Funding Summary	<p>Madison Fire Protection District's goal for the funding is to building an additional apparatus bay. The new apparatus bay will be a metal building built on a reinforced concrete slab to support the weight of fire apparatus. The size will be 40' x 40' with large roll up doors that will allow all our fire apparatus to be able to park inside. The project will provide protection for fire apparatus and equipment that is currently being stored outside in the weather and unsecured, It will provide an area for training, improve response times and will have an additional restroom with a shower for firefighters. Don't hesitate to reach out with any questions, we are also available for a tour of the project site and can explain in more detail.</p> <p>If additional funds are needed to complete the project, the district has funds sit a side in our reserve account to complete the project. Any funds that are left over from this project will be used for replacing outdate firefighter PPE and lifesaving equipment.</p>
