TO: Yolo County Board of Supervisors

SUBJECT: Public Comment.

I make this comment representing myself, and neither indicate nor imply that these comments represent those of Woodland Television, my employer, or its Board of Directors.

I wish to express my exception to a statement made by a member of this board on Nov 5, 2024, election day, that a particular person on the ballot for election to an office would be assuming that office soon. This statement was made in the morning, while the polls were still open!!

I wish to caution the supervisors against such statements that could be misread as to how the outcome of an election is determined. This was probably intended to be predictive, but should have been expressed that way.
