ARTICLE 3. SERVICES AND ACCESS PROVISIONS

I. CERTIFICATION OF ELIGIBILITY

Contractor will, in cooperation with County, comply with California Welfare and Institutions Code section 14705.5 to obtain a certification of a client's eligibility for Specialty Mental Health Services (SMHS) under Medi-Cal prior to billing for SMHS services.

Some services provided under the FURS scope of work may be eligible for SHMS billing provided all standard SMHS criteria is met. Eligible services include: Crisis Intervention, Targeted Case Management (including Intensive Care Coordination), and Mental Health Services provided to current or former foster children, youth, non-minor dependents and their caregivers and collateral services to caregivers. See Behavioral Health Information Notice (BHIN) 21-013

II. ACCESS TO SPECIALTY MENTAL HEALTH SERVICES

A. In collaboration with the County, Contractor will work to ensure that individuals to whom the Contractor provides SMHS meet access criteria, as per DHCS guidance specified in DHCS Behavioral Health Information Notice (BHIN) 21-073. Specifically, the Contractor will ensure that the clinical record for each client includes information as a whole, indicating that the client's presentation and needs are aligned with the criteria applicable to their age at the time-of-service provision as specified below.

B. For clients under 21 years of age, Contractor shall provide all medically necessary SMHS required pursuant to Section 1396d(r) of Title 42 of the United States Code. Covered SMHS shall be provided to enrolled clients who meet either of the following criteria, (1) or (2) below. If a client under age 21 meets the criteria as described in (1) below, the beneficiary meets criteria to access SMHS; it is not necessary to establish that the beneficiary also meets the criteria in (2) below.

1. The client has a condition placing them at high risk for a mental health disorder due to experience of trauma evidenced by any of the following: scoring in the high-risk range under a trauma screening tool approved by DHCS, involvement in the child welfare system, juvenile justice involvement, or experiencing homelessness.

2. a. The client has at least one of the following:

i. a significant impairment.

ii. a reasonable probability of significant deterioration in an important area of life functioning.

iii. a reasonable probability of not progressing developmentally as appropriate.

iv. a need for SMHS, regardless of presence of impairment, that are not included within the mental health benefits that a Medi-Cal Managed Care Plan (MCP) is required to provide.

AND

b. The client's condition as described in subparagraph 2.a above is due to one of the following:

i. a diagnosed mental health disorder, according to the criteria in the current editions of the Diagnostic and Statistical Manual of Mental Disorders (DSM) and the International Classification of Diseases and Related Health Problems (ICD).

ii. a suspected mental health disorder that has not yet been diagnosed.

Infor Contract No.
Cobblestone No.

iii. significant trauma placing the client at risk of a future mental health condition, based on the assessment of a licensed mental health professional.

C. For clients 21 years of age or older, Contractor shall provide covered SMHS for clients who meet both of the following criteria, (1) and (2) below:

1. The client has one or both of the following:

- a.** Significant impairment, where impairment is defined as distress, disability, or dysfunction in social, occupational, or other important activities.
- b.** A reasonable probability of significant deterioration in an important area of life functioning.

2. The client's condition as described in paragraph (1) is due to either of the following:

- a.** A diagnosed mental health disorder, according to the criteria in the current editions of the DSM and ICD.
- b.** A suspected mental disorder that has not yet been diagnosed.

III. ADDITIONAL CLARIFICATIONS

A. Criteria

1. A clinically appropriate and covered mental health prevention, screening, assessment, treatment, or recovery service listed within Exhibit A of this Agreement can be provided and submitted to the County for reimbursement under any of the following circumstances:

- a.** The services were provided prior to determining a diagnosis, including clinically appropriate and covered services provided during the assessment process.
- b.** The service was not included in an individual treatment plan.
- c.** The client had a co-occurring substance use disorder.

B. Diagnosis Is Not a Prerequisite

1. Per BHIN 21-073, a mental health diagnosis is not a prerequisite for access to covered SMHS. This does not eliminate the requirement that all Medi-Cal claims, including SMHS claims, include a current Centers for Medicare & Medicaid Services (CMS)-approved ICD diagnosis code.

IV. MEDICAL NECESSITY

A. Contractor will ensure that any SMHS billable services provided are medically necessary in compliance with BHIN 21-073 and pursuant to California Welfare and Institutions Code section 14184.402(a). Services provided to a client must be medically necessary and clinically appropriate to address the client's presenting condition. Documentation in each client's chart as a whole will demonstrate medical necessity as defined below, based on the client's age at the time-of-service provision.

B. For individuals 21 years of age or older, a service is "medically necessary" or a "medical necessity" when it is reasonable and necessary to protect life, to prevent significant illness or significant disability, or to alleviate severe pain as set forth in California Welfare and Institutions Code section 14059.5.

- C. For individuals under 21 years of age, a service is “medically necessary” or a “medical necessity” if the service meets the standards set forth in Section 1396d(r)(5) of Title 42 of the United States Code (USC).

V. COORDINATION OF CARE

- A. Contractor shall ensure that all care, treatment and services provided pursuant to this Agreement are coordinated among all providers who are serving the client, including all other SMHS providers, as well as providers of Non-Specialty Mental Health Services (NSMHS), substance use disorder treatment services, physical health services, dental services, regional center services and all other services as applicable to ensure a client-centered and whole-person approach to services.
- B. Contractor shall ensure that care coordination activities support the monitoring and treatment of comorbid substance use disorder and/or health conditions.
- C. Contractor shall include in these care coordination activities, efforts to connect, refer and link clients to community-based services and supports, including but not limited to educational, social, prevocational, vocational, housing, nutritional, criminal justice, transportation, childcare, child development, family/marriage education, cultural sources, and mutual aid support groups.
- D. Contractor shall engage in care coordination activities beginning at intake and throughout the treatment and discharge planning processes.
- E. To facilitate care coordination, Contractor will request a Health Insurance Portability and Accountability Act (HIPAA) and California law compliant client authorization to share client information with and among all other providers involved in the client’s care, in satisfaction of state and federal privacy laws and regulations.

VI. CO-OCCURRING TREATMENT AND NO WRONG DOOR

- A. Per BHIN 22-011, SMHS and NSMHS can be provided concurrently, if those services are clinically appropriate, coordinated, and not duplicative. When a client meets criteria for both NSMHS and SMHS, the client should receive services based on individual clinical need and established therapeutic relationships. Clinically appropriate and covered SMHS can also be provided when the client has a co-occurring mental health condition and substance use disorder.
- B. Under this Agreement, Contractor will ensure that clients receive timely mental health services without delay. Services are reimbursable to Contractor by County even when:
 - 1. Services are provided prior to determination of a diagnosis, during the assessment or prior to determination of whether SMHS access criteria are met, even if the assessment ultimately indicates the client does not meet criteria for SMHS.
 - 2. If Contractor is serving a client receiving both SMHS and NSMHS, Contractor holds responsibility for documenting coordination of care and ensuring that services are non-duplicative.

placement stability or permanency.

Mobile response services provided include but are limited to:

1. Assessment:

The mobile response team will utilize a process for determining when a mobile response and stabilization team will be sent or when other services will be used, based on the urgent and critical needs of the caregiver, child, or youth. The mobile response team will assess the caregiver interventions and observe the child and caregiver interactions to gain clarity on what led to the situation of instability. However, a child or youth does not need to meet clinical criteria in order for the caregiver, child or youth to receive a mobile response through FURS.

The mobile response staff will identify the underlying causes of, and precursors to, the situation that led to the instability in an effort to diffuse the immediate situation and help maintain children and youth in their current living situations.

3. Coaching:

Mobile response staff work with the youth to help them identify and practice functional skills such as self-care, self-regulation, self-expression, and other behaviors that will decrease or replace target behaviors contributing to the crisis. Understanding the unmet need and the function of the presenting behavior, and then identifying equally effective alternatives to manage the presenting behavior, allows for safe and more effective skills to be taught, cued, and reinforced, ultimately replacing unsafe crisis behaviors.

4. Behavior Plan Creation:

Mobile response staff work with the youth and caregiver to identify and implement behavior plans that reinforce preferred behaviors demonstrated by the youth.

5. Caregiver Coaching and Support:

The long-term stability and success of a placement hinges on the mobile response team's ability to transfer crisis response skills to the youth and family. The team works to support the caregiver in increasing their capacity to understand and respond to the child's behaviors, as well as identifying ways for the caregiver to practice self-care and self-control techniques during times of distress. Mobile response staff provide training and modeling on techniques the caregiver can use, as well as coaching and feedback as the caregiver attempts these techniques themselves. Mobile response staff will also work with the caregiver and the child or youth to improve the trust and relationship between the child or youth and their caregiver in order to preserve the family unit and maintain the current living situation or create a healthy transition plan, if necessary.

B. Trauma-informed Services will be provided to current and former foster youth and their caregivers in a broad array of circumstances through the phone and in person response. Services provide a trauma-informed alternative for families who may have previously resorted to calling 911 or law enforcement for intervention. Trauma informed services provided include but are not limited to:

If the family already has a CFT in place, they may defer to the team to schedule this meeting. Probation and/or Behavioral Health shall be included in the CFT process as indicated. If no formal supports are currently present, identification of necessary referrals shall be a primary target of treatment.
 3. Identify additional support or ongoing stabilization needs for the family and develop a plan for, or referral to, appropriate youth and family supportive services within the county.
 4. Help caregiver, child and youth establish connections to other county- or community-based supports and services to ensure continuity of care, including, but not limited to, linkage to additional trauma-informed and culturally and linguistically responsive family supportive services and youth and family wellness resources.

The program includes behavior management interventions that focus on teaching self-management skills that children and adults and older adults may use to control their own lives, to deal effectively with present and future problems, and to function well with minimal or no additional therapeutic intervention. Activities include, but are not limited to, staff feedback to beneficiaries on strategies for symptom reduction, increasing adaptive behaviors, and reducing subjective distress.

The contacts should focus on the role of the support person in supporting the beneficiary's community reintegration. The Contractor shall ensure that this contact occurs outside hours of operation and outside the therapeutic program for day treatment intensive and day rehabilitation.

The Contractor shall not conduct these breaks toward the total hours of operation of the day program for purposes of determining minimum hours of service.

The total compensation over the three-year period cannot exceed 156 weeks (3 x 52 weeks).

(c) **Example No. 3:**

If during a single year agreement, John Doe works fifty weeks and used one week of vacation and one week of sick leave and all fifty-two weeks have been billed to DHCS, the remaining unused two weeks of vacation and seven days of sick leave may not be claimed as an allowable cost.

- b. Written confirmation of the suspension or stop work notification with directions as to what work (if not all) is to be suspended and how to proceed will be provided within 30 working days of the verbal notification. 6. Services Authority

A. The Mental Health Services Act Program

1) Program Description

Proposition 63, which created the Mental Health Services Act (MHSA), was approved by the voters of California on November 2, 2004. The Mental Health Services (MHS) Fund, which provides funds to counties for the implementation of its MHSA programs, was established pursuant to Welfare and Institutions Code section 5890. The MHSA was designed to expand California's public mental health programs and services through

Exhibit A
Program Specifications

funding received by a one percent tax on personal incomes in excess of \$1 million. Counties use this funding for projects and programs for prevention and early intervention, community services and supports, workforce development and training, innovation, plus capital facilities and technological needs through mental health projects and programs. The State Controller distributes MHS Funds to the counties to plan for and provide mental health programs and other related activities outlined in a county's three-year program and expenditure plan or annual update. MHS Funds are distributed by the State Controller's Office to the counties on a monthly basis.

DHCS shall monitor County's use of MHS Funds to ensure that the County meets the MHSA and MHS Fund requirements. (Gov. Code §§ 11180-11182; Welf. & Inst. Code, §§ 5651, subd. (b)(10), 5897, subd. (d), & 14124.2, subd. (a).)

2) Issue Resolution Process

County shall have an Issue Resolution Process (Process) to handle client disputes related to the provision of their mental health services. The Process shall be completed in an expedient and appropriate manner. County shall develop a log to record issues submitted as part of the Process. The log shall contain the date the issue was received; a brief synopsis of the issue; the final issue resolution outcome; and the date the final issue resolution was reached.

3) Revenue and Expenditure Report

County shall submit its Revenue and Expenditure Report (RER) electronically to the Department and the Mental Health Services Oversight and Accountability Commission by January 31 following the close of the fiscal year in accordance with Welfare and Institutions Code sections 5705 and 5899, regulations, and DHCS-issued guidelines. The RER shall be certified by the County's Behavioral Health Director (also referred to as "mental health director"), using the DHCS-issued certification form (DHCS Form 1820). Data submitted shall be full and complete. If the RER does not meet the requirements, in accordance with the procedure in section 9 of this Agreement, DHCS may withhold payments from the MHS Fund until the County submits a complete RER. (Welf. & Inst. Code, §§ 5655; Cal. Code Regs., tit. 9, § 3510, subd. (a).)

4) Distribution and Use of Local Mental Health Services Funds:

- a. Welfare and Institutions Code section 5891, subdivision (c), provides that commencing July 1, 2012, on or before the 15th day of each

Exhibit A
Program Specifications

month, pursuant to a methodology provided by DHCS, the State Controller shall distribute to County's Local Mental Health Services Fund (MHS Fund) (established by County pursuant to Welfare and Institutions Code section 5892, subdivision (f)) all unexpended and unreserved funds on deposit as of the last day of the prior month in the Mental Health Services Fund for the provision of specified programs and other related activities.

- b. The expenditure for Prevention and Early Intervention (PEI) may be increased by County if DHCS determines that the increase will decrease the need and cost for additional services to severely mentally ill persons in County by an amount at least commensurate with the proposed increase. (Welf. & Inst. Code, § 5892, subd. (a)(4).)

Local MHS Fund money distributed to counties by the State Controller's Office includes funding for annual planning costs pursuant to Welfare and Institutions Code section 5848. The total of these costs shall not exceed five percent of the total annual revenues received for the Local MHS Fund. The planning costs shall include money for County's mental health programs to pay for the costs of having consumers, family members, and other stakeholders participate in the planning process, and for the planning and implementation required for private provider contracts to be expanded to provide additional services. (Welf. & Inst. Code, § 5892, subd. (c).)

- c. County shall use Local MHS Fund monies to pay for those portions of the mental health programs/services for children and adults for which there is no other source of funds available. (Welf. & Inst. Code, §§ 5813.5, subd. (b), 5878.3 subd. (a); Cal. Code Regs., tit. 9, § 3610, subd. (d).)
- d. County shall only use Local MHS Funds to expand mental health services. These funds shall not be used to supplant existing State or County funds utilized to provide mental health services. These funds shall only be used to pay for the programs authorized in Welfare and Institutions Code sections 5890 and 5892. These funds may not be used to pay for any other program and may not be loaned to County's general fund or any other County fund for any purpose. (Welf. & Inst. Code, § 5891, subd. (a).)
- e. All expenditures for County mental health programs shall be consistent with a currently approved three-year program and expenditure plan or

Program Specifications

annual update pursuant to Welfare and Institutions Code section 5847. (Welf. & Inst. Code, §§ 5891, subd. (d), 5892, subd. (g).)

County shall prepare and submit a three-year program and expenditure plan, and annual updates, adopted by County's Board of Supervisors, to the Mental Health Services Oversight and Accountability Commission (MHSOAC) and DHCS within 30 calendar days after adoption. (Welf. & Inst. Code, § 5847, subd. (a).) The three-year program and expenditure plan and annual updates shall include all of the following:

(Welf. & Inst. Code, § 5847, subd. (b)(2).)

(Welf. & Inst. Code, § 5847, subd. (b)(7).)
 - viii. Certification by County's Behavioral Health Director, which ensures that County has complied with all pertinent regulations, laws, and statutes of the MHSA, including stakeholder participation and non-supplantation requirements. (Welf. & Inst. Code, § 5847, subd. (b)(8).)

The expenditure update shall also include utilization of unspent funds allocated in the previous year and the proposed expenditure for the same purpose. (Welf. & Inst. Code, § 5847, subd. (e).)
- d. County's three-year program and expenditure plan and annual updates shall include reports on the achievement of performance outcomes for services provided pursuant to the Adult and Older Adult Mental Health System of Care Act, Prevention and Early Intervention, and the Children's Mental Health Services Act, which are funded by the Local MHS Fund and established jointly by DHCS and the MHSOAC, in collaboration with the County Behavioral Health Directors Association of California. (Welf. & Inst. Code, § 5848, subd. (c).) County contracts with providers shall include the performance goals from the County's three-year program and expenditure plan and annual updates that apply to each provider's programs and services.

There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release.
- g. **User IDs and Password Controls.** All users must be issued a unique user name for accessing DHCS PSCI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password, at maximum within 24 hours. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed every 90 days, preferably every 60 days. Passwords must be changed if revealed or compromised. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If DHCS PSCI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.
- l. **Access Controls.** The system providing access to DHCS PSCI must use role based access controls for all user authentications, enforcing the principle of least privilege.
- m. **Transmission encryption.** All data transmissions of DHCS PSCI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing PSCI can be encrypted. This requirement pertains to any type of PSCI in motion such as website access, file transfer, and E-Mail.
- n. **Intrusion Detection.** All systems involved in accessing, holding, transporting, and protecting DHCS PSCI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

3) Audit Controls

- ii) Any action pertaining to such unauthorized disclosure required by applicable Federal and State laws and regulations.

- b. **Investigation and Investigation Report.** To immediately investigate such suspected security incident, security incident, breach, or unauthorized access, use or disclosure of PHI . Within 72 hours of the discovery, Contractor shall submit an updated "Privacy Incident Report" containing the information marked with an asterisk and all other applicable information listed on the form, to the extent known at that time, to the Information Protection Unit.
- c. **Complete Report.** To provide a complete report of the investigation to the Department Program Contract Manager and the Information Protection Unit within ten (10) working days of the discovery of the breach or unauthorized use or disclosure. The report shall be submitted on the "Privacy Incident Report" form and shall include an assessment of all known factors relevant to a determination of whether a breach occurred under applicable provisions of HIPAA, the HITECH Act, and the HIPAA regulations. The report shall also include a full, detailed corrective action plan, including information on measures that were taken to halt and/or contain the improper use or disclosure. If the Department requests information in addition to that listed on the "Privacy Incident Report" form, Contractor shall make reasonable efforts to provide the Department with such information. If a breach involves more than 500 California residents, Contractor shall also provide, after obtaining written prior approval of DHCS, notice to the Attorney General for the State of California, Privacy Enforcement Section. If Contractor has reason to believe that duplicate reporting of the same breach or incident may occur because its subcontractors, agents or vendors may report the breach or incident to the Department in addition to Contractor, Contractor shall notify the Department, and the Department and Contractor may take appropriate action to prevent duplicate reporting.

- e. **Responsibility for Notification of Affected Individuals.** If the cause of a breach of Department PHI is attributable to Contractor or its agents, subcontractors or vendors and notification of the affected individuals is required under state or federal law, Contractor shall bear all costs of such notifications as well as any costs associated with the breach. The Department will provide its review and approval expeditiously and without unreasonable delay.
- f. **Department Contact Information.** To direct communications to the above referenced Department staff, the Contractor shall initiate contact as indicated herein.  - a. **Initial Notice to the Department.** (1) To notify the Department **immediately by telephone call or email or fax** upon the discovery of a breach of unsecured Department PI or PII in electronic media or in any other media if the PI or PII was, or is reasonably believed to have been, accessed or acquired

by an unauthorized person, or upon discovery of a suspected security incident involving Department PII. (2) To notify the Department **within one (1) hour by email or fax** if the data is data subject to the SSA Agreement; and **within 24 hours by email or fax** of the discovery of any suspected security incident, intrusion or unauthorized access, use or disclosure of Department PI or PII in violation of this Agreement or this Exhibit E-1 or potential loss of confidential data affecting this Agreement. A breach shall be treated as discovered by Contractor as of the first day on which the breach is known, or by exercising reasonable diligence would have been known, to any person (other than the person committing the breach) who is an employee, officer or other agent of Contractor.

- b. Notice shall be provided to the Information Protection Unit, Office of HIPAA Compliance. EXHIBIT E-3

Miscellaneous Terms and Conditions

Applicable to Exhibit E

- 1) **Disclaimer.** The Department makes no warranty or representation that compliance by Contractor with this Exhibit E, HIPAA or the HIPAA regulations will be adequate or satisfactory for Contractor's own purposes or that any information in Contractor's possession or control, or transmitted or received by Contractor, is or will be secure from unauthorized use or disclosure. Contractor is solely responsible for all decisions made by Contractor regarding the safeguarding of the Department PHI, PI and PII.

- 2) **Amendment.** The parties acknowledge that federal and state laws relating to electronic data security and privacy are rapidly evolving and that amendment of this Exhibit E may be required to provide for procedures to ensure compliance with such developments. The parties specifically agree to take such action as is necessary to implement the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and federal laws. Upon either party's request, the other party agrees to promptly enter into negotiations concerning an amendment to this Exhibit E embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and federal laws. The Department may terminate this Agreement upon thirty (30) days written notice in the event:
 - a) Contractor does not promptly enter into negotiations to amend this Exhibit E when requested by the Department pursuant to this section; or
 - b) Contractor does not enter into an amendment providing assurances regarding the safeguarding of Department PHI that the Department deems is necessary to satisfy the standards and requirements of HIPAA and the HIPAA regulations.

- 3) **Judicial or Administrative Proceedings.** Contractor will notify the Department if it is named as a defendant in a criminal proceeding for a violation of HIPAA or other security or privacy law. The Department may terminate this Agreement if Contractor is found guilty of a criminal violation of HIPAA. The Department may terminate this Agreement if a finding or stipulation that the Contractor has violated any standard or requirement of HIPAA, or other security or privacy laws is made in any administrative or civil proceeding in which the Contractor is a party or has been joined.

DHCS will consider the nature and seriousness of the violation in deciding whether or not to terminate the Agreement.

- 4) **Assistance in Litigation or Administrative Proceedings.** Contractor shall make itself and any subcontractors, employees or agents assisting Contractor in the performance of its obligations under this Agreement, available to the Department at no cost to the Department to testify as witnesses, or otherwise, in the event of litigation or administrative proceedings being commenced against the Department, its directors, officers or employees based upon claimed violation of HIPAA, or the HIPAA regulations, which involves inactions or actions by the Contractor, except where Contractor or its subcontractor, employee or agent is a named adverse party.
- 5) **No Third-Party Beneficiaries.** Nothing express or implied in the terms and conditions of this Exhibit E is intended to confer, nor shall anything herein confer, upon any person other than the Department or Contractor and their respective successors or assignees, any rights, remedies, obligations or liabilities whatsoever.
- 6) **Interpretation.** The terms and conditions in this Exhibit E shall be interpreted as broadly as necessary to implement and comply with HIPAA, the HITECH Act, and the HIPAA regulations. The parties agree that any ambiguity in the terms and conditions of this Exhibit E shall be resolved in favor of a meaning that complies and is consistent with HIPAA, the HITECH Act and the HIPAA regulations, and, if applicable, any other relevant state and federal laws.
- 7) **Conflict.** In case of a conflict between any applicable privacy or security rules, laws, regulations or standards the most stringent shall apply. The most stringent means that safeguard which provides the highest level of protection to PHI, PI and PII from unauthorized disclosure. Further, Contractor must comply within a reasonable period of time with changes to these standards that occur after the effective date of this Agreement.
- 8) **Regulatory References.** A reference in the terms and conditions of this Exhibit E to a section in the HIPAA regulations means the section as in effect or as amended.
- 9) **Survival.** The respective rights and obligations of Contractor under Section 3, Item D of Exhibit E-1, and Section 3, Item B of Exhibit E-2, Responsibilities of Contractor, shall survive the termination or expiration of this Agreement.

- 10) **No Waiver of Obligations.** No change, waiver or discharge of any liability or obligation hereunder on any one or more occasions shall be deemed a waiver of performance of any continuing or other obligation, or shall prohibit enforcement of any obligation, on any other occasion.
- 11) **Audits, Inspection and Enforcement.** From time to time, and subject to all applicable federal and state privacy and security laws and regulations, the Department may conduct a reasonable inspection of the facilities, systems, books and records of Contractor to monitor compliance with this Exhibit E. Contractor shall promptly remedy any violation of any provision of this Exhibit E. The fact that the Department inspects, or fails to inspect, or has the right to inspect, Contractor's facilities, systems and procedures does not relieve Contractor of its responsibility to comply with this Exhibit E. The Department's failure to detect a non-compliant practice, or a failure to report a detected non-compliant practice to Contractor does not constitute acceptance of such practice or a waiver of the Department's enforcement rights under this Agreement, including this Exhibit E.
- 12) **Due Diligence.** Contractor shall exercise due diligence and shall take reasonable steps to ensure that it remains in compliance with this Exhibit E and is in compliance with applicable provisions of HIPAA, the HITECH Act and the HIPAA regulations, and other applicable state and federal law, and that its agents, subcontractors and vendors are in compliance with their obligations as required by this Exhibit E.
- 13) **Term.** The Term of this Exhibit E-1 shall extend beyond the termination of the Agreement and shall terminate when all Department PHI is destroyed or returned to the Department, in accordance with 45 CFR Section 164.504(e)(2)(ii)(I), and when all Department PI and PII is destroyed in accordance with Attachment A.
- 14) **Effect of Termination.** Upon termination or expiration of this Agreement for any reason, Contractor shall return or destroy all Department PHI, PI and PII that Contractor still maintains in any form, and shall retain no copies of such PHI, PI or PII. If return or destruction is not feasible, Contractor shall notify the Department of the conditions that make the return or destruction infeasible, and the Department and Contractor shall determine the terms and conditions under which Contractor may retain the PHI, PI or PII. Contractor shall continue to extend the protections of this Exhibit E to such Department PHI, PI and PII, and shall limit further use of such data to those purposes that make the return or destruction of such data infeasible. This provision shall apply to Department PHI, PI and PII that is in the possession of subcontractors or agents of Contractor.

Attachment A

1. Personnel Controls

- A. **Employee Training.** All workforce members who assist in the performance of functions or activities on behalf of the Department, or access or disclose Department PHI or PI must complete information privacy and security training, at least annually, at Contractor's expense. Each workforce member who receives information privacy and security training must sign a certification, indicating the member's name and the date on which the training was completed. These certifications must be retained for a period of six (6) years following termination of this Agreement.
- B. **Employee Discipline.** Appropriate sanctions must be applied against workforce members who fail to comply with privacy policies and procedures or any provisions of these requirements, including termination of employment where appropriate.
- C. **Confidentiality Statement.** All persons that will be working with Department PHI or PI must sign a confidentiality statement that includes, at a minimum, General Use, Security and Privacy Safeguards, Unacceptable Use, and Enforcement Policies. The statement must be signed by the workforce member prior to access to Department PHI or PI. The statement must be renewed annually. The Contractor shall retain each person's written confidentiality statement for Department inspection for a period of six (6) years following termination of this Agreement.
- D. **Background Check.** Before a member of the workforce may access Department PHI or PI, a background screening of that worker must be conducted. The screening should be commensurate with the risk and magnitude of harm the employee could cause, with more thorough screening being done for those employees who are authorized to bypass significant technical and operational security controls. The Contractor shall retain each workforce member's background check documentation for a period of three (3) years.

2. Technical Security Controls

- A. **Workstation/Laptop encryption.** All workstations and laptops that store Department PHI or PI either directly or temporarily must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as Advanced Encryption Standard (AES). The encryption solution must be full disk unless approved by the Department Information Security Office.

- B. **Server Security.** Servers containing unencrypted Department PHI or PI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
- C. **Minimum Necessary.** Only the minimum necessary amount of Department PHI or PI required to perform necessary business functions may be copied, downloaded, or exported.
- D. **Removable media devices.** All electronic files that contain Department PHI or PI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, Blackberry, backup tapes etc.). Encryption must be a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES.
- E. **Antivirus software.** All workstations, laptops and other systems that process and/or store Department PHI or PI must install and actively use comprehensive anti-virus software solution with automatic updates scheduled at least daily.
- F. **Patch Management.** All workstations, laptops and other systems that process and/or store Department PHI or PI must have critical security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release. Applications and systems that cannot be patched within this time frame due to significant operational reasons must have compensatory controls implemented to minimize risk until the patches can be installed. Applications and systems that cannot be patched must have compensatory controls implemented to minimize risk, where possible.
- G. **User IDs and Password Controls.** All users must be issued a unique user name for accessing Department PHI or PI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Passwords must be at least eight characters and must be a non-dictionary word. Passwords must not be stored in readable format on the computer. Passwords must be changed at least every 90 days, preferably every 60 days. Passwords must be changed if revealed or compromised. Passwords must be composed of characters from at least three of the following four groups from the standard keyboard:
 - 1) Upper case letters (A-Z)
 - 2) Lower case letters (a-z)
 - 3) Arabic numerals (0-9)

- 4) Non-alphanumeric characters (punctuation symbols)
- H. **Data Destruction.** When no longer needed, all Department PHI or PI must be wiped using the Gutmann or US Department of Defense (DoD) 5220.22-M (7 Pass) standard, or by degaussing. Media may also be physically destroyed in accordance with NIST Special Publication 800-88. Other methods require prior written permission of the Department Information Security Office.
- I. **System Timeout.** The system providing access to Department PHI or PI must provide an automatic timeout, requiring re-authentication of the user session after no more than 20 minutes of inactivity.
- J. **Warning Banners.** All systems providing access to Department PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.
- K. **System Logging.** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for Department PHI or PI, or which alters Department PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. If Department PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.
- L. **Access Controls.** The system providing access to Department PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.
- M. **Transmission encryption.** All data transmissions of Department PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing Department PHI can be encrypted. This requirement pertains to any type of Department PHI or PI in motion such as website access, file transfer, and E-Mail.
- N. **Intrusion Detection.** All systems involved in accessing, holding, transporting, and protecting Department PHI or PI that are accessible via the Internet must be protected by a comprehensive intrusion detection and revention solution.

3. Audit Controls

- A. **System Security Review.** Contractor must ensure audit control mechanisms that record and examine system activity are in place. All systems processing and/or storing Department PHI or PI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews should include vulnerability scanning tools.
- B. **Log Reviews.** All systems processing and/or storing Department PHI or PI must have a routine procedure in place to review system logs for unauthorized access.
- C. **Change Control.** All systems processing and/or storing Department PHI or PI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

4. Business Continuity / Disaster Recovery Controls

- A. **Emergency Mode Operation Plan.** Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of Department PHI or PI held in an electronic format in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than 24 hours.
- B. **Data Backup Plan.** Contractor must have established documented procedures to backup Department PHI to maintain retrievable exact copies of Department PHI or PI. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and an estimate of the amount of time needed to restore Department PHI or PI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of Department data.

5. Paper Document Controls

- A. **Supervision of Data.** Department PHI or PI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. Department PHI or PI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.

- B. **Escorting Visitors.** Visitors to areas where Department PHI or PI is contained shall be escorted and Department PHI or PI shall be kept out of sight while visitors are in the area.
- C. **Confidential Destruction.** Department PHI or PI must be disposed of through confidential means, such as cross cut shredding and pulverizing.
- D. **Removal of Data.** Only the minimum necessary Department PHI or PI may be removed from the premises of the Contractor except with express written permission of the Department. Department PHI or PI shall not be considered "removed from the premises" if it is only being transported from one of Contractor's locations to another of Contractor's locations.
- E. **Faxing.** Faxes containing Department PHI or PI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending the fax.
- F. **Mailing.** Mailings containing Department PHI or PI shall be sealed and secured from damage or inappropriate viewing of such PHI or PI to the extent possible. Mailings which include 500 or more individually identifiable records of Department PHI or PI in a single package shall be sent using a tracked mailing method which includes verification of delivery and receipt, unless the prior written permission of the Department to use another method is obtained.
