Subject: Stop Drilling New Wells on Historic Non-Irrigated lands
Date: Friday, July 7, 2023 9:35:58 AM

Dear Board of Supervisors,

Please understand the urgency to stop permitting more agricultural groundwater wells in the Dunnigan Hills region and the Hungry Hollow watersheds.

Please act in behalf of the county residents who depend on groundwater resources for the long-term survival of their families. This issue was already presented to the board members in the past, but they chose not to act, despite the evidence of lost water wells in the town of Zamora and many rural residential wells.

i am submitting this letter to each board member to offer context and facts, with the need to restore sustainability to the region.
