Subject: Yolo County Animal Shelter Meeting Suggestions

To whom it may concern,

This email is to express my concern about the current state of the Yolo County Animal Shelter and encourage reform for the Yolo County Animal Shelter.

As a resident, pet owner, and animal advocate of Yolo County, it is time to address the well-known issues regarding our aging and understaffed animal shelter. The Yolo County animal shelter is small and outdated and can no longer support the animals it hosts safely or humanely. Stop delaying the creation of a new animal shelter that would better suit the needs of the animals sheltered at this facility. The animals deserve it and the residents of Yolo County also deserve to have peace of mind that Yolo County has a proper facility for these animals.

Please also consider hiring an in-house veterinarian and the appropriate amount of technicians to support the animals sheltered at the facility, especially considering the fact that UC Davis vet services was not able to complete the services offered in a previous contract.

Spaying and neutering services need to be restored immediately to curb the uncontrolled dog and cat population in this county. This needs to be addressed quickly before even more workload and backlog is piled onto this struggling facility and WASTING tax-payer dollars.

Please strongly consider these topics during the meeting tomorrow concerning this subject. The people of Yolo County and the animals deserve it.

Sincerely,
Bradley Santi

Resident, Davis, CA Yolo County
