Subject: Re: JPA

I would like to submit a correction. I did not mean a new shelter in West Sacramento. I meant a new shelter.
Thank you.

Dear Sir/Madam

I hope this message finds you well. As a devoted board member of Unleashing the Possibilities Inc, I am thrilled to share the exciting news that West Sacramento is now part of the Joint Powers Authority (JPA). This new partnership presents a tremendous opportunity for our community, and I am eager to witness the communities come together to transform the future of shelter services for our temporary canine residents.

The well-being of animals is a cause close to our hearts, and we are committed to creating a shelter that sets a new standard for animal care. To achieve this, we firmly believe that a new animal shelter in West Sacramento is not just an aspiration but a necessity.

Here are the key aspects we wish to highlight in our plea for a new animal shelter:

1. **Comprehensive Spay and Neuter Services:** One of the cornerstones of responsible pet ownership is population control. By integrating comprehensive spay and neuter services into the new shelter, we can actively work to reduce the number of unwanted animals in our community. This proactive approach not only addresses overpopulation but also promotes healthier lives for our pets.
2. **Best Practices for Animal Welfare:** Our mission is to ensure the highest standards of animal welfare. With a new shelter, we can implement and maintain best practices in animal care. This includes offering top-tier veterinary care,

	enriching environments, and a team of passionate and trained professionals who are dedicated to the well-being of our furry friends.
	1. Stress-Free Environment: We recognize the importance of providing a stress-free environment for animals. A modern shelter would be designed with this principle in mind, offering spacious, clean, and comfortable accommodations for our temporary canine residents. Reduced stress leads to happier and healthier animals, making them more adoptable and better companions.
	2. Keeping Up with the Latest Measures: The field of animal care is constantly evolving. To provide the best care for our animals, we must have the capacity to stay up-to-date with the latest measures and innovations. A new shelter will enable us to adapt to the changing needs and challenges of animal welfare, ensuring our services remain both effective and relevant.
	In closing, I urge you to consider the invaluable impact a new animal shelter can have on our community. By investing in this initiative, we are not only demonstrating our commitment to animal welfare but also fostering a more compassionate and responsible community.
	Sincerely,
	Julielani Chang
