

Supplemental Grant Proposal Questionnaire

1. Is your program/service designed to be a pilot, short-term, or long-term program/service? Will your program/service be self-sustaining after the completion of CCP funding or will it require continued support, and if the latter, how do you anticipate supporting the sustainability of the program/service?
2. Are the programs/services you propose evidence-based, designed around best-practice, or designed around promising-practice? If so, please provide more detail explaining how the programs/services are evidence-based, best-practice, or promising-practice?
3. Attachment 4 of the Draft Funding Award Agreement outlines expected reporting and performance measures. How will your organization measure performance for the proposed programs/services?
4. If you were awarded less money, could you scale down your programs/services? Please provide a budget that aligns with a scaled down version of your programs/services.
