Hello Supervisor Oscar Villegas, Supervisor Lucas Frerichs, Supervisor Mary Vixie Sandy, Supervisor Sheila Allen, and Supervisor Angel Barajas, this email is a follow-up to Butte County resident/VAERSAware.com Lead Investigator Julie Threet's email, her public comment tomorrow, and my August 27, 2024, public comment before Yolo County BOS meeting on August 27, 2024. (Click/touch on this <<http://yolocountyca.swagit.com/play/08272024-501/#0>> link and scroll to the 1:48 mark to review my two minutes and 9 seconds comments).

COVID-19 vaccines are killing people at an alarming rate.

To that extent, I'm re-sending you a copy of my July 29, 2024, email/PDF attachment, which I initially sent to Yolo County BOS last year.

Click/touch on this <<https://muzzledtruth.com/wp-content/uploads/2024/08/729-COVID-19-CA-Shot-Warning.pdf>> 7/29 CA's 57 Other Boards of Supervisors COVID-19 Shot Warning link to read the copy.

Also embedded is this <<https://muzzledtruth.com/wp-content/uploads/2024/12/COVID-19-Shot-Warning-Update.pdf>> "Week of 12/9/24 CA's 58 Boards of Supervisors COVID-19 Shot Warning Update," which I also emailed Yolo County BOS last year.

This exigent situation compels me to candidly state that more people are realizing COVID-19 shots are essentially poison—injuring and

killing millions of men, women, boys, and girls throughout the United States—and around the world. It's very alarming and saddening.

Due to the alarming COVID-19 vaccine injury and death statistics cited in both documents, I urge Yolo County BOS to direct your County Health Officer to stop promoting, administering, and distributing COVID-19 vaccines.

To learn more about Julie and my California Department of Public Health (CDPH) whistleblower story click/touch on this <<https://www.podchaser.com/podcasts/the-bassline-14206/episodes/the-bassline-episode-95-254917554>> link to listen to The Bassline Episode 95, released on June 6, 2025.

For more background about my CDPH whistleblower story, former CBS News correspondent/current broadcast investigative journalist Sharyl Attkisson also interviewed me. Click/touch on this <<https://open.spotify.com/episode/3Bti3cq6sYluEQEh31ZotK>> link to listen to the more than 30-minute dateline April 10, 2025, podcast. Thank you.

The bottom line is this: I would not have prematurely retired from CDPH, incurred a 55 percent pay cut (the difference between my salary and pension), twice provide written notification to California's 58 BOS, rode (to date) 9,241 miles on my Can-Am Spyder motorcycle and spoke at 39 BOS meetings if I wasn't convinced that COVID-19 vaccines are killing people.
