RE: Request for Fee Waiver on Madison Fire Protection District New Building

Ms. Lindbo

The Madison Fire Protection District is building a 70 x 40 Apparatus Bay at the Madison Fire Protection District Station located at 17880 Stephens Street in Madison. This project will improve response times and services that we provide to the community of Madison and throughout Yolo County. We have begun the process to obtain the proper approvals from Yolo County for a permit to build a pre-fab metal building on our property. I recently became aware that Yolo County has waived fees for other Yolo County Fire Districts on projects and the Madison Fire Protection District respectfully requests that Yolo County waive the fees associated with our project. I thank you for your time and consideration of our request.

Respectfully,

Paul Green  
Fire Chief
