION

3.01 GENERAL

A. Maintenance shall be according to the following standards. All areas shall be weeded and cultivated at intervals of not more than ten (10) days. Watering, trash and debris removal, mowing, rolling, edging, trimming, fertilization, spraying and pest control, as required, shall be included in the maintenance period. Street gutters and sidewalks shall be included. The Contractor shall be responsible for maintaining adequate protection of the area. Damaged areas shall be repaired at the Contractor's expense. Between the 15th day and the 20th day of the maintenance period, the Contractor shall reseed or resod all spots or areas within the

lawn where normal turf growth is not evident. Replenish mulch to originally specified depth on a monthly basis, or more frequently as required.

3.02 TREE AND SHRUB CARE

A. Watering

1. Maintain a large enough water basin around plants so that enough water can be applied to establish moisture through the major root zone. When hand watering use a water wand.

B. Pruning

1. Trees:

a. Prune trees only as required to select and develop permanent scaffold branches that are smaller in diameter than the trunk or branch to which they are attached and which have a vertical spacing of from 18” to 48” and radial orientation so as not to overlay one another; to eliminate diseased or damaged growth; to eliminate narrow V-shaped branch forks that lack strength; to reduce toppling and wind damage by thinning out crowns; to maintain growth within space limitations; to maintain a natural appearance to balance crown with roots.
b. Evergreen trees shall be thinned out and shaped when necessary to prevent wind and storm damage.
c. The primary pruning of deciduous trees shall be done during the dormant season. Damaged trees or those that constitute health or safety hazards shall be pruned at any time of the year as required.

2. Shrubs:

a. The objectives of shrub pruning are the same as trees. Under no circumstances shall shrubs be clipped into balled or boxed forms unless required by the design.
b. All pruning cuts shall be made to lateral branches or buds or flush with the trunk. “Stubbing” will not be permitted.

C. Staking

1. Stakes shall remain in place through acceptance and are to be inspected to prevent girdling of trunks or branches and to prevent rubbing that causes bark wounds.

D. Weed Control

1. Keep basins and areas between plants free of weeds. Use recommended, legally approved herbicides. Avoid frequent soil cultivation that destroys shallow roots. Use mulches to help prevent weed germination.

E. Insect and Disease Control

1. Maintain a reasonable control with approved materials.

F. Fertilization

1. Fertilize all planting areas with the following:
2. Commencement of maintenance period - 5 lbs. per 1,000 square feet with general fertility maintenance fertilizer.

a. At the end of the first 30-day maintenance period - 5 lbs. per 1,000 square feet with general fertility maintenance fertilizer.
b. At the end of the maintenance period and at 30-day intervals should maintenance period be extended - 10 lbs. per 1,000 square feet with slow release fertilizer.

3. Avoid applying fertilizer to the root ball and base of main stem; rather, spread evenly under plant to drip line. Rates will vary from about a cup of nitrate fertilizer (depending on nitrogen percentage) around a newly installed small plant to about one-half (1/2) lb. of actual nitrogen per inch of trunk diameter measured four feet from the ground for mature trees.

G. Replacement of Plants

1. Replace dead, dying and missing plants with plants of a size, condition and variety to match plants acceptable to Owner at Contractor's expense under the conditions stated in the Guarantee and Replacement section of these specifications.

3.03 GROUND COVER CARE

A. Weed Control

1. Control weeds, preferably with preemergent herbicides, but also with selective systemic herbicides. Hoe weeds as little as possible since this may result in plant damage.

B. Watering

1. Water enough that moisture penetrates throughout root zone and only as frequently as necessary to maintain healthy growth. Refer to irrigation schedule as noted on Plans.

C. Trash

1. Remove trash and debris weekly. Dispose in a legal manner.

D. Edging and Trimming

1. Edge ground cover to keep in bounds and trim growth as necessary to achieve an overall even appearance.

E. Replacement

1. Replace dead and/or missing plants at Contractor's expense per the conditions stated in the Guarantee and Replacement section of these Specifications.

3.04 TURF CARE

A. Mowing and Edging

1. Mowing of turf will commence when the grass has reached a height of two inches. The height of cut will be 1 to 1-1/2". Mowing will be at least weekly after the first cut. Turf must be well established and free of bare spots and weeds to the satisfaction of the Owner's Representative prior to final acceptance.

2. Grass clippings shall be picked up and removed from the site and premises in a legal manner.

3. Edges shall be trimmed at least twice monthly or as needed for neat appearance. Clippings shall be removed from paved areas and planting areas and removed from the site.

B. Watering

1. Lawns shall be watered at such frequency as weather conditions require to replenish soil moisture below root zone and to establish healthy stands of turf.

C. Weed Control

1. Control broad leaf weeds with selective herbicides. In areas where crabgrass has infested the lawn, apply pre-emergent herbicides such as Dacthal, Balan, or Beteasan for control prior to crabgrass germination.

D. Fertilization

1. During maintenance period an application of general fertility maintenance fertilizer, as specified, shall be made every thirty (30) days and again at sixty (60) days from the date of lawn installation at a rate of five (5) pounds per 1,000 square feet. At the end of the maintenance period apply slow release fertilizer at a rate of ten (10) pounds per 1,000 square feet or as per manufacturer's recommendations.

E. Replacement

1. At conclusion of maintenance period a final observation of turf areas shall be made. Remove diseased areas and unhealthy stands of grass from the site; do not bury into the soil. Replant areas with materials and in a manner as specified on the Plans and Specifications at no additional cost to the Owner

3.05 IRRIGATION SYSTEM

A. System Observation

1. The Contractor shall check all systems for proper operation. Lateral lines shall be flushed out by removing the last sprinkler head at each end of the lateral. All heads are to be adjusted as necessary for unimpeded, head to head coverage.

B. Controllers

1. Program automatic controllers to utilize automatic seasonal / environmental condition adjustments. An irrigation schedule has been provided on the drawings as a guide. A schedule is required to be completed using data from the Irrigation Audit, and to be included in the Irrigation Audit Report. The irrigation schedule included in the Irrigation Audit Report should be used as a guide once complete, as it will supersede the Irrigation Schedule included on the drawings. Refer to specification section 32 84 00 Irrigation System, paragraph 1.03.C.5 for more information about the Irrigation Audit and Report.

2. The Contractor shall give the Owner's representative instructions on how to turn off the irrigation system in case of emergency.

C. Repairs

1. Repair all damages to irrigation system at the Contractor's expense. Repairs shall be made within twenty-four (24) hours.

SECTION 00 12 00

NOTICE TO BIDDERS

NOTICE IS HEREBY GIVEN that the County of Yolo will receive sealed bids in accordance with the provisions of the Public Contract Code from contractors licensed for the furnishing of all labor, materials, equipment, transportation and services for the performance of the following Work:

Yolo Branch Library, 37750 Sacramento Street, Yolo, California, all as shown on the plans and described in the specifications and special provisions.

The project consists of a new, 4,000 square foot (approximate) single story public library building of Type V construction. The new building will house library program area, staff office, study rooms, a community meeting room, and support spaces.

The project will also include, but is not limited to utilities, electrical, plumbing, mechanical, heating, ventilation and air conditioning, communications, fencing, onsite septic system, and fire protection systems, as well as landscaping and pavement for parking, building access, and outdoor functions.

The project is to be staged and constructed in such a way as to allow the continued operation of the existing onsite modular library building for as long as possible to limit the downtime of community library services.

Plans and Specifications for the work will be available as noted herein.

All questions regarding Plans and Specifications and Interpretations or Clarifications for this Initiation for Bid must be entered electronically through BidSync (https://www.BidSync.com). The County Project Manager will respond to all Contractor questions through the BidSync Question and Answer section on this website.

SEALED BIDS:

Sealed bids on the above project shall be filed with Yolo County, County Administrator's Office, located at 625 Court Street, Room 202, Woodland, CA 95695, on or before **2:00 pm** on **Thursday, June 24, 2021**. All bids must be marked clearly on the envelope: **"Yolo Branch Library".** Said bids will be opened in public after **2:05 pm** of said day in the Atrium Training Room in the Erwin Meier Administration Building, 625 Court Street, Woodland, CA. Bids shall be submitted only on forms provided in the Bid Documents and shall be accompanied by all documents and information required to be submitted by the Instructions to Bidders and by law. No bid may be withdrawn after the time established for receiving bids or before the award and execution of the Contract, unless the award is delayed for a period exceeding ninety (90) calendar days. The low bidder, for purposes of the award, shall be the responsive bidder offering the low lump sum amount for the base bid and meeting all other bid submittal requirements. The County reserves the right to reject any or all bids.

Please note: All individuals delivering bids and Bid Opening attendees will be required to comply with the County's mandates related to Covid-19 safety including the wearing of masks and physical distancing.

CONTRACTOR'S LICENSE REQUIRED:

The Board will not consider or accept any bids from contractors who are not licensed to do business in the State of California. Contractor warrants and represents that he/she holds a valid California license pursuant to the State Contractors License Act [Business and Professions Code Section 7000, et seq.], that his/her license is in good standing and that he/she possess a Class B License as required by the categories and type of work. Copies of the Contractor's State Contractor license(s) must be provided, along with their bid.

REQUIRED LISTING OF PROPOSED SUBCONTRACTORS:

Each proposal shall have listed therein the name and address of each subcontractor to whom the Bidder proposes to subcontract portions of the Work in an amount in excess of one-half of one percent (½ of 1%) of his total Bid in accordance with the Subletting and Subcontracting Fair Practices Act, commencing with Section 4100, through 4113 inclusive of the Public Contract Code. The Bidder's attention is invited to other provisions of said Act related to the imposition of penalties for a failure to observe its provisions by using unauthorized subcontractors or by making unauthorized substitutions.

Notice is hereby given that the Project is a public works project within the requirements of Division 2, Part 7, Chapter 1 of the California Labor Code, and that each bidder and listed subcontractor is required to be registered pursuant to Labor Code section 1725.5 at the time of bidding. Failure of the bidder to be registered at the time of bidding shall render the bid non-responsive and unavailable for award. Bidder's listing of an unregistered subcontractor may render the bid non-responsive and unavailable for award unless such failure is the result of an inadvertent error and the provisions of Labor Code section 1771.1 apply.

Joint Apprenticeship Committee Participation Requirement
It is a County policy that, in order to be deemed a responsive bidder, the bidder must participate in a joint apprenticeship committee. The California Department of Industrial Relations defines a joint apprenticeship committee as a committee made up of equal number of members from labor and management. **Bidders must submit with their bid a completed California Department of Industrial Relations' DAS-7 form that documents the bidder's participation in a joint apprenticeship committee. Bids that are not accompanied by such proof of participation will be rejected.** The County will verify participation prior to the award.

BID EXAMINATION AND PREPARATION:

Construction Documents may be obtained at BidSync (https://www.BidSync.com) or at the Yolo County Website (under *Doing Business with the County*). Documents will be available beginning on Monday, February 22, 2021. It is the bidder's responsibility to arrange for printing services to obtain printed copies of the bid documents. The contract documents may also be examined at the following locations:

Construction Bid Board
Dodge Data & Analytics
McGraw Hill
Sacramento Regional Builders Exchange
El Dorado Builders Exchange
Placer County Contractors Association

The Bidder shall carefully examine the Bid Documents, including the Plans and Specifications and satisfy the Bidder as to their sufficiency, and shall not at any time after submission of the Bid, dispute or complain of such Plans or Specifications nor assert that there is any misunderstanding in regard to the location, extent or nature or amount of work to be performed in accordance thereto. Should a Bidder find discrepancies or omissions in the Plans and Specifications, the Bidder shall notify the Project Manager immediately. Interpretations or clarifications considered necessary by the Project Manager shall be by addenda, mailed or electronically delivered to all plan holders and acknowledged on Bid form. Questions received less than 7 days prior to the bid date may not be answered.

The Bid shall have all items filled in and the signatures of all persons signing the Bid shall be in long-hand. Mistakes must be corrected, and the correction inserted and initialed in ink by the person signing the Bid. Erasures and/or correction fluid are NOT acceptable. Changes must be lined out and corrections inserted adjacent and initialed by the bidder's authorized representative. No proposal will be considered which makes exceptions, changes or reservations to the Plans and Specifications.

The bids must supply all information required by the bid documents & specifications. Bids must be full and complete. The County reserves the right in its sole discretion to reject any bid as non-responsive as a result of any omission or error in the bid.

SUBSTITUTIONS:

Bids shall be based on products and systems specified in the Bid Documents or listed by name in addenda. Contractors and materials suppliers may submit requests for substitutions up to 35 days following Notice of Award.

NON-COLLUSION AFFIDAVIT:

Bidders shall include with their bids a signed affidavit stating that their bid is not a sham or a collusive bid. The affidavit is to be signed exactly as worded; no alternate wording will be accepted. The affidavit is included with the bid.

BONDS AND INSURANCE REQUIRED:

A bid security shall be provided with each Bid. Bid security shall be in an amount of not less than ten percent (10%) of the total amount of the Bid and shall be cash, a certified check or cashier's check drawn to the order of the County of Yolo or a Bidder's Bond executed by a surety satisfactory to the County of Yolo in the form provided in the Proposal section of these Bid Documents. The Bidder to whom award is made shall provide Certificates of Insurance as required in Article 2 of the General Conditions, and shall complete and submit the Performance Bond and Payment Bond forms contained in the Contract Documents.

PREVAILING WAGE PROVISION:

a. Pursuant to Labor Code Section 1770 et seq., 1773, 1773.1, 1773.2, 1773.6, 1773.7, and 1720 each laborer or mechanic of contractor or any subcontractor engaged in work on the project under this Contract shall be paid not less than the hourly wage rate of per diem wages set forth in the prevailing wage rate schedule published by the Director of Industrial Relations regardless of any contractual relationship which may be alleged to exist between contractor or any subcontractor and such laborers and mechanics. Interested parties may obtain the current wage information by submitting their requests to the Department of Industrial Relations, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101, or at www.dir.ca.gov/dlsr/pwd.

b. Any laborer or mechanic employed to perform work on the project under this Contract, which work is not covered by any of the foregoing classifications, shall be paid not less than the prevailing rate of per diem wages specified herein for the classification which most nearly corresponds to the work to be performed by him/her.

c. The foregoing specified prevailing wage rates are minimum rates only, and the contractor may pay any wage rate in excess of the applicable rates contained in this Contract.

d. Pursuant to Labor Code Section 1775, the contractor as a penalty to the owner shall forfeit $200.00 for each calendar day, or portion thereof for each worker paid less than the prevailing rate established by the Department of Industrial Relations for such work or craft in which such worker is employed. The difference between such prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which the worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor. NOTE: an error on the part of an awarding body does not relieve the contractor from responsibility for payment of the prevailing rate of per diem wages and penalties pursuant to Labor Code Sections 1770-1775.

e. Prevailing wage rates are available through the following website: https://www.dir.ca.gov/OPRL/dprewagedetermination.htm.

f. All contractors and subcontractors are subject to the provisions of Sections 1810 through 1814 of the California Labor Code which provide for the maximum hours a worker is to be employed and the amount and rate of overtime compensation.

AWARD OF CONTRACT:

Bids will be considered for award by the County Administrator's Office of the County. The County of Yolo reserves the right after opening bids to reject any or all bids, or to waive any informality (non-responsiveness) in any bid, or to make award to the lowest responsive, responsible bidder and reject all other bids, as it may best serve the interests of the County.

If this Contract is to be awarded, the Notice of Award shall be issued to the lowest responsible, responsive bidder within Ninety (90) days following the bid opening.

As a condition of award, the successful Bidder will be required to submit bonds and evidence of insurance prior to execution of the Agreement by the County. Failure to meet this requirement shall

constitute abandonment of the Bid by the Bidder and forfeiture of the Bid Bond. Award will then be considered to the next lowest responsible Bidder.

All bids will be compared using the Opinion of Probable Cost prepared by the AE of Record for the project. For the purposes of bonding, the OPC for the base bid work is in the range of $3,100,00 - $3,400,000.

PRE-BID CONFERENCE:

Bidders must attend one of two pre-bid conferences to be held at the project site (37750 Sacramento Street, Yolo, CA) at 10:00 a.m. on Tuesday, June 1, 2021 and 2:00 p.m. on Thursday, June 3, 2021. **Attendance at one of the pre-bid conferences is mandatory.** Any questions that can be answered at that time by direct reference to the Contract, Plans and Specifications, will be answered. Questions that cannot be so answered will be addressed, as necessary, by written addendum. Submission of a bid shall be considered an acknowledgment of familiarity with the Contract, Plans and Specifications, and conditions at the site. Oral statements made during the bidding period may not be relied upon and will not be binding or legally effective.

Please note: All Pre-Bid Conference attendees will be required to comply with the County's mandates related to Covid-19 safety including the wearing of masks and physical distancing.

PROJECT MANAGER:

All communications relative to the Contract Documents and Plans shall be posted on BidSync. No oral responses to any questions concerning the content of the Plans and Contract Documents will be given. Responses, if any, will be in the form of written addenda to the Contract Documents and Plans.

By order of the County Administrators Office, County of Yolo, State of California.

By:

Kevin Yarris
County of Yolo
General Services

SECTION 00 20 00

INSTRUCTIONS TO BIDDERS

1. Bids are requested for a general construction contract, or work described in general, as follows:

Yolo Branch Library
37750 Sacramento Street, Yolo, California

2. The County of Yolo will receive sealed bids from Bidders as stipulated in Document 00 12 00, Notice to Bidders.

3. Apparent low Bid will be based solely on: Base Bid Price. All Bidders are required to submit Bids on all bid items.

4. Bidders must submit bids on Document 00 41 00 Bid Form. Bids not submitted on the required form shall be deemed non-responsive and shall not be considered.

5. Bidders must submit cash, a cashier's check, a certified check or a corporate surety bond of not less than ten percent (10%) of amount bid, payable to The County, with their Bids. Required form of corporate surety bond, Document 00 42 00 County of Yolo Bidder's Bond, is provided by the County. Bids submitted without necessary bid security will be deemed non-responsive and will not be considered.

6. Bidders must submit names of all subcontractors and their respective bid item sub-bids on Document 00 43 00 Subcontractors List for those subcontractors who will perform any portion of Work, including labor, rendering of service, or specially fabricating and installing a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in excess of one half of one percent (0.5%) of total bid. Any violation of this provision may result in Bid being deemed non-responsive and not being considered.

7. Bidders must submit Document 00 45 10 Non-collusion Affidavit with their bids. Bids submitted without the affidavit will be deemed non-responsive and will not be considered.

8. Bidders must supply all information required by Bid documents and specifications. Bids must be full and complete. The County reserves the right in its sole discretion to reject any Bid as non-responsive as a result of any error or omission in the Bid.

9. A mandatory Pre-bid Conference and Site Visit will be held as referenced in Document 00 12 00, Notice to Bidders, to clarify such matters as Bidders may request. The referenced Pre-bid Conference and Site Visit will take approximately two hours. The County will transmit to all prospective Bidders of record such Addenda as the County in its discretion considers necessary in response to questions arising at the Pre-bid Conference. The sign in sheet at the Pre-bid conference will also be posted or made available by addendum. Oral statements shall not be relied upon and will not be binding or legally effective. Addenda issued as a result of the Pre-bid Conference, shall constitute the sole and exclusive record and statement of the results of the Pre-bid Conference.

10. Bids shall be clearly written without erasure or deletions. The County reserves the right to reject any Bid containing erasures or deletions.

11. Bidders may not modify Bid Form or qualify their Bids.

12. Submission of Bid signifies careful examination of Contract Documents and complete understanding of the nature, extent and location of Work to be performed. Bidder must complete the tasks listed below in subsections as a condition to bidding and submission of Bid shall constitute the Bidder's express representation to The County that Bidder has fully completed the following:

    (A) Bidder has visited the site and has examined thoroughly and understood the nature and extent of the Contract Documents, Work, existing facility conditions for demolition and removal, Site, locality, actual conditions, existing access and facility conditions, and all local conditions and federal, state and local laws and regulations that in any manner may affect cost, progress, performance or furnishing of Work or which relate to any aspect of the means, methods, techniques, sequences or procedures of construction to be employed by Bidder and safety precautions and programs incident thereto;

    (B) Bidder has given Project Manager prompt written notice of all conflicts, errors, ambiguities or discrepancies that it has discovered in or among the Contract Documents and as-built and actual conditions and the written resolution thereof by Project Manager is acceptable to Bidder.

13. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Contract, as determined by Director of the State of California Department of Industrial Relations, are deemed included in the bid documents.

    (A) DIR REGISTRATION AND NOTICE: To be qualified to bid on, be listed in a bid proposal or engage in the performance of any public work contract subject to Labor Code section 1720, contractors and subcontractors must be registered with the Department of Industrial Relations. Failure to provide this information at the time of bid will result in disqualification. Please see http://www.dir.ca.gov/Public-Works/PublicWorks.html for more information. No contract will be entered into without proof of the contractor's and subcontractors' current registration with the Department of Industrial Relations to perform public work provided at the time of bid. If awarded a contract, the bidder and its subcontractors, at all tiers, shall maintain active registration with the Department of Industrial Relations for the duration of the project. This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Each contractor and subcontractor must furnish certified payroll records to the Labor Commissioner at least monthly.

    (B) **Joint Apprenticeship Committee Participation Requirement**
    It is a County policy that, in order to be deemed a responsive bidder, the bidder must participate in a joint apprenticeship committee. The California Department of Industrial Relations defines a joint apprenticeship committee as a committee made up of equal number of members from labor and management. **Bidders must submit with their bid**

a completed California Department of Industrial Relations' DAS-7 form that documents the bidder's participation in a joint apprenticeship committee. Bids that are not accompanied by such proof of participation will be rejected. The County will verify participation prior to the award.

14. All questions regarding Plans and Specifications and Interpretations or Clarifications for this Invitation for Bid must be entered electronically through the County's electronic solicitation system, **BidSync** at https://www.BidSync.com. The County Project Manager will respond to all Contractor questions through the BidSync Question and Answer section on this website. Questions received less than seven (7) days prior to the date for opening Bids may not be answered. Only questions answered in BidSync or by formal written Addenda posted in BidSync will be binding. Oral and other interpretations or clarifications will be without legal effect.

15. Addenda may also be issued to modify the Bidding Documents as deemed necessary by the County and consultants.

16. Addenda shall be acknowledged on Bid Form by number and shall be part of Contract Documents. Contractor shall be responsible for obtaining all addenda published and complete listing of Addenda may be secured from the Project Manager.

17. Substitutions: Bids shall be based on products and systems specified in Contract Documents or listed by name in Addenda. Contractors and materials suppliers may submit requests for substitutions up to thirty-five (35) days following the Notice of Award.

    (A) Requests for substitutions shall contain sufficient information to assess acceptability of product or system and impact on Project (see Specification Section 01 25 00 for criteria). Insufficient information shall be ground for rejection of substitution.

    (B) Substitutions may be requested after Contract is signed in accordance with requirements specified in Document 00 70 00 General Conditions and Specifications Section 01 25 00.

    (C) Substitutions may not be requested between bid opening and issuance of the Notice of Award.

18. Bids will be received at County of Yolo, County Administrator's Office Room 202, Woodland, CA 95695 by the County and/or Project Manager who will receive them and time/date them. Bids submitted by mail must be received prior to the opening of bids; The County will not be held responsible for the failure of delivery.

    (A) Envelopes or boxes must be sealed, and marked with name and address of the Bidder, and addressed to:

Yolo County, County Administrators Office
625 Court Street, Room 202
Woodland, CA 95695

(B) Mark envelopes:

Yolo Branch Library

(C) Envelopes must be submitted by date and time shown in Document 00 12 00, Notice to Bidders.

(D) Bids must contain the following, fully executed documents:

1) Document 00 41 00 Bid Form: Must be filled in and signed by Bidder.

2) Cash, Cashier's Check, Certified Check, or Document 00 42 00 County of Yolo Bidder's Bond: If submitted, Document 00 42 00 is to be executed by Bidder and its surety.

3) Document 00 43 00 Subcontractors List: If Bidder intends to employ sub-contractors, it is necessary to furnish information required on this form, in accordance with instructions contained herein. It is acceptable for the bidder to provide the city and state only on bid day and within 24 hours of the bid due date provide the mailing addresses & phone numbers."

4) Document 00 45 00 Bidder Information Sheet

5) Document 00 45 10 Non-collusion Affidavit: To be subscribed and sworn before a notary public.

19. Envelopes will be opened in public following receipt of bids after **2:05 pm on Thursday, June 24, 2021,** in the Atrium Training Room of the Erwin Meier Administration Building, 625 Court Street, Woodland, CA.

20. The following documents are to be executed and submitted by apparent low Bidder after Bids have been opened and duly inspected. Failure to properly and timely submit these documents entitles The County to reject the bid as non-responsive.

(A) Submit the following documents to the Project Manager by 5:00 p.m. of the TENTH business day following opening and inspection of bids.

1) Insurance Certificates and Endorsements required by Document 00 70 00 General Conditions Article 2

(B) Submit the following documents to the Project Manager by 5:00 p.m. of the TENTH business day following NOTICE OF AWARD. Award of contract depends upon approval of State Department of Finance, Insurance Certificates and Endorsements, Document 00450 Contractor Information Form, and any required safety submittals.

1) Document 00 52 00 Agreement: To be executed by successful Bidder. Submit two

(2) copies, each bearing an original signature.

2) Document 00 61 00 Performance Bond: To be executed by successful Bidder and surety.

3) Document 00 62 00 Payment Bond: To be executed by successful bidder and surety.

(C) The apparent low Bidder and each of its subcontractors who employ workers in any apprentice able craft or trade, shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices, pursuant to section 1777.5 of the California Labor Code.

21. Any bid protest must be submitted in writing to the Project Manager, before 5 p.m. of the FIFTH business day following bid opening.

(A) The initial protest document must contain a complete statement of the basis for the protest.

(B) The protest must refer to the specific portions of all documents, which form the basis for the protest.

(C) The protest must include the name, address and telephone number of the person representing the protesting party.

(D) The party filing the protest must concurrently transmit a copy of the initial protest document and any attached documentation to all other parties with a direct financial interest that may be adversely affected by the outcome of the protest. Such parties shall include all other Bidders or proposers who appear to have a reasonable prospect of receiving an award depending upon the outcome of the protest.

(E) The County will issue a decision on the protest. If the County determines that a protest is frivolous, the party originating the protest may be determined to be irresponsible and that party may be determined to be ineligible for future contract award.

(F) The procedure and time limits set forth in this paragraph are mandatory and are the Bidder's sole and exclusive remedy in the event of bid protest and failure to comply with these procedures shall constitute a waiver of any right to further pursue the bid protest, including filing a Government Code Claim or legal proceedings.

22. The County reserves the right to reject any or all Bids, including without limitation the right to reject any or all nonconforming, non-responsive, unbalanced or conditional Bids, re-bid, and to reject the Bid of any Bidder if The County believes that it would not be in the best interest of Project to make an award to that Bidder, whether because the Bid is not responsive or the Bidder is unqualified or of doubtful financial ability or fails to meet any other pertinent standard or criteria established by The County. The County also reserves the right to waive

inconsequential deviations not involving price, time or changes in the Work. For purposes of this paragraph, an "unbalanced bid" is one having nominal prices for some work items and enhanced prices for other work items.

23. Discrepancies between the multiplication of units of Work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum. Discrepancies between written words and figures, or words and numerals, will be resolved in favor of the words.

24. In evaluating Bids, The County will consider the qualifications of Bidders, whether or not the Bids comply with the prescribed requirements, unit prices and other data, as may be requested in the Bid Form or prior to the Notice of Award. The County may conduct such investigations as The County deems necessary to assist in the evaluation of any Bid and to establish the responsibility, qualifications and financial ability of Bidders, proposed subcontractors, suppliers and other persons and organizations to perform and furnish the Work in accordance with the Contract Documents to The County's satisfaction within the prescribed time.

25. If the contract is to be awarded, it will be awarded to the lowest responsible, responsive Bidder and Base Bid. The award of the Contract will be subject to availability of funds and approval of Department of Financing per SB863 Lease Revenue Bond Financing requirements.

26. Special attention is directed to contractors for **Covid-19** precautions and requirements during construction. Refer to Section 01 10 00 Summary of Work for description of minimum requirements.

27. Special Requirements:

    A. The Contractor’s workers and equipment shall be limited to the work areas as designated by this contract. In the event the Contractor, his/her employees, or subcontractors fail to adhere to the County’s security provisions, the County has the right to deny access to the work site to that employee or subcontractor without an extension of time being granted to the Contractor.

    B. No smoking shall be allowed on construction site per County’s policy.

SECTION 00 41 00

BID FORM
Project: Yolo Branch Library, 37750 Sacramento Street, Yolo, California

1. The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an agreement with the County of Yolo ("The County") in the form included in the Contract Documents, Document 00 52 00 Contract, to perform and furnish all Work as specified or indicated in the Contract Documents for the Contract Sum and within the Contract Time indicated in this Bid and in accordance with all other terms and conditions of Contract Documents.

2. Bidder accepts all of the terms and conditions of the Contract Documents and the Notice to Bidders, including without limitation, those dealing with the disposition of Bid security. Bidder will sign and submit the Agreement with Bonds and other documents required by Document 00200 Instructions to Bidders, within ten (10) calendar days after receipt of the County's Notice of Award.

3. In submitting this Bid, Bidder represents:

   (a) Bidder has examined copies of all of the Contract Documents and of the following Addenda (receipt of all of which is hereby acknowledged).

Date	Number
_____	_____
_____	_____
_____	_____
_____	_____

   (b) Bidder has visited the site and has examined thoroughly and understood the nature and extent of the Contract Documents, Work, Site, locality, actual conditions, as built conditions, and all local conditions and federal, state and local laws and regulations that in any manner may affect cost, progress, performance or furnishing of Work or which relate to any aspect of the means, methods, techniques, sequences or procedures of construction to be employed by Bidder and safety precautions and programs incident thereto;

   (c) Bidder has examined thoroughly and understood all reports, drawings and/or reports, available for Bidding purposes and accepts the determination set forth in these documents and Document 00700 General Conditions of the limited extent of the information contained in such reports and drawings upon which the Bidder may be entitled to rely. Bidder agrees that except for the information so

identified, Bidder does not and shall not rely on any other information contained in such reports and drawings.

(d) Bidder has conducted or obtained and has understood all such examinations, investigations, explorations, tests, reports and studies (in addition to or to supplement those referred to in paragraph 3(c) above) which pertain to the subsurface conditions, as built conditions, Underground Facilities and all other physical conditions at or contiguous to the site or otherwise which may affect the cost, progress, performance or furnishing of Work, as Bidder considers necessary for the performance or furnishing of Work at the Contract Sum, within the Contract Time and in accordance with the other terms and conditions of Contract Documents, including specifically the provisions of the General Conditions; and no additional examinations, investigations, explorations, tests, reports, studies or similar information or data are or will be required by Bidder for such purposes;

(e) Bidder has correlated its knowledge and the results of all such observations, examinations, investigations, explorations, tests, reports and studies with the terms and conditions of the Contract Documents;

(f) Bidder has given Project Manager prompt written notice of all conflicts, errors, ambiguities or discrepancies that it has discovered in or among the Contract Documents and as built and actual conditions and the written resolution thereof by Project Manager is acceptable to Bidder.

4. Based on the foregoing, Bidder proposes and agrees to fully perform the Work within the time stated and in strict accordance with the Contract Documents for the following sum of money listed in the following Bid Schedule:

(continued on next page)

Base Bid Total Price for the Yolo Branch Library Project

Dated this_____day of_____, 2021

5. Subcontractors are listed on the attached document 00 43 00, Subcontractors List.

6. The undersigned understands that the County reserves the right to reject this Bid, but that this Bid shall remain open and shall not be withdrawn for a period of ninety (90) calendar days from the date prescribed for its opening (to accommodate State financing process).

7. If written notice of the acceptance of this Bid, hereinafter referred to as Notice of Award, is mailed or delivered to the Undersigned within the stipulated time after the date set for the opening of this Bid, or at any other time thereafter before it is withdrawn, the undersigned will execute and deliver the documents required by Document 00 20 00 Instructions to Bidders including, but not limited to, Document 00 52 00 Agreement, Document 00 61 00 Performance Bond, and Document 00 62 00 Payment Bond and Escrow Bid Documents, all within ten (10) calendar days after personal delivery or after receipt in the mails of the Notice of Award.

8. Notice of Award or request for additional information may be addressed to the undersigned at the address set forth below.

9. The undersigned herewith encloses a cash, cashier's check, certified check or corporate surety bond in the amount of ten percent (10%) of the total of Bid Items and made payable to: County of Yolo and is subject to all conditions imposed by law.

10. The undersigned agrees to commence work under this Contract on the date established and to complete all work within the time specified in Document 00 52 00 (Contract).

11. The undersigned agrees that, in accordance with Document 00 70 00 General Conditions liquidated damages for failure to complete all work in the contract within the time specified are as set forth in Document 00 52 00 (Agreement).

12. The undersigned herewith encloses the completed Non-Collusion Affidavit – 00 45 10.

13. The undersigned herewith encloses the completed DAS Form 7 – 00 45 26.

COUNTY OF YOLO BIDDER'S BOND

We, _____ as Principal, and

_____ as Surety, are bound unto THE COUNTY OF YOLO as Owner (Obligee), in the penal sum of ten percent (10%) of the total amount of the bid of the Principal submitted to the Obligee for the work described below, for the payment of which sum we bind ourselves, jointly and severally,

THE CONDITION OF THIS OBLIGATION IS SUCH, THAT:

WHEREAS, the Principal is submitting a bid to the Obligee, for the **Yolo Branch Library** for which bids are to be opened in public in the Erwin Meier Administration Building, 625 Court Street, Woodland, CA 95695.

NOW THEREFORE, if Principal is awarded the Contract and, within the time and manner required under the specifications, after the prescribed forms are presented to him for signature, enters into a written contract, in the prescribed form, in accordance with the bid, and files two bonds with the Obligee, one to guarantee faithful performance of the contract and the other to guarantee payment for labor and materials, as required by law, then this obligation shall be null and void; otherwise it shall remain in full force.

In the event suit is brought upon this bond by the Obligee and judgment is recovered, the Surety shall pay all costs incurred by the Obligee in such suit, including reasonable attorney's fees to be fixed by the Court.

AGREEMENT TO TRAIN APPRENTICES

DAS Form 7

Joint Apprenticeship Committee Participation Requirement

The County adopted a policy that one of requirements to be deemed a responsive bidder is that the bidder must be participating in a joint apprenticeship committee. The California Department of Industrial Relations defines a joint apprenticeship committee as a committee made up of equal number of members from labor and management. **Bidders must complete and submit the attached California Department of Industrial Relations' DAS-7 form that documents the bidder's participation in a joint apprenticeship committee.** The County will verify participation prior to the award.

PROJECT: YOLO BRANCH LIBRARY
37750 Sacramento Street
Yolo, CA 95697

COUNTY OF YOLO CONTRACT

CONTRACT FOR: **The Yolo Branch Library located in the Town of Yolo, California**.

The Contract Price of your contract is **xxxxxxxxxxxxxxxxxxxxxxxxxxxx** Dollars ($xxxxxxxxxxxx).

One copy of each of the proposed Contract Documents (except Drawings) accompany this Notice of Award. Drawings will be delivered electronically under separate cover.

Upon receipt of this Notice of Award, you and each of your subcontractors who employ workers in any apprenticable craft or trade, shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade for a certificate approving you and your subcontractors under the apprenticeship standards for the employment and training of apprentices, pursuant to section 1777.5 of the California Labor Code.

Upon commencement of the work, you and each of your subcontractors shall certify and make available for inspection payroll records on forms provided by the Division of Labor Standards Enforcement, pursuant to section 1776 of the California Labor Code.

You must comply with the following conditions precedent within ten calendar days of the date of this Notice of Award, that is by xxxxxxxxxxxxxxxxxxx, 2021.

1. You must deliver to The County one fully executed counterpart of the Contract (Document 00 52 00). Each of the Contract Documents must bear your signature on the cover page.

2. You must deliver to The County the Contract Performance Bond (Document 00 61 00) and Payment Bond (Document 00 62 00).

3. You must deliver to The County Certificates of Insurance for amounts specified.

Failure to comply with these conditions within the time specified will entitle The County to consider your bid abandoned, to annul this Notice of Award and to declare your Bid Security forfeited.

Within ten days after you comply with those conditions, The County will return to you one fully signed counterpart of the Contract with the Contract Documents attached.

The County of Yolo

SECTION 00 52 00

COUNTY OF YOLO, CALIFORNIA

CONSTRUCTION AGREEMENT FOR THE YOLO BRANCH LIBRARY
37750 Sacramento Street, Yolo, California
CONTRACT NO. _____

This Agreement for Construction ("Agreement") is between _____, a California Corporation ("Contractor"), and the County of Yolo ("County"), a political subdivision of the State of California.

1. SCOPE OF WORK. Contractor shall furnish all labor, services, transportation, materials, equipment, parts, and supplies necessary for **The Yolo Branch Library, 37750 Sacramento Street, Yolo, California,** in accordance with the plans and specifications.

2. CONTRACT DOCUMENTS. The documents defined as the "Contract Documents" in Section 1.12 of the General Conditions, which are incorporated as if fully set forth herein by this reference, comprise the entire Agreement between the County and Contractor concerning the above-referenced project. The documents that describe the work to be performed are sometimes collectively referred to herein as the Plans and Specifications. In the event of any conflict between any of the provisions of the Contract Documents, the provision that requires the highest level of performance from Contractor for the County's benefit shall prevail.

3. CONDUCT OF WORK; CONTRACT ADMINISTRATOR. Contractor shall perform the services described in the Contract Documents in a manner that causes the least possible inconvenience to County and the public and safeguards persons and property from any dangerous activities or conditions conducted or created by Contractor. County's Manager of Facilities Services and Capital Programs shall administer this Agreement for County. County's Board of Supervisors may designate a different person to serve as Contract Administrator by giving advance written notice to Contractor.

(a) Work Schedule. Unless otherwise agreed pursuant to Section 3.01 of the General Conditions, Contractor shall begin work within ten (10) days after receiving the Contract Administrator's Notice to Proceed and shall complete the work within **360 calendar days** after receiving that notice. This work must be complete, operational, have a Temporary Occupancy Permit and be turned over to the County for its intended use for this milestone to be deemed complete. County understands the nature of weather and will allow for rain delays to the project, if applicable.

(b) Liquidated Damages. Contractor shall pay County **$2,500.00** a day liquidated damages for each day's delay (excluding Saturdays, Sundays, and County observed holidays) in completing the work beyond the time specified for completion of work. All other aspects of the payment of such damages shall be governed by Section 3.12 of the General Conditions and other relevant provisions thereof.

4. INDEMNIFICATION. Contractor's indemnity, defense, and related obligations shall be as specified in Section 00 62 10 of the Project Manual.

5. COMPENSATION. All matters of compensation shall be governed by the General Conditions, including but not limited to Article 25 thereof.

6. INSURANCE. Contractor shall maintain the following insurance while performing the services covered by this Agreement. The comprehensive general liability insurance shall include broad form property damage insurance.

(a) Minimum Coverages (as applicable) - Insurance coverage shall be with limits not less than the following:

1. **Commercial General Liability** Occurrence form Insurance policy (ISO CG 00 01 or equivalent) covering all operations by or on behalf of Contractor, including coverage for:

   a) Premises and Operations

   b) Products and completed Operations

   c) Contractual Liability insuring the obligations assumed by Contractor in this agreement or Blanket Contractual Liability Coverage

   d) Broad Form Property Damage (including Completed Operations)

   e) Explosion, Collapse, and Underground Hazards

   f) Personal Injury Liability

   Limits of liability shall be not less than:

   $5,000,000 each occurrence (combined single limit for bodily injury and property damage)

   $5,000,000 for Personal Injury Liability

   $5,000,000 for Products Completed Operations

   $10,000,000 General Aggregate

   If the policy does not have an endorsement providing that the General Aggregate Limit applies separately, or if defense costs are included in the aggregate limits, then the required aggregate limits shall be $10,000,000.

2. **Automobile Liability** – Insurance policy (ISO CA 00 01) covering Bodily Injury, Property Damage and contractual Liability coverage for "Any Auto" which includes coverage for any owned, hired, borrowed and non-owned automobile, trailer, and equipment coverage, with limits no less than $1,000,000 occurrence (per accident for bodily injury and property damage) and $2,000,000 policy aggregate.

3. **Workers' Compensation** – Statutory Limits/**Employers' Liability** – No less than $1,000,000 per accident for bodily injury or disease.

4. **Builder's Risk** – (Course of Construction) insurance utilizing an "All Risk" (Special Perils) coverage form, with limits equal to the completed value of the project and no coinsurance penalty provisions.

5. **Contractor's Pollution Legal Liability Insurance** – Limits of no less than $2,000,000 per occurrence or claim, and $2,000,000 policy aggregate.

(b) The County, its officers, agents, employees and volunteers shall be named as additional insured on all but the workers' compensation and professional liability coverages. . **[NOTE: Evidence of additional insured may be needed as a separate endorsement due to wording on the certificate negating any additional writing in the description box.]** It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

1. The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self insurance and shall be at least as broad as CG 20 01 04 13.

2. The limits of Insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non contributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self insurance shall be called upon to protect it as a named insured.

3. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

4. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

5. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

6. Each insurance policy shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the Director (ten (10) days for delinquent insurance premium payments).

7. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

8. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

9. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

10. The insurer shall waive all rights of subrogation against the County, its officers, employees, agents and volunteers.

(c) Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

(d) During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

(e) Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/**and or Contractor** shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the agreement

prior to commencement of any work and General Contractor/**and or Contractor** will provide proof of compliance to the County of Yolo.

(f) Contractor shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

7. COMPLIANCE WITH LAWS. Contractor shall comply with all relevant federal, state, and local statutes, regulations, ordinances, rules, orders, and other laws in effect when performing the services required by this Agreement, all as set forth in the General Conditions (including but not limited to Article 20 thereof).

8. INDEPENDENT CONTRACTOR. While performing the services required by this Agreement for Construction, Contractor shall act as an independent contractor, not as an employee of County, and thus shall be subject to the direction and control of County only for the final result. Contractor shall be solely responsible for paying all required employment taxes and for meeting all employment obligations related to its performance of the services, including but not limited to payment of worker's compensation, liability insurance, social security taxes (i.e., FICA), and tax withholding. Moreover, Contractor shall indemnify, defend (upon County's written request), and protect County from any liability County may incur to federal or state governments for such taxes and obligations. This Agreement does not entitle Contractor or its officers, employees, subcontractors, or agents to vacation pay, sick leave, retirement benefits, disability or unemployment insurance, or employee benefits of any kind from County.

9. INSPECTIONS. All inspections and any remedial action required in response thereto shall be governed by the General Conditions, including but not limited to Article 18 thereof.

10. PERFORMANCE BONDS. Within the time set forth in the Proposal and before performing any services pursuant to this Agreement, Contractor shall provide to County the bonds required by the General Conditions, including but not limited to Article 2 thereof. All other matters relating to bonds shall be governed by the General Conditions.

11. TERM OF AGREEMENT; EARLY TERMINATION. The term and termination of this Agreement shall be governed by the General Conditions, including but not limited to Article 27 thereof.

12. GUARANTY. Guarantees and warranties shall be governed by the General Conditions, including but not limited to Article 26 thereof.

13. AUDIT PROVISIONS. Contractor’s records which shall include but not limited to accounting records, subcontract files, correspondence, change order files, and any other supporting evidence necessary to substantiate charges relating to this contact (all the foregoing hereinafter referred to as “records”) shall be open to inspection and subject to audit and/or reproduction, during normal working hours, by County’s agent or its authorized representative to the extent necessary to adequately permit evaluation and verification of any invoices, payments, or claims submitted by the contractor or any of his payees pursuant to the execution of this Agreement. For the purpose of such audits, inspections,

examination, and evaluations, the County's agent or authorized representative shall have access to said records from the effective date of this Agreement, for the duration of the work, and until six years after the date of final payment by County to Contractor pursuant to this Agreement.

14. MISCELLANEOUS.

(a) Notice. Except as provided in Section 6, all correspondence regarding this Agreement, including invoices, payments, and notices, shall be directed to the following persons at the following addresses and phone number:

County:

Kevin Yarris
Director, General Services
120 West Main Street Suite D
Woodland, CA 95695
Telephone: (530) 406-5005

Contractor:

_____
_____
_____
Telephone: _____

If written, correspondence shall be sent by personal delivery (including overnight delivery service); by U.S. Mail, postage prepaid; or by fax during business hours. Notices must be actually received to be effective.

(b) Time of Essence. Time is of the essence of this Agreement.

(c) Interpretation and Jurisdiction. This Agreement shall be interpreted and applied in accordance with California law. The plans and specifications attached as Exhibit A are part of this Agreement. If any conflict arises between Exhibit A and the terms and conditions set forth in Sections 1 through 14 of this Agreement, then Sections 1 through 14 shall govern.

(d) Waiver. A party's failure to insist on strict performance of this Agreement or to exercise any right or remedy upon breach of this Agreement shall not constitute a waiver of such performance, right, or remedy. No waiver is binding unless set forth in a writing signed by the waiving party.

(e) Assignments and subcontracts. Contractor shall not assign this Agreement. Contractor may subcontract any of the services described in Section 1 (Scope of Work) with County's prior written consent. Contractor shall require each subcontractor to agree in writing to be bound by Section 4 (Indemnification) and Section 6 (Insurance) of this Agreement. County shall consider all subcontractors to be Contractor's employees, and Contractor shall be responsible for their work.

(f) **Dispute Resolution**. Unless the General Conditions provide otherwise, if the Contract Administrator notifies Contractor that the work or any portion of it is unacceptable, then the Contract Administrator and Contractor shall meet at the Yolo County Office of County Administrator, 625 Court Street #202, Woodland, California, within five (5) days after Contractor receives the notice (excluding Saturdays, Sundays, and County observed holidays) and shall attempt in good faith to resolve their differences. Payment shall not constitute approval or acceptance of any defective work.

(g) **Integration.** This Agreement sets forth the parties' entire understanding regarding the matters set forth in Sections 1 through 14. It supersedes all prior Agreements and representations, written and oral, and may be modified only by a written Agreement approved by County's Board of Supervisors and signed by County and Contractor.

(h) **Effective date.** This Agreement shall be effective on the last date shown below.

County Administrators Office

SECTION 00 61 00

COUNTY OF YOLO

PERFORMANCE BOND

(To Accompany Contract)

KNOW ALL PERSONS BY THESE PRESENTS:

THAT WHEREAS, the County of Yolo, organized and operating under the laws of the State of California (hereinafter referred to as the "County") has awarded to _____, (hereinafter referred to as the "Contractor") an agreement for **Contract No.**_____, (hereinafter referred to as the "Project").

WHEREAS, the work to be performed by the Contractor is more particularly set forth in the Project Plans and Specifications dated _____, (hereinafter referred to as "Contract Documents"), the terms and conditions of which are expressly incorporated herein by reference; and

WHEREAS, the Contractor is required by said Contract Documents to perform the terms thereof and to furnish a bond for the faithful performance of said Contract Documents.

NOW, THEREFORE, we, _____, the undersigned Contractor and _____ as Surety, a corporation organized and duly authorized to transact business under the laws of the State of California, are held and firmly bound unto the County in the sum of _____ DOLLARS, ($_____), said sum being not less than one hundred percent (100%) of the total amount of the Contract, for which amount well and truly to be made, we bind ourselves, our heirs, executors and administrators, successors and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH, that, if the Contractor, his or its heirs, executors, administrators, successors or assigns, shall in all things stand to and abide by, and well and truly keep and perform the covenants, conditions and agreements in the Contract Documents and any alteration thereof made as therein provided, on its part, to be kept and performed at the time and in the manner therein specified, and in all respects according to their intent and meaning; and shall faithfully fulfill all obligations including the one (1) year guarantee of all materials and workmanship; and shall indemnify and save harmless the County, its officials, officers, employees, and authorized volunteers, as stipulated in said Contract Documents, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a part of the obligation secured hereby and in addition to the face amount specified therefore, there shall be included costs and reasonable expenses and fees including reasonable attorney's fees, incurred by the County in enforcing such obligation.

As a condition precedent to the satisfactory completion of the Contract Documents, unless otherwise provided for in the Contract Documents, the above obligation shall hold good for a period of one (1) year after the acceptance of the work by the County, during which time if Contractor shall fail to make full, complete, and satisfactory repair and replacements and totally protect the County from loss or damage resulting from or caused by defective materials or faulty workmanship. The obligations of Surety hereunder shall continue so long as any obligation of Contractor remains. Nothing herein shall limit the County's rights or the Contractor or Surety's obligations under the Contract, law or equity, including, but not limited to, California Code of Civil Procedure Section 337.15.

Whenever Contractor shall be, and is declared by the County to be, in default under the Contract Documents, the Surety shall remedy the default pursuant to the Contract Documents, or shall promptly, at the County's option:

i. Take over and complete the Project in accordance with all terms and conditions in the Contract Documents; or

ii. Obtain a bid or bids for completing the Project in accordance with all terms and conditions in the Contract Documents and upon determination by Surety of the lowest responsive and responsible bidder, arrange for a Contract between such bidder, the Surety and the County, and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term “balance of the contract price” as used in this paragraph shall mean the total amount payable to Contractor by the County under the Contract and any modification thereto, less any amount previously paid by the County to the Contractor and any other set offs pursuant to the Contract Documents.

iii. Permit the County to complete the Project in any manner consistent with California law and make available as work progresses sufficient funds to pay the cost of completion of the Project, less the balance of the contract price, including other costs and damages for which Surety may be liable. The term “balance of the contract price” as used in this paragraph shall mean the total amount payable to Contractor by the County under the Contract and any modification thereto, less any amount previously paid by the County to the Contractor and any other set offs pursuant to the Contract Documents.

Surety expressly agrees that the County may reject any contractor or subcontractor which may be proposed by Surety in fulfillment of its obligations in the event of default by the Contractor.

Surety shall not utilize Contractor in completing the Project nor shall Surety accept a bid from Contractor for completion of the Project if the County, when declaring the Contractor in default, notifies Surety of the County’s objection to Contractor’s further participation in the completion of the Project.

The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project to be performed thereunder shall in any way affect its obligations on this bond, and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract Documents or to the Project.

SECTION 00 62 00

PAYMENT BOND

BOND NO. _____

KNOW ALL MEN BY THESE PRESENTS: That

WHEREAS, the Board of Supervisors of the County of Yolo, State of California, (hereinafter designated as "County") and _____ (hereinafter designated as "Principal") have entered into an Agreement (County Agreement No._____, dated _____, 20__) for the furnishing of all materials, labor, services and transportation, necessary, convenient, and proper to the construction of **the Yolo Branch Library**: _____, which Agreement and all of the Contract Documents attached to or forming a part of said Agreement are hereby referred to and made a part hereof; and

WHEREAS, said Principal is required under the terms of said Contract to furnish a bond to secure payment of all claims under Chapter 7 of Title 15 of Part 4 of Division 3 of the Civil Code of California and the other statutes noted below.

NOW, THEREFORE, said Principal and the undersigned _____, (hereinafter designated as "Surety"), are held and firmly bound unto the County, and unto all laborers, material men and other persons referred to in said statutes, in the sum of _____DOLLARS ($_____) (not less than 50% of the Contract price), lawful money of the United States of America, for the payment of which sum well and truly made, we bind ourselves, our heirs, executors, administrators, successors and assigns, jointly and severally by these presents.

The condition of this bond is that if the Principal does well and truly pay any persons named in Civil Code Section 3181, or amounts due under the Unemployment Insurance Code with respect to work or labor performed by any such claimant, or any amounts required to be deducted, withheld and paid over to the Franchise Tax Board from the wages of employees of the Principal and his subcontractors pursuant to Section 18806 of the Revenue and Taxation Code with respect to such work and labor, pay all such persons and amounts, then this obligation shall become null and void; otherwise it shall be and remain in full force, virtue and effect.

If the said Principal or any of his or its subcontractors, or the heirs, executors, administrators, successors, or assigns of any, all or either of them, shall fail to well and truly pay any such persons or amounts then the Surety shall promptly pay the County the sum stated above. Surety, for value received, hereby expressly acknowledges and agrees that no change, extension of time, forbearance or waiver, prepayment or delay in payment, alteration or addition to the terms of the Contract Documents, whether by virtue of the provisions for modifications contained therein or by separate Agreement between the Principal and the County, shall in any manner affect its obligations on this Agreement, and said Surety hereby expressly waives notice of and consents to any such change, forbearance or waiver, extension of time, prepayment or delay in payment, alteration or addition.

Death of the Principal shall not relieve Surety of its obligations hereunder.

This bond shall inure to the benefit of any of the persons named in the above referenced statutes so as to give a right of action to such persons or their assigns in any suit brought upon this bond.

In the event suit is brought upon this bond by County and judgment is recovered, the Surety shall pay all costs incurred by County in such suit, including a reasonable attorney fees to be fixed by the court.

IN WITNESS WHEREOF, two identical counterparts of this instrument, each of which shall for all purposes be deemed an original thereof, have been duly executed by Principal and Surety above named, on the ____ day of _____, 2021.

INDEMNIFICATION

Contractor shall pay the cost of defense, indemnify, and save harmless the County of Yolo and all its officers, agents and employers from any and all claims, demands, damages, costs expenses, injury and liability of every kind, nature and description, arising or alleged to have arisen directly or indirectly from the performance or attempted performance of the Agreement for Construction of the Work, or from the nature of the Work, or by products, materials or equipment installed in or used on the Work, howsoever the same may be caused, without set off due to the Contractor's right, if any, to apportionment between joint tortfeasors.

This indemnity obligation extends to, but is not limited to, all acts, errors, omissions, and active and/or passive negligence by the Contractor, all subcontractors, all material suppliers, and their officers, employees, agents, or subcontractors, and includes all acts, errors, omissions, and active and/or passive negligence alleged to be joint or concurrent by them and the County or any of its officers, employees, agents, independent contractors or consultants, save only liability caused exclusively by the sole negligence, willful misconduct or defects in design provided by the County or its officers, employees, agents or independent contractors (other than the Prime Contractor) who are directly responsible to the County.

This indemnity obligation expressly extends to and includes, but is not limited to any and all claims, demands, damages, costs, expenses, or liability occasioned as a result of damages to the work, the Site or improvements thereon, or to adjacent property; and for injuries occurring after completion of the Work, as well as during the progress of the Work; and as a result of the violation of any provision of Federal or State law; and for inverse condemnation or equitable relief; and occasioned by personal and/or bodily injury to or death of any person, or any damage to property owned by any person while on or about the premises by right or not, whenever the work is alleged to have been a contributing cause in any degree whatsoever.

Nothing contained in this indemnity provision shall be construed to require the Contractor to indemnify the County in contravention of Section 2782 of the Civil Code. Contractor’s responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement. In providing any defense under this Section, the Contractor shall use counsel reasonably acceptable to the County.

AGREEMENT/ACKNOWLEDGMENT

Contractor agrees that he/she has read and agrees to the indemnification clause as written above.

END OF GENERAL CONDITIONS 87

SECTION 00700

GENERAL CONDITIONS

ARTICLE 1.

DEFINITIONS AND PRINCIPLES OF INTERPRETATION

Section 1.01. DEFINED TERMS.

Whenever the following terms, titles, or phrases are used in the Contract Documents, the intent and meaning thereof shall be as defined in this Article.

Section 1.02. ADDENDUM/ADDENDA.

"Addendum" or "Addenda" are written documents furnished by the County before Award of the Contract which interpret Drawings and/or Specifications or answer questions of intended bidders and shall be incorporated in and are a part of the Contract Documents.

Section 1.03. AGREEMENT FOR CONSTRUCTION.

The "Agreement for Construction" is the written contract between the County and the Contractor by which the Contractor agrees to perform the Work necessary for full completion of the Project as intended, or the portions of the Project incorporated into the Contract. The Agreement for Construction includes the Contract Documents.

Section 1.04. ALLOWANCE.

An "Allowance" is the County's monetary and/or quantity estimate for equipment, materials, or work, the quantity and/or quality of which the County has not determined at the time of the Award of the Contract. The Contractor's bid includes all specified allowances, if any. "Allowance" also includes the contingency allowance specified to be included in the Contractor's bid, if any.

Section 1.05. AWARD OF CONTRACT; DATE.

The "Award of the Contract" is the action by the General Services Department of the County to execute the Agreement for Construction with the lowest responsible bidder and constitutes the County's acceptance of the Bid offer.

The Award of the Contract occurs after the County has determined which bid alternates, if any, are to be included in the Work, and has determined whether the apparent low bidder for the Work, including such alternates, is the lowest responsible bidder.

The date of the Award of the Contract is the date the General Services Department acts to authorize execution of the Agreement for Construction by the County, even though actual execution of the Agreement by the County does not occur until the Contractor submits the bonds and insurance certifications required by Article 2.

Section 1.06. BID.

The "Bid" shall mean the offer of the bidder to do the Work, when submitted on the prescribed bid form, duly executed and bonded. After Award of the Agreement for Construction by the County to the lowest responsible bidder, "Bid" shall mean the Contract Price.

Section 1.07. BOARD OF SUPERVISORS/COUNTY ADMINISTRATIVE OFFICER.

"Board of Supervisors" shall mean the duly elected officials constituting the Yolo County Board of Supervisors.

"County Administrative Officer" (CAO) is the chief executive officer of the County and reports to the Board of Supervisors.

Section 1.08. CERTIFICATION.

When used in the context of required submittals regarding quality assurance, "Certification" shall be the verification required from recognized producers or associations attesting to a product's compliance with the Contract Documents. Examples include Underwriters Laboratory ("UL") listings.

Section 1.09. CHANGE ORDER.

A "Change Order" is a written order from the County to the Contractor authorizing an addition, deletion, or revision in the Scope of the Work, and/or an adjustment in the Contract price or Contract Time, issued after the execution of the Agreement for Construction.

Section 1.10. CLARIFICATIONS.

"Clarifications" are supplementary explanations, interpretations, instructions, and/or drawings issued by the Contract Administrator to further define the intent of the Contract Documents, pursuant to Article 4 of the General Conditions and procedures developed by the Contract Administrator pursuant thereto.

Clarifications involve no change in the Scope, Price or Time of the Agreement for Construction.

Section 1.11. CONTRACT ADMINISTRATOR/PROJECT MANAGER.

See Section 3(a) of the Agreement for Construction.

Section 1.12. CONTRACT DOCUMENTS/PROJECT MANUAL.

The "Contract Documents" shall include the Bid Proposal; the Designation of Subcontractors; the Agreement for Construction; the Bonds required thereby; these General Conditions; the Supplementary Conditions, if any; Division 00 Bidding and Contracting Requirements; the Technical Specifications; all Documents comprising the bidding package; the Contract Drawings, (collectively referred to as "Project Manual"); all duly issued Addenda, Clarifications, Field Orders, and Work Authorizations; Change Orders; Supplemental Drawings; Contractor's Submittals approved pursuant to Articles 3 and/or 5 hereof, and the Contractor's Guarantee and Bonds. The Contract Documents comprise the "Agreement for Construction."

Section 1.13. CONTRACT DRAWINGS.

The "Contract Drawings" or "Drawings" shall mean the working drawings of the Work approved by the Board of Supervisors for the receipt of bids, plus all supplemental drawings approved by the County as Addenda or Clarifications, or reproductions thereof, which show the location, character, dimensions, and details of the Work to be done, and which are part of the Agreement for Construction.

Section 1.14. CONTRACT PRICE.

The "Contract Price" is the total consideration for which the contractor agrees to perform the Work

to produce a fully complete Project as intended by, and in accordance with, the Contract Documents. Unless modified by a duly issued Change Order, the Contract Price is the Contractor's Bid.

Section 1.15. CONTRACT TIME.

The "Contract Time" is the time specified in the agreement for Construction within which Contractor shall fully complete the Project in accordance with the Agreement for Construction. The Contract Time may be changed only by a Change Order duly issued by the Board of Supervisors. Contract Time begins with the date of the Notice to Proceed and ends with acceptance of project work completion by the County. The number of days included in the agreement form includes the estimated number of construction days required and not the 35 days allowed for initial submittals and the 21 days allowed for County review of those submittals.

Section 1.16. CONTRACTOR; PRIME CONTRACTOR.

"Contractor" and "Prime Contractor" shall mean the person or persons, co-partnership or corporation, or his or their legal representatives, or successors, assigns, executors, or heirs, who have entered into the Agreement for Construction with the County of Yolo.

Section 1.17. COUNTY.

"County" shall mean the County of Yolo, a political subdivision of the State of California.

Section 1.18. COUNTY INSPECTOR.

The "County Inspector" is the person(s) and/or firm(s), if any, employed or engaged as (an) independent contractor(s) by the County to inspect the performance of the Work by the Contractor for compliance with the Contract Documents. The County Inspector is supervised by and reports to the Contract Administrator. The authority of the County Inspector is limited to that specified in the Contract Documents, and no additional authority has been granted nor shall be inferred.

The Project Manager performs the duties of the County Inspector unless a separate person or firm is engaged as County Inspector.

Section 1.19. DAY/HOLIDAY; WORKING DAY; COUNTING DAYS.

A "day" shall mean a calendar day of 24 hours, including each and every day of the year.

A "working day" is Monday through Friday, but shall exclude "holidays" established by the Sacramento Builders' Exchange.

Unless specified as being working days, all references herein to the number of days within which an action is to occur shall mean calendar days.

In computing working days or calendar days, the first day is excluded and the last day is included, unless it is a Saturday, Sunday, or holiday.

Section 1.20. DIVISION 1.

"Division 1" of the Technical Specifications sets forth general procedures by which the Contractor complies with the requirements of the Contract Documents.

Division 1 is intended to supplement, not supersede or prevail over, the requirements of the General Conditions, Supplementary Conditions, or remaining divisions of the Technical Specifications. Thus, in the

event of a conflict between the requirements of Division 1 and other portions of the Contract Documents, the Contractor shall notify the Contract Administrator of the claimed discrepancy, and the Contract Administrator shall issue a Clarification correcting the discrepancy. The Contractor shall follow such written instructions.

Section 1.21. MATERIALS.

"Materials" shall include all building materials, articles, supplies, and equipment delivered to the Site for incorporation in the Work. "Materials" includes everything incorporated into the work except personal services and labor, unless otherwise noted.

"Equipment" shall mean all pre-manufactured or partially pre-assembled products or components, assembled or partially assembled before delivery to the Site, and intended for incorporation into the Work.

Section 1.22. NOTICE OF CESSATION OF WORK.

A "Notice of Cessation of Work" is a notice containing the information required by Civil Code Section 3092, recorded in the Yolo County Recorder's Office, indicating that there has been a continuous cessation of labor on the Work of the Agreement for Construction for at least thirty (30) days prior to recordation of the Notice. The Notice shall specify the date on or about when the cessation of labor commenced.

Section 1.23. NOTICE OF COMPLETION.

A "Notice of Completion" is a notice containing the information required by Civil Code Section 3093, recorded in the Yolo County Recorder's Office, indicating that the Work of the Agreement for Construction has been accepted by the County.

Section 1.24. PROGRAM MANAGER.

If assigned by the Contract Administrator, "the Program Manager" is that County official responsible for team leadership in coordinating departmental program requirements; for preparation of the statement of project objectives; for presenting project objectives to the County Administrator and Board of Supervisors; for heading the design team (for designated projects); for arranging project financing; for maintaining program oversight during the bidding and construction phases; and for providing joint progress reports, with the Contract Administrator, to the Board of Supervisors. The program manager represents the County to State and/or Federal program offices sponsoring the project. In the absence of an assigned program manager, the Director of General Services shall discharge these duties.

Section 1.25. PROJECT.

The "Project" is the total construction, of which the Work performed under the Agreement for Construction is the whole unless the Contract Documents specifically note to the contrary.

Unless so noted, the terms "Project" and "Work" are synonymous.

Section 1.26. PROJECT ARCHITECT/ENGINEER/CONSULTANT.

The "Project Engineer" is the firm employed or engaged as an independent contractor by the County to design the Project, and all sub-consultants or joint ventures of the Project Engineer. The authority of the Project Engineer to bind the County is limited to that authority specified in the Contract Documents, and no additional authority has been granted nor shall be inferred.

The Project Engineer advises the Contract Administrator in all aspects of the construction phase of the Project. His/Her functions include advice and assistance to the Contract Administrator in the correct interpretation and application of the Contract Documents. However, the Contract Administrator or his/her designate is the County's representative on the Project, not the Project Engineer. The Project Engineer is not authorized independently to issue Addenda, Clarifications, Field Orders, Work Authorizations, or Change Orders, or in any other way to bind the County in discussions with the Contractor.

The Contractor shall deliver all correspondence relating to the proper execution of the Work to the Contract Administrator, with a copy delivered to the Project Engineer. The Contract Administrator reserves the right to consult with the Project Engineer prior to responding to the Contractor's correspondence.

When discussions between the Contractor and the Contract Administrator occur either on the Site or elsewhere, but the Project Engineer is not present, the Contract Administrator reserves the right to consult with the Project Engineer prior to issuing his final decision or instruction.

See Division 1, Section 01 10 00 – County Personnel for details.

Section 1.27. REFERENCE TO CODES.

Unless otherwise noted, all references to statutes are to the law of the State of California as codified in the various specified codes.

Section 1.28. SITE.

"Site" is the area designated in the Contract Documents within which the Project is to be constructed.

Site for this purpose includes the area where Work on utility systems for the Project is to be performed by the Contractor under the Agreement for Construction, even though such areas may be designated as "off-site" on the Contract Drawings.

Section 1.29. SPECIFICATIONS.

"Specifications" shall mean the Technical Specifications portions of the Project Manual consisting of the Division 1 requirements and subsequent Divisions regarding qualities of materials and/or methods of workmanship to be furnished under the Contract. Specifications are organized into divisions, sections, and articles to enable grouping of the various portions of the Work into logical format, but this organization does not in any way restrict the Contractor in dividing the Work among subcontractors, or in establishing the extent of the Work to be performed by any trade.

Section l.30. SUBCONTRACTOR.

Unless other specified, "subcontractor" refers to all contractors doing any work on the Project, including first, second, and subsequent tier contractors, excluding only the Prime Contractor.

Section 1.31. SUBMITTALS.

As used in Articles 3 and 5 hereof, "submittals" shall mean shop drawings, product data, and samples, as defined below:

A. Shop Drawings are drawings, diagrams, schedules and other data specifically prepared for the Work by the Contractor or any subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work, and/or the method of installation of Materials.

B. Product Data are illustrations, standard schedules, performance charts, certifications, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate a material, product or system for some portion of the Work.

C. Samples are physical examples that illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

See Division 1, Section 01340 for details.

As used elsewhere herein, "submittals" is a general term including all information, certifications, data or samples required to be delivered by the Contractor to the County.

Section 1.32. SUPPLEMENTAL CONDITIONS.

The "Supplementary Conditions" are specific clauses in the Project Manual setting forth conditions or requirements peculiar to the Work, and supplementary to the General Conditions.

Section 1.33. WORK/NOTICE TO PROCEED.

The "Work" is the completed construction required by the Contract Documents to perform the Agreement for Construction fully and completely, and includes all labor necessary to produce such construction, and all materials and equipment incorporated or to be incorporated in such construction.

Unless specifically noted in the contract Documents as not included in the Agreement for Construction, "work" includes all construction necessary to fully complete the Project as intended, including all bid alternates selected by the County for inclusion in the Work.

Unless so noted, the terms "Work" and "Project" are synonymous.

The Work shall commence upon issuance by the County of a Notice to Proceed so authorizing.

Section 1.34. WORK AUTHORIZATIONS.

"Work authorizations" are written orders to the Contractor, which amend the Contract Documents as described, and authorize the Contractor to proceed with the Work noted therein. Pursuant to Section 17.03 hereof, Work Authorizations may be cumulated into periodic Change Orders to adjust the Contract Price and/or Time, upon verification by the Contractor of the actual cost and delay, if any, caused by the Work Authorization.

ARTICLE 2.

BONDS; INDEMNIFICATION; INSURANCE

Section 2.01. BONDS; SUBMITTALS.

Within ten (10) calendar days following the Award of the Contract, and before the County will execute the Agreement for Construction, the Contractor to whom the Contract is awarded shall obtain and submit to the County bonds as set forth below in Sections 2.02 and 2.03. The Contractor is advised that a copy of the Power of Attorney authorizing execution of the bonds on behalf of the corporate surety must be filed with the Yolo County Clerk prior to approval of the bonds by the County.

Provision of the bonds required by Sections 2.02 and 2.03, and the insurance certificate required by Section 2.07 is a condition precedent to the Contractor's rights on the Agreement for Construction and a material covenant thereof.

Section 2.02. PERFORMANCE BOND.

The Contractor shall submit a faithful performance bond on the form provided with the Instructions to Bidders, duly executed by a responsible corporate surety authorized to do business in the State of California and acceptable to the county, conditioned upon the faithful performance by the contractor of all requirements of the Contract Documents. The amount of said bond shall be in a sum no less than One-Hundred Percent (100%) of the total Contract Price.

Section 2.03. LABOR AND MATERIALS PAYMENT BOND.

The Contractor shall submit a payment bond on the form provided with the Instructions to Bidders, duly executed by a responsible corporate surety authorized to do business in the State of California and acceptable to the County, which in all respects complies with Civil Code Section 9550 and following. This bond, hereinafter referred to as a "Payment Bond", shall be in a sum no less than One-Hundred Percent (100%) of the total Contract Price.

Section 2.04. CONTRACT BOND.

Prior to final payment as provided in Article 26, Contractor shall furnish a bond issued by a responsible corporate surety licensed to do business in the State of California in a form provided or approved by the County, and securing the performance by Contractor of his obligation undertaken by virtue of the guarantees required by Article 26. Such bond shall remain in full force and effect for a period of no less than one (1) year from and after recordation by the County of a Notice of Completion or a Notice of Cessation of Work, and shall be in a sum no less than ten (10%) percent of the total amount of the final Contract Price. In lieu of such bond, the Contractor may submit a certified or cashier's check, cash, or an irrevocable, unconditional letter of credit in a form acceptable to County, or may extend the final withhold account on terms and conditions acceptable to the county to secure performance of Contractor's obligations on the guarantee.

Section 2.05. INDEMNIFICATION.

Except to the extent that specific indemnity provisions of these General Conditions may apply, Contractor’s indemnity, defense, and related obligations shall be as specified in Section 00 62 10 of the Project Manual.

Nothing contained in the indemnity provisions of the Agreement for Construction shall be construed to require the Contractor to indemnify the County in contravention of Section 2782 of the Civil Code.

Section 2.06. INDEMNIFICATION OF ADJACENT PROPERTY OWNERS.

In the event the Contractor enters any agreement with the owners of any property adjacent to the Site and enters upon such property for the purpose of performing the Work, the Contractor shall fully indemnify, defend and save harmless such person, firm, or corporation, State or other governmental agency which owns or has any interest in such adjacent property. The form and content of such indemnification agreement shall be approved by County prior to commencement of the Work on or about such property. Contractor also shall indemnify the County as provided in Section 15.06.

Section 2.07. INSURANCE; SUBMITTALS.

The Contractor shall obtain, at its sole cost and expense, all insurance specified in the Agreement for Construction, and shall require all subcontractors to maintain insurance as specified therein. Continued maintenance of such insurance is a material covenant of the Agreement for Construction.

In addition to the submittals required by the Agreement for Construction, the County reserves the right to examine the insurance policies referenced in any such Certificate at any time, before or after issuance of the Notice to Proceed. Issuance of the Notice to Proceed shall not constitute a waiver of the County's right strictly to enforce the requirements of this Article.

The Contractor shall submit photocopies of its insurance and/or subcontractors' insurance policies when requested by the Contract Administrator.

Section 2.08. CONTRACTOR'S INSURANCE REQUIREMENTS.

Consistent with the Agreement for Construction, Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property that may arise from or in connection with the performance of the work hereunder by the Contractor, his agents, representatives, employees or subcontractors. Any deviation from the required coverage specified in the Agreement for Construction must be approved by the County prior to the commencement of the work.

Section 2.09. SUBCONTRACTORS' INSURANCE.

Subcontractors

A. **Insurance Coverage Requirements**. Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates and endorsements for each subcontractor. All coverages for subcontractors shall be subject to all of the requirements stated in the Agreement for Construction and herein.

B. **(Reserved)**

C. **Contractor Responsibilities.** It shall be the responsibility of the Contractor to certify that all subcontractors (including lower-tier subcontractors) comply with these provisions, and to enforce their continued compliance through out the progress of the Work. The submittals required to demonstrate initial compliance with this Section are specified in Section 3.02 hereof. Thereafter, the Contractor shall submit a certification to the required subcontractor's insurance when requested by the Contract Administrator. In lieu of the above the contractor can name all subcontractors on its policy as additional insured as approved by the County.

Section 2.10. WORKERS' COMPENSATION AND EMPLOYEES' LIABILITY INSURANCE

In accordance with Section 3700 of the Labor Code, the Contractor, and each subcontractor, shall secure the payment of workers' compensation to its employees as specified in the Agreement for Construction.

In the event that there is any employee working on the Project who is not protected under the Workers' Compensation statute for any reason, including because he is engaged in hazardous work, the Contractor shall provide, and shall cause each subcontractor to provide, adequate insurance for the protection of such employee. Such insurance shall comply with all requirements of the Labor Code.

Section 2.11. POSTING AT SITE.

The Contractor shall post, and cause all subcontractors to post, in a conspicuous place on the Project Site, a statement as required by Labor Code Section 3550, stating the name of the employer's compensation insurance carrier or that the employer is self-insured, and who is responsible for claims adjustment.

Section 2.12. EFFECTIVE DATE OF POLICIES.

The insurance required by this Article shall be in full force and effect at all times during prosecution of the Work and until the final completion and acceptance thereof by County, and every policy shall state that it shall not be assigned, canceled or reduced in coverage without thirty (30) days' prior written notice to County.

ARTICLE 3.

INITIAL SUBMITTALS AND TIME OF WORK

Section 3.01. PROGRESS SCHEDULE AND SCHEDULE OF VALUES.

A. **Progress Schedule**. No later than thirty-five (35) calendar days following the Award of the Contract by the County and before issuance of a Notice to Proceed, the Contractor shall submit to the Contract Administrator a schedule showing the date on which work will commence on each part or class of the Work described with reference to the Divisions in the Technical Specifications and the responsible subcontractor(s); estimated dates of completion of such parts or classes; the working days proposed for work, and the approximate percentage of Work scheduled for completion at any time. Critical path sequencing items shall be identified. The Progress Schedule shall be practicable and consistent with the time requirements of the Agreement.

When requested by the Contract Administrator, or when the Contractor requests a Contract Time Extension Change Order, the Contractor shall submit a revised Progress Schedule showing changes to the originally approved Schedule necessary to complete the Work within the requested Contract Time.

B. **Schedule of Values**. Simultaneously with the Progress schedule, the Contractor shall submit a Schedule of Values, showing a breakdown of the Contract Price with reference to the parts or classes or work shown on the Progress Schedule, and with reference to the Divisions in the Technical Specifications.

This schedule shall include products and materials allocated to each Allowance specified by the Contract Documents.

When requested by the Contract Administrator, or when the Contractor requests a Contract Price adjustment, the Contractor shall submit a revised Schedule of Values incorporating the requested Price adjustment(s).

Section 3.02. INITIAL SUBMITTALS.

No later than thirty-five (35) calendar days after the Award of the Contract by the County, and before issuance of a Notice to Proceed, the Contractor shall make the following initial submittals:

A. **Schedule of Unavailable Materials**: A schedule showing any materials called for in the Contract Documents which are not obtainable for installation in the Project within the time limits set forth in the Progress Schedule, and the reasons known to Contractor for the unavailability.

The schedule shall detail Contractor's efforts to obtain the materials in question.

B. **Schedule of Substitutions**: Contractor shall submit a schedule of all proposed Substitutions. The request for Substitutions shall in all respects comply with Article 7 of these General Conditions and shall include all requests for Substitutions of "an equal" item as defined by Public Contracts Code Section 3400 and Sections 7.02 and 7.03 hereof.

Failure to indicate such requested Substitutions on this schedule shall be deemed a waiver of the request for Substitution.

C. **Schedule of Items Requiring Long Order Lead Time**: Contractor shall submit a schedule of all materials, the delivery of which will require more than 50% of the total Contract Time. The dates

shown on this schedule shall be consistent with the Progress Schedule, and the Schedule shall specify the dates of order and expected delivery dates for the specified materials.

D. **Subcontractor Insurance**:

1. **First-Tier Subcontractors:** The Contractor shall submit certificates of insurance for liability and workers' compensation insurance for all first-tier subcontractors, as required by Article 2 hereof. The County reserves the right to examine copies of the subcontractors' insurance policies.

2. **Lower-Tier Subcontractors**: If requested by the Contract Administrator, Contractor shall submit certificates of liability and workers' compensation insurance for any or all lower-tier subcontractors. The County reserves the right to examine copies of the lower-tier subcontractors' insurance policies.

E. **Subcontractors: Allocation of Work**: Contractor shall submit a chart showing all first and lower-tier subcontractors, and the contractual relationships between them, and identifying the Work to be done by each.

F. **Schedule of Submittal Dates**: Contractor shall submit a schedule indicating the dates upon which all required submittals will be submitted. Such schedules shall conform to Section 5.02 of the General Conditions, and Section 01340 of Division 1, and shall include all submittals required by Divisions 2-16.

Section 3.03. APPROVAL OF INITIAL SUBMITTALS; EFFECT.

Prior to issuance of a Notice to Proceed, the Contract Administrator shall act upon the initial submittals required by Section 3.02.

The time for the Contract Administrator's action shall be twenty-one (21) days or less, from the date Contractor delivers submittals that conform to the Contract Documents.

In the event the Contract Administrator rejects an initial submittal, the Contractor shall not be entitled to any Contract Time extension on account of delay associated with re-submittal and re-approval. The County reserves the right to reject initial submittals in whole or in part, and the Contractor shall correct the submittal to comply with the Specifications and any requirements noted by the Contract Administrator in rejecting the submittal before issuance of a Notice to Proceed.

Once approved, all initial submittals shall be incorporated as part of the Agreement and Contractor shall comply therewith. The Contract Administrator is authorized to approve revisions to the Progress Schedule or Schedule of Values as required to incorporate approved changes in the Contract Time or Price.

Failure to meet the approved Progress Schedule is grounds for withholding Progress Payments pursuant to Article 23.

Section 3.04. COMMENCEMENT AND PROSECUTION OF WORK.

The Contractor shall not commence nor allow any subcontractor to commence work before receiving a Notice to Proceed from the County, specifying the day work is to commence. The Contractor shall commence work on such day, and shall prosecute the Work diligently to completion thereafter, at a rate that meets or exceeds the approved Progress Schedule.

Section 3.05. OTHER SUBMITTALS.
The Contractor shall make all submittals specified by the Technical Specifications for all Work to be done in the first ninety (90) days after issuance of the Notice to Proceed.

Section 3.06. TIME OF ESSENCE.

Time is of the essence of the Agreement for Construction.

Section 3.07. DATE OF COMPLETION.

The Contractor obligates himself to make the whole Work fully complete and satisfactory on or before the completion date specified in Section 2 of the Agreement for Construction, plus any Contract Time extensions approved by Change Order. The date of completion is the date of recordation of the Notice of Completion pursuant to Section 25.04; provided, however, that the date of completion for purposes of determining whether the Contractor has completed the Work within the time required by the Agreement for Construction shall be deemed to be the date the Contractor filed the "Contractor's Request for Final Payment" pursuant to Section 25.01 if, and only if, the Work was in fact fully complete and in full conformity with the Contract Documents when the Contractor's request was filed.

Section 3.08. EXTENSION OF TIME; UNAVOIDABLE DELAYS.

The Contractor shall not be granted a Contract Extension except on the issuance of a Change Order by the Board of Supervisors, upon a finding that the delay in completion was unavoidable.

Delays in prosecution of parts or classes of the Work that are not demonstrated to prevent or delay completion of the entire Project within the Contract Time are not "unavoidable delays" for purposes of this section.

In all cases, the time authorized for extension of the Contract Time shall be no greater than the number of days directly attributable to the unavoidable delay which caused delay in the completion of the Project. "Unavoidable delay" for this purpose shall be defined as follows:

A. **Unavailable Materials.** That materials or articles called for in the Contract Documents are not obtainable within the time required for timely completion; provided that such materials or articles were listed by the Contractor in the schedule required by Section 3.02 hereinabove; that the Contractor demonstrates that the unavailability of the materials is in fact the cause for the delay, and could not have been cured by adjusting the Progress Schedule; and that the unavailability of such materials is due to circumstances beyond the Contractor's control. If good cause for a delay is demonstrated pursuant to this subsection, the County, at its sole discretion, may grant a time extension or apply Section 17.09 hereof.

B. **Force Majeure**. That delays in construction have resulted from circumstances beyond the control of the Contractor and which the Contractor could not have provided against by the exercise of reasonable care, prudence, foresight, and diligence. Unavoidable delays within the meaning of this subparagraph shall be those caused by acts of neglect of the County or its officers, agents, or employees; by acts of God, war, insurrection, civil disorder, fire, floods, epidemic, or strikes.

C. **Unseasonable Weather**. An extension of time may be granted due to weather which is unsuitable for the Work currently in progress, upon the findings that the weather conditions in fact caused the delay in completion of the Project and that such weather conditions were not, and could not in the exercise of reasonable diligence, have been foreseen by the Contractor. Unseasonable weather that, in the exercise of reasonable foresight and diligence, should be expected in the area at the time of year in question is not cause for an extension of time.

D. **Time Extension Due to Change Orders or Work Authorizations**. A time extension may be granted due to a delay in the Project caused by the approval by the County of a Change Order or Work Authorization pursuant to Article 17. The Contractor shall be entitled to a time extension Change Order only when the extra work is demonstrated by the Contractor to have caused a delay in the Project. When a Work Authorization is issued, the Contract Administrator or County Administrative Officer is authorized to approve an allocation of time attributable to that Work Authorization. Approval of such allocation shall not constitute County's approval of a time extension to the overall Contract time but shall constitute County approval of the time allocated by the Contractor to perform the particular extra work in question.

The provisions of Sections 3.08 and 3.09 shall be applicable to requests for time extensions due to extra work.

The Contract Administrator may cumulate requests for time extensions due to Work Authorizations and process periodic Change Orders therefore, if warranted, or may process a Contract Time Extension Change Order simultaneously with the Contract Price Change Order, in his sole discretion. Such Contract Time Extension Change Orders may be approved only by the Board of Supervisors, however.

E. **Delay Due to Rejected Submittals**. In the event the Contract Administrator rejects a submittal, the Contractor shall not be entitled to any Contract Time extension on account of delay associated with re-submittal.

The procedure for submittals shall be as specified in Articles 5 and 7 (Substitutions) and the Technical Specifications. The Contract Administrator shall approve or reject submittals within twenty-one (21) days of the Contractor's delivery of the submittal, unless a different time is specified in the Technical Specifications for the particular submittal in question.

F. **County Caused Delays**. In the event that the Project is delayed by acts of the County not authorized by the Contract Documents which the Contractor demonstrates will or have caused an unavoidable delay as defined by Subparagraph "B", the Contractor shall be entitled to a Contract Time and/or Contract Price Change Order to offset the extra time and/or costs incurred by the Contractor. Such extra costs shall be limited to those "actual costs" as defined in Section 17.02-D directly caused by the delay and incurred on this Project only. Overhead and profit shall be limited to that specified in Section 17.02-C hereof. Extra costs shall not include indirect costs nor loss of profits or increased costs on other work. Extra time shall be limited to that directly caused by the delay, as defined in Subparagraph "B" hereof.

The Contractor specifically agrees that a time extension and cost adjustment as provided herein is its sole remedy for County-caused delays and agrees to make no claim or demand for additional damages, nor claim an acceleration of the time for performance.

The Contractor shall not be entitled to any Contract Time Extension nor Contract Price adjustment for alleged County delays if the County has acted within the time limits specified by the Contract Documents.

The Contractor shall not be entitled to any cost adjustment for delays except for County caused delays as specified in this subsection.

Section 3.09. NOTICE OF DELAYS; SUBMITTALS.

Whenever the Contractor foresees any delay in the prosecution of the Work, and in any event immediately upon the occurrence of any delay which the Contractor regards as grounds for an extension and/or cost adjustment as specified in section 3.07., the Contractor shall notify the Contract Administrator in writing of the delay. Such notification shall specify with detail the cause asserted by the Contractor to constitute grounds for an extension, and/or cost adjustment. Failure of the Contractor to submit such a notice within five (5) days after the initial occurrence of the event giving rise to the delay shall constitute a waiver by the Contractor of any request for a time extension and/or cost adjustment, and no extension and/or cost adjustment shall be granted as a consequence of such delay.

With its request for time extension and/or cost adjustment, the Contractor shall submit evidence to demonstrate that the delay in prosecution in the work will result in an unavoidable delay in completion of the entire Project. Such evidence shall include a demonstration that the delayed portion of the Work will affect the critical path scheduling of the entire Project. The Contractor shall also submit a proposed revised Project Schedule, which accounts for the delay in completion of the entire Project caused by the delay in prosecution of part of the Project, and includes a revised critical path demonstrating how the Project will be completed within the proposed revised Contract Time.

Section 3.10. INVESTIGATION; PROCEDURE.

Upon receipt of a request for a Contract Time extension and/or cost adjustment, the Contract Administrator shall conduct an investigation of the facts asserted by the Contractor to constitute grounds for an extension and/or cost adjustment. The results of this investigation shall be reported by the Contract Administrator to the Contractor and the Contract Administrator shall indicate whether he will recommend for or against such extension to the Board of Supervisors.

The Contract Administrator may, in his sole discretion, defer this recommendation to allow the accumulation of time extensions and/or cost adjustment due to Work Authorizations into a periodic or final Change Order request.

Upon receiving the Contract Administrator's recommendation to the Board of Supervisors regarding the Contractor's request for a time extension and/or cost adjustment, the Contractor may either withdraw its application for extension or request that it be scheduled for action by the Board of Supervisors. If the Board of Supervisors disallows the request, there shall be no allowance made for the time during which the request was pending, and the Contractor shall remain obligated to complete the Work in the time specified.

If the Board of Supervisors approves the time extension change order, the new Progress Schedule submitted by the Contractor and approved by the County shall be deemed to amend the original Progress Schedule approved by the County pursuant to Section 3.03 hereof; thereafter, the amended Progress Schedule shall have the same force and effect as the originally approved Progress Schedule.

The Contractor agrees that the determination of the Board of Supervisors as to whether grounds for an extension and/or cost adjustment exist, and if so, the duration of the extension and/or cost adjustment, shall be final and binding upon both County and Contractor.

Section 3.11 DISCRETIONARY TIME EXTENSION FOR BEST INTEREST OF COUNTY.

The County reserves the right to extend the Contract Time for completion of the Work if the Board of Supervisors determines that such extension is in the best interest of the County.

Section 3.12. LIQUIDATED DAMAGES.

If the Work is not completed by Contractor in the time specified in Section 2 of the Agreement for Construction or within any period of extension authorized pursuant to this Article, the Contractor acknowledges and admits that the County will suffer damage, and that it is impracticable and infeasible to fix the amount of actual damages. Therefore, it is agreed by and between the Contractor and the County that the Contractor shall pay to the County as fixed and liquidated damages, and not as a penalty, the sum specified in the Agreement for Construction for each calendar day of delay until the Work is completed and accepted, and that both the Contractor and the Contractor's surety shall be liable for the total amount thereof, and that the County may deduct said sums from any monies due or that may become due to the Contractor.

This liquidated damage provision shall apply to all delays of any nature whatsoever, save and except only unavoidable delays approved by the Board of Supervisors pursuant to Section 3.07 hereinabove, are discretionary time extensions approved by the Board of Supervisors pursuant to Section 3.10 hereinabove.

The Contractor also acknowledges that the contract completion date for purposes of liquidated damages shall be the date of the Board of Supervisors' Resolution of Acceptance, unless Section 3.06 applies.

Section 3.13. EXTENSION OF TIME NOT A WAIVER.

Any extension of the Contract Time granted pursuant to this Article shall not constitute a waiver by the County, nor a release of the Contractor, from his obligations to perform this Contract in the Contract Time.

Granting of a time extension due to one circumstance on one request therefore shall not constitute a granting by the County of an extension of time for any other circumstance or the same circumstance occurring at some other time, and shall not be interpreted as a precedent for any other request for extension.

Section 3.14. SUSPENSIONS EXCEEDING ONE YEAR.

Should the Work be suspended for a period exceeding one (1) calendar year due to war conditions, labor conditions, legal actions, or for other conditions constituting the legal defense of impossibility of performance, the Contract and the County agree to enter an agreement terminating the Agreement for Construction upon the following terms and conditions:

The County shall be responsible only to pay the Contractor the actual value of the completed Work, to the County, less progress payments made to date, less any deductions authorized by the Contract Documents, and plus the ten (10%) percent withhold from previously issued progress payments.

As between the Contractor and the County, it shall be conclusively presumed that the actual value to the County for the Contractor's Work to the date of the last progress payment is not more than the actual amount of progress payments made to date plus the ten (10%) percent withhold from such progress payments; provided, however, that this section shall not preclude the County from deducting charges for work or materials which do not meet the requirements of the Contract Documents.

Such final payment shall be due only after any stop notices are resolved or the time to file stop notices has expired.

Section 3.15. EFFECT OF STOP WORK NOTICE.

If the County orders a suspension of the Work pursuant to Section 18.05, the days on which the suspension is in effect shall be included in determining the required completion date and shall not otherwise modify or extend the time within which the Contractor is to perform. In such event, the Contractor shall not entitled to any damages or compensation on account of such suspension or delay, and the suspension and/are delay shall not constitute an acceleration of the performance time.

If the Contract Administrator determines that the Work conforms in all respects to the Contract Documents and releases the Stop Work Notice, the Contractor shall recommence work and may thereafter request a time extension pursuant to Section 3.07-F hereof. Sections 3.07, 3.08, and 3.09 shall apply to such requests.

ARTICLE 4.

SCOPE AND INTENT OF CONTRACT DOCUMENTS; CLARIFICATIONS

SECTION 4.01. BASIC INTENT AND SCOPE OF CONTRACT DOCUMENTS.

The basic intent of the Contract Documents is to describe the complete Project, including all materials, labor, equipment, and incidentals necessary for the proper execution and full completion of the work. The scope of the Agreement for Construction shall include everything directly called for by the contract Documents, and all work reasonably to be foreseen and/or inferred by competent contractors of the various required trades in order to completely perform the Work to produce the complete Project as intended.

The Agreement for construction does not recognize "substantial performance" as equivalent to "complete performance"; by entering the agreement, the contractor agrees, as a material covenant, to provide "complete performance" within the contract Time, for the amount included in the Contractor's bid as the Contract Price, unless modified by Change order. No extra compensation shall be allowed for any work or materials not directly appearing in the Contract Documents, but which a competent contractor should have foreseen and/or inferred would have been within the scope of the Agreement for Construction for work of the type and in the area of the Project. Even though items of work are not separately mentioned in the contract Documents, the Scope of the Agreement includes the furnishing and installation of all supplementary or miscellaneous items, appurtenances and devices incidental to or necessary for the sound, secure and fully complete performance of the work.

The Contract Price shall include all compensation for furnishing all labor, materials, tools, equipment and incidentals, and doing all work necessary fully to complete the Project as intended.

Section 4.02. HARMONIZATION OF CONTRACT DOCUMENTS.

The Contract Documents are complimentary, and what is required by anyone shall be as binding as if required by all. The Documents are intended to be coordinated to describe and provide for the complete Project.

In the event of a conflict between the Contract Drawings and the Technical Specifications of the Project Manual, the Contract Drawings shall govern in matters of quantity and the Specifications shall govern in matters of quality. In the event of conflict within the contract Drawings involving quantity or within the
Specifications involving quality, the greater quantity and the higher quality shall be furnished.

Scale drawings, full sized details, and technical specifications are intended to be coordinated and to agree fully. unless specifically noted otherwise in the Technical Specifications, all work and materials necessary for each unit of construction, even though only briefly mentioned or indicated, shall be furnished

and installed fully and completely as specified in accepted submittals and the manufacturers' instructions and/or recommendations.

For convenience, the Specifications and Drawings in the Contract Documents are arranged in several sections, but such separation shall not be considered as the limits of the Work required by any separate trade. The terms and conditions of the Work to be performed by any subcontractor are strictly between the Contractor and such subcontractor.

Section 4.03. LOCATIONS.

The locations of equipment, wiring, piping, and similar materials and equipment are shown diagrammatically in the Contract Documents; actual Site conditions may not always permit their installation precisely in the location shown on the Contract Drawings. Contractor shall coordinate installation of equipment.

Section 4.04. SITE CONDITIONS.

Where investigations have been conducted by the County of existing conditions on the Site including subsurface conditions, such investigations are made for the purpose of design only and for the information of bidders. The results of such investigations represent only the statement by the County as to the circumstances and character of materials actually encountered by the county during the investigations. The County makes no guarantee or warranty, express or implied, that the conditions indicated are representative of conditions existing throughout the Site of the Project or any part of it, or that unanticipated conditions might not occur.

All excavation work shall be performed on an "unclassified basis; that is, shall include the removal of all material encountered including earth or rock formations, regardless of type or hardness thereof or groundwater conditions in the excavation, the cost of such excavations being included in the Contract Price at the time of bidding. Unclassified excavation work does not include drilling or blasting operations, unless otherwise specified in the Technical Specifications.

Section 4.05. PROJECT RECORD DOCUMENTS.

The Contractor shall maintain at the Site such Project record documents as are required by Section 01720 of Division 1.

At a minimum, the Contractor shall maintain one record copy of all drawings, specifications, addenda, work authorizations, change orders and other modifications, in good order and marked currently to record all changes made during construction, and accepted submittals.

With his request for final payment, the Contractor shall submit such record drawings to the Contract Administrator for approval. The contractor shall make all corrections necessary to produce accurate and complete record drawings showing the "as-built" Project.

The Project Record Documents shall be kept accurately and currently to show the precise locations and depths below finish grade of all components of the Project, as constructed.

Section 4.06. CONTRACTOR'S SUPERVISION AND COORDINATION OF THE WORK.

It is the Contractor's basic responsibility to execute and complete the Work necessary to construct the Project as intended by the Contract Documents, whether the Work is being performed directly by the Contractor, or by subcontractors of the Contractor. In all cases, the Contractor shall cooperate reasonably and in good faith with the Contract Administrator to the end that unnecessary Clarification requests are avoided, and the Work flows smoothly to a fully completed Project for the Contract Price, within the Contract Time.

The Contractor is responsible to thoroughly review and become familiar with the Contract Documents, and to identify conflicts, internal inconsistencies and/or ambiguities claimed by the Contractor to exist in the documents. By execution of the Agreement for Construction, the Contractor represents that it is fully competent, skilled and experienced to secure the performance of all Work needed to complete the Project intended and will utilize fully such competence, skill, and experience in interpreting the Contract Documents to produce the results intended. Prior to requesting a Clarification, the Contractor shall exert its best efforts to resolve problems in the field.

The Contractor is responsible to supervise and coordinate the work of all subcontractors. The Contractor shall exert its best efforts to resolve problems presented by Subcontractors.

The Contract Administrator shall consider no request by Contractor for a Clarification on its own behalf or on behalf of a subcontractor unless the request details the Contractor's efforts to resolve the issue, the results thereof, and demonstrate that the Contractor's efforts comply herewith. In all such cases, the Contract Administrator reserves the right to require the Contractor to make additional efforts to resolve the issue rather than issuing a Clarification.

Section 4.07. CLARIFICATIONS AUTHORIZED.

The Contract Administrator is authorized to furnish during the progress of the Work such Clarifications as the Contract Administrator deems are necessary to make clear and to define in greater detail the intent of the Contract Documents. Such Clarifications shall be incorporated by reference into the contract Documents, and the Contractor shall make his Work conform to all such Clarifications. In the event of conflict between the original Contract Documents and subsequently issued Clarifications, the Clarification most recently issued shall control.

Section 4.08. CLARIFICATIONS; PROCEDURE.

A. **Contract-Initiated Requests.** Should the Contractor discover any conflicts or errors in the Contract Documents, or have any question concerning interpretation or clarification of the Contract Documents; or if it appears to the Contractor that the Work to be done or any matters relative thereto are not sufficiently detailed or explained in the Contract Documents; and provided that the Contractor has exerted its best efforts to interpret the Contract Documents and resolve the issue as required by Section 4.06; then before proceeding with the Work affected, the Contractor shall notify the Contract Administrator and request a Clarification.

The Contractor's request for Clarification shall be in writing, accompanied by sketch drawings and the materials necessary to explain and illustrate the problem in detail, and shall explain the Contractor's previous efforts to resolve the issue and the results thereof.

If the Contractor has proceeded with Work which was eligible for a clarification, but regarding which the Contractor failed to request a clarification, the Contractor shall not be entitled to, nor shall it request, any adjustment to the Contract Price or Time, caused by or resulting from such Work. The Contractor proceeds with such Work at its own risk, and shall make good any resulting damage, defect or extra work produced by such work.

B. **County-Initiated Clarifications**. At any time, the Contract Administrator may issue Clarifications to explain the Work more fully. The Contractor shall perform the Work as required by the Clarification.

C. **Incorporation in Contract**. All duly issued Clarifications shall become part of the Contract

Documents upon delivery to the contractor.

D. **Procedure for Extra Work Claims**. If the Contractor contends that any clarification requires Work beyond the Scope of the Agreement, the procedures in Section 17.05 shall be followed.

Section 4.09. CONTRACT ADMINISTRATOR'S INVESTIGATION AND RESPONSE TIME.

Upon receipt of Contractor's request for a Clarification, the Contract Administrator shall conduct such investigations as he deems appropriate, including consultation with the Project Architect as necessary to decide the Contractor's request for Clarification.

In all cases, if the request is incomplete or does not demonstrate the Contractor's compliance with this Article, the Contract Administrator may reject the request unprocessed, and return it to the Contractor. There shall be no time extension on account thereof.

Within fourteen (14) days following receipt of the Contractor's fully documented request for Clarification, the Contract Administrator shall issue his written response to the Contractor. If the Contract Administrator rejects the Contractor's request for Clarification, the Contractor shall perform the Work in accordance with the Contract Documents.

If the contract Administrator issues a Clarification, the Contractor shall perform the Work in accordance with the Clarification.

Section 4.10. DISPUTE AS TO SCOPE OF CONTRACT DOCUMENTS.

If the Contractor contends that any Work required by a clarification is outside the Scope of the Contract Documents as specified in section 4.01, the Contractor shall, within five (5) days of receipt of the Clarification, submit a written request for a Change Order to the Contract Administrator.

Such request shall specify all details of why the Contractor contends that the Work exceeds the Scope of the Contract Documents, and shall include an estimate by the Contractor of the cost to perform the Work, which complies with Section 16.05 hereof, and of the time to perform the Work, which complies with Section 3.08 hereof.

Upon timely delivery of a request by the Contractor, the Contract Administrator shall, within fourteen (14) days, consult with the Project Architect, as needed, and respond to the Contractor's request.

Such response shall either confirm the original Clarification, as within the scope of the work, and order the Work to be performed with no extension of time or increase in contract amount, or approve the Contractor's request, in which case a work Authorization will be issued, if authorized by Section 16.03 hereof, or Change Orders will be processed to adjust the Contract Price and/or Time equitably.

The Contractor acknowledges that the purpose of this Section is to allow the County advance Notice of Contractor's contention that a Clarification is beyond the Scope of the Agreement, so that the County may reconsider the Clarification before the Clarification Work is incorporated in the Project and such reconsideration is futile. Therefore, the Contractor agrees that if it proceeds with such Work without providing such Notice or before the Contract Administrator's response, the Contractor does so at its own risk and cost. Extra costs and/or time caused by or resulting from such Work shall be at the Contractor's expense, and the Contractor shall make good any resulting damage, defect, or extra Work produced by such Work.

ARTICLE 5.

SUBMITTALS.

Section 5.01. REQUIRED SUBMITTALS; TIME.

No portion of the Work requiring submittals shall be commenced until the submittal has been accepted by the Contract Administrator. Should the Contractor proceed with any work requiring a submittal before acceptance thereof, the Contractor shall remove and replace any Work which is not in accordance with the Contract Documents and shall bear the risk of loss due to resulting damage, defects, or added costs.

The Contractor shall provide all submittals required by the Technical Specifications in accordance with the procedures set forth in Section 01340 of Division 1.

All submittals shall be complete in every respect and shall include all information required both by the particular Technical Specification section and by Section 01340 of Division 1.

The Contract Administrator shall not process submittals that are not complete in all respects, legible, reproducible, and sufficiently dimensioned and detailed to demonstrate compliance with the Contract Documents.

The Contract Administrator may reject all or any portions of a submittal which fails to comply with the Contract Documents, and the Contractor shall resubmit the entire submittal or the rejected portion, whichever is ordered by the Contract Administrator.

The Contractor shall be entitled to no Contract Time or Price adjustment for delays occasioned by the failure of the Contractor's submittals to comply with the Contract Documents.

Section 5.02. TIME FOR SUBMITTALS.

A. Time Generally. All submittals shall be submitted by the Contractor at the time specified by Section 01340 of Division 1, and the applicable portions of the Technical Specifications; provided, however, that in all events, Contractor shall submit all submittals so as not to cause a delay in the Work, including a reasonable time for review by the Contract Administrator. Unless otherwise specified in the Technical Specifications, the time for review by the Contract Administrator shall be no more than twenty-one (21) days.

B. **Submittals within Twenty-One (21) Days Following Notice to Proceed**. Within the first twenty-one (21) days following issuance by the County of a Notice to Proceed, the Contractor shall make the following submittals, including all information required by the General Conditions, Section 01340 of Division 1, and all other the applicable Technical Specifications:

1) All data required by Sections 01340 and 01640 of Division 1 to substantiate a Request for Substitution.

2) Proposed substitutions, with all substantiating data, for all materials listed as "unavailable materials" on the Contractor's initial submittal, pursuant to Section 3.02-A hereof.

3) A critical path schedule, if required by Section 01340 of Division 1.

4) Any other submittals requested by the Contract Administrator to be received within the first 21 days following issuance of a Notice to Proceed.

C. **Submittals After 21 Days Following Issuance of the Notice to Proceed**: All other submittals required by the Contract Documents shall be submitted in conformity with the time requirements thereof, and in no event later than specified on the schedule of submittals approved pursuant to Section 3.02-G hereof.

Section 5.03. CONTRACTOR'S RESPONSIBILITIES RE: SUBMITTALS.

The Contractor shall review and approve all submittals, including those originating with subcontractors and suppliers, before submitting them to the Contract Administrator.

By making a submittal, the Contractor represents that it has determined and verified all materials, field measurements, and field construction criteria related thereto, and that it has checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

It is the Contractor's responsibility to specifically point out any variation or discrepancy between submittals and the Contract Documents, or between a re-submittal and the notations on the original Submittal. The Contractor shall make specific mention of all such variations, along with an explanation of why they are requested, in his letter of transmittal.

Failure by the Contractor to identify in his letter of transmittal with the submittal any variation, discrepancy, or conflict with the Contract Drawings shall render acceptance of the submittal null and void, and the Contractor shall bear all risk of loss and reconstruction costs or delays.

The Contractor shall not be relieved of responsibility for any deviation from the requirements of the Contract Documents by the Contract Administrator's action on a submittal unless the contractor has complied with this section and the Contract Administrator expressly authorizes such deviation.

If any plumbing, mechanical, electrical, or structural modifications are required as a result of submittals that do not comply with the Contract Documents, such modification shall be made without extra cost to the County, and without extension of the Contract Time.

Section 5.04. ACTION ON SUBMITTALS.

The Contract Administrator shall take one of the following actions on a submittal:

"APPROVED": Fabrication, manufacture, or construction may proceed providing submittal complies with Contract Documents.

"APPROVED AS NOTED": Fabrication, manufacture, or construction may proceed providing submittal complies with Project Architect's notations thereon and Contract Documents. If for any reason the Contractor cannot comply with notations, the Contractor shall resubmit as described for submittals stamped **"REVISE AND RESUBMIT"**.

"REVISE AND RESUBMIT": Submittal does not comply with Contract Documents, and fabrication, manufacture, or construction shall not proceed. The Contractor shall make a new submittal conforming to the Contract Documents. Submittals stamped **"REVISE AND RESUBMIT"** shall be attached as an Exhibit to the re-submittal(s) for the specified items.

"NOT APPROVED": Fabrication, manufacture, product and/or construction does not conform to Contract Documents. Such fabrication, manufacture, product or construction shall not proceed and are not permitted on the site. The Contractor shall make a new submittal, including a new proposed for fabrication, manufacture, product and or construction conforming to the Contract Documents.

"NO ACTION REQUIRED: Submittal is not required by this contract for this material or product. If Contractor wishes comment on this particular material or product, a submittal of a letter from Contractor explaining his purpose for submittal should accompany any future submittal.

Approval is only for conformity with the Design concept of the Project and compliance with the intent of the information given in the Contract Documents. Contractor is responsible for dimensions to be confirmed and correlated at the job site; for information that pertains solely to the fabrication processes or to techniques of construction; and for coordination of the work of all trades.

Section 5.05. EFFECT OF ACCEPTANCE OF SUBMITTALS.

The acceptance of submittals shall not relieve the Contractor of any obligation for quantities, accuracy of dimensions and details for property coordination, fitting and construction of the Work; for errors or omissions in the submittals; for conforming the Work to the requirements of the Contract Documents and all applicable laws and regulations; or from responsibility to fulfill the Contract at no extra cost to the County, within the Contract Time.

The County will review submittals for conformity with the Contract Documents, and acceptance thereof operates only with reference to such conformity. The County will attempt to discover errors, but the responsibility for accuracy and completeness of all submittals is the Contractor's.

After a submittal has been accepted, the Work shall proceed in accordance therewith.

The acceptance of samples provided with submittals shall be for the characteristics thereof, for the uses named in the action on the submittal, and for no other. Acceptance of samples shall not constitute a modification in any requirement of the Contract Documents unless expressly so noted, nor shall it relieve the Contractor of its obligation fully to perform the Agreement for Construction. All material or work installed after acceptance of a sample shall be equal or better than the sample in all respects.

ARTICLE 6.

MATERIALS: STORAGE; PAYMENT; CERTIFICATIONS.

Section 6.01. QUALITY OF MATERIAL AND PRODUCTS.

The Contractor shall, if required by the Contract Administrator, furnish satisfactory evidence as to the kind and quality of materials provided in addition to the submittals required by the Technical Specifications.

The Contract Administrator may require, and the Contractor shall submit, a list designating the source of supply of each item of material entering into the Construction of the Work, and in such event, such materials or products shall not be delivered to the Work nor installed therein until after the Contract Administrator has approved such list.

Section 6.02. BETTER MATERIAL OR PROCESS.

In the Event that Contractor furnishes a material, product, process or article better than that specified in the Contract Documents, the difference in cost of such material, product, process or article shall be borne by the Contractor, unless the County previously specifically authorized the use of such item and a Contract Price adjustment therefore.

Section 6.03. INDUSTRY STANDARDS.

Unless otherwise specified in the Technical Specifications:

A. Any material specified by reference to a number, symbol or title or a specified standard such as a Commercial Standard, a Federal Specification, a Trade Association Standard, or other similar standard, shall comply with requirements in the latest revision thereof including any amendments or supplement thereto, in effect on the date of the Contractor's Bid, except as limited to type, class or grade, or modified in such reference.

B. The standard referred to, except as modified in the Specifications, shall have full force and effect as though printed in these Specifications. These standards are not specified in detail for the reason that the manufacturers and trades involved are assumed to be familiar with their requirements.

1) Where Federal Specifications are referred to as a measure of quality and standard, they refer to Federal Specifications established by the Procurement Division of the United States Government and are available from the Superintendent of Documents, U.S. Government Printing Office.

2) Where Federal Specification numbers are used, they refer to the latest edition including amendments thereto.

3) Where Commercial Standards or Product Standards are referred to as a measure of quality, standard and method of fabrication, they refer to Commercial Standards and Product Standards issued by the U.S. Department of Commerce.

4) Where industry standards numbers are used, they refer to the latest tentative specifications, standards specifications, standards method or standard methods of testing, issued for example by the American Society for Testing Materials, unless specifically noted.

See Section 01 42 13 - Standard Abbreviations and Symbols for details on Abbreviations and Symbols.

Section 6.04. MATERIALS AND PRODUCTS STORAGE.

The Contractor shall confine the storage of all materials, products and equipment required in the performance of the Work to the area specified on the contract Drawings.

The County reserves the right, at the sole discretion of the Contract Administrator, to require materials to be stored off the Site in a bonded warehouse or other approved location. The County shall provide such location free of charge to the Contractor, or the Contractor shall be entitled to a Contract Price change order to off-set the actual cost thereof as defined in Section 17.02-D. Contractor shall not be entitled to overhead and profit on the rent of such facility.

The Contractor is admonished that the County has no obligation to provide a secure warehouse or other storage facilities; the Contractor takes the sole risk of loss or vandalism to any products or materials stored anywhere other than in a warehouse provided by the County.

All materials and products shall be stored in accordance with their manufacturers' instructions, with seals and labels intact and legible. Further particulars regarding methods of storage are provided in Section 01600 of Division 1.

All materials, supplies and equipment to be incorporated in the Work shall be new, unless otherwise specified; of the type, capacity and quality specified; and free from defects. All materials shall remain in their original packages or containers until ready for use. The labels of all packages or containers shall remain affixed and shall be kept legible.

The Contractor shall protect the Work, materials and equipment from damage due to action of the elements, trespassers, and other causes. It shall properly store materials and equipment and, when necessary or when specified by the Technical Specifications, erect such temporary structures as is required to protect them from damage.

Section 6.05. TIME FOR DELIVERY OF MATERIALS: EARLY DELIVERY.

A. **Basic Requirement:** Unless early delivery is authorized by the Contract Administrator pursuant to Subsection B. hereof, the Contractor shall limit delivery of materials and equipment to the Site to those materials and/or equipment needed for installation within thirty (30) days of the date of delivery. The Contract Administrator shall refuse payment for materials delivered to the Site that are not intended to be used within thirty (30) days of the date of delivery.

B. **Early Delivery of Materials:** The County reserves the right to allow an earlier delivery date of any materials and/or equipment. Upon inspection and approval as specified below, the Contractor shall be entitled to progress payments therefore as specified in Section 23.01.

Upon application by the Contractor, the Contract Administrator, in his sole discretion, may authorize early delivery of materials and/or equipment, and payment therefore, subject to the following requirements:

1. For purposes of this Section, "materials and equipment" eligible for payment are defined as finished goods made specifically for the Project and requiring extensive time to be manufactured or obtained. Raw materials or work in progress and not yet delivered to an approved storage location are not eligible for payment. Finished items that are readily available for purchase are not eligible for payment.

2. The Contractor's request shall demonstrate that the proposed early payment is in the best interest of the Project by accomplishing time and/or money savings.

3. In his application for payment for such materials, the Contractor shall separately list the items for which payment is sought pursuant to this subsection. No payment shall be authorized unless the Contractor demonstrates that he is the unconditional owner of the equipment or material and executes a transfer of title to such equipment or material to the County with each request for early payment.

4. The materials for which a progress payment has been received shall be fully insured, with the County named as co-insured, segregated from the manufacturer's other work in progress and raw materials at the manufacturer's place of storage, and separately identified as being the property of the County of Yolo. Such insurance shall be primary, and the County's Builders' Risk insurance secondary.

5. The County retains the right to conduct inspections of such materials either during fabrication or during storage, at the manufacturer's plant or place of storage. The Contractor shall retain all risk of loss for such materials, however.

6. Payments for such materials shall be due only after such materials have either been delivered to the job site or to a storage location acceptable to the County, except that such payments shall not be included in the value for work in place for the purpose of calculating payments for labor and mark up.

7. The County reserves the right to specify requirements in addition to those stated above or in Division 1 regarding early payment for materials. Such requirements shall be listed on the Contract Administrator's consent for early payments; the Contract Administrator hereby is authorized to provide such consents, with additional requirements, as are deemed necessary to protect the County.

See Section 01 20 13 - Payment for Delivered Materials and Equipment for further particulars.

Section 6.06. SPARE PARTS AND MAINTENANCE MATERIALS.

The Contractor shall provide spare parts and maintenance materials as required by the Technical Specifications.

Section 6.07. PROVIDING AND PAYING FOR MATERIALS, ETC.

Except as otherwise specifically stated in the Contract Documents, Contractor shall provide and pay for all materials, products, articles, processes, tools, equipment, and installation, and all associated superintendence of every nature whatsoever necessary to execute and complete the Work within the specified time.

Section 6.08. WARRANTY OF TITLE.

No material, article, product, supplies, or equipment for the Work under this Agreement shall be subject to any chattel mortgage, or a conditional sale or other agreement by which an interest therein or in any part thereof is retained by the seller or supplier.

The Contractor warrants that, upon demand by County at any time after a progress payment has been made therefore, the Contractor will deliver to the County clear title to any materials, supplies, and/or equipment for which such progress payment was made, but which has not as yet been incorporated into the Work, such title to be free from any claims, liens, or changes, save only the Contractor's claim for the 10% withhold attributable to such materials, supplies, or equipment.

The Contractor further warrants clear title to all material, supplies, and equipment installed or incorporated in the Work, and agrees upon completion of the Work to deliver the premises, together with all improvements and appurtenances, constructed or placed thereon pursuant to the Agreement for Construction, to the County, free from any claims, liens, or charges.

The Contractor agrees that neither he nor any person, firm or corporation furnishings any materials or labor for any Work pursuant to the Agreement for construction shall have any right to a lien upon the premises or any improvement or appurtenances thereon; provided, however, that nothing contained in this section shall defeat or impair the rights of persons furnishing materials or labor under the Payment Bond posted by the Contractor, nor any rights covered under any law permitting such persons to look to funds due to the Contractor but withheld by the County.

This section shall not disallow the Contractor's installing any devices or equipment of utility companies or of governmental agencies, the title to which is commonly retained by the utility company or the agency.

Section 6.09. PATENTS AND ROYALTIES.

All fees, claims, or royalties for any patented or copyrighted invention, article, arrangement, or plan that may be used upon or in any manner connected with the doing of the Work or any part thereof shall be included in the price bid for doing the Work. The Contractor and his sureties shall protect and hold harmless the County and all of its officer, agents, and employees against any and all demands made for such fees or claims and against any and all suits, demands, claims, or causes of action brought or made by the holder of any invention, patent, copyright or trademark, or arising from any alleged infringement of any invention, patent, copyright, or trademark.

Before final payment, the Contractor shall furnish acceptable proof to the Contract Administrator of proper release from all such fees or claims.

Section 6.10. PAYMENT OF FEDERAL OR STATE TAXES.

Any Federal, State, or local tax, specifically including sales and use taxes, payable on materials incorporated in the Work shall be included in the Contract price and paid by the Contractor.

The County will furnish the contractor with a certificate, on forms provided by the Contractor, to the effect that such materials are for the exclusive use of the County.

Section 6.11. PRODUCT CERTIFICATION.

Where required by the Technical Specifications, the Contractor shall submit proper product Certifications, which demonstrate the product's conformity to the Technical Specifications. Article 5 shall apply thereto.

ARTICLE 7.

PRODUCT OPTIONS AND SUBSTITUTIONS.

Section 7.01. APPLICABILITY OF ARTICLE.

This Article authorizes the Contractor to request substitutions of equal materials pursuant to Public Contracts Code Section 3400. Applications for such Substitutions shall be considered by the County only if the contractor's submittal is received within the time and includes all information specified herein and in Section 01640 of Division 1.

The Contractor is responsible to file all such requests on behalf of all subcontractors and product supplies; the County shall consider no request filed by a subcontractor or product supplies.

Only one request for Substitution shall be considered for each product specified. If the Contractor's request for Substitution is denied, the Contractor shall provide the specified first preference product.

Section 7.02. EFFECT OF BRAND NAME MATERIALS SPECIFICATION.

Unless otherwise expressly specified, whenever in the Contract Documents any materials, products, processes or articles are indicated or specified by the name brands of the manufacturers or products, or by patent or proprietary names, such Specifications shall be deemed to be followed by the words, "or equal", unless the specification expressly states that there is no known equal, or that the particular product specified is a unique or novel product application required to be used in the public interest. When materials are specified by reference to brand names, such specification is intended to incorporate all specifications of the listed brand as the measure of the type, quality and utility of the material so specified, and is not intended to limit the bidding, directly or indirectly, to any one specific concern.

Section 7.03. NECESSITY FOR SUBSTITUTION REQUESTS.

If materials are specified only by reference to standards, with no brand or proprietary trade name listed, any product meeting the specified standards may be provided, and no request for Substitution is required. No product not meeting the specified standards shall be provided unless a change order is approved so authorizing.

If materials are specified by listing more than one manufacturer or product, and the specification does not list one as the first preference manufacturer or product and the others as optional, any manufacturer or product listed may be provided, and no request for Substitution is required. If material is proposed other than the listed manufacturers or products, a Substitution shall be proposed by the Contractor pursuant to this Article.

Section 7.04. TIME FOR REQUESTING SUBSTITUTIONS.

All requests for Substitutions shall be submitted to the Contract Administrator no later than thirty-five (35) calendar days from the date of the Award of Contract. Thereafter, this Article shall be of no further effect, and the Contractor shall provide only the material specified.

Any further requests to provide materials other than those specified shall be treated as Change Orders, subject to Article 16. The County reserves the right to refuse to accept applications for such Change Orders and has no obligation to review such applications. Such applications shall not be accepted for review unless the Contract Administrator has previously determined that it is in the County's best interest to do so.

Section 7.05. APPLICATION FOR SUBSTITUTIONS; CONTENTS.

Applications for Substitutions shall be accepted for review only if the application is timely filed, and includes the following information:

A. All Technical Specification Section Number(s) where the material is specified;

B. If the material is proposed as an "or equal" Substitution, submittals to demonstrate that the material in fact is equal in all respects to that specified or, if applicable, to the first preference specified, including detailed drawings, construction specifications, performance specifications and warranty information for the material proposed for Substitution.

C. Complete Working Drawings and specifications demonstrating how the Substitution is to be incorporated into the Work so that the system of which the substituted material is a component will be a coordinated system fully compatible with all related systems, in conformity with the intent of the Contract Drawings.

D. Complete identification of all changes in related Work necessary to accommodate the Substitution, including but not limited to structural, mechanical and electrical changes.

E. Cost information necessary to evaluate the net difference in cost of the specified material against that proposed for Substitution, including the supplies' cost quotations and the Contractor's labor estimates.

F. Contractor's written assurance that the material is in fact equal in all respects to the material specified, or if applicable, the first preference specified; and that if the Substitution is accepted, the Contractor will bear all costs of incorporating the substituted material into the Work to provide a complete system which conforms to the design intent; and that no Contract Price or Time increase will be sought by Contractor on account thereof.

Failure by the Contractor to identify all deviations from the Contract Documents in his request for Substitution shall render any County action taken thereon null and void. Contractor shall bear all costs resulting from any error in the request for Substitution.

Section 7.06. ACTION ON REQUEST.

Within twenty-one (21) days of receipt of complete submittals requesting a Substitution, with all supporting data necessary to evaluate the request, the Contract Administrator shall evaluate and act on the request. The decision of the Contract Administrator shall be final. No Contract Time Extensions shall be allowed on account of an incomplete request for Substitution or the timely decision on such request.

The Contract Administrator shall authorize a Substitution only if he finds that the material requested is equal in all respects to that specified and is consistent with the design intent of the Contract Drawings.

The Contractor shall bear the burden of proving to the County's satisfaction that the material proposed in the substitution request is of equal quality and performance to the originally specified material in all respects and is compatible with the design intent.

The Contract Administrator's evaluation shall consider, but is not limited to, the following factors:

A. All product data for the originally specified material as against that for the requested Substitution;

B. The compatibility of the substitution with the remaining components of the system(s) of which it is a

part;

C. The conformity of the Substitution with the design intent;

D. The length and terms of the warranties for the material proposed in the Substitution;

E. The net cost advantage to the County for granting the Substitution request.

Section 7.07. SAMPLES AND TESTING OF PROPOSED SUBSTITUTIONS.

If the Contract Administrator determines that samples and/or testing are required to decide a request for a Substitution, he shall so advise the Contractor, and specify the materials or work to be sampled and/or tested. The Contractor shall at no cost to the County, provide such samples and testing as required to evaluate the requested Substitution. The results of the testing shall be evaluated by the Contract Administrator before action on the Substitution request. The time during which the sampling and testing is being conducted shall not be included within the time specified in Section 7.06.

Section 7.08. DESIGN COSTS FOR SUBSTITUTION.

If a Substitution is accepted, Contractor shall bear all costs associated therewith, including the cost of architect's and/or engineer's services required to adapt the substitution to the design to the complete satisfaction of the County, and all costs of mechanical, electrical, structural or other changes needed to adapt the Substitution to the Work. Contractor shall also bear all cost increases to the County for construction management services being provided to the County by independent contractors, resulting from the substitution.

Section 7.09. EFFECT OF ACCEPTANCE.

If a Substitution is accepted, the Contractor shall be solely and directly responsible for setting accepted substituted materials and/or equipment and systems into the available space, and for the proper operation of the substituted equipment with all other equipment with which it may be associated, all in a manner acceptable to the County and which conforms to the design intent.

No time extension shall be granted on account of a Substitution. The Contract Price shall be adjusted by the price difference between the accepted Substitution and the originally specified (first preference) material. Neither acceptance nor rejection of a Substitution request shall relieve the Contractor of any obligation to perform the Agreement for Construction according to its terms, other than as expressly modified by the accepted Substitution.

ARTICLE 8.

SAMPLES, TESTS AND TESTING LABORATORIES.

Section 8.01. CONTRACT COMPLIANCE TESTING; SAMPLES.

Materials and/or work that require sampling and/or testing to determine compliance with the Contract Documents are specified in the Technical Specifications. The Contractor shall bear the full cost of providing samples when required to perform the specified tests, and shall take, store and provide such samples in the manner specified in the Technical Specifications, including Division 1.

All such samples shall be selected by the Contract Administrator or the Testing Laboratory employed by the County.

Section 8.02. DELIVERY OF SAMPLES.

The Contractor shall, at his sole cost and expense, furnish, package, mark, and store all samples to be tested. Chain-of custody and sample security precautions shall be utilized, as specified or as instructed by the Contract Administrator.

Collection, preparation, curing and delivery of all samples shall be made in ample time to allow the test to be made without delaying construction. No extra time will be allowed for the completion of the Work by reason of delay in testing.

Section 8.03. TESTING LABORATORY; COSTS.

The County shall employ and pay for the services of one or more independent testing laboratory(ies) ("Test Laboratory") to perform all required contract compliance testing expressly specified in the Technical Specifications as being provided by the County.

The County reserves the right to utilize the Yolo County Public Works concrete testing laboratory for any and/or all specified concrete or paving tests.

All testing not specified as being provided by the County shall be provided by the Contractor, using testing agencies with the specified qualifications.

The County reserves the right to require the Contractor to provide samples and to perform tests in addition to those samples and/or tests specified in the Technical Specifications. In the event the County orders such additional samples and/or tests, the County shall be obligated to pay therefore only if the sample and/or test is acceptable. If the sample and/or test does not comply with the Contract Documents, the County shall deduct the cost of the extra testing, and any subsequent re-testing, from the next progress payment.

If the Contractor determines that testing in addition to that specified is necessary and/or convenient, the Contractor shall employ a separate testing laboratory. The results of such tests shall not be binding on the County.

Section 8.04. RE-TESTING.

If as a result of any test, whether originally specified or not, any material or work is found to be unacceptable, it shall be rejected, and the original test and all further sampling and testing required by the County shall be at Contractor's expense. Re-testing shall not be charged against the specified contingency or testing allowances, if any.

Section 8.05. ACCESS TO SITE; COOPERATION.

The Contractor shall allow free access at all times to the representatives of the County's testing laboratory or consultant to the Work, or to any off-site area where Work is being performed and shall point out the sources from which samples are taken.

The Contractor shall cooperate with the testing laboratory to facilitate execution of its services and shall provide quantities of samples as specified.

Section 8.06. DAMAGE DUE TO TESTING.

Contractor shall, at his sole cost and expense, repair all damage resulting from testing or retesting specified in the Contract Documents. The County shall issue a Contract Price adjustment for repair of damage due to sampling or testing in addition to that specified in the Contract Documents, if and only if the additional testing shows full compliance with the Contract Documents; otherwise, the Contractor shall be obligated to repair such damage.

Section 8.07. RESULTS OF SAMPLING/TESTING.

No materials or work of which samples and/or tests are required shall be used or covered until the Contract Administrator approves such samples and/or tests. If the Contractor installs, uses or covers any such material, article or work prior to testing and approval, such shall be at Contractor's sole risk and expense, and he shall bear all costs of uncovering, repair and replacement thereof.

Upon testing of any sample of material or work, no additional sample shall be considered.

Section 8.08. EFFECT OF SAMPLING AND TESTING.

The County assumes no obligation, and the Contractor shall be relieved of no obligation undertaken pursuant to the Agreement for Construction, by virtue of sampling and testing specified in this Article. The responsibility for incorporating satisfactory materials and workmanship, which meet the Contract Documents, into the Work rest entirely with the Contractor, notwithstanding any prior samples or tests.

The Contractor is not relieved of this obligation by virtue of the results of any test or the failure of the testing laboratory or consultant accurately to ascertain or report test results.

Section 8.09. CODE COMPLIANCE TESTING; COSTS.

The Contractor shall bear all costs for all sampling and/or testing required by all agencies of jurisdiction regarding compliance of the Work with the Codes those agencies enforce. Examples include but are not limited to Building, Fire, Health, Air Pollution, and CALOSHA Code and regulation and compliance testing.

The Contractor shall arrange for and conduct all such testing in conformity with applicable codes and regulations, and shall schedule the testing so as not to delay the Work.

ARTICLE 9.

REJECTION AND REPLACEMENT OF WORK AND MATERIALS.

Section 9.01. REJECTION OF MATERIALS AND WORKMANSHIP.

The County shall reject materials that are determined by the Contract Administrator to be defective or fail to comply fully with the Contract Documents, and workmanship that is not first-class, competent and workmanlike in all respects. Rejected workmanship shall be corrected satisfactorily and rejected materials shall be removed from the premise and replaced, all without cost to the County.

Section 9.02. REMOVAL OF REJECTED MATERIALS.

The Contractor promptly shall remove from the Site all materials that have been rejected.

Upon request by the Contract Administrator, the Contractor shall submit a statement of the source for rejected materials. The County reserves the right to notify such source that the specified materials have not been and will not be incorporated into the Work, and no claim or stop notice therefore will be recognized. The Contractor shall fully indemnify the County for any claims, costs, or demands made by any supplier regarding such materials. The County reserves the right to satisfy any such supplier's claims by issuing a warrant jointly payable to the Contractor and the supplier, the amount of which shall be deducted from the next progress payment due to the Contractor.

Section 9.03. FAILURE TO REMOVE REJECTED MATERIALS.

If the Contractor does not remove rejected materials within a reasonable time, fixed by the written notice from the Contract Administrator, the County may remove such materials and may store or return the materials to the supplier, all at the expense of the Contractor. Contractor shall also bear the cost of replacement of any work damaged due to the removal of materials pursuant to this Section.

Any materials removed and stored pursuant to this section shall remain the property and the responsibility of the Contractor, and it is the Contractor's obligation to dispose of such materials. Such materials shall not again be brought upon the Site or any County-approved storage facility.

Section 9.04. FAILURE TO CORRECT REJECTED WORK; WITHHOLD AND DEDUCTION.

If the Contractor fails to correct rejected workmanship and/or materials, the County may withhold the cost to correct the rejected work, and the value of the rejected materials, from the Progress Payments due the Contractor.

If the work is not corrected prior to recordation of a Notice of Cessation or Notice of Completion, the County shall process a Contract Price Change Order to decrease the Contractor's final payment by an amount equal to the cost to cure the defect, measured by the cost the County would incur to purchase and install the specified material, and/or to correct the faulty workmanship, to bring the Work into full compliance with the Contract Documents.

Section 9.05. RESERVATION OF RIGHTS.

The County's authority to reject work under this Article is in addition to all other County rights under the Agreement for Construction. Neither the County's action or inaction under this Article shall relieve the Contractor from any obligation under this Agreement, nor constitute a waiver by the County of any other right under the Agreement for Construction.

ARTICLE 10.

SUPERVISION AND LABOR.

Section 10.01. SKILLED LABOR.

All labor shall be especially skilled for the kind of Work required, shall be conducted under the direction of a competent foreman, and workmanship shall be of the highest quality and finish, competent and workmanlike in all aspects.

All workers shall meet the skill and experience requirements specified in the applicable sections of the Technical Specifications.

Section 10.02. NO TENANCY.

All workers, contractors, or Contractor's representatives are admitted to the Site only for the proper execution of the Work and have no tenancy.

Section 10.03. DISMISSAL OF UNSATISFACTORY EMPLOYEES.

All employees engaged in the Work will be considered employees of the Contractor.

The Contractor shall discharge, or cause a subcontractor to discharge, any incompetent employee, any employee not skilled for the type of work required, or any employee who violated the standard set forth in Section 10.06 habitually or flagrantly.

Section 10.04. PERSONAL ATTENTION AND SUPERINTENDENCE; CONTRACTOR'S AGENT.

The Contractor shall supervise the Work to the end that it shall be faithfully prosecuted.

The Contractor at all times keep a Project Superintendent, fully empowered to act as agent for the Contractor, on the Site or available by telephone and within a reasonable distance. Contractor shall advise the County in writing of its agent, and of any limitations on the agent's authority to act on behalf of the Contractor. Regardless of such limitations, the Contractor shall be responsible for the faithful observation of all instructions delivered to it or its Project Superintendent, and representations on behalf of the Contractor by the Superintendent shall be binding on the Contractor.

Section 10.05. AUTHORIZED COUNTY VISITORS TO THE SITE.

The Contract Administrator shall specify those individuals who are entitled to access to the Site.

If the Contractor has complaints regarding the presence or conduct of any authorized individual on the Site, the Contractor shall report such complaint to the Contract Administrator, and shall conform to the instructions of the Contract Administrator regarding the complaint.

After consultation with the Contract Administrator, the Contractor may enforce reasonable regulations to secure the safety of authorized visitors. Such regulations may include the requirements to check in at a designated location and wear "hard hats" in specified areas.

Section 10.06. RELATIONSHIPS OF EMPLOYEES AND COUNTY EMPLOYEES AND THE PUBLIC.

It is the policy of the County of Yolo and the law of this State that all County employees be free

from sexual, racial, or other harassment at their workplace; it is the policy of the County that all members of the public likewise be free there from.

It is Contractor's responsibility to supervise all workers on this Project to the end that their conduct does not result in a violation of this policy.

ARTICLE 11.

SUBCONTRACTORS; LISTING AND BID; SUBSTITUTION.

Section 11.01. SUBCONTRACTORS; CONTRACTOR'S SUPERVISION.

Nothing contained in the Agreement for Construction shall create any contractual relationship between any subcontractor and the County of Yolo. The County's only contract is with the Contractor.

The Contractor shall be as fully responsible to the County for the performance and/or omissions of all first-tier and lower-tier subcontractors and their employees and agents as it is for its own performance and omissions.

It is the Contractor's responsibility, not the County's, to resolve disputes between subcontractors and/or between the Contractor and subcontractors. The Contractor shall not simply refer issues raised by subcontractors to the Contract Administrator. Prior to referring any controversy, issue, or request made by any subcontractor to the County, the Contractor shall exert his good faith best efforts to resolve the issue. Upon referring any such request, the Contractor shall accompany it with a submittal specifying efforts taken by the Contractor to resolve the issue. Should the Contract Administrator determine that the Contractor has not satisfied his obligation pursuant to this section, the Contract Administrator may reject the Contractor's submittal. The Contractor shall not be entitled to either a Contract Price or a Contract Time Change Order as a result of such rejected submittal.

It is also the Contractor's responsibility to supervise all subcontractors' compliance with all safety, wage and hours, equal employment opportunity and related regulations, including reporting requirements.

The County shall not entertain any request for, nor engage in, arbitration or dispute resolution between subcontractors, subcontractors and the Contractor, nor any agency with Code compliance, safety, wage and hours, and/or equal employment opportunity jurisdiction. However, in the event of such dispute, the Contract Administrator may request the Contractor to provide a complete written explanation of all facts underlying the dispute and may attend or call any meetings between the disputing parties. The Contractor shall provide such information to the Contract Administrator upon his request.

The County shall not be liable to the Contractor for any claims by subcontractors, suppliers, laborers, workers, or any other person, including claims that are settled by and assigned to the Contractor. The Contractor shall indemnify, defend and hold harmless the County, its officers, agents and employees from and against any and all such claims.

Section 11.02. DISPUTES BETWEEN SUBCONTRACTORS AND/OR CONTRACTOR.

If, through acts of neglect on the part of the Contractor, including failure to supervise and control his subcontractors, any other contractor, subcontractor, or workman shall suffer loss or damage on the Work, Contractor agrees to settle with such other contractor, subcontractor, or workman by agreement or arbitration, if such other contractor, subcontractor, or workman shall assert any claim against the County of Yolo or any of its officers, agents, or employees, on account of any damage alleged to have been so sustained.

In the event of the receipt of any such claim, the County shall notify the Contractor, who shall defend, indemnify, and save harmless the County and all of its officers, agents, and employees against any such claim, pursuant to Section 2.05 hereof.

Section 11.03. LISTING OF SUBCONTRACTORS.

Contractor shall comply with the requirements in the Instructions to Bidders regarding the listing of subcontractors and shall comply with the requirements of the Subletting and Subcontracting Fair Practices Act, Public Contracts Code Sections 4100 and following, forbidding bid shopping and bid peddling and requiring accurate listing of all subcontractors.

Should the Contractor violate any provision of that Chapter, such violation shall be deemed a breach of the Agreement for Construction, and the County shall have all remedies provided by California law including, but not limited to, those provided in Public Contracts Code Section 4110, allowing termination of the Contract or a penalty assessment of 10% of the subcontract.

Section 11.04. TERMINATION OF UNSATISFACTORY SUBCONTRACTORS.

When any portion of the Work that has been subcontracted by the Contractor is not being prosecuted in a satisfactory manner, the Contractor shall terminate the subcontract for such work.

Any such subcontractor who is discharged shall not again be employed on the Project.

Any termination of a subcontractor pursuant to this section shall be in strict conformity with the Subletting and Subcontracting Fair Practices Act, Public Contracts Code Sections 4100 and following.

Section 11.05. SUBCONTRACTORS' INSURANCE.

All subcontractors shall procure and maintain the insurance required by Article 2 hereof. Contractor shall supervise subcontractors to enforce this requirement and shall allow no subcontractor to evade this requirement.

ARTICLE 12.

STATE REQUIREMENTS REGARDING WAGES, HOURS, AND EQUAL OPPORTUNITY.

Section 12.01. PREVAILING WAGE RATE NOTICE

As provided under Labor Code Sections 1726-1861, the Director of the Department of Industrial Relations (DIR) of the State of California has determined the prevailing rate of wages in the locality in which the Work on the project is to be performed for each craft, classification, or type of Worker needed to execute this Contract. The prevailing rates so determined are on file with the COUNTY, and they are available for public inspection. They may also be obtained on the internet at http://www.dir.ca.gov/DIR/S&R/statistics_research.html. Those prevailing wage rates hereby are incorporated in this agreement and made a part hereof.

The CONTRACTOR shall obtain and post copies of these prevailing wage rates in a prominent place at the job site, in accordance with the regulations of the Department of Industrial Relations.

If the Project is subject to the requirements of Title 8 of the California Code of Regulations, Section 16461, the CONTRACTOR shall post on the jobsite a Notice containing the following language:

DIR will no longer charge awarding bodies for prevailing wage compliance monitoring and enforcement by the CMU.

SB 854 established a new public Works CONTRACTOR registration program to replace prior Compliance Monitoring Unit (CMU) and Labor Compliance Program (LCP) requirements for bond-funded and other specified public Works projects.

Contractors will be subject to a registration and annual renewal fee that has been set initially at $300. The fee is non-refundable and applies to all contractors and subcontractors who intend to bid or perform Work on public Works projects (as defined under the Labor Code).

Contractors will apply and pay the fee online and must meet minimum qualifications to be registered as eligible to bid and Work on public Works projects:

Contractors will apply and pay the fee online and must meet minimum qualifications to be registered as eligible to bid and Work on public Works projects:

- Must have Workers' compensation coverage for any employees and only use subcontractors who are registered public Works contractors.
- Must have Contractors State License Board license if applicable to trade.
- Must have no delinquent unpaid wage or penalty assessments owed to any employee or enforcement agency.
- Must not be under federal or state debarment.
- Must not be in prior violation of this registration requirement once it becomes effective. However, for the first violation in a 12-month period, a contractor may still qualify for registration by paying an additional penalty.

The registration fee is not related to any project. It is more like a license that enables the registrant to bid on and perform public Works.

- Registrations will begin after July 1, 2014, once the registration system is ready to go online. The preferred method of payment will be by credit card.

- The requirement to list only registered contractors and subcontractors on bids becomes effective on March 1, 2015. The requirement to only use registered contractors and subcontractors on public Works projects applies to all projects awarded on or after April 1, 2015.

All contractor registration fees will go into the State Public Works Enforcement Fund and be used to fund the following items:

- Administration of contractor registration requirement

- all DIR costs for administering and enforcing public Works laws
- Labor Commissioner's enforcement of other Labor Code violations on monitored public Works projects.

Section 12.02. PAYMENT OF PREVAILING WAGE RATES.
Pursuant to Labor Code Section 1772, Workers employed by contractors or subcontractors in the execution of any contract for public Work are deemed to be employed upon public Work as defined in Labor Code Sections 1720-1725. Therefore, the CONTRACTOR shall pay, and shall cause all subcontractors, whether under contract with the CONTRACTOR or under contract with any subcontractor, to pay not less than the specified prevailing wage rates to all Workers employed in the execution of this Contract.

In accordance with Labor Code Section 1775, the CONTRACTOR shall monitor the payment of the specified general prevailing rate of per diem wages by subcontractors to employees by periodic review of the certified payrolls of the Subcontractors.

Section 12.03. WAGE RATES FOR CRAFTS NOT LISTED.
The responsibility to check prevailing wage rates is the CONTRACTOR's. Pursuant to Labor Code Section 1773, the CONTRACTOR may file with the Director of DIR or the Chief of the Division of Labor Standards Enforcement ("DLSE") a petition to review a determination of any rate or rates made by the Director of DIR. The CONTRACTOR may also petition the Director of DIR to make a determination for a particular craft, classification or type of Work not covered by a general determination. Pending the review or determination, the wages may be assumed to be those in the applicable collective bargaining agreement, but no adjustment in the bid or Contract Price shall be made if such assumption is incorrect.

Section 12.04 RECORDS OF HOURS WORKED AND WAGES
The CONTRACTOR shall keep, and shall cause all subcontractors on the Project to keep, certified payroll records of the hours and wages of all employees employed on the Project, and those records shall be open at all times for inspection by the COUNTY and/or the Division of Labor Statistics and Enforcement, in accordance with Sections 1776 and 1812 of the Labor Code. The certified payroll records shall contain at least the following information: the name, address, social security number, Work classification, dates of payroll period, straight time, and overtime hours Worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, Worker, or other employee employed by the CONTRACTOR and/or each Subcontractor in connection with the Work.

In the event that the CONTRACTOR and/or any subcontractor fails to submit certified payroll records to the COUNTY within ten (10) calendar days of a request from the COUNTY for the records, the CONTRACTOR and/or the Subcontractor shall, as a penalty, forfeit one hundred dollars ($100) per calendar day, per Worker, until strict compliance is effectuated. These penalties shall be withheld from progress payments then due and/or to become due. The CONTRACTOR is not subject to this penalty assessment due to the failure of a Subcontractor to comply with these requirements if the CONTRACTOR can demonstrate that it has fully complied with the provisions of Labor Code Section 1776.

The CONTRACTOR shall not carry on its payrolls any person not actually employed by the CONTRACTOR, nor shall it carry on its payroll's employees of any Subcontractor. The CONTRACTOR shall show on its payrolls all persons actually employed by the CONTRACTOR on the Project, in any capacity. The CONTRACTOR shall cause all subcontractors on the Project, whether under contract with the CONTRACTOR or under contract with any subcontractor, to comply with this Section.

In accordance with Government Code Section 8546.7, or any amendments thereto, all books, records, and files of the CONTRACTOR, or any subcontractor connected with the performance of this Contract, shall be subject to examination and audit by the Auditor General for a period of three (3) years after final payment. CONTRACTOR shall preserve and cause all Subcontractors to preserve such books, records and files for the audit period.

Section 12.05. ADDITIONAL REQUIREMENTS FOR LABOR COMPLIANCE
In accordance with Section 16463 of Title 8 of the California Code of Regulations ("8 CCR Section 16463"), the COUNTY may, on its own or if required by the Labor Commissioner, withhold funds due to the CONTRACTOR when payroll records are delinquent or inadequate. The amount withheld shall be those payments due or estimated to be due to the CONTRACTOR or subcontractor whose payroll records are delinquent or inadequate, plus any additional amount that the Labor Commissioner has reasonable cause to believe may be needed to cover a back wage and penalty assessment against the CONTRACTOR or subcontractor whose payroll records are delinquent or inadequate. The CONTRACTOR shall cease all payments to a Subcontractor whose payroll records are delinquent or inadequate until the Labor

Commissioner provides notice that the Subcontractor has cured the delinquency or deficiency. When payments are withheld under 8 CCR Section 16463, the Labor Commissioner will provide the CONTRACTOR and Subcontractor, if applicable, with immediate written notice that includes all of the following: (1) a statement that payments are being withheld due to delinquent or inadequate payroll records, and that identifies what records are missing or states why records that have been submitted are deemed inadequate; (2) specifies what amounts the CONTRACTOR has been directed to withhold; and (3) informs the CONTRACTOR or subcontractor of the right to request an expedited hearing to review the withholding of payments under Labor Code Section 1742, limited to the issue of whether the records are delinquent or inadequate or the Labor Commissioner has exceeded his or her authority under 8 CCR Section 16463. The withholdings under 8 CCR Section 16463 do not preclude assessment of penalties under Labor Code Section 1776(g) for failure to timely comply with a written request for certified payroll records, as set forth below.

Section 12.06 UNDERPAYMENT OF WAGES

The CONTRACTOR agrees that in the event of underpayment of wages to any employee on the Project, whether by the CONTRACTOR or any subcontractor on the Project, the COUNTY may retain from payments due to the CONTRACTOR, an amount sufficient to pay such Worker the difference between the wages required to be paid by the DIR, and the wages actually paid such Worker for the total number of hours Worked, plus any penalties and forfeitures. The COUNTY may disburse such retention to such employees.

Section 12.07. APPRENTICES.

Attention is directed to the provisions of Sections 1777.5, 1777.6 and 1777.7 of the Labor Code concerning the employment of apprentices by the CONTRACTOR or any subcontractor.

The CONTRACTOR and all subcontractors on the Project shall comply with the requirements of Sections 1777.5 and Section 1777.6 of the Labor Code in the employment of apprentices. Violation of these requirements shall subject the CONTRACTOR and/or subcontractor to the penalties set forth in Section 1777.7 of the Labor Code and/or otherwise provided by law or Contract.

Information relative to apprentice standards, wage schedules, and other requirements may be obtained from the Director of Industrial Relations, ex-officio the Administrator of Apprenticeship, San Francisco, California, from the Division of Apprenticeship Standards or its branch offices, and/or on the DLSR website at www.dir.ca.gov/DLSR/PWD. Apprentices employed on the Project must at all times Work with or be under the direct supervision of a journeyman or journeymen.

Section 12.08 PENALTIES

In accordance with Articles 2 and 3, Chapter 1, Part 7, Division 2 of the Labor Code, particularly Sections 1775, 1776, 1777.7 and 1813, the CONTRACTOR shall forfeit to COUNTY as a penalty the sum specified below, over and above any retention or withholds otherwise authorized by the agreement, as follows:

A. Up to two hundred dollars ($200) for each calendar day, or portion thereof, for each Worker paid less than the applicable prevailing wages for any Work done by him/her under this Contract or under any subcontract on the Project, with the amount to be determined by the Labor Commissioner in accordance with the considerations set forth in Labor Code section 1775. If a Worker employed by a Subcontractor on the Project is paid less than the prevailing wages by the Subcontractor, the CONTRACTOR is not subject to this penalty assessment if the CONTRACTOR can demonstrate that it did not have knowledge of that failure of the Subcontractor to pay the prevailing wages and that it strictly complied with the requirements of Labor Code Section 1775(b).

B. Twenty-five dollars ($25) for each Worker employed in the execution of this agreement by the CONTRACTOR or by any Subcontractor on the Project for each calendar day during which such Worker is required or permitted to Work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of Article 3.

C. Failure to provide certified payroll records to the COUNTY or, if applicable, to the CMU, within ten (10) calendar days of a request, shall, in addition to resulting in a withholding of payments due or estimated to be due, result in a penalty in the amount of one hundred dollars ($100) for each calendar day, or portion thereof, for each Worker until strict compliance is effectuated. The CONTRACTOR is not subject to this penalty assessment due to the failure of a Subcontractor to comply with these requirements if the CONTRACTOR can demonstrate that it has fully complied with the provisions of Labor Code Section 1776.

D. Knowing violation of Labor Code Section 1777.5 shall yield a penalty in an amount not exceeding one hundred dollars ($100) for each full calendar day of non-compliance. A CONTRACTOR or Subcontractor who

knowingly commits a second or subsequent violation of Section 1777.5 within a three-year period, where noncompliance results in apprenticeship training not being provided as required, shall forfeit as a civil penalty the sum of no more than three hundred dollars ($300) for each full calendar day of noncompliance.

Section 12.09. HOURS OF WORK AND APPROVAL OF SCHEDULES

Eight (8) hours of labor constitutes a legal day's Work, and forty (40) hours constitutes a legal Work week. No Worker employed at any time by the CONTRACTOR, or by any subcontractor upon the Project, shall be required or permitted to Work more than eight (8) hours in any one calendar day or forty (40) hours in any one week, except as provided in Labor Code Sections 1810 through 1815.

Overtime shall be paid at the rate of not less than one and one-half (1-1/2) times the basic rate of pay, or at such other rate as stated on the applicable Determination issued by the DIR, or as may be required by applicable statutes or collective bargaining agreements.

The COUNTY reserves the right to approve or disapprove the days scheduled for Work, and the hours during which Work is in progress.

Section 12.10. COMPLIANCE WITH THE STATE ANTI DISCRIMINATION LAWS

The CONTRACTOR shall comply with Section 1735 of the Labor Code, which provides as follows:

> "A contractor shall not discriminate in the employment of persons upon public Works on any basis listed in subdivision (a) of Section 12940 of the Government Code, as those bases are defined in Sections 12926 and 12926.1 of the Government Code, except as otherwise provided in Section 12940 of the Government Code. Every contractor for public Works who violates this section is subject to all the penalties imposed for a violation of this chapter."

ARTICLE 13.

FEDERAL REQUIREMENTS REGARDING WAGES, HOURS, AND EQUAL OPPORTUNITY

SEE SUPPLEMENTARY CONDITIONS

ARTICLE 14.

ON-SITE SECURITY; RISK OF LOSS; SITE SAFETY.

Section 14.01. PROJECT SITE.

The Contractor shall confine his equipment, materials, and construction apparatus to the site limits designated in the Contract Documents and/or directed by the Contract Administrator.

The Site and equipment storage areas shall be kept in a neat and safe condition, conforming to all requirements of the Contract Documents and applicable Codes regarding the storage of materials, including flammable materials.

Section 14.02. SECURITY OF THE SITE.

The Contractor shall take such steps as are necessary to secure the Site at all times, including times workmen are not present. The Contractor shall maintain adequate security and protection of all structures, facilities, equipment, tools, materials, and any other property on or adjacent to the Site, against damage, vandalism, loss of fire, or theft.

The Contractor's attention is directed to the Technical Specifications and/or Supplementary Condition for specified fencing, screening, gate and lighting requirements, if any.

The Contractor may, at its option and expense, provide night watchmen for the Site. The facilities for such watchmen shall be subject to approval by all agencies with jurisdiction.

At the Contract Administrator's request, the Contractor shall meet with representatives of the police and fire agencies with jurisdiction and shall comply with the Contract Administrator's request on behalf of such departments regarding security of the Site.

Section 14.03. RISK OF LOSS.

The Contractor assumes full responsibility for site security and full liability for the risk of loss from any cause of materials stored, work performed and existing improvements on the site, and agrees to repair and replace, at no cost to the County, at the time they are needed for incorporation in the Work, any materials or work that may have become lost, damaged, destroyed, stolen, vandalized, or have otherwise been rendered unsuitable for use from any cause. Contractor shall repair or replace any such damage and remove any damaged or defaced materials and/or equipment from the Project Site, at no cost to the County, and Article 9 hereof shall apply to such material or equipment.

Section 14.04. PROTECTION OF WORKMEN AND VISITORS TO THE SITE.

Contractor shall take all necessary precautions for the safety of all employees and visitors to the Site and shall comply with all applicable provisions of the Federal, State and local safety laws and building codes to prevent accidents or injury to persons on, about, or adjacent to the Site.

Contractor shall erect and properly maintain at all times, as required by the condition and progress of the Work, all necessary safeguards for the protection of workmen, visitors to the Site, and the public, and shall post danger signs warning against construction hazards as needed.

The responsibility for maintaining a safe site shall be the Contractor's and the County undertakes no obligation to suspend the Work or notify the Contractor of any hazardous condition or noncompliance with safety laws.

Contractor shall designate a responsible member of his organization on the Work, whose duty shall be the prevention of accidents. The name and position of persons so designated shall be reported to the Contract Administrator by the Contractor; absent designation of some other individual by the Contractor, the Contractor's Project superintendent shall be responsible for the Contractor's safety program.

Contractor shall immediately replace or repair any unsafe, dangerous, or hazardous condition that may exist.

Section 14.05. EXCAVATION AND TRENCHING; SAFETY.

The Contractor shall comply with of all provisions of law regarding safety requirements for trenches or excavations.

A. Public Contract Code '7104 provides:

(a) That the contractor shall promptly, and before the following conditions are disturbed, notify the public entity, in writing, of any: (1) Material that the contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law; (2) Subsurface or latent physical conditions at the site differing from those indicated; (3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the contract.

(b) That the public entity shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in the contract.

(c) That, in the event that a dispute arises between the public entity and the contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the contractor's cost of, or time required for, performance of any part of the work, the contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract.

B. Labor Code Section 6705 provides that in advance of any excavation of any trench or trenches or other excavation five (5) feet or more in depth, the Contractor shall submit a detailed plan to the Contract Administrator for information only showing the design of shoring, bracing, sloping or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plan varies from California State Shoring System standards, the plan shall be prepared by a registered civil or structural engineer.

C. Nothing in the Contract Documents shall be deemed to allow the use of a shoring, sloping, or protective system less effective than that required by the Construction Safety Orders of the State of California.

Nothing in this Section shall be construed to impose liability on the County of Yolo or any of its officers, agents, or employees, or to relieve the Contractor of its obligations to provide a safe site.

Section 14.06. CAL OSHA.

The contractor shall comply with all requirements of the California Occupational Safety and Health Administration or its successor, and the Federal equivalent, and shall provide a safe work environment for all workers employed on the Work, as required by such agencies. The Contractor shall supervise performance of the Work with all occupational health & safety requirements applicable to the type of work being done, and the materials and equipment being utilized. (See also Section 20.05).

ARTICLE 15.

OFF-SITE SAFETY AND PROTECTION OF ADJACENT PROPERTY; INDEMNITY.

Section 15.01. PROTECTION OF ADJACENT PROPERTY DURING EXCAVATION OR OTHER OPERATIONS; NOTICES.

In addition to any requirements imposed by law, the Contractor shall shore up, brace, underpin, and protect as may be necessary all foundations and other parts of all existing structures on the Site or adjacent to the site which are in any way affected by the excavations or other operations connected with performance of the Work.

Not less than five (5) days prior to commencing any work which may detrimentally affect adjoining or adjacent land or buildings thereon, the contractor shall send the owner and occupants thereof a notice, which specifies the type of Work to be done, the schedule of the Work, the effects expected from the Work, and the protective measures being taken by the Contractor. A copy of the notice shall be sent to the Contractor Administrator.

The basic standard to determine whether the Work may detrimentally effect adjoining properties shall be whether the work will create noise, dust, vibration, and/or settling on such properties. Examples include, but are not limited to, blasting, pile driving and excavations within 30 feet of any structure not owned by the County.

The Contractor shall, at the instruction of the Contract Administrator, meet with any recipient of such notice to explain and discuss the proposed Work. The Contractor shall make such modifications to the proposed working methods as are required to comply with all provisions of law, and shall exert its best efforts to address the concerns expressed by recipients of such notices.

Section 15.02. UNDERGROUND UTILITIES; "USA".

The Contractor is responsible to coordinate all excavation work with the owners of existing underground utilities, and to avoid unintentional disruptions in services by those utilities. Locations of existing utilities shown on the Contract Drawings are schematic only and shall not relieve the Contractor's duty to precisely locate and avoid them.

If the underground utility service is disrupted by the Work, the Contractor shall take emergency action appropriate to the situation and immediately notify the owner of the utility. Repair thereof shall be the Contractor's responsibility, at no cost to the County.

The Contractor is advised that the County participates in the Underground Service Alert-Northern California ("USA"), which may be contacted by telephone at (800) 227-2600. Except in an emergency, the Contractor shall contact the USA Notification center at least two working days prior to commencing an excavation in any area that contains subsurface installations.

Section 15.03. DAMAGE TO OR BLOCKING STREETS, STREET IMPROVEMENTS AND TRACKS.

The Contractor is responsible to avoid damage to existing streets, sidewalks, curbs, traffic signs and signals, streetlights, control boxes, meters, railroad tracks, crossing guards, and all other appurtenances thereto. The Contractor shall take necessary precautions to avoid damage to such property, and if damage occurs, shall take emergency action appropriate to the situation and immediately notify the owner of the damaged property. Repair thereof shall be the Contractor's responsibility, at no cost to the County.

Existing traffic signs, lights, traffic signals, railroad crossing warnings, control boxes, hydrants, meters and related safety items occurring within the street and/or sidewalk area shall be kept visible, free of obstructions and accessible at all times.

Should it be necessary to cover up, move, or alter such items, this shall be done only with permission of the authorities having jurisdiction of the items involved.

Should it is necessary to block a street or sidewalk, the Contractor shall first notify the police, fire, or public works agencies with Jurisdiction, and shall comply with their instructions, including scheduling limitations.

Section 15.04. FIRE PROTECTION.

The Contractor is responsible to protect all structures from fires and sparks originating in the work, and all laws and regulations regarding fire protection, and shall comply with all instructions of the fire department with jurisdiction.

The Contractor shall notify the Contract Administrator and the fire department prior to disconnection of either water or electrical service to the Site, and shall comply with the fire department's instructions regarding fire safety.

The Contractor shall provide fire extinguishers as necessary to protect the Site and adjacent structures at all times, in accordance with applicable Fire Codes, regulations and Fire Department instructions.

Section 15.05. DUST CONTROL.

The Contractor shall at all times control dust originating from the Site by sprinkling as needed. The Contractor shall not allow dust to be blown onto adjacent properties. In the event that complaints are received by the County regarding dust control, the Contractor shall increase sprinkling to control the dust.

Section 15.06. INDEMNITY FOR DAMAGE TO ADJACENT PROPERTY;REPAIRS.

A. **Indemnity**. Without limitation of its indemnity obligations set forth in Article 3 hereof, Contractor shall defend, indemnify, and save harmless the County from any claim, loss or damages on account of any harm to person or property alleged to have resulted from the Work, the performance of this Agreement or Contractor's acts or omissions in protecting the public from the effects of the Work including settlement and/or the loss of lateral subjacent support of adjoining property; damage to utilities' or governmental agencies' equipment or installations; injuries to persons using the public streets; and from all loss or expense and from all damages for which the County may be liable as a consequence of such injury or damage to person an/or adjoining or adjacent property and/or structures' or equipment or installations, including those owned by Yolo County.

B. **Repairs**. Any damage arising from or in consequence of the performance of the Agreement for Construction to tracks, pavement, curbs, sidewalks, walls, stairs, sewage and/or drainage structures, mains, pipes, valves, conduits, poles, wires, transformers, trees, shrubs, adjoining work, or to any other improvement or property above or below the surface of the ground, whether private or public, shall be repaired at once by Contractor without expense to the County, if the owner thereof consents.

Section 15.07. EMERGENCY SAFETY ACTIONS.

In an emergency affecting the safety of life or property, including adjoining property, the Contractor, without previous instructions or authorizations from the County, shall act at the Contractor's discretion and risk to prevent such threatened loss or injury, and shall bear all costs of such action. The Contractor immediately shall notify the Contract Administrator of such actions, and thereafter shall comply with any instructions issued by the Contractor Administrator.

ARTICLE 16.

CONDUCT AND PROSECUTION OF THE WORK.

Section 16.01. BASIC STANDARD.

The Contractor is responsible for all aspects of the full, complete, satisfactory and faithful performance of the Work strictly as specified by the Contract Documents or any duly issued amendments thereto as well as all applicable laws and regulations.

Section 16.02. SURVEYS AND FIELD ENGINEERING.

Unless otherwise specified, the Contractor is responsible for all survey and field engineering work required for performing the Work. All such survey and field engineering work shall conform to the Technical Specifications.

The County shall identify existing control points and property line corner stakes, as indicated on the Drawings. Benchmarks, baselines, property boundaries, line and grade hubs, and other reference and construction points shall thereafter be maintained by the Contractor who shall be responsible for keeping their accuracy and who shall pay all costs of re-establishing them if they are disturbed.

The Contractor shall notify the Contract Administrator in writing at least ten (10) days prior to the time he will commence work on any part of the construction requiring surveys to be commenced by the County.

Section 16.03. CLEARING OBSTRUCTIONS.

Unless specified otherwise, the Contractor shall clear all obstructions and prepare the site for the construction. The Contractor shall verify all dimensions and levels shown on the Drawings against the Site after it has been graded and prepare for construction, and properly reset all survey control points and property line corner stakes.

Section 16 04. LAYOUT WORK.

The Contractor shall be responsible for all layout work, and shall lay out all lines, corners, levels and grade stakes after the Site has been prepared. The exact locations of all partitions shall be laid out on forms, walls and flooring, as the Work progresses. It is the Contractor's responsibility to verify all dimensions shown on the Drawings before layout of the Work, and to properly locate the Project on the Site and the components within the structure, as specified by the Contract Documents. See Section 01720 of Division 1 for further particulars.

Section 16.05. CONTRACTOR'S EQUIPMENT.

The Contractor shall provide adequate and suitable equipment and means of construction to meet all the requirements of the Contract Documents, including completion of the project within the time specified. The Contractor alone shall be responsible for the safety, adequacy, and efficiency of his plant, equipment and methods, and those of all subcontractors on the Site. By entering the Agreement for Construction, the Contractor agrees to provide all specialized plant, equipment and methods of construction required to perform the Work on schedule, whether separately specified or not, at no extra cost to the County.

Section 16.06. DISCOVERY OF UNKNOWN CONDITIONS; PROCEDURE.

Should concealed or unknown conditions be encountered in the performance of the work below the surface of the ground or in existing structures on the Site, which conditions are at variance with the Contract Documents, the Contractor immediately shall seek a Clarification from the Contract Administrator, pursuant to Section 4.08 hereof.

The Contract Administrator shall investigate, and if the Contractor has demonstrated the following, a Change Order shall be processed pursuant to Article 17:

A. The conditions are at variance with the Contract Documents; and,

B. The conditions require work beyond the Scope of the Agreement for Construction; and,

C. The conditions differ materially and substantially from conditions normally encountered and generally recognized as inherent in work of the character of the Project in the area of the Project Site; and

D. The Contractor has provided Notice of its claim as required by Section 17.05.

Time extensions necessitated by concealed conditions are governed by Section 3.07-D.

No claim for extra compensation or time for conditions described herein shall be allowed unless the Contractor has given the notice required by this Section and/or Section 3.08 hereof (regarding Notice of Delay). (See also: Section 4.04 regarding Site Conditions).

Section 16.07. EQUIPMENT AND METHODS.

Only equipment and methods suitable to produce the quality of Work required to conform to the Technical Specifications shall be permitted by the Contractor to operate on the Work. If any part of the Contractor's plan, equipment or methods of execution of the Work are determined by the Contract Administrator to be nonconforming to applicable safety regulations or to be non-conforming to applicable Technical Specifications, the Contract Administrator may order the Contractor to conform to the applicable requirements, and the Contractor shall promptly comply with such orders; provided, however, that neither compliance with such orders nor failure by the Contract Administrator to issue such orders shall relieve the Contractor from his obligation to perform the Work as required by the Contract Documents.

Section 16.08. TEMPORARY FACILITIES AND SERVICES.

The Contractor shall be responsible for providing and maintaining all necessary storage places, field offices, temporary roads, fences, and all utilities, including telephone, electric, gas and water service to the Site during construction at his sole cost and expense unless otherwise specified in the Technical specifications. The Contractor shall not connect to fire hydrants for construction water without the prior consent of the fire department with jurisdiction,

The Contractor shall comply with all requirements of Federal and State law and Yolo County Ordinances regarding the placement of temporary facilities on the Site, and the County shall not be deemed by this Agreement to have consented to such placement. See Section 01500 of Division 1 for further particulars.

Section 16.09. COORDINATION OF WORK.

The Contractor shall be responsible for coordinating the work of the various subcontractors and trades employed on the Work. He shall adjust, correct, and coordinate this work with the work of others so that no discrepancies will result nor unnecessary delays occur.

If completion is delayed because of any acts or omissions of any subcontractors, the Contractor shall on that account have no claim against the County for extra compensation or time.

Section 16.10. JOINING WORK.

Where work of one trade or subcontractor joins or is installed upon the work of another trade or subcontractor, there shall be no discrepancy in mating or joining such work, which shall be done and finished in a good and workmanlike manner. In joining one kind of work with another, the marring or damaging of either shall be corrected at no expense to the County.

Should improper work of any trade be covered by that of another, it shall be the Contractor's responsibility to correct the improper work and to adjust costs between the various subcontractors, without cost to the County.

Section 16.11. CUTTING AND PATCHING OF WORK.

The Contractor shall be responsible for all cutting, fitting or patching that may be required to complete the work or to make its several parts fit together properly.

The Contractor shall not damage or endanger any portion of the Work or work being done by the County or any separate contractors by cutting, patching or otherwise altering any work, or by excavation. The Contractor shall not cut or otherwise alter the work of the County or any separate contractor except with the written consent of the Contract Administrator and of such separate contractor. The Contractor shall not unreasonably withhold from the County or any separate contractor his consent to cutting or otherwise altering the Work.

Section 16.12. INSPECTION OF THE WORK OF OTHER CONTRACTORS.

It shall be the duty of the Contractor and all subcontractors, before beginning any work, to examine all construction and work of other contractors and/or subcontractors that may affect their work, and to satisfy themselves that everything is in proper condition to receive such work.

Section 16.13. COMBINATION OF WORK WITH OTHER CONTRACTORS OR COUNTY.

If the Project requires performance of work by the County or other Prime Contractors, as specified in the supplementary Conditions, the following provisions shall apply:

A. The County reserves the right to perform work related to the Project with its own forces, and/or to award separate contracts in connection with other portions of the Project or other work on the Site.

B. When separate contracts are awarded for different portions of the Project or other Work on the Site, the term "Contractor" in the Contract Documents in each case shall mean the Contractor who executes each separate Agreement for Construction.

C. The County will provide for the coordination of the work of its own forces and of each separate contractor with the Work of the Contractor, who shall cooperate therewith as provided below.

D. The Contractor shall provide the County and separate contractors reasonable opportunity for the

storage of their materials and equipment and the execution of their work on the site and shall connect and coordinate his Work with theirs as required by the Contract Documents. The Contract Administrator may designate separate areas on the Site for the use of separate contractors.

E. If any part of the Contractor's Work depends for proper execution or results upon the work of the County or any separate contractor, the Contractor shall, prior to proceeding with the Work, promptly report to the Contract Administrator any apparent discrepancies or defects in such other work that render it unsuitable for such proper execution and results. Failure of the Contractor to report shall constitute an acceptance of the County's or separate contractor's work as fit and proper to receive his Work, except as to defects that may subsequently become apparent in such work by others.

F. Any costs caused by defective or ill-timed work shall be borne by the party responsible, therefore.

G. Should the Contractor unintentionally cause damage to the Work or property of the County, or to another contractor's work on the site, the Contractor shall, upon notice from the Contract Administrator, promptly attempt to settle with such other contractor by agreement, or otherwise to resolve the dispute. If such separate contractor sues or initiates a legal proceeding against the County on account of any damage alleged to have been caused by the Contractor, the County shall notify the Contractor who shall defend such proceedings, and if any judgment or award against the County arises therefrom, the Contractor shall pay or satisfy it and shall reimburse the County for all attorneys' fees and court or legal costs which the County has incurred.

H. If a dispute arises between the Contractor and separate contractors as to their responsibility for cleaning up, the County may clean-up and charge the costs thereof to the contractors responsible therefore, as determined by the Contract Administrator.

Section 16.14. OVERTIME AND HOLIDAY WORK.

The Contractor shall secure the approval of the Contract Administrator before allowing work on the Project before 6:00 A.M. or after 6:00 P.M. on any working day, or any work on weekends or legal holidays.

The Contract Administrator may deny permission for such work, or impose conditions thereon, if needed to protect adjacent properties or land uses from noise, dust, or other work-related impacts not normally expected in the area during the terms proposed for such work. The Contract Administrator may consult with all governmental agencies with jurisdiction before responding to such requests.

The Contractor shall reimburse the County for all added costs to the County resulting from overtime and holiday work not specified by the Contract Documents, including Project Management and inspections by County employees and/or independent contractors, Project Architect cost increases, and any costs claimed by any other contractor. Such reimbursement shall be made from the next progress payment due to Contractor.

Section 16.15. PROOF OF COMPLIANCE WITH CONTRACT DOCUMENTS AND LAW.

In order that the Contract Administrator may determine compliance with the requirements of the Contract Documents and applicable laws and regulations which are not readily ascertainable through inspection and tests of materials and work, the Contractor shall, at any time requested by the Contract Administrator, submit such documents or other satisfactory proofs as required by the Contract Administrator to demonstrate compliance by the Contractor with the Contract Documents and applicable laws and regulations.

ARTICLE 17.

CHANGE ORDERS; WORK AUTHORIZATIONS; ALLOWANCES.

Section 17.01. NO CHANGES WITHOUT CONSENT; PERFORMING WORK ORDERED.

No extra work shall be performed, and no change shall be made, except pursuant to a written Change Order or Work Authorization from the County stating that the extra work or change is authorized, and no claim for any addition to the Contract Price or Time for completion shall be valid unless so ordered; provided, however, that nothing in this Article shall excuse the Contractor from diligently proceeding and fully completing the Project.

Section 17.02. CHANGE ORDERS AUTHORIZED; PROCEDURE.

A. **Change Orders Authorized**. Subject to legal requirements relating to competitive bidding, the County may require changes in, additions to, or deletions from the scope of the work to be performed or the materials to be furnished pursuant to the Contract Documents.

B. **Methods of Calculation**. Adjustments, if any, to the Contract Price by reason of any such change, addition or deletion, shall be determined by one or more of the following methods, at the County's sole discretion. The Contractor shall provide sufficient substantiating data to allow the County to evaluate the Contractor's claim for a Change Order.

1. By a lump sum proposal from the Contractor accepted by formal action by the County; and/or

2. By unit prices contained in the Contractor's original bid and incorporated in the Contract Documents or fixed by subsequent agreement between the County and the Contractor; and/or

3. By time and materials charges if approved by formal action of the County, limited to the "Actual Cost" to perform the Work, as defined by Paragraph "D" of this Section, plus overhead and profit as allowed by Paragraph "C" of this Section.

4. If the Change Order implements an Allowance procedure, the Contract Price adjustment shall be as specified in the Allowance.

C. **Overhead and Profit on Change Orders**. The maximum amount allowable on any change order for overhead and profit shall not exceed the following:

1. For change order work performed by the prime contractor, the maximum amount for overhead and profit shall be the following percentages of the "actual cost to perform the work" as defined in Paragraph D of this Section, plus a maximum of 1% of such costs for extra bond premiums, upon submission of a paid invoice for such premiums:

   a. If the change order is up to $1,000.99, 20%;

   b. If the change order is up to $1,001.00 and $4,000.99, 15%;

   c. If the change order is between $4001.00 and $12,000.99, 12%;

d. If the change order is $12,001.00 or more, 10%.

2. For change order work performed by subcontractors, the maximum amount for all subcontractors' overhead and profit shall not exceed the percentages set forth in Subparagraph (1) above. The prime contractor may add 5% for the prime contractor's overhead and profit, and 1% for bond premiums if a paid invoice for extra bond premiums is submitted, both percentages being of the "actual cost" as defined in Paragraph B.

3. The allowances for overhead and profit as enumerated in the preceding subparagraphs shall include full compensation for any and all items of overhead including superintendence, layout, field engineering, and any related work, whether or not included within the definition of "actual cost" specified in Paragraph D.

D. **"Actual Costs" Defined**. The actual cost to perform the Work for purposes of this Section is limited to the applicable labor rates set forth in Article 12 hereof, including Contractor's contributions directly attributable to the Work authorized; and the material man's or supplier's invoice amount for all material and equipment actually used to accomplish the work authorized. All other direct and indirect costs, all costs attributable to the time needed to perform the work ordered by such Change Orders, and all profit associated with such work shall be included in the maximum overhead and profit amounts stated hereinabove.

E. **Audit and Verification**. All Change Order claims are subject to examination and audit before payment, if ordered by the Contract Administrator. If requested by the Contract Administrator, the Contractor shall furnish a detailed itemized breakdown and copies of all invoices for all costs being claimed for such Change Order, prior to the Contract Administrator's decision thereon. The Contract Administrator may order a more detailed audit of the Contractor's claim and supporting documentation if necessary to decide the claim.

F. **Deductive Change Orders**. If a Substitution, Field Order, Work Authorization, or Change Order is issued which reduces either the Scope of the Contract, the cost to perform the Work, the time to perform the work, or any combination thereof, the County shall be credited therefore on a Change Order. The credit shall be calculated in the same method as an extra-work Change Order. The Contractor shall submit time and materials data for approval by the Contract Administrator detailing the credit due the County. The County reserves the right to verify such data by reference to standard estimating manuals, the Contractor's Schedule of Values, or other documents, and to review the Contractor's estimate of the credit due.

G. **Periodic Change Orders**. The Contract Administrator is authorized to cumulate Work Authorizations and to process periodic Change Orders including additions and deletions, and to develop procedures providing the methods for such processing in addition to and consistent with those set forth in Division l.

Section 17.03. WORK AUTHORIZATIONS; PROCEDURE.

A. **Work Authorization Authorized**. The Contract Administrator or the County Administrative Officer, depending on amount, is authorized to issue Work Authorizations instructing the Contractor to proceed with extra work subject to the following maximum amounts, above which a Change Order must be approved by the Board of Supervisors.

B. **Maximum Amounts**. Work Authorizations may be issued by the Contract Administrator up to $2,000.99, and by the County Administrative Officer up to $25,000, maximum price adjustment

authorized thereby. Either may approve a time allocation for such work, subject to the procedure and limitations specified in Section 3.07-D.

C. **Quotation by Contractor**. Other than in extraordinary circumstances as described below, before a Work Authorization is issued the Contractor shall submit a quotation setting forth an estimated cost of the extra work to be performed with sufficient substantiating data to allow the County to evaluate the quotation, and an estimate of the time necessary to perform the extra work. If requested by the Contract Administrator, the Contractor shall provide additional data to support the quotation. The Contractor shall acknowledge the quotation as binding.

D. **Claim for Price Adjustment**. After the extra work specified on the Work Authorization is completed, the Contractor may submit a claim for a Contract Price Change Order due to the Work Authorization. The claim shall be supported with substantiating data to show the actual costs to perform the Work and the overhead and profit being claimed, as defined in Section 17.02 C and D. The maximum price adjustment claimed shall not exceed one-hundred-ten (110%) percent of the approved quotation.

E. **Claim for Time Adjustment**. If the Contractor claims that the Work Authorization has delayed the Contract Completion Time, he shall verify the claimed delay by demonstrating with reference to the approved Project Progress Schedule that the Work Authorization in fact caused a delay in the overall completion date of the Project. Upon such demonstration, the Contract Administrator shall process a request for a Contract Time extension Change Order pursuant to Article 3 hereof.

F. **Accumulation of Work Authorizations**. At the Contract Administrator's sole discretion, the Contractor's claims for change Orders arising from several Work Authorizations may be accumulated into periodic Change Orders adjusting Contract Price, Time, or both, separately or in one Change Order.

Such periodic Change Orders shall include deductions for Changes that constitute Deductive Change Orders, as defined in Section 17.02-F during the time period being considered in the periodic Change Order.

G. **Immediate Work Authorizations**. In the event extraordinary circumstances arise which require extra work to be authorized before a quotation is prepared by the Contractor, the Contract Administrator or County Administrative Officer may issue an immediate Work Authorization without such quotation. Such Work Authorization shall include a maximum authorized sum over which no price adjustment will be authorized. The determination as to whether circumstances as described above exist is discretionary with the County. Such Work Authorizations otherwise shall be processed as specified in this Section.

Section 17.04. EXTRA WORK CLAIMS; PROCEDURE.

If the Contractor claims that any Clarification or other instruction issued by the County requires work beyond the scope of the Agreement for Construction, the following provisions shall apply:

A. **Notice to Contract Administrator**. The Contractor shall notify the Contract Administrator of its claim, and submit a quotation for the claimed costs, in the same manner as specified in Section 17.03-C. The Contractor shall submit additional information requested by the Contract Administrator to decide the claim.

B. **Action by Contract Administrator**. The Contract Administrator shall review the Contractor's submittals and either approve or deny the Contractor's claim. The Contract Administrator shall issue his decision within twenty-one (21) days of receipt of a complete submittal from the Contractor. If the claim is approved, the Contract Administrator may process either a Change Order or Work Authorization, pursuant to this Article. If the claim is denied, the Contract Administrator shall so advise the Contractor. Thereafter, the Contractor shall proceed with the work in issue.

C. **Time**. If the claim is approved, the time during which the claim was being considered shall be included in the time allocation for the Work Authorization adjusting the claim, and Section 17.02 shall apply thereto; if the claim is adjusted by Change Order, any Time extension authorized thereby shall include the time during which the claim was pending. If the claim is denied, no time adjustment shall be authorized.

D. **Effect of Proceeding**. If the Contractor proceeds with the work without notifying the Contract Administrator pursuant to Paragraph A, or before a decision pursuant to Paragraph B, any claim for a Contract price and/or time adjustment shall be waived.

E. **Scheduling**. The Contractor is responsible to schedule the work and submit extra-work claims so the time required for decision, as specified in Paragraph B, does not delay the Work in general.

Section 17.05. ALLOWANCES; PROCEDURE.

The Contractor's bid includes the amounts specified for Allowances in the Contract Documents. Work or materials specified as included in the Allowance shall be provided by the Contractor for the Allowance amount.

The County reserves the right to specify work and/or materials which differ from those specified as included in the Allowance, in which case additive or deductive changes to the Contract Price shall be processed pursuant to this Section.

Unless otherwise expressly specified in the Contract Documents, the following provisions shall control the Price adjustment for the Allowance:

A. The Contract Price bid by the Contractor shall include the cost for the Allowance item(s), delivered to the Site, unloading, handling, storage, taxes, and all overhead and profit pertaining thereto. If the Allowance is specified as including labor, the Contract Price bid by the Contractor shall include all costs of such labor, including superintendence, overhead and profit.

B. If the County orders item (s) or labor different from those specified as included in the Allowance, the Contract Price shall be adjusted by either a deductive or additive Change Order pursuant to Section 17.02, or a Work Authorization pursuant to Section 17.03.

C. Unless another method is specified by the Allowance, the price adjustment shall be based upon the following:

1. The actual costs of the items ordered by the County, delivered to the Site and made ready for incorporation in the Project shall be compared to the material cost specified in the Allowance. "Actual costs" is defined by Section 17.02-D.

2. The actual costs of labor to incorporate the items ordered by the County in the Project shall be compared to the labor amounts specified in the allowance, if any. "Actual Costs" is

defined by Section 17.02-D.

3. The results of the materials and labor adjustments shall then be compared. If the net adjustment resulting from this comparison is additive, the Contractor shall be entitled to overhead and profit as specified by Section 17.02-D only on the net amount resulting from the previous calculations. Such overhead and profit shall include all sums authorized for all indirect costs associated with the Allowance, including materials, shipping, handling, unloading and storage and labor superintendence. If the net adjustment is negative, nothing shall be deducted for overhead and/or profit.
4. The resulting adjustment shall either be reflected in a separate Change Order or cumulated in a periodic Change Order, at the Contract Administrator's sole discretion.

5. Any Contract Time adjustment claimed by the Contractor shall be subject to Section 3.07.

Section 17.06. MINOR CHANGE ORDERS BY COUNTY ADMINISTRATIVE OFFICER.

The Yolo County Board of Supervisors has authorized the County Administrative Officer to order changes or additions in the work being performed under construction contracts, pursuant to Public Contracts Code Section 20142,

This authorization allows any change or addition in the Work to be ordered in writing by the County Administrative Officer when the extra cost to the County does not exceed the sum of TWENTY-FIVE-THOUSAND DOLLARS ($25,000) plus 5% of the amount of the contract in excess of $250,000.00, up to 10% of the Contract Price, whichever is less.

Section 17.07. CHANGE ORDERS REGARDING TIME FOR COMPLETION.

Any time extension authorized by the County pursuant to Article 3 hereof shall be set forth in a Change Order issued by the Board of Supervisors.

Section 17.08. CHANGE ORDERS DUE TO UNAVAILABLE MATERIALS.

In the event that the Contractor demonstrates good cause for a delay in the Contract Time due to the unavailability of materials, the County, in its sole discretion, may either grant a Contract Time extension change order pursuant to Section 3.07-A hereof, or utilize this Section.

In the event that the Project is unable to be completed due to unavailable materials, and if the Project is complete otherwise, the Contractor may request to delete the portion of the Project not yet completed from the Agreement for Construction, thereby allowing a Notice of Completion to be filed on the remainder of the Project. The County shall approve no such Change Order unless the Contractor accompanies his request with an offer to perform the work so deleted for a price not to exceed the value of the work deleted by such Change Order, such work to be commenced upon delivery of the materials, and diligently prosecuted to completion. In the event the County elects to accept the Contractor's offer, work done pursuant thereto shall not be construed as work done on the Project, nor shall such work be construed as affecting, in any way, the legal significance of the Notice of Completion filed on the Project.

The application of this Section is limited as follows:

A. No Change Order shall be issued pursuant to this Section until the Contractor has submitted all documents required for final payment.

B. This Section shall apply only to work the Completion of which is precluded due to unavailable materials.

C. Utilization of this Section lies solely within the discretion of the County, and such discretion hereby is delegated to the Contract Administrator.

Section 17.09. EFFECT OF CONTRACTOR'S ACCEPTANCE OF CHANGE ORDER.

By acceptance of a Change Order, Contractor agrees to the changes, if any, in the Contract Price specified for each item and to the specified extension of Time allowed, if any, for completion of the entire work on account of such Change Order, and agrees to furnish all labor and materials and perform all work necessary to complete all additional work specified therein for the price adjustment and within the time specified therein. Contractor shall make no additional claim for adjustment to the Contract Price or Time, nor for additional costs or damages, on account of the Work referenced in such Change Order. A Change Order duly issued by the County and accepted by the Contractor shall constitute a complete accord and satisfaction as to the Work, Contract Price and Contract Time changed thereby. Contractor shall defend and indemnify the County, as required by section 2.05, if any subcontractor asserts any claim against the County due to a duly issued and accepted Change Order.

Section 17.10. EFFECT ON SURETIES.

All changes authorized by the Contract Documents may be made without notice to or consent of the sureties on the performance and payment bonds, and shall not reduce their liability on the bonds.

The County reserves the right to require additional performance and payment bonds to secure a Change Order. In this event, the Change Order shall be increased by the actual cost of the bond premium for the additional bond amounts, if any, up for a maximum of 1%.

ARTICLE 18.

INSPECTION.

Section 18.01. ACCESS FOR INSPECTION.

The Contract Administrator, the Project Architect, the County Inspector(s), and other designated employees or agents of the County, and inspectors of all agencies of jurisdiction over the Project or funds used for the Project shall at all times have access for the purpose of observation to all parts of the Work and to all shops wherein the Work is in preparation. The Contractor shall cooperate and furnish such facilities and assistance as needed for the Inspector(s).

Sections 18.02. NOTICE OF READINESS FOR INSPECTION.

Where the Contract Documents, instructions by the Contract Administrator, laws, ordinances, or any public authority having jurisdiction requires work to be inspected, tested or approved before any portion of the Work proceeds, such work shall not proceed, nor shall it be covered up without inspection.

The Contractor shall give notice to the Contract Administrator at least two (2) days in advance of the readiness for any Contract compliance inspection by the County Inspector. The Contractor shall give notice as required by all other inspection agencies of jurisdiction for Code and regulation compliance inspection. In all cases, the Contractor shall schedule inspection so as not to delay the Work.

Section 18.03. CONTRACT COMPLIANCE INSPECTIONS.

All work done and all materials furnished shall be subject to the inspection and approval of the Contract Administrator for compliance with the Contract Documents, either acting personally or through the County Inspector(s).

Any work covered without required inspection, or not in compliance with the Contract Documents or instructions to the Contract Administrator, shall, upon the instruction of the Contract Administrator, be uncovered for inspection and properly restored after inspection and approval, at no cost to the County.

Section 18.04. INSPECTION OF COMPLETED WORK.

Should the Contract Administrator determine that it is necessary or advisable to make an inspection of Work already completed and inspected at any time before final inspection and acceptance of the Project, by removing or exposing the Work, Contractor shall, upon instruction of the Contract Administrator, promptly furnish all necessary facilities, labor and materials to do so. If such work is found to be defective in any aspect, the Contractor shall bear all expenses of such examination and satisfactory reconstruction. If, however, such work is found to meet the requirements of the Contract Documents, the additional cost of labor and materials necessarily involved in the examination and replacement shall be allowed the Contractor, and a Change Order shall be issued.

This Section shall not apply in the case of Work covered without required inspection, which is governed by Sections 18.02 and 18.03.

Section 18.05. AUTHORITY OF COUNTY; STOP WORK NOTICES.

The Contract Administrator and the County Inspector shall have the authority to order the Work

stopped if either determines that the Work is proceeding in violation of the Contract Documents or any orders issued by the Contract Administrator. Such order shall be effective only upon the posting of a stop work notice upon the Work or portions of the Work in question.

Upon issuing a stop work notice, the County Inspector shall immediately notify the Contract Administrator, who shall inspect the Work in question and determine whether it does or does not comply with Contract Documents. The decision of the Contract Administrator shall be final. The Contractor shall thereafter comply with the instructions of the Contract Administrator regarding corrections needed to cure the defect. The stopped Work shall be resumed only when such instructions are fulfilled, and a resume work notice is issued by the Contract Administrator. The Contractor shall not be entitled to an extension in time in the event of such suspension of Work, except as authorized in Section 3.14 hereof.

Section 18.06. EFFECTS OF INSPECTIONS.

Neither the final inspection and payment, nor any interim inspection or progress payment shall relieve the Contractor of any obligation to fully perform the Agreement for Construction as required by the Contract Documents and all applicable laws and regulations.

Any work, materials, or equipment not meeting the requirements and intent of the Contract Documents and all applicable laws and regulations may be rejected, and suitable work or materials shall be made good, notwithstanding the fact that such work or materials may previously have been inspected and/or payment therefore may have been made.

Section 18.07. AUTHORITY OF CONTRACT ADMINISTRATOR.

The Contract Administrator shall decide all questions which may arise as to the quality or acceptability of materials and/or equipment furnished or work performed, and as to the interpretation of Contract Documents and Specifications; all questions as to the acceptable performance of the Contract; and all questions as to compensation.

Section 18.08. AUTHORITY OF COUNTY INSPECTOR(S).

The designated County Inspector is a representative of the Contract Administrator for purposes of inspection of the work for compliance with the Contract Documents and monitoring the Contractor's performance. He is authorized to order a cessation of non- complying Work pursuant to Section 18.05, and to certify the field copies of the Contractor's requests for progress payments. He conducts meetings as required by Division 1 and the Technical Specifications and generally monitors the contractor's performance for the Contract Administrator.

If a person or firm other than the Construction Manager is engaged as County Inspector, the Inspector is not authorized to bind the County in discussions with the Contractor, nor to issue Clarifications, Field Orders, Work Authorizations, or Change Orders.

No interpretations of the Contract Documents made by the Inspector are binding on the County unless the Contract Administrator adopts such interpretation by a written clarification.

The Contractor shall not attempt to influence the Inspector in the performance of his duties, nor request him to exceed his authority. The County shall honor no request by the Contractor that is based on any action of the Inspector beyond the scope of the Inspector's authority as specified in this Section.

Section 18.09. BUILDING INSPECTIONS AND CODES.

The Contractor shall provide access to inspectors from all agencies having jurisdiction over the Project.

Such inspectors are independent of the Contract Administrator and the County Inspector(s), and approval by either shall not constitute approval by the other.

The Contractor shall obey all orders of the inspectors with jurisdiction, and if such inspector reports a violation of any Code within his jurisdiction, the Contractor immediately shall notify the Contract Administrator.

The Contractor is responsible to comply with all applicable Codes in the construction of the Work.

ARTICLE 19.

PUBLIC UTILITIES.

Section 19.01. UTILITIES USED DURING CONSTRUCTION.

Unless otherwise specified in the Contract Documents, the Contractor shall provide and pay for all necessary water, gas, and electricity required for himself, and all trades employed in the performance of the Agreement for Construction.

The Contractor shall send all required notices, make all necessary arrangements, and perform all other services required in the care and maintenance of such utilities, and assume all financial responsibility concerning the care and maintenance of said utilities.

All temporary connections to such utilities shall be maintained in such manner as not to interfere with the continuing use of such utilities by the County during the entire progress of the Work.

The enclosing of such public utility equipment shall be done by the Contractor consistent with the requirements of the utility. Upon completion of the Work, the Contractor shall remove all enclosures and fill-in and leave in a finished condition all openings for such utilities.

Section 19.02. LIGHTING.

Contractor shall furnish, wire for, install and maintain temporary electric light whenever it is necessary to provide illumination for the proper performance and inspection of the Work, unless otherwise specified. The lighting shall provide sufficient illumination and shall be so placed and distributed that the Contract Documents can be easily read in every place where the Work is being performed. This temporary lighting equipment may be moved about, but shall be maintained throughout the Work and available for the use of the Contract Administrator or County Inspector(s) whenever required for inspection.

Section 19.03. PERMANENT UTILITIES; INSTALLATION.

The Contractor shall install all permanent utilities called for by the Construction Documents strictly in compliance with all laws, regulations and requirements of the particular utility company or governmental agency providing the utility.

Section 19.04. TOILET FACILITIES FOR WORKERS.

The Contractor shall provide and maintain for the duration of the Work temporary toilet facilitates as required by the Yolo County Health Department, which shall be weather-tight structures with raised floors.

The Contractor shall service such facilities daily and shall pump such facilities as required, to maintain them in a clean and sanitary condition.

Section 19.05. DISRUPTION OF UTILITY SERVICE.

The Contractor shall secure the advance approval of the Contract Administrator regarding scheduling of any disruption of utility service to other structures necessitated by the Work.

The Contractor is advised that unscheduled disruptions of electrical service to County buildings may seriously damage computer and word-processing equipment and/or software, and other equipment and/or

material in use in such building, and the Contractor will be liable for all resulting repair and re-programming costs if occasioned by an unscheduled disruption caused by Contractor.

Section 19.06. UTILITIES FOR COUNTY PERSONNEL.

If the Contract Documents call for the Contractor to provide temporary on-site office trailers for County personnel involved in the Project, the Contractor shall provide utility services for such trailers pursuant to this Article.

ARTICLE 20.

PERMITS, LICENSES, ORDINANCES AND REGULATIONS.

Section 20.01. COMPLIANCE WITH CONSTRUCTION REGULATIONS.

The Contractor shall conduct the Work so that all laws, regulations, and ordinances for the protection of the public and the workers shall be obeyed fully both by the Contractor and by all subcontractors on the site.

The Contractor shall obtain and keep current all licenses or permits required by the State Contractor's Licensing Act and/or other licenses required to authorize him to perform the Work and shall require all subcontractors to comply with this section.

Section 20.02. PERMITS; FEES.

Unless otherwise specified by the Contract Documents or ordered by the Contract Administrator, the Contractor shall obtain all permits, licenses and/or entitlements that are required for the performance of the Work by all laws, ordinances, rules, and regulations or orders of any officer and/or body with jurisdiction, shall give all notices necessary in connection therewith, and shall pay all fees required relating thereto and all costs or expenses incurred on account thereof.

Section 20.03. COMPLIANCE WITH LAWS AND REGULATIONS.

The Contractor shall keep himself fully informed of and shall observe and comply with, and shall cause all subcontractors and all employees to observe and comply with all Federal and State laws, and County or Municipal Ordinances, regulations, orders or decrees which in any manner affect those engaged or employed on the Work, or the materials used in the Work, or in any way affect the conduct of the Work. The Contractor shall ensure that the Work is constructed and completed in compliance with all applicable laws and regulations.

Section 20.04. VIOLATION OF LAWS AND REGULATIONS; INDEMNITY.

The Contractor shall save harmless, defend, and indemnify the County and all of its officers, agents, and employees against any liability or claim arising from or based upon the violation of any law, ordinance, regulation, order or decree, whether by himself, his agents, employees, or his subcontractors or their agents or employees.

Section 20.05. SPECIFIC STATE LAWS AND REGULATIONS.

In addition to the general requirements set forth above, the Contractor's attention is directed to and Contractor shall be responsible for performing and completing the Work in compliance with all laws of the State of California governing the construction of buildings in general as well as those governing construction of public buildings, including, without limitation, the following:

A. The California Health & Safety Code and all applicable Administrative Code regulations adopted pursuant thereto.

B. All laws governing the employment of labor, qualifications for employment of aliens, payment of employees, convict-made materials, domestic and foreign materials, and accident prevention.

C. Title XIX of the California Administrative Code entitled, "Public Safety", Chapter 1, State Fire Marshal, Sub-chapter 12, General Fire and Panic Safety".

D. General Industrial Safety Orders, including but not limited to the provisions of Title VIII of the California Administrative Code relating to safe and proper use, construction, disposal, etc. or materials, machinery, and building appurtenances as therein set forth.

E. All rules and regulations of the State Fire Marshall; the safety orders of the Division of Industrial Safety; and Department of Industrial Relations regulations.

All of the above laws and regulations are expressly incorporated in the Agreement for Construction and are as much a part of the Contract Documents as if they were incorporated in their entirety in these General Conditions.

The Contractor shall not interpret the enumeration set forth above as being a complete listing of all applicable laws. It is also the Contractor's responsibility to inform himself regarding the requirements of all applicable laws regarding the performance of construction contracts for California counties and to obey them, and the Contractor agrees by execution of the Agreement for Construction to do so at his sole cost, expense and risk. (See also Section 14.07 regarding Cal OSHA and Section 20.08 regarding hazardous materials).

Section 20.06. COMPLIANCE WITH CONDITIONS OF PERMITS.

The Contractor shall conduct the Work in conformity with the conditions imposed on all permits or other entitlements which address the performance of the Work by the Contractor, whether or not such permits or entitlements are incorporated in the contract Documents.

Such permits may include, but are not limited to, measures required during the construction of the Work and incorporated in the Project to avoid or mitigate the environmental effects of the Project, pursuant to the California Environmental Quality Act, and conditions imposed on use permits issued by any agency with jurisdiction.

It shall be the Contractor's responsibility at all stages, from bidding through final completion, to inform himself of the requirements of any such permits. Copies are available from the Contract Administrator.

The Contractor's attention is directed to the Supplementary Conditions and Technical Specifications setting forth additional requirements, if any, regarding this subject.

Section 20.07. COMPLIANCE WITH CONDITIONS OF GRANTS.

The Contractor shall conform to all requirements of Federal and/or State authorities that have provided grant funding for the Project. Specific requirements are specified in the Supplementary Conditions and Division 1. Without limitation thereof, Contractor shall keep financial, wage and hours, equal employment opportunity and other records required by any such grant and shall allow access to the Site by inspectors from such agencies.

The Contractor shall cooperate fully with and assist the County in its efforts to comply with all conditions imposed on such grant funding.

Section 20.08. HARMONIZATION WITH CONTRACT DOCUMENTS.

The Contract Documents are intended to be coordinated to described and provide for the complete Project in a manner that complies with all applicable laws and regulations.

In the event of a conflict between the Contract Documents and the applicable laws and regulations, the applicable laws and regulations shall govern; provided, however, that in the event of conflict involving quantity or quality, the greater quantity and the higher quality shall be furnished. All other conflicts shall be handled in the manner described in the Agreement for Construction.

Section 20.09. COMPLIANCE WITH HAZARDOUS MATERIALS REPORTING AND USE REQUIREMENTS; CLEAN-UP; INDEMNITY; WITHHOLD.

A. **Reporting and Use**: The Contractor shall file all reports required by Federal and/or State agencies regarding the presence on the Site and/or use of toxic or any hazardous material and shall store and/or use such materials in strict conformity with all applicable laws and regulations.

B. **Clean-Up**: The Contractor shall clean-up any toxic or hazardous spill or pollution caused by the Contractor and/or any subcontractor, material man or carrier occurring on the Site, and shall remove all polluted water, dirt or materials to an approved disposal site, as required by the Federal and/or State agencies with jurisdiction or, if none, by the County Health Department, all without cost to the County.

C. **Indemnity**: The Contractor shall save harmless, indemnify and reimburse the County for all costs for defense of any County liability, cost, claim or damages resulting from the Contractor's failure to perform Paragraphs "A" and/or "B" of this Section, and/or a toxic or hazardous spill within Paragraph "B" of this Section.

D. **Withhold**: In addition to all withholds or retentions authorized by the Agreement for Construction, the County shall retain sums sufficient to offset the County's costs resulting from Contractor's failure, refusal or neglect to conform to all requirements of this Section.

ARTICLE 21.

PRESERVATION AND CLEANING.

Section 21.01. PROTECTION OF WORK.

The Contractor shall protect and preserve the Work from all damage or accident, and shall at its cost provide any temporary roofs, window and door coverings, enclosures, boxing, or other construction as required for this purpose.

Section 21.02. PERIODIC CLEANING OF PROJECT.

The Contractor shall properly clean the Site and the Work as it progresses, and from time to time shall remove all dirt, debris, waste, rubbish, and implements of service from the Project and the Site. Debris, waste, or unused construction materials shall not be left under, in, or about the Project, nor allowed to accumulate in the Project or the Site. The Technical Specifications specify additional requirements regarding this subject.

The Contractor, at its sole cost, shall contract with a disposal company to remove all such rubbish, and shall have the containers therefore emptied at frequent enough intervals so that waste does not overflow the containers.

Section 21.03. FINAL CLEANING OF PROJECT.

Prior to the request for Final Inspection, the Contractor shall thoroughly clean the interior and exterior of the Work, and do all things required by the Technical Specifications regarding final cleaning.

Final cleaning shall not be accepted unless the Project is in all respects ready to occupy without further cleaning by County forces.

ARTICLE 22.

OCCUPANCY BY COUNTY.

Section 22.01. USE OF COMPLETED WORK.

Whenever, in the opinion of the County, the Work or any part thereof is in a condition suitable for use, and the best interests of the County require such use, the County may take possession of, connect to, and open for public or County use, the Work or any part thereof, subject to this Article.

Section 22.02. REPAIRS OR RENEWALS IN THE WORK.

Prior to the date of final acceptance of the Work by the County, all necessary repairs or renewals of the portion of the Work occupied pursuant to Section 22.01 hereinabove (or part thereof) shall be made at the Contractor's expense if necessary due to defective material and/or workmanship, or to the operations of the Contractor, ordinary wear and tear excepted.

Section 22.03. EFFECT OF OCCUPANCY.

The occupancy by the County of the Work or any part thereof as authorized by this Article shall in no case be construed as constituting acceptance by the County of the Work or any part thereof. Such use shall neither relieve the Contractor of any of his responsibilities under the Contract Documents, nor act as a waiver by the County of any of the terms or conditions of the Agreement for Construction. Notwithstanding occupancy by the County pursuant to this Article, the warranty periods on all products and the Contractor's basic warranty pursuant to Article 26 shall not commence, and the term thereof shall not be diminished, as a result of County occupancy. The warranty periods commence only upon recordation of a Notice of Cessation of Work or a Notice of Completion.

Section 22.04. COORDINATION WITH OTHER ACTIVITIES.

In the event that the Project, or any portion of the Site, is occupied by the County during the Work, it shall be the responsibility of the Contractor to conduct his operations so as not to unreasonably interfere with the use of the occupied portions by the County.

The Contractor shall submit periodic schedules to the Contract Administrator proposing the times, areas, and types of work to be done within such areas. The Contract Administrator shall approve, conditionally approve, or reject such schedule, and the Contractor shall comply with the Contract Administrator's instruction.

In the event that the Work produces conditions rendering uninhabitable the portions of the Project, the Site, or other areas occupied by the County, either because of noise, dust, vibration, smoke, fumes, or for any other cause, the Contract Administrator may order the Work ceased, or modifications to the schedule, and the Contractor shall comply at it's sole cost and expense.

Section 22.05. PRICE OR TIME ADJUSTMENTS.

In the event the County exercises its right to take early occupancy pursuant to this Article, and provided that the Contract Documents at the time of bidding did not specifically indicate the County's intention to do so, the Contractor may request an adjustment to the Contract Price and/or Time, for extra costs and/or time directly caused by the early occupancy. Article 17 shall apply to any request by the Contractor for a Contract Price adjustment, and Article 3 to a Contract Time adjustment, resulting from the

County's occupancy pursuant to this Article.

ARTICLE 23.

PROGRESS PAYMENTS.

Section 23.01. SUBMISSION OF CLAIMS.

On or before the seventh (7th) day of each month, the Contractor shall prepare and forward to the Contract Administrator a statement in writing, on forms provided by the County, detailing the following work done during the preceding month:

A. The units or work completed during the preceding month, with reference to the Progress and Value Schedules approved pursuant to Article 3, or approved modifications thereto, and the date of inspection and approval thereof.

B. The portion of the progress claim attributable to such units of work.

C. All acceptable materials furnished and delivered to and stored on the Site or other approved location far use in the performance of the Work, but not yet incorporated in the Work.

D. The value of such materials, with reference to the Schedules of Value provided pursuant to Article 3 hereof.

E. The date of inspection and approval by the County of any such materials and labor.

If the Contract Documents require the sampling and testing of any such materials or labor, the claim shall indicate whether such sampling and testing has been approved and, if so, the date thereof.

As part of such claim for payment, the Contractor shall agree that, upon payment of such claim (or part thereof), the Contractor will indemnify, defend and hold harmless the County, its officers, agents and employees from and against any and all claims for damages, costs, compensation or any other recovery, including but not limited to claims of the Contractor, subcontractors, suppliers, laborers and workers, based upon the portion of the Work for which payment is claimed (or such part thereof for which payment is made). As part of such claim for payment, Contractor shall also provide proof that all subcontractors, suppliers, etc. have been paid and have provided releases for all portions of the Work for which the Contractor has previously been paid. Such claims shall be executed by the Contractor under penalty of perjury.

Each payment request shall be reviewed by the Contract Administrator as soon as practical after receipt for the purpose of determining that the payment request is a proper payment request. Any payment request determined not to be a proper payment request suitable for payment shall be returned to the contractor as soon as practicable, but not later than seven days, after receipt. A request returned pursuant to this paragraph shall be accompanied by a document setting forth in writing the reasons why the payment request is not proper.

Within seven (7) days of receipt of a fully completed claim form, the Contract Administrator shall verify such claim and shall take such steps as are necessary to investigate the accuracy of any statements made by the Contractor. Contractor shall provide such other and further documentation as ordered by the Contract Administrator to enable verification of a claim for a progress payment and the time until such additional documentation is delivered shall extend the time for processing the claim.

The Contract Administrator shall verify the claims for progress payments by use of the Progress and

Value schedules approved pursuant to Article 3 hereinabove, or subsequently approved modifications thereto.

Section 23.02. PAYMENT; WITHHOLDS.

Upon approval of a claim for progress payment by the Contract Administrator, such claim shall be paid; provided, however, that the following amounts shall be withheld as security:

A. No greater than Ten (10%) percent of the value of the Work done;

B. Ten (10%) percent of the value of the acceptable materials delivered to and accepted by the County, but not yet incorporated in the Work.

Within the time specified in Division 1, the County shall pay to the Contractor, while the Contractor is carrying on the Work, the balance of any progress payment not withheld as set forth above, after deducting therefrom all previous payments and all sums to be retained under the provisions of law or of the Contract Documents.

No payment by the County shall be construed to be an approval by the County of any defective work or improper materials, nor as an acceptance as completed of any portion of the Work.

If the County fails to make any progress payment within 30 days after receipt of an undisputed and properly submitted payment request, the County shall pay interest to the Contractor equivalent to the legal rate set forth in subdivision (a) of Section 685.010 of the Code of Civil Procedure.

Section 23.03. POSTING SECURITIES IN LIEU OF WITHHOLDS.

Pursuant to Public Contract Code Section 22300, at the request and expense of the Contractor, securities equivalent to the amount withheld shall be deposited with the County, or with a state or federally chartered bank as the escrow agent, who shall pay such monies to the Contractor upon satisfactory completion of the Contract.

Securities eligible for investment under this section shall include those listed in Government Code 16430 or bank or savings and loan certificates of deposit.

The Contractor shall be the beneficial owner of any securities substituted for monies withheld and shall receive any interest hereon.

The escrow agent shall be a trustee of the County.

Section 23.04. RETAINING ADDITIONAL AMOUNTS; GROUNDS.

In addition to the amounts which the County withholds as provided in Section 23.02, the County shall retain a sufficient amount of any payment otherwise due to the Contractor as in the sole discretion of the Contract Administrator may be necessary to protect the County in the event of the following:

A. The receipt of Stop Notices and Claims against the Contractor or any subcontractor for labor or materials furnished on the Project;

B. For the cost to correct defective work not remedied, including failure to periodically clean the Site and Work as specified in Section 21.02.

C. For failure of the Contractor to make progress payments to any of its subcontractors;

D. For the occurrence of reasonable doubt that the Project can be completed for the balance of the Contract Price, as reflected in the approved Schedule of Values, or within the Contract Time, as shown on the approved Progress Schedule;

E. For the refusal of the Contractor to commit sufficient resources so that the Work proceeds in accordance with the approved Progress Schedule. Section 3.11 regarding Liquidated Damages shall apply in such event;

F. For failure of the Contractor to comply with any lawful or proper direction concerning the work given by any County representative authorized to have given such instruction;

G. For claims and/or penalties which State or Federal law assesses against the Contractor for violation of such law, including prevailing wage claims;

H. For any claim or penalty asserted against the County by virtue of the Contractor's failure to comply with the provisions of all governing laws, ordinances, regulations, rules and orders;

I. For any reason specified elsewhere in the Contract Documents as grounds for retention.

In order to adequately to protect the County, the basic standard to determine the amount of retention pursuant to this section shall be ONE-HUNDRED-TWENTY-FIVE (125%) PERCENT of the amounts claimed or the value of the Work not done or defectively done, plus interest and litigation costs; provided, however, that County retains the authority to retain greater sums should such sums be necessary in the County's discretion adequately to protect it.

In the event the progress of the Work does not meet the approved Progress Schedule, the County may retain the amounts specified in Section 3.11 and Section 2 of the Agreement for Construction for each day the Work is behind schedule.

The County retains the right to make, or not to make, any partial progress payment involving sums not in dispute, or to retain the total progress payment pending resolution of any such dispute.

Section 23.05. DISBURSEMENT OF RETAINED AMOUNTS.

The County, in its sole discretion, may apply any such retained amount or amounts to the payment of any such claims resulting in a retention. Any payment, so made by the County, shall be considered as a payment made under this Contract by the County to the Contractor. The County shall not be liable to the Contractor for any such payments made in good faith. Such payments may be made without a prior judicial determination of the claim or claims. The County shall render to the Contractor a proper accounting of any such funds dispersed on behalf of the Contractor. The County reserves the right to utilize warrants issued to the Contractor and Claimant as joint payees for this purpose.

Prior to applying such amounts as stated hereinabove, County shall afford the Contractor an opportunity to present good cause, if any he has, why the claim or claims in issue are not valid or just claims against the Contractor. The County then reserves the right to take such further steps as are appropriate, in its sole discretion, including, but not limited to, seeking a judicial resolution of the controversy.

Section 23.06. CORRECTION OF STATEMENT AND WITHHOLDING OF PAYMENT.

No inaccuracy or error in any claim provided by the Contractor shall operate to release the Contractor or any surety from the error, or from damages arising from such error, or from any obligation imposed by the Contract Documents. The County shall retain the right subsequently to correct any error made in any previously approved claim for the progress payment, or progress payment issued, by later adjustments to subsequent progress payments.

Section 23.07. EFFECT OF PROGRESS PAYMENTS.

Neither the payment, the withholding, nor the retention of all or any portion of any progress payment claimed to be due and owing to the contractor shall operate in any way to relieve the Contractor from his obligations under the Agreement for Construction. The Contractor shall continue diligently to prosecute the Work without reference to the payment, withhold or retention, of any progress payment. The payment withhold or retention of any progress payment shall not be grounds for an adjustment to the Contract Time or Contract Price. By making progress payments, the County waives no right nor releases any obligation of the Contractor to the County.

ARTICLE 24.

FINAL INSPECTION.

Section 24.01. NOTICE OF FINAL INSPECTION.

When the Work is completed, the Contractor shall request a final inspection. Within ten (10) days of the receipt of such request, the Contract Administrator shall make a final inspection. The Contractor or his representatives may be present at the final inspection. The purpose of such final inspection shall be to determine whether the Work has been fully completed in accordance with the Contract Documents, including all modifications previously issued.

Section 24.02. PUNCH LIST.

The Contract Administrator shall notify the Contractor in writing of any deficiencies to be remedied prior to final acceptance, by preparing a written list of deficiencies, known in the industry as a "punch list".

The Contractor shall remedy all items shown on the punch list prior to final acceptance by the Contract Administrator.

The Contract Administrator is not authorized to amend the Contract by use of the punch list; it is provided solely for the benefit of the Contractor to enable him to determine whether items must be corrected before final acceptance will be recommended by the Contract Administrator. The County reserves the right to require compliance with the Contract Documents, notwithstanding the issuance of a punch list or the completion by the Contractor of all items on the punch list.

In the event that the Work still does not comply with the Contract Documents, the County reserves the right to issue such further punch lists as may be required, or to deduct from the final payment the cost of correction of any Work not completed in accordance with the Contract Documents without the issuance of further punch lists.

Section 24.03. ADDITIONAL SUBMITTALS.

After completion of work on punch list items, and before the Contractor's Request for Final Payment, the Contractor shall submit the following items:

A. A complete and accurate accounting, showing the total amounts claimed by the Contractor, all subcontractors and all suppliers due for final payment of the Project. The accounting shall identify first-tier subcontractors (those with a contract directly with the contractor) separately from all other claimants, and shall include all subcontractors listed by the Contractor pursuant to Article 11. This accounting shall be submitted under penalty of perjury.

B. A complete and accurate set of Record (as-built) Drawings prepared by the Contractor pursuant to Section 4.05, Section 01720 of Division 1, and the Technical Specifications.

C. The Contractor's guarantee required by Article 26 hereof, and all other guarantees and warranties required by the Contract Documents.

D. The Contract bond securing the Contractor's guarantee pursuant to Article 26 hereof.

E. Proof acceptable to County of proper release from all claims regarding patents and/or copyrights

pursuant to Section 6.09 hereof.

F. All operating manuals required by the Technical Specifications for all mechanical and electrical installations.

G. All other submittals required by the Contract Documents prior to final payment.

Section 24.04. SYSTEMS DEMONSTRATION.

Before submitting a Request for Final Payment, Contractor shall demonstrate the operation of all systems in the Work to such persons as directed by the Contract Administrator, and shall instruct County personnel in the operation, adjustment, and maintenance of all equipment and systems, as required by Section 01735 of Division 1.

ARTICLE 25.

ACCEPTANCE AND FINAL PAYMENT; ADMINISTRATION OF THE WITHHOLD ACCOUNT.

Section 25.01. CONTRACTOR'S REQUEST FOR FINAL PAYMENTS AND CHANGE ORDERS.

When the Work is fully (100%) complete and all items on the punch list have been satisfied, or the Contractor contends that such items are not required by the Contract Documents, the Contractor shall submit Requests for Final Progress Payment and Final Payment.

The request for Final Progress Payment shall include the total amount the Contractor contends is due on the Contract Price less the amounts to be withheld for Final Payment. The amounts to be withheld for Final Payment shall include no less than One-Hundred Twenty-Five Percent (125%) of the total of all claims identified by the Contractor in the accounting submitted pursuant to Section 24.03-A, plus One-Hundred-Twenty-Five Percent (125%) of all unpaid claims against the Project by the County or any other claimant, which claims authorize a County withhold and/or retention pursuant to the Contract Documents, State or Federal law.

With the requests for Final Progress Payment, the Contractor shall submit its request for a final Contract Price Change Order with all information required by Article 17, and/or Contract Time Change Order, with all information required by Article 3, if the Contractor requests an adjustment in the Contract Price and/or Contract Time then in effect.

Section 25.02. CONTRACTOR ADMINISTRATOR'S ESTIMATE.

Upon receipt of all required submittals and the Contractor's Requests for Final Payments, the Contract Administrator shall conduct a final inspection to identify any deviations from the Contract Documents in the Work, and estimate the cost of corrections of such deviations.

After Final Inspection, the Contract Administrator shall prepare an estimate of the final sum due the Contractor. Said estimate shall take into account the Contract Price, as adjusted by any Change Orders; amounts previously paid; the Final Progress Payment; and sums to be withheld and/or retained for claims against the Project for incomplete work, liquidated damages, and for any other cause under the Contract. The Contract Administrator shall also prepare a recommendation on the Contractor's request for a Final Change Order, if any. The final estimate shall be transmitted to the Yolo County Board of Supervisors along with the Contractor's Request for final payment and the Contract Administrator's recommendations on the Contractor's request for final Change Order, if any. The Contract Administrator shall deliver a copy of this transmittal to the Contractor.

The Contract Administrator's estimate shall address whether the completion date for purposes of calculating liquidated damages should relate back to the date of the Contractor's Request for Final Payment, pursuant to Section 3.06.

Section 25.03. PROTEST TO BOARD OF SUPERVISORS.

If the Contractor contests the estimate of sums due prepared by the Contract Administrator, the Contractor shall, within five (5) days following delivery of the Contract Administrators' final inspection report, file his protest in writing with the Clerk of the Board of Supervisors, setting forth in detail all grounds alleged to justify adjustment to the Contract Administrator's final estimate. Failure to file such protest shall constitute a waiver of the right to contest or otherwise challenge the Contract Administrator's final inspection report and estimate, and acceptance of the rest by Contractor.

Section 25.04. RESOLUTION AUTHORIZING ACCEPTANCE OF CONTRACT AND RECORDATION OF NOTICE OF COMPLETION.

Acceptance of the Work by the Board of Supervisors and the recordation of a Notice of Completion shall be in the manner prescribed by law, provided that the County is of the opinion that the Work is fully and satisfactorily completed and the provisions of the Contract Documents fully and satisfactorily performed in all respects. The acceptance of the Work by the County will only be made by resolution of the Board of Supervisors in a regular session. The Notice of Completion shall specify the date of the Resolution of Acceptance as the completion date, and shall be recorded in the manner provided by law.

The County reserves all rights provided by law and/or the Contract Documents if the Work is not fully satisfactory and complete in all respects.

The resolution shall specify the final Contract Price and Time, with deductions and/or offsets for liquidated damages, the cost of correction of defective work or workmanship, inadequate clean-up, non-compliance with the Contract Documents, or statutory fines, forfeitures or penalties.

Section 25.05. DETERMINATION OF FINAL PROGRESS PAYMENT AND WITHHOLD AMOUNT.

After the Board of Supervisors has approved a Final Contract Price and Time, the Contract Administrator shall adjust the withhold Amount, as follows:

A. At no time shall the withhold amount be less than five (5%) percent of the Final Contract Price, or One-Hundred-twenty-Five (125%) percent of the total of all claims against the Project from all sources, including the County, whichever is the greater amount.

B. The Contract Administrator is authorized to withhold additional sums necessary to protect the County in his sole discretion, if claims, including State or Federal prevailing wage claims, and/or stop notices are filed, or to secure the County's own claims.

C. The Contract Administrator is authorized to process payment(s) to the Contractor at such frequency as the Contract Administrator shall determine, when the Contractor has provided acceptable submittals with its request(s) for release of withheld amounts, as specified in Section 25.06.

Section 25.06. SUBMITTALS FOR RELEASE OF WITHHELD AMOUNTS.

With its request for release of amounts withheld and/or retained by the County, the Contractor shall submit the following:

A. Receipts and releases on forms standard in the industry and approved by the County, from all first-tier subcontractors, releasing the County from all further claim or liability.

B. Receipts and releases, including Stop Notice releases if stop notices have been filed, from any persons or firms claiming against the Project; or fully executed agreements by such claimants specifying a settlement of their claims.

C. Releases and authorizations to pay from any State or Federal agency claiming against the Project, including prevailing wage claims.

D. Waiver of all claims by the Contractor against the County except those which the Contractor expressly specifies therein as being outstanding and not included in the waiver.

The maximum amount the Contractor may request to be released shall not exceed the amount specified in Section 25.05-A.

Section 25.07. ADMINISTRATION OF WITHHOLD ACCOUNT.

The County reserves all rights regarding its administration of the withhold fund, with or without filed Stop Notices, including all judicial remedies provided by law.

In its sole discretion, the County may contact such claimants, or any of them, and reach independent settlement of their claims, through use of warrants jointly payable to claimants or otherwise.

In addition, the County is authorized to retain sums as needed, in its sole discretion, to secure its own claims.

Section 25.08, PAYMENT OF WITHHELD AMOUNTS.

On the thirty-fifth (35th) calendar day following recordation of a Notice of Completion, the undisputed balance owing in the withhold account shall be due and payable to Contractor.

The "undisputed balance owing" shall be the difference between the final Contract Price fixed by the Board of Supervisors' Resolution of Acceptance less the following amounts:

A. All payments made to date;

B. One-Hundred-Twenty-Five (125%) percent of the total amounts claimed in unresolved stop notices on file with the County or wage claims and related penalties in the jurisdiction of any State or Federal wage compliance office;

C. The total of any claims by the County for defective work, and/or liquidated damages.

The balance owing shall be "due and payable" upon presentation by the Contractor of releases executed by the Contractor, releasing the County of Yolo from all claims arising by virtue of the Agreement for Construction related to the amounts released from the withhold.

Payment of undisputed contract amounts is contingent upon the Contractor furnishing the County with a release of all claims against the public entity arising by virtue of the Agreement for Construction. The Contractor shall specifically identify in the release any disputed claim, including the amount thereof, which is excluded from the release. Any claim not so specified within the release shall be forever released, discharged, and waived. If the Contractor disputes the amount owing by the County, the final balance in the Withhold Account shall become due and payable only upon execution by the Contractor and the County of an accord and satisfaction agreement acceptable to both, by which both release the other from all claims.

If the Contractor accepts the final balance in the Withhold Account as the total due and payable by the County, and provides a written final release, the accord and satisfaction agreement shall not be required.

Nothing in this Article shall be construed as requiring the Contractor to waive any claim against the County in violation of Public Contracts Code Section 7100, nor as constituting a waiver by the County of any claim or legal right against the Contractor.

Section 25.09. NON-WAIVER.

Neither acceptance of nor payment for the Work or any part thereof, nor any extension of time, nor any possession taken by the County shall operate as a waiver of any of the provisions of the Agreement for Construction, nor shall a waiver of any breach of this Agreement be held to be a waiver of any other or subsequent breach. In addition, adoption of a Resolution of Acceptance and recordation of a Notice of Completion shall not be deemed an acceptance of latent defects, shall not constitute a waiver of any of the provisions of the Agreement, and shall not relive the Contractor of its obligation to complete the work as specified in the Contract Documents and in compliance with all applicable laws and regulations.

Section 25.10. WORK AFTER NOTICE OF COMPLETION.

Contractor shall do no work after recordation of a Notice of Completion, save only work required by the warranties and guarantees provided under the Agreement for Construction.

Any work done after recordation of a Notice of Completion shall be conclusively presumed to be in furtherance of the Contractor's obligations on such warranties and guarantees for all purposes.

Section 25.11. STOP NOTICES; WHERE TO FILE; ENFORCEMENT.

All persons are advised hereby that all Preliminary Notices and Stop Notices shall be filed at the following address:

County of Yolo
General Services Director
General Services Department
120 West Main Street, Suite D
Woodland, CA 95695

The envelopes and the Notice shall clearly designate the name of the Project.

The Contractor shall cause the provisions of this Section to be inserted in all subcontracts and material contracts executed by the Contractor and notice of this provision shall be given to all persons furnishing materials for the Work.

All Stop Notice claimants are referred to Civil Code Section 3103 for the required contents of a Stop Notice, and Sections 3179 and following regarding enforcement/release of Stop Notice.

ARTICLE 26.

GUARANTEES AND WARRANTIES.

Section 26.01. GUARANTEE REQUIRED.

In addition to any guarantees required elsewhere by the Contract Documents, the Contractor shall guarantee the Work for a period of one (1) year from and after the recordation of the Notice of Completion, Notice of Cessation or, if neither is recorded, upon actual cessation of the Work. Such guarantee shall be made on the form provided, as set forth in Section 26.02 below.

Such guarantee is in addition to, and not in lieu of, the County's rights to enforce the Agreement for Construction in all respects, and the County's rights on all other guarantees and warranties required by the Technical Specifications.

Section 26.02. FORM OF GUARANTEE.

The guarantee required by this Article shall provide as follows:

The (Contractor) hereby unconditionally guarantees that the Work performed pursuant to the (Name of Project) Agreement for Construction (Yolo County Agreement No.) has been fully performed and completed in accordance with the requirements of the Agreement for Construction therefore and in compliance with all applicable laws and regulations, and further guarantees the Work of the Contract to be and remain free of defects in workmanship and materials for a period of one (1) year from the date of recordation of a Notice of Completion, Notice of Cessation, or actual cessation of work, whichever is longer. The Contractor hereby agrees to repair or replace any and all the Work, together with any adjacent Work which may have been damaged or displaced in so doing, that is not in accordance with the requirements of the Agreement and applicable laws and regulations, or that may be defective in its workmanship or material within the guarantee period specified, without any expense whatsoever to the County of Yolo, ordinary wear and tear excepted. The Contractor has provided contract bonds that will remain in full force and effect during the guarantee period.

The Contractor further agrees that within ten (10) calendar days after being notified in writing by the County of Yolo of any Work not in accordance with the foregoing requirements he will commence and prosecute with due diligence all Work necessary to fulfill the terms of this guarantee, and to complete the Work within a reasonable period of time. In the event he fails to so comply, he does hereby authorize the County of Yolo to proceed to have such Work done at the Contractor's expense and he will pay the cost thereof upon demand. The County shall be entitled to all costs, including reasonable attorney fees, necessarily incurred upon the Contractor's refusal to pay the above costs.

Notwithstanding the foregoing paragraph, in the event of an emergency constituting an immediate hazard to the health or safety of the employees or property of the County of Yolo, the County may undertake, at the Contractor's expense and without prior notice, all Work necessary to correct such hazardous condition when it was caused by the Work and/or the Contractor’s not being in accordance with the foregoing requirements, and to charge the same to the Contractor as specified in the preceding paragraph.

This guarantee set forth herein is not intended by the parties, nor shall it be construed, as in any way limiting or reducing the County of Yolo’s rights to enforce all terms of the Agreement for Construction referenced hereinabove or the time for enforcement hereof. This guarantee is provided

in addition to, and not in lieu of, the County's rights on such Agreement.

This Agreement is in addition to, and not in lieu of, the County's rights on all other guarantees and warrants required by the Contract Documents.

CONTRACTOR' SIGNATURE

(CORPORATE SEAL)

Section 26.03. GUARANTEE CONTRACT BOND.

Prior to Final Payment, the Contractor shall post a surety securing performance of his guarantee, as required by section 2.04 hereof.

Section 26.04. OTHER GUARANTEES.

All other guarantees or warranties required by the Contract Documents shall be subject to approval as to form by the County. At a minimum, such guarantees or warranties shall provide that the guarantor/warrantor shall repair or replace defective materials and/or workmanship, along with adjacent work that may be damaged or displaced in so doing and shall be unconditional. Such guarantees are in addition to, and not in lieu of, the product manufacturers' warranties, expressed or implied, and the Contractor's guarantee required by this Article.

Section 26.05. GUARANTEES NOT WAIVER.

By accepting the guarantees required by the Contract Documents, the County shall not be deemed to have waived any warranty or buyer protection implied, required and/or provided by the law of the State of California, nor to have altered any applicable statute of limitations regarding enforcement of any right of the County created by the Agreement for construction or otherwise. These guarantees and warranties are in addition to, and not in lieu of, such rights.

No disclaimer or limitation of any such right shall be valid unless properly executed by the County.

ARTICLE 27.

COUNTY'S RIGHT TO TERMINATE AGREEMENT.

Section 27.01. GROUNDS FOR TERMINATION.

The County may terminate the Agreement for Construction, pursuant to the provisions of this Article, for the following causes:

A. The Contractor has been adjudged bankrupt or has made a general assignment for the benefit of creditors, or that a receiver has been appointed on account of the insolvency of the Contractor;

B. The Contractor or any of his subcontractors violates any of the provisions of the Contract Documents or fails to perform the Work within the Contract Time specified in the Progress Schedule then in effect and approved by the County;

C. The Contractor or any of his subcontractors fails to make prompt payment to subcontractor or material men for material or for labor;

D. The Contractor or a subcontractor persistently disregards laws, ordinances, or the instructions of the County;

E. The Contractor fails to provide and keep in full force and affect all required insurance, and to cause all subcontractors to so comply.

F. Neglect of the work amounting to material breach of the Agreement for Construction.

G. Any other material breach by the Contractor.

Section 27.02. PROCEDURE FOR TERMINATION.

Upon the certification of the Contract Administrator that sufficient cause exists to justify the termination of the Agreement for the Construction, the County Board of Supervisors may, without prejudice to any other right or remedy of the County, give written notice to Contractor and his surety or sureties of its intention to terminate the Agreement.

Unless within seven (7) days of the giving of such notice, the Contractor shall cease such violation and make satisfactory arrangements for a correction thereof, the Agreement shall, upon the expiration of the said seven (7) days, cease and terminate.

In the event of any such termination, the County shall immediately give written notice thereof to the surety and to the Contractor and the surety shall have the right to take over and perform the Contract; provided, however, that if the surety within fourteen (14) days after service of the notice of termination, does not commence performance of the Contract, the County may take over the Work and prosecute the same to completion by contract or by any other method it may deem available, for the account and at the expense of the Contractor, and the Contractor and his sureties shall be liable to the County for any costs occasioned by the County thereby. In such event, the County may, without liability, take possession of and utilize in completing the Work, such materials as may be on the Site of the Work and necessary, therefore. In any such case, the Contractor shall not be entitled to receive any further payment until the work is finished.

Section 27.03. RECONSTRUCTION IN EVENT OF LOSS.

In the event of a partial or total destruction of any or all of the work or materials to be provided pursuant to this Agreement, at any time prior to the final completion of the Project and the final acceptance of the Work by the County, the Contractor promptly shall reconstruct, repair, replace or restore, all work or materials so destroyed at no cost to the County.

Nothing herein provided shall in any way excuse the Contractor from the obligation of furnishing all the required materials and competing the Work in full compliance with the terms of the Contract Documents; provided that a reasonable time extension shall be negotiated by the parties.

This section shall not apply if the destruction is by an "Act of God" as defined in Public Contract Code Section 7105 and the loss is in excess of five percent (5%)of the total Contract price.

Section 27.04. OPTION IN EVENT OF A LOSS.

In the event that any destruction or loss should exceed twenty percent (20%) of the value of the construction completed to date, as determined at the end of the preceding month, or is due to an "Act of God" as defined above, the County shall have the option at its sole discretion to terminate this Contract.

Section 27.05. PROVISION FOR TERMINATION OF CONTRACT.

This Contract is subject to termination as provided by Section 4410 and 4411 of the Government Code, being portions of the Emergency Termination of Public Contracts Act of 1949.

ARTICLE 28.

ADDITIONAL PROVISIONS.

Section 28.01. CONFLICT OF INTEREST.

No official of the County who is authorized on behalf of the County to negotiate, make, accept, or approve, any architectural, engineering, inspection, construction, or materials supply contract, or any subcontract in connection with the construction of the Project, or any land acquisition in connection with the Project, shall become directly or indirectly interested personally in the Agreement for Construction or in any part thereof.

No officer, employee, architect, construction manager, attorney, engineer or inspector of or for the County who is authorized on behalf of the County to exercise any executive, supervisory, or other similar function in connection with the construction of the Project shall become directly or indirectly interested personally in the Agreement for Construction or any party thereof.

Section 28.02. NOTICES.

Any notice from one party to the other pursuant to the Contract Documents shall be in writing and shall be dated and signed by the party giving such notice or by a duly authorized representative of such party. Any such notice shall not be effective for any purpose whatsoever unless served in the following manners: If the notice is given to the Contract Administrator, it must be served personally at his office or by depositing same in the United States Mails, in a sealed envelope, correct postage prepaid, and correctly addressed to the address shown the Instructions to Bidders.

If the notice is given to the Contractor, it must be by personal delivery thereof to Contractor or to Contractor's Project superintendent at the Site of the Work, or by depositing the same in the United States Mails, in a sealed envelope, addressed to the Contractor at the place designated in the Bid by the Contractor for the receipt of correspondence.

If the notice is given to a surety of the Contractor, it must be by personal delivery to such surety or by depositing the same in the United States Mails, in a sealed envelope, addressed to such surety or other person at the address last communicated by him to the County. Copies of all such notices shall be delivered to the Contractor.

Section 28.03. NO VERBAL AGREEMENTS.

No verbal agreement or conversation with any officer, agent, or employee of the County, either before, during, or after the execution of the Contract Documents shall affect or modify any term or condition contained in the Contract Documents, nor shall such verbal agreement or conversation entitle the Contractor to any additional payment or time to perform whatsoever under the terms of the Agreement for Construction.

Section 28.04. EXAMINATION OF PROPOSED PROJECT LOCATION AND CONTRACT DOCUMENTS.

By submitting its Bid and executing the Agreement for Construction, the Contractor warrants that prior to bidding it carefully examined the location of the Project, that it carefully reviewed the Contract Documents, and that it is fully aware of all the Work called for by the Contract Documents, the nature of the Site, and the requirements of all Specification including these General Conditions. The Contractor also warrants that it is familiar with all relevant circumstances and conditions affecting construction projects in

Yolo County, California, and the particular site, and has the requisite experience and skill to perform the Agreement for Construction on the Site of the Project.

Section 28.O5. NOTICE OF POTENTIAL CLAIMS.

A. The Contractor shall not be entitled to the payment of any additional compensation for any cause, including any act or failure to act, by the County or any of its officers, agents, or employees, or the happening of any event, thing or occurrence, unless he shall have given the County written notice of potential claims as specified herein.

The written notice of potential claims shall set forth the reasons for which the Contractor believes additional compensation should be paid, a firm estimate or accounting of the cost involved, and, insofar as possible, the total amount of the claim.

Such notice must have been given to the County prior to the time that the Contractor shall have performed the work giving rise to the potential claim if based on an act or failure to act by the County, or in all other cases within five (5) days after the happening of the event, thing, or occurrence giving rise to the potential claim or such other time as may be specified herein.

It is the intention of this Section that differences between the parties arising as a result of performance of the Contract shall be brought to the attention of the County at the earliest possible time in order that such matters may be settled, if possible, or other appropriate action promptly taken. The Contractor hereby agrees that he shall have no right to additional compensation for any claim that may be based on any such act, failure to act, event, thing or occurrence, for which no written notice of potential claim was filed as required by this section.

This subsection shall not supersede, but shall be superseded by, any provisions of these Contract Documents that specifically set forth the procedure for the Contractor to give notices of claims to the County in any particular case.

B. Any lawsuit, action or other proceeding seeking damages, costs, compensation or any other recovery, based upon any claim related to the Project, including but not limited to claims of the Contractor, subcontractors, suppliers, laborers and workers, must be preceded by a claim filed in accordance with Government Code Sections 900 et seq.

Section 28.06. CONTINUING WORK IN DISPUTE.

The Contractor shall not delay or suspend performance of the work pending resolution of any dispute or controversy between the County and the Contractor or any other person, firm, or entity involved in the Work.

If these General Conditions specify a procedure to resolve the particular issue, it shall be followed. If no specific procedure is specified, the Contractor shall give notice of the dispute as provided in Section 28.05.

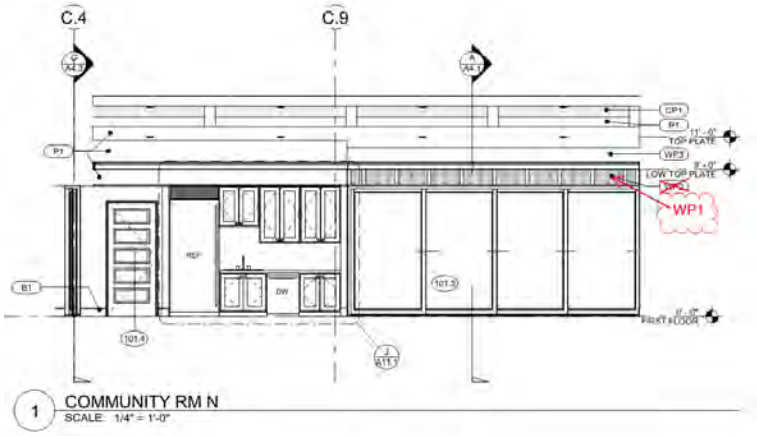
The County's resolution of the issue shall be followed by all parties for the remainder of the Work. If notice has been filed pursuant to Section 28.05, the Contractor is authorized and shall request a Final Change Order to satisfy the unresolved Contract Price or Time claims arising from the issue, pursuant to Section 25.01.

Section 28.07 ASSIGNMENT OF CERTAIN CLAIMS

In entering into this contract, or any subcontract to supply goods, services, or materials pursuant to this contract, the Contractor and any subcontractor offers and agrees to assign to the County all rights, title, and interest in and to all causes of action it may have under Section 4 of the Clayton Act (15 U.S.C. Section 15) or under the Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), arising from purchases of goods, services, or materials pursuant to the contract or the subcontract. This assignment shall be made and become effective at the time the County tenders final payment to the Contractor, without further acknowledgment by the parties.

Section 28.08 NO THIRD PARTY BENEFICIARIES

Except where specifically stated otherwise in the Agreement for construction, the promises in the Agreement benefit the COUNTY and CONTRACTOR only. They are not intended to, nor shall they be interpreted or applied to, give any enforcement rights to any other persons (including corporate) that might be affected by the performance or non-performance of this agreement, nor do the parties hereto intend to convey to anyone else any "legitimate claim of entitlement" with the meaning and rights that phrase has been given by case law.



END OF GENERAL CONDITIONS

ADDENDUM #001

Date: June 16, 2021
(9) pages including attachments

LIST OF ADDENDUM ITEMS:

Item	**Description**	**Attachment**	**No. pages**
1.	Paragraph 20 (C) of Section 00 20 00 of the Project Manual – 'Instructions to Bidders' (page 00 20 00- 5) shall be deleted and replaced with the following language: (C) Pursuant to Section 1777.5 (d) of the California Labor Code, the Apparent Low Bidder and each of its subcontractors who employ workers in any apprenticeable craft or trade shall employ apprentices in the ratio set forth in Section 1777.5 of the California Labor Code and shall apply to any apprenticeship program in the craft or trade that can provide apprentices to the site of the Project for a certificate approving the contractor (Apparent Low Bidder) and subcontractors under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. The Apparent Low Bidder shall provide documentation of proof of compliance with this section upon request by the County. This requirement is separate from and in addition to the obligation to participate in a Joint Apprenticeship Committee as set forth in Section 00 12 00 'Notice to Bidders' in this Project Manual. Revised Section 00 20 00 'Instructions to Bidders' is attached.	Revised Section 00 20 00 of the Project Manual: 'Instructions to Bidders'	6
2.	Clarification to Scope – rooftop photovoltaic panels: Key Note 26.07 on Sheet A3.1 states 'Photovoltaic Panels – Ref. Elect. Dwgs'. The solar panel system is **not** to be included in this Bid. It may be installed by the County under separate contract after this project is complete.	None	0
3.	Specification Section 12 24 13 refers to the Finish Schedule on the Drawings for window shade fabric selection; however, there is no selection listed on the Drawings. Roller window shade fabric shall be MechoShade EuroTwill 6450 Series, 3% open; color: 6468 'White Stone'	None	0

Item	Description	Attachment	No. pages
4.	Clarification to Scope – leach lines for onsite septic system Reference Civil Utilities Plan, Sheet C401: Leach lines shown dashed on Utilities Site Plan are intended to identify the replacement field as required by Environmental Health. Only leach lines shown as solid lines (four 42.5' long pipes with inspection ports at far end per Key Note 17) are to be installed under this project. Installation of dashed leach lines in area identified as 'Replacement Field' should be excluded from Bid.	None	0
5,	Clarification to Scope – permanent perimeter fence: Per Key Note 32.07 on the Architectural Site Plan (Sheet A1.1), the Contractor shall construct a new 6' high redwood fence along the north property line (approximately 150 feet in length). **Bids shall include the demolition and removal of the existing wood fence along the north property line in addition to the construction of the new fence in its place.** Per Key Note 32.14, Sheet A1.1, the Contractor shall construct a new 42" high hog panel fence along the east property line from back of walk to existing fence to remain (Key Note 32.17), approximately 70 feet in length.	None	0
6.	Clarification to Scope – FRP in Janitor's Room 106: FRP panels scheduled as wall finish in the Janitor's Room 106 on Room Finish Schedule (Sheet A10.1) shall be installed in full-height sheets (8'-0") above wall base on all walls of the room. Upper wall surfaces above top of FRP shall be painted to match the ceiling.	None	0
7.	Correction to Plans, Reference Interior Elevation 1, Sheet 10.2: Wall Panel above Door 101.2 (exterior sliding door system) at North wall of Community Room 101 is mislabeled 'WP2' and should read 'WP1' –  	None	0

Item	Description	Attachment	No. pages
8.	Clarification to Scope – suspended acoustical tile ceiling: Ceilings in the following rooms are to be suspended on t-bar grid systems as described on the Reflected Ceiling Plan (Sheet A9.1), scheduled on the Room Finish Schedule (Sheet A10.1), and specified in Specification Section 09 51 13 'Suspended Acoustical Tile Ceilings': Room 102 Storage Room 103 Friends Room 107 Office Room 108 Teen Room Room 109 Study (2) Room 110 Study (2) Room 111 Study (4) Ceiling framing shown or implied on the Drawings can be omitted above the rooms listed above with the exception of Office Room 107, the framing above which is part of the mezzanine floor and shall be included/constructed as described on Ceiling Framing Plan, Sheet S1.03.	None	0

SECTION 00 20 00

INSTRUCTIONS TO BIDDERS

1. Bids are requested for a general construction contract, or work described in general, as follows:

Yolo Branch Library
37750 Sacramento Street, Yolo, California

2. The County of Yolo will receive sealed bids from Bidders as stipulated in Document 00 12 00, Notice to Bidders.

3. Apparent low Bid will be based solely on: Base Bid Price. All Bidders are required to submit Bids on all bid items.

4. Bidders must submit bids on Document 00 41 00 Bid Form. Bids not submitted on the required form shall be deemed non-responsive and shall not be considered.

5. Bidders must submit cash, a cashier's check, a certified check or a corporate surety bond of not less than ten percent (10%) of amount bid, payable to The County, with their Bids. Required form of corporate surety bond, Document 00 42 00 County of Yolo Bidder's Bond, is provided by the County. Bids submitted without necessary bid security will be deemed non-responsive and will not be considered.

6. Bidders must submit names of all subcontractors and their respective bid item sub-bids on Document 00 43 00 Subcontractors List for those subcontractors who will perform any portion of Work, including labor, rendering of service, or specially fabricating and installing a portion of the work or improvement according to detailed drawings contained in the plans and specifications, in excess of one half of one percent (0.5%) of total bid. Any violation of this provision may result in Bid being deemed non-responsive and not being considered.

7. Bidders must submit Document 00 45 10 Non-collusion Affidavit with their bids. Bids submitted without the affidavit will be deemed non-responsive and will not be considered.

8. Bidders must supply all information required by Bid documents and specifications. Bids must be full and complete. The County reserves the right in its sole discretion to reject any Bid as non-responsive as a result of any error or omission in the Bid.

9. A mandatory Pre-bid Conference and Site Visit will be held as referenced in Document 00 12 00, Notice to Bidders, to clarify such matters as Bidders may request. The referenced Pre-bid Conference and Site Visit will take approximately two hours. The County will transmit to all prospective Bidders of record such Addenda as the County in its discretion considers necessary in response to questions arising at the Pre-bid Conference. The sign in sheet at the Pre-bid conference will also be posted or made available by addendum. Oral statements shall not be relied upon and will not be binding or legally effective. Addenda issued as a result of the Pre-bid Conference, shall constitute the sole and exclusive record and statement of the results of the Pre-bid Conference.

10. Bids shall be clearly written without erasure or deletions. The County reserves the right to reject any Bid containing erasures or deletions.

11. Bidders may not modify Bid Form or qualify their Bids.

12. Submission of Bid signifies careful examination of Contract Documents and complete understanding of the nature, extent and location of Work to be performed. Bidder must complete the tasks listed below in subsections as a condition to bidding and submission of Bid shall constitute the Bidder's express representation to The County that Bidder has fully completed the following:

    (A) Bidder has visited the site and has examined thoroughly and understood the nature and extent of the Contract Documents, Work, existing facility conditions for demolition and removal, Site, locality, actual conditions, existing access and facility conditions, and all local conditions and federal, state and local laws and regulations that in any manner may affect cost, progress, performance or furnishing of Work or which relate to any aspect of the means, methods, techniques, sequences or procedures of construction to be employed by Bidder and safety precautions and programs incident thereto;

    (B) Bidder has given Project Manager prompt written notice of all conflicts, errors, ambiguities or discrepancies that it has discovered in or among the Contract Documents and as-built and actual conditions and the written resolution thereof by Project Manager is acceptable to Bidder.

13. Copies of the general prevailing rates of per diem wages for each craft, classification, or type of worker needed to execute the Contract, as determined by Director of the State of California Department of Industrial Relations, are deemed included in the bid documents.

    (A) DIR REGISTRATION AND NOTICE: To be qualified to bid on, be listed in a bid proposal or engage in the performance of any public work contract subject to Labor Code section 1720, contractors and subcontractors must be registered with the Department of Industrial Relations. Failure to provide this information at the time of bid will result in disqualification. Please see http://www.dir.ca.gov/Public-Works/PublicWorks.html for more information. No contract will be entered into without proof of the contractor's and subcontractors' current registration with the Department of Industrial Relations to perform public work provided at the time of bid. If awarded a contract, the bidder and its subcontractors, at all tiers, shall maintain active registration with the Department of Industrial Relations for the duration of the project. This Project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. Each contractor and subcontractor must furnish certified payroll records to the Labor Commissioner at least monthly.

    (B) **Joint Apprenticeship Committee Participation Requirement**
    It is a County policy that, in order to be deemed a responsive bidder, the bidder must participate in a joint apprenticeship committee. The California Department of Industrial Relations defines a joint apprenticeship committee as a committee made up of equal number of members from labor and management. **Bidders must submit with their bid**

a completed California Department of Industrial Relations' DAS-7 form that documents the bidder's participation in a joint apprenticeship committee. Bids that are not accompanied by such proof of participation will be rejected. The County will verify participation prior to the award.

14. All questions regarding Plans and Specifications and Interpretations or Clarifications for this Invitation for Bid must be entered electronically through the County's electronic solicitation system, **BidSync** at https://www.BidSync.com. The County Project Manager will respond to all Contractor questions through the BidSync Question and Answer section on this website. Questions received less than seven (7) days prior to the date for opening Bids may not be answered. Only questions answered in BidSync or by formal written Addenda posted in BidSync will be binding. Oral and other interpretations or clarifications will be without legal effect.

15. Addenda may also be issued to modify the Bidding Documents as deemed necessary by the County and consultants.

16. Addenda shall be acknowledged on Bid Form by number and shall be part of Contract Documents. Contractor shall be responsible for obtaining all addenda published and complete listing of Addenda may be secured from the Project Manager.

17. Substitutions: Bids shall be based on products and systems specified in Contract Documents or listed by name in Addenda. Contractors and materials suppliers may submit requests for substitutions up to thirty-five (35) days following the Notice of Award.

    (A) Requests for substitutions shall contain sufficient information to assess acceptability of product or system and impact on Project (see Specification Section 01 25 00 for criteria). Insufficient information shall be ground for rejection of substitution.

    (B) Substitutions may be requested after Contract is signed in accordance with requirements specified in Document 00 70 00 General Conditions and Specifications Section 01 25 00.

    (C) Substitutions may not be requested between bid opening and issuance of the Notice of Award.

18. Bids will be received at County of Yolo, County Administrator's Office Room 202, Woodland, CA 95695 by the County and/or Project Manager who will receive them and time/date them. Bids submitted by mail must be received prior to the opening of bids; The County will not be held responsible for the failure of delivery.

    (A) Envelopes or boxes must be sealed, and marked with name and address of the Bidder, and addressed to:

Yolo County, County Administrators Office
625 Court Street, Room 202
Woodland, CA 95695

(B) Mark envelopes:

Yolo Branch Library

(C) Envelopes must be submitted by date and time shown in Document 00 12 00, Notice to Bidders.

(D) Bids must contain the following, fully executed documents:

1) Document 00 41 00 Bid Form: Must be filled in and signed by Bidder.

2) Cash, Cashier's Check, Certified Check, or Document 00 42 00 County of Yolo Bidder's Bond: If submitted, Document 00 42 00 is to be executed by Bidder and its surety.

3) Document 00 43 00 Subcontractors List: If Bidder intends to employ sub-contractors, it is necessary to furnish information required on this form, in accordance with instructions contained herein. It is acceptable for the bidder to provide the city and state only on bid day and within 24 hours of the bid due date provide the mailing addresses & phone numbers."

4) Document 00 45 00 Bidder Information Sheet

5) Document 00 45 10 Non-collusion Affidavit: To be subscribed and sworn before a notary public.

19. Envelopes will be opened in public following receipt of bids after **2:05 pm on Thursday, June 24, 2021,** in the Atrium Training Room of the Erwin Meier Administration Building, 625 Court Street, Woodland, CA.

20. The following documents are to be executed and submitted by apparent low Bidder after Bids have been opened and duly inspected. Failure to properly and timely submit these documents entitles The County to reject the bid as non-responsive.

(A) Submit the following documents to the Project Manager by 5:00 p.m. of the TENTH business day following opening and inspection of bids.

1) Insurance Certificates and Endorsements required by Document 00 70 00 General Conditions Article 2

(B) Submit the following documents to the Project Manager by 5:00 p.m. of the TENTH business day following NOTICE OF AWARD. Award of contract depends upon approval of State Department of Finance, Insurance Certificates and Endorsements, Document 00450 Contractor Information Form, and any required safety submittals.

1) Document 00 52 00 Agreement: To be executed by successful Bidder. Submit two

(2) copies, each bearing an original signature.

2) Document 00 61 00 Performance Bond: To be executed by successful Bidder and surety.

3) Document 00 62 00 Payment Bond: To be executed by successful bidder and surety.

~~(C) The apparent low Bidder and each of its subcontractors who employ workers in any apprentice able craft or trade, shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices, pursuant to section 1777.5 of the California Labor Code.~~

(C) Pursuant to Section 1777.5 (d) of the California Labor Code, the Apparent Low Bidder and each of its subcontractors who employ workers in any apprenticeable craft or trade shall employ apprentices in the ratio set forth in Section 1777.5 of the California Labor Code and shall apply to any apprenticeship program in the craft or trade that can provide apprentices to the site of the Project for a certificate approving the contractor (Apparent Low Bidder) and subcontractors under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. The Apparent Low Bidder shall provide documentation of proof of compliance with this section upon request by the County. This requirement is separate from and in addition to the obligation to participate in a Joint Apprenticeship Committee as set forth in Section 00 12 00 'Notice to Bidders' in this Project Manual.

21. Any bid protest must be submitted in writing to the Project Manager, before 5 p.m. of the FIFTH business day following bid opening.

(A) The initial protest document must contain a complete statement of the basis for the protest.

(B) The protest must refer to the specific portions of all documents, which form the basis for the protest.

(C) The protest must include the name, address and telephone number of the person representing the protesting party.

(D) The party filing the protest must concurrently transmit a copy of the initial protest document and any attached documentation to all other parties with a direct financial interest that may be adversely affected by the outcome of the protest. Such parties shall include all other Bidders or proposers who appear to have a reasonable prospect of receiving an award depending upon the outcome of the protest.

(E) The County will issue a decision on the protest. If the County determines that a protest is frivolous, the party originating the protest may be determined to be irresponsible and that party may be determined to be ineligible for future contract award.

(F) The procedure and time limits set forth in this paragraph are mandatory and are the Bidder's sole and exclusive remedy in the event of bid protest and failure to comply with these procedures shall constitute a waiver of any right to further pursue the bid protest, including filing a Government Code Claim or legal proceedings.

22. The County reserves the right to reject any or all Bids, including without limitation the right to reject any or all nonconforming, non-responsive, unbalanced or conditional Bids, re-bid, and to reject the Bid of any Bidder if The County believes that it would not be in the best interest of Project to make an award to that Bidder, whether because the Bid is not responsive or the Bidder is unqualified or of doubtful financial ability or fails to meet any other pertinent standard or criteria established by The County. The County also reserves the right to waive inconsequential deviations not involving price, time or changes in the Work. For purposes of this paragraph, an "unbalanced bid" is one having nominal prices for some work items and enhanced prices for other work items.

23. Discrepancies between the multiplication of units of Work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum. Discrepancies between written words and figures, or words and numerals, will be resolved in favor of the words.

24. In evaluating Bids, The County will consider the qualifications of Bidders, whether or not the Bids comply with the prescribed requirements, unit prices and other data, as may be requested in the Bid Form or prior to the Notice of Award. The County may conduct such investigations as The County deems necessary to assist in the evaluation of any Bid and to establish the responsibility, qualifications and financial ability of Bidders, proposed subcontractors, suppliers and other persons and organizations to perform and furnish the Work in accordance with the Contract Documents to The County's satisfaction within the prescribed time.

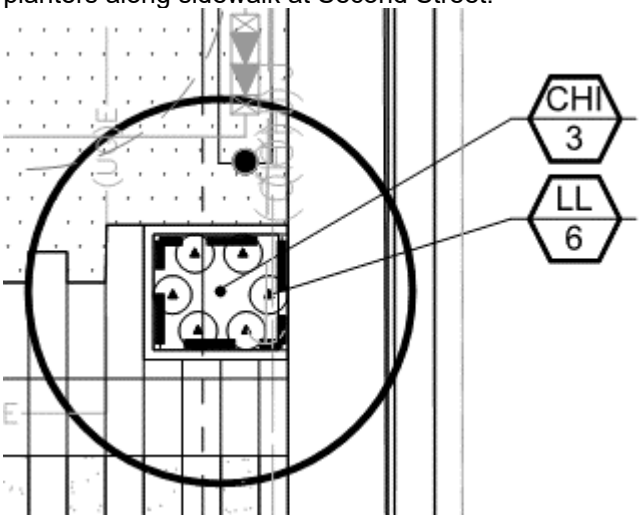
25. If the contract is to be awarded, it will be awarded to the lowest responsible, responsive Bidder and Base Bid. The award of the Contract will be subject to availability of funds and approval of Department of Financing per SB863 Lease Revenue Bond Financing requirements.

26. Special attention is directed to contractors for **Covid-19** precautions and requirements during construction. Refer to Section 01 10 00 Summary of Work for description of minimum requirements.

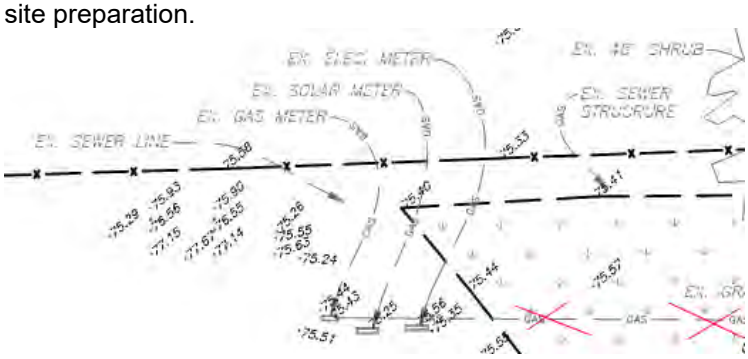
27. Special Requirements:

A. The Contractor’s workers and equipment shall be limited to the work areas as designated by this contract. In the event the Contractor, his/her employees, or subcontractors fail to adhere to the County’s security provisions, the County has the right to deny access to the work site to that employee or subcontractor without an extension of time being granted to the Contractor.

B. No smoking shall be allowed on construction site per County’s policy.



END OF SECTION 00 20 00



ADDENDUM #002

Date: June 22, 2021
(14) pages including attachments

LIST OF ADDENDUM ITEMS:

Item	**Description**	**Attachment**	**No. pages**
1.	Bid Date Extension – The advertised Bid Date shall be modified as set forth below: **Bids shall be due no later than 2:00PM on Tuesday, June 29, 2021.**	None	0
2.	Revised Bid Form is attached providing for acknowledgement of Addenda #1 and #2. In addition, Bidders shall provide unit pricing (cubic feet) for off-haul and disposal of unsuitable soils materials and import of engineered fill. Unit pricing shall assume no hazardous materials in soil. Bid Form has been amended to provide space to enter unit pricing.	Revised Bid Form	4
3.	Clarification to scope of work – trenching for gas service: Bidders shall include in the bid trenching and backfilling for the new gas line to be installed by PG&E including onsite and offsite (in-street) portions, and bellhole at gas main, per PG&E gas service drawings on Sheet E1.3. Contractor shall secure and pay for encroachment permit(s) from Yolo County Public Works, provide traffic controls, and restore paving in Second Street to the satisfaction of Yolo County Public Works within the bid.	None	0
4.	Revision to scope of work – tap of public water main for fire sprinklers and hydrant: Notes 3 & 4 on Sheet C401 shall be amended to require General Contractor (Bidder) to perform the work of tapping into public water main and connecting new laterals for fire sprinkler and fire hydrant service in addition to trenching, backfilling, and pavement restoration. Contractor shall secure and pay for encroachment permit(s) from Yolo County Public Works, provide traffic controls, and restore paving in Second Street to the satisfaction of Yolo County Public Works within the bid.	None	0

Item	Description	Attachment	No. pages
5.	Clarification to scope of work – interior wood paneling – There is a discrepancy between project plans and specifications regarding the interior wood paneling product. Specification Section 06 20 00 'Finish Carpentry' shall govern. Trim profiles described on the Drawings shall still be used as the basis of design.	None	0
6.	Additional scope of work – tree removal and replacement: Bidders shall include in the bid removal of the existing Chinaberry tree shown to remain (onsite adjacent east property line, reference Sheet L1.1), including root ball. Bidders shall include an **additional** 7'-0" x 7'-6" planter with irrigation, 15 gal. Desert Willow, and (6) 1 gal. dwarf mat rush shrubs to match similar planters along sidewalk at Second Street:  	None	0
7.	Additional scope of work – raceway for future solar: Bidders shall include in the bid a 2" conduit from spare on main electrical service switch board 'MSB' identified for 'Future Solar' to roof at hatched area identified on the Roof Plan (Sheet A7.1) as 'PV Area'.	None	0
8.	Clarification to scope of work – valve box adjustment: Bidders shall include in the bid the adjustment to new grade of the existing water valve box serving existing fire hydrant at southwest corner of site on Sacramento Street, if required.	None	0
9.	Clarification to scope of work – demolition of concrete paving: Per Note 9 on Sheet A0.1, the concrete pad under the existing modular building is 6" thick and shall be removed by the Contractor after the modular building is removed from the site. The adjacent concrete paving (walkway and accessible parking stall) is 5" thick and shall be removed by the Contractor as indicated on the Drawings.	None	0

Item	Description	Attachment	No. pages
10.	Clarification to scope of work – existing onsite utilities: The existing gas meter, solar meter, electrical, meter, sewer line, and sewer structure shown on Sheet C101 and captured below have already been removed as part of the demolition of the original library building. Contractor shall remove two existing abandoned gas lines within site boundary as part of site preparation. 	None	0
11.	Clarification to scope of work – doors and door hardware: Revised Door Schedule is attached to correct references to Door Hardware Groups in the Specifications. Tag for Door 100.2 was missing from Notation Floor Plan, Sheet A2.2. Partial plan exhibit is attached to identify this door. Door 100.2 has been added to the revised Door Schedule.	Revised Door Schedule and Partial Notation Floor Plan	2
12.	Correction to specifications – Door Hardware 08 71 00: Hinges under Door Hardware Group 007 are listed mistakenly as 'Existing'. New Interior-type hinges shall be provided for doors in this Hardware Group.	None	0
13.	Clarification to scope of work – brick pavers: All brick pavers shown on site improvement/ landscape plans shall be provided by the Contractor in accordance with Specification Section 32 14 16 'Brick Pavers'. Bidders should note the delivery and pick-up requirements to accommodate engraving by County's vendor described in §1.4 DELIVERY.	None	0
14.	Revision to scope of work – electrical service: Refer to redlines on attached Sheet E1.1 for coordination with PG&E service sketch, also attached. PG&E will install pole-mounted transformer. Transformer pad and protection shown on Sheet E1.1 can be eliminated from scope. Contractor shall trench, install 5" conduit, and backfill from MSB to new PG&E pole in accordance with PG&E standards. In addition, pull box for future County data use shall be Christy N48 as redlined on this sheet.	E1.1 (redline) and PG&E Electrical Construction Sketch dated 06/30/2020	2

Item	Description	Attachment	No. pages
15.	Clarification to scope of work – power to parking lot lighting: Reference Detail 2, Sheet E1.2 PVC is acceptable for conduit stubbed to parking lot light pole base. N9 pull boxes are not required at each pole.	None	0
16.	Clarification to scope of work – HSS column base plate details: Refer to attached HSS COL BASE PLATE ANCHORAGE and SLAB COL BLOCKOUT details for base plate condition at HSS columns identified on the Foundation Plan, Sheet S1.01.	HSS COL BASE PLATE ANCHORAGE and SLAB COL BLOCKOUT	2
17.	Clarification to scope of work – onsite septic system – Bidders shall price the onsite septic system in accordance with the information and details shown on the Drawings. Selected Contractor shall apply for and pull the Environmental Health Department permit for septic system. Contractor/ subcontractor installing septic system for this project shall have demonstrated experience installing similar onsite disposal systems. A list of local septic system installers/ contractors is available from the Yolo County Environmental Health Department. Contractor shall pay for Environmental Health Department septic system permit: $1264 permit fee + $174 setback review fee.	None	0

SECTION 00 41 00

BID FORM
Project: Yolo Branch Library, 37750 Sacramento Street, Yolo, California

1. The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an agreement with the County of Yolo ("The County") in the form included in the Contract Documents, Document 00 52 00 Contract, to perform and furnish all Work as specified or indicated in the Contract Documents for the Contract Sum and within the Contract Time indicated in this Bid and in accordance with all other terms and conditions of Contract Documents.

2. Bidder accepts all of the terms and conditions of the Contract Documents and the Notice to Bidders, including without limitation, those dealing with the disposition of Bid security. Bidder will sign and submit the Agreement with Bonds and other documents required by Document 00 20 00 Instructions to Bidders, within ten (10) calendar days after receipt of the County's Notice of Award.

3. In submitting this Bid, Bidder represents:

   (a) Bidder has examined copies of all of the Contract Documents and of the following Addenda (receipt of all of which is hereby acknowledged).

Addendum #	Issue Date	Bidder's Acknowledgement (initials)
Addendum #1	June 16, 2021	
Addendum #2	June 22, 2021	

   (b) Bidder has visited the site and has examined thoroughly and understood the nature and extent of the Contract Documents, Work, Site, locality, actual conditions, as built conditions, and all local conditions and federal, state and local laws and regulations that in any manner may affect cost, progress, performance or furnishing of Work or which relate to any aspect of the means, methods, techniques, sequences or procedures of construction to be employed by Bidder and safety precautions and programs incident thereto;

   (c) Bidder has examined thoroughly and understood all reports, drawings and/or reports, available for Bidding purposes and accepts the determination set forth in these documents and Document 00700 General Conditions of the limited extent of the information contained in such reports and drawings upon which the Bidder may be entitled to rely. Bidder agrees that except for the information so identified, Bidder does not and shall not rely on any other information contained

in such reports and drawings.

(d) Bidder has conducted or obtained and has understood all such examinations, investigations, explorations, tests, reports and studies (in addition to or to supplement those referred to in paragraph 3(c) above) which pertain to the subsurface conditions, as built conditions, Underground Facilities and all other physical conditions at or contiguous to the site or otherwise which may affect the cost, progress, performance or furnishing of Work, as Bidder considers necessary for the performance or furnishing of Work at the Contract Sum, within the Contract Time and in accordance with the other terms and conditions of Contract Documents, including specifically the provisions of the General Conditions; and no additional examinations, investigations, explorations, tests, reports, studies or similar information or data are or will be required by Bidder for such purposes;

(e) Bidder has correlated its knowledge and the results of all such observations, examinations, investigations, explorations, tests, reports and studies with the terms and conditions of the Contract Documents;

(f) Bidder has given Project Manager prompt written notice of all conflicts, errors, ambiguities or discrepancies that it has discovered in or among the Contract Documents and as built and actual conditions and the written resolution thereof by Project Manager is acceptable to Bidder.

4. Based on the foregoing, Bidder proposes and agrees to fully perform the Work within the time stated and in strict accordance with the Contract Documents for the following sum of money listed in the following Bid Schedule:

Base Bid Total Price for the Yolo Branch Library Project

$_____

(written) **Dollars**

Enclosed find Bidder's Bond, certified check or cashier's check No._____of the

_____(Company/Bank), for $_____.

Dated this_____day of_____, 2021

Unit Pricing

Off-haul and disposal of unsuitable soil (no haz mat), per cubic yard: $_____

Import of engineered fill, per cubic yard: $_____

5. Subcontractors are listed on the attached document 00 43 00, Subcontractors List.

6. The undersigned understands that the County reserves the right to reject this Bid, but that this Bid shall remain open and shall not be withdrawn for a period of ninety (90) calendar days from the date prescribed for its opening (to accommodate State financing process).

7. If written notice of the acceptance of this Bid, hereinafter referred to as Notice of Award, is mailed or delivered to the Undersigned within the stipulated time after the date set for the opening of this Bid, or at any other time thereafter before it is withdrawn, the undersigned will execute and deliver the documents required by Document 00 20 00 Instructions to Bidders including, but not limited to, Document 00 52 00 Agreement, Document 00 61 00 Performance Bond, and Document 00 62 00 Payment Bond and Escrow Bid Documents, all within ten (10) calendar days after personal delivery or after receipt in the mails of the Notice of Award.

8. Notice of Award or request for additional information may be addressed to the undersigned at the address set forth below.

9. The undersigned herewith encloses a cash, cashier's check, certified check or corporate surety bond in the amount of ten percent (10%) of the total of Bid Items and made payable to: County of Yolo and is subject to all conditions imposed by law.

10. The undersigned agrees to commence work under this Contract on the date established and to complete all work within the time specified in Document 00 52 00 (Contract).

11. The undersigned agrees that, in accordance with Document 00 70 00 General Conditions liquidated damages for failure to complete all work in the contract within the time specified are as set forth in Document 00 52 00 (Agreement).

12. The undersigned herewith encloses the completed Non-Collusion Affidavit – 00 45 10.

13. The undersigned herewith encloses the completed DAS Form 7 – 00 45 26.

14. The names of all persons interested in the foregoing Bid as principals are:

_____

Please type or print your answers.
Attach a copy of license(s) upon which you intend to rely.

_____

( ) BIDDER IS A CORPORATION

The full name of the corporation as it appears on the State Contractor's License is:

_____

Corporation is incorporated in the State of:

_____

( ) BIDDER IS AN INDIVIDUAL

Bidder's name as it appears on State Contractor's License is:

_____

( ) BIDDER IS A PARTNERSHIP

Bidder's firm name, individual or partnership, as it appears on State Contractor's License is:

_____

The full names of all partners as they appear on State Contractor's License are:

_____

_____

County in which any Certificate of Doing Business Under a Fictitious Name is filed – (If none, so state):

_____

Accompanying this proposal is_____

_____(NOTICE: INSERT THE WORDS "CASH ($

_____)", "CASHIER'S CHECK", "CERTIFIED CHECK", OR

"BIDDER'S

BOND", AS THE CASE MAY BE) in amount equal to at least ten (10) percent of the total of

the Bid. The names of all persons interested in the forgoing proposal as principals are as

follows:

IMPORTANT NOTICE: If the Bidder or other interested person is a corporation, state legal name of corporation, also names of the president, secretary, treasurer, and executive officer thereof; if a partnership, state name of partnership, also names of all individual partners; if Bidder or other interested person is an individual, state first and last names in full.

_____

_____

_____

Licensed in accordance with an act providing for the registration of contractors,

License No._____Classifications(s) _____

DIR Registration No.: _____

(A copy of the afore-referenced license must be supplied at Notice of Award.)

ADDENDA: This Proposal is submitted with respect to the changes to the Contract included in addenda number(s)

_____

(Fill in addenda numbers if addenda have been received and insert, in this proposal, any Engineer's Estimate sheets that were received as part of the addenda)

CERTIFICATION OF BIDDER FOR PROPOSAL:

By my signature on this Proposal I certify, under penalty of perjury under the laws of the State of California, that the foregoing questionnaire and statements of Public Contract Code are true and correct. By my signature on this proposal I further certify, under penalty of perjury under the laws of the State of California and the United States of America, that the Non-Collusion Affidavit required by Public Contract Code Section 7106 and Part 24 Debarment and

Suspension Certification are true and correct.

The person or persons executing this proposal on behalf of a corporation or a member of partnership, shall be prepared to demonstrate by resolution, article, or otherwise, that such person is or that such persons are appropriately authorized to act in these regards for such corporation or partnership. Such authority shall be demonstrated to the satisfaction of the County of Yolo.

If the signature is by an agent other than an officer of a corporation or a member of a partnership, a power of attorney authorizing said act by the agent on behalf of his principal shall be submitted with the bid forms, otherwise the Bid may be disregarded as irregular and unauthorized.

The Bidder's execution on the signature portion of this Proposal shall constitute an endorsement and execution of those affidavits, declarations and certifications which are of this Proposal.

SECTION 00 41 00

BID FORM
Project: Yolo Branch Library, 37750 Sacramento Street, Yolo, California

1. The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an agreement with the County of Yolo ("The County") in the form included in the Contract Documents, Document 00 52 00 Contract, to perform and furnish all Work as specified or indicated in the Contract Documents for the Contract Sum and within the Contract Time indicated in this Bid and in accordance with all other terms and conditions of Contract Documents.

2. Bidder accepts all of the terms and conditions of the Contract Documents and the Notice to Bidders, including without limitation, those dealing with the disposition of Bid security. Bidder will sign and submit the Agreement with Bonds and other documents required by Document 00 20 00 Instructions to Bidders, within ten (10) calendar days after receipt of the County's Notice of Award.

3. In submitting this Bid, Bidder represents:

   (a) Bidder has examined copies of all of the Contract Documents and of the following Addenda (receipt of all of which is hereby acknowledged).

Addendum #	Issue Date	Bidder's Acknowledgement (initials)
Addendum #1	June 16, 2021	
Addendum #2	June 22, 2021	
Addendum #3	June 24, 2021	

   (b) Bidder has visited the site and has examined thoroughly and understood the nature and extent of the Contract Documents, Work, Site, locality, actual conditions, as built conditions, and all local conditions and federal, state and local laws and regulations that in any manner may affect cost, progress, performance or furnishing of Work or which relate to any aspect of the means, methods, techniques, sequences or procedures of construction to be employed by Bidder and safety precautions and programs incident thereto;

   (c) Bidder has examined thoroughly and understood all reports, drawings and/or reports, available for Bidding purposes and accepts the determination set forth in these documents and Document 00700 General Conditions of the limited extent

of the information contained in such reports and drawings upon which the Bidder may be entitled to rely. Bidder agrees that except for the information so identified, Bidder does not and shall not rely on any other information contained in such reports and drawings.

(d) Bidder has conducted or obtained and has understood all such examinations, investigations, explorations, tests, reports and studies (in addition to or to supplement those referred to in paragraph 3(c) above) which pertain to the subsurface conditions, as built conditions, Underground Facilities and all other physical conditions at or contiguous to the site or otherwise which may affect the cost, progress, performance or furnishing of Work, as Bidder considers necessary for the performance or furnishing of Work at the Contract Sum, within the Contract Time and in accordance with the other terms and conditions of Contract Documents, including specifically the provisions of the General Conditions; and no additional examinations, investigations, explorations, tests, reports, studies or similar information or data are or will be required by Bidder for such purposes;

(e) Bidder has correlated its knowledge and the results of all such observations, examinations, investigations, explorations, tests, reports and studies with the terms and conditions of the Contract Documents;

(f) Bidder has given Project Manager prompt written notice of all conflicts, errors, ambiguities or discrepancies that it has discovered in or among the Contract Documents and as built and actual conditions and the written resolution thereof by Project Manager is acceptable to Bidder.

4. Based on the foregoing, Bidder proposes and agrees to fully perform the Work within the time stated and in strict accordance with the Contract Documents for the following sum of money listed in the following Bid Schedule:

Base Bid Total Price for the Yolo Branch Library Project

$_____

(written) **Dollars**

Enclosed find Bidder's Bond, certified check or cashier's check No._____of the

_____(Company/Bank), for $_____.

Dated this_____day of_____, 2021

Unit Pricing

Off-haul and disposal of unsuitable soil (no haz mat), per cubic yard: $_____

Import of engineered fill, per cubic yard: $_____

5. Subcontractors are listed on the attached document 00 43 00, Subcontractors List.

6. The undersigned understands that the County reserves the right to reject this Bid, but that this Bid shall remain open and shall not be withdrawn for a period of ninety (90) calendar days from the date prescribed for its opening (to accommodate State financing process).

7. If written notice of the acceptance of this Bid, hereinafter referred to as Notice of Award, is mailed or delivered to the Undersigned within the stipulated time after the date set for the opening of this Bid, or at any other time thereafter before it is withdrawn, the undersigned will execute and deliver the documents required by Document 00 20 00 Instructions to Bidders including, but not limited to, Document 00 52 00 Agreement, Document 00 61 00 Performance Bond, and Document 00 62 00 Payment Bond and Escrow Bid Documents, all within ten (10) calendar days after personal delivery or after receipt in the mails of the Notice of Award.

8. Notice of Award or request for additional information may be addressed to the undersigned at the address set forth below.

9. The undersigned herewith encloses a cash, cashier's check, certified check or corporate surety bond in the amount of ten percent (10%) of the total of Bid Items and made payable to: County of Yolo and is subject to all conditions imposed by law.

10. The undersigned agrees to commence work under this Contract on the date established and to complete all work within the time specified in Document 00 52 00 (Contract).

11. The undersigned agrees that, in accordance with Document 00 70 00 General Conditions liquidated damages for failure to complete all work in the contract within the time specified are as set forth in Document 00 52 00 (Agreement).

12. The undersigned herewith encloses the completed Non-Collusion Affidavit – 00 45 10.

13. The undersigned herewith encloses the completed DAS Form 7 – 00 45 26.

14. The undersigned herewith encloses the completed Bidder Information Sheet – 00 45 00.

15. The names of all persons interested in the foregoing Bid as principals are:

Board of Supervisors **General Services**

Meeting Date: 06/06/2023

Brief Title: State Appropriation of $5,000,000 from California Department of Parks and Recreation

From: Ryan Pistochini, Director, General Services Department

Staff Contact: Emily Huerta, Associate Parks Planner, General Services Department, x5043

Supervisorial District Impact: Countywide

Subject

Adopt resolution authorizing the County to accept state appropriation included in the 2022-23 state budget (AB 179) in the amount of $5,000,000 from the California Department of Parks and Recreation. (No general fund impact) (Pistochini/Tengolics)

Recommended Action

Adopt resolution authorizing the County to accept a state appropriation included in the 2022-23 state budget (AB 179) in the amount of $5,000,000 from the California Department of Parks and Recreation.

Strategic Plan Goal(s)

In Support of All Goals (Internal Departments Only)

Reason for Recommended Action/Background

Yolo County received a FY 22-23 state budget appropriations through the State Budget Act (AB 179 of 2023) for several community projects to be administered by the California Department of Parks and Recreation. The amount of the appropriations is $5,000,000 to benefit the Knight's Landing Park, Vic Fazio Wildlife Area, Crisis Nursery expansion and the Underserved Farmer's Cooperative. The attached resolution (Att. A.) will authorize the County to accept this appropriation and move forward with the contracting process to receive these funds. Funds will be distributed in accordance with direction from California State Senator Dodd and California Assemblymember Aguiar-Curry.

A future item will be brought to the Board of Supervisors to approve the State contract and the resulting contracts with the non-profit entities associated with these projects.

Collaborations (including Board advisory groups and external partner agencies)

The General Services Department coordinated this item with the County Administrator's Office and the California Department of Parks and Recreation. This state budget appropriations would not be possible without the efforts of California State Senator Dodd and California Assemblymember Aguiar-Curry.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure

Total cost of recommended action	$5,000,000
Amount budgeted for expenditure	$0
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure

State Funds	$5,000,000

Further explanation as needed

The County will receive funding from the state for these community projects. No County funds are involved. Staff will incorporate the unanticipated revenue and associated expenses in the FY23-24 budget process.

Resolution No: _____

RESOLUTION OF THE Board of Supervisors OF the County of Yolo APPROVING APPLICATION(S) FOR SPECIFIED GRANT FUNDS from Budget Act of 2022, AB179, Chapter 249, Control Section 19.56, Item 3790-101-0001(k) OTHER COMMUNITY SERVICES, (10) $5,000,000 to the County of Yolo to support Knight's Landing Park, Vic Fazio Wildlife Area, Crisis Nursery expansion and the Underserved Farmer's Cooperative.

WHEREAS, the State Department of Parks and Recreation has been delegated the responsibility by the Legislature of the State of California for the administration of a grant to the County of Yolo, setting up necessary procedures governing application(s); and

WHEREAS, said procedures established by the State Department of Parks and Recreation require the applicant's Governing Body to certify by resolution the approval of project application(s) before submission of said applications to the State; and

WHEREAS, the applicant will enter into a contract with the State of California to complete project(s);

NOW, THEREFORE, BE IT RESOLVED that the Yolo County Board of Supervisors hereby:

1. Approves the filing of project application(s) for specified grant project(s); and
2. Certifies that said applicant has or will have available, prior to commencement of project work utilizing specified grant funds, sufficient funds, including those provided by this grant, to complete the project; and
3. Certifies that the applicant has or will provide sufficient funds to operate and maintain the project(s); and
4. Certifies that the applicant has reviewed, understands, and agrees to the Provisions contained in the contract in this Procedural Guide; and
5. Delegates the authority to the Director of General Services or designee to conduct all negotiations, sign and submit all documents, including, but not limited to applications, agreements, amendments, and payment requests, which may be necessary for the completion of the project scope(s); and
6. Agrees to comply with all applicable federal, state and local laws, ordinances, rules, regulations and guidelines.

Approved and adopted the 6th day of June, 2023.

Board of Supervisors **General Services**

Meeting Date:	06/06/2023
Brief Title:	FY2022-23 Fixed Asset Amendment
From:	Ryan Pistochini, Director, General Services Department
Staff Contact:	Sofia Mejia, Associate Administrative Analyst, General Services Department, x5021
Supervisorial District Impact:	Countywide

Subject
Approve amendment to the General Services Department 2022-23 authorized equipment list to add the parks generator and parks vehicle and to reallocate the authorized amounts for the facilities items on the list. (No general fund impact) (Pistochini)

Recommended Action
Approve amendment to the General Services Department 2022-23 authorized equipment list to add the parks generator and parks vehicle and to reallocate the authorized amounts for the facilities items on the list.

Strategic Plan Goal(s)
Thriving Residents

In Support of All Goals (Internal Departments Only)

Reason for Recommended Action/Background
The General Services Department is requesting an amendment to the 2022-23 authorized equipment list to reflect revised priorities and pricing increases relate to Parks and Facilities equipment purchases. This amendment is to add the parks generator and parks vehicle and to reallocate the authorized amounts for the facilities items on the list.

The Department projected a savings in the Parks Division salary and benefits in mid-year and third quarter monitor. With these savings, the Department requests to purchase a generator for the Cache Creek Campground and parks vehicle. The generator is used to power the well and other campground infrastructure when solar panels are inoperative. The Department also requests to purchase a park vehicle. This vehicle is needed due to the increase mowing requirements caused by the past year's torrential rain. Efficient and timely mowing is necessary in keeping the vegetation down, limits the chance of wildfires and is paramount as a fire abatement.

The Department is requesting to reallocate the authorized amount for two facilities items, a man gate and a golf cart, both of which will be at the justice campus. The golf cart is expected to be more than originally budgeted and can be offset by savings in man gate. These two items will improve safety of facilities workers at the justice campus.

Collaborations (including Board advisory groups and external partner agencies)
General Service Department, Department of Financial Services, County Counsel, County Administrator's Office.

Competitive Bid Process/Vendor Performance
All purchases will be in compliance with Procurement and Department of Financial Services policies and procedures.

Fiscal Information

No Fiscal Impact

Fiscal Impact of this Expenditure

Total cost of recommended action	$0
Amount budgeted for expenditure	$0
Additional expenditure authority needed	$0
On-going commitment (annual cost)	$0

Source of Funds for this Expenditure

General Fund	$0

Further explanation as needed

There is no fiscal impact to this action. The request to purchase these items are proposed to be funded by existing savings within the parks division and facilities division budgets.

Staff Contact: Mike Martinez, Projects Division Manager, General Services Department, x5015
Supervisorial District Impact: District 3

Subject
Approve and authorize the Director of General Services to enter into a contract with Pro-Ex Construction in the amount of $216,309 for Health and Human Services Gonzales Building Project Refresh. (No general fund impact) (Pistochini/Martinez)

Recommended Action
Approve and authorize the Director of General Services to enter into a contract with Pro-Ex Construction in the amount of $216,309 for Health and Human Services Gonzales Building Project Refresh.

Strategic Plan Goal(s)
Thriving Residents

Robust Economy

Reason for Recommended Action/Background
In February 2023, an Invitation for Bid (IFB) for the Gonzales Building Project Refresh, located at 25 N. Cottonwood Street, Woodland, was solicited by Yolo County General Services Department (GSD) in collaboration with Health and Human Services (HHSA). Three bids were received and when tallied, Pro-Ex Construction, was deemed the lowest bidder, having submitted a bid of $216,309. This bid includes cost for all labor, services, transportation, equipment, parts and supplies necessary for the refresh of the Bauer Building.

The total cost of this project was previously budgeted in HHSA's budget. Project is estimated to start by the end of June 2023 and conclude by the end of September 2023.

Collaborations (including Board advisory groups and external partner agencies)
Yolo County General Services Department, Projects and Procurement Divisions, Health and Human Services, Department of Financial Services, County Counsel and County Administrator's Office.

Agreement No. 23-_____

COUNTY OF YOLO, CALIFORNIA

CONSTRUCTION AGREEMENT FOR HEALTH AND HUMAN SERVICES AGENCY, PROJECT REFRESH GONZALES BUILDING

Health and Human Services Agency, Project Refresh Gonzales Building,
25 N. Cottonwood St., Woodland, California
CONTRACT NO. _____

This Agreement for Construction ("Agreement") is entered into as of June 6, 2023 between Pro-Ex Construction, Inc, a California corporation ("Contractor"), and the County of Yolo ("County"), a political subdivision of the State of California.

1. SCOPE OF WORK. Contractor shall furnish all labor, services, transportation, materials, equipment, parts, and supplies necessary for the **Health and Human Services Agency, Project Refresh Gonzales Building 25 N. Cottonwood St., Woodland, California ("the Project")** in strict accordance with the Project plans and specifications and Contract Documents. Contractor shall complete the Project per the Bid Schedule, not to exceed Two Hundred Sixteen Thousand Three Hundred Nine Dollars and 00/100 ($216,309.00).

2. CONTRACT DOCUMENTS. The following documents defined as the "Contract Documents" in Section 1.12 of the General Conditions, are incorporated as if fully set forth herein by this reference and comprise the entire Agreement between the County and Contractor concerning the Project.

Exhibit A~ Proposal Response, including all required forms
Exhibit B~ Subcontractor List
Exhibit C~ Project Manual, Vol. I, Bidding and Contracting Requirements
Exhibit D~ Project Manual, Vol. II, Technical Specifications and Drawings
Exhibit E~ Performance Bond and Payment Bond
Exhibit F~ General Conditions
Exhibit G~ Notice to Bidders
Exhibit H~ Notice to Proceed
Exhibit I~ Project Plans and Specifications
Exhibit J~ Addendas
Exhibit K~ Change Orders Issued by the County

All of the Contract Documents are intended to be complementary. Work required by one of the Contract Documents and not by others shall be done as if required by all. In the event of a conflict, the various Contract Documents will be given effect in the order set forth in the General Conditions (Section 20.08). In the event of any conflict between any of the provisions of this Contract and the Contract Documents, the provision that requires the highest level of performance from Contractor for the County's benefit shall prevail.

3. CONDUCT OF WORK, CONTRACT ADMINISTRATOR. Contractor shall perform the services described in the Contract Documents in a in a good, workmanlike and substantial manner and to the satisfaction of the County and in a manner that causes the least possible

inconvenience to County and the public and safeguards persons and property from any dangerous activities or conditions conducted or created by Contractor. County's Chief Deputy County Administration Officer shall administer this Agreement for County. County's Board of Supervisors may designate a different person to serve as Contract Administrator by giving advance written notice to Contractor.

(a) Work Schedule. Unless otherwise agreed pursuant to Section 3.01 of the General Conditions, Contractor shall begin work within ten (10) calendar days after receiving the Contract Administrator's Notice to Proceed and shall complete the work within **120 calendar days** after receiving that notice. This work must be complete, operational, and be accepted by the County for its intended use for this milestone to be deemed complete.

(b) Liquidated Damages. Contractor shall pay County $400.00 a day liquidated damages for each day's delay (excluding Saturdays, Sundays, and County observed holidays) in completing the work beyond the time specified for completion of work. All other aspects of the payment of such damages shall be governed by Section 3.12 of the General Conditions and other relevant provisions thereof. The assessment of liquidated damages is not a penalty but considered to be a reasonable estimate of the amount of damages County will suffer by delay in completion of the Project. The County is entitled to setoff the amount of liquidated damages assessed against any payments otherwise due to Contractor, including, but not limited to, setoff against release of retention. If the total amount of liquidated damages assessed exceeds the amount of unreleased retention, County is entitled to recover the balance from Contractor or its sureties. Use of the Project in whole or in part prior to substantial completion, shall not operate as a waiver of County's right to assess liquidated damages.

4. INDEMNIFICATION. With the exception that this section shall in no event be construed to require indemnification by Contractor to a greater extent than permitted under the public policy of the State of California, Contractor shall provide indemnification and defense of the County as set forth in the General Conditions (see sections 2.05 and 2.06 of the General Conditions) and Section 00 62 10 of the Project Manual.

Responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement. In providing any defense under the Contract Documents, Contractor shall use counsel reasonably acceptable to the County.

5. COMPENSATION. PREVAILING WAGE. The County shall pay to the Contractor as full compensation for the performance of this Agreement the Contract Price, subject to any additions or deductions as provided in the Contract Documents. All matters of compensation and payment shall be governed by the General Conditions, including but not limited to Article 25 thereof, provided, however that the total compensation to be paid by County to Contractor shall not exceed the Contract Price. The statement of prevailing wages appearing in the General Prevailing Wage Rate Determinations of the Director of the State of California Department of Industrial Relations are incorporated herein by reference. When two rates differ for similar kinds of labor, Contractor shall pay not less than the higher rate. Contractor shall bear all risks of payment or non-payment of prevailing wages under California law, and Contractor hereby agrees to defend, indemnify, and hold the County, its officials, officers, employees, agents and volunteers, free and

harmless from any claim or liability arising out of any failure or alleged failure to comply with the prevailing wage laws.

6. INSURANCE. Contractor shall maintain the insurance required by the General Conditions and the following insurance while performing the work covered by this Agreement. The comprehensive general liability insurance shall include broad form property damage insurance.

(a) Minimum Coverages (as applicable) - Insurance coverage shall be with limits not less than the following:

1. **Commercial General Liability** Occurrence form Insurance policy (ISO CG 00 01 or equivalent) covering all operations by or on behalf of Contractor, including coverage for:

   a) Premises and Operations

   b) Products and completed Operations

   c) Contractual Liability insuring the obligations assumed by Contractor in this agreement or Blanket Contractual Liability Coverage

   d) Broad Form Property Damage (including Completed Operations)

   e) Explosion, Collapse, and Underground Hazards

   f) Personal Injury Liability

   Limits of liability shall be not less than:

   $5,000,000 each occurrence (combined single limit for bodily injury and property damage)

   $5,000,000 for Personal Injury Liability

   $5,000,000 for Products Completed Operations

   $10,000,000 General Aggregate

   If the policy does not have an endorsement providing that the General Aggregate Limit applies separately, or if defense costs are included in the aggregate limits, then the required aggregate limits shall be $10,000,000.

2. **Automobile Liability** – Insurance policy (ISO CA 00 01) covering Bodily Injury, Property Damage and contractual Liability coverage for "Any Auto" which includes coverage for any owned, hired, borrowed and non-owned automobile, trailer, and equipment coverage, with limits no less than $1,000,000 occurrence (per accident for bodily injury and property damage) and $2,000,000 policy aggregate.

3. **Workers' Compensation** – Statutory Limits/**Employers' Liability** – No less than $1,000,000 per accident for bodily injury or disease.

4. **Builder's Risk** – (Course of Construction) insurance utilizing an "All Risk" (Special Perils) coverage form, with limits equal to the completed value of the project and no coinsurance penalty provisions.

5. **Contractor's Pollution Legal Liability Insurance** – Limits of no less than $2,000,000 per occurrence or claim, and $2,000,000 policy aggregate.

(b) The County, its officers, agents, employees and volunteers shall be named as additional insured on all but the workers' compensation and professional liability coverages. . **[NOTE: Evidence of additional insured may be needed as a separate endorsement due to wording on the certificate negating any additional writing in the description box.]** It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

1. The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

2. The limits of Insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

3. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

4. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

5. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to

provide that the SIR may be satisfied either by the named Insured or Yolo County.

6. Each insurance policy shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the Director (ten (10) days for delinquent insurance premium payments).

7. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

8. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

9. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees, and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

10. The insurer shall waive all rights of subrogation against the County, its officers, employees, agents and volunteers.

(c) Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

(d) During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

(e) Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the

County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/**and or Contractor** shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the agreement prior to commencement of any work and General Contractor/**and or Contractor** will provide proof of compliance to the County of Yolo.

(f) Contractor shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

7. COMPLIANCE WITH LAWS.

(a) Contractor shall comply with all relevant federal, state, and local statutes, regulations, ordinances, rules, orders, and other laws in effect when performing the services required by this Agreement, all as set forth in the General Conditions (including but not limited to Article 20 thereof), and including, but not limited to, the provisions of the California Labor Code and California Public Contract Code that are applicable to this Project.

(b) By its signature hereunder, Contractor further certifies that it is aware of the provisions of Section 3700 of the Labor Code et seq. which require every employer to be insured against liability for worker's compensation or to undertake self-insurance in accordance with the provisions of that code, and CONTRACTOR will comply with such provisions before commencing the performance of the work of this contract.

8. INDEPENDENT CONTRACTOR. While performing the services required by this Agreement for Construction, Contractor shall act as an independent contractor, not as an employee of County, and thus shall be subject to the direction and control of County only for the final result. Contractor shall be solely responsible for paying all required employment taxes and for meeting all employment obligations related to its performance of the services, including but not limited to payment of worker's compensation, liability insurance, social security taxes (i.e., FICA), and tax withholding. Moreover, Contractor shall indemnify, defend (upon County's written request), and protect County from any liability County may incur to federal or state governments for such taxes and obligations. This Agreement does not entitle Contractor or its officers, employees, subcontractors, or agents to vacation pay, sick leave, retirement benefits, disability or unemployment insurance, or employee benefits of any kind from County.

9. INSPECTIONS. All inspections and any remedial action required in response thereto shall be governed by the General Conditions, including but not limited to Article 18 thereof.

10. PERFORMANCE AND PAYMENT BONDS. Within the time set forth in the Proposal

and before performing any services pursuant to this Agreement, Contractor shall provide to County the bonds required by the General Conditions, including but not limited to Article 2 thereof. All other matters relating to bonds shall be governed by the General Conditions.

11. TERM OF AGREEMENT; EARLY TERMINATION. The term and termination of this Agreement shall be governed by the General Conditions, including but not limited to Article 27 thereof.

12. GUARANTY. Guarantees and warranties shall be governed by the General Conditions, including but not limited to Article 26 thereof.

13. AUDIT PROVISIONS. Contractor's records which shall include but not limited to accounting records, subcontract files, correspondence, change order files, and any other supporting evidence necessary to substantiate charges relating to this contact (all the foregoing hereinafter referred to as "records") shall be open to inspection and subject to audit and/or reproduction, during normal working hours, by County's agent or its authorized representative to the extent necessary to adequately permit evaluation and verification of any invoices, payments, or claims submitted by the contractor or any of his payees pursuant to the execution of this Agreement. For the purpose of such audits, inspections, examination, and evaluations, the County's agent or authorized representative shall have access to said records from the effective date of this Agreement, for the duration of the work, and until six years after the date of final payment by County to Contractor pursuant to this Agreement.

14. NONDISCRIMINATION. Contractor certifies that any Work performed or service provided pursuant to this Contract shall be without discrimination based on color, race, creed, national origin, religion, sex, age, sexual preferences, or physical or mental disability in accordance with all applicable Federal, State and County laws and regulations and any administrative directives established by the County Board of Supervisors or the County Administrative Officer. For the purpose of this Contract, distinctions on the grounds of color, race, creed, national origin, religion, sex, age, sexual preferences, or physical or mental disability include but are not limited to the following: denying a participant any service or benefit which is different, or is provided in a different manner or at a different time from that provided to other participants under this Contract; subjecting a participant to segregation or separate treatment in any way in the enjoyment or any advantage or privilege enjoyed by others receiving any service or benefit; treating a participant differently from others in determining whether the participant has satisfied any admission, enrollment quota, eligibility, membership, or other requirement or condition which individuals must meet in order to be provided any service or benefit; and the assignment of times or places for the provision of services.

15. PROCEDURE FOR RESOLVING CLAIMS.

Contractor shall timely comply with any and all requirement of the Contract Documents pertaining to notices and requests for changes to the Contract Time or Contract Price as a prerequisite to filing any claim governed by this Section. The failure to timely submit a notice of delay or notice of change, or to timely request a change to the time for completion or Contractor's compensation, or to timely provide any other notice or request required herein shall constitute a waiver of the right to further pursue the claim under the Contract or at law. This claim resolution procedure shall control over any conflicting claim or dispute resolution procedure in the Contract Documents.

(a) **Intent.** Section 20104 et seq., of the California Public Contract Code prescribes a process utilizing informal conferences, non-binding judicial supervised mediation, and judicial arbitration to resolve disputes on construction claims of $375,000 or less. Section 9204 of the Public Contract Code prescribes a process for negotiation and mediation to resolve disputes on construction claims. The intent of this Section is to implement Sections 20104 et seq. and Section 9204 of the California Public Contract Code. This Section shall be construed to be consistent with all applicable law, including but not limited to these statutes.

(b) **Claims.** For purposes of this Section, "Claim" means a separate demand by the Contractor for:

i. An adjustment to the time for completion including, without limitation, for relief from damages or penalties for delay assessed by the County;
ii. Payment by the County of money or damages arising from Work done by or on behalf of the Contractor pursuant to the Contract, payment for which is not otherwise expressly provided or to which the Contractor is not otherwise entitled; or
iii. An amount the payment of which is disputed by the County.

A "Claim" does not include any demand for payment for which the CONTRACTOR has failed to provide notice, request a Contract Change Order, or otherwise failed to follow any procedures contained in the Contract Documents.

(c) **Filing Claims**. Claims governed by this Section may not be filed unless and until the Contractor completes any and all requirements of the Contract Documents pertaining to notices and requests for changes to the Contract Price or Contract Time, and Contractor's request for a change has been denied in whole or in part. Claims governed by this Section must be filed no later than fourteen (14) days after a request for change has been denied in whole or in part or after any other event giving rise to the Claim. The Claim shall be submitted in writing to the County and shall include on its first page the following words in 16 point capital font: "THIS IS A CLAIM." The Claim shall include all information and documents necessary to substantiate the Claim, including but not limited to those identified below. Nothing in this Section is intended to extend the time limit or supersede notice requirements otherwise provided by Contract Documents. Failure to follow such contractual requirements shall bar any Claims or subsequent proceedings for compensation or payment thereon.

(d) **Documentation.** The Contractor shall submit all Claims in the following format:

i. Summary description of Claim including basis of entitlement, merit and amount of time or money requested, with specific reference to the Contract Documents provisions pursuant to which the Claim is made
ii. List of documents relating to Claim:
    i. Specifications
    ii. Drawings
    iii. Clarifications (Requests for Information)
    iv. Schedules

v. Other

iii. Chronology of events and correspondence

iv. Narrative analysis of Claim merit

v. Analysis of Claim cost, including calculations and supporting documents

vi. Time impact analysis in the form required by the Contract Documents, if the Contract Documents do not require a particular format, CPM format, if an adjustment of the Contract Time is requested

(e) **County's Response.** Upon receipt of a Claim pursuant to this Section, the County shall conduct a reasonable review of the Claim and, within a period not to exceed forty-five (45) days, shall provide the Contractor a written statement identifying what portion of the Claim is disputed and what portion is undisputed. Any payment due on an undisputed portion of the Claim will be processed and made within sixty (60) days after the County issues its written statement.

i. If the County needs approval from its governing body to provide the Contractor a written statement identifying the disputed portion and the undisputed portion of the Claim, and the County's governing body does not meet within the forty-five (45) days or within the mutually agreed to extension of time following receipt of a Claim sent by registered mail or certified mail, return receipt requested, the County shall have up to three (3) days following the next duly publicly noticed meeting of the County's governing body after the forty-five (45) day period, or extension, expires to provide the Contractor a written statement identifying the disputed portion and the undisputed portion.

ii. Within thirty (30) days of receipt of a Claim, the County may request in writing additional documentation supporting the Claim or relating to defenses or Claims the County may have against the Contractor. If additional information is thereafter required, it shall be requested and provided pursuant to this subdivision, upon mutual agreement of the County and the Contractor. The County's written response to the Claim, as further documented, shall be submitted to the Contractor within thirty (30) days (if the Claim is less than $50,000, within fifteen (15) days after receipt of the further documentation, or within a period of time no greater than that taken by the Contractor in producing the additional information or requested documentation, whichever is greater.

(f) Meet and Confer. If the Contractor disputes the County's written response, or the County fails to respond within the time prescribed, the Contractor may so notify the County, in writing, either within fifteen (15) DAYS of receipt of the County's response or within fifteen (15) days of the County's failure to respond within the time prescribed, respectively, and demand in writing an informal conference to meet and confer for settlement of the issues in dispute. Upon receipt of a demand, the County shall schedule a meet and confer conference within thirty (30) days for settlement of the dispute.

(g) **Mediation.** Within ten (10) business days following the conclusion of the meet and confer conference, if the Claim or any portion of the Claim remains in dispute, the County shall provide the Contractor a written statement identifying the portion of the Claim that remains in dispute and the portion that is undisputed. Any payment due on an undisputed portion of the Claim shall be processed and made within sixty (60) days after the County issues its written statement. Any disputed portion of the Claim, as identified by the Contractor in writing, shall be submitted to nonbinding mediation, with the County and the Contractor sharing the associated costs equally. The County and Contractor shall mutually agree to a mediator within ten (10) business days after the disputed portion of the Claim has been identified in writing, unless the parties agree to select a mediator at a later time.

i. If the parties cannot agree upon a mediator, each party shall select a mediator and those mediators shall select a qualified neutral third party to mediate with regard to the disputed portion of the Claim. Each party shall bear the fees and costs charged by its respective mediator in connection with the selection of the neutral mediator.

ii. For purposes of this Section, mediation includes any nonbinding process, including, but not limited to, neutral evaluation or a dispute review board, in which an independent third party or board assists the parties in dispute resolution through negotiation or by issuance of an evaluation. Any mediation utilized shall conform to the timeframes in this Section.

iii. Unless otherwise agreed to by the County and the Contractor in writing, the mediation conducted pursuant to this Section shall excuse any further obligation under Section 20104.4 to mediate after litigation has been commenced.

iv. The mediation shall be held no earlier than the date the Contractor completes the Work or the date that the Contractor last performs Work, whichever is earlier. All unresolved Claims shall be considered jointly in a single mediation, unless a new unrelated Claim arises after mediation is completed.

(h) **Procedures After Mediation.** If following the mediation, the Claim or any portion remains in dispute, the Contractor must file a Claim pursuant to Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code prior to initiating litigation. For purposes of those provisions, the running of the period of time within which a Claim must be filed shall be tolled from the time the Contractor submits his or her written Claim pursuant to subdivision (a) until the time the Claim is denied, including any period of time utilized by the meet and confer conference.

(i) **Civil Actions.** The following procedures are established for all civil actions filed to resolve Claims of $375,000 or less:

i. Within sixty (60) days, but no earlier than thirty (30) days, following the filing or responsive pleadings, the court shall submit the matter to non-binding mediation unless waived by mutual stipulation of both parties or unless mediation was held prior to commencement of the action in accordance with Public Contract Code section 9204 and the terms of this Contract. The mediation process shall provide for the selection within fifteen (15) days by both parties of a disinterested third person as

mediator, shall be commenced within thirty (30) days of the submittal, and shall be concluded within fifteen (15) days from the commencement of the mediation unless a time requirement is extended upon a good cause showing to the court.

ii. If the matter remains in dispute, the case shall be submitted to judicial arbitration pursuant to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, notwithstanding Section 1114.11 of that code. The Civil Discovery Act of 1986 (Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subdivision consistent with the rules pertaining to judicial arbitration. In addition to Chapter 2.5 (commencing with Section 1141.10) of Title 3 of Part 3 of the Code of Civil Procedure, (A) arbitrators shall, when possible, be experienced in construction law, and (B) any party appealing an arbitration award who does not obtain a more favorable judgment shall, in addition to payment of costs and fees under that chapter, also pay the attorney's fees on appeal of the other party.

(j) Government Code Claim Procedures.

i. This Section does not apply to tort claims and nothing in this Section is intended nor shall be construed to change the time periods for filing tort claims or actions specified by Chapter 1 (commending with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.5 of Title 1 of the Government Code.

ii. In addition to any and all requirements of the C pertaining to Contract Documents notices of and requests for adjustment to the Contract Time, Contract Price, or compensation or payment for extra work, disputed Work, construction claims and/or changed conditions, the Contractor must comply with the claim procedures set forth in Government Code Section 900, et seq. prior to filing any lawsuit against the County.

iii. Such Government Code claims and any subsequent lawsuit based upon the Government Code claims shall be limited to those matters that remain unresolved after all procedures pertaining to adjustment of the Contract Time or Contract Work for extra work, disputed work, construction claims, and/or changed conditions have been followed by Contractor. If Contractor does not comply with the Government Code claim procedure or the prerequisite contractual requirements, Contractor may not file any action against the County.

iv. **A Government Code claim must be filed no earlier than the date the Project is completed or the date the Contractor last performs work on the Project, whichever occurs first. A Government Code claim shall be inclusive of all unresolved claims known to Contractor or that should reasonably by known to Contractor excepting only new unrelated Claims that arise after the Government Code claim is submitted.**

(k) **Non-Waiver.** The County's failure to respond to a Claim from the Contractor within the time periods described in this Section or to otherwise meet the time requirements of this

Section shall result in the Claim being deemed rejected in its entirety and shall not constitute a waiver of any rights under this Section.

16. MISCELLANEOUS.

(a) Notice. Except as provided in Section 6, all correspondence regarding this Agreement, including invoices, payments, and notices, shall be directed to the following persons at the following addresses and phone number:

County:

Ryan Pistochini
Director, Yolo County General Services Department
120 W. Main St., Suite G
Woodland, CA 95695
Telephone: (530) 666-8888

Contractor:

Pro-Ex Construction, Inc.
David Cherngy, Secretary
3223 Luyung Drive
Rancho Cordova, CA 95742
(916) 970-007

If written, correspondence shall be sent by personal delivery (including overnight delivery service); by U.S. Mail, postage prepaid; or by fax during business hours. Notices must be actually received to be effective.

(b) Time of Essence. Time is of the essence of this Agreement.

(c) Interpretation and Jurisdiction. This Agreement shall be interpreted and applied in accordance with California law. In the event of a dispute between the parties as to the language of this Contract or the construction or meaning of any term hereof, this Contract shall be deemed to have been drafted by the parties in equal parts so that no presumptions or inferences concerning its terms or interpretation may be construed against any party to this Contract. Any action or proceeding arising out of this Contract shall be filed in a California Superior Court located in Woodland, California.

(d) Waiver. A party's failure to insist on strict performance of this Agreement or to exercise any right or remedy upon breach of this Agreement shall not constitute a waiver of such performance, right, or remedy. No waiver is binding unless set forth in a writing signed by the waiving party.

(e) Assignments and subcontracts. Contractor shall not assign this Agreement. Contractor may subcontract any of the services described in Section 1 (Scope of Work) with County's prior written consent. Contractor shall require each subcontractor to agree in

writing to be bound by Section 4 (Indemnification) and Section 6 (Insurance) of this Agreement. County shall consider all subcontractors to be Contractor's employees, and Contractor shall be responsible for their work.

(f) **Dispute Resolution**. Unless the General Conditions provide otherwise, if the Contract Administrator notifies Contractor that the work or any portion of it is unacceptable, then the Contract Administrator and Contractor shall meet at the Yolo County Office of County Administrator, 625 Court Street #202, Woodland, California, within five (5) days after Contractor receives the notice (excluding Saturdays, Sundays, and County observed holidays) and shall attempt in good faith to resolve their differences. Payment shall not constitute approval or acceptance of any defective work.

(g) **Integration.** This Agreement sets forth the parties' entire understanding regarding the matters set forth in herein. It supersedes all prior Agreements and representations, written and oral, and may be modified only by a written amendment approved by County's Chief Deputy County Administration Officer and signed by County and Contractor.

(h) **Effective date.** This Agreement shall be effective on the last date shown below.

(i) **Public Record.** Upon its execution, this Agreement (including all exhibits and attachments) shall be subject to disclosure pursuant to the California Public Records Act.

Dated this 24 day of March, 2022

5. Subcontractors are listed on the attached document 00 43 00, Subcontractors List.

6. The undersigned understands that the County reserves the right to reject this Bid, but that this Bid shall remain open and shall not be withdrawn for a period of one hundred twenty days (120) calendar days from the date prescribed for its opening (to accommodate State financing process).

7. If written notice of the acceptance of this Bid, hereinafter referred to as Notice of Award, is mailed or delivered to the Undersigned within the stipulated time after the date set for the opening of this Bid, or at any other time thereafter before it is withdrawn, the undersigned will execute and deliver the documents required by Document 00 20 00 Instructions to Bidders including, but not limited to, Document 00 52 00 Agreement, Document 00 61 00 Performance Bond, and Document 00 62 00 Payment Bond and Escrow Bid Documents, all within ten (10) calendar days after personal delivery or after receipt in the mails of the Notice of Award.

8. Notice of Award or request for additional information may be addressed to the undersigned at the address set forth below.

9. The undersigned herewith encloses a cash, cashier's check, certified check or corporate surety bond in the amount of ten percent (10%) of the total of Bid Items and made payable to: County of Yolo and is subject to all conditions imposed by law.

10. The undersigned agrees to commence work under this Contract on the date established and to complete all work within the time specified in Document 00 52 00 (Contract).

11. The undersigned agrees that, in accordance with Document 00 70 00 General Conditions liquidated damages for failure to complete all work in the contract within the time specified are as set forth in Document 00 52 00 (Agreement).

12. The undersigned herewith encloses the completed Bidder's Bond – 00 42 00.
13. The undersigned herewith encloses the completed Subcontractors List – 00 43 00.
14. The undersigned herewith encloses the completed Bidder Information Sheet – 00 44 00.
15. The undersigned herewith encloses the completed List of Successful Projects form – 00 45

To: The Chair and Members of the Board of Supervisors

Consent-General Government **34.**
Board of Supervisors **Human Resources**
Meeting Date: 06/06/2023
Brief Title: Comprehensive HR Item
From: Alberto Lara, Director of Human Resources, Human Resources
Staff Contact: Renee Croswell, Senior Personnel Analyst, Human Resources, x8064

Subject
Adopt Authorized Position and Salary Resolution to implement changes in the Health & Human Services Agency; and approve an accelerated merit step increase for a Senior Environmental Health Technician in the Department of Community Services and the Assistant County Librarian in the Library. (No general fund impact) (Lara)

Recommended Action

A. Adopt Authorized Position and Salary Resolution to implement changes in Health & Human Services Agency; and

B. Approve an accelerated merit step increase for a Senior Environmental Health Technician in the Department of Community Services from Step 4 to Step 5 for exceptional qualifications, effective June 18, 2023; and the Assistant County Librarian in the Library, from Step 3 to Step 4 for exceptional qualifications, effective June 18, 2023.

Strategic Plan Goal(s)

In Support of All Goals (Internal Departments Only)

- Provision of organizational supports and services
- County operational excellence plan

Fiscal Impact
Department: Health & Human Services Agency
Position(s): HHSA Program Coordinator
Current Year Fiscal Savings: $6,952
Annual Fiscal Savings: $90,376
Source of Funds: State & Federal Funding
Explanation: Deletes one (1) limited term full-time position in the Child, Youth & Family Branch.

Reason for Recommended Action/Background
See Attachment A for changes to the Authorized Position and Salary Resolution.

Human Resources recommends the Board approve the request from the Department of Community Services to grant an accelerated merit step increase to Step 5 for Cassandra Mendoza, upon promotion to the class of Senior Environmental Health Technician, for exceptional qualifications, effective June 18, 2023. The Board of Supervisors may adjust the salary of an incumbent to any step within the salary range in order to correct inequities, reward outstanding achievement and performance, or for other reasons acceptable to the Board. Ms. Mendoza has been working as an Environmental Health Technician for the past nine years and in a lead capacity for the past three years. She plays a key role in training new staff in all areas of the Environmental Health Technician duties. She is extremely knowledgeable and handles the more difficult and complex assignments in the unit. Ms. Mendoza's skill set, knowledge and longevity in the position justify starting her at the highest step. This action will result in a 5% increase for the incumbent.

Human Resources recommends the Board approve the request from the Library to grant an accelerated merit step increase to Step 4 for Dana Christy, upon promotion to the class of Assistant County Librarian, for exceptional qualifications, effective June 18, 2023. The Board of Supervisors may adjust the salary of an incumbent to any step within the salary range in order to correct inequities, reward outstanding achievement and performance, or for other reasons acceptable to the Board. Ms. Christy has over 25 years of supervisory experience, thirteen of which have been in public libraries. She is a talented professional with a commitment to diversity, equity, and inclusion in public service and in staff recruitment and development. Ms. Christy was hired by Yolo County Library in 2010 as Circulation Supervisor and has worked to ensure high levels of customer service and has implemented ways to reduce barriers to service in high-need communities. Because of her extraordinary job performance, she has been promoted several times at Yolo County Library. She was appointed to the Interim Assistant County Librarian in September 2022, and has been indispensable in this role This action will result in a 5% increase for the incumbent.

Consent-Health & Human Services 35.
Board of Supervisors **Public Health**

Meeting Date:	06/06/2023
Brief Title:	Agreement with CA Dept of Public Health for CA Nursing Home and Long-Term Care Infrastructure and Preparedness Project
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Brian Vaughn, Public Health Branch Director, Health and Human Services Agency, x8771
Supervisorial District Impact:	Countywide

Subject
Adopt resolution authorizing the Chair to sign State Agreement No. 22-11257 with California Department of Public Health in the amount of $427,605 for the period of May 1, 2023 through May 10, 2024 for the California Nursing Home and Long-Term Care Infrastructure and Preparedness Project. (No general fund impact) (Sullivan)

Recommended Action

A. Adopt resolution authorizing the Chair to sign State Agreement No. 22-11257 with California Department of Public Health in the amount of $427,605 for the period of May 1, 2023 through May 10, 2024 for the provision of CA Nursing Home and Long-Term Care Infrastructure and Preparedness Project;

B. Authorize the Yolo County Procurement Manager, or designee, to execute any non-financial extensions or amendments of the Agreement upon approval as to form by County Counsel; and

C. Authorize the Director of Health and Human Services Agency, or designee, to execute any fiscal and program forms and reports required under this Agreement, including forms and reports required under any extensions or amendments thereto.

Strategic Plan Goal(s)

Thriving Residents

Safe Communities

Reason for Recommended Action/Background
The purpose of this grant is to assist the County with supporting nursing homes (skilled nursing facilities and long-term care facilities) to respond to SARS-CoV-2 infections, and to build and maintain the infection prevention infrastructure necessary to support resident, visitor, and facility healthcare personnel safety. Long-term care facility residents continue to be at highest risk of severe disease and death due to COVID-19, as well as other infectious conditions such as influenza, antibiotic resistant bacteria, and respiratory syncytial virus. This grant will enable the County to maintain and expand the infection control and prevention infrastructure achieved during the COVID-19 pandemic that protects these vulnerable residents.

The grant will build the County's internal infection prevention capacity to provide education, training, and support to skilled nursing facilities and other long-term care facilities. County staff will engage facility leadership and infection preventionists to provide initial and refresher training for facility staff and caregivers on how to conduct and interpret point of care COVID-19 and influenza A/B antigen tests. County staff will also staff and support continued COVID-19 and influenza vaccination and help facilities to enroll in the California Immunization Registry in order to verify resident vaccination statuses.

Performance Measures included in this Agreement are as follows:
Performance Measures are not associated with this Agreement.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.

Competitive Bid Process/Vendor Performance
Not applicable for revenue agreements.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$427,605
Amount budgeted for expenditure	$427,605
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
State Grant	$427,605

Further explanation as needed

No general funds are required by this action. The total amount of this action is $427,605 in revenue for the period of May 1, 2023 through May 10, 2024. The amount of $427,605 is included in the HHSA adopted budget for 2023-24.

COUNTY OF YOLO, CALIFORNIA
RESOLUTION NO. ___-____

Resolution Authorizing Execution of State Agreement No. 22-11257 with CA Dept of Public Health for the CA Nursing Home and Long-Term Care Infrastructure and Preparedness Project

WHEREAS, the County of Yolo ("County") has been designated to receive $427,605 in grant funding from the California Department of Public Health ("CDPH") to fund the CA Nursing Home and Long-Term Care Infrastructure and Preparedness Project; and

WHEREAS, it appears to be in the best interest of the County, its residents, and its clients to enter into this Agreement;

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Chair of the Board of Supervisors is approved to execute this Agreement to receive funding in the amount of $427,605 for the period of May 1, 2023 through May 10, 2024.

2. The Yolo County Procurement Manager, or designee, is authorized to execute any non-financial extensions or amendments of the Agreement upon approval as to form by County Counsel.

3. The Director of the Health and Human Services Agency ("HHSA"), or designee, is authorized to execute any fiscal and program reports required under this Agreement, including reports required under any extensions or amendments thereto.

Healthcare Associated Infections Program

Awarded By

THE CALIFORNIA DEPARTMENT OF PUBLIC HEALTH, hereinafter "Department"

TO

County of Yolo Health and Human Services Agency, Public Health Branch, hereinafter "Grantee"

Implementing the "California Nursing Home and Long-Term Care Infrastructure and Preparedness Project," hereinafter "Project"

GRANT AGREEMENT NUMBER 22-11257

The Department awards this Grant and the Grantee accepts and agrees to use the Grant funds as follows:

AUTHORITY: The Department has authority to grant funds for the Project under Health and Safety Code 100375, 100380, and American Rescue Plan Act of 2021, P.L. 117-2.

PURPOSE: The Department shall award this Grant Agreement to and for the benefit of the Grantee; the purpose of the Grant is to assist recipients with supporting nursing homes (skilled nursing facilities and long-term care facilities) during their response to SARS-CoV-2 infections, and to build and maintain the infection prevention infrastructure necessary to support resident, visitor, and facility healthcare personnel safety. Other infectious diseases and conditions may be reasonably addressed to the extent they are in support of or related to work to control the spread of SARS-CoV-2.

GRANT AMOUNT: The maximum amount payable under this Grant Agreement shall not exceed the amount of $427,605.00.

TERM OF GRANT AGREEMENT: The term of the Grant shall begin on May 1, 2023, or upon approval of this grant, and terminates on May 10, 2024. No funds may be requested or invoiced for services performed or costs incurred after May 10, 2024.

PROJECT REPRESENTATIVES. The Project Representatives during the term of this Grant will be:

California Department of Public Health	Grantee: **County of Yolo Health and Human Services Agency, Public Health Branch**
Name: Erin Epson, Medical Director and Chief, Healthcare Associated Infections Program	Name: Brian Vaughn, Public Health Branch Director
Address: 850 Marina Bay Parkway, Bldg E	Address: 137 North Cottonwood

City, ZIP: Richmond, CA 94804	City, ZIP: Woodland, CA 95695

All payments from CDPH to the Grantee; shall be sent to the following address:

Remittance Address
Grantee: County of Yolo Health and Human Services Agency, Public Health Branch
Attention “Cashier”:
Address: PO Box 1268
City, Zip: Woodland, CA 96776
Phone: (530) 666-8530
E-mail: Marcie.azevado@yolocounty.org

Either party may make changes to the Project Representatives, or remittance address, by giving a written notice to the other party, said changes shall not require an amendment to this agreement but must be maintained as supporting documentation. Note: Remittance address changes will require the Grantee to submit a completed CDPH 9083 Governmental Entity Taxpayer ID Form or STD 204 Payee Data Record Form and the STD 205 Payee Data Supplement which can be requested through the CDPH Project Representatives for processing.

STANDARD GRANT PROVISIONS. The Grantee must adhere to all Exhibits listed and any subsequent revisions. The following Exhibits are attached hereto or attached by reference and made a part of this Grant Agreement:

Exhibit A, GRANT APPLICATION (Attached)

Exhibit A, ATTACHMENT 1 - GRANTEE'S WRITTEN MODIFICATIONS, this document shall supersede the Grant Application which includes the final Scope of Work and Budget Cost Sheet and shall be incorporated by reference or attached hereto.

Note: Once the Grant Agreement has been fully executed, requests for modifications/changes thereafter to the existing Exhibit A and/or Exhibit A, Attachment 1, do not require a formal amendment but must be agreed to in writing by both parties. The CDPH/Grantee Project Representatives are responsible for keeping records of approved modifications/changes. Such modifications/changes must be made at least 30 days prior to implementation. A formal written amendment is required when there is an increase or decrease in funding or a change in the term of the agreement.

Exhibit B BUDGET DETAIL AND PAYMENT PROVISIONS (Attached)

Exhibit C STANDARD GRANT CONDITIONS (Attached)

Exhibit D REQUEST FOR APPLICATION (RFA) (view document at: https://www.cdph.ca.gov/Programs/CHCQ/HAI/Pages/LTC_InfrastructureProject_RFA.aspx Including all the requirements and attachments contained therein)

Exhibit E ADDITIONAL PROVISIONS (Attached)

Exhibit F FEDERAL TERMS AND CONDITIONS (Attached)

GRANTEE REPRESENTATIONS: The Grantee(s) accept all terms, provisions, and conditions of this grant, including those stated in the Exhibits incorporated by reference above. The Grantee(s) shall fulfill all assurances and commitments made in the application, declarations, other accompanying documents, and written communications (e.g., e-mail, correspondence) filed in support of the request for grant funding. The Grantee(s) shall comply with and require its subgrantee's to comply with all applicable laws, policies, and regulations.

IN WITNESS THEREOF, the parties have executed this Grant on the dates set forth below.

Exhibit A, Attachment 1
Final Scope of Work

1. Service Overview

Grantee agrees to complete the Scope of Work described herein.

The purpose of this project is to support skilled nursing facilities, nursing homes, and other long-term care facilities during their response to SARS-CoV-2 infections, and to build and maintain the infection prevention infrastructure necessary to support resident, visitor, and healthcare personnel safety. Other infectious diseases and conditions may be reasonably addressed to the extent they are in support of or related to work to control the spread of SARS-CoV-2.

2. Service Location

The services shall be performed at the locations specified in the Scope of Work.

3. Service Hours

The Grantee will be available during the hours of 8:00 a.m. to 5:00 p.m., Monday through Friday, except official holidays, and activities will be conducted in accordance with the Scope of Work.

4. The strategy numbers identified in the agreement are not listed in sequential order because each number represents only those specific strategies applicable to the activities to be conducted in the Scope of Work.

5. See the following pages for a detailed description of the Scope of Work to be performed.

Infection Prevention and Control Training, Assessment and Support

Strategy 1: Local health department expands own infection prevention capacity to provide infection prevention education, training, and support to skilled nursing and other long-term care facilities in their jurisdiction. Include active outreach and ongoing engagement of facility leadership, and provision of on-site infection prevention program assessments and support outside the context of active outbreak response (e.g., "pre-emptive" assessments in facilities at high risk of outbreaks, or to ensure gaps addressed following an outbreak).

Activity #	Activity *Include specifics, such as numbers, locations, how to be accomplished, outputs*	Person Responsible *Include Title*	Tracking Measure *Proof of execution if requested*	Anticipated Completion *Month/Year*
1.1	Develop and implement plan to expand capacity to provide infection prevention support to facilities during outbreaks	Ada Barros, Outbreaks Lead	Written plan	August 2023
1.2	Train three Outbreak Investigators in COVID infection prevention through online trainings and in-house training provided by Public Health Nurse	Ada Barros, Outbreaks Lead, Xee Moua PHN	Training curriculum Attendees' logs	September 2023
1.3	Provide IP support, virtual and in-person as needed, to all facilities experiencing COVID-19, influenza, and other communicable disease outbreaks	Etheljean Tugadi, Edgar Rugamas-Castro Outbreak Investigators, Xee Moua PHN, Justin Olvera Administrative Services Analyst	Calendar of visits Summary of recommendations Outbreak report	May 2024
1.4	Collaborate with LTCFs to update or develop, and implement their plans to improve facility infection prevention practices and capacity	Ada Barros, Outbreaks Lead	Written plan	November 2023
1.5	Identify facilities with above average infectious disease outbreaks/case numbers by reviewing local data	TBD, Administrative Services Analyst	Priority facility list	August 2023
1.6	Provide pre-emptive infection prevention assessments to identified high-risk facilities using the CDC's Infection Control Assessment and Response (ICAR) tool	Ada Barros, Outbreaks Lead, Xee Moua PHN	Assessment tool Summary of recommendations	May 2024
1.7	Update and enhance policy and procedure tools for outbreak investigations for pathogens most common in Yolo LTCFs: COVID, influenza, scabies, and CRAB	Ada Barros, Outbreaks Lead, Justin Olvera Administrative Services Analyst	Adopted P/P	December 2023
1.8	Develop a simple training for onboarding new staff to routine policies and procedures for identifying, investigating, and escalating outbreaks in LTCFs	Ada Barros, Outbreaks Lead	Training materials	December 2023

1.9	[Add process or outcome measure(s) or how you will evaluate impact] **Output measure 1:** Three staff trained on infection prevention **Measure 1.a:** All facilities experiencing outbreaks that request IP support receiving support from trained staff	TBD, Administrative Services Analyst	Staff training logs, Outbreak Exposure Events in CalCONNECT	May 2024
1.10	**Output measure 2:** Facilities at highest risk of outbreaks identified **Measure 2.a:** Pre-emptive on-site assessments completed with at least 10 facilities	TBD, Administrative Services Analyst	Site assessments List of LTCFs	May 2024

Testing to Detect Pathogens and Guide Infection Prevention and Control Activities

Strategy 3: Engage facility leadership and infection preventionists to provide initial and refresher training of facility staff and caregivers on how to conduct and interpret point of care antigen tests for COVID-19 and influenza A/B. Training should include how to appropriately collect anterior nasal specimens, how to conduct the test, and how to read the results. The training could also include how to set up onsite staff and visitor testing, when to send a confirmatory molecular test, and how to use and interpret antigen tests during response testing.

Activity #	Activity *Include specifics, such as numbers, locations, how to be accomplished, outputs*	Person Responsible *Include Title*	Tracking Measure *Proof of execution if requested*	Anticipated Completion *Month/Year*
3.1	Develop plan to engage facility leadership and infection preventionists to provide initial and refresher training of facility staff and caregivers on how to conduct and interpret point of care antigen tests for COVID-19 and influenza A/B.	Kellymarie Chen, Primary Prevention Lead	Written plan	August 2023
3.2	Provide train-the trainer to facility leadership and health staff on proper use of point of care antigen test kits at 10 or more facilities, which will include anterior nasal specimen collection, how to conduct the test, how to read results, how to set up on-site staff and visitor testing, when to send a confirmatory PCR test, and how to use and interpret antigen tests during response testing	TBD, Outreach Specialist II Primary Prevention	List of facilities and leaders trained Training materials	May 2024
3.3	Review local training logs that track which facilities have received point-of-care test training in the past three years [clarify] to identify facilities in need of refresher training	TBD, Outreach Specialist II Primary Prevention	Training logs	August 2023
3.4	Provide facilities with antigen test kits for first round of response-driven testing when facility supply is insufficient	TBD, Outreach Specialist II Primary Prevention	Test kit distribution logs	Ongoing – May 2024
3.5	Develop and track process measure to assess that facilities are equipped to properly use point of care tests to detect pathogens	TBD, Administrative Services Analyst, Robert Herrick	Process measure developed Tracking tool developed	August 2023

		PH Epidemiologist		
3.6	Develop and track process measure to assess that facilities are able to rapidly test residents when infection is suspected	TBD, Administrative Services Analyst, Robert Herrick PH Epidemiologist	Process measure developed Tracking tool developed	August 2023
3.7	Develop and track process measure to assess that all facilities have adequate units of free test kits to support testing of symptomatic and exposed residents	TBD, Administrative Services Analyst, Robert Herrick PH Epidemiologist	Process measure developed Tracking tool developed	August 2023

Technology, Staffing, Supplies to Support Vaccination

Strategy 4: Staff and support of COVID19 vaccination teams for on-site clinics at long-term care facilities, especially adult and senior residential facilities (also commonly referred to as assisted living facilities)

Activity #	Activity *Include specifics, such as numbers, locations, how to be accomplished, outputs*	Person Responsible *Include Title*	Tracking Measure *Proof of execution if requested*	Anticipated Completion *Month/Year*
4.1	Staff and support a COVID-19 and influenza vaccination teams for on-site clinics at long-term care facilities, especially adult and senior residential facilities, as long as state-supplied vaccine doses are available	Oscar Velasco Vaccine Lead	Org chart	Ongoing - May 2024
4.2	Identify facilities with lowest vaccination coverage by reviewing resident lists and comparing to state vaccine registries	Robert Herrick PH Epidemiologist	List of vaccination coverage by facility	October 2023
4.3	Hold on-site COVID-19 and influenza (as available) clinics at 5 or more facilities with lowest vaccination rates, as long as state-supplied vaccine doses are available	Oscar Velasco Vaccine Lead	MyTurn reports, local Vaccine Clinic tracker	Ongoing – May 2024
4.4	Develop and track process measure to assess LTCF baseline and post-intervention vaccination rates, with goal of 20% increase	TBD, Administrative Services Analyst, Robert Herrick PH Epidemiologist	Process measure developed, post-assessment	August 2023

Strategy 5: Support facility staff to create and maintain facility plans on accessing vaccine resources (seasonal flu vaccine, COVID vaccine, etc.)

Activity #	Activity *Include specifics, such as numbers, locations, how to be accomplished, outputs*	Person Responsible *Include Title*	Tracking Measure *Proof of execution if requested*	Anticipated Completion *Month/Year*
5.1	Support facility staff to create and maintain facility plans for accessing vaccine resources by providing example plans, reviewing and providing feedback on plans as requested by facilities	Oscar Velasco Vaccine Lead	Summary of vaccine access plan feedback	May 2024
5.2	Develop and track outcome measure to assess the number of LTCFs with a facility plan for accessing vaccine resources	Oscar Velasco Vaccine Lead, TBD Outreach Specialist	List of facilities with plans	August 2023

Strategy 6: Support LTCFs to enroll in and use the California Immunization Registry (CAIR) to share vaccine information.

Activity #	Activity *Include specifics, such as numbers, locations, how to be accomplished, outputs*	Person Responsible *Include Title*	Tracking Measure *Proof of execution if requested*	Anticipated Completion *Month/Year*
6.1	Develop a plan to support long-term care facilities to enroll in and use the California Immunization Registry (CAIR)	Oscar Velasco Vaccine Lead	Plan completed	September 2023
6.2	Identify facilities currently not enrolled in CAIR by reviewing CAIR	TBD, Administrative Services Analyst	List of facilities not enrolled in CAIR	September 2023
6.3	Create CAIR training tailored for Yolo facilities	Oscar Velasco Vaccine Lead, Patricia Guzman Outreach Specialist II Vaccines	Training materials	November 2023
6.4	Provide in-person or virtual training to facility staff in 10 or more LTCFs	Patricia Guzman Outreach Specialist II Vaccines	Training schedule Attendee list	May 2024
6.5	Track number of facilities enrolled in CAIR pre- and post-training	TBD Outreach Specialist II	List of facilities not enrolled in CAIR before and after intervention	May 2024

Ventilation and Respiratory Protection and Healthcare Personnel Safety

Strategy 12: Expand the capacity to provide train-the-trainer respiratory protection fit test training to skilled nursing facilities and other long-term care facilities through active outreach and ongoing engagement of facility leadership and encouraging (or assisting to establish) fully Cal/OSHA compliant respiratory protection programs within facilities, including written programs, training, fit testing, respirator selection, etc.

Activity #	Activity *Include specifics, such as numbers, locations, how to be accomplished, outputs*	Person Responsible *Include Title*	Tracking Measure *Proof of execution if requested*	Anticipated Completion *Month/Year*
12.1	Develop and implement plan to retain capacity for respiratory protection fit testing training and train facility leadership and staff.	Etheljean Tugadi, Edgar Rugamas-Castro Outbreak Investigators	Plan completed	May 2024
12.2	Provide train-the-trainer fit test training or refresher training to leadership in 18 facilities in HPI Q1 and Q2 quartiles	Etheljean Tugadi, Edgar Rugamas-Castro Outbreak Investigators	Training material Leader attendees' logs	May 2024
12.3	Survey LTCFs in Yolo County to identify facilities in need of fit-test training or refresher training	Etheljean Tugadi, Edgar Rugamas-Castro Outbreak Investigators	Survey completed	December 2023
12.4	Review current locally-developed fit test training curriculum and make updates as needed	Xee Moua PHN	Training curriculum	December 2023
12.5	Train 3 or more Public Health staff to conduct train-the-trainer	Xee Moua PHN	Staff training logs	December 2023
12.6	Develop and implement a tool to assess the effectiveness of fit test train-the-trainer on proper N95 mask fit among facility staff	Ada Barros Program Coordinator	Assessment tool	May 2024
12.7	Track impact of these activities by measuring 2022 versus 2023 incidences of respiratory outbreaks in Yolo LTCFs	TBD, Administrative Services Analyst, Robert Herrick PH Epidemiologist	Analysis	May 2024

Problem and Needs

Residents of long-term care facilities continue to be at highest risk of severe disease and death due to COVID-19. In Yolo County, our data show that residents of long-term care facilities (LTCFs), including skilled nursing facilities (SNFs), were 2.6 times more likely to be infected with COVID, 4.0 times more likely to be reinfected , 1.2 times more likely to be hospitalized due to COVID, and 3.1 times more likely to die from COVID than community residents, after adjusting for age, sex, race/ethnicity, city of residence, vaccination status, and comorbidities. 31% (136/437) of COVID-associated deaths in Yolo County to date were among residents of an LTCF. Of the 44 LTCFs in Yolo, 43% (18) are in Healthy Places Index (HPI) Quartile 1 or 2 census tracts, including 67% of SNFs (4/6), 43% of immediate care facility campuses (3/7), and the only congregate living health facility. Of assisted living facilities 35% are in HPI Q1 or Q2 tracts (7/20) and 40% of adult residential facilities (4/10). Our data also indicate that 65% (24/37) of COVID-19 outbreaks in 2022 occurred in Q1 and Q2 facilities, demonstrating that LTCFs in lower HPI census tracts are disproportionately impacted by COVID-19 outbreaks.

The risk of severe illness and death due to COVID-19 are higher among persons not up-to-date with COVID-19 vaccination. According to our most recent local data, 91% of LTCF residents are not up-to-date with vaccination. Additionally, we track the number of positive LTCF residents receiving COVID-19 therapeutics as part of our outbreak investigations and have found that only 23% of positive residents are receiving therapeutics**.**

Current funding limitations and staff capacity limit Yolo County Health and Human Services Agency's Public Health Branch (YCPH) work with LTCF to reactive outbreak response, rather than proactive collaboration with LTCFs on outbreak prevention. In addition, many facilities do not have the ability to verify vaccination status for their residents and are not enrolled in California Immunization Registry (CAIR). Facilities also struggle to compile and provide relevant case information, such as demographic information and previous medical history, to YCPH during outbreaks, often due to high staff turnover.

With COVID-19 continuing to threaten the health and well-being of high-risk LTCF residents, and current fund sources on track to be spent by mid-2023, additional funding would enable YCPH to retain and expand its capacity to prevent and control outbreaks of COVID-19 and other infectious diseases among this vulnerable population.

Target Audience and Geographic Area

There are 38 LTCFs in Yolo County, including 6 SNFs, 20 assisted living facilities, 10 adult residential facilities, 1 congregate living health facility, and 1 intermediate care facility with seven separate campuses. These facilities range in bed capacity from 6 to 174 residents, with a total of 2,163 LTCF residents countywide. Geographically, facilities tend to be in cities and towns. As described above, 43% of LTCFs are located in HPI Q1 or Q2 census tracts. YCPH will focus its activities on LTCFs in these census tracts, facilities with the lowest vaccination rates,

and facilities with above average occurrence of outbreaks.

Description of Specific Activities, Collaborations, and Outcomes

If awarded, YCPH will:

Retain and expand internal infection prevention (IP) and control capacity so that YCPH can provide facilities with IP education, training, and support. YCPH will continue its current efforts to provide IP support as part of outbreak investigations, particularly large, rapidly growing, and persistent outbreaks, and educating LTCFs on COVID therapeutics to reduce mortality. YCPH will expand into the area of preventing future outbreaks by analyzing outbreak trends and training current Outbreak Investigators in infection prevention basics so they can proactively engage the four SNFs in HPI Q1 and Q2 tracts, and at least six facilities with above average numbers of outbreaks in IP training and conduct on-site IP program assessments during non-outbreak periods.

In addition to continuing to foster trusting working relationships with key staff at LTCFs, YCPH proposes to solidify policies and procedures by developing a simple onboarding for new internal and facility staff, to institutionalize partnerships and ensure that the infrastructure built through COVID is sustained.

Retain COVID-19 and influenza A/B test kit training for LTCF staff using a train-the-trainer approach, along with fulfillment of test kit requests for routine and response-driven testing. YCPH will continue to provide initial and refresher training to facilities using a train-the-trainer model, including how to collect anterior nasal specimens, how to properly use various test kits, and how to read results. YCPH will continue to maintain training logs to track which facilities and which staff have received training. Testing support to facilities will continue to include: guidance on how to set up onsite testing for staff and visitors, verification of facility testing plans, reporting support, and support to safely conduct response testing. The same team will continue to fulfill resource requests for COVID and COVID/flu combination test kits.

Retain and expand COVID-19 vaccination support to LTCFs. YCPH will continue to hold on-site clinics and as well as assist facilities to partner with retail pharmacies to conduct on-site clinics as appropriate and available.

Expand the vaccine team's scope to include supporting facility staff to create and maintain their facility's plans for accessing vaccine resources, including COVID-19 and influenza vaccines.

Expand the vaccine team's scope to train LTCF staff to enroll in and use CAIR. This will enable YCPH and individual facility staff to better track vaccine rates at facilities, and therefore more accurately identify facilities that would benefit from vaccine education and on-site vaccine clinics, and to identify individual residents needing vaccination.

Retain capacity for respiratory protection fit test training to facility leadership and staff so that they can in turn fit test facility staff.

Outcomes Evaluation

YCPH will also retain capacity to generate a monthly data report of all COVID-19 outbreaks in LTCFs. This report is used to routinely monitor progress towards our goal of reducing COVID-19 deaths and severe illness among facility residents, as well as track progress towards increasing vaccination rates, the proportion of eligible residents who receive COVID treatment, and monitor any changes in the frequency and size of outbreaks. We will combine our data report review with a monthly workplan review and incorporate output monitoring (measures described in the accompanying Workplan). The anticipated impact of these activities are: fewer LTCF residents hospitalized and fewer deaths due to COVID, as a result of improved infection prevention measures, sustained testing capacity, higher vaccination rates, and better respiratory protection among staff.

Organizational Capacity

YCPH has heavily invested COVID-19 emergency response funding into building teams capable of tracking, responding to, and preventing outbreaks in congregate settings. In 2021, YCPH established an LTCF Outbreak Team dedicated to investigating outbreaks in LTCFs and other congregate settings. This team supports facilities to report and track outbreaks, links facilities to infection prevention support, provides education and training to facility staff, and facilitates communication with the County Health Officer. The team is supported by the YCPH Epidemiology and Data Unit (EDU), which generates a monthly internal report of COVID-19 outbreaks in Yolo County LTCFs and ensures data consistency and quality. The LTCF Outbreak Team, EDU and the Health Officer meet weekly to identify trends, highlight potential issues at individual facilities, and inform where technical assistance is needed.

The LTCF Outbreak Team began cross-training to investigate outbreaks of other infectious diseases (e.g., influenza, RSV, scabies, CRAB) in December 2022. A Public Health Nurse with 5.5 years of experience in Infection Prevention and who will be pursuing a Certification in Infection Control in 2023 provides technical support. These staff have built trusting relationships with facility leadership, Infection Preventionists, and other key points of contact at LTCFs.

YCPH has also retained a COVID-19 testing program in coordination with the Yolo County Medical/Health Operational Area Coordinator (MHOAC) to provide antigen test kits and COVID + influenza A/B tests to facilities. Staff on this team provide training to facility staff on how to properly conduct tests, read, and report results, and fill resources requests for test kits and PPE.

YCPH's COVID-19 Vaccine team prioritizes vaccinating residents of SNFs and long-term care facilities, both through redistribution of vaccines and by directly providing vaccine clinics. Lastly, YCPH's routine Immunization team and the EDU are well-versed in using CAIR. These teams will identify facilities not enrolled in CAIR and develop a CAIR training for Vaccine staff to deliver to facilities.

Amount of Request

Yolo County is requesting $427,605

Attachment C
Workplan Template

To submit the Workplan to address California Nursing Home and Long-Term Care Facility Infrastructure and Preparedness, please complete both sections 1 and 2.

SECTION 1
Indicate below with which of the following strategies your application's intervention aligns. You may select more than one if applicable.

Infection Prevention and Control Training, Assessment and Support

☒Application from local health department to expand own infection prevention capacity or collaborate with local partners (e.g., academic centers, professional organizations) to provide infection prevention education, training, and support to skilled nursing and other long-term care facilities in their jurisdiction. Strong applications will include active outreach and ongoing engagement of facility leadership, and provision of on-site infection prevention program assessments and support outside the context of active outbreak response (e.g., "pre-emptive" assessments in facilities at high risk of outbreaks, or to ensure gaps addressed following an outbreak.

☐ Application from academic center or professional organization with expertise in care for persons with dementia and other behavioral conditions (e.g., substance abuse disorder, brain injury) to develop and evaluate training and implementation of strategies to improve infection control practices for individuals with dementia and other behavioral conditions in congregate living to prevent transmission of SARS-CoV-2. Strong applications will include description of evidence-based practices and metrics for successful training and implementation.

Testing to Detect Pathogens and Guide Infection Prevention and Control Activities

☒ Application to engage facility leadership and infection preventionists to provide initial and refresher training of facility staff and caregivers on how to conduct and interpret point of care antigen tests for COVID-19 and influenza A/B. Training should include how to appropriately collect anterior nasal specimens, how to conduct the test, and how to read the results. The training could also include how to set up onsite staff and visitor testing, when to send a confirmatory molecular test, and how to use and interpret antigen tests during response testing.

Technology, Staffing, Supplies to Support Vaccination

☒ Application for staffing and support of COVID-19 vaccination teams for on-site clinics at long-term care facilities, especially adult and senior residential facilities (also commonly referred to as assisted living facilities)

☐ Application for funding renovations from organizations representing skilled nursing facilities and LTC facilities to create permanent and temporary airborne infection isolation rooms and areas in their facilities in compliance with requirements of HCAI, including

portable air cleaners or other equipment. Strong applications would build capacity for providing airborne infection isolation across the region and state.

☒ Application to support facility staff to create and maintain facility plans on accessing vaccine resources (seasonal flu vaccine, COVID vaccine, etc.)

☒ Application to support LTCFs to enroll in and use the California Immunization Registry (CAIR) to share vaccine information – please also see Technology to Enhance Surveillance and Reporting section below about general electronic health record systems.

Technology to Enhance Surveillance and Reporting

☐ Application from individual, group, or corporate nursing homes and other long-term care facilities in coordination with LHDs to upgrade electronic health records system. This would include purchasing software, encouraging interoperability, and linking with Health Information Exchanges.

Emergency Preparedness for Personal Protective Equipment and Supplies

☐ Application to engage facility leadership and infection preventionists to implement strategies for maintaining adequate Personal Protective Equipment (PPE) supply and storage.

☐ Application to support facility staff to create and maintain facility emergency plans and engage in local jurisdiction planning efforts.

☐ Application to support facility staff to create, test, and evaluate a facility-level and/or organization-level continuity of operations plan.

☐ Application related to surge staffing, including efficiency protocols, standard operating procedures, and procurement efforts

Ventilation and Respiratory Protection and Healthcare Personnel Safety

☒ Application from local health department, industrial hygiene firms/professional, academic institution, etc., to expand the capacity to provide train-the-trainer respiratory protection fit test training to skilled nursing facilities and other long-term care facilities in the jurisdiction. Strong applications will include active outreach and ongoing engagement of facility leadership in encouraging fully Cal/OSHA compliant respiratory protection programs within facilities.

☐ Applications from industrial hygiene firms/professionals to assist individual facilities with the establishment of Cal/OSHA compliant respiratory protection programs including written programs, training, fit testing, respirator selection, etc.

☐ Application from HCAI, or academic or professional organizations, to set up a demonstration project in one or more skilled nursing facilities and LTC Facilities that demonstrates how facility engineers can add rooms and areas to temporarily and effectively

isolate patients having, or suspected of having, an aerosol transmissible disease. The demonstration project would have rooms and areas that could be converted to isolation rooms to demonstrate how facility ventilation and portable ventilation devices are effectively and safely used to prevent transmission to other patients and staff outside the isolation room/area. A written document would be prepared that describes the results of the demonstration project.

☐ Application from qualified industrial hygiene and/or ventilation firms/professionals for onsite services to facilities to evaluate existing ventilation systems, make recommendations for ventilation-related improvements to improve indoor air quality and reduce COVID transmission risk, and guide facilities through implementation of improvements.

☐ Application from qualified professionals (consultants, specialists) to evaluate, train, and communicate aspects and management of fatigue and support facility healthcare personnel safety. Should include elements of shift work, shift rotation, shift duration; sleep practices; dietary factors; commute times; circadian rhythms, etc. This can be a critical and integral component of effective COVID-19 risk management as it relates to addressing aspects of fatigue such as relaxation of standards of practice (such as disinfecting/cleaning); validating control measures such as proper operation and maintenance of ventilation systems; relaxation of use of proper personal protective equipment; poor decision making due to diminished alertness; absence from work due to fatigue; etc.

SECTION 2

Based on the specific strategy (or strategies) indicated in Section 1, please describe in detail the proposed intervention, activities, and timeline.

Yolo County - Attachment C Workplan

Strategy 1	Infection Prevention and Control Training, Assessment and Support
Description:	Expand internal infection prevention capacity to provide infection prevention education, training, and support to skilled nursing and other long-term care facilities in Yolo County

Known Gaps:	Funding for current efforts will be depleted by mid 2023, current infection prevention capacity is limited to response rather than preparation and planning

Classify Activity:	Retain + Expand

Outcomes:	1 Retain ability to control and slow the spread of COVID-19 and other infectious diseases during outbreaks through enhanced outbreak investigation 2 Expand ability to prevent future outbreaks by improving infection prevention during non-outbreak periods

Activities		Estimated Start Date	Estimated Completion
1.1.	Expand capacity to provide infection prevention support to facilities during outbreaks	Q1	Q4
1.1.a.	Train Outbreak Investigators in infection prevention	Q1	Q1
1.1.b.	Provide IP support to all facilities experiencing outbreaks	Q2	Q4
1.2.	Improve facility infection prevention practices and capacity	Q1	Q4
1.2.a.	Identify facilities with above average outbreaks/case numbers	Q1	Q1
1.2.b.	Provide pre-emptive infection prevention assessments to high-risk facilities	Q2	Q2
1.3.	Update and enhance policy and procedure tools for outbreak investigations	Q2	Q2
1.3.a	Develop a simple training for onboarding new staff to routine policies and procedures	Q2	Q2

Outputs from the planned activities	
1.	*Three YCPH staff trained on infection prevention*
1.a.	*All facility-based outbreaks provided IP support*
2.	*Facilities at highest risk of outbreaks identified*
2.a	*Pre-emptive, on-site IP assessments provided to at least 10 facilities*

Strategy 2	Testing to Detect Pathogens and Guide Infection Prevention and Control Activities
Description:	Engage facility leadership and infection preventionists to provide initial and refresher training of facility staff and caregivers on how to conduct and interpret point of care antigen tests for COVID-19 and influenza A/B.

Known Gaps:	Current capacity to support testing in facilities is set to expire in 2024

Classify Activity:	Retain

Outcomes:	1 Facilities are equipped to properly use point of care tests to detect pathogens 2 Facilities are able to rapidly test residents when infection is suspected

Activities		Estimated Start Date	Estimated Completion
2.1.	Provide training of trainers to facility leadership and health staff on proper use of point of care antigen test kits	Q1	Q4
2.1.a.	Review training logs to identify facilities in need of refresher training	Q1	Q4
2.1.b	Conduct training of trainers on test kit use	Q1	Q4
2.2.	Provide facilities with test kits for response-driven testing	Q1	Q4

Outputs from the planned activities	
1.	*Facility leadership trained on how to train staff on test kit use (at least 10 facilities)*
2.	*All facilities have adequate units of free test kits to support testing of symptomatic and exposed residents*

Strategy 3	Technology, Staffing, Supplies to Support Vaccination
Description:	Staffing and support for COVID-19 vaccination teams for on-site clinics at long-term care facilities, especially adult and senior residential facilities.

Known Gaps:	Current vaccination staffing set to expire in 2024, little capacity to train facilities on use of CAIR

Classify Activity:	Retain + Expand

Outcomes:	1 LTCF resident vaccination rates increase by 20% (overall average across facilities) 2 The number of facilities entering vaccine data into CAIR increases by 20%

Activities		Estimated Start Date	Estimated Completion
3.1.	Hold on-site COVID-19 vaccine clinics	Q1	Q4
1.a	Identify facilities with lowest vaccination coverage	Q1	Q1
1.b.	Hold on-site COVID-19 and influenza (as available) clinics	Q1	Q4
3.2.	Support facility staff to create and maintain facility plans for accessing vaccine resources	Q1	Q4
3.3.	Support long-term care facilities to enroll in and use the California Immunization Registry (CAIR)	Q2	Q4
3.3.a.	Identify facilities currently not enrolled in CAIR	Q2	Q2
3.3.b.	Create CAIR training tailored for Yolo facilities	Q2	Q2
3.3.c.	Provide in-person or virtual training to facility staff	Q2	Q4

Outputs from the planned activities	
1.	*Vaccine clinics held at facilities with lowest vaccination rates (at least 5)*
2.	*Plans for accessing vaccine of the 10 facilities with lowest vaccination rates reviewed and*
3.	*Facilities enrolled in and trained to use CAIR (at least 10)*

Strategy 4	Ventilation and Respiratory Protection and Healthcare Personnel Safety
Description:	Retain capacity for respiratory protection fit testing training and train facility leadership and staff.

Known Gaps:	Current activities set to expire in 2024

Classify Activity:	Retain

Outcomes:	1 Limit the spread of respiratory illness within facilities, particularly from residents to staff

Activities		Estimated Start Date	Estimated Completion
4.1	Provide train-the-trainer fit test training or refresher training to facility leadership for 18 facilities in HPI Q1 and Q2 quartiles	Q1	Q4
4.1.a	Identify facilities in need of fit-test training or refresher training	Q1	Q1
4.1.b.	Review current fit test training curriculum and make updates as needed	Q1	Q1
4.1.c.	Train 3 Public Health staff to conduct train-the-trainer	Q1	Q1
4.1.d.	Conduct fit test train-the-trainer fit test training to facility staff	Q2	Q4

Outputs from the planned activities	
1.	*Three additional Public Health staff trained to conduct train-the-trainer fit test training*
2.	*Facilities trained to conduct fit test training (at least 18)*

Attachment D
Budget

CALIFORNIA DEPARTMENT OF PUBLIC HEALTH
YOLO COUNTY California Nursing Home and Long-Term Care Facility Infrastructure and Preparedness
May 1, 2023 - May 10, 2024
YEAR 1 PROJECTED EXPENDITURES

PERSONAL SERVICES:						
	Percentage	**Monthly**	**No. of**	**Approved**		**Projected**
Classification Title	**of Effort**	**Salary**	**Months**	**Budget**		**Expenditures**
Outreach Specialist II, Outbreak Investigator - L. Ramirez	70%	$5,787	12	$48,607		$48,607
Outreach Specialist II, Outbreak Investigator - E. Tugadi	70%	$5,723	12	$48,073		$48,073
Outreach Specialist II, Primary Prevention - TBD	8%	$5,403	12	$5,187		$5,187
Outreach Specialist II, Vaccines - P. Guzman	8%	$5,519	12	$5,299		$5,299
Public Health Nurse - X. Moua	10%	$9,975	12	$11,970		$11,970
Public Health Epidemiologist - R. Herrick	2%	$9,052	12	$2,172		$2,172
Administrative Services Analyst, Epi/Data - TBD	20%	$6,741	12	$16,178		$16,178
Senior Administrative Services Analyst, Vaccine Lead - O. Velasco	10%	$7,907	6	$4,744		$4,744
Senior Administrative Services Analyst, Outbreaks Lead - TBD	65%	$7,724	12	$60,245		$60,245
						$0.00
						$0.00
						$0.00
FTEs	2.63					
A. Personnel				$202,475	$0.00	$202,475
B. Fringe Benefits @ 65%				$131,609	$0.00	$131,609
Total, Personal Services				$334,084	$0.00	$334,084
OPERATING EXPENSES:						
C. Travel (see breakdown below)				$2,000		
D. Equipment						
E. Supplies (antigen test kits, training material printing)				$8,000		
F. Contractual Services (see breakdown below)				$0		
G. Construction						
H. Other (see breakdown below)				$0		
I. Total Direct Charges				$344,084	$0	$344,084
J. Indirect Costs @ 25%				$83,521	$0.00	$83,521
K. Totals				$427,605	$0.00	$427,605
C. Travel						
In-state: gas and mileage to and from LTCFs for test kit delivery and in person training Out of State must have prior approval				$2,000		
				$2,000	$0	$2,000.00
F. Contractual Services						
H. Other:						
				$0.00	$0.00	$0.00

Exhibit B
Budget Detail and Payment Provisions

1. Invoicing and Payment

A. Upon completion of project activities as provided in Exhibit A Grant Application/Attachment 1 Grantee Written Modification, and upon receipt and approval of the invoices, the State agrees to reimburse the Grantee for activities performed and expenditures incurred in accordance with the total amount of this agreement.

B. Invoices shall include the Grant Number and shall be submitted electronically or in triplicate not more frequently than monthly in arrears to:

CHCQinvoice@cdph.ca.gov and HAIProgram@cdph.ca.gov

C. Invoices shall:

1) Be prepared on Grantee letterhead. If invoices are not on produced letterhead invoices must be signed by an authorized official, employee or agent certifying that the expenditures claimed represent activities performed and are in accordance with Exhibit A Grant Application under this Grant.
2) Bear the Grantee's name as shown on the Grant.
3) Identify the billing and/or performance period covered by the invoice.
4) Itemize costs for the billing period in the same or greater level of detail as indicated in this Grant. Subject to the terms of this Grant, reimbursement may only be sought for those costs and/or cost categories expressly identified as allowable and approved by CDPH.

D. Amount awarded under this Grant is identified in the CDPH 1229 Grant Agreement.

2. Budget Contingency Clause

A. It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Agreement does not appropriate sufficient funds for the program, this Agreement shall be of no further force and effect. In this event, the State shall have no liability to pay any funds whatsoever to Grantee or to furnish any other considerations under this Agreement and Grantee shall not be obligated to fulfill any provisions of this Agreement.

B. If funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, the State shall have the option to either cancel this Agreement with no liability occurring to the State or offer an agreement amendment to Grantee to reflect the reduced amount.

3. Prompt Payment Clause

Exhibit B
Budget Detail and Payment Provisions

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

4. Timely Submission of Final Invoice

A. A final undisputed invoice shall be submitted for payment no more than thirty (30) calendar days following the expiration or termination date of this Grant, unless a later or alternate deadline is agreed to in writing by the program grant manager. Said invoice should be clearly marked "Final Invoice", indicating that all payment obligations of the State under this Grant have ceased and that no further payments are due or outstanding.

B. The State may, at its discretion, choose not to honor any delinquent final invoice if the Grantee fails to obtain prior written State approval of an alternate final invoice submission deadline.

5. Travel and Per Diem Reimbursement

Any reimbursement for necessary travel and per diem shall, unless otherwise specified in this Agreement, be at the rates currently in effect, as established by the California Department of Human Resources (Cal HR). If the Cal HR rates change during the term of the Agreement, the new rates shall apply upon their effective date and no amendment to this Agreement shall be necessary. No travel outside the State of California shall be reimbursed without prior authorization from the CDPH. Verbal authorization should be confirmed in writing. Written authorization may be in a form including fax or email confirmation.

6. Restrictions on the Use of Federal Block Grant Funds

Pursuant to 42 U.S.C. Section 704, Grantee shall not use funds provided by the agreement to:

A. Provide inpatient services;

B. Make cash payment to intended recipients of health services;

C. Purchase or improve land, purchase, construct or permanently improve any building or other facility or purchase major medical equipment.

D. Satisfy any requirement for the expenditure of non-federal funds as a condition for the receipt of federal funds.

E. Provide financial assistance to any entity other than a public or nonprofit private entity for research or training services; or

F. Make payment for any item or service (other than an emergency item or service) furnished by; 1) an individual or entity during the period such individual or entity is excluded from participation in any other federally funded program, or 2) at the medical

direction or on the prescription of a physician during the period when the physician is excluded from participation in any other federally funded program.

EXHIBIT C

STANDARD GRANT CONDITIONS

1. **APPROVAL:** This Grant is of no force or effect until signed by both parties and approved by the Department of General Services, if required. The Grantee may not commence performance until such approval has been obtained

2. **AMENDMENT:** No amendment or variation of the terms of this Grant shall be valid unless made in writing, signed by the parties, and approved as required. No oral understanding or Agreement not incorporated in the Grant is binding on any of the parties. In no case shall the Department materially alter the scope of the Project set forth in Exhibit A.

3. **ASSIGNMENT:** This Grant is not assignable by the Grantee, either in whole or in part, without the written consent of the Grant Manager in the form of a written amendment to the Grant.

4. **AUDIT:** Grantee agrees that the Department, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to this Grant. Grantee agrees to maintain such records for a possible audit for a minimum of three (3) years after final payment or completion of the project funded with this Grant, unless a longer period of records retention is stipulated. Grantee agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Grantee agrees to include a similar right of the State to audit records and interview staff in any subcontract related to the project.

5. **CONFLICT OF INTEREST:** Grantee certifies that it is in compliance with all applicable state and/or federal conflict of interest laws.

6. **INDEMNIFICATION**: Grantee agrees to indemnify, defend and save harmless the State, its officers, agents and employees from any and all claims and losses accruing or resulting to any and all contractors, subcontractors, suppliers, laborers, and any other person, firm or corporation furnishing or supplying work services, materials, or supplies in connection with the project, and from any and all claims and losses accruing or resulting to any person, firm or corporation who may be injured or damaged by Grantee in the performance of any activities related to the Project.

7. **FISCAL MANAGEMENT SYSTEMS AND ACCOUNTING STANDARDS:** Grantee agrees that, at a minimum, its fiscal control and accounting procedures will be sufficient to permit tracing of all grant funds to a level of expenditure adequate to establish that such funds have not been used in violation of any applicable state or federal law, or the provisions of this Grant. Grantee further agrees that it will maintain separate Project accounts in accordance with generally accepted accounting principles.

8. **GOVERNING LAW:** This Grant is governed by and shall be interpreted in accordance with the laws of the State of California.

9. **INCOME RESTRICTIONS:** Grantee agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Grantee under this Grant shall be paid by the Grantee to the Department, to the extent that they are properly allocable to costs for which the Grantee has been reimbursed by the Department under this Grant.

10. **INDEPENDENT CONTRACTOR:** Grantee, and its agents and employees of Grantee, in the performance of the Project, shall act in an independent capacity and not as officers, employees or agents of the Department.

11. **MEDIA EVENTS:** Grantee shall notify the Department's Grant Manager in writing at least twenty (20) working days before any public or media event publicizing the accomplishments and/or results of the Project and provide the opportunity for attendance and participation by Department's representatives.

12. **NO THIRD-PARTY RIGHTS:** The Department and Grantee do not intend to create any rights or remedies for any third- party as a beneficiary of this Grant or the project.

13. **NOTICE:** Grantee shall promptly notify the Department's Grant Manager in writing of any events, developments or changes that could affect the completion of the project or the budget approved for this Grant.

14. **PROFESSIONALS:** Grantee agrees that only licensed professionals will be used to perform services under this Grant where such services are called for.

15. **RECORDS:** Grantee certifies that it will maintain Project accounts in accordance with generally accepted accounting principles. Grantee further certifies that it will comply with the following conditions for a grant award as set forth in the Request for Applications (Exhibit D) and the Grant Application (Exhibit A).

    A. Establish an official file for the Project which shall adequately document all significant actions relative to the Project;
    B. Establish separate accounts which will adequately and accurately depict all amounts received and expended on this Project, including all grant funds received under this Grant;
    C. Establish separate accounts which will adequately depict all income received which is attributable to the Project, especially including any income attributable to grant funds disbursed under this Grant;
    D. Establish an accounting system which will adequately depict final total costs of the Project, including both direct and indirect costs; and,
    E. Establish such accounts and maintain such records as may be necessary for the state to fulfill federal reporting requirements, including any and all reporting requirements under federal tax statutes or regulations.

16. **RELATED LITIGATION:** Under no circumstances may Grantee use funds from any disbursement under this Grant to pay for costs associated with any litigation between the Grantee and the Department.

17. RIGHTS IN DATA: Grantee and the Department agree that all data, plans, drawings, specifications, reports, computer programs, operating manuals, notes, and other written or graphic work submitted under Exhibit A in the performance of the Project funded by this Grant shall be in the public domain. Grantee may disclose, disseminate and use in whole or in part, any final form data and information received, collected, and developed under this Project, subject to appropriate acknowledgment of credit to the Department for financial support. Grantee shall not utilize the materials submitted to the Department (except data) for any profit making venture or sell or grant rights to a third-party who intends to do so. The Department has the right to use submitted data for all governmental purposes.

18. VENUE: (This provision does not apply to Local Governmental Entities)

The Department and Grantee agree that any action arising out of this Grant shall be filed and maintained in the Superior Court, California. Grantee waives any existing sovereign immunity for the purposes of this Grant, if applicable.

19. STATE-FUNDED RESEARCH GRANTS:

A. Grantee shall provide for free public access to any publication of a department-funded invention or department-funded technology. Grantee further agrees to all terms and conditions required by the California Taxpayer Access to Publicly Funded Research Act (Chapter 2.5 (commencing with Section 13989) of Part 4.5 of Division 3 of Title 2 of the Government Code).

B. As a condition of receiving the research grant, Grantee agrees to the following terms and conditions which are set forth in Government Code section 13989.6 ("Section 13989.6"):

1) Grantee is responsible for ensuring that any publishing or copyright agreements concerning submitted manuscripts fully comply with Section 13989.6.

2) Grantees shall report to the Department the final disposition of the research grant, including, but not limited to, if it was published, when it was published, where it was published, when the 12-month time period expires, and where the manuscript will be available for open access.

3) For a manuscript that is accepted for publication in a peer-reviewed journal, the Grantee shall ensure that an electronic version of the peer-reviewed manuscript is available to the department and on an appropriate publicly accessible database approved by the Department, including, but not limited to, the University of California's eScholarship Repository at the California Digital Library, PubMed Central, or the California Digital Open Source Library, to be made publicly available not later than 12 months after the official date of publication. Manuscripts submitted to the California Digital Open Source Library shall be exempt from the requirements in subdivision (b) of Section 66408 of the Education Code. Grantee shall make reasonable efforts to comply with this requirement by ensuring that their manuscript is accessible on an approved publicly accessible database, and notifying the Department that the manuscript is available on a department-approved database. If Grantee is unable to ensure that their manuscript is accessible on an approved publicly accessible database, Grantee may comply by providing the manuscript to the Department not later than 12 months after the official date of publication.

4) For publications other than those described inparagraph B.3 above,, including meeting abstracts, Grantee shall comply by providing the manuscript to the Department not later than 12 months after the official date of publication.

5) Grantee is authorized to use grant money for publication costs, including fees charged by a publisher for color and page charges, or fees for digital distribution.

Exhibit E
Additional Provisions

1. Cancellation / Termination

A. This Grant may be cancelled by CDPH without cause upon thirty (30) calendar days advance written notice to the Grantee.

B. CDPH reserves the right to cancel or terminate this Grant immediately for cause. The Grantee may submit a written request to terminate this Grant only if CDPH substantially fails to perform its responsibilities as provided herein.

C. The term "for cause" shall mean that the Grantee fails to meet the terms, conditions, and/or responsibilities of this agreement. Causes for termination include, but are not limited to the following occurrences:

1) If the Grantee knowingly furnishes any statement, representation, warranty, or certification in connection with the agreement, which representation is materially false, deceptive, incorrect, or incomplete.

2) If the Grantee fails to perform any material requirement of this Grant or defaults in performance of this agreement.

3) If the Grantee files for bankruptcy, or if CDPH determines that the Grantee becomes financially incapable of completing this agreement.

D. Grant termination or cancellation shall be effective as of the date indicated in CDPH's notification to the Grantee. The notice shall stipulate any final performance, invoicing or payment requirements.

E. In the event of early termination or cancellation, the Grantee shall be entitled to compensation for services performed satisfactorily under this agreement and expenses incurred up to the date of cancellation and any non-cancelable obligations incurred in support of this Grant.

F. In the event of termination, and at the request of CDPH, the Grantee shall furnish copies of all proposals, specifications, designs, procedures, layouts, copy, and other materials related to the services or deliverables provided under this Grant, whether finished or in progress on the termination date.

G. The Grantee will not be entitled to reimbursement for any expenses incurred for services and deliverables pursuant to this agreement after the effective date of termination.

H. Upon receipt of notification of termination of this Grant, and except as otherwise specified by CDPH, the Grantee shall:

Exhibit E
Additional Provisions

1) Place no further order or subgrants for materials, services, or facilities.

2) Settle all outstanding liabilities and all claims arising out of such termination of orders and subgrants.

3) Upon the effective date of termination of the Grant and the payment by CDPH of all items properly changeable to CDPH hereunder, Grantee shall transfer, assign and make available to CDPH all property and materials belonging to CDPH, all rights and claims to any and all reservations, grants, and arrangements with owners of media/PR materials, or others, and shall make available to CDPH all written information regarding CDPH's media/PR materials, and no extra compensation is to be paid to Grantee for its services.

4) Take such action as may be necessary, or as CDPH may specify, to protect and preserve any property related to this agreement which is in the possession of the Grantee and in which CDPH has or may acquire an interest.

I. CDPH may, at its discretion, require the Grantee to cease performance of certain components of the Scope of Work as designated by CDPH and complete performance of other components prior to the termination date of the Grant.

2. Avoidance of Conflicts of Interest by Grantee

A. CDPH intends to avoid any real or apparent conflict of interest on the part of the Grantee, subgrants, or employees, officers and directors of the Grantee or subgrants. Thus, CDPH reserves the right to determine, at its sole discretion, whether any information, assertion or claim received from any source indicates the existence of a real or apparent conflict of interest; and, if a conflict is found to exist, to require the Grantee to submit additional information or a plan for resolving the conflict, subject to CDPH review and prior approval.

B. Conflicts of interest include, but are not limited to:

1) An instance where the Grantee or any of its subgrants, or any employee, officer, or director of the Grantee or any subgrant or has an interest, financial or otherwise, whereby the use or disclosure of information obtained while performing services under the grant would allow for private or personal benefit or for any purpose that is contrary to the goals and objectives of the grant.

2) An instance where the Grantee's or any subgrant's employees, officers, or directors use their positions for purposes that are, or give the appearance of being, motivated by a desire for private gain for themselves or others, such as those with whom they have family, business or other ties.

Exhibit E
Additional Provisions

C. If CDPH is or becomes aware of a known or suspected conflict of interest, the Grantee will be given an opportunity to submit additional information or to resolve the conflict. A Grantee with a suspected conflict of interest will have five (5) working days from the date of notification of the conflict by CDPH to provide complete information regarding the suspected conflict. If a conflict of interest is determined to exist by CDPH and cannot be resolved to the satisfaction of CDPH, the conflict will be grounds for terminating the grant. CDPH may, at its discretion upon receipt of a written request from the Grantee, authorize an extension of the timeline indicated herein.

3. Dispute Resolution Process

A. A Grantee grievance exists whenever there is a dispute arising from CDPH's action in the administration of an agreement. If there is a dispute or grievance between the Grantee and CDPH, the Grantee must seek resolution using the procedure outlined below.

1) The Grantee should first informally discuss the problem with the CDPH Program Grant Manager. If the problem cannot be resolved informally, the Grantee shall direct its grievance together with any evidence, in writing, to the program Branch Chief. The grievance shall state the issues in dispute, the legal authority or other basis for the Grantee's position and the remedy sought. The Branch Chief shall render a decision within ten (10) working days after receipt of the written grievance from the Grantee. The Branch Chief shall respond in writing to the Grantee indicating the decision and reasons therefore. If the Grantee disagrees with the Branch Chief's decision, the Grantee may appeal to the second level.

2) When appealing to the second level, the Grantee must prepare an appeal indicating the reasons for disagreement with Branch Chief's decision. The Grantee shall include with the appeal a copy of the Grantee's original statement of dispute along with any supporting evidence and a copy of the Branch Chief's decision. The appeal shall be addressed to the Deputy Director of the division in which the branch is organized within ten (10) working days from receipt of the Branch Chief's decision. The Deputy Director of the division in which the branch is organized or his/her designee shall meet with the Grantee to review the issues raised. A written decision signed by the Deputy Director of the division in which the branch is organized or his/her designee shall be directed to the Grantee within twenty (20) working days of receipt of the Grantee's second level appeal.

B. If the Grantee wishes to appeal the decision of the Deputy Director of the division in which the branch is organized or his/her designee, the Grantee shall follow the procedures set forth in Division 25.1 (commencing with Section 38050) of the Health and Safety Code and the regulations adopted thereunder. (Title 1, Division 2, Chapter 2, Article 3 (commencing with Section 1140) of the California Code of Regulations).

Exhibit E
Additional Provisions

C. Disputes arising out of an audit, examination of an agreement or other action not covered by subdivision (a) of Section 20204, of Chapter 2.1, Title 22, of the California Code of Regulations, and for which no procedures for appeal are provided in statute, regulation or the Agreement, shall be handled in accordance with the procedures identified in Sections 51016 through 51047, Title 22, California Code of Regulations.

D. Unless otherwise stipulated in writing by CDPH, all dispute, grievance and/or appeal correspondence shall be directed to the CDPH Grant Manager.

E. There are organizational differences within CDPH's funding programs and the management levels identified in this dispute resolution provision may not apply in every contractual situation. When a grievance is received and organizational differences exist, the Grantee shall be notified in writing by the CDPH Grant Manager of the level, name, and/or title of the appropriate management official that is responsible for issuing a decision at a given level.

4. Executive Order N-6-22 - Economic Sanctions

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Grantee is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this Agreement. The State shall provide Grantee advance written notice of such termination, allowing Grantee at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.

Prior to awarding and executing grant, the State shall conduct its due diligence to determine if the proposed awardee is a named individual or entity on federal and any state Economic Sanctions lists. If the proposed awardee is listed, the State shall refrain from entering into the Grant. Resources for locating names of sanctioned individuals and entities are available on the DGS Office of Legal Services' webpage: Ukraine-Russia (ca.gov).

If this Agreement is valued at $5 million or more, upon execution the State will send a separate notification outlining additional requirements specified under the EO. Compliance with this Economic Sanctions imposed in response to Russia's actions in Ukraine is required, including with respect to, but not limited to, the federal executive orders identified in the EO and the sanctions identified on the U.S. Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctionsprograms-and-country-information/ukraine-russia-related-sanctions). Failure to comply may result in the termination of this Agreement.

Exhibit F
Federal Terms and Conditions

(For Federally Funded Grant Agreements)

This exhibit contains provisions that require strict adherence to various contracting laws and policies.

Index of Special Terms and Conditions

1. Federal Funds
2. Federal Equal Employment Opportunity Requirements
3. Debarment and Suspension Certification
4. Covenant Against Contingent Fees
5. Lobbying Restrictions and Disclosure Certification
6. Additional Restrictions
7. Human Subjects Use Requirments
8. Audit and Record Retention
9. Federal Requirements

1. Federal Funds

(Applicable only to that portion of an agreement funded in part or whole with federal funds.)

a. It is mutually understood between the parties that this Agreement may have been written before ascertaining the availability of congressional appropriation of funds, for the mutual benefit of both parties, in order to avoid program and fiscal delays which would occur if the Agreement were executed after that determination was made.

b. This Agreement is valid and enforceable only if sufficient funds are made available to the State by the United States Government for the fiscal years covered by the term of this Agreement. In addition, this Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or any statute enacted by the Congress which may affect the provisions, terms or funding of this Agreement in any manner.

c. It is mutually agreed that if the Congress does not appropriate sufficient funds for the program, this Agreement shall be amended to reflect any reduction in funds.

d. CDPH has the option to invalidate or cancel the Agreement with 30-days advance written notice or to amend the Agreement to reflect any reduction in funds.

2. Federal Equal Opportunity Requirements

(Applicable to all federally funded grants entered into by the California Department of Public Health (CDPH) formerly known as California Department of Health Services (CDHS).)

a. The Grantee will not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era. The Grantee will take affirmative action to ensure that qualified applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and career development opportunities and selection for training, including apprenticeship. The Grantee agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Federal Government or CDPH, setting forth the provisions of the Equal Opportunity clause, Section 503 of the Rehabilitation Act of 1973 and the affirmative action clause required by the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212). Such notices shall state the Grantee's obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.

b. The Grantee will, in all solicitations or advancements for employees placed by or on behalf of the Grantee, state that all qualified applicants will receive consideration for employment

without regard to race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era.

c. The Grantee will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice, to be provided by the Federal Government or the State, advising the labor union or workers' representative of the Grantee's commitments under the provisions herein and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The Grantee will comply with all provisions of and furnish all information and reports required by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212) and of the Federal Executive Order No. 11246 as amended, including by Executive Order 11375, ‘Amending Executive Order 11246 Relating to Equal Employment Opportunity,‘ and as supplemented by regulation at 41 CFR part 60, “Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor,” and of the rules, regulations, and relevant orders of the Secretary of Labor.

e. The Grantee will furnish all information and reports required by Federal Executive Order No. 11246 as amended, including by Executive Order 11375, ‘Amending Executive Order 11246 Relating to Equal Employment Opportunity,‘ and as supplemented by regulation at 41 CFR part 60, “Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor,” and the Rehabilitation Act of 1973, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the State and its designated representatives and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

f. In the event of the Grantee's noncompliance with the requirements of the provisions herein or with any federal rules, regulations, or orders which are referenced herein, this Agreement may be cancelled, terminated, or suspended in whole or in part and the Grantee may be declared ineligible for further federal and state contracts in accordance with procedures authorized in Federal Executive Order No. 11246 as amended and such other sanctions may be imposed and remedies invoked as provided in Federal Executive Order No. 11246 as amended, including by Executive Order 11375, ‘Amending Executive Order 11246 Relating to Equal Employment Opportunity,‘ and as supplemented by regulation at 41 CFR part 60, “Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor,” or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

g. The Grantee will include the provisions of Paragraphs a through g in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Federal Executive Order No. 11246 as amended, including by Executive Order 11375, ‘Amending Executive Order 11246 Relating to Equal Employment Opportunity,‘ and as supplemented by regulation at 41 CFR part 60, “Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor,” or Section 503 of the Rehabilitation Act of 1973 or (38 U.S.C. 4212) of the Vietnam Era Veteran's Readjustment Assistance Act, so that such provisions will be binding upon each subgrantee or vendor. The Grantee will take such action with

respect to any subcontract or purchase order as the Director of the Office of Federal Contract Compliance Programs or CDPH may direct as a means of enforcing such provisions including sanctions for noncompliance provided, however, that in the event the Grantee becomes involved in, or is threatened with litigation by a subgrantee or vendor as a result of such direction by CDPH, the Grantee may request in writing to CDPH, who, in turn, may request the United States to enter into such litigation to protect the interests of the State and of the United States.

3. Debarment and Suspension Certification

a. By signing this Grant, the Grantee agrees to comply with applicable federal suspension and debarment regulations including, but not limited to 7 CFR Part 3017, 45 CFR 76, 40 CFR 32 or 34 CFR 85.

b. By signing this Grant, the Grantee certifies to the best of its knowledge and belief, that it and its principals:

(1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency;

(2) Have not within a three-year period preceding this application/proposal/agreement been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in Paragraph b(2) herein; and

(4) Have not within a three-year period preceding this application/proposal/agreement had one or more public transactions (Federal, State or local) terminated for cause or default.

(5) Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under federal regulations (i.e., 48 CFR part 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State.

(6) Will include a clause entitled, "Debarment and Suspension Certification" that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

c. If the Grantee is unable to certify to any of the statements in this certification, the Grantee shall submit an explanation to the CDPH Program Contract Manager.

d. The terms and definitions herein have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.

e. If the Grantee knowingly violates this certification, in addition to other remedies available to the Federal Government, the CDPH may terminate this Agreement for cause or default.

4. Covenant Against Contingent Fees

The Grantee warrants that no person or selling agency has been employed or retained to solicit/secure this Grant upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except *bona fide* employees or *bona fide* established commercial or selling agencies retained by the Grantee for the purpose of securing business. For breach or violation of this warranty, CDPH shall have the right to annul this Grant without liability or in its discretion to deduct from the Grant price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

5. Lobbying Restrictions and Disclosure Certification

(Applicable to federally funded grants in excess of $100,000 per Section 1352 of the 31, U.S.C.)

a. Certification and Disclosure Requirements

(1) Each person (or recipient) who requests or receives a grant, subgrant, which is subject to Section 1352 of the 31, U.S.C., and which exceeds $100,000 at any tier, shall file a certification (in the form set forth in Attachment 1, consisting of one page, entitled "Certification Regarding Lobbying") that the recipient has not made, and will not make, any payment prohibited by Paragraph b of this provision.

(2) Each recipient shall file a disclosure (in the form set forth in Attachment 2, entitled "Standard Form-LLL 'disclosure of Lobbying Activities'") if such recipient has made or has agreed to make any payment using nonappropriated funds (to include profits from any covered federal action) in connection with a grant or any extension or amendment of that grant, which would be prohibited under Paragraph b of this provision if paid for with appropriated funds.

(3) Each recipient shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affect the accuracy of the information contained in any disclosure form previously filed by such person under Paragraph a(2) herein. An event that materially affects the accuracy of the information reported includes:

(a) A cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered federal action;

(b) A change in the person(s) or individuals(s) influencing or attempting to influence a covered federal action; or

(c) A change in the officer(s), employee(s), or member(s) contacted for the purpose of influencing or attempting to influence a covered federal action.

(4) Each person (or recipient) who requests or receives from a person referred to in

Paragraph a(1) of this provision a grant or subgrant exceeding $100,000 at any tier under a grant shall file a certification, and a disclosure form, if required, to the next tier above.

(5) All disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the person referred to in Paragraph a(1) of this provision. That person shall forward all disclosure forms to CDPH Program Contract Manager.

b. Prohibition

Section 1352 of Title 31, U.S.C., provides in part that no appropriated funds may be expended by the recipient of a federal contract or agreement, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered federal actions: the awarding of any federal contract or agreement, the making of any federal grant, the making of any federal loan, entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract or agreement, grant, loan, or cooperative agreement.

6. **Additional Restrictions**

Grantee shall comply with the restrictions under Division F, Title V, Section 503 of the Consolidated Appropriations Act, 2012 (H.R. 2055), which provides that:

"SEC. 503.(a) No part of any appropriation contained in this Act or transferred pursuant to section 4002 of Public Law 111–148 shall be used, other than for normal and recognized executive-legislative relationships, for publicity or propaganda purposes, for the preparation, distribution, or use of any kit, pamphlet, booklet, publication, electronic communication, radio, television, or video presentation designed to support or defeat the enactment of legislation before the Congress or any State or local legislature or legislative body, except in presentation to the Congress or any State or local legislature itself, or designed to support or defeat any proposed or pending regulation, administrative action, or order issued by the executive branch of any State or local government, except in presentation to the executive branch of any State or local government itself.
(b) No part of any appropriation contained in this Act or transferred pursuant to section 4002 of Public Law 111–148 shall be used to pay the salary or expenses of any grant or contract recipient, or agent acting for such recipient, related to any activity designed to influence the enactment of legislation, appropriations, regulation, administrative action, or Executive order proposed or pending before the Congress or any State government, State legislature or local legislature or legislative body, other than for normal and recognized executive-legislative relationships or participation by an agency or officer of a State, local or tribal government in policymaking and administrative processes within the executive branch of that government.
(c) The prohibitions in subsections (a) and (b) shall include any activity to advocate or promote any proposed, pending or future Federal, State or local tax increase, or any proposed, pending, or future requirement or restriction on any legal consumer product, including its sale or marketing, including but not limited to the advocacy or promotion of gun control."

7. Human Subjects Use Requirements

(Applicable only to federally funded agreements in which performance, directly or through a subgrantee/subaward, includes any tests or examination of materials derived from the human body.)

By signing this Agreement, Grantee agrees that if any performance under this Agreement or any subcontract or subagreement includes any tests or examination of materials derived from the human body for the purpose of providing information, diagnosis, prevention, treatment or assessment of disease, impairment, or health of a human being, all locations at which such examinations are performed shall meet the requirements of 42 U.S.C. Section 263a (CLIA) and the regulations thereunder.

8. Audit and Record Retention

(Applicable to agreements in excess of $10,000.)

a. The Grantee shall maintain books, records, documents, and other evidence, accounting procedures and practices, sufficient to properly reflect all direct and indirect costs of whatever nature claimed to have been incurred in the performance of this Agreement, including any matching costs and expenses. The foregoing constitutes "records" for the purpose of this provision.

b. The Grantee's facility or office or such part thereof as may be engaged in the performance of this Agreement and his/her records shall be subject at all reasonable times to inspection, audit, and reproduction.

c. Grantee agrees that CDPH, the Bureau of State Audits, or their designated representatives including the Comptroller General of the United States shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. Grantee agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, the Grantee agrees to include a similar right of the State to audit records and interview staff in any subgrantee related to performance of this Agreement. (GC 8546.7, CCR Title 2, Section 1896).

d. The Grantee shall preserve and make available his/her records (1) for a period of three years from the date of final payment under this Agreement, and (2) for such longer period, if any, as is required by applicable statute, by any other provision of this Agreement, or by subparagraphs (1) or (2) below.

   (1) If this Agreement is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of three years from the date of any resulting final settlement.

   (2) If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the three-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular three-year period, whichever is later.

f. The Grantee may, at its discretion, following receipt of final payment under this Agreement, reduce its accounts, books and records related to this Agreement to electoronic data storage device. Upon request by an authorized representative to inspect, audit or obtain copies of said records, the Grantee and/or Subgrantee must supply or make available applicable devices, hardware, and/or software necessary to view, copy and/or print said records.

9. Federal Requirements

Grantee agrees to comply with and shall require all subgrantee's, if any, to comply with all applicable Federal requirements including but not limited to the United States Code, the Code of Federal Regulations, the Funding Opportunity Announcement, the Notice of Award, the funding agreement, and any memoranda or letter regarding the applicable Federal requirements.

Attachment 1

STATE OF CALIFORNIA
CALIFORNIA DEPARTMENT OF PUBLIC HEALTH

CERTIFICATION REGARDING LOBBYING

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making, awarding or entering into of this Federal contract, Federal grant, or cooperative agreement, and the extension, continuation, renewal, amendment, or modification of this Federal contract, grant, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency of the United States Government, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, “Disclosure of Lobbying Activities" in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subGrantees, subgrants, and contracts under grants and cooperative agreements) of $100,000 or more, and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S.C., any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.

2. Identify the status of the covered Federal action.

3. Identify the appropriate classification of this report. If this is a follow-up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.

4. Enter the full name, address, city, State and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.

5. If the organization filing the report in item 4 checks "Subawardee," then enter the full name, address, city, State and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.

7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."

9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.

10. (a) Enter the full name, address, city, State and zip code of the lobbying registrant under the Lobbying Disclosure Act of 1995 engaged by the reporting entity identified in item 4 to influence the covered Federal action.

    (b) Enter the full names of the individual(s) performing services and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).

11. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, DC 20503.

Board of Supervisors **Adult & Aging**

Meeting Date: 06/06/2023

Brief Title: Second Amendment to Agreement No. 21-19 with North Valley Behavioral Health

From: Nolan Sullivan, Director, Health and Human Services Agency

Staff Contact: Karleen Jakowski, Assistant Director, Health and Human Services Agency, x2978

Supervisorial District Impact: Countywide

Subject

Approve second amendment to Agreement No. 21-19 with North Valley Behavioral Health to extend the term of the agreement through June 30, 2024; add funding in the amount of $1,024,800, for 2023-24 for a new contract maximum of $3,260,800, for the period of January 26, 2021 through June 30, 2024; update option year amount; and to clarify language in the agreement, for the provision of operations and specialty mental health services at Pine Tree Gardens Board and Care facilities. (No general fund impact) (Sullivan)

Recommended Action

A. Approve second amendment to Agreement No. 21-19 with North Valley Behavioral Health to extend the term of the agreement through June 30, 2024; add funding in the amount of $1,024,800, for 2023-24 for a new contract maximum of $3,260,800, for the period of January 26, 2021 through June 30, 2024; and to clarify language in the agreement, for the provision of operations and specialty mental health services at Pine Tree Gardens Board and Care facilities; and

B. Delegate authority to the Director of the Yolo County Health and Human Services Agency or her/his designee to: 1) exercise optional year extensions up to $1,024,800 for fiscal year 2024-25 and 2) issue related option year notices. (Please see Section 2. of Att. A. Second Amendment)

Strategic Plan Goal(s)

Thriving Residents

Safe Communities

Reason for Recommended Action/Background

North Valley Behavioral Health (NVBH) provides 24/7 operation of both Pine Tree Garden (PTG) homes which includes the following daily activities: 24/7 staffing, food preparation, medication administration and support of residents' activities of daily living. Further, NVBH as a housing operator, has been responsible for ensuring both houses are appropriately stocked with food, activity supplies, housekeeping, office supplies, and hygiene supplies.

NVBH's services aim to restore, maintain, or improve personal independence and functioning consistent with requirements for learning and development. Services are patterned upon evidence-based or best practice-based models of treatment incorporating principles of "recovery" from symptoms of mental illness and are provided in a less restrictive environment, allowing consumers to receive appropriate level of services. Contracting with NVBH allows the County to achieve cost saving by reducing placements in other higher level/higher cost placements.

On or about January 26, 2021 the County entered into a three-year Agreement with North Valley Behavioral Health. The initial term of the agreement was from January 26, 2021 through June 30, 2023 for a total contract maximum of $2,136,000. The agreement also included 2 additional option years for FY2023-24 and FY2024-25 in an amount not to exceed $876,000 per fiscal year for a lifetime maximum of $3,888,000.

On or about February 7, 2023 the Parties amended the agreement to increase funding in the amount of $100,000 for 2022-23, updated the lifetime maximum to $3,988,000 and updated and clarified language in the agreement.

Approval of this amendment will extend the term of the agreement through June 30, 2024, add funding in the amount of $1,024,800 for FY2023-24 for a new contract maximum of $3,260,800, increase the option year amount to $1,024,800 for a new lifetime maximum of $4,285,600; and update and clarify language in the agreement. The increase in funding for FY2023-24 is based on increased payroll costs pertaining to the 5% Cost of Living Adjustment (COLA) increases.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See Att. B. Performance Measures).

HHSA confirms North Valley Behavioral Health has performed satisfactorily under this agreement. Ninety-two percent of PTG residents report satisfaction with the services provided and the staff working in one or both homes. Based on this level of satisfaction, HHSA augmented the FY22/23 contract with additional funding to add onsite case management services to support PTG residents not already assigned to an HHSA case manager.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On December 12, 2017, Yolo County Health and Human Services Agency (HHSA) issued a Request for Proposals (RFP) for Adult Residential Treatment Services. The proposal submitted by North Valley Behavioral Health was selected as the top choice by all members of the Review Committee and was evaluated and determined to meet all the required qualifications necessary to successfully provide these services.

HHSA confirms North Valley Behavioral Health has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business.

Fiscal Information
Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$1,024,800
Amount budgeted for expenditure	$1,024,800
Additional expenditure authority needed	$0
On-going commitment (annual cost)	$1,024,800

Source of Funds for this Expenditure	
MHSA	$1,024,800

Further explanation as needed
No general funds are required by this action. These services will be funded by MHSA. The action increases the contract maximum by $1,024,800 for a total of $3,260,800 for the period of January 26, 2021 through June 30, 2024. The amount of $1,024,800 will be included in the HHSA proposed budget fiscal year 2023-24. The related funding will be included in the requested budget process for future fiscal years.

The following is the breakdown of funding for this agreement.

FY 2020-21 January 26, 2021 through June 30, 2021	FY 2021-22 July 1, 2021 through June 30, 2022	FY 2022-23 July 1, 2022 through June 30, 2023	FY 2023-24 July 1, 2022 through June 30, 2023	Total
$384,000	$876,000	$976,000	$1,024,800	$3,260,800

This Agreement also includes 1 one-year optional extensions for 2024-25 in an amount less than or equal to $1,024,800 per fiscal year.

Option Year/ Fiscal Year (OY/FY)	Revised Agreement Expiration Date Per OY/FY	Maximum Increased Funding Amount Per OY/FY	Revised Agreement Lifetime Maximum Per OY/FY
OY/FY 2024-25	On or before June 30, 2025	Less than or equal to $1,024,800	Less than or equal to $4,285,600

In no event shall the term of the Agreement extend beyond June 30, 2025 nor shall the total contract maximum exceed the amount of FOUR MILLION TWO HUNDRED EIGHTY-FIVE THOUSAND SIX HUNDRED DOLLARS ($4,285,600) unless otherwise agreed to in writing by the parties and in conformity with the then-current Yolo County Procurement Policy approved by the Yolo County Board of Supervisors.

SECOND AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Second Amendment to Agreement No. 21-19 ("Second Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo, a political subdivision of the State of California ("County"), and North Valley Behavioral Health, LLC., a corporation authorized to do business in the State of California ("Contractor"), jointly referred to as the "Parties" herein.

WHEREAS, on or about January 26, 2021, the Parties entered into Agreement No. 21-19 ("Agreement"); and

WHEREAS, on or about February 7, 2023, the Parties amended the Agreement via the First Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended to:

1. Revise **Paragraph I.A** to extend the term of the Agreement through June 30, 2024; and
2. Revise **Paragraph III.B.1.** to add funding in the amount of $1,024,800 for Fiscal Year (FY) 2023-24 for a new contract maximum of $3,260,800; and
3. Revise **Paragraph III.B.2.** to update the available options, increase option year funding, and update the lifetime maximum; and
4. Revise **Section XVI.** of **Exhibit C** to rename the section and update county's insurance requirements; and
5. Revise **Exhibit D** to update the FY 2023-24 and the option year budgets; and
6. Revise **Section III.** of **Exhibit E** to update contact for the county risk manager**.**

NOW, THEREFORE, IT IS HEREBY AGREED AS FOLLOWS:

1. Paragraph I.A of the Agreement is hereby amended to read as follows:

A. The term of this Agreement shall be from **January 26, 2021 through June 30, 2024** unless sooner terminated as provided in this Agreement. At the County's option, this Agreement may be extended for one (1) additional twelve (12) month periods on the same terms and conditions as set forth in this Agreement upon written notice to the Contractor by the Yolo County Health and Human Services Agency Director or her/his designee ("Director").

2. Paragraph III.B.1. of the Agreement is hereby amended to read as follows:

B.1. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **June 30, 2024** shall be no greater than **THREE MILLION TWO HUNDRED SIXTY THOUSAND EIGHT HUNDRED DOLLARS ($3,260,800)** specified as follows:

FY 2020-21 January 26, 2021 through June 30, 2021	FY 2021-22 July 1, 2021 through June 30, 2022	FY 2022-23 July 1, 2022 through June 30, 2023	FY 2023-24 July 1, 2023 through June 30, 2024	**Total**
$384,000	$876,000	$976,000	$1,024,800	**$3,260,800**

3. Paragraph III.B.2. of the Agreement is hereby amended to read as follows:

B.2. Option Years: The County may exercise its option to extend the term of the Agreement pursuant to Paragraph I.A. above. Upon request of the County, Contractor shall provide a contract budget for each option year in conformance with the requirements of this Agreement. The option year contract budgets shall be sent to HHSAContracts@yolocounty.org for review and approval by the Director. In the event that the County elects to exercise an option, County shall notify the Contractor in writing. The notice shall include the revised agreement term, approved funding amount to be added to the Agreement; and revised agreement maximum payment obligation, subject to the maximums set forth below:

Option Year/ Fiscal Year (OY/FY)	Revised Agreement Expiration Date Per OY/FY	Maximum Increased Funding Amount Per OY/FY	Revised Agreement Lifetime Maximum Per OY/FY
OY/FY 2024-25	On or before June 30, 2025	Less than or equal to $1,024,800	Less than or equal to $4,285,600

In no event shall the term of the Agreement extend beyond **June 30, 2025** nor shall the total contract maximum exceed the amount of **FOUR MILLION TWO HUNDRED EIGHTY-FIVE THOUSAND SIX HUNDRED DOLLARS ($4,285,600)** unless otherwise agreed to in writing by the parties and in conformity with the then-current Yolo County Procurement Policy approved by the Yolo County Board of Supervisors.

4. Section XVI. of **Exhibit C** to the Agreement is hereby amended to read as follows:

XVI. INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical

professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. **Additional Insured Status** - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. **Primary Coverage** - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. **Notice of Cancellation** – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. **Waiver of Subrogation** – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

5. **Exhibit D** to the Agreement is hereby amended to read as attached.

6. **Section III.** of **Exhibit E** to the Agreement is hereby amended to read as follows:

III. Contractor shall report, as soon as reasonably practicable, within 24 hours for security incidents, as defined in 45 CFR §164.304, and one (1) hour for breaches of unsecured PHI as defined by Section 164.402 of the HIPAA Regulations to:

A. Alberto Lara, Interim County's Privacy Officer-Risk Manager/Safety Officer at alberto.lara@yolocounty.org, and

B. Lee Gerney, County's Information Security Officer-Chief Technology Officer at lee.gerney@yolocounty.org, and

C. Charles Egbert, County's HHSA Privacy Officer at Charles.Egbert@yolocounty.org, and

D. Katherine Barrett, HHSA Behavioral Health Compliance Officer at HHSA.BHCompliance@yolocounty.org.

7. All attachments to this Second Amendment are incorporated herein by this reference.

8. Except as specifically amended by this Second Amendment and any prior amendments, the Agreement shall remain in full force and effect according to its terms.

3.2	# and % of clients who did not need psychiatric hospitalization (or a higher level of care) in the past 12 months.	
3.3	# of % of clients who retained stable housing during the past 12 months.	
3.4	# and % of clients who had no days of incarceration in the past 12 months	

Pine Tree Gardens Case Management	North Valley Behavioral Health, LLC	Arne Hyson
Program Purpose	To improve the general health through increased skill development, decrease hospitalizations and increase housing stability of mentally ill residents at both Pine Tree Gardens (PTG) Homes through consistent supports that help residents manage daily.	
Program Information	The PTG case manager new PTG clients acclimate to their new homes through frequent connections, ensuring they get settled in and build a plan around their needs while they're in the home. This may include activities of daily living, financial literacy, how to care for their space and home, scheduling and time management, and medication management. For clients who find they are ready to move on to their next living situation, the case manager will support them in a successful transition.	
PM1: How much did we do?		
1.1	**Participants Served:** # of PTG residents served and demographics of those served (age, gender, race/ethnicity, disability).	
1.2	**Referrals Made:** # of service referrals made for these clients broken down by type of referral (primary care, substance use, mental health, other community service)	
PM2: How well did we do it?		
2.1	**New Client Engagement Rate:** % of new PTG residents that participate in any offered case management service at least **once a week.**	
2.2	**Total Client Participation Rate**: % of new PTG residents (lived in a PTG home for 6 months or less) that attend a self/home care, medication management, independent living, financial literacy, scheduling, or time management learning activity provided by the case manager **each month**.	
2.3	**Discharging Client Participation Rate**: % of PTG residents that access the case manager as they plan for, or implement, a housing transition or move.	
PM3: Is anyone better off?		
3.1	**Stabilization:** % and # of clients who have maintained their current housing without admission to Crisis Residential Treatment program and/or an acute inpatient psychiatric care facility.	
3.2	**Housing Retention:** % and # of PTG clients who successfully maintain their housing during the reporting period.	
3.3	**Increase Skillset:** % and # of clients who report improved living, home, financial, time, or medication management skills as the result of participating in case management services.

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 37.
Board of Supervisors **Adult & Aging**

Meeting Date:	06/06/2023
Brief Title:	Eleventh Amendment to Agreement No. 18-154 with CommuniCare Health Centers, Inc.
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Karleen Jakowski, Assistant Director, Health and Human Services Agency, x2978
Supervisorial District Impact:	Countywide

Subject
Approve eleventh amendment to Agreement No.18-154 with CommuniCare Health Centers, Inc. to add funding in the amount of $365,000 for a new contract maximum of $5,974,893.55 for the period of July 1, 2018 through June 30, 2023 for the provision of substance use disorder services. (No general fund impact) (Sullivan)

Recommended Action
Approve eleventh amendment to Agreement No.18-154 with CommuniCare Health Centers, Inc. to add funding in the amount of $365,000 for a new contract maximum of $5,974,893.55 for the period of July 1, 2018 through June 30, 2023 for the provision of substance use disorder services.

Strategic Plan Goal(s)
Thriving Residents

Reason for Recommended Action/Background
On May 8, 2018, the Board of Supervisors approved an agreement with Department of Health Care Services (DHCS) to receive funding in the amount of $13,943,284 for the Drug Medi-Cal Organized Delivery System.

Yolo County completed a formal competitive selection process (see Competitive Selection details below) and CommuniCare Healthcare Centers, Inc. was selected to provide Intensive Outpatient, Outpatient Services, Case Management, Physician Consultation, Recovery Services, and In-Person Screening/Referral Services.

On July 10, 2018, the Yolo County Board of Supervisors ("BOS") approved the underlying Agreement ("Agreement 18-154") with CommuniCare Healthcare Centers, Inc. for the provision of those services.

The Agreement has since been amended to shift funds, clarify language, and update rates.

On June 23, 2020 the BOS approved the third amendment reducing the total maximum compensation.

On July 27, 2021 the BOS approved the fifth amendment reducing (FY) 2020-21 funding and increasing (FY) 2021-22 funding.

On June 8, 2022the BOS approved the eight amendment that increased funding for (FY) 2021-22 and for (FY)2022-23.

Staff recommends approval of this eleventh amendment that increases funding for (FY) 2022-23 so CommuniCare Healthcare Centers, Inc. may continue providing these vital services to eligible Yolo County consumers. We are adding funding to four scopes of services to ensure that services continue and consumers continue to benefit from these services for the remainder of the fiscal year.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See

Att. B. Performance Measures)
HHSA confirms CommuniCare Healthcare Centers, Inc. has performed satisfactorily under this agreement 98.5% of consumers were retained in outpatient services. 34% reduction rate in substance use. 98% reduction in incarceration days.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On February 26, 2018, HHSA issued a Request for Proposal ("RFP") seeking contractors to provide Substance Use Disorder ("SUD") Adult Continuum of Care services to eligible Yolo County residents.

HHSA received eight proposals from this solicitation. Below is a table of all providers who submitted proposals. All proposals were evaluated, and the following proposals were determined to meet all the required qualifications necessary to successfully provide these services: CommuniCare, Turning Point, Progress House, Community Recovery Resources, Yolo Wayfarer Center, BayMark, and CORE. Because these proposals were considered to be of high quality, they will be offered a contract to provide these identified services. Separate agreements for the other bids chosen will be submitted to the BOS for approval. Heritage Oaks was the only bid received that will not be awarded a contract.

Request for Proposals (RFP) Service Requested:
Substance Use Disorder Adult Continuum of Care

Evaluation Criteria Included in RFP

- General company information (20 points)
- Experience and past performance (100 points)
- For contractors bidding on residential treatment services (6 points)
- Preferred qualifications (20 points)
- Responsiveness/responsibility (20 points)
- Pricing requirements (40 points)
- Proposer's approach to project (100 points)
- Quality assurance and oversight (20 points)
- Outputs and outcomes measures (50 points)
- Financial information (pass/fail)
- Quality and completeness of submitted proposal (pass/fail)

Bids Received

Bidder	***Scopes included in Bid***	***Bid***
CommuniCare Health Center	Intensive Outpatient, Outpatient, Case Management, Physician Consultation, Recovery Services, In-Person Screening/Referral	$1,583,952
Turning Point Community Programs	Intensive Outpatient, Outpatient, Case Management, Physician Consultation	$278,388
Progress House	Residential 3.1, Case Management, Physician Consultation	$500,000
Community Recovery Resources	Residential 3.1, Residential 3.5 Case Management, Physician Consultation, Residential 3.2 WM, Intensive Outpatient, Transitional Living	*
Yolo Wayfarer Center dba Fourth and Hope	Residential 3.1, Residential 3.5, Transitional, Case Management, Physician Consultation	$1,001,950
Heritage Oaks	Intensive Outpatient, Outpatient, Case Management, Physician Consultation	$785,929
BayMark Health Centers (MedMark, Fairfield; MedMark, Sacramento; Bi-Valley Medical Clinic	Opioid (Narcotic) Treatment Program, Case Management, Physician Consultation	$1,181,581**
CORE Medical Clinic, Inc	Opioid (Narcotic) Treatment Program, Case Management, Physician Consultation	$2,000,000

* Community Recovery Resources declined to submit a bid amount. The entire program cost $3,823,974 was

included in their proposal and expected to be funded by different sources.
** BayMark and CORE requested funding for two years. All other bids shown denote an annual budget.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$365,000
Amount budgeted for expenditure	$365,000
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
DMC-ODS	$350,000
SABG/ARPA	$15,000

Further explanation as needed

No general funds are required by this action. These services will be funded by DMC-ODS and SABG/ARPA. The action increases the contract maximum by $365,000 for a total of $5,974,893.55 for the period of July 1, 2018 through June 30, 2023. The amount of $365,000 is included in HHSA adopted budget for fiscal year 2022-23.

The following is the breakdown of funding for this agreement.

Scope of Services	FY 18-19 July 1, 2018 through June 30, 2019	FY 19-20 July 1, 2019 through June 30, 2020	FY 20-21 July 1, 2020 through June 30, 2021	FY 21-22 July 1, 2021 through June 30, 2022	FY 22-23 July 1, 2022 through June 30, 2023	Total
A.1	$385,300	$445,300	$420,000	$405,000	$605,000	$2,260,600
A.2	$481,076	$296,076	$346,893	$335,000	$485,000	$1,944,045
A.3	$25,571	$25,571	$25,571	$25,571	$25,571	$127,855
A.4	$180,048	$180,048	$80,000	$55,000	$55,000	$550,096
A.5	$5,536	$5,536	$5,536	$5,536	$5,536	$27,680
A.6	$168,700	$168,700	$183,107	$235,000	$235,000	$990,507
*A.7	NA	NA	$4,100	$0	$0	$4,100
*SABG (CRRSAA)	NA	NA	NA	$50,973.69	$4,036.86	$55,010.55
SABG (ARPA) Peer Support	NA	NA	NA	NA	$15,000	$15,000
Total	**$1,246,231**	**$1,121,231**	**$1,065,207**	**$1,112,080.69**	**$1,430,143.86**	**$5,974,893.55**

Any Unspent funding in a fiscal year for Scope A.7 and CRSAA may be rolled over into future fiscal years(including any option years). CRRSAA Funding must be fully expended by December 31, 2022.

ELEVENTH AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Eleventh Amendment to Agreement No.18-154 ("Eleventh Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo ("County"), and CommuniCare Health Centers, Inc. ("Contractor"), referred to as the "Parties" herein.

WHEREAS, on or about July 10, 2018, the Parties entered into Agreement No. 18-154 ("Agreement"); and9168785000

WHEREAS, on or about January 15, 2019, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about July 22, 2019, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about June 23, 2020, the Parties further amended the Agreement via the Third Amendment; and

WHEREAS, on or about November 2, 2020, the Parties further amended the Agreement via the Fourth Amendment; and

WHEREAS, on or about July 27, 2021, the Parties further amended the Agreement via the Fifth Amendment; and

WHEREAS, on or about November 1, 2021, the Parties further amended the Agreement via the Sixth Amendment; and

WHEREAS, on or about April 27, 2022, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #1; and

WHEREAS, on or about April 28, 2022, the Parties further amended the Agreement via the Seventh Amendment; and

WHEREAS, on or about June 28, 2022, the Parties further amended the Agreement via the Eighth Amendment; and

WHEREAS, on or about September 2, 2022, the Parties further amended the Agreement via the Ninth Amendment; and

WHEREAS, on or about November 9, 2022, the Parties further amended the Agreement via the Tenth Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended, to:

1. Revise **Paragraph III.B1.** to add funding for Fiscal Year (FY) 2022-23 in the amount $365,000 for a new contract maximum of $5,974,893.55; and

2. Revise **Section XVIII.** of **Exhibit D** to rename section and update new County Insurance requirements.

NOW, THEREFORE, THE PARTIES HEREBY AGREE AS FOLLOWS:

/ / /

DocuSign Envelope ID: CC7F3C38-0992-49EA-A08D-C24487FAB324

1. **Paragraph III.B1**. of the Agreement is hereby amended to read as follows:

   B1. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **June 30, 2023** shall be no greater than **FIVE MILLION NINE HUNDRED SEVENTY-FOUR THOUSAND EIGHT HUNDRED NINETY-THREE DOLLARS AND FIFTY-FIVE CENTS (\$5,974,893.55)** specified as follows:

Scope of Services	**FY 18-19** July 1, 2018 through June 30, 2019	**FY 19-20** July 1, 2019 through June 30, 2020	**FY 20-21** July 1, 2020 through June 30, 2021	**FY 21-22** July 1, 2021 through June 30, 2022	**FY 22-23** July 1, 2022 through June 30, 2023	**Total**
A.1	\$385,300	\$445,300	\$420,000	\$405,000	\$605,000	**\$2,260,600**
A.2	\$481,076	\$296,076	\$346,893	\$335,000	\$485,000	**\$1,944,045**
A.3	\$25,571	\$25,571	\$ 25,571	\$25,571	\$25,571	**\$127,855**
A.4	\$180,048	\$180,048	\$80,000	\$55,000	\$55,000	**\$550,096**
A.5	\$5,536	\$5,536	\$5,536	\$5,536	\$5,536	**\$27,680**
A.6	\$168,700	\$168,700	\$183,107	\$235,000	\$235,000	**\$990,507**
*A.7	NA	NA	\$4,100	\$0	\$0	**\$4,100**
*SABG (CRRSAA)	NA	NA	NA	\$50,973.69	\$4,036.86	**\$55,010.55**
SABG (ARPA) Peer Support	NA	NA	NA	NA	\$15,000	**\$15,000**
Total	**\$1,246,231**	**\$1,121,231**	**\$1,065,207**	**\$1,112,080.69**	**\$1,430,143.86**	**\$5,974,893.55**

*Any unspent funding in a fiscal year for Scope A.7 and CRSAA may be rolled over into future fiscal years (including any option years). CRRSAA Funding must be fully expended by December 31, 2022.

2. Section **XVIII** of **Exhibit D** is hereby revised to read as follows:

   XVIII. INSURANCE

   A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

      1. *Minimum Scope of Insurance* – Coverage shall be at least as broad as the latest version of the following:

         a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

         b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

         c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

         d. Professional Liability (Errors and Omissions) (If applicable, see below)

      2. *Minimum Limits (as applicable)* – Insurance coverage shall be with limits not less than the following:

DocuSign Envelope ID: CC7F3C38-0992-49EA-A08D-C24487FAB324

a. **Commercial General Liability** – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. **Automobile Liability** – $1,000,000 per accident for bodily injury and property damage

c. **Professional Liability/Malpractice/Errors and Omissions** –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, other licensed professional, or other professional contractor (such as computer and software designer) performs work under this Agreement the Contractor must provide this insurance. If not, then this requirement automatically does not apply).

d. **Workers' Compensation** – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this Agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. *Other Insurance Provisions*

a. **Additional Insured Status** – County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. **Primary Coverage** – Contractor's policy shall be "primary and non-contributory" and will not seek contribution from County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. **Notice of Cancellation** – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to County.

d. **Waiver of Subrogation** – Contractor hereby grants to County a waiver of any right to subrogation which any insurer of said Contractors may acquire against County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of County (if agreed to in a written contract or agreement) before County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

DocuSign Envelope ID: CC7F3C38-0992-49EA-A08D-C24487FAB324

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that Contractor changes to a new carrier prior to receipt of any payments due.

6. Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, Contractor's insurance coverage shall be primary, including as respects County, its officers, agents, employees and volunteers. Any insurance maintained by County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and County in the same manner and to the same extent as Contractor is bound to County under the Agreement Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity

DocuSign Envelope ID: CC7F3C38-0992-49EA-A08D-C24487FAB324

and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor and/or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor and/or Contractor will provide proof of compliance to County. (Coverage can be provided in the form or an endorsement to Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

E. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

3. Except as specifically amended by this Eleventh Amendment and any prior amendments, the Agreement shall remain in full force and effect according to its terms.

IN WITNESS WHEREOF, the Parties have executed this Eleventh Amendment as of the day and year last set forth below.

Results Based Accountability	
1. Program Purpose	Decrease incidences of substance abuse, reduce incarceration, and improve the quality of life for beneficiaries.
2. Program Description	Outpatient, Intensive Outpatient, Case Management, Physician Consultation, Recovery Services, and In-Person Screening and Referral to treatment, for any eligible Yolo County resident who has been referred to treatment through an authorized Yolo County Substance Use Access Point. Services can include individual and group counseling, drug testing, care coordination for level of care placement, linkage to other necessary services, oversight of complicated co-morbid or co-occurring beneficiary cases, and improved access to the substance use continuum of services.
PM1: How much did we do?	
1.1	*Bi-Annually Reported* • Number of Beneficiaries • Demographics: 1. Age 2. Gender 3. Race/Ethnicity 4. Disability 5. Culture
1.2	*Bi-Annually Reported* Number of referrals/ coordination for other services and referral dispositions
1.3	*Bi-Annually Reported* Number of referrals/ coordination to/with other substance use disorder providers for continued care
1.4	*Bi-Annually Reported* Number of referrals/ coordination to/with other substance use disorder providers for continued care
1.5	*Bi-Annually Reported* Number of total beneficiaries who completed their treatment episode
PM2: How well did we do it?	
2.1	*Bi-Annually Reported* • Number of Beneficiaries satisfied with services provided • Percentage of beneficiaries satisfied with services provided *(As collected by question #1-3 on the Consumer Perception Survey)* 1. I like the services that I received here 2. If I had other choices, I would still get services from this agency 3. I would recommend this agency to a friend or family member
2.2	*Annually Reported* • Number of beneficiaries satisfied with access and services provided based on Drug Medi-Cal Organized Delivery System (DMC-ODS) Treatment Perception Survey (TPS).

	• Percentage of beneficiaries satisfied with access and services provided based on Drug Medi-Cal Organized Delivery System (DMC-ODS) Treatment Perception Survey (TPS). *(As collected by TPS Survey – HHSA Reportable Data)*
2.3	*Bi-Annually Reported* • Initiation Rate 1. Number of beneficiaries who receive at least one (1) service (individual, group, collateral, or case management) within fourteen (14) days of a diagnosis being established by your facility. 2. Percentage of beneficiaries who receive at least one (1) or more services (individual, group, collateral, or case management) within fourteen (14) days of a diagnosis being established by your facility.
2.4	*Bi-Annually Reported* • Engagement Rate 1. Number of beneficiaries who receive at least two (2) or more services (individual, group, collateral, or case management) within thirty (30) days of a diagnosis being established by your facility. 2. Percentage of beneficiaries who receive at least two (2) or more services (individual, group, collateral, or case management) within thirty (30) days of a diagnosis being established by your facility.
2.5	*Bi-Annually Reported* • Retention Rate: 1. Number of beneficiaries who stayed for a minimum of two weeks that completed their entire treatment episode *2.* Percentage of beneficiaries who stayed for a minimum of two weeks that completed their entire treatment episode.
2.6	*Bi-Annually Reported* • Number of beneficiaries who were satisfied with access to services. • Percentage of beneficiaries who were satisfied with access to services *(As collected by question #4-8 on the Consumer Perception Survey)* 1. The location of service was convenient (parking, public transportation, distance, etc.) 2. Staff were willing to see me as often as I felt it was necessary 3. Staff returned my calls within 24 hours 4. Services were available at times that were good for me 5. I was able to get all the services I thought I needed.
PM3: Is anyone better off?	
3.1	*Bi-Annually Reported* • Number of beneficiaries reporting a reduction in substance use at completion of the program, and • Percentage of beneficiaries reporting a reduction in substance use at completion of the program
3.2	*Bi-Annually Reported* • Number of beneficiaries reporting a reduction in days incarcerated while in treatment, compared to the previous 6 months

	• % of beneficiaries reporting a reduction in days incarcerated while in treatment, compared to the previous 6 months.
3.3	*Bi-Annually Reported* • Percentage reduction of days incarcerated during treatment (1- days incarcerated in treatment/days incarcerated 6 months prior to treatment)
3.4	*Bi-Annually Reported* • Percentage of clients reporting an improvement in outcomes as a result of receiving these services *(as collected by questions 21-28 on the Consumer Perception Survey):* 1. I deal more effectively with daily problems 2. I am better able to control my life 3. I am better able to deal with crisis 4. I am getting along better with my family 5. I do better in social situations 6. I do better in school and/or work 7. My housing situation has improved 8. My symptoms are not bothering me as much

County of Yolo

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 38.
Board of Supervisors **Adult & Aging**

Meeting Date:	06/06/2023
Brief Title:	Eighth Amendment to Agreement No. 18-132 with Yolo Wayfarer Center dba Fourth and Hope
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Karleen Jakowski, Assistant Director, Health and Human Services Agency, x2978
Supervisorial District Impact:	Countywide

Subject
Approve eighth amendment to Agreement No. 18-132 with Yolo Wayfarer Center dba Fourth and Hope to add funding in the amount of $480,886 for 2022-23 for a new contract maximum of $5,364,534.16 for the period of July 1, 2018 through June 30, 2023 for the provision of providing substance use disorder treatment and prevention services. (No general fund impact) (Sullivan)

Recommended Action
Approve eighth amendment to Agreement No. 18-132 with Yolo Wayfarer Center dba Fourth and Hope to add funding in the amount of $450,886 for 2022-23 for a new contract maximum of $5,364,534.16 for the period of July 1, 2018 through June 30, 2023 for the provision of providing substance use disorder (SUD) treatment and prevention services.

Strategic Plan Goal(s)
Thriving Residents

Reason for Recommended Action/Background
On May 8, 2018, the Board of Supervisors approved an agreement with Department of Health Care Services (DHCS) to receive funding in the amount of $13,943,284 for the Drug Medi-Cal Organized Delivery System.

A formal competitive selection process was completed (see Competitive Selection details below) and Yolo Wayfarer Center was selected to provide substance use disorder treatment and prevention services.

On June 29, 2021 the Agreement added an additional scope of work for Adverse Childhood Experience Screenings (ACEs) which allows for screenings and assessments to obtain scores and cognitive assessment results from behavioral health clients who are simultaneously involved in the criminal justice system within Yolo County for the Data Driven Recovery Project (DDRP). The results from the screenings and assessments are converted into anonymized data and incorporated into a DDRP study funded by the Mental Health Services Oversight and Accountability Commission.

On June 23, 2020 the Board of Supervisors (BOS) approved the first amendment increasing (FY) 2019-20 funding and extending the term of the Agreement.

On June 29, 2021 the BOS approved the second amendment increasing (FY) 202-21 and (FY) 2021-22 funding.

The agreement has also been amended to shift fund, update rates, and clarify language.

Approval of this eighth amendment allows for additional funding in the amount of $450,886 for FY2022-23. In FY2022-23 County has seen a significant increase in participants accessing services, more screenings have been done than in the past, and more have qualified for residential services at higher levels. The additional funding is needed to meet the needs of the increase in residential services.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See Att. B. Performance Measures)

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On February 26, 2018, HHSA issued a Request for Proposal (RFP) seeking contractors to provide Substance Use Disorder (SUD) Adult Continuum of Care services to eligible Yolo County residents.

HHSA received eight proposals from this solicitation. All proposals were evaluated, and the following proposals were determined to meet all the required qualifications necessary to successfully provide these services:

- CommuniCare
- Turning Point,
- Progress House
- Community Recovery Resources
- Yolo Wayfarer Center
- Bay Mark (Bi-Valley Medical Clinic, MedMark Treatment Center -- Fairfield, MedMark Treatment Center -- Sacramento)
- CORE

Because these proposals were of high quality, they were offered a contract to provide these identified services. Separate agreements for the other bids chosen were also submitted to the Board of Supervisors for approval.

Additional information regarding the Competitive Bid Process is provided below, including a summary of the RFP evaluation criteria.

Request for Proposals (RFP) Service Requested:
Substance Use Disorder Adult Continuum of Care

Evaluation Criteria Included in RFP

- General company information (20 points)
- Experience and past performance (100 points)
- For contractors bidding on residential treatment services (6 points)
- Preferred qualifications (20 points)
- Responsiveness/responsibility (20 points)
- Pricing requirements (40 points)
- Proposer's approach to project (100 points)
- Quality assurance and oversight (20 points)
- Outputs and outcomes measures (50 points)
- Financial information (pass/fail)
- Quality and completeness of submitted proposal (pass/fail)

Bids Received

Bidder	Bid
CommuniCare Health Center	$1,583,952
Turning Point Community Programs	$278,388
Progress House	$500,000
Community Recovery Resources	*
Yolo Wayfarer Center dba Fourth and Hope	$1,001,950
Heritage Oaks	$785,929
BayMark Health Centers (MedMark, Fairfield; MedMark, Sacramento;	$1,181,581**
Bi-Valley Medical Clinic)	$2,000,000**
CORE Medical Clinic, Inc.	

* Community Recovery Resources declined to submit a bid amount. The entire program cost $3,823,974 was included in their proposal and expected to be funded by different sources.
** BayMark and CORE requested funding for two years. All other bids shown denote an annual budget.HHSA

confirms Yolo Wayfarer Center dba Fourth and Hope has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$450,886
Amount budgeted for expenditure	$450,886
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
DMC-ODS	$400,000
SABG/ARPA	$50,886

Further explanation as needed

No general funds are required by this action. These services will be funded by DMC-ODS, SABG/CRRSAA, SABG/ARPA, AB109, and Realignment. The action increases the contract maximum by $450,886 for the period of July1, 2018 through June 30, 2023. The amount of $450,886 is included in HHSA adopted budget for fiscal year 2022-23

The following is the breakdown of funding for this agreement.

Scope of Services	**FY 18-19** July 1, 2018 through June 30, 2019	**FY 19-20** July 1, 2019 through June 30, 2020	**FY 20-21** July 1, 2020 through June 30, 2021	**FY 21-22** July 1, 2021 through June 30, 2022	**FY 22-23** July 1, 2022 through June 30, 2023	**Total**
Scope A.1 Clinically Managed Low Intensity Residential Treatment (ASAM Level 3.1)	$522,500	$607,500	$641,500	$701,500	$881,500	$3,354,500
Scope A.2 Clinically Managed High-Intensity Residential Treatment (ASAM Level 3.5)	$55,000	$15,000	$105,000	$45,000	$643,510	$863,510
Scope A.3 Care Coordination Services	$14,814	$4,814	$25,000	$25,000	$40,000	$109,628
Scope A.4 Physician Consultation	$6,510	$6,510	$6,510	$6,510	$6,510	$32,550
Scope A.5 Recovery Residences/ Transitional Living	$120,000	$120,000	$170,000	$170,000	$170,000	$750,000
Scope A.6 Adverse childhood Experiences screenings (ACEs)*	N/A	N/A	$4,100	NA	NA	$4,100**
Scope A.7 SABG/ CRRSAA Coronavirus Response and Relief Supplemental Appropriation Act	N/A	N/A	N/A	$90,481.88	$108,878.28	$199,360.16
SABG/ARPA	N/A	N/A	N/A	N/A	$50,886	$50,886

SLE Beds Total	$718,824	$753,824	$952,110	$1,038,491.88	$1,901,284.28	$5,364,534.16

Any unspent funding in a fiscal year for Scope A.7 may be rolled over into future fiscal years (including any option years) to be used only for Scope A.7. CRRSAA Funding must be fully expended by December 31, 2022

EIGHTH AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Eighth Amendment to Agreement No.18-132 ("Eighth Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo ("County") and Yolo Wayfarer Center, dba Fourth and Hope ("Contractor"), referred to as the "Parties" herein.

WHEREAS, on or about June 26, 2018, the Parties entered into Agreement No. 18-132 ("Agreement"); and

WHEREAS, on or about June 23, 2020, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about June 29, 2021, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about April 27, 2022, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #1; and

WHEREAS, on or about May 18, 2022, the Parties further amended the Agreement via the Third Amendment; and

WHEREAS, on or about June 07, 2022, the Parties further amended the Agreement via the Fourth Amendment; and

WHEREAS, on or about July 26, 2022, the Parties further amended the Agreement via the Fifth Amendment; and

WHEREAS, on or about September 2, 2022, the Parties further amended the Agreement via the Sixth Amendment; and

WHEREAS, on or about January 10, 2023, the Parties further amended the Agreement via the Seventh Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended to:

1. Revise **Paragraph III.B1.** to add funding in the amount of $450,886 for Fiscal Year (FY) 2022-23 for a new contract maximum of $5,364,534.16; and

2. Revise **Section XVIII.** of **Exhibit D** to rename section and update new County Insurance requirements; and

NOW, THEREFORE, IT IS HEREBY AGREED AS FOLLOWS:

1. Paragraph III.B1. of the Agreement is hereby amended to read as follows:

B1. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **June 30, 2023** shall be no greater than **FIVE MILLION THREE HUNDRED SIXTY-FOUR THOUSAND FIVE HUNDRED THIRTY-FOUR DOLLARS AND SIXTEEN CENTS ($5,364,534.16)** specified as follows:

Scope of Services	**FY 18-19** July 1, 2018 through June 30, 2019	**FY 19-20** July 1, 2019 through June 30, 2020	**FY 20-21** July 1, 2020 through June 30, 2021	**FY 21-22** July 1, 2021 through June 30, 2022	**FY 22-23** July 1, 2022 through June 30, 2023	**Total**
Scope A.1 Clinically Managed Low Intensity Residential Treatment (ASAM Level 3.1)	$522,500	$607,500	$641,500	$701,500	$881,500	$3,354,500
Scope A.2 Clinically Managed High-Intensity Residential Treatment (ASAM Level 3.5)	$55,000	$15,000	$105,000	$45,000	$643,510	$863,510
Scope A.3 Care Coordination Services	$14,814	$4,814	$25,000	$25,000	$40,000	$109,628
Scope A.4 Physician Consultation	$6,510	$6,510	$6,510	$6,510	$6,510	$32,550
Scope A.5 Recovery Residences/ Transitional Living	$120,000	$120,000	$170,000	$170,000	$170,000	$750,000
Scope A.6 Adverse childhood Experiences screenings (ACEs)*	N/A	N/A	$4,100	N/A	N/A	$4,100**
Scope A.7 SABG/ CRRSAA Coronavirus Response and Relief Supplemental Appropriation Act	N/A	N/A	N/A	$90,481.88	$108,878.28	$199,360.16
SABG/ARPA SLE Beds	N/A	N/A	N/A	N/A	$50,886	$50,886
Total	**$718,824**	**$753,824**	**$952,110**	**$1,038,491.88**	**$1,901,284.28**	**$5,364,534.16**

** Any unspent funding in a fiscal year for Scope A.7 may be rolled over into future fiscal years (including any option years) to be used only for Scope A.7. CRRSAA Funding must be fully expended by December 31, 2022.

2. Section **XVIII.** of **Exhibit D** is hereby amended to read as follows:

XVIII. INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. *Minimum Scope of Insurance* – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to

endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. *Minimum Limits (as applicable)* – Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, other licensed professional, or other professional contractor (such as computer and software designer) performs work under this Agreement the Contractor must provide this insurance. If not, then this requirement automatically does not apply).

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this Agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. *Other Insurance Provisions*

a. Additional Insured Status – County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. Primary Coverage – Contractor's policy shall be "primary and non-contributory" and will not seek contribution from County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. Notice of Cancellation – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to County.

d. Waiver of Subrogation – Contractor hereby grants to County a waiver of any right to subrogation which any insurer of said Contractors may acquire against County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of County (if agreed to in a written contract or agreement) before County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that Contractor changes to a new carrier prior to receipt of any payments due.

6. Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, Contractor's insurance coverage shall be primary, including as respects County, its officers, agents, employees and volunteers. Any insurance maintained by County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the

DocuSign Envelope ID: 49D0F2A1-2078-454B-BB1E-358CD64BD03D

maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and County in the same manner and to the same extent as Contractor is bound to County under the Agreement Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor and/or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor and/or Contractor will provide proof of compliance to County. (Coverage can be provided in the form or an endorsement to Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

E. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

3. **Exhibit A.8** is hereby added to **Exhibit A** of the Agreement to read as attached.

4. Except as specifically amended by this Eighth Amendment and any prior amendments, the Agreement shall remain in full force and effect according to its terms.

Results Based Accountability	
1. Program Purpose	Decrease incidences of substance abuse, reduce incarcerations, and improve the quality of life for beneficiaries.
2. Program Description	Residential Treatment, Case Management, Physician Consultation, and Transitional Living for any eligible Yolo County resident who has been referred to treatment through an authorized Yolo County Substance Use Access Point, or through the Sheriff Department for Electronic Monitoring beneficiaries. Services can include individual and group counseling, drug testing, care coordination for level of care placement, linkage to other necessary services, oversight of complicated co-morbid or co-occurring beneficiary cases, and a safe and secure place to live while receiving other services when appropriate.
3. PM1: How much did we do?	
1.1	*Bi-Annually Reported* • Number of Beneficiaries • Demographics: 1. Age 2. Gender 3. Race/Ethnicity 4. Disability 5. Culture
1.2	*Bi-Annually Reported* Number of referrals/ coordination for other services and referral dispositions
1.3	*Bi-Annually Reported* Number of referrals/ coordination to/with other substance use disorder providers for continued care
1.4	*Bi-Annually Reported* Number of referrals/ coordination to/with other substance use disorder providers for continued care
1.5	*Bi-Annually Reported* Number of total beneficiaries who completed their treatment episode
4. PM2: How well did we do it?	
2.1	*Bi-Annually Reported* • Number of Beneficiaries satisfied with services provided • Percentage of beneficiaries satisfied with services provided *(As collected by question #1-3 on the Consumer Perception Survey)* 1. I like the services that I received here 2. If I had other choices, I would still get services from this agency 3. I would recommend this agency to a friend or family member
2.2	*Annually Reported* • Number of beneficiaries satisfied with access and services provided based on Drug Medi-Cal Organized Delivery System (DMC-ODS) Treatment Perception Survey (TPS).

	• Percentage of beneficiaries satisfied with access and services provided based on Drug Medi-Cal Organized Delivery System (DMC-ODS) Treatment Perception Survey (TPS). *(As collected by TPS Survey – HHSA Reportable Data)*
2.3	*Bi-Annually Reported* • Initiation Rate 1. Number of beneficiaries who receive at least one (1) service (individual, group, collateral, or case management) within fourteen (14) days of a diagnosis being established by your facility. 2. Percentage of beneficiaries who receive at least one (1) or more services (individual, group, collateral, or case management) within fourteen (14) days of a diagnosis being established by your facility.
2.4	*Bi-Annually Reported* • Engagement Rate 1. Number of beneficiaries who receive at least two (2) or more services (individual, group, collateral, or case management) within thirty (30) days of a diagnosis being established by your facility. 2. Percentage of beneficiaries who receive at least two (2) or more services (individual, group, collateral, or case management) within thirty (30) days of a diagnosis being established by your facility.
2.5	*Bi-Annually Reported* • Retention Rate: 1. Number of beneficiaries who stayed for a minimum of two weeks that completed their entire treatment episode *2.* Percentage of beneficiaries who stayed for a minimum of two weeks that completed their entire treatment episode.
2.6	*Bi-Annually Reported* • Number of beneficiaries who were satisfied with access to services. • Percentage of beneficiaries who were satisfied with access to services *(As collected by question #4-8 on the Consumer Perception Survey)* 1. The location of service was convenient (parking, public transportation, distance, etc.) 2. Staff were willing to see me as often as I felt it was necessary 3. Staff returned my calls within 24 hours 4. Services were available at times that were good for me 5. I was able to get all the services I thought I needed.
5. PM3: Is anyone better off?	
3.1	*Bi-Annually Reported* • Number of beneficiaries reporting a reduction in substance use at completion of the program, and • Percentage of beneficiaries reporting a reduction in substance use at completion of the program
3.2	*Bi-Annually Reported* • Number of beneficiaries reporting a reduction in days incarcerated while in treatment, compared to the previous 6 months

	• % of beneficiaries reporting a reduction in days incarcerated while in treatment, compared to the previous 6 months.
3.3	*Bi-Annually Reported* • Percentage reduction of days incarcerated during treatment (1- days incarcerated in treatment/days incarcerated 6 months prior to treatment)
3.4	*Bi-Annually Reported* • Percentage of clients reporting an improvement in outcomes as a result of receiving these services *(as collected by questions 21-28 on the Consumer Perception Survey):* 1. I deal more effectively with daily problems 2. I am better able to control my life 3. I am better able to deal with crisis 4. I am getting along better with my family 5. I do better in social situations 6. I do better in school and/or work 7. My housing situation has improved 8. My symptoms are not bothering me as much

County of Yolo

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 39.
Board of Supervisors **Adult & Aging**

Meeting Date:	06/06/2023
Brief Title:	Fourth Amendment to Agreement No. 19-133 with Yolo County Housing Authority
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Karleen Jakowski, Assistant Director, Health and Human Services Agency, x2978
Supervisorial District Impact:	Countywide

Subject
Approve fourth amendment to Agreement No. 19-133 with Yolo County Housing to add funding in the amount of $45,802.90 for 2023-24, for a new contract maximum of $354,016.82, for the period of July 1, 2018 through June 30, 2025, for the provision of property and physical asset management services. (No general fund impact) (Sullivan)

Recommended Action
Approve fourth amendment to Agreement No. 19-133 with Yolo County Housing to add funding in the amount of $45,802.90 for 2023-24, for a new contract maximum of $354,016.82, for the period of July 1, 2018 through June 30, 2025, for the provision of property and physical asset management services.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
In 2010, the County of Yolo and the Yolo County Housing Authority (YCHA) entered into a Memorandum of Understanding for the purpose of obtaining housing that could be used by the County to operate transitional housing programs for consumers of County specialty mental health services. The Funds that originally paid for the purchase and renovation of the two residences were Mental Health Services Act monies allocated to the County of Yolo. Said funds were provided to Yolo County Housing Authority (YHCA) pursuant to the Memorandums of Understanding dated June 21, 2010, which stated that YHCA shall purchase and renovate two single family residences, lease the properties to the County and provide property and physical asset management for the properties at; 1.) 214 Trinity Street, Woodland, Ca 95695 (APN 064-195-08-1); and 2.) 2439 Meadowlark Circle, West Sacramento, Ca 95691 (APN 045-772-07-1). Additionally, the Memorandum of Understanding specified that YCHA will maintain the physical and structural safety of the structures and yards, provide maintenance and repairs for residences. YCHA shall respond within 24 hours to emergency maintenance or repair requests. YCHA shall respond within 72 hours to hazard maintenance or repair requests.

On or about June 25, 2019, the County and YCHA entered into Agreement No. 19-133 which replaced and superseded the 2010 Memorandum of Understanding.

Approval of this amendment will add funding for Fiscal Year 2023-24 which will allow the continued operation of transitional housing programs for consumers of County specialty mental health services. services through June 30, 2024. This Amendment also updates the budget methodology starting in Fiscal Year 2022-23 to reflect a lump sum amount per house rather than breaking down the funding per category per house. This will give more flexibility in processing provider payments.

Performance Measures included in this Agreement are as follows:
Performance Measures are not associated with this Agreement.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.

Competitive Bid Process/Vendor Performance
Per the Procurement Policy dated January 1, 2019, the services included in this agreement are exempt from the competitive selection process, as this agreement is with a local government entity.

Fiscal Information
Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$45,803
Amount budgeted for expenditure	$45,803
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
MHSA	$45,803

Further explanation as needed
No general funds are required by this action. These services will be funded by Mental Health Services Act (MHSA). The action increases the contract maximum by $45,802.90 for a total of $354,016.82 for the period of July 1, 2018 through June 30, 2025. The amount of $45,802.90 will be included in the HHSA proposed budget fiscal year 2023-24.

The following is the breakdown of funding for this agreement.

Fiscal Year 2017-18:

FOURTH AMENDMENT
(BOS AGREEMENT NO. ____-_____)

This Fourth Amendment to Agreement No. 19-133 ("Fourth Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo, a political subdivision of the State of California ("County"), and Yolo County Housing, a public body corporation and politic ("YCH"), jointly referred to as the "Parties" herein.

WHEREAS, on or about June 25, 2019, the Parties entered into Agreement No. 19-133 ("Agreement"); and

WHEREAS, on or about June 23, 2020, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about June 8, 2021, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about March 22, 2022, the Parties further amended the Agreement via the Third Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended, to:

1. Revise **Paragraph B.2.** of **Exhibit B** to:
    a. adjust the budget for Fiscal Year (FY) 2022-23 to update the budget methodology; and
    b. add a budget for FY 2023-24 with funding in the amount of $45,802.90 for a new contact maximum of $354,016.82.

NOW, THEREFORE, THE PARTIES AGREE AS FOLLOWS:

1. Paragraph B.2 of **Exhibit B** to the Agreement is hereby amended to read as follows:

2. Any other provision of this Agreement notwithstanding, the maximum payment obligation to YCH through **June 30, 2025,** shall be no greater than **THREE HUNDRED FIFTY-FOUR THOUSAND SIXTEEN DOLLARS AND EIGHTY-TWO CENTS ($354,016.82)** specified as follows.

Brief Title:	Agreement with Netsmart Technologies, Inc.
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Karleen Jakowski, Assistant Director, Health and Human Services Agency, x2978
Supervisorial District Impact:	Countywide

Subject
Approve agreement with Netsmart Technologies, Inc. in the amount of $1,950,000 for the period of July 1, 2023 through June 30, 2026 for the provision of computer technical support and maintenance for Avatar Management Information System (the County's Electronic Health Record "EHR"). (No general fund impact) (Sullivan)

Recommended Action
Approve agreement with Netsmart Technologies, Inc. in the amount of $1,950,000 for the period of July 1, 2023 through June 30, 2026 for the provision of computer technical support and maintenance for Avatar Management Information System (the County's Electronic Health Record "EHR").

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
Avatar was chosen, in part, due to its ability to meet the State and Federal reporting requirements for Medi-Cal Specialty Mental Health Services and Drug Medi-Cal Services as well as the ability to provide technical and physical security as required by the national standards Health Insurance Portability and Accountability Act (HIPAA) of 1996. Avatar can track eligibility, billing, payment application, appointment scheduling, medical records maintenance, and critical data items.
This Agreement with Netsmart will provide the County with the necessary licenses to continue utilizing Avatar as the County's Electronic Health Records (EHR) system. It will also allow Netsmart to continue to provide technical support and maintenance that will enable HHSA to fully utilize its database, including remote hosting. More specifically, this effort will allow HHSA to continue the transmittal of required information to the State Department of Healthcare Services in a timely manner, the completion of State and Federal billing and reporting requirements, and the effective tracking of the clinical services that HHSA provides to consumers.

In addition to the support and maintenance services, this Agreement also includes the following:
1. An annual fee for Electronic Signature Pads.
This allows staff to work more efficiently with consumers in the field as well as the office, to gain signature consent for treatment and services, release of information, etc.

2. Order Connect e-Prescribing Module
The Order Connect suite is an e-Prescribing and medication management product. The full version of this product has the ability to exchange web-based pharmaceutical information with defined allied healthcare partners. This will allow the medical prescribers on HHSA staff to increase efficiency and accuracy, ensuring prescriptions are sent to the appropriate pharmacy, decrease, if not eliminate lost prescriptions, thus speeding up the provision of our consumers medication support.

3. Enlighten Analytics

A powerful management tool that helps clients understand their organization's strengths and opportunities for improvement compared to similar organizations regionally and nationally. Transforms data into actionable information an organization can use. Encompasses hundreds of behavioral health and human services metrics in the clinical, operational, financial and organizational climate realms of performance.

4. Document Capture [Point of Service (POS) Scanning and Batch Imaging]
Allows for the scanning, importing and archiving of cards, images and forms from a paper to electronic format. Point of Service provides staff the ability to quickly and easily scan, capture and organize low volume scanned images. Batch Imaging provides staff the ability to scan large volumes of documents without presorting/separating by patient or document type in advance. The document batch can then be manually organized / separated by patient, document type, or episode using an ImageNow eForm.

5. MyAvatar Hosting (Simplify System Management and Maintenance)
Netsmart Plexus™ Cloud offers a secure hosting environment for Netsmart CareRecords™ (EHR solutions), as well as all your other enterprise applications used throughout an organization. Clients are hosted in fully redundant TIER 3 class data centers with SSAE16-certified operations. Plexus Cloud is a cost-efficient service that ensures information systems are accessible yet secure, allowing organizations to focus on their core mission: providing the highest quality care possible to populations they serve.

6. ICD-10 Upgrade Subscription
This latest version of the DSM manual includes significant changes to the way that a diagnosis is recorded including the removal of all Axes designations. As a result of these changes, Netsmart Technologies, Inc. has made changes to the existing myAvatar platform to support these transitions.

7. Meaningful Use Certification Module
Meaningful Use is comprised of four software components; Health Information Exchange (Connect/Care Quality), OrderConnect; and Care Guidance/Clinical Quality Metrics. A description for each component is provided below:
a. Health Information Exchange:
    i. CareConnect enables the sharing of clinical information between and among providers involved in the care of a consumer and with other entities such as Regional Health Information Organizations (RHIOs). CareConnect works with the Netsmart enterprise system to provide a secure way to exchange clinical and administrative information. It is the vehicle for Clinical Information Exchange.
    ii. Carequality builds on data exchange relationships and agreements you already have in place, and expands their reach. We do this by connecting what we call Implementers, who might be HIEs, EHR vendors, payers, clearinghouses, or other types of organizations. Carequality Implementers provide access to data from many different sources. When you get a cell phone, you sign up for service with a network provider and then can make calls to anyone, regardless of their provider. Carequality brings that concept to health IT. Once you have connectivity services from one of our Implementers, you can exchange records with any other participant regardless of their Implementer.
b. OrderConnect is Netsmart's Surescripts Certified Secure Web-based electronic prescribing, order tracking management system. OrderConnect helps providers improve quality of care, reduce medication errors and meet criteria to receive Medi-Cal and Medicare funds for Meaningful Use of an Electronic Health Record (EHR). It is fully integrated with Netsmart's enterprise solutions.
c. Care Guidance is a module that provides reports and monitoring metrics for Meaningful Use Measures and Clinical Quality Measures. Dashboards and alerts support clinician awareness and help organizations to improve care and outcomes. Beyond regulated reporting, Netsmart's Care Guidance for Meaningful Use Stage 2 includes the ability to benchmark an organization's performance on all required Clinical Quality Metrics as data becomes available in 2015. As Centers for Medicare & Medicaid Services (CMS) potentially changes the Meaningful Use menu requirements year to year, Care Guidance subscription covers these changes.

8. KPI Dashboards
Tracking key performance indicators (KPIs) is an essential step to becoming a truly data-driven organization. KPI Dashboards provide at-a-glance metrics to clinical, financial and operational decision-makers to determine if your organization is moving in the right direction to achieve organizational goals. The solution organizes and presents information to the user in a way that is easy to read and share with others.
This dashboard solution provides snapshot views for clinical, financial and operational data of select KPIs, as well as the ability to create user-defined views and filter aggregated data by program, service type, caseload and more. Flexibility and ease of use mean performance measures can be shared regularly with staff members who can affect these key metrics through performance and outcomes. As a result, your organization can make steady, measurable progress toward well-defined goals.

9. Managed Services Organization (MSO)
A uniquely adaptable system which serves the specialized needs of states, counties, Managed Care Organizations,

specialty networks, and providers attempting to carefully monitor both at-risk and non-risk contracts. This application is an add-on feature to Avatar. This will assist with providing contract monitoring and authorization monitoring from within Avatar.

Performance Measures included in this Agreement are as follows:
Performance Measures are not associated with this Agreement.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On May 10, 2023, the Yolo County Procurement Manager approved a sole/single source procurement for these services.

Procurement reviewed HHSA's request and determined that it was in the best interest of the County to renew the agreement, based on satisfactory service/reasonable prices and to avoid the interruption of County business. Without a sole source approval and renewal of the agreement with the vendor, the County would lose their EHR system and loss of revenue. Factors considered, included but were not limited to:

1) Avatar is our only EHR for BH services, to which we have 100% dedicated resources, and expanding access to providers; 2) satisfactory vendor performance-vendor is the sole creator and maintainer of the Avatar system; 3) vendor works closely with HHSA staff and ensures our annual committed funds are reasonable and appropriate and ensures annual increases are not outrageous; and 4) loss of revenue-unable to document services provided and thus be unable to claim reimbursement for Medi-Cal services from the state.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$650,000
Amount budgeted for expenditure	$650,000
Additional expenditure authority needed	$0
On-going commitment (annual cost)	$650,000

Source of Funds for this Expenditure	
MHSA	$650,000

Further explanation as needed
No general funds are required by this action. These services will be funded by MHSA. The total amount of this action is $1,950,000 for the period of July 1, 2023 through June 30, 2026. The amount of $650,000 is included in the HHSA recommended budget for fiscal year 2023-24. The related funding will be included in the requested budget process for future fiscal years.

The funding breakdown per fiscal year is provided below:

Total Maximum Amount of This Agreement			
	FY 2023-24	FY 2024-25	FY 2025-26
COMMITTED FUNDS	$517,058.49	$537,740.83	$559,250.47
DISCRETIONARY FUNDS	$132,941.51	$112,259.17	$90,749.53
Totals	$650,000.00	$650,000.00	$650,000.00
Agreement Total (All Fiscal Years) = $1,950,000.00

Netsmart
SIMPLE. PERSONAL. POWERFUL.

TERMS AND CONDITIONS

1. DEFINITIONS

Each capitalized term used in this Agreement shall have the following meaning:

a. "**Confidential Information**" means all technical, financial and other information that is disclosed by either party to the other, whether orally or in writing, any disputes, status reports, scheduling updates, workflows, forms, reporting, the terms of this Agreement, pricing, Services, Work Product, data (other than Protected Health Information which is protected in accordance with the BAA), Documentation, all non-public information related to Netsmart products, services and methodologies. "Confidential Information" does not include information (a) publicly available through no breach of this Agreement; (b) rightfully acquired from a third party having a bona fide right to disclose or make the same available; (c) independently developed or previously known by a party; or (d) Protected Communication.

b. **"Data"** means all information collected, stored, processed or generated through Client's use of the Software Services.

c. "**Documentation**" means the description and features of the Licensed Software and Software Services as set forth on the Netsmart Wiki, which includes release notes. The Netsmart Wiki can be accessed via the application or the NetsmartConnect support portal.

d. "**First Productive Use**" means the date that Data is being accessed or entered in the Software Services for processing or review in Client's commercial environment.

e. "**Force Majeure**" mean acts or events beyond its reasonable control, including but not limited to, acts of nature, governmental actions, acts of terrorism, fire, labor, civil disturbances, pandemics, transportation problems, interruptions of power supply or communications, breakdown of internet service provider and natural disasters, any of which makes performance impossible.

f. "**Hardware Configuration**" means the hardware required to install and/or operate the Licensed Software or Software Services as set forth at https://wikihelp.ntst.com/Special:Userlogin?returntotitle=Req#tab=login, Username: Netsmart_Prospect and Password: Netsmart1.

g. "**Licensed Software**" means the Netsmart commercial computer software programs in object code form listed in a Purchase Agreement and their associated Documentation.

h. "**Problem or Defect**" means any failure of the Licensed Software or Software Services to operate in substantial conformance with the Documentation.

i. **"Protected Communication"** mean those communications protected under 45 CFR § 170.403, Communications, of the 21st Century Cures Act (the "Communications Rule"), regarding the usability, interoperability or security of the Netsmart Licensed Software or Software Services; relevant information regarding users' experiences when using the Licensed Software or Software Services; Netsmart's business practices related to exchanging electronic health information; and the manner in which a user uses the Licensed Software or Software Services.

j. "**Purchase Agreement**" means a document executed by the parties (such as a quote or addendum) setting forth the items being purchased by Client, which will be subject to and incorporated into this Agreement.

k. "**Scope of Use**" means a metric used to define the limits of the products and services as provided for in the Agreement (i.e. number of concurrent users).

l. "**Services**" means the implementation, training, Software Services, Support Services and other services to be provided by Netsmart under this Agreement.

m. "**Software Services**" or "**SaaS**" means the right to access the Licensed Software and/or Third Party Products in a cloud computing environment in accordance with the SOW, together with the Support Services.

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

n. "**Statement of Work**" or "**SOW**" means the scope for the implementation of the Software Services.

o. "**Support Services**" means the application maintenance and support services provided by Netsmart for the Software Services.

p. "**Third Party Products**" means any commercial software product acquired by Netsmart from an outside vendor on behalf of Client.

q. "**Work Product**" means any documentation, technique, methodologies, inventions, reports, software, or procedures developed, conceived or introduced by Netsmart during the course of this Agreement, whether acting alone or in conjunction with Client or its employees, Users or others. Work Product does not include any Client Confidential Information or Data.

2. SOFTWARE SERVICES LICENSE RIGHTS

a. Software Services License. Netsmart hereby grants Client a non-exclusive, royalty-free, non-transferable subscription license to use the Software Services only:

i. for Client's internal business purposes and not to process the data of any other entity; and

ii. to support the Scope of Use for the Software Services set forth on the applicable Purchase Agreement(s).

b. License Rights. The license rights granted in this section may be exercised by Client, its employees and independent contractors (provided that such independent contractors are not competitors of Netsmart) (each a "**User**"). Client shall be responsible for each User(s) compliance with the terms of this Agreement.

c. License Restrictions. Except as expressly stated in this Agreement, no other rights, express, implied or otherwise, are granted to Client and Netsmart reserves all rights not expressly granted herein. Client will not permit the Software Services or Third Party Products (i) to be disassembled or reverse engineered, (ii) to be sold, disclosed, leased, subleased, lended or otherwise made available to others including third party hosting providers, (iii) to be or attempted to be accessed, modified, make additions to or altered, (iv) make any derivations, adaptations, or translations in whole or in part, and/or (v) to be used to develop functionally similar computer software or to otherwise compete with Netsmart. No copies of the Software Services or Third Party Products may be made by Client without the prior written consent of Netsmart except for backup purposes in accordance with normal data processing practices. Client agrees to reproduce any copyright notices and/or other proprietary legends, regardless of form, contained in, affixed to, or appearing on the Software Services and Third Party Products.

d. Third Party Products. Third Party Products are licensed subject to the same restrictions as are set forth in this Agreement. Third Party Products are also subject to and Client agrees to the pass through terms that apply to those Third Party Products at https://www.ntst.com/lp/pass-through-terms. Notwithstanding the foregoing, nothing contained in the third party pass through terms will diminish Netsmart's obligations under this Agreement.

e. Software Title. The Software Services are proprietary to Netsmart and are based upon and contain trade secrets and other Confidential Information. Netsmart reserves title to the Software Services and all other rights not expressly granted herein.

f. Scope of Use Audit. Client acknowledges that Netsmart has access to view Client's actual Scope of Use and will periodically verify Client's actual Scope of Use of the Software Services. Should this verification identify usage of the Software Services in excess of the Scope of Use contracted for, Client agrees to true-up the Scope of Use to the current usage levels.

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

3. SERVICES

a. Implementation. The Statement of Work will set forth the tasks to be performed by each party, the time frames in which such tasks will be performed, and will identify the roles and responsibilities of the persons who will be provided by Client to support the implementation.

b. Support Services. Netsmart agrees to provide Support Services in accordance with the terms set forth on Schedule A.

c. Data Services. To the extent permitted by applicable law, Netsmart may (i) use and disclose Data as necessary to perform, analyze and improve the Services; (ii) use and disclose Data to provide data aggregation services as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B), including use for statistical compilations, reports and all other purposes allowed under applicable law HIPAA and (iii) deidentify PHI in accordance with the standards set forth in HIPAA and use and disclose such deidentified data.

d. Data Security. Netsmart has a risk-based, independent third-party-audited Information Security Management System ("**ISMS**") designed to enable Software Services and Support Services to be delivered in a secure manner and protect against threats to the security or integrity of Client's Data. Netsmart aligns its ISMS with the National Institute of Standards and Technology (NIST) cybersecurity framework. Netsmart annually agrees to undergo SSAE18 SOC 2 Type 2 review of its data center operations and agrees to provide a summary of the report upon Client's request.

e. Suspension of Services. Netsmart may, upon advance written notice to Client, suspend Services without liability to Client in the event of (i) a threat to the security of Netsmart's systems, the Services, or (ii) Client's undisputed invoices are overdue and written notice has been provided by Netsmart, in addition to any other rights or remedies, including termination of the Agreement.

4. PAYMENTS

a. Payments. Invoices are payable net thirty (30) days after invoice date. Failure to make timely payment is considered a material breach of the Agreement.

b. Annual Increases. Netsmart agrees that it will not revise any recurring fees during the first year of this Agreement. Thereafter, any recurring fees will be increased annually at a rate of **5%** or the most recent increase in the US Bureau of Labor Statistics Consumer Price Index for All Urban Consumers (CPI-U) - Medical Care, whichever is greater. Netsmart may further increase recurring fees for Third Party Products, if such increase from Netsmart's third party supplier exceeds the amount permitted under this Section. Netsmart agrees any such additional increase shall be at the same rate charged by the third party supplier.

c. Taxes. The fees set forth in this Agreement do not include any taxes. Where applicable, taxes will be added to the fees, and Client will pay amounts equal to any taxes (however designated, levied, or based) on such fees including, but not limited to, state and local sales, privilege, property, use or excise taxes, but not including taxes based on the net income of Netsmart. If Client is tax exempt, Client will provide Netsmart a certificate of exemption from taxes.

5. WARRANTIES

a. Functionality Warranty. Netsmart warrants that the Software Services will substantially conform in all material respects with the Documentation, provided Client is on the most current or next to most current version of the Software Services and no modifications, additions or alterations of any kind have been made. In the event of a breach of the foregoing warranty and provided Client is receiving Support Services, Netsmart will (i) correct any reproducible Problems or Defects in the Software Services which prevent it from operating in substantial conformance with the Documentation; or (ii) provide a commercially reasonable alternative that will substantially conform with the Documentation in accordance with the Support Services provisions set forth in Schedule A. The foregoing warranty will only apply if Client meets the Hardware Configuration. CLIENT'S EXCLUSIVE REMEDY UNDER THIS SECTION AND NETSMART'S SOLE OBLIGATION IS TO MODIFY THE

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

SOFTWARE SERVICES TO ELIMINATE THE PROBLEM OR DEFECT. IN THE EVENT NETSMART CANNOT MODIFY OR ELIMINATE THE PROBLEM OR DEFECT, CLIENT MAY TERMINATE THE AGREEMENT PURSUANT TO THE TERMINATION SECTION AND SEEK ALL AVAILABLE REMEDIES AT LAW AND IN EQUITY.

b. Services Warranty. Netsmart warrants that the Services will be performed in a professional manner in accordance with the terms in this Agreement.

c. Disclaimer Of All Other Warranties. THE FOREGOING WARRANTIES ARE IN LIEU OF ALL OTHER WARRANTIES AND CONDITIONS EXPRESS OR IMPLIED, WHETHER IN RELATION TO THE SOFTWARE SERVICES, HARDWARE OR THE PROVISION OF ANY SERVICES INCLUDING, BUT NOT LIMITED TO, THOSE CONCERNING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE OR ARISING BY TRADE USAGE OR COURSE OF DEALING.

6. LIMITATION OF LIABILITY

a. LIMITATION ON DAMAGES. EXCEPT FOR A BREACH OF THE LICENSE RESTRICTIONS, IN NO EVENT WILL EITHER PARTY BE LIABLE TO THE OTHER FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES.

b. LIMITATION ON CUMULATIVE LIABILITY. EXCEPT FOR INFRINGEMENT INDEMNIFICATION OBLIGATIONS, THE MAXIMUM AGGREGATE LIABILITY OF NETSMART TO CLIENT FOR ANY ACTUAL OR ALLEGED DAMAGES ARISING OUT OF, BASED ON OR RELATING TO THIS AGREEMENT, WHETHER BASED UPON BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), WARRANTY OR ANY OTHER LEGAL THEORY, WILL NOT EXCEED THE FEES PAID TO NETSMART FOR THE IMPACTED PRODUCTS AND SERVICES DURING THE PRIOR TWELVE (12) MONTH PERIOD PRECEDING THE EVENT GIVING RISE TO THE CAUSE OF ACTION.

7. INDEMNIFICATION

a. Infringement Indemnification. Netsmart will defend, indemnify and hold harmless Client and its officer, directors, employees and agents from and against third party claims, liabilities, obligations, judgements, causes of action (the "**Claim**"), and associated costs and expenses (including reasonable attorneys' fees) to the extent arising out of an allegation that the use of the Software Services infringes a third party's U.S. patent, trademark, copyright or other third party intellectual property right. In the event such an infringement is found, Netsmart will at its option and expense, and as Client's sole and exclusive remedy, procure the right to continued use of the Software Services, replace or modify the Software Services with a non-infringing program, or terminate the license of the Software Services, and will refund to Client a pro rata refund of fees prepaid for Software Services not yet provided. Netsmart's indemnification obligations will not apply to the extent the Claim is based upon (i) the use of the Software Services in violation with the terms of this Agreement; (ii) the use of the Software Services in combination with other products or services not made or furnished by Netsmart, provided that the Software Services alone are not the cause of such Claim; (iii) the modification, additions or alterations of the Software Services or any portion thereof by anyone other than Netsmart, provided that the Software Services in unmodified form are not the cause of such Claim; or (iv) the use of Software Services not updated to the latest version offered by Netsmart, where such version cures the infringement.

b. Client Indemnification. Client will indemnify, defend and hold harmless Netsmart and its officer, directors, employees and agents from and against all Claims, and associated costs and expenses (including reasonable attorneys' fees) to the extent arising out of or resulting from Client's misuse of the Software Services, or any claim by any party receiving services from Client.

c. Indemnification Process. Upon becoming aware of any matter which is subject to the provisions of the Indemnification Section, the party seeking indemnification must (i) give prompt written notice of such Claim to the other party; (ii) provide the indemnifying party with the authority, information and assistance to defend or settle the Claim; and (iii) not materially prejudice the indemnifying party's ability to defend or settle the Claim. The indemnifying party has the right to control and defend the Claim at its own expense and with its own counsel and to settle the Claim so long as such settlement does not require the indemnified party to pay any money or

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

admit any liability without the indemnified party's prior written consent. The indemnified party will have the right, at its option, to participate in the defense of the Claim with its own counsel at its own expense.

8. TERM AND TERMINATION

a. Term. The Term of the Agreement shall be effective on July 1, 2023, through June 30, 2026 ("Initial Term"). At the expiration of the initial Term, the Service(s) will be automatically renewed on an annual basis on the anniversary of the Effective Date for additional two year terms ("**Option Term**"). Either party may terminate the Service(s) as of the last day of the initial Term or any Option Term, by providing ninety (90) days written notice of termination prior to the last day of the initial Term, or the last day of any Option Term.

b. Termination. Either party may terminate this Agreement or a Purchase Agreement, if the other party is in material breach by sending a written notice specifying each breach with reasonable detail, unless (i) the breaching party has cured the breach within thirty (30) days of receipt of written notice, or (ii) with respect to a breach which may not be reasonably cured within the 30-day period, the breaching party is diligently pursuing cure of, and cures the breach as soon as practicable. In the event this Agreement is terminated due to a breach by Client, within thirty (30) days of the date of termination of this Agreement, Client will erase from all computer storage any image or copies of the Software Services, related documentation and will certify in writing to Netsmart that the original and all copies of such property have been destroyed. In the event of termination, Client shall be responsible for all fees related to software and Services rendered through the effective date of such termination.

c. Copy of Data upon Termination. Upon termination of the Agreement, Netsmart will make a machine readable backup copy of the Data available to Client at no additional cost, in an SQL backup file (.bak) format. The backup file will be delivered via Secure FTP or on an encrypted disc as requested by Client. Netsmart retains no rights or ownership to the Data.

d. Survival. Notwithstanding any termination of this Agreement for any reason, the terms and conditions set forth in the following Sections of this Agreement will survive and will be binding on the representatives, successors, heirs and assignees of the parties: Limitation of Liability, Indemnification (with respect to claims arising prior to termination), Confidentiality, and General Provisions.

9. CONFIDENTIALITY

a. Confidential Information. Except as permitted in this Agreement, neither party will, nor will they permit their employees, agents, attorneys or independent contractors to, disclose, use, copy, distribute, sell, license, publish, reproduce, or otherwise make available Confidential Information of the other party. Each party agrees to secure and protect the other party's Confidential Information using the same standard of care, but in no event less than reasonable care, that it uses to protect its own Confidential Information. Each party agrees to require their respective employees, agents, attorneys, and independent contractors who have a need to access Confidential Information to be bound by confidentiality obligations sufficient to protect the Confidential Information. Either party may disclose the other party's Confidential Information to the extent required by applicable law or regulation, provided that, as permitted, it notifies the other party in writing as soon as practicable prior to such disclosure. Notwithstanding the foregoing, Netsmart shall not prohibit or restrict or engage, nor shall anything contained herein be construed to permit or allow Netsmart to engage in a practice that prohibits or restricts Client from any Protected Communications that are entitled to unqualified protection as defined and required under the ONC Final Rules (45 C.F.R. Parts 170 and 171). Client recognizes that Netsmart has a legitimate interest in the Protected Communications and that if Netsmart is not made aware of the issues that may be detailed in a Protected Communication, Netsmart is not able to resolve, correct or explain them. Netsmart encourages Client to report all such issues included in Protected Communications through Netsmart's standard support process. Netsmart reserves all rights to assert that any prohibition or restriction imposed by Netsmart on Protected Communications is permitted because it is not entitled to unqualified protection under 45 C.F.R. 170.403(a)(2)(ii).

b. HIPAA. The parties agree to comply with the Business Associate Agreement ("**BAA**") attached hereto and incorporated by reference.

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

10. INTELLECTUAL PROPERTY

Netsmart retains all right, title and interest, including intellectual property rights and all other rights in the Licensed Software, Software Services, Services and Work Product. Netsmart grants to Client a non-exclusive, non-transferable license to use Work Product for Client's own internal business purposes in conjunction with the Software Services during the Term and for no other purpose.

11. FORCE MAJEURE

Except for obligations to pay for Services performed or products delivered, neither party will be responsible for delays or failures in performance resulting from an event of Force Majeure. The delayed party will perform its obligations within a reasonable time after the cause of the failure has been remedied, and the other party will accept the delayed performance.

12. GENERAL PROVISIONS

a. Governing Law. This Agreement will be interpreted and enforced in accordance with the laws of the State of California. Both parties agree this Agreement does not constitute a consumer transaction.

b. Entire Agreement. This Agreement contains the entire understanding of the parties with respect to the matter contained herein. There are no promises, covenants or undertakings contained in any other written or oral communication. In the event of any conflict between or among the documents comprising this Agreement, the latest dated agreement will prevail. This Agreement may not be modified except in writing and signed by authorized representatives of the parties.

c. Notices. Any notices required or permitted to be sent hereunder will be in writing and will be sent, deposited with the U.S. Postal Service (certified mail, return receipt requested). Notices to Client and Netsmart will be sent to the addresses first set forth on the first page of this Agreement. Notices to Netsmart will be sent "Attention: Corporate Counsel" and emailed to Contracts_Notice@ntst.com. Notices will be effective upon the date when delivery is either effected or refused.

d. Waiver. A waiver or consent to any term, condition, right or remedy under this Agreement must be in writing to be effective. Failure of either party to enforce any term or condition of this Agreement will not constitute a waiver of such term or condition. No waiver or consent for any one matter will be a waiver or consent for any subsequent or different matter.

e. Insolvency. In the event that either party will cease conducting business in the normal course, becomes insolvent, makes a general assignment for the benefit of creditors, suffers or permits the appointment of a receiver for its business or assets, or avails itself of, or becomes subject to, any proceeding under a Bankruptcy Act or any other statute of any state relating to insolvency or the protection of rights of creditors, which is not discharged within ninety (90) days, then (at the option of the other party) this Agreement will terminate and be of no further force and effect and any property or rights of such other party, whether tangible or intangible, will forthwith be returned to it.

f. Assignment. Client may not assign this Agreement or any of the licenses herein, without the prior written consent of Netsmart, except to an assignee who acquires all or substantially all of the assets of Client, is not a competitor of Netsmart and has financial resources at least equal to those of Client. Any permitted assignee will assume in writing, all obligations of the assignor.

g. Exclusion. Netsmart acknowledges that to the best of its knowledge neither Netsmart nor its employees providing services hereunder are listed on the Office of Inspector General (OIG) List of Excluded Individuals/Entities (LEIE) as ineligible to participate in any federal health care program.

h. Medicare Access to Records Clause. If this Agreement is deemed subject to 42 U.S.C. § 1395x(v)(1)(I) and 42 C.F.R. Part 420, Subpart D 420.300 et seq., then in accordance with such law, Netsmart shall, until the expiration of four (4) years after the furnishing of any Medicare reimbursable services pursuant to this Agreement, upon written request, allow the Comptroller General of the United States, the Secretary of Health and Human Services,

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

and their duly authorized representatives access to this Agreement and to Netsmart's books, documents and records necessary to certify the nature and extent of costs of Medicare reimbursable services provided under this Agreement.

i. Publicity. Upon prior written approval, Client authorizes Netsmart to identify Client as a client, and to use Client's name and logo in any of Netsmart's advertising copy, promotional material or press releases.

j. Arbitration and Injunctive Relief. Netsmart and Client will work cooperatively to resolve any dispute arising out of or relating to this Agreement ("Dispute") amicably at appropriate management levels. If a Dispute remains unresolved and a party wishes to initiate a formal dispute, the party will submit the Dispute to binding arbitration in the State of California under the Federal Arbitration Act ("FAA") and under the then-current Commercial Arbitration Rules of the American Arbitration Association, Inc. ("AAA"). The arbitrator will follow the Federal Rules of Evidence. The provisions of this Agreement will control over both the rules and procedures of the FAA, AAA and the Federal Rules of Evidence. Each party will bear their own fees, expenses and costs incurred in connection with the arbitration, but the parties will share equally the fees and expenses of the arbitrator. Judgement on any arbitration award may be entered and enforced in any court of competent jurisdiction. No action, regardless of form, arising out of this Agreement will be brought more than one (1) year after the cause of action accrues. Each party acknowledges that any breach of its obligations with respect to the other party's confidentiality and intellectual property rights may result in irreparable injury for which monetary damages will not be adequate and the non-breaching party is entitled to seek injunctive relief in addition to any other relief a court may deem proper.

k. Practice of Medicine and Accuracy of Information. Client acknowledges and agrees that the Software Services and Services are information management tools, many of which contemplate and require the involvement of professional medical personnel. The duty to diagnose and treat a patient lies solely with Client and use of information provided by Netsmart, in no way replaces or substitutes for the professional judgment or skill of Client.

l. Severability. If any provision of this Agreement is found to be invalid, illegal or unenforceable under any applicable statute or law, it is to that extent deemed to be omitted, and the remaining provisions of this Agreement will not be affected in any way.

m. Execution. This Agreement may be executed in two or more counterparts, each of which will be deemed an original. This Agreement may be executed and delivered by facsimile or other electronic signature (whether digital or encrypted), which shall be considered an original signature for all purposes and shall have the same force and effect as an original signature.

n. Headings. The headings of the paragraphs and sections of this Agreement are for convenience only and will not control or affect the meaning or construction of any provision of this Agreement.

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

Netsmart
SIMPLE. PERSONAL. POWERFUL.

Schedule A: Application Support Services

The following is a description of the Support Services to be performed by Netsmart during the time period in which Client is purchasing Support Services.

1. Netsmart will support and maintain the most current version of the Licensed Software in substantial conformance with applicable Federal laws. Client acknowledges and agrees that, in the event Client has chosen to utilize a less than current version of the Licensed Software or has missed any mandatory upgrades, Client will bring the Licensed Software up to Netsmart's then-current version in order for Client to maintain compliance with applicable Federal law.

2. Priority1 issues must be called in directly to the Netsmart Support department. For all other concerns Client can call or use Netsmart's designated online support system to log issues specifying a Problem or Defect in the Licensed Software.

3. If self-hosted, Client will provide and maintain, at its expense, hardware and/or software to allow Netsmart to access Client's system remotely.

4. Netsmart will also provide Client with:

   a. updates that are distributed without charge to other similar clients which reflect modifications and incremental improvements made to the Licensed Software by Netsmart;

   b. an opportunity to obtain enhancements to the Licensed Software for which fees are imposed on the same terms as such enhancements are generally made available to other clients

5. Netsmart will provide a toll-free problem-reporting and support telephone line available 8:00 a.m. to 5:00 p.m., Central time Monday through Friday, exclusive of Federal holidays.

6. Client agrees to grant Netsmart access to the Licensed Software on Client's system(s) for the sole purpose of performing Netsmart's obligations under this Agreement. Netsmart will ensure all connectivity to Client's system is through a single point of connectivity utility which audits Netsmart's activity on Client's system(s) when Netsmart is connected to Client's system(s). These audit logs are retained for 90 days.

7. If reasonable analysis by Netsmart indicates that a reported Problem or Defect is caused by a problem related to hardware used by Client, the hardware's system software, or applicable software other than Licensed Software, or Client 's misuse or modification of the Licensed Software, Netsmart's responsibility will be limited to the correction of the portion, if any, of the problem caused by a Problem or Defect in the Licensed Software.

8. If analysis by Netsmart indicates that a reported problem is caused by a reproducible Problem or Defect, Netsmart will use commercially reasonable efforts to provide Support Services in accordance with the following prioritization of reported problems:

Priority	Definition
1 - Critical	**Priority 1:** will be assigned when the Licensed Software or a material functional component thereof is non-operational as a result of a defect, in the production environment only, such as the production system cannot be accessed or utilized in any capacity, a direct patient safety issue is present, or a HIPAA compliance violation as a result of a server incident or Netsmart application defect. Best efforts will be made to correct Priority 1 problems, or to provide a plan for such correction, within two (2) business days. Notwithstanding the above, Netsmart will work continuously toward resolution. *Client's Commitment:* • This case Priority must be called in directly to the Netsmart Support department. • Client provides specific, detailed information required for troubleshooting/investigation. • Client provides appropriate staff and resources to sustain continuous communication and work effort as required. • Without appropriate client resources, the case will be downgraded to Priority 2 after three business days.
2 - High	**Priority 2:** will be assigned to defects in the live production environment that have a significant negative impact on daily operations but do not cause a "System Down". A workaround may be available and/or the capacity to maintain daily business functionality. Commercially reasonable efforts will be made to correct Priority 2 problems, or to provide a plan for such correction, within five (5) business days. *Client's Commitment:* • Client provides specific, detailed information required for troubleshooting/investigation. • Client provides appropriate staff and resources to sustain continuous communication and work effort as required. • Without appropriate client resources, the case will be downgraded to Priority 3 after six business days.
3 - Medium	**Priority 3:** will be assigned for system defects that result in functions that have no major impact on daily operations. An issue that allows the continuation of function, including issues in which a reasonable workaround is available. Commercially reasonable efforts will be made to correct Priority 3 problems, or to provide a plan for such correction, within ten (10) business day. *Client's Commitment:* • Client provides specific, detailed information required for troubleshooting/investigation. • Client provides appropriate staff and resources to sustain continuous communication and work effort as required. • Without appropriate client resources, the case will be downgraded to Priority 4 after eleven (11) business days.
4 - Low	**Priority 4:** will be assigned to cosmetic defects that do not affect system usability or non-defect related requests including, but not limited to, system set up/configuration, training, functionality questions, documentation, portal access, and upgrade requests. Commercially reasonable efforts will be made to address Priority 4 issues, or to provide a plan for such correction, within fifteen (15) business day. *Client's Commitment:* • Client provides specific, detailed information required for troubleshooting/investigation. • Client provides appropriate staff and resources to sustain continuous communication and work effort as required.

Netsmart
SIMPLE. PERSONAL. POWERFUL.

Schedule A-1: Service Level Agreement for Software Services

1. Definitions.

i. **Major System Change** means a material change to the system, including a backend upgrade, operating system upgrade, new release upgrade, SAN upgrade, database upgrade.

ii. **Service Package** means software designed to fix identified Problems or Defects in the Software Services, including documentation and release notes made available with such patch or service pack.

iii. **System Stabilization Period** is the period during the seventy-two (72) hour window following the First Productive Use and following a Major System Change.

2. Coverage.

This Section sets forth the System Availability commitments for Software Services. If monthly System Availability (as defined below) falls below 99.9%, Netsmart will provide a credit against the Client's next monthly recurring Software Services fees to account for the downtime. The appropriate credit percentage (%) will be determined based on the following table.

For the absence of doubt, Software Services include 24x7x365 Support Services for Priority 1 issues.

System Uptime %	Credit %
>= 99.0% and < 99.9%	5%
98.0 to 98.9%	10%
96.0 to 97.9%	15%
< 95.9 or below	25%

3. System Availability Calculation

a. Netsmart will calculate System Availability as set forth below for each month during the Term.

b. System Availability will be calculated as follows (and will be rounded to up to the next one tenth of a percentage point):

System Availability = [(Base Time – Unscheduled Downtime) / (Base Time)] x 100

Base Time equals the product of the number of days in the applicable month times 24 hours times 60 minutes.

Unscheduled Downtime equals the time (in minutes) during which the production system is not operational (excluding "Scheduled Downtime") from the Netsmart-provided hosting facility internet connection based on the measuring methodology documented below.

Scheduled Downtime equals the aggregate total of all minutes of planned and scheduled maintenance performed during the month to perform any necessary hardware, operating system, network, database, application software maintenance, repair, upgrades, and updates. Netsmart will work with Client to determine and use commercially reasonable efforts to schedule downtime after regular business hours, during times that minimize the disruption to operations. The amount of scheduled downtime may vary from month to month depending on the level of change to the system such as the project implementation phase, adding new products, upgrading products, etc

c. Client is permitted to audit Unscheduled Downtime based on the methodology established below. Netsmart agrees to cooperate with Client in connection with any audit of Unscheduled Downtime. This audit must take place within 30 days of the month end.

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

d. Netsmart recommends that Client implement, on a timely basis, the Service Packages that will be provided to Client by Netsmart on a periodic basis. Netsmart will advise Client on Service Packages that may enhance performance and availability and will advise Client of the advantages of implementing the Service Packages as well as the implication of electing not to implement the Service Packages. Netsmart will perform the technical requirements needed for Client to use the Service Packages that Client elects to implement, at no additional charge and as part of the recurring SaaS/Hosting fees. Client and Netsmart will work together to establish a mutually agreeable implementation schedule for the Service Packages. Upon notice to Client that the system's performance and availability will be adversely affected if Client elects not to implement a Service Package, Client will waive any credits set forth above, until such time as Client performs its obligations as necessary to implement the required Service Packages.

e. Client must allow Netsmart to implement the latest Netsmart supported layered software version (i.e. OS, DBMS, etc.) and patches within six (6) months of the general support announcement from Netsmart. Netsmart will advise Client regarding the layered software enhancements as well as the implications of electing not to implement the layered software enhancements. Netsmart will perform the technical requirements needed for Client to use the layered software enhancements that Client elects to implement as part of the fees. Client and Netsmart will work together to establish an implementation schedule for the layered software enhancements. If Netsmart provides notice to Client that the system's performance and availability will be adversely affected if Client elects not to implement the layered software enhancements, Client waives its right to any credits set forth above until Client implements the required layered software enhancements.

f. If Client is operating beyond the Scope of Use limits, Client waives its right to any credits set forth above until Client is in compliance with Scope of Use.

g. During a System Stabilization Period, changes to the System may be required to achieve optimal performance and Unscheduled Downtime or Scheduled Downtime minutes do not apply.

4. Exceptions

Client shall not receive any credits under this Schedule in connection with any failure or deficiency of System Availability caused or associated with:

a. an event of Force Majeure;

b. Failure of access circuits to the Netsmart network, unless such failure is caused solely by Netsmart;

c. Scheduled maintenance, scheduled backups, scheduled restores and emergency maintenance and upgrades;

d. Issues with FTP, POP, or SMTP Client access;

e. Client's acts or omissions (or acts or omissions of others engaged or authorized by Client), including, without limitation, custom scripting or coding (e.g., CGI, Perl, Java, HTML, ASP, etc), any negligence, willful misconduct, or misuse of the Software Services;

f. E-mail or webmail delivery and transmission;

g. Outages elsewhere on the Internet that hinder access to your account. Netsmart is not responsible for browser or DNS caching that may make your site appear inaccessible when others can still access it. Netsmart will guarantee only those areas considered under the control of Netsmart: Netsmart server links to the Internet, Netsmart's routers, and Netsmart's servers; and

h. Use of a VPN or similar connection which is not exclusively within Netsmart's control at both ends of such connection, and where the problem occurs in the part of the VPN which is not under Netsmart's control.

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

5. **Scheduled Maintenance.** Netsmart reserves the right to establish a monthly maintenance window for the purpose of upgrading, patching, modifying, and repairing portions or the entire cloud computing environment. The monthly window is generally scheduled on the 3rd Sunday of the month, from 2:00AM – 5:30AM EST.

6. **Credit Request and Payment Procedures.**

In order to receive a credit, Client must submit a request for credit to Netsmart Accounting at AR@ntst.com, within thirty (30) days after the incident supporting the request. Each request must include Client's account number (per Netsmart's invoice) and the dates and times of the unavailability of the services. If the unavailability is confirmed by Netsmart as an incident eligible for credit, credits will be applied within two billing cycles after Netsmart's receipt of Client's request. Credits are not refundable and can be used only towards future billing fees.

Notwithstanding anything to the contrary herein, the total amount credited to Client in a particular month under this Schedule cannot exceed the total SaaS fees paid by Client for the month in which Services were impacted. Credits are exclusive of any applicable taxes charged to Client or collected by Netsmart and are Client's sole and exclusive remedy with respect to any failure or deficiency in level of services described in this Schedule if Client applied for and received a credit. Nothing in this Schedule precludes Client from pursuing an alternate contract remedy for any future incident that may occur.

BUSINESS ASSOCIATE AGREEMENT

This Business Associate Agreement (the "BAA") effective on the Effective Date is entered into by and between Netsmart Technologies, Inc. with principal offices at 11100 Nall Avenue Overland Park, KS 66211 ("Netsmart") and County of Yolo, State of California with principal offices at ("Covered Entity").

RECITALS

A. The purpose of this BAA is to comply with the Health Insurance Portability and Accountability Act of 1996 and the Health Information Technology for Economic and Clinical Health Act ("HITECH"), and all of the regulations promulgated under either of them, all as amended from time to time (collectively, "HIPAA"), the Confidentiality of Substance Use Disorder of Patient Records (42 CFR Part 2), the 21st Century Cures Act: Interoperability, Information Blocking, and the ONC Health IT Certification Pro gram (the "ONC Interoperability Rules") (45 CFR Part 170 and 171).

B. This BAA and the Services Agreement (defined below) sets forth the terms and conditions pursuant to which Protected Health Information ("PHI") that is provided by Covered Entity or created, used, disclosed, received, maintained or transmitted by Netsmart to, from or on behalf of Covered Entity will be handled.

C. Terms used in this BAA, not otherwise defined, shall have the same meaning as set forth in the Privacy Rule, Security Rule and Omnibus Final Rule (the "Final Rule") which are incorporated by reference.

NOW, THEREFORE, in consideration of the foregoing and of the mutual covenants and agreements hereinafter addressed, the parties agree as follows:

1. **Services**. Netsmart provides services for Covered Entity that involve the use and disclosure of PHI. Except as otherwise specified herein, Netsmart may make any and all uses of PHI necessary to perform its obligations under any and all current mutually executed agreement(s) between the parties ("Services Agreement"). Additionally, Netsmart may use or disclose PHI for the purposes authorized by this BAA, and for the proper management and administration of Netsmart or to carry out its legal responsibilities. Further, Netsmart may use PHI; provided, however, that if such disclosures are not Required by Law, then (a) Netsmart will obtain reasonable assurances from the person to whom the information is disclosed that it will be held confidentially and be used or further disclosed only as required by law or for the purpose for which it was disclosed to the person, and (b) the person will notify Netsmart of any instances of which it is aware in which the confidentiality of the information has been breached.

2. **Responsibilities of Netsmart**. With regard to its use and/or disclosure of PHI, Netsmart hereby agrees to do the following:

    a. Permitted Uses and Disclosure of Protected Health Information. Use and/or disclose the PHI only as permitted or required by this BAA, the Services Agreement, or as otherwise required by law;

    b. Appropriate Safeguards. Netsmart will establish and maintain appropriate safeguards and will comply with the Security Rules with respect to Electronic PHI, to prevent use or disclosure of such Electronic PHI other than as provided for by the Services Agreement and this BAA;

    c. Documentation of Disclosures to Covered Entity. Netsmart agrees to document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 C.F. R. §164.528;

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

d. Provide Accounting of Disclosures. Netsmart agrees to provide to Covered Entity such information as is requested by the Covered Entity to permit Covered Entity to respond to a request by the subject individual for amendment and accounting purposes of the disclosures of the individual's PHI in accordance with 45 C.F. R. §164.526 and §164.528. The evaluation of and requests for amendment of PHI maintained by Netsmart will be the responsibility of Covered Entity. If Covered Entity provides an amendment to an individual's PHI pursuant to 45 C.F. R. §164.526, Netsmart shall incorporate such amendment;

e. Access to PHI. Covered Entity is primarily responsible for responding to Individuals' requests for access to a copy of their protected health information. Covered Entity is solely responsible for all determinations regarding the grant or denial of an Individual's request for their protected health information and for the content of an Individual's designated record set. Any requests that Netsmart receives for individual access under 45 C.F.R. §164.524 shall be referred directly to Covered Entity. Netsmart shall provide access to PHI in a designated record set to meet Covered Entity's obligations under 45 C.F.R. §164.524 and the requirements of the Interoperability and Information Blocking provision under 45 C.F.R. Part 171;

f. Subcontractor and Agents. Netsmart will require that any agent, including a Subcontractor, to whom it provides access to electronic PHI agrees in a written contract to implement and use Administrative, Physical and Technical Safeguards that reasonably protect the Confidentiality, Integrity and Availability of the electronic PHI;

g. Reports of Improper Use or Disclosure, Security Incidents or Breach. Report to the designated privacy officer of Covered Entity, in writing, any use and/or disclosure of the PHI that is not permitted or required by this BAA, Breach of Unsecured PHI or a Security Incident of which Netsmart becomes aware within thirty (30) days of Netsmart's discovery of such unauthorized use and/or disclosure. For purposes of this BAA "Security Incident" does not include trivial incidents that occur on a daily basis, such as scans, "pings", or unsuccessful attempts to penetrate computer networks or servers maintained by Netsmart so long as no such incident results in unauthorized access, use or disclosure of PHI;

h. Mitigation. Mitigate to the extent practicable, any harmful effect that is known to it of a use and/or disclosure of PHI in violation of the requirements of this BAA;

i. Access to Books and Records. Make available all of its internal practices, records, books, policies and procedures relating to the use and/or disclosure of PHI received from, or created or received by Netsmart on behalf of Covered Entity, available to the Secretary of HHS for purposes of determining Covered Entity's compliance with HIPAA;

j. Comply with Obligations. To the extent that Netsmart is to carry out an obligation of Covered Entity under Subpart E of 45 C.F.R. Part 164 (the "Privacy Rule"), comply with the requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligation;

k. Data Aggregation. Netsmart may use or disclose PHI to provide data aggregation services as permitted by 45 C.F.R. § 164.504(e)(2)(i)(B), including use for statistical compilations, reports and all other purposes allowed under applicable law;

l. De-identification of Data. Netsmart may de-identify PHI in accordance with 45 C.F.R. § 164.514(b) and may use or disclose such de-identified data for any purpose unless prohibited by applicable law.

//

//

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

3. **Responsibilities of Covered Entity**.

   a. Provisions of Notice of Privacy Practices. Covered Entity will promptly inform Netsmart of any changes or limitations in the form of notice of privacy practices that Covered Entity provides to individuals pursuant to 45 C.F.R. §164.520 to the extent any such limitation may affect Netsmart's use or disclosure of PHI;

   b. Notice of Changes to Individuals PHI. Covered Entity will promptly inform Netsmart of any changes in, or withdrawal of, the consent or authorization provided to Covered Entity by individuals whose PHI may be used and/or disclosed by Netsmart under this BAA pursuant to 45 C.F.R. §164.506 or §164.508 to the extent such changes may affect Netsmart's use or disclosure of PHI. Covered Entity will obtain any consent or authorization that may be required by the Privacy Rule, or applicable state law, prior to furnishing Netsmart with PHI; and

   c. Notification to Restrictions of PHI. Covered Entity will promptly notify Netsmart in writing and in a timely manner, of any restrictions on the use and/or disclosure of PHI agreed to by Covered Entity as provided for in 45 C.F.R. §164.522 to the extent such restriction may affect Netsmart's use or disclosure of PHI. If Netsmart reasonably believes that any such restriction agreed to by Covered Entity may materially impair Netsmart's ability to perform its obligations under the Services Agreement or this BAA, the parties will mutually agree upon any necessary modification of Netsmart's obligations under such agreements.

   d. Request to Use or Disclose PHI. Covered Entity shall not request Netsmart to use or disclose PHI in any manner that would not be permissible under the Privacy Rule, the Security Rule or the Final Rule if done by Covered Entity, except as permitted under this BAA.

4. **Term and Termination**.

   a. This BAA will become effective on the Effective Date and will continue in effect until all obligations of the parties have been met, unless terminated as provided herein or by written mutual agreement of the parties. Notwithstanding the foregoing, this BAA will remain in effect as long as Netsmart is in possession of any PHI that belongs to Covered Entity.

   b. Upon either party's knowledge of a material breach by the other party of this BAA, such party will provide written notice to the breaching party stating the nature of the breach and providing an opportunity to cure the breach within thirty (30) days . Upon the expiration of such cure period, the non-breaching party may terminate this BAA.

   c. Netsmart will return to Covered Entity or destroy (when feasible), within sixty (60) days of the termination of this BAA. If the return of the protected health information is not feasible, the protections of this BAA shall automatically be extended to such protected health information and the further uses and disclosures shall be limited to only those purposes that make the return or destruction of the protected health information infeasible.

5. **Miscellaneous Provisions**.

   a. Survival. The respective rights and obligations of Netsmart and Covered Entity under the provision of Sections 2(h) will survive the termination of this BAA until such information is able to be returned or destroyed.

   b. Incorporation. The terms of this BAA are fully incorporated in and subject to the terms of the Services Agreement.

DocuSign Envelope ID: 7BE7A052-5CC4-4650-8064-9CEE730FC1BA

c. No Third Party Beneficiaries. Nothing express or implied in this BAA is intended to confer, nor will anything herein confer, upon any person other than the parties hereto any rights, remedies, obligations, or liabilities whatsoever.

d. Notices. Any notices required or permitted to be sent hereunder will be in writing and will be sent, Certified Mail, Return Receipt Requested, or by a recognized international courier. Notices will be sent to the addresses first set forth above or to such other address as a party may designate by notice pursuant hereto. Notices to Netsmart will be sent "Attention: Privacy Officer" and emailed to Contracts_Notice@ntst.com. Notices to Covered Entity will be sent "Attention: Privacy Officer" unless otherwise specified. Notices will be effective upon the date when delivery is either effected or refused.

e. Amendment. The Parties agree to take such action as is necessary to amend this BAA from time to time as is necessary for Covered Entity to comply with the requirements of HIPAA, the Privacy Rule, the Security Rule and HITECH. This BAA may not be modified or amended, except in writing as agreed to by each party. Any inconsistency in this BAA shall be resolved to permit the parties to comply with HIPAA and HITECH.

f. Binding Effect. This BAA shall be binding upon the parties hereto, and their respective legal representatives, trustees, receivers, successors and permitted assigns.

g. Severability. Should any provision of this BAA be found unenforceable, it shall be deemed severable and the balance of the BAA shall continue in full force and effect as if the unenforceable provision had never been made a part hereof.

h. Entire Agreement. This BAA, including such portions as are incorporated by reference herein, constitutes the entire agreement by, between and among the parties, and such parties acknowledge by their signature hereto that they do not rely upon any representations or undertakings by any person or party, past or future, not expressly set forth in writing herein.

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 41.
Board of Supervisors **Adult & Aging**

Meeting Date:	06/06/2023
Brief Title:	Substance Use Treatment Agreements for FY23-24
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Karleen Jakowski, Assistant Director, Health and Human Services Agency, x2978
Supervisorial District Impact:	Countywide

Subject
Authorize six-month extensions of the procurement for the seven Adult Drug Medi-Cal Organized Delivery System agreements for Substance Use Disorder treatment and delegate signing authority for four of the resulting renewal agreements to the Yolo County Procurement Manager, for the period for the period of July 1, 2023 through December 31, 2023. (No general fund impact) (Sullivan)

Recommended Action
Authorize six-month extensions of the procurement for the seven Adult Drug Medi-Cal Organized Delivery System (DMC-ODS) agreements for Substance Use Disorder treatment (SUD) and delegate signing authority for five of the resulting agreements to the Yolo County Procurement Manager, for the period for the period of July 1, 2023 through December 31, 2023, as follows:

1. Approve a six-month extension of the procurement for the short-term renewal agreement with C.O.R.E Medical Clinic for opioid (narcotic) treatment program services in an amount not to exceed $450,000 for 2023-24 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager; and

2. Approve a six-month extension of the procurement for the short-term renewal agreement with CommuniCare Health Centers for outpatient treatment services in an amount not to exceed $592,000 for 2023-24 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager; and

3. Approve a six-month extension for the short-term renewal agreement with Yolo Wayfarer Center dba Fourth and Hope for SUD residential treatment services in an amount not to exceed $750,000 for 2023-24 for the period of July 1, 2023 through December 31, 2023 and delegate signing authority to the Yolo County Procurement Manager; and

4. Approve a six-month extension of the procurement for the short-term renewal agreement with CommuniCare Health Centers for SUD in-custody treatment services in an amount not to exceed $187,500 for 2023-24 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager; and

5. Approve a six-month extension of the procurement for the short-term renewal agreement with Bi-Valley Medical Clinic for opioid (narcotic) treatment program services, SUD in an amount not to exceed $85,000 for 2023-24 for the period of July 1, 2023 through December 31, 2023; affirm the Procurement Manager's signing authority for this agreement under standard County policy; and

6. Approve a six-month extension to the procurement for the short-term renewal agreement with Wellspace Health for withdrawal management SUD treatment services for an amount not to exceed $65,000 for 2023-24 for the period of July 1, 2023 through December 31, 2023; affirm the Procurement Manager's signing authority for this agreement under standard County policy; and

7. Approve a six-month extension of the procurement for the short-term renewal agreement with Granite Wellness Centers for 24-hour non-institutional treatment services for an amount not to exceed $237,500 for 2023-24 for the period of July 1, 2023 through December 31, 2023; and delegate signing authority to the Yolo County Procurement Manager.

Strategic Plan Goal(s)

Thriving Residents

Safe Communities

Reason for Recommended Action/Background

The County entered into an agreement with the California Department of Health Care Services (DHCS) to provide Drug Medi-Cal Organized Delivery System (DMC-ODS) Substance Use Disorder (SUD) treatment services to eligible clients. DMC-ODS is a program for organized SUD services to Medi-Cal eligible individuals with SUD residing in a county that has elected to participate in the DMC-ODS. The program provides beneficiaries with access to care and system interaction needed to achieve sustainable recovery. The County also receives funding from a variety of other federal and state funding streams that assist the County in provided SUD treatment services to various client populations, including but not limited to: Substance Abuse Prevention and Treatment (SABG) Block Grant Funds; Substance Abuse and Mental Health Services Administration (SAMHSA); CalWORKS and CWS funding; 2011 Realignment, and Intergovernmental Transfer (IGT) Funds.

California Advancing and Innovating Medi-Cal (CalAIM) Initiative

In January 2022, DHCS rolled out the CalAIM initiative that aims to provide broad delivery system program and payment reform across the Medi-Cal system. The goal is transformation of the Medi-Cal delivery system, moving it towards a population health approach that prioritizes prevention and whole person care. Focus shifts from compliance to quality and performance metrics. DMC-ODS requirements and policies pursuant to CalAIM initiative were updated as a result of these updates the County is required to revise the terms and conditions in the provider agreements for these services. In preparation for this system-wide change, the County has been working closely with CalMHSA who has been providing the County and other DMC-ODS/Special Mental Health Services (SMHS) Medi-Cal counties with technical assistance around the CalAIM initiative.

The County has received new boilerplate templates from CalMHSA for both DMC/SUD treatment services and SMHS Medi-Cal services that include updated programmatic regulatory requirements and updated billing/claiming requirements. County is working on finalizing a new Yolo County DMC/SUD boilerplate that is in compliance with these changes, a draft of which is attached hereto as Att. A. Draft Yolo County DMC/SUD boilerplate. The renewal agreements requested in this staff report will be drafted and executed on the finalized Yolo County DMC/SUD boilerplate. County Counsel and the Procurement Division are participating in the review and finalization of the Yolo County DMC/SUD boilerplate. However, due to the timeliness in which the County has been receiving information from DHCS, especially regarding rates, we do not have final boilerplate language at this time. Approval of these requests herein will enable HHSA to expedite processing and approval of the DMC-ODS agreements for SUD providers to minimize any lapse in services once we have all of the information from DHCS and have negotiated final rates with our providers.

Contract Requests

On or about February 26, 2018, Yolo County issued a formal request for proposal (2018 RFP) to solicit providers for the Yolo County SUD Treatment Adult Continuum of Care (details below) and awarded several agreements. On or about February 17, 2021, the Yolo County Procurement Manager approved a sole source procurement with Wellspace Health to add a residential detoxification provider (WM3.2).

On or about October 7, 2022 Yolo County Procurement Manager approved a sole source procurement with Granite Wellness Centers due to the termination of the agreement with Progress House which created an urgent need for residential services in the Adult SUD Continuum of Care. Community Recovery Resources which one of the original awarded providers from the 2018 RFP is now operating under Granite Wellness Centers.

On or about March 3, 2023, Yolo County issued a formal request for proposal (2023 RFP) to solicit providers for the Yolo County Substance Use Disorder ("SUD") Adult Continuum of Care services. The 2023 RFP closed on May 12, 2023 and is in process with a target to have newly awarded contracts in place on or before January 1, 2024. However, to allow time to finalize the award and contract negotiation process, HHSA requests short-term renewal agreements as provided below.

On July 10, 2018, the BOS approved Agreement No. 18-55 with C.O.R.E Medical Clinic, for the provision of providing Opioid/Narcotic Treatment Program (NTP) services with an initial term of July 1, 2018 through June 30, 2022, with three optional extensions through FY 22-23. The County has taken all of its optional extensions. HHSA now requests BOS approval of a six-month extension of the procurement for the short-term renewal agreement with C.O.R.E Medical Clinic, Inc. for NTP services in an amount not to exceed $450,000 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager to assist with expediting execution of the renewal agreement.

On July 10, 2018, the BOS approved Agreement No. 22-282 with CommuniCare Health Center, for the provision of

outpatient SUD treatment services with an initial term of July 1, 2018 through June 30, 2022, with three optional extensions through FY 22-23. The County has taken all of its optional extensions. HHSA now requests BOS approval of a six-month extension of the procurement for the short-term renewal agreement with CommuniCare Health Center, for the provision of outpatient SUD treatment services in an amount not to exceed $592,000 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager to assist with expediting execution of the renewal agreement.

On June 26, 2018, the BOS approved Agreement No. 18-132 with Yolo Wayfarer Center, for the provision of providing SUD residential treatment services with an initial term of July 1, 2018 through June 30, 2022, with three optional extensions through FY 22-23. The County has taken all of its optional extensions. HHSA now requests BOS approval of a six-month extension of the procurement for the short-term renewal agreement with Yolo Wayfarer Center, for the provision of providing SUD residential treatment services not to exceed $750,000 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager to assist with expediting execution of the renewal agreement.

On June 26, 2018 the BOS approved Agreement No. 18-133 with Bi-Valley Medical Clinic, Inc. for the provision of for the provision of NTP services with an initial term of July 1, 2018 through June 30, 2020, with three optional extensions through FY 22-23. The County has taken all of its optional extensions. HHSA now requests BOS approval of a six-month extension of the procurement for the short-term renewal agreement with Bi-Valley Medical Clinic for NTP services in an amount not to exceed $85,000 for the period of July 1, 2023 through December 31, 2023 and affirm the Procurement Manager's signing authority for this agreement under standard County policy.

On June 4, 2021, the Yolo County Procurement Manager approved Agreement No. PO 3950 with Wellspace Health for the provision of withdrawal management SUD treatment services with an initial term of March 1, 2021 through June 30, 2022, with one optional extension for FY22-23. The County has taken all of its optional extensions. HHSA now requests BOS approval of a six-month extension of the procurement for the short-term renewal agreement with Wellspace Health for the provision of withdrawal management SUD treatment services in an amount not to exceed $65,000 for the period of July 1, 2023 through December 31, 2023 and affirm the Procurement Manager's signing authority for this agreement under standard County policy.

On December 06, 2022, the BOS delegated signing authority to the Yolo County Procurement Manager to execute Agreement No. 22-282 with CommuniCare Health Centers for the provision of in-custody SUD treatment services with an initial term of September 30, 2022 through June 30, 2023, with one optional year for FY 23-24 in the amount of $187,500. However, due to significant regulatory and claiming changes driven by the CalAIM initiative, the current agreement cannot be extended on the same terms and conditions and must be replaced by a renewal agreement. HHSA now requests BOS approval of a six-month extension of the procurement for the short-term renewal agreement with CommuniCare Health Center, for the provision of in-custody SUD treatment services in an amount not to exceed $187,500 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager to assist with expediting execution of the renewal agreement.

On December 6, 2022, the BOS delegated signing authority to the Yolo County Procurement Manager to execute Agreement No. 22-284 with Granite Wellness Centers for the provision of 24-hour non-institutional SUD treatment services in an amount not to exceed $474,000, for the period of October 1, 2022 through June 30, 2023, with one 6-month optional extension through December 31, 2023. However, due to significant regulatory and claiming changes driven by the CalAIM initiative, the current agreement cannot be extended on the same terms and conditions and must be replaced by a new agreement with underlying procurement approval. HHSA now requests BOS approval of a sixth month extension of the procurement for the short-term renewal agreement Granite Wellness Centers for the provision of 24-hour non-institutional treatment services in an amount not to exceed $237,500 for the period of July 1, 2023 through December 31, 2023, and delegate signing authority to the Yolo County Procurement Manager to assist with expediting execution of the renewal agreement.

Performance Measures included in this Agreement are as follows:
Performance Measures are included in the current agreements and will be included in the resulting agreements.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel will review and approve as to form the Yolo County DMC/SUD boilerplate and resulting renewal agreements.
CalMHSA will provide technical assistance with CalAIM Initiative.
Procurement Division of the Department of General Services

Competitive Bid Process/Vendor Performance
On or about March 3, 2023, Yolo County issued a formal request for proposal (2023 RFP) to solicit providers for the Yolo County Substance Use Disorder ("SUD") Adult Continuum of Care services. The 2023 RFP closed on May 12, ,2023 and is in process with a target to have newly awarded contracts in place on or before January 1, 2024.

On April 27, 2022, under guidance from Yolo County Procurement Manager, HHSA sent an informal request to its current substance use disorder providers soliciting their interest in contracting for a 10-bed in custody SUD treatment program for individuals who are in-custody for 90 days or longer. CommuniCare Health Centers was the only provider who responded with interest in providing these services.

On or about October 7, 2022, the Yolo County Procurement Manager approved a sole source procurement with Granite Wellness Centers. Due to the termination of the agreement with Progress House Inc. therefore there was an urgent need for residential services in the SUD Adult Continuum of Care. Community Recovery Resources which one of the original awarded providers from the 2018 RFP is now operating under name Granite Wellness Centers.

On or about February 17, 2021, the Yolo County Procurement Manager approved a sole source procurement with Wellspace to add a residential detoxification provider (WM3.2).

On or about February 26, 2018, Yolo County issued a formal request for proposal (2018 RFP) to solicit providers for the Yolo County Substance Use Disorder ("SUD") Adult Continuum of Care services to eligible Yolo County residents. As a result of the 2018 RFP contracts were awarded to 7 providers: Baymark Health Centers, CommuniCare Health Centers, Community Recovery Resources, C.O.R.E Medical Clinic, Progress House, Turning Point Community Programs, and Yolo Wayfarer Center dba Fourth Hope.

Additional information regarding the 2018 RFP is provided below, including a summary of the solicitation evaluation criteria.

Evaluation Criteria Included in RFP

- Company overview (20 points)
- Experience and past performance(100 points)
- Responsiveness/Responsibility (? points)
- For contractors bidding on residential treatment services (6 points)
- Preferred qualifications (20 points)
- Responsiveness/responsibility (20 points)
- Pricing requirements (40 points)
- Proposer's approach to Project (100 points)
- Quality Assurance and Oversight (20 points)
- Outputs and Outcome Measures (50 points)
- Financial Information (pass/fail)
- Quality and completeness of submitted proposal (pass/fail)

Bids Received

Bidder	Scopes included in Bid	Bid
CommuniCare Health Center	Intensive Outpatient, Outpatient, Case Management, Physician Consultation, Recovery Services, In-Person Screening/Referral	$1,583,952

Agreement-Substance Use Disorder Treatment Services
(Yolo BOS Agreement No._____-_____)

This Agreement ("Agreement") is made and entered into as of the last date signed below ("Effective Date"), by and between the County of Yolo, a political subdivision of the State of California ("County"), and _____, a (business type) authorized to do business in the State of California ("Contractor"), jointly referred to as the "Parties" herein.

WHEREAS, County desires to obtain substance use disorder treatment and prevention (SUD) services for clients who are eligible for the State of California, Department of Health Care Services Drug Medical Organized Delivery System program; and

WHEREAS, County has entered into an agreement with the State of California, Department of Health Care Services, to provide Alcohol and Other Drug services to County of Yolo residents (e.g., State Non-Drug Medi-Cal Substance Abuse Treatment Services and Drug Medi-Cal Treatment Program Services Agreement, otherwise known as the "Intergovernmental Agreement", and hereinafter referred to as the "State Contract"); and;

WHEREAS, County desires to subcontract portions of the State Contract to Contractor to provide SUD services for clients who are eligible for services specified in Exhibit A of this Agreement; and

WHEREAS, the State Contract requires that all subcontracts, including County Contractors and subcontractors, be governed by and construed in accordance with all applicable laws, regulations and contractual obligations set forth in the State Contract, including all applicable Medicaid laws and regulations and applicable sub-regulatory guidance; and

WHEREAS, County circulated and distributed a Request for Proposal (RFP) identified as Substance Use Disorder Adult Continuum of Care RFP #_____ and can be viewed at www.bidsync.com seeking contractors to provide SUD Adult Continuum of Care services to eligible Yolo County residents through a variety of funding streams including, but not limited to, utilization of Federal and State funds available pursuant to: Title XIX or Title XXI of the Social Security Act; Substance Abuse Prevention and Treatment (SABG) Block Grant Funds (CFDA No. 93.959); Statham Funds; Substance Abuse and Mental Health Services Administration (SAMHSA) Funds (CFDA # 93.958); SAMHSA PATH Funds (CFDA # 93.150); CalWORKS (CFDA # 93.558); CWS Title IV-B (CFDA # 93.645); CWS Title IV-E (CFDA # 93.658); CWS-TANF (CFDA # 93.558); CWS Title XX Social Services Block Grant (CFDA # 93.667); Drug Medi-Cal Funds, State General Funds, CalWORKS Funds, Assembly Bill 109 Funds, 2011 Realignment and Intergovernmental Transfer (IGT) Funds; and

WHEREAS, Contractor responded to the RFP with a proposal that was subsequently chosen by County, County issued a Letter of Intent to Award a contract to Contractor, and this Agreement is a reflection of the completion of that process; and

WHEREAS, Contractor is licensed by the State of California to provide the services specified in Exhibit A, Scope of Services, of this Agreement; and

WHEREAS, Contractor represents and warrants that neither Contractor, nor any of its officers, agents, employees, partners, contractors, subcontractors, volunteers, or any person or entity with a beneficial ownership of five percent (5%) or more of the Contractor's equity is excluded or debarred from participating in or being paid for participation in any Federal or State program; and

WHEREAS, Contractor further represents and warrants that no conditions or events now exist which give rise to Contractor or any of its officers, agents, employees, partners, contractors, subcontractors,

volunteers or any person or entity with a beneficial ownership of five percent (5%) or more of the Contractor's equity being excluded or debarred from any Federal or State program; and

WHEREAS, Contractor has represented and warrants to County that it has the necessary training, experience, expertise and competency to provide the services, goods and materials that are described in this Agreement, at a cost to County as herein specified; that it will be able to perform the herein described services at minimum cost to County by virtue of its current and specialized knowledge of relevant data, issues, and conditions; and that it will do so in a manner consistent with and furthering of the Strategic Plan Goals of Yolo County, a copy of which can be found at http://www.yolocounty.org/general-government/about-us/mission-values-strategic-plan; and

WHEREAS, Contractor understands County is relying upon these representations in entering into this Agreement; and

NOW, THEREFORE, County and Contractor mutually agree as follows:

TERMS

ARTICLE 1. GENERAL PROVISIONS

I. TERM

The term of this Agreement shall be from **July 1, 2023 through December 31, 2023** unless sooner terminated as provided for in Article 2, Section VII of this Agreement.

II. SCOPE OF WORK

A. Contractor shall provide the services set forth in Exhibit A in a manner satisfactory to the Director and in conformance with this term and conditions of this Agreement including but not limited to all other exhibits and attachments hereto.

B. Contractor represents and warrants to County that it has the necessary licensing, certification, training, experience, expertise, and competency to provide the services, goods, and materials that are described in this Agreement, at a cost to County as herein specified; that it will be able to perform the herein described services at minimum cost to County by virtue of its current and specialized knowledge of relevant data, issues, and conditions. County is relying upon these representations in entering into this Agreement.

III. COMPENSATION

A. This Agreement shall be subject to any restrictions, limitations, and/or conditions imposed by County, state or federal funding sources that may in any way affect the fiscal provisions of, or funding for, this Agreement. This Agreement is also contingent upon sufficient funds being made available by County, state or federal funding sources for the term of the Agreement.

B. Subject to the satisfactory performance of the services required of Contractor pursuant to the terms and conditions set forth in this Agreement, and following Contractor's submission of an appropriate invoice, claims and such other documentation that County may require, County shall pay Contractor according to the terms set forth in Article 9 and Exhibit B-1 of this Agreement. Contractor agrees to accept the foregoing payments as full and complete payment for all services provided pursuant to this Agreement, irrespective of whether the cost of such services and related administrative expenses exceed such payments.

C. Funding is provided by fiscal year. For purposes of this Agreement, the fiscal year begins July 1 and ends the following June 30. Any unspent fiscal year appropriation does not roll over and is not available for services provided in subsequent years, if any.

D. The maximum financial obligation of County under this Agreement for the term of this Agreement shall not exceed [amount], as follows:

Fiscal Year 2023-24 July 1, 2023 through December 31, 2023
$xxx

These amounts are not guaranteed but shall be paid only for services rendered and received in conformance with this Agreement.

V. ENTIRE AGREEMENT

A. The complete Agreement shall include the following exhibits and attachment(s) attached hereto and incorporated herein:

Exhibit A	Scope of Services
Exhibit B-1	Terms of Payment
Exhibit B-2	Rate Schedule
Exhibit C	Indemnification and Insurance
Exhibit D	Business Associate/Qualified Services Organization Agreement Addendum
Exhibit E	Performance Measures
Attachment 1	CA Department of Health Care Services-Perinatal Guidelines
Attachment 2	HHSA SABG Standards Policy and Procedure 6-1-002, effective July 1, 2018
Attachment 3	State Contract DHCS-Yolo DMC-ODS Intergovernmental Agreement.

B. This Agreement constitutes the entire agreement between County and Contractor and supersedes all prior negotiations, representations, or agreements, whether written or oral. In the event of a dispute between the parties as to the language of this Agreement or the construction or meaning of any term hereof, this Agreement shall be deemed to have been drafted by the parties in equal parts so that no presumptions or inferences concerning its terms or interpretation may be construed against any party to this Agreement.§

[END ARTICLE 1]

ARTICLE 2. STANDARD TERMS AND CONDITIONS

I. INDEPENDENT CONTRACTOR

A. It is understood and agreed by all the parties hereto that Contractor is an independent contractor and that no relationship of employer-employee exists between County and Contractor. Neither Contractor nor Contractor's assigned personnel shall be entitled to any benefits payable to employees of County. Contractor hereby indemnifies and holds County harmless from any and all claims that may be made against County based upon any contention by any third party that an employer-employee relationship exists by reason of this Agreement or any services provided pursuant to this Agreement. Contractor shall determine the method and manner of performing its duties under this Agreement, and County may monitor the work performed by Contractor

B. It is further understood and agreed by all the parties hereto that neither Contractor nor Contractor's assigned personnel shall have any right to act on behalf of County in any capacity whatsoever as an agent or to bind County to any obligation whatsoever.

C. Contractor shall provide all facilities, equipment, personnel, labor, materials, supplies, and operating expenses of any kind required for the performance of this Agreement unless otherwise provided in the scope of services.

II. PERFORMANCE & PERSONNEL STANDARDS

A. Contractor shall exercise all care and judgment consistent with good practices in the performance of the services required by this Agreement and shall provide all services in accordance with any applicable laws and regulations incorporated in this Agreement and its Exhibits.

B. Contractor shall furnish professional personnel in accordance with the regulations, including all amendments thereto, issued by County, California State Department of Healthcare Service (DHCS), United States Centers for Medicare & Medicaid Services (CMS), United States Department of Health and Human Services (US DHHS), Office of the Inspector General (OIG), the Comptroller General of the United States and any other authorized federal and state agencies.

C. Contractor shall operate continuously throughout the term of this Agreement with at least the minimum staff required by law for provision of services hereunder. Such personnel shall be qualified in accordance with all applicable laws.

D. Employment of persons to provide treatment services who do not possess the required licenses, certifications or permits to provide services under this Agreement shall be deemed a breach of this Agreement and constitutes grounds for the termination of this Agreement by County.

E. Contractor shall comply with the County's Practitioner Enrollment process. See also Article 15.

III. NOTICE TO PARTIES

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Contractor at their respective addresses as follows:

Contractor:	**County:**
(Legal Entity Name	Yolo County Health and Human Services Agency
(Address)	137 N. Cottonwood Street
Address)	Woodland, CA 95695
(Name, Title)	Nolan Sullivan, Director

B. In lieu of written notice to the above addresses, any party may provide notices by email provided the following email addresses are used:

Contractor:	**County:**
xxxxx@xxxxx	Contracts Unit: HHSAContracts@YoloCounty.org
	Contract Administrator: xxxx@yolocounty.org

C. All notices shall be effective upon receipt and shall be deemed received through delivery if personally served or served using email, or on the fifth (5th) day following deposit in the mail if sent by first class mail.

D. Any party may change the designated representative, address, or email address to which such communications are to be given by providing the other party(ies) with written notice of such change at least fifteen (15) business days prior to the effective date of the change.

IV. ASSIGNMENT AND SUBCONTRACTS

A. The services and obligations required of Contractor under this Agreement are not assignable in whole or in part without the express written agreement of both Parties.

B. Contractor shall not subcontract any portion of the services required of Contractor by this Agreement without the express written consent of the Director.

1. If any portion of the services required of Contractor are subcontracted, the subcontractor(s) shall maintain the same indemnification and insurance as required of Contractor by this Agreement including Exhibit C. Contractor shall be fully responsible to County for all work undertaken by subcontractors.

2. Contractor shall ensure that all subcontracts are subject to the applicable terms and conditions of this Agreement, including, without limitation, the licensing, certification, privacy, data security and confidentiality requirements set forth herein, and include the applicable provisions of Title 42 of the Code of Federal Regulations (CFR) section 438.230.

3. Contractor shall remain legally responsible for the performance of all terms and conditions of this Agreement, including, without limitation, all SUD services provided by third parties under subcontracts, whether approved by County or not.

V. MODIFICATION AND AMENDMENT

A. County may unilaterally amend this Agreement, in whole or in part, as needed to align terms with any applicable laws, regulations and contractual obligations or to reflect any changes to same as set forth by DHCS or other federal or state agencies with authority over Medicaid laws and regulations or to issue related sub-regulatory guidance.

B. Except as otherwise specifically provided herein, this Agreement may only be modified or amended by written instrument signed by both Parties. See Article 2, Section XI. regarding the Authorized Representatives for the execution of any such modification or amendment.

VI. DISPUTES

Should a dispute arise between Contractor and County relating to performance under this Agreement other than disputes governed by a dispute resolution process in Title 9, Division 1, Chapter 11 of the California Code of Regulations, prior to exercising any other remedy which may be available,

Contractor shall provide County with written notice of the particulars of the dispute within thirty (30) calendar days of the incident. Upon receipt of the written notice, County shall meet with the Contractor, review the facts in the dispute, and recommend a means of resolving the dispute. Final written response to the Contractor will be provided within thirty (30) days of receipt of the Contractor's original written notice.

VII. TERMINATION

A. This Agreement may be terminated at any time by the mutual written agreement of both Parties.

B. Either Party may terminate this Agreement for convenience by providing at least sixty (60) days' advance written notice to the other party.

C. Should either party fail to substantially perform its obligations in accordance with this Agreement, the other party may notify the defaulting party of such default in writing and provide not fewer than thirty (30) days to cure the default. Such notice shall describe the default and shall not be deemed a forfeiture or termination of this Agreement. If such default is not cured within said thirty (30) day period (or such longer period as is specified in the notice or agreed to by the parties), the party that gave notice of default may terminate this Agreement upon not fewer than fifteen (15) days advance written notice. The waiver by either Party of any breach or violation of any requirement of this Agreement shall not be deemed to be a waiver of any such breach in the future, or of the breach of any other requirement of this Agreement. Neither party waives the right to recover damages against the other for breach of this Agreement.

D. This Agreement is subject to County, the state and/or the federal government(s) appropriating and approving sufficient funds for the payments required by this Agreement. If County's adopted budget and/or its receipts from the state and/or the federal government(s) do not contain sufficient funds for this Agreement, County may terminate this Agreement by giving ten (10) days advance written notice thereof to the Contractor, in which event County shall have no obligation to pay the Contractor any further funds or provide other consideration and Contractor shall have no obligation to provide any further services pursuant to this Agreement.

E. County may terminate this Agreement upon ten (10) days written notice to Contractor in the event Contractor becomes excluded, debarred, or suspended from participation from federally funded programs; or if County, the state and/or the federal government(s) have otherwise determined that Contractor does not meet the requirements for participation in the Medicaid or Medi-Cal program.

F. If, in the Director's sole judgment, Contractor's performance of the obligations, duties and responsibilities required of Contractor by this Agreement jeopardize the health, safety, or welfare of any person, then County may terminate this Agreement immediately upon written notice served upon the Contractor.

G. See Article 2, Section XI. regarding the Authorized Representatives for the execution of any such termination agreement or notice.

H. If this Agreement is terminated, the Contractor shall promptly supply all information necessary for the reimbursement of any claims submitted to the State.

VIII. SEVERABILITY

If any provision of this Agreement, or any portion thereof, is found by any court of competent jurisdiction to be unenforceable or invalid for any reason, such provision shall be severable and shall not in any way impair the enforceability of any other provision of this Agreement.

IX. WAIVER

The waiver by the County or any of its officers, agents, or employees, or the failure of the County or its officers, agents, or employees to take action with respect to any right conferred by, or any breach of any obligation or responsibility of this Agreement shall not be deemed to be a waiver of such obligation or responsibility, or subsequent breach of same, or of any terms, covenants or conditions of this Agreement.

X. INTERPRETATION; VENUE

A. The headings used herein are for reference only. The terms of the Agreement are set out in the text under the headings. In the event of any conflict between any of the provisions of this Agreement (including any exhibits and attachments), the provision that requires the highest level of performance from Contractor for County's benefit shall prevail.

B. This Agreement shall be governed by the laws of the State of California without regard to the choice of law or conflicts.

C. This Agreement is made in Yolo County, California. The venue for any legal action in state court filed by either party to this Agreement for the purpose of interpreting or enforcing any provision of this Agreement shall be in the Superior Court of California, County of Yolo. The venue for any legal action in federal court filed by either Party to this Agreement for the purpose of interpreting or enforcing any provision of this Agreement lying withing the jurisdiction of the federal courts shall be the Eastern District of California.

XI. AUTHORITY TO CONTRACT

A. County and Contractor warrant that they are legally permitted and otherwise have the authority to enter into this Agreement, the signatories to this Agreement are authorized to execute this Agreement on behalf of their respective entities, and that any action necessary to bind each Party has been taken prior to execution of this Agreement.

B. Specific County Authority

1. Director's Authority: The Director may: issue termination notices in conformance with the conditions of Article 2, Section VII of this Agreement and issue any other general notices regarding the administration of this Agreement.

2. County Procurement Manager's Authority: The Yolo County Procurement Manager may approve and execute amendments regarding allocation of funds between categories of services, scope of services, billing rates, and other contract language changes set forth elsewhere in this Agreement provided the modifications are generally consistent with the original approved scope of the Agreement. This authority includes the ability to approve and execute amendments to increase to the maximum payment obligation, provided the increase is within the Procurement Manager's Authority, as prescribed in the then current Yolo County Procurement Policy.

3. Yolo County Board of Supervisors' Authority: All other authority related to this Agreement is reserved by the Yolo County Board of Supervisors.

XII. COVENANTS AND CONDITIONS

Where there is a doubt as to whether a provision of this document is a covenant or a condition, the provision shall carry the legal effect of both. Should County choose to excuse any given failure of

Contractor to meet any given condition, covenant or obligation (whether precedent or subsequent), that decision will not be, or have the legal effect of, a waiver of the legal effect in subsequent circumstances of either that condition, covenant or obligation or any other found in this document. All conditions, covenants and obligations continue to apply no matter how often County may choose to excuse a failure to perform them.

XIII. CONFLICT OF INTEREST

A. Contractor shall comply with the laws and regulations of the State of California and County regarding conflicts of interest, including, but not limited to, Title 1 Division 4, Chapter 1, Article 4 of the California Government Code, commencing with Section 1090, and Title 9, Chapter 7 of the California Government Code, commencing with Section 87100, including regulations promulgated by the California Fair Political Practices Commission.

B. Contractor covenants that it presently has no interest and shall not acquire any direct or indirect interest, which would conflict in any manner with the performance of Contractor's obligations and responsibilities hereunder. Contractor further covenants that in the performance of this Agreement no person having any such interest shall be employed. This covenant shall remain in force until Contractor completes performance of the services required under this Agreement.

C. Contractor agrees that if any fact comes to its attention that raises any question as to the applicability of any conflict of interest law or regulation, Contractor will immediately inform County and provide all information needed for resolution of the question.

XIV. THIRD PARTY RIGHTS

Except where specifically stated otherwise in this document, the promises in this document benefit County and Contractor only. They are not intended to, nor shall they be interpreted or applied to, give any enforcement rights to any other persons (including corporate) which might be affected by the performance or non-performance of this Agreement, nor do the parties hereto intend to convey to anyone any "legitimate claim of entitlement" with the meaning and rights that phrase has been given by case law.

XV. OWNERSHIP OF DOCUMENTS & WORK PRODUCTS AND EQUIPMENT

A. 1. Any professional and/or technical documents work products. and/or information developed under this Agreement, including but not limited to writings, work sheets, reports, and related data, materials, copyrights and all other rights and interests therein, shall become the property of County.

2. Upon completion of services under this Agreement or upon any earlier termination of this Agreement, Contractor shall deliver and assign the foregoing to County. Contractor assigns the work products, as and when the same shall arise, for the full terms of protection available throughout the world.

3. In addition, basic data prepared or obtained under this Agreement shall be made available to County without restriction or limitation on their use.

4. No additional charge will be made for any of the foregoing.

B. 1. County shall have and retain ownership and title to all equipment valued over five thousand dollars ($5,000) (including shipping and taxes) purchased by Contractor with County funds under this Agreement. County shall inventory tag all equipment and shall conduct, or require Contractor to conduct, an annual physical inventory of the equipment. Contractor shall make

all equipment available to County during normal business hours for tagging or inventory.

2. Contractor shall maintain an Equipment Report listing of all equipment purchased under this Agreement together with bills of sale and any other documents as may be necessary to show clear title and reasonableness of the purchase price. The Equipment Report shall specify the quantity, name, description, purchase price, and date of purchase of all equipment.

3. Contractor shall submit to County the Equipment Report. This report is due by July 31 each year and will cover the period from the inception of this Agreement through June 30 of the preceding fiscal year.

XVI. PUBLIC RECORDS ACT

Upon its execution, this Agreement (including all exhibits and attachments) shall be subject to disclosure pursuant to the California Public Records Act.

[END ARTICLE 2]

ARTICLE 3. SERVICES AND ACCESS PROVISIONS

I. CERTIFICATION OF ELIGIBILITY

Contractor will, in cooperation with County, comply with Title 42 of the Code of Federal Regulations section 455.1(a)(2) and DHCS Behavioral Health Information Notice (BHIN) 23-001, to obtain a certification of a client's eligibility for SUD services under Medi-Cal.

II. ACCESS TO SUBSTANCE USE DISORDER SERVICES

A. In collaboration with County, Contractor will work to ensure that individuals to whom the Contractor provides SUD services meet access criteria and medical necessity requirements, as per DHCS guidance specified in BHIN 23-001. Specifically, the Contractor will ensure that the clinical record for each client includes information as a whole indicating that client's presentation and needs are aligned with the criteria applicable to their age at the time of service provision as specified below.

B. Contractor shall have written admission criteria for determining the client's eligibility and suitability for treatment and services. All clients admitted shall meet the admission criteria and this shall be documented in the client's record.

C. Programs shall ensure that their policies, procedures, practices, and rules and regulations do not discriminate against the above special populations. Whenever the needs of the client cannot be reasonably accommodated, efforts shall be made to make referral(s) to appropriate programs.

D. Contractor should recognize and educate staff and collaborative partners that Parole and Probation status is not a barrier to SUD services.

E. The initial assessment shall be performed face-to-face or by telehealth (synchronous audio/video only) by an Licensed Practitioner of the Healing Arts (LPHA) or registered or certified counselor and may be done in the community or the home, except for residential treatment services and narcotic treatment programs (NTPs). If the assessment of the client is completed by a registered or certified counselor, then an LPHA shall evaluate that assessment with the counselor and the LPHA shall make the initial diagnosis. The consultation between the LPHA and the registered or certified counselor can be conducted in person, by video conferencing, or by telephone.

F. Contractor shall comply with beneficiaries' access criteria and services provided during the initial assessment process requirements:

1. For beneficiaries 21 years of age and older, a full assessment using the ASAM Criteria shall be completed within 30 days of the beneficiary's first visit with an LPHA or registered or certified counselor, or Peer Support Specialist (except for residential treatment services)

2. For beneficiaries under the age of 21, a full assessment using the ASAM Criteria shall be completed within 60 days of the beneficiary's first visit with an LPHA or registered or certified counselor (except for residential treatment services).

3. For beneficiaries experiencing homelessness and where the provider documents that due to homelessness additional time is required to complete the assessment, a full assessment using the ASAM Criteria shall be completed within 60 days of the beneficiary's first visit with an LPHA or registered or certified counselor (except for residential treatment services).

4. If a client withdraws from treatment prior to completion of the assessment or prior to establishing a DSM diagnosis for Substance-Related and Addictive Disorder, and later returns, the 30-day or 60-day time period starts over.

H. Contractor shall comply with beneficiaries' access criteria after initial assessment requirements:

1. Beneficiaries 21 years of age and older, to qualify for DMC-ODS services after the initial assessment, must meet one of the following criteria:

a. Have at least one diagnosis from the most current edition of the Diagnostic and Statistical Manual (DSM) of Mental Disorders for Substance-Related and Addictive Disorders, except for Tobacco-Related Disorders and Non-Substance-Related Disorders, OR

b. Have had at least one diagnosis from the most current edition of the DSM for Substance-Related and Addictive Disorders, except for Tobacco-Related Disorders and Non-Substance-Related Disorders, prior to being incarcerated or during incarceration, determined by substance use history.

2. Beneficiaries under the age of 21, qualify for DMC-ODS medically necessary services after the initial assessment, in the following circumstances:

a. All services that are Medi-Cal-coverable, appropriate, and medically necessary, needed to correct and ameliorate health conditions shall be provided, as per federal Early & Periodic Screening, Diagnostic and Treatment (EPSDT) statutes and regulations.

b. Services need not be curative or completely restorative to ameliorate a health condition, including substance misuse and SUDs, consistent with federal guidance.

c. Services that sustain, support, improve, or make more tolerable substance misuse or an SUD are considered to ameliorate the condition and are thus covered as EPSDT services.

III. ASAM LEVEL OF CARE DETERMINATION

A. Contractor shall use the ASAM Criteria to determine placement into the appropriate level of care (LOC) for all beneficiaries, which is separate and distinct from determining medical necessity. LOC determinations shall ensure that beneficiaries are able to receive care in the least restrictive LOC that is clinically appropriate to treat their condition.

B. A full ASAM Criteria assessment and an SUD diagnosis is not required to deliver prevention and early intervention services for beneficiaries under the age of 21; a brief screening ASAM Criteria tool is sufficient for these services.

C. For clients who withdraw from treatment prior to completing the ASAM Criteria assessment or prior to establishing a diagnosis from the DSM for Substance-Related and Addictive Disorders, and later return, the time period for initial assessment starts over.

D. A full ASAM Criteria assessment, or brief screening ASAM Criteria tool for preliminary LOC recommendations, shall not be required to begin receiving DMC-ODS services.

E. A full ASAM Criteria assessment does not need to be repeated unless the client's condition changes.

F. Requirements for ASAM LOC assessments apply to NTP clients and settings.

//

IV. MEDICAL NECESSITY

A. Pursuant to BHIN 23-001 and consistent with California Welfare and Institutions Code section 14059.5, DMC-ODS services must be medically necessary.

B. For beneficiaries 21 years of age and older, a service is "medically necessary" or a "medical necessity" when it is reasonable and necessary to protect life, to prevent significant illness or significant disability, or to alleviate severe pain.

C. For beneficiaries under the age of 21, a service is "medically necessary" or a "medical necessity" if the service is necessary to correct or ameliorate screened health conditions. Consistent with federal guidance, services need not be curative or completely restorative to ameliorate a health condition, including substance misuse and SUDs. Services that sustain, support, improve, or make more tolerable substance misuse or an SUD are considered to ameliorate the condition and are thus covered as EPSDT services.

V. ADDITIONAL COVERAGE REQUIREMENTS AND CLARIFICATIONS

A. The target population for DMC-ODS SUD services includes clients who are enrolled in Medi-Cal, reside in the County, and meet the criteria for DMC-ODS services as per established requirements above.

B. Consistent with California Welfare and Institutions Code section 14184.402(f), covered SUD prevention, screening, assessment, treatment, and recovery services are reimbursable Medi-Cal services when:

1. Services are provided prior to the completion of an assessment or prior to the determination of whether DMC-ODS access criteria are met, or prior to the determination of a diagnosis.

a. Clinically appropriate and covered DMC-ODS services provided to clients over the age of 21 are reimbursable during the assessment process. Similarly, if the assessment determines that the client does not meet the DMC-ODS access criteria after initial assessment, those clinically appropriate and covered DMC-ODS services provided are reimbursable.

b. All Medi-Cal claims shall include a current CMS approved International Classification of Diseases (ICD) diagnosis code. In cases where services are provided due to a suspected SUD that has not yet been diagnosed, options are available in the CMS approved ICD-10 code list, for example, codes for "Other specified" and "Unspecified" disorders, or "Factors influencing health status and contact with health services".

2. Prevention, screening, assessment, treatment, or recovery services were not included in an individual treatment plan, or if the client signature was absent from the treatment plan.

a. While most DMC-ODS providers are expected to adopt problem lists as specified in BHIN 22-019, treatment plans continue to be required for some services in accordance with federal law.

b. Treatment plans are required by federal law for:

i. Narcotic Treatment Programs (NTPs)

ii. Peer Support Services

iii. SABG funded services [See Attachment 2 HHSA SABG Standards Policy and Procedure 6-1-002, effective July 1, 2018 available to the Contractor as provided herein and incorporated by this reference.]

3. The beneficiary has a co-occurring mental health condition.

a. Medically necessary covered DMC-ODS services delivered by Contractor shall be covered and reimbursable Medi-Cal services whether the client has a co-occurring mental health condition or not.

VI. DIAGNOSIS DURING INITIAL ASSESSMENT

A. Contractor may use the following options during the assessment phase of client's treatment when a diagnosis has yet to be established as specified in BHIN 22-013:

1. ICD-10 codes Z55-Z65 Potential health hazards related to socioeconomic and psychological circumstances: may be used by all providers as appropriate during the assessment period prior to diagnosis and do not require certification as, or supervision, of, an LPHA.

2. ICD-10 code Z03.89 Encounter for observation for other suspected diseases and conditions ruled out: may be used by an LPHA during the assessment phase of a client's treatment when a diagnosis has yet to be established.

3. CMS approved diagnosis code on the ICD 10 tabular, available in the CMS ICD-10-CM page at: https://www.cms.gov/medicare/icd-10/2022-icd-10-cm, which may include Z codes. LPHAs may use any clinically appropriate ICD-10 code, for example, codes for "Other specified" and "Unspecified" disorders, or "Factors influencing health status and contact with health services".

VII. COORDINATION AND CONTINUITY OF CARE

A. Contractor shall comply with the care coordination requirements established by County and per Title 42 of the Code of Federal Regulations section 438.208.

B. Contractor shall ensure that all care, treatment, and services provided pursuant to this Agreement are coordinated among all providers who are serving the client. Coordination and continuity of care procedures shall meet the following requirements:

1. Ensure that each client has an ongoing source of care appropriate to their needs and a person or entity formally designated as primarily responsible for coordinating the services accessed by the client. The client shall be provided information on how to contact their designated person or entity.

2. All services provided to clients shall be coordinated:

a. Between settings of care, including appropriate discharge planning for short-term and long-term hospital and institutional stays.

b. With the services the client receives from any other managed care organization.

c. With the services the client receives in FFS Medi-Cal.

d. With the services the client receives from community and social support providers.

3. Share with other providers serving the client, as allowed by regulations, the results of any identification and assessment of that client's needs to prevent duplication of those activities.

4. Ensure that each provider furnishing services to clients maintains and shares, as appropriate, a client health record in accordance with professional standards.

5. Ensure that in the process of coordinating care, each client's privacy is protected in accordance with the privacy requirements in Title 45 the Code of Federal Regulations, Parts 160 and 164 subparts A and E and Title 42 of the Code of Federal Regulations Part 2, to the extent that they are applicable.

C. Contractor shall engage in care coordination activities beginning at intake and throughout the treatment and discharge planning processes.

D. To facilitate care coordination, Contractor will request a HIPPA and California law compliant client authorization to share client information with and among all other providers involved in the client's care, in satisfaction of state, and federal privacy laws and regulations.

VIII. SITE LICENSES, CERTIFICATIONS, PERMITS AND REQUIREMENTS

A. As specified in BHIN 21-001 and in accordance with California Health and Safety Code section 11834.015, DHCS adopted the ASAM treatment criteria as the minimum standard of care for licensed AOD facilities. All licensed AOD facilities shall obtain at least one DHCS LOC Designation and/or at least one residential ASAM LOC Certification consistent with all of its program services. If an AOD facility opts to obtain an ASAM LOC Certification, then that facility will not be required to obtain a DHCS LOC Designation. However, nothing precludes a facility from obtaining both a DHCS LOC Designation and ASAM LOC Certification.

B. Contractor shall obtain and comply with DMC site certification and ASAM designation or DHCS Level of Care Designation for each type of contracted service being delivered, as well as any additional licensure, registration or accreditation required by regulations for the contracted service being delivered.

C. Contractor shall obtain and maintain all appropriate licenses, permits, and certificates required by all applicable federal, state, and county and/or municipal laws, regulations, guidelines, and/or directives.

D. Contractor shall have and maintain a valid fire clearance at the specified service delivery sites where direct services are provided to clients.

E. Contractor must immediately notify County of a change in ownership, organizational status, licensure, or ability of Contractor to provide the quantity or quality of the contracted services in a timely fashion.

F. **1.** Contractor must also notify County and California State Department of Healthcare Service (DHCS) in writing of any change in organizational name, Head of Service or principal business at least fifteen (15) business days in advance of the change. DHCS shall certify Contractor to participate in the Drug Medi-Cal Organized Delivery System (DMC-ODS) program.

2. Contractor cannot reduce services or relocate without first receiving approval by DHCS. Contractor shall submit a Drug Medi-Cal (DMC) certification application to the DHCS Provider Enrollment Division (PED) sixty (60) days prior to the desired effective date of the

reduction of covered services or relocation. Contractor shall be subject to continuing certification requirements at least once every five (5) years.

3. Said notice shall become part of this Agreement upon acknowledgment in writing by County, and no further amendment of the Agreement shall be necessary provided that such change of address does not conflict with any other provisions of this Agreement.

4. See Article 2, Section III for the address and direction for the submission of notices.

IX. MEDICATIONS

A. If Contractor provides or stores medications, the Contractor shall store and monitor medications in compliance with all pertinent statutes and federal standards.

B. Contractor shall have written policies and procedures regarding the use of prescribed medications by clients, and for monitoring and storing of medications.

C. Prescription and over the counter medications which expire and other bio-hazardous pharmaceutics including used syringes or medications which are not removed by the client upon termination of services shall be disposed of by the program director or a designated substitute, and one other adult who is not a client. Both shall sign a record, to be retained for at least one year.

D. Contractor shall have at least one program staff on duty at all times trained to adequately monitor clients for signs and symptoms of their possible misuse of prescribed medications, adverse medication reactions and related medical complications.

X. ALCOHOL AND/OR DRUG-FREE ENVIRONMENT

A. Contractor shall provide an alcohol and/or drug-free environment for clients. The use of medications for the treatment of SUD, mental illness, or physical conditions, shall be allowed and controlled as per Contractor's written policies and procedures.

B. Contractor shall have written policies regarding service delivery for when clients experience relapse episodes. These policies shall be supportive of and consistent with the alcohol and/or drug-free environment of the program.

XI. ASSESSMENT OF TOBACCO USE DISORDER

A. As required by Assembly Bill (AB) 541 and BHIN 22-024, all licensed and/or certified SUD recovery or treatment facilities shall conduct an assessment of tobacco use at the time of the client's initial intake. The assessment shall include questions recommended in the most recent version of Diagnostic and Statistical Manual of Mental Disorders (DSM) under Tobacco Use Disorder, or County's evidence-based guidance, for determining whether a client has a tobacco use disorder.

B. The licensed and/or certified SUD recovery or treatment facility shall do the following:

1. Provide information to the client on how continued use of tobacco products could affect their long-term success in recovery from SUD.

2. Recommend treatment for tobacco use disorder in the treatment plan.

3. Offer either treatment, subject to the limitation of the license or certification issued by DHCS, or a referral for treatment for tobacco use disorder.

C. Licensed and/or certified SUD recovery or treatment facilities can also adopt tobacco free campus policies, to change the social norm of tobacco use, promote wellness, and reduce exposure to secondhand smoke.

XII. NALOXONE REQUIREMENTS

A. As required by AB 381, California Health and Safety Code section 11834.26, and BHIN 22-025, all licensed and/or certified SUD recovery or treatment facilities shall comply with the following requirements:

1. Maintain, at all times, at least 2 unexpired doses of naloxone, or any other opioid antagonist medication that is approved by the FDA for the treatment of an opioid overdose, on the premises of the licensed SUD recovery or treatment facility.

2. Have at least one staff member, at all times, on the premises who knows the specific location of the naloxone, or other FDA-approved opioid antagonist medication, and who has been trained in its administration. Training shall include review of online resources and the National Harm Reduction Coalition's Opioid Overdose Basics website to respond effectively to an opioid-associated overdose emergency. Staff shall certify that they have reviewed and undergone training in opioid overdose prevention and treatment.

3. The proof of completion of such training shall be documented in the staff member's individual personnel file, in accordance with CCR, Title 9, §10564(k).

[END ARTICLE 3]

ARTICLE 4. AUTHORIZATION AND DOCUMENTATION PROVISIONS

I. SERVICE AUTHORIZATION

A. Contractor will collaborate with County to complete authorization requests in line with County and DHCS policy, including HHSA SUD Residential Authorization Policy (6-5-015) Copies of County SUD policies have been made available to the Contractor on the Yolo County HHSA Behavioral Health Quality Management website at https://www.yolocounty.org/government/general-government-departments/health-human-services/mental-health/behavioral-health-quality-management/-folder-3829#docan1598_10557_7495.

B. Contractor shall respond to County in a timely manner when consultation is necessary for County to make appropriate authorization determinations.

C. County shall provide Contractor with written notice of authorization determinations within the timeframes set forth in BHIN 23-001, or any subsequent DHCS notices.

D. For SUD Non-Residential and Non-Inpatient Levels of Care service authorization:

1. Contractor shall follow County's policies and procedures around non-residential/non-inpatient levels of care according to BHIN 23-001.

2. Contractor is not required to obtain service authorization for non-residential/non-inpatient levels of care. Prior authorization is prohibited for non-residential DMC-ODS services.

E. For SUD Residential and Inpatient Levels of Care service authorization:

1. Contractor shall have in place, and follow, County written authorization policies and procedures for processing requests for initial and continuing authorization, or prior authorization, for residential treatment services, including inpatient services, but excluding withdrawal management services.

2. County will review the DSM and ASAM Criteria to ensure that the beneficiary meets the requirements for the service.

3. Prior authorization for residential and inpatient services (excluding withdrawal management services) shall be made within 24 hours of the prior authorization request being submitted by the provider.

a. County will ensure that prior authorization processes are completed in a manner that assures the provision of a covered SUD service to a client in a timely manner appropriate for the client's condition.

4. Contractor shall alert County when an expediated service authorization decision is necessary due to a client's specific needs and circumstances that could seriously jeopardize the client's life or health, or ability to attain, maintain, or regain maximum function. Expediated service authorizations shall not exceed 72 hours after receipt of the request for service, with a possible extension of up to 14 calendar days if the client or provider requests an extension.

5. Contractor shall alert County when a standard authorization decision is necessary. Standard service authorizations shall not exceed 14 calendar days following receipt of the request for

service, with a possible extension of up to 14 additional calendar days if the client or provider requests an extension.

F. Contractor, if applicable, shall ensure that length of stay (LOS) in residential program complies with the following:

1. LOS shall be determined by individualized clinical need (statewide LOS goal is 30 days). LOS for clients shall be determined by an LPHA and authorized by County as medically necessary.

2. Clients receiving residential treatment must be transitioned to another LOC when clinically appropriate based on treatment progress.

3. Perinatal clients may receive a longer LOS than those described above, if determined to be medically necessary.

4. Nothing in this section overrides any EPSDT requirements. EPSDT clients may receive a longer length of stay based on medical necessity.

II. DOCUMENTATION REQUIREMENTS

A. Contractor agrees to comply with documentation requirements for non-hospital services as specified in this Article 4 inclusive in compliance with federal, state and County requirements.

B. All Contractor documentation shall be accurate, complete, legible, and shall list each date of service. Contractor shall document the face-to-face duration of the services. . Services must be identified as provided in-person, by telephone, or by telehealth.

C. All services shall be documented utilizing County-approved templates and contain all required elements. Contractor agrees to satisfy the chart documentation requirements set forth in BHIN 22-019 or any subsequent relevant and the contract between County and DHCS. Failure to comply with documentation standards specified in this Article require corrective action plans.

III. ASSESSMENT

A. Contractor shall use the ASAM Criteria assessment for DMC-ODS clients to determine the appropriate level of SUD care.

B. The assessment shall include a typed or legibly printed name, signature of the service provider and date of signature. Assessment shall include the provider's LOC determination and recommendation for services. If the assessment of the client is completed by a registered or certified counselor, then the LPHA shall evaluate that assessment with the counselor and the LPHA shall make the initial diagnosis. The consultation between the LPHA and the registered or certified counselor can be conducted in person, by video conferencing, or by telephone.

C. The problem list and progress note requirements shall support the medically necessary services or medical necessity of each service provided.

D. Assessments shall be updated as clinically appropriate when the beneficiary's condition changes. Additional information on assessment requirements can be found in Article 3, Section II or BHIN 23-001. Residential providers should refer to the County's current SUD Residential Authorization Policy for requirements regarding residential assessment timelines. As of the start date of this Agreement Residential treatment services must be reassessed every 30 days.

//

IV. ICD-10

A. Contractor shall use the criteria set forth in the current edition of the DSM as the clinical tool to make diagnostic determinations.

B. Once a DSM diagnosis is determined, the Contractor shall determine the corresponding diagnosis in the current edition of ICD. Contractor shall use the ICD diagnosis code(s) to submit a claim for SUD services to receive reimbursement from County.

C. Under the EPSDT mandate, for youth under the age of 21, a diagnosis from the ICD-10 for Substance-Related and Addictive Disorders is not required for early intervention services.

D. The ICD Tabular List of Diseases and Injuries is maintained by CMS and may be updated during the term of this Agreement. Changes to the lists of ICD diagnoses do not require an amendment to this Agreement, and County may implement these changes as provided by DHCS.

V. PROBLEM LIST (NOT APPLICABLE TO NTPS)

A. Contractor, will create and maintain a Problem List for each client served under this Agreement. The problem list is a list of symptoms, conditions, diagnoses, and/or risk factors identified through assessment, psychiatric diagnostic evaluation, crisis encounters, or other types of service encounters.

B. Contractor must document a problem list that adheres to industry standards utilizing at minimum SNOMED International, Systematized Nomenclature of Medicine Clinical Terms (SNOMED CT®) U.S. Edition, March 2021 Release, and ICD-10-CM 2023.

C. A problem identified during a service encounter may be addressed by the service provider (within their scope of practice) during that service encounter and subsequently added to the problem list.

D. The problem list shall be updated on an ongoing basis to reflect the current presentation of the client.

E. The problem list shall include, but is not limited to the following:

1. Diagnoses identified by a provider acting within their scope of practice, if any. Diagnosis-specific specifiers from the current DSM shall be included with the diagnosis, when applicable.

2. Problems identified by a provider acting within their scope of practice, if any.

3. Problems or illnesses identified by the client and/or significant support person, if any.

4. The name and title of the provider that identified, added, or removed the problem, and the date the problem was identified, added, or removed.

F. Contractor shall add to or remove problems from the problem list when there is a relevant change to a beneficiary's condition.

G. County does not require the problem list to be updated within a specific timeframe or have a requirement about how frequently the problem list should be updated after a problem has initially been added. However, Contractor shall update the problem list within a reasonable time such that the problem list reflects the current issues facing the client, in accordance with generally accepted standards of practice and in specific circumstances specified in BHIN 22-019.

VI. PROGRESS NOTES

A. Contractor shall create progress notes for the provision of all DMC-ODS services provided under this Agreement.

B. Each progress note shall provide sufficient detail to support the service code selected for the service type as indicated by the service code description.

C. Progress notes shall include all elements specified in BHIN 22-019, whether the note be for an individual or group service, and shall include:

1. The type of service rendered

2. A narrative describing the service, including how the service addressed the client's behavioral health need (e.g., symptom, condition, diagnosis, and/or risk factors)

3. The date that the service was provided to the beneficiary

4. Duration of the service, including travel and documentation time

5. Location of the client at the time of receiving the service

6. A typed or legibly printed name, signature of the service provider and date of signature

7. ICD-10 code

8. Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) code

9. Next steps, including, but not limited to, planned action steps by the provider or by the client, collaboration with the client, collaboration with other provider(s) and any update to the problem list as appropriate.

10. NTPs are not impacted by the documentation requirements in BHIN 22-019. NTPs shall continue to comply with federal and state regulations regarding plans of care and documentation requirements.

D. Contractor shall complete progress notes within three business days of providing a service, with the exception of notes for crisis services, which shall be completed within 24 hours.

E. Contractor shall complete a daily progress note for services that are billed on a daily basis, such as residential and inpatient services, if applicable.

F. When a group service is rendered by the Contractor, the following conditions shall be met in addition to progress note requirements as outlined above:

1. A list of participants is required to be documented and maintained by the Contractor.

2. If more than one provider renders a group service, one progress note may be completed for a group session and signed by one provider. Contractor shall ensure that in this case, the progress note clearly documents the specific involvement and the specific amount of time of involvement of each provider during the group activity, including documentation time.

VII. PLAN OF CARE

A. Contractor is not required to complete a plan of care for clients under this Agreement, except in the below circumstances:

1. Peer Support Services must be based on an approved Plan of Care. The plan of care shall be documented within the progress notes in the client's clinical record and approved by any treating provider who can render reimbursable Medi-Cal services.

2. NTPs are required to create a plan of care for clients as per federal law. This requirement is not impacted by the documentation requirements in BHIN 22-019. NTPs shall continue to comply with federal and state regulations regarding plans of care and documentation requirements.

3. For SABG Funded services See Attachment 2 HHSA SABG Standards Policy and Procedure 6-1-002, effective July 1, 2018 available to the Contractor as provided herein and incorporated by this reference.]

4. **a.** The plan of care (treatment plan) shall be developed with the client within 30 days of admission and include:

i. Statement of all problems identified through the assessment whether addressed or deferred.

ii. Goals to address each problem statement (except when deferred).

iii. Statement of actions to meet the goals that include who is responsible for the action and the target date for completion

iv. Signature of primary counselor and client.

b. The plan shall be reviewed periodically and updated to accurately reflect the client's progress or lack of progress in treatment

c. Progress notes shall document the client's progress towards completion of activities and achievement of goals on the treatment plan.

VIII. TELEHEALTH

A. Contractor may use telehealth, when it deems clinically appropriate, as a mode of delivering behavioral health services in accordance with all applicable County, state, and federal requirements, including those related to privacy/security, efficiency, and standards of care. Such services will conform to the definitions and meet the requirements included in the Medi-Cal Provider Manual: Telehealth, available in the DHCS Telehealth Resources page at: https://www.dhcs.ca.gov/provgovpart/Pages/TelehealthResources.aspx.

B. All telehealth equipment and service locations must ensure that client confidentiality is maintained.

C. Licensed providers and staff may provide services via telephone and telehealth as long as the service is within their scope of practice (except initial assessments which cannot be provided by telephone).

D. Medical records for clients served by Contractor under this Agreement must include documentation of written or verbal consent for telehealth or telephone services if such services are provided by Contractor. Such consent must be obtained at least once prior to initiating applicable

health care services and consent must include all elements as specified in BHIN 23-018. Providers must explain to clients they have the right at any time to decline services provided by telehealth and elect in-person services.

E. County may at any time audit Contractor's telehealth practices, and Contractor must allow access to all materials needed to adequately monitor Contractor's adherence to telehealth standards and requirements.

F. As of January 1, 2024, all DMC-ODS providers must offer the same services in person that they offer by telehealth means.

IX. DISCHARGE PLANNING

A. Contractor shall have written policies and procedures regarding discharge. These procedures shall contain the following:

1. Written criteria for discharge defining:

a. Successful completion of program;

b. Administrative discharge;

c. Involuntary discharge;

d. Transfers and referrals.

B. For the discharge requirements for SABG funded clients, see Attachment 2 HHSA SABG Standards Policy and Procedure 6-1-002 available to the Contractor as provided herein and incorporated by this reference.

C. For the discharge requirements for perinatal clients, see Attachment 1 Department of Health Care Services-SABG Perinatal Guidelines available to the Contractor as provided herein and incorporated by this reference.]

D. See also any requirements in Exhibit A regarding the Discharge Services.

[END ARTICLE 4]

ARTICLE 5. RECORDS

I. Records include but are not limited to fiscal and client records including all physical and electronic records and documents originated or prepared pursuant to Contractor's performance under this Agreement, such as working papers, reports, financial records, documents of account, client grievance and appeal records, the data information and documents specified in Title 42 of the Code of Federal Regulations sections 438.604, 438.606, 438.608, and 438.610, patient healthcare records, prescription files, subcontracts, and any other documentation pertaining to covered services and other related services for clients.

II. Contractor shall maintain adequate fiscal records relating to all services provided and claims made pursuant to this Agreement. These may include, but are not limited to, complete service and financial records, which clearly reflect the actual cost and related fees received for each type of service for which payment is claimed and invoiced, audit work papers, beneficiary eligibility determination, and the fees charged to and collected from beneficiaries. Contractor shall comply with all applicable federal and state requirements as to retaining financial records and shall be maintained in conformance with standard procedures and accounting principles.

III. Contractor shall retain all fiscal records for a minimum of ten (10) years from the term end date of the State contract under which this Agreement is funded or in the event the County has been notified that an audit or investigation of the State Contract, until the matter under audit or investigation has been resolved, including the exhaustion of all legal remedies, or until final settlement, whichever is later.

IV. Contractor shall also maintain adequate patient healthcare records for each client ("client records") in sufficient detail to permit an evaluation of services, which shall include, but are not limited to: intake/admission information, demographic information, consent for treatment, medical history, assessment and diagnostic studies, problem lists, treatment plans, records of client interviews, client grievance and appeal records, and records of all services provided. Such client records shall also comply with all applicable federal, state, and County record retention requirements. If applicable, Contractor shall comply with federal, state, and County requirements as to maintaining electronic health records. County and Contractor will collaborate to provide clients with access to their healthcare records in compliance with all applicable federal, state, and County regulations.

V. All client records shall be kept for whichever time period listed below is longer:

A. ten (10) years from the term end date of the State Contract under which Agreement is funded or;

B. in the event the County has been notified that an audit or investigation of the State Contract, until the matter under audit or investigation has been resolved, including the exhaustion of all legal remedies, whichever is later. County will notify the Contractor if such event occurs; or

C. ten (10) years from the patient's date of discharge, if the patient is 18 years old or older when they are discharged; or

D. until the client's 28th birthday, if the client was treated and discharged while they were a minor; or

E. if the client was pregnant at the time of treatment, client records shall be maintained for 25 years from last date of treatment while pregnant. If the client was pregnant more than once while they received treatment, the last date of treatment of the last pregnancy shall be used to calculate the appropriate time frames for record retention. If the last day of treatment while pregnant cannot be ascertained from the client records, the last day of treatment while pregnant shall be calculated as one year from the initial report of pregnancy in the client record.

VI. If Contractor ceases to provide the services required by this Agreement for any reason, Contractor will contact County and make appropriate arrangements for transfer of care of the clients and for County to take possession of all records within seven calendar days of such end date. If applicable, electronic health care records shall be made available to the County in an electronic format readable by the County.

VII. See Article 6 and Article 7 for requirements regarding access to records.

VIII. All records shall be complete and current and comply with all Agreement requirements. Failure to maintain acceptable records per the preceding requirements shall be considered grounds for withholding of payments for billings submitted and for termination of Agreement.

IX. Contractor shall maintain client and community service records in compliance with all regulations set forth by local, state, and federal requirements, laws and regulations, and provide access to clinical records by County staff.

X. Contractor shall comply with Article 14 any applicable County, state or federal regulations regarding the confidentiality, privacy and security of client records including the relinquishing or maintenance of PHI or other protected information.

[END ARTICLE 5]

ARTICLE 6. RIGHT TO MONITOR/AUDIT

I. County, including a department, division or appointee thereof, DHCS, CMS, United States Department of Health and Human Services (US DHHS), including the Office of the Inspector General (OIG), the Comptroller General of the United States, the California State Auditor General and any other authorized federal and state agencies, and/or their duly authorized designees ("Monitors/Auditors") shall have absolute right to inspect, monitor, and audit Contractor's performance under this Agreement.

II. Contractor shall maintain and make all records, books, papers, documents, corporate minutes, financial records, staff information, client records, other pertinent items available as requested. Full cooperation shall be given by the Contractor to facilitate any review, inspection, monitoring, or audit conducted, according to this Agreement. Contractor shall make all of its employees, premises, physical facilities, equipment, books, records, documents, contracts, computers, or other electronic systems pertaining to Medi-Cal enrollees, Medi-Cal-related activities, services, and activities furnished under the terms of this Agreement, or determinations of amounts payable available at any time for inspection, examination, or copying by Monitors/Auditors, including access to any employees who might reasonably have information related to Contractor's performance under this Agreement.

III. This right to inspect, monitor, and audit will exist for at least ten (10) years from the final date of the Agreement period or in the event the Contractor has been notified that an audit or investigation of this Agreement has commenced, until such time as the matter under audit or investigation has been resolved, including the exhaustion of all legal remedies, whichever is later. [42 CFR §438.230(c)(3)(I)-(ii)]. The Contractor shall also be subject to the examination and audit of the Auditor General for a period of three (3) years after final payment under contract [See Cal. Govt. Code §8546.7.]

IV. Contractor shall provide Monitors/Auditors with all reasonable facilities and assistance for the safety and convenience of the Auditors in the performance of their duties.

V. Monitors/Auditors may inspect, monitor, and audit the Contractor at any time if there is a reasonable possibility of fraud or similar risk. The inspection shall occur at the Contractor's place of business, premises or physical facilities [42 CFR §438.230(c)(3)(iv)]. Unannounced visits, and visits other than during regular business hours, may be made if justified by the circumstances, at the discretion of County or authorized federal and state agencies.

VI. Any failure or refusal by Contractor to permit access to any employees, premises, physical facilities, equipment, books, records, documents, contracts, computers, other electronic systems, or other information required to be provided to the Monitors/Auditors shall constitute an express and immediate breach of this Agreement.

VII. Contractor shall notify County of any scheduled or unscheduled external inspection, evaluation, monitoring, and audit when it becomes aware of such visit. County shall reserve the right to attend any or all parts of external review processes.

VIII. This Article shall survive the termination or completion of this Agreement for the full period of time allowed by law.

[END ARTICLE 6]

ARTICLE 7. PROGRAM EVALUATION

I. PROGRAM EVALUATION ACTIVITIES CONDUCTED BY THE COUNTY

A. In addition to the inspection, monitoring and auditing provisions of Article 6, County will conduct monitoring and oversight activities to review the Contractor's SUD programs and operations. The purpose of these oversight activities is to verify that medically necessary services are provided to clients, who meet medical necessity and criteria for access to DMC-ODS as established in BHIN 23-001, in compliance with the applicable state and federal laws and regulations, and/or the terms of the Agreement between Contractor and County, and future BHINs which may spell out other specific requirements. [See 42 CFR §438.66 and as applicable with 42 CFR §§438.604, 438.606, 438.608, 438.610, 438.230, 438.808, 438.900 et seq.]

B. County reserves the right to place Contractor on probationary status should Contractor fail to meet performance requirements, which includes, but is not limited to, violations such as high disallowance rates, failure to report incidents and changes as contractually required, failure to correct issues, inappropriate invoicing, untimely and inaccurate data entry, not meeting performance outcomes expectations and violations issued directly from the State. Additionally, Contractor may be subject to Probationary Status or termination if contract monitoring and auditing corrective actions are not resolved within specified timeframes.

C. County has the discretion to revoke full or partial provisions of the Agreement, delegated activities or obligations, or application of other remedies permitted by state or federal law when any Monitors/Auditor determines Contractor has not performed satisfactorily

D. Contractor shall cooperate with County in the implementation, evaluation, monitoring and auditing of this Agreement and comply with any and all reporting requirements established by County. Should County identify an issue or receive notification of a complaint or potential/actual/suspected violation of requirements, County may audit, monitor, and/or request information from the Contractor to ensure compliance with laws, regulations, and requirements, as applicable.

E. See also Article 5 and Article 6.

II. PROGRAM EVALUATION ACTIVITIES CONDUCTED BY THE CONTRACTOR

A. Contractors shall institute and conduct a Quality Assurance Process for all services provided hereunder. Said process shall include at a minimum a system for verifying that all services provided and claimed for reimbursement shall meet DMC-ODS definitions and be documented accurately.

B. [Add any additional County specific requirements related to Quality Assurance Internal Auditing.]

C. Contractor shall provide County with notification and a summary of any internal audit exceptions and the specific corrective actions taken to sufficiently reduce the errors that are discovered through Contractor's internal audit process. Contractor shall provide this notification and summary to County in a timely manner.

III. CONFIDENTIALITY IN THE PROGRAM EVALUATION ACTIVITIES

A. Contractor and County mutually agree to maintain the confidentiality of Contractor's client records and information, in compliance with all applicable state and federal statutes and regulations, including but not limited to HIPAA, Title 42 of the Code of Federal Regulations Part 2, and California Welfare and Institutions Code section 5328, to the extent that these requirements

are applicable. Contractor shall inform all of its officers, employees and agents of the confidentiality provisions of all applicable statutes.

B. Contractor's fiscal records shall contain sufficient data to enable auditors to perform a complete audit and shall be maintained in conformance with standard procedures and accounting principles.

C. Contractor's records shall be maintained as required by the Director and DHCS on forms furnished by DHCS or County. All statistical data or information requested by the Director shall be provided by the Contractor in a complete and timely manner.

D. See also Article 14.

IV. CHART AUDITING/RECOUPMENT

A. County will conduct periodic audits of Contractor charts to ensure appropriate clinical documentation, high quality service provision and compliance with applicable federal, state and county regulations.

B. Such audits may result in requirements for Contractor to reimburse County for services previously paid in the following circumstances:

1. Identification of Fraud, Waste or Abuse as defined in federal regulation.

a. Fraud and abuse are defined in Title 42 of the Code of Federal Regulations section 455.2 and California Welfare and Institutions Code section 14107.11 (d).

b. Definitions for "fraud," "waste," and "abuse" can also be found in the Medicare Managed Care Manual available at: www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/mc86c21.pdf.

c. Add Cal False Claims

2. Overpayment of Contractor by County due to errors in claiming or documentation.

C. Contractor shall reimburse County for all overpayments identified by Contractor, County and/or state or federal oversight agencies as an audit exception within the timeframes required by law or Country or state or federal agency.

D. See also Exhibit B-1.

[END ARTICLE 7]

ARTICLE 8. CLIENT PROTECTIONS

I. CLIENTS' RIGHTS

Contractor shall take all appropriate steps to fully protect clients' rights, as specified in California Welfare and Institutions Code sections 5325 et seq; Title 9 of the California Code of Regulations sections 862, 883, and 884; Title 22 of the California Code of Regulations, sections 72453 and 72527; and 42 CFR section 438.100.

II. GRIEVANCES, APPEALS, AND NOTICES OF ADVERSE BENEFIT DETERMINATION

A. Contractor shall be responsible for processing any client grievances (as defined per Title 42 of the Code of Federal Regulations Part 438, section 438.400) that are directly expressed to the contractor, unless the client requests it be processed by the County or the nature of the grievance makes it more appropriately processed by the County. When processing client grievances, Contractor shall follow all requirements, including requirements to report to DHCS and Yolo County Quality Management, as set forth in the County's governing beneficiary protections policy and procedures.

B. Contractor shall not discourage the filing of grievances and clients do not need to use the term "grievance" for a complaint to be captured as an expression of dissatisfaction and, therefore, a grievance.

C. Aligned with Mental Health and Substance Use Disorder Services Information Notice (MHSUDS IN) 18-010E and per Title 42 of the Code of Federal Regulations Part 438, section 438.404, the appropriate and delegated Notice of Adverse Benefit Determination (NOABD) must be issued by Contractors within the specified timeframes using the template provided by County.

D. Contractors are responsible for issuing the following types of NOABDs directly to beneficiaries: Denial Notices, Termination Notices, Timely Access Notices, and NOABD Grievance and Appeal Timely Resolution Notices (as they relate to grievances made directly with the Contractor) in alignment with the County's governing beneficiary protections policy and procedures, MHSUDS 18-010E and per Title 42 of the Code of Federal Regulations Part 438, section 438.404.

E. NOABDs must be issued to clients anytime the Contractor has made or intends to make an adverse benefit determination that includes the reduction, suspension, or termination of a previously authorized service and/or the failure to provide services in a timely manner. The notice must have a clear and concise explanation of the reason(s) for the decision as established by DHCS and County.

F. Procedures and timeframes for responding to grievances, issuing, and responding to adverse benefit determinations, appeals, and state hearings must be followed as per Title 42 of the Code of Federal Regulations Part 438, Subpart F [42 CFR §§438.400 – 438.424.]

G. Contractor must provide clients with any reasonable assistance in completing forms and taking other procedural steps related to a grievance or appeal such as auxiliary aids and interpreter services.

H. Contractor must maintain records of grievances and appeals and must review the information as part of its ongoing monitoring procedures. The record must be accurately maintained in a manner accessible to County and available upon request to DHCS.

//

III. ADVANCE DIRECTIVES

Contractor must comply with all County policies and procedures regarding Advanced Directives in compliance with the requirements of Title 42 of the Code of Federal Regulations sections 422.128 and 438.6(i)(l), 438.6(i)(3) and 438.6(i)(4).

IV. TRANSITIONS OF CARE

A. Contractor shall follow County's transition of care policy in accordance with applicable state and federal regulations, MHSUDS IN 18-051: DMC-ODS Transition of Care Policy, and any BHINs issued by DHCS for parity in SUD and mental health benefits subsequent to the effective date of this Agreement [42 CFR §438.62(b)(1)-(2).]

B. Clients shall be allowed to continue receiving covered DMC-ODS services with an out-of-network provider when their assessment determines that, in the absence of continued services, the client would suffer serious detriment to their health or be at risk of hospitalization or institutionalization. DMC-ODS treatment services with the existing provider (out-of-network) provider shall continue for a period of no more than 90 days unless medical necessity requires the services to continue for a longer period of time, not exceeding 12 months. Specific criteria must be met.

V. ADVERTISING REQUIREMENTS

A. Contractor, to protect the health, safety, and welfare of clients with a SUD, shall not use false or misleading advertisement for their medical treatment or medical services as per SB 434 Health and Safety Code §11831.9 and BHIN 22-022.

B. Licensed SUD recovery or treatment facilities and certified alcohol or other drug programs shall not do any of the following:

1. Make a false or misleading statement or provide false or misleading information about the entity's products, goods, services, or geographical locations in its marketing, advertising materials, or media, or on its internet website or on a third-party internet website.

2. Include on its internet website a picture, description, staff information, or the location of an entity, along with false contact information that surreptitiously directs the reader to a business that does not have a contract with the entity.

3. Include on its internet website false information or an electronic link that provides false information or surreptitiously directs the reader to another internet website.

C. Contractor shall comply with these requirements and any subsequent regulations around advertising requirements for SUD recovery or treatment facilities issued by DHCS.

[END ARTICLE 8]

ARTICLE 9. PROGRAM INTEGRITY

I. GENERALLY

As a condition of receiving payment under a Medi-Cal managed care program, the Contractor shall comply with the provisions of Title 42 of the Code of Federal Regulations Part 438 sections 438.604, 438.606, 438.608 and 438.610. [See 42 CFR §438.600 (b).]

II. ASAM STANDARDS OF CARE

A. In accordance with Health and Safety Code §111834.015, DHCS has adopted the ASAM treatment criteria, or other equivalent evidenced based criteria as the minimum standard of care for AOD facilities.

B. For this Agreement and subsequential services, Contractor shall adopt ASAM as the evidenced based practice standard for LOC.

C. Contractor shall ensure treatment staff of all SUD treatment programs receive adequate training in ASAM criteria prior to providing services that includes but is not limited to in person or e-training modules:

1. ASAM Module I- Multidimensional Assessment

2. ASAM Module II- From Assessment to Service Planning and Level of Care

3. ASAM Module III-Introduction to the ASAM Criteria

III. CREDENTIALING AND RE-CREDENTIALING OF PROVIDERS

A. Contractors must follow the uniform process for credentialing and recredentialing of network providers established by County, including disciplinary actions such reducing, suspending, or terminating provider's privileges. Failure to comply with specified requirements can result in suspension or termination of a provider.

B. Upon request, the Contractor must demonstrate to County that each of its providers are qualified in accordance with current legal, professional, and technical standards, and that they are appropriately licensed, registered, waivered, and/or certified.

C. Contractor must not employ or subcontract with providers debarred, suspended or otherwise excluded (individually, and collectively referred to as "Excluded") from participation in Federal Health Care Programs, including Medi-Cal/Medicaid or procurement activities, as set forth in Title 42 of the Code of Federal Regulations section 438.610. See relevant section below regarding specific requirements for exclusion monitoring.

D. Contractors shall ensure that all of their network providers, delivering covered services, sign and date an attestation statement on a form provided by County, in which each provider attests to the following:

1. Any limitations or inabilities that affect the provider's ability to perform any of the position's essential functions, with or without accommodation;

2. A history of loss of license or felony convictions;

3. A history of loss or limitation of privileges or disciplinary activity;

4. A lack of present illegal drug use; and

5. The application's accuracy and completeness

E. Contractor must file and keep track of attestation statements for all of their providers and must make those available to County upon request at any time.

F. Contractor is required to sign an annual attestation statement at the time of Agreement renewal in which they will attest that they will follow County's Credentialing Policy and MHSUDS IN 18-019 and ensure that all their rendering providers are credentialed as per established guidelines.

G. Contractor is required to verify and document at a minimum every three (3) years that each network provider that delivers covered services continues to possess valid credentials, including verification of each of the credentialing requirements as per County's uniform process for credentialing and recredentialing. If any of the requirements are not up-to-date, updated information should be obtained from network providers to complete the re-credentialing process.

IV. SCREENING AND ENROLLMENT REQUIREMENTS

A. County shall ensure that all Contractor providers are enrolled with the state as Medi-Cal providers consistent with the provider disclosure, screening, and enrollment requirements of Title 42 of the Code of Federal Regulations Part 455, subparts B and E. [42 CFR §438.608(b).]

B. County may execute this Agreement, pending the outcome of screening, enrollment, and revalidation of Contractor, of up to 120 days but must terminate this Agreement immediately upon determination that Contractor cannot be enrolled, or the expiration of one 120-day period without enrollment of the Contractor, and notify affected clients [42 CFR §438.602(b)(2).]

C. Contractor shall ensure that all Providers and/or subcontracted Providers consent to a criminal background check, including fingerprinting to the extent required under state law and Title 42 of the Code of Federal Regulations section 455.434(a). Contractor shall provide evidence of completed consents when requested by County, DHCS or the US DHHS.

V. COMPLIANCE PROGRAM REQUIREMENTS

A. Contractor shall have in place a compliance program designed to detect and prevent fraud, waste and abuse, as per Title 42 of the Code of Federal Regulations section 438.608(a)(1), that must include:

1. Written policies, procedures, and standards of conduct that articulate the organization's commitment to comply with all applicable requirements and standards under the Agreement, and all applicable federal and state requirements.

2. A Compliance Office (CO) who is responsible for developing and implementing policies, procedures, and practices designed to ensure compliance with the requirements of this Agreement and who reports directly to the CEO and the Board of Directors.

3. A Regulatory Compliance Committee on the Board of Directors and at the senior management level charged with overseeing the organization's compliance program and its compliance with the requirements under the Agreement.

4. A system for training and education for the Compliance Officer, the organization's senior management, and the organization's employees for the federal and state standards and requirements under the Agreement.

5. Effective lines of communication between the Compliance Officer and the organization's employees.

6. Enforcement of standards through well-publicized disciplinary guidelines.

7. The establishment and implementation of procedures and a system with dedicated staff for routine internal monitoring and auditing of compliance risks, prompt response to compliance issues as they are raised, investigation of potential compliance problems as identified in the course of self-evaluation and audits, corrections of such problems promptly and thoroughly to reduce the potential for recurrence, and ongoing compliance with the requirements under the Agreement.

8. The requirement for prompt reporting and repayment of any overpayments identified.

B. Contractor must have administrative and management arrangements or procedures designed to detect and prevent fraud, waste and abuse of federal or state health care funding. Contractor must report fraud and abuse information to County including but not limited to:

1. Any potential fraud, waste, or abuse per Title 42 of the Code of Federal Regulations sections 438.608(a), (a)(7) and Cal. Govt. Code Section 12650 et seq.

2. All overpayments identified or recovered, specifying the overpayment due to potential fraud as per Title 42 of the Code of Federal Regulations sections 438.608(a), (a)(2).

3. Information about change in a client's circumstances that may affect the client's eligibility including changes in the client's residence or the death of the client as per Title 42 of the Code of Federal Regulations section 438.608(a)(3).

4. Information about a change in the Contractor's circumstances that may affect the network provider's eligibility to participate in the managed care program, including the termination of this Agreement with the Contractor as per Title 42 of the Code of Federal Regulations section 438.608 (a)(6).

C. Contractor shall implement written policies that provide detailed information about the False Claims Act and other federal and state Laws described in section 1902(a)(68) of the False Claims Act, including information about rights of employees to be protected as whistleblowers.

D. Contractor shall make prompt referral of any potential fraud, waste or abuse to County or potential fraud directly to the State Medicaid Fraud Control Unit.

E. County may suspend payments to Contractor if DHCS or County determine that there is a credible allegation of fraud in accordance with Title 42 of the Code of Federal Regulations section 455.23. [42 CFR §438.608 (a)(8).]

F. Contractor shall report to County all identified overpayments and reason for the overpayment, including overpayments due to potential fraud. Contractor shall return any overpayments to County within 60 calendar days after the date on which the overpayment was identified. [42 CFR §438.608 (a)(2), (c)(3).]

VI. INTEGRITY DISCLOSURES

A. Contractor shall provide information on ownership and controlling interests, disclosures related to business transactions, and disclosures related to persons convicted of crimes in the form and manner requested by County, by the Effective Date, each time the Agreement is renewed and

within 35 days of any change in ownership or controlling interest of Contractor. [42 CFR §§455.104, 455.105, and 455.106.]

B. Upon the execution of this Agreement, Contractor shall furnish County a Provider Disclosure Statement, which, upon receipt by County, shall be kept on file with County and may be disclosed to DHCS. If there are any changes to the information disclosed in the Provider Disclosure Statement, an updated statement should be completed and submitted to County within 35 days of the change. [42 CFR §455.104.]

C. Contractor must disclose the following information as requested in the Provider Disclosure Statement:

1. Disclosure of 5% or More Ownership Interest:

a. In the case of corporate entities with an ownership or control interest in the disclosing entity, the primary business address as well as every business location and P.O. Box address must be disclosed. In the case of an individual, the date of birth and Social Security Number must be disclosed.

b. In the case of a corporation with ownership or control interest in the disclosing entity or in any subcontractor in which the disclosing entity has a five percent (5%) or more interest, the corporation tax identification number must be disclosed.

c. For individuals or corporations with ownership or control interest in any subcontractor in which the disclosing entity has a five percent (5%) or more interest, the disclosure of familial relationship is required.

d. For individuals with five percent (5%) or more direct or indirect ownership interest of a disclosing entity, the individual shall provide evidence of completion of a criminal background check, including fingerprinting, if required by law, prior to execution of Agreement. [42 CFR §455.434.]

2. Disclosures Related to Business Transactions:

a. The ownership of any subcontractor with whom Contractor has had business transactions totaling more than $25,000 during the 12-month period ending on the date of the request.

b. Any significant business transactions between Contractor and any wholly owned supplier, or between Contractor and any subcontractor, during the 5-year period ending on the date of the request. [42 CFR §455.105(b).]

3. Disclosures Related to Persons Convicted of Crimes:

a. The identity of any person who has an ownership or control interest in the Contractor or is an agent or managing employee of the Contractor who has been convicted of a criminal offense related to that person's involvement in any program under the Medicare, Medicaid, or the Title XXI services program since the inception of those programs. [42 CFR §455.106.]

b. County shall terminate the enrollment of Contractor if any person with five percent (5%) or greater direct or indirect ownership interest in the disclosing entity has been convicted of a criminal offense related to the person's involvement with Medicare, Medicaid, or Title XXI program in the last 10 years.

D. Contractor must provide disclosure upon execution of this Agreement, extension for renewal, and within 35 days after any change in Contractor ownership or upon request of County. County may refuse to enter into an Agreement or terminate an existing Agreement with a Contractor if the Contractor fails to disclose ownership and control interest information, information related to business transactions and information on persons convicted of crimes, or if the Contractor did not fully and accurately make the disclosure as required.

E. Contractor must provide County with written disclosure of any prohibited affiliations under 42 CFR §438.610. Contractor must not employ or subcontract with providers or have other relationships with providers Excluded from participating in Federal Health Care Programs, including Medi-Cal/Medicaid or procurement activities, as set forth in 42 CFR §438.610.

F. All disclosure required under this section shall be emailed to: HHSA.BHCompliance@yolocounty.org and HHSAQualityManagement@yolocounty.org.

VII. CERTIFICATION OF NON-EXCLUSION OR SUSPENSION FROM PARTICIPATION IN A FEDERAL HEALTHCARE PROGRAM

A. Prior to the effective date of this Agreement, the Contractor must certify that it is not excluded from participation in Federal Health Care Programs under either section 1128 or 1128A of the Social Security Act. Failure to certify will render all provisions of this Agreement null and void and may result in the immediate termination of the Agreement.

B. Contractor shall certify, prior to the Effective Date of this Agreement, that the Contractor does not employ or subcontract with providers or have other relationships with providers Excluded from participation in Federal Health Care Programs, including Medi-Cal/Medicaid or procurement activities, as set forth in Title 42 of the Code of Federal Regulations section 438.610. Contractor shall conduct initial and monthly Exclusion & Suspension searches of the following databases and provide evidence of these completed searches when requested by County, DHCS or the US DHHS:

1. www.oig.hhs.gov/exclusions - LEIE Federal Exclusions

2. www.sam.gov/portal/SAM - GSA Exclusions Extract

3. www.Medi-Cal.ca.gov - Suspended & Ineligible Provider List

4. https://nppes.cms.hhs.gov/#/ - National Plan and Provider Enumeration System (NPPES)

5. any other database required by DHCS or DHHS.

C. Contractor shall certify, prior to the execution of the Agreement, that Contractor does not employ staff or individual contractors/vendors that are on the Social Security Administration's Death Master File. Contractor shall check the following database prior to employing staff or individual contractors/vendors and provide evidence of these completed searches when requested by County, DHCS or the US DHHS.

I. https://www.ssdmf.com/ - Social Security Death Master File

D. Contractor is required to notify County immediately if Contractor becomes aware of any information that may indicate their (including employees/staff and individual contractors/vendors) potential placement on an exclusions list.

E. Contractor shall screen and revalidate annually all network providers in accordance with the requirements of Title 42 of the Code of Federal Regulations Part 455, Subparts B and E.

F. Contractor must confirm the identity and determine the exclusion status of all its providers, as well as any person with an ownership or control interest, or who is an agent or managing employee of the contracted agency through routine checks of federal and state databases. This includes the Social Security Administration's Death Master File, NPPES, the Office of Inspector General's List of Excluded Individuals/Entities (LEIE), the Medi-Cal Suspended and Ineligible Provider List (S&I List) as consistent with the requirements of Title 42 of the Code of Federal Regulations section 455.436.

G. If a Contractor finds a provider that is Excluded, it must promptly notify County as per Title 42 of the Code of Federal Regulations section 438.608(a)(2), (4). Contractor shall not certify or pay any Excluded provider with Medi-Cal funds, must treat any payments made to an Excluded provider as an overpayment, and any such inappropriate payments may be subject to recovery.

[END ARTICLE 9]

ARTICLE 10. QUALITY IMPROVEMENT PROGRAM

I. QUALITY IMPROVEMENT ACTIVITIES AND PARTICIPATION

A. Contractor shall comply with the County's ongoing comprehensive Quality Assessment and Performance Improvement (QAPI) Program [42 C.F.R. §438.330(a)] and work with the County to improve established outcomes by following structural and operational processes and activities that are consistent with current practice standards.

B. Contractor shall participate in quality improvement (QI) activities, including clinical and non-clinical performance improvement projects (PIPs), as requested by County in relation to state and federal requirements and responsibilities, to improve health outcomes and clients' satisfaction over time. Other QI activities include quality assurance, collection and submission of performance measures specified by County, mechanisms to detect both underutilization and overutilization of services, client and system outcomes, utilization management, utilization review, provider appeals, provider credentialing and re-credentialing, and client grievances. Contractor shall measure, monitor, and annually report to County its performance.

C. Contractor shall implement mechanisms to assess client/family satisfaction based on County's guidance. Contractor shall assess client/family satisfaction by:

1. Surveying client/family satisfaction with the Contractor's services at least annually.

2. Evaluating client grievances, appeals and State Hearings at least annually.

3. Evaluating requests to change persons providing services at least annually.

4. Informing County and its clients of the results of client/family satisfaction activities.

D. Contractor, if applicable, shall implement mechanisms to monitor the safety and effectiveness of medication practices. This mechanism shall be under the supervision of a person licensed to prescribe or dispense prescription drugs, at least annually.

E. Contractor shall implement mechanisms to monitor appropriate and timely intervention of occurrences that raise quality of care concerns. Contractor shall take appropriate follow-up action when such an occurrence is identified. The results of the intervention shall be evaluated by the Contractor at least annually and shared with County.

F. Contractor shall collaborate with County to create a QI Work Plan with documented annual evaluations and documented revisions as needed. The QI Work Plan shall evaluate the impact and effectiveness of its quality assessment and performance improvement program.

G. Contractor shall attend and participate in County's Quality Improvement Committee (QIC) to recommend policy decisions, review and evaluate results of QI activities, including PIPs, institute needed QI actions, and ensure follow-up of QI processes. Contractor shall ensure that there is active participation by the Contractor's practitioners and providers in the QIC.

H. Contractor shall assist County, as needed, with the development and implementation of Corrective Action Plans.

I. Contractor shall participate, as required, in annual, independent external quality reviews (EQR) of the quality, timeliness, and access to the services covered under this Agreement, which are conducted pursuant to Subpart E of Part 438 of the Code of Federal Regulations. [42 CFR §§438.350(a) and 438.320.]

II. NETWORK ADEQUACY

A. Contractor shall ensure that all services covered under this Agreement are available and accessible to clients in a timely manner and in accordance with the network adequacy standards required by regulation. [42 CFR §438.206 (a) & (c).]

B. Contractor shall submit, when requested by County and in a manner and format determined by County, network adequacy certification information to County, utilizing a provided template or other designated format.

C. Contractor shall submit updated network adequacy information to County any time there has been a significant change that would affect the adequacy and capacity of services and as requested by County. Significant changes include, but are not limited to, changes in services or providers available to clients, and changes in geographic service area.

III. TIMELY ACCESS

A. Contractor shall comply with the requirements set forth in Title 9 of the California Code of Regulations section 1810.405, including meeting County and State Contract standards for timely access to care and services, taking into account the urgency of the need for services. County shall monitor Contractor to determine compliance with timely access requirements and shall take corrective action in the event of noncompliance.

B. Timely access standards include:

1. Contractors must have hours of operation during which services are provided to Medi-Cal clients that are no less than the hours of operation during which the Contractor offers services to non-Medi-Cal clients. If the Contractor's provider only serves Medi-Cal clients, the provider must provide hours of operation comparable to the hours the Contractor makes available for Medi-Cal services that are not covered by the Agreement or another County.

2. Appointments data, including wait times for requested services, must be recorded and tracked by Contractor, and submitted to County on a monthly basis in a format specified by County. Appointments' data should be submitted to County's Quality Management department or other designated persons.

3. Contractor shall ensure that all clients seeking NTP services are provided with an appointment within three business days of a service request.

4. Contractor shall ensure that all clients seeking outpatient and intensive outpatient (non-NTP) services are provided with an appointment within 10 business days of a non-NTP service request.

5. Contractor shall ensure that all clients seeking non-urgent appointments with a non-physician SUD provider are provided within 10 business days of the request for the appointment. Similarly, Contractor shall ensure that all clients seeking non-urgent follow-up appointments with a non-physician SUD provider are provided within 10 business days of the prior appointment for those undergoing a course of treatment for an ongoing SUD condition. These timely standards must be followed, except in the following circumstances:

a. The referring or treating licensed health care provider, or the health professional providing triage or screening services, as applicable, has determined and noted that in the relevant record that a longer waiting time will not have a detrimental impact on the client's health.

b. Preventive care services and periodic follow-up care, including office visits for SUD conditions, may be scheduled in advance consistent with professionally recognized standards of practice as determined by the treating licensed health care provider acting within the scope of their practice.

6. Contractor shall ensure that, if necessary for a client or a provider to reschedule an appointment, the appointment is promptly rescheduled in a manner that is appropriate for the client's health care needs and ensures continuity of care consistent with good professional practice.

7. Contractor shall ensure that during normal business hours, the waiting time for a client to speak by telephone with staff knowledgeable and competent regarding the client's questions and concerns does not exceed 10 minutes.

IV. PRACTICE GUIDELINES

A. Contractor shall adopt practice guidelines (or adopt County's practice guidelines) that meet the following requirements as per Title 42 of the Code of Federal Regulations section 438.236:

1. Are based on valid and reliable clinical evidence or a consensus of providers in the field.

2. Consider the needs of the Contractor's clients

3. Are adopted in consultation with network providers

4. Are reviewed and updated periodically as appropriate

B. Contractor shall disseminate the guidelines to all affected providers and, upon request, to clients and potential clients.

V. PROVIDER APPLICATION AND VALIDATION FOR ENROLLMENT (PAVE)

Contractor shall ensure that all of its required clinical staff, who are rendering SUD services to Medi-Cal clients on behalf of Contractor, are registered through DHCS' Provider Application and Validation for Enrollment (PAVE) portal, pursuant to DHCS requirements, the 21st Century Cures Act, and the CMS Medicaid and Children's Health Insurance Program (CHIP) Managed Care Final Rule.

VI. TREATMENT PERCEPTION SURVEYS (TPS)

Contractor shall conduct the annual Treatment Perception Survey (TPS) consistent with DMC-ODS requirements and under the direction of County.

VII. PHYSICIAN INCENTIVE PLAN

If Contractor wants to institute a Physician Incentive Plan, Contractor shall submit the proposed plan to County which will in turn submit the Plan to the State for approval, in accordance with the provisions of Title 42 of the Code of Federal Regulations section 438.6(c).

VIII. REPORTING UNUSUAL OCCURRENCES

A. Contractor shall report unusual occurrences to the Director. An unusual occurrence is any event which jeopardizes the health and/or safety of clients, staff and/or members of the community, including, but not limited to, physical injury and death.

B. Unusual occurrences are to be reported to County within timelines specified in County policy after becoming aware of the unusual event. Reports are to include the following elements:

1. Complete written description of event including outcome;
2. Written report of Contractor's investigation and conclusions;
3. List of persons directly involved and/or with direct knowledge of the event.

C. County and DHCS retain the right to independently investigate unusual occurrences and the Contractor will cooperate in the conduct of such independent investigations.

IX. EVIDENCE BASED PRACTICES (EBPs)

A. Contractors will comply with County and DHCS standards related to Evidenced Based Practices (EBPs).

B. Contractor will implement at least two of the following EBP to fidelity per provider, per service modality:

1. Motivational Interviewing
2. Cognitive-Behavioral Services
3. Relapse Prevention
4. Trauma-Informed Treatment
5. Psycho-Education

X. DATA REPORTING REQUIREMENTS

A. Contractor shall comply with data reporting compliance standards as established by DHCS and/or SAMHSA depending on the specific source of funding.

B. Contractor shall ensure that all data stored or submitted to County, DHCS or other data collection sites is accurate and complete.

1. California Outcomes Measurement System Treatment (CalOMS Tx)

   a. All Yolo County certified SUD treatment providers, regardless of DMC certification status, must enter required CalOMS Tx data AVATAR, monthly.

   b. Yolo County Certified providers shall complete and submit this report in AVATAR within fifteen (15) days after the completion of the month in which services have been rendered.

   c. Certified providers outside of Yolo County shall complete and submit this report in accordance with the State's requirements and this compliance with the requirement of the county in which they operate.

   d. All certified providers shall adhere to the County's Policies and Procedures in completing and submitting this report. The County's Policies and Procedures are available at: http://insideyolo.yolocounty.org/index.aspx?page=181

   e. CalOMS Tx data shall be submitted by Contractor to DHCS via electronic submission within 45 days from the end of the last day of the report month. This data shall be submitted during this time frame.

2. Drug and Alcohol Treatment Access Report (DATAR)

a. DATAR data shall be submitted by Contractor to the state at website https://adpapps.dhcs.ca.gov/datar/ by the tenth day of the month after the completion of the month in which services have been rendered.

3. Substance Abuse and Prevention Treatment Block Grant (SABG) Funding Report

a. Contractors providing services to beneficiaries in counties using SABG funds will collect and report performance data to County monthly.

4. See also Article 14.

[END ARTICLE 10]

ARTICLE 11. ORIENTATION, TRAINING AND TECHNICAL ASSISTANCE

I. County will endeavor to provide Contractor with training and support in the skills and competencies to (a) conduct, participate in, and sustain the performance levels called for in the Agreement and (b) conduct the quality management activities called for by the Agreement.

II. County will provide the Contractor with all applicable standards for the delivery and accurate documentation of services.

III. County will make ongoing technical assistance available in the form of direct consultation to Contractor upon Contractor's request to the extent that County has capacity and capability to provide this assistance. In doing so, County is not relieving Contractor of its duty to provide training and supervision to its staff or to ensure that its activities comply with applicable regulations and other requirements included in the terms and conditions of this Agreement.

IV. Any requests for technical assistance by Contractor regarding any part of this Agreement shall be directed to County's designated contract monitor.

V. Contractor shall require all new employees in positions designated as "covered individuals" to complete compliance training within the first 30 days of their first day of work. Contractor shall require all covered individuals to attend, at minimum, one compliance training annually.

A. These trainings shall be conducted by County or, at County's discretion, by Contractor staff, or both, and may address any standards contained in this Agreement.

B. Covered individuals who are subject to this training are any Contractor staff who have or will have responsibility for, or who supervises any staff who have responsibility for, ordering, prescribing, providing, or documenting client care or medical items or services.

VI. Contractor shall require that physicians receive a minimum of five hours of continuing medical education related to addiction medicine each year.

VII. Contractor shall require that professional staff (LPHAs) receive a minimum of five hours of continuing education related to addiction medicine each year.

VIII. Contractor shall require that all personnel who provide Withdrawal Management (WM) services or who monitor or supervise the provision of such services meet additional training requirements set forth in BHIN 21-002 and its accompanying exhibits.

[END ARTICLE 11]

ARTICLE 12. FINANCIAL TERMS

I. CLAIMING/INVOICING -See Exhibit B-1 and Exhibit B-2.

II. ADDITIONAL FINANCIAL REQUIREMENTS

A. County has the right to monitor the performance of this Agreement to ensure the accuracy of claims for reimbursement and compliance with all applicable laws and regulations. See also Article 5, Article 6 and Article 7 of this Agreement.

B. Contractor must comply with the False Claims Act employee training and policy requirements set forth in Title 42 of the United States Code section 1396a(a)(68) and as the Secretary of the US DHHS may specify.

C. Contractor agrees that no part of any federal funds provided under this Agreement shall be used to pay the salary of an individual per fiscal year at a rate in excess of Level 1 of the Executive Schedule at https://www.opm.gov/ (U.S. Office of Personnel Management), as from time to time amended.

D. Federal Financial Participation is not available for any amount furnished to an Excluded individual or entity, or at the direction of a physician during the period of exclusion when the person providing the service knew or had reason to know of the exclusion, or to an individual or entity when County failed to suspend payments during an investigation of a credible allegation of fraud [42 USC §1396b(i)(2).]

III. CONTRACTOR PROHIBITED FROM REDIRECTION OF CONTRACTED FUNDS

A. Contractor may not redirect or transfer funds from one funded program to another funded program under which Contractor provides services pursuant to this Agreement except through a duly executed amendment to this Agreement.

B. Contractor may not charge services delivered to an eligible client under one funded program to another funded program unless the client is also eligible for services under the second funded program.

IV. FINANCIAL AUDIT REPORTING REQUIREMENTS

A. Contractor shall submit audited financial reports from an independent Certified Public Accountant (CPA) firm on an annual basis to County due by June 30th. The audit shall be conducted in accordance with generally accepted accounting principles and generally accepted auditing standards. Audited financial reports shall be submitted via email to: HHSA-BHClaims@yolocounty.org.

B. If County determines that Contractor is a "subrecipient" (also known as a "pass-through entity") as defined in Title 2 of the Code of Federal section 200 et seq., Contractor represents that it will comply with the applicable cost principles and administrative requirements including claims for payment or reimbursement by County as set forth in Title 2 of the Code of Federal section 200 et seq., as may be amended from time to time. Contractor shall observe and comply with all applicable financial audit report requirements and standards.

C. Financial audit reports must contain a separate schedule that identifies all funds included in the audit that are received from or passed through County. County programs must be identified by

Agreement number, Agreement amount, Agreement period, and the amount expended during the fiscal year by funding source.

D. Contractor shall provide these Audited Financial Reports including all attachments to the report, the management letter, and corresponding response by June 30, if the Agreement expires or terminates on June 30. In the event that this Agreement expires or is terminated on a date other than June 30, Contractor shall provide County such an Audit Report covering the preceding period of July 1 through the date of expiration or termination within 45 days of the expiration or termination unless otherwise specified by the Director.

E. Contractor must submit any required corrective action plan to County simultaneously with the audit report or as soon thereafter as it is available. County shall monitor implementation of the corrective action plan as it pertains to services provided pursuant to this Agreement.

F. Should an Audit Report or any County, State and/or Federal government audit subsequently disallow any paid goods and/or services, or determine that Contractor has misspent funds, or been overpaid based on the requirements of this Agreement and applicable laws and regulations, County shall demand repayment from Contractor in the amount of such audit findings. Method of Repayment is detailed in Exhibit B-1.

[END ARTICLE 12]

ARTICLE 13. ADDITIONAL FINAL RULE PROVISIONS

I. NON-DISCRIMINATION

A. Contractor shall not discriminate against Medi-Cal eligible individuals in its County who require an assessment or meet medical necessity criteria for DMC-ODS in the provision of SUD services because of race, color, religion, ancestry, marital status, national origin, ethnic group identification, sex, sexual orientation, gender, gender identity, age, medical condition, genetic information, health status or need for health care services, or mental or physical disability as consistent with the requirements of applicable federal laws, such as Title 42 of the Code of Federal sections §438.3(d)(3) and (4), the provisions of the Americans with Disabilities Act of 1990, and Section 504 of the Rehabilitation Act of 1973; and applicable state law such as the California Fair Employment and Housing Act [Cal. Govt. Code, Section 12900 et seq.], and the applicable regulations promulgated thereunder [2 CCR §§7285 et seq]); and BHIN 22-060 Enclosure 4.

B. Contractor shall take affirmative action to ensure that services to intended Medi-Cal clients are provided without use of any policy or practice that has the effect of discriminating on the basis of race, color, religion, ancestry, marital status, national origin, ethnic group identification, sex, sexual orientation, gender, gender identity, age, medical condition, genetic information, health status or need for health care services, or mental or physical disability.

II. PHYSICAL ACCESSIBILITY

In accordance with the accessibility requirements of section 508 of the Rehabilitation Act and the Americans with Disabilities Act of 1973, Contractor must provide physical access, reasonable accommodations, and accessible equipment for Medi-Cal clients with physical or mental disabilities.

III. APPLICABLE FEES

A. Contractor shall not charge any clients or third-party payers any fee for service unless directed to do so by the Director at the time the client is referred for services. When directed to charge for services, Contractor shall use the uniform billing and collection guidelines prescribed by DHCS.

B. Contractor will perform eligibility and financial determinations for each beneficiary prior to rendering services in accordance with the Drug Medi-Cal Billing Manual, unless directed otherwise by the Director.

C. Contractor shall not submit a claim to, or demand or otherwise collect reimbursement from, the client or persons acting on behalf of the client for any SUD or related administrative services provided under this Agreement, except to collect other health insurance coverage, share of cost, and co-payments [9 CCR § 1810.365(c).]

D. The Contractor must not bill clients, for covered services, any amount greater than would be owed if the County provided the services directly as per and otherwise not bill client as set forth in Title 42 of the Code of Federal Regulations section 438.106.

IV. CULTURAL COMPETENCE

All services, policies and procedures must be culturally and linguistically appropriate. Contractor must participate in the implementation of the most recent Cultural Competency Plan for County and shall adhere to all cultural competency standards and requirements. Contractor shall participate in County's efforts to promote the delivery of services in a culturally competent and equitable manner to all clients,

including those with limited English proficiency and diverse cultural and ethnic backgrounds, disabilities, and regardless of gender, sexual orientation, or gender identity.

V. CLIENT INFORMING MATERIALS

A. Basic Information Requirements

1. Contractor shall provide information in a manner and format that is easily understood and readily accessible to clients. [42 CFR §438.10(c)(1).] Contractor shall provide all written materials for clients in easily understood language, format, and alternative formats that take into consideration the special needs of clients in compliance with Title 42 of the Code of Federal Regulations section 438.10(d)(6). Contractor shall inform clients that information is available in alternate formats and how to access those formats in compliance with Title 42 of the Code of Federal Regulations section 438.10.

2. Contractor shall provide the required information in this section to each client receiving SUD services under this Agreement and upon request.

3. Contractor shall utilize County's website that provides the content required in this section and Title 42 of the Code of Federal Regulations section 438.10 and complies with all the requirements regarding the same set forth in Title 42 of the Code of Federal Regulations section 438.10.

4. Contractor shall use DHCS/County developed model beneficiary handbook and client notices. [42 CFR §§438.10(c)(4)(ii), 438.62(b)(3).]

5. Client information required in this section may only be provided electronically by the Contractor if all of the following conditions are met:

a. The format is readily accessible;

b. The information is placed in a location on the Contractor's website that is prominent and readily accessible;

c. The information is provided in an electronic form which can be electronically retained and printed;

d. The information is consistent with the content and language requirements of this Agreement;

e. The client is informed that the information is available in paper form without charge upon request and the Contractor provides it upon request within five business days. [42 CFR §438.10(c)(6).]

B. Language and Format

1. Contractor shall provide all written materials for potential clients and clients in a font size no smaller than 12 point. [42 CFR §438.10(d)(6)(ii).]

2. Contractor shall ensure its written materials that are critical to obtaining services are available in alternative formats, upon request of the client or potential client at no cost.

3. Contractor shall make its written materials that are critical to obtaining services, including, at a minimum, provider directories, beneficiary handbook, appeal and grievance notices, denial

and termination notices, and the Contractor's SUD health education materials, available in the prevalent non-English languages in County. [42 CFR §438.10(d)(3).]

a. Contractor shall notify clients, prospective clients, and members of the public that written translation is available in prevalent languages free of cost and how to access those materials. [See 42 CFR §438.10(d)(5)(i), (iii); Calif. Welf. & Instit. Code §14727(a)(1); 9 CCR §1810.410(e)(4).]

4. Contractor shall make auxiliary aids and services available upon request and free of charge to each client. [42 CFR §438.10(d)(3)- (4).]

5. Contractor shall make oral interpretation and auxiliary aids, such as Teletypewriter Telephone/Text Telephone (TTY/TDY) and American Sign Language (ASL), available and free of charge for any language in compliance with 42 CFR §438.10(d)(2), (4)-(5).

6. Taglines for written materials critical to obtaining services must be printed in a conspicuously visible font size.

C. Beneficiary Informing Materials

1. Each client must receive and have access to the beneficiary informing materials upon request by the client and when first receiving SUD services. Beneficiary informing materials include but are not limited to:

a. County DMC-ODS Beneficiary Handbook (BHIN 22-060)

b. Provider Directory

c. DMC-ODS Formulary

d. Advance Health Care Directive Form (required for adult clients only)

e. Notice of Language Assistance Services available upon request at no cost to the client

f. Language Taglines

g. Grievance/Appeal Process and Form

h. Notice of Privacy Practices

i. EPSDT poster (if serving clients under the age of 21)

2. Contractor shall provide each client with a beneficiary handbook at the time the client first accesses services. The beneficiary handbook shall be provided to beneficiaries within 14 business days after receiving notice of enrollment.

3. Contractor shall give each client notice of any significant change to the information contained in the beneficiary handbook at least 30 days before the intended effective date of change as per BHIN 22-060.

4. Required informing materials must be electronically available on the Contractor's website and must be physically available at the Contractor agency facility lobby for clients' access.

5. Informing materials must be made available upon request, at no cost, in alternate formats (i.e., Braille or Audio) and Auxiliary Aids (i.e., California Relay Service (CRS) 711 and American

Sign Language) and must be provided to clients within five business days. Large print materials shall be in a minimum 18-point font size.

6. Informing materials will be considered provided to the client if Contractor does one or more of the following:

a. Mails a printed copy of the information to the client's mailing address before the client first receives a SUD service;

b. Mails a printed copy of the information upon the client's request to the client's mailing address;

c. Provides the information by email after obtaining the client's agreement to receive the information by email;

d. Posts the information on the Contractor's website and advises the client in paper or electronic form that the information is available on the internet and includes applicable internet addresses, provided that clients with disabilities who cannot access this information online are provided auxiliary aids and services upon request and at no cost; or,

e. Provides the information by any other method that can reasonably be expected to result in the client receiving that information. If the Contractor provides informing materials in person, when the client first receives SUD services, the date and method of delivery shall be documented in the client's file.

D. Provider Directory

1. Contractor must follow County's provider directory policy, in compliance with MHSUDS IN 18-020.

2. Contractor must make available to clients, in paper form upon request and electronic form, specified information about its provider network as per Title 42 of the Code of Federal Regulations section 438.10(h). The most current provider directory is electronically available on County's website and is updated by County no later than 30 calendar days after information is received to update provider information. A paper provider directory must be updated as set forth in Title 42 of the Code of Federal Regulations section 438.10(h)(3)(i).

3. Any changes to information published in the provider directory must be reported to County within two weeks of the change.

4. Contractor will only need to report changes/updates to the provider directory for each licensed SUD service provider.

E. Medication Formulary

1. Contractor shall make available in electronic or paper form, the following information about County's formulary as outlined in Title 42 of the Code of Federal Regulations section 438.10(i):

a. Which medications are covered (for both generic and name brand).

b. What tier each medication resides on.

2. Contractor shall inform clients about County's formulary drug lists availability in a machine-readable file and format on County's website.

[END ARTICLE 13]

ARTICLE 14. DATA, PRIVACY AND SECURITY REQUIREMENTS

I. CONFIDENTIALITY AND SECURE COMMUNICATIONS

A. Contractor shall comply with all applicable Federal and State laws and regulations pertaining to the confidentiality of individually identifiable protected health information (PHI) or personally identifiable information (PII) including, but not limited to, requirements of the Health Insurance Portability and Accountability Act (HIPAA), the Health Information Technology for Economic and Clinical Health (HITECH) Act, the California Confidentiality of Medical Information Act, the California Welfare and Institutions Code regarding confidentiality of client information and records and all relevant County policies and procedures.

B. Contractor will comply with all County policies and procedures related to confidentiality, privacy, and secure communications.

C. Contractor shall have all employees acknowledge an Oath of Confidentiality mirroring that of County, including confidentiality and disclosure requirements, as well as sanctions related to non-compliance.

D. Contractor shall not use or disclose PHI or PII other than as permitted or required by law.

II. ELECTRONIC PRIVACY AND SECURITY

A. Contractor shall have a secure email system and send any email containing PII or PHI in a secure and encrypted manner. Contractor's email transmissions shall display a warning banner stating that data is confidential, systems activities are monitored and logged for administrative and security purposes, systems use is for authorized users only, and that users are directed to log off the system if they do not agree with these requirements.

B. Contractor shall institute compliant password management policies and procedures, which shall include but are not limited to procedures for creating, changing, and safeguarding passwords. Contractor shall establish guidelines for creating passwords and ensuring that passwords expire and are changed at least once every 90 days.

C. Any Electronic Health Records (EHRs) maintained by Contractor that contain any PHI or PII for clients served through this Agreement shall contain a warning banner regarding the PHI or PII contained within the EHR. Contractor that utilize an EHR shall maintain all parts of the clinical record that are not stored in the EHR, including but not limited to the following examples of client signed documents: discharge plans, informing materials, and health questionnaire.

D. If Contractor's staff will enter data into any County electronic systems, Contractor shall ensure said staff are trained prior to entering and/or maintaining data within the County's electronic systems.

III. BUSINESS ASSOCIATES AGREEMENT/QUALIFIED SERVICE ORGANIZATION AGREEMENT

A. Contractor may perform or assist County in the performance of certain health care administrative duties that involve the use and/or disclosure of client identifying information as defined by HIPAA. For these duties, the Contractor shall be a Business Associate of County and shall comply with the applicable provisions set forth in the Business Associates/Qualified Service Organization Agreement attached hereto as Exhibit D.

B. Contractor shall follow all requirements listed within the Business Associates/Qualified Service Organization Agreement and shall comply with all applicable County policies, state laws and regulations and federal laws pertaining to breaches of confidentiality. Contractor agrees to hold County harmless for any breaches or violations.

[END ARTICLE 14]

ARTICLE 15. PERFORMANCE OUTCOMES AND OTHER REPORTS

I. Contractor shall comply with all requests regarding local, state, and federal performance outcomes measurement requirements and participate in the outcomes measurement processes as requested including providing outcome measures as specified in Exhibit E.

II. Contractor shall also work collaboratively with County to develop process benchmarks and monitor progress in the following areas:

A. Healthcare Effectiveness Data and Information Set (HEDIS®) Contractor will collaborate with County in the collection and reporting of performance outcomes data, including data relevant HEDIS® measures, as required by DHCS. Measures relevant to this Agreement are indicated below (check all that apply):

☐ Follow up After Emergency Department Visit for Alcohol and Other Drug Abuse (FUA)

☐ Use of Pharmacotherapy for Opioid Use Disorder (POD)

☐ Pharmacotherapy of Opioid Use Disorder

☐ Initiation and Engagement of Alcohol and Other Drug Abuse or Dependence Treatment

III. Contractor shall submit to County the following listed reports. All reports must be submitted as prescribed by this Agreement or as otherwise reasonably requested by the Director.

A. Client Information Report:

Contractor must have the ability to identify client referral sources; verify Medi-Cal eligibility for all clients served at time of intake and update as required by the County and will complete a comprehensive beneficiary assessment at time of intake.

1. Client Information Report Details:

a. Admission

b. Diagnosis

c. Adult Medical History

d. Demographics

e. Financials

f. Pregnancy Condition

2. Contractor shall use County provided forms for these reports. These reports are required of any new client or any change for a client. These reports are due on Tuesday following the admission of a new client or following any change.

3. Client information reports shall be submitted via email to: HHSA-BHClaims@yolocounty.org

B. Practitioner Information Report:

1. A Practitioner Information Report must be provided for all personnel for the first month of this Agreement, and thereafter, for new personnel immediately upon hire or changed information.

//

2. A Practitioner Information Report as shall include the following:

a. Practitioner Enrollment Form: available on the Yolo County website, or by request to HHSAQualityManagement@yolocounty.org,

b. Supporting Documentation: a copy of current license and NPI provider registry date printout. Note that the practitioner's legal name must appear on both the current license and NPI printout. The NPI printout may be accessed at: https://npiregistry.cms.hhs.gov/

3. The Practitioner Enrollment Form and any accompanying documentation must be submitted to Yolo County HHSA, Behavioral Health Quality Management before any payments for services can be issued. Reports may be faxed to the phone number listed on the practitioner enrollment form or submitted via email to: HHSAQualityManagement@yolocounty.org.

C. Annual Training Report

This report shall summarize all training provided to Contractor's staff and all outreach training performed by Contractor's staff. Due date: July 31, following the completion of a fiscal year. Submit electronically via email to: HHSAQualityManagement@yolocounty.org.

D. Aggregated Staff and Volunteer Ethnicity Survey

An Individual Staff and Volunteer Ethnicity Survey form will be provided as a tool to accumulate data to be compiled into the aggregated report. Due date: November 30, following the completion of a fiscal year. Submit electronically via email to: HHSAQualityManagement@yolocounty.org.

E. Equipment Report (See Article 2. Section XVII.)

Due date: July 31, following the completion of a fiscal year. .Submit electronically via email to: HHSA-BHClaims@yolocounty.org.

F. Certified Audited Financial Reports

Due Date: by June 30, if the Agreement expires or terminates on June 30. In the event that this Agreement expires or is terminated on a date other than June 30, Contractor shall provide County such an Audit Report covering the preceding period of July 1 through the date of expiration or termination within 45 days of the expiration or termination unless otherwise specified by the Director.

G. California Outcomes Measurement System (CalOMS) Reporting in Avatar [See Article 10]

H. Drug and Alcohol Treatment Access Report (DATAR) [See Article 10]

I. Substance Abuse and Prevention Treatment Block Grant (SABG) Funding Report [See Article 10]

J. Contractor shall make further reports as may be reasonably requested by Director, the State and/or Federal government concerning Contractor's activities as they affect the services and obligations required by this Agreement.

[END ARTICLE 15]

ARTICLE 16. OTHER STATE AND FEDERAL LAWS AND REGULATIONS

I. Contractor shall provide services in conformance with all applicable state and federal statues, regulations and sub-regulatory guidance, as from time to time amended, including but not limited to the applicable provisions of:

A. the State Contract, which is attached hereto as Attachment 3 and is hereby incorporated by this reference, including provisions not specifically set forth in this Agreement.

B. applicable Medi-Cal laws and regulations, including applicable sub-regulatory guidance, such as BHINs, MHSUDS INs, and provisions of County's state or federal contracts governing client services.

C. California Code of Regulations, Title 9;

D. California Code of Regulations, Title 22;

E. California Government Code, Title 2, Division 4, Part 2, Chapter 2, Article 1.7 (commencing with section 16366.1), Federal Block Grants.

F. California Government Code Title 5, Division 2, Part 1, Article 7 (commencing with section 53130), Federally Mandated Audits of Block Grant Funds allocated to local agencies.

G. California Health & Safety Code (HSC), including but not limited to Division 10.5 commencing with Section 11760 and Section 11848.5(a - b).

H. California Welfare and Institutions Code, Division 5 and Division 9, Sections 14000, et seq particularly 14100.2, 14021, 14021.5, 14021.51 – 14021.53, 14021.6, 14043, et seq.

I. United States Code of Federal Regulations, Title 42, including but not limited to Parts 2, 438 and 455; Sections 8.1 through 8.34. Applicable provisions of title 42 CFR Part 54 and 54A, including 42 CFR Part 54 sections 54.4-54.8 (Nondiscrimination and Institutional Safeguards for Religious Providers).

J. United States Code of Federal Regulations, Title 45 including but not limited to Parts 160 and 164 Health Insurance Portability and Accountability Act (HIPAA), Appendix B to Part 76 (Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions; Part 96, Subparts C and L, as applicable, in the expenditure of Substance Abuse Prevention and Treatment Block Grants (SAPTBG) funds.

K. United States Code, Title 42 (The Public Health and Welfare), as applicable; including sections 300x-31, 300x-34, 300x-53, 300x-57, and 300x-65 and 66; Section 290 dd-2.

L. Section 504 of the Rehabilitation Act of 1973, as amended (29 USC Section 794), prohibiting discrimination on the basis of handicap,

M. Trafficking Victims Protection Act of 2000, Section 106(g) as amended (22 USC 7104)

N. Title VI of the Civil Rights Act of 1964, Section 2000d, as amended, prohibiting discrimination based on race, color, or national origin in federally funded programs.

O. Title VIII of the Civil Rights Act of 1968 [42 USC 3601 et seq.] prohibiting discrimination on the basis of race, color, religion, sex, handicap, familial status or national origin in the sale or rental of housing.

P. Title IX of the Education Amendments of 1972 (regarding education and programs and activities)

Q. The Age Discrimination Act of 1975 [45 CFR Part 90), as amended [42 USC Sections 6101-6107), which prohibits discrimination on the basis of age.

R. The Age Discrimination in Employment Act (29 CFR Part 1625).

S. Title I of the Americans with Disabilities Act (29 CFR Part 1630) prohibiting discrimination against the disabled in employment.

T. Americans with Disabilities Act (28 CFR Part 35) prohibiting discrimination against the disabled by public entities.

U. Title III of the Americans with Disabilities Act (28 CFR Part 36) regarding access.

V. Balanced Budget Act of 1997;

W. Yolo County Fiscal Accounting Handbook, revised 2014.

X. Cost Principles published by the Federal Office of Management and Budget (OMB) including:

1. A-110: Office Management and Budget Circular Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations.

2. A-122: Cost Principles for Non-Profit Organizations

3. A-128: Audits of State and Local Government

4. A-133: Audit of Institutions of Higher Learning and Other Non-Profit Institutions and The Single Audit Act Amendments of 1996 (Title 31, USC Sections 7501 – 7507)

Y. Block Grant [Public Law 102-321 [42 USC commencing at section 101). Public Law 97-35, Omnibus Budget Reconciliation Act of 1981.

Z. United States Code of Federal Regulations, Title 21, CFR, Sections 1301.01 through 1301.93, Department of Justice, Controlled Substances.

AA. The Hatch Act (Title 5 USC, Sections 1501-1508) which limit the political activities of employees whose principal employment activities are funded in whole or in part with federal funds.

BB. Executive Order 13166 (67 FR 41455) to improve access to Federal services for those with limited English proficiency,

CC. The Drug Abuse Office and Treatment Act of 1972, as amended, relating to nondiscrimination on the basis of drug abuse.

DD. The Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism.

EE. Title II, Division 3, Article 9.5 of the Government Code, commencing with Section 11135.

FF. County has implemented policies and procedures relating to Charitable Choice, as necessary to comply with the provisions of Title 42, CFR Part 54. Under Part 54 counties are required to:

1. Identify religious providers.

2. Incorporate the applicable Part 54 requirements into county/provider contracts, including a notice to clients.

3. Monitor religious providers for compliance with Part 54.

4. Establish a referral process, to a reasonably accessible program, for clients who may object to the religious nature of the program. Such process must include a notice to the county and the funding of alternative services.

GG. Executive Order 11246 [42 USC 2000(e) et seq. and 41 CFR Part 60) regarding nondiscrimination in employment under federal contracts and construction contracts greater than $10,000 funded by federal financial assistance.

HH. Noncompliance with the requirements of nondiscrimination in services shall constitute grounds for DHCS to withhold payments under this Agreement or terminate all, or any type, of funding provided hereafter

II. ADDITIONAL REQUIREMENTS FOR FEDERALLY FUNDED AGREEMENTS

A. No Obligation by the Federal Government.

The Federal Government is not a party to this Agreement and is not subject to any obligations or liability to County, Contractor, or any other party pertaining to any matter resulting from this Agreement.

B. Clean Air Act

1. The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 USC §7401 et. Seq.

2. The Contractor agrees to report each violation to County and understands and agrees that County will, in turn, report each violation as required to assure notification to DHCS, CMS, SAMSHA, and the appropriate Environmental Protection Agency Regional Office.

3. The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by CMS or SAMSHA.

C. Federal Water Pollution Control Act

1. The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 USC §1251 et. Seq.

2. The Contractor agrees to report each violation to County and understands and agrees that County will, in turn, report each violation as required to assure notification to DHCS, CMS, SAMSHA, and the appropriate Environmental Protection Agency Regional Office.

3. The Contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole.

III. ONGOING CONFORMANCE

In the event any law, regulation, or guidance referred to above or throughout this Agreement, is amended during the term of this Agreement, the Parties agree to comply with the amended authority as of the effective date of such amendment without amending this Agreement.

[END ARTICLE 16]

ARTICLE 17. ADDITIONAL REQUIREMENTS FOR SUBSTANCE ABUSE PREVENTION AND TREATMENT BLOCK GRANT (SABG) PROGRAM

I. ADDITIONAL RESTRICTIONS

This Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress, or any statue enacted by the Congress, which may affect the provisions, terms, or funding of this Agreement in any manner.

II. HATCH ACT.

Contractor agrees to comply with the provisions of the Hatch Act (Title 5 USC, Sections 1501-1508), which limit the political activities of employees whose principal employment activities are funded in whole or in part with federal funds.

III. NO UNLAWFUL USE OR UNLAWFUL USE MESSAGES REGARDING DRUGS

Contractor agrees that information produced through these funds, and which pertains to drugs and alcohol - related programs, shall contain a clearly written statement that there shall be no unlawful use of drugs or alcohol associated with the program. Additionally, no aspect of a drug or alcohol related program shall include any message on the responsible use, if the use is unlawful, of drugs or alcohol [See HSC §§11999-11999.3]. By signing this Agreement, Contractor agrees that it will enforce, and will require its subcontractors to enforce, these requirements.

IV. NONCOMPLIANCE WITH REPORTING REQUIREMENTS

Contractor agrees that DHCS has the right to withhold payments until Contractor has submitted any required data and reports to DHCS, in accordance to the State and County SABG contract.

V. LIMITATION ON USE OF FUNDS FOR PROMOTION OF LEGALIZATION OF CONTROLLED SUBSTANCES

None of the SABG funds made available through this Agreement may be used for any activity that promotes the legalization of any drug or other substance included in Schedule I of Section 202 of the Controlled Substances Act (21 USC 812).

VI. DEBARMENT AND SUSPENSION

Contractor shall not subcontract with any party listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp. p. 189) and 12689 (3 CFR part 1989., p. 235), "Debarment and Suspension." SAM exclusions contain the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

The Contractor shall advise all subcontractors of their obligation to comply with applicable federal debarment and suspension regulations, in addition to the requirements set forth in 42 CFR Part 1001.

VII. RESTRICTIONS ON DISTRIBUTION OF STERILE NEEDLES

No SABG funds made available through this Agreement shall be used to carry out any program that includes the distribution of sterile needles or syringes for the hypodermic injection of any illegal drug unless DHCS chooses to implement a demonstration syringe services program for injecting drug users.

VIII. HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT (HIPAA) OF 1996

All work performed under this Agreement is subject to HIPAA, Contractor shall perform the work in compliance with all applicable provisions of HIPAA. See Article 14 and Exhibit F for additional information.

IX. TRADING PARTNER REQUIREMENTS

A. No Changes

Contractor hereby agrees that for the personal health information (Information), it will not change any definition, data condition or use of a data element or segment as proscribed in the Federal Health and Human Services (HHS) Transaction Standard Regulation [45 CFR 162.915 (a)).

B. No Additions

Contractor hereby agrees that for the Information, it will not add any data elements or segments to the maximum data set as proscribed in the HHS Transaction Standard Regulation [45 CFR 162.915 (b)).

C. No Unauthorized Uses

Contractor hereby agrees that for the Information, it will not use any code or data elements that either are marked "not used" in the HHS Transaction's Implementation specification or are not in the HHS Transaction Standard's implementation specifications [45 CFR 162.915 (c)).

D. No Changes to Meaning or Intent

Contractor hereby agrees that for the Information, it will not change the meaning or intent of any of the HHS Transaction Standard's implementation specification [45 CFR 162.915 (d)).

1. Concurrence for Test Modifications to HHS Transaction Standards Contractor agrees and understands that there exists the possibility that DHCS or others may request an extension from the uses of a standard in the HHS Transaction Standards.

2. If this occurs, Contractor agrees that it will participate in such test modifications.

E. Adequate Testing

Contractor is responsible to adequately test all business rules appropriate to their types and specialties. If the Contractor is acting as a clearinghouse for enrolled providers, Contractor has obligations to adequately test all business rules appropriate to each and every provider type and specialty for which they provide clearinghouse services.

F. Deficiencies

Contractor agrees to correct transactions, errors or deficiencies identified by DHCS, and transactions errors or deficiencies identified by an enrolled provider if the Contractor is acting as a clearinghouse for that provider. When County is a clearinghouse, Contractor agrees to properly communicate deficiencies and other pertinent information regarding electronic transactions to enrolled providers for which they provide clearinghouse services.

G. Code Set Retention

Both parties understand and agree to keep open code sets being processed or used in this Agreement for at least the current billing period or any appeal period, whichever is longer.

H. Data Transmission Log

Both parties shall establish and maintain a Data Transmission Log which shall record any and all Data Transmissions taking place between the Parties during the term of this Agreement. Each party will take necessary and reasonable steps to ensure that such Data Transmission Logs constitute a current, accurate, complete, and unaltered record of any and all Data Transmissions between the parties, and shall be retained by each Party for no less than twenty-four (24) months following the date of the Data Transmission. The Data Transmission Log may be maintained on computer media or other suitable means provided that, if it is necessary to do so, the information contained in the Data Transmission Log may be retrieved in a timely manner and presented in readable form.

I. Nondiscrimination and Institutional Safeguards for Religious Providers

Contractor shall establish such processes and procedures as necessary to comply with the provisions of Title 42, USC, Section 300x-65 and Title 42, CFR, Part 54.

J. Counselor Certification

Any counselor or registrant providing intake, assessment of need for services, treatment or recovery planning, individual or group counseling to participants, patients, or residents in a DHCS licensed or certified program is required to be registered or certified as defined in CCR Title 9, Division 4, Chapter 8.

K. Cultural and Linguistic Proficiency

To ensure equal access to quality care by diverse populations, each service provider receiving funds from this Agreement shall adopt the Federal Office of Minority Health Culturally and Linguistically Appropriate Service (CLAS) national standards.

L. Intravenous Drug Use (IVDU) Treatment

Contractor shall ensure that individuals in need of IVDU treatment shall be encouraged to undergo AOD treatment [42 USC 300x-23 [45 CFR 96.126(e)).

M. Tuberculosis Treatment

Contractor shall ensure the following related to Tuberculosis (TB):

1. Routinely make available TB services to each individual receiving treatment for AOD use and/or abuse.
2. Reduce barriers to patients' accepting TB treatment.
3. Develop strategies to improve follow-up monitoring, particularly after patients leave treatment, by disseminating information through educational bulletins and technical assistance.

J. Trafficking Victims Protection Act of 2000

Contractor shall comply with the Trafficking Victims Protection Act of 2000 (22 United States Code (USC) 7104(g)) as amended by section 1702 of Pub. L. 112-239.

K. Tribal Communities and Organizations

Contractor shall regularly assess (e.g. review population information available through Census, compare to information obtained in CalOMS Treatment to determine whether population is being

reached, survey Tribal representatives for insight in potential barriers) the substance use service needs of the American Indian/Alaskan Native (AI/AN) population within the County geographic area and shall engage in regular and meaningful consultation and collaboration with elected officials of the tribe, Rancheria, or their designee for the purpose of identifying issues/barriers to service delivery and improvement of the quality, effectiveness and accessibility of services available to AI/NA communities within the County.

L. Participation of County Behavioral Health Director's Association of California

1. The County AOD Program Administrator shall participate and represent the County in meetings of the County Behavioral Health Director's Association of California for the purposes of representing the counties in their relationship with DHCS with respect to policies, standards, and administration for AOD abuse services.

2. The County AOD Program Administrator shall attend any special meetings called by the Directors of DHCS. Participation and representation shall also be provided by the County Behavioral Health Director's Association of California**.**

M. Adolescent Best Practice Guidelines

Contractor must comply with the guidelines incorporated by this reference, "Adolescent Best Practice Guidelines," in developing and implementing youth treatment programs funded under SABG, until new Adolescent Best Practice Guidelines are established and adopted. No formal amendment of this Agreement is required for new guidelines to be incorporated into this Agreement.

N. Department of Health Care Services-SABG Perinatal Guidelines

1. Contractor must comply with the Department of Health Care Services-SABG Perinatal Guidelines (DHCS-Perinatal Practice Guidelines), See Attachment 1. The Contractor must comply with the current version of these guidelines until new perinatal practice guidelines are established and adopted. The incorporation of any new perinatal practice guidelines into this Agreement shall not require a formal amendment.

2. Contractor receiving SABG funds must adhere to the DHCS-Perinatal Practice Guidelines, regardless of whether the Contractor exchanges perinatal funds for additional discretionary funds.

O. Byrd Anti-Lobbying Amendment (31 USC 1352)

Contractor certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 USC 1352. Contractor shall also disclose to DHCS any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award.

P. Nondiscrimination in Employment and Services

By signing this Agreement, Contractor certifies that under the laws of the Unites States and the State of California, incorporated into this Agreement by reference and made a part hereof as if set forth in full, Contractor will not unlawfully discriminate against any person.

//

Q. Information Access for Individuals with Limited English Proficiency

1. Contractor shall comply with all applicable provisions of the Dymally-Alatorre Bilingual Services Act (Government Code sections 7290-7299.8) regarding access to materials that explain services available to the public as well as providing language interpretation services.

2. Contractor shall comply with the applicable provisions of Section 1557 of the Affordable Care Act [45 CFR Part 92), including, but not limited to, 45 CFR 92.201, when providing access to: (a) materials explaining services available to the public, (b) language assistance, (c) language interpreter and translation services, and (d) video remote language interpreting services.

R. See also See Attachment 2 HHSA SABG Standards Policy and Procedure 6-1-002, effective July 1, 2018 available to the Contractor as provided herein and incorporated by this reference.]

S. Subcontract Provisions. Contractor shall include all of the foregoing provisions in all of its subcontracts.

[END ARTICLE 17]

SIGNATURES BELOW

IN WITNESS WHEREOF, the Agreement is made and entered into as of the last date signed below This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed to be an original, and such counterparts shall together constitute one and the same Agreement. The parties shall be entitled to sign and transmit an electronic signature of this Agreement (whether by Docusign, PDF or email transmission), which signature shall be binding on the party whose name is contained therein. Each party providing an electronic signature agrees to promptly execute and deliver to the other party an original signed Agreement upon request.

EXHIBIT A.1-OUTPATIENT SERVICES (ASAM Level 1.0)

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide alcohol and drug treatment services in an outpatient setting with or without medication, including counseling and/or supportive services.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx or subsequent updates to this billing manual, to beneficiaries who meet access criteria for receiving SUD services.

A. Outpatient Treatment Program Requirements

1. Outpatient services consisting of up to nine (9) hours per week of medically necessary services for adults. Services may exceed the maximum based on individual medical necessity. These services are determined by a Medical Director or Licensed Practitioner of Healing Arts (LPHA) and in accordance with an individualized treatment plan. Interventions may be offered by a licensed professional or certified counselor in any appropriate community-based setting certified to provide ASAM Level 1 services.

4. Problem List See Article 4, Section V. of the Agreement.

5. Episode Management Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

6. Drug Testing of beneficiaries at appropriate intervals, as determined by the treatment provider.

7. Coordination with Other HHSA Programs

When applicable, Contractor shall coordinate with other HHSA programs as follows:

a. If a CalWorks involved client:

Provider will send their CalWorks case manager a monthly progress report that includes; client's progress towards their treatment plan goals and finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

b. If a Child Welfare involved client:

i. Provider will send their Child Welfare case worker a monthly progress report that includes; client's progress towards their treatment plan goals and finding gainful employment.

ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

iv. Prior to a planned discharge, ensure client, provider staff, and Child Welfare case worker have discussed client's next steps in treatment and collaborate around a discharge plan, as appropriate.

B. Outpatient Program Service Components. Contractor shall provide an outpatient treatment program that contains all of the following service components:

1. DMC-ODS Provider Point of Entry/Initial Screening

a. Contractor shall function as a DMC-ODS Provider Point of Entry staffed by certified/registered AOD counselors and/or Licensed Practitioner of the Healing Arts (LPHAs).

b. Contractor shall conduct an ASAM Criteria screening and ensure such screening obtains relevant information to identify initial treatment needs to link beneficiaries to the most appropriate Level of Care (LOC).

c. Upon first contact, Contractor shall inform beneficiaries of the benefits to which they are entitled. If the beneficiary appears in person, Contractor shall provide beneficiaries with a same-day screenings, ASAM Criteria, and referral, if available.

d. The beneficiary may choose to receive DMC-ODS services from Contractor or choose to be referred to another appropriate DMC-ODS provider offering the initial LOC determined by the ASAM screening.

e. In all cases, Contractor shall consider geographic location, language needs and individual preference when making placement and referrals within the parameters of the ASAM screening results.

f. In the event the beneficiary's ASAM screening determines the need for a LOC not offered by Contractor, Contractor shall provide:

i. The beneficiary a warm hand-off to the appropriate DMC-ODS provider;

ii. The completed ASAM tool to the appropriate DMC-ODS provider.

iii. Notice to Yolo County HHSA at HHSA.SUDservices@yolocounty.org

2. Assessment.-Contractor shall provide assessment activities to evaluate or monitor the status

of a beneficiary's behavioral health and determine the appropriate level of care and course of treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

a. Assessment services may include one or more of the following components:

i. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

ii. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

iii. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

3. Care Coordination

a. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

b. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

c. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

d. Care coordination services shall include one or more of the following components:

i. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

ii. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

iii. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

8. **Individual Counseling.** Contractor shall provide Individual Counseling. Individual Counseling consists of contacts with a beneficiary. Individual counseling can include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals.

9. **Group Counseling.** Contractor shall provide Group Counseling Services. Group Counseling consists of contacts with multiple beneficiaries at the same time. Group Counseling shall focus on the needs of the participants. Group counseling shall be provided to a group that includes 2-12 individuals.

10. **Family Therapy.** Contractor shall provide Family Therapy Services. Family therapy is a rehabilitative service that includes family members in the treatment process, providing education about factors that are important to the beneficiary's recovery as well as the holistic recovery of the family system. Family members can provide social support to the beneficiary and help motivate their loved one to remain in treatment. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of this service, but the service is for the direct benefit of the beneficiary.

11. **Medication Services.** Contractor shall provide Medication Services.

    a. Medication Services includes:

        i. Prescription or administration of medication related to use disorder services or

        ii. The assessment of the side effects or results of the medication or

        iii. Monitoring medication used in the treatment or management of SUD and or/or withdrawal management not included in the definitions of MAT for OUD or MAT for AUD Services.

    b. Medication Services does not include:

        i. MAT for Opioid Use Disorders (OUD)

        ii. MAT for Alcohol Use Disorders (AUD)

        iii. MAT for other Non-Opioid Substance Use disorders.

12. **MAT for OUD.** Contractor shall provide MAT for OUD services.

    a. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as a service delivered as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components::

        i. Assessment

        ii. Care Coordination

        iii. Counseling (individual and group)

        iv. Family therapy

        v. Medication Services

        vi. Patient Education

vii. Prescribing and monitoring for MAT for OUD

viii. Recovery Services

ix. SUD Crisis Intervention Services

x. Withdrawal Management Services

13. **MAT for AUD and Non-Opioid Substance Use Disorders.**

a. Contractor shall provide MAT for AUD services and Non-Opioid Substance Use Disorders. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components::

i. Assessment

ii. Care Coordination

iii. Counseling (individual and group)

iv. Family therapy

v. Medication Services

vi. Patient Education

vii. Prescribing and monitoring for MAT for OUD

viii. Recovery Services

ix. SUD Crisis Intervention Services

x. Withdrawal Management Services

14. **Patient Education.** Contractor shall provide Patient Education Services, which is education for the beneficiary on addiction, treatment recovery and associated health risks.

15. **Recovery Services.** Contractor shall provide Recovery Services. These services are designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level.

a. Recovery Services emphasize the beneficiary's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to beneficiaries.

b. Beneficiaries may receive Recovery Services based on self-assessment or provider assessment of relapse risk.

c. Beneficiaries do not need to be diagnosed as being in remission to access Recovery Services.

d. Beneficiaries may receive Recovery Services while receiving MAT services, including NTP services.

e. Beneficiaries may receive Recovery Services immediately after incarceration with a prior diagnosis of SUD.

f. Services may be provided in person, by telehealth, or by telephone.

g. Recovery Services can be delivered and claimed as a standalone service, concurrently with the other levels of care described in the State Contract as a ““Covered DMC-ODS Services” , or as a service delivered as part of these levels of care. Recovery Services include:

i. Assessment

ii. Care Coordination

iii. Counseling (individual and group)

iv. Family therapy

v. Recovery monitoring, which includes recovery coaching and monitoring designed for maximum reduction of the beneficiary’s SUD.

vi. Relapse Prevention, which includes interventions designed to teach beneficiaries with SUD how to anticipate and cope with the potential for relapse for the maximum reduction of the beneficiary’s SUD.

16. SUD Crisis Intervention Services. Contractor shall provide SUD Crisis Intervention Services consisting of contacts with a beneficiary in crisis. Sud Crisis means an actual relapse or an unforeseen event or circumstance which presents to the beneficiary an imminent threat of relapse. SUD Crisis Intervention Services shall focus on alleviating the crisis problem, be limited to the stabilization of the beneficiary's immediate situation and be provided in the least intensive level of care that is medically necessary to treat their condition.

17. Perinatal DMC Services.

b. Contractor shall provide Perinatal DMC Service. Perinatal DMC Services means covered services as well as parent/child habilitative and rehabilitative services; services access (i.e., provision or arrangement of transportation to and from medically necessary treatment); education to reduce harmful effects of alcohol and drugs on the parent and fetus or infant; and coordination of ancillary services (Cal. Code Regs., tit. 22, § 51341.1(c)(4)).

c. Perinatal Services shall address treatment and recovery issues specific to pregnant and postpartum women, such as relationships, sexual and physical abuse, and development of parenting skills.

d. Perinatal Services shall include:

i. Mother/child habilitative and rehabilitative services (i.e., development of parenting skills, training in child development, which may include the provision of cooperative child care pursuant to Health and Safety Code Section 1596.792).

ii. Service access (i.e., provision of or arrangement for transportation to and from medically necessary treatment).

iii. Education to reduce harmful effects of alcohol and drugs on the mother and fetus or the mother and infant.

iv. Coordination of ancillary services (i.e., assistance in accessing and completing dental services, social services, community services, educational/vocational training and other services which are medically necessary to prevent risk to fetus or infant).

e. Postpartum as defined for DMC purposes, means the 60-day period beginning on the last day of pregnancy, regardless of whether other conditions of eligibility are met. Eligibility for perinatal services shall end on the last day of the calendar month in which the 60th day occurs.

f. Contractor shall maintain medical documentation that substantiates the beneficiary's pregnancy and the last day of pregnancy in the beneficiary record. See also Article 5.

g. Contractor shall comply with the perinatal program requirements as outlined in the DHCS-Perinatal Practice Guidelines. (see Attachment 1). Contractor shall comply with the current version of these guidelines until new perinatal practice guidelines are established and adopted. The incorporation of any new perinatal practice guidelines into this Agreement shall not require a formal amendment.

h. Provide written reports to the CWS case worker using the CWS confidential fax number: (530) 668-8028.

18. Collateral Services. Contractor shall provide Collateral Services, which consist of sessions with therapists or counselors and significant persons in the life of the beneficiary, focused on the treatment needs of the beneficiary in terms of supporting the achievement of the beneficiary's treatment goals. Significant persons are individuals that have a personal, not official or professional, relationship with the beneficiary

19. Discharge Services. Contractor shall provide Discharge Services. Discharge Services are the processes to prepare the beneficiary for referral into another level of care, post treatment return or reentry into the community, and/or the linkage of the individual to essential community treatment, housing and human services.

At the time of discharge, Contractor shall complete an ASAM and refer to the appropriate outpatient or inpatient service based on the client's LOC needs. When possible, discharge will include treatment at a lower LOC or intensity appropriate to client's needs and provision of additional referrals to community resources for client to utilize after discharge.

See also Article 4, Section IX of the Agreement.

EXHIBIT A.2-INTENSIVE OUTPATIENT SERVICES (ASAM Level 2.1)

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide alcohol and drug treatment services in an intensive outpatient setting with or without medication, including counseling and/or supportive services.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Intensive Outpatient Treatment Program Requirements

1. Contractor shall provide Intensive Outpatient Treatment Services to beneficiaries when medically necessary in a structured programming environment. Provider shall offer a minimum of nine hours with a maximum of 19 hours a week for adults. Services received by the individual beneficiary may exceed the maximum based on individual medical necessity. Intensive Outpatient Treatment Services may be provided in person, by telehealth, or by telephone.

2. **Problem List.** See Article 4, Section V. of the Agreement.

3. **Episode Management** Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

4. **Drug Testing** of clients at appropriate intervals, as determined by the treatment provider.

5. **Coordination with Other HHSA Programs**

   When applicable, Contractor shall coordinate with other HHSA programs as follows:

   a. If a CalWorks involved client:

Provider will send their CalWorks case manager a monthly progress report that includes; client's progress towards their treatment plan goals and finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

b. If a Child Welfare involved client:

i. Provider will send their Child Welfare case worker a monthly progress report that includes; client's progress towards their treatment plan goals and finding gainful employment.

ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

iv. Prior to a planned discharge, ensure client, provider staff, and Child Welfare case worker have discussed client's next steps in treatment and collaborate around a discharge plan, as appropriate.

B. Intensive Outpatient Treatment Program Components

Contractor shall provide an Intensive Outpatient Treatment program that contains all of the following service components: Intensive Outpatient Treatment Program includes: Assessment, Care Coordination, Counseling (individual and group), Family Therapy, Medication Services, MAT for OUD, MAT or AUD and other non-opioid SUDS, Patient Education, Recovery Services, and SUD Crisis Intervention Services as follows:

1. DMC-ODS Provider Point of Entry/Initial Screening

a. Contractor shall function as a DMC-ODS Provider Point of Entry staffed by certified/registered AOD counselors and/or Licensed Practitioner of the Healing Arts (LPHAs).

b. Contractor shall conduct an ASAM Criteria screening and ensure such screening obtains relevant information to identify initial treatment needs to link beneficiaries to the most appropriate Level of Care (LOC).

c. Upon first contact, Contractor shall inform beneficiaries of the benefits to which they are entitled. If the beneficiary appears in person, Contractor shall provide beneficiaries with a same-day screenings, ASAM Criteria, and referral, if available.

d. The beneficiary may choose to receive DMC-ODS services from Contractor or choose to be referred to another appropriate DMC-ODS provider offering the initial LOC determined by the ASAM screening.

e. In all cases, Contractor shall consider geographic location, language needs and individual preference when making placement and referrals within the parameters of the ASAM screening results.

f. In the event the beneficiary's ASAM screening determines the need for a LOC not offered by Contractor, Contractor shall provide:

iv. The beneficiary a warm hand-off to the appropriate DMC-ODS provider;

v. The completed ASAM tool to the appropriate DMC-ODS provider.

vi. Notice to Yolo County HHSA at HHSA.SUDservices@yolocounty.org

4. **Assessment.** Contractor shall provide assessment activities to evaluate or monitor the status of a beneficiary's behavioral health and determine the appropriate level of care and course of treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

   a. Assessment services may include one or more of the following components:

      i. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

      ii. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

      iii. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

5. **Care Coordination.**

   a. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

   b. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

   c. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

   d. Care coordination services shall include one or more of the following components:

      i. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

      ii. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

      iii. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but

not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

4. **Individual Counseling.** Contractor shall provide Individual Counseling. Individual Counseling consists of contacts with a beneficiary. Individual counseling can include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals.

5. **Group Counseling.** Contractor shall provide Group Counseling Services. Group Counseling consists of contacts with multiple beneficiaries at the same time. Group Counseling shall focus on the needs of the participants. Group counseling shall be provided to a group that includes 2-12 individuals

6. **Family Therapy.** Contractor shall provide Family Therapy Services. Family therapy is a rehabilitative service that includes family members in the treatment process, providing education about factors that are important to the beneficiary's recovery as well as the holistic recovery of the family system. Family members can provide social support to the beneficiary and help motivate their loved one to remain in treatment. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of this service, but the service is for the direct benefit of the beneficiary

7. **Medication Services.** Contractor shall provide Medication Services.

   a. Medication Services includes:

      i. Prescription or administration of medication related to use disorder services or

      ii. The assessment of the side effects or results of the medication or

      iii. Monitoring medication used in the treatment or management of SUD and or/or withdrawal management not included in the definitions of MAT for OUD or MAT for AUD Services.

   b. Medication Services does not include:

      i. MAT for Opioid Use Disorders (OUD)

      ii. MAT for Alcohol Use Disorders (AUD)

      iii. MAT for other Non-Opioid Substance Use disorders.

8. **MAT for OUD.** Contractor shall provide MAT for OUD services. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as a service delivered as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components:

   a. Assessment

   b. Care Coordination

   c. Counseling (individual and group)

   d. Family therapy

e. Medication Services

f. Patient Education

g. Prescribing and monitoring for MAT for OUD

h. Recovery Services

i. SUD Crisis Intervention Services

j. Withdrawal Management Services

9. MAT for AUD and Non-Opioid Substance Use Disorders- Contractor shall provide MAT for AUD services and Non-Opioid Substance Use Disorders. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components::

a. Assessment

b. Care Coordination

c. Counseling (individual and group)

d. Family therapy

e. Medication Services

f. Patient Education

g. Prescribing and monitoring for MAT for OUD

h. Recovery Services

i. SUD Crisis Intervention Services

j. Withdrawal Management Services

10. Patient Education. Contractor shall provide Patient Education Services, which is education for the beneficiary on addiction, treatment recovery and associated health risks.

11. Recovery Services. Contractor shall provide Recovery Services. These services are designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level.

a. Recovery Services emphasize the beneficiary's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to beneficiaries.

b. Beneficiaries may receive Recovery Services based on self-assessment or provider assessment of relapse risk.

c. Beneficiaries do not need to be diagnosed as being in remission to access Recovery Services.

d. Beneficiaries may receive Recovery Services while receiving MAT services, including NTP services.

e. Beneficiaries may receive Recovery Services immediately after incarceration with a prior diagnosis of SUD.

f. Services may be provided in person, by telehealth, or by telephone.

h. Recovery Services can be delivered and claimed as a standalone service, concurrently with the other levels of care described in the State Contract as a ""Covered DMC-ODS Services" , or as a service delivered as part of these levels of care. Recovery Services include:

i. Assessment

ii. Care Coordination

iii. Counseling (individual and group)

iv. Family therapy

v. Recovery monitoring, which includes recovery coaching and monitoring designed for maximum reduction of the beneficiary's SUD.

vi. Relapse Prevention, which includes interventions designed to teach beneficiaries with SUD how to anticipate and cope with the potential for relapse for the maximum reduction of the beneficiary's SUD.

12. **SUD Crisis Intervention Services.** Contractor shall provide SUD Crisis Intervention Services consisting of contacts with a beneficiary in crisis. Sud Crisis means an actual relapse or an unforeseen event or circumstance which presents to the beneficiary an imminent threat of relapse. SUD Crisis Intervention Services shall focus on alleviating the crisis problem, be limited to the stabilization of the beneficiary's immediate situation and be provided in the least intensive level of care that is medically necessary to treat their condition.

13. **Perinatal DMC Services.**

a. Contractor shall provide Perinatal DMC Service. Perinatal DMC Services means covered services as well as parent/child habilitative and rehabilitative services; services access (i.e., provision or arrangement of transportation to and from medically necessary treatment); education to reduce harmful effects of alcohol and drugs on the parent and fetus or infant; and coordination of ancillary services (Cal. Code Regs., tit. 22, § 51341.1(c)(4)).

b. Perinatal Services shall address treatment and recovery issues specific to pregnant and postpartum women, such as relationships, sexual and physical abuse, and development of parenting skills.

c. Perinatal Services shall include:

i. Mother/child habilitative and rehabilitative services (i.e., development of parenting skills, training in child development, which may include the provision of cooperative child care pursuant to Health and Safety Code Section 1596.792).

ii. Service access (i.e., provision of or arrangement for transportation to and from medically necessary treatment).

iii. Education to reduce harmful effects of alcohol and drugs on the mother and fetus or the mother and infant.

iv. Coordination of ancillary services (i.e., assistance in accessing and completing dental services, social services, community services, educational/vocational training and other services which are medically necessary to prevent risk to fetus or infant).

d. Postpartum as defined for DMC purposes, means the 60-day period beginning on the last day of pregnancy, regardless of whether other conditions of eligibility are met. Eligibility for perinatal services shall end on the last day of the calendar month in which the 60th day occurs.

e. Contractor shall maintain medical documentation that substantiates the beneficiary's pregnancy and the last day of pregnancy in the beneficiary record. See also Article 5.

f. Contractor shall comply with the perinatal program requirements as outlined in the DHCS-Perinatal Practice Guidelines. (see Attachment 1). Contractor shall comply with the current version of these guidelines until new perinatal practice guidelines are established and adopted. The incorporation of any new perinatal practice guidelines into this Agreement shall not require a formal amendment.

g. Provide written reports to the CWS case worker using the CWS confidential fax number: (530) 668-8028.

14. **Collateral Services.** Contractor shall provide Collateral Services, which consist of sessions with therapists or counselors and significant persons in the life of the beneficiary, focused on the treatment needs of the beneficiary in terms of supporting the achievement of the beneficiary's treatment goals. Significant persons are individuals that have a personal, not official or professional, relationship with the beneficiary

15. **Discharge Services**. Contractor shall provide Discharge Services. Discharge Services are the processes to prepare the beneficiary for referral into another level of care, post treatment return or reentry into the community, and/or the linkage of the individual to essential community treatment, housing and human services.

    At the time of discharge, Contractor shall complete an ASAM and refer to the appropriate outpatient or inpatient service based on the client's LOC needs. When possible, discharge will include treatment at a lower LOC or intensity appropriate to client's needs and provision of additional referrals to community resources for client to utilize after discharge.

    See also Article 4, Section IX of the Agreement.

EXHIBIT A.3-WITHDRAWAL MANAGEMENT SERVICES (ASAM Level 3.2-WM)

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide withdrawal management services to beneficiaries as medically necessary with an anticipated unit of service (UOS) rate of 900 per fiscal year.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Withdrawal Management Program Requirements

1. Withdrawal Management (WM) services are provided as a part of a continuum of care to beneficiaries experiencing withdrawal in the following outpatient, residential, and inpatient settings. Beneficiary shall be monitored during the detoxification process.

2. A full Yolo County assessment based on American Society of Addiction Medicine (ASAM) Criteria shall not be required as a condition of admission to a facility providing WM.

3. Service activities focus on the stabilization and management of psychological and physiological symptoms associated with withdrawal, engagement in care and effective transitions to a level of care where beneficiary can receive comprehensive treatment services.

4. Providers shall either offer medications for addiction treatment directly or have effective referral mechanisms in place for the most clinically appropriate MAT services.

5. Care transitions to facilitate additional services or transition to a comprehensive treatment program.

6. WM services are urgent and shall be provided on a short-term basis.

7. Practitioner shall conduct a Yolo County SUD Assessment Tool (based on ASAM criteria), brief screening, or other tools to support referral to additional services as appropriate.

8. If a full Yolo County assessment based on ASAM criteria was not completed as part of the withdrawal management service episode, this assessment shall be completed within 30 days of the beneficiary's first visit with a Licensed Practitioner of the Healing Arts (LPHA) or registered/certified counselor for non-withdrawal management services (or up to 60 days for beneficiaries under 21, or beneficiaries experiencing homelessness.)

9. Contractor shall ensure that all beneficiaries receiving withdrawal management services are provided in an outpatient, residential or inpatient setting. If beneficiary is receiving withdrawal management in a residential or inpatient setting, each beneficiary shall reside at the facility. All beneficiaries receiving Withdrawal Management services, regardless in which type of setting, shall be monitored during the detoxification process.

10. Contractor shall ensure all providers delivering Residential Treatment services under DMC-ODS shall also be designated as capable of delivering care consistent with the ASAM Criteria. Residential treatment providers licensed by DHCS offering ASAM levels 3.1, 3.3, 3.5, and 3.2-WM shall also have a DHCS Level of Care (LOC) Designation and/or an ASAM LOC Certification that indicates that the program is capable of delivering care consistent with the ASAM Criteria

11. Problem List. See Article 4, Section V. of the Agreement.

12. Episode Management Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

16. Drug Testing of clients, at appropriate intervals, as determined by the treatment provider.

17. Coordination with Other HHSA Programs To facilitate an appropriate care transition, a full ASAM assessment, brief screening, or other tool to support referral to additional services is appropriate.

B. **Withdrawal Management Service Components.** Contractor shall provide a Withdrawal Management (WM) Program that contains all of the following service components:

1. Assessment -Contractor shall provide assessment activities to evaluate or monitor the status of a beneficiary's behavioral health and determine the appropriate level of care and course of treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

a. Assessment services may include one or more of the following components:

iv. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

v. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

vi. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

2. Care Coordination.

a. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

b. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

c. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

d. Care coordination services shall include one or more of the following components:

i. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

ii. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

iii. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

3. Medication Services. Contractor shall provide Medication Services

a. Medication Services includes:

i. Prescription or administration of medication related to use disorder services or

ii. The assessment of the side effects or results of the medication or

iii. Monitoring medication used in the treatment or management of SUD and or/or withdrawal management not included in the definitions of MAT for OUD or MAT for AUD Services.

b. Medication Services does not include:

i. MAT for Opioid Use Disorders (OUD)

ii. MAT for Alcohol Use Disorders (AUD)

iii. MAT for other Non-Opioid Substance Use disorders.

4. **MAT for OUD.** Contractor shall provide MAT for OUD services. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as a service delivered as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components:

   a. Assessment

   b. Care Coordination

   c. Counseling (individual and group)

   d. Family therapy

   e. Medication Services

   f. Patient Education

   g. Prescribing and monitoring for MAT for OUD

   h. Recovery Services

   i. SUD Crisis Intervention Services

   j. Withdrawal Management Services

5. **MAT for AUD and Non-Opioid Substance Use Disorders.** Contractor shall provide MAT for AUD services and Non-Opioid Substance Use Disorders. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components:

   a. Assessment

   b. Care Coordination

   c. Counseling (individual and group)

   d. Family therapy

   e. Medication Services

   f. Patient Education

   g. Prescribing and monitoring for MAT for OUD

   h. Recovery Services

   i. SUD Crisis Intervention Services

   j. Withdrawal Management Services

6. **Observation.** Contractor shall provide Observation Services. Observation means the process of monitoring the bene the beneficiary's course of withdrawal. Contractor shall ensure observation be conducted at the frequency required by applicable state and federal laws,

regulations, and standards. This may include but is not limited to observation of the beneficiary's health status.

7. **Recovery Services.** Contractor shall provide Recovery Services. These services are designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level.

   a. Recovery Services emphasize the beneficiary's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to beneficiaries.

   b. Beneficiaries may receive Recovery Services based on self-assessment or provider assessment of relapse risk.

   c. Beneficiaries do not need to be diagnosed as being in remission to access Recovery Services.

   d. Beneficiaries may receive Recovery Services while receiving MAT services, including NTP services.

   e. Beneficiaries may receive Recovery Services immediately after incarceration with a prior diagnosis of SUD.

   f. Services may be provided in person, by telehealth, or by telephone.

   g. Recovery Services can be delivered and claimed as a standalone service, concurrently with the other levels of care described in this ""Covered DMC-ODS Services" , or as a service delivered as part of these services:

      i. Assessment

      ii. Care Coordination

      iii. Counseling (individual and group)

      iv. Family therapy

      v. Recovery monitoring, which includes recovery coaching and monitoring designed for maximum reduction of the beneficiary's SUD.

      vi. Relapse Prevention, which includes interventions designed to teach beneficiaries with SUD how to anticipate and cope with the potential for relapse for the maximum reduction of the beneficiary's SUD.

EXHIBIT A.4-CLINICALLY LOW-INTENSITY RESIDENTIAL TREATMENT SERVICES (ASAM LEVEL 3.1)

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide residential treatment services on a 24-hour, non-institutional, non-medical, short-term basis to beneficiaries with a substance use disorder diagnosis when determined by a Medical Director or LPHA as medically necessary and in accordance with an individualized treatment plan.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Clinically Low-Intensity Residential Treatment Services Program Requirements

1. Contractor shall provide Residential Treatment Services for Residential Treatment Services for adults in ASAM Level 3.1. Services shall be provided by DMC-certified providers who must be licensed and enrolled in accordance with all applicable state and federal laws and regulations this includes:

2. Residential facilities licensed by DHCS.

3. Residential facilities licensed by the Department of Social Services.

4. Chemical Dependency Recovery Hospitals (CDRHs) licensed by the California Department of Public Health (CDPH).

5. Freestanding Acute Psychiatric Hospitals (FAPHs) licensed by CDPH.

6. Contractor shall ensure all providers delivering Residential Treatment services under DMC-ODS shall also be designated as capable of delivering care consistent with the ASAM Criteria.

Residential treatment providers licensed by DHCS offering ASAM levels 3.1, 3.3, 3.5, and 3.2-WM shall also have a DHCS Level of Care (LOC) Designation and/or an ASAM LOC Certification that indicates that the program is capable of delivering care consistent with the ASAM Criteria.

7. To participate in the DMC-ODS program and offer ASAM Levels of Care 3.1, 3.3, or 3.5, residential providers licensed by a state agency other than DHCS shall be DMC-certified.

8. In addition, facilities licensed by a state agency other than DHCS shall have an ASAM LOC Certification for each level of care provided by the facility under the DMC-ODS program by January 1, 2024. Contractor shall be responsible for ensuring and verifying that DMC-ODS providers delivering ASAM Levels of care 3.1, 3.3 or 3.5 obtain an ASAM LOC.

9. Contractor shall implement coverage and ensure access for residential SUD treatment services as follows:

10. Upon implementation, Contractor shall provide in network access to ASAM 3.1, and Contractor's network for that level of care shall comply with applicable network adequacy, and time and distance standards.

11. Within two years of implementation, Contractor shall provide in-network access to ASAM Level 3.5, and Contractor's network for that level of care shall comply with applicable network adequacy, and time and distance standards.

12. Within three years of implementation, Contractor shall provide in-network access to ASAM Levels 3.3.

13. If, at any point in time, Contractor's provider network is unable to provide any residential level of care to a particular beneficiary that meets medical necessity for that residential level of care, Contractor shall adequately and timely cover these residential services out-of network for the beneficiary, for as long as Contractor's provider network is unable to provide them.

14. Residential providers may apply to provide Incidental Medical Services pursuant to DHCS guidance.

15. All Contractors are required to accept and support clients who are receiving medication-assisted treatments.

16. All SUD network contractors will verify Medi-Cal eligibility, have the ability to identify client referral sources, and complete a comprehensive beneficiary assessment at intake.

17. Contractors providing Residential Treatment Services shall provide the designated Yolo County access points with bed availability daily to ensure clients have timely access to these services.

18. Residential Treatment services can be provided in facilities of any size ensuring that the length of residential services complies with the following:

a. The goal for a statewide average length of stay for residential services of 30 days is not a quantitative treatment limitation or hard "cap" on individual stays.

b. Lengths of stay in residential treatment settings shall be determined by individualized clinical need.

c. Contractor shall ensure that beneficiaries receiving residential treatment are transitioned to another level of care when clinically appropriate based on treatment progress.

d. Contractor shall adhere to the length of stay monitoring requirements set forth by DHCS and length of stay performance measures established by DHCS and reported by the external quality review organization.

e. Nothing in the DMC-ODS overrides any EPSDT requirements. EPSDT beneficiaries may receive a longer length of stay based on medical necessity.

f. If determined to be medically necessary, perinatal beneficiaries may receive a longer length of stay than those described above.

19. All Residential and Inpatient Treatment services shall be provided to a beneficiary while in a residential or inpatient treatment facility may be provided in person, by telehealth, or telephone. Telehealth and telephone services, when provided, shall supplement, not replace, the in-person services and the in-person treatment milieu; most services in a residential or inpatient facility shall be in-person.

20. A beneficiary receiving residential services or inpatient services pursuant to DMC-ODS, regardless of length of stay, is a "short-term resident" of the residential or inpatient facility in which they are receiving the services. These services are intended to be individualized to treat the functional deficits identified in the ASAM Criteria. Each beneficiary shall live on the premises and shall be supported in their efforts to restore, maintain, and apply interpersonal and independent living skills and access community support systems.

21. Providers shall either offer MAT directly, or have effective referral mechanisms in place to clinically appropriate MAT services (defined as facilitating access to MAT off-site for beneficiaries while they are receiving residential treatment services if not provided on-site. Providing a beneficiary the contact information for a treatment program is insufficient).

22. Notification to HHSA and any other appropriate designated County Department: Notification shall be provided to the designated HHSA and any other appropriate designated County Department representative when a client enters or leaves treatment for episode management.

23. Dimension 6 of the ASAM criteria, "Recovery Environment" is a critical dimension when determining if this level of service is needed. Beneficiaries requiring residential treatment typically have a rating of 3 or 4 in this dimension indicating that:

a. Initiation or repetition of physical, sexual, or emotional abuse, or substance use is so prevalent that the beneficiary is assessed as being unable to achieve or maintain recovery at a less intensive level of care

b. Beneficiary's living environment or social network involves high-risk individuals that jeopardize the beneficiary's recovery, or present an environment where recovery is unachievable at a less intensive level of care

18. Problem List. See Article 4, Section V. of the Agreement.

19. Episode Management Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

20. Drug testing of clients at appropriate intervals, as determined by the treatment provider.

21. Coordination with Other HHSA Programs

a. If a CalWorks involved client:

Provider will send their CalWorks case manager a monthly progress report that includes; client's progress towards their treatment plan goals and towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

b. If a Child Welfare involved client:

i. Provider will send their Child Welfare case worker a monthly progress report that includes; client's progress towards their treatment plan goals and towards finding gainful employment.

ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

B. Clinically Low-Intensity Residential Treatment Services Components. Contractor shall provide a Clinically Low-Intensity Residential Treatment program that contains all of the following service components: assessment, care coordination, counseling (individual and group), family therapy, medication services, MAT for OUD, MAT for AUD and non-opioid SUDs, patient education, recovery services, and SUD crisis intervention services as follows:

1. Assessment. Contractor shall provide assessment activities to evaluate or monitor the status of a beneficiary's behavioral health and determine the appropriate level of care and course of treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

a. Assessment services may include one or more of the following components:

i. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

ii. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

iii. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

2. Individual Counseling. Contractor shall provide Individual Counseling. Individual Counseling consists of contacts with a beneficiary. Individual counseling can include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals

3. **Group Counseling.** Contractor shall provide Group Counseling Services. Group Counseling consists of contact with multiple beneficiaries at the same time. Group Counseling shall focus on the need of the participants. Group Counseling shall be provided to a group that includes 2-12 individuals.

4. **Family Therapy.** Contractor shall provide Family Therapy Services. Family therapy is a rehabilitative service that includes family members in the treatment process, providing education about factors that are important to the beneficiary's recovery as well as the holistic recovery of the family system. Family members can provide social support to the beneficiary and help motivate their loved one to remain in treatment. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of this service, but the service is for the direct benefit of the beneficiary.

5. **Patient Education.** Contractor shall provide Patient Education Services, which is education for the beneficiary on addition, treatment, recovery, and health risks.

6. **Perinatal DMC Services.**

   a. Contractor shall provide Perinatal DMC Service. Perinatal DMC Services means covered services as well as parent/child habilitative and rehabilitative services; services access (i.e., provision or arrangement of transportation to and from medically necessary treatment); education to reduce harmful effects of alcohol and drugs on the parent and fetus or infant; and coordination of ancillary services (Cal. Code Regs., tit. 22, § 51341.1(c)(4)).

   b. Perinatal services shall address treatment and recovery issues specific to pregnant and postpartum women, such as relationships, sexual and physical abuse, and development of parenting skills.

   c. Perinatal services shall include:

      i. Parent/child habilitative and rehabilitative services (i.e., development of parenting skills, training in child development, which may include the provision of cooperative child care pursuant to Health and Safety Code Section 1596.792).

      ii. Service access (i.e., provision of or arrangement for transportation to and from medically necessary treatment).

      iii. Education to reduce harmful effects of alcohol and drugs on the mother and fetus or the mother and infant.

      iv. Coordination of ancillary services (i.e., assistance in accessing and completing dental services, social services, community services, educational/vocational training and other services which are medically necessary to prevent risk to fetus or infant).

   d. Postpartum as defined for DMC purposes, means the 60-day period beginning on the last day of pregnancy, regardless of whether other conditions of eligibility are met. Eligibility for perinatal services shall end on the last day of the calendar month in which the 60th day occurs.

   e. Contractor shall maintain medical documentation that substantiates the beneficiary's pregnancy and the last day of pregnancy in the beneficiary record. See also Article 5.

f. Contractor shall comply with the perinatal program requirements as outlined in the DHCS-Perinatal Practice Guidelines. [see Attachment 1]. Contractor shall comply with the current version of these guidelines until new perinatal practice guidelines are established and adopted. The incorporation of any new perinatal practice guidelines into this Agreement shall not require a formal amendment.

g. Provide written reports to the CWS case worker using the CWS confidential fax number: (530) 668-8028.

2. **Medication Services.** Contractor shall provide Medication Services

   a. Medication Services includes:

      i. Prescription or administration of medication related to use disorder services or

      ii. The assessment of the side effects or results of the medication or

      iii. Monitoring medication used in the treatment or management of SUD and or/or withdrawal management not included in the definitions of MAT for OUD or MAT for AUD Services.

   b. Medication Services does not include:

      i. MAT for Opioid Use Disorders (OUD)

      ii. MAT for Alcohol Use Disorders (AUD)

      iii. MAT for other Non-Opioid Substance Use disorders.

3. **MAT for OUD.** Contractor shall provide MAT for OUD services. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as a service delivered as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components:

   a. Assessment

   b. Care Coordination

   c. Counseling (individual and group)

   d. Family therapy

   e. Medication Services

   f. Patient Education

   g. Prescribing and monitoring for MAT for OUD

   h. Recovery Services

   i. SUD Crisis Intervention Services

   j. Withdrawal Management Services

4. **MAT for AUD and Non-Opioid Substance Use Disorders.** Contractor shall provide MAT for AUD services and Non-Opioid Substance Use Disorders. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as part of a

level of care. When MAT is being provided as a standalone service, MAT includes the following components:

a. Assessment

b. Care Coordination

c. Counseling (individual and group)

d. Family therapy

e. Medication Services

f. Patient Education

g. Prescribing and monitoring for MAT for OUD

h. Recovery Services

i. SUD Crisis Intervention Services

j. Withdrawal Management Services

5. **Collateral Services.** Contractor shall provide Collateral Services, which consist of sessions with therapists or counselors and significant persons in the life of the beneficiary, focused on the treatment needs of the beneficiary in terms of supporting the achievement of the beneficiary's treatment goals. Significant persons are individuals that have a personal, not official or professional, relationship with the beneficiary.

6. **Crisis Intervention Services.** Contractor shall provide Crisis Intervention Services, which consist of Contact between a therapist or counselor and a beneficiary in crisis. Services shall focus on alleviating crisis problems. "Crisis" means an actual relapse or an unforeseen event or circumstance which presents to the beneficiary an imminent threat of relapse. Crisis intervention services shall be limited to the stabilization of the beneficiary's emergency situation.

7. **Discharge Services.** Contractor shall provide Discharge Services. Discharge Services are the processes to prepare the beneficiary for referral into another level of care, post treatment return or reentry into the community, and/or the linkage of the individual to essential community treatment, housing and human services.

   At the time of discharge, Contractor shall complete an ASAM and refer to the appropriate outpatient or inpatient service based on the client's LOC needs. When possible, discharge will include treatment at a lower LOC or intensity appropriate to client's needs and provision of additional referrals to community resources for client to utilize after discharge. Prior to a planned discharge, ensure client, provider staff, and Child Welfare case worker have discussed client's next steps in treatment and collaborate around a discharge plan, as appropriate.

   See also Article 4, Section IX of the Agreement.

EXHIBIT A.5- CLINICALLY MANAGED HIGH-INTENSITY RESIDENTIAL TREATMENT SERVICES (ASAM LEVEL 3.5)

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide residential treatment services on a 24-hour, non-institutional, non-medical, short-term basis with residential rehabilitation services to beneficiaries with a substance use disorder diagnosis when determined by a Medical Director or LPHA as medically necessary and in accordance with an individualized treatment plan.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients. The anticipated Unit of Services (UOS) provided per fiscal year is 3,000.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Clinically Managed High-Intensity Residential Treatment Program Requirements

1. Services shall be claimed in a per day rate: $173-$190.96 a day, based on current rates set by state and subject to change with CalAIM payment reform. Does not include board and care rate.
2. Services shall address functional deficits documented in the American Society of Addition Medicine (ASAM) Criteria.
3. Services aimed to restore, maintain, and apply interpersonal and independent living skills and access community support systems.
4. A beneficiary shall live on the premises and be considered a “short-term resident” of the residential facility where the beneficiary receives services under this Drug Medi-Cal-Organized Delivery System (DMC-ODS) level of care.

5. Services may be provided in facilities of any size.

6. Services are driven by the beneficiary's care needs and shall be transitioned to other levels of care when clinically appropriate and served in the least restrictive setting.

7. Residential treatment services for adults under these levels are provided by DMC-certified providers who shall be licensed and enrolled in accordance with all applicable state and federal laws and regulations. This includes residential facilities licensed by Department of Health Care Services (DHCS,) residential facilities licensed by the Department of Social Services, Chemical Dependency Recovery Hospitals (CDRHs) licensed by the Department of Public Health or freestanding Acute Psychiatric Hospitals (FAPHs) licensed by California Department of Public Health (CDPH).

8. Residential providers licensed by a state agency other than DHCS shall be DMC-Certified.

9. DHCS Level of Care designation and/or ASAM Level of Care Certification:

   a. All facilities delivering Residential Treatment services under DMC-ODS shall also be designated as capable of delivering care consistent with the ASAM Criteria.

   b. Designation is required for facilities offering ASAM levels 3.1, 3.3, 3.5.

   c. All counties with residential facilities offering levels 3.1., 3.3, and 3.5, licensed by a state agency other than DHCS, shall have an ASAM Level of Care Certification for each of the levels of care provided at the facility under the DMCS-ODS program by January 1, 2024.

10. Services may be provided in person, by telehealth, or by telephone

    a. Most services shall be in person.

    b. Telehealth and telephone services shall be used to supplement, not replace, the in-person services and in-person treatment milieu.

11. Length of Stay

    a. The average statewide length of stay goal is 30 days; however, this is not a quantitative treatment limitation and there is no hard "cap" on individual length of stays. Lengths of stay shall be determined by individualized clinical need. Beneficiaries shall be transitioned to appropriate levels of care as medically necessary.

    b. Yolo County shall adhere to length of stay monitoring requirements established by DHCS and the external quality review organization

12. . **Problem List. See Article 4, Section V. of the Agreement.**

13. **Episode Management** Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

14. **Drug testing** of clients at appropriate intervals, as determined by the treatment provider.

15. **Coordination with Other HHSA Programs**

    a. If a CalWorks involved client:

Provider will send their CalWorks case manager a monthly progress report that includes; client's progress towards their treatment plan goals and towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

b. If a Child Welfare involved client:

i. Provider will send their Child Welfare case worker a monthly progress report that includes client's progress towards their treatment plan goals and progress towards finding gainful employment.

ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

B. Clinically Managed High-Intensity Residential Treatment Services Contractor shall provide a Clinically Managed High-Intensity Residential Treatment program that contains all of the following components; Assessment, Care Coordination, Counseling (individual and group), Family Therapy, Medication Services, MAT for OUD, MAT for AUD and other non-opioid Substance Use Disorders (SUD), Patient Education, Recovery Services, SUD Crisis Intervention Services. Residential Treatment Services as follows:

1. Assessment.-Contractor shall provide assessment activities to evaluate or monitor the status of a beneficiary's behavioral health and determine the appropriate level of care and course of treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

a. Assessment services may include one or more of the following components:

i. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

ii. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

iii. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

2. Care Coordination.

a. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

b. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

c. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

d. Care coordination services shall include one or more of the following components:

i. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

ii. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

iii. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

3. **Individual Counseling.** Contractor shall provide Individual Counseling. Individual Counseling consists of contacts with a beneficiary. Individual counseling can include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals.

4. **Group Counseling.** Contractor shall provide Group Counseling Services. Group Counseling consists of contacts with multiple beneficiaries at the same time. Group Counseling shall focus on the needs of the participants. Group counseling shall be provided to a group that includes 2-12 individuals

5. **Family Therapy.** Contractor shall provide Family Therapy Services. Family therapy is a rehabilitative service that includes family members in the treatment process, providing education about factors that are important to the beneficiary's recovery as well as the holistic recovery of the family system. Family members can provide social support to the beneficiary and help motivate their loved one to remain in treatment. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of this service, but the service is for the direct benefit of the beneficiary.

6. **Medication Services.** Contractor shall provide Medication Services.

a. Medication Services includes:

i. Prescription or administration of medication related to use disorder services or

ii. The assessment of the side effects or results of the medication or

iii. Monitoring medication used in the treatment or management of SUD and or/or withdrawal management not included in the definitions of MAT for OUD or MAT for AUD Services.

b. Medication Services does not include:

i. MAT for Opioid Use Disorders (OUD)

ii. MAT for Alcohol Use Disorders (AUD)

iii. MAT for other Non-Opioid Substance Use disorders.

7. **MAT for OUD.** Contractor shall provide MAT for OUD services. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as a service delivered as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components:

a. Assessment

b. Care Coordination

c. Counseling (individual and group)

d. Family therapy

e. Medication Services

f. Patient Education

g. Prescribing and monitoring for MAT for OUD

h. Recovery Services

i. SUD Crisis Intervention Services

j. Withdrawal Management Services

8. **MAT for AUD and Non-Opioid Substance Use Disorders.** Contractor shall provide MAT for AUD services and Non-Opioid Substance Use Disorders. These services may be provided in a clinical or non-clinical setting and can be delivered as a standalone service or as part of a level of care. When MAT is being provided as a standalone service, MAT includes the following components:

a. Assessment

b. Care Coordination

c. Counseling (individual and group)

d. Family therapy

e. Medication Services

f. Patient Education

g. Prescribing and monitoring for MAT for OUD

h. Recovery Services

i. SUD Crisis Intervention Services

j. Withdrawal Management Services

9. **Patient Education** Contractor shall provide Patient Education Services, which is education for the beneficiary on addiction, treatment recovery and associated health risks.

10. **Recovery Services.** Contractor shall provide Recovery Services. These services are designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level.

    a. Recovery Services emphasize the beneficiary's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to beneficiaries.

    b. Beneficiaries may receive Recovery Services based on self-assessment or provider assessment of relapse risk.

    c. Beneficiaries do not need to be diagnosed as being in remission to access Recovery Services.

    d. Beneficiaries may receive Recovery Services while receiving MAT services, including NTP services.

    e. Beneficiaries may receive Recovery Services immediately after incarceration with a prior diagnosis of SUD.

    f. Services may be provided in person, by telehealth, or by telephone.

    g. Recovery Services can be delivered and claimed as a standalone service, concurrently with the other levels of care described in the State Contract as a ""Covered DMC-ODS Services" , or as a service delivered as part of these services:

        i. Assessment

        ii. Care Coordination

        iii. Counseling (individual and group)

        iv. Family therapy

        v. Recovery monitoring, which includes recovery coaching and monitoring designed for maximum reduction of the beneficiary's SUD.

        vi. Relapse Prevention, which includes interventions designed to teach beneficiaries with SUD how to anticipate and cope with the potential for relapse for the maximum reduction of the beneficiary's SUD.

11. **SUD Crisis Intervention Services.** Contractor shall provide SUD Crisis Intervention Services consisting of contacts with a beneficiary in crisis. Sud Crisis means an actual relapse or an unforeseen event or circumstance which presents to the beneficiary an imminent threat of relapse. SUD Crisis Intervention Services shall focus on alleviating the crisis problem, be limited to the stabilization of the beneficiary's immediate situation, and be provided in the least

intensive level of care that is medically necessary to treat their condition.

EXHIBIT A.6- OPIOID (NARCOTIC) TREATMENT PROGRAM

I. SERVICE LOCATIONS

Services rendered pursuant to this agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide Opioid Treatment Program (OTP)/ Narcotic Treatment Program (NTP) substance use disorder(s) (SUD) services in NTP licensed facilities as determined to be medically necessary with an individualized treatment plan determined by a licensed physician or licensed prescriber and approved and authorized according to State of California requirements.

III. TARGET POPULATION

Substance Use disorder treatment services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Narcotic Treatment Program (NTP) Requirements

1. An NTP also described in the American Society of Addition Medicine (ASAM) Criteria as an Opioid Treatment Program (OTP), is an outpatient program that provides Food and Drug Administration (FDA) approved medications and biological products to treat SUDs when ordered by a physician as medically necessary.

2. NTPs shall comply with all federal and state NTP licensing requirements.

3. If the NTP cannot comply with all federal and state NTP requirements, as well as the requirements of this Agreement, including providing all clients seeking NTP services with an appointment within three (3) business days of a service request, then the NTP shall assist the beneficiary in choosing another Medication-Assisted Treatment (MAT) provider, ensure continuity of care, and facilitate a warm hand-off to ensure engagement.

4. NTP services are provided in DHCS-licensed NTP facilities pursuant to the Title 9, Chapter 4 of the California Code of Regulations and Title 42 of the Code of Federal Regulations (CFR).

5. **a.** NTPs are required to administer, dispense, or prescribe medications to beneficiaries covered under the DMC-ODS formulary including:

    i. Methadone

    ii. Buprenorphine (transmucosal and long-acting injectable)

    iii. Naltrexone (oral and long-acting injectable)

    iv. Disulfiram

    v. Naloxone

    b. If the NTP is unable to directly administer or dispense medically necessary medications covered under the DMC-ODS formulary, the NTP shall prescribe the medication for dispensing at a pharmacy or refer the beneficiary to a provider capable of dispensing the medication.

6. Contractor shall observe and comply with all lockout and non-reimbursable service rules, as outlined in the Drug Medi-Cal Billing Manual.

7. Contractor shall create a plan of care for each client. See Article 4, Section VII. of the Agreement.

8. **Episode Management** Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

9. **Drug Testing of Clients** at appropriate intervals, as determined by the treatment provider.

10. **Coordination with Other HHSA Programs**

    When applicable, Contractor shall coordinate with other HHSA programs as follows:

    a. If a CalWorks involved client:

    Provider will send their CalWorks case manager a monthly progress report that includes; clients progress towards their treatment plan goals, and clients progress towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

    b. If a Child Welfare involved client:

    i. Provider will send their Child Welfare case worker a monthly progress report that includes client's progress towards their treatment plan goals and towards finding gainful employment.

    ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

    iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

    Prior to a planned discharge, ensure client, provider staff, and Child Welfare case worker have discussed client's next steps in treatment and collaborate around a discharge plan, as appropriate.

B. NTP Service Components. Contractor shall provide an NTP program that contains all of the following service components:

1. Assessment

a. Contractor shall provide assessment activities to evaluate or monitor the status of a beneficiary's behavioral health and determine the appropriate level of care and course of treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic, and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

b. Assessment services may include one or more of the following components:

i. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

ii. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

iii. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

c. See also Article 3, Section II of the Agreement.

2. Care Coordination.

a. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

b. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

c. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

d. Care coordination services shall include one or more of the following components:

i. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

ii. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

iii. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

3. Counseling (individual, group, and family therapy).

a. The NTP shall offer the beneficiary 50 and 200 minutes of counseling per calendar month with a therapist or counselor, and, when medically necessary, additional counseling services may be provided.

b. Counseling services may be provided in-person, by telehealth, or by telephone.

c. Individual Counseling shall consist of direct contacts with a beneficiary. Individual counseling may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals.

d. Group Counseling shall consist of contacts with multiple beneficiaries at the same time. Group Counseling shall focus on the needs of the participants. Group counseling means contacts in which one or more therapists or counselors treat two or more beneficiaries at the same time with a maximum of 12 in the group, focusing on the needs of the individuals served.

4. Family Therapy.

Contractor shall provide Family Therapy. Family Therapy means a rehabilitative service that includes family members in the treatment process, providing education about factors that are important to the beneficiary's recovery as well as the holistic recovery of the family system. Family members can provide social support to the beneficiary and help motivate their loved one to remain in treatment. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of this service, but the service is for the direct benefit of the beneficiary.

5. Medical Psychotherapy

Contractor shall provide Medical psychotherapy. Medical psychotherapy means a counseling service to treat SUDs other than Opioid Use Disorder (OUD)conducted by the medical director of a Narcotic Treatment Program on a one-to-one basis with the beneficiary.

6. Medication Services

Contractor shall provide Medication Services. Medication Services means the prescription or administration of medication related to substance use disorder services, or the assessment of the side effects or results of the medication. Medication Services does not include MAT for OUD or MAT for Alcohol Use Disorders (AUD) and other Non-Opioid Substance Use Disorders. Medication Services includes prescribing, administering, and monitoring medications used in the treatment or management of SUD and/or withdrawal management not included in the definitions of MAT for OUD or MAT for AUD services.

7. Medicated Assisted Treatment (MAT) for (OUD)

a. Contractor shall provide Medications for Addiction Treatment (also known as medication assisted treatment (MAT) for OUD. MAT for OUD includes all medications approved under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and all biological products licensed under section 351 of the Public Health Service Act [42 U.S.C. 262) to treat opioid use disorders.

b. Naltrexone Treatment Services. Contractor shall confirm and document that the beneficiary meets all of the following conditions prior to administering naltrexone treatment services.

i. Has a documented history of opiate addiction.

ii. Is at least 18 years of age.

iii. Has been opiate free for a period of time to be determined by a physician based on the physician's clinical judgment. The provider shall administer a body specimen test to confirm the opiate free status of the beneficiary.

iv. Is not pregnant and is discharged from the treatment if she becomes pregnant.

c. The physician shall certify the beneficiary's fitness for treatment based upon the beneficiary's physical examination, medical history, and laboratory results.

d. The physician shall advise the beneficiary of the overdose risk should the beneficiary return to opiate use while taking Naltrexone and the ineffectiveness of opiate pain relievers while on Naltrexone.

8. MAT for Alcohol Use Disorder (AUD) and other non-opioid Substance Use Disorders

Contractor shall provide Medications for Addiction Treatment (also known as medication assisted treatment (MAT)) for AUD and Non-Opioid Substance Use Disorders. MAT for AUD and Non-Opioid Substance Use Disorders includes all FDA-approved drugs and services to treat AUD and other non-opioid SUDs involving FDA-approved medications to treat AUD and non-opioid SUDs.

9. Patient Education

Contractor shall provide Patient Education. Patient Education means education for the beneficiary on addiction, treatment, recovery and associated health risks.

10. Recovery Services

Contractor shall provide Recovery Services. Recovery Services means a DMC-ODS service designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level. Recovery Services emphasize the beneficiary's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to beneficiaries.

11. SUD Crisis Intervention Services

Contractor shall provide Substance Use Disorder Crisis Intervention services. Substance Use Disorder Crisis Intervention Services means contacts with a beneficiary in crisis. A crisis means an actual relapse or an unforeseen event or circumstance which presents to the beneficiary an imminent threat of relapse. SUD Crisis Intervention Services shall focus on alleviating the crisis problem, be limited to the stabilization of the beneficiary's immediate

situation, and be provided in the least intensive level of care that is medically necessary to treat their condition.

12. Medical Evaluation for Methadone Treatment

Contractor shall provide an in-person Medical Evaluation for Methadone Treatment to include:

a. Medical history

b. Laboratory tests

c. Physical exam

d. Medical evaluation shall be conducted in-person

13. Perinatal DMC Services:

a. Contractor shall provide Perinatal DMC Service. Perinatal DMC Services means covered services as well as parent/child habilitative and rehabilitative services; services access (i.e., provision or arrangement of transportation to and from medically necessary treatment); education to reduce harmful effects of alcohol and drugs on the parent and fetus or infant; and coordination of ancillary services (Cal. Code Regs., tit. 22, § 51341.1(c)(4)).

b. Perinatal services shall address treatment and recovery issues specific to pregnant and postpartum women, such as relationships, sexual and physical abuse, and development of parenting skills.

c. Perinatal services shall include:

i. Mother/child habilitative and rehabilitative services (i.e., development of parenting skills, training in child development, which may include the provision of cooperative child care pursuant to Health and Safety Code Section 1596.792).

ii. Service access (i.e., provision of or arrangement for transportation to and from medically necessary treatment).

iii. Education to reduce harmful effects of alcohol and drugs on the mother and fetus or the mother and infant.

iv. Coordination of ancillary services (i.e., assistance in accessing and completing dental services, social services, community services, educational/vocational training and other services which are medically necessary to prevent risk to fetus or infant).

d. Postpartum as defined for DMC purposes, means the 60-day period beginning on the last day of pregnancy, regardless of whether other conditions of eligibility are met. Eligibility for perinatal services shall end on the last day of the calendar month in which the 60th day occurs.

e. Contractor shall maintain medical documentation that substantiates the beneficiary's pregnancy and the last day of pregnancy in the beneficiary record.

f. Contractor shall comply with the perinatal program requirements as outlined in the DHCS-Perinatal Practice Guidelines. (see Attachment 1). Contractor shall comply with the current version of these guidelines until new perinatal practice guidelines are established and adopted. The incorporation of any new perinatal practice guidelines into this Agreement shall not require a formal amendment.

14. Discharge Services Contractor shall provide Discharge Services. Discharge Services are the processes to prepare the beneficiary for referral into another level of care, post treatment return or reentry into the community, and/or the linkage of the individual to essential community treatment, housing and human services.

At the time of discharge, Contractor shall complete an ASAM and refer to the appropriate outpatient or inpatient service based on the client's LOC needs. When possible, discharge will include treatment at a lower LOC or intensity appropriate to client's needs and provision of additional referrals to community resources for client to utilize after discharge.

See also Article 4, Section IX of the Agreement.

EXHIBIT A.7- RECOVERY ENVIRONMENT – RECOVERY SERVICES (ASAM DIMENSION 6)

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide Recovery Residences (RR) services to beneficiaries who require housing assistance in order to support their health, wellness, and recovery with an anticipated unit of service (UOS) of 1,112 per fiscal year. Recovery services are designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level with emphasis on the beneficiary as the central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Recovery Services Treatment Program Requirements

Recovery Services are designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level. Recovery Services emphasize the beneficiary's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to beneficiaries.

1. Beneficiaries may receive Recovery Services based on self-assessment or provider assessment of relapse risk.
2. Beneficiaries do not need to be diagnosed as being in remission to access Recovery Services.
3. Beneficiaries may receive Recovery Services while receiving MAT services, including NTP services.
4. Beneficiaries may receive Recovery Services immediately after incarceration with a prior diagnosis of SUD

5. Services may be provided in person, by telehealth, or by telephone.
6. Services shall be claimed in 15-minute increments at a rate of: $34-$35 unit of service (UOS) based on current rates set by the State and subject to change with CalAIM payment reform.
7. Effective January 1, 2022, services delivered by peers can no longer be claimed as a component of Recovery Services.
8. Recovery Services can be delivered and claimed as a standalone service, concurrently with the other levels of care described in this "Covered DMC-ODS Services" , or as a service delivered as part of the following levels of care:
    i. Assessment
    ii. Care Coordination
    iii. Counseling (individual and group)
    iv. Family Therapy
    v. Recovery Monitoring
    vi. Relapse Prevention
10. **Problem List. See Article 4, Section V. of the Agreement.**
11. **Episode Management** Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.
12. **Drug testing** of clients at appropriate intervals, as determined by the treatment provider.
13. **Coordination with Other HHSA Programs**
    a. If a CalWorks involved client:

    Provider will send their CalWorks case manager a monthly progress report that includes client's progress towards their treatment plan goals and towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

    b. If a Child Welfare involved client:
        i. Provider will send their Child Welfare case worker a monthly progress report that includes client's progress towards their treatment plan goals and towards finding gainful employment. .
        ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.
        iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

B. Recovery Services Program Components

Contractor shall provide a Recovery Services Treatment program that contains all of the following service components: Assessment, Care Coordination, Counseling (individual and group), Family Therapy, Recovery Monitoring, and Relapse Prevention as follows:

1. **Assessment.**-Contractor shall provide assessment activities to evaluate or monitor the status of a beneficiary's behavioral health and determine the appropriate level of care and course of

treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

a. Assessment services may include one or more of the following components:

i. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

ii. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

iii. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

2. Care Coordination

a. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

b. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

c. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

d. Care coordination services shall include one or more of the following components:

i. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

ii. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

iii. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

3. Individual Counseling. Contractor shall provide Individual Counseling. Individual Counseling consists of contacts with a beneficiary. Individual counseling can include contact

with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals.

4. **Group Counseling.** Contractor shall provide Group Counseling Services. Group Counseling consists of contacts with multiple beneficiaries at the same time. Group Counseling shall focus on the needs of the participants. Group counseling shall be provided to a group that includes 2-12 individuals

5. **Family Therapy.** Contractor shall provide Family Therapy Services. Family therapy is a rehabilitative service that includes family members in the treatment process, providing education about factors that are important to the beneficiary's recovery as well as the holistic recovery of the family system. Family members can provide social support to the beneficiary and help motivate their loved one to remain in treatment. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of this service, but the service is for the direct benefit of the beneficiary.

6. **Recovery Monitoring.** Contractor shall provide recovery monitoring services, which includes recovery coaching and monitoring designed for the maximum reduction of the beneficiary' s SUD.

7. **Relapse Prevention.** Contractor shall provide recovery monitoring services, which includes interventions designed to teach beneficiaries with SUD how to anticipate and cope with the potential for relapse for the maximum reduction of the beneficiary's SUD.

8. **Peer Support.** If Contractor chooses to include Peer Support as part of their Recovery Services, information regarding the Peer Support plan can be found here:

   http://www.dhcs.ca.gov/formsandpubs/Documents/SUD_Peer_Support_Plan_Guide.pdf

9. **Ancillary Services.** Contractor shall provide linkages to housing assistance, transportation, case management, and individual services coordination.

10. **Education and Job Skills-.**Contractor shall provide linkages to life skills, employment services, job training, and education services.

11. **Coordination with Other HHSA Programs**

When applicable, Contractor shall coordinate with other HHSA programs as follows:

b. If a CalWorks involved client:

Provider will send their CalWorks case manager a monthly progress report that includes client's progress towards their treatment plan goals and towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

b. If a Child Welfare involved client:

ii. Provider will send their Child Welfare case worker a monthly progress report that includes client's progress towards their treatment plan goals and towards finding gainful employment.

iii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

iv. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

iv. Prior to a planned discharge, ensure client, provider staff, and Child Welfare case worker have discussed client's next steps in treatment and collaborate around a discharge plan, as appropriate.

EXHIBIT A.8 CARE COORDINATION SERVICES

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide Care Coordination Services support services to beneficiaries as they move through the DMC-ODS continuum of care from initial engagement and early intervention, through treatment to recovery supports.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients. While these services can be provided to any of the above populations/programs, a client must have active Yolo County Medi-Cal to receive this service. This service cannot get billed to any funding source other than Medi-Cal.

IV. SERVICES

A. Care Coordination

1. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

2. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, the Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

3. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

4. Care coordination services shall include one or more of the following components:

a. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

b. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

c. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

EXHIBIT A.9 CLINICIAN CONSULTATION SERVICES

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide Clinician consultation services include DMC provider Clinician consulting with addiction medicine physicians, addiction psychiatrists, or clinical pharmacists. Clinician Consultation Services are designed to assist DMC provider physicians with seeking expert advice on designing treatment plans and supporting DMC providers with complex cases, which may address medication selection, dosing, side effect management, adherence, drug-to-drug interactions, or level of care considerations.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients. While these services can be provided to any of the above populations/programs, a client must have active Yolo County Medi-Cal to receive this service. This service cannot get billed to any funding source other than Medi-Cal.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Clinician Consultation Program Requirements

1. Clinician consultation services shall consist of LPHAs, such as addiction medicine physicians, licensed clinicians, addiction, psychiatrists, or clinical pharmacists to support the provision of care.

2. Clinician consultation is not a direct service provided to beneficiaries. Clinician Consultation is designed to support DMC-ODS licensed clinicians with complex cases and may address medication selection, dosing, side effect management, adherence, drug-drug interactions, or level of care considerations. It includes consultations between clinicians designed to assist DMC clinicians with seeking expert advice on treatment needs for specific DMC-ODS

beneficiaries.

3. Contractor may contract with one or more physicians, clinicians, or pharmacists specializing in addiction in order to provide consultation services. These consultations can occur in person, my telehealth, by telephone, or by asynchronous telecommunication systems.

4. Services shall be claimed in 15- minute increments at a rate of: $47-62 unit of service (UOS)

EXHIBIT A.10

RECOVERY RESIDENCES/TRANSITIONAL LIVING SERVICES

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this Agreement shall be provided at the following location(s):

Entity Name
Service Address
Service Address

Service Hours:

Provider #
NPI#

II. PURPOSE

To provide Recovery Residences (RR) services to beneficiaries who require housing assistance in order to support their health, wellness, and recovery with an anticipated unit of service (UOS) of 1,112 per fiscal year. Recovery services are designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level with emphasis on the beneficiary as the central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management.

III. TARGET POPULATION

These services will be provided to any eligible Criminal Justice Involved (AB109) or CalWorks eligible Yolo County resident referred through an access point established by Yolo County, or referred by the Sheriff Department for direct placement.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Recovery Services Program Requirements:

1. Recovery Services designed to support recovery and prevent relapse with the objective of restoring the beneficiary to their best possible functional level.
2. Recovery Services emphasize the beneficiary's central role in managing their health, use effective self-management support strategies, and organize internal and community resources to provide ongoing self-management support to beneficiaries.
3. Services may be provided based on the beneficiary's self-assessment or provider assessment of relapse risk.
4. Diagnosis of "remission" is not required to receive Recovery Services

5. Services may be provided concurrently with Medication Assisted Treatment (MAT) services, including Narcotic Treatment Program (NTP) services.
6. Services may be provided immediately after incarceration with a prior diagnosis of SUD
7. Services may be provided in person, by telehealth, or by telephone.
8. Recovery Services can be delivered and claimed as a standalone service, concurrently with the other levels of care described in the State Contract as a "Covered DMC-ODS Services", or as a service delivered as part of these services:

    a. Assessment

    b. Care Coordination

    c. Counseling (individual and group)

    d. Family therapy

    e. Recovery monitoring, which includes recovery coaching and monitoring designed for maximum reduction of the beneficiary's SUD.

    f. Relapse Prevention, which includes interventions designed to teach beneficiaries with SUD how to anticipate and cope with the potential for relapse for the maximum reduction of the beneficiary's SUD.

    g. Effective January 1, 2022, services delivered by peers can no longer be claimed as a component of Recovery Services.

9. **Problem List. See Article 4, Section V. of the Agreement.**
10. **Episode Management** Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.
11. **Drug testing** of clients at appropriate intervals, as determined by the treatment provider.
12. **Coordination with Other HHSA Programs**

    a. If a CalWorks involved client:

    Provider will send their CalWorks case manager a monthly progress report that includes; clients progress towards their treatment plan goals, and clients progress towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

    b. If a Child Welfare involved client:

        i. Provider will send their Child Welfare case worker a monthly progress report that includes; clients progress towards their treatment plan goals, and clients progress towards finding gainful employment.

        ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

B. Recovery Services Program Components. Contractor shall provide Recovery Services Program that contains all of the following service components: assessment, care coordination, counseling (individual, group), family therapy, recovery monitoring (including recovery coaching and monitoring designed for the maximum reduction of the beneficiary's Substance Use Disorder (SUD). These services are provided as follows:

1. DMC-ODS Provider Point of Entry/Initial Screening

a. Contractor shall function as a DMC-ODS Provider Point of Entry staffed by certified/registered AOD counselors and/or Licensed Practitioner of the Healing Arts (LPHAs).

b. Contractor shall conduct an ASAM Criteria screening and ensure such screening obtains relevant information to identify initial treatment needs to link beneficiaries to the most appropriate Level of Care (LOC).

c. Upon first contact, Contractor shall inform beneficiaries of the benefits to which they are entitled. If the beneficiary appears in person, Contractor shall provide beneficiaries with a same-day screenings, ASAM Criteria, and referral, if available.

d. The beneficiary may choose to receive DMC-ODS services from Contractor or choose to be referred to another appropriate DMC-ODS provider offering the initial LOC determined by the ASAM screening.

e. In all cases, Contractor shall consider geographic location, language needs and individual preference when making placement and referrals within the parameters of the ASAM screening results.

f. In the event the beneficiary's ASAM screening determines the need for a LOC not offered by Contractor, Contractor shall provide:

i. The beneficiary a warm hand-off to the appropriate DMC-ODS provider;

ii. The completed ASAM tool to the appropriate DMC-ODS provider.

iii. Notice to Yolo County HHSA at HHSA.SUDservices@yolocounty.org

2. Assessment. Contractor shall provide assessment activities to evaluate or monitor the status of a beneficiary's behavioral health and determine the appropriate level of care and course of treatment for that beneficiary. Assessments shall be conducted in accordance with applicable State and Federal laws, and regulations, and standards. Assessment may be initial and periodic and may include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary.

a. Assessment services may include one or more of the following components:

i. Collection of information for assessment used in the evaluation and analysis of the cause or nature of the substance use disorder.

ii. Diagnosis of substance use disorders utilizing the current DSM and assessment of treatment needs for medically necessary treatment services. This may include a physical examination necessary for treatment and evaluation.

iii. Treatment planning, a service activity that consists of development and updates to documentation needed to plan and address the beneficiary's needs, planned interventions and to address and monitor a beneficiary's progress and restoration of a beneficiary to their best possible functional level.

b. Care Coordination

1. Contractor shall provide care coordination. Care coordination consists of activities to provide coordination of SUD care, mental health care, and medical care, and to support the beneficiary with linkages to services and supports designed to restore the beneficiary to their best possible functional level. Care Coordination can be provided in clinical or non-clinical settings and can be provided in person, by telehealth, or by telephone.

2. Care coordination shall be provided to a beneficiary in conjunction with all levels of treatment. Care coordination may also be delivered and claimed as a standalone service. Through executed memoranda of understanding, Contractor shall implement care coordination services with other SUD, physical, and/or mental health services in order to ensure a beneficiary-centered and whole-person approach to wellness.

3. Care coordination services shall be provided by an LPHA or a registered/certified counselor.

4. Care coordination services shall include one or more of the following components:

i. Coordinating with medical and mental health care providers to monitor and support comorbid health conditions.

ii. Discharge planning, including coordinating with SUD treatment providers to support transitions between levels of care and to recovery resources, referrals to mental health providers, and referrals to primary or specialty medical providers.

iii. Coordinating with ancillary services, including individualized connection, referral, and linkages to community-based services and supports including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.

a. Individual Counseling. Contractor shall provide Individual Counseling. Individual Counseling consists of contacts with a beneficiary. Individual counseling can include contact with family members or other collaterals if the purpose of the collateral's participation is to focus on the treatment needs of the beneficiary by supporting the achievement of the beneficiary's treatment goals.

b. Group Counseling. Contractor shall provide Group Counseling Services. Group Counseling

consists of contacts with multiple beneficiaries at the same time. Group Counseling shall focus on the needs of the participants. Group counseling shall be provided to a group that includes 2-12 individuals.

c. Family Therapy. Contractor shall provide Family Therapy Services. Family therapy is a rehabilitative service that includes family members in the treatment process, providing education about factors that are important to the beneficiary's recovery as well as the holistic recovery of the family system. Family members can provide social support to the beneficiary and help motivate their loved one to remain in treatment. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of this service, but the service is for the direct benefit of the beneficiary.

d. Recovery Monitoring. Contractor shall provide Recovery Monitoring Recovery Monitoring consists of coaching and monitoring designed for the maximum reduction of the beneficiary's SUD. Services may be provided in person, by telehealth, or by telephone.

e. Relapse Prevention. Contractor shall provide Relapse Prevention services. Relapse Prevention is a behavioral self-control program that teaches individuals with substance addiction how to anticipate and cope with the potential for relapse. These services include interventions designed to teach beneficiaries with SUD how to anticipate and cope with the potential for relapse for the maximum reduction of the beneficiary. Services may be used as a stand-alone substance use treatment program or as an aftercare program to sustain gains achieved during initial substance use disorder treatment.

.

EXHIBIT A.11 IN-PERSON ACCESS, SCREENING, AND REFERRAL SERVICES

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this agreement shall be provided at the following location(s):

Entity Name
Address
Address

Provider # -
NPI# -

II. PURPOSE

To provide in-person screening and referral to substance use treatment providers as appropriate based on the HHSA assigned ASAM brief screening, and approved mental health brief screening tool.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109); Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. In-person Screening and Referral Program Requirements

1. Contractor shall have personnel available Monday through Friday 8am-5pm in the three (3) major cities throughout Yolo County; Woodland, West Sacramento, and Davis.

2. Services shall include, but may not be limited to:

a. Screening clients using the HHSA assigned ASAM tool and approved mental health brief screening tool

b. Triaging clients for risk of suicidality, homelessness, emergency physical health concerns, and need for detoxification/withdrawal management services

c. Verifying clients have active Yolo County Medi-Cal, and identify client referral source

d. Referring clients to appropriate level of care and service provider, and notify provider of the referral

e. Documenting all services provided to clients including, but not limited to; ASAM screening tool results, mental health brief screening tool results, referred/recommended level of care and provider, barriers to referred/recommended level of care and/or provider

through the access log in the County Electronic Health Record (Avatar) or other means as agreed upon by HHSA and contractor

f. If clients are referred to a *residential* substance use provider, Contractor must complete the 72-hour *Initial Residential Authorization Form* and submit form to referred provider and HHSA Quality Management staff through the County Electronic Health Record, via secured email, or via fax.

g. Staff providing this screening and referral do not need to be registered, certified, or licensed.

h. Staff providing the service must have initial and ongoing training as required to adequately perform the screening and referral duties, including but not limited to:

i. Training on the identified ASAM brief screening tool

ii. Training on how to handle situations in which the ASAM brief screening results conflict with beneficiary's ability or desire to participate in the determined level of care

iii. Training on provider network and how to appropriate referral to a provider based on the screening

iv. Collection and documentation of appropriate information obtained at time of screening and referral

EXHIBIT A.12 EARLY INTERVENTION

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this agreement shall be provided at the following location(s):

Entity Name
Address
Address

Provider # -
NPI# -

II. PURPOSE

To provide Early Intervention Services to beneficiaries under the age of 21 who are screened and determined to be at risk of developing an SUD.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the following medically necessary covered SUD services, as defined in the Drug Medi-Cal Billing Manual available in the DHCS County Claims Customer Services Library page at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, or subsequent updates to this billing manual, to clients who meet access criteria for receiving SUD services.

A. Early Intervention Program Requirements

1. A SUD diagnosis is not required for early intervention services. This does not eliminate the requirement that all Medi-Cal claims, including DMC-ODS claims, include a CMS approved ICD-10 diagnosis code. In cases where services are provided due to a suspected SUD that has not yet been diagnosed or due to trauma, options are available in the CMS approved ICD-10-CM code list.

2. Early intervention services shall be provided under the outpatient treatment modality and shall be available as needed based on individual clinical need, even if the beneficiary under age 21 is not participating in the full array of outpatient treatment services.

3. A full assessment utilizing the ASAM criteria is not required for a DMC beneficiary under the age of 21 to receive early intervention services; an abbreviated ASAM screening tool may be used. If the beneficiary under 21 meets diagnostic criteria for SUD, a full ASAM assessment shall be performed and the beneficiary shall receive a referral to the appropriate level of care indicated by the assessment.

4. Early intervention services may be delivered in a wide variety of settings, and can be provided in person, by telehealth, or by telephone.

5. Coordination with Screening, Brief Intervention, Referral to Treatment Alcohol and Drug Screening, Assessment, Brief Intervention and Referral to Treatment (SABIRT), commonly known as Brief Intervention, and Referral and Treatment (SBIRT) is not a Drug Medi-Cal Organized Delivery System (DMC-ODS) benefit. This is a benefit in the managed care delivery system for beneficiaries aged 11 years and older. Coordination with SABIRT delivered through Fee-For- Services/Managed Care Plans is required.

6. **Problem List. See Article 4, Section V. of the Agreement.**

7. **Episode Management** Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

8. **Drug testing** of clients at appropriate intervals, as determined by the treatment provider.

9. **Coordination with Other HHSA Programs**

   a. **If a CalWorks involved client:**

      Provider will send their CalWorks case manager a monthly progress report that includes; clients progress towards their treatment plan goals, and clients progress towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

   b. **If a Child Welfare involved client:**

      i. Provider will send their Child Welfare case worker a monthly progress report that includes; clients progress towards their treatment plan goals, and clients progress towards finding gainful employment.

      ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

      iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

EXHIBIT A.13 In-Custody

Contractor shall provide services in accordance with the following provisions.

I. SERVICE LOCATIONS

Services rendered pursuant to this agreement shall be provided at the following location(s):

Entity Name
Address
Address

Provider # -
NPI# -

II. PURPOSE

To provide in-custody Substance Abuse Treatment Services for individuals in the legal system with a capacity to serve up to 10 participants per gender and a length of service of 8 to 12 weeks long, offering additional support past completion to support a positive and successful re-entry into the community.

III. TARGET POPULATION

These services will be provided to any eligible Yolo County resident referred through an access point established by Yolo County and will include, but not be limited to the following populations/programs: CalWORKS; Child Welfare Services; Perinatal; Criminal Justice Involved (AB109), including PC1000; Indigent; and Co-Occurring severely mentally ill and substance using clients.

IV. SERVICES

Contractor shall provide the services:

A. In-Custody Treatment Program Requirements

1. Contractor shall provide In-Custody Substance Use Disorder (SUD) services to adult detainees who are incarcerated in the Yolo County jail and clients identified through an internal and/or external sources, such as:

a. Yolo County Sherriff's Treatment coordinator

b. Yolo County Probation Department

c. Medication Assisted Treatment participants

d. Yolo County District Attorney (DA)

e. Yolo County Public Defender's Office

f. Yolo County Health and Human Services Agency (HHSA)

2. Clients identified through internal and/or external sources shall meet the following criteria and must be willing to participate in an individual screening.

a. Conduct screening using the American Society of Addiction Medicine (ASAM)

b. Evaluate motivation (Stages of Change) and willingness to participate

c. Evaluate ability to participate (i.e. in custody for the next 8-10 weeks)

d. Screen for depression using PHQ-9

e. Screen for anxiety

f. Screen for co-occurring disorders

g. Complete all agreements, Release of Information (ROI), consents, etc.

h. Evaluation of safety risk

3. **Problem List. See Article 4, Section V. of the Agreement.**

4. **Episode Management** Providers are responsible for their own episode management in AVATAR. This includes opening and closing client episodes.

5. **Drug testing** of clients at appropriate intervals, as determined by the treatment provider.

6. **Coordination with Other HHSA Programs**

a. If a CalWorks involved client:

Provider will send their CalWorks case manager a monthly progress report that includes client's progress towards their treatment plan goals and towards finding gainful employment. Also, please notify their CalWorks case manager of positive urine screens and if a client exits the program.

b. If a Child Welfare involved client:

i. Provider will send their Child Welfare case worker a monthly progress report that includes client's progress towards their treatment plan goals and towards finding gainful employment.

ii. Notify their Child Welfare case worker within (1) working day if client has positive urine screens or if a client exits the program.

iii. Coordinate significant changes in a client's substance use services with their Child Welfare case worker.

B. In Custody Service Components

Contractor shall provide an In Custody treatment program that contains all of the following Service components :

1. **Assessments**. Contractor shall provide Assessments to participants and determined eligible by referring party and Contactor staff using the Program Requirements (listed above). Staff shall assess need, motivation to change, and evaluation of risk using the ASAM dimensions.

2. **Group Therapy.** Contractor shall provide Group Therapy as follows:

a. Face-to-face- shall be one or more counselors or staff to treat two or more clients at the same time with a maximum of 10 in the group, focusing on the needs of the individuals served.

b. Male identified Group: 2 hours each, 2 days per week – 4 hours per week up to 10 individuals

c. Female identified Groups: 2 hours each, 2 days per week - 4 hours per week up to 10 individuals

3. **Individual Counseling Individual.** Contractor shall provide counseling that would be gender-specific and trauma-informed. Services provided in person shall be provided with gender-specific curricula designed for incarcerated individuals as well as Trauma-informed interventions

4. **Care Coordination and Peer Support for re-entry. Care Coordination services shall** assist participants to access needed medical, educational, social, and rehabilitative services. Utilize personal and professional life experience to provide peer support and care coordination to re-entry participants. These services may also assist with interaction with the criminal justice system if needed and additional support after completion for re-entry planning and continued encouragement.

EXHIBIT B-1. TERMS OF PAYMENT

I. FEES AND THIRD PARTY PAYMENTS

A. If applicable, Contractor shall determine if a client (whether a Drug Medi-Cal client or Non-Drug Medi-Cal client) has any funding sources other than County funds, including private insurance or sufficient income to fund services. Contractor shall only bill County for client services after all other funding sources for a client have been exhausted. Contractor shall use due diligence in determining and collecting client and third-party payments.

1. Non-Drug Medi-Cal Clients- shall be assessed and pay a fee to Provider in an amount determined pursuant to this Agreement based on ability to pay. Fees collected shall be allocated to the appropriate program based on Client eligibility and shall be reflected on the Cost Reimbursement Claim Form. Providers should establish and maintain fee schedules on file and submit to County upon request.

2. Drug Medi-Cal Clients- Pursuant to Title 42 of the Code of Federal Regulations section 438.108, any sharing of cost imposed on Drug Medi-Cal Clients shall be in accordance with Title 42 of the Code of Federal Regulations sections 447.50 through 447.60.

3. Provider shall seek collection of fees or third-party payment from other sources to the maximum extent practicable.

B. Provider shall maintain accurate and detailed records of fees charged and fees collected in the fiscal and clinical records as specified in Article 5.

C. Any fees collected shall be deducted from the drug treatment program's cost of providing services under this Agreement. For residential and withdrawal management treatment, fees collected must only be applied to room and board costs.

D. Fees shall only be collected for services rendered.

E. Excess fees collected in a fiscal year are those fees collected which exceed the contracted budget for that fiscal year as specified in Article 2, Section III.

1. Excess fees may be expended for additional services of the kind described in Exhibit A, subject to written approval by Director or his/her designee. If Contractor does not desire to provide additional services, is unable to do so, or such proposed additional services are not approved by Director, such excess funds may be used to offset any existing allowable cost. Any remaining excess funds shall be immediately paid to County.

II. AVAILABLE FUNDING

County shall utilize appropriate funds to pay Contractor for any approved claims. Drug Medi-Cal eligible services are eligible for Federal Financial Participation (FFP) by the DMC-ODS program. The Federal SABG funds will not be utilized to pay for any Drug Medi-Cal eligible services.

III. TRACKING UNITS OF SERVICE AND CLAIMING

A. Contractor shall establish an internal tracking system that will accurately track and maintain units of service.

B. 1. If the Contractor has access to AVATAR, Contractor shall also enter claims data in AVATAR, in the format specified by the County and within the timeframes established by County.

2. If the Contractor does not have access to AVATAR, shall submit claims data with invoices in the format specified by the County to HHSA-BHClaims@yolocounty.org.

C. Contractor shall use Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) codes, as provided in the then current DHCS Billing Manual for the available at https://www.dhcs.ca.gov/services/MH/Pages/MedCCC-Library.aspx, which may be amended from time to time. The use of the codes is subject to change in accordance with changes in federal, state or County guidelines.

D. Contractor shall maximize the FFP reimbursement by claiming all possible Drug Medi-Cal services and correcting denied services for resubmission as needed.

IV. INVOICING

A. Contractor shall submit monthly invoices for payment to County no later than **fifteen (15)** days after the completion of the month in which services have been rendered. Invoices for claims that must first be billed to a third party, e.g. Medicare, insurance, etc., must be submitted no later than **65 days** after services have been rendered. Any invoice for claims that is submitted and rejected due to lack of necessary information must be resubmitted immediately upon rejection.

B. County reserves the right to deny any late claim. Any late claims submitted to County must be submitted separately from the regular monthly claim, grouped by month of service, and supported with evidence of good cause.

C. Invoices for payment may be submitted to County in an electronic format to HHSA-BHClaims@yolocounty.org. All invoices shall be submitted with any required supporting documentation accompanying the invoice. If an invoice or any of the supporting documents contains confidential client information, the invoice and supporting documentation must be encrypted for transmission.

~~Late claims submitted with a written request within a reasonable timeframe before the one-year regulation cut off, if it is due to circumstances beyond the control of the Contractor and with evidence of good causes acceptable for federal/state reimbursement, may be approved by the Director for claim submission.~~

~~**1. Non-Drug Medi-Cal Claims**~~

~~If Non-Drug Medi-Cal applies, Contractor shall submit monthly invoices no later than 45 days after completion of the month in which services have been rendered. Claims that must first be billed to a third party, e.g. Medicare, insurance, etc., must be submitted no later than 65 days after completion of the month in which services have been rendered. Any claim that is submitted and rejected due to lack of necessary information must be resubmitted within 20 days of the date of the initial rejection.~~

~~For Non-Drug Medi-Cal, late claims submitted with a written request within a reasonable timeframe, if it is due to circumstances beyond the control of the Contractor, may be approved by the Director for claim submission~~

D. Invoices shall be complete and accurate and must include all required information regarding the claimed services, including:

1. The invoice must be accompanied with the following required supporting documentation.

   a. Yolo County Claim Form
   b. AVATAR Client Template Report (if Contractor has access to AVATAR)

c. AVATAR Client Daily Charges Report (if Contractor has access to AVATAR)
d. AVATAR Client Template Form (if Contractor does not have access to AVATAR)
e. Medi-Cal Swipes (determine if client is a Yolo County beneficiary)
f. If applicable, Explanation of Benefits (EOB) (determine if client has MediCare or other health coverage

2. Upon request by County, Contractor shall also provide additional supporting documentation which may include, but is not necessarily limited to:
a. written authorization for services,
b. daily transactions certified by the individual service providers,
c. progress notes,
d. time sheets,
e. labor distribution,
f. general-ledger printouts.

E. All supporting documentation created by Contractor must be retained for audit purposes, as specified in Article 5 and Article 6, even if not requested by County during the claiming/invoicing process.

V. PAYMENTS

A. Monthly payments for invoiced services shall be based on the units of time assigned to each CPT or HCPCS code entered in AVATAR multiplied by the service rates in Exhibit B-2.

B. 1. County shall make payments to Contractor for services claimed and invoiced by Contractor prior to submitting a claim for FFP reimbursement.

2. In the event any FFP claim is denied/rejected by the Federal and/or State government, Contractor shall take all actions necessary to obtain such approval.

3. If any denied claim by Federal and/or State government is not finally approved for payment reimbursement, Contractor's next payment from County shall be reduced by the amount of FFP denied/rejected claims.

4. Contractor disallowances are the Contractor's fiscal and programmatic responsibility, per Section VII., below.

C. County's payments to Contractor for performance of invoiced services are provisional and subject to adjustment until the completion of all settlement activities. County's adjustments to provisional payments for claimed services shall be based on the terms, conditions, and limitations of this Agreement or the reasons for recoupment set forth in Article 7 and this Exhibit B-1, Section VII.

VI. NONCOMPLIANCE

A. Drug Medi-Cal services may only be provided by Contractor at specific sites as approved by County and DHCS. Contractor shall ensure that claiming for each Contractor site has been approved by County and DHCS prior to Drug Medi-Cal service delivery. In no event shall County pay Contractor for Drug Medi-Cal services that were not approved by County and DHCS for a specific site.

B. In the event that the Contractor fails to comply with any provision of this Agreement, County may withhold payment otherwise due to Contractor pursuant to this Agreement or any other agreement between Contractor and County until such noncompliance has been corrected**.**

VII. REPAYMENT/RECOUPMENT

A. County will demand repayment from Contractor for compensation made to the Contractor, if any goods and/or services related to such compensation are subsequently determined disallowable, regardless of reason, including denials for FFP reimbursement to County due to Contractor's failure to submit timely claims and invoices.

B. Any such disallowance related to the current term of this Agreement will be due and payable immediately to County. County will recoup from Contractor by offsetting any payment otherwise due Contractor pursuant to this Agreement or any other agreement between Contractor and County.

C. Any such disallowance related to the prior terms of this Agreement or any other agreement between Contractor and County will be due and payable within forty-five (45) days of mailing a demand letter from County to Contractor. Thereafter, unless otherwise negotiated with and approved by the Director, County will recoup from Contractor the amount due, by offsetting any payment otherwise due Contractor pursuant to this Agreement or any other agreement between Contractor and County.

D. In the event that the aggregated payment otherwise due Contractor pursuant to this Agreement or any other agreement between Contractor and County is less than the amount due, and when all payments otherwise due Contractor have been exhausted, Contractor shall make payment to County for any balance due based on a payment plan negotiated with and approved by the Director.

VIII. RESTRICTIONS OF THE USE OF FUNDS

A. Contractor agrees that information produced through these funds, and which pertains to drugs and alcohol - related programs, shall contain a clearly written statement that there shall be no unlawful use of drugs or alcohol associated with the program. Additionally, no aspect of a drug or alcohol - related program shall include any message on the responsible use, if the use is unlawful, of drugs or alcohol [See California Health and Safety Code sections 11999 through 11999.3]. By signing this Agreement, Contractor agrees that it will enforce, and will require its Subcontractors to enforce, these requirements.

B. No Substance Abuse Prevention and Treatment (SABG) Block Grant funds made available through this Agreement shall be used to carry out any program that includes the distribution of sterile needles or syringes for the hypodermic injection of any illegal drug unless the State chooses to implement a demonstration syringe services program for injecting drug users.

C. County reserves the right to monitor to ensure that funds are not used to supplant funds from any existing fund source or mechanism currently used to provide drug treatment services in County. No funds made available through this Agreement shall be used to carry out any program of distributing sterile needles or syringes for the hypodermic injection of any illegal drug.

D. No state or federal funds shall be used by Contractor for sectarian worship, instruction, or proselytization. No state funds shall be used to provide direct, immediate, or substantial support to any religious activity.

E. Contractor shall use the funds provided by County exclusively for the purposes of performing the services required by this Agreement. No funds provided by County pursuant to this Agreement shall be used for any political activity or political contribution.

IX. ADDITIONAL PROVISIONS

A. Contractor shall hold harmless the federal and/or state governments and clients in the event that County does not pay for services in accordance with this Agreement.

B. See also Article 12.

[End Exhibit B-1]

EXHIBIT B-2. FINANCIAL INFORMATION AND SCHEDULES: PROVIDER RATE TABLE

EXHIBIT C. INSURANCE

I. INDEMNIFICATION

A. Contractor shall exercise all care and judgment consistent with good practices in the performance of the services required by this Agreement.

B. With the exception that this Section shall in no event be construed to require indemnification by Contractor to a greater extent than permitted under the laws or public policy of the State of California, Contractor shall indemnify, defend and hold harmless County of Yolo and its officers, agents, employees and volunteers from and against any and all claims, damages, demands, losses, defense costs, expenses (including attorneys' fees) and liability of any kind or nature arising out of or resulting from performance of the work, provided that any such claim, damage, demand, loss, cost, expense or liability is caused in whole or in part by any negligent or intentional act or omission of the contractor, any subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a party indemnified hereunder. Contractor and/or any subcontractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this Agreement for the full period of time allowed by law. The defense and indemnification obligations of this Agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this Agreement. In providing any defense under this Section, Contractor shall utilize counsel approved by the Office of the County Counsel in its reasonable discretion.

C. Any subcontractor must agree to be bound to County of Yolo in the same manner and to the same extent as Contractor is bound to County of Yolo under this Agreement. Any subcontractors must further agree to include the same requirements and provisions of this Agreement, including the indemnity and insurance requirements, with any sub-subcontractor to the extent they apply to the scope of the sub-subcontractor's work.

II. INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:
    - **a.** Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Contract, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.
    - **b.** Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.
    - **c.** Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.
    - **d.** Professional Liability (Errors and Omissions) (If applicable, see below)
2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:
    - **a.** Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. OTHER INSURANCE PROVISIONS

a. Additional Insured Status - County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. Primary Coverage - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. Notice of Cancellation – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to County.

d. Waiver of Subrogation – Contractor hereby grants to County a waiver of any right to subrogation which any insurer of said Contractors may acquire against County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of County of Yolo (if agreed to in a written contract or agreement) before County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three

years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance under this Agreement, and the County Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects County, its officers, agents, employees and volunteers. Any insurance maintained by County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Contract prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in the form or an endorsement to

the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

E. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

III. WORKERS' COMPENSATION

A. Contractor shall provide worker's compensation coverage as required by State law, and prior to commencing services pursuant to this Agreement shall file the following statement with County in a form substantially as set forth below.

WORKERS' COMPENSATION CERTIFICATE

I am aware of the provisions of the California Labor Code, Section 3700 that requires every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing any services required by this Agreement.

The person executing this certificate on behalf of Contractor affirmatively represents that she/he has the requisite legal authority to do so on behalf of Contractor; both the person executing this Agreement on behalf of Contractor and Contractor understand that County is relying on this representation in entering into this Agreement.

IV. LIABILITY INSURANCE FOR LICENSED RESIDENTIAL SUD RECOVERY OR TREATMENT FACILITIES

A. As required by AB 1158, which amends Health and Safety Code 11834.10, and as outlined in BHIN 22-023, licensed residential SUD recovery or treatment facilities shall have and maintain minimum liability insurance coverage to protect residents. In the event the County insurance requirements, as prescribed in Section II of this Exhibit, fall below these limits, Contractor shall at all times maintain at least the level of insurance as prescribed below, which cannot be waived by the County.

B. Licensed residential SUD recovery or treatment facilities that serve more than six residents, shall have and maintain, at all times all of the following insurance coverages:

1. Commercial general liability insurance that includes coverage for premises liability, products and completed operations, contractual liability, personal injury and advertising liability, abuse, molestation, sexual actions, and assault and battery, with minimum coverage amounts for bodily injury or property damage of not less than one million dollars ($1,000,000) per occurrence.

2. Commercial or business automobile liability insurance covering all owned vehicles, hired or leased vehicles, non-owned vehicles, and borrowed and permissive uses, with minimum coverage amounts for bodily injury or property damage of not less than one million dollars ($1,000,000) per occurrence.

3. Workers' compensation insurance, as required by law. Notwithstanding subdivision (b) of Section 3700 of the Labor Code, a certificate of self-insurance obtained pursuant to that subdivision does not satisfy this requirement.

4. Employer's liability insurance, with minimum coverage amounts for bodily injury or disease of not less than one hundred thousand dollars ($100,000) per occurrence.

5. Professional liability and errors and omissions insurance that includes an endorsement for contractual liability, with minimum coverage amounts of one million dollars ($1,000,000) per occurrence and two million dollars ($2,000,000) aggregate. If applicable, the contract shall include an endorsement for defense and indemnification of any government entity with which the licensee has contracted.

C. Licensed residential SUD recovery or treatment facilities that serve six or fewer residents, shall have and maintain, at all times, general liability insurance coverage.

D. Licensed residential SUD recovery or treatment facilities shall maintain records demonstrating compliance with Health and Safety Code, section 11834.10.

E. Contractor shall supply County adequate proof of insurance and/or a certificate of insurance evidencing coverages and limits prior to commencement of work. Should any of the required insurance policies in this Agreement be cancelled or non-renewed, it is the Contractor's duty to notify County immediately upon receipt of the notice of cancellation or non-renewal.

F. Failure to provide and maintain the insurance required by this Agreement will constitute a material breach of this Agreement. In addition to any other available remedies, County may suspend payment to the Contractor for any services provided during any time that insurance was not in effect and until such time as the Contractor provides adequate evidence that Contractor has obtained the required coverage.

EXHIBIT D. HIPAA BUSINESS ASSOCIATE &
QUALIFIED SERVICE ORGANIZATION AGREEMENT ADDENDUM

RECITALS

A. The purpose of this Business Associate Agreement Addendum ("this Addendum") to comply with the Health Insurance Portability and Accountability Act of 1996, Public Law 104-191 ("HIPAA"), the HIPAA Omnibus Rule, 45 CFR Parts 160 and 164, the Health Information Technology for Economic and Clinical Health Act, Public Law 111-005 ("the HITECH Act"), regulations promulgated thereunder by the U.S. Department of Health and Human Services (the "HIPAA Regulations") and other applicable privacy and security laws, including the Federal Confidentiality of Substance Abuse Disorder Patient Records laws and regulations, 42 USC §290dd-2 and 42 CFR Part 2.

B. Definitions. All terms and phrases used, but not otherwise defined in this Addendum, shall have the same meaning as those terms are defined in 45 CFR Parts 160 and 164 and 42 CFR Part 2.

(a) Business Associate. "Business Associate" shall mean the party with whom the County of Yolo ("the County") is contracting or Contractor, as referenced above. If applicable, Business Associate may also be a Qualified Service Organization (QSO) as defined by 42 CFR Part 2 §§2.11 and 2.12.

(b) Underlying Agreement. "Underlying Agreement" shall mean the Agreement between the County and the Business Associate, to which this Addendum is attached and incorporated.

(c) Covered Entity. "Covered Entity" shall mean the covered components of the County of Yolo hybrid entity which are subject to the standards for privacy and security of 45 CFR, Parts 160 and 164. If applicable, Covered Entity may also a be a "federally assisted Part 2 program" as defined by 42 CFR Part 2 §§2.11 and 2.12.

(d) Protected Health Information. "Protected Health Information" shall have the same meaning as defined in 45 CFR Parts 160 and 164.

(e) Patient Identifying Information. "Patient identifying information" shall have the same meaning as defined in 42 CFR Part 2 §2.11.

NOW, THEREFORE, in consideration of the foregoing and of the mutual covenants and agreements hereinafter addressed, the parties agree as follows:

1. Permitted Uses and Disclosures by Business Associate.

Pursuant to the Underlying Agreement Contractor will provide the services delineated in Exhibit A, Scope of Services of the Underlying Agreement as specifically requested by the County that may involve the use and disclosure of protected health information (PHI) or Electronic Protected Health Information (EPHI) related to the treatment and care of clients.

Except as otherwise specified herein, Contractor will be given access to the County's Electronic Health Record and Practice Management System (AVATAR). Such access will be granted to specific individuals by named user accounts/logons and user roles, upon completion of the County's AVATAR Practitioner ID enrollment process. Contractor agrees to abide by all County policies and procedures regarding AVATAR. Contractor may only access Avatar and make use of it in order to perform its obligations under the Underlying Agreement between the parties.

As otherwise limited in this Addendum and the Underlying Agreement, Business Associate may use or disclose PHI and EPHI to perform functions, activities, or services for, or on behalf of, Covered Entity as specified in the Underlying Agreement, provided that such use or disclosure would not violate the law if done by Covered Entity and the use or disclosure of PHI and EPHI is limited to the minimum amount necessary for Business Associate to perform its obligations pursuant to the Underling Agreement.

2. Obligations and Activities of Business Associate.

Business Associate shall:

(a) Not use or disclose PHI or EPHI, other than as permitted or required by this Addendum or as required by law.

(b) Use appropriate safeguards and comply with 45 CFR Part 164 with respect to EPHI, to prevent use or disclosure of PHI or EPHI other than as provided for by this Addendum and the Underlying Agreement.

(c) If a pattern of activity or practice of an agent, including a subcontractor, constitutes a material breach or violation of the requirements of this Addendum and/or the Underlying Agreement, cure the breach or end the violation, as applicable, and if such steps are unsuccessful, terminate the subcontract or other agreement.

(d) Report, as soon as reasonably practicable, and within twenty-four (24) hours for security incidents, as defined in 45 CFR §164.304, and within one (1) hour for breaches of unsecured PHI as defined by Section 164.402 of the HIPAA Regulations to:

(i) Alberto Lara, County's Interim Privacy Officer-Risk Manager/Safety Officer at alberto.lara@yolocounty.orgmailto:and

(ii) Lee Gerney, County's Information Security Officer-Chief Technology Officer at lee.gerney@yolocounty.org, and

(iii) Katherine Barrett, HHSA Behavioral Health Compliance Officer at HHSA.BHCompliance@yolocounty.org .

This report will include at least the following information:

(i) the nature of the non-permitted or violating use or disclosure or Security Incident; and

(ii) the PHI and EPHI used or disclosed.

This report does not relieve Business Associate of his/her/their continuing obligations under the underlying Agreement or any State or Federal reporting requirements.

(e) Ensure that any agent, including a subcontractor, to whom it provides PHI or EPHI received from, or created or received by Business Associate on behalf of Covered Entity, agrees to the same restrictions and conditions that apply through this Addendum and the Underlying Agreement to Business Associate with respect to such information.

(f) Provide access, at the request of Covered Entity, and in the time and manner designated by Covered Entity, to PHI and EPHI information in a designated record set, to Covered Entity or,

as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR §164.524.

(g) Make any amendment(s) to PHI and EPHI in a designated record set that the Covered Entity directs or agrees to make pursuant to 45 CFR §164.526 at the request of Covered Entity or an individual, and in the time and manner designated by Covered Entity.

(h) Make internal practices, books, and records, including policies and procedures and PHI and EPHI, relating to the use and disclosure of PHI and EPHI received from, or created or received by Business Associate on behalf of, Covered Entity available to the Covered Entity, or to the Secretary (i.e., the Secretary of Health and Human Services [HHS], or to any officer or employee of HHS to the authority involved has been delegated), in a time and manner designated by the Covered Entity or the Secretary, for purposes of the Secretary determining Covered Entity's compliance with the law.

(i) Document disclosures of PHI and EPHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures in accordance with 45 CFR §164.528.

(j) Provide to Covered Entity or an individual, in the time and manner designated by Covered Entity, information collected of disclosures of PHI and EPHI, to permit Covered Entity to respond to a request by an individual for an accounting of disclosures in accordance with 45 CFR §164.528.

(k) Implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of PHI and EPHI that it creates, receives, maintains, or transmits on behalf of the Covered Entity, as required by law. In addition, Business Associate shall ensure that any agent, including a subcontractor, to whom it provides PHI or EPHI agrees to implement reasonable and appropriate safeguards to protect it.

(1) Ensure that all employees of Business Associate that handle or access PHI or EPHI undergo annual training regarding the safeguarding of PHI and EPHI.

(m) To the extent Business Associate is to carry out one or more of Covered Entity's obligation(s) under Subpart E of Title 45, Code of Federal Regulations, Part 164, comply with the requirements of Subpart E that apply to Covered Entity in the performance of such obligations.

(n) Business Associate will ensure than any agent, including a subcontractor, to whom it provides PHI or EPHI agrees in a written contract to implement and use administrative, physical and technical safeguards that reasonably protect the integrity and availability of the electronic protected health information.

Business Associates must enter into the written contract before any use or disclosure of PHI or EPHI by such agent or subcontractor. The written contract must identity Yolo County as a direct and intended third party beneficiary, with the right to enforce any breach of the contract concerning the use or disclosure of electronic protected health information. Business Associate will provide a copy of the written contract to the County upon request. The

Business Associate Agreement or written contract will include notification of a breach of unsecured PHI as referenced in section 2d., above.

(o) Business Associate will comply with any reasonable policies and procedures Covered Entity implements to obtain compliance under HIPAA, the HITECH Act, HIPAA Regulations, and other applicable privacy and security laws.

(p) To the extent that in performing its services for or on behalf of Covered Entity, Business Associate uses, discloses, maintains, or transmits PHI or EPHI that is patient identifying information protected by 42 USC §290dd-2 and 42 42 CFR Part 2 ("Part 2 Regulations") Business Associate acknowledges and agrees that:

(i) that it is a QSO as defined by 42 CFR Part 2 §§2.11 and 2.12;

(ii) in receiving, storing, processing or otherwise dealing with any such patient records, Business Associate is fully bound by the Part 2 Regulations and Business Associate shall comply in full with those requirements, including the prohibition against redisclosure.;

(iii) Business Associate will resist, in judicial proceedings or otherwise, any efforts to obtain access to patient records, except as permitted by the Part 2 regulations;

(iv) any unauthorized disclosure/redisclosure or use of information under the Part 2 regulations is a federal criminal offense.

3. Obligations of Covered Entity.

Covered Entity shall:

(a) notify Business Associate of any limitation(s) in its notice of privacy practices of Covered Entity in accordance with 45 CFR §164.520, to the extent that such limitation(s) may affect Business Associate 's use or disclosure of PHI and EPHI.

(b) notify Business Associate of any changes in, or revocation of, permission by Individual to use or disclose PHI and EPHI, to the extent that such changes may affect Business Associate's use or disclosure of PHI and EPHI.

(c) notify Business Associate of any restriction to the use or disclosure of PHI and EPHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI and EPHI.

(d) not request Business Associate to use or disclose PHI and EPHI in any manner that would not be permissible under the law if done by Covered Entity. Consultant may use or disclose the CANS PHI for data aggregation or management and administrative activities of Business Associate as necessary to fulfill the terms of the main agreement and in accordance with and as permitted by with HIPAA, the HITECH Act, HIPAA Regulations, and other applicable privacy and security laws.

4. Term and Termination.

The provisions of this Addendum shall supersede the provisions of the Underlying Agreement insofar as they relate to the term and termination of the Underlying Agreement.

(a) Term. The provisions of this Addendum shall be effective as of the Effective Date of the Underlying Agreement and shall terminate when all of the PHI and EPHI provided by Covered

Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity or, if it is infeasible to return or destroy, protections are extended to such information, in accordance with the termination provisions in this Addendum.

(b) Termination for Cause. Upon County of Yolo's knowledge of a material breach by Business Associate of the provisions of this Addendum, County of Yolo may terminate this Addendum and the Underlying Agreement immediately upon written notice.

(c) Effect of Termination.

(i) Except as provided in paragraph (ii) of this provision, upon termination of this Addendum and the Underlying Agreement, for any reason, Business Associate shall return, in a confidential manner, all PHI and EPHI received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity. This provision shall apply to PHI and EPHI that is in the possession of subcontractors or agents of Business Associate. Business Associate shall retain no copies of said PHI and EPHI. Business Associate shall not destroy any PHI or EPHI received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity without the express written approval of Covered Entity.

(ii) In the event that Business Associate determines that returning the PHI and EPHI is infeasible, Business Associate shall provide to Covered Entity notification of the conditions that make its return infeasible. Upon the agreement of Covered Entity that return is infeasible, Business Associate shall extend the protections of this Addendum to such PHI and EPHI and limit further uses and disclosures to those purposes that make the return infeasible, for so long as Business Associate maintains such PHI and EPHI, or until Covered Entity authorizes it destruction.

5. Miscellaneous Terms:

(a) Mutual Representation and Warranty. Each party represents and warrants to the other party that all of its employees, agents, representatives and members of its work force, whose services may be used to fulfill obligations under the Underlying Agreement, are or will be appropriately informed of the terms of this Addendum and are under legal obligation to fully comply with all provisions of this Addendum.

(b) Survival. The respective rights and obligations of Business Associate under the provision of this Addendum shall survive the termination, expiration, or cancellation of the Underlying Agreement, regardless of reason.

(c) No Third-Party Beneficiaries. Nothing express or implied in the Underlying Agreement or this Addendum is intended to confer, nor will anything herein confer, upon any person other than the parties hereto any rights, remedies, obligations, or liabilities whatsoever.

(d) Notices. Any notices required or permitted to be sent pursuant to this Addendum will be in writing and will be sent, Certified Mail, Return Receipt Requested, or by a recognized international courier. Notices will be sent to the addresses set forth above in the Terms and Conditions Exhibit of the Underlying Agreement, or to such other address as a party may designate by notice pursuant hereto. Notices will be effective upon the date when delivery is either effected or refused.

(e) Amendment. The Parties agree to take such action as is necessary to amend this Addendum and the Underlying Agreement from time to time as is necessary for Covered Entity to comply with HIPAA, the HITECH Act, HIPAA Regulations, Part 2 Regulations, and other applicable privacy and security laws.

(f) Interpretation. Any ambiguity in this Addendum and the Underlying Agreement shall be resolved to permit Covered Entity to comply with of HIPAA, the HITECH Act, HIPAA Regulations, Part 2 Regulations, and other applicable privacy and security laws.

(g) Binding Effect. This Agreement shall be binding upon the parties hereto, and their respective legal representatives, trustees, receivers, successors and permitted assigns.

(h) Severability. Should any provision of this Agreement be found unenforceable, it shall be deemed severable and the balance of the Agreement shall continue in full force and effect as if the unenforceable provision had never been made a part hereof.

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 42.
Board of Supervisors **Child, Youth & Family**

Meeting Date:	06/06/2023
Brief Title:	Sixth Amendment to Agreement 18-256 with CommuniCare Health Centers, Inc
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Tony Kildare, Child, Youth & Family Branch Director, Health and Human Services Agency, x2929
Supervisorial District Impact:	Countywide

Subject
Approve sixth amendment to Agreement No. 18-256 with CommuniCare Health Centers, Inc. to extend the term of the agreement through December 31, 2023, and add funding in the amount of $100,000, for a new contract maximum of $977,440, for the period of September 1, 2018 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of Building and Strengthening Protective Factors services. (No general fund impact) (Sullivan)

Recommended Action
Approve sixth amendment to Agreement No. 18-256 with CommuniCare Health Centers, Inc. to add extend the term of the agreement through December 31, 2023, and add funding in the amount of $100,000, for a new contract maximum of $977,440, for the period of September 1, 2018 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of Building and Strengthening Protective Factors services.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
Yolo County is mandated by statute to provide reunification services, such as parent education classes, for parents whose children have been removed from the home. The County is also mandated to provide preventive services for families whose children are at immediate risk of being removed from the home. These services often include parent education classes or other services that build protective factors.

On or about November 20, 2018, the County entered into an Agreement with CommuniCare Health Centers, Inc. CommuniCare is a local organization providing protective factor services in both Woodland and West Sacramento to both our English and Spanish speaking families. The services provided by CommuniCare have met the unique needs of the Child Welfare Service program meet the court-ordered standards for mandated services prescribed in the California Welfare and Institution Codes. CommuniCare staff have worked closely with Child Welfare Services to link case plan objectives and service component outcomes.

This sixth amendment extends the Agreement through December 31, 2023; adds funding in the amount of $100,000 for Fiscal Year 2023-24, and updates and clarifies language in the Agreement.

HHSA believes it is the best interest of the County to extend this agreement from the previous contract period based on satisfactory service and to avoid the interruption of County business. A formal procurement for these services is planned for early FY2023-24.

The Procurement Manager and HHSA request approval of this amendment to ensure these vital services can continue until a formal Request for Proposal (RFP) can be released for a new contract start date of January 1,

2024.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See Att. B. Performance Measures)

HHSA confirms CommuniCare Health Centers, Inc. has performed satisfactorily under this agreement. The service provider continues to accept referrals provided by the agency and meets the needs of children and families served.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On April 23, 2018, Yolo County Health and Human Services Agency (HHSA) issued a Request for Proposals (RFP) from qualified community-based organizations to provide Building and Strengthening Protective Factors services. The RFP was open for 44 days (just over 6 weeks), and staff offered potential bidders an opportunity to ask questions during a Mandatory Bidders' Conference on May 3, 2018. Bidders were offered the opportunity to submit proposals via the electronic BidSync system or by dropping off a paper proposal directly at HHSA.

HHSA received 4 proposal(s) from this solicitation. A Proposal Review Committee was formed that included 3 HHSA employees from 1 HHSA branches. The proposal submitted by CCHC was selected as the top choice by all members of the Review Committee and was evaluated and determined to meet all the required qualifications necessary to successfully provide these services.

Additional information regarding the Competitive Bid Process is provided below, including a summary of the RFP evaluation criteria.

Request for Proposals (RFP) Service Requested:
Building & Strengthening Protective Factors.

Evaluation Criteria Included in RFP

- Qualifications and Experience
  - Qualifications (30 points)
  - Experience (40 points)
- Description of Vendor Operations Experience (10 points)
- Vendor Approach to the Project (50 points)
- Demonstrated Competence/Past Performance (30 points)
- Responsiveness/Responsibility (20 points)
- Quality and Completeness of Submitted Proposal (30 points)
- Financial Stability (15 points)

Bids Received

Bidder	Bid
Bobbie Stewart Consulting	$8,250
CommuniCare Health Centers (CCHC)	$137,965
Lilliput Children's Services	$347,759
Yolo County Children's Alliance	$255,973

HHSA confirms CommunniCare Health Center, Inc. has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business. A formal solicitation for these services is planned to be released early FY 2023-24 for a targeted contract start date of January 1, 2024.

Fiscal Information
Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure

Total cost of recommended action	$100,000
Amount budgeted for expenditure	$100,000
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure

Realignment	$100,000

Further explanation as needed

No general funds are required by this action. These services will be funded by Realignment. The action increases the contract maximum by $100,000 for a total of $977,440 for the period of September 1, 2018 through December 31, 2023. The amount of $100,000 will be included in the HHSA proposed budget for fiscal year 2023-24.

The following is the breakdown of funding for this agreement.

Fiscal Year 2018-19 September 1, 2018 through June 30, 2019	$150,000
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$177,500
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$150,000
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$199,970
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$199,970
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$100,000
Total	$977,440

SIXTH AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Sixth Amendment to Agreement No. 18-256 ("Sixth Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo ("County") and CommuniCare Health Centers, Inc. ("Contractor"), referred to as the "Parties" herein.

WHEREAS, on or about November 20, 2018, the Parties entered into Agreement No. 18-256 ("Agreement"); and

WHEREAS, on or about March 6, 2019, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #1; and

WHEREAS, on or about June 26, 2020, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #2; and

WHEREAS, on or about July 21, 2020, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about July 24, 2020, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about January 12, 2021, the Parties further amended the Agreement via the Third Amendment; and

WHEREAS, on or about May 27, 2021, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #3; and

WHEREAS, on or about August 24, 2021, the Parties further amended the Agreement via the Fourth Amendment; and

WHEREAS, on or about March 8, 2022, the Parties further amended the Agreement via the Fifth Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended, to:

1. Revise **Paragraph I.A.** to extend the term of the agreement through December 31, 2023; and
2. Revise **Paragraph II.B1.** to add funding in the amount of $100,000 for Fiscal year (FY) 2023-24 for a new contract maximum of $977,440; and
3. Revise **Section XVI.** of **Exhibit C** to rename the section and update County's insurance requirements; and
4. Revise **Section XVIII.** of **Exhibit C** to update contacts for notices; and
5. Revise **Exhibit D** to add budget for FY 2023-24.

NOW, THEREFORE, THE PARTIES HEREBY AGREE AS FOLLOWS:

1. Section I.A. of the Agreement is hereby amended to read as follows:

A. The term of this Agreement shall be from **September 1, 2018 through December 31, 2023** unless sooner terminated as provided in this Agreement.

/ / /

DocuSign Envelope ID: CA7B735B-079C-4054-8CFB-3AE2F22BAFAA

2. Section B.1. of the Agreement is hereby amended to read as follows:

B.1. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **December 31, 2023,** shall be no greater than **NINE HUNDRED SEVENTY-SEVEN THOUSAND FOUR HUNDRED FORTY DOLLARS ($977,440)** specified as follows:

Fiscal Year 2018-19 September 1, 2018 through June 30, 2019	**$150,000**
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	**$177,500**
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	**$150,000**
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	**$199,970**
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	**$199,970**
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	**$100,000**
Total	**$977,440**

3. Section XVI. of **Exhibit C** to the Agreement is hereby amended to read as follows:

XVI. INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage.

/ / /

DocuSign Envelope ID: CA7B735B-079C-4054-8CFB-3AE2F22BAFAA

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. Additional Insured Status - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. Primary Coverage - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. Notice of Cancellation – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. Waiver of Subrogation – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

DocuSign Envelope ID: CA7B735B-079C-4054-8CFB-3AE2F22BAFAA

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Agreement Documents.

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

DocuSign Envelope ID: CA7B735B-079C-4054-8CFB-3AE2F22BAFAA

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

4. Section XVIII. of **Exhibit C** to the Agreement is hereby amended to read as follows:

XVIII. NOTICE

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Contractor at their respective addresses as follows:

Contractor:	**County:**
CommuniCare Health Centers, Inc. P.O. Box 1260 Davis, CA 95617 Melissa Marshall, Chief Executive Director	Yolo County Health and Human Services Agency 137 N. Cottonwood Street Woodland, CA 95695 Nolan Sullivan, Director

B. In lieu of written notice to the above addresses, any party may provide notices through the use of email provided the following email addresses are used:

Contractor:	**County:**
shannong@communicarehc.org	Contracts Unit: HHSAContracts@yolocounty.org Contract Administrator:christina.maciel@yolocounty.org

C. Any party may change the designated, representative, address or email address to which such communications are to be given by providing the other parties with written notice of such change at least fifteen (15) calendar days prior to the effective date of the change.

D. All notices shall be effective upon receipt and shall be deemed received through delivery if personally served or served using email, or on the fifth (5th) day following deposit in the mail if sent by first class mail.

5. Exhibit D to the Agreement is hereby amended to read as attached.

6. All attachments to this Sixth Amendment are incorporated herein by this reference.

7. Except as specifically amended by this Sixth Amendment and any prior amendments, the Agreement shall remain in full force and effect according to its terms.

Board of Supervisors **Child, Youth & Family**

Meeting Date:	06/06/2023
Brief Title:	Sixth Amendment with Bobbie Stewart Consulting
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Tony Kildare, Child, Youth & Family Branch Director, Health and Human Services Agency, x2929
Supervisorial District Impact:	Countywide

Subject
Approve sixth amendment to Agreement No. PO 2312 with Bobbie Stewart Consulting to extend the term of the agreement through December 31, 2023 and add funding in the amount of $32,375, for a new contract maximum of $429,825, for the period of July 1, 2017 through December 31, 2023, and to update and clarify language in the agreement, for the provision of anger management and domestic violence counseling services. (No general fund impact) (Sullivan)

Recommended Action
Approve sixth amendment to Agreement No. PO 2312 with Bobbie Stewart Consulting to extend the term of the agreement through December 31, 2023 and add funding in the amount of $32,375, for a new contract maximum of $429,825, for the period of July 1, 2017 through December 31, 2023, and to update and clarify language in the agreement, for the provision of anger management and domestic violence counseling services.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
Bobbie Stewart Consulting (BSC) offers a range of services in Yolo County, including anger management classes, 52-week batterer's intervention program, and supervised visitation monitoring. BSC core principles of practice are safety, accountability, and collaboration. The safety of victims, their children, their families, and the community as a whole are paramount and of critical importance. The rehabilitation and confidentiality of clients are secondary to the safety of victims and their children. BSC's philosophy is to advance the premise that domestic violence is learned behavior, a product of thinking errors, and is, therefore, changeable. BSC strives to promote increased safety for victims, as well as the children who witness domestic violence.

On or about June 27, 2017, the County entered into an Agreement with BSC to provide anger management and domestic violence counseling services. The initial term of the Agreement was for 3 years, July 1, 2017 through June 30, 2020 for a total of $94,650. The Agreement also included 2 optional extensions for Fiscal Year 2020-21 and 2021-22.

On or about July 11, 2019, the Parties amended the agreement via the first amendment to add funding in the amount of $30,000 for Fiscal Year 2019-20 for a new contract maximum of $124,650; and to update and clarify language in the Agreement.
On or about June 11, 2020, the Parties further amended the agreement via the second amendment to extend the term of the Agreement through June 30, 2021 and add funding in the amount of $61,550 for Fiscal Year 2020-21 for a new contract maximum of $186,200; and to update and clarify language in the Agreement.

On or about June 25, 2020, the Parties further amended the agreement via the third amendment to add funding in

the amount of $30,000 for Fiscal Year 2019-20 for a new contract maximum of $216,200.

On or about May 24, 2021, the County exercised its option to extend the term of the agreement through June 30, 2022 and add funding in the amount of $61,550 for Fiscal Year 2021-22 for a new contract maximum of $277,750.

On or about July 14, 2021, the Parties further amended the agreement via the fourth amendment to add funding in the amount of $24,000 for Fiscal Year 2020-21 for a new contract maximum of $301,750.

On or about June 16, 2022, the Parties further amended the agreement via the fifth amendment to extend the term of the Agreement through June 30, 2023; add funding in the amount of $34,250 for Fiscal Year 2021-22 and add funding in the amount of $61,550 for Fiscal Year 2022-23 for a new contract maximum of $397,000.

This sixth amendment extends the term of the Agreement through December 31, 2023; adds funding in the amount of $32,275 for Fiscal Year 2023-24 for a new contract maximum of $429,825, and updates and clarifies language in the Agreement.

HHSA believes it is the best interest of the County to extend this agreement from the previous contract period based on satisfactory service and to avoid the interruption of County business. A formal procurement for these services is planned for early FY2023-24.

The Procurement Manager and HHSA request approval of this amendment to ensure these vital services can continue until a formal Request for Proposal (RFP) can be released for a new contract start date of January 1, 2024.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See Att. B. Performance Measures)

HHSA confirms Bobbie Stewart Consulting has performed satisfactorily under this agreement. The service provider accepts all appropriate referrals and provides services to meet the needs of CWS parents.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On March 22, 2017, Yolo County Health and Human Services Agency (HHSA) issued a Request for Proposals (RFP) from qualified community-based organizations to provide anger management and domestic violence counseling services. The solicitation was open for 30 days, (just over 4 weeks). On April 5, 2017, HHSA offered potential bidders an opportunity to ask questions during a bidder's conference.

The County received 2 proposal(s) from this solicitation. HHSA reviewed the proposal for minimum requirements and 2proposals were moved forward to the Review Committee, comprised of 3 HHSA staff and 2 other County staff.

The Review Committee evaluated the proposals and determined that the proposal submitted by Bobbie Stewart Consulting met all the required qualifications necessary to successfully provide these services. On April 28, 2017, the County issued an Intent to Award letter.

Additional information regarding the Competitive Bid Process is provided below, including a summary of the solicitation evaluation criteria.

Evaluation Criteria Included in RFP

- Company overview (20 points)
- Experience and past performance (25 points)
- Responsiveness/Responsibility (20 points)
- Approach to Project (25 points)
- Pricing Requirements (20 points)
- Quality Assurance and Oversight (20 points)
- Outputs and Outcome Measures (25 points)
- Previous Customer Reference Form (20 points)
- Performance Measures (25 points)

Bids Received

Bidder	Bid
Bobbie Stewart Consulting	$31,550
Empower Yolo	$58,083

HHSA confirms Bobbie Stewart Consulting has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business. A formal solicitation for these services is planned to be released in early FY 2023-24 for a targeted contract start date of January 1, 2024.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure

Total cost of recommended action	$32,275
Amount budgeted for expenditure	$32,275
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure

Realignment	$32,275

Further explanation as needed

No general funds are required by this action. These services will be funded by Realignment. The action increases the contract maximum by $32,275 for a total of $429,825 for the period of July 1, 2017 through December 31, 2023. The amount of $32,275 is included in the HHSA recommended budget for fiscal year 2023-24.

The following is the breakdown of funding for this agreement.

Fiscal Year 2017-18 July 1, 2017 through June 30, 2018	$31,550
Fiscal Year 2018-19 July 1, 2018 through June 30, 2019	$31,550
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$91,550
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$85,550
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$95,800
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$61,550
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$32,275
Total	$429,825

SIXTH AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Sixth Amendment to Agreement No. PO No. 2312 ("Sixth Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo ("County") and Bobbie Stewart Consulting ("Contractor"), jointly referred to as the "Parties" herein.

WHEREAS, on or about June 27, 2017, the Parties entered Agreement PO No. 2312 ("Agreement"); and

WHEREAS, on or about July 11, 2019, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about June 11, 2020, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about June 25, 2020, the Parties further amended the Agreement via the Third Amendment; and

WHEREAS, on or about May 24, 2021, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #1; and

WHEREAS, on or about July 14, 2021, the Parties further amended the Agreement via the Fourth Amendment; and

WHEREAS, on or about June 16, 2022, the Parties further amended the Agreement via the Fifth Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended, to:

1. Revise **Section 2.** to extend the term of the Agreement through December 31, 2023; and
2. Revise **Paragraph 4.B.** to:
    a. correct a mathematical error in the payment table from Amendment 5; and
    b. add funding in the amount of $32,275 for Fiscal Year (FY) 2023-24, for a new contract maximum amount of $429,825; and
3. Revise **Paragraphs 17.A.** and **17.B.** to update contacts for notices; and
4. Revise **Exhibit A** to update County's insurance requirements.

NOW, THEREFORE, THE PARTIES HEREBY AGREE AS FOLLOWS:

1. Section 2. of the Agreement is hereby amended to read as follows:

2. The term of this Agreement shall be from **July 1, 2017 through December 31, 2023**, unless sooner terminated as provided for in this Agreement.

Either party may terminate this Agreement, in whole or in part, in its sole discretion, for any reason or for no reason at all, upon at least 30 days' advance written notice to the other party

/ / /

DocuSign Envelope ID: 47086CA5-79F9-46EB-8764-3B6398B92162

2. **Paragraph 4.B.** of the Agreement is hereby amended to read as follows:

4.B. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **December 31, 2023** shall be no greater than **FOUR HUNDRED TWENTY-NINE THOUSAND EIGHT HUNDRED TWENTY-FIVE DOLLARS ($429,825)** specified as follows:

Fiscal Year 2017-18 July 1, 2017 through June 30, 2018	$31,550
Fiscal Year 2018-19 July 1, 2018 through June 30, 2019	$31,550
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$91,550
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$85,550
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$95,800
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$61,550
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$32,275
Total	**$429,825**

3. **Paragraphs 17.A.** and **17.B.** of the Agreement are hereby amended to read as follows:

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Contractor at their respective addresses as follows:

Contractor:	**County:**
Bobbie Stewart Consulting 108 N. East Street Woodland, CA 95776 Bobbie Stewart, Owner	Yolo County Health and Human Services Agency 137 N. Cottonwood Street Woodland, CA 95695 Nolan Sullivan, Director

B. In lieu of written notice to the above addresses, any party may provide notices through the use of email provided the following email addresses are used:

Contractor:	**County:**
bobbiestewartconsulting@yahoo.com	Contracts Unit: HHSAContracts@yolocounty.org Contract Administrator:christina.maciel@yolocounty.org

4. **Exhibit A.** to the Agreement is hereby amended to read as attached.

DocuSign Envelope ID: 47086CA5-79F9-46EB-8764-3B6398B92162

5. All attachments to this Sixth Amendment are incorporated herein by this reference.

6. Except as specifically amended by this Sixth Amendment, and prior amendments, the Agreement shall remain in full force and effect according to its terms.

IN WITNESS WHEREOF the Parties have executed this Sixth Amendment as of the day and year last set forth below.

EXHIBIT A – SERVICE CONTRACT INSURANCE REQUIREMENTS

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. **Additional Insured Status** - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. **Primary Coverage** - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

DocuSign Envelope ID: 47086CA5-79F9-46EB-8764-3B6398B92162

c. Notice of Cancellation – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. Waiver of Subrogation – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

DocuSign Envelope ID: 47086CA5-79F9-46EB-8764-3B6398B92162

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Agreement Documents.

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 44.
Board of Supervisors **Child, Youth & Family**

Meeting Date:	06/06/2023
Brief Title:	Third Amendment with Bobbie Stewart Consulting
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Tony Kildare, Child, Youth & Family Branch Director, Health and Human Services Agency, x2929
Supervisorial District Impact:	Countywide

Subject
Approve third amendment to Agreement No. PO 2996 with Bobbie Stewart Consulting to extend the term of the agreement through December 31, 2023; add funding in the amount of $19,125, for a new contract maximum of $180,375, for the period of September 1, 2018 through December 31, 2023; and update and clarify language for the provision of building & strengthening protective factors. (No general fund impact) (Sullivan)

Recommended Action
Approve third amendment to Agreement No. PO 2996 with Bobbie Stewart Consulting to extend the term of the agreement through December 31, 2023; add funding in the amount of $19,125, for a new contract maximum of $180,375, for the period of September 1, 2018 through December 31, 2023, and update and clarify language, for the provision of building & strengthening protective factors.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
Yolo County is mandated by statute to provide reunification services, such as parent education classes emphasizing behavior modification, for parents whose children have been removed from the home. The County is also mandated to provide preventive services to families whose children are at immediate risk of being removed from the home. Bobbie Stewart Consulting (BSC) has been providing services to parents, legal guardians and caretakers referred by Child Welfare Services that build and strengthen protective factors ensuring child safety, permanency, and well-being. Evidenced based and informed services shall improve parents, legal guardians and caretaker's protective capacities and skills allowing them to recognize safety concerns that created danger in the home, identify behavioral changes needed to increase safety and wellbeing, and demonstrate an increased awareness of protective factors in order to establish a safe, nurturing, and supportive environment for their children, as well as improved family relationships.

On or about November 16, 2018, the County entered into an Agreement with BSC to provide building & strengthening protective factors services. The initial term of the Agreement was for 1 year, September 1, 2018 through June 30, 2019 for a total of $8,250. The Agreement also included 4 optional extensions for Fiscal Year 2019-20; 2020-21; 2021-22 and 2022-23.

On or about April 12, 2019, the County exercised its option to extend the term of the agreement through June 30, 2020 and added funding in the amount of $8,250 for Fiscal Year 2019-20 for a new contract maximum of $16,500.

On or about June 17, 2019, the Parties amended the agreement via the first amendment to update and clarify language in the Agreement.

On or about June 11, 2020, the Parties further amended the agreement via the second amendment to extend the term of the Agreement through June 30, 2021; add funding in the amount of $30,000 for Fiscal Year 2019-20 and add funding in the amount of $38,250 for Fiscal Year 2020-21 for a new contract maximum of $84,750 and update and clarify language in the Agreement.

On or about June 8, 2021, the County exercised its option to extend the term of the agreement through June 30, 2022 and add funding in the amount of $38,250 for Fiscal Year 2021-22 for a new contract maximum of $123,000.

On or about April 22, 2022, the County exercised its option to extend the term of the agreement through June 30, 2023 and add funding in the amount of $38,250 for Fiscal Year 2022-23 for a new contract maximum of $161,250.

This third amendment extends the term of the Agreement through December 31, 2023; adds funding in the amount of $19,125 for Fiscal Year 2023-24 for a new contract maximum of $180,375, and updates and clarifies language in the Agreement.

HHSA believes it is in the best interest of the County to extend this agreement from the previous contract period based on satisfactory service and to avoid the interruption of County business. A formal procurement for these services is planned for early FY2023-24.

The Procurement Manager and HHSA request approval of this amendment to ensure these vital services can continue until a formal Request for Proposal (RFP) can be released for a new contract start date of January 1, 2024.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See Att. B. Performance Measures)

HHSA confirms Bobbie Stewart Consulting has performed satisfactorily under this agreement. The service provider accepts all appropriate referrals and provides services to meet the needs of CWS parents.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On April 23, 2018, Yolo County Health and Human Services Agency (HHSA) issued a Request for Proposals (RFP) from qualified community-based organizations to provide Building and Strengthening Protective Factors services. The solicitation was open for 44 days, (just over 6 weeks). On May 3, 2018, HHSA offered potential bidders an opportunity to ask questions during a bidder's conference.

The County received 4 proposal(s) from this solicitation. HHSA reviewed the proposal for minimum requirements and 4 proposals were moved forward to the Review Committee, comprised of 3 HHSA staff and 1 community stakeholder staff.

The Review Committee evaluated the proposals and determined that the proposal submitted by Bobbie Stewart Consulting met all the required qualifications necessary to successfully provide these services. On June 13, 2018, the County issued an Intent to Award letter.

Additional information regarding the Competitive Bid Process is provided below, including a summary of the solicitation evaluation criteria.

Evaluation Criteria Included in RFP

- Qualifications and Experience
  - Qualifications (30 points)
  - Experience (40 points)
- Description of Vendor Operations Experience (10 points)
- Vendor Approach to the Project (50 points)
- Demonstrated Competence/Past Performance (30 points)
- Responsiveness/Responsibility (20 points)

· Quality and Completeness of Submitted Proposal (30 points)
· Financial Stability (15 points)

Bids Received

Bidder	Bid
Bobbie Stewart Consulting	$8,250
CommuniCare Health Centers	$137,965
Lilliput Children's Services	$347,759
Yolo County Children's Alliance	$255,973

HHSA confirms Bobbie Stewart Consulting has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business. A formal solicitation for these services is planned to be released in early FY 2023-24 for a targeted contract start date of January 1, 2024.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$19,125
Amount budgeted for expenditure	$19,125
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
Realignment	$19,125

Further explanation as needed

No general funds are required by this action. These services will be funded by Realignment. The action increases the contract maximum by $19,125 for a total of $180,375 for the period of September 1, 2018 through December 31, 2023. The amount of $19,125 is included in the HHSA recommended budget for fiscal year 2023-24.

The following is the breakdown of funding for this agreement.

Fiscal Year 2018-19 September 1, 2018 through June 30, 2019	$8,250
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$38,250
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$38,250
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$38,250
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$38,250
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$19,125
Total	$180,375

THIRD AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Third Amendment to Agreement No. 2996 ("Third Amendment") is made and entered into as of the last date signed below herein by and between the County of Yolo ("County") and Bobbie Stewart Consulting ("Contractor"), referred to as "the Parties" herein.

WHEREAS, on or about November 16, 2018, the Parties entered into Agreement No. 2996 ("Agreement"); and

WHEREAS, on or about April 17, 2019, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #1; and

WHEREAS, on or about June 17, 2019, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about June 11, 2020, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about June 8, 2021, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #2; and

WHEREAS, on or about April 22, 2022, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #3; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended, to:

1. Revise **Paragraph I.A.** to extend the term of the Agreement through December 31, 2023; and
2. Revise **Paragraph II.B.1.** to increase funding in the amount of $19,125 for Fiscal Year (FY) 2023-24 for a new contract maximum of $180,375; and
3. Revise **Section XV.** of **Exhibit C** to rename section and update County's insurance requirements; and
4. Revise **Paragraphs XVII.A. and XVII.B.** of **Exhibit C** to update county contacts for notices.

NOW, THEREFORE, THE PARTIES HEREBY AGREE AS FOLLOWS:

1. Paragraph I.A. of the Agreement is hereby amended to read as follows:

A. The term of this Agreement shall be from **September 1, 2018 through December 31, 2023** unless sooner terminated as provided for in this Agreement.

DocuSign Envelope ID: 3D635A79-32B2-4DF0-A65D-70B99F28D5CE

2. Paragraph II.B.1. of the Agreement is hereby amended to read as follows:

B. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **December 31, 2023,** shall be no greater than **ONE HUDNRED EIGHTY THOUSAND THREE HUNDRED SEVENTY-FIVE DOLLARS ($180,375)** specified as follows:

Fiscal Year 2018-19 September 1, 2018 through June 30, 2019	$8,250
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$38,250
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$38,250
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$38,250
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$38,250
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$19,125
Total	**$180,375**

3. Section XV. of **Exhibit C** to the Agreement is hereby amended to read as follows:

XV. INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

DocuSign Envelope ID: 3D635A79-32B2-4DF0-A65D-70B99F28D5CE

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. Additional Insured Status - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. Primary Coverage - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. Notice of Cancellation – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. Waiver of Subrogation – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years

DocuSign Envelope ID: 3D635A79-32B2-4DF0-A65D-70B99F28D5CE

thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Agreement Documents.

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in

DocuSign Envelope ID: 3D635A79-32B2-4DF0-A65D-70B99F28D5CE

the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

4. Paragraphs XVII.A. and XVII.B. of **Exhibit C** to the Agreement are hereby amended to read as follows:

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Contractor at their respective addresses as follows:

Contractor:	**County:**
Bobbie Stewart Consulting	Yolo County Health and Human Services Agency
108 N. East Street	137 N. Cottonwood Street
Woodland, CA 95776	Woodland, CA 95695
Bobbie Stewart, Owner	Nolan Sullivan, Director

B. In lieu of written notice to the above addresses, any party may provide notices through the use of email provided the following email addresses are used:

Contractor:	**County:**
bobbiestewartconsulting@yahoo.com	Contracts Unit: HHSAContracts@yolocounty.org
	Contract Administrator:christina.maciel@yolocounty.org

5. Except as specifically amended by this Third Amendment, and any prior amendments, the Agreement shall remain in full force and effect according to its terms.

Board of Supervisors **Child, Youth & Family**

Meeting Date:	06/06/2023
Brief Title:	Third Amendment to Agreement 19-30 with Wayfinder Family Services
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Tony Kildare, Child, Youth & Family Branch Director, Health and Human Services Agency, x2929
Supervisorial District Impact:	Countywide

Subject
Approve third amendment to Agreement No. 19-30 with Wayfinder Family Services to extend the term of the agreement through December 31, 2023, and add funding in the amount of $45,835, for a new contract maximum of $452,945, for the period of January 1, 2019 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of building and strengthening protective factors services. (No general fund impact) (Sullivan)

Recommended Action
Approve third amendment to Agreement No. 19-30 with Wayfinder Family Services to extend the term of the agreement through December 31, 2023, and add funding in the amount of $45,835, for a new contract maximum of $452,945, for the period of January 1, 2019 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of building and strengthening protective factors services.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
Building and Strengthening Protective Factors services are for relative (kin) and non-relative extended family members (NREFM) to ensure child safety, permanency, and well-being. Building and Strengthening Protective Factors will improve family functioning and resiliency, develop and increase social and concrete supports, expand knowledge of parenting and child development, and increase skills to improve nurturing and attachment. Provide permanency-focused in-home supports to the youth and family during the foster care placement to promote placement stability and timely exit to reunification, guardianship or adoption. Lilliput will provide services within a Protective Factors framework which is trauma-informed, and strengthening families approach to kin navigation and support services.

On or about February 26, 2019, the County entered into an Agreement with Lilliput children's Services dba Lilliput Families to provide Building and Strengthening Protective Factors. The initial Agreement was for 6 months from January 1, 2019 through June 30, 2019 in the amount of $40,430. The Agreement also included 4 optional extensions for fiscal Years 2019-20, 2020-21, 2021-22 and 2022-23.

On or about April 12, 2019, the County exercised its option to extend the Agreement through June 30, 2020 and added $40,430 for a new contract maximum of $80,860.

On or about May 21, 2019, the Parties amended the Agreement via the First Amendment to add funding in the amount of $51,240 for Fiscal Year 2019-20 for a new contract maximum of $132,100; update lifetime maximum and clarify language in the Agreement.

On or about June 9, 2020, the County exercised its option to extend the Agreement through June 30, 2021 and added $91,670 for a new contract maximum of $223,770.
On or about July 13, 2020, the County, Lilliput Children's Services and Contractor (Wayfinder Family Services) entered in a consent to assignment agreement upon which all the rights and responsibilities of Lilliput Families under the Agreement were assigned to Contractor.
On or about June 9, 2021, the Parties amended the Agreement via the Second Amendment to revise Exhibit F -- Performance Measures.

On or about June 8, 2021, the County exercised its option to extend the Agreement through June 30, 2022 and added $91,670 for a new contract maximum of $315,440.

On or about April 25, 2022, the County exercised its option to extend the Agreement through June 30, 2023 and added $91,670 for a new contract maximum of $407,110.

This third amendment extends the Agreement through December 31, 2023; adds funding in the amount of $45,835 for Fiscal Year 2023-24, and updates and clarifies language in the Agreement.

HHSA believes it is in the best interest of the County to extend this agreement from the previous contract period based on satisfactory service and to avoid the interruption of County business. A formal procurement for these services is planned for early FY2023-24.

The Procurement Manager and HHSA request approval of this amendment to ensure these vital services can continue until a formal Request for Proposal (RFP) can be released for a new contract start date of January 1, 2024.

Performance Measures included in this Agreement are as follows:
The Performance Measures were updated in Amendment 2 and are not being revised at this time (See Att. B. Performance Measures)

HHSA confirms Wayfinder Family Services has performed satisfactorily under this agreement. Wayfinder Family Services continues to accept referrals from HHSA and providing services to caregivers as needed and requested.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On April 23, 2018, Yolo County Health and Human Services Agency (HHSA) issued a Request for Proposals (RFP) from qualified community-based organizations to provide Building and Strengthening Protective Factors services. The RFP was open for 44 days (just over 6 weeks), and staff offered potential bidders an opportunity to ask questions during a Mandatory Bidders' Conference on May 3, 2018. Bidders were offered the opportunity to submit proposals via the electronic BidSync system or by dropping off a paper proposal directly at HHSA.

HHSA received 4 proposal(s) from this solicitation. A Proposal Review Committee was formed that included 3 HHSA employees from 1 HHSA branches. The proposal submitted by Wayfinder Family Services was selected as the top choice by all members of the Review Committee and was evaluated and determined to meet all the required qualifications necessary to successfully provide these services.

Additional information regarding the Competitive Bid Process is provided below, including a summary of the RFP evaluation criteria.

Request for Proposals (RFP) Service Requested:
Building & Strengthening Protective Factors.

Evaluation Criteria Included in RFP

- Qualifications and Experience (70 points)
- Description of Vendor Operations Experience (10 points)
- Vendor Approach to the Project (50 points)
- Demonstrated Competence/Past Performance (30 points)
- Responsiveness/Responsibility (20 points)
- Quality and Completeness of Submitted Proposal (30 points)
- Financial Stability (15 points)

Bids Received

Bidder	Bid
Bobbie Stewart Consulting	$8,250
CommuniCare Health Centers (CCHC)	$137,965
Lilliput Children's Services	$347,759
Yolo County Children's Alliance	$255,973

HHSA confirms Wayfinder Family Services has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business. A formal solicitation for these services is planned to be released early FY 2023-24 for a targeted contract start date of January 1, 2024.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$45,835
Amount budgeted for expenditure	$45,835
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
Realignment	$45,835

Further explanation as needed

No general funds are required by this action. These services will be funded by Realignment. The action increases the contract maximum by $45,835 for a total of $452,945 for the period of January 1, 2019 through December 31, 2023. The amount of $45,835 is included in the HHSA recommended budget for fiscal year 2023-24.

The following is the breakdown of funding for this agreement.

Fiscal Year 2018-19 January 1, 2019 through June 30, 2019	$40,430
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$91,670
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$91,670
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$91,670
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$91,670
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$45,835
Total	$452,945

THIRD AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Third Amendment to Agreement No. 19-30 ("Third Amendment") is made and entered into as of the last date signed below herein by and between the County of Yolo ("County") and Wayfinder Family Services, jointly referred to as "the Parties" herein.

WHEREAS, on or about February 26, 2019, the County and Lilliput Children's Services, dba Lilliput Families, entered into Agreement No. 19-30 (Agreement); and

WHEREAS, on or about April 17, 2019, the County exercised its option to extend the Agreement under the same terms and conditions via the Option Letter #1; and

WHEREAS, on or about May 21, 2019, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about June 9, 2020, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #2; and

WHEREAS, on or about July 13, 2020, the County, Lilliput Families and Contractor entered in an assignment agreement upon which all of the rights and responsibilities of Lilliput Families under the Agreement were assigned to Contractor; and

WHEREAS, on or about June 8, 2021, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #3; and

WHEREAS, on or about June 9, 2021, the Parties further amended the Agreement via the Second Amendment; and; and

WHEREAS, on or about April 25, 2022, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #4; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended, to:

1. Revise **Paragraph I.A.** to extend the term of the Agreement through December 31, 2023; and
2. Revise **Paragraph II.B1.** to add funding in the amount of $45,835 for Fiscal Year (FY) 2023-24 for a new contract maximum of $452,945; and
3. Revise **Section XVI.** of **Exhibit C** to rename the section and update County's insurance requirements; and
4. Revise **Paragraphs XVIII.A.** and **XVIII.B.** of **Exhibit C** to update contact for notices; and
5. Revise **Exhibit D** to add budget for FY 2023-24.

NOW, THEREFORE, THE PARTIES HEREBY AGREE AS FOLLOWS:

1. **Paragraph I.A.** of the Agreement is hereby amended to read as follows:

   A. The term of this Agreement shall be from **January 1, 2019 through December 31, 2023** unless sooner terminated as provided in this Agreement.

/ / /

DocuSign Envelope ID: 91A77185-ED78-4342-89ED-D141580820C8

2. **Paragraph II.B1.** of the Agreement is hereby amended to read as follows:

   B. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **December 31, 2023,** shall be no greater than **FOUR HUNDRED FIFTY-TWO THOUSAND NINE HUNDRED FORTY-FIVE DOLLARS ($452,945)** specified as follows:

Fiscal Year 2018-19 January 1, 2019 through June 30, 2019	$40,430
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$91,670
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$91,670
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$91,670
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$91,670
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$45,835
Total	**$452,945**

3. **Section XVI.** of **Exhibit C** to the Agreement is hereby amended to read as follows:

   XVI. INSURANCE

   A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

      1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

         a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

         b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

         c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

         d. Professional Liability (Errors and Omissions) (If applicable, see below)

      2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

         a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

DocuSign Envelope ID: 91A77185-ED78-4342-89ED-D141580820C8

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. Additional Insured Status - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. Primary Coverage - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. Notice of Cancellation – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. Waiver of Subrogation – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years

DocuSign Envelope ID: 91A77185-ED78-4342-89ED-D141580820C8

thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Agreement Documents.

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in

DocuSign Envelope ID: 91A77185-ED78-4342-89ED-D141580820C8

the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

4. Paragraphs XVIII.A. and **XVIII.B.** of **Exhibit C** to the Agreement is hereby amended to read as follows:

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Contractor at their respective addresses as follows:

Contractor:	**County:**
Wayfinder Family Services 5300 Angeles Vista Blvd. Los Angeles, CA 90043 Noemi Vasquez, Associate VP	Yolo County Health and Human Services Agency 137 N. Cottonwood Street Woodland, CA 95695 Nolan Sullivan, Director

B. In lieu of written notice to the above addresses, any party may provide notices through the use of email provided the following email addresses are used:

Contractor:	**County:**
nvasquez@wayfinderfamily.org	Contracts Unit: HHSAContracts@yolocounty.org Contract Administrator: meghan.morris@yolocounty.org

5. Exhibit D to the Agreement is hereby amended to read as attached.

6. All attachments to this Third Amendment are incorporated herein by this reference.

7. Except as specifically amended by this Third Amendment and any prior amendments, the Agreement shall remain in full force and effect according to its terms.

Supervisorial District Impact:	Countywide

Subject
Approve third amendment to Agreement No. 18-137 with Wayfinder Family Services to extend the term of the agreement through December 31, 2023 and add funding in the amount of $500,000 for 2023-24, for a new contract maximum of $4,667,812, for the period of July 1, 2018 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of supervised visitation services. (No general fund impact) (Sullivan)

Recommended Action
Approve third amendment to Agreement No. 18-137 with Wayfinder Family Services to extend the term of the agreement through December 31, 2023 and add funding in the amount of $500,000 for 2023-24, for a new contract maximum of $4,667,812, for the period of July 1, 2018 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of supervised visitation services.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
The primary purpose of supervised visitation and coaching for families involved with Child Welfare Services (CWS) is to provide child safety and enhance the parent-child relationship and other family attachments, and to reduce the sense of loss and/or abandonment that children experience when placed in foster care. Parent-child visitation varies by degree of supervision, location and frequency in accordance with the strengths and needs of the parent and the best interests of the child.

Supervised visitation and coaching services have provided and maintained a safe, trauma-informed, culturally appropriate, confidential setting in which the contact between a child/youth and an adult or legal guardian can be facilitated and monitored by personnel able to protect the safety of the children and provide support to enhance parent-child relationships and parent skill development.

On or about June 26, 2018, the County entered into an Agreement with Lilliput Children's Services dba Lilliput Families to provide Supervised Visitation and Coaching services. The initial Agreement was for 1 year from July 1, 2018 through June 30, 2019 in the amount of $412,236. The Agreement also included 4 optional extensions for Fiscal Years 2019-20, 2020-21, 2021-22 and 2022-23.

On or about May 21, 2019 the Parties amended the Agreement via the First Amendment to extend the term of the Agreement through June 30, 2021; increase funding in the amount of $143,628 for FY 2018-19 and added funding in the amount of $902,987 for FY 2019-20 and $902,987 for FY 2020-21 for a new contract maximum of $2,361,838 and updated and clarified language in the Agreement.

On or about July 13, 2020, the County, Lilliput Children's Services and Contractor (Wayfinder Family Services)

entered in a consent to assignment agreement upon which all the rights and responsibilities of Lilliput Families under the Agreement were assigned to Contractor.

On or about June 8, 2021, the County exercised its option to extend the Agreement through June 30, 2022 and added $902,987 for a new contract maximum of $3,264,825.

On or about April 25, 2022, the County exercised its option to extend the Agreement through June 30, 2023 and added $902,987 for a new contract maximum of $4,167,812.

On or about July 19, 2022, the Parties further amended the Agreement via the Second Amendment to update and clarify in the Agreement.

This third amendment extends the term of the Agreement through December 31, 2023; adds funding in the amount of $500,000 for Fiscal Year 2023-24 for a new contract maximum of $4,667,812, and updates and clarifies language in the Agreement.

HHSA believes it is the best interest of the County to extend this agreement from the previous contract period based on satisfactory service and to avoid the interruption of County business. A formal procurement for these services is planned for early FY2023-24.

The Procurement Manager and HHSA request approval of this amendment to ensure these vital services can continue until a formal Request for Proposal (RFP) can be released for a new contract start date of January 1, 2024.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See Att. B. Performance Measures)

HHSA confirms Wayfinder Family Services has performed satisfactorily under this agreement. Wayfinder Family Services continues to accept CWS referrals and meeting the visitation needs for CWS children and families.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.

Competitive Bid Process/Vendor Performance
On March 13, 2018, Yolo County Health and Human Services Agency (HHSA) issued a Request for Proposals (RFP) from qualified community-based organizations to provide supervised visitation and coaching services. The solicitation was open for 41 days, (just over 5 weeks). On March 21, 2018, HHSA offered potential bidders an opportunity to ask questions during a bidder's conference.

The County received 4 proposal(s) from this solicitation. HHSA reviewed the proposal for minimum requirements and 4 proposals were moved forward to the Review Committee, comprised of 2 HHSA staff and 1 community stakeholder.

The Review Committee evaluated the proposals and determined that the proposal submitted by Lilliput Children's Services met all the required qualifications necessary to successfully provide these services. On June 26, 2018 the County issued an Intent to Award letter.

Additional information regarding the Competitive Bid Process is provided below, including a summary of the solicitation evaluation criteria.

Evaluation Criteria Included in RFP

- Qualifications and Experience (40 points)
- Description of Vendor Operations (10 points)
- Vendor's Approach to the Project (60 points)
- Demonstrated Competence/Past Performance (30 points)
- Responsiveness/Responsibility (15 points)
- Quality and Completeness of Submitted Proposal (30 points)
- Financial Stability (15 points)

Bids Received

Bidder	Bid

Lilliput Children's Services	$445,126.00
Yolo County Children's Alliance	$546,013.00
CommuniCare Health Centers, Inc.	$397,246.64
Yolo Crisis Nursery, Inc.	$270,930.00

HHSA confirms Wayfinder Family Services has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business. A formal solicitation for these services is planned to be released in early FY 2023-24 for a targeted contract start date of January 1, 2024.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure

Total cost of recommended action	$500,000
Amount budgeted for expenditure	$500,000
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure

Realignment	$500,000

Further explanation as needed

No general funds are required by this action. These services will be funded by Realignment. The action increases the contract maximum by $500,000 for a total of $4,667,812 for the period of July 1, 2018 through December 31, 2023. The amount of $500,000 is included in the HHSA recommended budget for fiscal year 2023-24.

The breakdown of funding for this Agreement is as follows:

Fiscal Year 2018-19 July 1, 2018 through June 30, 2019	$555,864
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$902,987
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$902,987
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$902,987
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$902,987
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$500,000
Total	$4,667,812

THIRD AMENDMENT
(BOS AGREEMENT NO. _____-_____)

This Third Amendment to Agreement No, 18-137 ("Third Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo ("County") and Wayfinder Family Services ("Contractor"), jointly referred to as the "Parties" herein.

WHEREAS, on or about June 26, 2018, the County and Lilliput Children's Services, dba Lilliput Families, entered into Agreement No. 18-137 ("Agreement"); and

WHEREAS, on or about May 21, 2019, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about July 13, 2020, the County, Lilliput Families and Contractor entered into an assignment agreement upon which all of the rights and responsibilities of Lilliput Families under the Agreement were assigned to Contractor; and

WHEREAS, on or about June 8, 2021, County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #1; and

WHEREAS, on or about April 25, 2022, County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #2; and

WHEREAS, on or about July 19, 2022, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended to:

1. Revise **Paragraph II.A.** to extend the term of the Agreement through December 31, 2023; and
2. Revise **Paragraph III.B.** to add funding in the amount of $500,000 for Fiscal Year (FY) 2023-24 for a new contract maximum of $4,667,812; and
3. Revise **Paragraph VIII.C.** to update County contact for security incidents; and
4. Revise **Section XIII.** to rename the section and update County's insurance requirements; and
5. Revise **Section XV.** to update County email address for notices sent via email; and
6. Revise **Exhibit B** to add budget for FY 2023-24.

NOW, THEREFORE, THE PARTIES AGREE AS FOLLOWS:

1. Paragraph II.A. of the Agreement are hereby amended to read as follows:

A. The term of this Agreement shall be from **July 1, 2018 through December 31, 2023** unless sooner terminated as hereinafter provided.

DocuSign Envelope ID: C40A9656-A5FE-4EFC-83B2-A53DFD4B8B12

2. **Paragraph III.B.** of the Agreement is hereby amended to read as follows:

B. Any other provision of this Agreement notwithstanding, the maximum payment obligation to Contractor through **December 31, 2023** shall be no greater than **FOUR MILLION SIX HUNDRED SIXTY-SEVEN THOUSAND EIGHT HUNDRED TWELVE DOLLARS ($4,667,812)** specified as follows:

Fiscal Year 2018-19 July 1, 2018 through June 30, 2019	$555,864
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$902,987
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$902,987
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$902,987
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$902,987
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$500,000
Total	**$4,667,812**

3. **Paragraph VIII.C.** of the Agreement is hereby amended to read as follows:

C. Information Security Incidents

Defined: Information security incidents include, but are not limited to, any event (intentional or unintentional) that causes the loss, damage to, destruction, or unauthorized disclosure of County or Contractor information assets.

Notification: The County/Contractor shall notify the other or its designated agent of any actual or attempted information security incidents, as defined above, within 24 hours of initial detection. Information security incidents shall be reported by telephone or email to:

Charles Egbert, HHSA Privacy Officer
Health and Human Services Agency
137 North Cottonwood Street
Woodland CA 95695
Email: Charles.Egbert@yolocounty.org

Lee Gerney, Yolo County Chief Technology Officer, Information Security Officer- at lee.gerney@yolocounty.org, and

Noemi Vasquez, Associate VP
5300 Angeles Vista Blvd
Los Angeles, CA 90043
Email: nvasquez@wayfinderfamily.org

Cooperation: Each party shall cooperate in any investigations of information security incidents.

DocuSign Envelope ID: C40A9656-A5FE-4EFC-83B2-A53DFD4B8B12

4. Section XIII. of the Agreement is hereby amended to read as follows:

XIII. INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. Additional Insured Status - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

DocuSign Envelope ID: C40A9656-A5FE-4EFC-83B2-A53DFD4B8B12

b. **Primary Coverage** - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. **Notice of Cancellation** – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. **Waiver of Subrogation** – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

DocuSign Envelope ID: C40A9656-A5FE-4EFC-83B2-A53DFD4B8B12

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Agreement Documents.

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

5. Section XV. of the Agreement is hereby amended to read as follows:

XV. NOTICE

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Contractor at their respective addresses as follows:

Contractor:	**County:**
Wayfinder Family Services	Yolo County Health and Human Services Agency
5300 Angeles Vista Blvd.	137 N. Cottonwood Street
Los Angeles, CA 90043	Woodland, CA 95695
Noemi Vasquez, Associate VP	Nolan Sullivan, Director

B. In lieu of written notice to the above addresses, any party may provide notices through the use of email provided the following email addresses are used:

Contractor:	**County:**
nvasquez@wayfinderfamily.org	Contracts Unit: HHSAContracts@YoloCounty.org
	Contract Administrator:meghan.morris@yolocounty.org

/ / /

DocuSign Envelope ID: C40A9656-A5FE-4EFC-83B2-A53DFD4B8B12

C. Any party may change the address or email address to which such communications are to be given by providing the other parties with written notice of such change at least fifteen (15) calendar days prior to the effective date of the change.

D. All notices shall be effective upon receipt and shall be deemed received through delivery if personally served or served using email, or on the fifth (5th) day following deposit in the mail if sent by first class mail.

6. **Exhibit B** to the Agreement is hereby amended to read as attached.

7. All attachments to this Third Amendment are incorporated herein by this reference.

8. Except as specifically amended in this Third Amendment, and any prior Amendments, the Agreement shall remain in full force and effect according to its terms.

IN WITNESS WHEREOF, the Parties have executed this Third Amendment as of the day and year last set forth below.

Meeting Date:	06/06/2023
Brief Title:	Fifth Amendment to Agreement No. 18-270 with Yolo County Childrenâ€™s Alliance
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Tony Kildare, Child, Youth & Family Branch Director, Health and Human Services Agency, x2929
Supervisorial District Impact:	Countywide

Subject
Approve fifth amendment to Agreement No. 18-270 with Yolo County Children's Alliance to extend the term of the agreement through December 31, 2023, and add funding in the amount of $199,585, for a new contract maximum of $1,531,043, for the period of September 1, 2018 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of Building and Strengthening Protective Factors services. (No general fund impact) (Sullivan)

Recommended Action
Approve fifth amendment to Agreement No. 18-270 with Yolo County Children's Alliance to extend the term of the agreement through December 31, 2023, and add funding in the amount of $199,585, for a new contract maximum of $1,531,043, for the period of September 1, 2018 through December 31, 2023 and to update and clarify language in the Agreement, for the provision of Building and Strengthening Protective Factors services.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
On or about December 11, 2018 the County entered into an Agreement with Yolo County Children's Alliance (YCCA) to provide services to parents, legal guardians and caretakers referred by Child Welfare Services that build and strengthen protective factors ensuring child safety, permanency, and well-being.

Evidenced based and informed services improve parents, legal guardians and caretaker's protective capacities and skills allowing them to recognize safety concerns that created danger in the home, identify behavioral changes needed to increase safety and wellbeing, and demonstrate an increased awareness of protective factors to establish a safe, nurturing, and supportive environment for children by providing safety management. Safety Management is primarily concerned with controlling dangerous family conditions and threats to the safety of a child. Safety Management is not primarily concerned with changing caregiver or family functioning or circumstances, though through the course of safety service delivery, helping interventions will likely be implemented. Safety Management includes five safety actions that can be used individually or in combination. The five safety actions are: Behavioral Management, Crisis Management, Social Connection, Separation, and Resource Support. Safety Management includes in-home, out-of-home, or a combination of in-home/out-of-home actions. Safety Management must have an immediate effect, be immediately available, be always accessible, and be sufficient to control the danger or threat of danger.

This fifth amendment extends the Agreement through December 31, 2023; adds funding in the amount of $199,585 for Fiscal Year 2023-24, and updates and clarifies language in the Agreement.

HHSA believes it is the best interest of the County to extend this agreement from the previous contract period based on satisfactory service and to avoid the interruption of County business. A formal procurement for these services is planned for early FY2023-24.

The Procurement Manager and HHSA request approval of this amendment to ensure these vital services can continue until a formal Request for Proposal (RFP) can be released for a new contract start date of January 1, 2024.

Performance Measures included in this Agreement are as follows:
The Performance Measures were included in the underlying Agreement and are not being revised at this time (See Att. B. Performance Measures)

HHSA confirms Yolo County Children's Alliance has performed satisfactorily under this agreement. Yolo County Children's Alliance continues to accept referrals from HHSA and meets the needs of the Agency and CWS families.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.
Department of General Services, Procurement Division

Competitive Bid Process/Vendor Performance
On April 23, 2018, Yolo County Health and Human Services Agency (HHSA) issued a Request for Proposals (RFP) from qualified community-based organizations to provide Building and Strengthening Protective Factors. The RFP was open for 44 days (just over 6 weeks), and staff offered potential bidders an opportunity to ask questions during a Mandatory Bidders' Conference on May 3, 2018. Bidders were offered the opportunity to submit proposals via the electronic BidSync system or by dropping off a paper proposal directly at HHSA.

HHSA received four (4) proposals from this solicitation. A Proposal Review Committee was formed that included three (3) HHSA employees from two (2) different HHSA branches, and one (1) member from an outside entity. The proposal submitted by Yolo County Children's Alliance was evaluated and determined to meet all the required qualifications necessary to successfully provide these services.
Additional information regarding the Competitive Bid Process is provided below, including a summary of the RFP evaluation criteria.

Request for Proposals (RFP) Service Requested:
Building and Strengthening Protective Factors.

Evaluation Criteria Included in RFP

- Qualifications and Experience
  - Qualifications (30 points)
  - Experience (40 points)
- Description of Vendor Operations Experience (10 points)
- Vendor Approach to the Project (50 points)
- Demonstrated Competence/Past Performance (30 points)
- Responsiveness/Responsibility (20 points)
- Quality and Completeness of Submitted Proposal (30 points)
- Financial Stability (15 points)

Bids Received

Bidder	Bid
CommuniCare Health Centers, Inc.	$187,261
Yolo County Children's Alliance	$243,973
Bobbie Stewart Consulting	$8,250
Lilliput Children's Services	$347,759

HHSA confirms Yolo County Children's Alliance has performed satisfactorily under this agreement. Thus, pursuant to the authority provided to the County Procurement Manager as the County Purchasing Agent under the current Yolo County Procurement Policy, the Procurement Manger has determined that it is in the best interest of the County to extend this Agreement, based on satisfactory service and to avoid the interruption of County business. A

formal solicitation for these services is planned to be released early FY 2023-24 for a targeted contract start date of January 1, 2024.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$199,585
Amount budgeted for expenditure	$199,585
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
2011 Realignment	$199,585

Further explanation as needed

No general funds are required by this action. These services will be funded by 2011 Realignment. The action increases the contract maximum by $199,585 for a total of $1,531,043 for the period of September 1, 2018 through December 31, 2023. The amount of $199,585 will be included in the HHSA proposed budget for fiscal year 2023-24.

The following is the breakdown of funding for this agreement.

Building Strengthening Protective Factors	In Home Safety Monitoring	Family Life Skills Program	Total
Fiscal Year 2018-19 September 1, 2018 through June 30, 2019	$99,146	$39,968	$139,114
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$210,000	$47,961	$257,961
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$263,500	$47,961	$311,461
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$263,500	$47,961	$311,461
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$263,500	$47,961	$311,461
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$175,605	$23,980	$199,585
Total	$1,099,646	$231,812	$1,531,043

FIFTH AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Fifth Amendment to Agreement No. 18-270 ("Fifth Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo ("County") and Yolo County Children's Alliance ("Contractor"), jointly referred to as the "Parties" herein.

WHEREAS, on or about December 11, 2018, the Parties entered into Agreement No. 18-270 ("Agreement"); and

WHEREAS, on or about March 6, 2019, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #1; and

WHEREAS, on or about September 10, 2019, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about May 29, 2020, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #2; and

WHEREAS, on or about March 23,2021, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about July 12, 2021, the Parties further amended the Agreement via the Third Amendment; and

WHEREAS, on or about June 27, 2022, the County exercised its option to extend the Agreement under the same terms and conditions via Option Letter #2; and

WHEREAS, on or about June 29, 2022, the Parties further amended the Agreement via the Fourth Amendment; and

WHEREAS, the Parties would now like to amend the Agreement, as previously amended to:

1. Revise **Paragraph I.A.** to extend the term of the Agreement through December 31, 2023; and
2. Revise **Paragraph II.B1.** to add funding in the amount of $199,585 Fiscal Year (FY) 2023-24 for a new contract maximum of $1,531,043; and
3. Revise **Section XVI.** of **Exhibit C** to rename section and update County's insurance requirements; and
4. Revise **Exhibit D.1 and D.2.** to add budget for Fiscal Year 2023-24.

NOW, THEREFORE, THE PARTIES HEREBY AGREE AS FOLLOWS:

1. Paragraph I.A. of the Agreement is hereby amended to read as follows:

A. The term of this Agreement shall be from **September 1, 2018 through December 31, 2023** unless sooner terminated as provided in this Agreement.

DocuSign Envelope ID: 1C748AD2-7648-4195-935A-72657332AD07

2. Paragraph II.B1. of the Agreement is hereby amended to read as follows:

B1. Any other provisions of this Agreement notwithstanding, the maximum payment obligation to Contractor through **December 31, 2023,** shall be no greater than **ONE MILLION FIVE HUNDRED THIRTY-ONE THOUSAND FORTY-THREE DOLLARS ($1,531,043)** specified as follows:

Building Strengthening Protective Factors	In Home Safety Monitoring	Family Life Skills Program	**Total**
Fiscal Year 2018-19 September 1, 2018 through June 30, 2019	$99,146	$39,968	**$139,114**
Fiscal Year 2019-20 July 1, 2019 through June 30, 2020	$210,000	$47,961	**$257,961**
Fiscal Year 2020-21 July 1, 2020 through June 30, 2021	$263,500	$47,961	**$311,461**
Fiscal Year 2021-22 July 1, 2021 through June 30, 2022	$263,500	$47,961	**$311,461**
Fiscal Year 2022-23 July 1, 2022 through June 30, 2023	$263,500	$47,961	**$311,461**
Fiscal Year 2023-24 July 1, 2023 through December 31, 2023	$175,605	$23,980	**$199,585**
Total	**$1,275,251**	**$255,792**	**$1,531,043**

3. Section XVI. of **Exhibit C** to the Agreement is hereby amended to read as follows:

XVI. INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

DocuSign Envelope ID: 1C748AD2-7648-4195-935A-72657332AD07

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. **Additional Insured Status** - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. **Primary Coverage** - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. **Notice of Cancellation** – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. **Waiver of Subrogation** – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

DocuSign Envelope ID: 1C748AD2-7648-4195-935A-72657332AD07

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

DocuSign Envelope ID: 1C748AD2-7648-4195-935A-72657332AD07

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Agreement Documents.

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

4. **Exhibits D.1** and **D.2.** of the Agreement are hereby revised to read as attached.

5. All attachments to this Fifth Amendment are incorporated herein by this reference.

6. Except as specifically amended by this Fifth Amendment and any prior amendments, the Agreement shall remain in full force and effect according to its terms.

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 48.

Board of Supervisors **Service Centers**

Meeting Date:	06/06/2023
Brief Title:	Fourth Amendment to Agreement No. 19-274 with Yolo County Housing Authority
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Soua Moua, Interim Service Centers Branch Director, Health and Human Services Agency, x2702
Supervisorial District Impact:	Countywide

Subject
Approve fourth amendment to Lease Agreement No. 19-274 with Yolo County Housing to extend the term of the agreement through June 30, 2024; add funding in the amount of $1,315,866 for 2023-24 for a new maximum payment obligation of $2,736,356 to provide housing support to CalWORKs referred families experiencing homelessness; and to update and clarify language in the agreement. (No general fund impact) (Sullivan)

Recommended Action
Approve fourth amendment to Lease Agreement No. 19-274 with Yolo County Housing to extend the term of the agreement through June 30, 2024; add funding in the amount of $1,315,866 for 2023-24 for a new maximum payment obligation of $2,736,356 to provide housing support to CalWORKs referred families experiencing homelessness; and to update and clarify language in the agreement.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
On or about December 17, 2019 the County entered into Lease Agreement No. 19-274 with Yolo County Housing (YCH) to provide a master lease agreement with Portale Properties, LLC for 12 units in the Merkley Apartment complex for availability to CalWORKs homeless families as referred by the Yolo County CalWORKs program. These units meet livable standards pursuant to the American with Disabilities Act (ADA). YCH has been providing full scope property management services; ongoing site maintenance; tenant relations and are located in Woodland and West Sacramento. The Yolo County CalWORKs program has been providing case management services for CalWORKs homeless families that reside in the Merkley apartment complex; provide financial support services and has paid YCH on behalf of the tenants.

On or about April 12, 2022, the Parties amended the agreement to extend the services through June 30, 2023; added funding for fiscal year 2022-23; and added an optional extension for fiscal year 2023-24 to continue providing housing support to CalWORKs families experiencing homelessness.

On or about August 30, 2022, the Parties further amended the agreement to add an additional 10 service units called Sal's units for a total of twenty-two (22) units to support CalWORKs families experiencing homelessness. The amendment also increased the monthly rental and property management fees as needed to continue providing these services.

On or about November 22, 2022, the Parties further amended the agreement to add $50,000 to the contract budget for fiscal year 2022-23 and the available optional extension for extraordinary maintenance/emergency repairs and other related expenses associated with client-occupancy that exceed normal wear and tear. These costs were originally contemplated in the underlying lease agreement but were inadvertently left out of the contract budget.

HHSA request approval of this fourth amendment to extend the term of the Agreement through June 30, 2024; add funding in the amount of $1,315,866 for fiscal year 2023-24; add 16 new units called Tovar units for a total of 38 units; and update and clarify language in the Agreement.

Performance Measures included in this Agreement are as follows:
Performance Measures are not associated with this agreement.

Collaborations (including Board advisory groups and external partner agencies)
County Counsel has approved this Agreement as to form.

Competitive Bid Process/Vendor Performance
Per the Yolo County Procurement Policy dated January 1, 2019, the services included in this agreement are exempt from the competitive selection process, as this agreement is with a local government entity.

The Department confirms Yolo County Housing Authority has performed satisfactorily on the current agreement.

Fiscal Information
Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$1,315,866
Amount budgeted for expenditure	$1,315,866
Additional expenditure authority needed	$0
One-time commitment	Yes

Source of Funds for this Expenditure	
CalWORKs	$1,315,866

Further explanation as needed
No general funds are required by this action. These services will be funded by CalWORKs. The action increases the contract maximum by $1,315,866 for a total of $2,736,356 for the period of October 15, 2019 through June 30, 2024. The amount of $1,315,866 is included in the HHSA proposed budget for fiscal year 2023-24.

The following is the breakdown of funding for this agreement.

CFDA #93.558	FY 2019-20 Oct 15, 2019 through June 30, 2020	FY 2020-21 July 1, 2020 through June 30, 2021	FY 2021-22 July 1, 2021 through June 30, 2022	FY 2022-23 July 1, 2022 through June 30, 2023	FY 2023-24 July 1, 2023 through June 30, 2024	Total
Lease (12 Merkley units)	$153,600 8-month lease Nov 2019 through June 2020	$230,400 12-month lease July 2020 through June 2021	$230,400 12-month lease July 2021 through June 2022	$280,800 12-month lease July 2022 through June 2023	$280,800 12-month lease July 2023 through June 2024	$1,176,000.00
Lease (10 Sal's units)	N/A	N/A	N/A	$233,670 12-month lease July 2022 through June 2023	$267,000 12-month lease July 2023 through June 2024	$500,670.00
Lease (16 Tovar units)	N/A	N/A	N/A	N/A	$358,800 12-month lease July 2023 through June 2024	$358,800.00

FOURTH AMENDMENT
(BOS AGREEMENT NO. ____-____)

This Fourth Amendment to Agreement No. 19-274 ("Fourth Amendment") is made and entered into as of the last date signed below, by and between the County of Yolo, a political subdivision of the State of California ("County"), and Yolo County Housing, a public body corporate and politic authorized to do business in the State of California ("YCH"), jointly referred to as the "Parties" herein and who agree as stated below.

WHEREAS, on or about December 17, 2019, the Parties entered into Agreement No. 19-274 ("Agreement"); and

WHEREAS, on or about April 12, 2022, the Parties amended the Agreement via the First Amendment; and

WHEREAS, on or about August 30, 2022, the Parties further amended the Agreement via the Second Amendment; and

WHEREAS, on or about November 22, 2022, the Parties further amended the Agreement via the Third Amendment; and

WHEREAS, the Parties would now like to amend the Agreement as previously amended to:

1. Revise **Section 2.** to extend the term of the Agreement through June 30, 2024; and
2. Revise **Section 4.** to increase funding in the amount of $1,315,866 for a new contract maximum of $2,736,356.60; and
3. Revise **Section 14.** to update contacts and method of delivery for notices; and
4. Revise **Paragraph II.A.1.** of **Exhibit A** to add new property address for Tovar units effective July 1, 2023; and
5. Revise **Paragraph II.B.3.** of **Exhibit A** to update monthly rents and property management costs; and
6. Add **Paragraph II.B.5.** of **Exhibit A** to add language regarding Habitability costs; and
7. Revise **Paragraph II.C.1.** of **Exhibit A** to increase the number of units from 22 to 38 by adding a service location referred to as Tovar units; and
8. Revise **Exhibit B** to:
    a. add funding in the amount of $1,315,866 for Fiscal Year (FY) 2023-24 for a new contract maximum of $2,736,356.60; and
    b. update budget for FY 2022-23 and add a budget for FY 2023-24; and
9. Revise **Exhibit C** to update per County's new insurance requirements.

NOW, THEREFORE, IT IS HEREBY AGREED AS FOLLOWS:

1. Section 2. of the Agreement is hereby amended to read as follows:

2. Term. The Term of this Agreement shall begin as of October 15, 2018 ("Effective Date") and terminate as of June 30, 2024 ("the Term").

//

2. Section 4. of the Agreement is hereby amended to read as follows:

4. Compensation. Subject to YCH's satisfactory and complete performance of all the terms and conditions of this Agreement, and upon YCH's submission of an appropriate claim, County shall pay YCH no more than a total amount of $2,736,356.60, in accordance with Exhibit B.

3. Section 14. of the Agreement is hereby amended to read as follows:

14. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and YCH at their respective addresses as follows:

YCH:	**County:**
Yolo County Housing Authority	Yolo County Health and Human Services Agency
147 W. Main Street	137 N. Cottonwood Street
Woodland, CA 95695	Woodland, CA 95695
Ian Evans, Executive Director	Nolan Sullivan, Director

In lieu of written notice to the above addresses, any party may provide notices through the use of email provided the following email addresses are used:

Contractor:	**County:**
Ian.Evans@ych.ca.gov	Contracts Unit: HHSAContracts@YoloCounty.org
	Contract Administrator: Laura.Munoz@YoloCounty.org

Any party may change the address or email address to which such communications are to be given by providing the other parties with written notice of such change at least fifteen (15) calendar days prior to the effective date of the change.

All notices shall be effective upon receipt and shall be deemed received through delivery if personally served or served using email, or on the fifth (5th) day following deposit in the mail if sent by first class mail.

4. Paragraph II.A.1. of **Exhibit A** to the Agreement is hereby amended to read as follows:

1. Consult and collaborate as needed to ensure a successful partnership with the following:
    a. Portale Properties, LLC for the properties located at:
        i. 1811 and 1815 Merkley Avenue, West Sacramento, CA 95691; and
    b. Salvador Puente for the property located at
        i. 165 Fourth Street, Woodland, CA 95695; and
    c. MPE Holdings, Inc. for properties located at
        i. 1308 East Oak Avenue, Woodland, CA 95776; and
        ii. 1107, 1107B, 1105 and 1105B Gum Avenue, Woodland, CA 95695.

5. Paragraph II.B.3. of **Exhibit A** to the Agreement is hereby amended to read as follows:

3. Provide financial support services, paid to YCH on behalf of the tenants by the 7th day of each month including:

//

a. Effective October 15, 2019 through June 30, 2023

	12 Merkley Units	10 Sal's Units
Rent	$1,100 monthly per unit *(effective through 6/30/2022)* $1,300 monthly per unit *(effective 7/1/22)*	$1,575 monthly per unit *(effective 7/1/22)*
Property Management	$450 monthly per unit *(effective through 6/30/2022)* $650 monthly per unit *(effective 7/1/22)*	$650 monthly per unit *(effective 7/1/22)*
Management Staff (part time rate)	$76 monthly per unit (*effective 7/1/22)*	
Maintenance Staff	$256 monthly per unit (*effective 7/1/22)*	

b. Effective July 1, 2023

Monthly Rent per unit		
12 Merkley Units	10 Sal's Units	16 Tovar Units
$1,300 per unit	$1,575 per unit	$1,700 per unit – East Oak Ave $2,350 per unit – 1105/1105B Gum Ave $2,400 per unit – 1107/1107B Gum Ave

6. Paragraph II.B.5. of **Exhibit A** to the Agreement is hereby added to read as follows:

5. Issue one-time Habitability payments to YCH associated with this Project
    a. $86,658 to YCH for Habitability costs which include $53,328 for Tovar units and $33,330 for Sal's units. Costs are designated to update the bathrooms, flooring and paint to ensure adequate living conditions and move in ready for families.

7. Paragraph II.C.1. of **Exhibit A** to the Agreement is hereby amended to read as follows:

1. Execute a master lease agreement to allow 12 Merkley Units, 10 Sal's Units and 16 Tovar Units to be available for CalWORKs homeless families referred by the County.

8. Exhibit B to the Agreement is hereby amended to read as attached.

9. Exhibit C to the Agreement is hereby amended to read as attached

10. All attachments to this Fourth Amendment are incorporated herein by this reference.

11. Except as specifically amended by this Fourth Amendment and any prior amendment, the Agreement shall remain in full force and effect according to its terms.

[Signatures follow]

EXHIBIT B – METHOD OF PAYMENT AND BUDGET

A. Regular Annual Compensation

1. County will compensate YCH for the costs set forth in the table below (based upon monthly claims), up to a total amount not to exceed **TWO MILLION SEVEN HUNDRED THIRTY-SIX THOUSAND THREE HUNDRED FIFTY-SIX DOLLARS AND SIXTY CENTS ($2,736,356.60)** for the period of **October 15, 2019 through June 30, 2024.**

CFDA #93.558	FY 2019-20 Oct 15, 2019 through June 30, 2020	FY 2020-21 July 1, 2020 through June 30, 2021	FY 2021-22 July 1, 2021 through June 30, 2022	FY 2022-23 July 1, 2022 through June 30, 2023	FY 2023-24 July 1, 2023 through June 30, 2024	**Total**
Lease (12 Merkley units)	$153,600 8-month lease Nov 2019 through June 2020	$230,400 12-month lease July 2020 through June 2021	$230,400 12-month lease July 2021 through June 2022	$280,800 12-month lease July 2022 through June 2023	$280,800 12-month lease July 2023 through June 2024	$1,176,000.00
Lease (10 Sal's units)	N/A	N/A	N/A	$233,670 12-month lease July 2022 through June 2023	$267,000 12-month lease July 2023 through June 2024	$500,670.00
Lease (16 Tovar units)	N/A	N/A	N/A	N/A	$358,800 12-month lease July 2023 through June 2024	$358,800.00
Paid to Asset Manager	$0	$0	$0	$87,648	$323,580	$411,228.00
Start-Up (Merkley Only)	$120,642.60	N/A	N/A	N/A	N/A	$120,642.60
Habitability Costs (Sal and Tovar Only)	N/A	N/A	N/A	$33,330	$53,328	$86,658.00
Extraordinary Maintenance/ Emergency Repairs	$0	$0	$0	$50,000	$0	$50,000.00
Indirect	$0	$0	$0	$0	$32,358	$32,358.00
Total	**$274,242.60**	**$230,400.00**	**$230,400.00**	**$685,448.00**	**$1,315,866.00**	**$2,736,356.60**

//

//

2. Total Per Unit:

a. effective October 15, 2019 through June 30, 2023

	12 Merkley Units	10 Sal's Units
Rent	$1,100 monthly per unit *(effective through 6/30/2022)* $1,300 monthly per unit *(effective 7/1/22)*	$1,575 monthly per unit *(effective 7/1/22)*
Property Management	$450 monthly per unit *(effective through 6/30/2022)* $650 monthly per unit *(effective 7/1/22)*	$650 monthly per unit *(effective 7/1/22)*
Management Staff (part time rate)	$76 monthly per unit (*effective 7/1/22)*	
Maintenance Staff	$256 monthly per unit (*effective 7/1/22)*	

b. effective July 1, 2023

Monthly Rent per unit		
12 Merkley Units	10 Sal's Units	16 Tovar Units
$1,300 per unit	$1,575 per unit	$1,700 per unit – East Oak Ave $2,350 per unit – 1105/1105B Gum Ave $2,400 per unit – 1107/1107B Gum Ave

3. Other Costs:

a. Startup and Habitability one-time payments costs, not to exceed ($207,300.60) associated with this project as described in Exhibit A-Scope of Work.

b. County shall be responsible for costs associated with client-occupant damages that exceed normal wear and tear and large-scale house component failure. YCH shall provide an estimate to County of these costs prior to initiating work. County shall provide written permission to begin work and approval shall not be unreasonably withheld by County, subject to available funding, as set forth in the Extraordinary Maintenance/Emergency Repairs line items in the Fee Schedules below. YCH shall invoice County for the approved work and payment shall be made in accordance with Section B.

B. Amendment Authority

1. Procurement Manager's Authority: The Yolo County Procurement Manager ("Procurement Manager") may approve and execute amendments regarding allocation of funds between categories of services, scope of services, billing rates, and other contract language changes set forth elsewhere in this Agreement provided the modifications are generally consistent with the original approved scope of the contract. This authority includes the ability to approve and execute amendments to increase to the maximum payment obligation, provided the increase is within the Procurement Manager's Authority, as prescribed in the Yolo County Procurement Policy.

2. Yolo County Board of Supervisors' Authority: All other authority to approve and execute amendments or exercise option year(s) related to this Agreement is reserved by the Yolo County Board of Supervisors.

C. Method of Payment

1. As described in Exhibit A, Scope of Service, start-up costs shall be paid as follows;

a. YCH shall submit monthly invoices to County detailing the services provided, and an itemization of the actual expenses for which reimbursement is requested. Any claim for additional services pursuant to Section A shall also include a copy of the County's written approval in advance of such services being provided. If requested by the County, YCH shall provide any further documentation to verify the compensation and reimbursement sought by YCH.

b. Within fifteen (15) calendar days of the receipt of YCH's detailed invoice, the County shall either authorize payment or advise YCH in writing of any concerns that the County has with the invoice and any need for further documentation.

c. Within thirty (30) calendar days of the County's authorization for payment of an invoice, the County Auditor-Controller shall either issue the payment or advise YCH in writing of any concerns that the County Auditor-Controller has with the request and any need for further documentation.

2. As described in Exhibit A, Scope of Service, monthly rents shall be paid as follows:

a. YCH shall submit monthly invoices to County detailing the monthly rent and property management costs as described in Exhibit A. Claims shall be submitted to the County by the 15th of the prior month in which the rent it due.

b. County shall authorize payment to YCH on behalf of the tenants as described in Exhibit A, by the 7th day of the month in which the rent is due.

c. County prefers to receive claims for payment via an electronic format sent to: HHSA.AccountsPayable@yolocounty.org. All claims shall be submitted with any required supporting documentation accompanying the claim. If a claim contains confidential client information, the claim and supporting documentation must be encrypted for transmission.

Claims, with any required supporting documentation, may also be submitted via US Postal Service mail addressed to:

Health and Human Services Agency
137 North Cottonwood Street
Woodland, California 95695
Attention Accounts Payable.

7	**Total**	**$1,315,866**

EXHIBIT C – INSURACNE REQUUIREMENTS

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements:

1. Minimum Scope of Insurance – Coverage shall be at least as broad as the latest version of the following:

a. Commercial General Liability: Insurance Services Office form CG 000. The policy shall not contain any exclusions contrary to the Agreement, including but not limited to endorsements or provisions limiting coverage for 1) Contractual liability such as ISO CG 24 26 or 21 29; or 2) cross liability or suits by one insured against another.

b. Automobile Liability: Insurance Services Office form CA 00 01, code 1- Any Auto or including Hired and Non-Owned vehicles.

c. Workers' Compensation and Employers' Liability: Workers' Compensation insurance as required by the State of California and Employers' Liability.

d. Professional Liability (Errors and Omissions) (If applicable, see below)

2. Minimum Limits (as applicable) - Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $2,000,000/occurrence and $4,000,000 annual aggregate or an aggregate of $2,000,000 that applies separately to this project (ISO CG 25 03 or 25 04).

b. Automobile Liability – $1,000,000 per accident for bodily injury and property damage

c. Professional Liability/Malpractice/Errors and Omissions –$2,000,000 per occurrence and annual aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, or other professional contractors, such as computer and software designers the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

3. Other Insurance Provisions

a. **Additional Insured Status** - The County, its officers, agents, employees and volunteers shall be named as additional insured on the CGL policy with respect to liability arising out of work or operations performed by or in behalf of the Contractor including, materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 10 11 85 or if not available, through the addition of both CG 20 37 and one of the following: CG 20 10, CG 20 26, or CG 20 33). [NOTE: Evidence of additional insured is needed as a separate endorsement or comparable policy language due to wording on the certificate negating any additional coverage listed writing in the description box.]

b. Primary Coverage - The Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

c. Notice of Cancellation – Each insurance policy required above shall provide that coverage shall not be cancelled, except with notice to the County.

d. Waiver of Subrogation – Contractor hereby grants to the County a waiver of any right to subrogation which any insurer of said Contractors may acquire against the County by virtue of the payment or any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.

4. The limits of Insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and noncontributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

5. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

6. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

7. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

8. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A:VII, unless otherwise approved by the County Risk Manager.

9. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

10. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original policies or endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide

complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this Agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the

E. Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/and or Contractor shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the Agreement prior to commencement of any work and General Contractor/and or Contractor will provide proof of compliance to the County of Yolo. (Coverage can be provided in the form or an endorsement to the Contractor's insurance (at least as broad as CG 20 38 for operations and CG 20 40 for completed operations).

F. Contractor shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event Contractor fails to obtain or maintain completed operations coverage as required by this Agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor

To: The Chair and Members of the Board of Supervisors

Consent-Health & Human Services 49.

Board of Supervisors **Service Centers**

Meeting Date:	06/06/2023
Brief Title:	Yolo Wayfarer Center Subsidized Employment 24-4
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Soua Moua, Interim Service Centers Branch Director, Health and Human Services Agency, x2702
Supervisorial District Impact:	Countywide

Subject

Approve Subsidized Employment Agreement No. SE 24-4 with Yolo Wayfarer Center in the amount of $16,500 for the period of July 1, 2023 through June 30, 2024 for the provision of training for California Work Opportunity and Responsibility to Kids (CalWORKs) clients. (No general fund impact) (Sullivan)

Recommended Action

A. Approve Subsidized Employment Agreement No. SE 24-4 with Yolo Wayfarer in the amount of $16,500 for the period of July 1, 2023 through June 30, 2024 for the provision of training for California Work Opportunity and Responsibility to Kids (CalWORKs) clients; and

B. Delegate authority to the Director of the Yolo County Health and Human Services Agency or her/his designee to1) exercise optional year extensions up to $16,500 per fiscal year for fiscal years 2024-25, 2025-26 and 2026-27 and 2) issue related option year notices. Please see Section 4. of Att. A. Agreement.

Strategic Plan Goal(s)

Thriving Residents

Reason for Recommended Action/Background

Subsidized employment provides employers with financial support for hiring CalWORKs clients in the Welfare-to-Work (WTW) program, with the goal of transferring the client to unsubsidized employment. Subsidized Employment is a critical component of the CalWORKs Program, in particular for assisting in meeting the WTW program requirements. Non-profit, private and public agencies contract with Yolo County to provide subsidized employment opportunities to our CalWORKs clients. These agencies act as the employer of record to provide work experience and training to our clients. Upon presentation of a properly documented claim, Yolo County reimburses the agency 100 percent of the wages and up to 10 percent administrative costs associated with the placements.

Under the Expanded Subsidized Employment (ESE) Program created under AB 74, eligible CalWORKs clients are placed for a maximum of six months, unless the county determines the client meets the requirements for an extension. Extensions may be granted no more than twice, in three month increments. Extensions may be granted if the additional time will increase the likelihood of either the client obtaining unsubsidized employment with the agency, or the client obtaining specific skills and experiences relevant for unsubsidized employment in a particular field. Placements are not to exceed a maximum of 12 months.

The purpose of the agreement with the Yolo Wayfarer Center is to accommodate placements and/or longer placement periods for Subsidized Employment Training for CalWORKs clients.

Collaborations (including Board advisory groups and external partner agencies)

County Counsel approved this Agreement as to form.

Competitive Bid Process/Vendor Performance

This is not a competitive bid process. A press release is used to solicit interested parties and Yolo Wayfarer Center responded to the press release. The press release is included as Attachment B.

Fiscal Information

Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure	
Total cost of recommended action	$16,500
Amount budgeted for expenditure	$16,500
Additional expenditure authority needed	$0
On-going commitment (annual cost)	$16,500

Source of Funds for this Expenditure	
Federal/State	$16,500

Further explanation as needed

No general funds are required by this action. These services will be funded by Federal and State. The total amount of this action is $16,500 for the period of July 1, 2023 through June 30, 2024. The amount of $16,500 is included in the HHSA proposed budget for fiscal year 2023-24. The related funding will be included in the requested budget process for future fiscal years.

The following is the breakdown of funding for this agreement.

Fiscal Year 2023-24 July 1, 2023 through June 30, 2024	**Total**
$16,500	**$16,500**

This agreement also includes 3 one-year optional extensions for Fiscal Year 2024-25; 2025-26 and 2026-27 in an amount less than or equal to $16,500 per fiscal year.

Option Year/ Fiscal Year (OY/FY)	Revised Agreement Expiration Date Per OY/FY	Maximum Increased Funding Amount Per OY/FY	Revised Agreement Lifetime Maximum Per OY/FY
OY/FY 2024-25	On or before June 30, 2025	Less than or equal to $16,500	Less than or equal to **$33,000**
OY/FY 2025-26	On or before June 30, 2026	Less than or equal to $16,500	Less than or equal to **$49,500**
OY/FY 2026-27	On or before June 30, 2027	Less than or equal to $16,500	Less than or equal to **$66,000**

In no event shall the term of the Agreement extend beyond June 30, 2027, nor shall the total contract maximum exceed the amount of $66,000, unless otherwise agreed to in writing by the parties and in conformity with the then-current County Procurement Policy.

AGREEMENT NO. _____
(Agreement to Participate in Welfare to Work – Subsidized Employment Program)

This Agreement ("Agreement") is made and entered into as of the last date signed below by and between the County of Yolo, a political subdivision of the State of California ("County"), and Yolo Wayfarer Center dba Fourth and Hope("Worksite"), collectively referred to as "the Parties" herein and who agree as follows:

WHEREAS, County has received grant funds from the Department of Health and Human Services Agency, Administration for Children and Families, Temporary Assistance for Needy Families, TANF, Catalog of Federal Domestic Assistance (CFDA) Number: 93.558 Social Security Act, Title IV, Part A, 42 U.S.C 601 et seq, administered by the State of California, to assist needy families with children so that children can be cared for in their own homes; to reduce dependency by promoting job preparation, work, and marriage; to reduce and prevent out-of-wedlock pregnancies; and to encourage the formation and maintenance of two-parent families; and

WHEREAS, County desires to retain a person or business to provide subsidized employment; and

WHEREAS, Worksite warrants that it is qualified and competent to provide subsidized employment.

NOW, THEREFORE, the Parties agree to the following:

1. SCOPE OF SERVICES:

Worksite agrees to provide all of the services, subject to the terms and conditions, set forth in this Agreement and in the following exhibits and attachments attached to and incorporated into this Agreement by this reference:

Exhibit A:	Subsidized Employment Training/Employment Plan
Exhibit B:	Claims and Reimbursement
Exhibit C:	Subsidized Employment Statement of Understanding
Exhibit D:	Subsidized Employment Evaluation
Exhibit E:	Participant Sexual Harassment Complaint Procedure
Exhibit F:	Definition of Terms
Exhibit G:	Instructions on How to Submit a Claim
Exhibit H:	Certification Regarding Debarment, Suspension and Other Responsibility Matters
Exhibit I:	Special Terms and Conditions for Federal Funds

In the event of any conflict between any of the provisions of this Agreement (including exhibits), the provision that requires the highest level of performance from Worksite for the County's benefit shall prevail.

2. FEES AND PAYMENT SCHEDULE:

The fees and payment schedule for furnishing services under this Agreement shall be based on the reimbursement rate set forth in **Exhibit B**. The fees shall remain in effect for the entire term of the Agreement. Worksite shall provide County with its Federal Tax I.D. number prior to submitting the first invoice.

3. MAXIMUM COST TO THE COUNTY:

In no event will the cost to County for the services provided under this Agreement exceed the maximum amount of **$16,500,** including gross wages, overhead and administration costs, which include direct non-salary expenses and Workers' Compensation costs. Of that maximum amount payable, overhead and administration costs may not exceed **$1,500**. The amount of this Agreement may be reviewed and increased with the written consent of County if placements warrant it.

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

Fiscal Year 2023-24 July 1, 2023 through June 30, 2024	**Total**
$16,500	**$16,500**

4. TERM OF AGREEMENT:

A. This Agreement shall commence on **July 1, 2023** and shall terminate on **June 30, 2024**. Certificate(s) of Insurance must be current as of the Effective Date and, if scheduled to lapse prior to termination date, must be updated before final payment will be made to Worksite. The final invoice must be submitted within 30 days of completion of the stated scope of services or expiration of this Agreement, whichever is sooner.

B. At the County's option, this Agreement may be extended for three (3) additional twelve (12) month periods on the same terms and conditions as set forth in this Agreement upon written notice issued by the Yolo County Health and Human Services Agency Director, and/or her/his designee to the Worksite.

C. If the Agreement is extended pursuant to Paragraph 4.B. above, the maximum payment obligation to Worksite during the extension period shall not exceed $16,500 per additional extension year, for a maximum payment obligation of $66,000, as outlined below:

Option Year/ Fiscal Year (OY/FY)	**Revised Agreement Expiration Date Per OY/FY**	**Maximum Increased Funding Amount Per OY/FY**	**Revised Agreement Maximum Payment Obligation Per OY/FY**
OY/FY 2024-25	On or before June 30, 2024	Less than or equal to $16,500	Less than or equal to **$33,000**
OY/FY 2025-26	On or before June 30, 2024	Less than or equal to $16,500	Less than or equal to **$49,500**
OY/FY 2026-27	On or before June 30, 2024	Less than or equal to $16,500	Less than or equal to **$66,000**

5. PROVISION OF WORK ACTIVITY, EQUIPMENT AND MATERIALS

A. County will pay a wage subsidy to Worksite for providing a subsidized employment participant ("Trainee") with a subsidized paid opportunity to work. Worksite shall act as the employer of record for Trainee. Worksite must treat Trainee as a regular hire and treat him/her consistently with other employees.

B. Worksite shall provide each Trainee with the training set forth in the individually developed training/employment plan, and with the assistance to successfully acquire the skills and knowledge to function as a satisfactory employee.

C. During training, Worksite shall provide each Trainee:

i. Orientation to Worksite (conditions of work, employer expectations, rules, written grievance procedures, etc.), including but not limited to those items set forth in the Statement of Understanding developed for each Trainee;

ii. Reasonable and proper supervision and instruction regarding duties and work activity;

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

iii. Safety instructions and equipment necessary for protection against injury and damage, in accordance with California Occupational Safety and Health Act of 1993 (Cal/OSHA) and child labor law guidelines;

iv. The same working conditions as current Worksite employees, such as rest and lunch periods; and

v. A safe and sanitary work environment.

D. Worksite agrees to:

i. Report Trainee's attendance and other information as may be requested by County in a timely manner on forms provided by County. Worksite understands that Trainee may not participate in the work activity more than the number of hours per week authorized by County. Hours worked will in no instance exceed 40 hours per week;

ii. Be available to confer with County on issues of mutual concern;

iii. Have Trainee perform duties at the training level;

iv. Provide each Trainee with sufficient meaningful work to occupy all of the time Trainee is assigned to Worksite;

v. Immediately report to County any injury a Trainee sustains while under the supervision of Worksite;

vi. Comply with all applicable labor laws;

vii. Be responsible for ensuring any Trainee employed by the Worksite completes any required employment form or other documentation as would be a normal and customary part of the employment process, in addition to all required forms and documentation required by County;

viii. Ensure that Trainee has not been an active employee of the Worksite in the 30 days prior to the effective date of this Agreement. By signing this Agreement, Worksite further certifies that no employee employed by Worksite was subject to lay-off or otherwise terminated for the express purpose of being re-employed under this Agreement. This program may only add to Worksite's workforce, not subsidize Worksite's current workforce; and

ix. Ensure Trainee is not involved in political, religious, lobbying or union activities while under supervision of Worksite.

DI. County agrees to:

i. Provide orientation to Worksite staff as to policies and procedures for Subsidized Employment program;

ii. Provide Worksite with a Subsidized Training/Employment Plan for each Trainee;

iii. Provide Worksite with emergency medical release forms signed by Trainee(s), parent, or legal guardian prior to any work assigned to or performed by Trainee(s); and

iv. Monitor each Trainee periodically for job readiness and, when appropriate, transition a Trainee to employment or other job training and development that best meets the needs of that Trainee and is consistent with the Subsidized Employment program.

//

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

6. MONTHLY EVALUATIONS

Worksite shall submit to County no later than the 15th day of each month, a report evaluating each Trainee's progress during and through the preceding month, in the form attached as **Exhibit D** or on such other form as may be developed by the County.

7. WORKSITE DISCRETION

Worksite shall have the right to refuse to accept any Trainee for lawful reasons and the right to discontinue job training and development to any Trainee for good cause. Good cause includes, but is not limited to, failure by the Trainee to comply with the Worksite's employment rules and regulations; insubordination; and frequent absenteeism or tardiness. Worksite agrees that prior to terminating any Trainee, if requested by County, it shall submit the matter to an informal resolution process with County.

8. AVAILABILITY OF RECORDS

County through any authorized representative shall have access to and the right to examine, audit, excerpt and transcribe any books, documents, papers and records of Worksite that, in the opinion of the County, are related to the Worksite's provision of services to the Trainee pursuant to this Agreement. All such records must be kept and maintained for a period of not less than five (5) years after completion of the Agreement or until an audit is completed by the State of California or the United States Department of Labor or any other duly authorized Federal agency or department, and all questions arising there from are finally resolved, whichever is later. Final resolution means that all litigation related to this Agreement is completed.

9. MONITORING

County has the right to observe and monitor all conditions and activities involved in the performance of this Agreement. Worksite also understands and agrees that County staff has the right to make unannounced monitoring visits to Worksite's facility to observe and monitor all conditions and activities involved in the performance of this Agreement.

10. NEPOTISM

No relative by blood, adoption or marriage of any executive or employee of the Worksite or County will receive more favorable treatment when considered for work experience/community service training by Worksite.

11. TERMINATION

A. Either party may terminate this Agreement for any reason by providing 10 days' prior written notice of termination to the other party.

B. The County may immediately terminate this Agreement if:

- **i.** By any cause, Worksite fails to fulfill any of its obligations under this Agreement, including, but not limited to, the applicable Federal suspension and debarment requirements of Exhibit H;
- **ii.** Worksite violates any provision of this Agreement;
- **iii.** The Subsidized Employment Program under which this Agreement is made is terminated; or

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

iv. Worksite is unable or unwilling to comply with such additional conditions as may be applied by the State of California and the United States Department of Labor to the grant under which this Agreement is made.

C. The County may immediately terminate a Subsidized Employment plan if, through any eligibility review or verification process required by the applicable regulations, a Trainee is found to be ineligible for participation for any reason.

D. The termination of this Agreement shall not relieve Worksite of liability to County for any damages sustained by the County by virtue of any breach of this Agreement by Worksite, and County may offset any such damages against any reimbursement or payments otherwise due Worksite pursuant to this Agreement or any other agreement(s) or obligations. County may also take any corrective action as otherwise provided by State or Federal laws and regulations.

12. INDEPENDENT WORKSITE STATUS

A. It is specifically agreed that in the making and execution of this Agreement, Worksite and any agents and employees of Worksite are independent contractors and are not and shall not be construed to be agents or employees of the County and that Worksite shall have no authority, expressed or implied, to act on behalf of County or to bind County to any obligation whatsoever.

B. As an independent contractor, Worksite is not subject to the direction and control of County except as to the final result contracted for under this Agreement. County may not require Worksite to change Worksite's manner of doing business but may require redirection of efforts to fulfill this Agreement.

C. Worksite may provide services to others during the same period Worksite provides service to County under this Agreement.

D. Any third persons employed by Worksite shall be under Worksite's exclusive direction, supervision and control. Worksite shall determine all conditions of employment including hours, wages, working conditions, discipline, hiring and discharging or any other condition of employment.

13. ASSIGNMENT; SUBCONTRACTING

No performance of this Agreement or any portion thereof may be assigned or subcontracted by Worksite without the express written consent of County, and any attempt by Worksite to assign or subcontract any performance of this Agreement without consent shall be null and void and shall constitute a breach of this Agreement.

14. NON-DISCRIMINATION IN SERVICES AND BENEFITS

A. Worksite agrees that it will provide services under this Agreement without discrimination based on medical condition, genetic information, marital status, gender, gender identity, gender expression, color, race, creed, national origin, religion, sex, age, sexual orientation, physical or mental disability or military and veteran status in accordance with all applicable Federal, State and County laws and regulations and any administrative directives established by the County Board of Supervisors or the County Administrative Officer, and that it will not deny a trainee any service or benefit, or subject a trainee to segregation or treatment separate or different in any way from that provided to other participants under this Agreement based on medical condition, genetic information, marital status, gender, gender identity, gender expression, color, race, creed, national origin, religion, sex, age, sexual orientation, physical or mental disability or military and veteran status.

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

B. Worksite acknowledges that it has received, read and understood the County's Participant Sexual Harassment Complaint Procedure and further agrees to participate in those procedures should any complaints be presented as set forth in **Exhibit E**.

15. INDEMNIFICATION; INSURANCE

A. Worksite shall defend, indemnify and hold the County harmless from and against any and all liability, loss, expense, attorneys' fees, or claims for injury or damages arising from Worksite's operations or the performance of this Agreement, with the exception of, and in proportion to, matters that are based upon the negligent or intentional acts or omissions of the County, its officers, agents, employees or volunteers. The County shall defend, indemnify and hold Worksite harmless from and against any and all liability, loss, expense, attorneys' fees, or claims for injury or damages arising from the performance of this Agreement, in proportion to, and to the extent that they are based upon, the negligent or intentional acts or omissions of the County, its officers, agents, employees or volunteers; provided, however, that the County's obligations hereunder shall not extend to or include any claims or other matters based in whole or in part upon any act or omission of the County, its officers, agents, employees or volunteers in selecting, supervising or retaining Worksite.

B. During the term of this Agreement, Worksite shall at all times maintain, at its expense, the following coverages and requirements. The commercial general liability insurance shall include broad form property damage insurance.

1. Minimum Coverages (as applicable). Insurance coverage shall be with limits not less than the following:

a. Commercial General Liability – $1,000,000/occurrence and $2,000,000/aggregate

b. Automobile Liability – $1,000,000/occurrence (general) and $500,000/occurrence (property) (include coverage for Hired and Non-owned vehicles)

c. Professional Liability/Malpractice/Errors and Omissions – $1,000,000/occurrence and $2,000,000/aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, the contractor must provide this insurance. If not, then this requirement automatically does not apply.)

d. Workers' Compensation – Statutory Limits/Employers' Liability - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

2. The County, its officers, agents, employees and volunteers shall be named as additional insured on all but the workers' compensation and professional liability coverages. It shall be a requirement under this agreement that any available insurance proceeds broader than or in excess of the specified minimum Insurance coverage requirements and/or limits shall be available to the Additional Insured. Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any Insurance policy or proceeds available to the named Insured; whichever is greater.

a. The Additional Insured coverage under Worksite's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

//

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

b. The limits of Insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

3. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Worksite changes insurance carriers Worksite shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that Worksite changes to a new carrier prior to receipt of any payments due.

4. Worksite shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement.

5. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

6. Each insurance policy shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after 30 days' prior written notice by certified mail, return receipt requested, has been given to the Director (10 days for delinquent insurance premium payments).

7. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A: VII, unless otherwise approved by the County Risk Manager.

8. The policies shall cover all activities of Worksite, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

9. For any claims relating to this Agreement, the Worksite's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Worksite's liability insurance policy.

10. Worksite shall waive all rights of subrogation against the County, its officers, employees, agents and volunteers.

C. Prior to commencing services pursuant to this Agreement, Worksite shall furnish the County with original endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Worksite shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

D. During the term of this Agreement, Worksite shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

behalf. Upon County's request, Worksite shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

E. Worksite shall maintain insurance as required by this Agreement to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the expiration of this Agreement. In the event Worksite fails to obtain or maintain completed operations coverage as required by this Agreement, County at its sole discretion may purchase the coverage required and the cost will be paid by Worksite.

F. County shall provide accident insurance coverage to cover Trainee's medical costs arising from an accident occurring at the Worksite. Coverage will be limited to the terms of that policy.

16. COMPLIANCE WITH APPLICABLE LAWS

Worksite shall comply with all applicable laws, decisions, statutes, regulations, ordinances, policies and procedures of the United States, the State of California, and local governments.

17. NOTICES

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Worksite at their respective addresses as follows:

Worksite:	**County:**
Attn: Doug Zeck, Executive Director Yolo Wayfarer Center P.O. Box 1248 Woodland, CA 9576	Attn: Nolan Sullivan, Director Health and Human Services Agency 137 North Cottonwood Street Woodland, CA 95695

B. In lieu of written notice to the above addresses, any party may provide notices through the use of email provided the following email addresses are used:

Worksite:	**County:**
dzeck@fourthandhope.org	Contracts Unit: HHSAContracts@YoloCounty.org Contract Administrator: jo.wolz@yolocounty.org

C. Any party may change the address or email address to which such communications are to be given by providing the other parties with written notice of such change at least fifteen (15) calendar days prior to the effective date of the change.

D. All notices shall be effective upon receipt and shall be deemed received through delivery if personally served or served using email, or on the fifth (5th) day following deposit in the mail if sent by first class mail.

18. SUCCESSORS

This Agreement shall inure to the benefit and bind successors of each of the Parties.

19. AUTHORIZED REPRESENTATIVE

The person executing this Agreement on behalf of Worksite affirmatively represents that she/he has the requisite legal authority to enter into this Agreement on behalf of Worksite and to bind Worksite

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

to the terms and conditions of this Agreement. Both the person executing this Agreement on behalf of Worksite and Worksite understand that the County is relying on this representation in entering into this Agreement.

20. FRAUD AND ABUSE

Worksite shall establish management procedures which ensure that County is notified within 24 hours of any suspected or proven fraud, abuse, or criminal acts involving training funds or training funded activities.

21. SEVERABILITY

If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected thereby, if such remainder would then continue to conform to terms and requirements of applicable law.

22. WAIVER

Waiver of breach of any provision of this agreement will not be deemed a waiver of any other breach of the same or different provision.

23. ALTERATION TO AGREEMENT

No alteration or variation of the terms of this Agreement shall be valid and/or binding unless made in writing and signed by the Parties hereto.

23. ENTIRE AGREEMENT

A. This Agreement constitutes the entire agreement between County and Worksite and supersedes all prior negotiations, representations, or agreements, whether written or oral. In the event of a dispute between the Parties as to the language of this Agreement or the construction or meaning of any term hereof, this Agreement shall be deemed to have been drafted by the Parties in equal parts so that no presumptions or inferences concerning its terms or interpretation may be construed against any party to this Agreement.

B. Any action or proceeding arising out of this Agreement shall be filed and resolved in a California State Court located in Woodland, California.

EXHIBIT B
CLAIMS AND REIMBURSEMENT

A. Salary Match

1. The worksite must provide a match of participant salaries, as negotiated with HHSA staff;

2. Worksite shall, during the term of this Agreement, be reimbursed up to 100 percent of the Subsidized Employee(s) Trainee Wages, after satisfactorily completing the responsibilities as prescribed in this Agreement and submitting all required documentation including the timely submission of a complete, correct, and approved invoice documenting the requested Reimbursement.

Worksite shall, during the term of this agreement, be responsible for contributing a minimum of zero percent towards the Subsidized Employee(s) Trainee Wages. Documentation is required and must be submitted timely and accurately, as prescribed in this Agreement, for wage reimbursement to be processed.

3. Ineligible sources of match include but are not limited to:

a. Federal funding

b. Funding used as a match to any federal funding

a. Other Employee wages

b. Employment related taxes, including Payroll Taxes

c. Fringe Benefits

4. Worksite shall comply with the terms and conditions set forth in the Contract Administration Manual for Community Based Organizations (CBO) and Accounting Handbook for CBO which can be found at https://www.yolocounty.org/home/showpublisheddocument?id=3247. Costs must be supported with the appropriate documentation and in accordance with Accounting Handbook for Community-Based Organizations, Section D, Allowable Costs, and Section E, Indirect Costs. Please refer to the Accounting Handbook for CBO, Section D, Allowable Costs, and Section E, Indirect Costs, for further claiming detail.

5. County reserves the right to cap the Wages; Worksite will be notified in writing of the maximum amount of the cap.

6. County is not liable for the payment of any taxes resulting from this Agreement however designated, levied, or imposed, unless County would otherwise be liable for the payment of such taxes in the course of its normal business operation.

B. CLAIMS

1. For each Subsidized Employee Trainee working for Worksite under this Agreement, Worksite shall submit a monthly claim for reimbursement by the 10th of each month, for the prior month's subsidized employment, by submitting an itemized invoice, using a claim form as specified by the County. Worksite may request a current claim form by emailing

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

HHSA.AccountsPayable@yolocounty.org. On the date the May invoice is due, Worksite must also submit an estimated June invoice. An invoice for the actual June expenditures shall be due to the County no later than July 10. The bill will include all expenditures for which warrants have been issued prior to July 1. This billing approved and paid shall constitute full and complete compensation to Worksite for the current fiscal year. Any remaining amount in the current fiscal year shall not roll over to the next fiscal year. Worksite shall also submit a final statement of all services rendered to the County for each fiscal year by July 10.

2. Worksite shall submit with each invoice payroll records providing verification of employment hours, wages, employer-paid payroll taxes, and other payroll costs paid during the billing period. Payroll records shall include copies of payroll summaries including date, name, hours, net amount, taxes withheld, total deductions, total pay, employer taxes, total cost, check number, and copies of weekly time records for each employee working for Worksite under this Agreement. County will not honor invoices without payroll verification.

3. Worksite is responsible for maintaining back up documentation containing line item expenses(s) for:

i. supervisory costs claimed for each employee who provided supervision to the Subsidized Employee Trainee(s).
ii. for employee training costs claimed, documentation evidencing the expenditure(s).

4. County reserves the right to require Worksite to submit, subsequent to invoice submission, copies of supporting or supplemental documentation related to any and all expenses identified on the invoice.

5. County shall render payment to Worksite, as stated above, within 30 days of receipt of a complete, correct, and approved invoice with supporting records.

6. County reserves the right to disallow any claim filed more than 25 days following the month Subsidized Employee Trainee costs are incurred. County additionally reserves the right to disallow any claim filed for the month of June if such claim is not filed on or before July 10 as prescribed above in section B(1) of this Exhibit.

7. Should County, or the state or federal government, disallow any amount claimed by Worksite, Worksite shall reimburse County, or the state or federal government, as directed by County, or the state or federal government, for such disallowed cost.

EXHIBIT E
PARTICIPANT SEXUAL HARASSMENT COMPLAINT PROCEDURE

Background Information: This procedure is a guide for the staff of the Yolo County Health and Human Services Agency (HHSA) to follow when a program participant reports a sexual harassment complaint against a person at the assigned work/training site.

Sexual Harassment Definition: Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when: 1) Submission to such conduct is made either explicitly or implicitly a term of or condition of an individual's employment, 2) Submission to or rejection of such conduct by an individual is used as the basis for employment decisions, affecting such individual, or 3) Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive environment.

Participant Report: When a participant report verbally or in writing to a HHSA case manager or a case manager suspects a participant has been or is being harassed, whether physical or verbal, by a person at an assigned work/training site the case manager will pull the participant from the site until a resolution is determined and notify the division supervisors and managers.

Good sound judgment should be used in each instance to insure the safety and confidentiality of the individuals involved.

Note: If the sexual harassment allegation is made against a HHSA employee, the allegation must be reported to the Employment and Transitional Services (ETS) Division Manager or an ETS Program Supervisor.

The HHSA supervisor will identify all participants reporting to the site supervisor/trainer in question and notify the appropriate case managers to remove those participants from the site until a resolution is reached.

Note: New placements with the site supervisor/trainer in question should not be considered until a resolution is reached.

Participant Interview: The HHSA supervisor will interview the participant no later than 14 days from the date of the complaint and discuss the nature of the allegation(s) with the participant, making sure to ask where the alleged harassment took place, the site person involved, and the type and nature of the harassment.

The HHSA supervisor will interview the other participant(s) reporting to the site supervisor/trainer in question to determine if they experienced harassment, whether physical or verbal, or witnessed harassment, whether physical or verbal, of other participants or employees.

Site Interview: The HHSA supervisor will contact the supervisor responsible for the site supervisor/trainer in question to discuss the allegation(s), determine if the site has a Sexual Harassment Policy, if that policy will be implemented in this instance, and request notification regarding the outcome of the site's investigation.

If the supervisor responsible for the site supervisor/trainer in question requests a meeting with the participant, then the HHSA supervisor will arrange a meeting, be present during the meeting, and document the meeting and any action taken to resolve the allegation(s)

Resolution: Non-valid and valid allegation(s)

1. **Non-valid allegation(s):** If it is determined that the allegations are not valid, the HHSA supervisor will notify the HHSA case manager(s) that the participant(s) can return to the work/training site. If the participant that filed, the original complaint does not choose to return to the site the HHSA case manager will work with the participant to develop a new work/training site.

2. **Valid allegation(s):** If it is determined that the allegations are valid the HHSA supervisor must have written communication from the site stating that the issue has been resolved prior to returning any current or future participants to the work/training site and verify that the site supervisor/trainer in question will not oversee any participant(s). If the site fails to provide a written resolution, then the HHSA Division Manager will provide a written notification stating that neither current participants nor future participants will be placed at the work/training site. If the participant(s) choose not to return to the site, the HHSA case manager(s) will work with the participant(s) to develop a new work/training site.

DocuSign Envelope ID: A987DC5B-ECDE-41DB-ACA7-E4ECE76252C6

EXHIBIT F
DEFINITION OF TERMS

A. CalWORKs – California Work Opportunity and Responsibility to Kids. This program replaced Aid For Dependent Children ("AFDC") in 1997 as part of California's response to federal welfare reform, to bring California's welfare system into compliance with the provisions of the federal welfare reform legislation known as the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, which was signed into law on August 22, 1996.

B. Employee(s) – A person that is eligible and currently participating in the CalWORKs program, or a person qualifying under the Needy Families definition, and is referred by County, or is self-referred, to Worksite, subsequently employed by Worksite and for whom Worksite will submit a claim, or claims, for reimbursement under this Subsidized Employment agreement.

C. Employer of Record – The Worksite who employs Employee(s) and is thereby responsible for all legal obligations and liabilities imposed on an employer as a result of the employment relationship with employee(s).

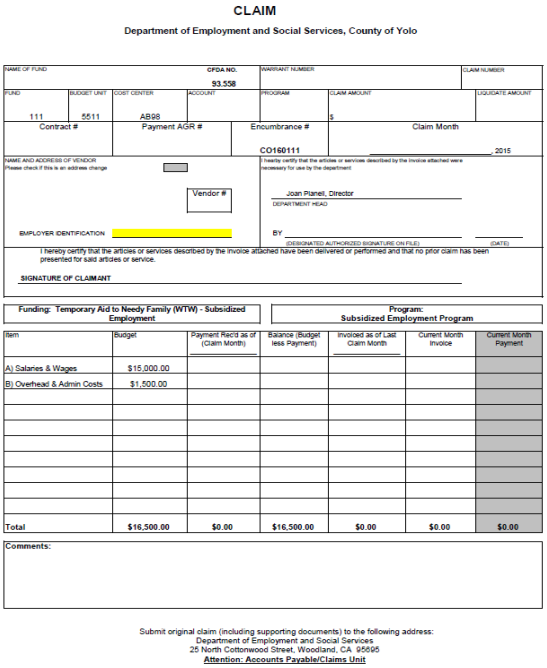
D. Employer-Paid Payroll Taxes – Payroll related taxes that are the obligation of the Worksite and are not deducted from the Employee(s)'s compensation. These include employer paid Federal Insurance Contribution Act (FICA) taxes (such as Social Security and Medicare), and Unemployment Insurance. The determination of whether any other particular payment of money qualifies as Employer-Paid Payroll Taxes shall be made by County in its sole discretion.

E. Fringe Benefits – The Worksite's monetary contributions for health insurance, vision insurance, and/or dental insurance for Employee(s), as well as any other nonwage payment or benefits provided to Employee(s) not qualifying as Other Payroll Costs. Fringe Benefits are not reimbursable to the Employer.

F. Needy Families – Those families not receiving aid under CalWORKs in which a minor child is living with a parent or adult relative caregiver and the family's income is less than 200 percent of the official federal poverty level (FPL) guidelines applicable to the family size.

G. Other Payroll Costs – The Worksite's monetary contributions for workers' compensation insurance premiums. The determination of whether any other nonwage payment or benefit provided to or on behalf of the Employee(s) qualifies as an Other Payroll Cost shall be made by County in its sole discretion.

H. TANF – Temporary Assistance for Needy Families.



I. Unsubsidized Employment or Unsubsidized Employee(s) – The Employer of Record is not reimbursed for any portion of the Employee(s)'s Wages. This includes Employee(s) as defined in section B above for whom reimbursement is not provided as well as any and all other Worksite's employees.

J. Wages – The gross amount of money received by Employee(s) for labor performed by Employee(s), whether the amount is fixed or ascertained by the standard of time, piece, commission basis, or other method of calculation. Wages shall not include any Employer Paid Payroll Taxes, Fringe Benefits for Employee(s), or Other Payroll Costs. The determination of whether any particular payment of money to Employee(s) qualifies as Wages shall be made by County in its sole discretion.

EXHIBIT H
CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

1. Worksite shall comply with all applicable laws, decisions, statutes, regulations, ordinances, policies and procedures of the United States, the State of California, and local governments.

2. Worksite must have a Unique Entity ID number generated by System for Award Management (SAM) and must maintain active and current profiles in the SAM system at www.sam.gov.

3. By signing this Agreement, Worksite agrees to comply with applicable Federal suspension and debarment regulations including, but not limited to, 7 CFR Part 3017, 45 CFR 76, 40 CFR 32 or 34 CFR 85.

4. By signing this Agreement, Worksite certifies to the best of its knowledge and belief, that it and its principals:

   a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency;

   b. Have not within a three-year period preceding this application/proposal/ agreement been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

   c. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in Paragraph 2 herein;

   d. Have not within a three-year period preceding this application/proposal/ agreement had one or more public transactions (Federal, State or local) terminated for cause or default;

   e. Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under federal regulations (i.e., 48 CFR part 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State; and

   f. Will include a clause entitled, "Debarment and Suspension Certification" that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

   g. If Worksite is unable to certify to any of the statements in this certification, Worksite shall submit an explanation to County and County shall have the option of terminating this Agreement immediately or at any time thereafter, upon giving Worksite written notice of such termination, if the explanation is not found satisfactory by the County in its sole discretion.

   h. The terms and definitions in this Agreement have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.

   i. If Worksite knowingly violates this certification, in addition to other remedies available to the Federal Government, the County may terminate this Agreement at any time upon giving Worksite written notice of such termination.

EXHIBIT I
SPECIAL TERMS AND CONDITIONS FOR FEDERAL FUNDS

1. NO OBLIGATION BY THE FEDERAL GOVERNMENT

The Federal Government is not a party to this contract and is not subject to any obligations or liability to the County, Contractor, or any other party pertaining to any matter resulting from this contract.

2. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

The Contractor acknowledges that 31 USC Chapter 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract.

3. SUSPENSION AND DISBARMENT:

a. This Agreement is a covered transaction for purposes of 2 CFR Part 180 and 2 CFR Part 3000. As such the Contractor is required to verify that none of the Contractor, its principals (defined at 2 CFR §180.995), or its affiliates (defined at 2 CFR §180.905) are excluded (defined at 2 CFR §180.940) or disqualified (defined at 2 CFR §180.935).

b. The Contractor must comply with 2 CFR Part 180, Subpart C and 2 CFR Part 3000, Subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

c. This certification is a material representation of fact relied upon by the County. If it is later determined that the Contractor did not comply with 2 CFR Part 180, Subpart C and 2 CFR Part 3000, Subpart C, in addition to remedies available to (name of sub-awarding State agency, if applicable), and County, the Federal Government may pursue available remedies, including but not limited to suspension and/or disbarment.

d. The Contractor agrees to comply with the requirements of 2 CFR Part 180, Subpart C and 2 CFR Part 3000 Subpart C throughout the period of this contract. The Contractor further agrees to include a provision requiring such compliance in its lower tier covered transactions.

County Press Releases

Subsidized Employment Program: An Opportunity for Employers and Job Seekers

Post Date: 07/27/2016 3:20 PM

Press Release

(Woodland, CA) – Yolo County has been working with employers to provide new job opportunities through the Subsidized Employment Program. The program, administered through the Health & Human Services Agency, incentivizes local employers by cutting employment costs when hiring Yolo County residents, while also assisting eligible low-income job seekers otherwise unable to find employment.

The Subsidized Employment Program reimburses participating employers eligible employee wages and unemployment insurance costs for up to a year. This reimbursement is made possible through the CalWORKs Employment Services Program. Jobs made available through the program are not meant to displace current employees and may be, but are not limited to, entry-level positions. While the Yolo County Health & Human Services Agency provides potential employee applicants to participating employers, the employer is fully in control of deciding who to hire. The employer is also responsible for providing supervision and training.

Since the inception of the program, nearly 30 employers have qualified for the Subsidized Employment Program and are working directly with Yolo County to train, hire and, as a result, help get eligible low-income residents back into the working "mainstream" of the community.

"One of Yolo County's strategic goals is Thriving Residents, which includes providing services and opportunities that help residents achieve and maintain self-sufficiency," said Yolo County Health & Human Services Director Karen Larsen. "The Subsidized Employment Program not only assists with employment opportunities – a challenge still for many – it also helps our local businesses expand their capacity and bolsters our local economy."

For more information on the Subsidized Employment Program, call (916) 375-6252 or (530) 661-4311.

County of Yolo
www.yolocounty.org

To: The Chair and Members of the Board of Supervisors

Consent-Law & Justice Services 50.
Board of Supervisors **Probation**
Meeting Date: 06/06/2023
Brief Title: SCOE Contract for Day Reporting Center Services
From: Dan Fruchtenicht, Chief Probation Officer, Probation Department
Staff Contact: Beth Gabor, Manager of Operations & Strategy, Probation, x5303
Supervisorial District Impact: Countywide

Subject
Approve agreement with the Sacramento County Office of Education to provide re-entry services through the Yolo County Day Reporting Centers for the period of July 1, 2023 to June 30, 2026 for a total contract amount not to exceed $2,616,763.84. (No general fund impact) (Fruchtenicht/Gabor)

Recommended Action

A. Approve agreement (Attachment A) with the Sacramento County Office of Education (SCOE) to provide re-entry services through the Yolo County Day Reporting Centers (DRC) for the period of July 1, 2023 to June 30, 2026 for a total contract amount not to exceed $2,616,763.84; and

B. Authorize the Chair to sign the agreement.

Strategic Plan Goal(s)

Thriving Residents

Safe Communities

Reason for Recommended Action/Background
Since 2013, Yolo County has contracted with the Sacramento County Office of Education (SCOE) to provide re-entry services for County probationers and State parolees. These services are provided through Day Reporting Centers (DRC) in Woodland and West Sacramento, and the Yolo County Jail, with the goal of reducing recidivism by successfully reintegrating offenders back into the community.

With the current contract for DRC services ending on June 30, 2023, the Community Corrections Partnership (CCP) formed an ad hoc subcommittee on February 14, 2022 to develop a Request for Proposals (RFP). The DRC RFP Ad Hoc Subcommittee, made up of representatives from the Sheriff's Office, Probation Department and Health & Human Services Agency, met multiples times over the summer and prepared an RFP (excerpt found in Exhibit A of the Agreement) which was released on September 12, 2022. Five prospective agencies expressed interest and ultimately three proposals were submitted. Proposals were evaluated by representatives from the Probation Department, Sheriff's Office, District Attorney's Office and Health & Human Services Agency. Based on the collective scores of those evaluations, SCOE was selected as the next provider of DRC services.

Representatives from the Probation Department and the Sheriff's Office then worked with SCOE to refine the Scope of Work (found in Exhibit B of the Agreement) to outline expectations, roles and responsibilities in providing DRC services. Of note, operational changes (some of which have already been implemented) in the new contract include:

- Growth/expansion of in-custody services, i.e., 14 hours/week of re-entry planning; Spanish-speaking services, parenting programs

- Virtual service options for participants unable to physically attend the DRC
- After-hours programming
- Expansion of services for Spanish-speaking participants with the goal of offering high-need programs in Spanish vs. utilizing interpretation services
- Use of and provision of County user accounts for Apricot database to increase data transparency
- Bi-lingual electronic participant sign-in system for confidentiality and real-time status alerts for Probation Officers

The parties also refined the budget for the new contract period (found in Exhibit B of the Agreement) which provides a comparison of the current contract and future fiscal years line items. For the last five years, SCOE's total budget amount remained at $620,000 for each year. While the new contract budget for year 1 results in a 31% increase at $810,210, that should be viewed in the context that there were no inflation escalations in the last five years. Going forward, SCOE has factored in an approximate 7% annual inflation escalator. Additionally, the new budget reflects an increase in the number of participants and the costs to provide sub-contracted and Court-ordered programs such as Batterer Intervention, Driving Under the Influence and Substance Use Disorder, which have increased markedly. Finally, it should be noted that while the budget outlines maximum anticipated costs, SCOE is ultimately only reimbursed for actual costs.

During its April 10, 2023 meeting, the CCP approved SCOE's Scope of Work and Budget for inclusion in a new contract for DRC services, starting July 1, 2023, and voted to refer the Agreement to the Board of Supervisors for approval.

FYs 2017-2023	**FY 2023-24**	**FY 2024-25**	**FY 2025-26**
$620,000	$810,210	$870,814	$935,739

Note: SCOE's budget for the past five years has been $620,000 annually. While the new contract budget starts with a 31% increase at $810,210 in year 1, that should be viewed in the context that there were no inflation escalations in the last five years. Going forward, SCOE factored in a 7% annual inflation escalator. Additionally, the new budget reflects an increase in the number of participants and the costs to provide subcontracted and Court-ordered programs such as Batterer Intervention, Driving Under the Influence and Substance Use Disorder, which have increased markedly. Finally, while the budget outlines maximum anticipated costs, SCOE is ultimately only reimbursed for actual costs.

AGREEMENT NO. __-___
(Agreement for Day Reporting Center Services)

THIS AGREEMENT ("Agreement") is made and entered into this 6th day of June, 2023, by and between the County of Yolo, a political subdivision of the State of California ("County") and Sacramento County Office of Education, a political subdivision of the State of California ("SCOE" or "Contractor").

W I T N E S S E T H

WHEREAS, the County is authorized by Government Code Section 23004 to make contracts as necessary for the exercise of its powers; and

WHEREAS, the County is authorized by Government Code Section 31000 to contract with persons specially trained, experienced, expert and competent to perform special services such as day reporting center (DRC) services; and

WHEREAS, the 2011 Public Safety Realignment encompassed in Assembly Bill 109 redefines many felonies and shifts responsibilities to local jurisdictions for the housing and rehabilitation of many offenders. AB 109 represents an intentional effort to remove from California prisons – permanently – those offenders who arguably represent the least danger to their community and who have the highest capacity for reform and rehabilitation; and

WHEREAS, chaired by the county's Chief Probation Officer, the Community Corrections Partnership (CCP) acts as the governing body responsible for developing and submitting public safety realignment implementation recommendations to the Board of Supervisors. And Yolo County CCP takes an active and collaborative role in reforming corrections practices by emphasizing the importance of evidence-based and cost-effective strategies; and

WHEREAS, the Yolo CCP and Board of Supervisors awarded SCOE a contract to establish Yolo county DRC services in response to a Request for Proposals completed on or around August of 2012. Additionally, SCOE previously performed ten years of DRC services under an agreement with the County during which SCOE has provided regular and consistent administrative reports to the Day Reporting Center Steering Committee as well as the Yolo CCP, including annual reports of accomplishments and program improvements; and

WHEREAS, the County desires to obtain DRC services comprised at a minimum of the following services: substance abuse counseling and programming; a batterer's intervention program; job skills, training and placement; support in the engagement of participants in educational services provided by the Yolo County Office of Education; cognitive and life skills development; and parenting skills; and

WHEREAS, the County also desires to maintain existing SCOE service delivery in two Yolo County cities, Woodland and West Sacramento; and

WHEREAS, the State contract requires that all subcontracts be governed by and construed in accordance with all applicable laws, regulations, and contractual obligations set forth in the State contract, and that all County subcontractors (including but not limited to Contractor) comply with all terms and conditions of the State contract; and

WHEREAS, the County circulated and distributed a Request for Proposals, an excerpt of which is attached as Exhibit A; and

WHEREAS, the Contractor submitted a proposal to provide DRC services, a refined excerpt of which (the Scope of Work and Budget) is attached and incorporated herein by reference as Exhibit B; and

WHEREAS, Contractor has represented and warrants to the County that it has the necessary training, experience, expertise and competency to provide the services, goods and materials that are described in this Agreement, at a cost to the County as herein specified; that it will be able to perform the herein described services at minimum cost to the County by virtue of its current and specialized knowledge of relevant data, issues, and conditions; and

WHEREAS, Contractor represents and warrants that neither Contractor, nor any of its officers, agents, employees, contractors, subcontractors, volunteers, or five percent owners, is excluded or debarred from participating in or being paid for participation in any Federal or State program; and

WHEREAS, Contractor further represents and warrants that no conditions or events now exist which give rise to Contractor or any of its officers, agents, employees, contractors, subcontractors, volunteers or five percent owners being excluded or debarred from any Federal or State program; and

WHEREAS, Contractor understands that the County is relying upon these representations in entering into this Agreement.

NOW, THEREFORE, the County and the Contractor agree as follows:

I. BASIC SERVICES

A. Contractor shall furnish and perform the pre- and post-release evidence-based services for offenders located at the Yolo County DRCs in accordance with Exhibits A-Request for Proposals Excerpt and Exhibit B- Scope of Work and Budget, and in a manner satisfactory to the Chief Probation Officer and Yolo County Sheriff or their respective written designees ("Directors"). SCOE shall provide these services in a manner satisfactory to the Directors. The Directors shall refer the offenders to the appropriate DRC location for services.

B. The Yolo County Sheriff's Office and the Yolo County Probation Department will jointly manage this Agreement. The County will provide two facilities, one for the Sheriff's Woodland In-Custody Jail Site and one for Probation's Woodland Out-of-Custody Site along with phone lines and internet services for these sites.

C. More specifically, the Contractor shall provide the full range of services to referred offenders as set forth in Exhibit B. Contractor will provide all facilities, equipment, personnel, labor and materials necessary to provide the foregoing services in accordance with this Agreement.

D. The complete Agreement shall include the following Exhibits attached hereto and incorporated herein:

Exhibit A	Request for Proposals Excerpt
Exhibit B	Scope of Work and Budget

Exhibit C Workers' Compensation Certificate
Exhibit D HIPAA Compliance

In the event of any conflict between any of the provisions of this Agreement (including Exhibits), the provision that requires the highest level of performance from Contractor for the County's benefit shall prevail.

E. Contractor shall comply with all applicable provisions of Contractor's contract with the California Department of Corrections and Rehabilitation (CDCR) to provide day reporting services in Yolo County and West Sacramento.

F. Contractor may subcontract the types of services set forth in Section XIX below. Any subcontractors providing services under this Agreement must also comply with the terms and conditions set forth in this Agreement and the County's Accounting Handbook for Community-Based Organizations (CBOs) and Contract Administration Manual for CBOs (copies of which have previously been provided to Contractor).

G. The Directors may approve modifications of the term, scheduling, billing rates, and allocation of funds between the tasks and subtasks (if any) set forth above, provided that there is no increase in the total compensation as set forth in Paragraph III of this Agreement.

II. ADDITIONAL SERVICES

The following program expansion options, insofar as they do not fall within the scope of the basic services required of Contractor under Paragraph I hereinabove or additional staffing is required to provide the basic services as a result of an increase of participants beyond what is outlined in the Scope of Work and causes the Contractor extra expense, and if authorized in advance in writing by the Directors, shall also be provided by Contractor:

A. Program expansion options include the following:

Project Specialist I (1.0 FTE)
Transition Specialists (per 1.0 FTE)
Apricot Database User Accounts
Transitional/Sober Housing
Additional Interpretations Services

B. Additional work that is directly related to the services set forth in Paragraph I above and requested in writing by the Directors.

III. COMPENSATION AND REIMBURSEMENT OF EXPENSES

A. For the services described in Paragraph I above, and subject to the condition that the services have been completed in a manner satisfactory to the Directors or his/her designees, Contractor shall be compensated as follows:

July 1, 2023 through June 30, 2024: Total Not-to-Exceed Amount of $810,210.27
July 1, 2024 through June 30, 2025: Total Not-to-Exceed Amount of $870,814.43
July 1, 2025 through June 30, 2026: Total Not-to-Exceed Amount of $935,739.14

Provided, however, that the total amount of compensation to be paid to Contractor for the services required by this Agreement shall not exceed two million, six hundred and sixteen thousand, seven hundred and sixty-three dollars and eighty-four cents ($2,616,763.84).

B. For the services described in Paragraph II above, insofar as they do not fall within the scope of the basic services required of Contractor under Paragraph I hereinabove or additional staffing is required to provide the basic services and causes the Contractor extra expenses, and if authorized in advance in writing by the Director(s), Contractor shall be compensated at the following rates:

Project Specialist I (1.0 FTE): Annual Salary Range (including benefits) $131,296-$144,754

Transition Specialist (1.0 FTE): Annual Salary Range (including benefits) $74,075-$89,846

Apricot Database User Accounts: $1,200 per account

Transitional/Sober Housing (at rate of $55 per night): Annual Range $33,750-$37,125

Additional Interpretations Services: $50-120 per hour

C. Any other provision of this Agreement notwithstanding, because this Agreement is funded by State funds, the County's obligation to compensate Contractor pursuant to this Agreement is contingent upon, and subject to, (1) the County's receipt of such funding from the State, and the absence or removal of any constraints imposed by the State upon such receipt and payment and (2) the Community Corrections Partnership and Yolo County Board of Supervisors appropriating funds for DRC services. County's inability or failure to compensate Contractor shall relieve Contractor of any obligation to perform services under this Agreement.

IV. METHOD OF PAYMENT

A. Within thirty (30) days of the completion of each subtask identified in Paragraph I in a manner that is satisfactory to the Director(s), the Contractor shall submit an invoice detailing the services provided, the person(s) providing the service, the agreed upon monthly salary for each person providing the service and an itemization of the actual expenses for which reimbursement is requested. Any claim for additional services pursuant to Paragraph II shall also include a copy of the Director(s)' written approval in advance of such services being provided. If requested by the County, Contractor shall provide any further documentation to verify the compensation and reimbursement sought by Contractor.

B. Within fifteen (15) calendar days of the receipt of Contractor's detailed invoice, the Directors shall either authorize payment or advise Contractor in writing of any concerns that the Directors have with the invoice and any need for further documentation.

C. Within thirty (30) calendar days of the Directors' authorization for payment of an invoice, the County Auditor-Controller shall either issue the payment or advise Contractor in writing of any concerns that the County Auditor-Controller has with the request and any need for further documentation. In the event the County Auditor-Controller does not resolve its concerns within ten (10) working days, Contractor may immediately proceed to the remedies set forth in VIII.

V. REPORTS

A. Contractor shall produce and present to County an Annual DRC Outcomes Report no later than December 1st of the following fiscal year which, at a minimum, shall include but not be limited to a full description of the DRC services required in Exhibit A, collaborative partnerships, subcontractor qualifications, the number of referrals by agency, individual service participation rates, DRC program completions, designated successful transitions and analysis of engagement in DRC services.

B. Contractor shall provide prompt individualized (participant-specific) operational reports to Sheriff and Probation Case Management Staff for the purposes of ensuring timely enrollment, status updates and discharge correspondence.

C. Contractor shall provide such reports as are required elsewhere by this Agreement, and such additional information and reports relating to the services otherwise required by this Agreement as are reasonably requested by the Directors', at the times and in the manner specified by this Agreement, or by the Directors if not so specified. Any other provision of this Agreement notwithstanding, should Contractor fail to provide any report required by this Agreement in a timely manner and as otherwise set forth in this Agreement, County may withhold any payments otherwise due Contractor pursuant to this Agreement, and any other agreement between Contractor and County, until such report is properly submitted as determined by the Directors.

D. County shall provide Contractor with all information pertinent to the services required of Contractor by this Agreement which is requested by Contractor and which is within County's possession. No charge will be made for these materials.

VI. OWNERSHIP OF DOCUMENTS AND WORK PRODUCTS

All professional and technical documents and information developed under this Agreement, and all work products, including writings, work sheets, reports, and related data, materials, copyrights and all other rights and interests therein, shall become the property of the County, and Contractor agrees to deliver and assign the foregoing to the County, upon completion of the services hereunder or upon any earlier termination of this Agreement. Contractor assigns the work products, as and when the same shall arise, for the full terms of protection available throughout the world. In addition, basic data prepared or obtained under this Agreement shall be made available to the County without restriction or limitation on their use.

No additional charge will be made for any of the foregoing.

VII. RECORDS; ACCESS, RETENTION

Contractor shall retain and make available for review by the County and its designees all records, documents, and general correspondence relating to this Agreement and the services required hereunder for a period of not less than five (5) years after receipt of final payment or until all pending audits and proceedings are completed, whichever is later. Contractor shall make such records available for inspection and copying by the County and its designees at any reasonable time. At least thirty (30) calendar days prior to any destruction of these records following the four years, Contractor shall notify the Directors. Upon such notification, the Directors shall either agree to the destruction or authorize the records to be forwarded to the County for further retention.

VIII. DISPUTES

Any dispute arising under this Agreement shall be decided by the County Administrative Officer who shall put his or her decision in writing and mail a copy thereof to the address for the notice to Contractor. The decision of the County Administrative Officer shall be final unless, within thirty (30) days from the date such copy is mailed to Contractor, Contractor appeals the decision in writing to the County Board of Supervisors. Any such written appeal shall detail the reasons for the appeal and contain copies of all documentation supporting Contractor's position. In connection with any appeal proceeding under this paragraph, Contractor shall be afforded the opportunity to be heard and offer evidence in support of its appeal to the County Board of Supervisors at a regular Board meeting. Pending a final decision of the dispute, Contractor shall proceed diligently with the performance of this Agreement and in accordance with the County Administrative Officer's decision. The decision of the County Board of Supervisors on the appeal shall be final for purposes of exhaustion of administrative remedies.

IX. TERM AND TERMINATION

A. The term of this Agreement shall be from July 1, 2023 through June 30, 2026 unless sooner terminated as hereinafter provided.

B. Should either party fail to substantially perform its obligations in accordance with this Agreement, the other party may notify the defaulting party of such default in writing and provide not less than thirty (30) days to cure the default. Such notice shall describe the default, and shall not be deemed a forfeiture or termination of this Agreement. If such default is not cured within said thirty-day period (or such longer period as is specified in the notice or agreed to by the parties), the party that gave notice of default may terminate this Agreement upon not less than fifteen (15) days advance written notice. In the event of such termination based upon Contractor default, the County reserves the right to purchase or obtain the supplies or services elsewhere, and Contractor shall be liable for the difference between the prices set forth herein and the actual cost thereof to the County. The foregoing notwithstanding, neither party waives the right to recover damages against the other for breach of this Agreement.

C. This Agreement is subject to the County, the State of California and the United States appropriating and approving sufficient funds for the activities required of the Contractor pursuant to this Agreement. If the County's adopted budget and/or its receipts from the State of California and the United States do not contain sufficient funds for this Agreement, the County may terminate this Agreement by giving ten (10) days advance written notice thereof to the Contractor, in which event the County shall have no obligation to pay the Contractor any further funds or provide other consideration and the Contractor shall have no obligation to provide any further services pursuant this Agreement. If the County terminates the Agreement pursuant to this subparagraph, the County will pay Contractor in accordance with this Agreement for all services performed to the satisfaction of the Director(s) before such termination and for which funds have appropriated as required by law.

D. This Agreement may be terminated for any reason by either party at any time during its term, by giving 60 days' written notice to the other party.

E. If Contractor, or any of its officers, agents, employees, contractors, subcontractors, volunteers or five percent owners, becomes excluded, debarred or suspended from participation in

Federally or State funded programs, the County may terminate this Agreement by giving ten (10) days advance written notice thereof to the Contractor.

F. Upon termination of this Agreement or suspension of work by either County or Contractor, Contractor shall furnish to County all documents and drawings prepared under this Agreement, whether complete or incomplete. In the event of termination for any reason, reproducible copies of all finished or unfinished documents, drawings, maps, models, photographs, and reports prepared by Contractor shall become the sole and exclusive property of Yolo County and Contractor shall be entitled to receive compensation for any work completed on such documents and other materials determined by the Directors to be of satisfactory quality and within the terms and conditions of this Agreement. All creative work undertaken by Contractor such as sketches, copy, dummies and all preparatory work for which Contractor is not compensated by the County shall remain the sole and exclusive property of the Contractor.

G. During and following the term of this Agreement, Contractor shall not use, distribute or otherwise circulate any of the materials developed pursuant to this Agreement and for which Contractor was compensated by the County without the express written permission of the Directors.

X. APPLICABLE LAWS

A. In the performance of the services required by this Agreement, Contractor shall comply with all applicable Federal, State, and County statutes, ordinances, regulations, directives and laws. This Agreement is also subject to any additional restrictions or conditions that may be imposed upon the County by the Federal or State government.

B. This Agreement shall be deemed to be executed within the State of California and construed in accordance with and governed by the laws of the State of California. Any action or proceeding arising out of this Agreement shall be filed and resolved in a California State court located in Woodland, California. Contractor waives any removal rights it might have under State or Federal law.

XI. NON-DISCRIMINATION IN SERVICES AND BENEFITS

Contractor certifies that any service provided pursuant to this Agreement shall be without discrimination based on color, race, creed, national origin, religion, sex, age, sexual preferences, or physical or mental disability in accordance with all applicable Federal, State and County laws and regulations and any administrative directives established by the County Board of Supervisors or the County Administrative Officer. For the purpose of this Agreement, distinctions on the grounds of color, race, creed, national origin, religion, sex, age, sexual preferences, or physical or mental disability include but are not limited to the following: denying a participant any service or benefit which is different, or is provided in a different manner or at a different time from that provided to other participants under this Agreement; subjecting a participant to segregation or separate treatment in any way in the enjoyment or any advantage or privilege enjoyed by others receiving any service or benefit; treating a participant differently from others in determining whether the participant has satisfied any admission, enrollment quota, eligibility, membership, or other requirement or condition which individuals must meet in order to be provided any service or benefit; and the assignment of times or places for the provision of services.

XII. CONTRACTOR'S RESPONSIBILITIES

A. Contractor shall exercise all of the care and judgment consistent with good practices in the performance of the services required by this Agreement.

B. With the exception that this section shall in no event be construed to require indemnification by Contractor to a greater extent than permitted under the public policy of the State of California, Contractor shall indemnify, defend and hold harmless the County of Yolo, officers, agents, employees and volunteers from and against any and all claims, damages, demands, losses, defense costs, expenses (including attorney fees) and liability of any kind or nature arising out of or resulting from performance of the work, provided that any such claim, damage, demand, loss, cost, expense or liability is caused in whole or in part by any negligent or intentional act or omission of the Contractor, any subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable. Contractor and/or Subcontractor's responsibility for such defense and indemnity obligations shall survive the termination or completion of this agreement for the full period of time allowed by law. The defense and indemnification obligations of this agreement are undertaken in addition to, and shall not in any way be limited by, the insurance obligations contained in this agreement.

C. In the event Contractor utilizes a subcontractor as permitted by this Agreement, Contractor will require any subcontractor to be bound to the General Contractor/or Contractor and the County of Yolo in the same manner and to the same extent as General Contractor/or Contractor is bound to the County of Yolo under this Agreement. Contractor will further require any subcontractor, including the indemnity and Insurance requirements, to the extent they apply to the scope of any subcontractor work.

In providing any defense under this Paragraph, Contractor shall use counsel reasonably acceptable to the County Counsel.

XIII. PUBLIC LIABILITY AND PROPERTY DAMAGE INSURANCE

A. During the term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements. The comprehensive general liability insurance shall include broad form property damage insurance.

1. Minimum Coverages (as applicable). Insurance coverage shall be with limits not less than the following:

a. **Comprehensive General Liability** – $3,000,000/occurrence and $6,000,000/aggregate

b. **Automobile Liability** – $1,000,000/occurrence (general) and $500,000/occurrence (property) (include coverage for Hired and Non-owned vehicles)

c. **Professional Liability/Malpractice/Errors and Omissions** – $1,000,000/occurrence and $2,000,000/aggregate (If any engineer, architect, attorney, accountant, medical professional, psychologist, or other licensed professional performs work under a contract, the contractor must provide this

insurance. If not, then this requirement automatically does not apply.)

d. **Workers' Compensation** – Statutory Limits/**Employers' Liability** - $1,000,000/accident for bodily injury or disease (If no employees, this requirement automatically does not apply.)

2. The County, its officers, agents, employees and volunteers shall be named as additional insured on all but the workers' compensation and professional liability coverages.

a. The Additional Insured coverage under the Contractor's policy shall be "primary and non-contributory" and will not seek contribution from the County's insurance or self-insurance and shall be at least as broad as CG 20 01 04 13.

b. The limits of Insurance required in this agreement may be satisfied by a combination of primary and umbrella or excess Insurance. Any umbrella or excess Insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of the County of Yolo (if agreed to in a written contract or agreement) before the County's own Insurance or self-insurance shall be called upon to protect it as a named insured.

3. Said policies shall remain in force through the life of this Agreement and, with the exception of professional liability coverage, shall be payable on a "per occurrence" basis unless the County Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage covering the term of this Agreement and not less than three years thereafter. Proof of such "tail" coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.

4. Any deductibles or self-insured retentions must be declared to and are subject to the approval of the County Risk Manager. All self-insured retentions (SIR) must be disclosed to Risk Management for approval and shall not reduce the limits of liability. Policies containing any SIR provision shall provide or be endorsed to provide that the SIR may be satisfied either by the named Insured or Yolo County.

5. Each insurance policy shall be endorsed to state that coverage shall not be suspended, voided, canceled by either party, reduced in coverage or in limits except after thirty (30) days' prior written notice by certified mail, return receipt requested, has been given to the Directors ten (10) days for delinquent insurance premium payments).

6. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.

7. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.

8. Each party shall waive all rights of subrogation against the other party, its officers, employees, agents and volunteers.

B. Prior to commencing services pursuant to this Agreement, Contractor shall furnish the County with original endorsements reflecting coverage required by this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. All endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications.

C. During the term of this Agreement, Contractor shall furnish the County with original endorsements reflecting renewals, changes in insurance companies and any other documents reflecting the maintenance of the required coverage throughout the entire term of this Agreement. The endorsements are to be signed by a person authorized by that insurer to bind coverage on its behalf. Upon County's request, Contractor shall provide complete, certified copies of all required insurance policies, including endorsements reflecting the coverage required by these specifications. Yolo County reserves the right to obtain a full certified copy of any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

D. Contractor agrees to include with all Subcontractors in their subcontract the same requirements and provisions of this agreement including the indemnity and Insurance requirements to the extent they apply to the scope of the Subcontractor's work. Subcontractors hired by Contractor agree to be bound to Contractor and the County of Yolo in the same manner and to the same extent as Contractor is bound to the County of Yolo under the Contract Documents. Subcontractor further agrees to include these same provisions with any Sub-subcontractor. A copy of the Owner Contract Document Indemnity and Insurance provisions will be furnished to the Subcontractor upon request. The General Contractor/**and or Contractor** shall require all Subcontractors to provide a valid certificate of insurance and the required endorsements included in the agreement prior to commencement of any work and General Contractor/**and or Contractor** will provide proof of compliance to the County of Yolo.

E. Contractor shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following the completion of this project. In the event contractor fails to obtain or maintain completed operations coverage as required by this agreement, the County at its sole discretion may purchase the coverage required and the cost will be paid by Contractor.

XIV. WORKERS' COMPENSATION

Contractor shall provide workers' compensation coverage as required by State law, and prior to commencing services pursuant to this Agreement shall file the following statement with the County in a form substantially as set forth below.

WORKERS' COMPENSATION CERTIFICATE

I am aware of the provisions of Section 3700 of the Labor Code that require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that Code, and I will comply with such provisions before commencing any services required by this Agreement.

The person executing this certificate on behalf of Contractor affirmatively represents that she/he has the requisite legal authority to do so on behalf of Contractor, both the person executing this Agreement on behalf of Contractor and Contractor understand that the County is relying on this representation in entering into this Agreement.

XV. NOTICE

A. All notices shall be deemed to have been given when made in writing and delivered or mailed to the respective representatives of County and Contractor at their respective addresses as follows:

Contractor: Sacramento County Office of Education
10474 Mather Boulevard
P.O. Box 269003
Mather, CA 95655
Attn: Jackie White, Assistant Superintendent

County: Yolo County Sheriff's Office
140 Tony Diaz Drive
Woodland, CA 95776-9327
Attn: Denny Cheuk, Director of Finance

Yolo County Probation Department
725 Court Street
Woodland, CA 95695
Attn: Dan Fruchtenicht, Chief Probation Officer

B. In lieu of written notice to the above addresses, any party may provide notices through the use of e-mail or facsimile machine provided confirmation of delivery is obtained at the time of transmission of the notices and provided the following facsimile telephone numbers are used:

Contractor: e-mail: jwhite@scoe.net and mflorey@scoe.net
FAX: (916) 228-2403

Sheriff: e-mail: YoloCountySheriffs@YoloCounty.org
FAX: (530) 668-5238

Probation: e-mail: Probation@YoloCounty.org
FAX: (530) 661-1211

C. Any party may change the address or facsimile number to which such communications are to be given by providing the other parties with written notice of such change at least fifteen (15)

calendar days prior to the effective date of the change.

D. All notices shall be effective upon receipt and shall be deemed received through delivery if personally served or served using email or facsimile machines, or on the fifth (5th) day following deposit in the mail if sent by first class mail.

XVI. CONFLICT OF INTEREST

A. Contractor shall comply with the laws and regulations of the State of California and County regarding conflicts of interest, including, but not limited to, Article 4 of Chapter 1, Division 4, Title 1 of the California Government Code, commencing with Section 1090, and Chapter 7 of Title 9 of said Code, commencing with Section 87100 including regulations promulgated by the California Fair Political Practices Commission.

B. Contractor covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of Contractor's obligations and responsibilities hereunder. Contractor further covenants that in the performance of this Agreement, no person having any such interest shall be employed. This covenant shall remain in force until Contractor completes performance of the services required of it under this Agreement.

C. Contractor agrees that if any fact comes to its attention that raises any question as to the applicability of any conflict of interest law or regulation, Contractor will immediately inform the County and provide all information needed for resolution of the question.

XVII. COVENANT AGAINST CONTINGENT FEES

Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working for Contractor, to solicit or secure this Agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift, or any other consideration, contingent upon or resulting from the award or making this agreement. For breach or violation of this warranty, the County shall have the right to annul this agreement without liability, or in its discretion to deduct from the agreement price or consideration, or otherwise recover, the full amount of such fee, commission, percentage, brokerage fee, gift or contingent fee.

XVIII. AUDITS

A. Contractor shall be subject to examination and audit by the State or the County, or both, throughout the term of this Agreement and thereafter for a period of three years from the date that final payment is made pursuant to this Agreement. This does not preclude access to records by County, State, the Comptroller General of the United States, or any of their authorized representatives, as otherwise provided by this Agreement, the State contract, or State or Federal laws and regulations. Contractor agrees that County and/or State has the right to review, obtain, and copy all records pertaining to the performance of this Agreement, and agrees to provide County and/or State with any and all relevant information requested.

B. Any and all books, records, and facilities maintained by Contractor related to services provided under this Agreement may be audited, inspected and copied at any time during normal business hours. Unannounced visits may be made at the discretion of the County or State.

Employees who might reasonably have information related to such records may be interviewed. All expenditures of State and federal funds furnished to Contractor pursuant to this Agreement are subject to audit by County, State and/or Federal representatives. Such audits shall consider and build upon external independent audits performed pursuant to audit requirements of the Office of Management and Budget (OMB) Circular A-133 as described in Paragraph C below.

C. Should Contractor expend $500,000 or more in Federal funds during any fiscal year, Contractor shall furnish County a certified copy of an Audit Report from an independent CPA firm covering the Contractor's preceding fiscal year of January 1 through December 31. This Audit shall be performed in accordance with OMB Circular A-133 and conducted in accordance with generally accepted government auditing standards as described in Government Auditing Standards (1994 Revision), and provided in a form satisfactory to the Director(s).

Contractor shall provide this Audit Report no later than July 31 of each year. In the event that this Agreement expires or is terminated on a date other than December 31, Contractor shall provide County such an Audit Report covering the preceding period of January 1 through the date of expiration or termination no later than July 31 after the date of expiration or termination. Contractor shall ensure that audit work papers supporting the report are retained for a period of three (3) years from the date of the audit report, and longer if notified by the State or County to extend the retention period, and are made available to the State and/or County upon request.

D. Should an Audit Report or any State or County audit determine that Contractor has misspent funds and been overpaid based on the requirements of this Agreement and applicable laws and regulations, County shall demand repayment from Contractor in the amount of such audit findings and withhold any payment otherwise due under this Agreement until Contractor repays such amount. Contractor shall repay County such amount within sixty (60) days of the date of the County's demand for repayment. Should Contractor fail to repay County within sixty (60) days of the date of County's demand for repayment, the County may offset the amount due from Contractor against any amounts that would otherwise be due from the County to Contractor pursuant to this Agreement or any other agreement or source.

E. Any failure or refusal by Contractor to permit access to any facilities, books, records or other information required to be provided to the State &/or the County by this Agreement &/or the State contract shall constitute an express and immediate breach of this Agreement.

XIX. ASSIGNMENT AND SUBCONTRACTS

Contractor may subcontract any of the following services required under this Agreement and is responsible for ensuring that its subcontractors comply with all terms and conditions of this Agreement:

Aftercare
Anger Management
Budgeting and Money Management
Cognitive and Life Skills Development
Community Service
Criminal Thinking
Domestic Violence
DUI Courses

Engaging Participants in Yolo County Office of Education-provided educational services and GED assistance programs
Job Readiness and Job Search
Parenting and Family Reintegration
Referral to Other Agencies
Substance Use Education and Counseling
Transitional Housing/Sober-Living Environment

Contractor may subcontract other services under this Agreement if it notifies County and receives explicit approval prior to such subcontract. The subcontractor(s) shall maintain the same insurance as required of Contractor by this Agreement and Contractor shall be fully responsible to the County for all work undertaken by subcontractors.

XX. STATUS OF CONTRACTOR

A. It is understood and agreed by all the parties hereto that Contractor is an independent contractor and that no relationship of employer-employee exists between the County and Contractor. Neither Contractor nor Contractor's assigned personnel shall be entitled to any benefits payable to employees of the County. Contractor hereby indemnifies and holds the County harmless from any and all claims that may be made against the County based upon any contention by any third party that an employer-employee relationship exists by reason of this Agreement or any services provided pursuant to this Agreement.

B. It is further understood and agreed by all the parties hereto that neither Contractor nor Contractor's assigned personnel shall have any right to act on behalf of the County in any capacity whatsoever as an agent or to bind the County to any obligation whatsoever.

C. It is further understood and agreed by all the parties hereto that Contractor must issue any and all forms required by Federal and State laws for income and employment tax purposes, including W-2 and 941 forms, for all of Contractor's assigned personnel.

XXI. AMENDMENT

This Agreement may be amended only by written instrument signed by the County and Contractor.

XXII. WAIVER

The waiver by the County or any of its officers, agents or employees or the failure of the County or its officers, agents or employees to take action with respect to any right conferred by, or any breach of any obligation or responsibility of this Agreement shall not be deemed to be a waiver of such obligation or responsibility, or subsequent breach of same, or of any terms, covenants or conditions of this Agreement.

XXIII. AUTHORIZED REPRESENTATIVE

The person executing this Agreement on behalf of Contractor affirmatively represents that she/he has the requisite legal authority to enter into this Agreement on behalf of Contractor and to bind Contractor to the terms and conditions of this Agreement. Both the person executing this Agreement on behalf of Contractor and Contractor understand that the County is relying on this representation in entering into this Agreement.

XXIV. PUBLIC RECORDS ACT

Upon its execution, this Agreement (including all exhibits and attachments) shall be subject to disclosure pursuant to the California Public Records Act.

XXV. ADDITIONAL PROVISIONS

A. Where there is a doubt as to whether a provision of this document is a covenant or a condition, the provision shall carry the legal effect of both. Should the County choose to excuse any given failure of Contractor to meet any given condition, covenant or obligation (whether precedent or subsequent), that decision will not be, or have the legal effect of, a waiver of the legal effect in subsequent circumstances of either that condition, covenant or obligation or any other found in this document. All conditions, covenants and obligations continue to apply no matter how often County may choose to excuse a failure to perform them.

B. Except where specifically stated otherwise in this document, the promises in this document benefit the County and Contractor only. They are not intended to, nor shall they be interpreted or applied to, give any enforcement rights to any other persons (including corporate) which might be affected by the performance or non-performance of this Agreement, nor do the parties hereto intend to convey to anyone any "legitimate claim of entitlement" with the meaning and rights that phrase has been given by case law.

C. Contractor shall comply with, and shall ensure that its officers, agents, employees, participants and volunteers comply with, the Health Insurance Portability and Accountability Act of 1996 and its implementing regulations, and the privacy and security requirements set forth in Exhibit D attached hereto.

XXVI. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement between the County and Contractor and supersedes all prior negotiations, representations, or agreements, whether written or oral. In the event of a dispute between the parties as to the language of this Agreement or the construction or meaning of any term hereof, this Agreement shall be deemed to have been drafted by the parties in equal parts so that no presumptions or inferences concerning its terms or interpretation may be construed against any party to this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the day and year first set forth above.

EXHIBIT A
REQUEST FOR PROPOSALS EXCERPT

1.0. INTRODUCTION

The purpose of this Request for Proposals (RFP) is to define the County's minimum requirements, solicit proposals, and gain adequate information by which the County may evaluate the services offered by Proposers that fall within the scope of services as further described in Section (3) of this RFP.

The County of Yolo, Probation Department, hereinafter referred to as the "County," intends to secure a contract with a qualified proposer to provide Adult Day Reporting Center ("DRC") services for the Yolo County Community Corrections Partnership (CCP). The DRC shall serve adult participants that are the County's responsibility as a result of the Public Safety Realignment Act, as well as adult probationers who are identified and referred by Probation and the Sheriff's Office respectively, as being appropriate for this program. The intended vision for these services is to increase individual success through:

- Comprehensive system and service navigation;
- Individual engagement from enrollment to exit planning;
- Interdisciplinary case planning around needs and service matching;
- Centralized delivery of services;
- Service dosage established in collaboration with the Probation Department and Sheriff's Office;
- Provision of access points for Drug Medi-Cal Organized Delivery System and linkages to needs assessments and benefits enrollment; and
- Collaboration with other service providers in the community or resources County funds, such as through the Probation Department, Sheriff's Office and the Health & Human Services Agency.

2.0. BACKGROUND

2.1 Yolo County is directly west of Sacramento, the State Capital of California and northeast of the Bay Area. The County's 1,021 square miles is home to 216,403 residents, most of which reside in the county's four incorporated cities: Davis, West Sacramento, Winters and Woodland.

2.2 In 2011, the California Legislature chaptered the Public Safety Realignment Act (AB 109) for implementation by October 2011. AB 109, and its subsequent trailer bill AB 117, transferred responsibility for supervising a certain population of individuals convicted of felony crimes whose committed offenses are deemed to be non-serious, non-violent and non-sex offenses from the California Department of Corrections and Rehabilitation (CDCR) to County jurisdictions.

The DRC model is a component of the local Public Safety Realignment Plan to supervise and provide intensive evidence-based services for a select group of both in-custody and out-of-custody, moderate/high and high-risk/high-need offenders referred by Probation and the Sheriff's Office, and who are identified as being appropriate for this program.

2.3 Evidence-Based Practice and Programs

One of the legislative intents of AB 109 is to maximize the role of evidence-based intervention strategies to effectively reduce criminal recidivism. Correctly assessing the needs of this offender population and then providing appropriate services are primary to addressing public safety and recidivism concerns in Yolo County. The DRC will offer a variety of evidence-based and promising programs.

3.0. SCOPE OF SERVICE/ PROJECT

3.1 General Requirements. The CONTRACTOR must:

3.1.1 Possess and maintain a working knowledge of the current best practices in the field of offender reentry and rehabilitation and a comprehensive understanding of the issues related to recidivism.

3.1.2 Maintain professional relationships with law enforcement and Yolo County community-based organizations and programs.

3.1.3 Outline staffing and qualifications for the program, with sufficient personnel who are qualified to provide the program components and maintain the minimum administrative, counseling and/or teaching credentials and State certification requirements for providing any such applicable service components, including but not limited to the following:

- Cognitive Behavioral Therapy
- Motivational Interviewing
- Ohio Risk Assessment System (ORAS)

3.1.4 Provide a program outline to include orientation, ORAS risk and needs assessment and individualized case plans for both in-custody and out-of-custody individuals, as well as:

- Plan for implementation of sanctions and incentives for the program
- Schedule to notify the Probation Department and Sheriff's Office of participant attendance
- Maintenance of an up-to-date resource list to make referrals and facilitate access to appropriate services

3.1.5 Assist DRC participants who have transportation barriers in order to facilitate their regular program attendance and participation.

3.1.6 Provide services to participants that are responsive to meet the needs of both male and female participants as well as effectively meet the needs of those with varying cultural and ethnic backgrounds and languages; sexual orientations; special education and other learning needs; and limited English language skills. Spanish-speaking skills are required; Russian-speaking skills are desirable.

3.1.7 Meet regularly with Probation and Sheriff staff to discuss cases in order to aid in each participant's success.

3.2 Programming Requirements. The Day Reporting Center will be a multi-disciplinary program with services that target individual dynamic and criminogenic factors such as substance abuse, employment, education, anti-social peer associations, problem-solving and self-control, while assisting participants' rehabilitation and reentry into their respective communities and family

systems. Each CONTRACTOR shall outline in its response to this solicitation the services provided to address the factors that contribute or cause criminal behavior:

3.2.1 A history of anti-social behavior

3.2.2 Anti-social personality pattern contributing to or causing criminal activity

3.2.3 Anti-social/pro-criminal attitudes, values, beliefs and cognitive-emotional states

3.2.4 Pro-criminal associates and isolation from pro-social others

3.2.5 Family, factors that include criminality and a variety of psychological problems in the family of origin

3.2.6 Low levels of personal education, vocational or financial achievement

3.2.7 Low levels of involvement in pro-social leisure activities

3.2.8 Abuse of alcohol and/or drugs

3.3 Populations to be Served. The population to be served by the Day Reporting Center is comprised of adults convicted of qualifying crimes countywide under Yolo County supervision for Probation. Occasionally, other populations may also be served on an as-needed basis. Further characteristics of this population are on average as follows:

- Race & Ethnicity: 50% White; 11% Black; 34% Hispanic; 6% Other
- Gender: 81% Male; 19% Female
- Age at Admission: 12% age 20-25; 19% age 25-30; 18% age 30-35; 19% age 35-40; 9% age 30-45; 8% age 45-50; 7% age 50-55; 4% age 55-60; 2% age 60-65; 1% age 65-70
- Assessed “High Significant” and/or “Significant” Criminogenic Needs: 79% Education/ Employment; 60% Peers Associations; 58% Substance Use; 41% Family; 33% Anti-Social Behavior

3.4 Location. The County provides a site and utilities for in-custody and out-of-custody DRC services in Woodland, at 140A Tony Diaz Drive, Woodland, CA 95776 (located on the Yolo County Jail campus).

3.4.1 The CONTRACTOR will be responsible for locating a site for DRC services provided in West Sacramento and approved by Probation and the Sheriff.

3.4.2 The CONTRACTOR will also be responsible for all expenses associated with the West Sacramento property, i.e., electric, water, sewer, phone, internet access, etc. The CONTRACTOR will further be responsible for providing everything else needed to make the West Sacramento site operational, i.e., furniture, equipment, supplies, telephones, etc.

3.4.3 The CONTRACTOR will ensure the DRC facilities are secure by providing adequate supervision during hours of operation.

3.4.4 The contracted provider shall own or hold the lease on the West Sacramento DRC service site, which should be located in a neighborhood region ideally accessible via public

transportation and suited to the needs of the target population. The service site shall meet all code requirements, including public health, fire marshal, and American's with Disabilities Act (ADA) compliance regulations.

3.4.5 The West Sacramento facility selected by the CONTRACTOR is subject to final approval by the Probation Department and the Sheriff's Office. In case of lease, the CONTRACTOR shall provide a copy of the executed lease on an approved facility in West Sacramento, sufficient to lease the facility through the duration of the contract.

3.5 Hours of Operation. The DRC shall be able to provide monitoring and treatment services seven (7) days a week, with office hours that can accommodate the work schedules of the participants. Interested CONTRACTORs shall confirm agreement to these requirements with a minimum 40 hours a week of operation, primarily during the day on weekdays, but also in the evenings and on weekends and County holidays, as agreed upon with Probation and Sheriff's Office staff.

3.6 Capacity.

3.6.1 Out-of-Custody. The Day Reporting Center (DRC) shall maintain a minimum of seventy-five (75) slots for participants, to a maximum of one hundred twenty-five (125) participants.

3.6.2 In-Custody. The Day Reporting Center (DRC) shall maintain a minimum of fifty (50) slots for participants, to a maximum of one hundred (100) participants.

3.6.3 Expansion. The DRC must be able to accommodate for increases in population with the potential for growth in the future. A tiered cost structure and service capacity will allow for the expansion of the program as needed.

3.6.4 Engagement and Completion Incentives. It is anticipated that a percentage of the contract will be based upon agreed outcome measures related to participant engagement and completion.

3.7 Program Requirements. In its response to this RFP, CONTRACTOR shall provide a description of how they will meet these program requirements.

3.7.1 Licensing and Certifications. Upon contract award, staff (both CONTRACTOR and sub-contracted staff) providing direct services shall meet minimum State certification requirements for each specific discipline, i.e., substance abuse counseling, and family and parenting counseling as applicable.

3.7.2 Evidence-Based Practice. Programming provided at the DRC must use evidence-based cognitive behavior interventions to address criminogenic needs and be designed to reduce recidivism. CONTRACTORs must demonstrate a comprehensive understanding of these concepts. Interested CONTRACTORs responding to the RFP shall propose the curriculum and programming to be provided in the DRC and shall provide detailed information on the curriculum and programming proposed. The County reserves the right to negotiate curriculum and programming selection.

In accordance with Evidence-Based Practice (EBP) principles, the program will provide the appropriate dosage, duration and intensity of programming services, pro-social structure and supervision according to assessed level of recidivism risk.

3.7.3 Risk Assessments and Case Plans. The CONTRACTOR shall utilize the ORAS risk and needs assessment tool and generate an individualized case plan for each program participant based on the assessment.

3.7.4 Daily Check-ins. CONTRACTOR shall have the ability to provide daily check-ins. Actual check-ins will depend on participant progress within the program as determined by the CONTRACTOR. Initial daily check-ins will be in person. CONTRACTOR shall describe in detail, in the response to RFP, the initial as well as the progression of the check-in process.

3.7.5 Substance Abuse Counseling/Programming. Programming provided must be evidence-based and designed to reduce recidivism. Alcohol and drug services such as education, prevention and early intervention services shall be provided at the DRC. CONTRACTORs shall describe in detail how they will serve participants who may need alcohol and drug intervention, including relapse prevention (at all treatment levels, except residential).

The CONTRACTOR will partner with the Yolo County Health & Human Services Agency to identify DRC participants eligible for substance abuse and mental health benefits (i.e., SSI, SSDI, etc.).

3.7.6 Batterer's Intervention Program. Provider shall be trained in evidence-based programming and must utilize the University of Cincinnati's Cognitive-Behavioral Interventions – Domestic Violence (CBI-DV) curriculum.

3.7.7 Job Skills Training/Placement. CONTRACTOR shall describe in detail their proposed job skills training/placement programming. CONTRACTOR shall employ a variety of resources in order to transition program participants into long-term sustainable work. Training will include, but not be limited to, employment preparation (general presentation and demeanor, effective communication); job search strategies such as networking, interviews, résumé writing; skill development and job placement.

3.7.8 Educational Services/GED Assistance. CONTRACTOR shall describe their educational/GED assistance services to increase the participants' functional literacy and education. There shall be an onsite computer lab that will be utilized as a resource center for participants and as a classroom for courses.

3.7.9 Cognitive and Life Skills Development. CONTRACTOR shall describe in detail their proposed DRC curriculum designed to encourage participants to adopt a positive, law-abiding lifestyle. The training shall be based on cognitive-behavioral techniques and focus on defects in thought processes that lead to self-defeating decisions.

3.7.10 Parenting Skills. CONTRACTOR shall describe in detail how they will provide parents with easy to learn techniques and logical strategies for successful parenting.

3.7.11 Participant Incentives. CONTRACTOR shall describe in detail how they will utilize participant incentives throughout the duration of the program to improvement engagement, retention and completion.

3.7.12 Referral Services. The DRC staff shall maintain directories of resources that offer forms of assistance. Staff shall be familiar with eligibility criteria and application procedures assisting with rapid referral and placement of participants in such programs in coordination with County-assigned reentry officers.

3.7.13 Immediate Notification. DRC staff shall immediately notify Probation and the Sheriff's Office of any problems that would jeopardize public safety or a particpant's continuation in the DRC program. Problems shall include but not be limited to: failure to report and follow daily schedules; failure to participate in required activities; new arrests; positive test

for drug or alcohol usage and other behaviors that might pose a public risk. CONTRACTOR shall describe in detail their plan for immediate notification.

3.8 Reporting Requirements. Program referrals will be provided by the Probation Department and Sheriff's Office. The CONTRACTOR is responsible for all other detailed data collection and reporting. The CONTRACTOR will submit routine reports, included, but not limited to:

3.8.1 Daily Statistical Report. Maintain a daily attendance log that includes the time of arrival of all participants and provide to Probation staff on a daily basis.

3.8.2 Monthly Progress Report. Monthly progress reports on each participant in the DRC program shall be turned in by the 10th of the month. Information to be included in the progress report will include, but not be limited to:

3.8.2.1 Results of most recent assessment and individualized case plan;

3.8.2.2 Services participant received;

3.8.2.3 Staff assessment of treatment progress; and

3.8.2.4 Progress towards meeting case plan goals and recommendation for continuing, modifying or discontinuing program.

3.8.3 Discharge Report. When a participant is discharged from the program for reasons other than a graduation, a discharge report shall be completed and sent to the assigned Probation Officer or Sheriff's staff as appropriate. This report shall include, but not be limited to:

3.8.3.1 Name and Date of Birth;

3.8.3.2 History in the DRC, including compliance and non-compliance within the various program components;

3.8.3.3 Phase at time of discharge (if applicable); and

3.8.3.4 Date of termination and reason.

Sample reports shall be included with the response to this RFP.

3.9 Program Outcomes and Evaluation. In its response to this RFP, CONTRACTOR shall provide a description of the data collection and quality assurance process to generate outcome measures.

3.9.1 Service Delivery. As part of the process used to select the CONTRACTOR, the County will assess the methods whereby a CONTRACTOR intends to measure outputs and outcomes and evaluate the extent to which the services to be provided have actually been delivered. Those methodologies must be included in the Proposal.

3.9.2 Individual Outcome Measures. CONTRACTOR shall track both individual level data for all aspects of service delivery and outcomes specific to the following areas: Program referrals and case management services from the initial point of engagement to program exit or graduation. This includes but is not limited to:

3.9.2.1 Dosage, duration and intensity of programming services listed in Program Requirements;

3.9.2.2 Assessment scores upon program entry and exit;

3.9.2.3 Completion of phase levels and achievements;

3.9.2.4 Participant engagement and completion rate, including why participants fail to complete the program or challenges that could contribute to unsuccessful graduation; and

3.9.2.5 Participant satisfaction survey data.

3.9.3 Outcome Reporting.

Yolo County tracks program outcomes using the Results Based Accountability (RBA) framework which answers the following questions: 1) How much did we do? 2) How well did we do it? and 3) Is anybody better off?

3.9.3.1 Using the County's RBA Performance Measures Reporting Tool Template (Exhibit F), CONTRACTOR will submit a bi-annual report which shall include agreed upon performance measures (PM), separated by in-custody and out-of-custody populations, in each RBA category (minimum examples below):

- PM1: How much did we do?
  - # of individuals referred to the DRC
  - Demographic information for all participants served in reporting period (age, race, ethnicity, gender, etc.)
  - # of participants assessed
  - # of participants with case plans
  - # of services (i.e., # of classes, sessions) provided by service type

- PM2: How well did we do it?
  - # and % of individuals enrolled that attend first scheduled class/session
  - # and % of individuals enrolled who are still participating in services (a minimum of 50% of assigned sessions) at 30 days
  - # and % of individuals who had their first DRC session 72 hours after release from custody
  - Average ratings from participant satisfaction survey data

- PM3: Is anyone better off?
  - # and % of participants successfully linked to community-based organizations based on needs identified in case plans
  - # and % of case plan objectives reached
  - # and % completion rate by type
  - # and % of participants who continue in DRC services after transferring from in-custody to out-of-custody
  - # and % of participants employed (out-of-custody)
  - Change in risk/needs score upon program entry and exit

3.9.3.2 CONTRACTOR shall prepare an annual report and provide in-person presentations of the outcomes annually, at a minimum, to the Community Corrections Partnership and the Board of Supervisors.

3.10 Experience and Personnel Requirements.

3.10.1 Experience. CONTRACTOR shall describe in its response prior experience in working with adult offenders and evidence-based programming as described herein, including any prior Day Reporting Center operation experience.

3.10.2 Management Plan and Staffing. CONTRACTOR shall provide a detailed staffing and management plan for the proposed Day Reporting Center, to include an organizational chart and staff-to-participant ratios. CONTRACTOR must identify staff and their experience in the intended assignment and provide a job duty statement with qualifications stated in terms of experience, knowledge, skills and abilities necessary to carry out the duties of the position and include on-going training. As new staff are hired, this same information must be provided.

3.10.3 Background Clearance. CONTRACTOR shall conduct background checks on all employees and sub-contractors. Final Clearance for employees and sub-contractors of the CONTRACTOR will not be granted until the results of the Live Scan are received, and the Probation Department and Sheriff's Office provide final approval for clearance. The Probation Department has the authority to terminate the agreement immediately should a threat to security of confidential criminal offender records, probation file information, court records, etc.be identified.

3.10.4 Criteria for approval or denial of employees of CONTRACTOR include but are not limited to:

3.10.4.1 No arrests or convictions during the past three years.

3.10.4.2 Not currently a felon under Parole or Probation or under any supervision as a result of criminal conduct.

3.10.4.3 Not required to register per Penal Code Section 290, and/or Penal Code § 451.

3.10.4.4 No conviction history involving a serious or violent felony as defined in Penal Code § 1192.7(c) or 667.5(c).

3.10.4.5 Individuals previously convicted of crimes may be required to provide written evidence of successful completion of probation or parole. Individuals with a conviction history involving a serious felony, as defined by Penal Code § 1192.7, or involving a violent felony, as defined by Penal Code § 667.5, shall be reviewed on a case-by-case basis and may be approved or denied at the sole discretion of the Yolo County Probation Department.

3.10.5 Transitional Plan between Contractors. Should a new vendor be chosen as a result of this solicitation, a transition plan will be necessary. The Legacy Provider and the newly awarded CONTRACTOR will be required to work cooperatively to ensure a smooth transition for these services.

Transition is the expeditious, seamless and uninterrupted changeover of services within the scope described in this RFP from the Legacy Provider to the CONTRACTOR. Such transition shall be planned and accomplished by the CONTRACTOR in such a way as to have no adverse effect upon the County, nor upon the quality or continuity of the services being provided. The CONTRACTOR shall work in close cooperation with the Legacy Provider throughout the transition. From the start of the transition and prior to the final cutover date on which the CONTRACTOR will assume full responsibility for the services, the CONTRACTOR shall "shadow" the Legacy Provider. This ensures a complete

knowledge transfer to the CONTRACTOR of all information needed for providing the services. The CONTRACTOR shall develop and deliver a complete Transition Project Plan to the County within 30 days of contract award. The County reserves the right to provide direction and input to any proposed transition plan.

Exhibit B
Scope of Work and Budget

I. Background

In 2011, the California Legislature chaptered the Public Safety Realignment Act (AB 109) and with that, transferred responsibility for supervising a certain population of individuals convicted of felony crimes whose committed offenses are deemed to be non-serious, non-violent and non-sex offenses (Non SVS Individuals) from the California Department of Corrections and Rehabilitation (CDCR) to local county jurisdictions.

Adult Day Reporting Centers (DRCs), an integral piece of county services provided under the realignment plan, supervise and provide intensive evidence-based services to individuals who are both in-custody and out-of-custody with the goal of maximizing the likelihood of effective community reintegration.

With this Agreement, the Yolo County offices of Probation and the Sheriff (Yolo County collectively) coordinate the referral of individuals to Contractor who, as hereinafter described, will provide in-custody and out-of-custody services at the Yolo County DRC locations.

II. Contractor Responsibilities

1. Manage Services by Phases. Contractor's service delivery model will be composed of four distinct phases: (1) Referral, (2) Intake, Assessment and Case Planning, (3) Case Management and Service Delivery and (4) Discharge Planning.

    a. Referral.

        i. With few rare exceptions, Contractor will contact referred individuals within two weeks upon receipt of a referral from Yolo County to schedule an intake appointment.

    b. Intake, Assessment and Case Planning.

        i. At the intake appointment or shortly thereafter, Contractor will evaluate the participant's immediate needs, any potential immediate barriers to participation in the DRC and outcomes of the Yolo County administered criminogenic needs assessment.

        ii. Contractor will inform the participant about the rules and requirements of the DRC program.

        iii. Contractor will develop an individualized case plan within the participant's first thirty (30) days that incorporates information obtained about the participant from the initial referral, assessments made by Yolo County and Contractor, any court and supervision mandates, conditions of supervision and discussions with the participant. If this process exceeds thirty (30) days, Contractor will record, in the form of a participant case note, the reason for the delay and a plan to complete all remaining components of the participant's case plan.

        iv. Monthly Case Plan Reviews. Contractor will review the participant's case plan monthly, update the case plan when appropriate and record the same in the database.

c. Case Management and Service Delivery.

i. Case managers will meet with DRC participants at a minimum for thirty (30) minute one-on-one meetings every other week or more often depending on the need of the participant.

d. Discharge Planning.

i. Out-of-custody participants will be prepared for discharge from the program at least thirty (30) days prior to projected program discharge dates. The Contractor will work with the participant prior to discharge to complete any remaining case plan goals, plan for sustainability of in-program achievements and develop goals for continued productivity and supervision compliance.

ii. Contractor will track participant outcomes and report on the reason for discharge, including whether the participant is (1) Successful, (2) an Approved Positive Transition (APT), or (3) Incomplete.

iii. For in-custody participants, Contractor will provide participants being released to Yolo County, a needs assessment and corresponding reentry plan that addresses the participant's needs and potential barriers and which links them to resources, including DRC resources, in Yolo County.

2. Provide Programs. Contractor will provide and/or collaborate with local community-based organizations to provide, curriculum and programming components of the DRC for participants of all genders and including for the following subject areas: anger management, batterer's intervention/interpersonal violence (10-, 26- and 52-week classes), community service opportunities, driving under the influence (DUI) program, employment/vocational training services, life skills, parenting, substance use disorder services, trauma and addiction and cognitive behavioral therapy (CBT) programs that address the factors that cause or contribute to criminal behavior, encourage participants to adopt pro-social, law-abiding lifestyles and focus on defects in thoughts processes that lead to self-defeating decisions. If additional programs, services, classes or curriculum (Additional Programs) are requested by Yolo County, Yolo County and Contractor will mutually negotiate an amendment to this Agreement that reflects an agreed upon scope, curriculum and cost for the Additional Programs. Contractor will notify Yolo County if a program, service, class or curriculum is no longer serving the needs of DRC clients.

a. Locations. Contractor will provide DRC services at locations in Woodland, the Yolo County Jail and West Sacramento. The in-custody DRC shall be housed at 140 Tony Diaz Drive. The out-of-custody Woodland DRC shall be housed at 140A Tony Diaz Drive. Yolo County will provide facility space, janitorial and utilities at both the Woodland and Yolo County Jail locations.

i. West Sacramento Location. Contractor will maintain a DRC facility at 3680 Industrial Boulevard, Suite 100 in West Sacramento. The West Sacramento location is fully funded by the Contractor through an agreement with California Department of Corrections and Rehabilitation (CDCR) and the County will not incur any costs associated with maintaining the physical location of the West Sacramento DRC. Contractor will provide a copy of the current lease agreement for the West Sacramento facility to the County at the project start and with each renewal thereafter.

b. Hours of Operation. Contractor will ensure the DRC site remains open to participants continuously for eight (8) hours per day, Monday through Friday, except on approved holidays that fall on a weekday, with hours of operation accommodating the needs of the

participants as may be reasonably accomplished. Contractor may offer evening and weekend programs based on program and participant needs, as well as budgetary and staffing resources. Contractor may utilize subcontracted service providers to accommodate evening and weekend program needs of participants. Contractor may consider Yolo County requests for additional or modified program hours and will have up to sixty (60) calendar days to assess staffing needs, costs, participant need, projected participant demand, impact on Contractor staff and other DRC services and to respond to Yolo County regarding whether the request can be accommodated.

c. Site and Program Schedule. Contractor will maintain a detailed site and program schedule to be provided to Yolo County at commencement of this Agreement and prior to any agreement renewal. Any changes made to the site or program schedule will be transmitted to Yolo County prior to implementation of the change.

d. Staffing. Contractor's staffing pattern will include the positions set forth in the budget attached to this Agreement unless Contractor and Yolo County mutually agree to written revisions.

e. Caseload Maximums.

   i. Ratio For Transition Specialists. Contractor will maintain caseloads of up to thirty-five (35) participants per Transition Specialist.

   ii. Out-of-Custody Participants. Contractor will maintain a combined total across the Woodland and West Sacramento locations of up to a maximum of one hundred twenty-five (125) participant slots. At the out-of-custody DRC, Contractor will serve adults under Yolo County Probation and Yolo County Sheriff supervision as well as other justice-involved individuals referred to the DRC by Yolo County. At the discretion of Contractor, parolees from the California Department of Corrections and Rehabilitation (CDCR) may participate in services at the Woodland DRC out-of-custody program.

   iii. In-Custody Participants. Contractor will serve up to one hundred (100) participants housed at the Yolo County Jail at any given time, depending on available space and the number of referrals received and provide group programs for up to a maximum of fifteen (15) participants per group. Contractor will also facilitate up to fourteen (14) one-hour in-custody classes per week and based on availability and qualifications of staff, two (2) of these classes may be one-hour Spanish speaking cognitive behavioral classes. Contractor will coordinate with the Yolo County Sheriff's Office to determine days, times and duration of in-custody programs and will adhere to all policies, procedures and security clearance requirements of the Yolo County Jail

f. Daily Check In. Contractor shall accommodate daily check-ins for participants. Actual check-ins will depend on the participant's case plan and progress as determined by the Contractor.

g. Educational Services. Yolo County has entered an agreement with Yolo County Office of Education (YCOE) to provide educational services to participants. Contractor will support the engagement of participants in these services and will collaborate with YCOE to help maximize participation.

h. Collaboration with Yolo County Health and Human Services Agency. Contractor will collaborate with Yolo County Health and Human Services Agency and local providers as applicable for mental health and substance use continuum of care services.

i. Transportation. Contractor will help participants access public transportation to and from the DRC (i.e., by providing bus passes) as needed. Under no circumstances will Contractor provide monetary funds to participants for transportation purposes. Contractor staff shall not use their personal vehicle to transport participants.

j. Licensing and Certification. Contractor will maintain all applicable licenses and certifications to provide DRC services and programs and ensure that any subcontracted partners, volunteers, individuals and organizations providing services to DRC participants provide evidence of and maintain, licenses and certifications where applicable, prior to execution of any agreement with Contractor and prior to providing DRC services.

k. Spanish Speaking Services.

   i. Contractor will ensure that daily sign in methods, enrollment packets and releases of information are accessible to participants whose primary language is Spanish.

   ii. Contractor will provide services in Spanish for participants whose primary language is Spanish, such as classes, case management and linkages to community resources. Services provided will be determined by an assessment provided by Contractor to determine the participant's needs.

   ii. Contractor will ensure that subcontracted DUI and Batterer's Intervention Program services are provided in Spanish by the subcontractor for participants whose primary language is Spanish.

l. Program Coverage.

   i. Contractor will be responsible for providing secondary/back-up coverage for all programs including groups and classes, case management services and coverage at the management level.

   ii. Contractor will notify the affected County partner of cancelled, rescheduled and/or make-up group programming immediately upon identifying the change to Contractor's regularly scheduled programming.

   iii. Contractor will notify affected participants of any cancelled, rescheduled and/or make up group programming immediately upon identifying the change to the Contractor's regularly scheduled programming.

   iv. If Contractor must cancel a class or program service, the DRC participant's attendance record shall reflect the cancellation and the participant shall not receive a negative or "no show" outcome for the cancelled class or program service.

   v. If Contractor cancels a class or program service, Contractor will schedule make-up opportunities for participants.

m. Accessibility and Americans with Disabilities Act (ADA) Accommodation.

   i. Contractor will ensure that all programs and services are ADA compliant and that all programming is accessible to participants with disabilities.

   ii. Contractor will provide reasonable accommodations for participants with disabilities in accordance with Title II of the ADA, 42 U.S.C., Section 12131.

3. Utilize Evidence-Based Practices. Contractor will design program components, select curriculum and implement methodologies using evidence-based concepts found to produce a high rate of change and decrease the likelihood of renewed criminal activity.

4. Consider Remote Program Services. Contractor may develop and implement remote program services, including a hybrid model of both in-person and remote services, for participants who cannot physically attend the DRC for scheduled services. Virtual services may be conducted by video conferencing, telephone and email. Programs or services offered virtually will also be offered at the physical DRC site.

    a. Contractor will designate, in the participant database, those participants who are receiving virtual services.

    b. If not explicitly stated on the referral form, Contractor will obtain the approval of the participant's supervising officer to provide virtual services. Yolo County shall have final say in determining whether a participant may receive their DRC program in a virtual setting.

    c. Contractor will ensure that a system is in place to obtain all enrollment paperwork, releases of information and other program-related documents for participants who receive virtual programming.

5. Attend Yolo Community Corrections Partnership (CCP), Steering Committee and Partner Check-In Meetings. Contractor executive staff will attend CCP meetings upon Yolo County request. Contractor will coordinate and facilitate the quarterly DRC Steering Committee and the monthly Partner Check-In meetings to oversee the Agreement, make executive decisions, review performance measures and discuss program needs.

6. Provide Networking and Internet Connectivity Infrastructure.

    a. Contractor will provide networking and internet connectivity infrastructure at the Woodland out-of-custody location. Yolo County will provide phone lines for Contractor staff at the Woodland out-of-custody location and reimburse Contractor for costs of networking plan and maintenance.

    b. Contractor, at Contractor's expense, will provide phones and networking at the West Sacramento location.

7. Collect Data and Perform Quality Assurance Reviews. Contractor will collect all participant demographic and program data to support data collection and evaluation efforts and to provide data and information as requested by Yolo County, in compliance with relevant confidentiality laws.

    a. Database User Accounts. Contractor will provide up to six standard database user accounts for Yolo County Probation and Sheriff at no cost to Yolo County. Additional standard database user accounts requested by Yolo County will be billed at an annual rate per account per fiscal year as detailed in Exhibit B, Budget Worksheet, Expansion Budget. Contractor shall provide, at no cost to Yolo County, database user accounts, training and support for all of Contractor's DRC staff.

    b. Tracking of Data and Outcomes. Contractor will track individual participant service delivery data and outcomes related to program referrals and case management services from the initial referral and enrollment dates through program exit, including but not limited to dosage hours, duration and intensity of program services, attendance, completion and engagement

rates, entry and exit assessment scores, completion of phase levels, achievements and participant satisfaction survey data.

c. Attendance. Contractor will make best efforts to record in the database all participant attendance, including attendance at group and one-on-one sessions, by close of business one business day, or shortly thereafter, following the date of attendance.

d. Quality Assurance Process. Contractor will maintain a quality assurance process to audit participant and program data and generate outcome measures. The quality assurance process shall include, at a minimum, routine participant file audits and program observations and the use of curriculum fidelity tools.

e. Release of Data Upon Termination of Agreement. If permitted by relevant state and federal confidentiality laws, Contractor will turn over to Yolo County all data collected upon termination of this Agreement.

8. Provide Various Reports to County.

a. Daily Statistical Reports. Contractor will complete Daily Statistical Reports for each participant to include the participant's name and time of arrival.

b. Monthly Progress Reports. Contractor will submit a Monthly Progress Report on each active DRC participant by the 10th of each month. The Monthly Progress Report will include the results of the most recent assessment, services the participant received, staff assessment of treatment progress (case review), progress toward meeting case plan goals and the Contractor's recommendation for continuing, modifying, or discontinuing program.

c. Discharge Reports. When a participant is discharged from the DRC, Contractor will submit a Discharge Report to the participant's supervising officer. The Discharge Report will include the participant's name and date of birth, program history, phase at discharge, exit date and reason for discharge.

d. Annual Reports. Contractor will prepare an Annual Report and present outcomes to the Board of Supervisors and Community Corrections Partnership annually and as requested by Yolo County.

e. Bi-Annual Reports. Contractor will use Yolo County's Results Based Accountability (RBA) Performance Measures Reporting Tool Template to generate and transmit bi-annual reports detailing agreed upon performance measures.

f. Performance Measures. Contractor will work with Yolo County to develop performance measures specific to the RBA outcome categories by project start (July 1, 2023) and annually thereafter by July 1 of each contract year. Contractor and Yolo County may add performance measures or amend existing performance measures as needed and upon mutual agreement.

9. Utilize Criminogenic Assessment and Screening Tools.

a. Out-of-Custody Participants on Supervision. For these participants, Yolo County will provide Contractor with "at-entry" Ohio Risk Assessment System – Community Supervision Tool (ORAS-CST) scores for Contractor's information and evaluation.

i. Scores for Successful or Approved Positive Transition (APT) Participants. Contractor shall request from the County and County will provide, for all out-of-custody participants

on supervision and who are discharging from the program as Successful or as an APT, the most recent ORAS-CST scores.

ii. Assess Changes in Entry and Exit ORAS-CST Scores. Contractor shall record all County-provided ORAS-CST scores in Contractor's database and assess changes in entry and exit scores among Successful and APT out-of-custody participants on supervision.

b. Needs Identification Instrument. Contractor shall utilize a needs identification instrument only for out-of-custody participants not on supervision and for in-custody participants being released to Yolo County.

10. Referral Services.

a. Contractor will coordinate with local community providers (e.g., vocational training programs, residential substance use treatment programs, area shelters, food banks, etc.) as applicable.

b. Contractor will maintain a directory of local community resources that offer forms of assistance to participants.

c. Contractor will track the frequency and type of local community referrals provided by Contractor to participants.

11. Provide Immediate Notification of Problems. Contractor will notify the Yolo County Probation Department and/or local law enforcement as soon as practicable of any problems impacting public safety or the participant's continued DRC participation. Problems may include but are not limited to, the failure to report for and follow daily schedules, failure to participate in required activities, new arrests, disruptive behavior, conflicts with staff or other participants, substance use and intoxication and other behaviors that Contractor concludes may pose a public risk.

12. Utilize Sanctions and Incentives.

a. Contractor may utilize Yolo County approved incentives to affirm positive participant behavior and achievements.

b. Contractor will coordinate with the Yolo County Sheriff to record, report and validate milestone credits earned by in-custody participants.

c. Contractor will recognize successful participants at an annual awards ceremony.

d. Contractor will support program-related sanctions placed on participants by supervising agencies, such as enrollment in additional or mandated services. Contractor will coordinate with the supervising agency to implement the program-related sanction at the DRC and coordinate with the participant to help support their compliance with the sanction.

13. Engage in Professional Development.

a. Contractor will ensure staff participate in training and professional development programs that clearly define the knowledge and skills necessary to effectively case manage and provide reentry services to DRC participants.

b. Contractor will document all staff training and provide an annual report that summarizes planned and completed staff training and professional development activities.

c. Contractor may temporarily close the DRC program, not to exceed a total of forty (40) hours annually, for staff training or professional development activities. Contractor will notify Yolo County and impacted clients thirty (30) days in advance of the closure date.

14. Maintain Hiring and Security Clearance Requirements.

a. Contractor will adhere to pre-employment requirements of live scan clearance and tuberculosis testing for all Contractor staff. Contractor will immediately notify Yolo County of any vacancies. Contractor staff will meet or exceed the minimum qualifications as described in their job descriptions.

b. Contractor staff, including subcontracted service providers and volunteers, providing services to inmates at the Yolo County Jail will submit a yearly application for clearance and adhere to the jail clearance process.

15. Adhere to Budget and Cost Controls.

a. Contractor will utilize cost controls and operate within the agreed upon budget amount.

b. Both Yolo County and Contractor must mutually decide to exercise any supplementary Yolo County-funded resources contained within Exhibit B, Budget Worksheet, Expansion Budget.

III. County Responsibilities

1. Referral, Assessment and Removal.

a. Yolo County will refer in-custody and out-of-custody participants to the Contractor. Referrals will be made on a referral form and submitted electronically to the Contractor.

b. Yolo County will assess participants, who are on supervision and who are referred to the out-of-custody DRC, for their risk to reoffend using the Ohio Risk Assessment System – Community Supervision Tool (ORAS-CST). County will provide supervised participants' ORAS-CST scores to the Contractor at the time of referral.

c. For participants on supervision and who are discharging from the out-of-custody program as Successful or as an Approved Positive Transition (APT), Yolo County will provide to the Contractor, upon request, the most recent ORAS-CST scores.

d. When applicable, Yolo County Probation and Sheriff staff will explicitly state on the participant's referral form that they are requesting remote virtual programming for a participant.

e. When applicable, Yolo County Probation and Sheriff staff shall explicitly state on the participant's referral form that the participant needs Spanish speaking services.

f. County reserves the right to remove a participant from the DRC program.

2. Collaboration. Yolo County will:

    a. Facilitate collaboration among the Contractor, Yolo County Probation Department and Yolo County Sheriff's Office regarding participant referrals, activities, case plan progress, re-engagement and program discharge.

    b. Assist Contractor with re-engagement of participants who are out of compliance with their case plan and DRC reporting requirements.

    c. Periodically display a presence at the DRC sites, observe program and provide feedback to Contractor.

    d. Ensure representatives from Yolo County Probation Department and Yolo County Sheriff's Office attend the DRC Steering Committee and Monthly Partner Check-In meetings.

3. Training and Technical Assistance. Yolo County will:

    a. Provide updates to the Contractor relevant to effective management of participants pursuant Yolo County, Yolo County Probation Department, Yolo County Sheriff's Office and Yolo County Jail rules and regulations, policies and procedures.

    b. Provide technical assistance, as needed, to the Contractor regarding networking and other infrastructure and program operation.

    c. Through site visits, evaluate the program and physical facility, to ensure program quality and contract compliance.

REQUEST FOR PROPOSALS (RFP) NO.: PROBRFPDL2201
ADULT DAY REPORTING CENTER

BUDGET WORKSHEET

Expansion Menu

Personnel Options	2023-2026 Salary Range (incl Benefits)
Project Specialist I (1.0 FTE)	$131,296-144,754
Transition Specialist (1.0 FTE)	$74,075-89,846

Operating Options	Rate Per Account
Apricot Database User Accounts	$1,200

Subcontracted Program Options	2023-2026 Range
Transitional/Sober Housing (at Rate of $55 per night)	$33,750-37,125
Additional Interpretation Services Beyond Baseline Budget Amount (*See rate sheet, cost varies by type of service, services often require two hour minimum*)	$50-$120 Per Hour

*****The above pricing for optional services is based on known costs as of the date of execution of this Agreement and may change due to union negotiations that affect salaries, increases in subcontracted service costs, or bid requirements that apply over the life of this Agreement. Accordingly, these projected costs identified in the Budget Worksheet Expansion Menu may increase or decrease pursuant to a written amendment to this Agreement. It is the intent of the parties to negotiate any amendments to this Agreement to protect both SCOE and the County from funding and/or expenditure changes caused by circumstances not under their respective controls.

EXHIBIT C
WORKERS' COMPENSATION CERTIFICATE

I am aware of the provisions of Section 3700 of the Labor Code that require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing any services required by this Agreement.

The person executing this certificate on behalf of Contractor affirmatively represents that she has the requisite legal authority to do so on behalf of Contractor, both the person executing this Agreement on behalf of Contractor and Contractor understand that the County is relying on this representation in entering into this Agreement.

CONTRACTOR

By _____ 5/4/23

Nicolas Schweizer, Associate Superintendent

EXHIBIT D
HIPAA COMPLIANCE

(a) Contractor shall comply with, and assist the County in complying with, the privacy and security requirements of the Health Insurance Portability and Accountability Act (including but not limited to 42 U.S.C. 1320d et seq.; "HIPAA") and its implementing regulations (including but not limited to 45 CFR Parts 142, 160, 162, and 164), hereinafter collectively referred to as the "Privacy Rule" and "Security Rule." Terms used but not otherwise defined in this Agreement shall have the same meaning as those terms are used in the Privacy Rule and Security Rule.

(b) Except as otherwise limited in this Agreement, Contractor may use or disclose Protected Health Information (including but not limited to Electronic Protected Health Information) to perform functions, activities, or services for or on behalf of the County as specified in this Agreement, provided that such use or disclosure would not violate the Privacy Rule if done by the County.

(c) Contractor shall not use or further disclose Protected Health Information other than as permitted or required by this Agreement or as required by law.

(d) Contractor shall use appropriate safeguards to prevent use or disclosure of the Protected Health Information other than as provided for by this Agreement.

(e) Contractor shall report to the County any use or disclosure of the Protected Health Information not provided for by this Agreement.

(f) Contractor shall mitigate, to the extent practicable, any harmful effect that is known to Contractor of a use or disclosure of Protected Health Information by Contractor in violation of the requirements of this Agreement.

(g) Contractor shall ensure that any agent, including a subcontractor, to whom it provides Protected Health Information received from, or created or received by Contractor on behalf of the County agrees to the same restrictions and conditions that apply through this Agreement to Contractor with respect to such information.

(h) Contractor shall provide access, at the request of the County, and in the time and manner designated by the County, to Protected Health Information in a Designated Record Set, to the County or, as directed by the County, to an Individual in order to meet the requirements under 45 CFR 164.524.

(i) Contractor shall make any amendment(s) to Protected Health Information in a Designated Record Set that the County directs or agrees to pursuant to 45 CFR 164.526 at the request of the County or an Individual, in the time and manner designated by the County.

(j) Contractor shall document such disclosures of Protected Health Information and information related to such disclosures as would be required for the County to respond to a request by an Individual for an accounting of disclosures of Protected Health Information in accordance with 45 CFR 164.528.

(k) Contractor shall provide to the County or an Individual, in time and manner designated by the County, information collected in accordance with subSection (j), to permit the County to respond to a request by

an Individual for an accounting of disclosures of Protected Health Information in accordance with 45 CFR 164.528.

(l) Contractor shall make internal practices, books, and records relating to the use and disclosure of Protected Health Information received from, or created or received by Contractor on behalf of, the County available to the County, or at the request of the County to the Secretary of the United States Department of Health and Human Services ("Secretary"), in a time and manner designated by the County or the Secretary, for purposes of the Secretary determining the County's compliance with the Privacy Rule.

(m) Contractor shall implement administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of the Electronic Protected Health Information that it creates, receives, maintains, or transmits on behalf of the County as required by HIPAA.

(n) Contractor shall ensure that any agent, including a subcontractor, to whom it provides Electronic Protected Health Information agrees to implement reasonable and appropriate safeguards to protect it.

(o) Contractor shall report to the County any security incident of which it becomes aware.

(p) (1) Except as provided in subparagraph (2) of this section, upon termination of this Agreement for any reason, Contractor shall return or destroy all Protected Health Information received from the County, or created or received by Contractor on behalf of the County. This provision shall apply to Protected Health Information that is in the possession of subcontractors or agents of Contractor. Contractor, its agents and subcontractors shall retain no copies of the Protected Health Information.

(2) In the event that Contractor determines that returning or destroying the Protected Health Information is infeasible, Contractor shall provide to the County notification of the conditions that make return or destruction infeasible. Upon mutual agreement of the Parties that return or destruction of Protected Health Information is infeasible, Contractor shall extend the protections of this Agreement to such Protected Health Information and limit further uses and disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as Contractor, or any of its agents or subcontractors, maintains such Protected Health Information.

(3) The respective rights and obligations of Contractor concerning the Privacy Rule and the Security Rule, including but not limited to the provisions of this Section, shall survive the termination of this Agreement.

(q) The Parties agree to take such action as is necessary to amend this Agreement from time-to-time as is necessary for the County to comply with the requirements of the Privacy Rule, Security Rule, or any other requirements of HIPAA and its implementing regulations.

Board of Supervisors
Meeting Date: 06/06/2023
Brief Title: Public Hearing to Levy Clarksburg Lighting Assessment
From: Leslie Lindbo, Interim Director, Department of Community Services
Staff Contact: Kimberly Villa, Community Services Analyst, Department of Community Services, x8431
Supervisorial District Impact: District 1

Subject
Hold a public hearing and adopt resolution approving the Engineer's Report, confirm diagram and assessment and order levy of continued Clarksburg Lighting District Assessment for 2023-2024. (No general fund impact) (Lindbo/Villa) (Est. Time: 5 min)

Recommended Action

A. Hold a public hearing; and

B. Adopt resolution approving the Engineer's Report, confirm diagram and assessment, and order levy of continued Clarksburg Lighting District Assessment for fiscal year 2023-2024.

Strategic Plan Goal(s)

Safe Communities

Reason for Recommended Action/Background
The Clarksburg Lighting Assessment District was established in August 1982 under the Landscape and Lighting Act of 1972, with the adoption of Resolution 82-108. The Assessment District is responsible for providing street lighting for the community of Clarksburg. The streetlights are operated and maintained by Pacific Gas and Electric Company (PG&E) and the streetlight service provided within the District for the benefit of the District's property owners is funded from an annual assessment of $35 per parcel, approved on November 23, 2021, following an assessment ballot proceeding (Resolution No. 21-151). This was the first increase to the assessment since June 21, 1994. Approval of the increase also included authorization for an annual CPI adjustment, rounded to the nearest dollar, with a cap of 5 percent. The Landscaping and Lighting Act of 1972 requires than an annual Engineer's Report be prepared by a licensed professional engineer and established other requirements for the continuation of the assessments. Yolo County Public Works prepared an Engineer's Report for the fiscal year 2023-2024 (Attachment B. Engineer's Report). The Engineer's Report includes the proposed budget for the assessments for fiscal year 2023-2024.

On May 9, 2023, the Board of Supervisors adopted Resolution No. 23-69, which preliminarily approved the Engineer's Report and set the date of the public hearing. Notice of the public hearing was published in accordance with the Landscape and Lighting Act.

Proposed assessment rates for the fiscal year 2023-2024, as determined and described in the Engineer's Report is $37.00 per parcel. A summary of the previous years' assessment rates and the proposed 2023-2024 rate is provided in the table below:

	Approved FY 21-22 (unchanged since 1982)	Approved FY 22-23	Proposed FY 23-24
Clarksburg Lighting Assessment (per parcel)	$22.00	$35.00	$37.00

Approval of the resolution will result in the continuation of the levy assessments for fiscal year 2023-24 and will cause these levies to be submitted to the County Auditor to be included on the 2023-24 property tax bill. This public hearing will allow all interested persons the opportunity to participate in this decision-making process and will allow the Board of Supervisors to consider all oral statements and all written protests made or filed by any interested person.

Resolution No. 23 -_____

RESOLUTION APPROVING ENGINEER'S REPORT, CONFIRMING ASSESSMENT, AND ORDERING LEVY OF CONTINUED CLARKSBURG LIGHTING DISTRICT ASSESSMENTS FOR FISCAL YEAR 2023-24

WHEREAS, the Board of Supervisors of the County of Yolo, State of California (the "Board") is authorized, pursuant to the authority provided by the Landscaping and Lighting Act of 1972 (Part 2 of Division 15 of the California Streets and Highways Code (commencing with Section 22500 thereof) ("the Act") to levy and collect assessments for the Clarksburg Lighting Assessment District ("Assessment District"); and

WHEREAS, the current assessment was authorized by an assessment ballot proceeding conducted in November 2021 and approved by 71.8% of the property owners cast ballots, and such assessments were levied by the Board by Resolution No. 21-151, adopted on November 23, 2021, which further authorized future inflationary adjustments; and

WHEREAS, an Engineer's Report has been prepared reflecting the projected costs of $6,436 to provide the improvements and services required to maintain the street lighting facilities that benefit the properties within the Assessment District for fiscal year 2023-24 in accordance with the Act, resulting in an increase of $2.00 per parcel within the Assessment District for a total assessment of $37.00 per parcel, consistent with the inflationary adjustment authorized by Resolution No. 21-151; and

WHEREAS, June 6, 2023, at 9:00 a.m. or as soon thereafter as the matter could be heard by the Board was appointed as the time and place for a hearing by this Board on the question of the levy of the continued assessment, notice of which hearing was given as required by law (Resolution No. 23-69); and

WHEREAS, at the appointed time and place the hearing was duly and regularly held, and all persons interested and desiring to be heard were given an opportunity to be heard, and all matters and things pertaining to the levy of the continued assessments were fully heard and considered by this Board, and all oral statements and all written protests or communications were duly heard, and this Board thereby acquired justification to order the levy and the confirmation of the diagram and assessment prepared by and made a part of the Engineer's Report to pay the costs and expenses thereof;

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE COUNTY OF YOLO THAT:

1. The above recitals are true and correct and incorporated herein by reference.

2. The public interest, convenience and necessity require the continued levy and collection of assessments within the Assessment District for the fiscal year 2023-2024 pursuant to the Act and Article XIIID of the California Constitution.

3. The Assessment District benefited by the improvements and assessed to pay the costs and expenses thereof, and the exterior boundaries thereof, are as shown by a map filed in the office of the Clerk of the Board, which map is made a part hereof by reference.

4. The Engineer’s Report is approved and confirmed; specifically: (a) the Engineer's estimate of the itemized and total costs and expenses of maintaining the improvements and of the incidental expenses in connection therewith; (b) the diagram showing the Assessment District, plans and specifications for the improvements to be maintained and the boundaries and dimensions of the respective lots and parcels of land within the Assessment District; and (c) the assessment of the total amount of the cost and expenses of the proposed maintenance of the improvements upon the several lots and parcels of land in the Assessment District in proportion to the estimated special benefits to be received by such lots and parcels, respectively, from the maintenance, and of the expenses incidental thereto.

5. Final adoption and approval of the Engineer's Report as a whole, and of the plans and specifications, estimate of the costs and expenses, the diagram and the assessment, as contained in the Engineer’s Report, is intended to and shall refer and apply to the Engineer’s Report, or any portion thereof as amended, modified, or revised or corrected by, or pursuant to and in accordance with, any resolution or order, if any, adopted or made by this Board.

6. The continued assessment to pay the costs and expenses of the maintenance of the improvements for fiscal year 2023-2024 is hereby levied at the rate of THIRTY-SEVEN DOLLARS AND ZERO CENTS ($37.00) per parcel. For further particulars pursuant to the provisions of the Act, reference is hereby made to the Engineer's Report.

7. Based on the oral and documentary evidence, including the Engineer's Report, offered and received at the hearing, this Board expressly finds and determines (a) that each of the several lots and parcels of land will be specially benefited by the maintenance of the improvements at least in the amount if not more than the amount, of the assessment apportioned against the lots and parcels of land, respectively, and (b) that there is substantial evidence to support, and the weight of the evidence preponderates in favor of, the aforesaid finding and determination as to special benefits.

8. Immediately upon the adoption of this resolution, but in no event later than the third Monday in August following such adoption, the Clerk of the Board shall file a certified copy of the diagram and assessment and a certified copy of this resolution with the Auditor of the County of Yolo. Upon such filing, the County Auditor shall enter on the County assessment roll opposite each lot or parcel of land the amount of assessment thereupon as shown in the assessment. The assessments shall be collected at the same time and in the same manner as County taxes are collected and all laws providing for the collection and enforcement of County taxes shall apply to the collection and enforcement of the assessments, after collection by the County, the net amount of the assessments, after deduction of any compensation due the County for collection, shall be paid to the Assessment District.

9. The Board of Supervisors certifies that the assessments to be placed on the fiscal year 2023-2024 property tax bills meet the requirements of Proposition 218 that added Articles XIIIC and XIIID to the California Constitution.

PASSED AND ADOPTED by the Yolo County Board of Supervisors this 6th day of June, 2023 by the following vote:

INTRODUCTION

HISTORY AND OVERVIEW

The Clarksburg Lighting Assessment District ("District") is responsible for providing street light services for the community of Clarksburg. The District was formed on August 10, 1982 by the Yolo County Board of Supervisors pursuant to the Landscape and Lighting Act of 1972 (Streets & Hwy Code §§ 22500) with the adoption of Resolution No. 82-108.

The streetlights are operated and maintained by Pacific Gas and Electric Company (PG&E) and the street light service provided within the District for the benefit of the District's property owners is currently funded from an annual assessment of $35 per parcel, approved on November 23, 2021 following an assessment ballot proceeding, with an annual inflator of the change in the Consumer Price Index (CPI-W and CPI-U) for the San Francisco-Oakland-Hayward, CA area for the most recent February to February as compiled by the Bureau of Labor Statistics, or 5-percent, whichever is lower. The rate is then rounded to the nearest whole dollar. This was the first increase to the assessment since June 21, 1994, when the annual assessment was set at $22 per parcel and did not include a mechanism to adjust for cost inflation. The assessment proceeds are exclusively used for providing street light services within the District, including servicing and maintenance, plus incidental expenses.

In accordance with the provisions of the Landscaping and Lighting Act of 1972, this report has been prepared to determine the annual assessments required for the costs of operating and maintaining the District's street lights and to determine the general and special benefits received from the Improvements by property within the District and the method of assessment apportionment to lots and parcels. This Report and the assessments have been made pursuant to the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the "Act") and Article XIIID of the California Constitution (the "Article")

ENGINEER'S REPORT AND CONTINUATION OF ASSESSMENTS

As required by the Act, this Report includes a diagram or map of the District, the benefits received by property from the Improvements within the District, and the method of assessment apportionment to lots and parcels within the District. If the Board of Supervisors approves this Engineer's Report and the proposed Assessments by resolution, a public notice will be published in the local newspaper and on the County website. The resolution preliminarily approving the Engineer's Report and public notice will include the date for a public hearing. At the appointed time and place, a public hearing is held to allow public testimony about the proposed Assessments. At this hearing, the Board will hear public testimony before the close of the public comment period of the public hearing. After the public comment period, the Board may take action to approve the levying of Assessments for Fiscal Year 2023-24. If so confirmed and approved, the Assessments would be submitted to the Yolo County Auditor/Controller for inclusion on the property tax rolls for fiscal year 2023-24.

PLANS AND SPECIFICATIONS

There are 173 parcels within the District. Please see the Clarksburg Lighting Assessment District Map (Attachment A) identifying the 173 District parcels within the District boundary. An Assessment Roll (Attachment B) of the 173 parcels is also attached. The streetlights constructed and maintained with the assessment proceeds are all located within the District boundaries and provide special benefits to the assessed properties with illumination to streets and sidewalks enabling improved access and safety to the District's residents.

Incidental expenses include all of the following:

- The costs of preparation of the annual Engineer's Report;
- The costs of printing, advertising, and the giving of published, posted and mailed notices;
- Compensation payable to the County for collection of assessments
- Compensation of any engineer or attorney employed to render services in proceedings pursuant to this service;
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the Improvements;
- Any expenses incidental to the issuance of bonds or notes pursuant to Streets and Highway Code Section 22662.5; and
- Costs associated with an election held for the approval of a new or increased assessment (Streets & Highway Code 22526).

MAINTENANCE AND IMPROVEMENTS

The streetlights that will be maintained by the District, consists of 21 streetlights and all required appurtenances. This includes the cost of power plus maintenance service for streetlight poles, lamps, and glassware. Dedicated funding, often referred to as "reserves" will be used to augment for replacement costs as needed. Reserves are needed in the event improvements need to be replaced due to failure, damage, natural disaster, or other reasons.

FISCAL YEAR 2023-2024 ESTIMATE OF COSTS

The Landscaping and Lighting Act provides that the total costs for providing the maintenance and servicing of the District Improvements and facilities can be recovered in the assessment, including incidental expenses. The latter can include engineering fees, legal fees, printing, mailing, postage, publishing, and all other costs identified with the District's costs of service and annual assessment proceedings. An estimate of District costs for fiscal year 2023-24 for the maintenance and servicing of the Improvements is provided below.

Service	Cost	Notes
PG&E	$ 3,300	Based on PG&E expenses from last five years
PG&E Rate Volatility Reserve (10% of PG&E cost)	$ 330	10% of the above PG&E yearly costs to account for expected yearly rate increases by the utility
Fund Reserve	$ 750	To build reserve for future repairs/replacements ($ 20,000 estimated to be needed for a street light replacement; currently there are not enough reserve funds to cover one street light replacement if it was required.)
Assessment District Administration	$ 1,531	Annual charge for staff time administering the district, preparing engineer's reports, anticipated cost to hold future proceedings for annual levies, and unanticipated, miscellaneous administrative activities.
Department of Financial Services	$ 525	Annual charges for auditing District activities
Total Annual Revenue Required	**$ 6,436**	
Operating Net to be Assessed	**$ 6,436**	
Current Annual Assessment Per Parcel	$ 35	173 total District parcels
Fiscal year 2023-24 Proposed assessment	$ 37	Based on 2023 February CPI of 5.3%. The inflation caps at 5%.

*Fiscal Years is equal to the maximum assessment rate in the first fiscal year the Increased Assessment was levied ($35 per parcel), adjusted annually by the change in the Consumer Price Index (CPI-W and CPI-U) for the San Francisco-Oakland-Hayward, CA area for the most recent February to February as compiled by the Bureau of Labor Statistics, or 5-percent, whichever is lower. The rate shall be rounded to the nearest dollar.

FUND BALANCE STATUS

The fund balance for this assessment has a five-year average of $3,420, based on fiscal year 2016- 20221. In fiscal year 2021-2022, a successful proceeding was conducted in accordance with Landscape & Lighting District Law of 1972 (Streets & Hwy Code 22501 et seq.) and Proposition 218 (Cal. Const., article XIIID, section 4) to increase the assessment

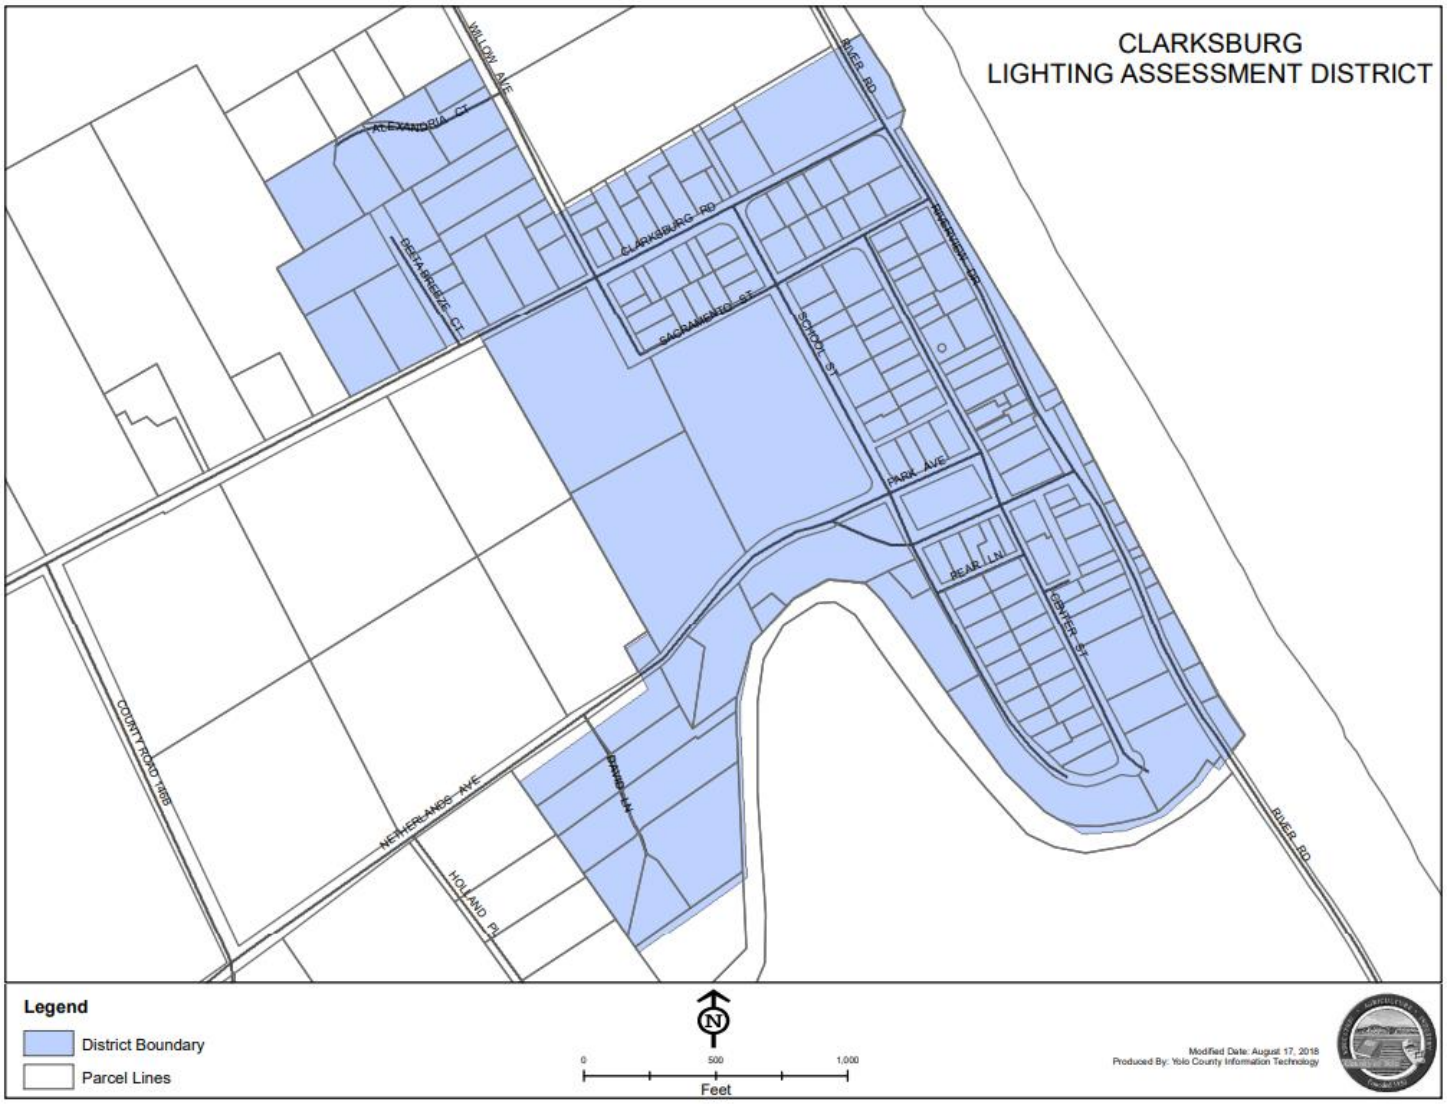
from the 1994 rate and allow flexibility for an annual inflationary adjustment up to five percent. This successful effort included an engineer's report, resolutions to the board, public outreach efforts and a public hearing. The expenses to hold this required Proposition 218 proceeding were significantly higher than previous years of CSA Administrative costs, but if the assessment had not been increased, the District was facing insolvency. Due to these increased expenses in FY 2021-2022 and a lack of fund reserves, the fund balance is negative. In order to help rebuild the fund reserve, adjusting the annual assessment by $2 is recommended. This increase is consistent with the inflationary adjustment the Board approved as part of the assessment proceeding in 2021, which authorizes an annual adjustment by the change in the Consumer Price Index (CPI-W and CPI-U) for the San Francisco-Oakland-Hayward, CA area for the most recent February to February as compiled by the Bureau of Labor Statistics, or 5-percent, whichever is lower. The CPI increase from February to February was 5.3% so an increase of up to five percent is permitted. The year-over-year financial summary follows:

Clarksburg CSA Financial Summary (unaudited) April 2023							
Revenue / Expenses	**2016-17 Actual**	**2017-18 Actual**	**2018-19 Actual**	**2019-20 Actual**	**2020-21 Actual**	**2021-22 Actual**	**2022-23 Projected**
Operating Revenue	**$ 3,569**	**$3,576**	**$ 3,676**	**$ 3,941**	**$ 3,800**	**$ 3,893**	**$ 6,055**
Operating Expenses							
Street lighting service (Utility)	$ 3,042	$3,502	$ 3,040	$ 3,033	$ 2,288	$ 2,442	$ 3,500
Financial Services - Audit/Account	$ 425	$ 616	$ 434	$ 446	$ 173	$ 173	$ 400
CSA administration		$ 231	$ 825	$ 491	$ 643	$ 8,504	$ 1,531
Total Operating Expenses	**$ 3,467**	**$4,349**	**$ 4,299**	**$ 3,970**	**$ 3,104**	**$ 11,119**	**$ 5,431**
Operating Net	**$ 102**	**$ (773)**	**$ (623)**	**$ (29)**	**$ 696**	**$ (7,226)**	**$ 624**
End of Year Fund Balance Available	**$ 4,294**	**$3,521**	**$ 2,898**	**$ 2,869**	**$ 3,519**	**$ (3,953)**	**$ (3,329)**
Fiscal Year 2021-2022 resulted in higher than budgeted expenses due to the Prop. 218 proceedings							

METHOD OF ASSESSMENT APPORTIONMENT

Pursuant to the Landscaping and Lighting Act of 1972 and Article XIII D of the Constitution of the State of California, all parcels that have special benefit conferred upon them as a result of the maintenance and operation of the street lighting improvements shall be identified and the proportionate special benefit derived by each identified parcel shall be determined in relationship to the entire cost of the maintenance and operation of the improvements. Only parcels that receive direct special benefit are assessed, and each parcel is assessed in proportion to the estimated benefit received.

Proper maintenance of the street lighting specially benefits parcels within the District. The street lighting reduces property-related crimes (especially vandalism) against properties in the District. The street lighting within the District contribute to a specific enhancement of the property value of each of the parcels. The benefit provided consists of safety for pedestrians, motorists living and owning property in the District during the nighttime hours.



Streetlights are considered an integral part of the entire street, same as curb, gutters, pavement, signage, and striping. They are elements that provide a safe route for motorists and pedestrians. Streetlights are installed to make streets safer. Proper operation maintenance of the system assures that these benefits are ongoing. Streetlights benefit residential and non-residential property.

The system of roadway infrastructure is established to provide access to each parcel in the District. Streetlights provide a safer street environment for owners of the parcels served. If the parcels were not subdivided to individual parcels within the District, there would be no need for providing a system of streets with safety lighting for the owners of the individual parcels. The County has determined that the streetlights are an integral part of the quality of life within the District. Therefore, the installation, operation and maintenance of streetlights are for the special benefit of the parcels within the District. Each parcel within the District received substantially similar benefit from the improvements regardless of their location. Furthermore, the cost of maintaining and operating each light is substantially the same, regardless of the location of the light within the District. Therefore, a fixed assessment was proposed for each parcel regardless of parcel size or zoning. The special benefits to be derived from the Assessments was conferred on property and was not based on a specific property owners' use of the improvements, owner occupancy of the parcel, or the owner's demographic status, and thus the appropriate method of assessment apportionment should be based on an equal per parcel basis with total costs apportioned equally amongst the 173 District parcels.

ASSESSMENT FUNDS MUST BE EXPENDED WITHIN THE ASSESSMENT DISTRICT AREA

The net available Assessment funds, after incidental, administrative, financing, and other costs, shall be expended exclusively for Improvements within the boundaries of the Assessment District and appropriate incidental and administrative costs as defined in the Plans and Specifications section.

CLARKSBURG LIGHTING DISTRICT ASSESSMENT FOR 2023-2024

Yolo County Board of Supervisors

June 6th, 2023

PROPOSED ASSESSMENT RATES

	Approved FY 21-22 (Unchanged since 1982)	Approved FY 22-23	Proposed FY 23-24
Clarksburg Lighting Assessment	$22.00	$ 35.00	$37.00

ADOPTING THE ANNUAL ASSESSMENT

1

- Engineer's Report
- Resolution to hold a Public Hearing approved at the Board on May 9, 2023

2

- Public Notice in Newspaper
  - May 26, 2023

3

- Board of Supervisors
  - Hold Public Hearing
  - Adopt resolution continuing the levy of assessments

County of Yolo
www.yolocounty.org

To: The Chair and Members of the Board of Supervisors

Regular-Community Services 54.
Board of Supervisors **County Service Areas**

Meeting Date:	06/06/2023
Brief Title:	North Davis Meadows Water System Consolidation Project - Financing Plan Approval
From:	Leslie Lindbo, Director, Department of Community Services
Staff Contact:	Kimberly Villa, Community Services Analyst, Department of Community Services, x8431
Supervisorial District Impact:	District 2

Subject

Receive presentation on the North Davis Meadows Water Consolidation Project; adopt resolution approving documents and actions for approval of the State Water Resources Control Board State Revolving Fund Loan program financing for the North Davis Meadows County Service Area Water System Consolidation Project financing, including authorizing the execution and delivery of an Installment Sale Agreement for up to $8,135,600; and adopt resolution updating the authorizing resolution delegating authority to the County Administrator, the Director of Community Services and other designated officers to execute the financing agreement, amendments and funding certifications for the Project. (No general fund impact) (Lindbo/Villa) (Est. Time: 5 min)

Recommended Action

A. Receive presentation on the North Davis Meadows Water Consolidation Project ("Project") financing through the State Water Resources Control Board (SWRCB) State Revolving Fund (SRF) Loan Program;

B. Adopt a resolution authorizing the execution and delivery of an Installment Sale Agreement, for up to $8,135,600 in Drinking Water State Revolving Funds between the County of Yolo and the SWRCB, and the execution of all implementing documents, for financial assistance in connection with the Project (Attachments A and B); and

C. Adopt a resolution authorizing the County Administrator, the Director of Community Services, and other designated officers to sign the financing agreement, amendments and funding certifications for the Project (Attachment C).

Strategic Plan Goal(s)

Safe Communities

Reason for Recommended Action/Background

Since 2009, the North Davis Meadows County Service Area (CSA) has been working toward a permanent solution for mitigation of water quality concerns in the community's public water system, most notably nitrate, hexavalent chromium, aluminum and iron in excess of maximum contaminant levels (MCLs). Absent progress toward a viable solution, the community is at risk for $1,000 fines per day, per constituent over the MCL (currently $3,000 per day absent an MCL for hexavalent chromium). After assessing a variety of options for providing a potable water supply that meets all drinking water standards, including treatment at the well-head and drilling deep wells, the North Davis Meadows CSA Advisory Committee and the community concluded that consolidating with the City of Davis public water system was the most reliable and cost-effective method to comply with California drinking water regulations and to ensure the health and safety, including fire protection, for the residents of North Davis Meadows. On September 27, 2016, the Board of Supervisors approved an agreement for the North Davis Meadows CSA Water System Consolidation Project ("the Project") design work related to extending City of Davis water to the North Davis Meadows CSA, following the adoption of the Initial Study/Negative Declaration. An addendum to the Negative

Declaration was later adopted by the Board of Supervisors on March 20, 2018, and a second addendum was adopted on November 22, 2022, to address minor Project changes.

Project Financing - Approval of the State of California Clean Water State Revolving Fund Loan
On March 20, 2018, the Board of Supervisors approved water rate increases to pay for the Project and approved various resolutions required by the State Water Resources Control Board (SWRCB) to secure favorable Project financing through the Drinking Water State Revolving Fund (SRF) program. The SWRCB provides financial assistance to municipalities for water and wastewater projects, including loan and grant funding for construction of municipal drinking water facilities. The County received commitments from the SWRCB for both a grant in the amount of $7.6 Million for the Project ($80,000 per parcel) to cover the majority of the costs of the Project, with the remainder represented by a loan made by the SWRCB under its State Revolving Fund Loan program (the "SRF Loan"). The SRF Loan will be evidenced by an installment sale agreement (the "Installment Sale Agreement") between the County and the SWRCB, under which the SWRCB agrees to sell the Project to the County in return for annual installment payments (the "Installment Payments") to be made by the County as the purchase price of the Project. The Installment Payments are sized to repay the SRF Loan, and are payable by the County solely from the water fees and charges adopted by the North Davis Meadows CSA on March 20, 2018, to cover the anticipated annual repayment of the SRF Loan.

The attached resolution (Attachment A) approves the financing plan for the Project and authorizes the execution and delivery of the Installment Sale Agreement by the County, confirms the appointment of professionals in connection with the financing, and designates certain County officers to execute the Installment Sale Agreement and take other actions necessary to implement the financing plan. The Installment Sale Agreement (Attachment B) will be finalized and executed when the SWRCB returns the execution copy with the numbers inserted but the form of the Installment Sale Agreement has been finalized with SWRCB's legal department. In addition, the resolution and attachments thereto contain the public disclosures required by Government Code section 5852.1. Section 5852.1 requires the Board of Supervisors to make certain public disclosures regarding the proposed financing by obtaining a good faith estimate from a financial adviser that includes the principal amount of the loan, the true interest cost, and the total payment amount, among other disclosures. The good faith estimate for the Project's SRF financing was prepared by KNN Public Finance, LLC based upon a total estimated Project construction cost of $8,135,600 and an interest rate of 2.1%, and also includes two scenarios, one with the anticipated $7.6 million in grant proceeds and the other without the grant proceeds, to ensure we have reviewed both scenarios pending receipt of a final Installment Sale Agreement with the grant financing from the SWRCB. The good faith estimate is included as Appendix A to the resolution.

The Installment Sale Agreement is anticipated to be in substantially the form provided in Attachment B, which has been approved by SWRCB's assigned legal counsel and is anticipated to be finalized in the next two months per the latest update from the SWRCB. Adopting the attached resolution will ensure there is no further delay in executing the Installment Sale Agreement and proceeding with the Project once the final financing documents are submitted by the SWRCB for signature.

Authorizing Resolution
Staff are also requesting adoption of the resolution identifying the "authorized representative" on behalf of the County who may sign the SRF financing agreement and other Project documents on behalf of the County, as required by the SWRCB (Attachment C). The initial authorizing resolution identified the County Administrator as the "authorized representative" (Resolution No. 18-30). On November 22, 2022, the Board approved an updated resolution (Resolution No. 22-146) updating the prior authorization to designate the Director of Community Services as the County's "authorized representative" in order to streamline the signature process once the SRF financing agreement review process is completed. To be consistent with the resolution approving the financing plan and per direction from the SWRCB, the attached resolution further updates the "authorized representative" for the County to be the County Administrator, the Assistant County Administrator, Director of Community Services, or the Chief Financial Officer to sign the Installment Sale Agreement and other documents necessary to complete and implement the financing for the Project.

Fiscal Information
Fiscal impact (see budgetary detail below)

Fiscal Impact of this Expenditure

Total cost of recommended action	$8,135,600
Amount budgeted for expenditure	$8,135,600
Additional expenditure authority needed	$0
On-going commitment (annual cost)	$24,251

Source of Funds for this Expenditure

SRF Grant	$7,600,000
SRF Loan	$535,600

Further explanation as needed

The North Davis Meadows CSA Water Enterprise Fund is the source of repayment for the SRF loan. The numbers above are based upon an anticipated project cost of $8,135,600, grant funding of $7.6 million ($80,000 per connection), and a 2.1% interest rate. The SRF loan program financing is a 30-year term and will have an annual debt service payment of approximately $24,063.16 and a total debt service of $727,516.96. The estimated amounts above may differ, as specified in the good faith estimate, if the grant funding is less than $7.6 million. The annual debt service without any grant funding would be approximately $368,358.97.

RESOLUTION NO. 23-_____

A RESOLUTION AUTHORIZING THE EXECUTION AND DELIVERY OF AN INSTALLMENT SALE AGREEMENT, FOR UP TO $8,135,600 IN DRINKING WATER STATE REVOLVING FUNDS, BETWEEN THE COUNTY OF YOLO AND THE STATE WATER RESOURCES CONTROL BOARD, AND THE EXECUTION OF ALL IMPLEMENTING DOCUMENTS, FOR FINANCIAL ASSISTANCE IN CONNECTION WITH THE NORTH DAVIS MEADOWS COUNTY SERVICE AREA (CSA) WATER SYSTEM CONSOLIDATION PROJECT

WHEREAS, the County of Yolo ("the County") formed the North Davis Meadows County Service Area No. 10 ("North Davis Meadows CSA"), a dependent special district, pursuant to the County Service Area Law (Government Code §§ 25210 et seq.), which provides water and other services to the unincorporated Yolo County community of North Davis Meadows; and

WHEREAS, the property within North Davis Meadows CSA is currently served by two wells with concentrations of nitrate, iron and aluminum that exceed State maximum containment levels, and likely hexavalent chromium once new standards are set; and

WHEREAS, the County, on behalf of the North Davis Meadows CSA, and the City of Davis have been working collaboratively to consolidate the North Davis Meadows water system into the City of Davis Public Water System to replace use of the wells and, on December 11, 2018, entered into an Agreement for Water Service and System Maintenance and Transfer of Water Customers to City Service (Yolo County Agreement No. 18-261); and

WHEREAS, the County, on behalf of the North Davis Meadows CSA, has applied for financing in the form of a State Revolving Fund loan (the "SRF Loan") from the State Water Resources Control Board (the "SWRCB") to finance the project, which is commonly known as the North Davis Meadows CSA Water System Consolidation Project (the "Project"); and

WHEREAS, the SRF Loan will be evidenced by an installment sale agreement (the "Installment Sale Agreement") between the County and the SWRCB, under which the SWRCB agrees to sell the Project to the County in return for annual installment payments (the "Installment Payments") to be made by the County as the purchase price of the Project; and

WHEREAS, the County is authorized to enter into the Installment Sale Agreement in accordance with Government Code Section 23004; and

WHEREAS, the North Davis Meadows CSA adopted an increase in water fees and charges (the "CSA Fees") on March 20, 2018, to cover the anticipated annual repayment of the SRF Loan; and

WHEREAS, the Installment Payments will be payable from and secured solely by a pledge of and lien on the CSA Fees; and

WHEREAS, pursuant to Government Code Section 5852.1, certain information relating to the Installment Sale Agreement is set forth in Appendix A attached to this Resolution, and such information is hereby disclosed and made public;

WHEREAS, it is in the public interest, convenience and welfare and for the common benefit of the inhabitants of the North Davis Meadows CSA that the County enter into this financing with the SWRCB to finance the Project;

WHEREAS, the Board of Supervisors of the County of Yolo ("Board") wishes to take its action at this time approving the execution and delivery of the Installment Sale Agreement and the execution and delivery of related financing documents;

NOW, THEREFORE, BE IT RESOLVED AND ORDERED, by the Board of Supervisors of the County of Yolo as follows:

Section 1. Recitals and Findings. The Board hereby finds and determines that the foregoing recitals are true and correct.

Section 2. Approval of Financing Plan. The Board of Supervisors hereby approves the financing plan described above for the purpose of providing funds to finance the acquisition, construction and installation of the Project. The aggregate principal amount of the Installment Payments shall not exceed the total estimated Project cost of $8,135,600. The Board acknowledges that the actual principal amount of the Installment Payments may decline based on the amount of the anticipated grant to be provided by the SWRCB for the Project. The maximum interest component of the Installment Payments shall be a fixed rate not in excess of 2.10%.

Section 3. Approval of Installment Sale Agreement. The Board of Supervisors hereby approves the Installment Sale Agreement in substantially the form thereof on file with the Clerk of the Board of Supervisors, together with any changes therein or additions thereto deemed advisable by the County Administrator, Assistant County Administrator, the Director of Community Services or Chief Financial Officer (each, an "Authorized Representative"), the execution of which by an Authorized Representative shall be conclusive evidence of the approval of any such changes or additions. Each Authorized Representative is each hereby authorized and directed for and in the name and on behalf of the County to execute, and the Clerk of the Board is hereby authorized and directed to attest, the final form of the Installment Sale Agreement. The Board hereby finds that the Installment Sale Agreement, when duly executed and delivered by the County and the SWRCB, will constitute a valid agreement, enforceable against the County in accordance with its terms, will comply with all applicable debt management policies of the County and any prior resolutions adopted by the Board concerning the Project, and to the extent of any conflicts between the Installment Sale Agreement so executed and such policies and resolutions, the provisions of the Installment Sale Agreement shall control.

Section 4. Professional Services**.** The appointment of KNN Public Finance, LLC, as municipal advisor, and Jones Hall, A Professional Law Corporation, as special counsel, are hereby ratified and confirmed. Any officer of the County is hereby authorized and directed to execute an agreement with each of such firms.

Section 5. Official Actions. Each Authorized Representative, the Clerk of the Board, County Counsel, and all other officers of the County are each authorized and

directed in the name and on behalf of the County to execute any and all assignments, certificates, requisitions, agreements, notices, consents, instruments of conveyance, and other documents, which they or any of them deem necessary or appropriate in order to consummate any of the transactions contemplated by the agreements and documents approved under this Resolution, and to perform all acts necessary and proper for executing the Installment Sale Agreement and carrying out its terms. Whenever in this resolution any officer of the County is authorized to execute or countersign any document or take any action, such execution, countersigning or action may be taken on behalf of such officer by any person designated by such officer to act on his or her behalf if such officer is absent or unavailable. Any actions previously taken by any Authorized Representative, the Clerk of the Board and all other officers of the County in furtherance of this Resolution are hereby ratified and approved.

Section 6. Effective Date. This Resolution shall take effect immediately upon its passage and adoption.

APPENDIX A

REQUIRED DISCLOSURES PURSUANT TO GOVERNMENT CODE SECTION 5852.1

The good faith estimates set forth herein are provided with respect to the Installment Sale Agreement in accordance with California Government Code Section 5852.1. Such good faith estimates have been provided to the County by KNN Public Finance, LLC, the County's Municipal Advisor.

A. The following good faith estimates assume no grant proceeds will be received.

Principal Amount. The Municipal Advisor has informed the County that, based on the financing plan, its good faith estimate of the aggregate principal amount of the Installment Payments is $8,135,600.00 (the "Estimated Principal Amount").

True Interest Cost. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, its good faith estimate of the true interest cost with respect to the Installment Payments, which means the rate necessary to discount the amounts payable on the respective principal and interest payment dates to the proceeds received, is 2.099999%.

Finance Charge. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, and based on the assumed interest rate with respect to the Installment Payments, its good faith estimate of the finance charge with respect to the Installment Sale Agreement, which means the sum of all fees and charges paid to third parties and other costs associated with the Installment Sale Agreement, is $0.00. Such fees and charges include fees for special counsel and municipal advisor.

Amount of Proceeds to be Received. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, and based on the assumed interest rate with respect to the Installment Payments, its good faith estimate of the amount of proceeds expected to be received from the Installment Sale Agreement, less the finance charge estimated above, is $8,135,600.00.

Total Payment Amount. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, and based on the assumed interest rate with respect to the Installment Payments, its good faith estimate of the total payment amount, which means the sum total of all Installment Payments, plus the finance charge described above and not paid with the proceeds of the Installment Sale Agreement, calculated to the final term of the Installment Sale Agreement, is $11,050,769.20.

B. The following good faith estimates assume grant proceeds in the amount of $7,600,000 will be received from the SWRCB.

Principal Amount. The Municipal Advisor has informed the County that, based on the financing plan, its good faith estimate of the aggregate principal amount of the Installment Payments is $535,600.00 (the "Estimated Principal Amount").

True Interest Cost. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, its good faith estimate of the true interest cost with respect to the Installment Payments, which means the rate necessary to discount the amounts payable on the respective principal and interest payment dates to the proceeds received, is 2.099993%.

Finance Charge. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, and based on the assumed interest rate with respect to the Installment Payments, its good faith estimate of the finance charge with respect to the Installment Sale Agreement, which means the sum of all fees and charges paid to third parties and other costs associated with the Installment Sale Agreement, is $0.00. Such fees and charges include fees for special counsel and municipal advisor.

Amount of Proceeds to be Received. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, and based on the assumed interest rate with respect to the Installment Payments, its good faith estimate of the amount of proceeds expected to be received from the Installment Sale Agreement, less the finance charge estimated above, is $535,600.00.

Total Payment Amount. The Municipal Advisor has informed the County that, assuming the Estimated Principal Amount, and based on the assumed interest rate with respect to the Installment Payments, its good faith estimate of the total payment amount, which means the sum total of all Installment Payments, plus the finance charge described above and not paid with the proceeds of the Installment Sale Agreement, calculated to the final term of the Installment Sale Agreement, is $727,516.96.

The foregoing estimates constitute good faith estimates only. The actual principal amount of the Installment Payments, the true interest cost thereof, the finance charges thereof, the amount of proceeds received therefrom and total payment amount with respect thereto may differ from such good faith estimates due to (a) the actual date of the execution and delivery of the Installment Sale Agreement being different than the date assumed for purposes of such estimates, (b) the actual principal amount of the Installment Payments being different from the Estimated Principal Amount, (c) the actual Installment Payments being different than the those assumed for purposes of such estimates, (d) the actual interest rate with respect to the Installment Payments being different than the assumed interest rate with respect thereto, or (e) alterations in the financing plan, delays in the financing, or a combination of such factors. The actual date of execution and delivery of the Installment Sale Agreement and the actual principal amount of the Installment Payments will be determined by the County based on the timing of the need for proceeds and other factors. The actual interest rate borne by the Installment Payments may differ from those assumed.

EXHIBIT D – SPECIAL CONDITIONS 44

EXHIBIT E – PAYMENT SCHEDULE 45

DRAFT

AGREEMENT

1. AUTHORITY.

(a) The State Water Resources Control Board (State Water Board) is authorized, and implements its authority, to provide financial assistance under this Agreement pursuant to

Section 116760 et seq. of the Health and Safety Code, and Resolution Nos. 2019-0065 and 2022-0041.

Senate Bill 129 (Stats. 2021, Ch. 69), Item 3940-106-0001 of Section 2.00 of the Budget Act of 2021, Provision 1, and Resolution No. 2022-0041.

(b) The Recipient is authorized to enter into this Installment Sale Agreement (Agreement) pursuant to Resolution No. _____, dated _____.

2. INTENTION.

(a) The Recipient desires to receive financial assistance for and undertake work required for the drinking water construction Project according to the terms and conditions set forth in this Agreement.

(b) The State Water Board proposes to assist in providing financial assistance for eligible costs of the Project in the amount set forth in Exhibit B, according to the terms and conditions set forth in this Agreement, with the expectation that the Recipient shall repay a portion of the financial assistance to the State Water Board.

(c) The Recipient intends to evidence its obligation to submit Payments to the State Water Board and secure its obligation with CSA Fees, as set forth in Exhibit B, according to the terms and conditions set forth in this Agreement.

(d) The Recipient intends to certify and evidence its compliance with the Tax Covenants set forth in Exhibit F.

(e) The Recipient intends to connect the Project with the water system of the City of Davis (City) and shall ensure that the City will own, operate, and maintain the Project after Completion of Construction.

3. AGREEMENT, TERM, DOCUMENTS INCORPORATED BY REFERENCE.

In consideration of the mutual representations, covenants and agreements herein set forth, the State Water Board and the Recipient, each binding itself, its successors and assigns, do mutually promise, covenant, and agree to the terms, provisions, and conditions of this Agreement.

(a) The Recipient hereby sells to the State Water Board and the State Water Board hereby purchases from the Recipient the Project. Simultaneously therewith, the Recipient hereby purchases from the State Water Board, and the State Water Board hereby sells to the Recipient, the Project in accordance with the provisions of this Agreement. All right, title, and interest in the Project shall immediately vest in the Recipient on the date of execution and delivery of this Agreement by both parties without further action on the part of the Recipient or the State Water Board.

(b) Subject to the satisfaction of any condition precedent to this Agreement, this Agreement shall become effective upon the signature of both the Recipient and the State Water Board. Conditions precedent are not limited to the following:

i. The Recipient must deliver to the Division a resolution authorizing this Agreement.
ii. The Recipient must deliver an opinion of bond counsel and general counsel satisfactory to the State Water Board's counsel dated on or after the date that the Recipient signs this Agreement.
iii. Prior to the disbursement of funds by the State Water Board, the Recipient must deliver to the Division an amendment to Yolo County Agreement No. 18-261 satisfactory to the Division's counsel that includes the State Water Board as a third-party beneficiary.

(c) Upon execution, the term of the Agreement shall begin on the Eligible Work Start Date and extend through the Final Payment Date.

(d) This Agreement includes the following exhibits and attachments thereto:

i. EXHIBIT A – SCOPE OF WORK
ii. EXHIBIT B – FUNDING TERMS
iii. EXHIBIT C – GENERAL & PROGRAMMATIC TERMS & CONDITIONS
iv. EXHIBIT D – SPECIAL CONDITIONS
v. EXHIBIT E – PAYMENT SCHEDULE
vi. EXHIBIT F – TAX CERTIFICATE

(e) This Agreement includes the following documents incorporated by reference, as well as any documents incorporated by reference in Exhibit D:

i. the Final Plans & Specifications, which are the basis for the construction contract to be awarded by the Recipient;
ii. the Drinking Water System Permit No. 5700788, and any amendments thereto;
iii. the Recipient's Reimbursement Resolution No. 18-31 dated March 20th, 2018;
iv. the Recipient's Tax Questionnaire dated December 4th, 2021;
v. the Davis-Bacon requirements found at: https://www.waterboards.ca.gov/water_issues/programs/grants_loans/srf/docs/2022/2022-dwsrf-governmental-entities-public.pdf
vi. Yolo County Agreement No. 18-261, Agreement for Water Service and System Maintenance and Transfer of Water Customers to City Service dated December 11, 2018.

(f) This Agreement, and any amendments hereto, may be executed and delivered in any number of counterparts, each of which when delivered shall be deemed to be an original, but such counterparts shall together constitute one document. The parties may sign this Agreement, and any amendments hereto, either by an electronic signature using a method approved by the State Water Board or by a physical, handwritten signature. The parties mutually agree that an electronic signature using a method approved by the State Water Board is the same as a physical, handwritten signature for the purposes of validity, enforceability, and admissibility.

4. PARTY CONTACTS

State Water Board		[Recipient]	
Section:	Division of Financial Assistance		
Name:	xxxx, Project Manager	Name:	Title
Address:	1001 I Street, ___ Floor	Address:	
City, State, Zip:	Sacramento, CA 95814	City, State, Zip:	
Phone:	(916)	Phone:	
Fax:	(916)	Fax:	
Email:	[PMemail]@waterboards.ca.gov [programemail@waterboards.ca.gov]	Email:	

The Recipient may change its contact upon written notice to the Division, which notice shall be accompanied by authorization from the Recipient's Authorized Representative. The State Water Board will notify the Recipient of any changes to its contact.

While the foregoing are contacts for day-to-day communications regarding Project work, the Recipient shall provide official communications and events of Notice as set forth in Exhibit C to the Division's Deputy Director.

5. DEFINITIONS.

Unless otherwise specified, each capitalized term used in this Agreement has the following meaning:

"Additional Payments" means the reasonable extraordinary fees and expenses of the State Water Board, and of any assignee of the State Water Board's right, title, and interest in and to this Agreement, in connection with this Agreement, including all expenses and fees of accountants, trustees, staff, contractors, consultants, costs, insurance premiums and all other extraordinary costs reasonably incurred by the State Water Board or assignee of the State Water Board.

"Allowance" means an amount based on a percentage of the accepted bid for an eligible project to help defray the planning, design, and construction engineering and administration costs of the Project.

"Agreement" means this agreement, including all exhibits and attachments hereto.

"Authorized Representative" means the duly appointed representative of the Recipient as set forth in the certified original of the Recipient's authorizing resolution that designates the authorized representative by title.

"Charge In Lieu of Interest" means any fee or charge in lieu of some or all of, but not to exceed, the interest that would otherwise be owed under this Agreement, as set forth in Exhibit E.

"City" means the City of Davis, a general law city.

"Completion of Construction" means the date, as determined by the Division after consultation with the Recipient, that the work of building and erection of the Project is substantially complete, and is identified in Exhibit A of this Agreement.

"Consolidation Agreement" means an agreement between Recipient and the City dated December 11, 2018 and titled "Yolo County Agreement No. 18-261, Agreement for Water Service and System Maintenance and Transfer of Water Customers to City Service," as amended, supplemented, and restated, or otherwise modified from time to time.

“Cover Page” means the front page of this Agreement.

“County” means the County of Yolo.

“CSA” means the North Davis Meadows County Service Area (CSA 10) previously established by the Recipient.

"CSA Fees” means the water fees collected by the Recipient from customers within the CSA.

“CSA Fund” consists of the fund established under Exhibit B for the deposit of CSA fees received by the Recipient.

“CSA Obligation” means any obligation of the Recipient payable from the CSA Fees, including but not limited to this Obligation, any Parity Obligation, any Subordinate Obligation, and such additional obligations as may hereafter be issued in accordance with the provisions of such obligations and this Agreement.

“Days” means calendar days unless otherwise expressly indicated.

“Debt Service” means, as of any date, with respect to outstanding CSA Obligations and, in the case of the additional debt tests in Exhibit B of this Agreement, any CSA Obligations that are proposed to be outstanding, the aggregate amount of principal and interest scheduled to become due (either at maturity or by mandatory redemption), together with any Charge In Lieu of Interest on this Obligation or other CSA Obligations to the State Water Board, calculated with the following assumptions:

a. Principal payments (unless a different subdivision of this definition applies for purposes of determining principal maturities or amortization) are made in accordance with any amortization schedule published for such principal, including any minimum sinking fund payments;

b. Interest on a variable rate CSA Obligation that is not subject to a swap agreement and that is issued or will be issued as a tax-exempt obligation under federal law, is the average of the SIFMA Municipal Swap Index, or its successor index, during the 24 months preceding the date of such calculation;

c. Interest on a variable rate CSA Obligation that is not subject to a swap agreement and that is issued or will be issued as a taxable obligation under federal law, is the average of SOFR, or its successor index, during the 24 months preceding the date of such calculation;

d. Interest on a variable rate CSA Obligation that is subject to a swap agreement is the fixed swap rate or cap strike rate, as appropriate, if the variable rate has been swapped to a fixed rate or capped pursuant to an interest rate cap agreement or similar agreement;

e. Interest on a fixed rate CSA Obligation that is subject to a swap agreement such that all or a portion of the interest has been swapped to a variable rate shall be treated as variable rate debt under subdivisions (b) or (c) of this definition of Debt Service;

f. Payments of principal and interest on a CSA Obligation are excluded from the calculation of Debt Service to the extent such payments are to be paid from amounts then currently on deposit with a trustee or other fiduciary and restricted for the defeasance of such CSA Obligations;

g. If 25% or more of the principal of a CSA Obligation is not due until its final stated maturity, then principal and interest on that CSA Obligation may be projected to amortize over the lesser of 30 years or the Useful Life of the financed asset, and interest may be calculated according to subdivisions (b)-(e) of this definition of Debt Service, as appropriate.

“Deputy Director” means the Deputy Director of the Division.

“District Office” means District Office of the Division of Drinking Water of the State Water Board.

"Division" means the Division of Financial Assistance of the State Water Board or any other segment of the State Water Board authorized to administer this Agreement.

“Division of Drinking Water” means the Division of Drinking Water of the State Water Board.

“Eligible Construction Start Date” means the date set forth on the Cover Page of this Agreement, establishing the date on or after which construction costs may be incurred and eligible for reimbursement hereunder.

“Eligible Work Start Date” means the date set forth on the Cover Page of this Agreement, establishing the date on or after which any non-construction costs may be incurred and eligible for reimbursement hereunder.

“Event of Default” means the occurrence of any of the following events:

a) Failure by the Recipient to make any payment required to be paid pursuant to this Agreement, including Payments;
b) A representation or warranty made by or on behalf of the Recipient in this Agreement or in any document furnished by or on behalf of the Recipient to the State Water Board pursuant to this Agreement shall prove to have been inaccurate, misleading or incomplete in any material respect;
c) A material adverse change in the condition of the Recipient, the CSA Fees, the CSA Fund, the City, the Revenues, the Project, or the System, which the Division reasonably determines would materially impair the Recipient’s ability to satisfy its obligations under this Agreement.
d) Failure by the Recipient to comply with the additional debt test or reserve fund requirement, if any, in Exhibit B or Exhibit D of this Agreement;
e) Failure to operate the System or the Project without the Division’s approval, by either the Recipient or the City, regardless of which entity owns or operates the the Project or the System;
f) Failure by the Recipient, to observe and perform any covenant, condition, or provision in this Agreement, which failure shall continue for a period of time, to be determined by the Division;
g) The occurrence of a material breach or event of default under any CSA Obligation that results in the acceleration of principal or interest or otherwise requires immediate prepayment, repurchase or redemption;
h) Initiation of proceedings seeking arrangement, reorganization, or any other relief under any applicable bankruptcy, insolvency, or other similar law; the appointment of or taking possession of the Recipient’s property by a receiver, liquidator, assignee, trustee, custodian, conservator, or similar official; the Recipient’s entering into a general assignment for the benefit of creditors; the initiation of resolutions or proceedings to terminate the Recipient’s existence, or any action in furtherance of any of the foregoing;
i) A determination pursuant to Gov. Code section 11137 that the Recipient has violated any provision in Article 9.5 of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code;
j) The occurrence of a material breach or event of default under the Consolidation Agreement; or

k) Loss of the Recipient's or City's rights, licenses, permits, or privileges necessary for the operation of the System or the Project, or the occurrence of any material restraint on the Recipient's CSA Fund by a government agency or court order, regardless of which entity holds the right, license, permit, privilege or fund.

"Final Payment Date" is the date by which all principal and accrued interest due under this Agreement is to be paid in full to the State Water Board and is specified on the Cover Page of this Agreement.

"Final Reimbursement Request Date" means the date set forth as such on the Cover Page of this Agreement, after which date, no further Project Funds disbursements may be requested.

"Fiscal Year" means the period of twelve (12) months terminating on June 30 of any year, or any other annual period selected and designated by the Recipient as its Fiscal Year in accordance with applicable law.

"Force Account" means the use of the Recipient's own employees, equipment, or resources for the Project.

"GAAP" means generally accepted accounting principles, the uniform accounting and reporting procedures set forth in publications of the American Institute of Certified Public Accountants or its successor, or by any other generally accepted authority on such procedures, and includes, as applicable, the standards set forth by the Governmental Accounting Standards Board or its successor, or the Uniform System of Accounts, as adopted by the California Public Utilities Commission for water utilities.

"Indirect Costs" means those costs that are incurred for a common or joint purpose benefiting more than one cost objective and are not readily assignable to the Project (i.e., costs that are not directly related to the Project). Examples of Indirect Costs include, but are not limited to: central service costs; general administration of the Recipient; non-project-specific accounting and personnel services performed within the Recipient organization; depreciation or use allowances on buildings and equipment; the costs of operating and maintaining non-project-specific facilities; tuition and conference fees; generic overhead or markup; and taxes.

"Initiation of Construction" means the date that notice to proceed with work is issued for the Project, or, if notice to proceed is not required, the date of commencement of building and erection of the Project.

"Material Obligation" means an obligation of the Recipient or the City that is material to this transaction, including CSA Obligations and System Obligations.

"Maximum Annual Debt Service" means the maximum amount of Debt Service due on CSA Obligations in a Fiscal Year during the period commencing with the Fiscal Year for which such calculation is made and within the next five years in which Debt Service for any CSA Obligations will become due.

"Obligation" means the obligation of the Recipient to make Payments (including Additional Payments) as provided herein, as evidenced by the execution of this Agreement, proceeds of such obligations being used to fund the Project as specified in the Project Description in Exhibit A and Exhibit B and in the documents thereby incorporated by reference.

"Operations and Maintenance Costs" means the reasonable and necessary costs paid or incurred by the Recipient or the City for maintaining and operating the System, determined in accordance with GAAP, including all reasonable expenses of management and repair and all other expenses necessary to maintain and preserve the System in good repair and working order, and including all reasonable and necessary administrative costs of the Recipient or the City that are charged directly or apportioned to the

operation of the System, such as salaries and wages of employees, overhead, taxes (if any), the cost of permits, licenses, and charges to operate the System and insurance premiums; but excluding, in all cases depreciation, replacement, and obsolescence charges or reserves therefor and amortization of intangibles.

“Parity Obligation” means a debt obligation of the Recipient on parity with this Obligation. There are no Parity Obligations as of the date of this Agreement.

“Payment” means any payment due to the State Water Board from the Recipient pursuant to this Agreement.

"Policy" means the State Water Board's “Policy for Implementing the Drinking Water State Revolving Fund,” as amended from time to time, including the Intended Use Plan in effect as of the execution date of this Agreement.

“Project” means the Project financed by this Agreement as described in Exhibits A and B and in the documents incorporated by reference herein.

"Project Completion" means the date, as determined by the Division after consultation with the Recipient, that operation of the Project is initiated or is capable of being initiated, whichever comes first.

"Project Costs" means the incurred costs of the Recipient which are eligible for financial assistance under this Agreement, which are allowable costs as defined under the Policy, and which are reasonable, necessary and allocable by the Recipient to the Project under GAAP, and may include capitalized interest.

“Project Funds” means all moneys disbursed to the Recipient by the State Water Board for eligible Project Costs pursuant to this Agreement.

“Recipient” means County of Yolo.

“Records Retention End Date” means the last date that the Recipient is obligated to maintain records and is set forth on the Cover Page of this Agreement.

“Reimbursement Resolution” means the Recipient’s reimbursement resolution identified and incorporated by reference in this Agreement.

“Reserve Fund” means the reserve fund required pursuant to Exhibit B of this Agreement.

"Revenues" means, for each Fiscal Year, all gross income and revenue received or receivable by the City from the ownership or operation of the System, determined in accordance with GAAP, including all rates, fees, and charges (including connection fees and charges) as received by the City for the services of the System, and all other income and revenue howsoever derived by the City from the ownership or operation of the System or arising from the System.

“Rule 15c2-12(b)(5)” means Rule 15c2-12(b)(5) promulgated by the Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934, as amended.

“Senior Obligation” means a debt obligation of the Recipient that is senior to this Obligation. There are no Senior Obligations.

“SRF” means the Drinking Water State Revolving Fund.

“State” means State of California.

“State Water Board” means the State Water Resources Control Board.

“Subordinate Obligation” means a debt obligation of the Recipient that is subordinate to this Obligation. There are no subordinate obligations.

“System” means all drinking water collection, transport, treatment, storage, and delivery facilities, including land and easements thereof, owned by the City and all other properties, structures, or works hereafter acquired and constructed by the Recipient and determined to be a part of the System, together with all additions, betterments, extensions, or improvements to such facilities, properties, structures, or works, or any part thereof hereafter acquired and constructed.

“System Obligation” means any obligation of the City payable from the Revenues.

“Useful Life” means the economically useful life of the Project beginning at Completion of Construction and is set forth in Exhibit A.

“Year” means calendar year unless otherwise expressly indicated.

IN WITNESS WHEREOF, this Agreement has been executed by the parties hereto.

EXHIBIT A – SCOPE OF WORK

A.1. PROJECT DESCRIPTION, USEFUL LIFE, AND SCOPE OF WORK.

(a) The Project is the project set forth on the Cover Page of this Agreement.

(b) The Useful Life of this Project is at least _____ years.

(c) Scope of Work.

[to be inserted by DFA]

A.2. STANDARD PROJECT REQUIREMENTS.

A.2.1 Acknowledgements.

The Recipient shall include the following acknowledgement in any document, written report, or brochure prepared in whole or in part pursuant to this Agreement:

"Funding for this project has been provided in full or in part through an agreement with the State Water Resources Control Board.

California's Drinking Water State Revolving Fund is capitalized through a variety of funding sources, including grants from the United States Environmental Protection Agency and state bond proceeds.

The contents of this document do not necessarily reflect the views and policies of the foregoing, nor does mention of trade names or commercial products constitute endorsement or recommendation for use."

A.2.2 Reports

A.2.2.1 Progress Reports.

(a) The Recipient must provide a progress report to the Division each quarter, beginning no later than 90 days after execution of this Agreement.

(b) The Recipient must provide a progress report with each reimbursement request. Failure to provide a complete and accurate progress report may result in the withholding of Project Funds, as set forth in Exhibit B.

(c) A progress report must contain the following information:

i. A summary of progress to date including a description of progress since the last report, percent construction complete, percent contractor invoiced, and percent schedule elapsed;

ii. A description of compliance with environmental requirements;

iii. A listing of change orders including amount, description of work, and change in contract amount and schedule; and

iv. Any problems encountered, proposed resolution, schedule for resolution, and status of previous problem resolutions.

A.2.2.2 Project Completion Report.

(a) The Recipient must submit a Project Completion Report to the Division with a copy to the appropriate District Office on or before the due date established by the Division and the Recipient at the time of final project inspection. The Project Completion Report must include the following:

i. Description of the Project,

ii. Description of the water quality problem the Project sought to address,

iii. Discussion of the Project's likelihood of successfully addressing that water quality problem in the future, and

iv. Summary of compliance with applicable environmental conditions.

(b) If the Recipient fails to submit a timely Project Completion Report, the State Water Board may stop processing pending or future applications for new financial assistance, withhold disbursements under this Agreement or other agreements, and begin administrative proceedings.

A.2.2.3 As Needed Reports.

The Recipient must provide expeditiously, during the term of this Agreement, any reports, data, and information reasonably required by the Division, including but not limited to material necessary or appropriate for evaluation of the funding program or to fulfill any reporting requirements of the state or federal government.

A.2.2.4 DBE Reports for SRF Projects.

The Recipient must report Disadvantaged Business Enterprise (DBE) utilization to the Division on the DBE Utilization Report, State Water Board Form DBE UR334. The Recipient must submit such reports to the Division annually within ten (10) calendar days following October 1 until such time as the "Notice of Completion" is issued. The Recipient must comply with 40 CFR § 33.301 and require its contractors and subcontractors on the Project to comply.

A.2.3 Signage.

a. The Recipient shall place a sign at least four feet tall by eight feet wide made of ¾ inch thick exterior grade plywood or other approved material in a prominent location on the Project site and shall maintain the sign in good condition for the duration of the construction period.

b. Building A Better America Emblem: The Recipient will ensure that a sign is placed at construction sites supported under this award displaying the official Building A Better America emblem and must identify the project as a "project funded by President Biden's Bipartisan Infrastructure Law." Construction is defined at 40 CFR 33.103 as "erection, alteration, or repair (including dredging, excavating, and painting) of buildings, structures, or other improvements to real property, and activities in response to a release or a threat of a release of a hazardous substance into the environment, or activities to prevent the introduction of a hazardous substance into a water supply." The sign must be placed at construction sites

in an easily visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period.

The Recipient will ensure compliance with the guidelines and design specifications for using the official Building A Better America emblem and corresponding logomark available at: https://www.whitehouse.gov/wp-content/uploads/2022/08/Building-A-Better-America-Brand-Guide.pdf.

c. United States Environmental Protection Agency (USEPA) Logo: The Recipient will ensure that signage displays the USEPA logo along with the official Building A Better America emblem. The USEPA logo must not be displayed in a manner that implies that USEPA itself is conducting the project. Instead, the USEPA logo must be accompanied with a statement indicating that the recipient received financial assistance from USEPA for the project.

The Recipient will ensure compliance with the sign specifications provided by the USEPA Office of Public Affairs (OPA) available at: https://www.epa.gov/grants/epa-logo-seal-specifications-signage-produced-epa-assistance-agreement-recipients. As provided in the sign specifications from OPA, the USEPA logo is the preferred identifier for assistance agreement projects and use of the USEPA seal requires prior approval from the USEPA. To obtain the appropriate USEPA logo or seal graphic file, the Recipient should send a request directly to OPA and include the USEPA Project Officer in the communication. Instructions for contacting OPA is available on the Using the EPA Seal and Logo page.

d. Procuring Signs: Consistent with section 6002 of the Resource Conservation and Recovery Act, 42 U.S.C. 6962, and 2 CFR 200.323, recipients are encouraged to use recycled or recovered materials when procuring signs. Signage costs are considered an allowable cost under this assistance agreement provided that the costs associated with signage are reasonable. Additionally, to increase public awareness of projects serving communities where English is not the predominant language, recipients are encouraged to translate the language on signs (excluding the official Building A Better America emblem or USEPA logo or seal) into the appropriate non-English language(s). The costs of such translation are allowable, provided the costs are reasonable.

e. The sign shall include the following logos:

f. The sign shall include the following statement:

“Funding for this $x. million [name of project] project has been provided in full or in part by the Drinking Water State Revolving Fund and President Biden’s Bipartisan Infrastructure Law through an agreement with the State Water Resources Control Board. California’s Drinking Water State Revolving Fund is capitalized through a variety of funding sources, including grants from the United States Environmental Protection Agency and state bond proceeds.”

g. The Project sign may include another agency's required promotional information so long as the above requirements are satisfied. The sign shall be prepared in a professional manner.

A.2.4 Commencement of Operations.

Upon Completion of Construction of the Project, the Recipient shall transfer ownership of the Project to the City and shall ensure that the City agrees to expeditiously initiate Project operations.

A.3 DATES & DELIVERABLES.

(a) Time is of the essence.

(b) The Recipient must expeditiously proceed with and complete construction of the Project.

(c) The following dates are established as on the Cover Page of this Agreement:

i. Eligible Work Start Date
ii. Eligible Construction Start Date
iii. Completion of Construction Date
iv. Final Reimbursement Request Date
v. Records Retention End Date
vi. Final Payment Date

(d) The Recipient must award the prime construction contract timely.

(e) The Recipient agrees to start construction no later than [DFA will insert date that is within 6 months after execution of this Agreement].

(f) The Recipient must deliver any request for extension of the Completion of Construction date no less than 90 days prior to the Completion of Construction date.

(g) The undisbursed balance of this Agreement will be deobligated if the Recipient does not provide its final reimbursement request to the Division on or before the Final Reimbursement Request Date.

(h) Upon request by the Division, the Recipient shall submit verifiable data to support deliverables specified in the Scope of Work. The Recipient's failure to comply with this requirement may be construed as a material breach of this Agreement.

A.4 SCHEDULE.

Failure to provide items by the due dates indicated in the table below may constitute a material violation of this Agreement. The Project Manager may adjust the dates in the "Estimated Due Date" column of this table, but Critical Due Date adjustments will require an amendment to this Agreement. The Recipient must complete and submit all work in time to be approved by the Division prior to Project Completion. As applicable for specific submittals, the Recipient must plan adequate time to solicit, receive, and address comments prior to submitting the final submittal. The Recipient must submit the final reimbursement request prior to the Final Reimbursement Request Date set forth on the Cover Page.

[DFA will insert Schedule of Deliverables]

EXHIBIT B – FUNDING TERMS

B.1. FUNDING AMOUNTS AND REIMBURSEMENTS

B.1.1 Funding Contingency and Other Sources.

(a) If this Agreement's funding for any fiscal year expires due to reversion or is reduced, substantially delayed, or deleted by the Budget Act, by Executive Order, or by order or action of the Department of Finance, the State Water Board has the option to either cancel this Agreement with no liability accruing to the State Water Board, or offer an amendment to the Recipient to reflect the reduced amount.

(b) If funding for Project Costs is made available to the Recipient from sources other than this Agreement, the Recipient must notify the Division. The Recipient may retain such funding up to an amount which equals the Recipient's share of Project Costs. To the extent allowed by requirements of other funding sources, excess funding must be remitted to the State Water Board to be applied to Payments due hereunder, if any.

B.1.2 Estimated Reasonable Cost.

The estimated reasonable cost of the total Project, including associated planning and design costs is Written Dollar Amount dollars and no cents ($Dollar Amount).

B.1.3 Project Funding Amount.

Subject to the terms of this Agreement, the State Water Board agrees to provide Project Funds not to exceed the amount of the Project Funding Amount set forth on the Cover Page of this Agreement.

B.1.4 Grant Component.

(a) Contingent on the Recipient's performance of its obligations under this Agreement, the State Water Board will make a grant of not to exceed the amount of the Grant Component set forth on the Cover Page of this Agreement.

(b) Upon Completion of Construction, the State Water Board will prepare an alternate payment schedule reflecting this grant.

B. 1.5 Budget Costs.

(a) Estimated budget costs are contained in the Summary Project Cost Table below:

[DFA will insert table]

The Division's Final Budget Approval and related Form 259 and Form 260 will document a more detailed budget of eligible Project Costs and Project funding amounts.

Upon written request by the Recipient, the Division may adjust the line items of the Summary Project Cost Table at the time of Division's Final Budget Approval. Upon written request by the Recipient, the Division may also adjust the line items of the Summary Project Cost Table as well as the detailed budget at the time of Recipient's submittal of its final claim. Any line item adjustments to the Summary Project Cost

Table that are due to a change in scope of work will require an Agreement amendment. The sum of adjusted line items in both the Summary Project Cost Table and the detailed budget must not exceed the Project Funding Amount. The Division may also propose budget adjustments.

(b) Under no circumstances may the sum of line items in the budget approved through the Final Budget Approval process exceed the Project Funding Amount. Any increase in the Project Funding Amount will require an Agreement amendment.

B.1.6 Contingent Disbursement.

(a) The State Water Board's disbursement of funds hereunder is contingent on the Recipient's compliance with the terms and conditions of this Agreement.

(b) The State Water Board's disbursement of funds hereunder is contingent on the Recipient's compliance with the Consolidation Agreement. The Recipient shall ensure the City's compliance with the Consolidation Agreement.

(c) The State Water Board's obligation to disburse Project Funds is contingent upon the availability of sufficient funds to permit the disbursements provided for herein. If sufficient funds are not available for any reason, including but not limited to failure of the federal or State government to appropriate funds necessary for disbursement of Project Funds, the State Water Board shall not be obligated to make any disbursements to the Recipient under this Agreement. This provision shall be construed as a condition precedent to the obligation of the State Water Board to make any disbursements under this Agreement. Nothing in this Agreement shall be construed to provide the Recipient with a right of priority for disbursement over any other entity. If any disbursements due the Recipient under this Agreement are deferred because sufficient funds are unavailable, it is the intention of the State Water Board that such disbursement will be made to the Recipient when sufficient funds do become available, but this intention is not binding.

(d) Construction costs and disbursements are not available until after the Division has approved the final budget form submitted by the Recipient.

(e) No costs incurred prior to the Eligible Work Start Date are eligible for reimbursement.

(f) Construction costs incurred prior to the Eligible Construction Start Date are not eligible for reimbursement.

(g) Failure to proceed according to the timelines set forth in this Agreement may require the Recipient to repay to the State Water Board all disbursed Project Funds.

(h) The Recipient agrees to ensure that its final reimbursement request is received by the Division no later than the Final Reimbursement Request Date. If the final reimbursement request is not received timely, the undisbursed balance of this Agreement will be deobligated.

(i) The Recipient is not entitled to interest earned on undisbursed funds.

B.1.7 Reimbursement Procedure.

Except as may be otherwise provided in this Agreement, disbursement of Project Funds will be made as follows:

(a) Upon execution and delivery of this Agreement by both parties, the Recipient may request immediate reimbursement of any eligible incurred planning and design allowance costs through submission to the State Water Board of the Reimbursement Request Form 260 and Form 261, or any amendment thereto, duly completed and executed.

(b) The Recipient must submit a reimbursement request for costs incurred prior to the date this Agreement is executed by the State Water Board no later than ninety (90) days after this Agreement is executed by the State Water Board. Late reimbursement requests may not be honored.

(c) The Recipient may request reimbursement of eligible construction and equipment costs consistent with budget amounts approved by the Division in the Final Budget Approval.

(d) Additional Project Funds will be promptly disbursed to the Recipient upon receipt of reimbursement request Form 260 and Form 261, or any amendment thereto, duly completed and executed by the Recipient for incurred costs consistent with this Agreement, along with receipt of progress reports due under Exhibit A.

(e) The Recipient must not request reimbursement for any Project Cost until such cost has been incurred and is currently due and payable by the Recipient, although the actual payment of such cost by the Recipient is not required as a condition of reimbursement request. Supporting documentation (e.g., receipts) must be submitted with each reimbursement request. The amount requested for administration costs must include a calculation formula (i.e., hours or days worked times the hourly or daily rate = total amount claimed). Disbursement of Project Funds will be made only after receipt of a complete, adequately supported, properly documented, and accurately addressed reimbursement request. Upon request by the Division, supporting documents for professional and administrative services must include the employees' names, classifications, labor rates, hours worked, and descriptions of the tasks performed. Reimbursement requests submitted without supporting documents may be wholly or partially withheld at the discretion of the Division.

(f) The Recipient must spend Project Funds within 30 days of receipt. If the Recipient earns interest earned on Project Funds, it must report that interest immediately to the State Water Board. The State Water Board may deduct earned interest from future disbursements.

(g) The Recipient shall not request a reimbursement unless that Project Cost is allowable, reasonable, and allocable.

(h) Notwithstanding any other provision of this Agreement, no disbursement shall be required at any time or in any manner which is in violation of or in conflict with federal or state laws, policies, or regulations.

(i) No work or travel outside the State of California is permitted under this Agreement unless the Division provides prior written authorization. Failure to comply with this restriction may result in termination this Agreement, pursuant to Exhibit C. Any reimbursement for necessary travel and per diem shall be at rates not to exceed those set by the California Department of Human Resources at http://www.calhr.ca.gov/employees/Pages/travel-reimbursements.aspx. as of the date costs are incurred by the Recipient.

B.1.8 Withholding of Disbursements.

Notwithstanding any other provision of this Agreement, the State Water Board may withhold all or any portion of the Project Funds upon the occurrence of any of the following events:

(a) The Recipient's failure to maintain reasonable progress on the Project as determined by the Division;
(b) Placement on the ballot or passage of an initiative or referendum to repeal or reduce the CSA Fees;
(c) Commencement of litigation or a judicial or administrative proceeding related to the Project, the System, the CSA Fees, or the CSA Fund, or Revenues that the State Water Board determines may impair the timely satisfaction of Recipient's obligations under this Agreement;
(d) Any investigation by the State Water Board, District Attorney, California State Auditor, Bureau of State Audits, United States Environmental Protection Agency's Office of Inspector General, the Internal Revenue Service, Securities and Exchange Commission, a grand jury, or any other state or federal agency, relating to the Recipient's or City's financial management, accounting procedures, or internal fiscal controls;
(e) A material adverse change in the condition of the Recipient, CSA Fees, the CSA Fund, the City, the Revenues, or the System, that the Division reasonably determines would materially impair the Recipient's ability to satisfy its obligations under this Agreement, or any other event that the Division reasonably determines would materially impair the Recipient's ability to satisfy its obligations under this Agreement;
(f) The Recipient's material violation of, or threat to materially violate, any term of this Agreement, including any material violation or threat to violate by the City any obligation under this Agreement passed through to the City;
(g) Suspicion of fraud, forgery, embezzlement, theft, or any other misuse of public funds by the Recipient, the City, or its employees, or by its contractors or agents regarding the Project or the System;
(h) An event requiring Notice as set forth in Exhibit C;
(i) An Event of Default or an event that the Division determines may become an Event of Default.

B.1.9 Fraud and Misuse of Public Funds; Enforcement.

All requests for reimbursement submitted must be accurate and signed by the Recipient's Authorized Representative under penalty of perjury. All costs submitted pursuant to this Agreement must only be for the work or tasks set forth in this Agreement. The Recipient must not submit any invoice containing costs that are ineligible or have been reimbursed from other funding sources unless required and specifically noted as such (i.e., match costs). Any eligible costs for which the Recipient is seeking reimbursement shall not be reimbursed from any other source. Double or multiple billing for time, services, or any other eligible cost is improper and will not be compensated. Any suspected occurrences of fraud, forgery, embezzlement, theft, or any other misuse of public funds may result in suspension of disbursements and, notwithstanding any other section in this Agreement, the termination of this Agreement requiring the repayment of all Project Funds disbursed hereunder. Additionally, the Deputy Director of the Division may request an audit; refer the matter for appropriate administrative action, including but not limited to the recovery of financial assistance provided and the imposition of civil penalties; and/or refer the matter to the Attorney General's Office or the appropriate district attorney's office for criminal prosecution or the imposition of civil liability. A person who knowingly makes or causes to be made any false statement, material misrepresentation, or false certification in any submittal may be subject to a civil penalty, criminal fine, or imprisonment. (Wat. Code, § 13490 et seq.)

B.2 RECIPIENT'S PAYMENT OBLIGATION, PLEDGE, AND RESERVE

B.2.1 Project Costs.

The Recipient must pay any and all costs connected with the Project including, without limitation, any and all Project Costs and Additional Payments. If the Project Funds are not sufficient to pay the Project Costs in full, the Recipient must nonetheless complete the Project and pay that portion of the Project Costs in excess of available Project Funds, and shall not be entitled to any reimbursement therefor from the State Water Board.

B.2.2 Estimated Principal Payment Due.

The estimated amount of principal that will be due to the State Water Board from the Recipient under this Agreement is Written Dollar Amount dollars and no cents ($Dollar Amount).

B.2.3 Interest Rate and In-Lieu of Interest Charges.

(a) The Recipient agrees to make all Payments according to the schedule in Exhibit E, and as otherwise set forth herein, at an interest rate of Written Interest Rate % (X%) per annum.

(b) Interest will accrue beginning with each disbursement.

(c) In lieu of, and not to exceed, interest otherwise due under this Agreement, the Recipient agrees to pay the following charge(s), as further set forth in Exhibit E:

- an Administrative Service Charge
- a Drinking Water Small Community Emergency Grant Fund Charge

B.2.4 [Reserved.]

B.2.5 Obligation Absolute.

The obligation of the Recipient to make the Payments and other payments required to be made by it under this Agreement, from the CSA Fees and/or other amounts legally available to the Recipient therefor, is absolute and unconditional, and until such time as the Payments and Additional Payments have been paid in full, the Recipient must not discontinue or suspend any Payments or other payments required to be made by it hereunder when due, whether or not the Project, or any related part thereof is operating or operable or has been completed, or its use is suspended, interfered with, reduced or curtailed or terminated in whole or in part, and such Payments and other payments shall not be subject to reduction whether by offset or otherwise and shall not be conditional upon the performance or nonperformance by any party of any agreement for any cause whatsoever.

B.2.6 Payment Timing.

(a) The Recipient must pay interest annually, by [DFA to fill in date] of each year, until one year after Completion of Construction. Beginning no later than one year after Completion of Construction, the Recipient must make annual Payment of the principal of the Project Funds, together with all interest accruing thereon by [DFA to fill in date]. The Recipient must make Payments fully amortizing the total principal of the Project Funds by the Final Payment Date. Payments are based on a standard fully amortized assistance amount with equal annual payments.

(b) The remaining balance is the previous balance, plus the disbursements, plus the accrued interest on both, plus any Charge In Lieu of Interest, less the Payment. Payment calculations will be made beginning

one (1) year after Completion of Construction. Exhibit E is a payment schedule based on the provisions of this Exhibit and an estimated disbursement schedule. Actual payments will be based on actual disbursements.

(c) Upon Completion of Construction and submission of necessary reports by the Recipient, the Division will prepare an appropriate payment schedule and supply the same to the Recipient. The Division may amend this schedule as necessary to accurately reflect amounts due under this Agreement. The Division will prepare any necessary amendments to the payment schedule and send them to the Recipient. The Recipient must make each Payment on or before the due date therefor. A ten (10) day grace period will be allowed, after which time a penalty in the amount of costs incurred by the State Water Board will be assessed for late payment. These costs may include, but are not limited to, lost interest earnings, staff time, bond debt service default penalties, if any, and other related costs. For purposes of penalty assessment, payment will be deemed to have been made if payment is deposited in the U.S. Mail within the grace period with postage prepaid and properly addressed. Any penalties assessed will not be added to the assistance amount balance, but will be treated as a separate account and obligation of the Recipient. The interest penalty will be assessed from the payment due date.

(d) The Recipient is obligated to make all payments required by this Agreement to the State Water Board, notwithstanding any individual default by its constituents or others in the payment to the Recipient of CSA Fees. The Recipient must provide for the punctual payment to the State Water Board of all amounts which become due under this Agreement and which are received from constituents or others in the payment to the Recipient. In the event of failure, neglect or refusal of any officer of the Recipient to levy or cause to be levied any CSA Fees to provide payment by the Recipient under this Agreement, to enforce or to collect such CSA Fees, or to pay over to the State Water Board any money collected on account of such CSA Fees necessary to satisfy any amount due under this Agreement, the State Water Board may take such action in a court of competent jurisdiction as it deems necessary to compel the performance of all duties relating to the imposition and collection of CSA Fees and the payment of the money collected therefrom to the State Water Board. Action taken pursuant hereto shall not deprive the State Water Board of, or limit the application of, any other remedy provided by law or by this Agreement.

(e) Each Payment must be paid in lawful money of the United States of America by check or other acceptable form of payment set forth at www.waterboards.ca.gov/make_a_payment.
The Recipient must pay Payments and Additional Payments from the CSA Fund and/or other amounts legally available to the Recipient therefor.

B.2.7 Pledged Revenues.

B.2.7.1 Establishment of CSA Fund and Reserve Fund.

In order to carry out its CSA Obligations, the Recipient covenants that it shall establish and maintain or shall have established and maintained the CSA Fund. All CSA Fees received shall be deposited when and as received in trust in the CSA Fund. As required in this Exhibit, the Recipient must establish and maintain a Reserve Fund.

B.2.7.2 Pledge of CSA Fees, CSA Fund, and Reserve Fund.

The Obligation hereunder shall be secured by a senior lien on and pledge of the Pledge of CSA Fees, CSA Fund, and any Reserve Fund. The Recipient hereby pledges and grants such lien on and pledge of the CSA Fees, the CSA Fund, and any Reserve Fund to secure the Obligation, including payment of Payments and Additional Payments hereunder. The Pledge of CSA Fees, CSA Fund, and any Reserve Fund shall be subject to the lien of such pledge without any physical delivery thereof or further act, and

the lien of such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the Recipient.

B.2.7.3 Application and Purpose of the CSA Fund.

Subject to the provisions of any outstanding CSA Obligation, money on deposit in the CSA Fund shall be applied and used first to pay all amounts due and payable with respect to the CSA Obligations in order of priority. After making all payments hereinabove required to be made in each Fiscal Year, the Recipient may expend in such Fiscal Year any remaining money in the CSA Fund for any lawful purpose of the Recipient.

B.2.8 No Prepayment.

Pursuant to State Water Board's Debt Management Policy, adopted on October 3, 2017, the Recipient may not prepay any portion of the principal and interest due under this Agreement without the written consent of the Deputy Director of the Division.

B.2.9 Reserve Fund.

Prior to Completion of Construction, the Recipient must establish a restricted Reserve Fund, held in its CSA Fund, equal to one year's Debt Service on this Obligation. The Recipient must maintain the Reserve Fund throughout the term of this Agreement. The Reserve Fund is subject to lien and pledged as security for this Obligation, and its use is restricted to payment of this Obligation during the term of this Agreement.

B.3 RATES, FEES AND CHARGES.

(a) The Recipient must, to the extent permitted by law, fix, prescribe and collect CSA Fees during each Fiscal Year which are reasonable, fair, and nondiscriminatory and which will equal (i) at least 120% of the Maximum Annual Debt Service with respect to all outstanding CSA Obligations senior to and on parity with the Obligation and (ii) at least 100% of the Maximum Annual Debt Service with respect to all outstanding CSA Obligations subordinate to the Obligation, so long as CSA Obligations other than this Obligation are outstanding. Upon defeasance of all CSA Obligations other than this Obligation, this ratio must be at least 120%, except where CSA Obligations are defeased pursuant to refunding obligations.

(b) The Recipient shall ensure that the City, to the extent permitted by law, fix, prescribe and collect rates, fees, and charges during each Fiscal Year which are reasonable, fair, and nondiscriminatory and which will be sufficient to generate Revenues in the amounts necessary to cover Operations and Maintenance Costs.

(c) Upon consideration of a voter initiative to reduce CSA Fees, the Recipient must make a finding regarding the effect of such a reduction on the Recipient's ability to satisfy the rate covenant set forth in this Section. The Recipient must make its findings available to the public. The Recipient's Authorized Representative must request, if necessary, the authorization of the Recipient's decision-maker or decision-making body to file litigation to challenge any such initiative that it finds will render it unable to satisfy the rate covenant set forth in this Agreement. The Recipient must diligently pursue and bear any and all costs related to such challenge. The Recipient must notify and regularly update the State Water Board regarding the status of any such challenge.

B.4 ADDITIONAL DEBT.

(a) The Recipient's future debt that is secured by CSA Fees pledged herein may not be senior to this Obligation.

(b) The Recipient may issue additional parity or subordinate debt only if all of the following conditions are met:

i. No Event of Default (or no event with respect to which notice has been given and which, once all notice of grace periods have passed, would constitute an Event of Default) has occurred and is continuing;
ii. CSA Fees in the most recent Fiscal Year, excluding transfers from a rate stabilization fund, if any, meet the ratio for rate covenants set forth in this Exhibit with respect to any outstanding and proposed additional obligations;
iii. The Recipient is in compliance with any reserve fund requirement of this Obligation.

B.5 NO LIENS.

The Recipient must not make any pledge of or place any lien on the Project, the System, or CSA Fees except as otherwise provided or permitted by this Agreement.

EXHIBIT C – GENERAL & PROGRAMMATIC TERMS & CONDITIONS

C.1 REPRESENTATIONS & WARRANTIES.

The Recipient represents, warrants, and commits to the following as of the Eligible Work Start Date and continuing thereafter for the term of this Agreement.

C.1.1 Application and General Recipient Commitments.

The Recipient has not made any untrue statement of a material fact in its application for this financial assistance, or omitted to state in its application a material fact that makes the statements in its application not misleading.

The Recipient agrees to comply with all terms, provisions, conditions, and commitments of this Agreement, including all incorporated documents.

The Recipient agrees to fulfill all assurances, declarations, representations, and commitments in its application, accompanying documents, and communications filed in support of its request for funding under this Agreement.

C.1.2 Authorization and Validity.

The execution and delivery of this Agreement, including all incorporated documents, has been duly authorized by the Recipient. Upon execution by both parties, this Agreement constitutes a valid and binding obligation of the Recipient, enforceable in accordance with its terms, except as such enforcement may be limited by law.

C.1.3 No Violations.

The execution, delivery, and performance by Recipient of this Agreement, including all incorporated documents, do not violate any provision of any law or regulation in effect as of the date of execution of this Agreement by the Recipient, or result in any breach or default under any contract, obligation, indenture, or other instrument to which Recipient is a party or by which Recipient is bound as of the date of execution of this Agreement by the Recipient.

C.1.4 No Litigation.

There are, as of the date of execution of this Agreement by the Recipient, no pending or, to Recipient's knowledge, threatened actions, claims, investigations, suits, or proceedings before any governmental authority, court, or administrative agency which materially affect the financial condition or operations of the Recipient, CSA Fees, the System, the City, the Revenues, and/or the Project.

There are no proceedings, actions, or offers by a public entity to acquire by purchase or the power of eminent domain the System or any of the real or personal property related to or necessary for the Project.

C.1.5 Property Rights and Water Rights.

The Recipient owns or has sufficient property rights in the Project property for the longer of the Useful Life or the term of this Agreement, either in fee simple or for a term of years that is not subject to third-party revocation during the Useful Life of the Project.

The Recipient represents and warrants that the City owns or has sufficient property rights in the System property for the longer of the Useful Life of the Project.

The Recipient possesses all water rights necessary for this Project.

C.1.6 Solvency and Insurance.

None of the transactions contemplated by this Agreement will be or have been made with an actual intent to hinder, delay, or defraud any present or future creditors of Recipient. The Recipient is solvent and will not be rendered insolvent by the transactions contemplated by this Agreement. The Recipient is able to pay its debts as they become due. The Recipient maintains sufficient insurance coverage considering the scope of this Agreement, including, for example but not necessarily limited to, general liability, automobile liability, workers compensation and employer liability, professional liability.

C.1.7 Legal Status and Eligibility.

The Recipient is duly organized and existing and in good standing under the laws of the State of California. Recipient must at all times maintain its current legal existence and preserve and keep in full force and effect its legal rights and authority. The Recipient acknowledges that changes to its legal or financial status may affect its eligibility for funding under this Agreement and commits to maintaining its eligibility. Within the preceding ten years, the Recipient has not failed to demonstrate compliance with state or federal audit disallowances.

C.1.8 Financial Statements and Continuing Disclosure.

The financial statements of Recipient previously delivered to the State Water Board as of the date(s) set forth in such financial statements: (a) are materially complete and correct; (b) present fairly the financial condition of the Recipient; and (c) have been prepared in accordance with GAAP. Since the date(s) of such financial statements, there has been no material adverse change in the financial condition of the Recipient, nor have any assets or properties reflected on such financial statements been sold, transferred, assigned, mortgaged, pledged or encumbered, except as previously disclosed in writing by Recipient and approved in writing by the State Water Board.

The Recipient is current in its continuing disclosure obligations associated with its material debt, if any.

C.1.9 CSA Obligations and System Obligations

The Recipient warrants and represents that it has no CSA Obligations other than the obligation under this Agreement.

The Recipient represents and warrants that the City has no System Obligations that would materially affect the Recipient's ability to comply with any of its obligations under this Agreement.

C.1.10 No Other Material Debt .

The Recipient has no Material Obligations.

C.1.11 Compliance with State Water Board Funding Agreements.

The Recipient represents that it is in compliance with all State Water Board funding agreements to which it is a party.

C.1.12 Enforcement of Consolidation Agreement.

The Recipient shall take all steps necessary to enforce its rights and the City's obligations under the Consolidation Agreement to the extent necessary to comply with this Agreement. Any changes to the Consolidation Agreement must be satisfactory to the Division and its counsel.

C.2 DEFAULTS AND REMEDIES

In addition to any other remedy set forth in this Agreement, the following remedies are available under this Agreement.

C.2.1 Return of Funds; Acceleration; and Additional Payments.

Notwithstanding any other provision of this Agreement, if the Division determines that an Event of Default has occurred, the Recipient may be required, upon demand, immediately to do each of the following:

i. return to the State Water Board any grant or principal forgiveness amounts received pursuant to this Agreement;
ii. accelerate the payment of any principal owed under this Agreement, all of which shall be immediately due and payable;
iii. pay interest at the highest legal rate on all of the foregoing; and
iv. pay any Additional Payments.

C.2.2 [Reserved.]

C.2.3 Administrative remedies.

Whenever the State Water Board determines that the Recipient, the City, the Recipient's contractor, consultant, employee, agent, assignee, or grantee has violated any requirement or term of the Agreement or caused the Recipient to violate any requirement or term of the Agreement, the State Water Board may impose civil penalties in accordance with Water Code, section 13497. The State Water Board may impose civil liability administratively against the Recipient, the City, or the Recipient's consultant or contractor or other agent furnishing any information related to funds disbursed or costs claimed for reimbursement if the Recipient or the Recipient's consultant or contractor or other agent fails to personally attest that the information is true, accurate, and complete the best of one's knowledge. (Wat. Code, § 13498.) The State Water Board may impose civil liability administratively against any person who makes a misrepresentation in any submittal to the State Water Board, including, but not limited to, an application, report, certification, record, invoice, form, or other document that is submitted to the State Water Board relating to a financial assistance agreement. (Wat. Code, § 13499.)

C.2.4 Judicial remedies.

Whenever the State Water Board determines that an Event of Default shall have occurred, the State Water Board may enforce its rights under this Agreement by any judicial proceeding, whether at law or in equity. Without limiting the generality of the foregoing, the State Water Board may:

i. by suit in equity, require the Recipient to account for amounts relating to this Agreement as if the Recipient were the trustee of an express trust;
ii. by mandamus or other proceeding, compel the performance by the Recipient and any of its officers, agents, and employees of any duty under the law or of any obligation or covenant under this Agreement, including but not limited to the imposition and collection of rates for the services of the System sufficient to meet all requirements of this Agreement; and
iii. take whatever action at law or in equity as may appear necessary or desirable to the State Water Board to collect the Payments then due or thereafter to become due, or to enforce performance of any obligation or covenant of the Recipient under this Agreement.

Upon the filing of a suit or other commencement of judicial proceedings to enforce the rights of the State Water Board under this Agreement, the State Water Board may make application for the appointment of a receiver or custodian of the CSA Fees, pending such proceeding, with such power as the court making such appointment may confer.

C.2.5 Termination.

Upon an Event of Default, the State Water Board may terminate this Agreement. Interest shall accrue on all amounts due at the highest legal rate of interest from the date that the State Water Board delivers notice of termination to the Recipient.

C.2.6 Damages for Breach of Tax-Exempt Status.

In the event that any breach of any of the provisions of this Agreement by the Recipient results in the loss of tax-exempt status for any bonds of the State or any subdivision or agency thereof, or if such breach results in an obligation on the part of the State or any subdivision or agency thereof to reimburse the federal government by reason of any arbitrage profits, the Recipient must immediately reimburse the State or any subdivision or agency thereof in an amount equal to any damages paid by or loss incurred by the State or any subdivision or agency thereof due to such breach.

C.2.7 Damages for Breach of Federal Conditions.

In the event that any breach of any of the provisions of this Agreement results in the failure of Project Funds to be used pursuant to the provisions of this Agreement, or if such breach results in an obligation on the part of the State or any subdivision or agency thereof to reimburse the federal government, the Recipient must immediately reimburse the State or any subdivision or agency thereof in an amount equal to any damages paid by or loss incurred by the State or any subdivision or agency thereof due to such breach.

C.2.8 Remedies and Limitations.

None of the remedies available to the State Water Board shall be exclusive of any other remedy, and each such remedy shall be cumulative and in addition to every other remedy given hereunder or now or hereafter existing at law or in equity. The State Water Board may exercise any remedy, now or hereafter existing, without exhausting and without regard to any other remedy.

Any claim of the Recipient is limited to the rights and remedies provided to the Recipient under this Agreement and is subject to the claims procedures provided to the Recipient under this Agreement.

C.2.9 Non-Waiver.

Nothing in this Agreement shall affect or impair the Recipient's Obligation to pay Payments as provided herein or shall affect or impair the right of the State Water Board to bring suit to enforce such payment. No delay or omission of the State Water Board in the exercise of any right arising upon an Event of Default shall impair any such right or be construed to be a waiver of any such Event of Default. The State Water Board may exercise from time to time and as often as shall be deemed expedient by the State Water Board, any remedy or right provided by law or pursuant to this Agreement.

C.2.10 Status Quo.

If any action to enforce any right or exercise any remedy shall be brought and either discontinued or determined adversely to the State Water Board, then the State Water Board shall be restored to its former position, rights and remedies as if no such action had been brought.

C.3 STANDARD CONDITIONS

C.3.1 Access, Inspection, and Public Records.

The Recipient must ensure, that the State Water Board, the Governor of the State, the United States Environmental Protection Agency, the Office of Inspector General, any member of Congress, or any authorized representative of the foregoing, will have safe and suitable access to the Project site and all relevant System sites as necessary or useful in the discretion of the foregoing, at all reasonable times during Project construction and thereafter for the term of the Agreement. The Recipient acknowledges that, except for a subset of information regarding archaeological records, the Project records and locations are public records, including but not limited to all of the submissions accompanying the application, all of the documents incorporated into this Agreement by reference, and all reports, reimbursement requests, and supporting documentation submitted hereunder.

C.3.2 Accounting and Auditing Standards; Financial Management Systems; Records Retention.

(a) The Recipient must maintain project accounts according to GAAP as issued by the Governmental Accounting Standards Board (GASB) or its successor. The Recipient must maintain GAAP-compliant project accounts, including GAAP requirements relating to the reporting of infrastructure assets.

(b) The Recipient must comply with federal standards for financial management systems. The Recipient agrees that, at a minimum, its fiscal control and accounting procedures will be sufficient to permit preparation of reports required by the federal government and tracking of Project funds to a level of expenditure adequate to establish that such funds have not been used in violation of federal or state law or the terms of this Agreement. To the extent applicable, the Recipient is bound by, and must comply with, the provisions and requirements of the federal Single Audit Act of 1984 and 2 CFR Part 200, subpart F, and updates or revisions, thereto.

(c) Without limitation of the requirement to maintain Project accounts in accordance with GAAP, the Recipient must:

i. Establish an official file for the Project which adequately documents all significant actions relative to the Project;
ii. Establish separate accounts which will adequately and accurately depict all amounts received and expended on the Project, including all assistance funds received under this Agreement;

iii. Establish separate accounts which will adequately depict all income received which is attributable to the Project, specifically including any income attributable to assistance funds disbursed under this Agreement;
iv. Establish an accounting system which will accurately depict final total costs of the Project, including both direct and indirect costs;
v. Establish such accounts and maintain such records as may be necessary for the State to fulfill federal reporting requirements, including any and all reporting requirements under federal tax statutes or regulations; and
vi. If Force Account is used by the Recipient for any phase of the Project, other than for planning, design, and construction engineering and administration provided for by allowance, accounts will be established which reasonably document all employee hours charged to the Project and the associated tasks performed by each employee.

(d) The Recipient must maintain separate books, records and other material relative to the Project. The Recipient must also retain such books, records, and other material for itself and for each contractor or subcontractor who performed or performs work on this project for a minimum of thirty-six (36) years after Completion of Construction. The Recipient must require that such books, records, and other material are subject at all reasonable times (at a minimum during normal business hours) to inspection, copying, and audit by the State Water Board, the California State Auditor, the Bureau of State Audits, the United States Environmental Protection Agency (USEPA), the Office of Inspector General, the Internal Revenue Service, the Governor, or any authorized representatives of the aforementioned. The Recipient must allow and must require its contractors to allow interviews during normal business hours of any employees who might reasonably have information related to such records. The Recipient agrees to include a similar duty regarding audit, interviews, and records retention in any contract or subcontract related to the performance of this Agreement. The provisions of this section survive the term of this Agreement.

C.3.3 Amendment.

No amendment or variation of the terms of this Agreement shall be valid unless made in writing and signed by both the Recipient and the Deputy Director or designee.

Requests for amendments must be in writing and directed to the contact listed in Section 4 and to the Division's Chief of Loans and Grants Administration Section.

C.3.4 Assignability.

This Agreement is not assignable by the Recipient, either in whole or in part, without the consent of the State Water Board in the form of a formal written amendment to this Agreement.

C.3.5 Audit.

(a) The Division may call for an audit of financial information relative to the Project if the Division determines that an audit is desirable to assure program integrity or if an audit becomes necessary because of state or federal requirements. If an audit is called for, the audit must be performed by a certified public accountant independent of the Recipient and at the cost of the Recipient. The audit must be in the form required by the Division.

(b) Audit disallowances must be returned to the State Water Board.

C.3.6 Bonding.

Where contractors are used, the Recipient must not authorize construction to begin until each contractor has furnished a performance bond in favor of the Recipient in the following amounts: faithful performance (100%) of contract value; labor and materials (100%) of contract value. This requirement shall not apply to any contract for less than $25,000.00.

C.3.7 Competitive Bidding

Recipient must adhere to any applicable state law or local ordinance for competitive bidding and applicable labor laws.

C.3.8 Compliance with Applicable Laws, Rules, and Requirements.

The Recipient must, at all times, comply with and require its contractors, subcontractors, to comply with all applicable federal and state laws, rules, guidelines, regulations, and requirements. Without limitation of the foregoing, to the extent applicable, the Recipient must:

(a) Comply with the provisions of the adopted environmental mitigation plan, if any, for the term of this Agreement;

(b) Comply with the Policy and Guidelines; and

(c) Comply with and require compliance with the state and federal requirements set forth elsewhere in this Agreement.

C.3.9 Computer Software.

The Recipient certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

C.3.10 Conflict of Interest.

The Recipient certifies that its owners, officers, directors, agents, representatives, and employees are in compliance with applicable state and federal conflict of interest laws.

C.3.11 Continuous Use of Project; No Lease, Sale, Transfer of Ownership, or Disposal of Project.

The Recipient agrees that, except as provided in Section 2 of this Agreement, it will not abandon, substantially discontinue use of, lease, sell, transfer ownership of, or dispose of all or a significant part or portion of the Project during the Useful Life of the Project without prior written approval of the Division. Such approval may be conditioned as determined to be appropriate by the Division, including a condition requiring repayment of all disbursed Project Funds or all or any portion of all remaining funds covered by this Agreement together with accrued interest and any penalty assessments that may be due.

The Recipient understands, represents, and warrants that the contemplated transfer will be contingent on, among other things, the City's promise not to abandon, substantially discontinue use of, lease, sell, transfer ownership of, or dispose of all or a significant part or portion of the Project during the Useful Life of the Project without prior written approval of the Division.

C.3.12 Data Management.

The Recipient will undertake appropriate data management activities so that Project data can be incorporated into statewide data systems.

C.3.13 Disputes.

(a) The Recipient may appeal a staff decision within 30 days to the Deputy Director of the Division or designee, for a final Division decision. The Recipient may appeal a final Division decision to the State Water Board within 30 days. The Office of the Chief Counsel of the State Water Board will prepare a summary of the dispute and make recommendations relative to its final resolution, which will be provided to the State Water Board's Executive Director and each State Water Board Member. Upon the motion of any State Water Board Member, the State Water Board will review and resolve the dispute in the manner determined by the State Water Board. Should the State Water Board determine not to review the final Division decision, this decision will represent a final agency action on the dispute.

(b) This clause does not preclude consideration of legal questions, provided that nothing herein shall be construed to make final the decision of the State Water Board, or any official or representative thereof, on any question of law.

(c) Recipient must continue with the responsibilities under this Agreement during any dispute.

(d) This section relating to disputes does not establish an exclusive procedure for resolving claims within the meaning of Government Code sections 930 and 930.4.

C.3.14 Drug-Free Workplace.

The Recipient certifies that it will provide a drug-free workplace in compliance with the Drug-Free Workplace Act (Gov. Code. §§ 8350-8357). The Recipient shall publish a statement notifying employees that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited in the Recipient's workplace and specifying the actions to be taken against employees for violations of the prohibition. The Recipient shall establish a drug-free awareness program to inform employees about the dangers of drug abuse in the workplace, the Recipient's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation and employee assistance programs, and penalties that may be imposed upon employees for drug abuse violations. The Recipient shall provide that every employee who works on the Project receives a copy of the Recipient's drug-free workplace policy statement and agrees to abide by the terms of the statement as a condition of employment on the Project.

C.3.15 Environmental Clearance.

(a) No work that is subject to CEQA or NEPA may proceed under this Agreement unless the State Water Board has provided environmental clearance. The State Water Board may require changes in the scope of work or additional mitigation as a condition to providing construction or implementation funding under this Agreement. Recipient shall not perform any work subject to CEQA and/or NEPA before the State Water Board completes its environmental review and specifies any changes in scope or additional mitigation that may be required. Proceeding with work subject to CEQA and/or NEPA without approval by the State Water Board shall constitute a breach of a material provision of this Agreement.

(b) If this Project includes modification of a river or stream channel, the Recipient must fully mitigate environmental impacts resulting from the modification. The Recipient must provide documentation that the environmental impacts resulting from such modification will be fully mitigated considering all of the impacts of the modification and any mitigation, environmental enhancement, and environmental benefit

resulting from the Project, and whether, on balance, any environmental enhancement or benefit equals or exceeds any negative environmental impacts of the Project.

C.3.16 Governing Law.

This Agreement is governed by and shall be interpreted in accordance with the laws of the State of California.

C.3.17 Income Restrictions.

The Recipient agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Recipient under this Agreement must be paid by the Recipient to the State Water Board, to the extent that they are properly allocable to costs for which the Recipient has been reimbursed by the State Water Board under this Agreement.

C.3.18 Indemnification and State Reviews.

The parties agree that review or approval of Project plans and specifications by the State Water Board is for administrative purposes only, including conformity with application and eligibility criteria, and expressly not for the purposes of design defect review or construction feasibility, and does not relieve the Recipient of its responsibility to properly plan, design, construct, and ensure operation, and maintenance of the Project. To the extent permitted by law, the Recipient agrees to indemnify, defend, and hold harmless the State Water Board, the Bank, and any trustee, and their officers, employees, and agents for the Bonds, if any (collectively, "Indemnified Persons"), against any loss or liability arising out of any claim or action brought against any Indemnified Persons from and against any and all losses, claims, damages, liabilities, or expenses, of every conceivable kind, character, and nature whatsoever arising out of, resulting from, or in any way connected with (1) the System or the Project or the conditions, occupancy, use, possession, conduct, or management of, work done in or about, or the planning, design, acquisition, installation, or construction, of the System or the Project or any part thereof; (2) the carrying out of any of the transactions contemplated by this Agreement or any related document; (3) any violation of any applicable law, rule or regulation, any environmental law (including, without limitation, the Federal Comprehensive Environmental Response, Compensation and Liability Act, the Resource Conservation and Recovery Act, the California Hazardous Substance Account Act, the Federal Water Pollution Control Act, the Clean Air Act, the Toxic Substances Control Act, the Occupational Safety and Health Act, the Safe Drinking Water Act, the California Hazardous Waste Control Law, and California Water Code Section 13304, and any successors to said laws), rule or regulation or the release of any toxic substance on or near the System or the Project; or (4) any untrue statement or alleged untrue statement of any material fact or omission or alleged omission to state a material fact necessary to make the statements required to be stated therein, in light of the circumstances under which they were made, not misleading with respect to any information provided by the Recipient for use in any disclosure document utilized in connection with any of the transactions contemplated by this Agreement, except those arising from the gross negligence or willful misconduct of the Indemnified Persons. The Recipient must also provide for the defense and indemnification of the Indemnified Persons in any contractual provision extending indemnity to the Recipient in any contract let for the performance of any work under this Agreement, and must cause the Indemnified Persons to be included within the scope of any provision for the indemnification and defense of the Recipient in any contract or subcontract. To the fullest extent permitted by law, the Recipient agrees to pay and discharge any judgment or award entered or made against Indemnified Persons with respect to any such claim or action, and any settlement, compromise or other voluntary resolution. The provisions of this section survive the term of this Agreement.

C.3.19 Independent Actor.

The Recipient, and its agents and employees, if any, in the performance of this Agreement, shall act in an independent capacity and not as officers, employees, or agents of the State Water Board.

C.3.20 Integration.

This Agreement constitutes the complete and final agreement between the parties. No oral or written understanding or agreement not incorporated in this Agreement shall be binding on either party.

C.3.21 Leveraging Covenants.

(a) The Recipient covenants to furnish such financial, operating and other data pertaining to the Recipient as may be requested by the State Water Board to: (i) enable the State Water Board to cause the issuance of Bonds and provide for security therefor; or (ii) enable any underwriter of Bonds issued for the benefit of the State Water Board to comply with Rule 15c2-12(b)(5).

(b) The Recipient further covenants to provide the State Water Board with copies of all continuing disclosure documents or reports that are disclosed pursuant to (i) the Recipient's continuing disclosure undertaking or undertakings made in connection with any outstanding CSA Obligation, (ii) the terms of any outstanding CSA Obligation, or (iii) a voluntary disclosure of information related to an outstanding CSA Obligation. The Recipient must disclose such documents or reports to the State Water Board at the same time such documents or reports are submitted to any dissemination agent, trustee, nationally recognized municipal securities information repository, the Municipal Securities Rulemaking Board's Electronic Municipal Market Access (EMMA) website or other person or entity.

C.3.22 No Discrimination.

(a) The Recipient must comply with and shall ensure the City's compliance with, Government Code section 11135 and the implementing regulations (Cal. Code Regs, tit. 2, § 11140 et seq.), including, but not limited to, ensuring that no person is unlawfully denied full and equal access to the benefits of, or unlawfully subjected to discrimination in the operation of, the Project or System on the basis of sex, race, color, religion, ancestry, national origin, ethnic group identification, age, mental disability, physical disability, medical condition, genetic information, marital status, or sexual orientation as such terms are defined under California law, for as long as the Recipient or the City retains ownership or possession of the Project.

(b) If Project Funds are used to acquire or improve real property, the Recipient must include a covenant of nondiscrimination running with the land in the instrument effecting or recording the transfer of such real property.

(c) The Recipient must comply with, the federal American with Disabilities Act of 1990 and implementing regulations as required by Government Code section 11135(b).

(d) The Recipient's obligations under this section shall survive the term of this Agreement.

(e) The Recipient shall ensure that the City's compliance with the relevant terms of this section.

(f) During the performance of this Agreement, the Recipient, its contractors, and subcontractors, , must not unlawfully discriminate, harass, or allow harassment against any employee or applicant for employment because of sex, race, color, ancestry, religious creed, national origin, sexual orientation, physical disability (including HIV and AIDS), mental disability, medical condition (cancer), age (over 40), marital status, denial of family care leave, or genetic information, gender, gender identity, gender expression, or military and veteran status.

(g) The Recipient, its contractors, and subcontractors must ensure that the evaluation and treatment of their employees and applicants for employment are free from such discrimination and harassment.

(h) The Recipient, its contractors, and subcontractors must comply with the provisions of the Fair Employment and Housing Act and the applicable regulations promulgated thereunder. (Gov. Code, §12990, subds. (a)-(f) et seq.;Cal. Code Regs., tit. 2, § 7285 et seq.) Such regulations are incorporated into this Agreement by reference and made a part hereof as if set forth in full.

(i) The Recipient, its contractors, and subcontractors must comply with all applicable federal civil rights regulations, including statutory and national policy requirements. (2 CFR § 200.300). This includes, to the greatest extent practicable and to the extent permitted by law, the requirement to respect and protect the freedom of persons and organizations to engage in political and religious speech. (Executive Order 13798).

(j) The Recipient, its contractors and subcontractors must give written notice of their obligations under this clause to labor organizations with which they have a collective bargaining or other agreement.

(k) The Recipient must include the nondiscrimination and compliance provisions of this clause in all subcontracts to perform work under this Agreement.

C.3.23 No Third Party Rights.

The parties to this Agreement do not create rights in, or grant remedies to, any third party as a beneficiary of this Agreement, or of any duty, covenant, obligation, or undertaking established herein.

C.3.24 No Obligation of the State.

Any obligation of the State Water Board herein contained shall not be an obligation, debt, or liability of the State and any such obligation shall be payable solely out of the moneys encumbered pursuant to this Agreement.

C.3.25 Notice.

Upon the occurrence of any of the following events, the Recipient must provide notice as set forth below.

(a) Within 24 hours of the following, the Recipient must notify the Division by phone at (916) 327-9978 and by email to [PM email address and senior email address] and mailto:DrinkingWaterSRF@waterboards.ca.gov:
    i. The seizure of, or levy on, any CSA Fees securing this Agreement;
    ii. Any discovery of any potential tribal cultural resource and/or archaeological or historical resource. Should a potential tribal cultural resource and/or archaeological or historical resource be discovered during construction or Project implementation, the Recipient must ensure that all work in the area of the find will cease until a qualified archaeologist has evaluated the situation and made recommendations regarding preservation of the resource, and the Division has determined what actions should be taken to protect and preserve the resource. The Recipient must implement appropriate actions as directed by the Division.

(b) Within five (5) business days, the Recipient must notify the Division by phone at (916) 327-9978; by email to Lance.Reese@waterboards.ca.gov [PM email address and senior email address] and DrinkingWaterSRF@waterboards.ca.gov; and by mail to the contact address set forth in Section 4 of this Agreement of the occurrence of any of the following events:

i. Bankruptcy, insolvency, receivership or similar event of the Recipient, or actions taken in anticipation of any of the foregoing;
ii. Change of ownership of the Project or the System or change of management or service contracts, if any, for operation of the System;
iii. Loss, theft, damage, or impairment to Project, the Revenues, CSA Fees, or the System;
iv. Failure to meet any debt service coverage test in Exhibit B of this Agreement;
v. Draws on the Reserve Fund;
vi. Events of Default, except as otherwise set forth in this section;
vii. Failure to observe or perform any covenant or comply with any condition in this Agreement;
viii. An offer from a public entity to purchase the Project or the System or any portion thereof, or any of the real or personal property related to or necessary for the Project;
ix. A proceeding or action by a public entity to acquire the Project or the System by power of eminent domain;
x. Incurrence of a CSA Obligation, or other Material Obligation by the Recipient; or
xi. A default, event of acceleration, termination event, modification of terms, or other similar event under the terms of a CSA Obligation, System Obligation or other Material Obligation of the Recipient or the City, any of which reflect financial difficulties.

(c) Within ten (10) business days, the Recipient must notify the Division by phone at (916) 327-9978, by email to [PM email address and senior email address] and DrinkingWaterSRF@waterboards.ca.gov, and by mail to the contact address set forth in Section 4 of this Agreement of the following events:

i. Material defaults on Material Obligations other than this Obligation;
ii. Unscheduled draws on material debt service reserves or credit enhancements, reflecting financial difficulties;
iii. Substitution of credit or liquidity providers, if any or their failure to perform;
iv. Any litigation pending or threatened with respect to the Project, the City or the Recipient; challenging the Recipient's technical, managerial or financial capacity construct the Project; challenging the City's technical, managerial or financial capacity to operate the Project or the System; or challenging the continued existence of the Recipient or the City;
v. Circulation of a petition to repeal, reduce, or otherwise challenge the CSA Fees;
vi. Consideration of dissolution, or disincorporation, or any other event that could materially impair the CSA Fees;
vii. Adverse tax opinions, the issuance by the Internal Revenue Service or proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices of determinations with respect to the tax status of any tax-exempt bonds;
viii. Rating changes on outstanding CSA Obligations, if any;
ix. Enforcement actions by or brought on behalf of the State Water Board or Regional Water Board; or

x. Any investigation by the District Attorney, California State Auditor, Bureau of State Audits, United States Environmental Protection Agency's Office of Inspector General, the Internal Revenue Service, Securities and Exchange Commission, a grand jury, or any other state or federal agency, relating to the Recipient's financial management, accounting procedures, or internal fiscal controls;

(d) The Recipient must notify the Division promptly by phone at (916) 327-9978, by email to [PM email address and senior email address] and DrinkingWaterSRF@waterboards.ca.gov, and by mail to the contact address set forth in Section 4 of this Agreement of any of the following events:

i. The discovery of a false statement of fact or representation made in this Agreement or in the application to the Division for this financial assistance, or in any certification, report, or request for reimbursement made pursuant to this Agreement, by the Recipient, its employees, agents, or contractors;
ii. Any substantial change in scope of the Project. The Recipient must undertake no substantial change in the scope of the Project until prompt written notice of the proposed change has been provided to the Division and the Division has given written approval for the change;
iii. Cessation of all major construction work on the Project where such cessation of work is expected to or does extend for a period of thirty (30) days or more;
iv. Any circumstance, combination of circumstances, or condition, which is expected to or does delay Completion of Construction for a period of ninety (90) days or more;
v. Discovery of any unexpected endangered or threatened species, as defined in the federal Endangered Species Act. Should a federally protected species be unexpectedly encountered during construction of the Project, the Recipient agrees to promptly notify the Division. This notification is in addition to the Recipient's obligations under the federal Endangered Species Act;
vi. Any Project monitoring, demonstration, or other implementation activities required in Exhibit A or Exhibit D of this Agreement, if any;
vii. Any public or media event publicizing the accomplishments and/or results of this Agreement and provide the opportunity for attendance and participation by state representatives with at least ten (10) working days' notice to the Division;
viii. Any allegation of research misconduct involving research activities that are supported in whole or in part with EPA funds under this Project, as required by Exhibit C.4.3(xxvii);
ix. Any events requiring notice to the Division pursuant to the provisions of this Agreement;
x. Completion of Construction of the Project, and actual Project Completion;
xi. The award of the prime construction contract for the Project;
xii. Initiation of construction of the Project.

C.3.26 Operation and Maintenance; Insurance.

The Recipient shall ensure that the City agrees to sufficiently and properly staff, operate and maintain all portions of the System during the Useful Life of the Project in accordance with all applicable state and federal laws, rules, and regulations.

The Recipient shall ensure that the City agrees to procure and maintain or cause to be maintained insurance on the System with responsible insurers, or as part of a reasonable system of self-insurance, in

such amounts and against such risks (including damage to or destruction of the System) as are usually covered in connection with systems similar to the System. Such insurance may be maintained by a self-insurance plan so long as such plan provides for (i) the establishment by the City of a separate segregated self-insurance fund in an amount determined (initially and on at least an annual basis) by an independent insurance consultant experienced in the field of risk management employing accepted actuarial techniques and (ii) the establishment and maintenance of a claims processing and risk management program.

In the event of any damage to or destruction of the System caused by the perils covered by such insurance, the net proceeds thereof shall be applied to the reconstruction, repair or replacement of the damaged or destroyed portion of the System. The Recipient ensures that the City will begin such reconstruction, repair or replacement as expeditiously as possible, and must pay out of such net proceeds all costs and expenses in connection with such reconstruction, repair or replacement so that the same must be completed and the System must be free and clear of all claims and liens. If such net proceeds are insufficient to reconstruct, repair, or restore the System to the extent necessary to enable the Recipient to pay all remaining unpaid principal portions of the Payments, if any, in accordance with the terms of this Agreement, the Recipient must provide additional funds to restore or replace the damaged portions of the System.

Recipient agrees that for any policy of insurance concerning or covering the construction of the Project, it will cause, and will require its contractors and subcontractors to cause, a certificate of insurance to be issued showing the State Water Board, its officers, agents, employees, and servants as additional insured; and must provide the Division with a copy of all such certificates prior to the commencement of construction of the Project.

C.3.27 Permits, Subcontracting, and Remedies.

Recipient must procure all permits, licenses and other authorizations necessary to accomplish the work contemplated in this Agreement, pay all charges and fees, and give all notices necessary and incidental to the due and lawful prosecution of the work. Signed copies of any such permits or licenses must be submitted to the Division before any construction begins.

The Recipient must not contract or allow subcontracting with excluded parties. The Recipient must not contract with any party who is debarred or suspended or otherwise excluded from or ineligible for participation in any work overseen, directed, funded, or administered by the State Water Board program for which this funding is authorized. For any work related to this Agreement, the Recipient must not contract with any individual or organization on the State Water Board's List of Disqualified Businesses and Persons that is identified as debarred or suspended or otherwise excluded from or ineligible for participation in any work overseen, directed, funded, or administered by the State Water Board program for which funding under this Agreement is authorized. The State Water Board's List of Disqualified Businesses and Persons is located at
http://www.waterboards.ca.gov/water_issues/programs/enforcement/fwa/dbp.shtml

C.3.28 Professionals.

The Recipient agrees that only licensed professionals will be used to perform services under this Agreement where such services are called for. All technical reports required pursuant to this Agreement that involve planning, investigation, evaluation, design, or other work requiring interpretation and proper application of engineering, architectural, or geologic sciences, shall be prepared by or under the direction of persons registered to practice in California pursuant to Business and Professions Code, sections 5536.1, 6735, 7835, and 7835.1. To demonstrate compliance with California Code of Regulations, title 16, sections 415 and 3065, all technical reports must contain a statement of the qualifications of the

responsible registered professional(s). As required by these laws, completed technical reports must bear the signature(s) and seal(s) of the registered professional(s) in a manner such that all work can be clearly attributed to the professional responsible for the work.

C.3.29 Prevailing Wages.

The Recipient agrees to be bound by all applicable provisions of State Labor Code regarding prevailing wages. The Recipient must monitor all agreements subject to reimbursement from this Agreement to ensure that the prevailing wage provisions of the State Labor Code are being met.

In addition, the Recipient agrees to comply with the Davis-Bacon provisions incorporated by reference in Section 3 of this Agreement.

C.3.30 Public Funding.

This Project is publicly funded. Any service provider or contractor with which the Recipient contracts must not have any role or relationship with the Recipient, that, in effect, substantially limits the Recipient's ability to exercise its rights, including cancellation rights, under the contract, based on all the facts and circumstances.

C.3.31 Recipient's Responsibility for Work.

The Recipient shall be responsible for all work and for persons or entities engaged in work performed pursuant to this Agreement, including, but not limited to, contractors, subcontractors, suppliers, and providers of services. The Recipient shall be responsible for responding to any and all disputes arising out of its contracts for work on the Project. The State Water Board will not mediate disputes between the Recipient and any other entity concerning responsibility for performance of work.

C.3.32 Related Litigation.

Under no circumstances may the Recipient use funds from any reimbursement under this Agreement to pay costs associated with any litigation the Recipient pursues against the State Water Board or any Regional Water Quality Control Board. Regardless of the outcome of any such litigation, and notwithstanding any conflicting language in this Agreement, the Recipient agrees to repay all of the disbursed funds plus interest in the event that Recipient does not complete the project.

C.3.33 Rights in Data.

The Recipient agrees that all data, plans, drawings, specifications, reports, computer programs, operating manuals, notes, and other written or graphic work produced in the performance of this Agreement are subject to the rights of the State as set forth in this section. The State shall have the right to reproduce, publish, and use all such work, or any part thereof, in any manner and for any purposes whatsoever and to authorize others to do so. If any such work is copyrightable, the Recipient may copyright the same, except that, as to any work which is copyrighted by the Recipient, the State reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, and use such work, or any part thereof, and to authorize others to do so, and to receive electronic copies from the Recipient upon request.

C.3.34 State Water Board Action; Costs and Attorney Fees.

Any remedy provided in this Agreement is in addition to and not in derogation of any other legal or equitable remedy available to the State Water Board as a result of breach of this Agreement by the Recipient, whether such breach occurs before or after completion of the Project, and exercise of any

remedy provided by this Agreement by the State Water Board shall not preclude the State Water Board from pursuing any legal remedy or right which would otherwise be available. In the event of litigation between the parties hereto arising from this Agreement, it is agreed that each party shall bear its own costs and attorney fees.

C.3.35 Timeliness.

Time is of the essence in this Agreement.

C.3.36 Unenforceable Provision.

In the event that any provision of this Agreement is unenforceable or held to be unenforceable, then the parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby.

C.3.37 Venue.

Any action arising out of this Agreement shall be filed and maintained in the Superior Court in and for the County of Sacramento, California.

C.3.38 Waiver and Rights of the State Water Board.

Any waiver of rights by the State Water Board with respect to a default or other matter arising under this Agreement at any time shall not be considered a waiver of rights with respect to any other default or matter. Any rights and remedies of the State Water Board provided for in this Agreement are in addition to any other rights and remedies provided by law.

C.4 MISCELLANEOUS STATE AND FEDERAL REQUIREMENTS

C.4.1 [Reserved.]

C.4.2 State Cross-Cutters.

Recipient represents that, as to itself and the City, as applicable, each entity complies, and covenants to maintain compliance with the following for the term of the Agreement:

i. The California Environmental Quality Act (CEQA), as set forth in Public Resources Code 21000 et seq. and in the CEQA Guidelines at Title 14, Division 6, Chapter 3, Section 15000 et seq.

ii. Water Conservation requirements, including regulations in Division 3 of Title 23 of the California Code of Regulations.

iii. Monthly Water Diversion Reporting requirements, including requirements set forth in Water Code section 5103.

iv. Public Works Contractor Registration with Department of Industrial Relations requirements, including requirements set forth in Sections 1725.5 and 1771.1 of the Labor Code.

v. Volumetric Pricing & Water Meters requirements, including the requirements of Water Code sections 526 and 527.

vi. Urban Water Management Plan requirements, including the Urban Water Management Planning Act (Water Code, § 10610 et seq.).

vii. Urban Water Demand Management requirements, including the requirements of Section 10608.56 of the Water Code.

viii. Delta Plan Consistency Findings requirements, including the requirements of Water Code section 85225 and California Code of Regulations, title 23, section 5002.

ix. Agricultural Water Management Plan Consistency requirements, including the requirements of Water Code section 10852.

x. Charter City Project Labor Requirements, including the requirements of Labor Code section 1782 and Public Contract Code section 2503.

C.4.3 Federal Requirements and Cross-Cutters for SRF Funding.

The Recipient acknowledges, warrants compliance with, and covenants to continuing compliance with, as to itself and to the City, the following federal terms and conditions for the Useful Life of the Project:

i. Unless the Recipient has obtained a waiver from USEPA on file with the State Water Board or unless this Project is not a project for the construction, alteration, maintenance or repair of a public water system or treatment work, the Recipient shall not purchase “iron and steel products” produced outside of the United States on this Project. Unless the Recipient has obtained a waiver from USEPA on file with the State Water Board or unless this Project is not a project for the construction, alteration, maintenance or repair of a public water system or treatment work, the Recipient hereby certifies that all “iron and steel products” used in the Project were or will be produced in the United States. For purposes of this section, the term "iron and steel products" means the following products made primarily of iron or steel: lined or unlined pipes and fittings, manhole covers and other municipal castings, hydrants, tanks, flanges, pipe clamps and restraints, valves, structural steel, reinforced precast concrete, and construction materials. “Steel” means an alloy that includes at least 50 percent iron, between .02 and 2 percent carbon, and may include other elements.

ii. The Recipient acknowledges that funds received under this Agreement are subject to the Build America Buy America (BABA) requirements of Public Law 117-58 (the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law (BIL), signed into law on November 15, 2021), which are in addition to “iron and steel products” requirements described in section C.4.3 (i) above. Specifically, unless (1) the Recipient has requested and obtained a waiver from USEPA on file with the State Water Board pertaining to the Project or the Project is otherwise covered by a general applicability waiver, as confirmed in writing by the State Water Board; or (2) the State Water Board and, to the extent the Project is co-funded by any other agency using federal funds subject to BABA requirements, each such agency has advised the Recipient in writing that the BABA requirements are not applicable to the Project, the Recipient shall ensure and certifies that, as these terms are defined within and made applicable by Public Law 117-58:

(a) all iron and steel used in the Project are produced in the United States;
(b) the manufactured products used in the Project are produced in the United States; and
(c) the construction materials used in the Project are produced in the United States.

The Recipient must require its contractors and subcontractors to comply with all applicable BABA requirements and must include the following provision in its contracts and subcontracts under this Agreement:

"The contractor acknowledges to and for the benefit of the [name of the Recipient] and the State Water Board that it understands the goods and services under this contract are being funded with federal monies and have statutory requirements commonly known as "Build America, Buy America;" that requires all of the iron and steel, manufactured products, and construction materials used in the project to be produced in the United States ("Build America, Buy America Requirements") including iron and steel, manufactured products, and construction materials provided by the contactor pursuant to this contract. The contractor hereby represents and warrants to and for the benefit of the [name of the Recipient] and the State Water Board (a) the contractor has reviewed and understands the Build America, Buy America Requirements, (b) all of the iron and steel, manufactured products, and construction materials used in the project will be and/or have been produced in the United States in a manner that complies with the Build America, Buy America Requirements, unless a waiver of the requirements is approved, and (c) the contractor will provide any further verified information, certification or assurance of compliance with this paragraph, or information necessary to support a waiver of the Build America, Buy America Requirements, as may be requested by the [name of the Recipient] and the State Water Board. Notwithstanding any other provision of this Agreement, any failure to comply with this paragraph by the contractor shall permit the [name of the Recipient] and the State Water Board to recover as damages against the contractor any loss, expense, or cost (including without limitation attorney's fees) incurred by the [name of the Recipient] and the State Water Board resulting from any such failure (including without limitation any impairment or loss of funding, whether in whole or in part, from the State Water Board or any damages owed to the State Water Board by the [name of the Recipient]). If the contractor has no direct contractual privity with the State Water Board, as a lender or awardee to the [name of the Recipient] for the funding of its project, the [name of the Recipient] and the contractor agree that the State Water Board is a third-party beneficiary and neither this paragraph (nor any other provision of this Agreement necessary to give this paragraph force or effect) shall be amended or waived without the prior written consent of the State Water Board."

The Recipient must inform the State Water Board immediately of any information regarding a violation of the foregoing.

iii. The Recipient must include in full the Wage Rate Requirements (Davis-Bacon) language incorporated by reference in Section 3 of this Agreement in all construction contracts and subcontracts.

iv. The Recipient must comply with the signage requirements set forth in Exhibit A.

v. The Recipient shall notify the State Water Board and the USEPA contact of public or media events publicizing the accomplishment of significant events related to this Project and provide the opportunity for attendance and participation by federal representatives with at least ten (10) working days' notice.

vi. The Recipient shall comply with applicable USEPA general terms and conditions found at https://www.epa.gov/grants/epa-general-terms-and-conditions-effective-october-1-2022-or-later.

vii. No Recipient may receive funding under this Agreement unless it has provided its Unique Entity Identifier, assigned by the System for Award Management, to the State Water Board.

viii. The Recipient represents and warrants that it and its principals are not excluded or disqualified from participating in this transaction as such terms are defined in Parts 180 and 1532 of Title 2 of the Code of Federal Regulations (2 CFR). If the Recipient is excluded after execution of this Agreement, the Recipient shall notify the Division within ten (10) days and shall inform the Division of the Recipient's exclusion in any request for amendment of this Agreement. The Recipient shall comply with Subpart C of Part 180 of 2 CFR, as supplemented by Subpart C of Part 1532 of 2 CFR. Such compliance is a condition precedent to the State Water Board's performance of its obligations under this Agreement. When entering into a covered transaction as defined in Parts 180 and 1532 of 2 CFR, the Recipient shall require the other party to the covered transaction to comply with Subpart C of Part 180 of 2 CFR, as supplemented by Subpart C of Part 1532 of 2 CFR.

ix. To the extent applicable, the Recipient shall disclose to the State Water Board any potential conflict of interest consistent with USEPA's Final Financial Assistance Conflict of Interest Policy at https://www.epa.gov/grants/epas-final-financial-assistance-conflict-interest-policy. A conflict of interest may result in disallowance of costs.

x. USEPA and the State Water Board have the right to reproduce, publish, use and authorize others to reproduce, publish and use copyrighted works or other data developed under this assistance agreement.

xi. Where an invention is made with Project Funds, USEPA and the State Water Board retain the right to a worldwide, nonexclusive, nontransferable, irrevocable, paid-up license to practice the invention owned by the Recipient. The Recipient must utilize the Interagency Edison extramural invention reporting system at http://iEdison.gov and shall notify the Division when an invention report, patent report, or utilization report is filed.

xii. The Recipient agrees that any reports, documents, publications or other materials developed for public distribution supported by this Agreement shall contain the Disclosure statement set forth in Exhibit A.

xiii. The Recipient acknowledges that it is encouraged to follow guidelines established under Section 508 of the Rehabilitation Act, codified at 36 CFR Part 1194, with respect to enabling individuals with disabilities to participate in its programs supported by this Project.

xiv. The Recipient, its employees, contractors and subcontractors and their employees warrants that it will not engage in severe forms of trafficking in persons, procure a commercial sex act during the term of this Agreement, or use forced labor in the performance of this Agreement. The Recipient must include this provision in its contracts and subcontracts under this Agreement. The Recipient must inform the State Water Board immediately of any information regarding a violation of the foregoing. The Recipient understands that failure to comply with this provision may subject the State Water Board to loss of federal funds. The Recipient agrees to compensate the State Water Board for any such funds lost due to its failure to comply with this condition, or the failure of its contractors or subcontractors to comply with this condition. The State Water Board may unilaterally terminate this Agreement if the Recipient that is a private entity is determined to have violated the foregoing.

xv. The Recipient certifies to the best of its knowledge and belief that:

a. No federal appropriated funds have been paid or will be paid, by or on behalf of the Recipient, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal

contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with this Agreement, the Recipient shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions, and notify the State Water Board.

The Recipient shall require this certification from all parties to any contract or agreement that the Recipient enters into and under which the Recipient incurs costs for which it seeks reimbursements under this Agreement.

xvi. The Recipient must comply with the following federal non-discrimination requirements:

a. Title VI of the Civil Rights Act of 1964, which prohibits discrimination based on race, color, and national origin, including limited English proficiency (LEP).
b. Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination against persons with disabilities.
c. The Age Discrimination Act of 1975, which prohibits age discrimination.
d. Section 13 of the Federal Water Pollution Control Act Amendments of 1972, which prohibits discrimination on the basis of sex.
e. 40 CFR Part 7, as it relates to the foregoing.

xvii. Executive Order No. 11246. The Recipient shall include in its contracts and subcontracts related to the Project the following provisions:

"During the performance of this contract, the contractor agrees as follows:"(a) The contractor will not discriminate against any employee or applicant for employment because of race, creed, color, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, creed, color, or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

"(b) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, creed, color, or national origin.

"(c) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(d) The contractor will comply with all provisions of Executive Order No. 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(e) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(f) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be cancelled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of Sept 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

"(g) The contractor will include the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of Sept. 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, That in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States."

xviii. The Recipient agrees to comply with the requirements of USEPA's Program for Utilization of Small, Minority and Women's Business Enterprises.

xix. Procurement Prohibitions under Section 306 of the Clean Air Act and Section 508 of the Clean Water Act, including Executive Order 11738, Administration of the Clean Air Act and the Federal Water Pollution Control Act with Respect to Federal Contracts, Grants, or Loans; 42 USC § 7606; 33 USC § 1368. Except where the purpose of this Agreement is to remedy the cause of the violation, the Recipient may not procure goods, services, or materials from suppliers excluded under the federal System for Award Management: http://www.sam.gov/ .

xx. Uniform Relocation and Real Property Acquisition Policies Act, Pub. L. 91-646, as amended; 42 USC §§4601-4655. The Recipient must comply with the Act's implementing regulations at 49 CFR 24.101 through 24.105.

xxi. The Recipient agrees that if its network or information system is connected to USEPA networks to transfer data using systems other than the Environmental Information Exchange Network or USEPA's Central Data Exchange, it will ensure that any connections are secure.

xxii. All geospatial data created pursuant to this Agreement that is submitted to the State Water Board for use by USEPA or that is submitted directly to USEPA must be consistent with Federal Geographic Data Committee endorsed standards. Information on these standards may be found at www.fgdc.gov.

xxiii. If the Recipient is a water system that serves 500 or fewer persons, the Recipient represents that it has considered publicly-owned wells as an alternative drinking water supply.

xxiv. The Recipient represents that it is not a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and it is not a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

xxv. The Recipient agrees to immediately notify the Project Manager in writing about any allegation of research misconduct involving research activities that are supported in whole or in part with EPA funds under this Project, including fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results, or ordering, advising, or suggesting that subordinates engage in research misconduct.

xxvi. The Recipient agrees to comply with, and require all contractors and subcontractors to comply with, EPA's Scientific Integrity Policy, available at https://www.epa.gov/osa/policy-epa-scientific-integrity, when conducting, supervising, and communicating science and when using or applying the results of science. For purposes of this condition scientific activities include, but are not limited to, computer modelling, economic analysis, field sampling, laboratory experimentation, demonstrating new technology, statistical analysis, and writing a review article on a scientific issue.

The Recipient shall not suppress, alter, or otherwise impede the timely release of scientific findings or conclusions; intimidate or coerce scientists to alter scientific data, findings, or professional opinions or exert non-scientific influence on scientific advisory boards; knowingly misrepresent, exaggerate, or downplay areas of scientific uncertainty; or otherwise violate the EPA's Scientific Integrity Policy. The Recipient must refrain from acts of research misconduct, including publication or reporting, as described in EPA's Policy and Procedures for Addressing Research Misconduct, Section 9.C, and must ensure scientific findings are generated and disseminated in a timely and transparent manner, including scientific research performed by contractors and subcontractors.

xxvii. The Recipient agrees to comply with the Animal Welfare Act of 1966 (7 USC 2131-2156). Recipient also agrees to abide by the "U.S. Government Principles for the Utilization and Care of Vertebrate Animals used in Testing, Research, and Training," available at http://grants.nih.gov/grants/olaw/references/phspol.htm#USGovPrinciples.

xxviii. The Recipient certifies that no Project Funds will be used on:

a. Video surveillance or telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities), telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);
b. Telecommunications or video surveillance services produced by such entities;
c. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country; or
d. Other telecommunications or video surveillance services or equipment in violation of 2 CFR 200.216.

EXHIBIT D – SPECIAL CONDITIONS

[environmental]

Executive Order N-6-22 — Russian Sanctions.

On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. "Economic Sanctions" refers to sanctions imposed by the U.S. government in response to Russia's actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State Water Board determine Recipient is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this Agreement. The State Water Board shall provide Recipient advance written notice of such termination, allowing Recipient at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State Water Board.

The Recipient represents that the Recipient is not a target of economic sanctions imposed in response to Russia's actions in Ukraine imposed by the United States government or the State of California. The Recipient is required to comply with the economic sanctions imposed in response to Russia's actions in Ukraine, including with respect to, but not limited to, the federal executive orders identified in California Executive Order N-6-22, located at https://www.gov.ca.gov/wp-content/uploads/2022/03/3.4.22-Russia-Ukraine-Executive-Order.pdf and the sanctions identified on the United States Department of the Treasury website (https://home.treasury.gov/policy-issues/financial-sanctions/sanctions-programs-and-country-information/ukraine-russia-related-sanctions). The Recipient is required to comply with all applicable reporting requirements regarding compliance with the economic sanctions, including, but not limited to, those reporting requirements set forth in California Executive Order N-6-22 for all Recipients with one or more agreements with the State of California with an aggregated value of Five Million Dollars ($5,000,000) or more. Notwithstanding any other provision in this Agreement, failure to comply with the economic sanctions and all applicable reporting requirements may result in termination of this Agreement.

For Recipients with an aggregated agreement value of Five Million Dollars ($5,000,000) or more with the State of California, reporting requirements include, but are not limited to, information related to steps taken in response to Russia's actions in Ukraine, including but not limited to:

1. Desisting from making any new investments or engaging in financial transactions with Russian institutions or companies that are headquartered or have their principal place of business in Russia;

2. Not transferring technology to Russia or companies that are headquartered or have their principal place of business in Russia; and

3. Direct support to the government and people of Ukraine.

EXHIBIT E – PAYMENT SCHEDULE

See the attached preliminary Payment Schedule. The final Payment Schedule will be forwarded to the Recipient after all disbursements have been paid and construction of the Project has been completed.

RESOLUTION NO. 23-_____

AMENDED RESOLUTION AUTHORIZING THE COUNTY ADMINISTRATOR, DIRECTOR OF COMMUNITY SERVICES, AND OTHER DESIGNATED COUNTY OFFICERS TO SIGN FINANCING AGREEMENT, AMENDMENTS AND CERTIFICATIONS FOR FUNDING FOR THE NORTH DAVIS MEADOWS COUNTY SERVICE AREA (CSA) WATER SYSTEM CONSOLIDATION PROJECT

WHEREAS, the North Davis Meadows CSA is currently served by two wells with concentrations of nitrate, iron and aluminum that exceed State maximum containment levels, and likely hexavalent chromium once new standards are set; and

WHEREAS, the North Davis Meadows CSA and the City of Davis have been working collaboratively to consolidate the North Davis Meadows water system into the City of Davis Public Water System to replace use of the wells; and

WHEREAS, the North Davis Meadows CSA seeks financing from the State Water Resources Control Board ("SWRCB") for a project commonly known as the North Davis Meadows CSA Water System Consolidation Project ("Project"); and

WHEREAS, the North Davis Meadows CSA adopted a fee increase on March 20, 2018 to cover the repayment costs for a construction loan and updated the prior authorizing resolution (Resolution No. 18-30) to change the Authorized Representative from the County Administrative Officer to the Director of Community Services on November 22, 2022 (Resolution No. 22-146); and

WHEREAS, the County desires to amend Resolution No. 18-30 and Resolution No. 22-146 to update the Officers designated as "Authorized Representatives" by adding additional Authorized Representatives to facilitate the execution and implementation of the financing agreement for the Project and to avoid delays with approvals.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED, the County Administrator, Assistant County Administrator, the Director of Community Services or Chief Financial Officer (each, an "Authorized Representative") are hereby authorized and directed to sign and file, for and on behalf of the County of Yolo, a Financial Assistance Application for a financing agreement from the State Water Resources Control Board for the planning, design and construction of the Project.

Each Authorized Representative, or any Authorized Representative's designee, is designated to provide the assurances, certifications and commitments required for the financial assistance application, including executing a financial assistance agreement from the State Water Resources Control Board and any amendments or changes thereto.

Each Authorized Representative, or any Authorized Representative's designee, is designated to represent the County of Yolo in carrying out the County of Yolo's responsibilities under the financing agreement, including certifying disbursement requests on behalf of the County and compliance with applicable state and federal laws.

PASSED AND ADOPTED by the Board of Supervisors of the County of Yolo, State of California, this 6th day of June, 2023, by the following vote:

AYES:
NOES:
ABSTAIN:
ABSENT:

Oscar E. Villegas, Chair
Yolo County Board of Supervisors

North Davis Meadows CSA Water Consolidation Project – State Revolving Fund Financing Agreement

Yolo County Board of Supervisors
June 6, 2023

Presented By:

Kimberly Villa, Community Services Analyst
Kimberly Hood, Assistant County Counsel

Project Update

- Since 2009, the North Davis Meadows CSA has been working toward a permanent solution to address water quality concerns in the community's public water system (nitrate, hexavalent chromium, aluminum, and iron in excess of maximum contaminant levels (MCLs)).
- Solution: Consolidation Project connecting the CSA with the City of Davis's water system.
- Project has completed environmental review, lawsuit challenging charges to pay for the Project was resolved in the County's favor, and the County is getting ready to advertise for construction bids once the Project financing is completed.

Project Financing – Grant & SRF Loan

Anticipated Project Cost: $8,135,600

- The Project will be financed using favorable financing through the Drinking Water State Revolving Fund (SRF) program administered by the State Water Resources Control Board (SWRCB).
  - Grant: $7.6 million ($80,000 per parcel x 95 parcels)
  - SRF Loan (Installment Sale Agreement): $535,6000
  - Interest Rate: 2.1% (fixed); 30-year term
  - Security and Source of Repayment: Debt will be secured solely by a pledge of net revenues generated by the CSA water charges and will be payable only from CSA water charges and no other County funds.

Good Faith Estimate

	Loan w/out Grant Funding	Loan w/ Grant Funding
SRF Loan Principal:	$8,135,600	$535,600
Grant Proceeds Received:	$0	$7,600,000
True Interest Cost:	2.099999%	2.099993%
Total Payment Amount calculated to the final term of the Installment Sale Agreement:	$11,050,769.20	$727,516.96

Recommended Action

1. Adopt the attached Resolution authorizing the execution and delivery of an Installment Sale Agreement, for up to $8,135,600 in Drinking Water State Revolving Funds between the County and the SWRCB, and the execution of all implementing documents, for financial assistance in connection with the North Davis Meadows Water Consolidation Project (Attachments A and B); and

2. Adopt the Resolution, amending Resolution No. 22-146, to authorize the County Administrator, the Director of Community Services, and other designated officers to sign the financing agreement, amendments and funding certifications for the North Davis Meadows Water Consolidation Project (Attachment C).

Brief Title:	Smoke-free Multi-Unit Housing Policy Update
From:	Nolan Sullivan, Director, Health and Human Services Agency
Staff Contact:	Brian Vaughn, Public Health Branch Director, Health and Human Services Agency, x8771
Supervisorial District Impact:	Countywide

Subject
Receive presentation regarding tobacco prevention policy designed to reduce exposure to secondhand smoke in multi-unit housing (MUH) complexes. (No general fund impact) (Sullivan) (Est. Time: 10 min)

Recommended Action
Receive presentation regarding tobacco prevention policies designed to reduce exposure to secondhand smoke in multi-unit housing (MUH) complexes.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Reason for Recommended Action/Background
On November 8, 2022, the Board waived the first reading and held the second reading of a proposed smoke-free multi-unit housing policy. This policy would prevent exposure to secondhand smoke of residents living in MUH dwellings by restricting the use of smoking products in these dwellings. At the November 8th meeting, the Board asked that Tobacco Prevention staff reach out to the condo owners in the El Macero and Esparto areas. This presentation will provide an update on these outreach efforts including the results of surveys that were conducted.

SMOKEFREE MULTI-UNIT HOUSING UPDATE

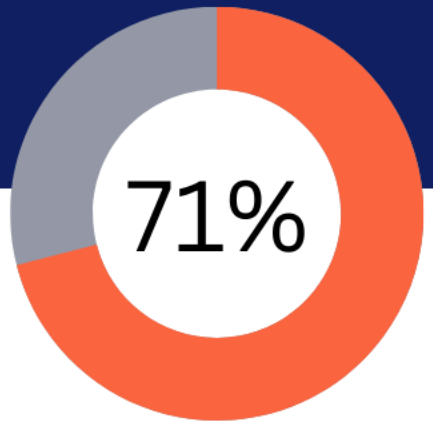
Steven Jensen - Health Program Manager
June 6, 2023

Outreach

HOA Board granted permission to survey residents

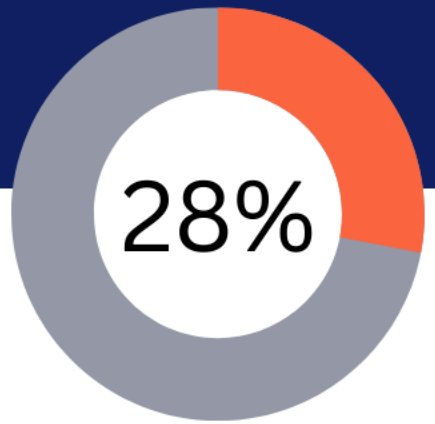
Outreach

Placed door hanger surveys:

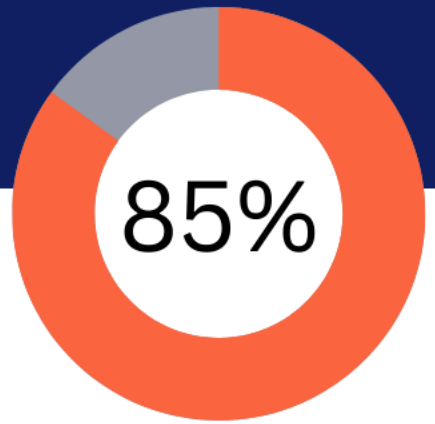


- 53 El Macero
  - 16 at The Villas
  - 37 at The Oaks
- 40 Esparto

Responses:



- 13 El Macero
  - 10 Villas at El Macero
  - 3 Oaks at El Macero
- 1 Esparto Duplex



Survey Results

Support a policy banning smoking inside multi-unit housing

Report having smoke from cigarettes or vapes drifting into their home

State that there are no current smoking restrictions on property

Comments from Respondents

My condo has adjoining walls and adjoining patios. If the windows are open, smoke can easily drift from one condo to the next. People should have the right to live like they choose in their home, **but not to the detriment of neighbors** (whether it be smoke, or head-banging music).

-Villas Resident

The Oaks are not typical “condos”, as we own the land as well as the building. We do have common walls and patios are close. **I would absolutely support a ban in common areas and on patios**, if that can be done.

-Oaks Resident

I responded **yes** because I can see that it could be an issue.

-Villas Resident

Thank you for asking. This is a good idea. Although I don't like to control what people do in their homes, **I really think that the possibility of smoke drifting to others' areas is very real. I've heard complaints.** Thanks again!

-Villas Resident

Smokefree MUH and Yolo County's Stratigic Plan

Thriving Residents	
Topic	**Outcome**
Health Equity	Reduce disparities in health outcomes through upstream prevention by addressing root cause social determinants of health (education, income, neighborhood, and housing).
Children	Reduce economic and educational disparities while building resiliency for vulnerable children, youth, and their families.

Smoke Free Multi–Unit Residenses

“Multi-unit Residence” means a property containing two or more units, including, but not limited to, apartment buildings, condominiums, duplex, and triplex.

PPW definition of Dwelling, Two-family or Duplex and Dwelling, Multiple-Family - Title 8, Chapter 2, Article 5, Section 8-2.507

Capay - 1
Clarksburg - 5
El Macero - 51
Esparto - 35
Knight’s Landing – 8
Rumsey - 1
Winters – 1
Woodland – 2
Yolo - 11
Zamora - 1

TOTAL = 116 Properties*

**includes apartment buildings, condos, and multi-unit housing properties*

Policy Options

Least Restrictive

10 Apartment Complexes

- 5 HUD properties
- 5 Privately owned
  - 2 have voluntary no smoking policy

Most Restrictive*

116 Properties

- 78 Dwelling, multi-family
  - apartments
  - condos
- 38 Dwelling, two-family or duplex

**45 municipalities require all MUH properties with 2 or more units to be 100% smokefree indoors—both rental units and condominium/owner-occupied units.*

Enforcement

Complaint driven

individuals exposed to secondhand smoke as a result of a violation of this policy may initiate enforcement by registering a complaint with the County of Yolo

Administrative penalties shall not be imposed unless the individual in violation has received **at least three written warnings** given resources to cessation services.

- A $100 fine upon finding the first violation within any three-year period.
- A $200 fine upon finding a second violation within any three-year period.
- A $500 fine upon finding a third or subsequent violation within any three-year period.

Thank you!

Feel free to reach out if you have any questions.

Yolo
FOOD
BANK

Yolo County Poverty Facts

- ~75,000 total households in Yolo County
- Poverty rate in 2022: 17.2% (PPIC)

Yolo Food Bank's Current Footprint:

  - 13,000+ households* served via 145 monthly food distribution events
  - 8,500+ households served monthly by our 84 partner agencies
- 21,500+ total households served monthly throughout Yolo County

*Some households may be accessing food at multiple sites

Yolo County Poverty Facts

- While the COVID-19 public emergency declaration has ended, the need has not diminished.

- Across our distributions, we've seen a 20% increase from April 30, 2022 to April 30, 2023.

- This 20% increase does not include the additional households that are likely to seek resources due to the ending of the CalFresh Emergency Allotments.

Board of Supervisors **Public Works**

Meeting Date: 06/06/2023
Brief Title: Road Projects Prioritization
From: Leslie Lindbo, Director, Department of Community Services
Staff Contact: Vin Cay, Public Works Director, Department of Community Services, x8844
Supervisorial District Impact: Countywide

Subject
Receive presentation on how the County prioritizes road projects. (No general fund impact) (Lindbo/Cay) (Est. Time: 15 min)

Recommended Action
Receive presentation on how the County prioritizes road projects.

Strategic Plan Goal(s)
Thriving Residents

Safe Communities

Sustainable Environment

Flourishing Agriculture

Robust Economy

Reason for Recommended Action/Background
At the April 4, 2023, Board of Supervisors Meeting, staff was directed to return with a framework of how the County prioritizes road projects.
Given that the County has far more road maintenance responsibilities than there is available funding, a project prioritization framework is needed. Project prioritization is first dependent on the road condition data collected. Every three years, public works staff performs a countywide road condition assessment. After data is collected, staff applies established priorities set by the Board as follows:

- Use of Pavement Management Program to optimize cost/benefit
- Focus on top priority corridors (arterials/collectors)
- Address excessive complaints/safety first
- Use preventative pavement treatments to keep the good roads good
- Use sustainable methods when possible
- Leverage grant funding by keeping a reserve

At the April 4, 2023, meeting, the Board expressed concerns of how equity is being applied to project selection. Staff reviewed existing practices and is integrating equity considerations into the project selection process by identifying historically underserved communities from a road infrastructure standpoint, including

prioritizing roads serving economically disadvantaged communities even when such roads do not meet the higher street classifications or traffic volumes that would traditionally be considered.

Staff is committed to working with the Board to ensure transparency in project prioritization. In addition to existing procedures, staff is proposing to present a projects update at a meeting in the Fall, in addition to the Spring annual road network update. This will provide the Board with two meetings to give policy guidance to staff on how projects are prioritized in Yolo County.

How County Develops Road Projects

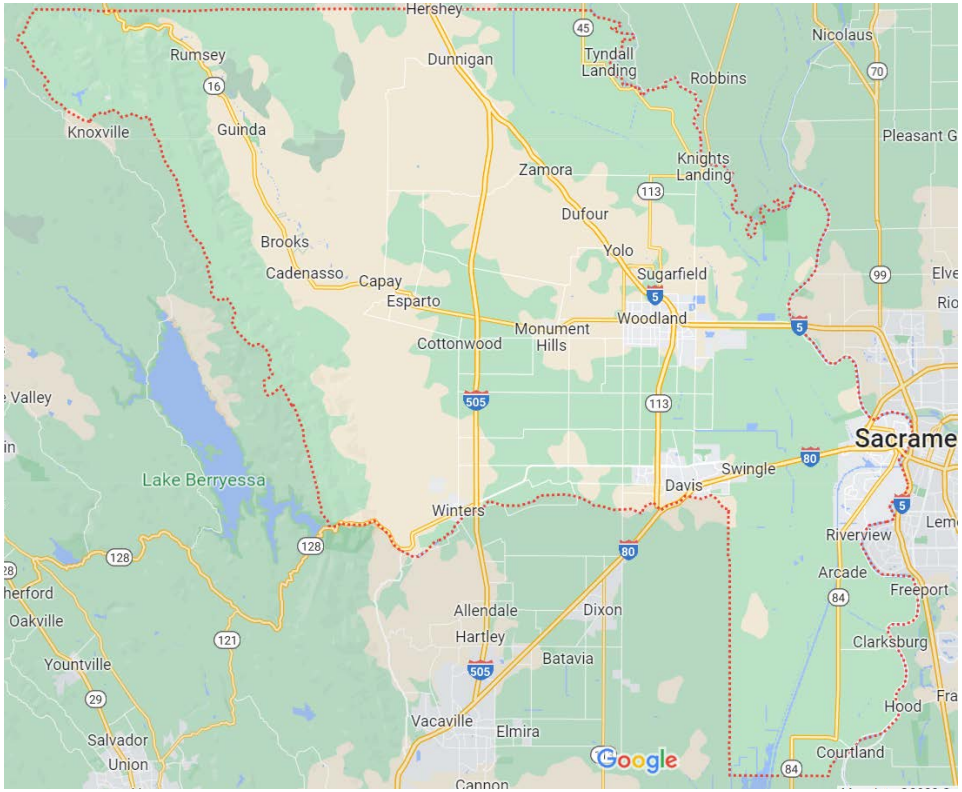
Board of Supervisors
June 6, 2023

- Collect Data
- Consider Equity
- Analyze for Established Priorities
  - Pavement Management Program
  - Top Priority Corridors
  - Excessive Complaints/Safety First
  - Preventative Treatments
  - Sustainable Methods
  - Leverage Grant Funding

COLLECT DATA

County contracts with vendor to collect pavement condition data on all county roads every 3 years.

Data collected includes:



- Type of road
- Classification
- GPS location
- Cracking
- Rutting
- IRI

- Provide Quality Control
- Load data into Pavement Management System
- Last assessment done winter 2020/21
- Next assessment planned for winter 2023/24

CONSIDER EQUITY ALWAYS

- Identify and prioritize roads located in and that serve historically disadvantage communities
- Consider equity each step of the process

Analysis: Use Pavement Management Program

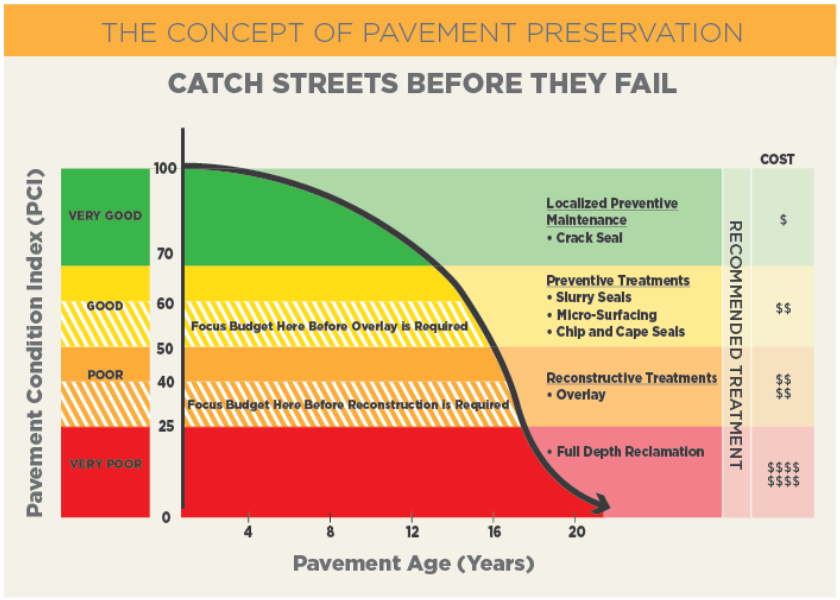
What is a Pavement Management System?

A pavement management system uses a variety of criteria to prioritize road projects. Some common criteria include:

- Pavement condition
- Traffic volume
- Functional classification
- Safety
- Cost-effectiveness
- Strategic importance

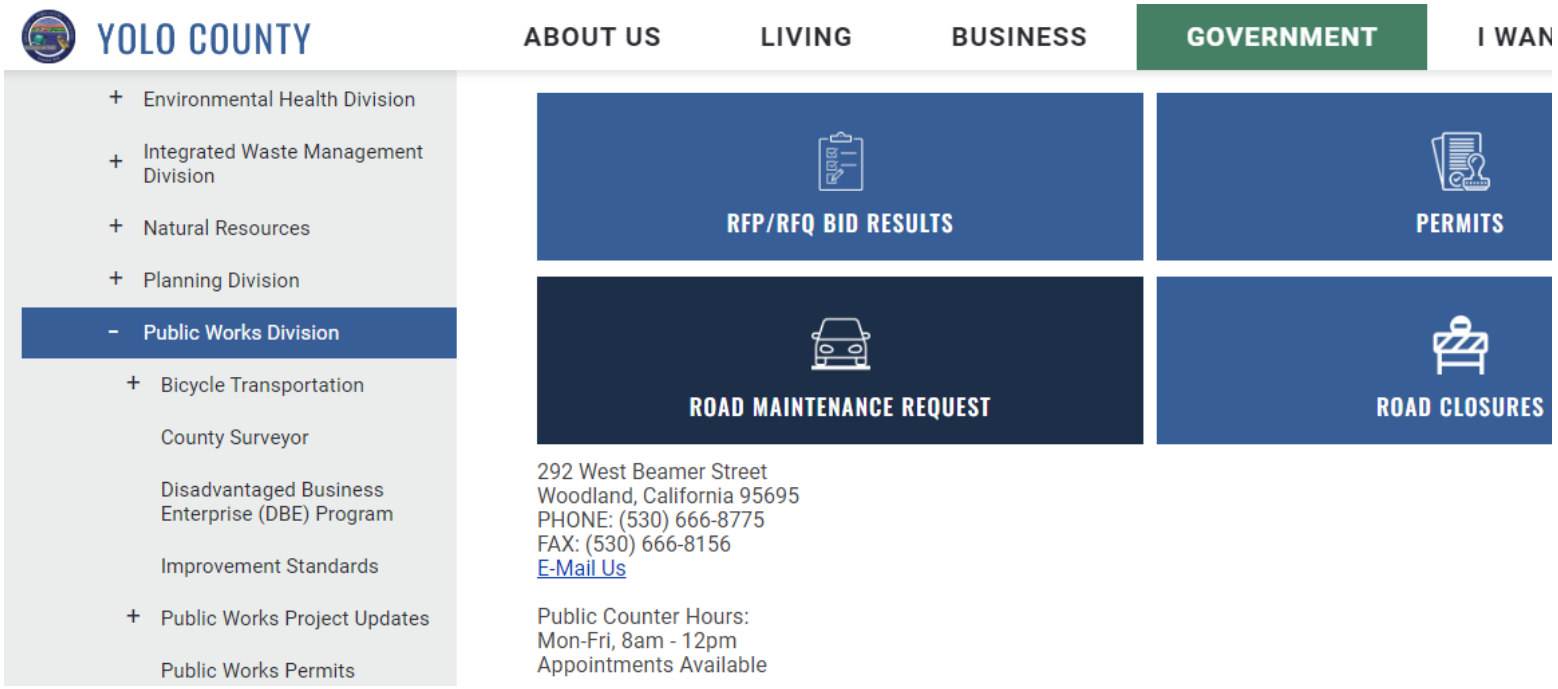
Analysis: Use Pavement Management Program

Yolo County uses MTC's cloud-based StreetSaver Online



- Inventory Management
- Analysis Engine
  - Budget Needs
  - Project Selection
  - Budget Scenarios
  - Target Driven Scenarios
- Future GIS Integration
- Track Maintenance & Rehab Treatment History
- More staff training to realize potential of technological tool

METROPOLITAN TRANSPORTATION COMMISSION

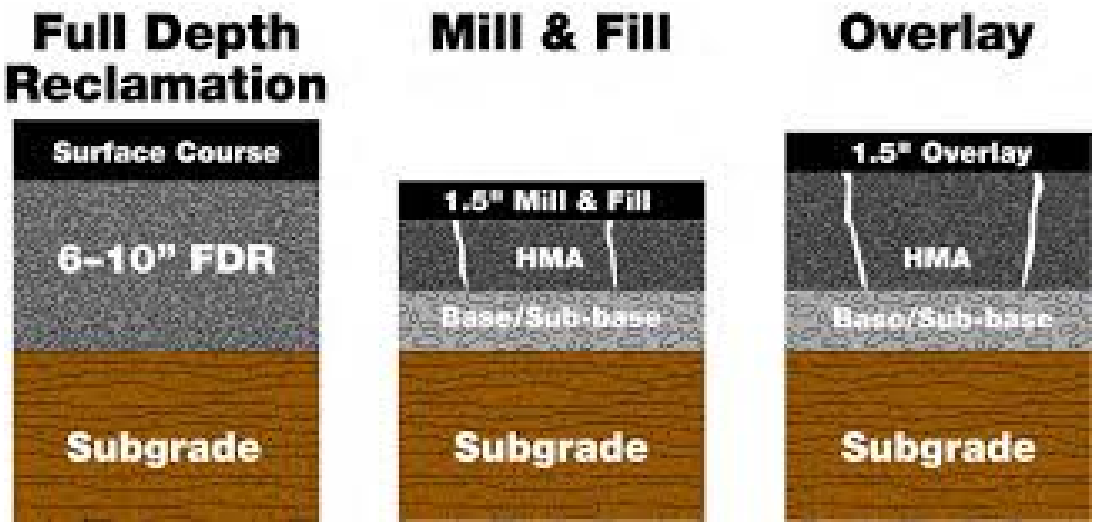


ANALYSIS: TOP PRIORITY CORRIDORS

- Safety First: Needed Primary/Emergency Access Routes
- Most traffic volume as measured by Average Daily Traffic (ADT)
- Higher speeds
- Mainly Arterials and Collectors

Analysis: Excessive Complaints

- Safety Paramount
- High Speeds
- High Traffic Volume
- Road Maintenance Requests



Analysis: Preventative Treatments

- Use Pavement Preservation Treatments
  - Slurry Seal Residential Local/Residential Roads
  - Microsurfacing Seal Higher Traffic Roads
  - Chip seal roads that have a competent structural section
  - Cape Seals = Chip + Slurry/Micro
  - Apply enzyme treatments to gravel roads with base failure

ANALYSIS: SUSTAINABLE METHODS

- Use sustainable methods where possible:
- Examples:
  - Full Depth Reclamation (FDR)
  - Cold-in-place Recycling(CIR)
  - Rubberized Chip Seals (using recycled rubber including used tires)

Analysis: Leverage Grant Funding

- Funding Sources
- Total $14.1M
  - Highway User Tax Account (HUTA) / Gas Tax $6.4M
  - Senate Bill 1 (SB1) $5.9M
  - Transportation Development Act (TDA) $1.8M
    - Local Transportation Fund (LTF)
    - State Transit Assistance (STA)
- Reserve as local match to leverage grants
  - Federal grants require 11.47%
  - Apply for all appropriate grants incl. those for underserved communities
  - Focus Safety and Bike/Ped Improvements
  - Project designs that minimize environmental impacts and shovel-ready

SUMMARY

PROJECTS ARE CREATED BASED ON:

- Collected Data
- Equity Considerations
- Established Priorities:
  - Pavement Management Program
  - Top Priority Corridors
  - Excessive Complaints/Safety First
  - Preventative Treatments
  - Sustainable Methods
  - Leverage Grants

PROJECTS APPROVAL PROCESS:

- Informational Update to
  - Committee on Capital Improvements (CCI)
  - Yolo County Transportation Advisory Committee (TAC)
- Board of Supervisors

Strategic Plan Goal(s)
Thriving Residents

Reason for Recommended Action/Background
American Rescue Plan Background - Child, Youth, and Families
On November 23, 2021, staff updated the Board regarding the five American Rescue Plan (ARP) priority category workgroups, including the Child, Youth, and Families (CYF) workgroup. Since that meeting, Staff has met with the workgroup and the Board liaisons to discuss several items under the subcategories approved by the Board in November 2021. The Child, Youth, and Family workgroup was allotted $5.5 million dollars of ARP funding and further allocated those funds as follows:

Childcare - $2.2 million (40% of CYF ARP Funds),
YCOE Roadmap - $200,000 (3.6% of CYF ARP funds),
Implementation of priority needs identified in Roadmap - $2.2 million (40% of CYF ARP funds),
Equity - $600,000 (10.9% of CYF ARP funds), and
Child Welfare - $300,000 (5.5% of CYF ARP funds).

On November 8, 2022, the Board received an update on the Child, Youth, and Family priority category, approved $550,000 for the Yolo Basic Income Program through the equity subcategory, approved $50,000 for the RaiseAChild project through the Child Welfare subcategory and received an update on the YCOE Roadmap to the Future.

The chart below presents the organizations that have already been funded through the CYF priority category, leaving $50,000 to be committed to projects in the subcategory of Equity, $250,000 to be committed to projects in the Child Welfare subcategory and $2,200,000 to be committed to projects based on the YCOE Roadmap Implementation.

Project Title	Lead Entity	Funded Amount
YCOE Roadmap	YCOE	$200,000
Child Match for Esparto Unified School District	Esparto Unified School District	$200,000
Childcare Connection	YCOE	$115,000
Sustaining Childcare and Early Learning in Yolo County @ Greengate	YCOE	$400,000
Childcare Recovery Package	First 5 Yolo	$1,300,000
Boys and Girls Club	City of Woodland	$700,000
Yolo Crisis Nursery	Crisis Nursery	$1,100,000
Yolo Basic Income Program	HHSA	$550,000
RaiseAChild	RaiseAChild	$50,000

Roadmap to the Future for Yolo County Children and Youth
In February 2022, Yolo County executed a $200,000 contract with the Yolo County Office of Education (YCOE) for the Roadmap to the Future project, a long-term plan to effectively coordinate the services, supports, and opportunities children, youth, and families need in Yolo County to thrive, as well as establish a shared framework to ensure their healthy development. Yolo County's contract with YCOE includes collecting data on community assets and services for children, youth, and families, mapping community assets and services, completing a needs assessment (including a youth development framework), facilitating community engagement sessions, and publishing a final report.

As YCOE worked with partners to implement the project, YCOE has learned the difficulties of creating the first-ever database of community assets and services. YCOE has successfully created a list of services and community assets by Supervisorial District, as well as held a community engagement session in each District to validate and expand the initial dataset, but believes more time is necessary to collect and validate the data with critical organizations and service providers. This information is also essential to the needs assessment, which requires a rigorous analysis of existing service data, the development of findings regarding strengths and gaps in the support network based on this analysis, and recommendations to expand or support strong elements of the system and fill gaps. As a result of the importance of this work to improve outcomes for children and youth, YCOE has dedicated additional internal funding to this project to accommodate the expanded work and will seek funding from other sources to match YCOE's commitment.

In addition to the database and needs assessment, YCOE will make recommendations to the Yolo County Board of Supervisors regarding allocation of the $2.2 million available in American Rescue Plan funds to assist children, youth, and families affected by the COVID-19 pandemic. To develop these actions, YCOE will develop prioritization criteria, project descriptions, rankings, and recommendations for early, "no regrets," actions, informed by shared priorities and the collective body of work established by three convenings of Yolo County leaders in 2021 and 2022, initial information on community needs collected by YCOE through community engagement meetings in 2023, and American Rescue Plan and other Yolo County criteria. YCOE will work closely with the ARP Workgroup to review and refine the prioritization criteria, as well as candidate projects. This work will result in recommendations to the Board of Supervisors in October 2023.

To ensure a high-quality database of community assets and services, as well as a comprehensive needs assessment to identify strengths and gaps in the support system for children, youth, and families, YCOE has determined it is critical to 1) provide sufficient time for data collection, validation, and analysis; and 2) complete the work products sequentially so that deadlines do not overlap. The additional time proposed for this project will strengthen the final product and help ensure robust recommendations to improve the support system which will stand the test of time.

The updated timeline for each component of the project is as follows, which adds a total of nine months to the total project timeline. YCOE originally anticipated completion of the project in September 2023.

- Present - June 30, 2023: Completion of community services and assets data list and maps
- June 30, 2023 to October 30, 2023: Development of prioritization criteria, early action projects descriptions, and recommendations to present to Board of Supervisors
- October 30, 2023 to March 30, 2024: Completion of needs assessment for future investment
- April 1, 2024 to June 30, 2024: Completion of Roadmap to the Future Phase 2 Final Report

Director, Special Projects, Yolo County Office of Education

RE: Yolo County Child Care Connections Network ARP (American Rescue Plan) Quarterly Report

January 20, 2023, Covers the period of October 1– December 31, 2022

The following is presented as an update on second quarter reporting of the Yolo Child Care Connections Network. We are grateful for the match of funds from the City of Woodland of $115,000 and are waiting to initiate this project when all the agreements are signed.

Project Background

The Child Care Connections Network will be developed to 1) support existing licensed childcare centers, licensed Family Child Care (FCC) providers and family, friend, and neighbor (FNN) providers in Woodland and rural Yolo County; and 2) grow and expand the network of childcare providers to increase available childcare slots for infants and toddlers and school-age childcare.

There is a growing need to serve an increasingly diverse child and youth population. The race and ethnicity demographics for children in Yolo County are as follows: Hispanic or Latino (46%), White Not Hispanic (36%), Multiracial/Ethnic (10%), Asian (6%), African American 91%), Other (1%), Pacific Islander (<1%) and American Indian or Alaskan Native (<1%)

At this time no funds have been expended. We are completing the City of Woodland's match for this Child Care Connections Network before we start with this initiative. A Yolo Child Care Contractor will be hired to build the necessary infrastructure to build and support the Yolo Child Care Connections Network in Woodland and rural Yolo County, where there is currently limited engagement and support. Woodland has the highest degree of unmet need related to childcare, followed by rural Yolo County with the second-highest need. As Program Lead, I will take charge of initiating this project. We plan for coaching/ mentoring assistance as well as Administrative support supporting community engagement to organize and plan for this project. The projection to start this project is February 1, 2023.

Yolo County OFFICE OF EDUCATION

1280 Santa Anita Court, Ste. 100
Woodland, CA 95776-6127
www.ycoe.org

Garth Lewis
Yolo County Superintendent of Schools

TEL: (530) 668-6700
FAX: (530) 668-3848

Specifically, the childcare team would primarily focus on providing support for:

A. Expanding the number of infant and toddler childcare slots in the county.

B. Improve facility needs for current childcare providers.

C. Provide on-going training and professional development, and

D. Provide supportive technical assistance for current childcare providers.

A Welcome and Orientation event will be planned in February to outreach to the childcare providers in Woodland and Rural Yolo.

Supporting Child Care in Woodland: In Woodland, approximately 73% of subsidized childcare needs are unmet. With this funding, the goal would be to ensure a self-sustaining childcare network operation in Woodland after the ARP funds expire.

Supporting Child Care in Yolo County: In rural Yolo, the Child Care team will seek to establish capacity and support to expand services to 3 – 4 additional providers in Knights Landing., Esparto or Winters location. This would increase support to rural families and specifically the two-family friend, and neighbor (FFN) providers currently operating in Knights Landing. The idea is to build and encourage additional FFNs to become licensed Family Care (FCC) providers.

COVID 19 Economic Impacts

Due to the many changes that occurred this past year for providers in Woodland and rural Yolo County, there are critical challenges that licensed Family Child Care (FCC) providers and family, friend, and neighbor (FFN) providers have expressed. Focus for the areas of Woodland and Rural Yolo will be seen within this Network. This information was attained through a childcare provider survey that was voluntarily completed by providers. The survey was taken by 129 providers and the majority were between the ages of 35 -54. Over half were FCC providers and 95% identified as female.

January 17, 2023

To: Madison York

American Rescue Plan Project Manager, County of Yolo

From: Gail Nadal

Program Lead, Sustaining Childcare and Early Learning in Yolo County at Greengate

Director, Special Projects, Yolo County Office of Education

RE: Sustaining Child Care and Early Learning in Yolo County at Greengate ARP (American Rescue Plan) Quarterly Report

January 20, 2023, Covers the period of October 1– December 31,2022

The following is presented as an update on second quarter reporting of the Sustaining Child Care and Early Learning in Yolo County at Greengate Project. **This project is still in the planning stages. Internal meetings have been held to initiate planning and steps for action. Currently, we are procuring quotes for services that we can have performed pre-construction. We have a few quotes for pre-construction that are ready to go that we will be submitting PO's for this upcoming week.**

Project Background

The 2020 Yolo County Local Child Care Planning Council Needs Assessment stated an immediate need for the following in Yolo County:

- Strengthening the childcare workforce
- Continued training and technical support to childcare providers
- Establishing a unified early learning infrastructure; and
- Increased awareness and increased funding for quality subsidized childcare.

The highest need is for infant and toddler care with a gap of 3,834 licensed childcare slots specifically to care for children 0-2 in Yolo County. This project, sustaining childcare and early learning in Yolo County at Greengate Project is for the installation of a vacant portable classroom donated to YCOE and will be used to provide an infant and toddler center in Woodland, resulting in 16 additional slots.

This site would allow teen parents attending Cesar Chavez Community School to have their infant or toddler receive childcare services at the school site, which will also be available for community participation.

This proposal will allow for growth and expansion of much needed childcare slots for infants and toddlers. Additionally, professional development for providers caring for vulnerable children can improve their quality of life. We will see an expansion of childcare slots and improvement of the quality of care.

Yolo County Childcare Recovery Package

Reporting Period: October 1, 2022 – December 31, 2022

First 5 Yolo is grateful for the partnership with Yolo County, its dedication to serving the County's youngest children by supporting childcare providers who have been significantly impacted by the COVID-19 pandemic, and its recognition of the deleterious effects of the pandemic on the sector as a whole. Through the pandemic, the childcare sector suffered negative impacts which resulted in reduced childcare capacity across the county, increased barriers to entering the sector for those interested in opening new childcare sites, and increased operating costs in the face of high inflation for operating sites. Childcare providers are essential workers who operated throughout the pandemic and have a continuing need for support. Through the implementation of the Childcare Recovery Package, childcare providers are eagerly applying for needed Recovery and Infrastructure grants.

During the reporting period, First 5 Yolo accomplished the following activities:

1. Between October 1 and December 31, 2022, F5Y awarded Recovery or Infrastructure Grants to **120 Childcare Providers (83 Infrastructure and 37 Recovery) with representation from cities throughout Yolo County and with most applicants being licensed Family Childcare Homes**.

2. First 5 Yolo met regularly with its contractor, Children's Home Society of California (CHS), to review received applications prior to their presentation at monthly Early Learning Review Committee (ELRC) meetings. CHS is the County's local Resource and Referral Agency and is contracted to support First 5 Yolo in administering the Childcare Recovery Package through administration of funds, collection and analysis of applications, provision of technical assistance for applicants, and monitoring grantee progress.

3. First 5 Yolo convened and facilitated 3 ELRC meetings. The ELRC is an advisory committee comprised of agencies serving and/or supporting childcare providers across the County. Members of the ELRC include City of West Sacramento's Home Run Initiative, Yolo County Office of Education, Yolo County Children's Alliance, and Children's Home Society of California. During these meetings, the Committee reviewed the number of completed applications received by funding type, provider type, and city, and an overview of proposed projects. The ERLC utilized this information to make recommendations to First 5 Yolo for final award determinations.

4. First 5 Yolo's contractor, Yolo County Children's Alliance, provided ongoing technical assistance and support for non-English speaking applicants and grantees as well as those from underserved populations. Additionally, YCCA engaged in targeted outreach and culturally and linguistically appropriate support to Clarksburg and West Sacramento FFN providers seeking licensure, many of whom had previously or are currently participating in First 5 Yolo's Early Learning Initiative, Quality Counts IMPACT2020. Through these efforts, **YCCA assisted 12 FFN providers in submitting their Infrastructure Grant applications. Out of these 12 providers, 5 were from West Sacramento, 2 from Clarksburg and 5 from Knights Landing.** YCCA also worked with Spanish and Farsi speaking

providers to assist them in completing their applications and upload supporting documents, as needed.

Quarterly Performance Measures

Number of Childcare Providers Awarded, Year to Date						120
By City		By Provider Type		By Grant Type		
West Sacramento	58	Center-based (Center)	14	Infrastructure	83	
Woodland	29	Large Family Childcare Home (LFCC)	51	Recovery	37	
Davis	20	Small Family Childcare Home (SFCC)	40			
Winters	4	Family, Friend, Neighbor (FFN)	14			
Esparto/Capay	3	Not Currently Providing Care	1			
Knights Landing	4					
Others	2					

# and % of Grants Awarded, Year to Date (based on a target of 250 grants)	48%**

(** At the time of project proposal, First 5 Yolo estimated reaching, via grants, ~250 providers, across both grant types. It was anticipated that approximately 2/3^{rds} of applications would be for Recovery and 1/3rd for Infrastructure, as Infrastructure Grants required a defined project to expand license capacity or enhance the setting to more safely maintain or return to full enrollment. Based on actual applications received, as represented in the data above, approximately 2/3^{rds} of applications received are and continue to be for Infrastructure. Issuing a greater number of Infrastructure grants than originally anticipated reduces the overall number of grants that can be awarded, as Infrastructure grant awards include higher funding amounts relative to Recovery Grants. F5Y reviewed the application trends and implications with the ELRC and Yolo County and all were in agreement that while fewer providers would be reached overall, deeper impact would be achieved with more childcare slots and jobs created or maintained, than originally anticipated. Based on current projections, First 5 Yolo now anticipates reaching approximately 175 providers via grants. Taking into consideration the new projected number of providers reached, as of December 31, 2022, First 5 Yolo had awarded 69% (120/175) of anticipated grants. Excitingly, with a higher proportion of Infrastructure Applications than originally anticipated, the number of childcare slots preserved and added are projected to increase resulting in greater availability of childcare throughout the County.)

In the coming quarter, F5Y will continue to receive and review applications on an ongoing basis and anticipates fully expending available funds by June 30, 2023. Additionally, F5Y will begin collecting follow up surveys from awardees to further understand how the funds have been utilized and impacted childcare providers across the County.

For questions regarding this report, please contact Gina Daleiden, Executive Director at gdaleiden@first5yolo.org.

APPLICATION AND CERTIFICATION FOR PAYMENT

TO OWNER:
Esparto Unified School District

PROJECT: 427
New Preschool

APPLICATION NO: 11

Distribution to:

x	OWNER
x	ARCHITECT
x	I.O.R.

FROM CONTRACTOR:
Abide Builders, Inc.
825 Riverside Pky, Ste 120
West Sacramento, Ca 95605

Owners Representative:
Jaycen Russell

PERIOD TO: 9/30/2022

CONTRACT DATE: 10/27/2021

APPLICATION AND CERTIFICATION FOR PAYMENT

Application is made for payment, as shown below, in connection with the Contract.
Continuation sheet is attached.

The undersigned Contractor certifies that to the best of the Contractor's knowledge, information and belief the Work covered by this Application for Payment has been completed in accordance with the Contract Documents, that all amounts have been paid by the Contractor for the Work for which previous Certificates for Payment were issued and payments received from the Owner for which previous Certificates for Payment were issued and payments from the Owner, and that current payment shown herein is now due.

1. ORIGINAL CONTRACT SUM		$ 1,575,000.00
2. Net change by Change Orders		$ 8,608.00
3. CONTRACT SUM TO DATE (Line1+/-2)		$ 1,583,608.00
4. TOTAL COMPLETED & STORED TO DATE (From page 2)		$ 1,533,355.00
5. RETAINAGE:		
a. 5% of Completed Work (Column D+E from page 2	$ 76,667.75	
b. 10% of Stored Material (Column F on page 2)	$ -	
Total Retainage (Column I of Page 2)		$ 76,667.75
6. TOTAL EARNED LESS RETAINAGE (Line 4 Less Line 5 Total)		$ 1,456,687.25
7. LESS PREVIOUS CERTIFICATES FOR Payment (Line 6 from prior Certificate)		$ 1,437,927.60
8. CURRENT PAYMENT DUE		$ 18,759.65
9. BALANCE TO FINISH, INCLUDING RETAINAGE (Line 3 Less Line 6)		$ 126,920.75

CONTRACTOR: **Abide Builders, Inc.**

By: Philip Pizzo Date: 9/30/2022

ARCHITECT'S CERTIFICATION FOR PAYMENT

In accordance with the Contract Documents, based on on-site observations and the data comprising the application, the Architect certifies to the Owner that to the best of the Architect's knowledge, information and belief the Work has progressed as indicated, the quality of the Work is in accordance with the Contract Documents, and the Contractor is entitled to payment of the AMOUNT CERTIFIED.

AMOUNT CERTIFIED..... $ 18,759.65

(Attached explanation if the amount certified differs from the amount applied. Initial all figures on this Application and on the Continuation Sheet that are changed to conform with the amount certified)

Roadmap to the Future: Overview of Outcomes

Vision: Being born, cared for, and educated in Yolo County is an advantage for each child and youth.

Mission: To develop, implement and consistently evaluate a long-term plan to help effectively coordinate the services, supports, and opportunities children, youth, and families in Yolo County need to thrive, as well as establish a shared framework to ensure their healthy development.

Background: On June 27, 2021, 21 local Yolo County elected leaders co-authored an opinion editorial in local newspapers (*The Davis Enterprise, Winters Express)* entitled "Mapping the Future for Yolo County Youths." The op-ed called for development of a long-term plan to confront the issues of poverty and physical and mental health facing Yolo County children and youth, which are exacerbated because of the COVID-19 pandemic. Following the op-ed, Yolo County Supervisor Jim Provenza, Yolo County Assessor, Clerk-Recorder and Chief Election Official Jesse Salinas, Yolo County Superintendent of Schools Garth Lewis, and Yolo County Supervisor Lucas Frerichs (then City of Davis Vice-Mayor), convened Yolo County leaders to determine next steps, which resulted in a request for $450,000 from Yolo County, the Yolo County Office of Education ("YCOE"), all four cities in Yolo County, and the five school districts to develop a "Roadmap to the Future" for Yolo County children, youth, and families. The Roadmap to the Future consists of four phases led by YCOE with support from community partners and consultants. The deliverables for each phase form the foundation for development of a long-term plan with measurable objectives and actions.

Identified Need: The Roadmap to the Future will inform the long-term, collaborative efforts of organizations and agencies across Yolo County to invest in efforts to ensure the healthy development of Yolo County children, youth, and families. A countywide plan with measurable objectives and actions to guide this collaboration does not currently exist. YCOE will collect data and existing services and community assets, as well as conduct a needs assessment, to provide decisionmakers with the information necessary to develop a comprehensive source of online information about community assets and services for the first time in Yolo County, as well as a long-term plan to guide improvements to the support system. The Roadmap to the Future aligns with Yolo County's 2020-2025 Strategic Plan goal of "Thriving Residents", specifically the outcome to reduce economic and educational disparities while building resiliency for vulnerable children and their families.

Phase 0 [Completed]: YCOE led three virtual Children, Youth and Family Convenings from August 2021-February 2022 in Phase 0 to develop the principles and shared priorities that continue to guide the path of the Roadmap to the Future. Over 50 elected officials and community leaders attended the virtual convenings, which served to develop the principles and shared priorities to guide the project. A grant from the James B. McClatchy Foundation provided funding for the convenings.

Phase 1 and Phase 2 [In Progress]: YCOE is currently implementing Phase 1 and Phase 2 of the Roadmap to the Future, which consists of three components: 1) community asset and service data collection and mapping; 2) needs assessment, including a child and youth development framework; and 3) final report. Phases 1 and 2 also will include a robust community engagement strategy to seek feedback on these components, including community meetings and outreach to people who may not have the resources to attend meetings but may be interested in providing feedback. This outreach will provide an opportunity for YCOE to verify information about community assets and services, seek additional information, and gather feedback from community members on both strengths and gaps in the system of support.

The following provides a brief description of each component in Phase 1 and Phase 2:

1. **Community Assets and Services Data Collection and Mapping:** The community assets and services data will provide information about the existing system of support for children, youth, and families in Yolo County, including county-wide services and services provided within homes. The project team will create a map for each the five Yolo County Supervisorial districts to allow the community to review and validate the type and location of current community assets and services. YCOE will include a summary of the data, divided into categories for ease of use, and all completed maps in a final report.

   How it will be used: *The community assets and services data and maps will help identify existing community assets and services for children, youth, and families in Yolo County, which will serve as the foundation for the needs assessment and an eventual community online tool.*

2. **Needs Assessment:** YCOE will conduct a needs assessment to identify community assets and services in which the community should invest to help support children, youth, and families. The needs assessment will include the collection of demographic data to show areas where children and youth 0-24 may need support in relation to the location of existing community assets and services. The needs assessment will include a child and youth development framework to outline key developmental milestones prenatal through 24 years of age, including milestones related to a child or youth's physical, social, educational, cultural, organizational, and economic development. The needs assessment will help identify strengths, gaps, and overlap in assets within the community, the results of which YCOE will describe in detail in the final report.

   How it will be used: *The needs assessment will help identify strengths, gaps, and overlap in community assets and services within the community. The child and youth development framework will provide the foundation to assess the adequacy of the support system for children and youth in Yolo County. By describing key milestones, the project team can match assets to milestones and evaluate strengths and gaps in the support system. The needs assessment will therefore allow decisionmakers to make data-informed decisions to maximize opportunity, avoid duplication, and prioritize transformational projects when allocating funding or making other relevant decisions to improve outcomes for children and youth.*

3. **Final Phase 1 and Phase 2 Report:** YCOE will produce a final report describing the community asset and service data and the needs assessment. YCOE may also provide recommendations to consider for Phase 3 as part of this report, including development of a long-term plan with measurable objectives and actions.

   How it will be used: *The report will describe the process through which YCOE collected the community assets and services data and the results of the needs assessment, including the results of the community outreach effort.*

Phase 3 [Not Initiated]: Phase 3 will include development of the community online tool and the long-term plan to inform future investment and improvements to the system, but YCOE has not determined which agency or agencies will lead this phase or identified funding. The approach to Phase 3 also may change because of community feedback received during Phase 1 and 2. YCOE will work with Yolo County and the Children, Youth and Families American Rescue Plan (ARP) Workgroup to develop a scope of work for Phase 3 once Phase 1 and Phase 2 are complete.

Yolo County Office of Education Roles and Responsibilities: During Phase 1 and Phase 2 of Roadmap to the Future, YCOE and partners will review existing plans, collect data, coordinate with the Children, Youth, and Families ARP Workgroup, and conduct community engagement meetings to collect data on existing community assets and services, as well as inform the needs assessment. YCOE will strive to ensure the effort

is complementary to other planning efforts in Yolo County. YCOE will also help develop a scope of work outlining funding and tasks for Phase 3, including the community online tool and the needs assessment. The Children, Youth and Families ARP Workgroup, composed of a group of trusted community partners who are serving in an advisory capacity to help advance and develop the Roadmap to the Future project, will advise YCOE throughout this process.

ROADMAP TO THE FUTURE

FOR YOLO COUNTY CHILDREN AND YOUTH

Yolo County Office of Education

Roadmap to the Future: ALL IN! For Children & Youth in Yolo County

Community Engagement Meeting Summary

February 27th - March 3rd, 2023

Davis | Esparto | West Sacramento | Winters | Woodland

Community Engagement Process

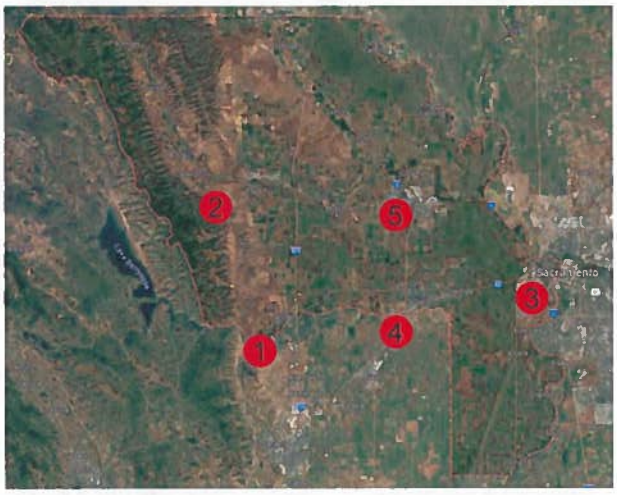
Yolo County and the Yolo County Office of Education (YCOE), with support from community partners, are developing the Roadmap to the Future — a long-term plan to effectively coordinate the services, supports, and opportunities children, youth, and families in Yolo County need to thrive, as well as establish a shared framework to ensure their healthy development. This plan aims to empower residents and expand access to community assets and services to help confront the issues of poverty and physical and mental health facing Yolo County children and youth. The Roadmap to the Future is further inspired by four shared priorities developed by community leaders during three convenings to discuss improving outcomes for children and youth during 2021 and 2022: 1) quality childcare, early learning and TK-12 education; 2) mental health and wellness; 3) welcoming beacons of community life; and 4) thriving in young adulthood.

The COVID-19 pandemic elevated the need to provide more equitable supports and services for children and youth in Yolo County by reducing economic and educational disparities and building resiliency for vulnerable children and their families. When the American Rescue Plan Act provided considerable resources to Yolo County, leaders across the County committed to supporting the Roadmap to the Future and encouraged strong, purposeful community involvement in its development. The Roadmap to the Future includes four phases led by YCOE. Phase 0, which includes the convenings, is complete. Phases 1 and 2, which include the collection of data on existing community assets and services, as well as a need assessment, are in progress. Phase 3 consists of development of a community online tool to provide easily accessible information about community assets and services and completion of a long-term plan to improve services and address gaps in community assets.

Community engagement efforts kicked off on January 2023, with a Roadmap Champions Session, which consisted of a collection of community leaders, educators, and ambassadors who support children, youth, and families. During the Champions Session, YCOE provided details about the Roadmap and solicited assistance with recruitment of community members to participate in the upcoming countywide All In! for Children & Youth engagement sessions. Between February 27 and March 3, 2023, YCOE held five All In! sessions in communities across Yolo County, with one in each supervisorial district. To conduct this important work, YCOE contracted with Concordia, a consulting firm, and worked with the Roadmap to the Future team to engage residents, identify community assets and services, and determine additional needs throughout the County. Each session was hosted by the County Supervisor representing the district in which the session took place, as well as County Superintendent Garth Lewis. The first round of All In! Sessions helped build critical support, awareness, and momentum for the Roadmap to the Future project. Attendees showed excitement as active partners in this undertaking and helped both collect and share information across their networks.

The work of collecting and assessing information and feedback from Yolo County residents continues to be a critical part of the Roadmap to the Future. Community input is foundational to the mission of ensuring healthy development for children, youth, and families, and is aligned with Yolo County's vision of being a healthy, safe, and vibrant community where all children and youth thrive. This report provides a summary of the rigorous and important data collection process conducted by YCOE during the first round of the All In! for Children and Youth sessions in Yolo County and paves the way for next steps in this historic project.

The Meetings



The first round of All In! for Children and Youth Sessions focused on introducing community members to the Roadmap to the Future initiative. Participants were invited to groundtruth the community asset and service provider maps at their tables, which were created to identify services provided across Yolo County.

Meeting participants were asked to verify the locations of community assets and service providers and elaborate on the services they provide. They were also asked to add missing community assets and service providers. Finally, participants were asked to identify needed community assets and services that are not currently provided. Overall, **370 community members** along with table hosts and civic leaders, attended an All In! for Children and Youth Sessions. At each meeting, the respective County Supervisor for the district presented and hosted the session. The first round sessions were hosted by:

- Supervisor Lucas Frerichs (District 2) in Winters on February 27;
- Supervisor Angel Barajas (District 5) in Esparto on February 28;
- Supervisor Oscar Villegas (District 1) in West Sacramento on March 1;
- Supervisor Jim Provenza (District 4) in Davis on March 2; and
- Supervisor Gary Sandy (District 3) in Woodland on March 3.

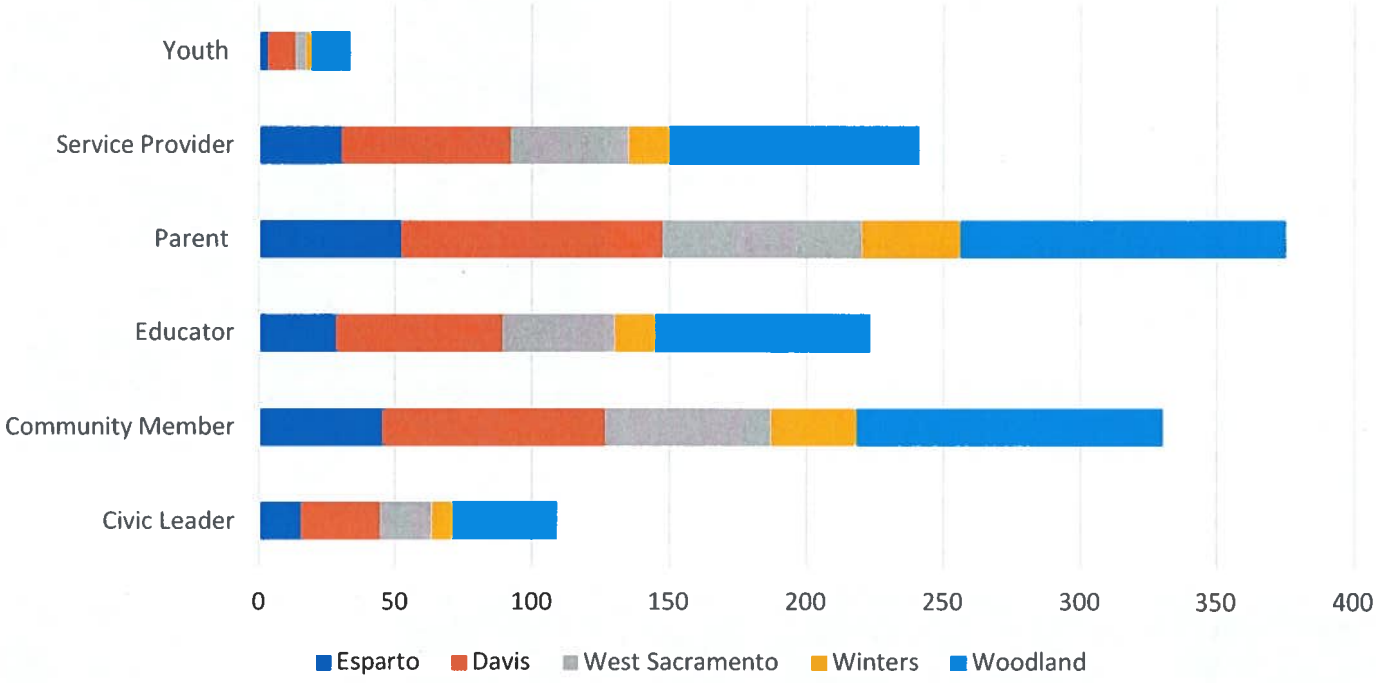
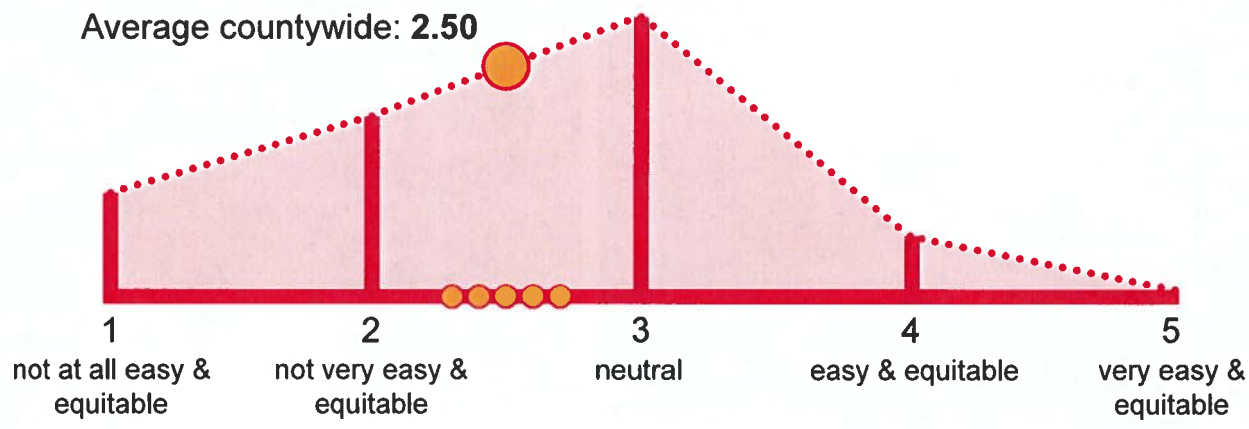
Yolo County Meeting Locations: 1. Winters, 2. Esparto, 3. West Sacramento, 4. Davis, 5. Woodland



Live Poll Results

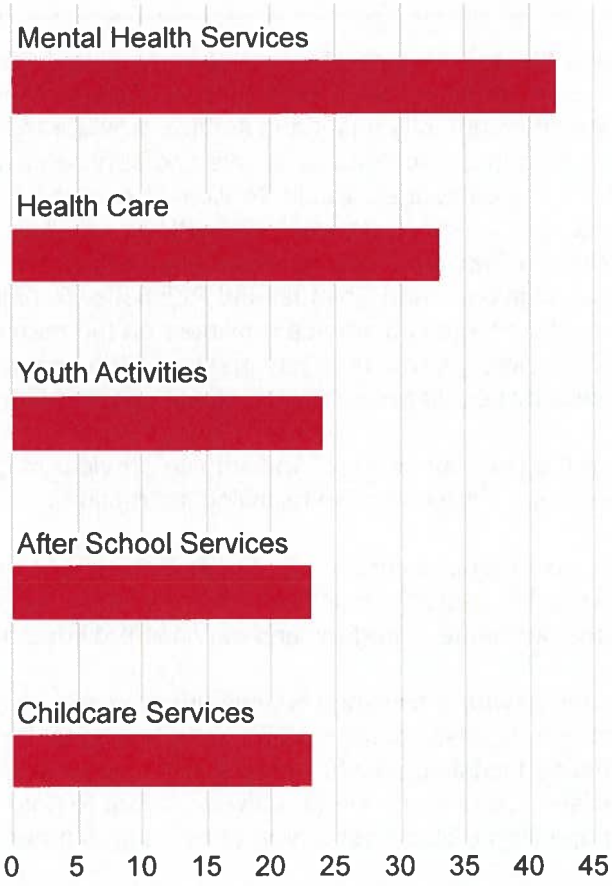
After introductions and presentations were complete, Concordia led each community in an interactive live polling session that allowed community members to answer questions on their smartphones and instantly displayed group results on the big screen. Community members who were not able to use smartphones to participate were invited to answer the same questions on printed forms, which were available at each table. The results of each question are below.



What is your role? Are you a...? *(Participants could select multiple roles)*

How easy and equitable is access to services and resources in your community?

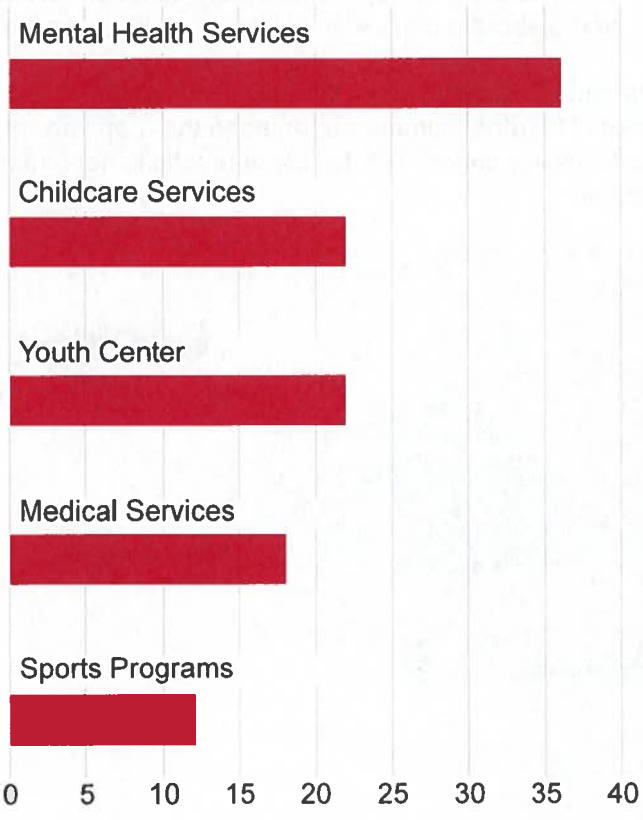
On a scale of 1 to 5, community members were asked how easy and equitable it was to access services in their community, 1 being not easy and equitable at all and 5 being very easy and equitable. The average score for each meeting was Winters - 2.3, Esparto - 2.6, West Sacramento - 2.4, Davis - 2.7, Woodland - 2.5. The average score countywide is 2.5 or not very easy and equitable.



What kind of services and resources is it important for you and your family to have access to?

The word cloud below includes all the answers from the community. The larger the word, the more frequently it was mentioned. The bar chart to the right lists the top 5 answers.

Top 5 Answers



What needed services and/or resources do you and your family NOT have access to?

The word cloud below includes all the answers from the community. The larger the word, the more frequently it was mentioned. The bar chart to the right lists the top 5 answers.

Top 5 Answers

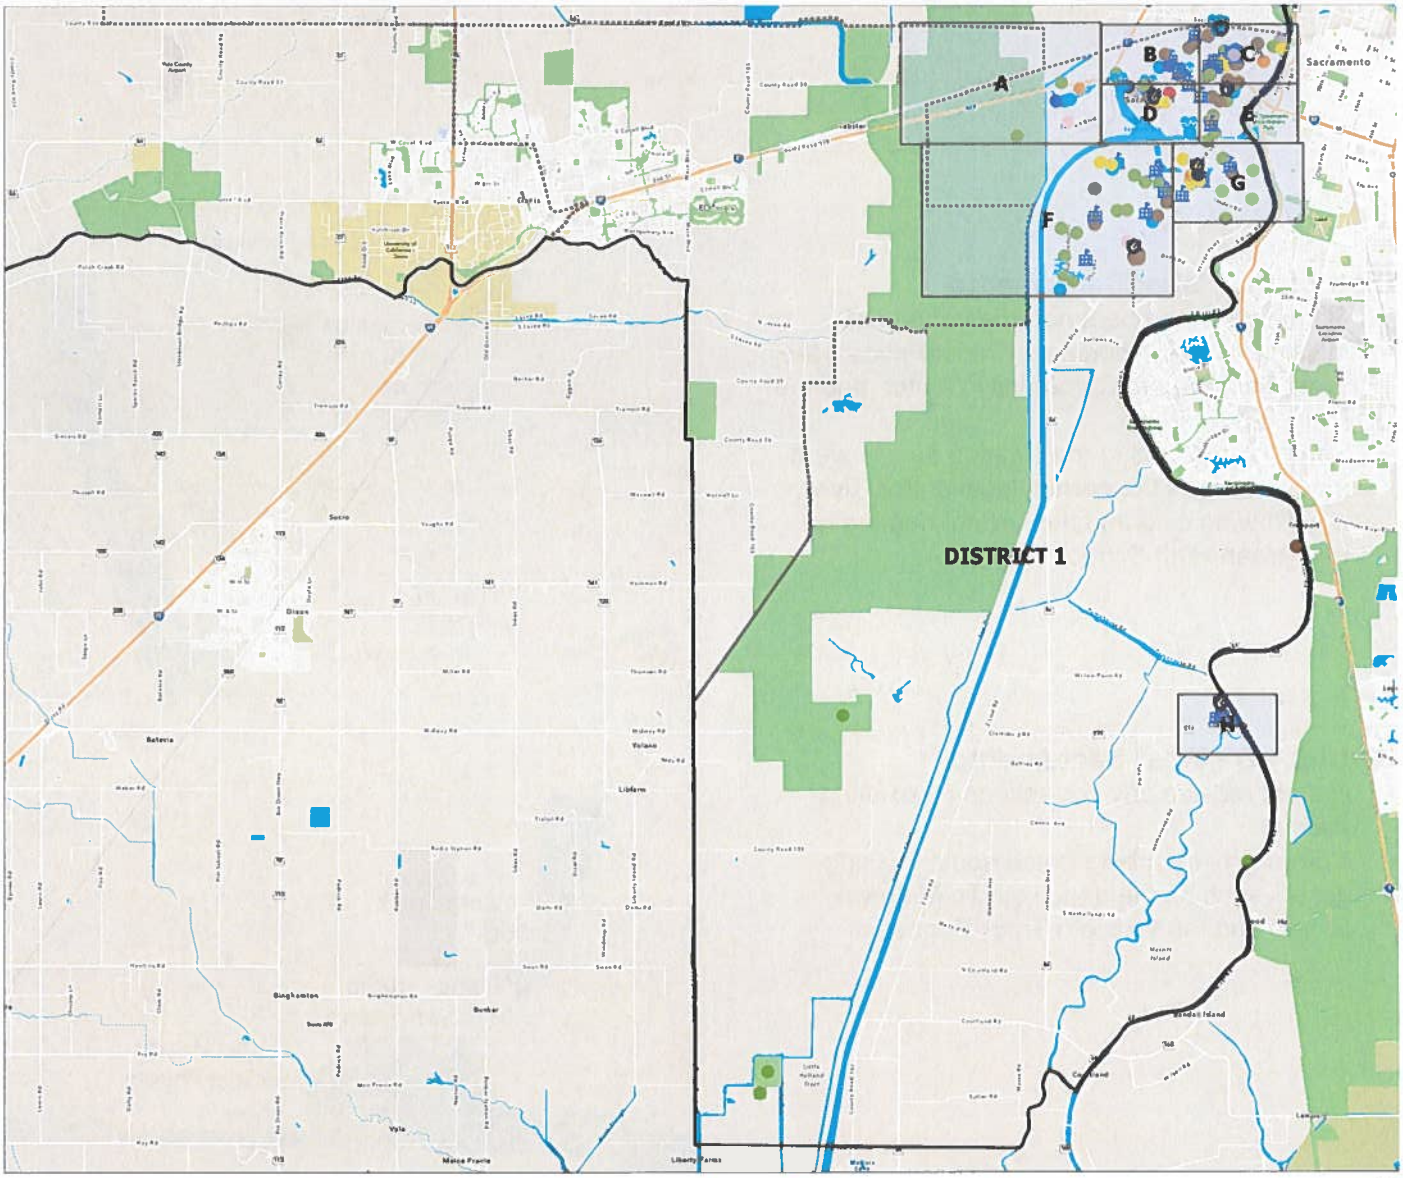
Asset Map Updates

To have a common understanding of community assets and services that exist within Yolo County, community members worked on community asset and service provider maps. The maps categorized community assets and service providers into the following categories: Basic Services, Civic and Political, Cultural and Artistic, Economic, Education and Information, Health and Human Services, Individual Development, Physical, Social and Associational, and Spiritual and Religious. To help identify community assets and service providers on the maps, community members were given a map key that listed the community asset or service provider, its respective category, and the services provided.

During the community asset and service provider mapping activity, table groups were given the following instructions:

- Review mapped community assets and service providers using the map key to understand community asset and service provider name, category, and services provided at that location.
- Confirm where existing services are provided by mapped community assets and service providers. Has Concordia mapped existing assets correctly or was something missed that exists? Community members were asked to note directly on the map using a blue Post-It note or by using a green sticker.
- Community members were asked to complete the supplementary Asset & Service Identification Form to add services provided by a community asset or service provider and elaborate on how they benefit children, youth, and families.

Concordia reviewed all of the maps and forms to update the asset maps. The most common updates to the maps are highlighted on the following pages. The full list of results is documented in the appendix.



District 1

District 1

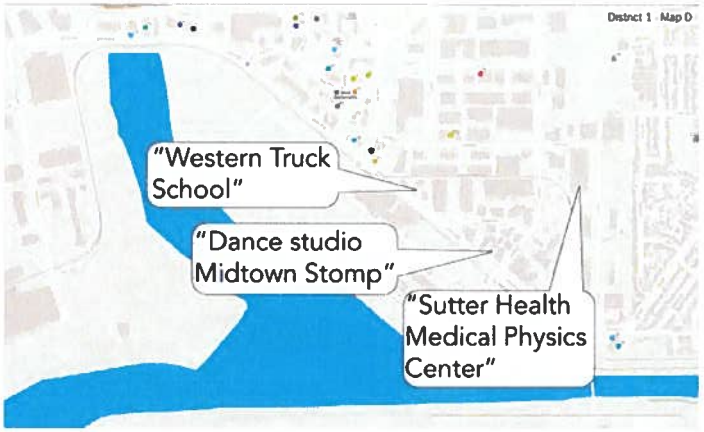
District 1 includes the southern part of the City of West Sacramento and the unincorporated community of Clarksburg in the southeastern side of the County. District 1 was divided into eight maps, seven of which depicted areas in the City of West Sacramento and one of which showed Clarksburg. Sixty-seven community members attended the District 1 meeting.

District 1.A - West Sacramento

- The correction received about existing assets on this map was about the mislabeling of an Early Head Start (EHS) center that should instead be labeled as a pre-K.
- Community members noted that there is a soccer field that was not shown in the map.

District 1.B - West Sacramento

- Did not receive any corrections on existing assets or additions to the map.



District 1.C - West Sacramento

- Community members noted a handful of missing assets including a Planet Fitness, the West Sacramento Community Center, and the Fiery Ginger Farm.
- Some corrections to the existing assets were made, such as the correct location for River City Rowing club and the correct naming for Evergreen High School.

District 1.D - West Sacramento

- Did not receive any corrections on existing assets.
- Community members noted some missing assets such as the dance studio Midtown Stomp and the Western Truck School.

District 1.E - West Sacramento

- The correction received was a note from a community member that did not believe an asset labeled as a park should be labeled as such.
- Received a handful of notes about missing assets such as Elica Health Centers, and Boss Boxing MMA & Fitness.

District 1.F - West Sacramento

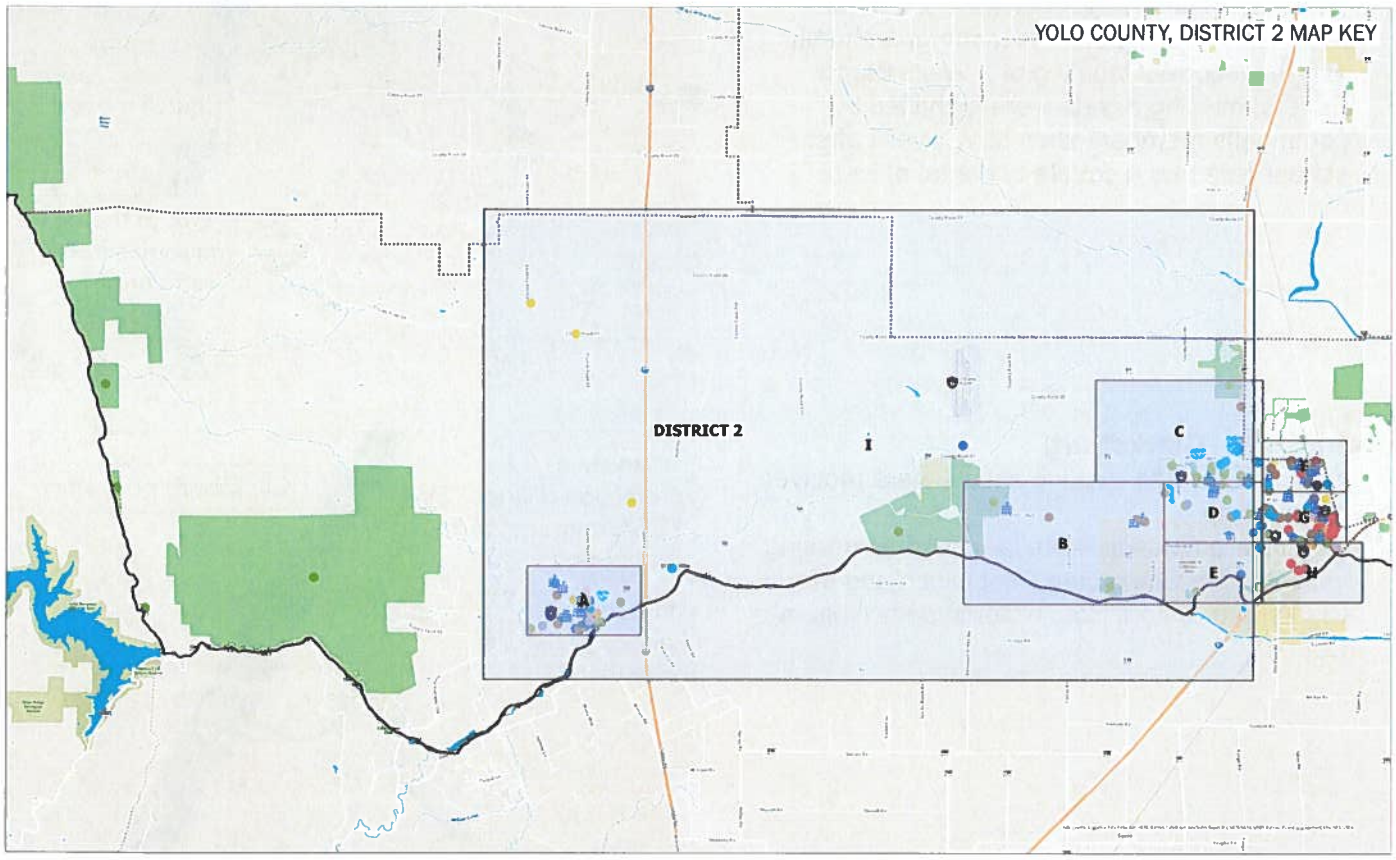
- Community members noted that several preschools were not listed on the maps, including Bright Beginning Preschool, Mile Preschool and others.
- Several other assets were noted as missing such as a soccer facility, Sutter Walk-in Clinic, and Uplift Martial Arts.

District 1.G - West Sacramento

- Two corrections to the map were received which were the incorrect location of a church and the incorrect labeling of a Wells Fargo.
- Several missing assets were identified by community members such as a YMCA after school care and a couple of dental offices.

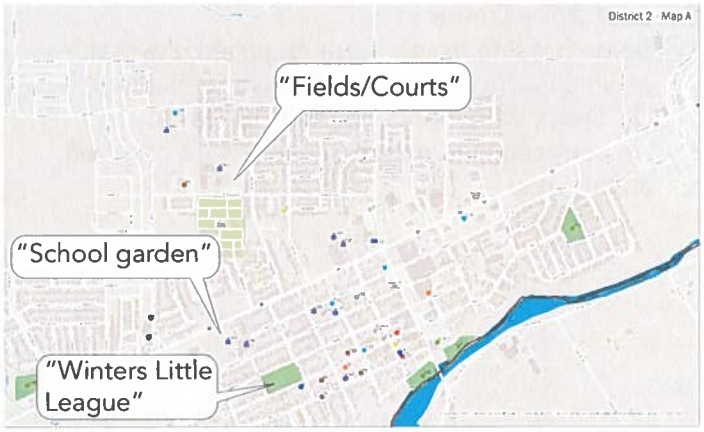
District 1.H - Clarksburg

- No corrections to existing assets were received on this map.
- Five different assets were identified as missing including the Clarksburg Post Office and the Clarksburg School House Community Cultural Center.



District 2

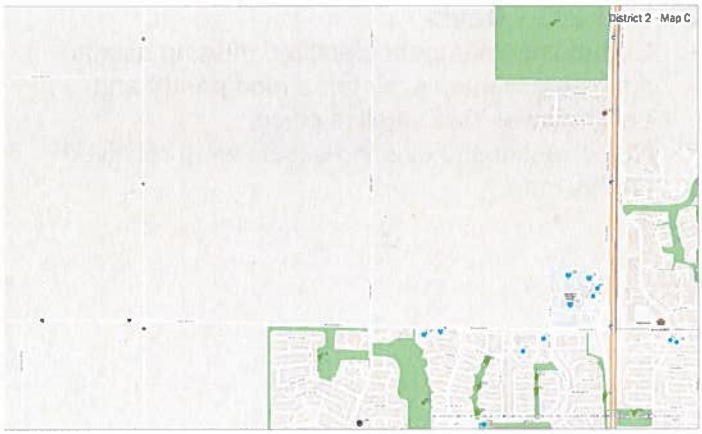
District 2



District 2 is located on the southwest side of the County and includes the Western side of the City of Davis and the City of Winters. District 2 was divided into 9 maps. Map A encompasses the City of Winters, B to H are from the City of Davis, and map I is a larger look of everything in between Winters and Davis. Eighty community members attended the District 2 meeting.

District 2.A - Winters

- Community members noted several missing assets, most of which were assets related to parks and recreation such as sport fields, pools, and community gardens.
- Community members made multiple corrections to the map which included updating two asset locations and removing some assets from the map because the community noted that they did not exist, were permanently closed, or had relocated.

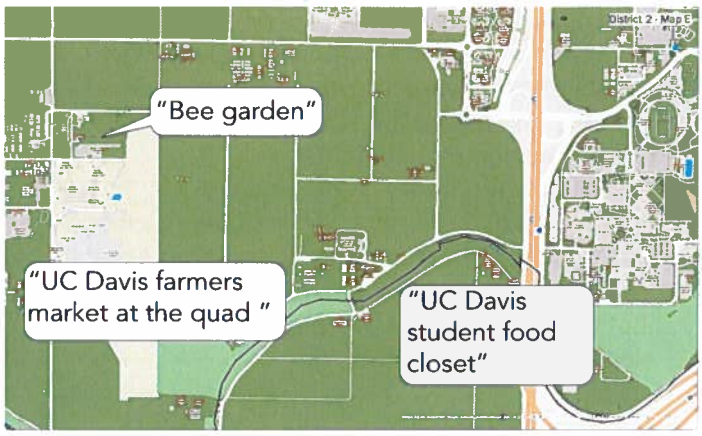


District 2.B - Davis

- No notes were received on the following map as no community members in this area were present or participated in the community session.

District 2.C - Davis

- No notes were received on the following map as no community members in this area were present or participated in the community session.



District 2.D - Davis

- Community members noted missing assets including Davis Kids Clubs in two different locations, Davis Media Access, Acme Theater, and Village Homes.
- The correction on existing assets received was about the incorrect labeling of the Davis City Council.

District 2.E - Davis

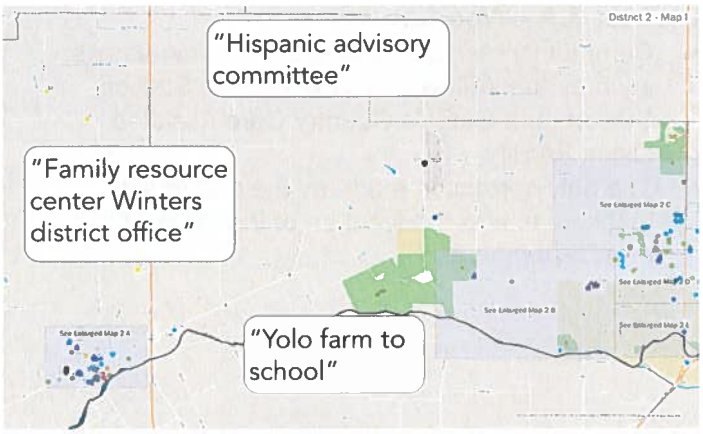
- Some missing assets were identified, several of which were related to UC Davis, including UC Davis Veterinary Lab, and UC Davis.
- No corrections to existing assets were received on this map.

District 2.F - Davis

- Identified missing assets include a skate park, a dog park, and a Veterans Memorial Center.
- Community members made several corrections to the map including the identification of a couple of parks that are mislabeled.

District 2.G - Davis

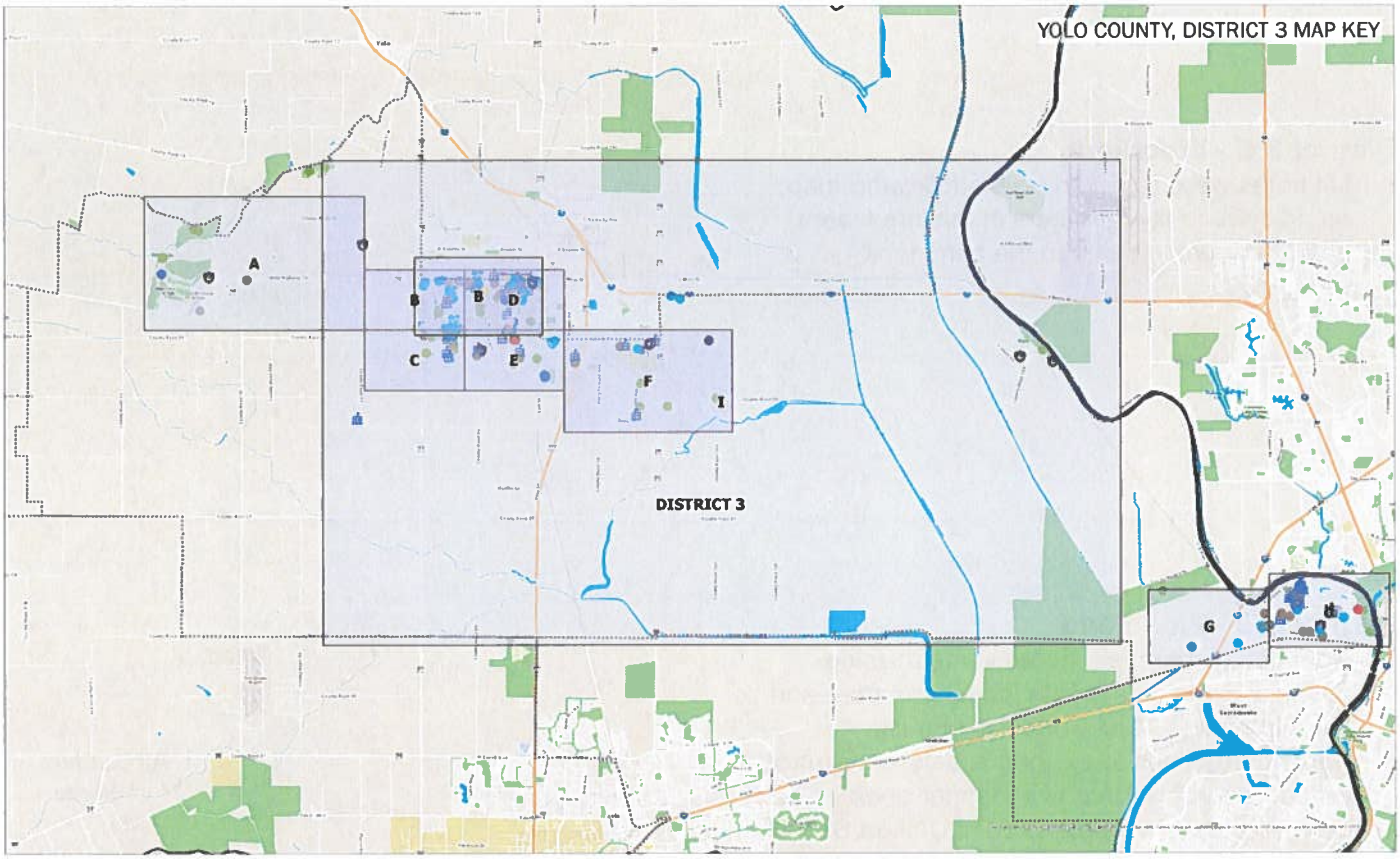
- Community members identified missing assets such as a women's center, a food pantry and an Empower Yolo satellite office.
- No corrections to existing assets were received on this map.



District 2.H - Davis

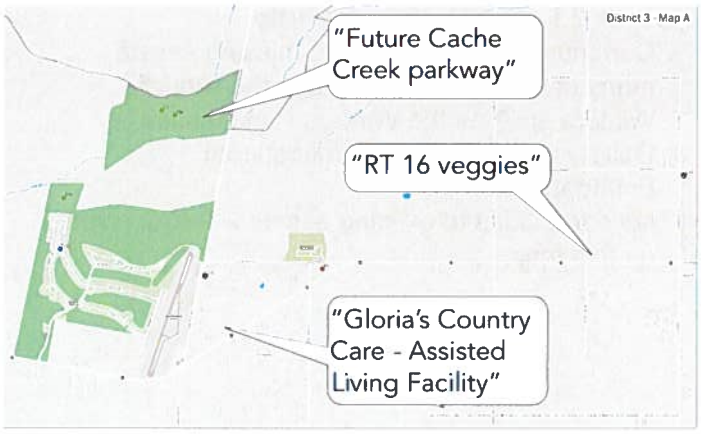
- No notes were received on the following map as no community members in this area were present or participated in the community session.

District 2.I - South Yolo County



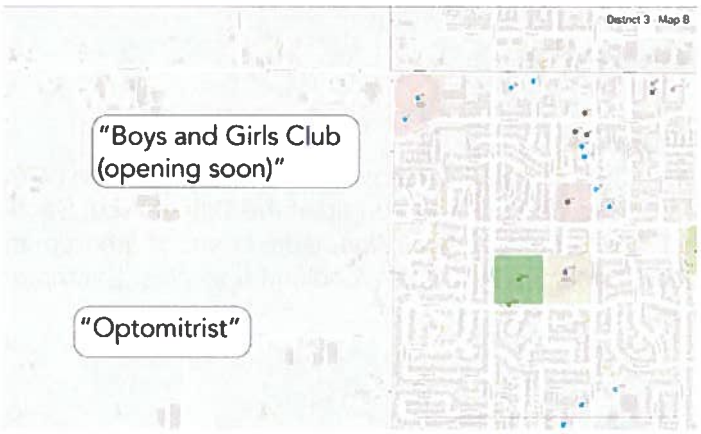
- Community members noted missing assets, many of which were located in the City of Winters such as the Winters Participation Gallery and the Winters Educational Foundation.
- No corrections to existing assets were received on this map.

District 3



District 3

District 3 is located in the central and eastern area of Yolo County and includes the southern part of the City of Woodland and the northern tip of the City of West Sacramento. District 3 was divided into nine maps. Map A to F are from the City of Woodland, G and H are from the City of West Sacramento, and map I is a larger look at everything in between Woodland and West Sacramento. Eighty community members attended the District 3 meeting.



District 3.A - Woodland

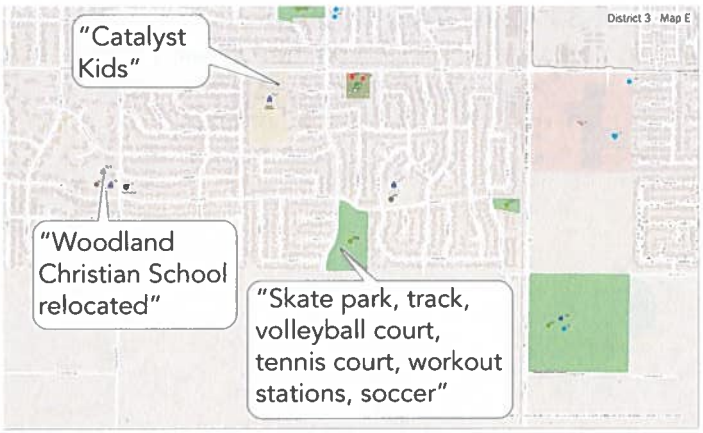
- Community members identified missing assets such as the Willow Oak Grocery, the Stallion Station, and Gloria's Country Care Assisted Living Facility.
- The only correction made by the community to this map was the location of the Willow Oak Fire Department.

District 3.B - Woodland

- Two comments about existing assets were received on this map – one about an optometrist and the other one about a Boys and Girls Club.

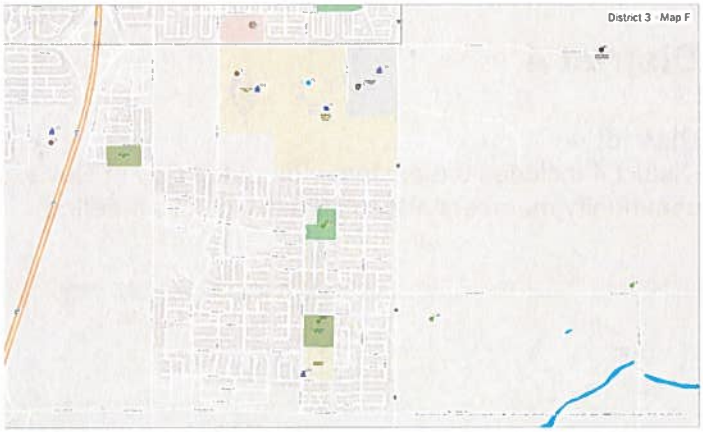
District 3.C - Woodland

- No notes were received on the following map as no community members in this area were present or participated in the community session.



District 3.D - Woodland

- Community members noted some missing assets including an edible learning garden and the All Leaders Must Serve Clubhouse.
- Some corrections to existing assets were made including a school that is no longer open and a comment about Woodland Joint Unified School District that states that it should be classified under the Education category instead of Civic & Political.



District 3.E - Woodland

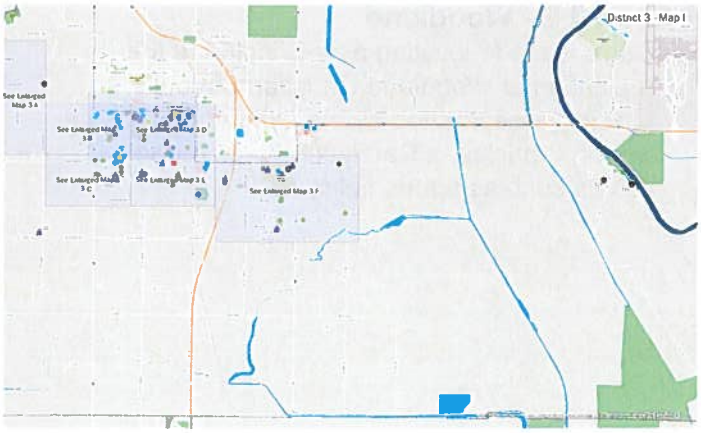
- Corrections to existing assets included the relocation of Woodland Christian School.
- Missing assets noted by the community include two pharmacies, a Catalyst Kids, and park assets such as sports fields.

District 3.F - Woodland

- No notes were received on the following map as no community members in this area were present or participated in the community session.

District 3.G - West Sacramento

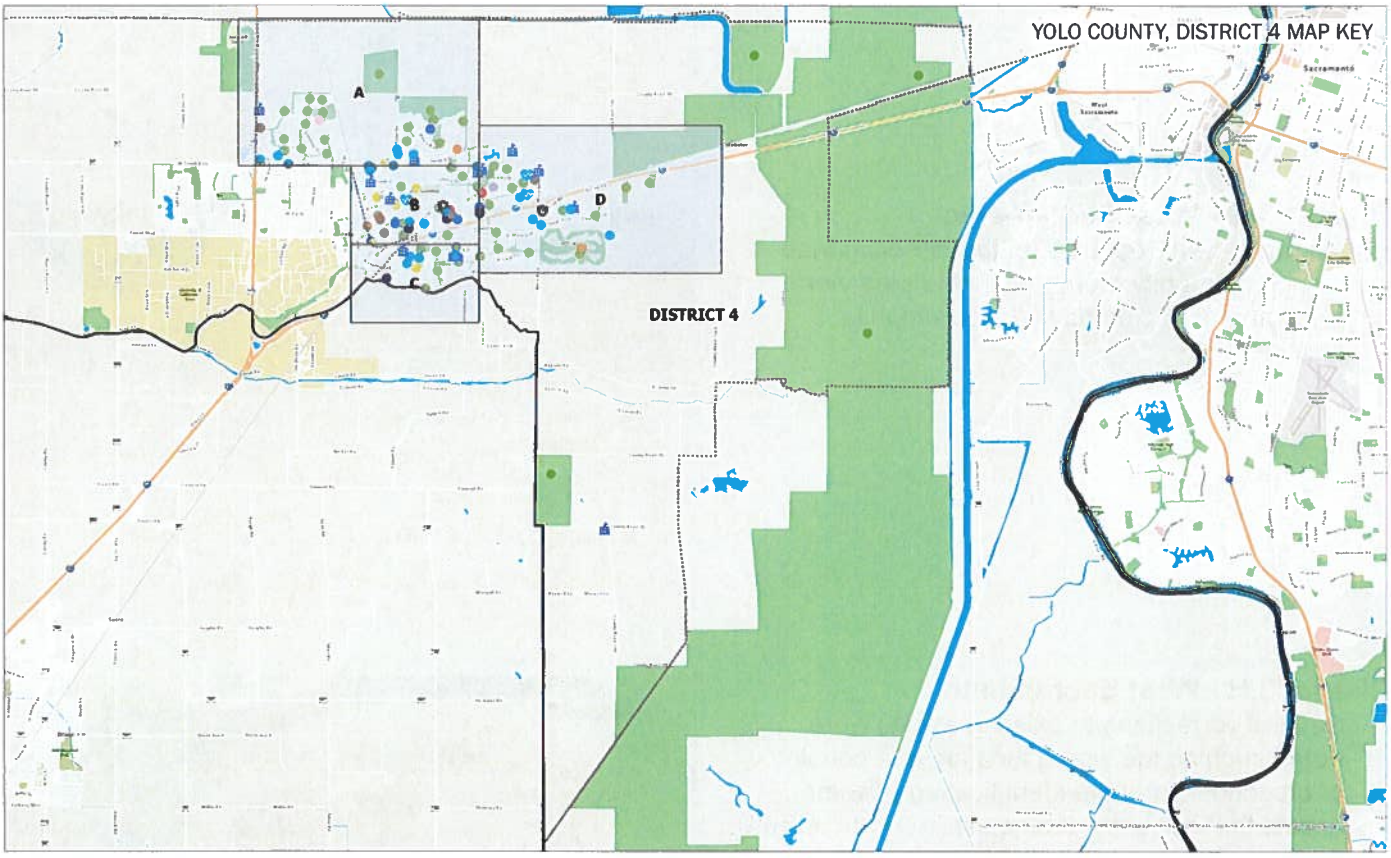
- No notes were received on the following map as no community members in this area were present or participated in the community session.



District 3.H - West Sacramento

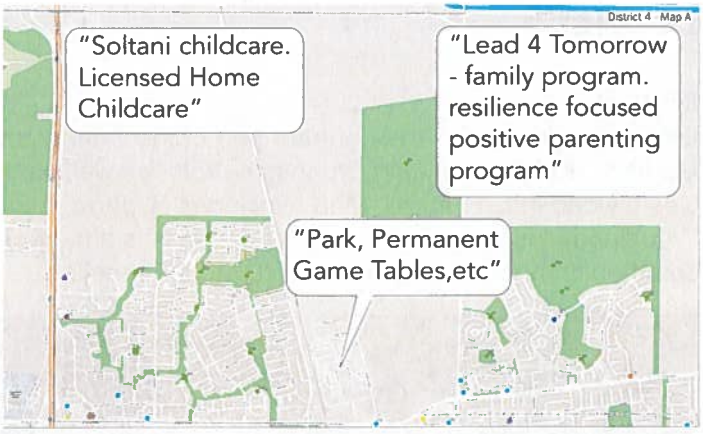
- Several corrections to existing assets were noted such as the wrong location of a couple of preschools and the identification of some assets that currently don't exist.
- Some assets that currently exist but were missing were noted, such as the Three Sisters Garden, Northern California Construction Training, and the West Sacramento Family Resource Center.

District 3.I - East Yolo County



- No notes were received on the following map as no community members in this area were present or participated in the community session.

District 4

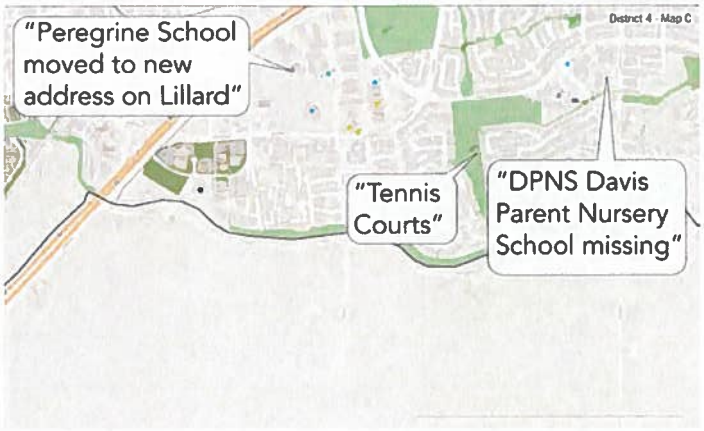


District 4

District 4 includes the eastern side of the City of Davis. The District was divided into four maps. Seventy-eight community members attending this district's meeting.

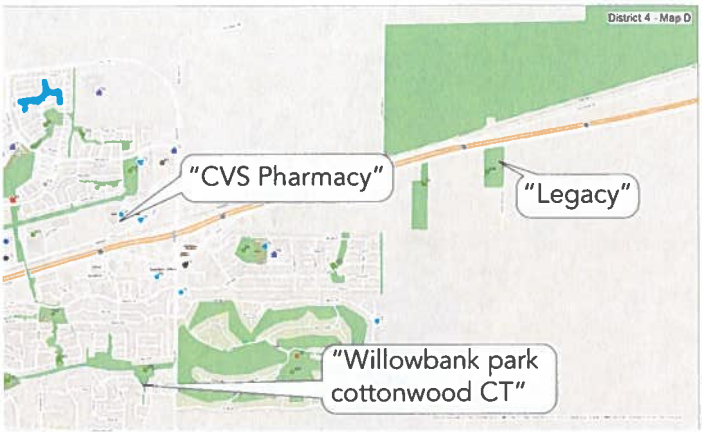
District 4.A - Davis

- Community members noted some missing assets from the map including a CVS Pharmacy and an education and information academic improvement center.
- No corrections to existing assets were received on this map.



District 4.B - Davis

- Missing assets indentified on this map include two homeless shelters, sports fields, and stores such as Goodwill.
- The correction to existing assets on this map was the noting of the incorrect location of a Chase Bank.

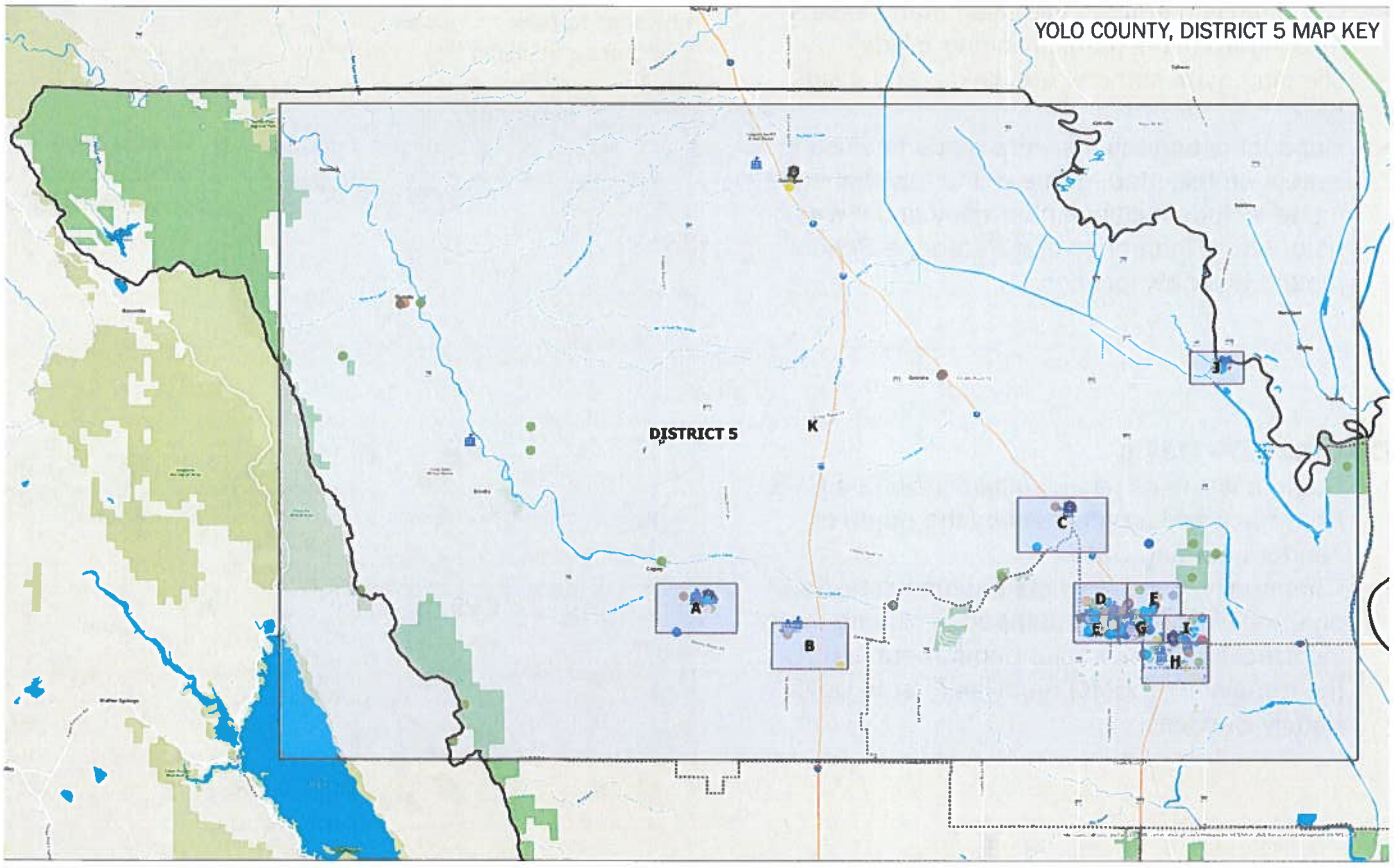


District 4.C - Davis

- Community members identified many assets missing from this map, including a kids' climbing gym, some sports fields, and a kids' park.
- Not a lot of corrections were made to existing assets on this map. Some of the few that were made include a closed pharmacy and it was noted more than once that Peregrine School moved to a new location.

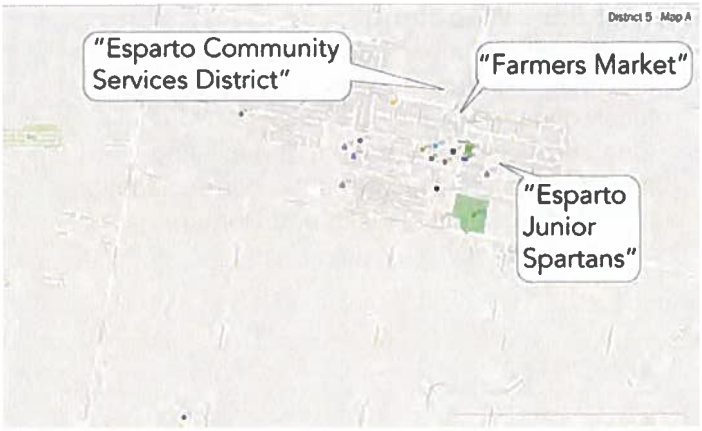
District 4.D - Davis

- Some missing assets identified include a CVS Pharmacy and a preschool by the name of Tender Learning Care.
- Community members noted some mistakes on the existing assets mapped, including the incorrect location of a fire department and the remaining of EMQ Families First to Uplift Family Services.

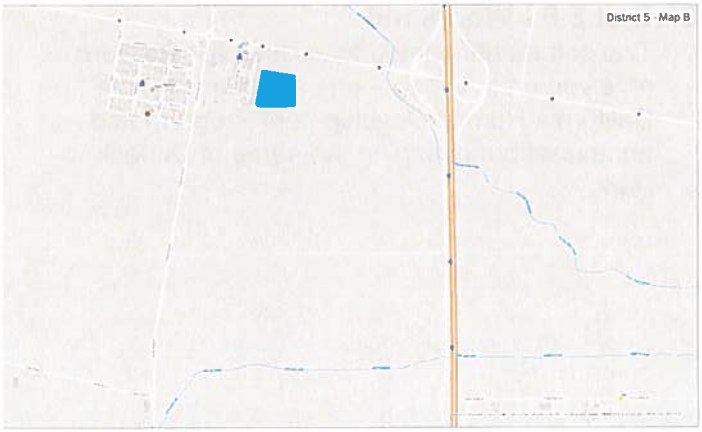


District 5

District 5

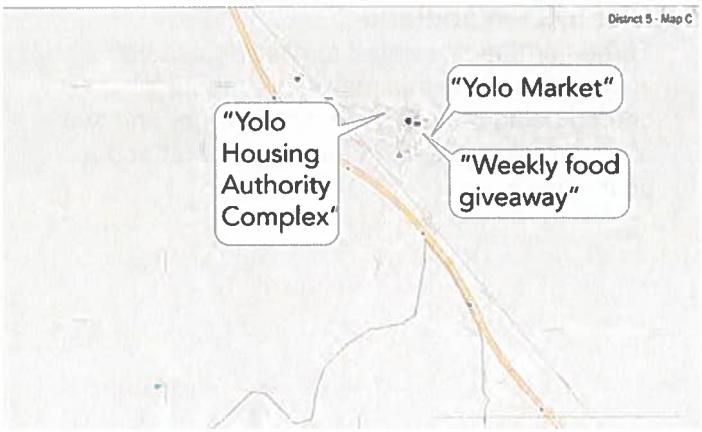


District 5 is located in the northern part of the County and includes the unincorporated communities of Esparto, Madison, Knights Landing, Dunnigan, Yolo, as well as the northern side of the City of Woodland. District 5 was divided into 11 maps. Map A includes Esparto, B includes Madison, C is Yolo, D to I are from the City of Woodland, J is Knights Landing, and map K is a larger look of everything in between these regions. Sixty-five community members attended the District 5 meeting.



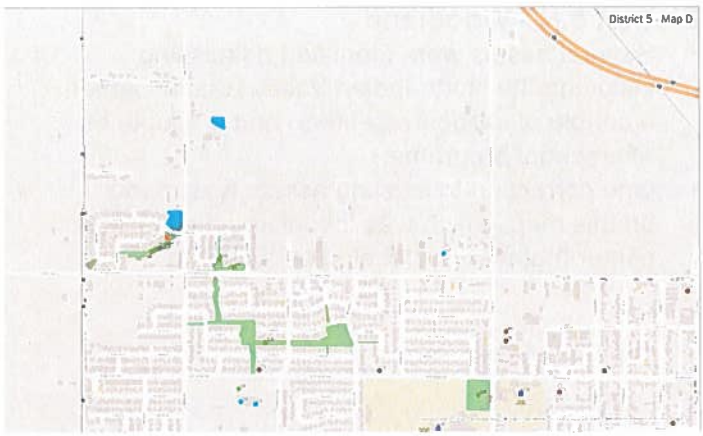
District 5.A - Esparto

- Several missing assets were identified such as the Esparto Junior Spartans, a farmers market, and the Esperanza Apartments.
- No corrections to existing assets were received on this map.



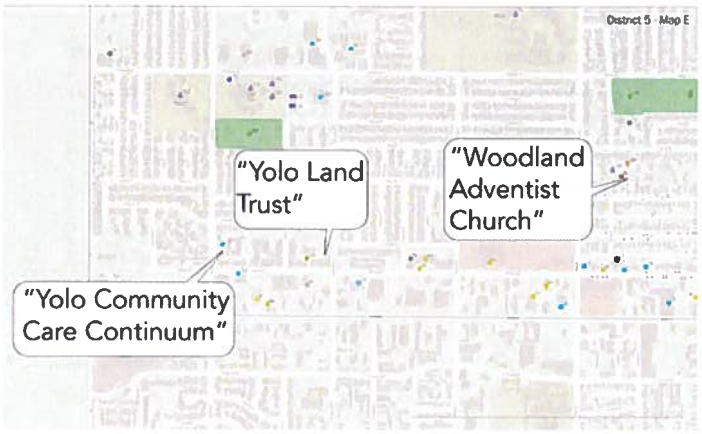
District 5.B - Madison

- No notes were received on the following map as no community members in this area were present or participated in the community session.



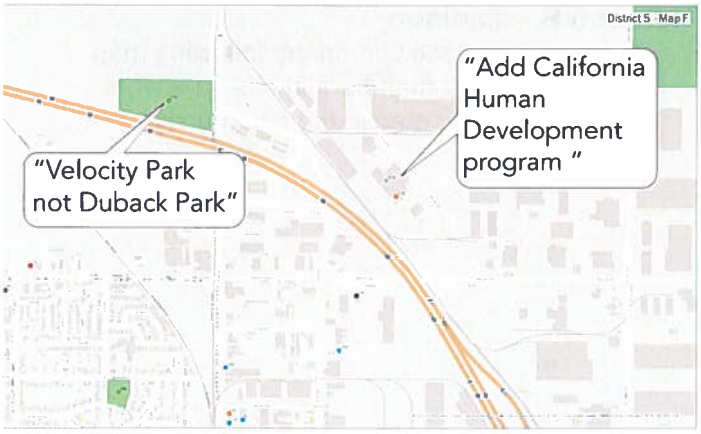
District 5.C - Yolo

- No corrections to existing assets were received on this map.
- Three missing assets were identified including a market, a food giveaway location, and a housing authority complex.



District 5.D - Woodland

- No notes were received on the following map as no community members in this area were present or participated in the community session.

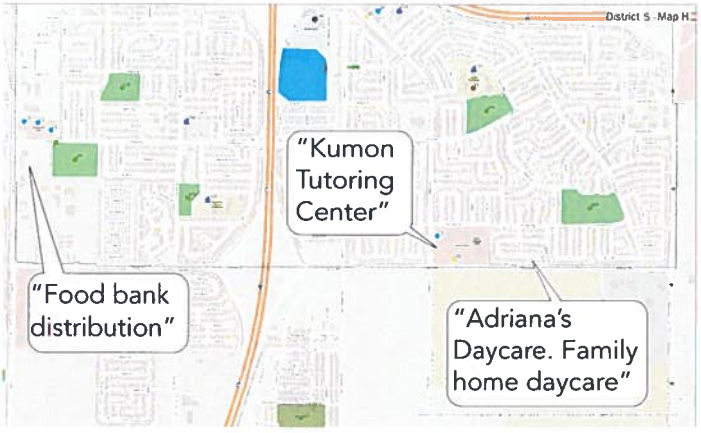


District 5.E - Woodland

- Community members identified missing assets including a church and several businesses located in the West Court Plaza.
- One correction was made to the existing assets mapped, which was the correct location for the Yolo County Health and Human Services Agency.

District 5.F - Woodland

- Two comments related to existing assets were received on this map – one about adding the California Human Development Program and another about changing the name of Duback Park.



District 5.G - Woodland

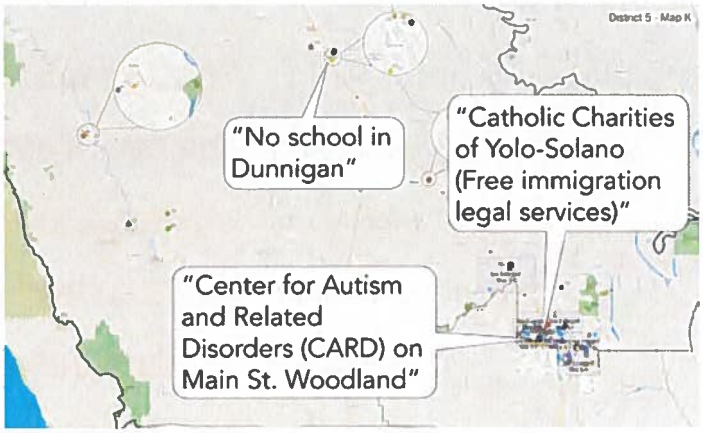
- Three comments related to existing assets were received on this map – one about a church being bought by another group, and two about missing assets, a farmers market and a post office.

District 5.H - Woodland

- Several assets were identified as missing including the North Indian Valley Health Center, a couple of childcare centers, and a couple of afterschool programs.
- One correction to existing assets was made on this map, which was identifying a childcare center that was mislabeled as a church.

District 5.I - Woodland

- No notes were received on the following map as no community members in this area were present or participated in the community session.



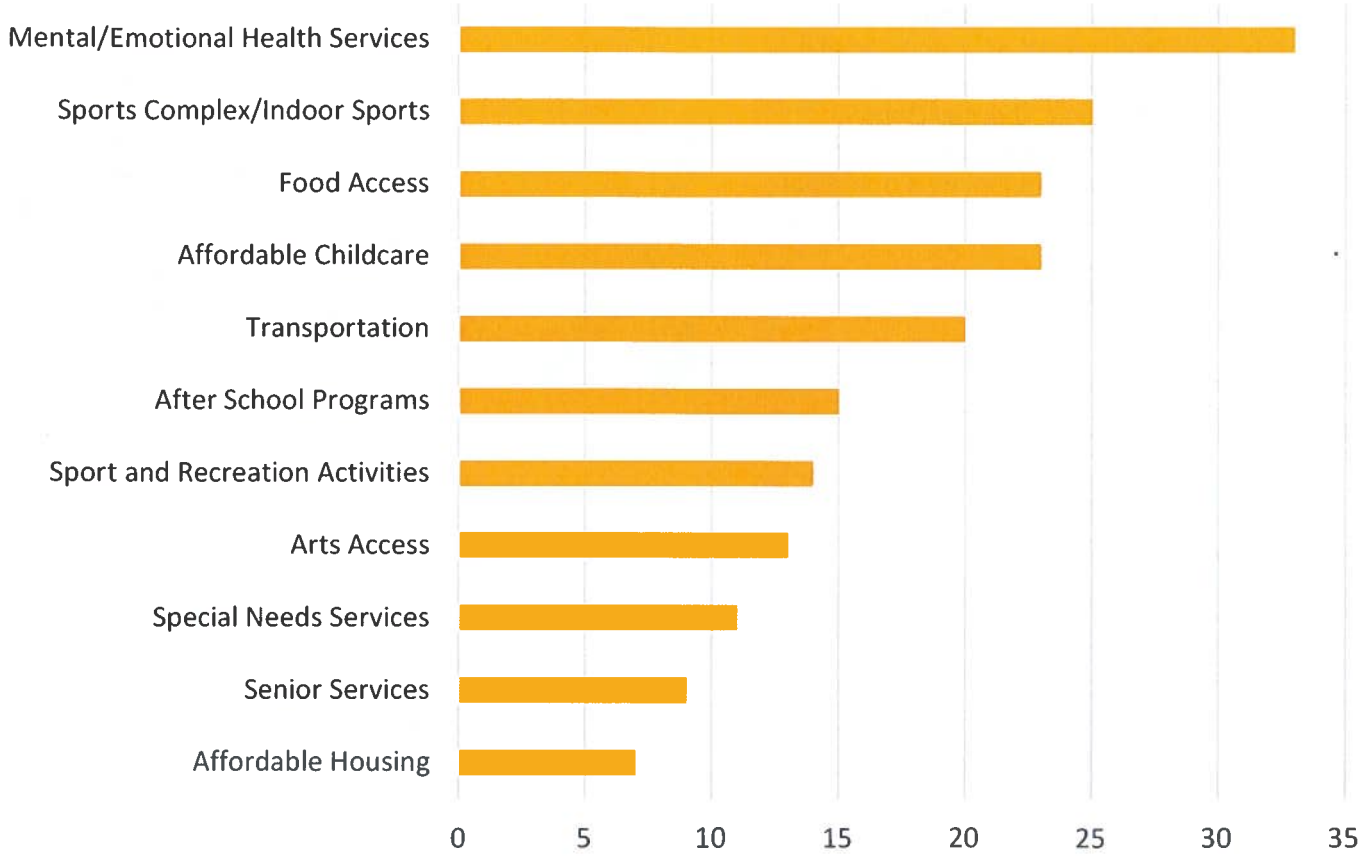
District 5.J - Knight's Landing

- Three corrections were made to existing assets – two of them noted that a preschool and a place of worship mapped, do not currently exist.
- Missing assets were identified.This included a fruit stand, a fire station, and a public park – set to open in 2024.

District 5.K - North Yolo County

- Several missing assets were identified throughout the map, most of them located in Woodland such as the Catholic Charities of Yolo, and the Children's Therapy Center.
- The only correction made on existing assets was a school in Dunnigan that was noted not to exist.

Identifying Needed Assets & Services in Yolo County



After reviewing and editing the maps, community members were asked to add community assets and services which they believe the community needs and which are not currently provided. Community members placed these ideas on yellow Post-It notes. If participants thought the community asset or service should go in a particular place, table hosts encouraged them to place it on the map.

The following pages highlight the most commonly requested community assets and services. Full results can be found in the appendix.

Countywide Results

The bar chart below combines all of the community assets and services mentioned across all meetings. We combined requested services with overlapping goals into overarching categories. Similar to the live poll results, the category of Mental and Emotional Health Services was the most mentioned. The Mental and Emotional Health Services category also included accessibility and affordability, language access for mental and emotional health services(Spanish), and access in schools. The next most mentioned category was Sports Complex/Indoor Sports. Community members requested pools, indoor options for summer, and outdoor facilities. Food Access was the third most mentioned category. Many meeting participants requested access to healthy food, grocery stores, and farmers markets. Many rural area participants requested more restaurants. The Transportation category included transportation to and from school and transportation to and from rural areas.

After Action Review

After each meeting was completed, participants were asked to fill out an After Action Review (AAR). This allows for community members to share any additional thoughts and helps our team improve our process. The most common responses to the questions are summarized below. Full results can be found in the appendix.

Please list three positive outcomes of the meeting.

Most meeting participants enjoyed meeting other like-minded members of their community while getting to know their cities, towns, and communities better. They also appreciated the opportunity to voice their concerns and provide input on needed improvements in services and community assets for children, youth, and families.

What are your concerns?

The main concern community members had was the lack of funding to achieve all of the goals to fulfill all needs. There was also concern that nothing would happen with their requests. Many participants wanted to hear about next steps to address the needs of the community.

Do you have suggestions for improvements?

Participants requested that the meeting topics and focus should be more specific to the city or town where it is being held. They also requested that the asset list be in alphabetical order to make things easier to find. Participants also suggested a larger advertising campaign to get a wider portion of the community to attend.

How would you explain in two sentences what we have accomplished at this meeting?

Participants said that an important accomplishment was to have their voices heard and to bring forward concerns about their communities. They also mentioned they were able to collaborate with other community members and worked to identify what exists and what is needed in their community. Attendees also mentioned they felt the meeting was great for community building and showed that the community cares.

Closing Summary & Next Steps

This information will be used to update the community asset and service provider maps to develop a long-term plan to effectively coordinate the services, supports, and opportunities children, youth, and families in Yolo County need to thrive, as well as the establishment of a shared framework that ensures their healthy development.

Appendix 3: After Action Review

At the end of each meeting, participants filled out a meeting evaluation. The following are responses from community members to meeting evaluation questions. Questions are in **bold** and responses are in *italic*.

Appendix 3: After Action Review

Meeting Location: Winters
Please list 3 positive outcomes of the meeting.

"1. Learning about the resources that are needed. 2. Learning more about the resources we have. 3. A chance to advocate for needed services/resources"

"1. Meeting new people. 2. Learning about the plan 3. Realizing that there is a lot of missing things"

"Community connectness, learning about resources"

"Gathering members of community together to brainstorm, soliciting community input"

"More accurate update of town map. New ideas to help the community. Helping different perspectives"

"Very clear, very positive, they listen to us"

"Know the services that the community need, observed the mapping the place as well, learn if is possible complete"

"Common goals/wants, community members coming together, being able to express what we need"

"Community coming together, common goals, thinking of the future"

"Connecting the community, seeing a lot of similarities that the community wants"

"Validation that there are needs, hope that things can improve, collaboration"

"Learned more about Winters, saw community collaboration, better understand gaps"

"Hearing the community here is looking for the same things"

"Discussion/learning, awareness, youth development"

"1. I fully understand what this mtg was about/for 2. I feel that many people have the same concerns as me 3. I feel heard and very excited about what we can do for our youth"

"Collaboration, creating lists of needs/wants"

"Met new people, shared concerns, listen to others"

"Community participation"

"Meeting community members - networking. Discussion - opportunity to hear other perspectives. Length of time"

"Chance to update map 2F. Collaborated by community members. Had support for key programs the city also wants"

"Collaboration, asset verification, finding needs"

"Getting input from many different people/ perspectives. We all kind of thought the same. We all worked really well in groups."

"Hearing from community members about needs"

"We all have the same in mind. Family, recreation, dinner, thank you!"

"Open discussion, awareness, engagement"

"1.Opportunity to collab w/community members. 2. A voice in the RTTF project 3. Thankful to be a part of our youth's future"

"1. Positive communication about concerns, desires, needs. 2.Very formal and time respect. 3. Information, engagement, inclusion"

"A place for people to feel heard, met new people"

"Community engagement. Communication"

"Community input was gathered, People felt heard, Comm leaders connected with comm members"

"1. Topics discussed were important. 2. Collaboration was great. 3. Learned about needs I didn't know about"

"Identified needed community resources. Opened the forum to the community and informed parents ahead of time"

Appendix 3: After Action Review

"Allow for brainstorming with others from a variety of backgrounds. Met others in the community. Allow for more supportive ideas."

"Teamwork. Meeting community members. Well facilitated exercise"

"1. Met new people like minded (different ages). 2. Validation we are all waiting a very specific need met. 3. Learned some new positive things about the community"

"Met new neighbors/community members. Heard many ideas repeated - What's this mean? Heard of programs in community I had not known before."

"1. Met many people 2. New Resources"

"I loved everything"

"This collaboration was great! Opportunity to express our needs"

"Good starter conversation. Easy program design:exercises."

"Food was great! Community leaders coming together."

"It was great to be given a chance to speak about our concerns."

"A chance to share our opinions"

"Community visioning. Dialogue"

"1.Great dialogue. 2.Thought provoking"

"1. Community collaboration & opinions 2. Large group. 3. Feels like opinions will be taken seriously"
*"1. I loved that everyone in attendance thinks alike. 2. Every issue that was talked about is important. 3. We all work as a group" ["1. Me encanto que todos los que estuvimos presente pensamos tan igual. 2. Todos los puntos que se tocaron fueron muy importantes. 3. Todos trabajamos en grupo."]**

*"Good information. Our opinions were taken into account." ["Buena informacion. Tomar en cuenta nuestras opiniones"]**

*"We gave our opinion" ["Dimos nuestra opinion"]**

"Having the right people to give us the information. Having these groups. How our district is being helped." ["Tener las personas adecuadas para darnos la informacion.
*Tener estos grupos. Como nos tratan de ayudar a nuestro distrito"]**

"1. We took note of the needs in our community 2. We found out about some resources in our community that we didn't know existed. 3. We came together as a community for the benefit of our children and youth." ["1.Nos dimos cuenta de las necesidades en nuestra
*comunidad. 2. Enterarnos de algunos recursos enn nuestra comunidad que no sabiamos que existian. 3. Nos unimos como comunidad para el beneficio de nuestros niños y jovenes"]**

What are your concerns?

"Funding"

"Funding"

"Lack of funds, not follow up"

"Areas in Yolo county are not all equal. Winters is more in need for example than West Sac or Davis. More attention and resources should be given to these districts"

"That Winters will be in the same category as larger communities (that already have a lot of resources) like Davis and Woodland. Allocating funds by county won't accurately address the gaps in each city"

"I hope they can hear us and work on that"

"With housing population increasing, schools are not. Leads to crowded classrooms, more distractions"

"That we need a lot services more"

"Winters has a lot going for us, but there is still so much that we need and don't have the money for"

"I don't want Winters to grow too large, but also want more opportunities"

*Comment originally in Spanish

Appendix 3: After Action Review

"What are the next steps? How can we accomplish this?"

"The best fit people won't be running the assets, equity concerns, yolo housing will be left out"

"Incorrect map info"

"How will you find the people to make this actually happen? We need multiple ways not just the internet to get the information out"

"How will YCOE be held accountable by community?"

"1. Lack of connection between programs and the people, people don't know what's available to them in the way that they should. No benefit with poor communication. 2. Youth boredom =youth trouble. Keep kids busy and active to ensure they become positive members of the community. Make the programs diverse and equitable"

"Access to services, who is at the table?, how is info being shread out?"

"Not much discussion on equal access/equity. Need to address all citizens of the county"

"Youth voices were not present, cultural diversity needed"

"I participated in a table discussion for an area that I was not familiar with. I was hoping to discuss my city"

"Money for sports park, for parks, etc"

"Asset map key should be in alphabetical order, weird mix of for-profit and not, some lands aren't available"

"That our wishes/goals won't be met"

"Hopefully you really take our comments into actions as necessities"

"That all ""groups"" are heard. Feel like we were missing some groups of people here tonight such as seniors."

"Today, that we didn't voice our concerns for Winters specifically because we were given a Davis map. Next time including a panel of residents by city to look over materials. A big connection can be made by those who actually live in said cities"

"Concern is that all the talk will yield very little action. With so much needed, the amounts of services will not all be accomodated & or prioritized based on elected officials"

"Map at our table did not feel useful, it included only 3 assets"

"Info gathering was messy. I'm concerned you may not be able to clearly interpret everyone's notes."

"Small group/many people in our community are not being represented"

"That there will be no follow up. Due to funding we will see no change"

"How do we encourage our youth to grow and pursue the things that they are interested in."

"Providing community opportunities for success"

"Ideas presented covered a very broad range. Some things attainable, others not (anytime soon)"

"A staff (funds) to support the cause... Liasion connect the resource."

"How to pay for it all? What community desires??"

"Youth programs in Winters"

"Affordable housing for our families"

"Allocations of funds/transparency. Execution.

timelines"

"Yolo county is so large. What will follow through look like?"

"We need more facilities for sports/activities"

Appendix 3: After Action Review

"We need more money, more transparency about what this meeting is about. Follow through"

"Most folks focused on what we'd like to see in the community - not sure that was the purpose of the evening."

"1. All words - no action"

"Do we have enough money to go around?"

*"That our wishes are not fulfilled" ["Que no se cumplan nuestros deseos"]**

*"Safety in schools. Safety in the streets as we have few police officers." ["La seguridad en las escuelas. La seguridad en las calles, ya que tenemos muy pocos miembros de policia."]**

*"Young people don't have activities and can't practice many sports. Drugs in schools. Teachers that get involved with students" ["Que los jovenes no tienen actividades y no pueden practicar muchos deportes. Las drogas en las escuelas. Que los maestros se involucren con sus alumnos."]**

*"Finding out about the great needs of my community" ["Enterarme de la gran necesidad de recursos en mi comunidad"]**

Do you have suggestions for improvements?

"Maintaning communication w/updates"

"We need dedicated people that can focus on grants"

"The initial organization of the event was not very good"

"The asset mapping was helpful but additional maps of Winters would have been nice"

"Have community members check printed maps prior to meeting"
"More schools, more bilingual classes, more merging or population between race and ethnicities"

"Improve the mapping"

"Have more maps of the area you are hosting. I think most people wanted to be part of what Winters needs and not so much what Davis needs"

"More programs for youth, free/ affordable meeting spaces, equity for boys & girls"

"More community gatherings like this, getting the youth involved"

"Table hosts eat before guests arrive, add geographical Q to survey, better map distribution"

"More organized key, needs to be separated by town and groupings of services. Just have maps of the town you are in."

"Making the things we want a desireable thing that people want to help with & be a part of"

"Make these meetings accesible beyond online"

"Please make the ""Roadmap"" reachout/marketing more understandable to all people. I spent the last few weeks calling this event ""The youth thing"" with a hope I would get a better understanding once I participated. Not all people have the time for that."

"More opportunities for discussion & community building, follow through on items-timeline"

"A clear understanding of the purpose of the meeting"

"Focus on needs vs wants & goals both long and short term"

"Organize list of asset key by city and then by type"

"Rural folks were not happy wirh the phone ""mentee"" live polling, it was a turn-off, seemed like a waste of all of our time. Garth's explanation at the end was more effective that the front loading of the why/how of the event"

"Remove live polling, Alphabetized asset map"

"To take in everyone's opinion in and take in our ideas for our community"

*Comment originally in Spanish

Appendix 3: After Action Review

"Yes reach out more to hispanic community"

"Organize list by city/alphabetical. Simplify directions. Have maps that pertain to where participants live."

"1. Isolate series by actual city participants live in 2. Asset maps alphabetized by asset. 3.Include category to list assets city of origin"

"Have maps for specific area, alphabetize asset map ket or categorize by city of your focus"

"Alphabetize asset list, Less time for eating+ chatting -maybe 10 minutes. Start program while people are eating. More time for tables to report out, we all want to be heard. Local leaders (especially School Board members) should not all sit together. Involve the Yolo Youth Commission in this process."

"The asset map key should be sorted by category or alphabetical by asset"

"1.Assets be listed in some type of order. 2. Mix leadership w/the general public tables."

"Create a plan and follow through"

"Actual written instructions on what to do"

"Alphabetize asset map key"

"Place focus on phased approach to bring ideas to fruition"

"Polls should be digital and accesible to the entire community, not just attendees"

"More clarity on the ""how to"" start the exercises. It was a bit unclear here (to me)"

"Youth Center"

"Nice job!"

"Get more local involvement. Higher level of business:leadership involvement."

"More Winters maps"

"More Winters maps. After identifying needs, allow communities to apply (grant style) for funding their projects"

"More maps for the community you are currently in"

"Clarify (multiple times) what we're trying to accomplish through this initiative"

"1. More tables with local maps (Winters) 2. More transparency, re: amount & allocation of funds"

"Transparency of funds. Your ideas of what can be done."

*"Please take into consideration the opinion of our community. Next time only talk about the community or city where the presentation is taking place, it would make things easier" ["Que por favor tomen en cuenta la opinion de nuestra comunidad. Que la proxima vez nada mas se hable de la comunidad o ciudad donde se esta haciendo la presentacion. Lo haria mas facil."]**

*"More safety in schools and parks. Talks for young people in schools." ["Mas seguridad en las escuelas y parques. Platicas para los jovenes de las escuelas."]**

*"Make these needs known to the city, to the school district and to other authorities" ["Dar a conocer estas necesidades a la ciudad, al distrito escolar y a otras autoridades."]**

How would you explain in 2 sentences what we have accomplished at this meeting?

"A chance to discuss resources. A chance to hear the community and hear the resources that are needed"

"Unity"

"Expressed community needs & desires for Winters"

"Solicited community input into needs for our youth. Considered existing assets and missing ones for a more comprehensive account"

"You were able to hear what some of the community needs/wants"

*Comment originally in Spanish

Appendix 3: After Action Review

"This meeting provided Winters residents with the opportunity to brainstorm and discuss what they hope to see in their community in the future"

"We accomplished a common ground of what is lacking, what is needed, and where improvements can be made"

"You were able to hear what some of the community needs/wants"

"Different members of the community came together to come up with common goals for our future. We are bridging between what we already have and what we would like to see"

"Getting yolo county, specifically Winters city to collaborate on what we want to see in Winters"

"Brought together D2 to focus community knowledge"

"It was hard to do more because we were from Winters and given a Davis map. Davis has its own meeting"

*"Information. motivation. Expressing our needs. Attendance" ["Informacion. motivacion. Expresar nuestras necesidades. Asistencia."]**

*"Information. Motivation. Interest" ["Informacion. motivacion. interes."]**

*"There was a lot of people participating and they heard our needs" ["Hubo mucha gente participando y escucharon nuestras necesidades"]**

*"Expression. Unity" ["Expresion. Union."]**

"Asset mapping exercise was engaging. Dreaming for needs. Good participation."

"Great conversations. Enthusiastic engagement. Excellent set up and hospitality"

"Desire to make our communities better for our youth/children. Lots of current strengths. Lots done well already. Willing partners / individuals."

"Ability to hear from the community of their needs. The material was easy to understand & follow / meeting was well prepared. Great attendance! Much support from community members who are engaged."

"Brainstorming of improvements need sharing amongst community members lots of useful information."

"Great buy in from everyone. Very positive. Great program very well put together."

"Knowing what we need for the community."

"Collaboration with other community members/ leaders. Big turn out! More knowledge of needs in Yolo County"

"Very interactive workshop. Great conversations/well-structured. Time was perfect. Bonus > Pizza was great"

"Happy to see change. Esparto had more to offer. Change is what we need."

"A lot of group engagement. Food, drinks. Listened to our community needs."

"Meeting as a community to understand our needs.

*Comment originally in Spanish

Appendix 3: After Action Review

Positive engagement. Getting to know others from our community."

"Hearing all the concerns from community members. Learning and understanding what the community has and what we need. Knowing others have the same concerns as me."

"Hearing a lot of people talk about the same problem. Knowing people want and deserve more. Feeling better about everyones feedback."

"More people participating our voices being heard."

"Most people from the areas have the same needs. Together we did a lot. We talked about the young to the old and saw their needs."

"Great turnout with a huge variety of people represented"

"Collaboration with other points of view. I am so grateful that so many attended."

"Opportunity to discuss assets & needs. Community involvement"

"Community input valued. Diverse group - similar issues (interesting)"

"We had some great, collaborative conversations, especially with community members"

"Strength. Growth area. Organization of mapping"

"Open conversations. Free of judegement of criticism. Different ideas and perspectives."

"Great ideas from community. Presentation information."

"Learning about real local issue. Learning about accessibility issue. Learning about current assets needing improvement."

"Realize what we actually have. Hear from other community members. Meet other community members."

"Made me look at what supports are available & what is needed. Met some local leaders to put names to faces. Collaboration with all levels of community."

"Was able to meet and work with members of the community. Identify positives Esparto has & also address needs from the whole community."

"Good starter converstations. Easy program design: exercises"

What are your concerns?

"Not getting lights & sidewalks. We need more programs for youth & elderly."

"There are needs in the community where I live."

"The small rural areas have such large needs. Where do we start?"

"Health/Dental/Mental health/Phar services. Financial education. Academic Enrichment (GATE) math team, etc."

"Lack of resources that turn into empty promises"

*"That things are not fulfilled - in a short term" ["que no se cumplan - en termino proximo"]**

*"That no need from Esparto is fulfilled" ["Que no se lleve acabo ninguna de las necesidades que hay en Esparto"]**

*"That the objectives talked about in the meeting are not fulfilled" ["Que no cumplan los objetivos hablados en la reunion"]**

*"That we are not heard" ["Que no seamos escuchados"]**

*"That facts are not realized or looked at" ["Que no se realicen y no se miren hechos."]**

*"That proposals are not made" ["Que no se realizen las propuestas"]**

*"That more elected people from the county come to hear all the needs. And that all the needs are not fulfilled" ["Que vengan mas gente electivos del condado para escuchar todas las nececidades. Y que no cumplan con todas las necesidades"]**

"Transportation. Internet. Activities for youth of the

*Comment originally in Spanish

*entire community" ["Transporte. Internet. Actividades para jovenes toda la comunidad."]**

"none"

"How will we address the significant needs that we heard?"

"Funding for the concerns above incentives for staff/ providers to stay serving our communities"

"How the needs are going to be implemented and the time frame that it will take."

"Are we really going ot get things going"

"Things not getting done and taking forever to get done"

"How to bridge the gap & provide access to the smaller towns"

"How soon change can happen"

"How can we be able to get all of the support we need?"

"Not being able to receive all the needs our community needs."

"Worried my worries will be ignored or won't be taken serious"

"Not having enough of the places things we need the most."

"We need more county elected official. We feel that supervisor from the ocunty do not follow through. That this may take 30 year like the pool that was going to happen in 1993. Fields not repair and someone to get hurt. That my concerns may not be your seen needs, but I live here"

"There are many things missing in the list. Many healthcare, dental, chiropractic in Woodland that are not represented. This will be time intensive to upkeep over time."

"Mental health inequities. LGBTQIA+ inequities. Migrant education inequities."

"That ways are found to spend these one time funds in a way that will have a long-term impact in our communities for our youth"

"There are some great needs that were expressed from several of the tables. While the asset map will help us identify what assets we have, I'm concerned with the number of resources still needed in the rural community."

"Communication transparency of next steps."

"Manageable transportation for youth from Esparto, Cap Valley, to other locations"

"Job training. Transportation. Medical."

"Lack of follow-up on identified accessibility needs"

"That the Esparto community will not continue to thrive as people leave due to lack of services"

"Will take too long for the actual implementation to happen. Making sure that there is follow-up regarding the plan"

"I hope the vision is not lost and does not take a long time to make these improvements"

"Allocation of funds / transperancy. Execution. Timelines"

Do you have suggestions for improvements?

"If we all work as a community everything is possible."

"n/a Well done! Thank you for allowing us to work together and share our concerns."

"Well done - I would like to see the published outcomes"

"We need larger venue, work with the schools. The lights are also really important."

"On the maps themselves - put a list of dots that are on the map"

*"More meetings" ["Mas reuniones"]**

"That community is being informed on the progress of things that can be achieved" ["Que se tenga

*Comment originally in Spanish

Appendix 3: After Action Review

*informado a la comunidad del progreso de las cosas que se puedan llevar acabo"]**

*"That we get together more as a community and more meetings" ["Que nos unamos mas como comunidad y mas reuniones"]**

*"No" ["No"]**

*"That more information is given through different ways" ["Que se de mucha informacion por diferentes medios"]**

*"That no more information is given" ["Que no den mas informacion"]**

*"That more work is put and meetings are heard" ["Que pongan mas empeno y escuchen a las juntas"]**

*"Continuity to petitions" ["Continuidad a las peticiones"]**

"No time for individual intros w/ small group"

"Map instructions were a little confusing"

"Unity, collaboration. Coming together to clarify needs to better support our communities."

"It would have been nice if the assessment & assignment at each table was more Esparto - specific"

"Street lights. Sidewalks. Street repairs."

"Coffee"

"Keep fighting for what we need for the community Separate the assets on the list by specific town :)"

"Any change at this moment is better than more"

"n/a"

"n/a"

"Making plans to achieve all the things we talked about."

"Follow through action meetings. More county meetings"

"Talk to people here. Talk to kids. Talk to the business that are here."

"Have additional info to ____ within the tool by area or by category."

"This is a great first step."

"Allow at least one person to speak to each community"

"Basic presentation suggestions: make sure groups are all attentive during instruction periods. If not don't do them. The presenters weren't hearable often."

"There could be more time spent on our more explanation of the Roadmap to the Future so the community understands how we are gathering assets first and needs second."

"nah"

"More community meetings and advertisement for all members in Esparto, Capay Valley, Madison"

"Have more community gatherings"

"Yes, do a jurisdiction specific focus meeting (Esparto only)"

"Following up of meetings like these"

"Basic needs like healthcare, banking, and gas station, and even transportation"

"Get more local involvement. Higher level of business: leadership involvement"

How would you explain in 2 sentences what we have accomplished at this meeting?

"We may have our community improved in a lot of levels in the community. Thank you for taking time to visit our small town of Esparto."

"We have had an opportunity to think of the assets and needs in my community and the neighboring community."

"Coming together as a community to voice our shared concerns. valuing the input of the people who know their communities best."

*Comment originally in Spanish

Appendix 3: After Action Review

"We have worked together to examine the needes of our community. We are taking the first step towards making a substantial change."

"Improved sports facilities at the schools (football field). Established needs and the importance of it"

*"Understand and get to know the needs in my community." ["Entender y conocer necesidades en mi comunidad"]**

*"See people together. Feel heard with the community needs" ["Ver reunido a las personas. Sentirnos escuchados con las necesidades de la comunidad."]**

"Community building was created. Also trust and open conversations."

"Great ideas from brainstorming. Perspective from

*Comment originally in Spanish

Appendix 3: After Action Review

actual community members"

"Identified increase of inventory needs. Large participation for such a small town."

"Some insight into what our community members feel this community needs in order to thrive and continue to grow"

"Figured out what services are available and whats needed. Met and talked to community leaders at all levels."

"Identified needs from a wide group of community members"

Meeting Location: West Sacramento
Please list 3 positive outcomes of the meeting.

"On schedule. Robust questions + answer based discussion. Great job at public outreach"

"I learned of services that are in my community I wasn't aware of. I like that people came together & engaged on ideas together"

"Met new peeps w/vision. I.D'd key defiencies. I'm full, thanks for the food."

"1. Opportunity to meet with leaders to discuss goals/desires of services. 2. Meeting others who share the same thoughts, ideas to enhance our neighborhood - we share same visions. 3. Love the mapping to see where our ""hubs"" are and areas where we need more desires."

"Collaboration. Community input. Conversation"

"Ability to ""see"" areas of need and areas being served. Ability to meet with like-minded people interested in improving the lives of youth and families in WSac. Progress in achieving a better community for all."

"Learning and discovering the West Sacramento community. Hearing from educators. The roll out of trying to plan for funding with community perspective."

"Organized. Engaging. Well-staffed. Thank you for your time and efforts!"

"Great lift of community, voice. Great diversity in audience (though missing APIDA/Black community voices). Well organized."

"List of services throughout the city. Visual map to show where resources are or aren't. Ability to collaborate."
"1. Bringing community of people together. 2. Brainstorm. 3. Willingnessto listen"

"Great dialogue"

"Learning what resources are here"

"Meet community members"

"Voice of the community. Unity. Equality."

"Having diverse members of the community all together in one place. Great overview of what we have out there and what we are in need of. Great input from everyone."

"Exchanged ideas with individuals from our neighborhood."

"Engaging w/ other interested advocates. Hearing more about Roadmap."

"I understand better what is happening in my community. All the necessities we need."

"Brainstorming ideas for development of the community. Looked at where there are gaps of services and needs in the community. Learned about resources + gaps around West Sac"

"Great group work/thinking together. Table leaders. By neighborhood helps focus on that part of the city"

"Learn about assets that exist and also all of the services that are non-existent or hard to access"

"Accuracy of maps for better outcomes. Community collaboration. Community cohesiveness"

"Got to meet new people in our neighborhood"

"We added community resources to the map"

"Bringing community together to share concerns.

Appendix 3: After Action Review

Everything was very organized. Enjoyed hearing about all areas in WSac"

"Community building. Having the hard conversations."

"Psycological issues should be triaged."

"Opportunity to express the needs/wants of the community. Meet other community members. First step for the bigger picture."

"Community input & collaboration. Hearing the overlap in ideas, but also hearing new, exciting one. Understanding deficits."

"1. Being able to place our input on a post it note and have it be recorded and heard. 2. Sitting with an amazing table person. 3. Being able to represent family child care."

"Realized many services underepresented. Great ideas for special education, specialized services. Productive"

What are your concerns?

"Some resources are misinterpreted or not documented (YMCA family resource center specifically) We are a trusted resource serving thousands of Yolo county residents! Happy to help support this effort!"

"My concern is that there isn't more childcare programs available, it will affect my work status"

"Oversight. Timelines. Which plans move to the top?"

"Funds to set up needed services for West Sac homeless shelters for severe mentally ill living on our streets. Lack of knowledge in what resources we have (as a 30 yr resident) - Need pamphlets/ mailings or social media accounts letting us know what's available, how to get there, what, when, where."

"Ability to provide needs of communities (housing/affordable, etc)"

"That these efforts could get lost in bureaucracy."

"A lack of diversity for attendees. Was there consideration on how to bring in hard to reach groups?"

"Limited knowledge of assigned map(s) may devalue the outcome of the process, ultimately impacting critical needs"

"How to leverage supports for sustainability. Language access."

"N/A"

"More under represented groups attendance"

"Not enough public services in West Cap corridor"
"Lack of role models and positive reinforcement for youngs esp. middle school kids. Need activities that involve parents and kids. After school program. Vouchers for transportation to colleges/events, etc."

"No follow up or follow through on meeting activities"

"Have more childcare centers/homes (space availability)"

"Budgets. Involvement"

"Small number of people at our table - I feel we missed a bunch b/c of lack of human capital"

"So much needs, limited space & money"

"There are not enough leaders engaging in real conversations with community members.

"How is all of this being advertised to engage community voice in each of the areas?"

"All parts of the community needs something and I am concerned what area have the impact. I feel like you need to work even in the necessities of different areas"

"Areas I would love to see more of for my community: mental health services, more resources for middle schoolers + teens, more gathering spaces like a skate park, ampitheater, farmers market space, sports facilities, trails, and public transport"

"A little more clarity on who gets to decide what

Appendix 3: After Action Review

to do with those extra funds"

"I would like to see more community representation at this meeting. I would like to see more youth at this meeting."

"I have trouble getting medical care for my children in a timely manner, it has caused my children to miss school."

"Lack of after school programs for the youth"

"Why do we go out of state to hire consultants?"

"Equity trough West Sac. Programs for teens in areas they live"

"How the decisions are going to be made on ""what is most important"" and for it not to become a political agenda"

"City resources being distributed equally and assure all areas of the city receive the appropriate funds, schools, parks, rec centers."

"Uplift martial arts! The results should be triaged."

"That our specific community is so far behind other affluent city neighbors - all within the same county. The disparity perpetuates and becomes harder to fix"

"That quality family child care will dissapear due to universal TK/preschool. We work so hard to provide quality. Please don't forget us"

"That the actions will not be carried out"

Do you have suggestions for improvements?

"Great workshop!"

"Researching after school programs, if they could open up more programs to assist families in need of this service in order to continue working or going to school."

"Continue checking back in with the community!"

"We need more services for housing, resources, food, shelter in areas that homeless population can access. We really need short term programs for teen sports and tutoring services."

"Ongoing surveying of community and their identified needs."

"Not at this time"

"Beyond emails and QR codes, was this shared in safe spaces (i.e faith based communities, social service providers, rec centers)"

"Not at this time"

"N/A"

"Adding quality childcare into the district 1 B/D areas"

"More library programs in the summer. Keeps kids busy. We need childrens business fair = something that teaches kids sustainable skills that will help them in the future."

"Allow every table to share."

"Invest on childcare"

"N/A"

"Maybe identify participants and offer tables/seats participants - not all participants were able to sit at their designed areas."

"Start at 6 pm not 5:30 pm. 5:30 work/tough to get here on time"

"Better food, a healthier meal, cultural food, catered by a local business."

"We need more doctors in the area, more medical groups and these providers need to accept all insurances for children and medical"

"We need a larger rec center, sport activities, pool. Large pot holes all over West Sacramento"

"May meeting - provide a hearty meal. After a long day after work would have been appreciated."

"Continue similar meetings. Get community involvement"

"Kids should be asked to be involved in decisions.

Appendix 3: After Action Review

Block parents to help, communities get to know resources"

"Community engagement coupled with community education - people will not suggest in so many words what they have never experienced. Understanding class, socio-economic, racial nuances of this engagement."

"For everyone in our community and outside to assess information about quality family child care in the future. We don't want the district to consume the choices of parents. We need to be seen too, especially providers that worked hard on quality"

"Involve children themselves in a focus group to discuss their needs."

How would you explain in 2 sentences what we have accomplished at this meeting?

"Tonight we learned about new assets + existing assets. We learned that many community members did not know about many assets in our community... time for more outreach on our ends!"

"Hearing the community on what their concerns + needs are. Gave the community hope that these services will be available for our kids to succeed in the future."

"Presented mission, vision + purpose. Embraced genuine constructive feedback and ideas (fingers crossed)"

"Planning, being heard"

"A lot of people (community & "professionals") identify same areas of need."

"Engaging community members to share what is most important to improving our community. Showing a commitment to involve the community of WSac to be a part of making our community better."

"Closed the gaps on resources needed to support our youth"

"We identified gaps where support is not currently being provided. The input from all sectors of the community is valued."

"Collaboration. Caring for community."

"Creation of new homeschool resources."

"Unifying the community to identify issues"

"Gather members of the community to dissect what services we have, and what we need. Biggest piece for me is the conversation is happening!"

"1. Direct input from residents/families living in West Sac. 2. Collaboration of parents, school district, civic leaders, service providers."

"Gathering input on what services, supports, are currently available and what could potentially be added to support children, youth, families in the area."

"Good information. Be involved with the community. We looked at services in our community and identified areas of need."

"We were able to identify things of need in our part of the city and learn from others what we have and need"

"Opportunity for community voices to be heard regarding needed resources in the community"

"Accurate information to begin further discussions"

.

"Locate buildings and correct locations."

"There is a more accurate map and ideas of what is missing from community services."

"Brought together both sides of W. Sac to share ideas and concerns."

"1. Making sure that resources are being accounted for. 2. Expressing the needs that each area/district needs in order to make it a self efficiant community."

"Expressed our concerns and met individual with same concerns."

"Met awesome, involved women with great solutions."

"A gathering of concerned and engaged people to brainstorm our ideal community. A necessary

Appendix 3: After Action Review

first step."

"1. That quality family care is placed on the map. 2. We like that our comments are recorded."

"Determine what services are not represented on map. Fine tune community needs."

Meeting Location: Davis
Please list 3 positive outcomes of the meeting.

"Great information to ponder"

"Learning about community resources on the map. Bringing community together. Giving voice to all."

"1. Knowing what community services are provided. 2. Get opportunity to express what other community services we need. 3. Knowing many people do care about our community."

"1. Good meal! 2. Excellent layout for communication. 3. Willing to incorporate with our society."

"1. Sharing ideas for how to improve youth services. 2. Hearing ideas from others. 3. Positive & optimistic community"

"Meeting other community members. List of existing services. Learning about other schools"

"Clear needs brought"

"I got to meet some very interesting folks and exchanged business cards for future conversation. Others also argue after school tutoring would be useful especially in low income kids who are beginning to think failing at school is part of who they are."

"Awareness of community programs/resources. ID of gaps in community programs/resources. Understanding perspectives/needs of others."

"Realization of our great assets in Davis"

"Connections and information about community resources"

"Meeting new people. Accessible city + civic leaders"

"Understanding how much is here at our door step already. The real needs were talked about. Collaborative effort to build a resource list."

"Learned about the programs. Talked with great community members"

"Learned about resources in my area that I did not know about. Got to give my feedback about services I hope to see. Got to hear from others about gaps in services."

"Hearing from other people that validated what I felt was missing"

"1.Community members got the opportunity to explain their needs. 2. We really thought about the areas that we have to improve."

"I know about a credentials for teachers from the principal near me. I know about a cheap meet sells. I shared my opinion about community needs."

"Opportunity/reminder to think about availabilty of resources/assets. Meeting new people. Getting to help with an accurate assessment of our community."

"1. Learning opportunity about the initiative. 2. Opportunity to provide input. 3. New connections within the community."

"I have a better idea about the community needs. Met important community leaders and talked about potential opportunities for collaboration. Heard directly from residents, including youth"

"1. Brainstorm with community members. 2.Learned of services. 3. Heard from passionate people in our community"

"Really like what people were talking about"

"Community building. Identification of shared concerns"

"Learned a lot. There was a lot of good change that was discussed and I think it was very insightful"

"Advocacy for children. Networking in support of children."

Appendix 3: After Action Review

"Collaborate with other organizations. Helping understand the needs of the community."

"Meeting community members and learning what they are missing in community services. Learning about resources that are working well."

"Getting to meet the people at the table. Shared concerns for childcare & families."

"Community building. Youth & family voice was represented. Hope"

"Connection w/community leaders. Opportunity to make connections & locate opportunities for support. Forum for unmet needs. Put our school on the map."

"Good ideas from ideas for mental health, childcare."

"Connection w/others in my community. Assessing assets (or lack thereof) in my neighborhood. Sense of pride in this project & hope for how it will impact my community for years to come."

"Hearing from community members but specifically childcare providers about needs surrounding work challenges."

"1. Great conversation. 2.Deep dive in our neighborhood. 3. Good listening about others' challenges"

"1. Was great to hear about other people's ideas 2. Was able to connect with others that want the same changes in the community. 3. Was able to learn a little more services in the Davis community"

"Helpful to see assets in my neighborhood - helps to see (lens) of positive as opossed to negative."

"Connection w/community. Identification of resources. Ideas on how to combine/blend services."

"Opportunity to think through where assets are (and not). Chance to talk to neighbors. Nice representation of category of participants. Yummy food."

"People's voices are heard. A lot of new ideas and plans that can be implemented to better the environment for our youth and children. I am from West Sacramento and seeing the results from that meeting + this one gives me hope that something can be done."

"Hearing needs identified. Having the community come together. Connecting to organizations involved with youth."

"Agreement among community members that while we aren't terribly lacking on some things, we are in others like affordable housing, after school care, places for kids to hang (indoors for when there is smoke or 100 F outdoors), career prep, safe transport for kids to school."

"Time of meeting. Childcare/food. Table leader training"

*"Being heard by the county. Interacting with people from our community to express our opinions" ["Ser escuchado por el condado. Interactuar con personas de nuestra comunidad para expresar nuestra opinion"]**

*"I saw many things I didn't know. It was so much information." ["Vi muchas cosas que no sabia. Fue mucha informacion"]**

*"Lack of community services. Knowledge of programs. Being able to as about our needs" ["Falta de servicios comunitarios. Conocimiento de programas. Poder pedir nuestras necesidades."]**

*"I found out about things that i din't know about. That there is a chance to help improve the community. That we can help health care improve." ["Me entere de cosas que no sabia. Que hay posibilidad de ayudar a mejorar la comunidad. Y que si podemos mejorar la ayuda en salud."]**

*"Learning about the different ideas to improve the community. Discuss about the different needs for the community." ["Aprender las diferentes ideas para mejorar la comunidad.Opinar respecto a las diferentes necesidades para la comunidad"]**

*"Knowing about the available resources & services" ["Saber que hay recursos y servicios"]**

*Comment originally in Spanish

Appendix 3: After Action Review

What are your concerns?

"Our schools need social workers on site daily"

"Seemed like a lot of obvious resources were missing. The amount of effort to continue + sustain the effort"

"Our suggestions or inputs can not be completely carried out in the future"

"A huge data to be handled. Need to hire a specialized data specialist."

"Early assesments and classes on mental health issues in schools. Access to MH supports in schools"

"Services for youth. Inclusive spaces for parents"

"Need funding to pay staff appropriately & offer free/low cost care"

"Follow up. Lots of energy around providing affordable child care-great! I also am advocating for continuing to fund mental health care in the schools and free after school tutoring"

"Parenting is essentially at the core of issues related to the Roadmap. Rather than just listing the general asset types, build a focus as well on community needs in a categorical way as well."
"Information at existing assets/resources is not getting to all families."

Where is the highest need of subsidized care
"The place based approach is great but it could be replicate existing divides among racial + SES lines. Consider mixing it up after the place based portion"

"That this goes to a meeting of people and it doesn't come back to the community for further discussion."

"Physical based process has bias esp. in a task with high property prices. We created a list with no grounding in reality, e.g there was no way of understanding how my request for a park compares with the request of emergency services. Reading of the graph for equitable/equal was not accurate"

"More cultural/arts opportunities at low cost. More affordable housing. More job training/ preparation for youth "

"I am disappointed that the death of a 5 year old child is of no concern for the county (attached)"

"Where is the funding going to come from? Where does the current funding go?"

"West Sacramento needs more child care places. We need support for child care centers"

"1. Preschool and daycare, affordable. 2. There is no places which could prepare adolescents for college entering tests like SAT, IELTS. I wish there would be some free (volunteer based) or cheap courses."

"That enough folks from undeserved populations were represented"

"Behavior challenges in schools that disrupt learning. Overburdened educators b/c of behavior challenges and large class sizes. Lack of training (e.g love and logic) for parents. Cross asset resources (parent/educational training)"

"Lack of early childhood educator support. Necessity for teens to have life skills (like an adulting 101 workshop). Mental health support needed for middle and high school"

"Support for unhoused low income families"
"Trying to see if we could get a teen center, work skills for kids getting out of high school work training."

"Issues with sharing/distribution resource information, etc."

"N/A"

"Childcare and early childcare quality"

"Mental health. Continuing care/less turnover in childcare and schools. Pay teachers more - ECE + K12"

"Child care. After school programs. Summer programs. Transportation. Affordable housing."

Appendix 3: After Action Review

"Sustaining momentum & attempting to fulfill all the needs (is it possible?)"

"Stipends need to go to ECE. The QRS program used to more directly support development of quality in childhood settings and is not focused on this but childcare is key and low quality childcare damages children."

"Ensuring the information we are using is thorough, accurate, etc."

"Being able to provide services that meet the needs of our clients."

"I'm not sure all the assets will be able to be vetted and interpreted"

"N/A at the moment"

"How was this event advertised? I am in education and just found out this past week"

"The initial maps were inaccurate (school in wrong location). Could have used google maps"

"Mostly how close to reality any of these talks that we have are."

"Mental health services for youth. Outreach to undeserved populations. "

"That no one is hearing our concerns. That folks won't implement changes. Lack of planning for climate change (trees dropping limbs, smoke, etc.)"

"How is the outreach being done to include the perspectives of underserved communities? What is the process to narrow down and prioritize needs?"

*"Services for our youth" ["Servicios para nuestros jovenes"]**

*"Families with children don't have access to childcare. Mental health for youth and families" ["Familias con ninos no tienen acceso a cuidado de ninos. Salud mental para jovenes y familias"]**

*"That in toddler class there are no bathrooms for them" ["Que la clase de toddlers no existan baños para ellos"]**

*"Childcare between 0-2 years doesn't exist" ["No existe cuidado infantil de 0-2 años"]**

*"That there is no nearby health service. That there is no accesibility to childcare for ages 0-2 and a lot of people can't return to work" ["Que no hay servicio de salud cercana. Que no hay accesibilidad de cuidad de niños 0-2 años y mucha gente no puede regresar a trabajar."]**

*"That our opinions are ignored" ["Que nuestra opinion sea ignorada"]**

*"Mental health for youth" ["La salud mental de los jovenes"]**

Do you have suggestions for improvements?

"Additional research that seems easy. ex: what services are in city parks"

"Give more information on website and open internet space for exchange information."
Full time MH supports at all schools
Cooperatives

"Cut the busy work part where we were to locate all the identified resources."

"Solving child care problems & access must be subisdized for all"

"Well done & supported by staff"

"See above"

"See above"

"Adding additional layers to the asset mapping like bus stops/lines, mutual housing, apartment complexes, school boundaries, etc."

"Need some centers for immigrants which will support with documentation, job interviews, taxes information"

"Discussion and opportunities to comment on the qualify of assets. Clarity on future engagement. Greater publicity about the event in advance."

*Comment originally in Spanish

Appendix 3: After Action Review

"Find a way to pay early childhood educators a living wage! Internships for providing social workers and/or psychologists/counselors in schools"

"Teen center, focused placed like the old skate/hockey spot"

"Consider strategies for posting resource information. Flyers (home mailing). Posters at grocery stores. Additional school social workers to directly help families."

"No"

"Just please continue these conversations."

"Listen to youth, do one of these just for youth. Meet with and listen to foster parents + foster youth. Transportation issues via services like in W Sac to keep our youth safe. Make mental health services available for everyone who needs it! Screen everyone"

"Maps were a bit confusing."
"I think that a ""town hall"" style meeting is what people want. But this served the purpose of asset mapping well."

"Fund childcare, take the burden off families - pay providers a stipend."

"N/A, meeting seemed pretty informative"

"More subsidized childcare centers. More support for unlicensed childcare providers."

"I think we could have done the same thing in less time"

"No!"

"Communication, inclusion, equity"

"Help people talk into microphones"

"I would suggest also going to different communities and witnessing their situation from close"

"Smaller focus groups at low income apartment or congregations"

"Implement ideas, get folks to donate $$$ for specific ideas."

"Outreach to non profits faith based orgs.Not every table was able to share, how are we updated about what they came up with?"

*"Have more forums to listen to the latin community" ["Hacer mas foros para escuchar a la comunidad latina"]**

*"Have places where all information is, to be able to search for all type of assets." ["Poner lugares donde tienen la informacion para buscar todo tipo de ayudas"]**

*"Having bathrooms for toddlers as they share bathrooms with older kids" ["Poner baños para los niños caminantes ya que ellos comparten los baños con los niños grandes."]**

*"That needs are really taken into account" ["Que realmente tomen en cuenta las necesidades"]**

*"Listen to petitions from everyone to help the community and help us all. Thank you" ["Escuchar las peticiones de todo para mejorar la comunidad y ayudarnos, gracias"]**

*"In regards to the latin community, I believe it is necessary to have help so we can get to know the different places that offer resources for the community. In the same way, I think it is necessary to have people helping out with translation for people that speak spanish." ["Respecto a la comunidad latina, creo que es necesario que haya ayuda para que podamos conocer los diferentes lugares que brindan ayuda a la comunidad, de la misma manera creo que es necesario que haya personas que ayuden con la interpretacion para las personas que tienen idioma español."]**

*"Create places where youth can feel safe" ["Crear lugares y ambientes donde los jovenes puedan sentirse seguros."]**

How would you explain in 2 sentences what we have accomplished at this meeting?

"Beginning to build a shared commitment to the work".

"I learned a lot on the education map from cradle to

*Comment originally in Spanish

Appendix 3: After Action Review

college at Davis"

"Hopefully we have identified needs/wants of the community and move forward to meet those needs"

"Sharing experiences & knowledge of services, between community members with different roles"

"We verbalized our frustrations about unmet needs."

"We got to hear some passionate people speak with great knowledge and experience about the needs of our community. Well done!"

"(Combine 3 outcomes of #1) Helping community/ civiv leaders ID/understand community generated needs + priorities."

"Information sharing was valuable."
"Awareness of the lack of communication within the city and county"

"We confirmed an asset list and identified missing services."

"Understanding of how many people really want the same outcomes. We are planning for a future"

"Created a wonderful list that cannot be fulfilled."

"We were able to identify our city's strength and weakenesses when it comes to services. We were able to share our collective knowledge."

"Getting the conversation going on how to better support our youth & children."

"Getting more accurate info of needs and resources from the folks who actually should know."

"I learned about this initiative for the first time. I met new community members who may be able to address my parent concerns. Thank you!"

"Dialogue! Especially with residents networking to bring together people who can affect change."

"I think what was accomplished on this meeting: a lot of new assets that were mentioned were very aligned with what existed."

"We have started the process of making Yolo county a child-centered + nurturing place to be born + to grow up. Let's get to work"

"Talking about what is missing and what is working in our community."

"Consensus to concerns, we all agreed on above"

"YCOE informed the community about the R2TF project and gathered critical information about local assets. This was an opportunity to bring together diverse voices from the community."

"Forum for listening. Provide hope for change."

"This meeting identified serval concerns in the community ranging from mental health resources to childcare and the wages there."

"Literally mapping the resources and outlining what is missing."

"We did a deep dive into assets + challenges in our neighborhood."

"I would say that I was able to learn/ accomplished and showed what we need in the community."

"Trying to list assets with a more inclusive lens."

"Trying to see what is missing with a more inclusive/ equitable lens"

"Started a conversation about how to combine and leverage all community resources to meet the need of our children and youth."

"Inital broader input on needs. Get community to take time to think through. What is needed for supportive city for all."

"Getting people to think about the gaps in our community."

"We talked. Hopefully folks were heard. More local folks should be more involved in efforts like this. In a town of 65,000+, more people should've been here."

"It's a beginning to collaboration between gov, schools, non profits & communities"

Appendix 3: After Action Review

*"Community creation" ["Crear comunidad"]**

*"I hope that all of our suggestions are heard and worked on." ["Espero que todas nuestras sugerencias sean escuchadas y resueltas."]**

*"That our needs from Montgomery are known." ["Pues que sepan nuestras necesidades de Montgomery."]**

*"That our needs are known." ["Que sepan las necesidades."]**

*"Getting to know Davis better and all the assets I did not know about" ["A conocer mas Davis y las cosas que hay que no conocia yo."]**

*"Learn about the needs of the community. Discuss so the community becomes better." ["Aprender las necesidades de la comunidad. Opinar para que sea mejor la comunidad."]**

Meeting Location: Woodland
Please list 3 positive outcomes of the meeting.

"Meeting parents at my table. Discussing things that would help the community. Seeing other people who care"

"Hearing shared concerns + motivated participants. Knowing we have so many perspectives in room"

"Postive feed from my group about mental help. Knowing about resources to share with my daycare facilities. Discussionas about IEP."

"Meeting people with similar concerns. Having the community heard."

"Knowledge of growing community. Intention of using funding to better our community. Want community input to fit community needs."

"Learned about programs available. Made a connection w/ someone who wants to support what we are doing. More connected in fellow non profit groups"

"Meeting new services providers. Talk to Elodia Ortega school superintendent. Talk to Garth Lewis about my complaints"

"Well organized. Productive. Educational"

"Nice to focus on positive as well as negative. Nice to focus on our mini-community (home area). Nice to meet others from our area."

"Opportunity to speak & hear community members. Listed areas of struggle & growth. Need more of these events in our community."

"Awesome input. Very diverse group with diverse perspectives. Feeling of positivity"

"Being able to talk about needs. Acknowledging the actual problem in the small community. Hope that our community in Knights Landing receives services for the community."

"Becoming more aware of what we do/don't have. Talking with members of my community. Feeling supported and hopeful for the youth's future."

"I learned about resources in Woodland that I didn't know existed. I greatly appreciated meeting such strong community members and service providers. Brainstorming as a team yielded fantastic ideas."

"I was able to gather information on resources already in the community and hear others' opinions on resources needed"

"Learning more on an area in which we have staff that work in. Collaborative thinking. Combined two areas on D-5"

"Getting to meet other stake holders in the community"

"Community collaboration"

"1. Leadership in community. 2. Building relationships w/in community. 3. Planning for children/family care"

*"1. Getting to know and locate the resources that there are in my area. 2. A panorama of needs" ["1. Conocer y ubicar los recursos que hay en mi area. 2. Un panorama de las necesidades"]**

"A chance to review services + facilites related to physical location"

*Comment originally in Spanish

Appendix 3: After Action Review

"Bonding w/ neighbors. Good dialogue. Better asset maps"

"1. Knowledge of other assets. 2. Opportunity to meet & network w/ other concerned citizens. 3. Understanding the needs and being able to advocate for those needs."

"We found a lot of assets missing from the map which expands the previous list. I learned about services I didn't know about. I met new people"

"Ability to work with people from the same area. Discuss potential future plans. Overall great format to work on issues."

"Discovered assets I didn't previously know about in my own neighborhood"

"Voices for West Sacramento Broderick & Bryte communities were heard. New opportunities were brought up. Places were added onto the map."

"Learning about our district & community. Learning about possible improvements for our district/community. I got to know about our community a bit more."

"Brainstorm needs w/other community members. Seeing all the positives too!"

"I learned more about the community that I work in (Esparto). Showcasing the community."

"Collaborative work w/Woodland families. Facilitation was helpful. Resources provided (GIS mapping, tools) allowed for interactive families."
"Group chats. Dynamic information. Know other families."

"Exposure to various perspectives. Building community. Building need awareness. Optimism of solutions"

"Corrected assets. Removed duplicates. Identified needs in community."

"Recognizing existing services in the community. Identified needs for additional services."

"Community members involved in community. We can talk with different organizations"

"Correct mapping. Meeting neighbors. Hopefully getting more services for families to utilize."

"1. Good information. 2. Group chart. 3. Meeting new people"

"Engaging neighbors, asset analysis, deficit analysis"

"I found out my organization was misrepresented and hopefully got that information back"

"Look for the gaps in asset mapping. Positive things happening in this city. Opportunities to talk w/ stakeholder."

"Hearing from Knights Landing. Hearing that school leaders and elected officials are working together to improve resource for families. Hearing positive things about Woodland (Parks, city, parks & rec)"

"People were able to express their concerns. Communication was good. Good ideas were expressed."

"Our voices were heard. Our feelings were validated. "

"Welcoming. Lots of good information. Learning of many different areas in Yolo county who also need support"

"Educated on the needs of the community. More knowledge about what districts are doing for our schools. I now know what communities need more services and I will provide my services to them"

"Alerted to improvements/changes in the community. Heard from supervisors. Learned about difference between county + school district"

*"Getting to know more about the county. Good opportunity to know about the services from Yolo County. Register new activities in the county" ["Conocer mas del condado. Buena oportunidad para saber los servicios del condado de Yolo. Registrar nuevas actividades en el condado"]**

What are your concerns?

"Really concerned about special ed - not just the

*Comment originally in Spanish

money, but the type of services provided. Need to rethink how we do things"

"We will not actually implement changes, actions after all this work. That all partners (districts, YCOE, etc) won't stay committed"

"Lack of support in school about mental health. Summer programs for all ages kids."

"Our special education department is sinking with not enough funds, help, educational meeting for therapist. Many children are slipping through the cracks."

"Will we have an opportunity to vote wher this funding will go to?"

"Programs for young women - empower Yolo - came up as a great resource"

"The Knights landing community not being involved in this project."

"Parents, children, youth, students who have no interest in education"

"Family economics - your quesions asked about ""my"" family's access to resources but my family is not representative of our community b/c we are advance degree professionals. Not affordable: mental health, dental care, childcare"

"Too many in an unincorporated area. Teen services, food access, transportation access, a single safe space for teens"

"This is a lot of data - don't wait too long to provide updates + let people know what is happening. More input opportunities."

"No resources for youth after school. No early child intervention services. No fresh produce"

"Will our needs be taken into consideration? When will Knights Landing become a priority?"

"Lack of basic services, churches listed as a resource (when they largely aren't) and a terrible lack of transportation."

"Childcare is a big concern as many families struggle with care. Preschool that is accessible as not all families are able to meet feredal income guidelines to utilize head start"

"Lack of basic needs. Community unaware of what's available."

"Where did the other $40 mil go for Yolo? Why did we pay people to come in from out of state to consult when we have asset & referral online platforms that can pull all of this data easily?"

"How quick start to see outcomes"

"Services for single parent homes"

*"That there are summer programs for kids and teens at affordable prices. We need more sports for youth betwen the ages of 15-18." ["Que haya programas de verano a precios mas accesible para niños y adolescentes. Necesitamos mas deportes para jovenes 15-18 años"]**

"What is going to be done with the product of this evening's work? How does it fit in with the ""Roadmap to the future""?"

"None"

"Lack of knowledge of shared assets to the community. Transportation."

"There was a lot missing that needs to be added to our community. I hope this funding will meet these needs"

"That needs will not be met"

"Lack of public transportation has long been a concern for me in my area and I am concerned that efforts to bring it to the area might be roadblocked due to stereotype-based prejudices."

"My concerns are that the money and resources will be placed in communities that already have plenty and exclude low income communities."

"How will we keep areas for the youth to hangout safe."

"Focus on larger populations. Also, focus on income qualifications (need to be low income to

*Comment originally in Spanish

qualify, need to be wealthy to afford full price - middle class family support)"

"The lack of resources in Esparto"

"Transportation - getting to/from facilities in Woodland. Parks - ensuring that ball fields and parks are equipped w/restrooms"

"Safety, security a lot of homeless people damaging houses, business and people"

"Needs being met in timely manner. Funding How long will this project take?"

"That further steps won't be taken. Service gaps for outlying areas."

"Housing. About some services that are not offered in spanish, example: speech therapy in spanish, when the kids arrived from other countries"

"That it will stop here, what are the next steps?"

"The construction of Gibson road"

"Reading the needs of low income, spanish speaking communities and gathering information by to where they are."

"I'm concerned that a lot has been said and very often little is done"

"Facility development and upkeep. Easy things to create - nature walking path"

"That schools will not be able to coordinate with before + after school care well enough to meet the needs of working parents - I think we need more funds for childcare & before/after school care so there are more options, they can have more teachers"

"We need free childcare at the Woodland community center"

"My concern is for the youth in our community, my fear is them not having things to do after school or when on school break. I also feel like there needs to be a place that is easily accesible to youth to go and do their studying that is a quiet place. Unfortunately sometimes their home can't be their quiet place."

"Finding more youth activities and making things happen for all Yolo county communities"

"Almost all if not all middle schools fails to offer mental health services to students. This is the important era of their life where they need access to it."

"Not enough attention will be paid to increasing services for special needs families."

*"Help for child providers. Assistants for them to be able to go to appointments, vacations, etc." ["Ayuda a las proveedoras de niños. Asistentes de tiempo para tomar una cita, vacaciones, etc."]**

Do you have suggestions for improvements?

"Get help from community resources. Work with Mind Inst. + Alta"

"Send out some sort summarty (by community) of feedback, patterns, etc, to participants after event & on an ongoing basis"

"Working together as a team for our children."

"More funding for special education. More therapist for special education (not enough for the amount of students in need)"

"Promoting more communication from direct school students, parents on serving these needs."

"Meet again on regular basis"

"Maintaining ongoing meetings to collaborate around resources."

"Provide parents education at different levels."

"Less talking at front end, more time for table talk + brainstorming"

"Food resources. Childcare. Larger community center"

"Overall it was a very succesful gathering"

Appendix 3: After Action Review

"Please see my suggestion to create a community mental health clinic (map 3-D) at the WJUSD office using MS + MSW students from Sac State. WCC also has a CADAC program. Center would be open M-F 3-8 pm + saturdays. MS + MSW + CADAC students need practicum + internship hours to complete their degrees/credentials/licensure. The interns need to be supervised by a licensed/ credential person + that person needs to be paid - but interns are typicall not paid. Karen Bayne 530-383-4237 krbayne@sbcglobal.net for more info if you're interested"

"We should utilize educational spaces for basic needs and family resource centers"

"Language that is equitable for everyone to understand"

"Roadmap available in popular languages. More descriptive on assets."

"Getting everything on to an online referral platform for more efficient use of time, money, and being able to actually serve the children and families and to provide communicational collaboration across sectors."

"Continue to do more community work"

"Need to develop resources/programs for single parents, children"

*"Municipal leagues for youth between ages of 15-18. Recreational programs at no cost or at a low cost" ["Ligas municipales para jovenes 15-18 años. Programas de recreacion sin costo o a bajo costo."]**

"Map cutoffs were a little strange, main arteries/ corridors could have been used as cutoff points."

"N/A"

"Not now"

"Safer roads for kids, pedestrians and bikes"

"Next time do less introductions and more time to discuss. Have a better outreach youth as there were only 3 that showed up."

"Add more pools, parks & safe areas for people to hangout"

"List cities on asset page. Meeting could be more neurodivergent friendly, super bright lights, super noisy speakers"

"To spread out the Yolo County resource evenly amongst the towns in Yolo county"

"Share & promote event as much as possible. Youth input is always great"

"Construction roads are damaging people lives and activities."

"Alphabetize list."

"More time! Proofreading - ""artistic"" was not spelled correctly on the main sheet, hard to navigate the asset sheet"

"More public transportation"

"Parks need more preteen/teens to do. Improved skate park"

"The mall to be more lively"

"Go out into parts of communities, go into neighborhoods that have trouble getting to meetings like this. Take this process to the people."

"The most important issue for me is that people have access to childcare that they can trust and that doesn't cost 1/3 of their weekly income like it often does."

"Nice outlive for this evening."

"More community oriented processes like this. Recognize that taking care of children is a primary responsibilty and deserves a bigger piece of the $ pie."

"Provide free childcare for all activities at the Woodland community center"

"The roads need improvement!!! Also, more mental health resources for youth at their school sites."

"N/A"

Appendix 3: After Action Review

"I suggest mental health education and mental health counseling access to middle school students"

"Make items on maps grouped in numerical order (too much page turning)"

"N/A"

How would you explain in 2 sentences what we have accomplished at this meeting?

"Brought concerns forward + made community connections"

"Hear feedback from wide participants (community members)"

"We targeted problems a lot of people have that are not really addressed."

"Promoting that our voices want to be heard to serve us better and promoting a more positive enviroment"

"Collaboration of organizations is fabulous!"

"I feel motivated to continue to work in my community. I have hope for the future."

"Share some of the services that are needed & find out about positive services that we already have Good sharing - exciting stuff"

"Gather and listen to community members. Learned a lot"

"Gave citizens the opportunity to have a voice in their communities future. Allowed people to dream - but, and a bit but, there needs to be follow up."

"In this meeting there is hope that more resources will be available to communities in need. This meeting allowed others to see what some communities have little to no resources to."

"In this meeting we were able to unite and express our concerns with people who are also experiencing the same hardships in the community. We accomplished setting the needs for our community."

"We have accomplished a brainstorming session for community improvements"

"We were able to map resources that are on the map and make sure they were accurate. Look at what is needed in the community."

"At this meeting we were able to sit collaborative to think of what we are missing in regard to needs of families in Yolo county."

"Added more resources to the maps."

"Collaboration, partnership, excitement"

"It's the beginning of a new community/developing community. We have brough a plan of action."

*"Getting to know about available resources and detecting needs." ["Conocer mas los recursos disponibles y detectar las necesidades.']**

"We reviewed and improved a list of services + facilities to a physical location"

"Came together to give voice to our community and work for a better future."

"Community building. Understanding of providers, and other community services that are not getting attention, or on the maps."

"It met the goal of identifying what exists of what is needed."

"Compiled all resources that can be available. Get the community(ies) energized."

"Good organization, good data collection and great effort w/ positive goals."
"We have included voices of adults and talked about resources that are missing. Introduced elected officals and provided free childcare."

"We got to know about what our community needs. Along with different perspectives."

"We had the opportunity to see needs required at the neighborhood level. We worked well together with a diverse group of people. Thank you!"

"Trying to do some changes in our community."

*Comment originally in Spanish

Appendix 3: After Action Review

"It appears that the documenting of needs and resources are thorough. It feels like we have a positive launch that will become action."

"Thanks for the childcare!"

"We were able to discuss our area map and fix things. We discussed what we'd like to see both in the neighborhood and city of Woodland"

"We have accomplished discussing about improvements . We learned beneficial information. Acknowledgement of the need to continue to connect with our neighbors."

"I'm not sure what we've done, other than talk a little and listen a lot."

"Bringing the community together. Community members talking about their home and place they live"

"We identified things in our community that we like + talked about what we would like to see."

"Good ideas were expressed. Services and resources were identified."

"At this meeting we have accomplished to get our voice heard and say what need for our kids."

"Learning other services in the area and knowing people care and want to make our community better."

"Found items on asset maps that were wrong/ missing. Gave community members a chance to put in their 2 cents."

*"Good opportunity to get to know and apply new opportunities for families and children" ["Buena oportunidad para conocer y aplicar nuevas oportunidades para familias y niños"]**

*Comment originally in Spanish

Roadmap to the Future: Overview of Community Assets and Services Data Collection and Mapping

May 24, 2023

What is a Roadmap to the Future asset map?

The Yolo County Office of Education (YCOE), with support from community partners, is developing the Roadmap to the Future — a long-term plan to effectively coordinate the services, supports, and opportunities children, youth, and families in Yolo County need to thrive, as well as establish a shared framework to ensure their healthy development. An early part of this process involved collecting data on community assets and services across Yolo County which benefit children, youth, and families to provide a comprehensive source of information about available support. To help validate the data, YCOE created maps of areas within each of the five Supervisorial Districts in Yolo County with locations of existing community assets and services and hosted community engagement meetings to ask members of the public to help confirm data accuracy.

Why do we map community assets and services?

The collection and mapping of community assets and services data helps provide a full understanding of the support available to a community, as well as identify strengths and opportunities. The community assets and services data collected for the Roadmap to the Future will serve as the foundation for development of a future online database, as well as a needs assessment to identify gaps in the support system and inform future investments.

How do we categorize community assets and services?

YCOE built a comprehensive map key which displays the assets and services according to ten "Aspects of Community" categories, which include:

- Economic (e.g. employment services, low-interest loans)
- Physical (e.g. recreation, outdoor activities)
- Basic Services (e.g. broadband, public transportation)
- Health & Human Services
- Education & Information
- Civic & Political
- Cultural & Artistic (e.g. art classes, dance lessons)
- Spiritual & Religious (any church that provides services)
- Social & Associational
- Individual Development

Each Yolo County Supervisorial District is displayed on one map with one corresponding key. In addition, there is a separate list of countywide services which any eligible Yolo County resident can access, also sorted by these 10 categories. The maps and data represent the complex, comprehensive system of community support for children, youth, and families.

How will the community use the community assets and services maps?
YCOE will summarize the data and include all completed maps in a final report to the Yolo County Board of Supervisors. YCOE also will work with partners to identify the appropriate entity to develop a community online database to provide easily accessible, consistently updated information about community assets and services. Decisionmakers can also use this database to continually evaluate needs and inform investments. YCOE hopes the coordination and evaluation of services will ensure improved outcomes for all children raised in Yolo County and provide a model for other counties to emulate.

To: The Chair and Members of the Board of Supervisors

Regular-Information Items (General Government) 62.

Board of Supervisors **Innovation Technology Services**

Meeting Date:	06/06/2023
Brief Title:	Receive update on the status of the Infor CloudSuite Implementation
From:	Lee Gerney, Chief Technology Officer, Innovation and Technology Services Department, x5030
Staff Contact:	Duazong Her, ERP Manager, Innovation and Technology Services Department
Supervisorial District Impact:	Countywide

Subject

Receive presentation on the upgrade status of the Infor System to the Software-as-a-Service ("SaaS") Infor CloudSuite Management System. (No general fund impact) (Gerney)

Recommended Action

Receive presentation on the upgrade status of the current Infor System to the Software-as-a-Service ("SaaS") Infor CloudSuite Management (ICM) System.

Strategic Plan Goal(s)

In Support of All Goals (Internal Departments Only)

Reason for Recommended Action/Background

The staff report will provide a brief background on the project, an overall status update, and a breakdown of milestones and status.

Background

The Board of Supervisors considered the Infor CloudSuite Migration project over the course of 2021 and provided the final approval to move forward on August 31, 2021. The project kicked off in October 2021. On September 13, 2022, Staff presented a status report and recommended extending system go live date from January 2023, to July 2023, due to the overall project being behind schedule due to resource constraints and the technical complexity of the new system. The Board of Supervisors approved the project extension on September 27, 2022.

Status Update

The project status for three of the functional areas of the system (Financial Services Management, Supply Chain Management, Technical) are green, however the Human Capital Management / Payroll functional area has been downgraded to yellow leading to an overall project status of yellow (indicating the project is in an at risk state). The project is tracking yellow due to two identified issues. There are still a substantial number of differences in the payroll parallel related to data and system setup issues. This primarily stems between differences in how pay codes and deductions codes are set up in the old system as compared to the new system. In addition, the new system handles certain calculations a little differently than the old system leading to reconciling differences. The project team is hoping to have a resolution to the setup issues in the next couple of weeks. In addition, there are concerns with the MICR font that is applied to checks. The font is not as clear as it needs to be per bank standards. The team is exploring options including performing maintenance on the check printer, using another MICR font vendor, or shifting check printing back to the MHC solution. Currently, we do not expect either of these issues to affect the targeted go-live day of July 17th, 2023.

Since the last update to the Board the project team has completed System Integration Testing and User Acceptance Testing phases of the project. End User Training is currently underway which is the last phase of the project prior to go-live activities.

Project Plan

Phase 1: Initiate & Planning (complete)

The PMO team completed the planning for the project and produced the following deliverables to ensure alignment with RPI and the Yolo County Leadership and Project Team on project structure, governance, and execution:

- Project Initiation
- Project Management Plan
- Stakeholder Analysis
- Project
- Issues Management Plan
- Risk Management Plan
- Staffing Plan
- Communication Strategy
- Testing Strategy
- Training Strategy
- Organizational Change Management Plan
- Knowledge Transfer Assessment Plan
- Project Work Plan
- Project Kickoff
- Provisioning of the Multi-Tenant Environments
- Tenant/Product Line Strategy
- Technical Development Strategy
- RICE Strategy/Plan

Phase 2 - Analyze & Design (complete)

The Functional and Technical Project Teams conducted a series of meeting and workshops to gain an understanding of Yolo County's current business processes and identify/document the requirements for the future state business processes and technical development for integration, reporting, automation, security, and data conversions:

- Current State Assessment and Requirements Review
- Super User Training/Enablement and Design Review
- Future State Design
- Technical Design Discussions/Workshops:
- Configuration Console Design
- Workflow/Process Automation Design
- Interface/Integration Design
- Conversion Design
- Security Roles Review
- Report Review/Design
- Testing Plan
- Data Validation Strategy
- Initial Design Complete

Phase 3: Build & Develop (complete)

- Technical Development (includes initial unit testing by developer):
- Configuration Console Development
- Workflow/Process Automation Development
- Interface/Integration Development
- Conversion Development
- Security Roles Development
- Report Development
- Application Configuration
- Unit Test/Conference Room Pilot Test Plan & Scripts Preparation
- Unit Testing/CRP
- System Integrated Test Scripts

Phase 4: Verify & Empower (in progress)

- System Integrated Testing **(complete)**
- User Acceptance Test (UAT) Execution and Issue Resolution **(complete)**
- Cutover Strategy **(complete)**
- Payroll Parallel Prep/Execute **(in progress)**

- End User Training **(in progress)**
- Cutover & Contingency Planning **(Mid-June)**
- Readiness Assessment **(Mid-June)**
- Go/No Go Sign Off **(Early July)**

Phase 5: Go-Live and Post Go-live Support (July 2023)

- Go-Live DMF#5/Cutover to Production
- Post Go-Live Support and Project Closure
- Project Closure

Cutover Strategy
Starting in mid-June the project team will perform a mock go-live. This will consist of one last data migration prior to the final migration that will take place during the go-live cutover window. Once the data migration is complete and post-migration tasks have been performed, the project team will review and verify the accuracy of the data and assess the readiness of the new system to move forward with the final cutover to production. If its determined the system is ready for go-live the system will be taken offline July 7th in preparation for final cutover tasks. The system will remain offline while the project team completes all final tasks until the new system is brought online on July 17, 2023.

Collaborations (including Board advisory groups and external partner agencies)
Innovation & Technology Services, Department of Financial Services, Health & Human Resources, General Services, Human Resources, County Administrator's Office

Infor CloudSuite

(ICM) Project

Presented By:

Lee Gerney (Chief Technology Officer)

June 6, 2023

Infor CloudSuite

(ICM) Project

BACKGROUND

- Board of Supervisors project approval on August 31, 2021
- Project kickoff October 2021
- Board of Supervisors project extension approval on September 27, 2022
- Go-Live July 2023

Total Project Cost: $4,700,130
Total Expenditures to Date: $2,727,716

Infor CloudSuite

(ICM) Project

PROJECT STATUS

4 Functional Areas

- Human Capital Management / Payroll
- Financial Services Management
- Supply Chain Management
- Technical

Overall Project

- Infor CloudSuite Migration Project

Infor CloudSuite

(ICM) Project

CONCERNS

Payroll Parallel

Yet to have a successful payroll parallel. Substantial number of differences in payroll parallel related to data issues and system setup issues.

Check Printing

Print quality of MICR font is still in question.

Infor CloudSuite

(ICM) Project

PROJECT PLAN

Phase 1: Initiate & Plan (complete)

- Planning & Kick-Off

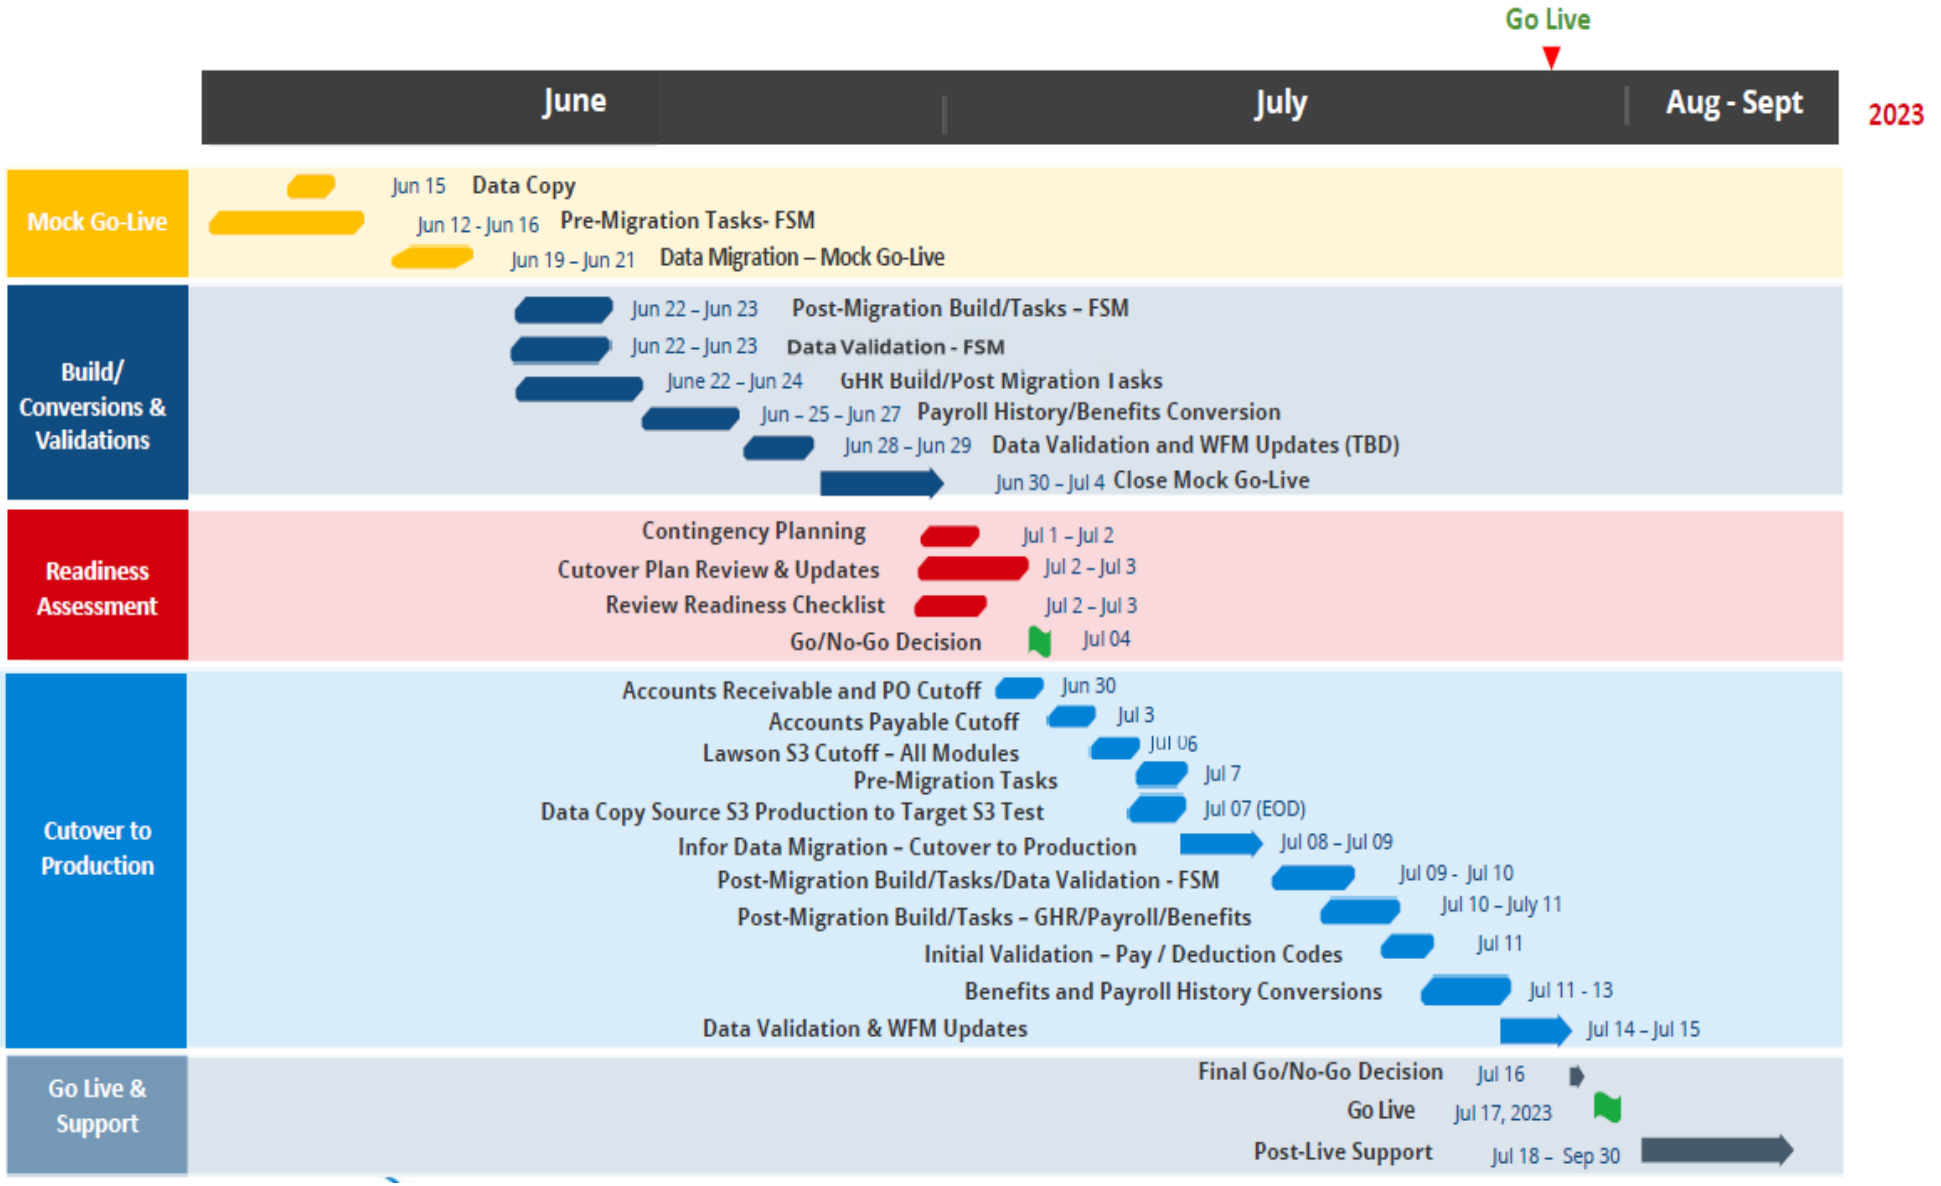
Phase 2: Analyze & Design (complete)

- Current State Analysis & Initial System Build
- Super User Enablement
- Future State Design

Phase 3: Build & Develop (complete)

- Unit Testing
- Payroll Cycle Testing
- Technical Development (Configuration, Integration, Process Automation, Reporting)

Phase 4: Verify & Empower (in progress)



- System Integrated Script Preparation and Test Execution **(complete)**
- User Acceptance Testing **(complete)**
- Payroll Parallel **(in progress)**
- End User Training **(in progress)**
- Mock Cutover **(Starting Mid-June)**

Phase 5: Go Live & Support (Go-Live July 17th, 2023)

Infor CloudSuite

(ICM) Project

INFOR CLOUDSUITE CUTOVER STRATEGY

Infor CloudSuite

(ICM) Project

ENHANCEMENTS

Human Capital Management / Payroll

- Increased access for all employees
- Easier processing of personnel transactions and increased efficiencies with position and budgetary changes
- Consolidation of HR system components provides better cross training of staff and limits amounts of systems that need to communicate/align. Provides reporting efficiencies.
- Modernization efforts eliminating paper processes by utilizing routing of personnel transactions

Financial Services Management

- Flexible accounting structure to meet tracking and reporting needs
- Robust security and control structures (data level)
- Improved transparency and reporting capabilities
- One integrated document storage solution
- Approval workflows and improved visibility

Infor CloudSuite

(ICM) Project

ENHANCEMENTS

Supply Chain Management

- Nimble requisition workflow & more efficient receiving processes
- Contract management & purchase card processing native to system
- One integrated document storage solution
- Commodity classification of purchases
- 3rd party purchases system integration

Technical

- Software-as-a-Service model. System kept up to date on standardized release cycles
- Data analytics and integration tools providing better data-driven decision making. Enhanced reporting capabilities
- Improved cybersecurity protection & resiliency
